OF YEAR U.S. WITH RESURPLUS

ury's Balance At
Of FirstHalfOf
al Year Placed
Over \$218,000,000

ne Tax Helps Swell Coffers

Debt Reduced
re Than Billion
ars, Is Report

WASHINGTON, Jan. 4.—The Treasury ended the first half of its fiscal year with a surplus of \$218,279,000 compared with \$125,597,000 for the same period a year ago.

Income tax and customs receipts flowing in during the quarter in increasing amounts accounted for most of the gain. During the year ended Dec. 31, the Treasury reduced the debt by \$1,173,504,301 to \$19,074,955,337. Of this \$14,353,900 was accounted for by the first receipts for the first quarter of the present fiscal year amounting to \$18,817,857.

With \$22,821,816 a year ago and \$48,431,293 was from customs in December, \$290,000 more than last year.

Income tax collections for the first six months of the year were \$1,046,840,050 with \$855,789,815 a year ago. December receipts were \$459,228,919.

Reports to the veterans' bureau, which under the law, must make all unpaid loans good to the banks, indicate that about one-half of the banks are accepting the insurance loans certified as security for loans.

Secretary Mellon and Director Hines of the veterans' bureau called attention to the sound basis represented in the sound basis of the Federal Reserve Bank at Kansas City, expressed the opinion that any additional legislation may be necessary to set up machinery to handle the loans.

Employees Now Run Bradenton Paper

BRADENTON, Fla., Jan. 4.—(AP)—The Tri-City Morning News, Bradenton's morning newspaper, was taken over by employees of the publication of this morning's issue and is being published under the name of the Manatee River News, according to an announcement appearing on the front page of today's issue. A. S. Hough is editor and a board of managers composed of Mr. Hough, J. W. Kay, E. L. Smith, E. H. Kehoe and D. M. Sticker are in control of the publication.

LOAN REFUSAL ON CERTIFICATES OF VETS CAUSES STIR

Plans For Relief Of Soldiers
Having Bonus Certificates
Made In Washington Where
Hines And Mellon Take Lead

WASHINGTON, Jan. 4.—(AP)—Widespread refusal of banks to make loans on soldiers' bonus certificates which acquired a loan value for the first time Jan. 1, has stirred up a small-sized rebellion in veterans' ranks, and plans for relief have already been laid on the doorstep of congress.

Secretary Mellon and Director Hines of the veterans' bureau called attention to the sound basis represented in the sound basis of the Federal Reserve Bank at Kansas City, expressed the opinion that any additional legislation may be necessary to set up machinery to handle the loans.

Reports from Norfolk, Va., were to the effect that bankers were declining such loans on the ground that they would be unprofitable. They were represented as being skeptical because of the form in which applications for loans must be made, and possible delays surrounding applications for loans must be made, and possible delay surrounding collection from the government should the bonus holders fail to meet payments.

Cecil Arden Concert Be At Woman's Club

The Cecil Arden concert, to be given next Monday night under the auspices of the Music Department of the Woman's Club and scheduled for the City Hall auditorium will be held at the Woman's Club, according to an announcement today.

Plot To "Fix" Federal Grand Jury In Hoffman's Trial Revealed To Officers

CHICAGO, Jan. 4.—(AP)—Confession of a plot to "fix" the federal grand jury which recently cleared former Sheriff Peter M. Hoffman and seven others in the Cook county jail scandal, put the government on the trail today of a liberty fund alleged to have totaled \$50,000 or more.

SMITH BID FOR PRESIDENCY IS CREATING STIR

Charles D. Hilles, Republican
Chairman, Belittles State
Executive's Power As Vote
Getter In National Contest

Smith's Supporters Frown On Early Boom

NEW YORK, Jan. 4.—(AP)—Presidential politics continued today to create somewhat of a stir. Reports that some supporters of Al Smith were making an active drive for delegates to the Democratic convention were followed by a Republican spokesman's statement belittling Smith's power as a vote getter. This statement came from Charles D. Hilles, Republican state chairman and national vice chairman.

LAKE BEGINS 5TH SUCCESSIVE YEAR AS CITY'S MAYOR

Sanford Chief Executive Re-
elected At Special Session
This Morning; Mayor Has
Been City Official 25 Years

Ferrat Lake, president of the Seminole County Bank, was elected Mayor of the City of Sanford for the fifth consecutive term today at the organization meeting of the City Commissioners in the City Hall. Mr. Lake has previously served as mayor of the city for 12 terms and is now entering his twenty-fifth year of service either as alderman or commissioner.

Legion Hut Closed As Recreation Hall After Post Meeting

The doors of the American Legion Hut, on Seminole Boulevard, were officially closed last night, to all affairs other than those sponsored by the Legion or its auxiliary, following a meeting in which reports on the condition of the Hut were made by several members, who stated that upon investigation of alleged tourist activities there, it was discovered that the privilege for which the Hut had been offered had been abused.

SPORTS

STAR PLAYERS SUMMONED TO LANDIS TRIAL

Invitations Sent Out By Baseball Commissioner To Red Faber, Eddie Collins, Donnie Bush And Clarence Dowling

Some Give Different Versions Of Story

Schalk Admits Donating \$45 To Tiger Pool As Well As Leibold, Former Outfielder

CHICAGO, Jan. 3.—(AP)—The baseball court of Commissioner Kenesaw E. Landis, former federal judge, is getting a crowded docket with a hearing of some more of the most famous players in the game set for next Wednesday.

Invitations were sent today for Eddie Collins, Ray Schalk, Red Faber, Donnie Bush, Clarence Rowland and about 30 others who were named in an affidavit given the commissioner Saturday night by Charles A. "Swede" Kibberg. He told Landis that the Chicago White Sox, with whom he used to play shortstop, fixed a four game series Sept. 2, and 3, 1917, said that Detroit would lay down in four games and give the Sox a better chance for the pennant.

Landis set Wednesday as the date for further investigation. Some of those Kibberg named as contributing \$45 each toward a present of about \$1,100 for the Detroit players, admitted raising the pool but gave a different version of its circumstances.

Everybody knows, said Nemo Leibold, Sox outfielder at the time, that the Chicago team gave Detroit that money for beating Boston in three games, Sept. 19 and 20, 1917, killing the Red Sox chances of winning the pennant from the White Sox. The Detroit pitchers were not hired to lay down for the Sox, he said.

Ray Schalk, the Sox new manager for 1927, admitted he gave his \$45 and told the same story as Leibold.

Rowland, who managed the White Sox that year and is now an American League umpire, denied any knowledge of the pool, and was the first to welcome the invitation of Landis to face Kibberg and his charges Wednesday morning.

Kibberg's two hour recital Saturday night was confirmed by frequent nods from George "Buck" Weaver, who played third base for the Sox then. Weaver did not contribute his \$45, Kibberg said, but gave Oscar Witt, Detroit outfielder, a handout.

Weaver spoke up to verify this, and added that he made it in the form of a Christmas present.

The Boston version of the situation, and toward the White Sox, was a direct question by Landis at the hearing Saturday night.

"When I first came into baseball," the commissioner said, "I heard that the Sox had raised a pool to pay the Detroit pitchers or players to beat Boston. Was that the way it was?"

"Yes," said Kibberg. "I never heard of that. The money was collected by myself and Chick Gandil (Sox first baseman) and was for paying the Detroit players to slough those two double-headers to us at Chicago on Labor day and the Sunday before. Rowland investigated the scheme, and he told me as he entered the dugout for the first game that everything was all fixed."

The Kibberg charges add to the determination of those members of Congress who have been urging a congressional investigation of baseball as a result of accusations which named Tris Speaker and Ty Cobb. Representative Kelly, of Pennsylvania, had started to set up a federal baseball commission of ten members whose duty would be to see that the game avoided the necessity of public washing of dirt up sleeves.

Big Ten Basketball Season Opens Tonight On Minneapolis Court

CHICAGO, Jan. 3.—(AP)—The Big Ten basketball season opens tonight at Minneapolis, with Minnesota and Illinois, two of the squads having more new players than almost any other in the conference, playing the curtain raiser.

At the same time three other Big Ten fives will be playing their last practice contest, all on the home floors. Chicago meets Iowa State, Northwestern plays a return game against Notre Dame, and Ohio State tackles Pitt.

Two of the four teams which tied for the conference title last winter, Iowa and Indiana, are of almost equal promise this winter, while Michigan and Purdue, the others of the quartette at the top in 1926, lack several of last winter's star-point winners.

Rickard Is Confident Of Getting Tunney To Fight Next September

NEW YORK, Jan. 3.—(AP)—Tex Rickard packed his grip for St. Louis today, assuring friends he would return with the contract of "Gus" Tunney for a world's heavyweight championship battle September at Yankee stadium.

Rickard departs tomorrow and Humbert J. Pugazy, who has entered into a race with the Madison Square Garden promoter for Tunney's signature, is expected to hit the same trail a day later. Since the champion has made it clear he seeks to settle the promoting duel as soon as possible, people here look for definite action before the end of the week.

Tunney already admits that Pugazy has made him a "very generous offer," while Rickard admits his price "will be plenty."

Boxing men close to Tex say he may go as high as \$750,000, the check he drew in favor of Jack Dempsey for the Sequel Centennial battle.

LONDON, Jan. 3.—(AP)—Dame Ellen Terry, 79, famous actress, is seriously ill from bronchitis at her home here.

SPEAKER LEAVES FIGHT IN HANDS OF HIS LAWYER

For First Time In His Life, Spoke Fights For Baseball Honor By Proxy; Ex-Pilot Of Tribe Leaves For Home

DETROIT, Jan. 3.—(AP)—A gray-haired fall player and a pink-skinned youngster met on a train Cleveland-bound from Detroit. One was Tristram Speaker, the dynamic manager who pulled Cleveland into second place in the American League last season only to follow the feat by the sudden announcement that he had played his last major league game. The other was the New Year, holding the file of Speaker, of Ty Cobb, of Smokey Joe Wood and, some said, baseball itself.

Speaker, accused of having figured in the throwing of a game so that a sure thing bet might be cashed by at least two other major league players of 1919, left his fight for exoneration in the hands of his lawyer.

But, was he or lost in the fight for vindication, Tris today is a Speaker no American League fan today would know. The weight of the "gray eagle" have been clipped. Lines like those that mark the face in the diamond, he traced for nearly a score of years mark his face. Tris is older.

Courage shines from the weary eyes that for years-traveling fly balls against the summer sun; but the fires, burned low.

But "Spide" today is not the Speaker who challenged umpires in decisions he thought were wrong, who threw his every energy into every minute of play, who led a team that "didn't have a chance" into the runner-up position in the 1926 American League race.

Some of his friends say with uncontrolled bitterness that a "brood-down" charges of Detroit Leonard, former teammate of Speaker in Boston and former pitcher for the Detroit Tigers, have broken the man generally regarded as next to Cobb, baseball's greatest ball player.

Speaker fights for his baseball honor for the first time by proxy. He has the job hits for Speaker.

Star Golfers Turning Toward Los Angeles For \$10,000 Tourney

LONG BEACH, Calif., Jan. 3.—(AP)—The "big guns" of the golfing world, professional and amateur, having found their range as a result of play in the Long Beach \$2,500 tournament, turned their eyes today towards the Los Angeles \$10,000 open starting next Friday.

Tommy Armour, professional of the Congressional Country Club, Washington, D. C., victor in the Long Beach event, which closed yesterday, collected \$750 and turned toward Los Angeles. The former English amateur champion emerged from the 54-hole grid with a gross card of 297.

MacDonald Smith of Great Neck, N. Y., showed his best card in the championship flight yesterday, but finished the three-day test with 211 for second place and \$500.

"W. J. Hill" Melhorn, former Chicago professional, who now claims New York as his home, tied with Al Watson of Grand Rapids, Mich., with 212 to divide third and fourth place honors.

U. S. Fliers Hop Off Today For Salvador

GUATEMALA CITY, Guatemala, Jan. 3.—(AP)—A short jump of 55 miles to San Jose, Guatemala, and then the 119 miles to San Salvador are the next stage ahead of the United States army good-will fliers. The five amphibian planes came down on the flying field here yesterday afternoon, completing the 283 miles from Salina Cruz, Mexico, in five hours and 35 minutes.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to greatest trouble. You can stop them now with Cromolin, an emulsified extract that is pleasant to take. Cromolin is a new medical discovery which relieves colds and coughs and breaks the inflamed membranes and inhibits germ growth.

Of all known drugs, cromolin is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat trouble. Cromolin contains, in addition to cromolin, other healing elements which soothe and heal the inflamed membranes and stop the excessive flow of mucus, while the cromolin goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Cromolin is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory ailments, and is excellent for handling up the victim after colds or flu. Women benefited in any cough or cold in any phase after taking according to directions. Ask your druggist. (Int.)

Lewis Risks Belt In Match With Big Munn

CHICAGO, Jan. 3.—(AP)—Ed Strickland Lewis has put up his \$10,000 winning belt, emblematic of the heavyweight wrestling championship for the victor in his match tonight with Wayne (Big) Munn.

Nearly two years ago Munn tossed Lewis out of the ring in Kansas City and claimed the title when Lewis was unable to appear for the third and deciding fall. Lewis broke his left arm last fall, forcing postponement of a match at Los Angeles with Joe Stecher, claimant of the title, and this will be the first severe test Lewis has given his arm since the accident.

MILTON—New canning factory may be established here.

Gar Wood To Make Bid For New Record

DETROIT, Jan. 3.—(AP)—Gar Wood, veteran speed-boat racer, said today he will attempt to set a new rail water record with his latest craft over the Biscayne Bay regatta course at Miami during the winter season.

The new Gar Jr., III, is being constructed at the factory of the "log cruiser" in the world, twin screw 500-horsepower Wood engine.

It also plan to take America IV and Miss A hydroplane, capable of 80-hour, and will attempt to water world's record. No been used in other than

MORE MILLIONS for your service

THE continued growth of Florida will require an estimated expenditure of more than \$3,800,000 during 1927 for additions, extensions and replacements to the Bell Telephone System throughout the State.

This follows closely the record-breaking telephone construction program of last year, which involved a gross expenditure of \$10,000,000, and similar work in 1925 costing \$5,000,000.

The lesser requirements for 1927 mean that the immediate demand for service has been met, and that the construction program this year will keep

pace with the growth of the State. The unprecedented growth of Florida made it necessary to construct new buildings and install new or enlarged telephone systems in sixteen cities during the past two years. This was a program which would ordinarily cover a period of five years or more.

It is now estimated that more than 17,000 new telephones will be added to the Bell System in Florida this year. The expansion of the service makes it more valuable to every user, and is further evidence of our confidence in the future growth and prosperity of this great State.

Bricklayers Of San Francisco Get Wage Boost In New Scale

SAN FRANCISCO, Jan. 1.—Bricklayers will receive a minimum of \$11 a day under the new wage scale fixed by the new board for the San Francisco building industry effective today. The General Contractors' Association agreed to accept the new scale. The old minimum for bricklayers was \$10.

New minimum rates for carpenters, painters and electrical workers were fixed at \$9 a day, a rise of a dollar, while iron workers and plasterers draw \$7.50, as compared with the old rates of \$6.50.

LABORERS generally received a 5 per cent increase from the old scale of \$4.50 to \$5.

Postal Business Of South On Increase

WASHINGTON, Jan. 1.—Postmaster General New announced that no action can be picked where increases in postal receipts for December were uniformly low.

For instance, he said, "the south is admittedly suffering from the effect of the low prices induced by an abnormally large crop. Yet, reports from postmasters fail to indicate that St. Nicholas gave that mailman a wide berth. It is true that Nashville, Jacksonville, and Oklahoma City, reported receipts approximately 10 per cent lower than for December of the preceding year, and that Dallas

Ex-Illinois Governor Tells Democrats To Seat Frank L. Smith

CHICAGO, Jan. 1.—The voters that guide the Democratic party have been warned by one of their own political faith that denial of the oath of a United States senator to Col. Frank Smith of Illinois "will be fatal to the party."

The prediction was made by Edward F. Dume, former Democratic governor of Illinois, who declared that such an act "would be the biggest blunder by the Democrats since the Civil War," and the death knell of state's rights.

The senator-elect should be given his oath and allowed to present his credentials, after which he could be regularly refused a seat by a two-thirds vote, Dume agreed. "Any other method, particularly in view of his appointment to a vacancy, will be fatal, in my judgment, to the Democratic party."

CHINESE ARMY OF FENG BENEFITED BY INSTRUCTION

Christianizing Of Many Of Illiterate Soldiers By A Corps Of Missionaries Is Start Of Their Efficiency

PEKING, Jan. 1.—(AP)—Marshal Feng Yu-shiang, the pride of the missionaries in China as an outstanding example of the Christian, undoubtedly has exerted a good influence upon the thousands of young men who have constituted his army.

Whether the amount of instruction he has been able to give them really has been implanted in their minds is uncertain. But his efforts at teaching his soldiers the rudiments of clean living and morality obviously have borne fruit.

Smoking, concubiny and dissolute habits of all sorts are taboos under the rigid rules enforced. The value of athletics and of bodily cleanliness has been emphasized. Industry and a desire for learning have been encouraged.

Motives of the purport that "He who will not work does not deserve to eat" and "Knowledge and industry are the roads to prosperity and happiness" were painted in large characters on walls and around the barracks.

The men were given religious training on mass and by baptism in the Christian faith. At the time of the battle between Peking and Tientsin, it resulted in Feng's evacuation of the capital, those troops, in whom therefore had no serious fighting, amazed foreigners and Chinese alike by their courage and the loyalty showed toward their officers.

Overdoing? Harry, Worry and Overwork Bring Heavy Strain

MODERN life throws a heavy burden on our body machinery. The eliminative organs, especially the kidneys, are apt to become sluggish. Retention of excess uric acid and other poisonous wastes often gives rise to a dull, languid feeling and, sometimes, to backaches and headaches. That the kidneys are not functioning perfectly is often shown by burning or scanty passage of secretions. More and more people are learning to quiet their kidneys by the beneficial use of Doan's Pills—a stimulant diuretic. Ask your neighbor!

York Banks Hold Big Fortune in Funds Which Have Never Been Claimed

Every possibility of a claimant exhausted.

The Seaman's Bank is one of many in New York all of which have similar accounts whose depositors have not been heard of in 20 years or more. After this lapse the accounts become "legally dormant," interest no longer is paid and the banks have use of the money, but not for individual gain.

Accounts From the Bowery.

Up the winding Bowery, in the twilight of the deserted, windowless Chinese, men of beatific smiles, hollow foreign women, pale, old-faced children. Such is the clientele of the Bowery Savings Bank, where the dormant accounts total \$100,000.

Once in this parade, said a bank official, was Mary Ellen, 70 years old. She had forgotten some of her accounts and was found to have \$12,000 deposited with the bank under four names.

New Aviation Class Opens At Pensacola

PENSACOLA, Fla., Jan. 1.—(AP)—A new class in aviation, composed of 41 officers of the Navy and Marine corps, and 31 enlisted men, today began the grind at the Naval Air station here from which some will be graduated full fledged pilots.

Records of the school shows that an average of only forty or fifty per cent of those who start the course are able to qualify as pilots.

The way to learn all about women is to get married and have your wife tell you about some of them.

Consider now ordering. Fertilizer for fall and winter application.

Shop Now Re-decorated

The remodeling of the florist shop, in the McClellan building, was started today and is expected to be completed in about two weeks, according to an announcement made by Stewart today.

Arrangements for the new interior were arranged by R. M. Bahns, who recently became affiliated with the Stewart shop following the departure of the late Mr. J. H. Jones, who was the proprietor of the shop for many years.

The new scheme of the ceiling is to be a soft, natural color, with a sub color of green. The ledger will separate the gold of the upper walls decorated lower panels, to harmonize with the color scheme.

Belasco Is Reported Resting Comfortably

NEW YORK, Jan. 2.—(AP)—David Belasco, 67, noted dramatist, who was severely injured in an automobile collision New Year's day, spent a comfortable night, and although he was reported as still very weak, improvement in his condition was evident.

Mr. Belasco suffered severely from shock when his automobile collided with another machine on Riverside Drive, Saturday night. He became delirious.

The handsome structure pictured above is the new \$350,000 Club-Hotel at Mount Plymouth. The formal opening on Wednesday, January 12, of this 700-room Club-Hotel will be the outstanding social event of the Winter Season.

The Story of Mount Plymouth

EDITOR'S NOTE: Mount Plymouth, Florida is located on the Sanford Mount Dora Highway, on the Atlantic Coast Line R. R. is 7 miles from Mount Dora, 13 miles from Sanford, 24 miles from Orlando. Mount Plymouth town is being developed by the Mount Plymouth Corporation whose executive offices are in Orlando, Florida. That this corporation is offered, financed and directed entirely by Central Florida business men is indeed a credit to this section.

To tell a complete story of Mount Plymouth in a five volume treatise would be no easy matter but to present a brief synopsis, as we will here, touching on the background and accomplishments and the future plans for Mount Plymouth is indeed an arduous task.

Why Mount Plymouth? To answer the question "Why Mount Plymouth?" is to answer the question "Why Golf?" Golf is now the universal and world-wide outdoor sport and has fascinated every enlightened nation of the earth for the past 470 years. It has contributed more to the health and good fellowship of the world than any other one thing man has done. It is clean, mild, invigorating; always set in nature's choicest surroundings and its roster invariably reflects the socially best in every community. Mount Plymouth is designed and is being developed as a golfer's true Paradise—the St. Andrews of America—a self contained and complete Municipality; with every known modern luxury and convenience; owned, managed and lived in by golfers and those who have found the homestead ideal. Its five thousand acres of rolling hills and sparkling lakes are divided into four sections; each section having a splendid 18-hole course; each course handled by a well known Golf Professional. Charlie Rowe, Premier Golf Professional of the country, who came direct from the famous Oakmont Country Club at Pittsburgh, is in charge of the new St. Andrews Course.

On the highest hill has been erected a \$350,000.00 Hotel-Club house, with the finest of rooms, magnificent ball rooms, spacious verandas, and all of the features constituting the ideal social center. This new Hotel-Club will indeed be the rendezvous of the social set. And in addition to golf, polo, trapshooting, sky shooting (both land and by airplane), all water sports, the best bass fishing and quail shooting in the South—and all this right at your door.

There will be no other community in the world like Mount Plymouth. The home owner in this unique center need no initiation fee to become a member. He pays no annual dues in this highly restricted club for 21 years. He becomes a member by purchasing a single home site, ranging in cost from \$650 to \$2000. What he saves in initiation fee and dues for 21 years (about \$2000.00) is twice or thrice the cost of the site. The safety and value of this investment is, therefore, obvious. Boulevards, Avenues and Driveways in the first section—known as the St. Andrews Section, are already completed. The water system, electric service, bridge, paths and telephone lines are being installed, and host of enthusiastic golfers now play the St. Andrews course daily.

Accessibility to Mount Plymouth is also unique reached from all directions over an fine motor roads as are found anywhere in the world. One of the slogans is "30 Minutes from 30 Towns"—and within 24 miles of the beautiful city of Orlando.

The Atlantic Coast Line Railway skirts the edge of Mount Plymouth for 2 1/2 miles and a station is being designed in keeping with the theme of this community.

The men behind the project are big men, successful men; they are golfers, and they know that the American golfer wants just what Mount Plymouth is offering—the absolutely ideal home for the golfer and for the home lover as well.

The foremost citizens of Central Florida are behind it. The men behind Mount Plymouth are men of wealth and standing, leaders in their respective communities, William Edwards, a Realtor, is President not only of Mount Plymouth, but of the Orange County Chamber of Commerce and the State Bank at Atoka. William Edwards needs no eulogy here, suffice to say that he is Central Florida's foremost citizen. Associated with Mr. Edwards in the Mount Plymouth enterprise as directors in the corporation are L. M. Aubrey, Mayor of the City of Orlando, Director of the Bank of Orange & Trust Co., Director of the Orlando Chamber of Commerce, and one of the most conservative and outstanding civic leaders in the entire state. Next comes Mr. I. W. Phillips, President of the Bank of Orange & Trust Co. of Orlando. Then there is Rayner F. Maguire, State Attorney, one of the most able attorneys in the South. Then there is W. D. Rogers another man who does big things, a director of the Orange Bank & Trust Co., and President of the Orlando Golfers Association, President of the Valdez Hotel, and the San Juan Motor Co. There is T. L. Casey, financial genius of Orange County and Secretary of the Southern Development Co. Lastly there is H. Carl Dunn, under whose immediate direction the Mount Plymouth development is being carried out. Mr. Dunn is President of the Orange County Investment Co., President of the Southern Development Co.; Vice-President of the Fidelity Title & Loan Company and developer of some of the most famous and successful subdivisions in this section. Mount Plymouth is Mr. Dunn's 51st development, he having 50 successful developments to his credit.

These men do not have to ask anyone to pass on their certificate of character and when they tell you what marvelous and stupendous development the future holds for Mount Plymouth it is so because they tell you so.

Hundreds of thousands of dollars have gone into development at Mount Plymouth during the past summer. The 1926 building program itself stupendous fades into an insignificant place when compared to the tremendous building program for 1927 recently announced.

We wish we were able to paint a word picture of Mount Plymouth that would enable the reader to catch a vision of this Wonderland. Nature has lavished her beauties there and made of it the Switzerland of Florida.

Standing on the hilltop in front of the beautiful Hotel and Club house you get a view of practically the entire first unit of the development. It is indeed an enchanting picture one that quickens the pulses of the artist and entices the golf devotee with an enthusiasm he never felt before. To the lover of nature the picture will appeal with a grip that will not let go.

A famous golf professional stated that in all of his experience, which has covered the best courses in two continents, never has he found a course that will equal the new St. Andrews course.

Can you see the picture? Here is what you see as you look across the gently rolling country in front of you. No less than ten pretty lakes nestling among the hills, around which the golf links wind and which are circled by broad and well constructed boulevards; all of these lined on both sides by newly planted water oaks. Under a stately pines in all of their virgin majesty and beauty, and over these great oaks whose spreading arms invite you to come and rest in the cool shade beneath them. In the immediate background there are many dignified homes, all substantial and of English architecture. Hundreds of skilled artisans are plying their trade on the many substantial homes and buildings now under construction. Well built clay roads smooth as a house floor that wind and wind through the property around lakes and hills for a distance of 18 miles are all there. Symmetrical young orange trees are growing everywhere and shrubs and flowers and greens make this perfect picture beyond compare.

Surrounded by rich back country Mount Plymouth has a particular appeal on account of the rich agricultural back country which will serve to bring prosperity to the whole community.

On the one side lies Sanford with the center of the citrus production and on the opposite side lies Winter Garden the richest producing area of its size in the world. Adjoining Mount Plymouth the Lake County Citrus groves are being developed with an ultimate area of 12000 acres to be put into groves. Already nearly 1600 acres are planted and thriving. This one development will bring enormous wealth to the community as this area is practically immune to frost and the land is admirably adapted to citrus location.

EXCELLENT LOCATION

The peculiar high dry location of Mount Plymouth also offers an unusual variety of soil products. Here we find watermelons, cantaloupes, cucumbers, beans, peppers, parsnips, guavas, lettuce and cabbage, as well as all kinds of citrus and field crops.

Poultry farming is becoming more important year by year and with the demand increasing every year this a source of immense income for this industry may be expected to become a real factor in this section. Dairying is just getting a good start and recent fencing laws will change this section from open range country to a real settled dairy community, and it will be all the easier since this area is already practically free from ticks.

Bulbs and ferns are being raised very profitably and grapes are fast becoming important.

MANY ADVANTAGES

In addition to agricultural there is the promise of manufacturing profit. There is an ample lumber output now to permit furniture making, and there are also valuable deposits of kaolin, Diatomite and other clays and sands, some already being worked and others under process of development. With these advantages added to the wonderful year-round comfort of living offered by the elevation and nearby lakes it is easy to understand why Mount Plymouth has an especial appeal in all who visit there, and why the present development program will continue to grow larger and locate here the central city of interest for the whole region. Thirty minutes from 30 towns, and the other advantages listed above means that it is only a question of a short time when Mount Plymouth will become a real city of importance, as well as the golf center that prompted its inception.

The enormous sale of property at Mount Plymouth has been made possible by the effective sales organization which is headed by A. F. Phillips, Sr., as National Sales Director, with Walter A. Dunn, assistant sales director. Both Mr. Phillips and Mr. Dunn are realtors. Mount Plymouth now has offices in most every town of major importance throughout the east and representatives of Mount Plymouth can be found in hundreds of other towns over the entire country.

Central Florida and even the entire state have been advertised extensively by the Mount Plymouth Corporation throughout the North. Thousands of people have come to Florida and hundreds have visited the Sunshine state as members of one of the special Florida parties that the Mount Plymouth Corporation run from Boston and New York on regular schedule.

Cast aside your cares, grasp your clubs and drive out to the Pleasure City.

See where nature's Wonderland has been transformed into a Paradise for the Sportsman and the home lover.

FLORIDA TO SEAT ONE NEW STATE OFFICIAL TODAY

R. H. Eaton On Monticello to Assume Duties On Florida Railroad Commission Successor R. Hudson Burr

TALLAHASSEE, Fla., Jan. 4.—Florida, today, will inaugurate a new state official, R. H. Eaton, on the Florida Railroad Commission, today, at Monticello, Fla.

Under the law, commissioners are elected on the first Tuesday after the first Monday of January which, this year, falls on today.

The state officer is R. H. Eaton, of Monticello. Mr. Eaton is the successor of R. Hudson Burr, of Monticello, who resigned from the Florida Railroad Commission in 1925.

Mr. Eaton is a resident of Monticello, and has been a member of the commission for the past number of years.

Bricklayers Of San Francisco Get Wage Boost In New Scale

SAN FRANCISCO, Jan. 4.—Bricklayers will receive a minimum of \$11 a day under the new wage scale fixed by the wage board for the San Francisco building industry effective today.

The General Contractors' Association agreed to accept the new scale. The old minimum for bricklayers was \$10.

New minimum rates for carpenters, painters and electrical workers were fixed at \$9, a raise of a dollar, while iron workers and plasterers draw \$14, compared with the old rates of \$13.

Laborers generally received a 5 per cent increase from the old scale of \$4.50 to \$4.75.

Postal Business Of South On Increase

WASHINGTON, Jan. 4.—Postmaster General Newcomb said that no section can be picked where increases in postal receipts for December were uniformly low.

“For instance,” he said, “the south is admittedly suffering from the effect of the low prices induced by an abnormally large crop. Yet, reports from postmasters fail to indicate that St. Nicholas and other seasonal cards were not sold in true that Nashville, Jacksonville, and Oklahoma City reported receipts approximately 3 per cent lower than for December of the preceding year, and that Dallas

Ex-Illinois Governor Tells Democrats To Seat Frank L. Smith

CHICAGO, Jan. 3.—The powers that guide the Democratic party have been warned by one of their own political faith that denial of the oath of a United States senator to Col. Frank Smith of Illinois “will be fatal to the party.”

The prediction was made by Edward F. Durne, former Democratic governor of Illinois, who declared that such an act “would be the biggest blunder by the Democrats since the Civil War,” and the death knell of state's rights.

The senator-elect should be given his oath and allowed to present his credentials, after which he could be regularly refused a seat by a two-thirds vote, Durne agreed.

“Any other method particularly in view of his appointment to a vacancy, will be fatal, in my judgment, to the Democratic party.”

CHINESE ARMY OF FENG BENEFITED BY INSTRUCTION

Christianizing Of Many Of Illiterate Soldiers By A Corps Of Missionaries Is Start Of Their Efficiency

PEKING, Jan. 4.—(AP)—Marshal Feng Yuxiang, the pride of the missionaries in China as an outstanding example of the Christianized Chinese, undoubtedly has exerted a good influence upon the thousands of young men who have

constituted his army. Whether the amount of instruction he has been able to give them really has implanted in their minds any conception of the Christian religion, is uncertain.

But his efforts at teaching his soldiers the rudiments of clean living and morality obviously have borne fruit. Dissolute habits corrected. Smoking, opium and dissolute habits of all sorts are tabooed under the rigid rules enforced. The value of sobriety and of bodily cleanliness has been emphasized. Industry and a desire for learning have been encouraged.

Motives of the purport that “He who will not work does not deserve to eat” and “Knowledge and industry are the roads to prosper-

ity and happiness” were painted in large characters on walls and around the barracks.

The men were given religious training in Chinese and at intervals in the Christian faith. His running into the thousands.

At the time of the battle between Feng and Tientsin, he resulted in Feng's evacuation of the capital, these troops, whom he had trained, showed serious fighting, amazed Feng and Chinese alike by their courage and loyalty. The British air experts are

Overdoing? Hurry, Worry and Overwork Bring Heavy Strain.

MODERN life throws a heavy burden on our bodily machinery. The eliminative organs, especially the kidneys, are apt to become sluggish. Retention of excess uric acid and other poisonous waste often gives rise to a dull, languid feeling and, sometimes, to a backache and headaches. That the kidneys are not functioning perfectly is often shown by burning or scanty passage of secretions. More and more people are learning to assist their kidneys by the occasional use of Doan's Pills—a stimulant diuretic. Ask your neighbor!

DOAN'S PILLS 60c
Stimulant Diuretic to the Kidneys
Wm. Doan & Co., Mfg. Chem., D. E. N. Y.

Ouch! Lumbago! Rub Backache Away!

Kidneys cause backache! No! Your backache is caused by lumbago, rheumatism or a strain and the quickest relief is soothing, penetrating St. Jacobs Oil. Rub it right on your painful back, and instantly the soreness, stiffness and lameness disappears. Don't stay crippled! Get a 25 cent bottle of St. Jacobs Oil from your druggist. A moment after it is applied you'll wonder what became of the backache or lumbago pain.

In use for 65 years for lumbago, backache, sciatica, neuralgia, rheumatism or sprains. Absolutely harmless. Don't burn the skin.

The handsome structure pictured above is the new \$350,000.00 Club-Hotel at Mount Plymouth. The formal opening on Wednesday, January 12, of this THE South's Finest Club-Hotel will be the outstanding social event of the Winter season.

The Story of Mount Plymouth

EDITOR'S NOTE: Mount Plymouth, Florida is located on the Sanford Mount Dora Highway, on the Atlantic Coast Line R. R. is 7 miles from Mount Dora, 13 miles from Sanford, 24 miles from Orlando. Mount Plymouth town is being developed by the Mount Plymouth Corporation whose executive offices are in Orlando, Florida. That this corporation is officered, financed and directed entirely by Central Florida business men is indeed a credit to this section.

To tell a complete story of Mount Plymouth in a five volume treatise would be no easy matter but to present a brief synopsis, as we will here, touching on the background and accomplishments and the future plans for Mount Plymouth is indeed an arduous task.

Why Mount Plymouth? To answer the question "Why Mount Plymouth" is to answer the question "Why Golf?" Golf is now the universal and world-wide out-door sport and has fascinated every enlightened nation of the earth for the past 470 years. It has contributed more to the health and good-fellowship of the world than any other one thing man has done. It is clean, mild, invigorating; always set in nature's choicest surroundings and its roster invariably reflects the socially best in every community. Mount Plymouth is designed and is being developed as a golfer's true Paradise—the St. Andrews of Andrews of America—a self contained and complete Municipality; with every known modern luxury and convenience; owned, managed and lived in by golfers and those who have found the homestead ideal. Its five thousand acres of rolling hills and sparkling lakes are divided into four sections each section having a splendid 18-hole course; each course handled by a well known Golf Professional. Charlie Rowe, Premier Golf Professional of the country, who came direct from the famous Oakmont Country Club at Pittsburgh, is in charge of the new St. Andrews Course.

On the highest hill has been erected a \$350,000.00 Hotel-Club house, with the finest of rooms, magnificent ball rooms, stucco verandas, and all of the features constituting the ideal social center. This new Hotel-Club will indeed be the rendezvous of the social set. And in addition to golf, polo, trapshooting, sky diving (both land and hydroplanes), all water sports, the best bass fishing and quail shooting in the South—and all this right at your door.

There will be no other community in the world like Mount Plymouth. The home owner in this unique center pays no initiation fee to become a member. He pays no annual dues in this highly restricted club for 21 years. He becomes a member by purchasing a single home site, ranging in cost from \$650 to \$2000. What he saves in initiation fee and dues for 21 years (about \$3000.00) is twice or thrice the cost of the site. The safety and value of this investment is, therefore, obvious. Boulevards, Avenues and Driveways in the first section—known as the St. Andrews Section, are already completed. The water system, electric service, bridge paths and telephone lines are being installed, and host of enthusiastic golfers now play the St. Andrews course daily.

Accessibility to Mount Plymouth is also unique reached from all directions over as fine motor roads as are found anywhere in the world. One of the slogans is "30 Minutes from 30 Towns"—and within 24 miles of the beautiful city of Orlando.

The Atlantic Coast Line Railway skirts the edge of Mount Plymouth for 2 1/2 miles and a station is being designed in keeping with the theme of this community.

The men behind the project are big men, successful men; they are golfers, and they know that the American golfer wants just what Mount Plymouth is offering—the absolutely ideal home for the golfer and for the home lover as well.

The foremost citizens of Central Florida are behind it. The men behind Mount Plymouth are men of wealth and standing, leaders in their respective communities, William Edwards, a Senator, is President not only of Mount Plymouth, but of the Orange County Chamber of Commerce and the State Bank at Apopka. William Edwards needs no eulogy here, suffice it to say that he is Central Florida's foremost citizen. Associated with Mr. Edwards in the Mount Plymouth enterprise as director in the corporation are L. M. Aubrey, Mayor of the City of Orlando, Director of the Bank of Orange & Trust Co., Director of the Orlando Chamber of Commerce, and one of the most conservative and outstanding civic leaders in the entire state, Mr. E. W. Phillips, President of the Bank of Orange & Trust Co., of Orlando. Then there is Raymond F. Maguire, State Attorney, one of the most able attorneys in the South. Then there is W. D. Rogers another man who does big things, a director of the Orange Bank & Trust Co., and President of the Orlando Golfers Association, President of the Valdes Hotel, and the San Juan Motor Co. There is T. L. Casey, financial genius of Orange County and Secretary of the Southern Development Co. Lastly there is H. Carl Dann, under whose immediate direction the Mount Plymouth development is being carried out. Mr. Dann is President of the Orange County Investment Co.; President of the Southern Development Co.; Vice-President of the Fidelity Title & Loan Company and developer of some of the most famous and successful subdivisions in this section. Mount Plymouth is Mr. Dann's 61st development, he having 60 successful developments to his credit.

These men do not have to ask anyone to pass on their certificate of character and when they tell you what marvelous and stupendous development the future holds for Mount Plymouth it is so because they tell you so.

Hundreds of thousands of dollars have gone into development at Mount Plymouth during the past summer. The 1926 building program itself stupendous fades into an insignificant place when compared to the tremendous building program for 1927 recently announced.

We wish we were able to paint a word picture of Mount Plymouth that would enable the reader to catch a vision of this wonderland. Nature has lavished her beauties there and made of it the Switzerland of Florida.

Standing on the hilltop in front of the beautiful Hotel and Club house you get a view of practically the entire first unit of the development. It is indeed an enchanting picture one that quickens the pulses of the artist and entices the golf devotee with an enthusiasm he never felt before. To the lover of nature the picture will appeal with a grip that will not let go.

A famous golf professional stated that in all of his experience, which has covered the best courses in two continents, never has he found a course that will equal the new St. Andrews course.

Can you see the picture? Here is what you see as you look across the gently rolling country in front of you. No less than ten pretty lakes nestling among the hills, around which the golf links wind and which are circled by broad and well constructed boulevards, all of these lined on both sides by newly planted water oaks. Yonder are stately pines in all of their original majesty and beauty, and over these great oaks whose spreading arms invite you to come and rest in the cool shade beneath them. In the immediate background there are many dignified homes, all substantial and of English architecture. Hundreds of skilled artisans are plying their trade on the many substantial homes and buildings now under construction. Well built clay roads smooth as a house floor that wind and wind through the property around lakes and hills for a distance of 18 miles are all there. Scattered young orange trees are growing everywhere and many flowers and shrubs make this perfect picture beyond compare.

Surrounded by rich back country Mount Plymouth has a particular appeal on account of the rich agricultural back country which will serve to bring prosperity to the whole community.

On the one side lies Sanford with the center of the celery production and on the opposite side lies Winter Garden the richest producing area of its size in the world. Adjoining Mount Plymouth the Lake County Citrus groves are being developed with an ultimate area of 12000 acres to be put into groves. Already nearly 1600 acres are planted and thriving. This one development will bring enormous wealth to the community as this area is practically immune to frost and the land is admirably adapted to citrus growing.

EXCELLENT LOCATION

The peculiar high dry location of Mount Plymouth also offers an unusual variety of soil products. Here we find watermelons, cantaloupes, cucumbers, beans, peppers, persimmons, guavas, lettuce and cabbage, as well as all kinds of citrus and field crops.

Poultry farming is becoming more important year by year and with the demand increasing every year this a source of immense income for this industry may be expected to become a real factor in this section. Dairying is just getting a good start and recent fencing laws will change this section from open range country to a real settled dairy community, and it will be all the easier since this area is already practically free from ticks.

Bulbs and ferns are being raised very profitably and grapes are fast becoming important.

MANY ADVANTAGES

In addition to agricultural there is the promise of manufacturing profit. There is an ample lumber output now to permit furniture making, and there are also valuable deposits of Kaolin Diatomite and other clays and sands, some already being worked and others under process of development. With these advantages added to the wonderful year round comfort of living offered by the elevation and nearby lakes it is easy to understand why Mount Plymouth has an especial appeal to all who visit there, and why the present development program will continue to grow larger and locate here the central city of interest for the whole region. Thirty minutes from 30 towns, and the other advantages listed above means that it is only a question of a short time when Mount Plymouth will become a real city of importance, as well as the golf center that prompted its inception.

The enormous sale of property at Mount Plymouth has been made possible by the effective sales organization which is headed by A. F. Phillips, Sr., as National Sales Director, with Walter A. Dunn, assistant sales director. Both Mr. Phillips and Mr. Dunn are realtors. Mount Plymouth now has offices in most every town of major importance throughout the east and representatives of Mount Plymouth can be found in hundreds of other towns over the entire country.

Central Florida and even the entire state have been advertised extensively by the Mount Plymouth Corporation throughout the North. Thousands of people have come to Florida and hundreds have visited the Sunshine state as members of one of the special Florida parties that the Mount Plymouth Corporation run from Boston and New York on regular schedules.

Cast aside your cares, grasp your clubs and drive out to the Pleasure City.

Now where nature's wonderland has been transformed into a Paradise for the Sportsman and the home lover.

TUESDAY, JANUARY 6, 1927

- THE HERALD PLATFORM: 1.—A clean lake at Sanford's front door. 2.—Better water rate to Jacksonville.
- HIBER VERSE TODAY
- THE STABILITY OF GOD—For what is God, here the Lord and who a rock, have our God?—2 Sam. 22:32
- PRAYER—O Lord, Thou dost give strength unto Thy people and bless them with peace.
- SEA CHILDREN
- (By R. S. Green) In the New York Times in the early twilight of the past There must have been a million years ago...
- For never within the tangled mesh Of the trails that are worn by the feet of men...
- For always deep in his heart he hears The wash where the rock-bitten water slips...
- By the way, have you arranged your advertising budget for the new year?
- New Year's resolutions not yet broken are standing the gaff pretty well.
- Isn't funny how often it is true that the bigger the head the smaller the man?
- It wouldn't surprise us if it became the style in Sanford to wear the hair long, men and women alike.
- "Lock up Death Headlines Even From Top Pistol."—Headline. Would a toy pistol be dangerous if you are not careful?
- As we understand it, the Alabama-Stanford game New Year's day proved conclusively the South and the West are superior in football.
- Other Florida towns are just beginning to realize the value of the back country. In this, Sanford has the jump on them by a great many years.
- As the Perry Herald says, newspapers are the best community activities. Wasn't a neat copy of the Herald and mail it to some friend in the North.
- Merely "Taken For-Granted"
- "If you are beginning to feel old, get into the Y. W. C. A. work. It keeps you thinking in terms of girls instead of old ladies."
- Thus Mrs. John Hanna, of Dallas, Texas, the new national president of the Y. W. C. A., is quoted. "Most people, I find, think in terms of boys and their needs rather than about girls," said Mrs. Hanna.
- That they are leaders of the community owe anything to her for recreation, self-development and an outlet for expression and growth is something they have not thought about.
- Oh, every town has its quota of stay-at-home girls, jewels of girls so far as they are of value to their selfish families. But what of the talents such girls have no help in developing...
- It has always been the fashion to take the sacrifices and the unselfishness of the stay-at-home girl for granted. She has always been imposed upon.
- Mrs. Hanna in her interview was "drumming up trade" to doubt for the Y. W. C. A. She wants to see the association's work extended into every town and hamlet in the land.
- Having told of the slaying of a bootlegger by a "taxi load of conviviality" which had been refused a second sale because they were too drunk...
- Something like ninety-eight per cent of the stuff seized by federal prohibition officers shows when analyzed a percentage of poison that will soon either kill its victim or fasten upon him such handicaps as blindness, paralysis or slow-killing diseases of the kidneys and liver.
- Customers who are merely old snaks carrying their old habits into their last years on this planet probably might as well buy as much of the stuff as their pocketbooks will permit.
- If the average patron of bootleggers could be shown how rank the stuff is if he could see the stuff set into paint and varnish with the power of concentrated light...
- Now and then some startling tragedy illustrates the idiocy of bootleg-liquor drinking so strikingly bootleggers are compelled to seek other business fields or go out of the trade entirely.
- The Herald has spoken before of the need of a revival of the old-style temperance societies. Education—education with a vengeance is the big need in the anti-liquor cause.
- AN OVER-SUPPLY of Christmas food and festivities apparently had a stimulating effect on both the typesetters and the proof readers at The News yesterday.
- During the primary campaign, some candidate for the house and senate, thinking of a popular chord, advocated diverting a part of the gasoline tax to the common school fund.
- They were defeated. Now comes one engaged in advertising schemes advocating that a part of the feed be used to advertise the state in magazines and newspapers throughout the country.
- TOUGH ON THE DOG: We have heard of some men and women who were said to have had hearts of stone or iron, but it was left for a Russian scientist to make an electrically operated pump and purification apparatus perform all the functions of the heart.
- As Brisbane Sees It
- Houses for 700 Years. Investigating Science. Show and the People. If Menusial Moves. BY ARTHUR BRISBANE
- This is written in Arizona, with Flagstaff, flourishing center of energy, just outside the car window. To the north is a mountain of the rock from which cement is made.
- AT ARCADIA, NEAR Los Angeles, there stands such a rock, much smaller. On its slopes men have established a thousand machines, turning out dust of which cement is made.
- ACCORDING TO VINCENT BARAZZURI, Italian—sentist, within 10 years the heat of Mount Etna will be harnessed, and soon volcanoes will furnish all Europe with power.
- READING NEWSPAPERS, paying along the country, the best reading is to be found in the Arizona Gazette, Phoenix, 1926 Passed Out. So Did Several Local Citizens.
- NORTH CAROLINA WILL look into the theory of evolution "as it relates to the origin of man," and perhaps outlaw such teaching in North Carolina state colleges and public schools.
- THEY SHOULD ALSO look into the theory that the earth is round, and travels with and around the sun. In other days other fundamentalists not only questioned that theory, but burned men alive for supporting it.
- THE MOUNTAIN AIR is beautiful, the air 2,000 feet above the Pacific makes prohibition hard to handle. Will Rogers' statement that prohibitionists decided to take the poison out of de-natured alcohol for their own protection, has no meaning here.
- ON THIS ONE of many visits to the desert, the most interesting man encountered is Pierre Lesage, a Frenchman from the tiny village of Montreal in Brittany. Three years ago he left his farm and relatives work it. He wanted to travel, saw the big woods in Canada, the red French city of New Orleans, then came here 23 years ago.
- THAT WAS WHEN the war came. Friends laughed when he said he was going back to France to fight. The owner of the big Higgins Garage, 23 miles east, tried to dissuade him.
- LESAGE WAS OFF and France found out for him. They gave him 20 months in the light artillery at the front. Frenchmen know how to live and don't get stiff at 50.
- Let the gas-line tax alone and in ten years Florida will have the most mileage and best system of roads in the world.
- Let It Alone: The gasoline tax is for the purpose of building roads. Good roads develop the state and it is expanded.
- THE STALE highway department is building the highways at a rapid rate and there should be no let up of the good work.
- TOUGH ON THE DOG: We have heard of some men and women who were said to have had hearts of stone or iron, but it was left for a Russian scientist to make an electrically operated pump and purification apparatus perform all the functions of the heart.
- IF YOU STOP: If you stop at Barrow, you see. Cold is a serious argument, says he, we can't stand far from your eyes, if no paria pass him a single, in your all it's a help to get some, it is available in your eyes, if you can't see in his eyes, if you can't see in his eyes, if you can't see in his eyes.
- Let 'Em Fight
-
- Civic Spirit In Words And Deeds
- FLORIDA TIMES-UNION
- Newspapers, of course, do a very considerable amount of work that brings benefits to individuals, communities and enterprise who and that are deserving of commendation and encouragement. A very gratifying instance of the character of the work done by the Chamber of Commerce, of a check for \$1,000, sent by the American Crucis Am Company, of this city, in payment for forty memberships in the chamber of commerce, the Chamber of Commerce, of a check for \$1,000, sent by the American Crucis Am Company, of this city, in payment for forty memberships in the chamber of commerce...
- Mr. P. N. Coleman, president of the American Crucis Am Company, in his letter accompanying the check, says to Manager Owen of the chamber of commerce that "A recent editorial appearing in the Times-Union, published by the Chamber of Commerce, on 'Your Payroll,' brought serious consideration to him and, consequently, he was sending his check as above stated. He says this check is very truly for the chamber of commerce. The Times-Union's suggestion is a very gratifying one to him and, consequently, he is sending his check as above stated. He says this check is very truly for the chamber of commerce, which is the direct beneficiary of the suggestion made in these columns. Presumably, also, the sending of this check is gratifying to Mr. Harry Tipton, president of the Southern Baking Company, also of this city, who recently sent his company's check for \$1,000 to the chamber of commerce, for the specified number of memberships, and who coined the slogan 'Put the Chamber of Commerce On Your Payroll,' on which, and the practical matter of giving it effect, the Times-Union editorial was based.
- Now that the record has been brought up to date, let us turn to the chamber of commerce, operating fund, by which it is made possible the work that the organization must do or that otherwise will not be done. In this action taken by the chamber of commerce, the spirit of the true civic spirit is being demonstrated. It is an example that is highly to be commended.
- NO REMEDY FOR SCHOOLS: The governor calls attention to what has been accomplished during his administration to the development of the educational field of Florida. He specifically mentions the passage of the constitutional amendment at the recent general election, which is advantageous only to the small counties of northern Florida and creates another fifty political plans by the establishment of a bureau at Tallahassee.
- There is one strong note of hope in the governor's address; it is his proposal that the release support legislation for schools. If Governor Martin will do all in his power to get passage of the right kind of measure for the support of education of the coming session of the assembly, conditions will be better.
- There is one strong note of hope in the governor's address; it is his proposal that the release support legislation for schools. GUILD MEMBERS HOLD ENJOYABLE MEETING MONDAY AFTERNOON

A most interesting meeting of the St. Agnes Guild of the Holy Cross Episcopal Church was held Monday afternoon at the home of Mrs. S. M. Lloyd on Magnolia Avenue.

The rooms where the meeting was held were bright with bowls of golden calendulas.

Presiding over the business session in the absence of the president was the vice-president, Mrs. Raymond Key. Quite a number of important business matters were transacted, and reports read from the various standing committees.

The treasurer reported that a substantial sum had been raised from the Christmas bazaar and Christmas ball.

At a previous meeting it was decided to join the other women's organizations of the church to form a Church Service League, the offices to be held by members of both Guilds. At this meeting a vice-president, treasurer, social service secretary, box chairman and Little Helpers' secretary were elected. The first meeting of the Service League will be held Monday afternoon at 3:30 o'clock at the home of Mrs. Raymond Key.

Mrs. Deane Turner Is Honored Monday At Delightful Courtesy

Mrs. Deane Turner of Fort Myers, a former resident of Sanford, who is the charming guest of her sister, Mrs. Ernest Krupp, was the guest of honor Monday evening at a delightful bridge party given by Mrs. Krupp at her home on Park Avenue.

The guests were members of the Entire News Bridge Club, of which Mrs. Turner is a former member.

The rooms where the card tables were spread for play were adorned with baskets and bowls of calendulas and narcissus.

Tallies used in keeping scores for the interesting card game, were done in pretty girls dressed in frocks of poinsettias. When scores were counted the prize for high score, a late book, was awarded Mrs. J. G. Hall. Low score prize, a dainty hand-made handkerchief, fell to the lot of Mrs. E. D. Mobley.

Mrs. Turner was presented with a home as a gift from her hostess.

When the card tables were cleared and laid with coffee and chocolate, the hostess served pineapple salad, wafers, fruit, cake and hot chocolate.

The players were: Mrs. J. G. Hall, Mrs. B. F. Whitner Sr., Mrs. E. D. Mobley, Mrs. S. O. Chase, Miss Martha Fox, Mrs. Robert J. Holly, Mrs. Harry Wilson and Mrs. Turner.

Ernest Krupp, Mrs. Clarence Gantt, Mrs. A. T. Rossiter, C. J. Rump, Hodgson Ball and the First National Bank.

The library is adding to its files for this year the Engineering News-Record, the Forum and Hygeia; also the Congressional Record and the United States Daily.

A recent newspaper which gives in a non-political way the daily record of the official acts of the legislative, executive and judicial branches of the government.

Cecil Arden Has Sung For Three Seasons In Metropolitan Opera

It is interesting to note that Cecil Arden who will be presented to a Sanford audience on Jan. 10 by the Music Department of the Woman's Club, has sung for three seasons with the Metropolitan Opera Company, one year having received a second re-engagement.

Her repertoire includes 12 operas and includes La Tosca, Cavalleria Rusticana, Rigoletto and La Boheme.

The Musical Courier speaking of her condition of the part of Gilda in the cast of L'Oracolo, says that she quite measured up to her predecessor Sophia Braslav, and won a place for herself on one of the best casts that the Metropolitan shows.

Stockholders Meeting

The annual meeting of the stockholders of the Osceola Cypress Company will be held at the office of the company, Osceola, Seminole County, Florida, on Thursday, January 20, 1927, at 10 A. M.

Danger Lurks In Every Mile

For the motorist who does not carry liability insurance. Every mile rolled off by the speedometer brings risks that are entirely unavoidable in this fast age—the only sure way to be safe is to carry liability insurance—when you need it you need it bad—don't be caught without it.

Miss Martha Fitts Is Guest Of Honor At A Delightful Courtesy

The last of a series of delightful social courtesies with which Miss Martha Fitts has been honored during the holidays was that of Friday evening when Miss Mary Nixon entertained most pleasantly at a New Year's Eve and slumber party at her home on Fifth Street.

Poinsettias, holly and the usual Yuletide decorations adorned the rooms, while lights shaded with red, cast a warm glow over the lovely scene.

The evening was cheerily spent in games, music and dancing. At midnight the New Year was ushered in amid a din of whistles, horns and bells.

Refreshments of ambrosia, fruit-cake and hot chocolate were served at a late hour by Mrs. F. L. Nixon, mother of the hostess.

Saturday morning a most delicious waffle breakfast was served. There were about 20 guests who enjoyed this delightful affair.

Women's Guild Holds Election Of Officers At Monday's Meeting

The Women's Guild of Holy Cross Episcopal Church held its regular business meeting and election of officers on Monday afternoon at the home of Mrs. S. A. Hunton on Matrix Street.

Many matters of special importance were discussed during the business session, which was presided over by Mrs. A. H. Stone.

The election of officers for the ensuing year resulted as follows: President, Mrs. A. P. Connelly; Vice President, Mrs. Robert A. Newman; Secretary, Mrs. Amelia Noble; Treasurer, Mrs. Ernest Krupp; U. T. O. Custodian, Mrs. B. F. Whitner Sr.; Educational secretary, Mrs. Alexander Vaughan; Social Service Secretary, Mrs. S. A. Hosten; Box Work, Mrs. C. J. Rump; church periodical work, Mrs. E. D. Mobley; C. S. S. I., Mrs. B. F. Whitner.

After all business had been transacted, the hostess served tempting refreshments. About 20 members were present.

Much Interest Shown In Municipal Library During Past Month

December is always one of the quietest months in the library in the number of books circulated. The daily records show, however, that 2,910 books were loaned during the month, which is a gain of nearly 300 over the same period the preceding year.

The reading room attendance was 621, the first number for last year being 483. Fifty-two new members joined, bringing the total membership up to 2,600, of which 1,723 are adults and 877 are juveniles. The story hour attendance for the month was 150.

Acknowledgement is made for books donated by Mrs. Elsa Knight and Mrs. A. R. Platt, and for magazines given during the year by the following patrons: Mrs. T. W. Williams, Mrs. Henry Wight, Mrs.

Mr. and Mrs. G. A. Rayner have returned from a motor trip to Jacksonville.

Miss Elizabeth Houston has returned to Sanford from West Point, Ga., where she spent the holidays with her mother.

Walter Hagan of Pasadena, professional golf champion of U. S., spent the day in Sanford Monday attending to business.

George F. Root left Sunday for West Palm Beach, where he has accepted a position with the Seaboard Air Line.

Miss Frances Cherry returned home Sunday evening from Mount Olive, N. C., where she spent the holidays with her parents.

Mr. and Mrs. James F. Hawkins who have been spending several weeks as the guests of the latter's parents, Mr. and Mrs. L. G. Harr at Mocksville, N. C., returned home Sunday evening.

Glades Must Be Drained Or Abandoned By Florida, Asserts Leon Legislator

TALLAHASSEE, Fla., Jan. 4.—(P)—The Florida legislature, at its 1927 session, must adopt some measure for draining the Everglades, or the area formally abandoned by the state, in the opinion of Fred H. Davis, representative of Leon county, presiding speaker of the lower branch, and one who has taken an active part in proposed Everglades legislation of past sessions.

Mr. Davis, at the 1925 session, was chairman of a House committee, appointed to work out a substitute measure for bills to drain the Everglades, which were found to be objectionable in concurrence.

The legislature, Mr. Davis predicts, will never pass the so-called original Eberberger bill, providing for annexation of the entire state to the Everglades district. If the unexpected happened and it did, he added, the law would never stand the test of the courts, and would be found to violate the constitutional provision against leading the state, such as the creation of a state-wide district and bonding it.

A committee substitute bill from the 1925 session will likewise probably fail by the wayside in both the legislature and the courts, the Leon county representative said. This measure provided for the creation of three zones, one the Everglades district proper, upon which drainage taxes would be levied; second, a secondary one mill tax area, extending from St. Louis Island, and taking in all the rich East Coast territory and population as far south as Coconut Grove, and third, the remainder of the state, as far west as Pensacola, with its one-fourth mill tax provisions.

A state-wide tax for draining the Everglades is necessary, Mr. Davis asserts. The theory of such a levy is that, inasmuch as the state owns over 500,000 acres of lands in the district proper, upon which it must

pay its pro rata share of the drainage taxes, this tax money should be raised in that manner.

"It is needless to suggest that if the drainage of this 820,000 acres of stand land were accomplished, the investment made by this levy would be amply repaid in the increased value of the lands," he stated.

The lower East Coast territory would be directly benefitted by draining of the Everglades, and the proposed one-mill tax for that area would be justified, Representative Davis declared, and such territory is needed because of its greater population, which, in turn would operate to expedite the sale of bonds.

Mr. Davis recalled that the 1925 legislature had its hands full, so to speak, in handling proposed Everglades legislation. In 1922, the state owned 1,013,290 acres of land in the district upon which it was paying a share of the local drainage tax the sum of \$120,087.66 annually. In 1925, Florida's holding had been reduced to 817,921 acres, upon which it was compelled to pay a special assessment tax of \$376,699.55 annually. In 1926, the state's acreage was 820,723.89. During the five years of 1922 to 1926, inclusive, the state paid out in drainage taxes a total of \$1,348,379.88.

COURT RECONVENTS

TALLAHASSEE, Fla., Jan. 4.—(P)—The State Supreme court reconvened today after a recess of ten days over the Christmas holidays.

HULL, Que., Jan. 4.—(P)—The Windsor hotel, largest hostelry in this city, and the Caron Drygoods store adjoining were destroyed by fire early today, with an estimated loss of \$120,000.

FIRE DESTROYS 2 BUILDINGS

After the "Flu" is over — you need a Tonic

Help is Needed to Restore Your Wasted Strength and Energy.

"Flu" leaves the body weakened and run-down. In such case, a tonic is clearly indicated. Restore the appetite and rid yourself of that let-down feeling.

"Flu" is a very irritating disease. It leaves its victims so weak and debilitated that there is a much danger from the after-effects as from the disease itself. In other words, after an attack of the "flu," you need a selective tonic to rebuild the system so that you may have

your old-time strength and energy restored.

S.S.S. is unequalled for restoring strength and vitality.

You owe it to yourself and family to give S.S.S. a trial. It helps Nature build up red blood corpuscles. It improves the process by which the body is nourished. It is time-tested and reliable. S.S.S. is made from the roots of fresh herbs and plants, and is prepared in a scientific way in a modern laboratory.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

What price delay?

When failure to receive materials is costing you money, service is of major importance. Delays mean idle men, idle machinery—the job is held up. Both owner and contractor are the losers.

Our "on-time" service prevents these losses, just as the quality of the materials we sell insures against the costly wastes of inferiority.

Take cement, for instance. We recommend Lone Star, not only because of its super-quality and uniformity; but also because in back of our own supply are the stocks of a whole chain of cement mills. We offer you prompt service and complete assurance of satisfaction.

"HUH?"

"NOW I'LL TELL YOU—I THINK OF YOU YOU??—IT'S YOU??—BANKNEY BANK—EE—"

Glades Must Be Drained Or Abandoned By Florida, Asserts Leon Legislator

TALLAHASSEE, Fla., Jan. 4.—The Florida legislature, at its 1927 session, must adopt some measure for draining the Everglades, or the area formally abandoned by the state in the opinion of Pres. H. Davis, representative of Leon County, president of the Everglades drainage association.

The lower East Coast territory will be directly benefited by draining of the Everglades, and the proposed one-half cent tax for that area would be justified, Representative Davis declared, and such territory is needed because of its greater population, which, in turn would operate to expedite the sale of bonds.

Mr. Davis recalled that the 1925 legislature had its hands full, so to speak, in handling proposed Everglades legislation. In 1922, the state carried \$1,121,296, secured in the district upon which it was paying as its share of the local drainage tax the sum of \$120,000. In 1923, Florida's holding had been reduced to \$17,221,296, upon which it was compelled to pay a special assessment tax of \$735,000, annually, in 1926, the state's revenue was \$20,725,800. During this five years, 1922 to 1926, inclusive, the state had cut its drainage taxes a total of \$1,548,370.58.

COURT REVERTS
TALLAHASSEE, Fla., Jan. 4.—The State Supreme court reversed today after a recess of ten days over the Christmas holidays.
