BIBLE VERSE FOR TODAY

THE LOVE THAT SAVES
 For God so loved the world, that
 he gave his only begotten Son,
 that whosoever believeth in him
 should not perish, but have ever-
 lasting life.—John 3:16.

PRAYER—Father, may our
 hearts be sanctified and blessed by
 Christ's presence as our Divine
 Guest.

News of the Week—The
 commission should render a unani-
 mous report, that would be
 news.

We're not in the midst of a
 crisis. We're in the midst of a
 revolution.
 —Hendrik Willem Van Loon.

Time was when a person ate
 dinner off the mantelpiece after
 a hard horseback ride, but if
 these sun tan fads continue, it
 will be used for the same purpose
 after a trip to the beach.

This is the season of hurricanes.
 One of them had scarcely blown
 itself out in the Gulf before an
 other one comes crashing up
 from the Caribbean. Meanwhile
 Florida waits and watches hoping
 that November will come before
 one of these blows becomes too
 familiar.

"Economic security" is, ac-
 cording to the Wickham Com-
 mission, of vital importance to
 the reduction of crime. "Economic
 security," however, does not
 mean Rolls Royces, steam yachts,
 and racing stables, such as our
 modern gangsters seem to re-
 quire.

In spite of the treasury deficit,
 internal revenue statistics show
 that income taxes have declined
 from \$2,410,000,000 in 1930 to
 \$1,800,000,000 last year. Even
 this, however, is encouraging.
 It shows that in spite of what
 everyone is saying, there are
 still a few persons who at least
 have some income.

The Herald is always glad to
 receive letters from its subscrib-
 ers, expressing their ideas upon
 any subject, for publication in the
 "Forum". However, such letters
 must be signed. We feel that if
 anyone is not willing to sign his
 name to his own statements,
 thoughts, and beliefs, they must
 not be worth much.

Apparently also disapproving
 of paternalism in government,
 with our Uncle Samuel attempt-
 ing to guarantee everyone a
 reasonable profit for his prod-
 ucts, Arthur Brisbane points out
 that Long Island farmers are de-
 manding that the government
 take over their surplus duck
 orders, now a drug on the mar-
 ket, and re-sell them to Germany.
 "Go sell them to Germany," says
 the government in this in-
 stance. The duck feather
 trade, as Brisbane significantly
 points, is small.

Karl Lehmann Comes To Sanford

The spontaneous enthusiasm with which the announce-
 ment of Karl Lehmann that he would accept the proposition
 of the local Chamber of Commerce was received in Sanford
 is indicative not only of the warmth of the welcome which
 Sanford is prepared to extend Mr. Lehmann but also of the
 boundless enthusiasm which his dynamic personality in-
 evitably generates. Whatever Mr. Lehmann undertakes he
 gives to it every ounce of his energy. Whoever comes in
 contact with Mr. Lehmann's undertakings is inspired with
 the same determination to win which so precisely charac-
 terizes Mr. Lehmann.

Sanford has been through an unusually trying period.
 During the past four years it has seen the distracting
 processes of retrenchment, reconstruction, reorganization,
 and receiverships carried to such necessary but enervating
 lengths that there has been little vitality left in the com-
 munity for resuscitation and rehabilitation. Sanford people
 have taken it on the chin so many times in the past few
 years that we are afraid Mr. Lehmann will find many
 sore places, many bumps and bruises still existing in the
 community. If he can come here and heal these wounds and
 in so doing revitalize the whole community, he will have
 accomplished much.

We believe that in taking over the office of secretary
 of the Seminole County Chamber of Commerce, he will
 find that he has the undivided support of this entire com-
 munity. A number of worthy citizens were opposed to the
 County Commissioners making the appropriation necessary
 for this Chamber of Commerce work, but now that the
 appropriation has been made, and the county is assured of
 the services of a secretary of such outstanding qualifica-
 tions as Mr. Lehmann, we feel sure that they will come
 forward, in order to get the most out of their money
 which is to be spent, and give him the cooperation and
 assistance so essential to constructive work.

With this co-operation we believe that Mr. Lehman can
 assist this county to a very great extent in the final re-
 covery from the ill effects of the boom and in the launch-
 ing of this community on a progressive program of expan-
 sion and development. He cannot make this a metropolitan
 center in one night, or in one year, by some mysterious
 wave of a magician's wand, but slowly and steadily, tak-
 ing advantage of every opportunity to keep Seminole County
 before the eyes of the state and nation, to bring tour-
 lists here, and to attract new industries, he can help great-
 ly to make Sanford grow and prosper.

Sanford now seems to be on the upgrade from the
 period of near-chaos which is characterizing so many cities
 and countries of the world today.

Wars Will Go On

Some day, everyone believes, war will become impos-
 sible. Just when that stage of civilization will arrive is the
 only point in controversy. Some think it is already here
 and that never again will important nations be thrown in-
 to deadly combat. Others think, however, that only the
 millennium will see such a sensible situation. Nations are,
 as a matter of fact, no greater than their citizens. The day
 of wars, quite evidently, will be over only when hatreds and
 animosities are wiped out of the hearts of people.

"The fact that man is naturally pugnacious and com-
 petitive," insists the New York Herald Tribune, "has not
 prevented the development of all kinds of controls and
 limitations over the ways in which he expresses those qual-
 ities, and so does not in itself exclude the possibility of
 controlling war. On the other hand, to prove that war is
 an institution which might be eliminated certainly does not
 indicate how the elimination is to be achieved. For that
 reason the whole argument is almost purely academic, and
 one suspects that the question is less a matter of finding
 the 'causes' of war than of studying the operation of the
 whole international machinery of which it is a part."

"Professor Stratton used the analogy of slavery, which
 has disappeared from Western civilization, although so
 deeply rooted in human nature that it still flourishes over
 wide areas in other parts of the world. Well, analogies are
 admittedly dangerous, but if there is any validity in this
 one it can be pointed out that the ultimate cause of slav-
 ery's downfall was a recognition that it was no longer
 worth what it cost. Less barbarous and more efficient
 means had been devised for doing the work, earning the
 money and satisfying the property owner's ego than slavery.
 So also in modern industry we have seen the earlier mani-
 festations of the competitive, the pugnacious, the acquisi-
 tive instincts, drastically modified by the discovery that
 these instincts could be more efficiently discharged through
 great mergers and regulatory combinations than through
 the 'anarchy' of the past."
 "It is probably a fact (though the point is arguable)
 that since Napoleon's invention of modern war each great
 conflict has left even the victors with a greater sense of
 loss and a smaller sense of gain than the preceding one.
 If this is a fact it is a sign post pointing toward the ulti-
 mate disappearance of the war process. If it is not, there
 is relatively little use in discussing the 'prevention' of war
 by discovering and eliminating its 'cause'; for its causes are
 as infinite as ourselves. What we can do—perhaps all that
 we can do—is to study the war process, its workings and
 effects; but in the meantime we are forced to recognize,
 in common with every other great power, that the threat of
 war is a danger against which we are compelled to be pre-
 pared."

Dempsey Files Suit For Divorce From His Spouse

(Continued From Page One)
 plaint was not accompanied by an
 answer in Miss Taylor's behalf and
 that this would mean trial of the
 suit would be delayed until such
 time as she does file one.

Two possibilities were considered
 —that the actress might bring
 suit for divorce in Los Angeles, or
 file an answer and cross complaint
 in Reno and attempt to win the
 decree in the local courts.

She has 40 days in which to an-
 swer Dempsey's complaint.
 Dempsey will leave Reno prob-
 ably the latter part of this week
 for Portland, Ore., where on Aug.
 21 he begins a barnstorming tour
 that will take him through the
 southwest and into the east box-
 ing four-round exhibition bouts.

Reports are that the former
 champion is making the tour in
 an effort to recoup a dwindling
 fortune.

LOS ANGELES, Aug. 18.—
 (A.P.)—Estelle Taylor, motion
 picture actress, yesterday instruct-
 ed her attorney to file in Los
 Angeles courts a divorce suit
 against her husband, Jack Dempsey,
 former heavyweight champion. Almost
 immediately after she received
 word that Dempsey had instituted
 a divorce action in Reno, Nev.

The action and counter-action
 brought to a head weeks of
 sparring between representatives
 of the two over a property set-
 tlement.

Miss Taylor's attorney, Joseph
 Scott, said she would claim cruelty,
 the identical charge made by
 Dempsey. Scott declared her ac-
 tion would demand an ac-
 count and division of property.
 A statement issued by Scott last
 night said:

"A property settlement in com-
 plete detail was agreed upon be-
 tween the parties and, without
 any reason being given or with-
 out any cause so far as we know,
 the whole settlement was upset
 by Mr. Dempsey's act in filing
 this suit in Reno."
 "There is no other course open
 except for me to protect the
 wife's rights."

The statement added the filing
 of the divorce suit at Reno was
 a surprise to Miss Taylor, and
 Dempsey "displayed a good deal
 of temperment" in the matter
 of a property settlement.

While the property negotia-
 tions were under way between Scott
 and Dempsey's attorney, Robert E.
 Burns, Miss Taylor announced she
 wished the former champion to
 pay off a \$40,000 mortgage on
 their home here or give her \$100,-
 000 outright. Dempsey's counter
 offer was not revealed, but Miss
 Taylor called it "absurd."
 "If there's going to be a divorce
 in this family," she said, "I'm
 Scott indicated Miss Taylor's
 going to be the one to get it,"
 suit would be filed as soon as
 the papers could be prepared.

HAVANA, Aug. 18.—(A.P.)—
 Rebel forces still exist in Santa
 Clara, Camaguey and Oriente
 provinces, it was said at anti-
 government headquarters here yester-
 day.
 Although opposition leaders said
 troops remained in the field no
 further information about them
 was available.

It was learned that C. I. Carlos
 Mendive, one of the insurrection-
 ist leaders brought to Havana
 Sunday from Pinar del Rio prov-
 ince, has become ill. Colonel
 Mendive is confined in Cabana
 fortress with former President
 Manuel G. Menocal, who surrendered
 with him Friday.

Dr. Luis Ortega, the Mendive
 family physician, sought permis-
 sion of Gen. Alberto Herrera, army
 chief of staff, to see him.
 At army headquarters the only
 instruction was that small

groups of men had surrendered.
 Army officials said there had been
 no new battles and the death toll
 stood unchanged at 73.
 Strict censorship of news re-
 ports from Cuba was laid down
 this afternoon. Army officers were
 inspecting news reports and there
 was an order that news must be
 submitted to the chief of staff.

"They're out—so they can't be in!"

Every LUCKY STRIKE is made of the finest tobacco leaves the world can offer—the finest from Turkey—the finest from Kentucky, Tennessee, Virginia, Georgia and the Carolinas—the Cream of many crops throughout the world. But all tobacco leaves, regardless of price and kind, as nature produces them, contain harsh irritants. LUCKY STRIKE'S exclusive "TOASTING" Process—a process that mellows, that purifies, that includes the use of the modern Ultra Violet Ray—expels certain harsh irritants naturally present in every tobacco leaf. We sell these expelled irritants to manufacturers of chemical compounds, who use them as a base in making sheep-dip, as well as a powerful spraying solution for trees, flowers and shrubs—enough to permit the daily dipping of over 50,000 sheep or the daily spraying of many thousands of trees. Thus, you are sure these irritants, naturally present in all tobacco leaves, are not in your LUCKY STRIKE. "They're out—so they can't be in!" No wonder LUCKIES are always kind to your throat.

The finest tobacco quality plus throat protection.

Wounded Victim Of Holdup Yesterday Goes Under Knife

BALTIMORE, Aug. 18.—(A.P.)—Wallace, Kolb, backshop sportsman and wealthy bakery executive, was operated on late yesterday in a hospital here for a bullet wound in the thigh inflicted yesterday morning when he was forced from an automobile in which also was Mrs. Nellie Greene, the former Miss Nellie Lamar of Augusta, Ga. The assailant, who was not identified, fled.

Mrs. Greene, who was granted a legal separation two years ago from J. Woodell Greene, Baltimore attorney, told the officers Kolb, who is 30 years old, was shot after he had obeyed the gunman's order to "stick 'em up." Mrs. Greene climbed over a fence and ran to a house nearby for help.

Kolb told officers his attacker, armed with a nickel-plated revolver, leaped on the running board of his car saying, "I've got a good notion to blow your brains out." He was forced to get out of the car and was then shot.

HIGHER PRICES PREDICTED FOR OIL PRODUCTS

(Continued from page one) —Continued crude prices would climb and there was real hope of stabilization.

Governor Sterling, himself an oil man, predicted higher crude prices, and estimated the Texas and Oklahoma shutouts would take about 1,000,000 barrels a day off the market.

He said martial law in East Texas will not be lifted until the Texas Railroad Commission has issued production orders under the new State conservation law and is in a position to enforce such curtailment orders. The commission will be unable to act until after a hearing starting a week from today.

Governor Murray, who originated the idea of dealing with over production by declaring martial law, sent a message of congratulation to the Texas executive and commented humorously: "It's got about as many soldiers as fought in the whole Mexican war."

Murray, who is holding out for a price of \$11 a barrel in the face of a top now of \$2 cents a barrel, said he had heard nothing from oil men concerning an increase.

The Sinclair Oil and Gas Company yesterday posted a price of 25 cents a barrel for East Texas crude, meeting the advance announced last week by the Magnolia Petroleum Company.

Various officials estimated that 10,000 workers in the East Texas area would be affected.

W. L. Todd, chairman of the East Texas oil emergency committee, said that all the major companies planned to care for their employees during the emergency. In most instances, he said, the workers would be kept on payrolls to keep company organizations intact and in almost every case arrangements had been made to feed and house them.

The entire section remained quiet, except for the bustle and confusion created by the army moving into camp.

Orlando Votes On Question Of Public Utilities

(Continued from page one) —cept an offer put forward by the Florida Public Service, E. W. Davis, attorney for the same company, has steadfastly opposed the mortgage plan.

Mayor James L. Giles and City Commissioners Nash, Brass, Tegler and Powers have remained united in the face of strong opposition in their approval of the mortgage plan but in their recent statement to the public expressed upon voters the necessity for sanction of some plan to keep the city from continuous default.

Completing the three-cornered conflict over the utilities, the Taxpayers' League with Dr. C. D. Christ as its majority and Frank L. Ferguson as chairman, they harmonize in a negative vote on all or any plans for disposal of the utilities. Plans for issue of the \$200,000 bond development of Mrs. John Rumbley, corner First Street and Tenth Avenue.

Coming a short time before the November election, the crucial election to renege the city has been kept in the background as an election issue for mayor candidates of whom several have been named.

Mayor James L. Giles last night declined to make further comment on the election today. Charles Mayer also declined and Frank L. Ferguson at a late hour could not be reached. A statement from the Orlando Utilities commission, offered last night by A. P. Michaels, manager, declared that it was reluctant to enter any political controversy, but that members felt compelled to call attention to several "misstatements" which they had appeared in the advertisement by Charles Mayer advocating lease of the utilities plant at the recent election today.

Probe Shows Two Girls Were Burned Preceding Murder

ANN ARBOR, Mich., Aug. 18.—(A.P.)—While authorities continued to check the story of Catherine Keller, friend of Fred Smith, one of the three men who killed and burned two young couples near here last Tuesday, a coroner's report was presented yesterday showing that the two girl victims had been burned before death and that each had been criminally attacked.

Dr. Edwin C. Ganzon, the coroner, said an autopsy indicated the slayers, Smith, Frank Oliver and David Blacker, all negro, placed the girls in the car and sprayed gasoline over their bodies before they died from blows on the head.

Prosecutor A. J. Rapp announced that statements of the three slayers, now in Jackson prison awaiting transfer to Marquette branch prison where they will serve life sentences, and of Miss Keller led him to believe the girl was not with the men when the robbery and slaying was committed.

TAMMANY HALL HITS BACK AT CITY PROBERS

(Continued from page one) —nigan demand he would not raise the ire of Republicans as to hamper legislators of any kind.

The New York Sun predicted the governor probably would get out of the difficulty by stating in his message to the Legislature that he is limiting inquiry to New York City because the resolution creating the committee applied only to New York City and this reason was urged and called loudly to patch a loophole left in the resolution.

Such a line, political common sense would be likely to cause dejection in Tammany circles and give to politicians the governor and his potential supporters in the Tammany organization, a situation inimical to Tammany's interests.

The governor has not dropped his attitude toward a Tammany-sponsored investigation, and may and other former Gov. Alfred E. Smith and the attorney Tammany is not have had any thing to do with the investigation.

It was learned the House committee was investigating charges that \$100,000 worth of postage stamps had been ordered by the New York department of sanitation when the Lee Van Halp so capably counted that they are now headed for the rag heap.

Plans for construction of a new bridge across the Hudson river, at New York City, are being advanced by the New York state highway department.
