

Police Are Fired In Mobile, Ala. In City-Union Row

MOBILE, Ala., July 18.—Forty-one Mobile policemen and firemen were fired today for refusal to sign statements of non-union affiliation.

Eight policemen and 33 firemen were discharged. They failed to sign the non-union statements by last midnight, the deadline prescribed by a city ordinance.

Police Chief Dudley E. McFadden and Fire Chief L. L. Pezrey said normal operations of the departments would not be affected. Pezrey said remaining firemen would "double up" temporarily to handle fire fighting equipment.

The ordinance passed a week ago, brought a threat by a labor leader that unless the city took a "holiday" to show their strength.

Sam Shannon, a member of the executive board of the Mobile Central Trades Council, said a general shutdown for a day or two might show the city commissioners "how strong we really are."

Shannon made the statement in calling a mass meeting for 7:30 P. M. tonight to consider the city's ban against union membership for firemen and members of the police force.

The Mobile police local says that 100 of the 125 members of the police department belong to the union. The firemen's union claim 90 per cent membership.

Alleged Spies

(Continued from page one)

Hoover declared.

At their first meeting in June, 1945, Hoover said, "Greenleaf was paid \$500 by Gold, who obtained it from his Soviet superior, Anatol A. Yakovlev, Soviet Vice Consul in New York City."

Hoover added that after Gold was arrested last May, Rosenberg warned Greenleaf to flee the country and gave him substantial funds to do so.

Rosenberg's wife told reporters today that she is a sister of Greenleaf, the man her husband is accused of recruiting.

She denied that her husband was a Communist Party member, although membership in the party was given as the reason for his dismissal from a civilian job with the army signal corps during World War Two.

Mrs. Rosenberg said she thought the real cause of his dismissal was his activity in union affairs.

"Neither of us has any party affiliations," Mrs. Rosenberg said. "We vote as we see fit at election time."

A business associate of Rosenberg's, who declined to give his name, said the accused man never talked politics around the shop or gave an indication of being a Soviet sympathizer.

"I can't understand it," the associate said. "He was very nice to his help and worked right along side them."

Legal Notice

NOTICE TO APPEAR

STATE OF FLORIDA vs. BELLE W. EMBERTON, residence, Derry, New Hampshire; LILLIAN PUNCH PARKER, residence, unknown; all parties, claiming interest by, through, under or against LYNNE-EMBERTON CO., INC., a dissolved Florida corporation; all parties claiming interest by, through, under or against LYNNE-EMBERTON CO., INC., a dissolved Florida corporation; and all parties having or claiming to have any right, title or interest in the following described lands, or any part thereof, located in Seminole County, Florida, to-wit: Lots J, K, L, V, W and X of Block 45 of Amended Plat Book 45 of Seminole County, Florida, according to plat thereof recorded in Plat Book 45, page 14 of the Public Records of Seminole County, Florida.

You and each of you are hereby notified that a suit has been brought against you in the Circuit Court for Seminole County, Florida in Chancery, by CHARLES W. HOOK, his wife, and MATTIE LENSHER HOOK, her husband, who are hereby required to appear and file with the Clerk of said Court, a written defense, if any, to the bill of complaint in said suit on the 31st day of July, 1950, an answer, verified bill of which, case is: CHARLES W. HOOK and MATTIE LENSHER HOOK, husband and wife, Plaintiffs, vs. BELLE W. EMBERTON, et al. Defendants.

Herein full notice and judgment will be entered against you by default.

The nature of the suit is to quiet the title to the above described lands and to enforce the bill of sale.

WITNESSE my hand and the seal of said Court at Sanford, Seminole County, Florida, this 24th day of June, A. D., 1950.

O. P. HEINDON, Clerk of said Court.

Cancer Test

(Continued from page one)

Francisco's National Cancer Institute said the tubes can carry large amounts of drugs to the site of the cancer. Twice as much of the drug injected into a vein would be greatly diluted before it reached the same site, he explained.

Drugs were given in this way to 50 patients, all dying of cancer, in the past year, Dr. Shimkin said. About half of them received temporary help and a few obtained an extra three months of life, he added. The drugs used were nitrogen mustard, made from wartime poison gases.

The tube method, Dr. Shimkin said, had proven safe and may become increasingly useful. "The patient gets a local anesthetic at the point of the tube's entry and doesn't seem to mind the process," the doctor added.

Two other reports at today's session described the use of vitamins to fight cancer. Smaller than bacteria, the tiny viruses have to enter body cells to live and reproduce. If they get into cancer cells, they may be able to halt or slow down the cancerous growth.

A report from Dr. Shimkin and other San Francisco experts—Dr. Howard A. Bierman, Dr. William M. D. Hammond, Dr. Jerome C. Erdie and Dr. Karl P. Meyer—said such diseases had been given to 16 persons suffering from cancer of the lymph glands or cancer of the blood, leukemia. Some recovered temporarily, for a few weeks or months, the doctors said.

Each virus administered was of a type that could be controlled by using another virus, or antibodies, as aureomycin or chloromycetin. Diseases used included a virus disease of cats, a venereal disease called lymphogranuloma venereum, and rocky mountain spotted fever.

Dr. Alice E. Moore of the Sloan-Kettering Institute for Cancer Research, New York, told the group that a virus which causes Russian encephalitis. This dangerous disease, given mice, destroyed some kinds of cancer.

Acheson Note

(Continued from page one)

and had the delicate problem of avoiding any peril of alienating Nehru and India without compromising the firm American "rock bottom" terms for settlement of the Korean crisis.

In responding to Nehru the State Department considered the unusual device of two notes or a single note plus a statement detailing the U. S. position. Because Nehru's note was brief and in general terms, diplomatic authorities said protocol demanded that the American reply likewise be brief and to the point.

Nehru's note was brief and in general terms, diplomatic authorities said protocol demanded that the American reply likewise be brief and to the point.

These officials said they had planned to release the correspondence "when all replies were received." They said they still awaited the reaction of the U. S. and British governments to Stalin's reply.

Leaders Urged

some foods because they can get replacements by an efficient transportation system.

Regarding farm machinery, short during the last war—Patton said the equipment makers should be underwritten by the government, if necessary.

Patton said he doesn't want to see any more inflation but is opposed now to controls beyond restrictions on credit and strategic materials.

He said he is against gouging of consumers and "we ought to move in on some of these food processors." He didn't say how.

Patton said another matter he took up with Mr. Truman was the idea of strengthening the non-military, peaceful and utilitarian arms of the United Nations.

Reuther Plan

(Continued from page one)

chart the course of action.

Military defense would be expanded. America's present foreign and program would of course be dwarfed.

One final purpose would be total disarmament, however.

In arguing for his proposal Reuther went into recent history, including what he called the "tragic lessons of the appeasement at Munich" and the present "Korean situation."

He said the latter was a "part of total Communist strategy" and he predicted that the "dictator in the Kremlin will repeat the technique."

"We may push the Communist aggressors back in Korea only to find a repeat performance in Indochina, Burma, Iran, Turkey, Berlin or in any one of a dozen other spots," Reuther said.

Reuther's communication to the White House covered roughly 13,000 words, including his "total peace offensive" draft, a letter to Mr. Truman, and a "foreword." In essence these were his nine points:

1. The U. S. to pledge an annual \$13,000,000,000 over the next 100 years (1950-2050)—"not conditional" upon payments by other nations.
2. The UN fund to help develop and expand economic resources and facilities of participating nations and to improve living standards, including nutrition, housing, health and education.
3. The fund to be available also to the Soviet Union and its satellite nations subject to certain conditions.
4. Upon adoption by Congress of America's proposed role, this nation to submit it to the peoples of the world.
5. The UN to convene an international conference looking toward total disarmament and establishment of an international police force.
6. The UN to set up a "People's World Assembly" to make recommendations. The Assembly would be composed of representatives from workers, the farm, professions, business, education, religion, and other groups. The Assembly would convene annually.
7. The UN to expand existing agencies and create others as needed to administer the program.
8. The UN to create an agency authorized to employ scientists to develop and apply atomic energy to peacetime use.
9. This would be done "within the limits permitted by security measures made necessary by the refusal of one or more nations to agree to universal disarmament and inspection."

Broward Sheriff

(Continued from page one)

successors to Clark were Frank Tupper, Pompano Beach police chief; Chief Roland Kelly of Fort Lauderdale, and Mayor Dave Turner, mayor of Wilton Manors. Clark succeeded Turner's father in the sheriff's office in 1933.

Governor Warren announced at Tallahassee that he would suspend both Clark and Sheriff James A. Sullivan of Dade county if testimony showed them guilty of wrongdoing.

Sportsman Group

(Continued from page one)

found that a clubhouse for meetings and gatherings lends prestige in the membership and affords greater pleasure.

He appointed as a committee to investigate sites for this project and to report back to the membership meeting July 28, Boh Williams, chairman, Denver Cordeiro, E.J. Moughton Jr., and Mrs. Mayme Hoelkin.

The secretary was instructed that on receipt of a definite date to be set by the president, that letters be forwarded to the clubs of the Fifth District to meet in Sanford for the election of officers, which will be sponsored by the Seminole Club.

A meeting for the purpose of organizing a membership drive will be held July 28 at 8 P. M., at the City Hall.

Mexican President Attacks Aggression

MONTERREY, Mexico, July 18.—President Miguel Aleman, expressing himself on international affairs for the first time since the Korean war broke out, says Mexico "condemns aggressive wars."

The statement was made by his official spokesman at the Nuevo Leon State University yesterday.

The President, seldom speaks himself but has his cabinet members speak in his name. Education Minister Manuel Gual Vidal said the President's attitude is:

"Mexico condemns aggressive wars and domination in its different forms, military or economic, and will follow her unchanging tradition of peace and fulfillment of international obligations."

Mexico is a member of the United Nations, which voted to halt the North Koreans, and as a member of the Organization of American States approved the U. S. action in Korea.

Legion Meeting

(Continued from page one)

in out-of-town spending.

"Local businesses," he said, "must spend money outside of Sanford to exist."

Mr. Householder said, however, that the Fair actually brings money into Sanford. He stated that the Fair Association spent over \$1,000 last year in putting on the show. "In addition to that," he continued, "the Fair brought several hundred workers and performers to Sanford for one week during which time they spent their money here for eating and living purposes."

The Post promised in a resolution to pledge its full support and cooperation to the Seminole Club or efforts that might be authorized or called for by them.

The young men thanked the Legion for their part in establishing and sponsoring the program throughout Florida.

The Isle of Man was technically at war with Germany from 1914 to 1945.

Korean War

(Continued from page one)

General MacArthur in Tokyo and an Eighth Army spokesman in Korea reported all American lines intact in the area. The Eighth Army spokesman credited the 24th Division with having fought the Reds "almost to a standstill."

The Reds were reported pouring reinforcements across the Kum River. They wrestled a foot hold there by sheer manpower from the thin line of Americans in the Kongju area, 20 miles northwest of Taejon. But the spokesman at Eighth Army headquarters in Korea said only four North Korean tanks had been reported south of the river.

So quiet were the Reds, MacArthur's communique said, that the outnumbered, battle weary 24th division sent out patrols in an effort to find out the enemy's movements.

Associated Press correspondent William R. Moore reported from the battle zone that air power appeared to be slowing the Red drive at Taejon.

American planes, he said, seemed to have kept North Korean armor from moving against the Americans around the city.

The Red radio at Pyongyang, North Korean capital, broadcast that 2,600 U. S. troops were killed and 100 captured in fighting south of the Kum through 4 P. M. Monday (3 A. M. EST).

All American references to U. S. losses in the river battle have pictured them as light.

A spokesman at Eighth Army headquarters in Korea said at 9:50 P. M. (6:50 A. M. EST) that South Korean units in central Korea attacked Red troop concentrations in that area. The extent of the attack was not reported.

The spokesman said South Koreans inflicted "heavy losses" on a Red column encountered southwest of the American sector. Later the South Korean unit withdrew.

South Korean casualties have been light the past two days, the spokesman said. There was little activity in the American sector during the day.

AN AMERICAN COMMAND POST IN KOREA, July 18.—(AP)

Ma-Jed General William F. Dean

personally led an attack that pulled some of his front line troops out of the fire in Saturday's heavy fighting near the Kum River.

Back here briefly after four days in the front lines, the commander of the U. S. 24th Division, told of the incident tonight. He prefaced it by saying the North Korean Communists had not denied new American lines north of Taejon, former American headquarters in South Korea. He said the Reds had not been able to put their tanks across the shallow river in force.

In response to questions, General Dean told of the personally led relief given to infantrymen at a roadblock in the heavy fighting. The general said he put his jeep ahead of two tanks leading an infantry column against the roadblock on the American supply road.

An infantry unit in trucks, led by two armored personnel carriers and two tanks, was being sent to relieve heavily pressed troops on the Kum River line.

General Dean, who was temporary commander of U. S. troops in Korea before Lt. Gen. Walton H. Walker of the Eighth Army arrived, said he went forward and found the infantrymen had left their trucks to deploy. Going farther he found the armor cars. Around another corner the two tanks.

"Well, I found out that somebody who had the wrong information had come down that road telling them that Red tanks were coming against us," Dean said.

"I told them this was all wrong and put my jeep in front of the tanks and started up toward the roadblock.

"The Communists had got hold of some of our vehicles and piled them on the road. They had mortar fire and machineguns covering it and also their tank artillery was firing from up on the river."

"Pretty soon I looked back and found that the infantry wasn't beside us so I went back to check. I found that when the men deployed the trucks had pulled away for cover."

"So I got more trucks and got the men in them and went on back up and found the armor cars had been knocked out by the artillery," Dean went on. "So had one of the tanks. And the other tanks had not been able to break through the roadblock.

"Then I knew our people up ahead were in trouble. It turned out, however, that the regimental colonel on the other side had climbed in another tank and he was able to crack through the roadblock."

Through the roadblock.

"Then I knew our people up ahead were in trouble. It turned out, however, that the regimental colonel on the other side had climbed in another tank and he was able to crack through the roadblock."

National Guard And Reserves Expected To Be Called Soon

President Asks Congress For Ten Billion Dollars For Korean Controversy

WASHINGTON, July 19.—(AP)—The Defense Department announced today the Army and Air Force will begin immediately recalling a limited number of Reservists to active duty. The Navy also will start immediately by a "selective recall" of Reservists, the announcement said.

WASHINGTON, July 19.—(AP)—President Truman asked Congress today for a \$10,000,000,000 program to provide men and materials for Korean fighting and to guard against any armed aggression elsewhere.

Along with new military measures, Mr. Truman proposed partial home front mobilization. There will be no price controls or rationing now. But the President said he won't hesitate to call for them if sharp price rises make them necessary.

Later, he said, there will be a request for higher taxes. Mr. Truman asked that all legal limits on the size of the armed forces be lifted.

The President also reported to Congress he has empowered Secretary of Defense Johnson to call to active duty "as many National Guard units and as many units and individuals of the reserve forces of the Army, Navy, and Air Forces as may be required."

The armed services now are limited by law to 2,065,882 men. That figure is divided this way: Army 817,000, Navy 666,882 and Air Force 582,000.

Mr. Truman laid down his program in a 5,500-word message to the Senate and House reporting in detail on what has happened in Korea and why the United States again is fighting thousands of miles from home.

The attack upon the Republic of Korea, Mr. Truman said, "makes it plain beyond all doubt that the international Communist movement is prepared to use armed invasion to conquer independent nations. We must therefore recognize the possibility that

(Continued on Page 2)

AFL Drafts Plans To Raise Funds For Political Drive

WASHINGTON, July 19.—(AP)—Leaders of the American Federation of Labor, worried about a shortage of political funds, met today to draft plans to raise more.

Instead of an expected \$5 contributed by each of the AFL's 5,000,000 members, collections actually have averaged only 7 1/2 cents a member, say AFL political leaders.

Leaders of AFL state and local groups were urged to make more contributions and more voter registration for the fall elections.

Heavy outlays in organized labor's losing fight in Senate leadership in Florida and North Carolina have concerned the AFL leadership, it was relatively reported.

Joseph D. Keenan, director of labor's League for Political Education—the AFL's political branch—said the league political war chest is down to \$100,000.

In addition to that sum the league has collected about \$300,000 from union treasurers, on the basis of 10 cents a member, for political "admission" purposes. This money is set aside for publicity on issues in which the AFL is interested, not candidates, AFL leaders say.

Leaders of some of the AFL's biggest unions got up at a meeting yesterday and said they were "ashamed" that contributions have lagged so miserably. Keenan told the group that only about 10 or 20 percent of AFL locals have met political money to league headquarters.

STATEMAN HONORED
A NEW YORK, July 19.—(AP)—The 1950 Freedom Award has gone to Secretary of State Dean Acheson for his "valiant and constructive voice leading the Democratic world toward unity against tyranny."

President Truman's Program Means Partial Mobilization

WASHINGTON, July 19.—(AP)—President Truman's call upon Congress today for expanded military and partial civilian mobilization means, if Congress approves in full:

For families—
1. Tightened installment credit, probably higher down payments and less time to pay.
2. Sooner or later, higher taxes.

3. No price, wage or ration controls now, but later if prices soar.
4. Perhaps fewer things to buy, especially autos and television sets.

For men of military age—
1. A draft summons—for those over 19 and under 26 as needed.
2. A mandatory call to active service for National Guardsmen and Reservists if their units or individual assignments are wanted by the military.

For business—
1. Controls over materials, including government authority to ration supplies and set up priorities to say who should get them.
2. Possibly limited output of civilian goods which take big quantities of steel and other scarce materials.
3. Curbs on inventory hoarding.

4. The possibility that needed materials will be requisitioned.
5. Higher clearly-implied possibility of an excess profits tax, to produce revenues and curb profiteering.

WASHINGTON, July 19.—(AP)—The National Guard and armed services reserves include about 2,500,000 men subject to call under power given to Secretary of Defense Johnson by President Truman.

However, only a small part of that number are "hot" trained and equipped, or even organized into units.

Here is how the backlog of military strength is made up:

National Guard
A total strength of a few weeks before the Korean war) of about 328,000 in ground units.
Organized into 27 divisions—25 infantry, three armored.

All these divisions, says the Army, are fully organized by units, ready to go. However, the man strength of almost all of the divisions is barely half the wartime complement.

Air National Guard
About 45,000 men; 516 units composed into 12 light bomber and 72 fighter squadrons.

Army Reserves
About 600,000 men. However, only about 185,000 of these (70,000 officers and 115,000 men) are on a paid, regularly trained basis.

On paper the reserves consist of 17 infantry, three armored, five airborne divisions. But the degree of organization and actual readiness generally is much less than that for the guard.

Navy Reserves
A total of 1,118,231 names are listed—but only 184,000 are actually in regular training. The others generally are men who have indicated willingness to go on active duty.

Marine Reserves
128,000, with 23,000 receiving training on drill-pay status.
Air Force Reserves
53,000 in regular drill-pay status, training outfit.

The 45,000 men of the Air National Guard are in addition to these Air Force reservists.

Former Resident Of Sanford Died Sunday
Funeral services were held at the graveside in Evergreen Cemetery at 2:00 P. M. today for Clarence C. Vickery, 55, who died suddenly Sunday at his home lived for the past four years in Jacksonville where he had The Rev. W. P. Brooks, Jr. officiated.

Mr. Vickery was born in Hartwell, Ga. and formerly lived in Anderson, S. C. before coming to Sanford where he lived before moving to Jacksonville.

Military Aid Bill Approved By House Vote

Quick And Favorable Reaction Is Found To President's Message To Congress

WASHINGTON, July 19.—(AP)—Responding swiftly to President Truman's call for action "without delay," the House today authorized \$1,222,500,000 of military aid to free nations to combat Communism abroad.

Passed earlier by the Senate, the bill now goes to the White House as the President's signature.

Legislation was introduced in Congress today to "freeze" military service for the next 12 months all persons over 18.

Rep. Vinson (D-Ga.) offered the bill in the House and said the Armed Services Committee which he heads would start hearings on it Friday.

A similar measure was introduced in the Senate by Chairman Tydings (D-Md.) of the Senate Armed Services Committee.

Vinson said he intends to offer legislation to extend the term of service for quakers, once they are taken into the Army. At present, the law sets the draft term at 24 months.

It also is expected that the Defense Department will request that the top age draft limit of 26 years be raised. Some sources indicate it may be placed at 32 years.

In the meantime, Vinson introduced legislation to suspend for a year all legal limits on the strength of the armed forces. This was asked by President Truman in his message to Congress today.

Congress generally indicated willingness to give speedy approval to most of President Truman's requests for men, money and materials to meet the Korean crisis and against any other armed aggression.

House Speaker Sam Rayburn said the President's recommendations for economic legislation will be embodied in a bill to be introduced today.

"In hoping we can pass his bill next week," Rayburn said.

House Majority Leader McMillan said the President's recommendations for economic legislation will be embodied in a bill to be introduced today.

Senator Bricker (R-Ohio) indicated Congress will grant Mr. Truman's requests for billions of dollars and broad powers to all fronts and other wartime materials.

"I think it's necessary if we've got a war on and I guess we should have it," he said.

Ecceles Introduces Six-Point Plan To Prevent Inflation
SALT LAKE CITY, July 19.—(AP)—Marriner S. Ecceles of the Federal Reserve Board yesterday outlined a six-point plan designed to curb inflation which he said is developing rapidly because of the Korean War.

He proposed in a statement that inflation be checked through use of stricter credit controls, maintenance of current tax levels and a reduction of civilian demand for goods.

Ecceles, a former Utah banker, suggested as a fiscal program for the government that:

1. The government make no reduction in taxes this year.
2. It re-impose a corporation excess profit tax of 75 per cent on all net earnings above 10 per cent of the first \$5,000,000 (45) of invested capital and 8 per cent on any balance, allowing a \$5,000 exemption of earnings subject to the tax.

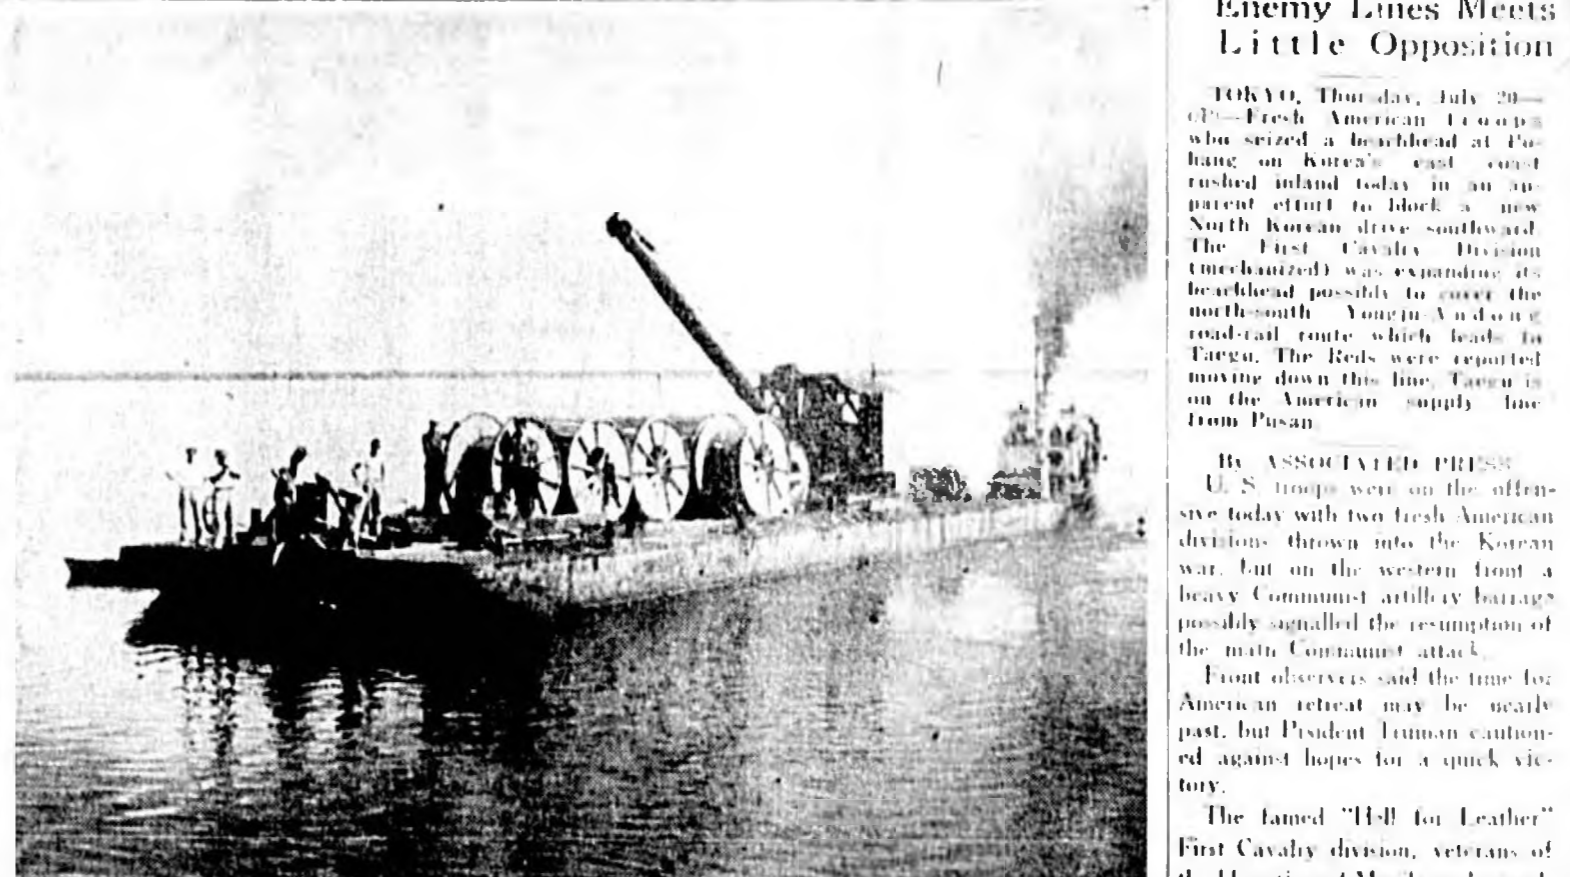

3. Organized labor be asked to make no demands for wage increases while the Excess Profit Tax is effective.
4. Second and third class post rates be boosted to a point where Post Office Department deficits may be met.

5. Tax loopholes be closed.
6. The U. S. Treasury offer non-bank investors long term non-market bonds with 15-year maturity interest rate of 1 1/2 per cent.

While the situation will require some controls, Ecceles said, he hoped the country could avoid the necessity of using wartime direct controls, unless the Korean situation develops into World War III.

Two Crack U.S. Divisions Land As Reds Gather Forces For Assault On Taejon Post

Telephone Cable Laid

Laying of the cable across Lake Monroe to provide telephone service to Plantation Estates was pictured last week when over 9,000 feet had been laid with some 10,000 feet remaining before the job is complete. The large crane from which the cable was laid was brought in from the St. Johns River from Jacksonville.

Defense Claims Gifford Insane In Schuh Case

Clark Won't Resign; "Governor Warren Will Understand"

CLEARWATER, July 19.—(AP)—The defense today began to lay the ground for its plea of insanity for Charlie Gifford, 69, accused of slaying state representative Charles J. Schuh, Jr.

The frail, old, ex-meat cutter, has pleaded both innocent and innocent by reason of insanity to the first degree murder charge.

M. H. Jones, Clearwater attorney who represented Gifford in a divorce case last year, described a visit to the defendant in jail a few days after the shooting, Apr. 24, 1950.

Jones said Gifford showed no signs of recognizing him and insisted his own name was Charlie Ross.

The attorney gave it as his opinion that there was "some mental derangement" unless Gifford was taking his lack of recognition. He added Gifford gave no indication of taking, although he was watching closely for such traces.

On cross examination Jones said he talked to Gifford only five or six minutes. He admitted he was giving his opinion only as a layman and had no qualifications as a psychiatrist or mental expert.

The state closed its case after presenting evidence of the wounds which killed the popular young legislator.

Schuh, 37, a leader of Governor Fuller Warren's forces in the 1948 Legislature, was shot in his St. Petersburg law office. Gifford was seized on the spot and admitted shooting Schuh.

MIAMI, July 19.—(AP)—Broward county Sheriff Walter Clark said today he had no intention of resigning "because I feel that I haven't done anything to warrant my resignation."

He said he would explain to Governor Fuller Warren his part in the activities of the Broward Novelty Company. He said he felt the Chief Executive would understand his activities.

The sheriff's flat statement that "I have no intention of resigning" was issued in the wake of recurring reports he planned to resign before the hearing in Tallahassee should be removed from office.

The hearing was ordered by the Governor after the Kefauver Senate Crime Investigating Committee presented evidence that Clark was a partner in the Broward Novelty Co., which operated a place both Nationalistic and Chinese Reds. Vice President Li Tsung-Jan, now in New York, is active in the third party move.

Secret Meeting Of Red Cominform Is Rumored In Europe

LONDON, July 19.—(AP)—Western European politicians speculated today that the Cominform has been called into secret session to discuss the Far East and the Korean war.

Top Communist leaders, Maurice Thorez and Jacques Duclos of France and Palmiro Togliatti of Italy were known to have left their posts on unexpected journeys.

The time and world conditions generally were considered appropriate for one of the Communist organization's policy meetings somewhere behind the Iron Curtain.

One report mentioned that Soviet Foreign Minister Andrei A. Vishinsky cut short a vacation at Carlsbad, Czechoslovakia, yesterday and left by plane for an unknown destination.

This report was attributed to informed sources at Carlsbad. Vishinsky has been in Czechoslovakia, it was said, for many weeks, and there has been speculation that he has been in Prague.

Tension between Tito and Cominform members was risen sharply in recent weeks. Tiny Albanian, a Yugoslav satellite, accused Tito week ago of violating the Yugoslav-Albanian border with the intention of starting a fight.

Nationalist Reform Suggested To Chiang
TAIPEI, Formosa, July 19.—(AP)—Reform of the Kuomintang (Chinese Nationalist Party) will be discussed at a future meeting.

Chiang Kai-Shek was urged today to revamp the party by 24 members of its central executive committee. He delayed any decision.

A high official said the party probably would expel members who had taken refuge abroad. These include T. Y. Suong, Brother-in-law of Chiang; H. H. Kung, Brother-in-law of Chiang; and Sun Fo, son of Dr. Sun Yat-Sen, founder of the Chinese Republic.

Suong recently resigned from the executive rather than go to Formosa. Both he and Kung are living in New York. Sun is in Hong Kong. Sun and Suong are former premiers. Kung is a former finance minister.

The reform move is seen as an attempt to undercut the formation of a third group to displace both Nationalists and Chinese Reds. Vice President Li Tsung-Jan, now in New York, is active in the third party move.

Spencer Outlines Building Plans To Kiwanis Club

Civic Club Building Estimated To Cost Not Over \$23,000.00

"Sanford can have a new Civic Club Building for as little as \$23,000," declared G. W. Spencer today at the Kiwanis luncheon.

Mr. Spencer said that the present building being utilized by the majority of clubs in Sanford is too small adequate.

He said that the Rotary Club has already contacted an architect and plans have been drawn for a new club building.

The overall measurement of the building, he said, would cover 70 by 43 feet. It would seat 100 persons enough to meet the needs of a growing Sanford for the next 30 years.

"The structure would be constructed, so as to insure as many as 100 people seats," he said. Mr. Spencer said that many civic organizations could hold their state, division or county meetings in such a building without having to rent out the high school auditorium or the Amory.

The plans call for a stage measuring nine feet deep by 22 feet wide. The stage would be elevated two feet from the main floor. A kitchen would allow meals to be prepared on the premises.

"The structure would be built of brick," he said.

Like Opposes Use Of Atom Bomb In Korea
SAN FRANCISCO, July 19.—(AP)—General Dwight D. Eisenhower does not believe the atom bomb should be used in the battle for Korea.

"I believe that were I in the middle of this thing, I would avoid using anything that our own people or others peoples might consider inhuman," Eisenhower told reporters at Fresno yesterday on his way here.

"It is imperative that we stand before the world as the champions of decency. I wouldn't want to do anything that might antagonize public opinion in any way."

Eisenhower, the supreme Allied commander in Europe in World War II, is president of Columbia University. He and Mrs. Eisenhower are on a vacation trip.

"The Korean battle just doesn't look like it was deliberately planned as the beginning of a major war," Eisenhower said. "We've got to win in Korea or we're bound to get smacked somewhere else."

He declared the loss of the Korean campaign would be "the worst that could happen to our hopes of peace."

American Amphibious Landing Close To Enemy Lines Meets Little Opposition

TOKYO, Thursday, July 20.—(AP)—Fresh American troops who seized a beachhead at Pohang on Korea's east coast rushed inland today in an apparent effort to block a new North Korean drive southward.

The First Cavalry Division (uncommitted) was expanding its beachhead possibly to cover the north-south Yonju-Yangju road and a route which leads to Taegu. The Reds were reported moving down this line. Taegu is on the American supply line from Pusan.

By ASSOCIATED PRESS
U. S. troops were on the offensive today with two fresh American divisions thrown into the Korean war. But on the western front a heavy Communist artillery barrage possibly signalled the resumption of the main Communist attack.

Front observers said the time for American retreat may be nearly past, but President Truman cautioned against hopes for a quick victory.

The famed "Hell for Leather" First Cavalry division, veterans of the liberation of Manila and actually a mechanized infantry unit, landed unopposed on the east coast at Pohang yesterday, just below Red lines. It quickly drove seven miles inland. It was declared the 25th "Tropic Lightning" Division had come ashore at an undisclosed location and apparently already has hit the enemy.

Communists on the main Korean battlefield before Taejon are grouped and uncommitted their firepower despite heavy Allied air attacks. They began blasting mortar and cannon fire at American positions. An enemy spearhead 40 miles to the southeast drove out South Korean forces defending the town of In.

There was no evidence that the gallant doughboys on the Korean front, with prospects of increased presence due to arrival of new American troops, had any doubts.

Firing Of Rocket Is Postponed By Technicalities
LONG RANGE PROVEN GROUND, Korea, July 19.—(AP)—Technical difficulties are delaying the scheduled firing on a double-launcher rocket out over the Atlantic today.

The rocket, a two-stage "Humbler" built under the German V-2 with a little "Wac Corporations" in its nose, was supposed to be launched on its way about 8 A. M. (EST).

Difficulties in control circuits caused a series of postponements. The public information office says it hopes the guided missile will take off on its expected 300-mile flight around 1:30 P. M. (EST).

Army, Navy and Air Force "check" are on the scene along with scores of new government watching workers make last minute adjustments.

When the rocket takes off it will be the first horizontal or low-angle firing of the V-2 in this country as well as the first launching of the sprawling beast operated by the Air Force as a missile proving ground for all the services.

WE WELCOME... We have ready... We see where the sheriff of Bradford county is going to resign

Henry Wallace has decided that in the event of a war with Russia, he will support the United States

The dynamism of a home in Daytona Beach in what is said to be a war between two sets of bolita racketeers

We hail the end of the McCarthy investigation and we hope, though we doubt, that it will be allowed to rest in peace

The Chamber of Commerce, doing a little re-checking of its own on the recent federal census comes up with 1,222 names of persons in Seminole County

The sins of the fathers are visited upon their sons even unto the second and third generations, we have read in the Bible

Walter Reuther, head of the UAW, has come forward with a "Fight Communism" program involving an expenditure of one trillion dollars

It seems to us that Rep. Lanham has something when he says that Secretary of Defense Johnston ought to be fired for letting the United States down in Korea

Senator Kefauver's revelations of crime and corruption in Florida cause no surprise to Miamians, according to Bill Abbott in the Tampa Tribune

The Blood Supply

A demonstration of new apparatus for taking, processing and preserving human blood, held recently in the laboratories of the Harvard University Medical School

The new apparatus and techniques will help to build resources of blood by getting greater usefulness from the blood which is obtained and by making it possible to store essential elements for longer periods

During the war Americans responded splendidly in contributing blood, mostly through the Red Cross. It was understood that much blood would be needed by the military medical services

Not enough attention has been given to explaining the connection between donated blood and the costly hospital transfusions, and the fact that professional donors cannot supply the needs of modern surgery

Vital Arithmetic

It is a common maxim that a subject learned in school, but not put to subsequent use, is quickly forgotten

Strangely arithmetic is one of the common subjects of early schooling, one of the "three R's", which has suffered a decline of emphasis in the development of school curricula

Yet everyone needs arithmetic for the simplest activities of life—for things no more mathematical than following a recipe in the kitchen or getting to an appointment on time

The other two of the "three R's" have suffered declines, and now have been brought back to importance. Perhaps arithmetic, too, will win more recognition of the fact that it is important in its own right

Philippine Government

The unpopularity of the present government in the Philippines has led to some degree of fear that Communism may gain a strong hold there

President Elpidio Quirino's government has made an attempt to improve the condition of the farmers by the introduction of modern techniques and by irrigation projects

The people of the islands will show good sense if they are willing to trust to orderly political processes for the eventual improvement of their government

Congressman Herlong Reports

Congressman Herlong Reports... There has been a marked change in the temper of Congress during the past two weeks

This request is caused by the fact that food, fuel and supplies shipped to Communist China may be finding its way into Communist Korea to be used against us

The situation is still described by the military as "fluid", and what I have written about the feeling of Congress is just about as "fluid" as the military situation

YOU'RE TELLING ME!

OWN THINGS about the draft. It keeps a man 50 years old from telling lies about what he would do if he were 20 years younger

From Washington comes word that if you're drafted and can't pay your insurance, the VA will advance the money interest-free

THE WORLD TODAY

By DeWitt MacKenzie, AP Foreign Affairs Analyst

We can crush Red aggression in Korea and other parts of Asia by force of arms, but we shall have failed of our real purpose unless we also demonstrate to the underprivileged millions that our Democracy better meets their needs than does Communism

That fact sometimes gets obscured in the smoke of military strife. Of course the Western World recognizes the totalitarian evils of Communism

However, the primitive masses of Asia, who are treading the paths their ancestors trod centuries ago, don't know what the Red really means. They only know that Bolshevism is the savior of downtrodden humanity

These specious promises are fascinating to underprivileged folk. I've spent a lot of time in the Orient and can tell you from personal observation that there are millions of peasants who never know anything but hunger

Naturally they think with their bellies. And broadly speaking it is on this basis that the ideological approach must be made to them

Let's take a specific example—China, which is currently under control of a Communist government and previously was ruled by Chiang Kai-Shek's Nationalist regime

China with its 500,000,000 people has offered Communism a great field. Most of this huge population lives by farming, and the number of people is too big in relation to the land available

Communism has met this situation by promising a redistribution of land; rule by the proletariat; and national sovereignty

here but tastier, particularly dairy products and meats. Much building was in evidence and the type of construction appears solid and permanent, mostly brick and stone

Stores and shops seemed well supplied with a wide variety of merchandise and business was brisk. Canadians don't go in for English halfpence, shillings or pounds; their coins are in the same denominations as ours and a nickel is a nickel whether it bears the bust of King George or a buffalo

One thing that gave me a kick was the reverse sales tax. Here, every time you spend a dollar you take a nickel out your pocket; but in Canada when you lay down an American dollar you get a dollar's worth of merchandise and a smiling clerk hands you a dime which represents the exchange value. It is a pleasant experience

Officials of both the Trans-Canada Airlines and the Department of Travel and Publicity of Ontario were at the Airport to greet us. They handled our group with the same ease and dispatch as if they had been executive or friend meeting us as individuals

Mrs. Smith Entertains For Wedding Party

Mrs. Byron Smith entertained Miss Margaret Myers and Donald Knight, whose marriage took place yesterday, Monday night following the rehearsal at her home. Refreshments were served by candle-light from the dining room table, which was covered with a green cloth. The punch bowl was flanked with ferns. On the table were beautiful crystal candle-holders holding pink roses and lighted candles at both ends of the table. Assisting Mrs. Smith in serving were Mrs. R.M. Jones and Miss Margaret Hunt.

During the evening the bride and groom presented the wedding party with gifts. Those enjoying the occasion with Miss Meyers and Mr. Knight were Mrs. W.P. Brooks with Miss Myers and Mr. Knight Mr. and Mrs. R.A. Williams, Mr. and Mrs. Marvin Milam, Mr. and Mrs. R.H. Jones, Mr. and Mrs. Raymond Kader, Mrs. Fred Myers, Miss Betty Doris Williams, Miss Dorothy Knight, Miss Nancy Williams, Miss Margaret Hunt, Joe Wright, Joe Dugger and Herbert Knight.

Hollywood

By BOB THOMAS

HOLLYWOOD, July 19.—(AP)—I have learned several things about Scotland from actress Anne Crawford, including why you shouldn't call them Scotchmen. Miss Crawford, a leading actress of English films, is here for a visit that is partly vacation and partly to promote goodwill for the Home Rule campaign in Scotland.

And why do Scotchmen never refer to themselves as Scotchmen, the common term for them in the U.S.?"

"It's very simple," she answered. "Scotchmen describe anything pertaining to Scotland, Scotch in the name of a whisky. Thus a Scotchman is literally a whisky drinker. Which is not exactly true every Scotchman."

"Are Scotchmen really paranoiacs? All I can say is that I once did a benefit with Will Feltz at Aberdeen, where the people are supposed to be the meanest. On one night we raised 14,000 pounds for much-needed infirmaries."

"The Edinburgh law is one of the stars of 'Trips,' the English successor to Somerset Maugham's 'Quartet.' She was rankling over reviews that called her a combination of Myrna Loy and Merle Oberon. 'I want to have a personality of my own,' she declared, but she compares favorably to these two glamor girls. She has a patrician face and a cultured voice, which she often raises in the cause of home rule for Scotland."

"That is one of the reasons I am here," she said. "I am trying to stimulate interest among Scotchmen here for our drive to have our own parliament. So far I have found excellent support."

"We have collected 4,000,000 signatures at home for our petition. Family enough, a large amount of our support has come from people in England."

"We do not intend to go as far as the Irish. All we want is our own parliament to decide on matters strictly concerning Scotland. As it is, everything we want done has to be carried all the way to Whitehall."

Talk of the Town... The lack of many revolutionary announcements after the Warner's production (know-it-alls were predicting) the way John Lund's fine talents are wasted in the "Irma" pictures. BRK's plans for "Two Tickets to Broadway" the studio's first big musical since the Astaire-Rogers days.

The developing plans for Hollywood to give full support to the Korean effort... The arrival (Aug. 12) of Lawrence Olivier and Vivien Leigh and the unavailability to see who will party them first... The TV stars visiting here during the summer layoff—Ken Murray, Kay Kyser, Gertrude Berg, William Gargan, Milton Berle, etc... Whatever happened to Judy Garland's press conference... The weather, still somewhat fog-ridden.

Vitamin B and C may be developed by adding soda to vegetables while cooking.

Miss Martha Chapman Is Given Shower

Miss Martha Chapman, bride-elect, was entertained with a miscellaneous shower on Friday evening given by Mrs. Harold Appleby, Mrs. Henry White, Jr., and Mrs. J. M. Leonard at the home of the latter on Holly Avenue.

As guests arrived they were met at the door by Miss Nancy Appleby who presented each with a miniature corsage. The rooms were attractively decorated with gladioluses and roses. Gifts were presented to the honoree in novel manner. Delicious refreshments were served by the hostesses and assisted by Miss Nancy Appleby to the following: Miss Martha Chapman, honoree, Mrs. B. E. Chapman, mother of the bride-to-be, Mrs. E. G. Kilpatrick, Mrs. C. K. Carter, Mrs. Burke Steele, Mrs. Grady Herman, Mrs. R. M. Heron, Mrs. W. B. Kirby, Mrs. Zeb Ratliff, Mrs. O. K. Golf, Mrs. W. P. Brooks, Mrs. Blake Sawyer, Mrs. Maude Satcher, Mrs. Lois Hechenboch, Miss Elsie Farley, Miss Harlow Chapman and Miss Cherry Singletary.

Those enjoying the occasion with Miss Meyers and Mr. Knight were Mrs. W.P. Brooks with Miss Myers and Mr. Knight Mr. and Mrs. R.A. Williams, Mr. and Mrs. Marvin Milam, Mr. and Mrs. R.H. Jones, Mr. and Mrs. Raymond Kader, Mrs. Fred Myers, Miss Betty Doris Williams, Miss Dorothy Knight, Miss Nancy Williams, Miss Margaret Hunt, Joe Wright, Joe Dugger and Herbert Knight.

Miss Marie Nettles, George Smith Married

Miss Marie Nettles, daughter of Mr. and Mrs. I.W. Nettles, became the bride of George Smith, son of Mrs. O.N. Revell of Davenport, at a candlelight ceremony July 8 at 8:00 P.M. in the Lake Monroe Church with Rev. W.E. Webb of Deland officiating. The church was beautifully decorated with palms and baskets of gladioluses. White tapers in graduated candleholders made it very impressive.

A program of nuptial music was rendered by Miss Elsie Wheeler, pianist, and Miss Betty Wagoner sang "Ava Marie" and "Because". The bride, given in marriage by her father, wore a street-length gown of light blue eyelet organza with white accessories. Her corsage was of white rose buds.

Miss Lois Rosier, maid of honor, wore light pink eyelet organza with white accessories. Her corsage was of pink and blue carnations. Serving as best man was Earl DeWittaker and the groomsmen were James Nettles and Aubrey Dunn.

Mrs. Nettles, mother of the bride, wore a navy blue silk crepe with white accessories. Her corsage was of pink rose buds. Mrs. Revell, mother of the groom, wore a pink silk crepe with white accessories. Her corsage was of pink rose buds.

Immediately after the ceremony Mr. and Mrs. George Smith left for a wedding trip to West Palm Beach. For traveling Mrs. Smith wore a pink gabardine suit with matching accessories. Her corsage was of white rose buds.

Out-of-town guests for the wedding were Mr. and Mrs. R.H. Council of Miami River and Mrs. W.C. Oglesby of Plaquemine Beach, Mr. and Mrs. O.N. Revell of Davenport, Mrs. S.A. Smith of Tallahassee and Mr. P.G. Geddie of Tallahassee.

Roumillats Honor Mrs. Guy Williamson

Mr. and Mrs. Francis E. Roumillat, III, entertained Wednesday evening with a boat party honoring Mrs. Roumillat's niece, Mrs. William Guy Williamson Jr., of Dayton, O., who has been their houseguest for the past ten days. The party cruised into Lake Monroe aboard the "Skyhawk" where singing was enjoyed and a picnic supper was served late in the evening.

Those enjoying the party with Mrs. Williamson were Mr. and Mrs. A.B. Wallace Jr., Mr. and Mrs. Gordon Swalm, Mr. and Mrs. George Webber, Mr. and Mrs. O.P. Herndon Jr., Mr. and Mrs. A.W. Lee, Mr. and Mrs. F.E. Roumillat, Miss Pat Schultz, Miss Dilon Baker, Miss Marie Riddle of Winter Park, George Hugh, Billy Gray, Bert Alfred, and Mr. and Mrs. F.E. Roumillat, III.

Miss Martha Bellah Weds Dr. Marlowe

Miss Martha Bellah and Dr. Robert E. Marlowe, both of Wichita Falls, were united in marriage during an impressive service conducted in Dallas July 1. Rev. John T. Gubrecht officiated during the ceremony.

For the occasion, the bride was attired in a brown crepe dress, brown accessories and her corsage was an orchid.

Miss John Russell participated in the wedding as maid of honor. She wore an iridescent sheer frock with harmonizing accessories and her corsage was of roses. John Russell assumed the duties of best man for the occasion.

Miss Marlowe graduated from high school at Mount Saint Michael in Dallas and received her college training at Barnard College in San Antonio, while the groom, who is a son of Mrs. C. L. Smith of this city, graduated from Somerville High School at Sanford and from the Northern Illinois College of Optometry in Chicago, Ill. He also attended Texas A&M College. The couple plans to establish residence in Wichita Falls, where Dr. Marlowe has a practice in Optometry.

Foreign War Vets Have Meet At Hut

The Veterans of Foreign Wars Auxiliary met at the Legion Hut last Thursday night. Mrs. William Vidler and Mrs. Shannon Winn were the hostesses.

Plans were discussed to build a barbecue pit in about two weeks. The president suggested making plans for Christmas cards for the veterans in hospitals.

Plans were discussed off by Mrs. C.A. Johnston. Delicious refreshments were served to the following: Mrs. E.J. Bender, Mr. R.A. Poston, Mr. Ralph Dean, Mrs. E.J. Moughton Jr., Mrs. R.C. Johnston Jr., Mrs. Earl Dossow, Mrs. Clarence Collins, Mrs. Carolyn Smith, Mrs. Johnston, Mrs. Vidler and Mrs. Winn.

Schuh Case

(Continued from page one) has proposed explanation to the governor. He said that he planned to drive to Tallahassee tomorrow for the hearing.

Yesterday Miami Beach Councilman Melvin J. Richard asked the governor to appoint a special prosecutor to make a "searching investigation" of big time gambling and racketeering in Florida.

Sanford Giants Take Eighth Game In Row

Locals Trim DeLand Red Hatters 5-1; Manager Ed Levy Clouts 28th Homer

The Neutral Corner

By BILL HERING

The Sanford Giants captured their eighth straight victory last night at Municipal Ball Park when they downed the second place DeLand Red Hats 5-1, behind the seventh hit pitching of Jim Singleton.

It was the big lefthander sixth consecutive victory. Manager, Ed Levy sacked his 28th homer of the season in the eighth frame driving in Hafenecker ahead of him.

DeLands only run of the game came in the ninth inning when Ray Dunne doubled home Dan Bruening.

SPLIT TWIN BILL
DAYTONA BEACH, July 19.—(P)—Daytona Beach and Orlando divided a doubleheader here tonight, the Senators taking the seven inning opener, 4 to 3, and the Islanders winning the final by the same score, 4-3.

A home run in the last of the 10th inning by First Baseman Red Oberlin with none away with none on gave the Islets the final game. The Islanders led, 3-2, through the eighth inning. But in the top of the ninth and with two out, Cal Ermer smacked a three-two pitch over the leftfield fence to tie it up at 3-3.

Ermer also hit a homer in the first game with Mel Kyros on base to overtake a two run Islanders lead in the fourth inning. Ermer walked in the sixth and Marvin Cohen brought him home with the winning run on a two base hit to centerfield.

G-MEN WIN
PALATKA, July 19.—(P)—The Gainesville G-Men lowered the boom on Palatka's Azaleas twice last night, taking home 5-3 and 3-2 decisions.

PACKERS LOSE
LEESBURG, July 19.—(P)—The St. Augustine Saints defeated the Leesburg Packers here last night 11 to 5. Going into the last half of the ninth the Saints led 11 to 1 lead but a Packers rally netted four runs.

Outstanding Dogs Will Race Tonight
DAYTONA BEACH, July 19.—(Special)—Eger Baby, Rocket Miller, Sherriane and Mom's King comprise just half of the best of stars slated by Racing Secretary Merrill "Duke" Watts to gallop in the feature ninth race, which is the main attraction tonight on an 11 race program at the Volusia County Dog & Track Museum, which opens at 7:30 p. m.

We arrived at the Municipal Stadium in plenty of time to get cushions, line-ups, and other incidental trivia, but three minutes after the game had started we still found ourselves standing in front of the ticket booth. A foul ball came bounding off the roof and dropped about 15 feet from where we were making our stand. Finally she showed up, where we were making our stand. Finally she showed up, where we were making our stand. Finally she showed up, where we were making our stand.

"Did they score?" she asked.
"Look at the board in left field," we replied. "They'll tell you."

"It only says, 'Andrew Carraway Insurance,'" she said.
"That's right filed," we countered. "Try looking in the other direction."

Poelker came to bat and drew a walk. Chadderton fled to the second baseman and Hafenecker hit into a fielder's choice retiring Marcel.

"Why don't they give Hafenecker a hit?" she asked.
Because he could have been thrown out if the fielder wanted to make the play at first," we answered looking for the easy exit.

"But he reached first all right."
"Only because the fielder..."
"Never mind. Let's get a sack of gubers and some pop," sounded the high-pitched voice.

The next two frames produced no runs. The Giants advanced Chadderton to third, but Hafenecker fled out to strand the runner.

Gainesville went down in order in the fourth, but Sanford opened up the inning by drawing two walks.

"Who's pitching?" the voice purred again.
"Brind."
"Is he any good?"
"Guess so."
"He won't beat Buddy Lake," she said.
"Why not?"
"Because Buddy's too nice a fellow to get beat."

Tomak and Bailey reached base via the error route and Buddy doubled home the final two runs of the inning.

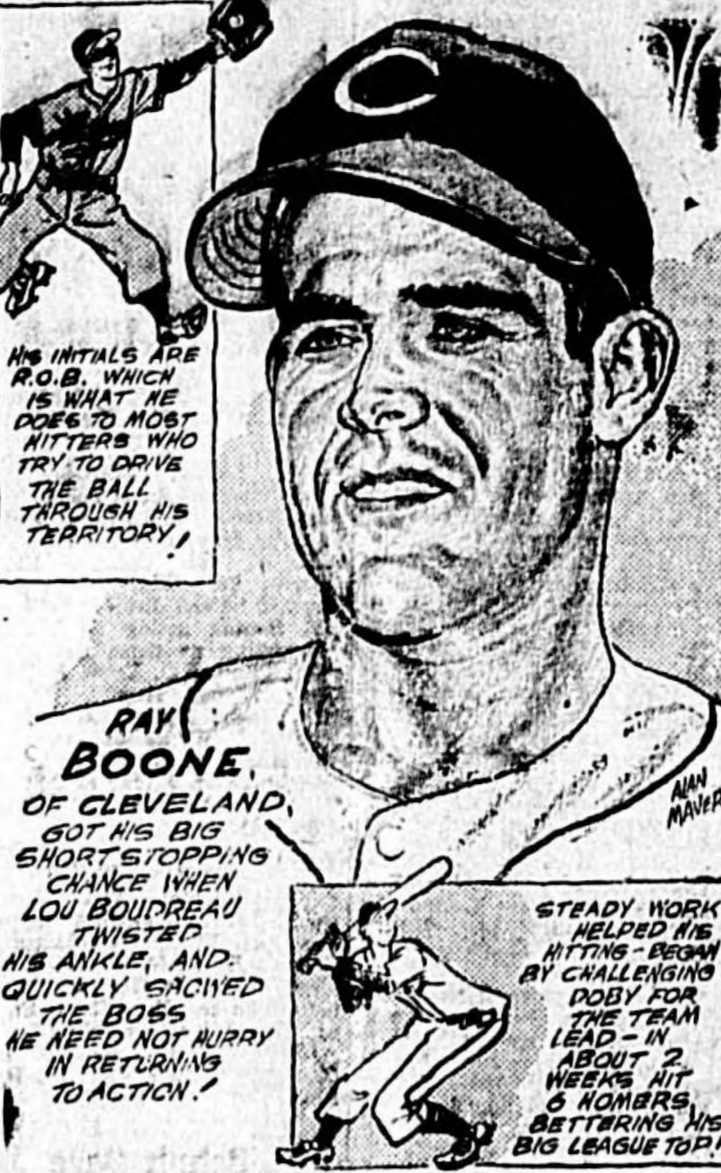

"You see," she said triumphantly, "Buddy's too nice to lose."
Unable to cope with such pure-cut female logic we yielded with another, "Oh."

Gainesville rapped Buddy for three hits in the fifth but were held scoreless when the veteran righthander forced Emmerich to bounce into a double play 4 of 6 to 3.

"That was close wasn't it?" she asked.
"Yes."
"Do you think he was only teasing them?"
"No."

In the bottom of the 5th Levy poked out his 24th home run of the year to put the locals ahead 5 to 0. The Giants then proceeded to load the sacks but Lake grounded out ending the frame and the possible rally.

NUTHER LOU-LOO - By Alan Maver

Americus Phils Are Slipping Back Into Winning Ways
By ASSOCIATED PRESS
The Americus Phils slipping back into their "win a couple, lose a couple" ways again after setting a new Georgia-Florida League record of 15 victories in a row.

Since Moultrie brought the winning string to an abrupt end in the first game of a doubleheader last Thursday, the Phils have won two and lost three. That was the kind of ball they were playing before they started their victory streak.

The Phils lacked the punch last night as they went down before Albany's Cards, 5-3. The league-leading Tallahassee Pirates blasted three Moultrie hurlers for 15 hits and a 10-7 victory. Thomasville took a one-sided decision from Cordele, 10-1, and Valdosta blanked Waycross, 9-0.

Americus outhit Albany, 8-7, but didn't get the blows when they were needed. In the seventh and again in the eighth, when they pushed across one run, the Phils left men stranded at every corner.

In the ninth two were left. Albany pushed across the winning runs in the seventh after two were away. A walk started the surge that was eliminated when a slow roller went fatally through second baseman Pat Schindler for an error.

Moultrie's Cubs scored five runs on three hits off two Pirates hurlers in the first inning. Before Billy Moeller could put out the fire, Tallahassee got four tallies in the last of the initial frame and went one ahead with a pair in the third.

Wally Moeller was keeping the Cubs under control with three 1-1 hurling, Joe Quattrone and Glenn Linderhuth led the Blue's 13-blow attack. Quattrone had four safe-

AP Newsfeatures Sports Editor

Ken Raffensberger, Cincinnati's stylish southpaw, lists Stan Musial, Enos Slaughter and Willard Marshall as the National League's three best left-handed hitters. As to the orthodox swingers he names Jackie Robinson, Sid Gordon and Carl Furillo.

"Musial has no weakness, that's for sure," says the baldish 32-year-old veteran who last season won 18 games after six previous uneventful campaigns. "I used to have a set way to pitch against Musial but last year he wouldn't go after my pitch."

"Slaughter is a smart hitter. He hits where the ball is pitched. Even when he hits a ball back to the mound you have got to hustle because of his speed. Marshall is another left hander, respect. You've got to be very careful with these three. They can hit that home run so easy."

To Raffy, who won 18 games to top the Red hurlers, the toughest man to get out is Furillo. "Robinson, Gordon and Furillo hit me like they own me, especially that Furillo. I haven't gotten him out since he came up in 1942. These three are rough. The Phils have a couple of toughies in Andy Seminick and Del Ennis. But that Furillo—when I do get him out it's usually a line drive."

"I'm omitting Ralph Kiner because I haven't faced him too many times. He last hit a home run off me in 1947. With two on Hank Greenberg blasted one and then Kiner hit his in the exact spot. I was out of there four runs behind in the first inning."

Raffensberger, who featured a well rounded repertoire with a fast ball, curve, fork ball and a lot of slow stuff, for which he doesn't have to work too often against Ron Northey who too often "Eddie Dyer said Northey couldn't hit left handed pitching but I know better," says Raffensberger.

SHOOT/TWIN ACE
FAIRLEE, Vt., July 19.—(P)—Hebert Wolf, a Scarsdale, N. Y., lawyer, vacationing here, got a hole in one Monday on a 66-yard hole, and said:

"I've been playing golf 80 years and never got a hole in one before perhaps I should quit now."
Instead of quitting he went out on another round yesterday—and got another hole in one, this time on a 125-yard hole.

His comment after his second ace in as many days:

"I'll never quit now. I guess I've finally found my eye."

4000 ACE

BRONXVILLE, N. Y., July 19.—(P)—Arthur J. Wall, Jr., of Philadelphia, shot the 30th hole-in-one of his golf career yesterday at the Swaney Country Club and stands to collect \$400 on a policy with Lloyds of London.

Wall, assistant professor at the club and formerly of Duke University, took the policy out last April.

Walter Hagen won his first U. S. Open golf championship in 1914 at the age of 22.

The 1904 Washington Senators and the 1900 Detroit Tigers got off to the worst start in major history—they lost their first 13 games.

Connie Mack compiled a .249 lifetime batting average during his 11 seasons in the major leagues, from 1886 to 1896.

Amateur players have won the U. S. Open golf championship—Francis Quimby, Bob Jones and Johnny Goodman.

Steel Production In U. S. Exceeds 100 Million Tons

NEW YORK, July 19.—(AP)—This nation's steel mills, at present capacity operating, could turn out in a year some 135 million more tons of steel than were produced last year in all the rest of the world combined, including Russia and Communist-dominated countries.

This was the statement made today by the American Iron and Steel Institute as it announced that the industry's capacity topped 100,000,000 tons annually on July 1 and would reach 105,750,000 tons by the end of 1952.

At the same time the industry's giant, United States Steel Corp., with about one third of all the steelmaking facilities in the country, announced plans to add at least another 2,300,000 tons of annual ingot capacity.

Chairman Irving S. Olds said the corporation planned a 1-600,000-ton increase by the fall of 1951 in the Chicago and Pittsburgh district plants of its subsidiary Carnegie-Illinois Steel Corp., and would start in 1951 to build the first part of a new integrated mill near Trenton, N. J., with a minimum ingot capacity of around 700,000 tons annually.

Increases in tonnage planned for individual plants were not disclosed. Units affected, Olds said, would be:

- Gary and South Works, in the Chicago District; Homestead, Edgar Thomson, Clairton, Duquesne and Ohio Works (Youngstown) in the Pittsburgh district.

Olds said the capacity increase "should prove to be of material help toward meeting the current high demand for many kinds of steel products."

The new construction work, he said, would not interfere with existing steel production, and would be pushed to completion as quickly as possible.

Truman Message

(Continued From Page One) armed aggression may take place in other areas.

The President said the increases in the size of the armed services and the extra supplies they need will require additional appropriations. Hence in the next few days he will "transmit to the Congress specific requests for appropriations in the amount of approximately \$10,000,000,000."

At home, Mr. Truman said, there must be "substantial redirection of economic resources" to insure that defense needs will be met without bringing on inflation and its resulting hardship for every family.

Accordingly, the President proposed:

1. That Congress pass legislation now authorizing priorities and allocations for materials needed for national security, to limit use of materials for non-essential purposes, to prevent hoarding, and to requisition or seize materials required for defense.

2. That all government agencies review their programs with an eye to lessening the demand for services and supplies vital to defense.
3. That taxes be boosted more sharply than he has recommended before in order to combat inflationary pressure.

He said that at "an appropriate time" as soon as necessary studies are finished, he will present Congress a tax program based on the principles that (A) The nation must try to pay for the greatest amount of needed spending out of taxes and (B) The tax system must be balanced to distribute its burden fairly.

Mr. Truman hereofore has urged many higher taxes on corporations and on upper bracket incomes.

Today he told Congress that heavier taxes will lessen the need for general economic controls and that a balanced tax program would help check profiteering.

4. That there be further restraints on credit expansion—along lines of curbs he directed yesterday for federally assisted housing.

The President told the Federal Housing Administration and the Veterans Administration to demand higher down payments and to cut down on building programs generally in order to provide more building materials for defense purposes.

Today he recommended that Congress authorize more controls to curb the expansion of privately-financed real estate credit.

5. That Congress authorize production loan guarantees and direct loans to boost production. The idea is to speed and increase the output of vital materials, products and services for defense.

Mr. Truman closed his message on a confident note.

"We will follow the course we have chosen with courage and with faith, because we carry in our hearts the flame of freedom. We are fighting for liberty and for peace—and with God's blessing we shall succeed."

There was no optimistic prediction, though, for a quick victory in Korea. The course of the fighting there, the President said, shows no easy solution can be seen.

He said we are facing "overtrained, well-led forces which have been long trained for aggression. He added:

"We must also prepare ourselves against possible further aggression in the face of present peace."

Mr. Truman made no mention of the 24th Division's move to the Korean front.

The 24th Division's move to the Korean front, he said, is a "dramatic demonstration of our determination to meet any aggression wherever it may come."

Korean War

(Continued From Page One) intention of abandoning Taejon. An Eighth Army spokesman said "the men of the 24th United States Infantry Division's 19th, 21st and 34th regiments were dug in for defense and showed determination to stay."

General MacArthur's communique said the Communists had made "minor infiltrations and movements beyond contact of our forces" around Taejon. It reported South Korean troops standing firm along Communist invasion routes.

Allied aircraft struck hard at Red tank and troop concentrations in the vicinity of Nonsan, 25 miles southwest of Taejon and 100 miles from the front. Other Allied aircraft smashed at Communist lines directly behind their lines as the Reds feverishly tried to restore supply routes blasted by air attacks. The Reds needed the supply lines to resume at full pace the offensive brought to a halt by that U. S. resistance.

The Defense Department announced U. S. Navy and Air Force planes destroyed or damaged 45 Red Korean aircraft yesterday. The arrival of the new American troops, committed to the battle zone on ten days notice, raised hope that the time of American retreat was past. More delaying action was predicted, but the buildup for the counteroffensive was getting under way.

The First Cavalry is commanded by Maj. General Robert B. Gray. It landed unopposed at a pier in the little fishing town of Pohang, 6 miles north of Pusan. It went ashore with artillery, engineering and signal units, and mounted supplies. The number of men landed was secret.

The 25th has already been in action at Yecheon, 52 miles inland from the east coast on the right bank of a river held by South Koreans. It was here that unexplained U. S. artillery fire landed this week and sent them scurrying in retreat.

The landings will lift some of the pressure from the 24th Division which has been holding the Communists in their tracks at Taejon, which Allied planes tipped at enemy armor, vehicles and supply lines. Gregory from a bloody battle on the Kum to get their breath, and only partial actions were reported for almost two days.

Kiwanis Meeting

(Continued From Page One) concrete blocs exposed on both sides and would have a concrete floor, he said.

The Rotary plan to finance the building calls for the forming of a non-profit corporation. The corporation would sell to each club in Sanford 325 notes. The final note, Mr. Spencer said, "could be filed in 13 years."

Civic clubs would be allowed to have one director on the building's board for each 50 notes that they take.

"On June 1," Mr. Spencer said, "the Rotary Club sent letters to every civic club in Sanford asking them of their aid in carrying through the program. To date only one club has answered."

"If Sanford is to grow," he said, "we will have to gamble a little money on its future."

The Gainesville Kiwanis club has written the Sanford club asking for its support in selling tickets to football games to be held this fall at the University of Florida. President Ralph Smith instructed all members interested to contact the secretary of the Kiwanis and file their names with him.

President Smith urged all members to attend a divisional meeting which will be held Oct. 31 in the University Club at Winter Park.

Three Mt. Dora Kiwanians were guests of the local organization. They were L. C. Smith, W. C. Patton and Eddie Digwall.

the Korean war, but also for any emergency elsewhere.

Mr. Truman said increased strength is needed in three general categories:

First, to meet conditions in Korea, additional men, equipment and supplies must be sent "as rapidly as possible" to the forces of General Douglas MacArthur.

Second, the world situation requires a substantial increase in the size and material support of American armed forces, beyond the increases required in Korea.

Third, is the extra help for our Allies.

Nowhere did Mr. Truman directly accuse Russia of fanning the fires of aggression in Korea. But he recited the record of Soviet refusal to support the U.N. or even attend meetings at which the Security Council stepped into the Korean crisis.

Mr. Truman said the Security Council's united and resolute action to put down lawless aggression is a milestone toward the establishment of a rule of law among nations.

"Only a few countries," he continued, "have failed to support the common action to restore the peace. The most important of these is the Soviet Union."

Negro Voting In Orlando Primaries Is Recommended

ORLANDO, July 19.—(AP)—Orlando's White Voters Executive Committee, which has conducted city primaries for 46 years, last night recommended that city elections be opened to Negroes.

At the same time it voted to dissolve and "turn the primaries over to the city," said Charles Stuckie, committee chairman.

The committee agreed to ask Mayor William Hearshall and city commissioners to "comply with recent supreme court decisions" in opening the primaries to Negroes.

Orlando Negroes brought a \$16,000 damage suit last February against Stuckie, Hearshall, Barney Cohen, committee secretary, and City Clerk Ed McDowell. They said they had not been allowed to register to vote.

The act requires registration of all males between 18 and 26 years old. Those becoming 18 must register within five days after that birthday.

Hoover suggested for those affected:

1. Register promptly.
2. Fill out and return your questionnaire promptly.
3. Keep your local board advised of your correct mailing address.
4. Report for examination and inclusion when so ordered.
5. Report changes in your family status or occupation which may have a bearing on your classification.
6. Always carry your registration certificate and classification notice on your person.
7. If you have made an honest mistake, talk it over with your local draft board.

Nehru Sends New Note To Acheson On Korean Crisis

WASHINGTON, July 19.—(AP)—India's Prime Minister Nehru today renewed his proposal to bring Communist China into the United Nations as a step toward solving the Korean crisis.

In a new note to Secretary of State Acheson, the Indian leader argued that the admission of Communist China, as demanded by Soviet Russia, would not be "an encouragement of aggression."

He said that in making this approach to the U. S. and Russia India is seeking to "strengthen the United Nations in resisting aggression."

Nehru's second note was in response to Acheson's rejection of the idea of seating Communist China now as a preliminary to a possible settlement through the Security Council.

The rejection was made by the State Department immediately

McGrath Orders Stringent Policy On Draft Evasion

WASHINGTON, July 19.—(AP)—A stringent policy for prosecuting willful violators of the draft law was announced today by the Justice Department.

Attorney General McGrath said he has instructed the FBI to "vigorously seek the apprehension of willful violators."

FBI Director J. Edgar Hoover issued a list of suggestions for those coming within the draft law, and noted that it provides penalties for violations ranging up to five years and fines as high as \$10,000.

The act requires registration of all males between 18 and 26 years old. Those becoming 18 must register within five days after that birthday.

Hoover suggested for those affected:

1. Register promptly.
2. Fill out and return your questionnaire promptly.
3. Keep your local board advised of your correct mailing address.
4. Report for examination and inclusion when so ordered.
5. Report changes in your family status or occupation which may have a bearing on your classification.
6. Always carry your registration certificate and classification notice on your person.
7. If you have made an honest mistake, talk it over with your local draft board.

after Madame Vijaya Lakshmi Pandit, Indian ambassador "and Nehru's sister, delivered the Prime Minister's second note to Acheson.

Here's POWER that hits home...

"Job-Rated" POWER

YOU GET IT ONLY IN DODGE TRUCKS

Power that's right for your job! Your Dodge truck will have plenty of power—and then some! Each Dodge engine is a high-efficiency engine—"Job-Rated" to provide ample power for the weight range of the model in which it's used. To give you this "Job-Rated" power, Dodge makes available 8 different truck engines.

2-1/2-ton Power-Wagen	94 HP
3-1/2-ton C-37	96 HP
3-1/2-ton	102 HP
4-1/2-ton 1-1/2-ton 2-ton	109 HP
4-1/2-ton	114 HP
5-1/2-ton	122 HP
7-1/2-ton 1-1/2-ton	126 HP
7-1/2-ton	154 HP

Power that's tops for economy and long life! Dodge truck engines are "Job-Rated" to give you high compression, better carburetion, and efficient ignition for low operating costs. Valveset inwards, four piston rings with the top ring chrome-plated, and many other advanced features, contribute to economy and long life.

...for low-cost transportation

POWER... 8 great truck engines—each "Job-Rated" for PLUS power.

EASIER HANDLING... Steeper turning radius in tight places. "Job-Rated" maneuverability!

COMFORT... widest seat... windshield with best vision of any truck... shock absorbers... "Job-Rated" steering.

SAFETY... Good Truck brakes in the industry... hand brake operating independently on each wheel... all models 1/2-ton and up.

LOWER PAYLOADS... carry more without overloading... spring balance of 1/2-ton and up... **WITHOUT DISTRIBUTION.**

With all their extra value **DODGE "Job-Rated" TRUCKS** are priced with the lowest **SEMINOLE COUNTY MOTORS**

Florida Jaycees Get New Officers

Al Canill, international vice-president of the Junior Jaycees, is shown pinning the state president's emblem on Brailley Odham at the state Jaycees installation banquet last Saturday night in the Sanford Armory. Mr. Odham was elected president of Florida Jaycees at a recent convention which was held in Jacksonville. Other state officers receiving honors are (l. to r.) Vice President Charles Fahn, Vice President Charles Johnson, Treasurer George Moffitt, Secretary Gordon Bradley, Vice President Walter Davis, and Vice President Powell Summers. Seated in front President Ed Hood, of state officers receiving honors are (l. to r.) Vice President Charles

Tax Action By Congress May Be Next Week

Senate Votes Party Lines In Accepting Tydings Report On McCarthy Inquiry

WASHINGTON, July 20—(AP)—Senator Gillette (D-Iowa) said today a Senate investigation of sharp food price increases will begin within two weeks. Gillette, chairman of the Agriculture Subcommittee, called the recent price increases "vicious, unjustifiable and unprofitable." He remarked that certain persons are "in a position to exact from the public exorbitant prices."

WASHINGTON, July 20—(AP)—President Truman's call for "substantial" tax increases to help fight Communist aggression may be pushed to Congress as early as next week.

Capital sources reported this today, while congressmen were agreeing generally that Mr. Truman must be given new economic powers to speed rearmament and curb inflation.

But some Republicans, notably Senators Taft and Brickner of Ohio and Wherry of Nebraska, called for cautious study of the wide range of allocation, priority and credit controls requested.

The tax increase, it was reported, may follow quickly Mr. Truman's midyear economic report.

This is due early in the week. It will appraise the economic impact of the Korean war and the proposed \$10,000,000,000 starter on new defense spending.

Those who have been in touch with the men helping draft the Truman tax proposal say they believe its aim will be to recover about as much revenue as was cut off in the 1948 tax cut bill—but not necessarily from the same groups of taxpayers. The 1948 cut was estimated at \$4,000,000,000 at the time but later estimates have ranged much higher.

Congressional staff experts said it would take two years, at least, to spend the full amount authorized by the President, although contracts could be let much more speedily.

In Congress itself the House to Continued on Page Four

Warren To Study Testimony Given In Crime Inquiry

MIAMI, July 20—(AP)—A Broward county grand jury today was directed to begin a study of Sheriff Walter Clark's testimony in testimony to be a partner in the Broward County George W. Tetter signed an order at Fort Lauderdale calling the jury into session Aug. 8 to investigate any connection of the Sheriff with the Broward County activities disclosed by a Kefauver Senate Committee at Miami last week. The Sheriff was shown in testimony to be a partner in the Broward County activities, which did a \$754,000 business in the bootleg lottery in 1945, 1946 and 1947, and also paid taxes on 100 slot machines.

TALLAHASSEE, July 20—(AP)—Governor Warren said today he will study testimony that William H. Johnson contributed \$154,000 to his campaign while an electric sign in accordance with the evidence and the law.

Florida law prohibits race tracks or their owners and stockholders from making political campaign contributions. Johnson is principal owner of four dog tracks in the state.

The Greater Miami Crime Commission yesterday wrote Warren demanding that he direct the "appreciated" on Page Five

THREE FIRE CALLS
The Sanford Fire Department answered three alarm calls yesterday.

An electric motor in the City homes was listed as a complete loss when it burst into flames because of overheating. Mrs. W.E. Horne reported that an oil stove in her kitchen clogged and caught fire while an electric stove in the home of Mrs. Theo Pate, of 189 West Eighteenth Street received negligible damage from a reported short circuit in the wiring apparatus.

DANGEROUS BULL
QUINCY, July 20—(AP)—J. Love Gregory, 71, died here last night after being stamped by a bull he attempted to kill.

Gregory, superintendent of the American Smelting and Refining Co., had been hunting a bull he had shot and was trying to kill. He was struck on the head by the bull's horn as he tried to kill it.

Only 1 Complaint Is Made To County Tax Assessments

Levy On Gas Company's Personal Property Is Reduced

The Board of County Commissioners met as an Equalization Board yesterday to hear one complaint as to the assessment of property as fixed by the tax assessor on the 1950 levy.

The Florida Home Gas Company, represented by its President A. H. Gaede, requested that the board reduce the company's tax assessment by 50 per cent. Assessment value of the company's real and personal property was set at \$130,650, O. P. Hendon, county clerk stated today.

The board examined the returns to the tax assessor and it was noted that the return and the assessment of real estate was \$30,650. The assessment and the return being the same, the Board took no action on reducing real (Continued on Page Four)

Boy Scouts Tell Jaycees About National Valley Forge Jamboree

John Pierson, assistant scoutmaster of Sanford's troop No. 1, and three Boy Scouts, Donald Futrell, Sanford troop No. 2, Edward Glen, Oviedo troop, and Vernon Nelson, Lake Mary troop, gave a brief report of the Boy Scout National Jamboree which was held at Valley Forge, Pa., to members of the Jaycees today.

"The Florida delegation, or Ambassadors of Good Will left Florida by train Monday, June 26," said Scoutmaster Pierson, "for the national encampment which opened at Valley Forge on June 30."

A three day period was set aside prior to the official opening of the encampment for a pre-jamboree meeting. Mr. Pierson was in charge of the group of boys from Central Florida. Each state group was divided into a section and each section was broken down into a troop. Each troop consisted of four scouts.

Scout Donald Futrell was in charge of Florida's No. 1 squad. Mr. Pierson, who has been in scout work for the last 10 years, briefly explained encampment procedures and the daily activities that were found there by the 47,000 boys from all parts of the United States and the world and then turned the program over to the three scouts present.

Edward Glen of troop 145 told of the arrival of the Florida delegation to the camp site and the difficulty they had in finding the site. Mr. Pierson explained that the scout in each troop was responsible for cooking each meal eaten by the boys in their section.

War In Korea Called A War Of Stealth, Deception, Trickery

SOMEWHERE IN KOREA, July 20—(AP)—This is a war of stealth and deception, trickery and subterfuge. It is a war of unsees. You never know who is the enemy. North Korean soldiers become civilians. The one shot directed at American white costume thumbs the trigger on a machinegun. It's aimed at Americans.

It is a gnawing, anxious war in which you may be fired on from the rear and from simultaneously—a war of dark nights with the silence broken by birdcalls or hoata not uttered by birds.

It is a war of tension and highpitched nerves and uncertainty. For example: A few days ago an American hospital train—a locomotive and one car—was running north in (Continued on Page Four)

Direct Housing Loans May Be Had From VA By Vets

ST. PETERSBURG, July 20—(Special)—Veterans living in 47 north Florida counties where GI home loans are not available from private lenders may now apply for direct financing through the Veterans Administration. H. F. Dickensheets, VA's Pass-a-Girle Beach region manager, announced today.

The areas from which applications (Continued on Page Four)

Gifford Convicted Of Murder Of Rep. Charles J. Schuh

CLEARWATER, July 20—(AP)—A washed out little old man showed no emotion last night when he heard a verdict read in circuit court here which means he must die in the electric chair. A jury of six men and six women needed only 35 minutes to convict 60-year-old Charles Gifford of murdering state Rep. Charles J. Schuh.

The verdict automatically carries the death penalty. "It's all right with me," Gifford told reporters. "They are 12 good people. If they knew the facts the way they happened, it wouldn't be this way."

The 37-year-old legislator was shot to death screaming for help in his private office at St. Petersburg on Apr. 24. Witnesses testified Gifford and Schuh were alone in the office and that Gifford left the room after five or six shots rang out.

After the verdict was read, reporters asked Gifford what happened in Schuh's office before the shooting. "He was the aggressor," Gifford replied. "I'm never the aggressor," then he added, "I didn't have any witnesses."

Only two witnesses were called by the defense and each testified that he believed Gifford was insane. During the trial Gifford, penitent and shabbily dressed, sat with his eyes closed, and occasionally nodded.

Leopold Voted Back To Throne By Right Wing

BRUSSELS, July 20—(AP)—King Leopold XII was voted back to his throne by the Belgian Parliament today.

He has been in exile in Switzerland since the war. The question of bringing him back split Belgium badly for months, with the Socialists particularly being bitterly opposed to his return.

A joint session of both houses of parliament, cast 198 affirmative votes for Leopold's return, with most opposition Socialists, Liberals and Communists abstaining in protest. There are 337 members in both houses.

The decision was on legislation to end the regency of Prince Charles Leopold's brother.

The opposition to Leopold was based in the main on two factors: 1. His early surrender to the Germans in 1940.

2. His marriage in 1946 to a Flemish countess after the death of his queen.

The abstainers, members from the chamber before the vote, leaving the pro-king Social Christians to vote Leopold's return. Paul-Ferdinand premier, declared the Socialists, Socialist leader and former Christians in so doing had accomplished "one of the gravest and most disastrous acts of our history."

Outside the chamber, the opposition parliament members paraded to the royal palace to pay one final tribute to Prince Charles.

Even with all members voting, the Social Christians would have had sufficient strength to carry the day. The final ballot came after eight stormy days of speech-making which climaxed a year of political maneuvering, a plebiscite, an election, strikes and strife.

After approving the end of the regency and restoration of the King, the Social Christians adopted the following tribute to Prince Charles: "The combined chambers send His Royal Highness homage of their (Continued on Page Four)

GASOLINE UP
MIAMI, July 20—(AP)—Gasoline prices jumped 1.8 cents a gallon at a majority of Miami's 800 service stations today.

The Standard Oil Company set the pace, quickly followed by Pure Oil. Most other major companies followed suit.

24th Yields Blazing Taejon To Red Tanks

Top Brass Of Red Europe And China Meet In Berlin

Greece And Yugoslavia Seen As Possible Next Victims

BERLIN, July 20—(AP)—Top brass of Communist Europe and Red China assembled today for what appeared to be an important Cominform meeting under the cover of a Communist Party convention.

Communist representatives from 18 nations—many of them hangers-on in the Moscow directed Cominform—came here ostensibly for today's opening of the third annual convention of East Germany's Socialist Unity (Communist) party. It was the biggest gathering of Red leaders since the outbreak of the Korean war.

The meeting came as Cominform pressure was being stepped up against Yugoslavia, latter for of the Soviet bloc.

It also came less than 48 hours after the United Nations committee on the Balkans warned U. N. Secretary General Trygve Lie that the Cominform may be planning an attack on Greece.

For several weeks there have been reports of troop movements and border security measures in Yugoslavia, Romania and Hungary.

There was also a report from Belgrade, Yugoslavia, that Yugoslav Foreign Minister Andrija Pribic had cut short a vacation of nearly two months at that health resort and had left for an undisclosed spot. It was the first news of Pribic's whereabouts since he was in Berlin.

These events indicated to many Western observers that the many leaders of the international Red organization here probably had been drawn to Berlin by more than the Socialist Unity Congress.

Among the Red outsiders arriving, reportedly for the party convention, were Russia's M. S. Suslov and P. N. Pospelov, Soviet secretary of the Russian Communist Party's central committee and Russia's Cominform delegate.

Italy's Communists were represented by Palmiro Togliatti and France's Reds by Jacques Duclos, both prominent figures at previous Cominform sessions.

MOSCOW, July 20—(AP)—Soviet Russia said today that U. S. North demands for withdrawal of North Korean forces to the 38th parallel should be discussed by the United Nations Security Council, presumably with Communist China as a Council member.

President Hits Speculation And Silly Hoarding

Threatens Rationing And Price Controls Should Prices Rise

WASHINGTON, July 20—(AP)—The Navy today called several Air Reserve units to active service and the Marine Corps notified all its reserve ground units to be prepared to go on active duty on 10 days' notice. At the same time, the Army announced that it has alerted combat and supporting units from each of the six continental Army areas for movement in the near future to the Far East. These are regular Army troops. The Navy said it could not announce the Reserve Air units called to duty, the number of men, or the designation of their units.

WASHINGTON, July 20—(AP)—President Truman gave instructions today to Charles M. Spofford, new deputy U. S. representative on the North Atlantic Council, about what must be done to strengthen North Atlantic defenses. Spofford, who leaves for London Saturday, called on Mr. Truman at the White House yesterday.

WASHINGTON, July 20—(AP)—The Marine Corps today advised all its organized reserve ground units to be prepared to go on active duty on 10 days' notice. A spokesman said no units have yet been ordered to active duty, but that Marine Corps headquarters is now preparing a list of selected units that will get the first call.

Galloway Speaks On Safety Council At B.&P.W. Picnic

J. Q. Galloway, vice-chairman of the recently organized Semholme County Safety Council, was guest speaker at the Business and Professional Women's Club picnic held last night at Sweetwater Park in Oviedo.

Mr. Galloway pointed out the reasons for organizing the Safety Council and discussed its plans for the coming year. The Club pledged to assist the Council in every possible way.

The resignation of the Club's treasurer, Mrs. Alice Steenworth, was accepted. Mrs. Lois Smiley was unanimously elected to fill the unexpired term of office.

At 9:00 P.M. a swimming and diving exhibition was given by Dan Batten, Dale Hoffman, and Alvin Penley. Swimming, music and a picnic supper were enjoyed by everyone present.

New York Judge Missing 20 Years Is Believed Victim Of Blackmail Plot

NEW YORK, July 20—(AP)—The year was 1930; the nation was taking the first bitter months of depression; New York City was just emerging from a rough-and-tumble political era.

On the night of Aug. 6, tall, distinguished looking Joseph Fore Crater, a New York Supreme Court justice, dined at a West 45th Street night club with a theatrical attorney and two dancers, Elaine Dawn and Sally Ritz.

About 9 P.M., he rose and told his friends: "I'm going to a show. I'll be back in a minute."

He called a cab, and left. That is the last known of Judge Crater.

Today—20 years later—police believe that his disappearance was an act of his own will. Says Capt. John Cronin, head of the police department's missing persons bureau: "Until we have proof, the case will remain open."

Occasional tips—about half dozen a year—still are received from persons around the world who think they have seen the missing judge.

Through the years, the thousands of leads and tidbits of information have been checked, but none have provided the answer to one of the city's most baffling mysteries.

THE WEATHER
Fair and continued hot through Friday except for a few afternoon thundershowers at widely scattered places. Light to moderate easterly winds over south portion and light variable winds over north portion.

Division Commander Missing As Battle Rages Around City; Planes Keep It Up

TOKYO, Friday, July 21—(AP)—Front line dispatches said today the 24th Division was withdrawing from embattled Taejon and that the whereabouts of its commander, Maj. General William Dean, was unknown.

A MacArthur communique issued at 12:30 A. M. today, Japan daylight time, (9:30 A. M. Thursday, EST) said the Americans clung to their positions but the communique appeared to be based on information that was old.

The communique said a Korean Communist infantry-tank attack Thursday afternoon was pressing at the city. Field dispatches indicated it had driven into the city, which was ablaze.

The Americans held off the Red attack for several hours. They used for the first time the new 3.3 rocket launchers which they said knocked out 8 of the first ten Red tanks. The Air Force claimed to have destroyed five additional tanks in the battle area.

General Dean, who was at the front all day Thursday, was seen once with one of these rocket launching teams. His whereabouts became unknown as the battle mounted to a crescendo about midnight. An advance headquarters spokesman admitted he did not know where the General was, adding, but "that does not mean that he is missing."

(In Washington the Defense Department said it had no reports that Dean was missing.)

The G.I.s fought furiously—both on the ground and in the air—to hold Taejon. Strafing planes smashed at Red artillery positions which tried to close in behind the Americans and cut off their retreat with artillery fire. A locomotive crew trying to take a late haul of supplies from Taejon was ambushed enroute to the station.

An army spokesman said Thursday (Continued on Page Four)

Churchill Insists That World War Is Not Imminent

BATH, Eng., July 20—(AP)—Winston Churchill said today he does not think a great war is imminent.

The wartime prime minister expressed belief that American firmness will forestall a major conflict.

"But I am sure of this," he said in an address, "if there were any weakness or division in the English-speaking world, if it were not for the great and courageous championship of the cause of freedom by the mighty United States, if outside the front curtain there were not strong and loyal supporters of the maintenance of peace, there could be no limit to the miseries which the whole world would have to undergo."

Churchill spoke to a crowd of 1,500 persons who attended a ceremony at which the freedom of the city of Bath was conferred on him.

"I greatly welcome the action of the United States and I am sure they will find in our island and the array of commonwealths and states gathered around it real allies and faithful friends," he said. "It is hard that when only five years have passed we should find the dark shadows hanging over the progress of mankind, the famous institution of the United Nations divided, rent and harassed in its work—but still courageously performing its task."

"But I do not think myself that a greater war is imminent."
