

**ON STRIKE**

YOU have to work when you're on strike in this Whis Quiz. For you must find correct answers to questions on various kinds of 'strikes'.

1. What kind of strike might you expect of the masses you see above?
  2. A colorful expression is "Strike me—". What is it?
  3. There's a proverb, "Strike the — whilst it is —". What is it?
  4. That proverb comes from what 'striking' profession?
  5. Who's always a 'striker' in the Army?
  6. If you struck up these notes on the piano, you'd be beginning what celebrated composition by Rachmaninoff?
- 
7. In earlier days of baseball, the batter was allowed a different number of strikes than at present. How many—2, 4, 5, 6?
  8. What Clevelander is praised for his fast strikes?
  9. In what sport do you make a strike without a club?
  10. Lloyd Paul Stryker has figured in nationwide headline-news from courtrooms as —?
  11. What celebrated 'striker' in California in 1848 sent persons hurrying there from all over the nation?
  12. What American wrote a rousing popular song, "Strike Up the Band"?
  13. It may be dishonorable to strike the flag, that is, lower it in surrender; but what symbol of honor is it always customary and proper to strike?
  14. The very first strike of record in the United States, carried out in 1790, won higher wages for what skilled workmen? Just guess.
  15. What kind of strike takes place backstage at every performance of nearly all plays?

**MAGIC YOU CAN DO**

FOR a trick in which you make writing vanish, you need two envelopes, two sheets of paper, a pencil, a pair of scissors and some paste. Cut away the back of one envelope, leaving the front with the gummed flap attached. Cover the whole of the flap with paste and allow it to dry. Then put some paste round the three sides of the cut envelope and stick it inside the whole envelope so that the three pasted sides stick to the whole envelope. Add a narrow line of adhesive on the flap of the envelope. Finally, place a single sheet of blank paper between the two envelopes and stick the two flaps together. The two flaps must appear as one. When performing the trick you place the "secret" envelope on the table and invite someone to write something on the sheet of paper, put the paper in the envelope and seal it. Make several magic passes over the envelope, after which you cut off the flap with a pair of scissors. Then you take out the plain sheet of paper. The writing has disappeared! Go on to another trick, so your audience will be distracted from examining the envelope you used.

**Square Words**

THESE words, RIVER, FIVES, COUNT, ALICE, ALONE, do not form a word-square. However, the letters of the five words can be used to form a word-square. With certain letters inserted in their proper positions as a starter, see how quickly you can complete it.

**LETTERITHMETIC**

THIS problem in letter addition is based on a word of ten letters numbered 1 to 0, from left to right, to correspond to the ten digits. The letters of the word are substituted for figures as follows:

P R N E O T A H  
S E O A R N G H P  
G P H E B T M  
O N T O A E S C  
O S E R P E H L

## House Group Orders Navy Fire Worth

### But Navy Officers Announce Foe Of B-36 Resigned As Of 30th Of August

WASHINGTON, Oct. 5.—(AP)—The Senate Commerce Committee today announced an appeal from President Truman and voted 19-3 against a third term for Lt. Gen. Douglas H. Sweeney as the Federal Power Commission. The committee's adverse report on the President's nomination of Sweeney for another term was sent to the Senate for advice.

WASHINGTON, Oct. 5.—A House committee advised the Navy today to fire Cadric Worth, the peacemaker who views on the Air Force B-36 bomber program set off a Congressional inquiry. The Navy then announced Worth already had quit.

He was the first casualty of the latest maneuvering in a bitter Navy Air Force row that has brought circulation of anonymous memoranda and surreptitious slipping of documents to news reporters.

At least two more investigations are on the way which may bring others.

Worth is the man who admitted writing an unsigned memorandum, circulated in Congress last summer, which criticized the B-36 program. He was then a civilian assistant to Undersecretary of the Navy Dan Kimball.

Worth was suspended in August. The Navy announced today that he resigned Aug. 30.

Shortly before the Navy announcement, the House Armed Services Committee had approved a report saying Worth should be permanently discharged from Navy employ.

The committee announced it open tomorrow an inquiry into reports that Navy morale has sunk to a low point as a result of the way the law uniting the Armed Services has been administered.

Chairman Vinson, (D-Ga.) said the first witnesses will include three admirals whose names were signed to papers that a Navy source gave to news reporters.

## Wife Attempts To Save Husband With Fishing Line

### SAVANNAH, Ga., Oct. 5.—(AP)—Mrs. James H. Price tried to save her husband who was being pulled into a motor boat by a fishing line.

The dry-eyed widow told that night of her heart-breaking rescue effort Sunday in the choppy waters off Pines Harbor.

Her husband, manager of a beer firm, went aboard with his line because he thought he was fishing in a motor boat with Norman L. Davis, his friend.

Davis went after him and the two struggled in the water. Price entangled in the end of his line.

"Finally," said Mrs. Price, "Norman let go of James' arm and ran away from the boat."

"I grabbed it up and tried to save it. I figured that if I could pull in the line, James would be at the other end of it."

"I knew I was going to die. I just couldn't make it work. I guess it was those gears and the break of the line."

"Finally," Mrs. Price said, "I had to let go. Another fishing party passed by but Davis and Price drowned."

## Henry S. Clark, 78 Died This Morning

Henry S. Clark, 78, died at his home on South Main street in Sanford this morning following a long illness.

Mr. Clark came to Sanford five years ago from Oklawaha. He was a member of the Church of God.

Survivors include the widow and three sons, Charles Clark of Oak Hill, Arthur Clark of Geneva and Henry Clark of Geneva. Two daughters, Mrs. A. M. Allen, Geneva, and Mrs. W. J. Bottom, Geneva, also survive. He was buried in Geneva.

Following the business meeting a square dance will be held at the home of a relative at 7:30 p. m. Mr. Clark was a member of the Church of God.

## It's All Over But The Series

Wearied by the tumult and the strain of the pennant race, Bart Shotton, manager of the Brooklyn Dodgers, stretches out for a bit of respite. With his National League champs getting ready to start the World Series, he doesn't expect to relax again for some days.

## James Sheffield, Age 20, Killed In Auto Accident

### Fire Blows Out And Car Strikes Tree On French Avenue

James Sheffield, Jr., 20, was fatally injured last night shortly before 11:00 o'clock when his 1936 Ford sedan ran into a tree on French Avenue near Nineteenth Street. He died at Fernald Laughlin Memorial Hospital at 1:15 A. M. according to police.

As Mr. Sheffield was driving north on French Avenue a fire on his automobile blew out. The car, traveling at a fast clip, swerved to the right over the curb, hit a tree and plunged 90 feet further into a tree on the opposite side of the road, demolishing the automobile and pinning the driver in the wreckage.

His injuries included a fractured skull. He lived at the French Avenue trailer park.

Mr. Sheffield was married only about three weeks ago to Mrs. Marie Sue Clayton, an employee at McCarty's, and they lived in a trailer near the trailer occupied by his mother, Mrs. Cornelia Sheffield. Survivors also include two brothers and several sisters.

## Plans Are Made For Tourist Programs

Programs for the entertainment of tourists were outlined Monday evening at the Tourist Center by the executive board of the Tourist Group planning committee. John M. Benkarik, Jr. presided.

Shuffleboard tournaments were planned, and it was reported that many organizations have requested that they have a part in entertaining tourists. Among groups who have made these requests are the Business and Professional Women's Club and the Home Demonstration Club. Sides from State University's public relations manager were received.

Action of the Kiwanis Club last Wednesday in voting to vacate the Tourist Center to allow its daily use by winter visitors was reported, and it was stated that other civic groups are planning to move to new quarters in the Tourist Center.

The Tourist Group is composed of local people who have formed an organization for the purpose of planning activities for winter visitors. The group meets Saturday evenings at 7:30 o'clock at the Tourist Center. Visitors are welcome.

**NEGRO C O P**  
Dr. G. H. Starke, president of the Negro Chamber of Commerce, announced today there will be a meeting of the organization Thursday night at 8 o'clock at the Elks Room at Seventh Street and Orange Avenue. The Voters League will be guests.

**FARM BUREAU**  
Election of officers of the Seminole County Farm Bureau will take place Friday evening following a supper at 7:00 o'clock at the Tourist Center. It was announced today by George O. Swartz, president, who will make his annual report at the meeting.

Following the business meeting a square dance will be held at the home of a relative at 7:30 p. m. Mr. Clark was a member of the Church of God.

## East German Satellite Is Wary Of Tito

### Red Germans Expect Official Sanction At Special Session Of People's Council

PARIS, Oct. 5.—(AP)—Premier Henri Queuille offered his resignation today to President Vincent Auriol. Queuille's coalition government, in office more than a year and longer than any previous post-war French cabinet, ran into a crisis with the insistence of the Radical Party that labor's demands for wage increases be satisfied. Queuille heads the Radical Socialist (Communist) party.

By DANIEL DE LUCE  
BERLIN, Oct. 5.—(AP)—Fear of anti-Soviet Titoism was admitted today by German Communists hurriedly forming a Russian satellite republic in eastern Germany.

The republic is due to be proclaimed in Berlin Friday at a special session of the Communist-led German People's Council. Installation of the first government may take place as early as next week. Eastern non-Communist parties were reported promised less than a third of the ministries as a price for waiving demands for a popular election.

Communist appointees as ministers of interior, economics, and propaganda were believed to be already approved by the Soviet occupation command.

## Beverage Agent's Car Is Wrecked In Liquor Chase

MARIANNA, Oct. 5.—(AP)—Two Jackson county men were at liberty today under \$1,000 bonds after a wild three-mile chase last night in which they wrecked a car driven by a State Beverage Inspector and then piled up in their own against a light pole.

Sheriff Ernest Barnes identified the two as Woodrow and Monroe Harris. He said they were charged with running-runnid and reckless driving.

Barnes gave this account of the incident:

Sam Stewart, a State Beverage Inspector and Jim Sims, a Jackson county deputy, were on watch for the Harris' machine and spotted it three miles south of here. They gave chase and caught a second car from Marianna to head the chase. It was driven by Carl J. Fellows another beverage agent, and with him was Deputy James Langford.

Seeking to escape the trap, the brothers plowed into Fellows' car, knocking it from the highway. Fellows righted his machine and gave chase once more, only to hit a second time a knacker from the road.

The Harris' finally wrecked their car just inside the city limits and were taken into custody.

## 1950 Red Cross Drive Planned At Meeting

JACKSONVILLE, Oct. 5.—(AP)—Duval County's bondholders yesterday approved a \$12,000,000 school bond issue by an overwhelming six-to-one majority as they cast 12,181 votes for the proposal and only 2,334 against it.

The validity of the election was assured when the public counters in the 87 polling places registered 14,610 participants in the balloting, or slightly more than 76 per cent of the 19,134 qualified voters. State bond election laws require that more than 50 per cent of the registered freeholders cast their ballots.

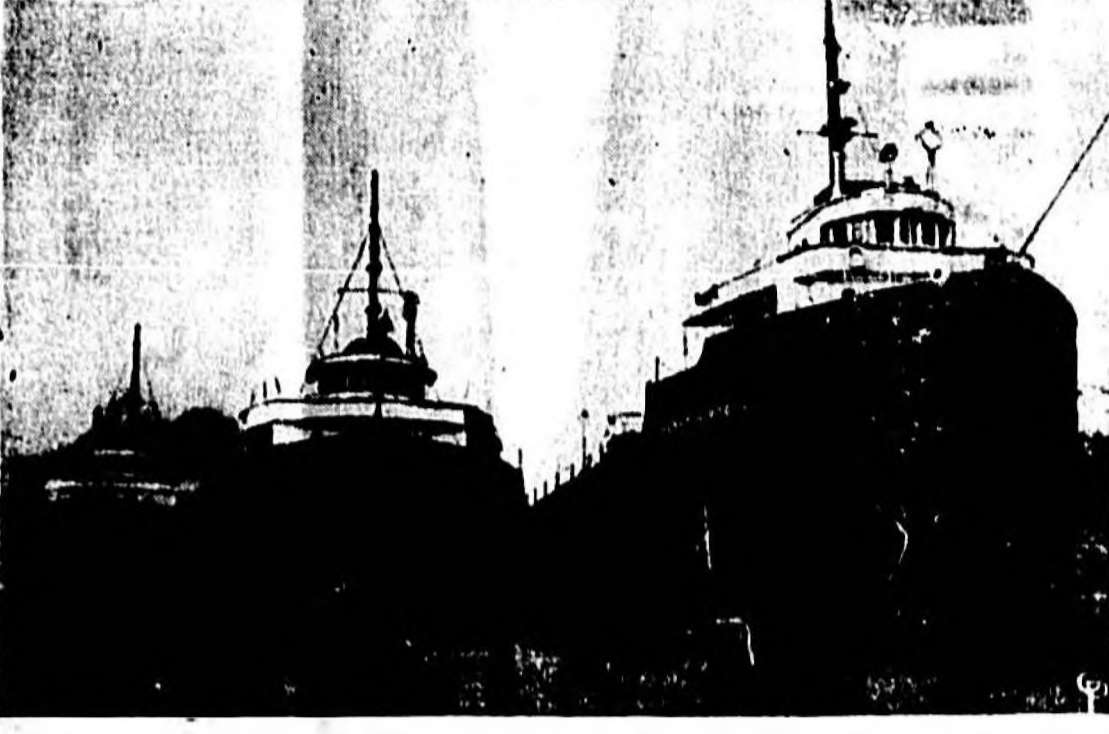

In only three of the county's precincts did voters register a majority against the bond proposal. Seventeen votes were cast for the issue and 20 against in Precinct 1-C; a 23 to 21 cast against it was reported in Precinct 1-A and 19 negative votes and 14 for approval were tallied in Precinct 1-A.

The complete but unofficial returns were tabulated in the office of Fleming B. Bowen, supervisor of registrations, within two hours after the polls closed upon what poll officials described as an "orderly and uneventful" election.

**CONGRESSMAN ROBBED**  
MADRID, Oct. 5.—(AP)—Two United States congressmen visiting Spain were robbed of more than \$5,000 aboard a train running between Barcelona and Bilbao. Barcelona police sources said today.

The informants said Rep. Richard L. Russell (D-Sc.) and Rep. John W. Rankin (D-Tn.) lost their money and watches when their train stopped at a small station. Sources said the robbers were Spanish.

## Steel Strike Ties Up Ships Of Ore Carrier Fleet

Waiting on the steel strike, three ships of the Pittsburgh Steamship Company's ore carrying fleet are tied up in the mooring basin in Milwaukee. Wise Labor surveys indicate that 50,000 members of the United Steelworkers of America are now on strike. Federal officials, fearing the economic consequences of a long strike, are reported planning a heavy "peace offensive" to restore production.

## Lions Governor Reveals Plans For Motorcade

### Says Florida To Have Greatest Tourist Season Ever Known

C. J. Thompson, district governor of Lions International, revealed today plans for a "great motorcade" to take Florida Lions to Chicago for the National Convention next summer in purple and gold automobiles.

Introduced by President Cliff Able, Mr. Thompson told the Lions that "Florida had the largest population increase of any state east of the Rocky Mountains last year."

"Now is the time to prepare our facilities for tourists," he advised, "as the coming season will no doubt be our greatest."

Mr. Thompson, whose home is in Oviedo, told of the club's Christmas drive for used toys which city agencies repair and paint in their spare time. The members distribute the toys early Christmas morning with baskets of fruit in keeping with the Santa Clause theme.

Mr. Thompson congratulated the Sanford club for being part of the first district in the history of Florida Lions making a 100 per cent monthly report on their attendance and activities to the Lions International headquarters in Chicago.

## Carroll English To Be Buried Thursday

Funeral services will be conducted tomorrow at 3:30 P. M. at Erickson Funeral Home to Charles Carroll English, who died as the result of gunshot wounds inflicted Monday evening.

The Rev. J. E. McKinley will officiate at the services and interment will follow in Evergreen Cemetery.

Survivors include his father, W. F. English; four brothers, W. F. English, Jr., F. M. English, J. E. English, all of Sanford, and T. W. English of Gulfport, Miss.; five sisters, Mrs. Leola Dixon, Mrs. Josephine Spers, Mrs. Elizabeth Harkey and Mrs. Hester Davis, all of Sanford, and Mrs. Helen Terlap of Waukegan, Ill.

## Alleged Hurricane Has Flattened Out

MIAMI, Oct. 5.—(AP)—A small wave which at one time developed 40 to 50 mile an hour winds has flattened out and no longer constitutes a threat of becoming a storm.

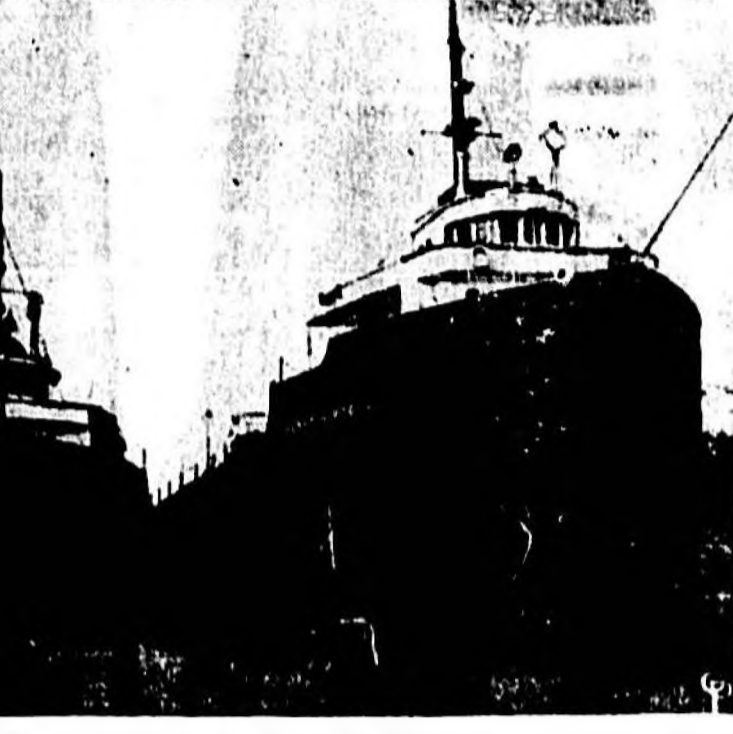

The Miami hurricane service said ships in the wave area—about 1,500 miles east of the Florida coast—reported winds of only five to 10 miles an hour this morning.

An interplay of winds between the small wave and a high pressure area to the north yesterday caused winds up to 50 miles per hour.

An army reconnaissance plane found no circular motion, however.

**YANDEBERG BETTER**  
ANN ARBOR, Mich., Oct. 5.—(AP)—Senator Arthur H. Vandenberg (R-Mich.) was progressing satisfactorily today at University of Michigan hospital following an operation Monday for removal of a cancerous growth.

## American Explorer In China Is Charged With Manslaughter

The American Explorer was clapped in a duty of home and water to await trial. Interviewed in his cell, he steadfastly maintained he did not do the shooting. Likewise he denied he was in love with the pretty widow of one of the crew.

## Greeks Report Guerrillas Move Army To Bulgaria

### Victim's Mother Said He Was In Love With Her

ATHENS, Oct. 5.—(AP)—Reliable sources reported today that the Greek guerrilla headquarters has been moved from Albania to Bulgaria and that 8,000 guerrillas are being transferred between the two countries by sea.

Victim's mother said she was in a Bulgarian base as a nurse head in the Communist campaign against Premier-Marshal Tito of Yugoslavia.

2. Guerrilla attacks against Greece from the Bulgarian border might be renewed.

3. It could mean isolated Albania has been written off as a base of guerrilla operations against Greece or Yugoslavia.

An independent source said some of the guerrillas in Albania are going first to Czechoslovakia for training before taking up their new base in Bulgaria.

The Athens newspapers today reported that Czechoslovakia had agreed to return 138 Greek children, refugees of the Greek civil war, from the country.

## Orlando Mayor Is Easily Re-Elected

ORLANDO, Oct. 5.—(AP)—Mayor William Beardall and Ward 4 Commissioner Robert L. Williams were swept back into office again yesterday by the largest outpouring of voters ever recorded in an Orlando municipal election.

Mayor Beardall's official lead over the combined totals of opposing candidates John R. Graham and William H. Albright was 139 votes. Beardall received 3,292 ballots from the four City wards, Graham was second with 1,081 and Albright was in third place with 1,891.

Williams defeated Joseph J. Burns for the commission post 3,842 votes to 3,570 for a majority of 1,756.

**CARNegie SCHOOL**  
NEW YORK, Oct. 5.—(AP)—The one-time palatial Fifth Avenue home of the late Andrew Carnegie today was converted officially into a schoolhouse.

The imposing, 90-room mansion now houses the New York School of Social Work, a part of Columbia University.

The five-story structure at Fifth Avenue and 63rd Street, a city landmark for half a century, was turned over to the school by the Carnegie Corporation on a 21-year lease.

## U.S. Decides To Intervene In Coal Issue

### No Immediate Action Planned In Steel Strike Tho Truman Is Urged

PITTSBURGH, Oct. 5.—(AP)—The federal government took steps today to halt the coal strike but withheld action in the steel shutdown.

U. S. Mediation Chief Cyrus S. Cheng called John L. Lewis and bituminous operators to a Friday meeting in Washington in an effort to end the three-week mine walk-out.

The situation, Cheng said, is at the place where it is approaching a crisis that requires intervention of his office. He added:

"Although there is a lot of coal at some point, even today some people are affected by the coal shutdown and the longer it goes the worse it gets."

Cheng said any reports of progress by operators and United Mine Workers negotiators now in session at Hotfield and White Sulphur Springs, W. Va., would be "very encouraging."

But it would have to be very definite, he continued, for him to drop his hands off for an operator-union settlement.

Questioned whether President Truman might use the emergency powers of the Taft-Hartley Act to halt the coal strike, the mediation chief commented "We're mediating."

He ventured the opinion an emergency will not be used until the federal money is completely exhausted on Oct. 31.

## Judge Stenstrom Cites County Need Of Detention Home

Need of detention home facilities in this area for youthful offenders of the law was strongly stressed this morning by Judge Douglas Stenstrom following further hearings in two cases of robbery in the county last week involving two white youths and one colored boy.

The placing of boys in jails, according to the judge, is a psychological effect on their attitude toward their future and citizenship.

Judge Stenstrom cited and cited the dangers of placing youths in jails occupied by hardened criminals.

## Legionnaires Discuss Armistice Day Parade

Plans for an Armistice Day Parade were discussed at the meeting Monday night of Camp-Lions Post No. 51 of the American Legion.

It was reported that directors of the Sanford Veterans Association had voted to recommend to merchants that stores be closed until 1:30 P. M. on Nov. 11 in order to allow employees to participate in or view the parade, and to attend the fish fry to which the public is invited.

Seven new members were voted into the post: John McManus, Jr., Dr. Charles L. Persons, Jr., Julian S. Conroy, William P. Melchior, Russell W. Tench, Jr., Walter C. Bross and William C. Hutchison.

Chester Miller reported that there are 376 paid members for 1919, and that Bill Thorne's membership team is ahead of the team led by James F. Benton.

TODAY'S BIBLE VERSE

Our words often have greater weight when there are few of them. Would you be interested in a word's voice is known by multitude of words.—Ec. 5:5

The Mayor of Jacksonville has named three men who are "King Pins" of commercialized vice in Florida's gateway city.

There will be no official functions or state parties at the White House this season because the White House is undergoing repairs.

The Navy's morale is at the lowest ebb in its 160 years of spectacular history, confidential reports to seamen reveal.

Bernard Baruch, whose thinking is generally a generation or two ahead of his contemporaries, declares that the United States ought to enact a standby mobilization plan providing for price and wage controls, rationing and anti-inflationary measures.

What can the railroads do to encourage passenger travel? Improve their menus and their cooking, we have always said.

Up for consideration in the House is an expanded Social Security bill which would give old age benefits to about 1,000,000 more workers than now receive them.

Strikes And Citizens

The man or woman who keeps the ears open can hear almost anything about strikes. One man says: "The unions think they own the country. They've been getting too big for their boots."

A third says if the President had just applied Taft-Hartley and skipped that silly so-called fact-finding board, all would have been well.

One point is noteworthy: They all take one side or the other of the disputing parties, management or union.

When workers are abused, the public will endure great discomforts for the purpose of correcting the abuses.

A wise union and wise management should find a way of obviating prolonged and crippling strikes.

Pirate Gold

If there be ghosts, then the shades of some pirate crew must have gathered around a spot on the beach near Mantoloking, New Jersey, not long ago when two boys, helped by the father of one, dragged ashore a battered ancient treasure chest.

There were eighteenth century English gold coins, gold buckles, cuff links and rings. Local authorities examined the find and pronounced it genuine.

The discovery set off an enthusiastic search of the waters by amateur treasure hunters, who found a few more pieces of jewelry but no other chests.

Although it is a fact that pirates still ply their trade in some of the waters of the Orient, in our part of the world they belong to an era so long gone that sometimes it is hard to believe that pirates really existed.

Identifying Your Car

If you want to recover your car if it should be stolen, leave a secret mark in it. The Automobile Club of New York, giving this advice, suggests such simple devices as slipping a business card behind the rear seat or upholstery.

There is no very good reason why a car should be stolen. If an owner is careful about locking the doors and ignition and taking away the keys, he should be reasonably safe.

Too Late To Classify

What about Florida tomorrow? How will people react to the sales tax? What attitude will the tourists take? How about the coming citrus season?

How effective will state advertising be under the new commission and new agencies? Will new industries be attracted to the state? What about tourist prospects for the coming season?

An attempt will be made to find the answer to these and many other questions by the Florida State Chamber of Commerce when it stages its annual conference at Jacksonville, Nov. 18, 19, 20.

Under the able leadership of executive vice president, Charles E. Walker, former manager of the Florida Citrus Commission and now assistant to the president of the Florida Canners' Cooperative of Lake Wales.

THE WORLD TODAY

By DEWITT MACKENZIE AP Foreign Affairs Analyst

Russia shows signs of being about to create a new Communist-dominated German state out of her eastern zone of occupation, with Berlin as its capital.

This will be calculated to offset the German republic recently established at Bonn by the three western zones under guidance of America, Britain and France.

Naturally Moscow's hope is to draw western Germany into the Soviet eastern zone, thereby consolidating the Reich into a Communist state which would be a satellite of Russia.

Economically the Soviet and the western zones not only complement each other but are essential to each other.

The west, of course, is much larger, having an area of some 95,000 square miles and a population of about 45,000,000.

However, the eastern zone has a tremendous drawing card—Berlin, number of the world's great cities and hub of European transportation.

Idologically the advantage in the battle for unity will lie with the three western zones.

On the face of it, the prospects of western Germany being won over to the Soviet side seem remote.

However, the game of enticement is what the western zones will employ.

V. A. Williams Jr. Special Assistant Attorney General

TALLAHASSEE, Oct. 5 (SPECIAL)—Vollie A. Williams, Jr., of Sanford, now a special assistant attorney general under Attorney General Richard Ervin, prepared during the regular and Extraordinary Sessions of the Legislature 92 bills for presentation in the House of Representatives and the Senate.

Among the functions of the Attorney General's office is the preparation of such bills at the request of the various senators and representatives.

Williams also assisted in the revision work and compilation of the new edition of the Florida Statutes, which is another of the functions of the Attorney General's office.

Henrich's Homer In 9th Gives Yanks 1 To 0 Victory

Sizzling Mound Battle Between Reynolds, Newcombe Tied For 8 Innings

Probable starting battery for the Dodgers are Rowe, pitcher; Campanella, catcher. For New York are Reynolds, pitcher; Berra, catcher.

YANKEE STADIUM, N. Y., Oct. 2.—(AP)—Tommy Henrich's dramatic home run clout into the lower right field seats leading off the last of the ninth gave the New York Yankees a 1-0 opening World Series victory over Brooklyn today, ending a sizzling mound battle between Allie Reynolds and Don Newcombe.

The count was two balls and no strikes on "Old Reliable" when he soloed a Newcombe fast ball into the stands, about 10 rows back.

Up to that time, it was a sparkling pitcher's battle that threatened to set a new Series strikeout record. Going to the last of the ninth, Newcombe, the Dodgers' huge negro rookie, had 11 strikeouts and Reynolds, the Yankee righthander, had nine.

Long lines of bleacher-bound World Series customers stormed into Yankee Stadium after an early morning drizzle stopped. The sun broke through the low overhanging clouds as men began to roll back the tarpaulin that covered the infield.

Yankee officials did not open the bleachers or standing room gates until 8 A. M., some three hours before the game-time because of the threat of more showers.

The bleachers were almost half full within 15 minutes after the gates were open. Then 19,500 seats and the 6,000 standing room positions were the only tickets for sale at this vast concrete ball park.

This is the third meeting of these interborough rivals. The Yankees winning 4-1 in '41 and 4-3 in '47. In fact the Dodgers never have won a Series in four tries while the Yanks copped 11 of 15.

This 4th World Series, in which the Yanks are 10 to 17 man-to-man favorites, loomed as a battle of master with doctors. Both Stengel and Shotton favor strategic shifts of players against hand-crafted and right-handed pitchers and sometimes just for the sake of a hunch. Stengel, in particular, seldom "hunched" wrong.

Shoulder Injury Hits Star Rollins Punter

WINTER PARK, Oct. 2.—(AP)—Left Halfback Set Justice will probably be out of action for the remainder of the season because of aggravation of an old shoulder injury, Rollins Coach Joe Justice said today.

The younger Justice, a star punter, dislocated his shoulder temporarily in the Miami game, then threw it out again today in slighting from a car.

If he use Set again, it will be only when Rollins is in a hole and must punt out of danger," the coach said.

Left Halfback L. D. Bohetto of Gainesville, is being groomed as a kicker.

Florida Trained Ball Clubs Are Winners

TAMPA, Fla., Oct. 2.—(AP)—With malice toward none, and charity for all. The Tampa Tribune declared today that Florida has once again proved itself the ideal conditioning spot for major league baseball teams.

Sports Editor Pete Norton said: "Seven of the eight first division teams trained in Florida, including the National League champions, the Brooklyn Dodgers, and the American League champions, the New York Yankees.

No team that trained outside of Florida finished better than third. The Cleveland Indians, world champions in 1948, wound up third in the American League this year.

"In order of their finish in the two leagues, and the cities in which they trained the first division teams are, National League: Brooklyn Dodgers, Vero Beach; St. Louis Cardinals, St. Petersburg; Philadelphia Phillies, Clearwater; and Boston Braves, Bradenton.

"American League—New York Yankees, St. Petersburg; Boston Red Sox Sarasota; Cleveland Indians, Tucs, Ariz.; and Detroit Tigers, Lakeland.

"Need more to be said."

GAINESVILLE, Oct. 2.—(AP)—With but two more practice sessions on tap before they entrain for Mobile and a Saturday encounter with Auburn's Tigers, the Florida Gators really bore down with the rough stuff this afternoon as Head Coach Ray (Bear) Wolf wasted little time in rounding his squad into shape.

World Series Bring Cheers From Merchants As Well As Office Boys

By SAM DAWSON NEW YORK, Oct. 2.—(AP)—That crack of the bat today at Yankee Stadium—it echoes in the halls of business just as well as in the rarified atmosphere of the Bronx. The World Series stirs up all kinds of talk—about everything from profits to office boys.

It's not just that New York is, as the sports writers keep telling you, baseball-mad. Some of that loud rooting you heard Sunday for the Yankees and the Dodgers came from New York merchants, hotel keepers, holdog tycoons, theater managers. The cheers from the railroad, airline and bus companies would have been just as loud for the Red Sox and Cards had won. But all of them are happy today, very happy.

Merchants here will be \$12 million the richer for the World Series. In the estimation of the New York Convention and Visitors' Bureau, which figures that the Yankees' share to the city, New Yorkers will add a lot to the kitty, because the World Series seems to loosen the purse strings all along the line.

Look at the theaters seat sales booming. Look at the hotel-room clerk saying, "sorry" for the first time since the dear days they remember in the early post-war years when you had to know someone to be sure of a hotel room here.

Dr. look at the ticket scalper. He's reported selling for \$100 a set of box seats for which he paid \$32. But don't wire in for his name and address—we don't know where you can get any tickets. We can even get off ourselves to try for standing room along with you.

But to get back to the office boy. The office boy is a baseball institution. Probably there's no joke in the American tradition more tried and true than the one linking the health of the office boy's grandmother to the fortunes of the Dodgers or the Yankees.

The baseball crisis, which has supplanted the dollar crisis and the strike crisis as our current A-1 crisis, has recalled the officeboy to the minds of the executives over at Jersey Standard Oil and they have given forth with a paean of praise for the young man. They have a little joke of their own about the office boy. It's not about grandma, but goes like this: When a Jersey director retires, the company hires a new office boy. That's perhaps because they like everyone, especially new ambitious office boys, to know that so many of their directors started as office boys.

Someone over at Jersey has looked into the office-boy situation, and reports on his changing world. A generation ago the average office boy was 14 years old and his main qualification was to be spry at running errands. Whether this is an accurate description of the former office boys who now sit of the Jersey board, no one over there says.

But they point out that nowadays the office boy is different. High school graduates are the rule. "And college, even graduate school, diplomas no longer cause comment," the Jersey spokesman comments.

They are encouraged, the younger ones, to add to their schooling. They are given leave to this end, and about 90 per cent of them return to posts with the big oil company.

Other office boys go to night school, and when they complete a company-approved course, they get two-thirds of the registration and tuition fees refunded.

This interest in office boys is by no means confined to the oil company. Other companies are actively seeking new executive blood, and finding it in the recruits who start out running errands, sorting mail and answering the buzzer.

Answering the buzzer, that is, except during the World Series. When the nation is, to coin a phrase, baseball mad, all bets are off, all signals are changed—even if, as this case, the occasion is consideration of the state of business.

Shortstop Rizzuto Biggest Little Man In Major Leagues

Pete Cooper, pro at Ponte Vedra and defending champion, announced yesterday that more than \$2,000 in prize money already is in the till and that some splendid trophies have been lined up for amateur winners.

According to Cooper, who captured the Southwestern PGA championship golf tournament at Atlanta last Sunday with an even par for a 284 total, entries in the Florida Open should reach the 150-mark before the deadline. Approximately 30 of these will be professionals from all parts of the "it."

It looks as though it will be one of the best Opens we've ever had," Cooper said. "The Ponte Vedra links are in excellent shape. Our links modification program has been under way for some time and there have been a lot of improvements. The recent heavy rains have helped the greens. I'm looking forward to a record turnout and some fine golfing."

Among the pros who are scheduled to compete at Ponte Vedra this week are Vincent Glover, Fort Pierce; Tony Penna, Delray Beach; Clyde Unna, West Palm Beach; George and Earl Bolosta, Tampa; Jack Harvey, Roland Hurley, Al Gruber, Vic Foreman, Louis Broward, Howard Johnson, Jacksonville; Broyles Plimmans, Gainesville; Roy Hastings, Lakeland; Charlie Collins, Lakeland.

David Nelson, new football coach at Maine, played in the same Michigan backfield with Tom Harmon, Forrest Evashevski and Bob Westphal.

Woman Faints When It Rains At Series

TALLAHASSEE, Oct. 2.—(AP)—The Florida State University football team will be crippled at the ends when it meets Mississippi College at Clinton, Miss., Saturday.

Leonard Melton of Tallahassee, Florida, striking defensive left end, broke his leg in scrimmage yesterday. Norman Eubanks, regular right end from Clearwater, burst his leg in the 74-minute first of Wofford Field last Saturday and can't be counted on to play.

Coch Don Vetter moved Dwight Otha, reserve tackle from Linton, Ind., to one end position and brought Bob McGinnis, Orlando freshman, up from the B squad to help bolster his position.

Pete Cooper, popular pro at the Ponte Vedra Club, will be the defending champion in the ninth annual Florida Open Golf Tournament.

Stetson Football Turnout Pleases Coach Trocolor

DELAND, Oct. 2.—(Special)—Turnout for opening football practice sessions at John B. Stetson University was pleasing to Head Coach Bob Trocolor and Line Coach Gus Hensley, both new at Stetson this year, but they would not admit it openly.

Trocolor already has eliminated the 75 men reporting for early practice to 54 men. This will be further reduced to 37, the number he expects to carry on the "A" squad.

The two-day practice schedule will be broken Wednesday with a light workout in the morning for the benefit of photographers and sports editors of Florida newspapers and press associations.

The 1946 varsity football team will be built around the more-than-a-score of lettermen from last year. In the line, lettermen returning include such 1946 starters as bowling Simmons, at center, Dick Mesar and Guy Garrett at guards, George Oasler and Bill Lanigan at tackles and George Everett and Dick Hendry, at ends. Backfield members include Harry Finckley at quarterback, Jim Olson and Fulmer Armstrong at fullback, and Charles Broadway, Joe Garrott, Lewis Treen, Fred Hogan and Jim Ankin at halfbacks.

High school men who are commanding the attention of the coaching staff include Russell Dantz, of Cloud, fullback; Bob Marks, Fort Lauderdale, halfback; Gene Mancino, West New York, N. J., fullback and Bob Clertson, Clifton, N. J., ends.

Representing Bergen Junior College, where Trocolor coached last year, Butler University, Iowa State, University of Florida, and Rollins College are showing interest in making the team before the season is over.

The first home college game will be October 6 with a newcomer to the schedule—Troy Alabaster College in Municipal Stadium in Deland.

On successive Saturdays, the flatters play Milligan College at Johnson City, Tenn., University of Tampa at Deland, Florida State College at Greenwood, S. C., Presbyterian College at Deland, and Mississippi College at Daytona Beach. The season ends December 2 in Orlando with Rollins.

TODAY'S BIBLE VERSE

When you are furiously busy, your memories do not bother, but when you are idle, they do.

Florida grapefruit is now bringing \$7.50 a box on the average in New York.

Congratulations to Billy Beardall, Sanford boy who went down to the big city and made good, on his election as mayor of Orlando the other day.

We see where John L. Lewis was fined \$33.25 in Harrisonburg, Va. for speeding and crossing a double white line. That's one law he can't break.

The mayor of Hamburg, Germany, is coming to the United States to see if he can get a loan for the reconstruction of that city.

A good joke on a couple of congressmen sunbathing in Spain was revealed when they reported to police that \$5,000 had been stolen from them on a train between Barcelona and Bilbao.

How many children can a person have in 15 years? Well, Mrs. Arthur Griser of Pittsburgh, Pa. had 17, but in this day and time when nothing is perfect and everyone is apt to be given hell as matter what he does, she should be criticized for not doing better.

Helen Gahagan Douglas, California's glamour girl in the House of Representatives, has announced that she intends to run for the Senate next year.

Remember John W. Davis? He was the Democratic candidate for President of the United States back there in 1924. Well, he is still living, and he has just come in as senator from New York against Herbert Lehman, the Democratic candidate. They don't let their party affiliations as easily up there as we do down here.

Oh, now we get it: A Senate committee reveals that Point Four Truman's foreign investment program provides that the government will guarantee repayment of investments made by private citizens in foreign lands.

Now you will be able to get your money to you, better than they will do for the country. In fact, if you work in Big Steel, or the automobile industry, the government will do its best to get it away from you.

Cheaper Bread

It was announced recently in Rome that the Italian government had ordered a ten per cent reduction in the price of bread, which would bring the price in Rome down to about six and a half cents for a pound loaf.

Pixing the price of a loaf of bread by government order may have some advantages, but a lot of other things go along with that practice.

Some Americans are voicing a desire for that kind of security, the security of government control over their lives. But would they really like to live under such control?

Freedom Of Information

A proposed world treaty for guaranteeing freedom of information apparently will not be brought before the present session of the United Nations General Assembly for final action.

The spreading of any freedom by international agreement is a praiseworthy enterprise. But in the case of freedom of information, about all any nation needs to do is allow people and the press to say what they please.

Salt Water Made Fresh

Coastal cities may some day boast of the finest water in the United States, drawn directly from the ocean. This might happen before many years, in the opinion of Oscar L. Chapman, undersecretary of the Interior.

Salt water can be distilled until it becomes suitable for drinking and many ships distill water for their boilers and for drinking. The late Governor Gifford Pinchot of Pennsylvania worked out a small portable distilling device to enable flyers, forced to land on the sea, to get sufficient drinking water until rescued.

Georgia Vs Florida Roads

In last Friday's Journal I commented on the superiority of Florida roads over those of Georgia after a considerable experience on the Sunshine State boulevards during my vacation.

I told about returning to Georgia and after leaving Monticello, Fla., and near Thomasville, Ga., we were amused by seeing three large signs with a mile reading "Drive slowly rough road ahead."

Mrs. Mal E. Dickerson, of Waycross, Ga., writes "My husband and I took a trip to Florida also this summer and came back by way of Monticello and Thomasville, and we also read those same signs as we hit the Georgia line. We traveled over a thousand miles in Florida and I crossed two wooden bridges."

FLORIDA ROADS PRAISED Mr. Oran Pa-Ward, of Atlanta, writes: "I was greatly interested in your editorial in last Friday's Journal regarding the superiority of Florida roads over the ones we have in Georgia."

"I had the pleasure of living in Tampa, Fla., from 1918 through 1930 and made many trips over both Florida roads and Georgia roads during that time on my way to and from Johnson City, Tenn., which had been my former home."

"How well do I remember the new west coast road was being graded through Brooksville, Livermore, Demolton, Romeo, Juliet and Lake City and how deep the sand ruts were so that if you once got in them it was impossible to get out until you came to some small town where there was some hard surface road."

STILL ARE OF BEST "Along this route was built an asphalt, slag-topped road (and by the way this slag came from my near neighboring city of Birmingham) which has stood up under some of the heaviest truck traffic traversing the state both north and south bound and with practically no repair this road is one of the best in their state today. Not only is it one of the best, but it is one of the safest in the state."

MEDICAL PROBE CHICAGO, Oct. 6.—(AP)—Trustees of the American Medical Association said today that the AMA and 16 state and county medical societies are being investigated by the anti-trust division of the Justice Department.

VA Asks Congress For More Teeth In GI Bill Of Rights

Education Benefits Expected To Reach \$60 Billion By '56

WASHINGTON, Oct. 6.—(AP)—The Veterans Administration tossed one of its hottest potatoes—abuses of the GI education benefits—into the lap of Congress today.

Veterans Administrator Carl R. Gray, in easing the sharpest of his recent restrictions on veterans training yesterday, said it's up to Congress to put new teeth into the GI bill.

Gray warned that unless the law is made more strict, the cost of training veterans for jobs will exceed a staggering \$60,000,000,000 by the time the benefits expire July 25, 1956.

Acting Chairman Pepper (D-Fla) called the Senate Labor and Education Committee into closed session to consider the education and training problems.

Pepper yesterday read the committee a letter from H. V. Stirling, assistant veterans administrator, which said that Gray has concluded he lacks authority under existing law to correct grave abuses that now exist.

Stirling said practically every World War II veteran is eligible for education or training under the existing law, whether he needs it or not.

"The underlying spirit of the education and training provision of the act for all practical purposes has been lost sight of," Stirling said.

The increase in subsistence payments to \$75, \$105, and \$120 a month has encouraged veterans to seek courses or training requiring only five hours a day or 25 hours a week of attendance.

"Schools have been organized since June 22, 1944 for the sole purpose of offering courses which everyone knows would not be continued without GI payments."

Gray repealed the controversial "instruction 1-A" he had issued three weeks ago.

It required veterans to provide special justification before they could resume interrupted courses, transfer to new courses or schools, take post graduate work or enroll in schools established since September, 1944.

Gray's new rules provide only that course changes must be in the same general field. Courses may be continued through masters and doctors degrees for veterans who have sufficient entitlement.

Veterans who wish to change to courses outside their field may do so only after the Veterans Administration has ruled that the change is desirable and needed, and that the veteran is qualified.

The new order also said that flight courses offered by institutions of higher learning as part of the standard requirements for a degree shall not be considered recreational or avocational.

Report Is Made On Camden Mass Killer

CAMDEN, N. J., Oct. 6.—(AP)—Police sources said today the findings of psychiatrists studying Howard Urub, the Camden mass killer, will be turned over to prosecutor Mitchell H. Cohen next week.

Urub, 28-year-old war veteran, has been undergoing psychiatric tests at the New Jersey State Hospital, Trenton, for the past month.

The sources, who declined to be quoted by name, said the report will contain "some interesting revelations."

Hospital attaches described Urub as a model patient. They said he spends his time reading avidly, mostly sea stories, and seems to be content. He is being detained in the isolation ward.

Urub slaughtered 13 persons on a busy Camden street last September 6. He was captured by a squad of 50 policemen using tear gas. Thirteen murder charges have been lodged against him.

Stassen Might Run For President Again

PHILADELPHIA, Oct. 6.—(AP)—Harold E. Stassen, president of the University of Pennsylvania, hinted today he may be a presidential candidate in 1952.

Asked in an interview about his chances for the presidency, the former governor of Minnesota said he considered the time "too early" to go into the question but added:

"I have always been interested in public affairs and intend to remain so. I am deeply concerned about the fundamental policies that affect the people of this country, questions that involve peace or war, good living conditions and had living conditions."

Stassen was an unsuccessful candidate for the Republican presidential nomination last year.

Sanford Angler Awarded \$500 For Prize Catch

Price J. Angel, owner of Angel's East Shore, was yesterday awarded the \$500 prize for the outstanding catch of the year in Daytona Beach's annual \$8,000 fishing tournament.

Mr. Angel this summer caught a 42 pound, 12 ounce channel bass at Ponce DeLeon Inlet, using only light tackle and a 20 pound test line, and revealed that it took a half hour to get the fish into the row boat.

Other Sanford bait-catchers recently got into the news on the front page of the Titusville Star-Advocate by hauling in some big catches in the surf.

Under the title, "Fishermen are reporting many nice catches," the article stated, "Stewart Gabriel of Sanford took a 30 pound bass in the surf Sunday, while Fort Lansing of Sanford caught a 15 pound, and Fred Pope of Sanford took a 12-pounder. This group also caught eight blue crabs."

Several other nice catches of bass, blues, and some ocean trout were reported by residents of Orlando and Sanford on Sunday.

SPEED TRY CHICAGO, Oct. 6.—(AP)—Lieut. Col. Marion Carl of the Marines today postponed until tomorrow his attempt to regain an air speed record.

Had weather forced postponement. He planned to fly from the suburban Glenview Naval Air Station to the Naval Air Station at Cherry Point, N. C. He set 1 P. M. (CST) tomorrow as his tentative takeoff time.

PAPER WORK TALLAHASSEE, Oct. 6.—(AP)—Governor Warren has left his Capitol office to catch up on his "paper work," his executive assistant said today.

In response to a reporter's inquiry about the Governor's absence, C. L. Clark issued this statement:

The goldenrod is the state flower of Nebraska.

Deer shed their horns every year.

Nine-tenths of the big game animals in the United States are deer.

Betty Ruth Cook Weds Anthony Russi

Miss Betty Ruth Cook, daughter of Mr. and Mrs. J. C. Cook became the bride of Anthony Joseph Russi, son of Mr. and Mrs. J. D. Russi, in a quiet service performed by Dr. J. H. Root at his home on Palmto Avenue on Saturday afternoon at 1:00 o'clock. The bride wore a street-length gown of blue-gray satin, fashioned along princess lines with a deep V-neckline and full skirt. She wore a dark blue velvet hat and her other accessories were also dark blue. At her shoulder was a lavender orchid corsage. Serving as matron of honor was the bride's sister, Mrs. Helen B. Revels, who wore royal blue tulle, fashioned along similar lines to that of the bride's. Her accessories were black and she wore a corsage of sweetheart roses and orange blossoms. Mr. Russi performed the duties of best man for the bridegroom. The mother of the bride, Mrs. Cook, wore a dress of gray and scarlet crepe with black accessories. Following the ceremony a small reception was held at the Cook home at 204 Maple Avenue where the rooms were decorated with roses, pom-pom chrysanthemums and ferns. The bride's table was overlaid with a lace cloth and centered with a three-tiered wedding cake, served by Mrs. Jesse A. Cook Jr., Mrs. J. A. Cook, Sr. presided at the punch bowl. Following a short wedding trip Mr. and Mrs. Russi are now making their home at 204 Maple Avenue.

Truman's Views

(Continued from page one)

his announcement of an atomic blast in Russia might have made it more possible to reach agreement with the Soviet on the atom. He said he couldn't answer that and then went on:

We have made the most important proposition in the history of the world and we are not going to back down. The Russian position will not be changed.

Mr. Truman commented that no other country in history, possessing a terrible weapon, ever offered to subject it to world control.

The Russians have made several proposals that cannot be accepted, the president went on, adding: It probably will be the same thing this time.

As for the Russian atomic explosion announced by him Sept. 29, Mr. Truman said he has made all the statements concerning it that he intends to make.

In reply to another question, the president expressed hope there will be no arms race as a result of the Russian development.

With respect to labor unrest, President Truman said that the coal and steel strikes have not yet reached the point for his intervention.

Minutes earlier John L. Lewis accepted an invitation to attend a government-sponsored peace party on the coal strike tomorrow. The mediation director called by Congress, who said the coal situation is approaching a crisis.

Mr. Truman said a warning of government officials that coal and steel stoppages were hurt the domestic economy were well timed and to say that he then went on to say that the situation has not yet reached a stage for him to intervene, President Truman also said that he had asked Democratic leader William M. Boyle, Jr., to stir up support among state and local Democratic Party leaders for confirmation of Le. C. ...

Commissioner his new conference ...

He said this was a very proper thing to do. He said he has to have party discipline if he is to transact the business of the government and carry out the party platform.

A Senate committee yesterday reported adversely on Olin's nomination for a third term, despite the president's letter to the Senate saying "powerful corporate leaders were out to defeat his nomination."

Housing Survey

(Continued from page one)

classified as sub-standard and not desirable to live in due to excessive run-down condition, lack of sanitary facilities, and overcrowded conditions. The living conditions among other dwellings or buildings are little better within the area being for the number of occupants.

At the completion of the survey the data obtained will be accumulated and tabulated. A report of the findings will be prepared and submitted to the Public Housing Administration. The living conditions in the Sanford area as disclosed by this report will largely determine how many units will be constructed in Sanford during the entire six year program.

The size and type of the units constructed will depend largely on the specific needs of the Sanford area as shown by this report. It is, therefore, most important that accurate information be given the survey crew and that every effort be made to assist the crew in securing the necessary data.

The beginning date of the survey has not been set as yet. The application submitted to the Public Housing Administration for the construction of 125 housing units and a preliminary loan of \$47,800 has not been approved as yet. Until the application is approved, which is tentatively planned, however, to start the survey sometime in November, and it is estimated that it will take about three weeks to complete their work.

# A&P, TOO, TAKES OFF ITS HAT TO MR. C. WHIT BLOUNT OF WAYNESBORO, GEORGIA

## -AND TO ALL OUR OTHER GOOD COMPETITORS WHO HAVE TAKEN A SIMILAR STAND

[ An Advertisement From The Waynesboro True Citizen ]

### A Word For Our Competitor The Great Atlantic & Pacific Tea Co.

There has been a move by the anti-trust department of the Federal Government to destroy our leading competitor, the A&P Food Store.

It may seem odd, but we are opposed to this move.

The A&P Co., is definitely our strongest competitor - they keep us hopping. But, we are still in business - And Expanding. We do it by selling quality merchandise, buying at a close margin and selling at CLOSER margin.

The so called "trust-busters" charge that the A&P Co. control some of the production and processing ends of the food business. As a result, they hold the cost price down on foods.

#### WELL, WHAT'S WRONG WITH THIS??

If A&P holds the costs down, it makes our suppliers hold their costs down to the same competitive level. They can sell cheaper, AND SO CAN WE.

We intend to continue to try to sell better merchandise than A&P; We also will continue to have competitive prices.

BUT, We don't believe the government, or any individual should try to break up a firm that is doing a good, clean, efficient job of serving the people of this country.

### Competitor Denounces Suit Against A&P

THE BOLD three-column advertisement in the current issue of the Waynesboro True Citizen catches the reader's eye. We quote it in full.

To our notion that advertisement by C. Whit Blount states the economic and governmental aspects of the case against A&P with a clarity and forcefulness that most of the editorial comment has lacked.

Also it strikes us as a fine example of sportsmanship in business.

Incidentally, it is about as effective an advertisement as could have been written for Mr. Blount's "Groceteria".

Makes you sort of wish you were in Waynesboro to trade with him, doesn't it?

 out title "Public Occurrences, both Foreign and Domestic."  
 "It had not been running very long before the governor of Massachusetts suppressed it for discussing political questions," declared Mr. Heaton. "Publishing indeed seemed to be a precarious business, but in 1704 there came a record venture, 'The Boston News Letter' which refrained from discussing political questions and so languished for lack of interest. Then in 1720 Ben Franklin's brother James began to issue his 'New England Courant'.  
 "This paper, he pointed out, was issued under official printing press license, because the Puritans of Massachusetts were no less anxious than King Charles to shut out from printing any all literature not meant for the people to read. Newspapers began to appear in other colonies, but owners and editors were constantly subjected to arrest for printing anything displeasing to the colonial government. It was not until the Bill of Rights was adopted in 1791 that freedom of the press was openly recognized.  
 "Visitors from Mt. Dora included W. A. Reed, Jr., John B. Faulkner and Mr. Heaton. Other visitors were Howard Reddick, Eustace George W. Simmons, Jacksonville; Emory Schlotz, Salt Lake City; R. U. Wise, Palatka, Bill Kilpatrick of the Key Club and R. T. Cowan.  
 "President Morrison thanked the Kiwanians for the gift of flowers to himself and Mrs. Morrison on the occasion of their 28th wedding anniversary and brought chuckles when he declared, 'we both agreed that this was the first time that a civic club had observed our 28th anniversary.'"

**Crommelin Suspended**

(Continued From Page One)  
 acknowledged that it was he who "leaked" to the press on Monday the correspondence in which three admirals noted concern about Navy morale under the existing defense set-up.  
 "The 48 year old Captain noted in a statement that it was a violation of regulations but said that it was only "technical" and that he acted for what he believed to be the good of his country.  
 "I do not know what the Navy Department would do about it but only 'technical' and that he acted that he was ready to take the consequences.  
 "On Capitol Hill, one result of Crommelin's action was to spur a congressional airing of deep-seated differences, particularly between the Navy and the Air Force, over military policy. The House Armed Services Committee ordered."

Crommelin asked the newsmen to whom he gave the letters not to use his name as the source. But he was identified as such in a radio broadcast last night. He followed up with a statement explaining his action.  
 "The statement, as carried by the New York Times, said Crommelin considered release of the letters necessary to the interests of national security." He asked anonymously, he added, "to prevent any diversion of the attention of the American people from the true import of the contents of the three documents."  
 "Here is the story of how Capt. Crommelin made available to the Associated Press on Monday copies of letters from three top admirals to Secretary of the Navy Matthews.  
 "Crommelin called an AP reporter whom he knew and said he wanted to see him immediately about a big story. Asked whether it was his resignation from the Navy, Crommelin said it was bigger than that.  
 "The reporter, off duty and at home miles away, told Crommelin he couldn't meet him right away but would get someone else to meet the captain. He offered to call Crommelin back.  
 "Crommelin called that suggestion and said that instead he would call the reporter again in 10 minutes. He called back in less than five and was told the name of another AP reporter who would meet him.  
 "Crommelin then directed that the reporter meet him at 3 P. M. near the elevator on the fifth floor of the National Press Building. This turned out to be the residence room of the Federal Deposit Insurance Corp. Thinking he was in the wrong place, the reporter was about to leave when Captain entered through a door opening onto a stairway.  
 "Following the way, Crommelin took the reporter back to the stairway and asked his name. Then he asked for identification. Satisfied, he handed out the letters.  
 "Crommelin specified (1) that his name not be used and (2) that the letters not be published because of F. I. C. rules. He said he had no objection to those stipulations. The reporter agreed to these special requests.  
 "Crommelin wore civilian clothes. He was dressed, presumably by way of camouflage, in a dark suit and tie and wore a dark hat.  
 "The reporter walked back to the FDIC lobby. Crommelin was not seen at the stairway."

 "The new bill would raise the minimum old age benefit from \$10 a month to \$25 a month. It would increase the maximum benefit for an elderly couple from \$85 to around \$129 a month. Benefits are based on a person's average wage and the number of his working years during which he paid payroll taxes into the program.  
 "In addition to blanketing new millions under old age and survivors insurance, for a total of 45,000,000 covered workers, the 201-page bill would:  
 1. Boost benefits by 70 to 80 per cent or more.  
 2. Create new disability insurance to take care of persons who by illness or accident can never work again.  
 3. Increase the payroll taxes an employer and employee. The tax would go up from the present 1 per cent on each, to 1 1/2 per cent next year; 2 per cent in 1951; 2 1/2 per cent in 1952; 3 per cent in 1953, and 3 1/2 per cent on each in 1954."

 "No radical change in the pro-Russian foreign policy seems evident as Chinese Communist affairs is still in Chinese hands. The example of Tito's Yugoslavia has shown this can be important.  
 "The West, however, must be on guard against mistaking any shift in Chinese Communist tactics for a shift in basic policy.  
 "Predictions of any change for the present can be only speculative.  
 "As things stand, Russia has gained an important victory and the West has received a major setback.  
 "Russia has gained:  
 1. Indirect but firm economic and strategic control over Manchuria;  
 2. A vital transmission link for spreading Communism in southeast Asia and possibly in Japan, with both military and economic implications;  
 3. An obedient partner with a claim to a large share in drafting a Japanese peace treaty.  
 "The preceding summary outlines opinions of a majority of qualified foreign observers who recently have lived or still live in Communist China.  
 "The Chinese Communists have chosen their course, for Russia and bitterly antagonistic to the United States—the one country in all the world that is able to give large-scale aid to China's impoverished economy. In this lies the contradiction in Red policy that may eventually—but not immediately—defeat the Chinese Communist program."

 their bill then by a 41 to 29 vote, sending it back to the Agriculture Committee with orders to return it to the Senate in 48 hours. That deadline expires at 9:15 P. M. tonight.  
 Even Chairman Elmer Thomas (D-Okla.) of the Agriculture Committee— who joined in the drive to the Senate would defeat the amendment.  
 Riding a triumphant 333 to 14 House vote, legislation vastly expanding the nation's Social Security program moved over to the Senate today.  
 It would add 11,000,000 to the 35,000,000 workers now covered by old age insurance.  
 Its sponsors voiced hope it would lessen strikes and strife over labor demands for pension plans financed wholly by employers. In the federal program, workers and employers share equally the cost of the benefits the workers later receive.  
 Senate approval is considered virtually certain—some time before the 1950 fall elections.  
 Chairman George (D-Ia.) of the Senate Finance Committee said the Senate is bound to vote for higher security benefits, but will not be able to act before the second session of the 81st Congress convenes in January.  
 The new bill would raise the minimum old age benefit from \$10 a month to \$25 a month. It would increase the maximum benefit for an elderly couple from \$85 to around \$129 a month. Benefits are based on a person's average wage and the number of his working years during which he paid payroll taxes into the program.

(Continued From Page One)  
 "The tax would be collected on the first \$3,600 of a person's income. It is now taken on the first \$3,000. The tax will go up automatically to 1 1/2 per cent in 1950, under present law.  
 Among new groups wrapped into the program are self-employed persons, domestic servants and employees of state and local governments. This might mean the institution of a stamp book plan for 750,000 servants and their housewife employers, to collect the security taxes.  
 The smashing House vote was a partial victory for a major point in what President Truman calls his "fair deal" program. The President, however, had asked that 20,000,000 more workers be brought under the insurance program, as compared to the 11,000,000 additional the house voted.  
 Major groups still left out of the "fair deal" program. Farm hands and professional people. Those excluded among others are doctors, lawyers and editors. Ways and Means Committee members told the House that farmers and professional people showed no great desire to get into the program.  
 Before the House passed the bill it rejected 232 to 115 a Republican substitute measure."

 cent a pound in scattered areas. Veal was about unchanged.  
 The reductions in egg prices averaged around two cents a dozen for large grade "A" eggs. Further cuts can be anticipated, poultry men said, because of the seasonal increase in the rate of laying.  
 Market sources said the next few weeks will find medium-sized top grade eggs in more plentiful supply because of the large number of young pullets in laying flocks.  
 Produce men said an unusually heavy fall crop of snap beans in many sections of the country was resulting in prices even lower than during the summer months. Continued warm weather in the east kept tomatoes plentiful and resulted in lower-than-usual prices for shipments from California.  
 The first of Florida's new orange crop started to far-distant markets this week. Growers said it would be ten days to two weeks before either grapefruit or oranges were being shipped in large quantities.  
 The Dun and Bradstreet wholesale food price index this week declined to 55.65 from 55.67 the previous week and was the lowest since Oct. 8, 1946. The figure represents the total cost of wholesale of a pound each of 31 foods in general use."

### \$2,000,000 Hike In Budget Asked Of Episcopalians

#### Bishop Of California Asks More Effort In Missionary Work

SAN FRANCISCO, Oct. 6.—(AP)—Episcopalians today were asked to hike their budget \$2,000,000 annually to finance their church's continuing battle against "militant, assured, relentless and aggressive secularism."

The proposed budget was presented to a joint session of the houses of bishops and deputies at the triennial convention of the Protestant Episcopal Church in America.

Rev. Karl Morgan Block, Bishop of California, presented the proposed budget, totaling \$8,648,917 for 1950. He is chairman of the joint committee on program and budget. A resolution said the 1951 and '52 budgets would not be greater.

Bishop Block said the committee hoped the budget and program of expanded church efforts would "begin the progress of what we hope will be a great upsurge of faith, of hope and of love."

"If we can make this the start of a spiritual revival in the church, then the raising of the money will be only incidental."

"The Christian faith is besieged from without by a militant, assured, relentless and aggressive secularism. It is betrayed from within by inertia, indifference, neglect, frustration and self-complacency."

The budget committee proposed upping the allotment to the Department of Christian Education by \$217,148 to a new high of \$311,800, in order to set up a new curriculum and training program.

Large share of the budget goes to missionary work—\$2,602,826—of which \$2,147,143 was allotted to work outside the United States.

Earlier in the convention Episcopalians were urged to seize the greatest opportunity ever offered the church in what is at the same time its darkest hour.

The Rt. Rev. Stephen Nell, Assistant to the Archbishop of Canterbury, told a youth convention of the Protestant Episcopal Church that a few realize "the power of the threat" of Communism to the Christian churches.

"For the first time in history the church has become literally world-wide," Bishop Nell said. He added that the greatness of the occasion was matched by the greatness of the perils.

To meet the perils of the present day, Bishop Nell urged additional support of the World Council

of Churches. He termed this body "the most representative fellowship of diverse Christian communions that history has yet seen."

The church's House of Bishops broke precedent yesterday by giving overwhelming approval to a change in church laws permitting licensed laymen to assist in giving the Holy Communion.

The change, if concurred in by the house of deputies, would permit a layman licensed by the bishop to administer the chalice in the communion service.

The action won support particularly from bishops of western dioceses, where there is a pressing shortage of priests.

The House of Bishops concurred with the house of deputies in continuing aid to the Russian church and other eastern orthodox churches.

The convention appropriated 15 per cent of its annual fund Friday offering for this purpose.

The house of deputies overwhelmingly rejected a resolution which would have given strong support to bishops of the Rev. John H. Melish, ousted Brooklyn pastor.

Rev. Melish was removed by the vestrymen of Holy Trinity Church in Brooklyn last spring because he supported his son, the Rev. William W. Melish, who was charged with activity in subversive organizations.

The deputies adopted a strong resolution urging extension of present displaced persons legislation, simplification of its administrative requirements, deletion of any discriminatory aspects, and the provision of funds necessary to carry out America's full share of the program.

The House of Bishops adopted a resolution to divide the missionary district of Brazil into three separate areas and to elect one new bishop.

The new bishop will be elected from among the native Brazilian clergy.

#### No Tolls Seen For Tampa Bay Bridge

TALLAHASSEE, Oct. 6.—(AP)—Chairman Alfred McKethan of the State Road Department yesterday declared there are no plans for putting tolls on Gandy Bridge which links Tampa and St. Petersburg across Tampa Bay.

Pinellas County Commissioner Andrew Potter was quoted in the Tampa Tribune as saying yesterday the Road Department is considering tolls to finance repairs to the bridge.

"The statement attributed to County Commissioner Potter of Pinellas County to the effect that the State Road Department plans on placing a toll on Gandy Bridge in order to pay for the cost of repairs comes as a complete surprise to me," McKethan said.

"The placing of a toll on Gandy Bridge for the purpose of making repairs had never been discussed

### Police Capture Jacksonville Boy After Wild Chase

MONTGOMERY, Ala., Oct. 6.—(AP)—An 18-year-old youth wanted in connection with a killing station holdup near Troy was captured by the highway patrol here early this afternoon.

He was arrested after a wild chase which ended in the front yard of a home just inside the city limits.

Patrol Sgt. Ralph Wilson said the youth identified himself as John Crosson, Jr., of Jacksonville, Fla., and readily admitted the holdup.

Crosson was driving a pickup truck when a highway patrol car sighted him on Alabama No. 9 headed toward Montgomery. He was finally hemmed up when he turned into a dead end driveway.

Wilson quoted the youth as saying he was on his way to Hawkins, Wyoming, to visit friends and gave out money.

Pike County Sheriff Ben Reeves who sounded the alarm came here to take Crosson back to Troy. He said robbery charges have been sworn out against him.

Reeves called on the patrol for help after a slender youth led up a service station near Troy and ordered the gas tank of his truck filled. He reportedly drank a couple of milkshakes beforehand.

Sheriff Reeves said the young lad cut the telephone line before leaving but took no money.

#### GRANDPA OF THE YEAR CHICAGO, Oct. 6.—(AP) Vice President Barkley and Helms Hepper, Hollywood columnist, have been named "grandfather and grandmother of the year."

The nominations were announced yesterday by the Chicago Grandfather and Grandmother Club. No specific citation was given.

The club's 500 members have invited the Veep and Helms to attend a club luncheon Sunday, so they can be crowned.

An invitation also went to Mrs. Carlton Hadley of St. Louis, friend of the Vice President.

There are about 651,000 steel workers in the United States, formally or informally by the members of the State Road Board or with the county commissioners of Pinellas County or Hillsborough County.

Gandy used to be a toll bridge but the charge was lifted in 1914 when the State Road Department and federal government bought it from its private owner.

McKethan declared himself "at a loss as to where Mr. Potter obtained" information the tolls were to be reinstated.

### Nameless Island Off Florida Coast Irks Survey Chief

TALLAHASSEE, Oct. 6.—(AP)—That nameless island on the east coast of Florida apparently isn't going to be without a name very much longer.

The island is the 100-mile long strip running from New Smyrna Beach to Sebastian. Lots of places on it are named but there is no name for the island as a whole.

The State Division of Water Survey and Research complained publicly about the situation last week. Since then, it has received a score or so of suggestions for names.

The proposals have been varied but the division likes "Canaveral Key" the best. Cape Canaveral is at the widest point on the island and the name seems "geographically and historically appropriate," the division said.

Other suggestions include Plantation Key since "Canaveral" is the Spanish word for a cane plantation—Frale Island, Doubloon Island, Finger Island and Treasure Island.

Names of historical characters also are being proposed, including the early explorer Francis Drake and people who played a part in Florida's history.

However, division director A. G. Matthews says he's not going to

make the choice himself. "A more eminent authority than this office should make the selection," he said. "We will be glad to present the suggestions to Governor Fuller Warren and the Cabinet for final decision. The people of the Indian River section will no doubt have a number of ideas."

The island is as much as eight miles wide in parts and narrows to 125 yards in others. There are several beach resorts on it, a federal guided missile base and a number of citrus groves.

Chief of Police Sherman Cannon offered to assign a detail to the Mayor as he asked, but only for 27 days. Mayor Burns said he doesn't want it that way because of possible reprisals against the policemen when they go back under Cannon's control.

Burns said he will ask the City Commission tomorrow to assign him the detail permanently.

With a flying squad the Mayor promised he'd get results and "take the rest of the department back like a bunch of monkeys."

Two spin fines were levied in city court on gambling charges today. The drive, which began a week ago with 92 arrests, has simmered down considerably.

The police dragnet has not yet brought in the three men Mayor Burns singled out as prime targets. He publicly offered Johnny DeSalvo, Bill Papas and Charlie Edl as the king pins of commercialized vice in the city.

"I will not let up in my anti-gambling campaign until the justice department produces the arrest and conviction of these three men," Burns said.

### Mayor Wants Own Flying Squad In Jax Gambling War

JACKSONVILLE, Fla., Oct. 6.—(AP)—If Mayor Hayden Burns gets a personal police vice squad it will be on a permanent basis, he said today.

Chief of Police Sherman Cannon offered to assign a detail to the Mayor as he asked, but only for 27 days. Mayor Burns said he doesn't want it that way because of possible reprisals against the policemen when they go back under Cannon's control.

### Citizen Of World Garry Davis Has Passport Trouble

NEW YORK, Oct. 6.—(AP)—World citizen Garry Davis may be in trouble with the Paris courts because of the peace movement he leads, but the "passport" he issued to his sister got her into four European countries.

Miss Virginia Furry Davis, 26, a singer, has just returned from a three-month concert tour overseas and told how border guards honored the fancy document her brother gave her.

It's called an "International Identity Card" and describes Miss Davis as a citizen of the world. It got her past border guards in Switzerland, France, Italy and Germany. She said they stamped it without question and passed her through.

But the Russians, the Czechs and the Americans weren't so easy. They wanted her real American passport, which she also carried.

Davis himself just got an eight-day jail sentence in Paris for not appearing to go to jail with a French conscription officer. On a he didn't get to serve time because he had already been held that long and the judge turned

him loose, unsatisfied. Young Davis, an American veteran, is agitating for a world government and common citizenship as the only means of avoiding a new war. He renounced his own American citizenship in Paris in September, 1948, burning his passport in a public ceremony. Since then, his movements have won a following in Europe.

The card he gave his sister was issued in 1947. It carries the serial number A 000017, and carries her description, photograph and fingerprints. When Miss Davis landed at the New York International Airport, she flashed the Davis card on an American inspector. "World citizen, huh? We don't believe in that," she said the man told her. She had to dig up her American passport to be cleared for entry.

London Bishop Finds U. S. Lack Of Religion

SOUTHAMPTON, England, Oct. 6.—(AP)—The Bishop of London said today he was surprised to find that 60 per cent of Americans "have no religion at all." But those who belong to a church, he told newsmen, "live up to their religion more strongly than we do in Britain." The Church of England prelate, Dr. John W. C. Wand, disembarked from the Queen Mary this morning after a six week visit to the United States. Dr. Wand said in England practically everybody owns to having a religion. "If he is not very sure about things and does not go to church regularly," he said, "he says he is Church of England." The bishop said American churches "are more up to date efficient than ours."

Miami Judge Fines Beach Men \$1200 For Contempt

MIAMI, Fla., Oct. 6.—(AP)—Three attorneys and the president of the Miami Beach Citizens' League were fined a total of \$1,200 today by Circuit Judge George E. Holt on charges of contempt of court.

Attorney David Koller was fined \$500 and attorneys R. K. Holt and C. Frederic Brown each fined \$100. Herbert Scott Young, Citizens' League President, was fined \$500.

Judge Holt ordered the quarter held in jail in the event they failed to pay the fines into the Registry of the Circuit Court.

Judge Holt adjudged the four in contempt for their actions in seeking to have the federal court issue an injunction restraining the Helmar Hotel from bulk loading and constructing a swimming pool on oceanfront property. The action came after Judge Holt previously had denied a restraining order and had threatened to jail the entire Miami Beach City council unless it issued construction permits.

Fashion Change May Be Cause Of Divorce

HOLLYWOOD, Oct. 6.—(AP)—Quick-change fashions may be responsible for much divorce, a leading movie designer suggested today.

Taking a sharp crack at her sisters and brothers in the trade, Helen Rose of M-G-M said:

"We who decree what women will wear are directly responsible for helping balance every family's budget. Most divorces are due to money squabbles, and I wouldn't be a bit surprised if they start by the little woman saying, 'I have nothing to wear!'"

Miss Rose says she's chiefly exercised by the speed with which the "new look" grew old, apparently to be replaced by flapper styles of the '20s—short evening gowns, lower waistlines, flat chests.

"This constant change is ridiculous," she said. "Clothes should be designed to remain in style for two or three years, which is the average life of a garment's fabric. One of these days, American women will realize that they are being victimized by a few money-mad designers—and do something about it."

## Brannan Hits Flexible Price Support Plan

### Vote Is Expected On Farm Bill Tonight; Senate Accepts Ban On U. S. Sales

WASHINGTON, Oct. 7.—(AP)—Secretary of Agriculture Brannan jumped into the sizzling Senate controversy over farm price supports today with a letter to Chairman Elmer Thomas (D-Ola.) of the Senate Agriculture Committee. Thomas claimed the Brannan letter backed a flat 90 per cent parity for basic crops—corn, wheat, cotton, tobacco, rice and peanuts, in preference to the flexible 75 to 90 per cent support plan now pending.

## U. S. Budget Deficit Above \$2 Billion

WASHINGTON, Oct. 7.—(AP)—The government's budget deficit climbed above the \$2,000,000,000 mark in little more than three months after this fiscal year began July 1. The Treasury reported today that through Wednesday, budget expenditures exceeded receipts by \$2,021,509,938.53 for fiscal 1950 to date. Estimates on the final showing when the year ends next June 30 range from a \$2,000,000,000 deficit to about \$3,000,000,000. Administration experts recently have planned their guesses on about \$4,000,000,000.

## Conciliation Is Begun With Lewis And Mine Owners

### Prospects Reported As Not Good For Immediate Accord

WASHINGTON, Oct. 7.—(AP)—John L. Lewis, coal leader, said today that he and the United Mine Workers' representatives are beginning to talk with the coal operators and the coal owners. Lewis strode into the meeting accompanied by Vice President Thomas Kennedy and Secretary-Treasurer John Owens of the United Mine Workers.

## State Okeys \$172,000 For Tourist Ads

### Montgomery Says Advertising For Tourists Will Do Most Good In Least Time

WASHINGTON, Oct. 7.—(AP)—Dr. Edwin G. Nourse, chairman of the Economic Advisory Council, said today that with good management the nation's prosperity will continue this year and "should continue through 1950." But the strikes are the key to the "situation," he told reporters after presenting the council's third quarterly report to President Truman. He said that if the coal and steel strikes are settled within a month, the economy could mount whatever difficulties ensue.

## Tallahassee, Oct. 7.—(AP)

Advertisements to attract tourists to Florida will get the bulk of the State Advertising Commission fund, for paid space today. The Commission today tentatively set up \$232,000 of its \$422,000 available during this fiscal year for use in buying paid advertising. Of that, \$172,000 was set aside to be spent on tourist promotion ads and \$30,000 apiece for industrial and agricultural promotion advertising.

## Fans Have Their Inning As Series Gets Going

THREATENING SKIES and early morning showers failed to dampen the spirits of hundreds of fans (left), many of whom spent the night just outside the entrance gate to the bleachers at Yankee Stadium, New York. In Brooklyn, one of the largest crowds ever assembled outside Borough Hall (right) gathered to cheer the Dodgers on to victory. An estimated 900,000 persons turned out to take part in the ceremonies. (International)

## Tokyo Rose Is Sentenced To 10 Years In Prison, \$10,000 Fine

SAN FRANCISCO, Oct. 7.—(AP) Tokyo Rose, who "couldn't believe they would send me to jail," today faced 10 years in prison and a \$10,000 fine in addition to the stigma of being a traitor.
