By LARRY VERSHEL

The County Commission is meeting with the Sheriff on budget matters this afternoon . . . It's a "private" confab . . . Himmmmmm!

The word is there will be close to 1,000 additional children in Seminole County schools next term . . . Watch for double sessions in some of the schools in the south end . . . Heavy growth expected for the Ovidio schools . . .

When will the school board stop playing cat and mouse and face up to the fact a bond issue is a "must"? One school official made the statement at a PTO meeting last week . . . It will take a \$10 million issue.

I hate to keep mentioning those nasturtiums by City Hall but . . . Well, maybe it will get the jungle beautification award.

Grand Jury will reconvene here April 17 . . . Won't say anything else yet.

FOR THE STATISTICAL MINDED — Over 78 per cent of the county tax roll has been collected thus far . . . Tax roll estimated at \$4,761,000 . . . Over 80 per cent of the city tax roll in . . . Roll valued at \$649,119.

When is the county gonna stop burning at the dump by Upsala Road? . . . Or, have they read their state health department regulations closely?

City Manager W. E. Knowles apparently saw the handwriting on the wall yesterday. Guess he knew the cards were stacked at the Board of Adjustment meeting last night. He sent the city's appeal on the Board of Adjustment's ruling some four hours before the board even met.

LAKEPORT REPORT — City will start laying water lines into the facility "soon." Storage facility was supposed to start "right away" . . . What means right away? . . . Estimated cost over \$100,000 . . . Piers being constructed in Jacksonville and will arrive April 1.

I wonder how many of you all know the city has to foot the bill for guards at three school crossings in Sanford . . . That's at French Avenue and Sanford Junior High; French and Third and Sanford and 15th . . . Costs around \$56 per week . . . Why can't the school board get legislation to handle this?

Twenty-five cases were continued in Municipal Court yesterday . . . Oh, yes, two persons accused of selling beer to minors were continued as was the Webb Jones case . . .

Look for the county to borrow some \$2 million out of secondary funds to get some needed rights-of-way . . . Look for an all out battle among the commissioners on what is top priority . . . SR 46 from I-4 to Lake County or SR 436 from I-4 to the Orange County line.

School people got the word yesterday that the vocational school preliminary plans on the junior college site must be ready by June 30 . . .

We notice hot pursuit by the justice department is authorized in both the Longwood and Altamonte Springs proposed new charters. Didn't Governor Burns veto a statewide hot pursuit law in the last session of the Legislature?

Headlines due soon on the Milwe-Letter case. Watch for a move to get the case out of County Court . . . It's been continued and continued again and again since September.

## Landfill Operation Turned Down City Plans Court Battle

The City of Sanford is expected to go down without fighting in its battle with residents of the Ravena Park and Lilyville area to establish a sanitary landfill there, informed sources reported today.

The Board of Adjustment, at its meeting last night, denied the city's request for the landfill because it was "health and safety hazard" and would depreciate property values in the area.

Over 100 persons stormed the board with complaints on the landfill request. The County Commission today expected to hear an appeal from the city on their request and a public hearing is expected to be set up. However, City sources indicated to the Herald they would take the case to Circuit Court once the appeal is turned down.

"It's the next logical step" City Manager W. E. Knowles reported.

Knowles told the adjustment board last night the city had no other recourse but setting a landfill in that area north of Villen Rd. He stressed the present landfill operation had been a nuisance to planes from the Naval Air Station because of the sea gulls. "They almost lost three planes because of the birds," Knowles said.

Knowles explained that City Commissioner Earl Higginbotham agreed to allow Sanford to use a portion of his property for a landfill "out of charity" until the gulls moved on in warmer weather.

However, Higginbotham, at the meeting last night, was accused by residents of agreeing to the operation for improving his pasture land. "I'm not getting one thing out of this," Higginbotham shouted one time over the roar of the indignant residents.

The landfill, headed by chairman W. C. Halback, listened to complaints over an hour before handing down its decision. "If the residents complained there were two dumps in the area (The county has one on Upsala Rd.) too many mosquitoes, garbage burning, stinking dogs and other health hazards."

The challenge of the two party system in Seminole County was accepted by Robert Petree, state Democratic committeeman, today in the name of his party and support by the party to its candidates was pledged.

Petree, said, "The official and unofficial bodies of the Democratic party in Seminole County will stand ready to offer aid and assistance to Democratic nominees in any fashion requested."

"The Democratic party in Seminole County is ready to challenge the two party system and will commit itself to offering the best possible candidates to the voting public of our county."

ALL ALONE — That's probably the way City Commissioner Earl Higginbotham felt at the Board of Adjustment meeting last night. Over 100 persons protested the City of Sanford's request to establish a landfill operation north of Villen Rd. (Herald Photo)

### Dems, GOP Start Vote Push Here

Seminole County Republican and Democratic party workers are rallying to the cause . . . to elect respective candidates to the Legislature in the special election ordered by the federal court.

All Republican candidates for the Legislature in the special election ordered by the federal court.

Republican Congressman Edward Gurney, of Winter Park, will be the speaker of the evening.

William Medcalf, chairman of the Seminole County executive committee, said also plans an underway to have Gov. Claude Kirk appear at a local GOP rally when he comes to Ovidio March 19 for ground-breaking exercises at Florida Technological University.

"With the exception of one House seat," said Medcalf, "there is a complete slate of Republican candidates running for the Senate and House of Representatives in the upcoming elections."

"Jan Fortune, former Seminole County representative, will be unopposed in the Republican primary for House seat 42. The same holds true for E. Pope Bassett for House seat 44 and for Kenneth Plants for Senate seat 16."

## Sanford Appeals To County Landfill Hearing March 7

The County Commission today authorized an appeal by Sanford to allow a sanitary landfill operation to be established north of Villen Road.

The board of adjustment last night turned down the city's request for the landfill site.

In Sanford's appeal, City Manager W. E. Knowles said the money will be transferred from the county dump and is completely "out of sight" from all homes. Knowles also stressed that there will be no burning or scavengers at the proposed landfill site.

The Commission today also authorized the Supervisor of Elections to overspend some \$22,000 from her budget to carry on the legislative election.

The money will be transferred from contingency.

The problem of trash dumping along the highways of Seminole County brought a stern warning from Comm. 1519 chairman John Alexander at the meeting of the board this morning.

"Unless the taxpayers of Seminole County are interested in allowing higher tax bills, they will make a greater effort to stop throwing trash along the highways," Alexander pointed out. "At least an expenditure of \$100,000 per year would be required for the county to keep the shoulders of roadways clear of beer cans and other trash," he said.

Ten to 15 tires each year are ruined on the road greater by discarded bottles and cans, J. C. Lavender, road superintendent reported.

The commission agreed to instruct the sheriff's department to vigorously enforce the law regarding dumping of trash along rights-of-way.

In other business the board referred to the road department for investigation and report the request that Destiny Road be included in the road system for maintenance.

Instructed the road department to discontinue direct line savings of \$15 per month is expected.

Rescinded property east of 17-92 and south of Lake Jessup in the Casselberry-North Orlando area from R1A to A-1 and property at the intersection of the old and new SR 436 from A-1 to C-1.

Continued hearing on rezoning a tract south of the Longwood-Markham Road, west of I-4 and north of SR 434 from M-1 to A-1.

SANFORD ATTORNEY Phil Logan goes "Flip-Flop" with the pancakes at Roomilla's Drug Store with the pancakes at Roomilla's Drug Store Pancake Day scheduled Saturday.

## Kiwansians To 'Flip' For Club Projects

Flipping pancakes is not the usual thing for "Phil" Logan but like so many Sanford Kiwanians he is lending all his skills to make the annual pancake supper and public auction of this service club a complete success. Logan and Troy Tray are chairman of the pancake committee who will keep a stream of savory cakes and pungent sausage going to the tables at the Civic Center Saturday prior to the intriguing public auction.

Proceeds from this event will go to 16 projects the Kiwanis Club has selected for its 1967 goals. These include \$3,000 for scholarship loans, \$340 for tuition of American Indian youths, \$100 to sponsor a Babe Ruth Baseball Club, \$50 to send one high school student to participate in state government in Tallahassee, and \$1,500 to provide medical aid for underprivileged youth. The target total is \$2,865.

General chairman of the event is Harold Kastner.

## 'Fund' Session Scheduled Soon

Seminole County and State Road Department officials will sit down at a conference in mid-March to devise ways and means of obtaining the necessary funds . . . maybe as much as \$3.5 million . . . to build a causeway across Lake Jessup.

Willard Peebles, SRD commissioner, told The Sanford Herald this morning it has been agreed that he and C. A. (Billy) Benedict, SRD engineer, along with other SRD officials, probably including a fiscal officer, will meet with Seminole County Commissioners for this purpose after the March 7 meeting in Tallahassee when this county will present its road budget requests for the fiscal year starting July 1.

While the causeway has been in the discussion stage for a number of years, its planning is being expedited because of Florida Technological University, going up on SR 339 three miles south of Ovidio at the Seminole-Orange County line. John Alexander, chairman of the Seminole County Commission, announced the planned session on the causeway financing at a dinner meeting last night of the long range planning committee of the Seminole County Chamber of Commerce. Douglas Stenstrom, committee chairman, reported the state is holding road funds earmarked for Seminole County but cannot proceed because of the need for rights-of-way. Alexander responded the rights-of-way must be purchased with only approximately \$50,000 received annually from state gasoline tax, and that this money also must be used for maintenance and new construction of county roads.

James P. Avery Jr., former county commissioner and a member of the Chamber committee, pointed out the causeway has long been under study and suggested the Commission meet with fiscal agents to determine what amount can be borrowed now from anticipated state gasoline tax distribution . . . not from ad valorem taxes . . . in order to expedite the causeway. He added the county would save money in the difference between land costs now and the future and interest rates now.

W. E. Stenstrom requested Avery's request that the County Commission check with fiscal agents on the proposed loan. Alexander replied: "The board already has instructed me to set up such a meeting, and we are going to confer with the State Road people on this question."

## County Sets 'Closed' Meet On Road Plans

The County Commission will be holding closed door "work sessions" during the next week to determine its primary and secondary road requests to be recommended to the State Road Department, fifth district, at public hearings in Deland March 7.

Lake Jessup and a new Oatman Bridge are expected to head the list of projects to be requested from primary projects.

Other primary projects to be requested are construction of Ovidio: SR 46 from I-4 to Lake County; Lake Monroe Causeway feasibility study and SR 436 from I-4 to Orange County.

Secondary funds will probably be requested for the signals at three railroad crossings including those at SR 436 in Forest City; Palmetto Avenue in Lake Mary and at SR 401, south of Forest City.

Another secondary project will be construction of SR 427 from Huchison Parkway north to Glendeville.

Sanford Attorney Phil Logan goes "Flip-Flop" with the pancakes at Roomilla's Drug Store with the pancakes at Roomilla's Drug Store Pancake Day scheduled Saturday.

# Budget Caught In Squeeze

TALLAHASSEE (AP) — Florida's proposed 1967-68 budget, Gov. Claude Kirk and his staff are asked by agency heads, will be presented today along with a report that may carry a substantial pay raise for Kirk.

The Budget Commission, headed by director Wallace Henderson, will present its budget recommendations to Kirk and state Cabinet members beginning at 1 p.m.

"Our recommendations are developed on the basis of what we feel these agencies feel they need to work on. Our concern has been the needs and programs in all areas," said Henderson, who declined to release any aspects of the report prematurely.

He reflected the cautious attitude of other state officials Monday in the eve of the meeting.

Kirk has pledged there will be no new taxes and demanded that agency heads slice their budget requests.

At the budget hearings last week requests from all agencies totaled \$1.9 billion, while revenue for the state in the next biennium is estimated at \$1.2 billion.

Some Kirk appointees have trimmed their budgets. Henderson says amended budget requests have been received, including one from the huge Road Department.

Once the budget is acted upon, it is prepared in final form for submission to the 1967 Legislature.

Included in Henderson's recommendations will be results of a survey—begun last August—of salaries of executive officials. Recommendations to raise these salaries are expected, including one for the Governor's Mansion. (NEA Photo)

Some said they had not seen it. However, it was believed the recommendations will call for a raise in the salary of the governor and other agency heads.

Asked if he thought the report would call for a raise in the governor's salary, Secretary of State Tom Adams replied Monday that "I'm sure it will be a substantial increase."

Adams said he said salaries of other officials are to be raised, and it would be "unrealistic" not to boost the pay for the governor.

Gov. Claude Kirk and his wife, Erika, are seen in a photograph taken at the Governor's Mansion. The photo shows them in a formal setting, with the Governor standing and his wife seated next to him.

# Charter Change Greeted Coldly

A complete charter change to expand the powers of the mayor in the City of Casselberry, as suggested by Mayor Arthur Whetstley, was met with little enthusiasm by City Council Monday evening.

Discussion of a new charter came to an abrupt halt when City Attorney Kenneth McIntosh estimated all costs involved in such legislation could total between \$1,500 and \$2,000. Council did agree, however, to consider minor charter changes including date of budget presentation.

Dr. Edith Duerr was unanimously elected chairman of the council to fill the vacancy created when Whetstley resigned as chairman to accept the office of mayor.

Charles Woodruff was elected vice chairman.

In other action, the board authorized the mayor to have a survey of the new Seal between \$1,500 and \$2,000. Council did agree, however, to consider minor charter changes including date of budget presentation.

Wilson voted no on the authorized presentation.

Accepted the low bid of Jim Lash Chrysler-Plymouth Inc. for \$2,700 including trade-in for two new Valiant police cars. Other bids were Seminole County Motors, \$3,122 and Hunt Lincoln-Mercury for \$2,805.

Rejected all bids on gasoline for the city's requirements and ordered the bids returned to the bidders.

Request for a zoning variance by the Ascension Lutheran Church to the Board of Adjustment, which met prior to the council meeting, was withdrawn. The church plans to build an educational building on property adjacent to the church.

The petition for the variance will be amended and resubmitted.

Richard Speck, bored and indifferent during first hours of his trial at Peoria, Ill., on charges of murdering eight Chicago nurses, became alert when prosecution asked for death penalty. (NEA Telephoto)

# Today Is Day Apollo 1 Was To Be Launched

CAPE KENNEDY, Fla. (AP) — Today is the day Apollo 1 astronauts Virgil I. Grissom, Edward H. White II and Roger B. Chaffee were to have been launched.

Instead of rocketing skyward in a blaze of glory to start the flight phase of America's Apollo man-to-the-moon project, the three pilots lie in their graves.

On the launch pad, the three Apollo 1 rocket combination come down today instead of going up.

Technicians were ordered to unstack two sections of the Saturn-Apollo vehicle today — the main Apollo 1 engine section, called a service module, and a cone-shaped adapter section which served as a spacer between the Apollo engine and the Saturn 1 booster rocket.

The \$40-million Apollo spacecraft — gutted by the Jan. 27 fire that killed Air Force Lt. Col. Grissom and White and Navy Lt. Cmdr. Chaffee — was taken down Friday and removed to a hangar, where a board of review searching for the cause of the blaze is having it dismantled piece by piece.

Wednesday, the blue ribbon board summarizes reports from its work panels for Dr. Robert C. Seamans, deputy administrator of the National Aeronautics and Space Administration, and Dr. George E. Mueller, associated administrator for manned space flight.

Richard Speck, bored and indifferent during first hours of his trial at Peoria, Ill., on charges of murdering eight Chicago nurses, became alert when prosecution asked for death penalty. (NEA Telephoto)

Liza and Peter took out a marriage license in New York after a two-year engagement. Liza is singer-actress Liza Minnelli, 20, daughter of Judy Garland and director Vincente Minnelli. She and Peter Allen, 23, Australian singer-composer, set the wedding date for March 3 at the home of a New York friend. (NEA Telephoto)

NEW FLORIDIAN  
MIAMI (AP) — Former Vice President Richard M. Nixon has bought a lot on suburban Key Biscayne. Nixon has vacationed on the island for the past 14 years. Donald L. Berg, developer of the lot, said he hoped Nixon would build a vacation retreat on the site.

LIZA AND PETER took out a marriage license in New York after a two-year engagement. Liza is singer-actress Liza Minnelli, 20, daughter of Judy Garland and director Vincente Minnelli. She and Peter Allen, 23, Australian singer-composer, set the wedding date for March 3 at the home of a New York friend. (NEA Telephoto)

# Labor Leaders Feuding

WALTER REUTHER

GEORGE MEANY

MIAMI BEACH, Fla. (AP) — United Auto Workers President Walter P. Reuther has an open invitation today to air his charges before the AFL-CIO Executive Council.

AFL-CIO President George Meany's invitation wasn't as warm as the airline advertisement to "come on down" to sunbaked Miami Beach.

But Meany said he is ready to listen to any "novel or ancient" charge, complaint, proposal or program.

Reuther, who quit the AFL-CIO Executive Council with a 7,000-word indictment that Meany's leadership had led organized labor into complacency, will be replaced on the council.

But Meany — without mentioning Reuther by name — said any officer of any union is welcome to bring his grievances before the council now or later.

In Detroit, officers of the UAW reportedly were planning to ask approval of their convention April 20 before committing \$3 million toward an organizing drive, social action programs and help for small unions seeking recognition or first contracts.

The UAW's 26-member executive board originally was reported considering making the offer in the 7,000-word manifesto outlining to local unions its reasons for what amounted to a threat to withdraw from the AFL-CIO.

But the board decided, top sources within the union say, to put it before the convention on grounds the board's constitutionally authority to set aside the money might be questioned. The added weight which convention approval would give the programs also was said to be a consideration.

Some sources in the UAW said other unions within the AFL-CIO might be challenged to match the UAW's \$3 million. Others thought the UAW might go it alone.

The UAW accused the AFL-CIO Feb. 9 of lagging in organizing, social action in such areas as civil rights, and in helping struggling unions.

# Fireman Saves His Moustache

NEW ORLEANS (AP) — Mayor Victor H. Schiro pleased voters who cultivate their upper lip by siding with a fireman who was suspended when he wouldn't shave his moustache.

Careening his own moustache as he spoke Monday, a fireman said he saw no reason a fireman couldn't have a moustache — if it is clean and trimmed like this.

Fireman Terry Gibson, suspended last Friday, was back on the job Monday — moustache-free.

# Demos Planning Task Forces

TALLAHASSEE (AP) — Florida Democrats expect to name 10 prominent present or past Democrat officeholders today who'll direct as many "task forces" in a statewide drive to elect party members to the Legislature.

Quincy Insuranceman Pat Thomas, state party chairman, said he's confirmed commitments for the area barnstorming tours scheduled for March 15-20.

The 10 task force chiefs will include former governors, U.S. senators and congressmen, state Cabinet officers and well-known legislators, he said.

Thomas said in an interview that the party's 112-member Advisory Council decided on the barnstorming technique at a weekend meeting in Panama City.

The 10 areas will be northwest Florida; north central Florida; Nassau, Duval, St. Johns and Flagler Counties; mid-central Florida; Palm Beach and Broward Counties; southeast Florida; and Dade County.

# 92 Persons Die In Landslides

RIO DE JANEIRO, Brazil (AP) — At least 92 persons are dead and many thousands homeless in Rio de Janeiro and surrounding areas following two days of heavy rains and landslides, officials said today.

Gov. Francisco Negroes said at least 52 persons were killed in Guanabara State, which includes the city of Rio. Many of them died in the collapse of a house and two apartment buildings in a fashionable Rio suburb.

Another 40 persons — most of them children — were reported killed in Nilorel, capital of Rio de Janeiro State, which adjoins Guanabara. Communication difficulties with other hard-hit cities kept the official toll incomplete.

Estimates of the total number of known species of true flies in the world range from 60,000 to 85,000, according to the Encyclopaedia Britannica.

**A. B. PETERSON JR. Seeks Seat In Legislature**

A. B. (Tommy) Peterson Jr. is a candidate for District 42, House of Representatives, Orange-Seminole Counties, the seat left vacant by Mack N. Cleveland's decision not to run. Upon announcement, Peterson expressed his interest in seeing Seminole County proportionately represented in the House. He further stated that he felt that all members of the Legislature representing the Orange-Seminole area should think of it as geographical location, have unique separate counties, realizing of course, that areas within the geographical location have unique and varied problems, and should be fairly represented. Peterson feels that his experience in working with business men and civic organizations operating in Orange and Seminole Counties will enable him to serve both counties impartially. Peterson, a third generation resident of Orange-Seminole Counties, is married to the former Penelope Parker, of Georgetown, S. C., and has two children, a daughter, Sara de Saussure, 17, and a son A. B. III, 12. He attended public schools in Seminole County, Bolton Military Academy, Jacksonville, and was graduated from Darlington School, Rome, Ga. He also attended the University of North Carolina prior to three years active duty with the United States Navy in World War II, and was graduated from John B. Stetson University. He has been a home owner in Central Florida for 20 years and has been actively engaged in the real estate business in the Central Florida area for 17 years. He has served as president of the Sanford Jaycees, Sanford Chamber of Commerce, was a founder, director and fund raising chairman of the United Fund, is on the Seminole County Historical Commission, Secretary of the General Sanforians, director and vice-president of the Central Florida Chapter, American Red Cross, and has been disaster chairman of the American Red Cross for 13 years. He is also a member of the American Legion, Seminole County Sportsman Association, and numerous conservation organizations, and of Holy Cross Episcopal Church, Sanford.

**First Methodist Sets Study**

First Methodist Church of Sanford will have the second session of its church-wide mission study on "Affluence and Poverty" at 7:30 p. m. Wednesday in Fellowship Hall. The devotional, "Who Is My Neighbor?" will be led by Miss Mabel Chapman. Mrs. Ashby Jones and Mrs. Lester Retzlaff will sing "O Brother Man." Mrs. C. R. Jones will present some of the problems of the Christian faces in dealing with Affluence and Poverty; Dilemma for Christians. "Almost Neighbors," a film will be shown. This film is designed to help persons consider their responsibility to meet human needs in their community. Everyone is invited to attend the session which is being planned by the Commission on Missions.

**Willing To Tell**  
BETHESDAVILLE, Ky. (AP)—A woman approached a clerk in the Post Office and asked for 50 cents worth of stamps. "What denomination?" he asked. "I sure never thought religion would go this far," she replied, "but I'm a Baptist."

## 'Flea Trainer' Named 'Miss Chinatown'

SAN FRANCISCO (AP) — Marilyn Lee, high school senior, will reign as Miss Chinatown USA during the Chinese New Year festivities in San Francisco.

The prankish, attractive 17-year-old from San Francisco received the Miss Chinatown honor last Saturday night. Her beauty, 36-25-36 figure and her act won the judges' favor.

"I was just an innocent little flea trainer," she says.

She pretended to have four fleas which were lost among the folds of her cheongsam, one of those sexy Chinese dresses with the slits up the sides. Her imaginary itch produced the action.

"I started to do a strip," she says. "But I didn't really take off anything but a scarf. Then I sort of waved it around."

Marilyn weighs 122 pounds stands 3-foot-6 and attends Washington High School. She is the daughter of Helen Lee Chen. After high school she wants to go to San Francisco State College and then to the University of Hawaii. She'd eventually like to become an airline stewardess.

The 16 beautiful girls of Chinese ancestry came from as far as New York and Honolulu to compete. For the first time the pageant included a swimout contest and the 2,300 persons in the audience seemed to approve.

Runner up was Cynthia Pang, 21, of San Francisco, named Miss Chinatown, San Francisco. No other places were announced.

According to the Chinese calendar, the year of the Ram, 1967, started Feb. 9. The new year festivities continue here until Feb. 23 when the traditional New Year parade snakes its way through downtown San Francisco and into Chinatown. Marilyn wins a trip to the Orient for herself and her mother.

## Romney Tours His Hometown

IDAHO FALLS, Idaho (AP) — Gov. George Romney of Michigan, on a political sortie through his boyhood homeland, called today for a national "time of time" to help solve this nation's ills.

In a speech prepared for delivery at a Republican luncheon in Idaho Falls he said "Four hours—10 percent of a 40-hour week—spent in well-conceived voluntary effort at the local level could reshape America faster than federal programs ever will."

Nothing usually refers to the voluntary effort as a contribution of one-tenth of one's income to a church.

Romney, a Mormon who believes in sifting—money or time said a recent national survey showed that more than 81 percent of adult Americans said they would give four hours a week to productive citizen service.

"These 245 million men hours would equal the total output of the automobile, food processing, railroad, department store and clothing industries," he said.

This was Romney's second day of visiting friends and land-marks of the past while assessing future political support in tow home states.

Two former homes and the grade school where he was valedictorian were on the "member when" itinerary. Politics in southeast Idaho was scheduled for a conversation at Black College in Heberburg and a dinner at Idaho State University in Pocatello.

Romney made the most of Monday in Utah defusing his religious convictions and running hard against the Johnson administration.

He chose the heartland of his family and church to tackle a religious issue that without question will repeat itself if he does make a race for the presidency. His Church of Jesus Christ of Latter-day Saints refuses the get-together—open to all white males over 12 to Negroes.

"If my church prevented me from seeking to eliminate social injustice and racial discrimination—as I have for 25 years—I would not belong to it," Romney told the Salt Lake City Ministerial Association, "but that's not the case."

He stressed his own record on civil rights.

# Heart Sunday

The case for Seminole County citizen contribution to the annual February Heart Fund Drive Sunday is easy to make. More than half the yearly deaths in the county result from heart ailments and related blood vessel diseases.

Some people may imagine that with the federal government established in heart research through the national heart institute, there is no need to enlarge private research efforts or perhaps even maintain them at current levels.

Obviously, however, the more individuals undertake the guidance of the American Heart Assn. The agency's research committee says "other scientifically meritorious" inquiries could be started if more money were available. But as matters stand, rising research costs actually are constricting present efforts.

The call, therefore, is for a bigger 1967 contribution than the \$26 million reached the two previous years.

James Marlow

## Analysis Of The News

WASHINGTON (AP) — It's answer, that he is entitled to time there was more concern for the victim of a crime and a little less for the accused.

This is the point made by seven members of President Johnson's 19-member crime commission, appointed in 1965, whose 346-page report was made public Sunday.

To get action the seven commissioners, whom the amendment didn't join, suggest an amendment to the Constitution.

Crime suspects — thanks to a Supreme Court decision last June — now have more protection against police questioning and therefore against conviction, than at any time in American history.

A wave of criticism has rolled over the court since its decision was its interpretation of the Constitution's protection for an individual's rights, no matter who he is, the victim of a crime or the accused.

To combat crime, the crime commission made 200 recommendations which would cost billions of dollars and endless effort, thinking, changes and social adjustments.

This comes as the crime rate steadily rises. The seven commissioners in addition think a constitutional amendment is needed to strengthen law enforcement by undoing some of the court's decisions in order to give individuals more protection against criminals.

Summed up, this is what the court said last June in upsetting the conviction of a man charged with rape. Before police questioning a prisoner they must tell him clearly he does not have to answer.

### As Soon As He Could

LOUISVILLE (AP) — When one of the boys in her class failed to report, Mrs. Alfred Simpson asked his sister where he was.

"Why," she replied logically, "he was 16 yesterday."

Kentucky law makes school attendance mandatory until the 16th birthday.

### Helen Fuller Says: 'Privileged Pursue'

WASHINGTON (AP) — The main topic of talk in Washington is the latest lifting of the curtain on the Central Intelligence Agency.

The CIA has lived in the privileged sanctuary provided by an unlimited and never balanced checkbook. Its funds come from the President's "privileged purse" provided by Congress for private purposes.

Now it appears that at least 11 other such supposedly private, non-governmental organizations were similarly enveloped in the intelligence network.

Few would quarrel with the purpose for which the student handouts from the government were made in the 1950s. Youth from Communist countries had free plane tickets and bed and board at every international youth conference in the world—and there were many of them. Their purpose was to win over the young people of the uncommitted nations to their side.

Most American student leaders did not have the fare to go to the distant meetings where they would meet the future leaders of Africa, Asia and South America gathered there.

The CIA is therefore fair game for Washington sharpshooters when some secret chicken feeds the coop.

That happened last week when it became general knowledge that U. S. Central Intelligence has been subsidizing American student organizations in their activities abroad.

First it came out that the National Student Association, a well-established respected group, had for 13 years received thousands of dollars to finance its work overseas.

Now it appears that at least 11 other such supposedly private, non-governmental organizations were similarly enveloped in the intelligence network.

Few would quarrel with the purpose for which the student handouts from the government were made in the 1950s. Youth from Communist countries had free plane tickets and bed and board at every international youth conference in the world—and there were many of them. Their purpose was to win over the young people of the uncommitted nations to their side.

Most American student leaders did not have the fare to go to the distant meetings where they would meet the future leaders of Africa, Asia and South America gathered there.

### Bruce Biossat - Ray Cromley Political Notebook

WASHINGTON (NEA)—The space program may face a rough road in Congress in the months ahead.

Rumblings already are being heard on Capitol Hill over continuing the Administration's \$5 billion a year space expenditures while the Vietnam war costs are running so high.

For months the mood for a slowdown has been strong, even among some avid space supporters. A slash of almost \$400 million has been predicted.

Signs are that the tragic accident in which astronaut Virgil Grisson, Edward White and Roger Chaffee died added strength to the "let-slow-down" group's arguments.

The focus of its attack is likely to be the after-the-moon program budgeted for almost a half a billion dollars in President Johnson's fiscal 1968 proposals.

This includes:

- Manned flights in earth orbit up to one year's duration
- ... using a multiple rendezvous technique and reusing empty rocket tanks and other systems left in orbit.
- Manned exploration missions of up to 14 days on the surface of the moon.

It is a program in which we have no major commitment. It does not at present have the glimmer of the moon race.

A strong campaign against a major assist in winning Johnson's Senate race last November.

This would be the wrong time, however, to cut back on a major assist in winning Johnson's Senate race last November.

Exactly this long-time-ahead planning and development which will insure greater space program expansion.

By and large, the post-Apollo program as now worked out is a relatively cautious program, though dangerous, of course, as any exploration into space.

As has been mentioned, it would do better with a diversion of more funds to basic and state-of-the-art research.

But the big danger is that we will cut back on the program now, then later decide that we have to keep ahead of the Russians. This could lead to a crash program and the crash fever which goes with it. Such a rush program would mean greater chance of a killing and therefore a greater risk in general.

What is called for is a new look at the space program with a view to improving the U. S. approach.

For one thing, full use has not been made of the tons of data gathered from the hundreds of manned and unmanned space shots, big and little, which the United States has conducted over the years.

The tendency has been to cream off the relatively easy-to-use data and pass on to the next shot.

Hidden in this data lie some of the answers to a number of space problems—including missile firings, malfunctions and accidents.

It would be well if the Congress would appropriate the modest sums necessary to put research men digging deeper into this data. It would save money and lives in the long run. These funds could be taken out of other parts of the program.

### Dr. Crane's Worry Clinic

Kitty's question should be published on every college campus, for Journalism students deserve more credit than they have thus far received. The newspaper is our best educational agency during our 20 adult years. Note some of the psychological suggestions for analyzing features.

CASE 8-388: Kitty J., aged 20, is a journalism student.

"Dr. Crane," she asked during a forum after my address at her college, "have you any psychological suggestions about the content of a newspaper?"

"My father is a publisher of a small daily and I may become its managing editor some day.

"Or do you feel that I should study to be a school teacher instead of an editor?"

The newspaper is the greatest single educational agency in our land, not even excepting the public school system.

For most people stop their classroom education by the age of 20.

Yet they live, on the average, to 70, so during their 50 adult years where do they obtain the current facts for their arguments at luncheon clubs or the Country Club or at neighborhood meetings?"

From the newspaper!

### Small Powers Block Nuclear Weapons Pact

GENEVA (AP) — The smaller powers blocked the chief obstacle to agreement as the United States, the Soviet Union and 15 other nations resumed efforts today to work out a treaty banning the spread of nuclear weapons.

The 17 nations participating in the United Nations Disarmament Conference today have the treaty ready by the last week in September when the U.N. General Assembly convenes in New York.

Unlike past sessions, this one is not expected to produce any major treaties between the United States and the Soviet Union.

The main sticking point between the two is a provision for international inspection to determine whether non-nuclear nations comply with the treaty. Soviet negotiator Alexei Hoshchin said the Soviet Union could not accept this provision.

Prospects of working out a meaningful treaty were also marred by the fact that two of the five nuclear powers, Red China and France, refused to advance to sign it.

The main trouble, however, stems from the countries which do not have nuclear weapons but do have an advanced nuclear industry which could make a bomb in a short time.

Chief among these are West Germany, Japan, India, Italy, Sweden, Switzerland and Israel.

They have two chief complaints:

- The superpowers have not yet joined in offering them binding guarantees against attack from Red China. This particularly worries India.
- They have no guarantee that they will not be used in industrial discoveries which the nuclear powers may make in the course of experiments on weapons.

The West Germans have also complained that Soviet inspectors, checking to keep bombs from being made, will spy on peaceful research.

### Lyman High Majorettes Are Champions

By JANE CASSELL HERRY  
Lyman High School "A" Corps majorettes were chosen grand champions of the "Youth on Parade" Majorette contest in Kissimmee, competing against over 200 majorettes from Central Florida High Schools.

The "A" Corps received first place in large team competition and second in dance twirl. "B" Corps twirlers were judged first in the small team group and dance twirl.

Debbie Baechus won first for solo beginner and was chosen grand champion.

Karen Carreras was chosen queen in the beauty contest.

Dynamically, "Grand Champion" of the contest, which is judged on twirling and strutting, as well as beauty, and third in strutting division.

She has better attitude and Baechus won first in the duet division and Sandy took third in solo.

The annual championship award was given Connie Murry, head majorette, who won first in solo dance twirl, and second in solo, strutt, military strutt.

Barbara Weyers and Kathy Brunning took second place in duet.

Judy Carson came in third in the beauty contest and fourth in solo.

Alice Deppen won third place in solo.

### Family Life Is Topic For Club Meet

By FRANCES WESTER  
The Lake Mary Homemakers Club met on Valentine's Day for their February program and luncheon in the Fire Hall.

Pat Barry had charge of the program entitled "Live Longer Dynamically." Great stress was put on family life together, especially feelings toward the older people. They should be helped to have better attitudes and philosophies toward growing old, and encouraged to have a hobby.

Members were invited to attend a meeting and tour of the agricultural experiment station, Virginia Tomlinson reminded members of the dress review to be held April 14, and about the Orlando Fair when the Lake Mary group will have charge of the Homemakers Booth Feb. 23 and March 10.

Table decorations for the luncheon served at noon were white orchids placed in a white heart of glue. The orchids were from Gladys Chartwick's orchid house.

Happy Birthday was sung to Libby Smathers and a heart cake was presented to her with an orchid.

Those present were Jean Tyner, Helen Powell, Mae Smith, Margaret Ulmer, Kay Sassen, Libby Smathers, Pat Barry, Gladys Chartwick, Virginia Tomlinson, Vera Cook, Hazel Moss, Edith Dixon, Emma Seibert, Thelma Sikes, Alice Cleverly, Mildred Sandley, members, and three guests Mrs. Joyce Boyles, Mary Jo Floyd, and Mabel Miller.

### Altamonte Would Be City

(Sends in a series of articles on what county municipalities are planning for the coming legislative session)

By DONNA ESTES  
Altamonte Springs will become the fourth city in the county under its new charter which is being proposed for the town and will be submitted to the legislative delegation.

Altamonte was first incorporated as a town in 1921 and its charter has been revised many times since then.

The government would remain strong mayor type. Powers of the mayor would be expanded to make him a member of council with full voting rights. Under the present charter, the mayor can only vote in case of a tie.

According to the elections code, candidates to the offices of mayor and councilman would have to be residents of the city for one year and be freeholders. Current charter permits election to the board if a resident for only six months with no requirement as to land ownership.

Plurality will no longer be the determining factor in winning an election to the office of mayor.

Penalties: Conviction of violation of city ordinances could result in forced labor for the cities by violators failing to pay fines.

Hot pursuit—City police could pursue violators of city ordinances outside the city limits.

Trains—Speed of railroad trains within the city could be regulated.

Water resources—The cities could control the development and use of streams or bodies of water inside the city.

Trains—Speed of railroad trains within the city could be regulated.

### Candidate Would Move Capitol To Orlando

John A. Baker, Orlando attorney, today announced he has qualified as a candidate for the House of Representatives, in the newly created District 45, representing Orange and Seminole Counties.

Baker, a native Orlandoan who has practiced law in Orlando for nearly 11 years, said in his announcement statement, "I dedicate and pledge the experience of over ten years of service in city, county and state government to all the people of this district, in providing leadership to meet the problems which face us in the wonderful yet testing times ahead."

"The time is now," said Baker, "for the Legislature of this State to take the initiative in meeting the needs of its booming population.

"The State Capitol should be moved closer to the people so that the people's business can be conducted in full view of those affected most—the people themselves. And Central Florida is the logical location to accomplish this end.

"The heavy cost of furnishing these facilities of benefit to the entire state must not be added to the already burdensome load of real estate taxes. The State should participate to a major degree in such things as road facilities leading to Disney World, the development of the Sanford-Titusville Canal, the full funding of Florida Technological University at its present site, and the development and improvement of our entire educational system with the best teachers and the best facilities in the nation.

"Having past and present responsibilities in the prosecution of criminals," Baker said, "I am keenly aware of the ever increasing burden placed on undermanned, underpaid and under-equipped local law enforcement agencies in battling crime which inevitably follows growth in population. The state has an obligation to its citizens to assist and cooperate with local agencies in fighting crime, which has no respect for county boundaries.

Baker, Orlando City Attorney for five years, is a graduate of Rollins College and the University of Florida Law School. A former county president and district vice-president of the University of Florida Alumni Association and member of the Board of Directors of the Rollins College Alumni Association, he is a member of the Orange County, Florida and American Bar Associations, and the National Institute of Municipal Law Officers serving on several national committees concerned with local government, metropolitan area problems and airport development. He served five years in military intelligence with the Army Reserve.

Baker has been a member of the legislative and local government committees of the Orlando Area Chamber of Commerce and has represented the City of Orlando and the Florida League of Municipalities before the Florida Legislature at all regular and special sessions since 1959.

Baker is married to the former Nell Troy Kincaid of Orlando and they have four children. He and his wife are members of the First Methodist Church of Orlando.

### Miami Beach Bids \$1 Million For GOP Meet

WASHINGTON (AP) — Miami Beach and San Francisco bid for the 1968 Republican National Convention today amid reports the Florida resort city will offer \$1 million to become host.

San Francisco paid \$500,000 to host the 1964 Republican convention.

The reported \$1 million offer by Miami Beach failed to dim enthusiasm of representatives from Chicago, Houston, Los Angeles and Philadelphia, who met Monday with the GOP state committee.

The Republicans have established minimum standards for any city expecting to hold the convention. Among them are adequate meeting facilities, a minimum \$500,000 to defray expenses and the availability of 10,000 rooms within a short distance of the convention hall.

Only Philadelphia, among those making presentations Monday, offered more than the monetary minimum when it bid \$750,000.

The four cities which appeared Monday all said they expected the city with the best facilities to get the convention. Each claimed it has the best facilities.

### Cakewalk Set In Chuluota

The Greater Chuluota Community Club will sponsor a cakewalk at 6:30 p. m. Saturday in the recreation area.

Donations of cakes for the event will be appreciated and those wishing to contribute a cake may contact Thelma Coberly or Lee Worley, co-chairman, to let them know when the cakes will be ready for pick-up in the recreation area.

The cakewalk is open to the public and residents of surrounding communities. There will be music for dancing between each "walk." Proceeds will be used for improvements on the recreation area and its facilities.

## National Debt Hike Before Senate Today

By JOE HALL  
WASHINGTON (AP) — The Senate considers today whether to raise the national debt ceiling a step the Treasury says is necessary if the government is to pay all its March bills.

Senate Democratic Leader Mike Mansfield predicted relatively easy passage of the administration measure to hike the debt limit \$6 billion to \$330 billion.

While the Senate attempted to solve the government's financial Statistics had a word of economic cheer for the average citizen.

Bureau Commissioner Arthur M. Ross reported Monday that the cost of living remained steady last month and showed a gain of only two-tenths of 1 percent in a three-month period ending in January.

Ross interpreted the recent stability of living costs as a "satisfactory trend" but a stopped short of calling it a steady trend.

Secretary of the Treasury Henry H. Fowler said at a Senate Finance Committee hearing last week that he must have the \$6 billion debt limit boost by the end of February. Without it, the government would not be able to pay its March bills, he said.

The \$30 billion ceiling voted last summer by Congress had been expected to last through the present fiscal year ending June 30.

Sounding Vietnam war costs forced President Johnson to ask for the emergency bill now up for action.

Cost of living figures released Monday show the January price index held steady from December at 114.7. That means consumers paid \$14.7 in January for goods that would have cost them \$10 in the 1957-58 base period.

Food costs dropped slightly at did apparel and transportation. Increased costs were reported in housing, utilities and medical care.

"We had a price bulge in 1966 and we expected it to taper off and it is," said Ross. "But we didn't think we'd be chopped in one slice and it isn't. But it is encouraging thus far."

Blonde and Regal Mrs. Robert (Jane) Bessner models one of the many costume outfits available at the Village Shop, 2640 Hiawatha Avenue.

The slim-line dress and unlined three-quarter, double-breasted coat is in black and white waffle-weave, 100 per cent cotton.

## Automakers Comply With Pollution Laws

DETROIT (AP) — The nation's four major automakers today were told the "internal combustion engine can be cleaned up a great deal." They replied that much had been done already along this line.

Testifying before a Senate subcommittee on air and water pollution, the automakers said they had done much work to comply with federal standards for air pollution control on 1968 model cars.

Sen. Edmund S. Muskie, D-Maine, chairman of the subcommittee, said the purpose of the hearings was to determine whether the automakers would meet the standards for 1968 model cars prescribed by the secretary of health, education and welfare.

Under the Clean Air Act passed in 1963 and amended in 1965 and 1966, the secretary of HEW was given the authority to issue standards prescribing the maximum amounts of pollutants allowable in new cars.

The department of HEW says that for most vehicles the standards mean roughly a 50 per cent reduction in the discharge of hydrocarbons and a 60 per cent reduction of carbon monoxide.

Cost of living figures released Monday show the January price index held steady from December at 114.7. That means consumers paid \$14.7 in January for goods that would have cost them \$10 in the 1957-58 base period.

Food costs dropped slightly at did apparel and transportation. Increased costs were reported in housing, utilities and medical care.

"We had a price bulge in 1966 and we expected it to taper off and it is," said Ross. "But we didn't think we'd be chopped in one slice and it isn't. But it is encouraging thus far."

## Jurist Warns Against Physical, Mental Smog

A jurist warning to beware of the dangers of smog—physical and mental—and a call to action was given the Sanford Rotary Club on Feb. 20 by Circuit Court Judge Richard (Dick) Cooper of Orlando.

Judge Cooper projected his talk against the background of two national situations. One was the newly activated drive to clean the air of physical pollution. The other was the increasing disquiet which has clouded national thinking and has set "Americans against Americans."

He cited the instance of a Pennsylvania city which on Oct. 26, 1948 found the fumes from its factories held low by an inversion of atmosphere. Of its 14,000 inhabitants, 3,010 were declared ill by physicians and two "persons died because of unclear air." The judge cited this as no isolated instance but pointed out the troubles of air pollution in Central Florida "where the phosphate operations have fouled the air and caused illness here."

Cost of air pollution in America runs as high as \$7 billion a year, cooperative farmers in Czechoslovakia suffered injuries at their jobs last year, missing as many working days as if 4,200 farmers had not worked all year, the Central Commission of Inspection and Statistics reported.

## U. S. To Force Gasoline Price Drop

WASHINGTON (AP) — The government will move to force gasoline prices down by increasing imports unless oil companies roll back one-cent per gallon increases this week. Undersecretary of the Interior Charles F. Luce said today.

Luce, heading government attempts to get to oil companies to rescind price hikes, outlined in an interview three steps the government might take to increase gasoline supplies.

— Reallocate to importers the quota of 30,000 barrels of petroleum products which the Defense Department currently is not using. The quota now is filled as part of the administration effort to reduce the balance-of-payments deficit.

— Shift from domestic to foreign oil producers some Defense Department purchases now made for overseas use. The shift would put more oil on the non-governmental domestic market.

— Allow Commonwealth Oil Refining Co. to ship in more gasoline from its Puerto Rico refinery; increase the quota that Hess Oil Co. is allowed to bring in from its new Virgin Islands refinery.

Should these steps prove ineffective, said Luce, the government could work to increase crude oil production by holders of leases on federal lands.

All the increases to date have involved gasoline prices east of the Rocky Mountains.

One major distributor — Humble Oil & Refining Co., principal marketer of Standard Oil Co. of New Jersey — has not upped its prices.

Luce has urged Humble to hold firm and said this could eventually force the other companies to back down. Humble has an estimated 10 per cent of the market.

Luce indicated the government might not have opposed an increase of less than one cent specifically designed to benefit dealers and jobbers.

More rivers rise in Colorado than in any other state, hence the state's nickname of "Mother of Rivers."

Statistics indicate 600,000 "functional illiterates" are being graduated each year, members of the All Souls Home and School Association were told at the association's recent March 2nd meeting.

Brookfield Spends Money

BROOKFIELD, Ill. (AP) — Brookfield Zoo plans to renovate and develop its facilities in a multimillion-dollar program.

George E. Beach Jr., chairman of the zoo's Development committee, said \$5.5 million is needed for the creation of an animal farm for the breeding of rare and nearly extinct species.

Among the renovation projects are a modernized primate house, lion house, a new reptile house and a jungle building.

It will permit the public to take a walk through a jungle setting where several species of large and small animals will be living together in a simulated natural habitat.

## U. S. Seeks \$\$\$ To Fight War

WASHINGTON (AP) — The federal government is expected to unveil today a new higher interest savings bond it hopes will attract up to \$1 billion over the next year to help fight the Vietnam war.

An interest rate of between 4.5 and 4.75 per cent will be offered only to persons who buy savings bonds on the payroll savings plan or the bond-a-month plan.

The Treasury Department scheduled the kickoff for its 1967 bond drive with a closed circuit telecast at luncheon bond rallies in 32 cities.

Last February, the government raised the interest rate on Series E and H savings bonds, the types most frequently bought by the public—from 2.75 to 4.15 per cent.

Before today's luncheon, spokesmen for the savings and loan industry, which protested the new bond starting last year, predicted the department would offer an interest rate of about 4.6 per cent.

Even a 4.5 per cent rate is too high, said the National League of Insured Savings Associations.

The new bond was first discussed late last year, the department was reportedly considering a 5 per cent interest rate. This was protested immediately by banks and savings and loan associations.

Financial institutions feel a high interest government bond might drain deposits from them.

## Home Loan Rates To Stay At Status Quo

WASHINGTON (AP) — Despite easier credit conditions, interest rates on government-backed home mortgages are likely to remain at their current record high levels during the immediate future.

Both the Federal Housing Administration and the Veterans Administration said today they are watching the mortgage market closely but neither sees any quick drop from the current 6 per cent rate permitted on FHA and GI home loans.

"I don't look for anything right away," one government source said when asked about the possibility of lower interest rates on mortgages insured by FHA and guaranteed by VA.

Government officials are hesitant to predict when lower FHA and VA interest rates might come. One source said such a move normally would be preceded by meetings of government mortgage officials. He noted this hasn't happened yet.

Lower interest rates are a goal of the Johnson administration.

Menon won landslide victories in 1957 and 1962 when he had the support of the ruling Congress party and the late Prime Minister Nehru.

### College News

Upsilon Theta Chapter of Chi Omega, Texas A and I, Kingsville, would like to announce the initiation of Patricia McGuire, daughter of Cdr. (Ret.) and Mrs. J. F. McGuire of Sanford.

Linda Lee Green, daughter of Mr. and Mrs. Curtis Green, of Lake Mary, was recently chosen one of the five best dressed girls at Troy State College in Troy, Ala. Linda is a second quarter sophomore at Troy majoring in Elementary Education.

Linda was chosen from a group of 27 girls competing to be the contest. The girls were judged for a week and the final judging took place at a tea at the home of the president of the college, Dr. Ralph Adams.

Linda was also in the 1966-67 Basketball Contest this year during the annual basketball tournament.

### Miss Shaw Bride Of B.L. Posey

Miss Melanie Ann Shaw, daughter of Mr. and Mrs. Garland Shaw of Longwood, and Billy Lavigne Posey, son of Mr. and Mrs. George Phillips of Estis, were united in marriage, Feb. 10 at 8 p.m. at the home of Mr. and Mrs. Forrest French of Lake Kathryn.

Miss Shaw, sister-in-law of the bride, played appropriate organ music including "O Promise Me" and the "Wedding March" for the occasion.

The French home was beautifully decorated with baskets of white wedding flowers.

Given in marriage by her father, the bride chose for her gown, a full length gown of white satin tulle with Empire lines. The gown was designed with a scooped neckline and lace sleeves.

Her shoulder length veil of English illusion fell from a princess crown of seed pearls and crystals and she carried a cascade of white rosebuds centered with a corsage of carnations.

Miss Marianne Hopkins attended the bride as maid-of-honor, attired in a formal gown of pink net over tulle with white satin trim. Her bridesmaid of pink illusion was held by a tulle bow and she carried a bouquet of pink rosebuds and carnations.

Miss Jonelle Farina, the bride's cousin, kept the bride's book. David Alan Rue served the groom as best man.

For her daughter's wedding, Mrs. Shaw chose a beige linen ensemble with matching coat. She wore an orchid corsage.

Mrs. Phillips, mother of the groom, wore a blue crepe two piece dress and matching accessories. She also wore an orchid corsage.

Following the wedding, a reception took place at the French home.

Assisting Mrs. French were Mrs. Delton Helms, and Mrs. John Farina, aunts of the bride and Miss Jan Phillips, sister of the groom.

Serving for the reception was surrounded by baskets of mums and fern and centered with a three tiered wedding cake topped with a miniature bride and groom.

For traveling the bride wore a navy and white suit with matching accessories and the corsage from her bridal bouquet.

Following a wedding trip to the Florida East Coast, the newlyweds are residing at 414 W. Key Avenue, Estis.

Among the out-of-town wedding guests were Mr. and Mrs. Emory Brown and son, Gary, and Mr. and Mrs. A. Bagus of Tampa, grandparents of the groom; Mrs. Carl Lee of Cocoa and Mrs. Nell Baker and daughter Suzanne, Mr. and Mrs. Ron Schroeder and Bob Bechtel of Estis.

MR. AND MRS. BILLY L. POSEY

### Mrs. R. Ware New Garden Club Prexy

The North Orlando Garden Club named a nominating committee to draw up next year's slate of officers at the February meeting at the home of Mrs. Ralph West with Mrs. Frank Albers as co-hostess.

Serving will be Mrs. George Fuller, Mrs. Franklin Wick and Mrs. George Duquette.

The ladies also discussed plans for the flower show to be held jointly with the Lake Mary and South Seminole Garden Club, April 1.

Other business included establishment of a building fund with a portion of future fund raising projects set aside for this purpose.

At close of the business meeting, the president, Mrs. Jack Riddley, tendered her resignation and presented the gavel to Mrs. Raymond Ware. The Riddleys will leave the area the latter part of the month to make their home in Bermuda.

Miss Linda Beatty of Daisy Flower Show conducted the workshop program, giving instruction on the fine points of corsage making.

Enjoying refreshments of coffee, cake, punch, chips and dips, were the regular members and guests, Mrs. Ruth Williams, Mrs. Edwood Besamus, and Mrs. Albert Hullock, and a new member, Mrs. James Vergett.

Dinner was won by Mrs. Thomas Peterson.

Warped phonograph records can sometimes be straightened if they are placed on a flat surface in a warm room and weighted down with books. Leave them there for a few days, at least.

MRS. RAYMOND WARE, president of North Orlando Garden Club, receives gavel from retiring president Mrs. Jack Riddley (top photo). Co-hostesses for the last meeting were Mrs. Frank Albers and Mrs. Ralph West (bottom photo).

HEAVY BOOKS STRAIGHTEN WARPED RECORDS

ORIGINAL SCULPTURE and ceramics were exhibited by Mrs. Pearl Rosemont and Mrs. Carolyn Lassiter of Orlando. Mrs. Rosemont has won first prize with her sculpture at the Central Florida Fair and Mrs. Lassiter has used the design of Spanish doubletons found by treasure hunters as the inspiration for many of her articles.

### Arts, Crafts, Hobby Show Attracts Area Enthusiasts

Over 50 varied and interesting exhibits were shown in the successful third annual Arts, Crafts and Hobby Show sponsored by the Woman's Club of Casselberry Saturday at their clubhouse on Overbrook Drive.

Approximately 150 viewers came to enjoy the show, according to Mrs. Carl Jack, chairman. Mrs. Edward Pender and Mrs. Harold Kryder were in charge of publicity and others on the working committee included Mrs. C. L. Overman, Mrs. George Lotwick, Mrs. E. W. Hawthorne, Mrs. Isabel Taylor, Mrs. Eugene Ellis, Mrs. Paul McClure, Mrs. William Otto, Jr., Mrs. E. J. Mower, Mrs. Charles Woodruff, Mrs. Edward Linn, and Mrs. Kenneth Green.

Club members exhibiting included Mrs. Taylor, antique glass and china, stuffed dolls and animals; Mrs. Kryder, aluminum trays; Mrs. Green, collection of elephants; Mrs. Ellis, African violets; Mrs. Stanley Haspport, ceramic lamps and paintings; Mrs. Charles Woodruff, paintings, fabric sculpture and needlepoint; Mrs. Arnet Byers, shells and pine needle purses; Mrs. George Lotwick, paintings; and Mrs. Ruth C. Hinton, tropical fish.

Mrs. Max Yelton of Casselberry gave a demonstration of a new technique using stain and ceramics as well as showing her ceramics.

Mrs. C. L. Cooper, Casselberry, demonstrated how to do fabric sculpture and displayed some finished figures as well as paintings and paper mosaics. Water color painting was demonstrated by Mrs. Leora King of Altamonte Springs, who exhibited her work.

Other artists included Mrs. Shelia Abelin, Apponia, paintings and collage; Mrs. Paul Mildred C. Jones, Sanford; Mrs. William Cramer, Longwood; Mrs. Jeff Elliott, Longwood; Mrs. Joyce Steiger, Altamonte Springs; Mrs. Frances Yerger, Maitland; Paul C. Altman, and Gladys Altman, Longwood; John Vroeland, Fern Park; Mrs. Catherine Dodson, Lake Mary; Wayne Rieff, Longwood (croquet exhibition); Mrs. Albert Olsen, Casselberry; Mrs. Marion Nichols, Altamonte Springs; and Mrs. Bertha Nichols, Longwood.

Sculpture was displayed by Mrs. Pearl Rosemont and Mrs. Carolyn Lassiter of Orlando.

The following members of the Maitland Garden Club Craft Class exhibited: Mrs. Frank Quinn, pine needle purses and group plaques; Mrs. Virginia Kline, fruit and topiary vegetable arrangement; Mrs. B. Paoletti, Mexican flowers; Mrs. Jay Daley, pine needle purses; Mrs. Margaret Nichols, enamel, ceramics; and Mrs. Lois Sammons, Altamonte Springs, plaques of natural materials and opalized flower arrangement.

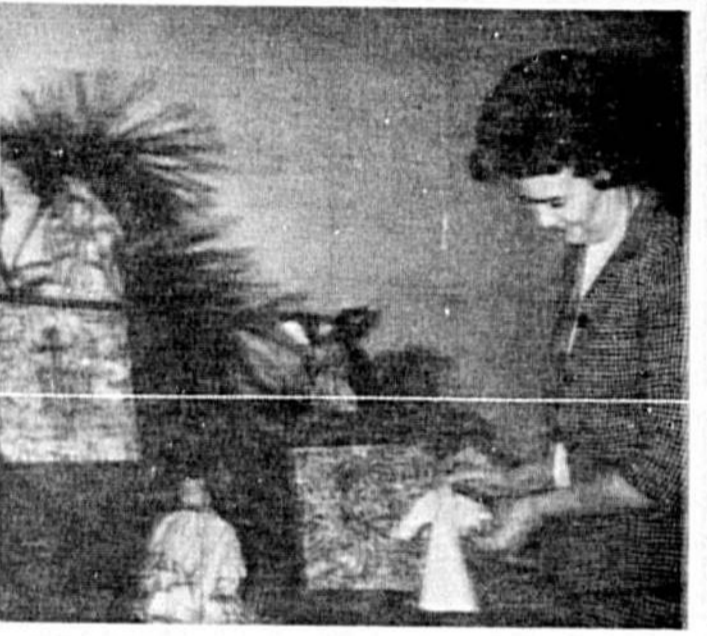

Antique dolls and buttons were shown by Mrs. H. B. Kelle, Winter Park, who has exhibited something different each year.

Mrs. Ruth Magnuson of DeBary also displayed her beautiful collection of antique dolls, which she made clothes for in the style of the period.

Mrs. J. Lawrence Ward of Sanford displayed his collection of butterflies and motifs. Fans and shawls from foreign countries were shown by Mrs. Harman Joyce, Casselberry; copper enameled by Mrs. Peggy Brunnings, Casselberry; patio table, Mrs. Je. Monroe, Longwood; shells and plaques, Mrs. E. C.

ALTAMONTE ARTIST Leora King paints arrowheads and china, stuffed dolls and animals; Mrs. Kryder, aluminum trays; Mrs. Green, collection of elephants; Mrs. Ellis, African violets; Mrs. Stanley Haspport, ceramic lamps and paintings; Mrs. Charles Woodruff, paintings, fabric sculpture and needlepoint; Mrs. Arnet Byers, shells and pine needle purses; Mrs. George Lotwick, paintings; and Mrs. Ruth C. Hinton, tropical fish.

THE ART of fabric sculpture is demonstrated by Mrs. C. L. Cooper of Casselberry, who paints under her first name "Alho". A display of the finished figures and paper mosaics of church symbols are shown.

ANTIQUE DOLLS from her collection were shown by Mrs. Ruth Magnuson of DeBary at the Casselberry Arts, Crafts, and Hobby Show.

Boardman, North Orlando; and woodcraft by Ernest Vance Casselberry.

Mrs. Elizabeth Bradley Benn, Maitland, showed her china painting and beautiful ceramic chess set and table which she made.

BEAUTY, POISE AND PERSONALITY reigned Saturday night at the Sanford Armory at the first annual Sweetheart Ball of Beta Sigma Phi. Eleanor Butler, Valentine Queen, is seen here with Gerri Johnson, Phi Delta Zeta.

### Eleanor Butler Named Valentine Queen At Beta Sigma Phi Sweetheart Ball

In a beautiful Valentine setting Saturday night at the Sanford Armory, Eleanor Butler was crowned Valentine Queen at the first annual Sweetheart Ball sponsored by Beta Sigma Phi.

The seven contestants were escorted to a platform, carpeted in red and each stepped through a huge her heart as Bill Reck, MC, reviewed their background.

The spacious Armory was colorfully decorated for the gala formal ball which attracted more than 200 Beta Sigma Phi's and their guests.

The evening's entertainment provided the music for dancing.

Overall Ball chairman was Pat Largent with Ben Butler as judge coordinator.

The prominent past of judges for the pompous tea included Mack Cleveland Jr., Kay Shoemaker, Fran Carlton, Miss Miriam Rye and Miss Valerie Rye.

The bride-elect attended South Lancaster Academy, Lancaster, Mass., and is a graduate of Forest Lake Academy, she is employed at the State Optical Supply Company in Orlando.

Her fiance is a graduate of Forest Lake Academy, attended Southern Missionary College in Collegedale, Tenn., and is employed at the Mussewitz Hatchery.

Grandparents of Miss Ramsdell are Mr. and Mrs. Clifton Lee, South Lancaster, Mass., and Mr. and Mrs. Clifton Ramsdell, Bownton Beach.

Grandparents of Mr. DeMott are Mr. and Mrs. H. S. Woodwhite Sr. of Forest City, Mrs. Hattie DeMott, Apopka, and Otis DeMott, Jacksonville.

The marriage will be solemnized at the Forest Lake Seventh-day Adventist Church, March 5, at 7:30 p.m.

Heat Welsh rarebit sauce and serve with omelet - plain or fluffy.

Wonderful fat bedtime - small hot muffins served with lemon butter, homemade or bought.

### Interior Decorating Tips Given At Club Luncheon

The American Home and Fine Arts Department held a covered luncheon with Mrs. Earl Weidson, Mrs. W. L. Kirk, Mrs. Gerald Covington, Mrs. Donald Flamm and Mrs. Albert Pelt serving as hostesses.

Mrs. William Kirk, chairman of the American Home Department, presided over the luncheon, at which time all department elected officers.

Mrs. Kirk announced that her department had chosen the West Side Grammar School as project. They will assist in buying dental supplies and get the Super-X Drug Store, French Avenue and 25th Street, and try it.

What are some which you may not know? What about sweetbreads, smoked pork hocks, brat, rather than corned, pork steaks, smoked pork shoulder or beef short ribs as a start?

If dry beans have to be cooked in hard water, it's a good idea to add baking soda after the beans have been soaked and are ready to be cooked. Use 1/2 teaspoon of soda to 2 quarts water.

PAT LARGENT, Beta Sigma Phi Ball chairman, poses with two of the distinguished judges, Mack Cleveland Jr., left, and Kay Shoemaker.

### Ramsdell-DeMott Engagement Told

By MARYANN MILES

Mr. and Mrs. Gordon Ramsdell, 151 Dahlia Drive, Forest City, are announcing the engagement and approaching marriage of their daughter, Norma Jean, to Charles Ramsdell DeMott, son of Mr. and Mrs. Elwood DeMott, of West Lake Branley Drive, Forest City.

The bride-elect attended South Lancaster Academy, Lancaster, Mass., and is a graduate of Forest Lake Academy, she is employed at the State Optical Supply Company in Orlando.

Her fiance is a graduate of Forest Lake Academy, attended Southern Missionary College in Collegedale, Tenn., and is employed at the Mussewitz Hatchery.

Grandparents of Miss Ramsdell are Mr. and Mrs. Clifton Lee, South Lancaster, Mass., and Mr. and Mrs. Clifton Ramsdell, Bownton Beach.

Grandparents of Mr. DeMott are Mr. and Mrs. H. S. Woodwhite Sr. of Forest City, Mrs. Hattie DeMott, Apopka, and Otis DeMott, Jacksonville.

The marriage will be solemnized at the Forest Lake Seventh-day Adventist Church, March 5, at 7:30 p.m.

## Harney Water Adopts \$7,600 Budget

By MRS. JOS. E. MATHEUX  
Lake Harney Water Association in annual meeting at Geneva Community Hall, adopted its proposed budget for 1967 in the amount of \$7,600.

Budget income was based on average of 36 customers at \$9 per month; 41 at \$4.50 per month; one at \$1 per month, and one commercial user at approximately \$106.45 per month, plus the minimum.

Largest anticipated expenditures are \$3,480, FHA payment; \$1,200, wages; \$500, electricity; \$500 repairs; \$300, reserve fund; \$275, CPA and legal fees, and \$200, cash capital improvements.

In recommendations submitted by a committee, L. B. Moss, chairman, and W. L. Sieg and W. T. Edwards, it was proposed that term of office for the board of directors be two years; that two board members be retired and replaced by nomination and election with those to be retired determined by the board; that the three remaining members serve for one additional year.

after which they will be retired and replaced in January, 1968, to establish a staggered term on the board. Two members will be retired and replaced on odd years and three on even years.

It also was suggested that a board member may not succeed himself without one intervening year between terms.

New directors elected were L. B. Moss and Joe Byrnes. Those retired were Mrs. Margaret Dunn and Mrs. Margaret Cammack.

Most recent improvement by the association was the installation in January of a \$5,000 gal-

**DIRECTORS OF Lake Harney Water Association are (front) Joe Byrnes and (back, from left) Roy Morgan, W. B. Heath and L. B. Moss. Byrnes and Moss were elected to the board at the association's annual meeting.**

## Truth-in-Lending Eyed

WASHINGTON (AP) — Congressional supporters of "truth-in-lending" legislation said today they are heartened by its inclusion in President Johnson's consumer protection proposals.

The "truth-in-lending" measure, one of several new proposals offered Thursday by Johnson, was designed to protect the consumer who requires simple explanation of interest rates on consumer loans.

Similar measures often have been introduced in Congress. But — as in the last session — they have made little headway.

House Republican Leader Gerald R. Ford said, "The Congress should be most interested in seeing how the President proposes to provide full and accurate information to the borrower, based on simple and routine calculations performed by the lender."

"The difficulty with truth-in-

lending legislation in the past has been that it simply appeared to be unworkable."

Sen. William Proxmire said he was delighted his "truth-in-lending" bill had won presidential endorsement. An aide to the Wisconsin Democrat said the measure has about 26 cosponsors.

Johnson also asked Congress to provide the public more protection against flammable fabrics, defective medical devices, fraud in the sale of land by mail, failure of natural gas pipelines or electric power transmission systems, irresponsible operation of welfare and pension funds and excessive charges by mutual fund managers.

Bake Ruth never hit below .200 in World Series competition during his baseball career.

## Ex-Treasurer Back In The Cash Business

SACRAMENTO, Calif. (AP) — Ivy Baker Priest is back in the money business, bringing matrimony grace and charm to the world of high finance.

Remember the name? Mrs. Priest's precise signature, as Treasurer of the United States, went on every piece of folding money printed during the eight-year Eisenhower administration.

Now Mrs. Priest is putting that experience to work as California's state treasurer.

Using gimmicks such as a hat fringed with Ivy Baker Priest dollar bills, the 61-year-old Republican took office as Treasurer Bert A. Betts last November to become the first woman ever to hold constitutional office in California.

## Lyman Seniors Win Scholarships

By Jane Caselberry  
Scholarships have been awarded to three Lyman High School seniors.

Walter Shepherd, son of Mrs. Jane Shepherd of Caselberry, has received an outright scholarship for \$500 from Rollins College plus a loan grant of \$700, and a \$1,350 work scholarship.

Sharon Dempsey, daughter of Mr. and Mrs. Doyle Dempsey of North Orlando, has received a nursing scholarship. She will receive \$200 a year for three years at the nursing school of her choice in the state. She has applied to Gordon Ketter School of Nursing, Tampa, and Orange Memorial Hospital, Orlando.

**SCHOLARSHIP winners at Lyman High School include (left to right) Sharon Dempsey of North Orlando, Walter Shepherd, Caselberry, and Connie Murry, Forest City.** (Herald Photo)

# UCLA --Still No. 1

By Associated Press  
It's countdown time for the nation's major college basketball teams and top-ranked UCLA is within range of becoming the sixth team in history to go through an entire regular season without a loss.

The Bruins, 21-0, have five games left to play, including those this weekend against Washington and Washington State. The others are against Stanford March 2, California March 4 and Southern California March 11.

Columbia in 1959-61, San Francisco in 1955-56, North Carolina in 1956-57, Ohio State in 1960-61 and UCLA in 1963-64 have been the only teams to wind up with unbeaten regular season records. Columbia and Ohio State were beaten in post-season tournaments.

The 1966-67 Bruins were the unanimous choice for first place for the sixth straight year in the most recent Associated Press poll based on games through last Saturday.

The Top Ten, with first-place votes in parentheses and total points on a 10-6-6 scale, has:

1. UCLA (34) 340
2. Louisville 298
3. Western Kentucky 287
4. Kansas 287
5. North Carolina 173
6. Princeton 155
7. Houston 144
8. Syracuse 72
9. Tennessee 49
10. Texas Western 47

## Packers -- Friends Of The Taxmen

HONOLULU (AP)—It's great to be a Green Bay Packer. For winning two football games in January each Packer soon will receive a check for \$34,813.63. That makes the internal

Revenue Bureau's best friends. This unprecedented payoff for the champion in team sports is the game official Monday night when the National Football League announced the record individual player shares for the title game between the Packers and the Dallas Cowboys.

Everybody knew the Packers had won \$11.86 each by beating Kansas City, the American Football League champions, in the Super Bowl, 20-16. But nobody knew the exact amount of their total earnings until the figures for the Jan. 1 game in the Cotton Bowl were released by Commissioner Pete Rozelle.

Each winning Packer gets \$8,813.63 for beating Dallas 24-27, each losing Cowboy collects \$6,275.25. Each voted 36 shares the Packer take in the two big

## Can Anyone Help? Swim Team Has Problem — No Pool For Practice

The Seminole High School swimming team has run into a slight problem... no pool in which to practice.

For the past few weeks, the students have been swimming in Crystal Lake in Lake Mary. "However, all they've been able to do is build for endurance," said their head coach Grey Boyles.

"Our first meet is scheduled for March 7 against Satellite Beach, and that's less than 10 working days for the kids, and we're without a place for them to practice diving and turns and lots of other fundamentals. It's going to be mighty tough to have them ready by that time," lamented Boyles.

The swim team had the opportunity of using the pool at the Sanford Naval Academy, but one of the slabs developed a leak and it'll have to be drained and repaired.

The group would appreciate the use of a private pool, but it offered, without regard to the size of same. Normally, meet pools are 25 yards in length.

Coach Boyles has had good representation of swimmers visiting for varsity berths but is limited with those who have earned letters last year.

The potential is good, "I think," said Boyles. "All I've got to do is be able to see them swim in a pool."

"If the event someone would like to offer the use of their pool, they may contact me at the high school or call the sports department of The Sanford Herald," added Boyles.

The swimming meets scheduled for 1967:

- March 7 Satellite Beach
- March 14 Eau Claire
- March 14 Oak Ridge
- March 14 Merritt Island
- March 20 Daytona
- April 4 A.M. Davis
- April 4 DeLeon Beach (outstanding)
- April 11 Oak Ridge (Weekend Pool)
- April 11 Seaside
- April 11 Columbia
- April 11 Deltona
- April 11 Ocala and Florida Military
- April 11 Ocala and Florida Military
- April 11 Florida Military
- April 11 Stone-Becky (Hotel)
- April 11 Home Away

Wendlandt is pumped in 42 points in the race, bettering the one game Vanderbilt scoring record by one point. His 20 field goals and 34 shots also broke school records.

Kentucky, trying to avoid one of its worst seasons with a fast finish, scored more than 100 points for the second straight game, whipping Georgia 101-76.

Auburn blasted Mississippi 86-67, and lovely Louisiana State lost another heartbreaker, 66-64, to Mississippi State.

Elsewhere in the area, Tulane defeated next DePaul 111-80, and Memphis State stopped Jacksonville U., 62-39.

postseason games exceeded earlier estimated of \$23,500 and at most reached the \$25,000 mark.

In fact, eight Packers who were on the losing West team in the Pro Bowl game added another \$200 and did zoom into the title game between the Packers and the Dallas Cowboys.

Everybody knew the Packers had won \$11.86 each by beating Kansas City, the American Football League champions, in the Super Bowl, 20-16. But nobody knew the exact amount of their total earnings until the figures for the Jan. 1 game in the Cotton Bowl were released by Commissioner Pete Rozelle.

The NFL meetings produced little other news in its first session Monday, except the formal ratification of New Orleans as the 16th member.

## The Missing Player Caper

By Associated Press  
It's time for baseball's annual season of intrigue. Every year when players begin reporting to spring camps there are some missing — and no one knows why except the player, who usually is inconspicuous.

Today's mystery man is southpaw pitcher Juan Pizarro, purchased by the Pittsburgh Pirates from the Chicago White Sox this winter.

Pitchers and catchers official by opened training Monday at the Pirates' camp in Fort Myers, Fla., but Pizarro wasn't among them.

General Manager Joe L. Brown said he had received no word from Pizarro, a resident of Santurce, Puerto Rico, and declined to say whether disciplinary action would be taken.

Relief pitcher Billy O'Dell also is not at Fort Myers, but his absence was no mystery. The veteran left-hander is home in Newberry, S.C., undergoing

treatment for an adrenal gland condition.

Pitcher and catcher of the Atlanta Braves officially opened training today at West Palm Beach, Fla., apparently without star catcher Joe Torre.

Torre's absence also is not a mystery — he wants more money. He reportedly \$70,000. Torre was paid an estimated \$40,000 last season when he hit .315 with 36 home runs and drove in 101 runs. The club reportedly is offering \$67,000.

Rebel pitcher Billy O'Dell also is not at Fort Myers, but his absence was no mystery. The veteran left-hander is home in Newberry, S.C., undergoing

treatment for an adrenal gland condition.

## KNEE DEEP in OUTDOORS

By BILL VINCENT JR.

Okay, fellows, the time is here again. The specks are biting real good. That is if you call 150 large specks to a boat good.

The action can be found in Lake Jessup and Lake Monroe. In Jessup the specks can be found along the grass and cypress trees, on the north side, and the south side along the grass. The specks started biting last week and will continue 'til next week, with some real nice catches. Some of those woopers are 2 1/2 pounders.

Lake Jessup has risen about 1 1/2 feet since the rain, and

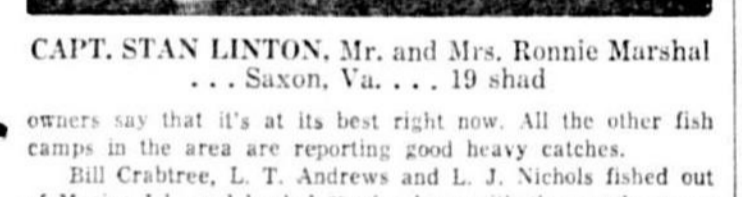

J. R. KILLEN  
... A Record Shad ... 4 1/2 Pounds

this will help the speck fishin'. You can smell the fish in the lake and there are reports of catches' 150 in one spot.

In order to catch specks you will have to be real quiet, and find the bed where they are. This is true for Lake Monroe also. The specks will go on the beds in Monroe the same time as in Jessup. Lemon blud fish catch reports some good catches of specks in LeFlore Slough "big fishin" with the No. Alibi.

And the shad are real good at the Bluff on warm days, and there still are a few bass on shiners.

At Marina Isle the fishin' is real good. The fact is the

CAPT. STAN LINTON, Mr. and Mrs. Ronnie Marshall  
owners say that it's at its best right now. All the other fish camps in the area are reporting good heavy catches.

Bill Crabtree, L. T. Andrews and L. J. Nichols fished out of Marina Isle and landed 29 nice bass with the purple worm. The biggest was 10 pounds, 12 ounces, but most of the bass are running from three to seven pounds in size.

Crowe's Camp said the fishin' was great, with lots of catches of specks, shad and a flounder now and then.

If you're a fisherman who can't toss a bait from the boat seat to where the fish are because of currents, obstacles or

excessive distance, there are still plenty of ways to get the job done.

In fact, you might call these techniques a form of piscatorial hitch-hiking, knowing these different approaches may prevent an otherwise fishless day.

When casting streams where swift currents and large logdecks make fish-holding locations virtually unreachably, a flat chunk of wood can be used to "ride" a lure or bait right into the desired spot. A slight jerk can dump the fish-popper under banks, behind rocks and in other areas normally inaccessible.

This plucky-bait form of presenting a lure can employ other vehicles. Paper cups containing the bait and just enough water to provide upright balance will work. A short length of tree limb with the bark sliced to act as a clip similarly transports the lure, but be sure the cut is on the upstream end and opens toward you. Even a slab of ice will tote a bait when waters are still fringed with it.

As a word of caution, these floating devices can't be used with lightweight lures. Lines that drag in the water build up strong resistance and may pull baits off the float prematurely. These unorthodox approaches may stretch the imagination, but they're a means to an end you might not ordinarily attain.

## Daytona -- Where The Action Is

## Permatex Qualifying On

DAYTONA BEACH... The same 1961 modified Ford which has sat on the pole the past three years in the country's longest and richest race for modified-sportsman cars, is one of the 85 entries in the Permatex 500 at Daytona International Speedway on Saturday.

It will be driven on Saturday by Lee Roy Yarborough of Columbus, S. C., one of the outstanding drivers in NASCAR ranks, and twice winner of the modified-sportsman race when it was run at 200 miles.

This auto first sat on the pole when the late Fireball Roberts led qualifying trials in it at a speed of 100.470 miles per hour. Larry Frank put it on the pole in 1965 with a speed of 107.364, and a year ago Cale Yarborough led all the Permatex 200 qualifiers with a blazing two-lap average of 113.950.

Qualifying for the Permatex started today and will continue through Wednesday with the 44 fastest cars starting at 10:00 a.m. The other six starting positions (the field is limited to 60) will be determined by the outcome of a 25 mile consolation race at the close of qualifying on Wednesday.

The 85 cars entered represent the fastest modified - sportsman machines in the country, and include national, state, and track champions from California to Maine. Don MacTavish, NASCAR national sportsman titleholder is in the field as is Eric Taylor, national modified king.

Curtis Turner, the old pro of Grand National racing, who won the Permatex inaugural race last year, will be on hand, and will Tiny Lund, Bobby Johns, both former winners of the race, when it was run at 200 miles.

The race is worth more than \$30,000 and serves as a brilliant curtain-raiser for the classic Daytona 500, with its \$200,000 in posted awards, on Sunday, February 26.

SPEED WEEKS SCHEDULE  
Daytona International Speedway, Daytona Beach, Fla.  
TUESDAY — 9 a.m. - 1 p.m. — Practice for all classes.  
THURSDAY — 9:00 a.m. - 1:00 p.m. — Practice for all classes.  
FRIDAY — 1:00 p.m. - 5:00 p.m. — Qualifying for late model, modified and sportsman.

WEDNESDAY — 9:00 a.m. - 1:00 p.m. — Practice for all classes.  
THURSDAY — 9:00 a.m. - 1:00 p.m. — Practice for all classes.  
FRIDAY — 1:00 p.m. - 5:00 p.m. — Qualifying for late model, modified and sportsman.

SATURDAY — 9:00 a.m. - 1:00 p.m. — Qualifying for late model, modified and sportsman.  
SUNDAY — 12:30 p.m. - 5:00 p.m. — Start of the Ninth Annual DAYTONA 500 late model (NASCAR FIA) stock car race. "World's Fastest 500-mile automobile race."

PHIL RUSHE hit a 227.771 average for a 225-455 series which was good enough to down his opponent Jack Frost on three occasions. Frost proved far milder though as he took the first game with a 229 score and a respectable 779 series.

Defending 101st Ken Harrelson shot 73's in each of the first two 18-hole rounds.

Defending 101st Ken Harrelson shot 73's in each of the first two 18-hole rounds. It put him in second spot, a stroke ahead of Jack Heron of the Chicago White Sox, at Park of the Kansas City Athletics and Gary Geiger of the Atlanta Braves.

PHIL RUSHE hit a 227.771 average for a 225-455 series which was good enough to down his opponent Jack Frost on three occasions. Frost proved far milder though as he took the first game with a 229 score and a respectable 779 series.

LYMAN HAYS BASEBALL STAFF... Head Coach Jim Payne (left) and his assistant Tom Joyce check their roster for names of returning lettermen. Payne has guided the Greyhounds to an overall 214 wins and finished second in the O.B.C. last year with a log of 15 wins and three defeats.

## Murphy Sets Torrid Pace In Men's Single League

Rich Murphy is pounding the pins at such a terrific pace lately that he might soon be making his living at it. His average for the past ten weeks in the tough Singles Classic League is an astronomical 198 and for the past month it would be in the neighborhood of 220.

Murphy is nestled in the number one spot in the league standings with a comfortable 13-point margin. This past week proved an exception for him as he rolled a real 242/42 four game series and took three and one-half points from Pete Peterson.

Phil Rushe hit a 227.771 average for a 225-455 series which was good enough to down his opponent Jack Frost on three occasions. Frost proved far milder though as he took the first game with a 229 score and a respectable 779 series.

Dear Abby: By Abigail Van Buren

DEAR ABBY: You had a letter in your column signed "SLEEPING BEAUTY." She was a bride of two months who complained because her husband got up every morning at the crack of dawn and disturbed her while preparing breakfast for himself. If that's all she ever finds wrong with him, she's lucky.

Jacoby On Bridge

The late Charles Lockett of St. Louis used to tell the worst hard-luck story of all time. He was playing rubber bridge with a very bad partner who had maintained to get vulnerable and opened with a heart. Charley was looking at a potential grand slam in no-trump but decided to bid six no-trump to be sure of winning the rubber.

Polly's Pointers

DEAR POLLY—My newly married daughter lives far across the country and when I write to her I always enclose a favorite family recipe. MRS. H. A. S.

Beauty after Forty

"Write in style," says the designer of the new type note papers, cards and styles in stationery.

Horoscope Forecast

WEINSTEIN, FEB. 22, 1967 GENERAL TENDENCIES: A day of arguments and confusion following the highly beneficial aspects of the past two days, so unless you make a point to act with self-control and restraint, you find that all kinds of unpleasant problems can confront you.

DEAR ABBY: About two weeks ago a cat followed me home so I kept it. I never had a cat before and I never knew how much I loved cats.

DEAR POLLY—My newly married daughter lives far across the country and when I write to her I always enclose a favorite family recipe.

DEAR POLLY—My newly married daughter lives far across the country and when I write to her I always enclose a favorite family recipe.

SIDE GLANCES

"If, like you say, Senator, the national debt is just money we owe ourselves, I could sure use some of the money I owe me!"

CARNIVAL

"No, Betty isn't busy. You caught her between calls!"

by Kate Osann

"Don't worry about forgetting to put your name on the paper—I'd recognize your spelling anywhere!"

OUR BOARDING HOUSE

"YOU DO THAT AND YOU'VE MADE A DOLLAR, LEANER! I'LL BE PAYING MORE THAN I COULD TAKE IT TO SCHOOL FOR A MONTH TO A POUND HERE!"

OUT OUR WAY

"I DON'T KNOW WHY YOU'RE HERE. I WANT TO SEE YOU GO AWAY!"

PRISCILLA'S POP

"DON'T YOU KIDS EVER GET BORED?"

SHORT RIBS

"AS LONG AS I CAN REMEMBER, HOW LONG HAVE YOU BEEN HOPPING PEOPLE OVER THE HEAD?"

BUGS BUNNY

"BUGS' BEANERY!"

We The Women:

DEAR MRS. LAWRENCE: I felt so happy for awhile after reading your letter in your column, the one which said I lacked self-appreciation.

Ball bearing orbital action sands big jobs away fast, with up to 3500 orbits per minute! Sands flush or regular on wood, metal or plastic. Save!

**CHARGE IT! . . . . . in Sanford Plaza** **OPEN 10 A.M. to 9 P.M. MONDAY thru SATURDAY**

By LARRY VERSHEL

At 8 p.m. yesterday the City Commission was meeting in closed door session with Vice Mayor Ernest Southward, Ernest Southward, Lee Moore and A. K. Shoemaker Jr. . . . Community Action was roaming the streets for a quorum and six men who are vitally interested in the growth of Sanford huddled together at City Hall.

Let me tell you about these six . . . . . Jeno Paulucci, Howard McNulty, Howard Hodges, Ernest Southward, Lee Moore and A. K. Shoemaker Jr. . . . They really care . . . . . They accomplished more in 90 minutes than most of us can do in three weeks . . . . . I'm not kidding . . . . . And I certainly wouldn't lie on Washington's Birthday.

The City Commission went in closed door session for almost three hours last night while the County board closed the door in my face for two hours . . . . . So I had to go look for my sparrow friend.

At 1 p.m. yesterday the County Commission met with Sheriff J. L. Hobby . . . . . They questioned him on certain salary adjustments he made without getting commission approval . . . . . It seems the sparrow (said) he hired a girl for \$150 per month to handle former Chief Deputy Jim Singletary's job . . . . . After two hours Hobby explained he was saving the county money as Singletary was making \$8,000 per year as chief deputy and clerk trouble-shooter . . . . . The present chief deputy gets only \$5,000 . . . . . It was also pointed out that Hobby's wife is matron of the jail and Hobby told the boys that to hire matrons for eight hour shifts would cost \$750 per month and by employing his wife the county would be saving \$100 per month.

Tell me more says I to the sparrow. And he did. . . . . What not many people realize is that the girl taking Singletary's place works six days per week. . . . . Budget control over the fee officers is out the window. . . . . Not only is it unconstitutional but Commissioners Bob Parker, Lawrence Swofford and Ed Yarbrough said they wouldn't support it . . . . . Guess the heat was too much . . . . . Gee, one thing about John Alexander and John Fitzpatrick sure go after the big boys . . . . . Guess they haven't read their manual about how to live a rich, full life in politics.

The sparrow also told me about the City Commission meeting . . . . . But I'm still reeling from the shock and it will take at least a few days for me to recover . . . . . and then I'll publish it . . . . . WOW! . . . . . You know it might be a good idea if Mayor Joe Baker and County Commission Chairman John Alexander took me into their confidence more . . . . . I caught a . . . . . action . . . . . and talking to that sparrow in the rain . . . . . I might have to go to the hospital and Seminole Memorial officials wouldn't like that.

Listen: This is Washington's Birthday so this is gospel — you all gotta vote for Tommy Peterson and Tom McDonald come next Tuesday . . . . . We have to get a voice in Tallahassee . . . . . Now, I'm not kidding. . . . . By the way, both Peterson and McDonald will speak at the Jaycee luncheon tomorrow . . . . . Public is invited. . . . . If the State Jaycees paid homage to the South Seminole group for opposing a new court house in Sanford . . . . . Cancel my membership . . . . . Since when do Jaycees favor an unnecessary tax burden?

**Industry Board Set; Plan Mass Program To Entice Business**

The Sanford Industrial Board, at its organizational meeting last night, elected Jeno Paulucci chairman and immediately went to work mapping out a massive program to entice industry to the Sanford area.

Named vice chairman was A. K. Shoemaker Jr., while Lee Moore was elected secretary-treasurer. Paulucci will serve a four-year term as member of the board while Shoemaker will serve two years and Moore, three years. Other members of the board and terms they will serve are: Ernest Southward, one year; Howard Hodges, three years; Harold Slama and Howard McNulty, four years each. Slama was the only member of the newly created board not present.

The commission agreed to go after light industry on a controlled basis but would not close the door on "any Frankenstein" of a major industry. They cited the need for diversification and the importance of capitalizing on distribution network, especially the proposed port authority. The commission agreed to go after tourist industries and stressed the importance of a freight air depot at the Naval Air Station once the base is phased out. McNulty emphasized the board should not overlook the possibility of tax advantages to entice industry here and board members went on record for setting up joint meeting with both the Chamber of Commerce Industrial Committee and other Chamber officials. "We want to complement this vital organization," Paulucci said. Commission members also appointed Southward, Hodges and McNulty to screen eight applicants for the manager's job. The board plans to get an "experienced, high-type" person to run the industry here. Indications are that \$15,000 will be budgeted to the commission for the remainder of the year but board members stressed that for a full year's work even \$30,000 may not be enough to "get the proper man."

Members agreed to meet the second and fourth Monday of every month. At the start of the meeting, City Commissioners met with the board and expressed confidence in them. We picked the right men for the job and it was done unanimously," Mayor Joe Baker said. The board was established earlier in the month to get industry for Sanford and its environs.

**State Probing Raceway Bribe?**

Volusia County at DeLand Tuesday passed any action in its probe of a report by Clyde Hart, Samsula rancher, that he had bribed legislators in 1961 and 1963 but "feels there is sufficient evidence to warrant an investigation" by the state. The grand jurors, pointing out they had insufficient jurisdiction in the state, recommended that copies of the investigation be forwarded to the governor, attorney general and federal authorities. Hart, former president of Seminole Raceway at Casselberry (now Seminole Downs), charged he bribed legislators to favor racing legislation. Former Reps. Gordon Frederick and Mack N. Cleveland Jr. were named as having received \$12,500 each. Frederick countered he received the amount for attorney fees for the state. Cleveland denied he ever received any money from Hart.

**NAS Sailor Indicted On Murder Count**

Volusia County grand jury returned a true bill charging first degree murder Tuesday afternoon against a Sanford sailor, Delfin M. Feria, 33. Feria is said to have confessed to slaying to death another Sanford sailor, Bobby Ray Riser. Feria also is charged with assault with intent to murder his wife, Mildred Annette Feria, 28. The House Armed Services Committee said today the Defense Department will liberalize its policy on release of reserve officers held on active duty during the Vietnam buildup.

**'Black Speck' Discussed At Annual Field Day**

Reports on progress of research conducted at Sanford and Zellwood in an effort to determine the origin of "black speck" and other cabbage diseases were given by authorities at the annual field day conducted at the Central Florida Experiment Station Tuesday. The field day was held in co-operation with the Florida Agricultural Extension Service and was attended by persons all over the Central Florida area. "Black speck," a disease of cabbage which many times does not show up until after the vegetable has been harvested and shipped to market, has brought financial disaster to several farmers of the area. Just recently a whole shipment of cabbage was returned to a local grower when "black speck" evidenced itself when the vegetable arrived at market in Chicago. "Black speck" appears as small black spots often in clusters on leaves anywhere throughout the head. It may appear only after several days in cool storage, usually progresses in appearance and severity with time up to two or three weeks after harvest. Results of experiments to determine the nature of black speck have been conducted at the local stations. It has been determined a relation may exist between the levels of copper in the soil and the incidence of black speck. Reports were heard from Dr. John Darby, plant pathologist and head; Dr. J. C. Walker, Agricultural Extension consultant; Dr. Paul H. Williams, University of Wisconsin; B. F. Whitmer, assistant horticulturist; Dr. G. L. Greene, assistant entomologist; Dr. P. J. Westgate, horticulturist; Dr. R. B. Forster, assistant soils chemist; Dr. H. L. Kibben, assistant nematologist and Dr. W. T. Scudler, associate horticulturist. A tour of the experimental plots was also made.

THE NEWLY created Industrial Board met last night to get its program off the ground. Shown with Mayor Joe Baker (seated) are left to right, Ernest Southward, A. K. Shoemaker Jr., Jeno Paulucci, Lee Moore, Howard McNulty and Howard Hodges. (Herald Photo)

**'Gun-Fight' In Midway**

Two Midway residents were hospitalized late night in an odd fashioned Western "shoot out" at Chambers Quarters. The men were identified as George Barnett and Pedro Ortes. Deputies tell this story: Barnett and Ortes have been feuding for a year over a dog that was poisoned. It seems deputies said, one accused the other of poisoning the dog. They met in the quarters with Barnett firing three shots at Ortes at "close range" hitting him in the stomach and forearm. As Ortes went down he fired at Barnett hitting him in the leg, chest and forearm. Both men were listed in "good condition" this morning at Seminole Memorial Hospital. No charges have been filed as yet.

**'Action' Names Directors**

New life was breathed into Seminole Community Action last night with the election of 29 members to the new board of directors of the organization. Following holdup of the meeting for nearly two hours while a quorum was being mustered, the directors representing all areas of and strata of the county's society were named. Elected from the floor by secret ballot were Robert Petree, S. J. Davis Jr., Dr. J. C. Houlston, Rev. H. B. Whitworth, John Daniels and Rev. E. E. Williams. Elected unanimously by motion to represent government units were Mrs. Joyce Kelley, state welfare; Gordon Bradley, housing; Dr. W. Vincent Roberts, Sanford City Commission; Dr. Frank Leone, county health director; Bill Krick, park, county commission and police chief; Robert Park, professor S. T. Muller, school board.

**Purge Action Rolls, Petree Tells Board**

Purge of the membership rolls of Seminole Community Action was urged by Robert Petree, newly elected director, at the meeting of the group Tuesday night. "Continual absence of members is stopping Community Action from functioning," Petree said. "The by-laws should be amended to remove names of persons missing three consecutive meetings." E. D. Kirschhoff, executive director, reported cards had been sent to members who had been absent from recent meetings, but little response was received from them. Petree expressing his interest particularly in providing tutorial services for the underprivileged of the county, questioned the progress made to date on creating such a local program. Kirschhoff answered that he had contacted retired teachers willing to volunteer their time for the project, but as yet an administrator to set up the program had not been found. A tutorial program acts on the assumption that the economically deprived and culturally separated child's learning problems are predominantly environmental and can be altered by intelligent efforts on the part of a tutor.

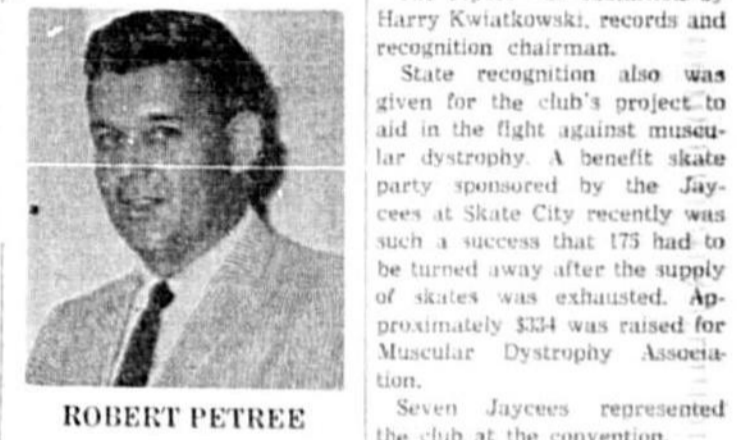

**Name Fire Commissioners**

Fire Commissioners for the two new fire control districts of the county were named by the Board of County Commissioners Tuesday. Appointed to the Forest City-Bear Lake Fire Control District were Walter Seachrest, precinct 16; John Betha, Chairman; Precinct 12 and Harvey Coulter and Glen Whipple, precinct 16. Named to the Sulphur Fire Control District (Fern Park) were Art Hagen, Tolar Bryan Jr., precinct 1; Tally Hattaway, O. J. Seils, precinct 11 and Vernon W. Dunn, precinct 23.

**South Seminole JCs Honored At State Meet**

Top honors were awarded the South Seminole Jaycees at the State Convention in Panama City this past weekend for the quarterly report on opposition by the club to the proposed Seminole County Courthouse site. The report was submitted by Henry Kwiatkowski, records and recognition chairman. Also given for the club's project to aid in the fight against muscular dystrophy. A benefit skate party sponsored by the Jaycees at Skate City recently was such a success that 175 had to be turned away after the supply of skates was exhausted. Approximately \$334 was raised for Muscular Dystrophy Association. Seven Jaycees represented the club at the convention.
