HOROSCOPE BY BERNICE BEDE OSOL

For Wednesday, Dec. 21, 1977

YOUR BIRTHDAY Dec. 21, 1977. Someone who has great faith in you may impart some confidential information this coming year that could prove rather profitable. You will know exactly how to use it to your best advantage.

SAGITTARIUS (Nov. 23-Dec. 21). There's a likelihood you may have to return later and do it again if you insist on using "step-savers" at work today. Do it slowly, but do it.

AQUARIUS (Jan. 20-Feb. 19). You might have a rough day at the office today. Walk away and forget it. You'll feel so much better by kicking your worries in your desk.

FRANK AND ERNEST BY BOB THAVES. 'WELL, PRESIDENT CARTER'S GOT THE COUNTRY MOVING AGAIN, ALL RIGHT...'

DOONESBURY BY GARRY TRUDEAU. 'AND ARGUING FOR THE AFFIRMATIVE IS... MRS. MRS.''

Patient Asks About Pacemaker

DEAR DR. LAMB - Several weeks ago, I had a black-out and the doctor ordered me to the hospital. Before I knew what had happened, I was rushed to the operating room for surgery. My pulse had dropped to 31, and they had to put in a pacemaker.

Dr. Lamb, I would like to know more about a pacemaker, what it does and why I had to have one. I was so short of breath and so tired for so long. What are the symptoms to look for if something should go wrong with the pacemaker?

DEAR READER - Normally, your heart has its own pacemaker, which acts like a spark plug. It stimulates the heart to beat each time. The stimulation is really an electrical event. The natural spark plug has its own rate, and it can speed up or slow down within your normal range.

WIN AT BRIDGE

WEST: ♠ Q 7 5 2 ♣ K 3 ♢ A 5 4 ♣ 9 3 2 ♠ 9 2 SOUTH: ♠ A 10 6 ♣ 7 3 ♢ K 7 6 ♣ K 4

going to have time to run the low cards before the defense gets the spade suit established. South only has four diamonds but if he starts proceedings by knocking out that ace he can count two spades, one heart, three diamonds and three clubs.

Brezhnev: Is He Near Death?

PARIS (UPI)—A French newspaper reported today that Soviet President Leonid Brezhnev is seriously ill with heart trouble at his country house and is no longer capable of taking care of state affairs.

STUDENT: I would tell them that I did not understand to stay after school and ask the teacher for help.

STUDENT: My mother is here for everything. When she heard I flunked the test, she was here. And about my grades — she really is concerned about a bad grade I made, and that was really my own fault. I know it was really my own fault, and I have to bring that D up to a B.

STUDENT: Yes, she came and talked to the teacher, who showed her the grades in her book, just to show what I'd done. What else can a teacher say?

STUDENT: Yes, and they help me. EVENING HERALD: Assuming that you get out of school, get a job, get married and have children: To what extent, as a parent,

market development), Cleveland said this morning. The company will not appeal the action of the board of adjustment. In view of that board's unanimous vote against the landfill, and in view of what we thought the commission might do on appeal, there was no reason to continue. The company will continue to evaluate its plans for Central Florida. Those plans don't include a landfill on SR-46."

# NATION IN BRIEF

## Fire Razes 1,500 Acres, Kills Base Commander

VANDENBERG AIR FORCE BASE, Calif. (UPI) — A brush fire driven by hurricane-force winds blazed out of control today through 1,500 acres of the Air Force's main West Coast missile and satellite launching base, killing three persons — the base commander Joseph Turner, 48, and two base fire officials.

## Wind, Dust: Enter Winter

United Press International  
Winter stomped onto the nation's reluctantly laid welcome mat with paralyzing snow storms in the Midwest and Northwest, and killer wind and dust storms in the far West. The fury began a full 24 hours before the winter solstice, listed on nature's irreversible schedule for 6:24 p.m. EST today.

## Racist Wins Trial Delay

MARIETTA, Ga. (UPI) — A Cobb County judge has given averted white racist J.B. Stoner a 30-day delay in his extradition to Alabama to face charges of bombing a black church.

## Tobacco Plant Deal Delay

WASHINGTON (UPI) — Agriculture officials will wait a month before acting on a recommendation that farmers be allowed to plant more tobacco in exchange for the promise they would stop harvesting low quality leaves.

## Carter Home For Christmas

PLAINS, Ga. (UPI) — President Carter, in his third visit to his hometown of Plains since becoming president, today begins a six-day Christmas celebration with his family.

## Yale: Youngest President

NEW HAVEN, Conn. (UPI) — A Bartlett Giamatti, a 39-year-old literary scholar, author, and avid baseball fan has been chosen the 18th president of Yale University.

## Farmers Block Newspaper Foe

LUBBOCK, Texas (UPI) — Striking farmers riding in tractorcades more than 30 miles long rolled into this West Texas city today and blocked distribution of a newspaper that had published an editorial critical of the national farm strike.

# Trial Motion Denied

By SCOTT ABRAHAMS  
Herald Staff Writer

Circuit Judge Robert McGregor today denied a defense motion for acquittal of John Adam Reese, charged with attempted murder in the shooting of an Orlando police officer last July during a drug search.

Defense attorney Jack Bridges and Assistant State Attorney Ralph Erickson argued for acquittal for slightly more than an hour this morning after the state rested its case against Reese.

Reese is charged with shooting Terry Thuma, 29, an Orlando police officer who is a sworn Seminole County Sheriff's deputy. Thuma remains paralyzed from the shooting, which occurred about 2 a.m. July 23 at 518 Oak St., Altamonte Springs.

In arguing for acquittal, defense counsel Bridges said the state had failed to show either through direct or circumstantial evidence that the shooting was premeditated.

"No one has put the firearm in Mr. Reese's hands," Bridges added at the close of his argument for acquittal.

Southland Construction Co. Inc. of Orlando has begun construction on the new 11,378 square foot Casselberry Post Office at Live Oak Center on Live Oak Boulevard west of Highway 17-92.

The firm's \$432,586 bid was lowest of seven submitted for the project, according to Casselberry Postmaster Robert D. Kelly.

Kelly said the contractor has 240 days to complete the job. The new post office will be the second largest in Seminole County, Sanford's is the largest.

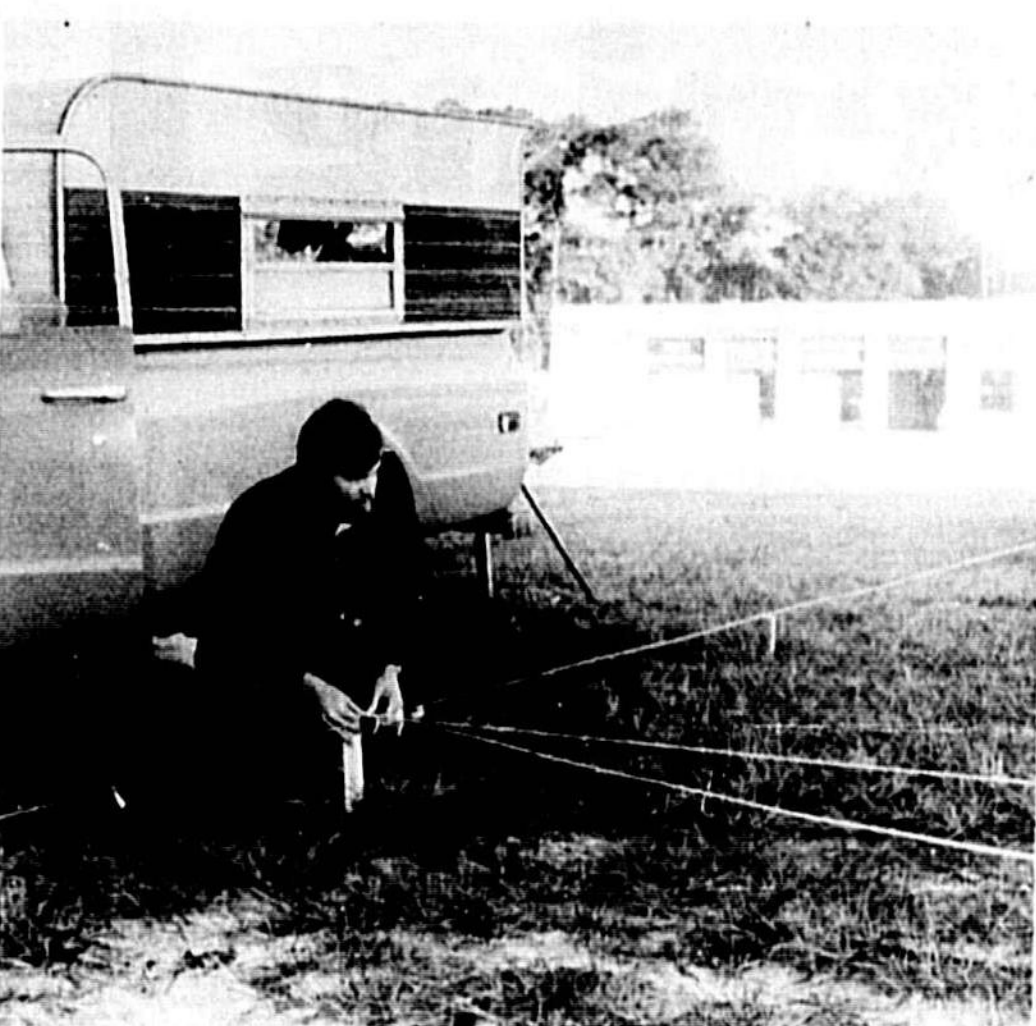

Architect firm for the project is Reynolds, Smith and Hill of Orlando.

Bridges said today after his motion for acquittal was denied that Reese would take the stand in his own defense late this morning and early this afternoon.

Bridges said he may later request that the jury be allowed to view the scene of the shooting, either late today or Thursday.

Key witnesses for the state in the trial, now in its third day, have been Orlando police officer Mike Morris and Thuma. Thuma testified Tuesday from a hospital stretcher. He remains paralyzed in the lower parts of the body from the bullet fired in the shooting. The bullet entered the right side of the neck, cut through veins and destroyed the spinal cord, according to a doctor who treated Thuma after the shooting and who testified Tuesday.

Thuma, speaking in a clear, strong voice, told jurors he neither saw the interior of the darkened residence nor who fired the shot which struck him. The shooting case as Thuma, Morris and a third officer attempted to gain entry to the home to execute a search warrant for heroin.

Ward Davis of Southland Construction Corp., contractor for new Casselberry Post Office, places stakes where building will be located.

# New Post Office At Casselberry Site

By JANE CASSELBERRY  
Herald Staff Writer

Located less than a mile south of the present facility on Lake Triple Drive, the new site is a little over three acres, according to Kelly. Adequate parking space will be provided and there will be ramps for the convenience of disabled persons, he said.

The post office has been in the present facility leased from Casselberry Gardens Inc. since 1961. The Postal Service holds a lease on the building, which expires in September, 1981, according to a spokesman for Casselberry Gardens, and there are no definite plans for the building after the office moves.

Kelly said the Casselberry Post Office is serving 7,825 families and 48,000 residents in the Reynolds, Smith and Hill of Orlando.

# Unlocked Door Leads To Attack

By SCOTT ABRAHAMS  
Herald Staff Writer

A 24-year-old woman living at Tiffany Square Apartments in Fern Park was sexually assaulted early today by an unknown man who warned her the attack would teach her to lock her door.

The victim was awakened at 3:45 a.m. by the man who told her to "just shut up and be quiet," the Seminole County Sheriff's Department said.

Authorities said the man entered through an unlocked front door and left with \$4 he took from her apartment.

The man was described as about 5'7" weighing 150 to 160 pounds, with collar length dark hair.

Oil stolen at 6386 was reported taken from the Eastern Gas Station at 5345 in Altamonte Springs between Tuesday at 10 p.m. and today at 5:48 a.m., deputies said.

Someone pried a lock on a rear door to gain entry where the 15 cases of oil were stored, deputies reported.

Officials of the Longwood Lincolnville Apartments on Highway 17-92 reported to sheriff's deputies the theft of four wire wheel covers from a 1971 Lincoln.

The covers were valued at \$225, reports said, and were taken sometime Saturday, although the theft was reported Tuesday.

# L. Mary Raps Sanford For Annex Plan

By DONNA ESTES  
Herald Staff Writer

The Lake Mary City Council has refused to join with the City of Sanford in seeking legislation authorizing the annexation of areas completely surrounded by city territory. Instead, the city council Tuesday night Councilman Gary Massey, defending the Sanford request, said from a practical standpoint encloses can make it difficult for a city to administer its public services and that the Sanford encloses were created before the state law banning the practice went into effect.

Mayor Walter Sorenson read a letter from Sanford City Manager W.E. Knowles, asking for support from all of Seminole County for a "local bill" allowing all the cities to annex county encloses (areas completely surrounded by city territory).

Councilman Cliff Nelson responded that Lake Mary "is not in a need position, has no encloses and is making every effort to see that none are created."

Nelson said that Sanford created its own encloses by "annexing by road right-of-way and down railroad tracks" in too diligent an effort to expand its city limits.

County Commissioner Harry Terry added that during Sanford's expansion moves it had reached "right into the heart of Lake Mary."

"I deplore the creation of encloses more than their elimination once created," said Nelson, adding "it is obvious Sanford wants to be arbitrary about the encloses they have created by annexing people who do not want to be annexed."

City Attorney Gary Massey, defending the Sanford request, said from a practical standpoint encloses can make it difficult for a city to administer its public services and that the Sanford encloses were created before the state law banning the practice went into effect.

Massey said that he would rather see Sanford join the other cities in the county in seeking revisions to the annexation law.

The attorney called "unfair" a section in the state law that requires a city to pay the county's attorney fees if the city loses an annexation suit. Massey said the county should have only a limited right to challenge a voluntary annexation where the owner of the property has petitioned "if he can't pay the city's attorney fees."

Sanford's attorney called "unfair" a section in the state law that requires a city to pay the county's attorney fees if the city loses an annexation suit. # WORLD IN BRIEF

## Filipino Gunman Holds 21 Hostages, Makes Demands

SUBIC BAY, Philippines (UPI) — A Filipino gunman today threatened to kill 21 hostages he held inside a bank on the sprawling U.S. Subic Bay Naval Base unless he was given a helicopter for a flight to freedom.

Authorities rejected his demands and withheld food in an apparent attempt to starve him out. They also sealed off all entrances to the 7th Fleet facility and sent in a crack team of U.S. Marines in fatigues and bulletproof vests.

The gunman invaded the bank Tuesday afternoon, grabbed the manager and forced two security guards to surrender their shotguns. He then herded 21 hostages into a separate room.

Israel, Egypt Set Talks  
CAIRO, Egypt (UPI) — Israel and Egypt called a second round of talks today to work out a plan for Israel's withdrawal from the captured Sinai Peninsula without waiting for an overall Middle East settlement.

Israeli Defense Minister Ezer Weizman flew secretly to the Suez Canal city of Ismailia Tuesday to meet Egyptian President Anwar Sadat and his top military adviser, Gen. Mohammed Gammasy.

Afterward, Weizman and Gammasy flew by helicopter to an air base at Jankalki, 25 miles south of Alexandria, for today's meeting.

TEHRAN, Iran (UPI) — The death toll from a devastating earthquake that rocked mountainous central Iran and flattened a dozen villages soared past 500 today, Iranian rescue officials said.

Rescue officials said the death toll stood at 519 a day after the fatal shock left its mark of rage on a dozen hamlets in the area.

Massive relief operations were under way but officials said it might be months before the 4,500 survivors could be resettled. At least three of the 12 stricken hamlets were "completely destroyed," local newspapers said.

Racist Aussie Minister Fired  
CANNBERRA, Australia (UPI) — Prime Minister Malcolm Fraser fired one of his new cabinet ministers today for advocating apartheid for Australia's blacks and supporting the racist system in South Africa.

Fraser told a news conference the formalities of appointing Sen. Glen Sheil, whose comments sparked a storm of protest throughout the nation, to the Ministry of Veterans Affairs "will be left uncompleted."

Lance Sells Stock, Makes \$361,380  
WASHINGTON (UPI) — With help from a Saudi Arabian businessman, Bert Lance has taken a giant step toward easing the financial problems that forced his resignation three months ago as President Carter's budget director.

And he turned a tidy profit of \$361,380 in the bargain. Lance's lawyer, Robert Altman, announced Tuesday the Georgia banker is selling 60 percent of his stock in the National Bank of Georgia.

The buyer is Ghath Pharon, a construction magnate from Jeddah, Saudi Arabia, who also has holdings in Texas. Pharon agreed to pay \$20 a share for the stock, for which Lance paid an average of \$17 a share. Thus Lance will get \$2,400,200 for a \$2,041,820 investment.

Another feature of the deal may be restoration of Lance as an officer of the bank. The Atlanta Constitution reported today that if Pharon acquires the 60 percent share of all bank stock he wants, Lance will be made chairman of the board.

Lance formerly was president of the bank. The sale of 120,460 of the 200,767 shares of NBG stock Lance owned will help ease heavy financial obligations. During Senate confirmation hearings on his nomination as Carter's budget chief, Lance said he borrowed from banks to acquire the NBG stock and other holdings.

He said he owed \$3.3 million to the banks and needed several hundred thousand dollars just to keep up with the interest payments on the loans.

Lance was president of NBG for two years before accepting Carter's offer to head the Office of Management and Budget. A longtime Carter chum, Lance joined the administration in January and quickly emerged as Carter's confidante and the administration's closest tie to the business community.

Much to the chagrin of Lance and Carter alike, the budget chief came under heavy pressure during the final months of his tenure because of past free-wheeling financial dealings as head of NBG and, earlier, as head of the First National Bank of Calhoun, Ga. Although finding nothing "criminally" wrong, federal bank regulators said Lance allowed his family to run up \$450,000 in personal checking account overdrafts at the Calhoun bank, obtained loans from banks after opening interest-free accounts with his depositors' funds, and may have tried to influence federal officials to keep past investigations of banking affairs quiet.

Lance resigned as budget director Sept. 21 after nine months on the job.

# David Chacey Now Longwood Planner

By JANE CASSELBERRY  
Herald Staff Writer

David Chacey, in charge of Longwood's building department, has been given an additional title—city planner.

Council approved the additional duties for Chacey to fill a vacancy created Oct. 29 when James Lee, Longwood's city planner whose salary was paid with funds from the Comprehensive Employment Act (CEA) went to work for the Department of Environmental Regulation in Orlando.

However, a lost letter resulted in no CEA funds in 1976 for the city planner post Chacey accepted with no raise in his current \$7,619 annual salary.

Mayor Gerard Connell last month obtained approval to change the job title for the vacant city planner position to city planner-administrator in money money. He pointed out that city money had been included in the city's budget for the administrator and that he had in mind former Altamonte Springs Mayor Lawrence Swafford who had obtained grants for that city.

Council voted 3-2 on a motion by Councilman Lawrence Goldberg to give the city planner duties to Chacey at the same salary. Councilman Parker Anderson, at his final meeting, and Stephen Barton voted against the motion.

Grant said Chacey offered to take the job of city planner in addition to his present duties at no raise in pay.

Grant said the Title VI funding for the position was lost as of Dec. 16, and that he was asked CETA for a pipe away instead to help pay water lines under another CETA program.

Connell said the city needs a good track record for getting grants and who can save the city money. He pointed out that city money had been included in the city's budget for the administrator and that he had in mind former Altamonte Springs Mayor Lawrence Swafford who had obtained grants for that city.

Council voted 3-2 on a motion by Councilman Lawrence Goldberg to give the city planner duties to Chacey at the same salary. Councilman Parker Anderson, at his final meeting, and Stephen Barton voted against the motion.

Grant said Chacey offered to take the job of city planner in addition to his present duties at no raise in pay.

Grant said the Title VI funding for the position was lost as of Dec. 16, and that he was asked CETA for a pipe away instead to help pay water lines under another CETA program.

Connell said the city needs a good track record for getting grants and who can save the city money. He pointed out that city money had been included in the city's budget for the administrator and that he had in mind former Altamonte Springs Mayor Lawrence Swafford who had obtained grants for that city.

### Old Style, New Times

It was like old times at the AFL-CIO convention in Los Angeles. There was President George Meany, chomping on his cigar and demanding protection for the working man against real or imagined foes.

Via telephone came encouraging words from Sen. Hubert Humphrey, Labor's favorite political warrior. And Vice President Walter Mondale brought thanks from a Democratic administration that Labor helped elect.

It was so much like old times that the convention seemed to dramatize the big problem of the AFL-CIO. In its leadership and too-familiar rhetoric it is beginning to look like an army mobilized to fight the last war — not the one going on now.

With 106 member unions representing 13.7 million workers the AFL-CIO is no small army. But the fact is that organized labor has been losing ground. Thirty years ago, 40 percent of the American labor force was unionized.

Today the figure is closer to 25 percent. For the last two years the total membership in labor unions has been declining, the reversal of a membership trend that had been consistently upward since 1962.

In one respect Labor is suffering from its own success — a bigness that has given labor leaders an image like that of the business tycoons they like to vilify.

Alienation of the rank and file has led to movements of rebellion against the entrenched leadership of some unions, like the United Steelworkers and the Teamsters. Labor has won many of the organizational battles that inspired another generation of workers.

Today's blue-collar worker is far enough up the economic ladder that concern for protecting his personal status may outweigh a sense of solidarity with the worker at his side.

At 83, Mr. Meany shows no lack of vigor, but his tough talk fits the style of another political era.

He is said to have the ear of President Carter, but the White House has not gone to bat for Labor-backed bills with the enthusiasm that Mr. Carter's political debt to Labor would seem to call for.

Nor is Congress showing much inclination to honor IOUs for Labor's generosity at campaign time. It has rejected the common situs picketing bill that was No. 1 on Labor's list, and is growing cool toward reforms of the Hatch Act that would have made it easier to unionize federal employees.

The AFL-CIO has tried to solve its membership problem by organizing public employees. But that sector is an awkward fit for traditional collective bargaining, and if the AFL-CIO is concerned about its image, being associated with strikes that tie up public services and carry a direct threat to the taxpayer's pocketbook is not going to help.

Images can be an accurate reflection of the substance behind them. If the AFL-CIO wants to be a credible spokesman for American Labor — even 25 percent of it — the change can best begin at the top.

The Los Angeles convention felt compelled to reelect Mr. Meany.

If wisdom has come with age, in his case he will recognize that his sparring in the public arena over politics and the economy is less important for the AFL-CIO than battles to be fought within its own ranks.

It is in that arena that the quality our labor unions and their ability to attract and keep members will be settled.

**Around**  
Maureen Hall Sifton of Bayfield, Colo., has appealed for help in locating her mother from whom she was separated at the age of five. She says her mother's name is Helen Curtis Martin Hall and was reportedly living in Sanford in 1963. Mrs. Sifton said her brother, Curtis Martin Hall was born here. Mrs. Sifton said she and her husband have reached many dead ends in their search and are looking for someone who may have a clue to her whereabouts. If anyone remembers Mrs. Hall or has information that might be helpful in reuniting mother and daughter please contact Jane Casselberry at the Evening Herald office by calling 322-2811.

**The Clock**  
By JANE CASSELBERRY  
The public is invited to drive by and watch Live Nativity tableaux being presented by at least two area churches. The youth of Grace Methodist Church at 118 W. Airport Blvd., Sanford will present a tableau with live animals from 7 to 9 p.m., Thursday through Saturday, in front of the church. A living tableau will also be presented on the lawn of Rolling Hills Moravian Church on SR 434.

**Longwood, Tuesday through Friday of this week at 7:30 p.m.** The cast will consist of approximately 40 persons, both youths and adults. This is the fifth year this Nativity scene has been presented at the church under the direction of Don Owens.  
There also will be a live Nativity scene Thursday through Saturday beginning at 7 p.m. in front of Good Shepherd Lutheran Church just north of Sanford Plaza on U.S. 17-92.  
Another impressive sight will be the 250 luminaries to be used by the youth of Ascension Lutheran Church Overbrook Drive, Casselberry, to light up the church yard on Christmas Eve. This is a lovely Mexican custom that has been adopted in recent years in Central Florida. Sometimes whole subdivisions line their streets with candles set in paper bags with sand in the bottom. We also have Mexico to thank for the bright symbol of Christmas so evident in Florida...the poinsettia.  
While you are out driving around admiring the displays of Christmas lighting don't miss the 94-year-old home of Mr. and Mrs. T.L. Kidder at 211 W. Warren Ave., Longwood. They have outlined the lovely two-story house with colored lights and it looks like an old-fashioned Christmas card.  
Mock disasters confronted tens of students at St. Luke's School in Slavia, recently as a practical test at the completion of a 11-week Red Cross First Aid course. On his day off, Lt. Frank Montero, a paramedic employed by the Goldenrod-Dommerich Fire Dept., taught students in grades 4-8 as part of their health class.  
The fourth graders were realistically made up as victims in a variety of simulated accidents. Grades 4-6 took a modified course in life saving techniques, poisons, lacerations and fractures. Award certificates will be issued to students who meet the necessary qualifications.  
Students in grades 7-8, who passed the written and practical tests will receive American Red Cross First Aid cards.

## Dear Santa...

(Santa Claus answers some of his letters from Seminole County youngsters...)  
Dear Santa,  
I thank you for all the things you gave me last year. You deserve a kiss. But I can not do a kiss to the elf to for making the toys. Well to get down to it there's not much I want very much. Here is what I would like very much for Christmas. A music box and a ant farm.  
I am living at 618 Oak Street in Florida were I was born. I will get Nona and Poppy to sign it if I have been good and if I am bad they sign bad.  
Good — (signed) Mrs. I.C. Seigler Bad — from Keeley Mahoney  
P.S. I have joined the Youth Club. By  
Dear Keely,  
Thank you for your letter on the pretty stationery. I am glad you liked what I brought you last year and I hope you like your presents just as much this Christmas.  
Say "hello" to your Nona and Poppy for me.  
Love, Santa  
Dear Santa,  
How are you and Misses Santa. I am a have been a good boy and I want Sarah Fawcett for Christmas. Please don't scratch her. Love you.  
Tony Hayden  
7 years old  
Dear Tony,  
I am glad to hear you have been a good boy. You must be mature for your age and have very good taste. Don't worry, Santa will handle your present with care. Misses Santa and I are busy getting all the toys ready to deliver.  
Love, Santa  
Dear Kevin,  
I received your drawings. They are very nice. Are you being a good boy and helping Mommy? I hope so.  
Love, Santa

LONGWOOD LONGING  
One of the highlights of the Longwood Christmas party was this candy gumdrop house—just made for eating. And that's just what 8-year-old Cindy Kirchin has on her mind as she ogles the tempting creation. Hang in there, Cindy, that first step is the toughest. The Longwood party also featured long lines of youngsters awaiting their turns to share other Christmas longings with Santa in the person of Council Chairman J. R. Grant, who has been at the same Christmas stand for 27 years.

## ANGLE-WALTERS Nader's War On Ex-Aide

WASHINGTON — In what can be described only as an act of petty harassment, Ralph Nader has launched a personal investigation of a European trip taken last month by Joan Claybrook, administrator of the federal auto safety agency.

That previously unpublished move is the latest development in Nader's month-long personal vendetta against Claybrook, among his most trusted aides and closest friends before she accepted a job offered by the Carter administration.

In a formal request filed under the provisions of the Freedom of Information Act, Nader is pressing for disclosure of every imaginable detail of Claybrook's government-sponsored November 4-20 trip to Great Britain, Sweden, France, Germany and Italy.

Determined to embarrass Claybrook into resigning from her post as head of the National Highway Traffic Safety Administration (NHTSA), Nader presumably hopes to portray her trip as a junket financed by American taxpayers and European automakers, whose United States exports she regulates.

He is demanding from NHTSA Claybrook's detailed itinerary, a list of everyone she met on the tour, the names of all members of her traveling party and a full description of any lunches, dinners or gratuities accepted from her hosts.

But Claybrook was so scrupulous about avoiding even the appearance of impropriety that she personally refused to be the cost of every meal provided by automakers while she toured their plants.

When Fiat, Italy's largest manufacturer, offered a corporate plane to fly Claybrook and her aides to its elaborate crash-testing facility in Torino, she declined in favor of an overnight train trip.

The tenor of Nader's request suggests he suspects Claybrook devoted too much attention to auto producers and too little to European consumer and safety groups. In fact, much of the trip involved meetings with government traffic safety experts and inspection tours of their test facilities.

Nader's principal objection to Claybrook's performance dates back to the June 30 decision by Transportation Secretary Brock Adams to require the 1982-84 installation of air bags in all passenger cars sold in this country.

Both Nader and Claybrook believe that safety feature should and could have been installed as early as the 1981-82 model years. Claybrook pressed Adams, her boss, for earlier implementation, but supported him after he decided to give the automakers more lead time.

Nader's strength always has been his single-minded dedication to causes he believes just. When Claybrook headed Congress Watch, his lobbying organization, she shared that spirit of fierce partisanship.

Claybrook understands, however, that she now heads a government agency which not only serves multiple constituencies but also must cope with political pressure.

Nader also is aware that politics is the art of compromise. But he applies that philosophy on a highly selective basis, usually when dealing with someone he knows is more powerful or influential.

## RONALD REAGAN: Tax Revolt Boils In California

Whoever described California as "the cutting edge of change" may have put it off a little heavily but there is still truth in it. The Golden State continues to spawn many of America's trends. Tax revolt may be the next one.

In recent years everything from tough air pollution laws to campus riots had their start in California. So did faded blue denim, landings on Mars and the ballot initiative. The latter phenomenon is the one by which frustrated citizens can bypass a foot-dragging legislature and put an issue on the ballot for public vote.

In 1978, California's initiative process may give the nation the first solid evidence that the taxpayer revolt is more than angry talk. In California it has already become a reality.

Howard Jarvis is a doughy Californian in his 70s who heads an organization called United Taxpayers, a citizen "watchdog" group. He and his colleagues have just collected a record 1.2 million signatures (nearly four times the required minimum) to qualify an initiative on next year's ballot which would limit property taxes to one percent of a home's market value.

If it passes — and considering the ferment over property taxes, it has a good chance — the Jarvis initiative will leave elected officials and their bureaucrats between a rock and a hard place. With their property tax base sharply reduced and the voters in no mood to see other taxes go up, they will be forced to establish spending priorities, about the last thing most of them want to do.

Two factors brought the California tax revolt to a head and similar ones exist in other states. On the one hand, the governor and the legislature could not agree on returning inflation-caused treasury surpluses back to the taxpayers who had paid them in; on the other hand, wildly inflated housing prices triggered reassessments and huge jumps in property taxes.

Jarvis and his petition brigade hit the streets just when taxpayer anger was doing a rolling boil. They collected signatures while Governor Jerry Brown was trying to link property tax relief to family income level. His idea was, the more you make, the less money you get back, no matter how much you paid in. He called this scheme a "circum-breaker" and it's a truly California-sized idea — full-blown socialism. But, the legislature, when it wiggled its antennae, decided the idea would sell, so it stalemated Brown.

The news of Jarvis' success was barely out when the special interests who gourmandize at the public trough began howling. The sky would surely fall. Schools would close, police and fire protection would evaporate, the poor would be thrown out in the streets and all other taxes would skyrocket.

It had a familiar ring. In 1973, the same coalition made similar charges about an initiative measure which would have limited the percentage of the people's total income the state could spend. It contained guarantees to prevent the state from shifting its tax load to counties and cities, but the Greek chorus planted enough doubts to scare the voters and they turned the measure down.

Other possibilities include increasing domestic production, locating sources of elephants and setting up a standby rationing system. The big hazard is that the House and Senate will approve different measures, thus throwing the legislation into the hands of a joint conference committee, such as the one now lingering over President Carter's energy program.

Should that happen, the legislation itself would become an endangered species.

Another step would be to develop pachyderm alternatives. Some experts believe hippopotamuses and rhinoceroses could be made to perform many of the functions now assigned to elephants, although perhaps with some loss in efficiency.

## THE LIGHTER SIDE Fishing For Elephants

By DICK WEST  
WASHINGTON (UPI) — It's tough to face up to yet another crisis in the midst of the holiday season, but facts are facts. And it's a fact that we are rapidly running out of elephants.

The shortage has become so acute it is even being felt in Kenya, which is to elephants what Saudi Arabia is to oil.

Having previously banned big game hunting, Kenya this week took the further drastic step of prohibiting the sale of game skins and trophies.

Officials said the ban was imposed primarily to conserve elephants, supplies of which could be exhausted in less than a decade at present rates of supply and demand.

Meanwhile, back in Washington, the House Merchant Marine and Fisheries Committee began taking testimony on how the United States should go about coping with the scarcity.

Offhand, there would appear to be a jurisdictional incongruity in the committee's hearings. Elephants, as far as one can tell with the naked eye, have little connection with either seafood or seafaring.

For example, a bill to prevent anyone from fishing for elephants within 200 miles of the U.S. coastline would have almost no impact on the problem.

Fortunately, the committee also handles legislation through which the United States may classify non-aquatic creatures as an endangered species. Such a step with respect to elephants

would bar the importation of pachyderm products.  
The United States is now almost totally dependent on imported elephants. One conservationist told me the goal of elephant sufficiency recedes further into the distance with each passing year.  
With Kenya running short, there probably will never again be enough elephants to go around.  
Despite this dire outlook, neither the administration nor Congress has come up with a comprehensive elephant policy.  
One obvious remedy is to make more effective use of existing elephants. Authorities estimate that upwards of 60 per cent of the elephant power in this country is wasted.  
Another step would be to develop pachyderm alternatives. Some experts believe hippopotamuses and rhinoceroses could be made to perform many of the functions now assigned to elephants, although perhaps with some loss in efficiency.  
Other possibilities include increasing domestic production, locating sources of elephants and setting up a standby rationing system.  
The big hazard is that the House and Senate will approve different measures, thus throwing the legislation into the hands of a joint conference committee, such as the one now lingering over President Carter's energy program.  
Should that happen, the legislation itself would become an endangered species.

## Mexico's Human Bomb Ticks Away

WASHINGTON — An economic time bomb is relentlessly tick-tocking south of the Rio Grande. It could cause a human explosion, with repercussions that would rock the United States.

Millions of Mexican landless peasants below the border are consigned to lives of perpetual poverty and back-breaking toil. The harshness and hopelessness have sent many cascading across the border in search of a better life.

The human tide is impossible to stem, without an army of border patrolmen. The plight of these proud but impoverished people, therefore, can no longer be ignored by their neighbors to the north.

We sent our associate, Hal Berton, to the fertile coastal plains of Sinaloa 500 miles south of Arizona. He became another pair of hands in the army of campesinos who harvest winter vegetables for the U.S. market.

He brought back an eye-witness account of conditions on the vast vegetable "latifundios" similar to those John Steinbeck wrote about in "Grapes of Wrath." Most of the owners luxuriate far from their fields in the walled villas of Sinaloa's capital city, Culiacan.

But he lived and labored with the peasants who plant, tend, pick and pack the produce. They are

crowded into tarpaper shanties or teac concrete structures, getting paid meager wages for a day of stop labor. Millions of Mexicans cannot afford to eat the high-priced winter vegetables that they pick for U.S. tables.

For several days, Berton lived in a shanty town that a dozen families had thrown up on a gravel clearing beside an irrigation ditch. The campesinos who look him in had been evicted from a nearby labor camp in 1976 because they dared to join in an angry protest against their employer.

They found that the power is on the side of the landowners, some of whose agricultural empires are tied into Arizona banks. The grower settled the dispute by driving off the workers at gunpoint.

Banned from the labor camp, they constructed a makeshift hovel of huts by the irrigation ditch abutting sorghum field. Toilet facilities were the most primitive. The only water supply was the concrete irrigation canal, which flows from the Sierra Nevada mountains through pesticide-laden countryside.

The women washed their clothes in the shallow waters, and children played happily in the concrete ditch. The cooking was done outside over wood-burning stoves improvised out

of old metal trash cans. Our reporter, as the guest of a campesino family, would dine in the twilight on a simple meal of soup, beans, small chunks of precious meat and piping hot stacks of tortillas.  
He was assigned crude sleeping quarters in a rudimentary lean-to with the community's two bachelors. It was held together by a few stout poles and thin strips of wood.  
But it contained the village's only radio and record player, a small, battery-powered model. In the early darkness, the children and their elders gathered around the lean-to to listen to mariachi music. This was usually followed by a play-by-play account of games involving the Culiacan Tomatoes baseball team.  
After the last out of the game, Berton and his two companions groped their way to folding cots a few inches off the dirt floor. They were out of bed by dawn's early light and ready for another day in the fields, stooped over rows of cucumbers. Once they were sprayed with pesticide along with the crops.  
For their week's work, they can expect to earn about \$26. It takes at least one third of this to pay for the food they eat. A campesino can purchase a pair of work pants for another third of his week's salary. But if he needs a shirt, it will cost

him over half of a week's earnings.  
Yet the peasants of Sinaloa consider themselves fortunate. They are

Texas Tech Ready For FSU Passes

ORLANDO (UPI) — Texas Tech defenders are expecting to see a lot of throwing in their Tangerine Bowl clash with Florida State Friday night.

117 yards on the ground this year to become the all-time leading Seminoles runner.

Bobby Bowden hasn't said which signal caller will start FSU nose guard Ron Simmons, a 6-1, 230-pound freshman who anchors the Florida State defense, said he feels the key to the Tech running game is fullback Billy Taylor.

Chiefs Select Levy As Coach

KANSAS CITY, Mo. (UPI) — The Kansas City Chiefs took Washington Redskins' Coach George Allen as his word when he told them they couldn't hire a better coach than Merv Levy.

## Hardware and Hand Tools

### BATTERIES

General purpose batteries. 1.5 volts. C and D sizes

**19¢** Each Battery

Reg. Price (each battery) . . . . .35¢

### Adjustable SCREWDRIVER KIT

Contains 8 assorted screwdrivers and one handle.

**69¢** Kit

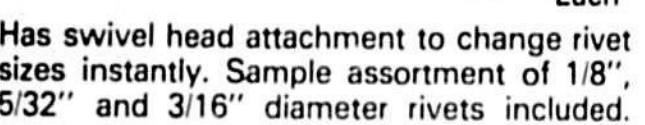

Reg. Price (kit) . . . . .1.09

### RIVET GUN KIT

Has swivel head attachment to change rivet sizes instantly. Sample assortment of 1/8", 5/32" and 3/16" diameter rivets included.

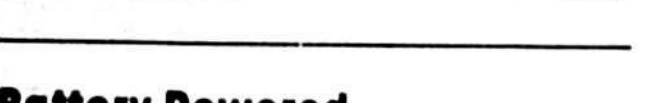

**759** Each

### STAPLE GUN

The professional tacker. One hand operation leaves the other hand free to control the work. Feeds staples automatically.

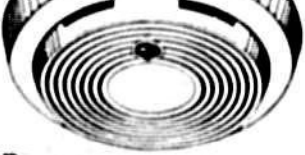

**1379** Each

### Battery Powered SMOKE DETECTOR

First Alert detectors operate on the ionization principle to give early warning. Can detect fire in the first stages, when smoke is still invisible. Operates on 3 volt alkaline battery. Easy to install, clean and service. UL listed.

**1877** Each

Prices quoted in this ad are based on customers picking-up merchandise at our store. Delivery is available for a small charge. Management reserves the right to limit quantities on special sale merchandise.

## Power Tools

### 7 1/4" CIRCULAR SAW

1 1/2 hp. (max. motor output). Accepts 73-501 rip fence. Double insulated. No. 7308.

**1895** Each

### 1/4" DRILL

.20 hp. (max. motor output). An outstanding value; a good choice for general purpose use. Double insulated.

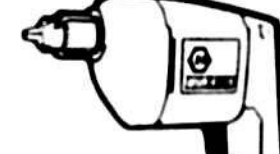

**1199** Each

### 3/8" DRILL

For homeowner and workshop use. Double insulated. Has recessed locking button. .22 hp. (max. motor output).

**1299** Each

### JIG SAW

Maximum motor output. .20 hp. For making straight, curved or scroll cuts in wood, metal, plastics and other materials. Double insulated. Includes a wood cutting blade.

**1399** Each

### Two-Speed JIG SAW

Maximum motor output 1/3 hp. Calibrated tilting shoe for bevel and compound mitre cuts. Double insulated. Accepts optional U2151 rip fence.

**1699** Each

### FINISHING SANDER

Good for fine finishing wood, metal and plastics. Flush sands on three sides. Front handle for extra control. Double insulated.

**1499** Each

### 1 HP ROUTER

A good choice for serious woodworking jobs. Cuts, routs, grooves, trims, and decorates in wood, plastics, compositions.

**4299** Each

## Kitchen and Bath Supplies

### 19" Mini VANITY PACKAGE

Easy to assemble vanity base in solid White with Gold trim or Natural Oak. Cultured marble top in White/Gold or Brown/Stone. Less fixtures.

**3788** Package

Reg. Price (pkg.) . . . . .39.95

### Toilet TANK REPAIR KIT

Kit includes ballcock toilet valve, refill tube, float rod, top seal rubber tank ball and tank float. Complete installation instructions. No. 2335.

## Cooks Of The Week

# Foreign Fare Comes To Luncheon

The E.S.O.L. (English for Speakers of Other Languages) at Seminole Community College students hosted a Christmas luncheon for their friends and faculty. Students brought dishes native to their homelands, and the program activities included a recipe exchange.

Students celebrated not only the Christmas season, but also the fact that they have completed the first semester of classes.

The E.S.O.L. Program enrolls over 100 students each term. Twenty-two countries are represented with Puerto Rico, Cuba and Vietnam composing the largest percentage of students.

The E.S.O.L. Program offers free instruction in English skills and communications. Group situations and individualized learning labs stress such areas as consumer education, personal relations and health care.

For more information call 323-1450, ext. 345.

The students share some of their round-the-world recipes.

**"PERASHKEY" CREPES (4 servings)**

Part I  
1 lb. ground chuck  
1 package fresh parsley (chopped)  
2 small onions (chopped)

1 stick of butter  
1 fresh medium tomato (grated)  
1 tsp salt  
1 tsp pepper (black)  
Part II  
48 eggs  
1 cup milk  
4 tsp flour  
1 stick butter

Melt 1 stick butter in a large frying pan. Sauté onions first and then add the ground chuck. Add spices, add grated tomato and top is solid. Invert crepe on to board with cooked side up. Repeat 6 or 7 times. Fill cooked side of crepe with meat mixture and fold two sides together leaving ends open. Lightly brown bottoms in large pan with half stick of melted butter over medium heat. Carefully turn to brown tops under broiler. — SHAMI JABHARI, IRAN.

**CHULETAS EN FRICASE**  
12 pork chops  
3 green plantains  
2 cans of green pimientos  
1 can of green peas  
1 cup of dry red wine  
2 fresh tomatoes (sliced)  
salt and pepper to taste

Put the pork in a shallow pan and place in oven at 350 until browned. Meanwhile fry the plantains (which have been sliced on the diagonal). Drain the grease from the pork and arrange plantains, green pepper and peas around it. Put in oven again with tomatoes and onions and cover with wine. Cook uncovered for 15 minutes.

**DORA RIOLLANO, PUERTO RICO**

**PINEAPPLE CHICKEN (GA XAO THOM)**  
2 boned chicken breasts  
1 tsp cornstarch  
1/4 tsp pepper  
1 tsp oil  
1/2 tsp salt  
2 tsp soy sauce  
3 slices canned pineapple  
2 tbs water  
4 tbs pineapple juice  
2 tsp cornstarch  
1 small clove garlic  
2 tbs oil  
1 tsp salt

Cut chicken into strips 1/2" wide and 1 1/2" long. Combine 1 tsp cornstarch, pepper, 1 tbs oil, 1/2 tsp salt, 2 tsp soy sauce. Add to chicken and mix so that all strips are well coated. Allow to stand for 15 minutes. Cut pineapple into 1/2 inch wedges. Reserve juice.

Heat 1 tbs. of the oil and salt until very hot (in skillet) add chicken and stir. Fry for 3 minutes. Add pineapple, reduce heat to low, cover, and cook for 2 minutes. Remove and set aside. Clean skillet. Heat the other tbs. of oil in the skillet until very hot. Add garlic and stir, fry about 1 minute. Add cornstarch mixture and cook. Stir until thickened about 1 minute. Add chicken and mix thoroughly.

Heat 1 tbs. of the oil and salt until very hot (in skillet) add chicken and stir. Fry for 3 minutes. Add pineapple, reduce heat to low, cover, and cook for 2 minutes. Remove and set aside. Clean skillet. Heat the other tbs. of oil in the skillet until very hot. Add garlic and stir, fry about 1 minute. Add cornstarch mixture and cook. Stir until thickened about 1 minute. Add chicken and mix thoroughly.

**FRIED GIYOZA**  
2-3 lb. ground beef  
1 lb. pork (ground pork)  
1 onion (minced)  
3 cloves garlic (minced)  
fresh ginger small root (minced)  
1 egg white  
oil and butter

Fry onion, garlic and ginger, then add beef and pork, cook until done. Spread gyoza skin with egg on 2 edges, then spoon meat onto the gyoza skin. Close at tightly, fry or steam until browned. Use low heat to fry, turn often! — TAMIKO OSTHEIM, JAPAN.

In small teflon pan melt 1 teaspoon butter and place over medium heat, pour small amount of crepe mixture into pan (making a thin crepe, cook until bottom is lightly browned and top is solid. Invert crepe on to board with cooked side up. Repeat 6 or 7 times. Fill cooked side of crepe with meat mixture and fold two sides together leaving ends open. Lightly brown bottoms in large pan with half stick of melted butter over medium heat. Carefully turn to brown tops under broiler. — SHAMI JABHARI, IRAN.

E.S.O.L. students fill their plates from International Buffet at their Christmas luncheon.

### Barbecue In The Park

Nets \$5 For Gazebo

More than 700 persons were served chicken barbecue Sunday in Centennial Park from noon until 2 p.m. The benefit barbecue, sponsored by the Greater Sanford Chamber of Commerce and C.I.P., was designed to help toward the construction of a gazebo in the park as a Sanford Centennial salute this year.

The barbecue was among the many community projects which have been held to raise funds for the restoration and preservation of the historical landmark.

Mrs. Walter A. Gielow projects that after the final accounting, the proceeds from the barbecue may net over \$1000. Local businesses, individual donations and a corps of workers were cited by Mrs. Gielow for the success of the project.

Mrs. Gielow said, "We are truly sorry for any inconvenience caused the patrons who had to wait in line. Everyone in line had been served by 3 o'clock."

Tables were spread in the park and take-out service was available. Continuous gratis entertainment was provided by Les and Linda and the Innates from Lake Monroe Inn.

### Garden Circle

Jacaranda

Jacaranda Circle of Sanford Garden Club met for a Christmas dinner at the home of Mrs. H.M. Pearce with Mrs. J. P. Holtclaw and Mrs. Vernon A. Davis as co-hostesses.

The short December business meeting following the dinner was presided over by president Mrs. H.E. McSwain. A social hour and gift exchange followed for the 14 members and nine guests in rooms decorated for the Christmas season.

Teacher Sue Hill (left) gets ready to sample Perashkey Crepes, a dish prepared by Shami Jabhari of Iran (right).

**COCONUT CANDY**  
3 cups of grated coconut  
4 cups brown sugar  
1/4 tsp salt  
3 cups water  
1 tsp grated lemon or ginger  
Combine all the ingredients in a saucepan. Insert the candy thermometer and cook over high heat until it begins to boil. Reduce the heat to medium for 65 minutes or until the thermometer reaches 224 F. Do not stir too much while cooking. Remove pan from heat and allow to cool. Spread mixture in a preserve dish and cut into squares.

**ROQUE HOLLANO, PUERTO RICO**

**PAKSIW NO ISDA (BRAISED FISH) THE PHILIPPINES**  
1-4 lb. fish cleaned  
1/4 cup water  
1 1/2 tsp vinegar  
1 inch pieces fresh ginger, ginger, lard, pepper and salt. Bring to a boil, then simmer covered, until done. Add sliced green pepper before removing pan from fire. DO NOT COVER. Serves 6.

**CHINESE FRIED RICE (SERVES 6 to 8)**  
2 1/2 cups oil  
2 1/2 cups coarsely chopped onions  
3 cups cold cooked rice  
3 eggs  
2 tbs soy sauce  
1/4 tsp salt

About two cups of any of the following, or a mixture as desired: chopped cooked ham, chicken, beef, shrimp, green peas, mushrooms, bean sprouts, peanuts.

Heat pan, add oil, fry onions until brown. Add rice and saute, combine eggs, soy sauce and salt, stir slightly and add to pan. Saute, stirring as the 2 cups of optional ingredients are added. Keep on low heat, covered, until serving time.

**PASHKA (RUSSIAN DRESSING)**  
44 oz cream cheese, softened  
1/2 cup butter softened  
2 cups sifted confectioners sugar  
3 egg yolks  
2 tsp vanilla or vanilla cognac  
1/2 cup chopped citron, candied orange & lemon peel  
1 1/2 oz. can toasted slivered almonds  
fresh strawberries for garnish

Allow cheese and butter to stand at room temperature for 2 hrs. with electric beater, mix at low speed, adding sugar gradually, then egg yolks, one at a time, beating them well. Add vanilla, fresh chopped peels and almonds. Line a clay flower pot with double thickness of these cloth which has been wrung out with cold water. Put mixture in the clay pot on a pan to catch any

moisture. Refrigerate overnight. To unmold, pull cheese cloth ever gently all around to loosen pashka. Place platter over pot and invert; carefully, remove pot, pull off cheese cloth. Garnish with strawberries. Serves 14 to 16.

**CHICKEN WITH RICE**  
1 chicken (3 lbs.)  
4 tps salt  
2 tbs oil  
1 oz. bacon (salt pork)  
2 oz. chopped ham  
1 tomato  
1 green pepper  
1 onion  
2 sweet peppers  
1 tbs. capers, olives  
1/4 tsp. dry oregano  
1/2 cup tomato sauce  
2 cloves of garlic  
4 cups of water

1 frying chicken (about 2 lbs.)  
6 Chinese mushrooms  
1/2 cup bamboo shoots  
10 water chestnuts  
2 tsp. oil  
1 tsp. sugar  
1 tbs. soy sauce  
1/4 tsp. pepper  
1 tsp. cornstarch  
1 tbs. water

Cut the chicken into 1 to 1 1/2 pieces (bone and all). Wash mushrooms and soak in warm water for 30 minutes, drain, remove stems and cut into 1/2

pieces. Mix oil, sugar, soy sauce, pepper, cornstarch and water.

Thoroughly mix mushrooms, bamboo shoots, water chestnuts, and soy sauce mixture with chicken pieces, place in heat-proof dish. Steam for 15 minutes. — THUY NGUYEN, VIETNAM

**STEAMED CHICKEN (Ga Ham Nam Dong Co)**

1 frying chicken (about 2 lbs.)

6 Chinese mushrooms

1/2 cup bamboo shoots

10 water chestnuts

2 tsp. oil

1 tsp. sugar

1 tbs. soy sauce

1/4 tsp. pepper

1 tsp. cornstarch

1 tbs. water

Cut the chicken into 1 to 1 1/2 pieces (bone and all). Wash mushrooms and soak in warm water for 30 minutes, drain, remove stems and cut into 1/2

pieces. Mix oil, sugar, soy sauce, pepper, cornstarch and water.

Thoroughly mix mushrooms, bamboo shoots, water chestnuts, and soy sauce mixture with chicken pieces, place in heat-proof dish. Steam for 15 minutes. — THUY NGUYEN, VIETNAM

**STEAMED CHICKEN (Ga Ham Nam Dong Co)**

**For Thursday, December 22, 1977**

**YOUR BIRTHDAY** Dec. 22, 1977

Make it a point to set specific career goals this coming year. If anyone's going to get a raise or promotion it might just as well be you.

**CAPRICORN** (Dec. 22-Jan. 19) Persons performing work or service for you today may not act in compliance with your wishes unless you're on the spot to check. Having trouble selecting a career? Send for your copy of Astro-Graph Letter by mailing 50 cents for each and a long self-addressed, stamped envelope to Astro-Graph, P.O. Box 489, Radio City Station, N.Y. 10101. Be sure to specify your birth sign.

**AQUARIUS** (Jan. 20-Feb. 19) Self-sufficiency isn't your long suit today. You have a tendency to overdo work or pleasure and perhaps even both.

**PISCES** (Feb. 20-March 20) Domestic problems should be kept within the family circle today. Keep others out of them. This includes well-meaning friends.

**ARIES** (March 21-April 19) In career matters today take care not to operate at extremes. Progress could be impeded through behavior either too negative or unrealistically optimistic.

**TAUROS** (April 20-May 20) Involvements that smack speculation should be avoided today. Your will to lose might take precedence over your will to win.

**GEMINI** (May 21-June 20) Buyer's remorse is something we've all experienced after we've made a foolish purchase. This malady could afflict you today.

**CANCER** (June 21-July 21) Unless your goals are clearly in focus today you're apt to get off on tangents. Something opportune could go unachieved.

**LEO** (July 22-Aug. 22) Failure to view things from another angle will lead to a distorted picture and produce unsatisfactory results today. Look at the whole scene.

**SCORPIO** (Oct. 24-Nov. 22) Unfortunately, others are not likely to do for you what you are prepared to do for them today.

**SAGITTARIUS** (Nov. 23-Dec. 21) The resources of you and your mate could be in for a pull-and-tug session today. Try to reach agreement on how funds should be allocated.

Reese's first rule for suit play is to look for and count your winners. He also counts losers, but feels that the losing trick count is the more important.

Then your next step is to look at the trump suit and decide if you should play trumps immediately.

South wins the first trick and a careless player will immediately try a trump finesse.

A more careful player will

**Drug Can Shed Too Much Salt**

**DEAR DR. LAMB**—Several years ago, I believe I read in one of your columns that a person should take potassium if he took a diuretic because diuretics deplete the potassium supply in one's system.

My mother recently moved and has a new doctor. She is 76 years old. She was taking several medicines since she has gallstones, a heart condition, and arthritis. The doctor gave her Lasix (furosemide) for the swelling of her feet and ankles, but took away her potassium. I am concerned about this, and would appreciate your comments.

**DEAR HEADER**—Lasix is a potent diuretic and must be used with caution in older people in particular. It is easy to remove too much salt and water causing a person to be dehydrated and to upset the chemical balance. This is equally true of most of the potent antidiuretics. It is an excellent medicine to remove excess fluid.

It works by increasing the elimination of sodium. The sodium retention is responsible for the excess fluid retention. It does increase the loss of potassium as well.

The doctor may have removed the potassium because certain potassium pills (enteric coated pills) in combination with diuretics have been shown to cause ulceration and bleeding from the small intestine in some patients. That doesn't mean your mother doesn't need potassium. If she has any increased loss of potassium with the Lasix action, she will indeed need more potassium.

The Physicians' Desk Reference that details all the current drugs specifically recommends a liquid potassium supplement if one is needed because of potassium depletion when taking Lasix.

A good way to solve this problem is to include foods that contain lots of potassium in the diet. I would recommend at

Brenda Stewart (left to right), president of the Board of Directors of Parent Resource Center, and Dr. Faye Moore, and Nancy Crawford, board members, smile over donation from the Junior Woman's Club of Sanford.

**Resource Center Is For The Community**

The Junior Woman's Club of Sanford recently presented a check for \$100 to the Parent Resource Center (PRC) of Seminole County, for the first sponsoring membership.

The Club chose to give this money to the center because members feel it is a great asset to the community, and recognize its need of support from local civic groups.

The PRC is a non-profit organization and depends on memberships for funding, with memberships ranging from \$3 to \$50.

In operation for a year, PRC is a support center, serving parents, their children and the community. Qualified instructors teach a variety of skills in classes that are available now.

The center provides workshops, playshops, discussion groups and has a Parent-Child Co-operative, located at the Christ Episcopal Church, Longwood, for children ages 2 through four.

The PRC is located at Seminole Community College, next to the Administration Building. For more information, call 322-1450, extension 328 — ELLA NICHOLS.

**Problem Is Talking, Not Looking**

By ABIGAIL VAN BUREN

DEAR ABBY: I'm 25, happily married, and have been cheated on by my wife. My problem: Occasionally I'll go to a topless bar with a few of my buddies. We have a few beers, watch the girls dance, and then we go home. (Honestly.)

The girls do not come around and sit with the customers—they just dance on the stage. There is no flirting with the men. I've never met any of the girls who dance there, and I have no desire to.

My wife knows I would never run around on her, but she gets very hurt and angry when I tell her I've been to a topless joint. I take her out often, and have proved it's not the kind of place where the girls mingle with the men, but she won't come with me. I've even offered to take her to a place where the men take off their clothes, but she says she's not interested.

She's always been unhappy about the smallest of her bust, even though I've tried to convince her that I'm satisfied with her the way she is. She insists that I go to topless bars because I prefer big-busted girls. It's not true. Besides, some of the girls are a bit bigger than she is.

Abby, is it wrong for a man to enjoy looking?

**ORDINARY GUY**  
DEAR ORDINARY: No, in fact it's normal. Men (and women, too) have enjoyed viewing the human torso since the beginning of time. (Witness all the ancient nude sculpture and paintings in art museums.) Because your wife is self-conscious about her small bust, her resentment is understandable.

**Talking is**  
DEAR ABBY: I refer to two letters that appeared in your column on the same day. The one was from UNDERLOVED, complaining because her husband of 20 years had lost all interest in sex. The other was from PAID MY DUES — complaining because her husband demanded too much sex.

I didn't think much of your advice. You told them both to see a physician or a sex therapist, then you dismissed them with "That's just another of life's inequities." In other words you are saying, "tough situation."

Why didn't you put the two couples in touch with each other?

**LESTER IN OAKLAND**  
DEAR LESTER: I never put a stranger in touch with another stranger.

Some strangers are mighty strange, Lester.

**DEAR ABBY:** Four years ago I attended a shower for a young to know what has happened. I gave her a set of four very nice plastic place mats. The problem is she is still going out with the same guy, but they aren't married yet.

I was thinking about asking her to return the place mats because my daughter is getting married soon and she could use them.

What is your advice?

**DEAR WONDERING:**  
Forget it. The girl may marry the guy.

If you feel left out and lonely, or wish you knew how to let people like you, my new booklet, "How To Be Popular: You're Never Too Young or Too Old," is for you. Send \$3 along with a long, self-addressed, stamped 24 cents envelope to Abby, 132 Lasky Drive, Beverly Hills, Calif. 90212.

**DEAR ABBY:** My husband was sentenced to three years in prison. We have two small children who love their Daddy very much. They are still too young to know what has happened, but I plan to take them and go back to live with my parents until my husband gets out of prison.

What should I tell my children when they ask where their father is?

**TROUBLE IN TEXAS**  
DEAR TROUBLE: Tell them the truth in language that they will be able to understand. (If you don't somebody else will.)

# Filled With Nuts And Fruit

## Christmas Breads From Other Lands

By AILEEN CLAIRE

The Herald's many Christmas specialties are charming traditions from different countries.

For example, many families in Mexico keep the old Spanish Christmas tradition of the Three Kings. On Jan. 6, the "Dia de Reyes" or Day of Kings, the children place their shoes at the window to be filled with toys by the Three Kings. This is also party time for Mexican families, with assorted holiday toys and a special cake called "Rosca de Reyes" or King's Ring. Usually a tiny doll is hidden in the dough and the person who finds it on his piece of cake is crowned king or queen and can choose a partner for the evening. Also, the king or queen must then give another party to which all the people present are invited. This is a delicious yeast-rased sweet bread filled with candied fruit and nuts. You may want to start your own Jan. 6 festivities or have it during Christmas.

**KING'S RING**  
3-one-third cups unsifted flour  
one-third cup sugar  
1/2 teaspoon salt  
2 packages active dry yeast  
1/2 cup water  
3 tablespoons margarine  
1 egg (at room temperature)  
1/2 cup chopped peanuts or Southern Belle pecans  
1/2 cup dried candied orange peel

1/4 cup diced candied pineapple  
1 unbleached pecan, large dried  
bean or well-wrapped tiny doll  
Confectioner's sugar frosting  
Multi-colored candy sprinkles  
or candied cherries

In a large bowl thoroughly mix 1 cup flour, sugar, salt and dissolved active dry yeast. Combine water, milk and margarine in a saucepan. Heat over low heat until liquids are warm (120 to 130 degrees). Measure speed of electric mixer, scraping bowl occasionally. Add egg and 1/2 cup flour, or enough to make a thick batter. Beat at high speed 2 minutes, scraping bowl occasionally. Stir in enough additional flour to make a soft dough. Turn out onto lightly floured board. Knead until smooth and elastic, about 10 to 15 minutes. Place in greased bowl, turning to grease top. Cover. Let rise in warm place, free from draft, until doubled in bulk, about 50 minutes.

Bake in a 350-degree oven about 20 to 25 minutes, or until done. Remove from baking sheet and cool on wire rack.

When cool, frost with confectioner's sugar frosting and decorate with candy sprinkles or candied cherries.

Punch dough down. Turn out onto lightly floured board. Roll out into a 12 by 14-inch rectangle. Sprinkle fruit and nut mixture over dough. Place unbleached pecan, dried bean or foil wrapped doll in center of dough. Roll up tightly as for jelly roll. Roll dough gently from center to ends to form a rope about 30 inches long and 1 1/4 inches in diameter, being careful to keep pecan hidden. Place on large greased baking sheet and form into a large ring; seal ends together. Make 6 slashes around top of ring. Cover. Let rise in warm place, free from draft, until doubled in

bulk, about 50 minutes. Bake in a 350-degree oven about 20 to 25 minutes, or until done. Remove from baking sheet and cool on wire rack.

# Roulades For Supper

At Christmas time the food you serve is the quintessence of the holiday. Chicken Roulades Elegant and Roulades Lausanne dress up any Yuletide menu, yet they require little work — an unusual combination. And the fact that they are quickly made and glamorously served from chafing dishes adds to their glory as fancy main courses.

**For the Chicken Roulades:**  
Elegant chicken thighs are rolled with raisin bread and chopped walnuts and browned in butter in the chafing dish. They are simmered until tender and removed from the pan in which a mildly sweet sauce is blended.

**CHICKEN ROULADES ELEGANT:**  
8 boned chicken thighs, skinned  
8 slices firm raisin bread  
2 tablespoons butter or margarine  
2 1/2 cups water, divided  
1/4 cup packed brown sugar  
2 tablespoons cornstarch  
1/4 teaspoon lemon juice  
1 teaspoon salt  
1/4 cup raisins

**ROULADES LAUSANNE:**  
6 veal cutlets, 4-inch thick (about 1 1/4 pounds)  
1 teaspoon salt, divided  
6 slices firm whole wheat bread, cut in half  
6 slices natural Swiss cheese slices, cut in half  
1/4 cup chopped parsley  
1 teaspoon dried leaf thyme  
1/4 cup flour  
2 tablespoons butter or margarine  
1 small clove garlic, minced  
3/4 cup chicken broth  
1/4 cup dry white wine  
1 can (4 ounces) mushrooms  
1/2 teaspoon salt  
1/4 cup flour  
1/2 teaspoon butter or margarine

CHICKEN ROULADES ELEGANT

**Waldorf Salad:**  
1 large lettuce leaf, washed and finely shredded  
1 cup coarsely chopped walnuts  
1/2 cup diced celery  
1/4 cup diced carrots  
1/4 cup diced apples  
2 tablespoons dressing  
1/4 teaspoon salt

**Lemon Mince:**  
1/2 cup minced onion  
1/2 cup minced celery  
1/2 cup minced carrots  
1/2 cup minced parsley  
1/2 cup minced shallots  
1/2 cup minced leeks  
1/2 cup minced mushrooms  
1/2 cup minced bread crumbs  
1/2 cup minced raisins  
1/2 cup minced currants  
1/2 cup minced cranberries  
1/2 cup minced prunes  
1/2 cup minced apples  
1/2 cup minced oranges  
1/2 cup minced lemons  
1/2 cup minced limes  
1/2 cup minced pineapples  
1/2 cup minced strawberries  
1/2 cup minced kiwis  
1/2 cup minced mangoes  
1/2 cup minced peaches  
1/2 cup minced plums  
1/2 cup minced apricots  
1/2 cup minced cherries  
1/2 cup minced pears  
1/2 cup minced nectarines  
1/2 cup minced apricots  
1/2 cup minced peaches  
1/2 cup minced plums  
1/2 cup minced apricots  
1/2 cup minced cherries  
1/2 cup minced pears  
1/2 cup minced nectarines

## Israeli Cabinet OKs Proposals 'Bombshell' Hinted At Mideast Summit

CAIRO, Egypt (UPI) — Egyptian and Israeli negotiators failed to reconcile basic differences today and looked to produce a "bombshell" development that could revitalize the stalled Cairo peace conference.

Chief Egyptian delegate Esmat Abdel Meguid told reporters after today's 35-minute session, "There has been progress but there are still some questions in dispute."

Conference sources said these questions concerned basic "approach" — with Egypt wanting agreement on the main principles of peace, and Israel seeking to define details of such a peace beforehand — in advance of the Sunday meeting between President Anwar Sadat and Israeli Prime Minister Menachem Begin.

Meanwhile, after meeting for seven hours today, the Israeli cabinet unanimously approved the peace proposals Prime Minister Menachem Begin will present during the Christmas day summit.

The cabinet also decided that Foreign Minister Moshe Dayan and Defense Minister Ezer Weizman would join Begin at the conference in Ismailia.

A conference source said the Sunday meeting of the two leaders "could well produce a 'bombshell' that would spur efforts to solve the Middle East crisis."

"That's where the movement could come, where things could really come together," said a conference source, reflecting a feeling of suspended animation as the talks awaited the outcome of the summit session.

Conference sources said differences also remained on the issue of the Palestinians. Egypt has demanded establishment of a Palestinian state, while Begin earlier in the week proposed limited self-rule for Palestinians on the Israeli-occupied Jordan West Bank.

In his first public criticism of Begin's peace plan, Sadat Wednesday said Israel cannot retain military control of the West Bank of the Jordan.

The only tangible accord in today's session among the Egyptian, Israeli, U.S. and U.N. negotiators was on a "message of greeting" to Sadat on his 59th birthday, which will coincide with the Christmas day meeting at Ismailia.

Meguid said the delegations would hold "consultations" the day after the summit to set a date for the next formal negotiating session of the week-old conference.

Conference sources said that despite disagreement, the atmosphere among delegates behind the closed, carved-wood conference room was cordial.

"There is a marked desire by both Egypt and Israel to achieve a peace settlement," said an Egyptian official.

**CHERUB CHEER**  
Their voices reverberate around the Casselberry Community Methodist Church all through the year—but for the Cherub Choir, directed by Mrs. Ruth Hanfield, Christmas is the year's highlight. And this season was no different, as the 25-member choir performed its annual Christmas concert. (Schedule of Christmas services in area churches, Page 7A, Friday).

### The Students And Those Tests—V

## Is There Enough Preparation For The Tests?

(The Evening Herald today concludes its conversation with five students who failed the Functional Literacy Tests. Today they suggest possible changes in preparing for them.)

**EVENING HERALD:** What changes would you make in the educational system to better prepare a student for the 11th grade Functional Literacy Test?

**STUDENT:** At the same time we took the Functional Literacy Test, we had to take a basic skills test, designed to show whether we can pick out nouns and verbs, add and subtract, and things like that. Maybe we should take the basic skills test first. If a student has all kinds of trouble with basics, then you can imagine what he would do on the Functional Literacy Test. Then the students who had trouble on the basic skills test could be scheduled into classes that would help them.

**EVENING HERALD:** So what you are saying is those students should be grouped together so all the kids who had difficulty in a particular area would be in one class?

**STUDENT:** Break it down to the different areas of basic skills. That would really help.

**EVENING HERALD:** Do you think you would get parental cooperation with that plan?

**STUDENT:** I'll tell you would. Parents would like to see their kids properly prepared for the Functional Literacy Test, not a month ahead of time.

**EVENING HERALD:** How much actual preparation for the Functional Literacy Test were you given?

**STUDENT:** During the first nine weeks grading period we didn't have enough time for our regular work, because our classes were always reviewing for the Functional Literacy Test. I made bad grades in one regular class because of it.

**EVENING HERALD:** Do you think if you had the full nine weeks to study your regular subject you would have had the same grade?

**STUDENT:** If I had the full nine weeks to study my regular subject, I would have made at least a B. But she (a biology teacher) was teaching us the metric system the whole time.

**EVENING HERALD:** You were studying the metric system in biology class?

**STUDENT:** Yes.

**EVENING HERALD:** What other teachers reviewed you for the Functional Literacy Test?

**STUDENT:** Our American literature teacher drilled us on

grammar and writing, on how to pick out verbs. We started right from scratch. She helped us a lot.

**STUDENT:** My math teacher helped us for about two weeks, then she put out a box with things she thought would be on the test and we could use those for drill when we had time in class.

**STUDENT:** I didn't have a math class, so I went to someone else's class, and they were reviewing math. In my English class we reviewed the communications skills.

**EVENING HERALD:** When you went to someone else's math class, did that take the place of a course you would normally study?

**STUDENT:** It was the time I would usually take physical education, and I went to the coach for math drills. He also teaches math.

**STUDENT:** We were guinea pigs. They should have given us more preparation for the tests. Here we start school in September and in October we take the test — a test that determines whether we graduate or not. I mean, I don't mind having to take the test, but I don't see that we have to have it thrown at us like that.

**EVENING HERALD:** If you were still in the seventh grade and were not passing math or English, and having trouble in other studies — the tendency, so some people say, would be to pass you on so that a lot of kids are being graduated from high school who are still working on a much lower level. If you were still in the seventh grade and had not learned what was being taught on that level, do you think you should be put into the eighth grade?

**STUDENT:** I think a student should be held back, if he doesn't know enough to go on to the next grade.

**STUDENT:** Like she said, you can't do eighth-grade work if you don't do seventh-grade work. I had trouble in math in the seventh grade. The teacher was a kind of hyperactive teacher. He didn't have time to help you with your problems. He just put the math on the board and if you didn't understand it, that was that. Then in the next grade he couldn't adjust to math. A student needs to be kept back to learn more about a subject.

**EVENING HERALD:** Let's pursue. What if you were 16 and still in the seventh grade; what do you do?

**STUDENT:** Then there is something wrong with you. There is something really wrong. You may have to have special help.

**EVENING HERALD:** If a student has a particular intellectual level, or the ability to learn something only to a particular level and no capacity to learn beyond that, what do you do with the kid? Do you take him out of the seventh grade, if he doesn't have the capacity for learning what is being taught, and hold him back, giving him special attention? Or, if he is at his level of learning capacity and that is the best he is ever going to do, do you move him on?

**STUDENT:** He might need special help. He just might need someone to get with him and help him, or he might have a problem. But I wouldn't pass him on.

**EVENING HERALD:** What if he does not have the intellectual capacity to learn beyond where he is?

**STUDENT:** Then he should be in a special school. All kids should receive testing to see if they need to be in a special program, if they fall two years behind their class.

**EVENING HERALD:** Some state officials have said that perhaps the teachers ought to be tested, in addition to the students. The implication is that some teachers may be incompetent, and therefore students are not properly prepared when they leave that class for a higher one. Do you feel teachers should be tested? At first all students shook their heads no, then one changed his mind.

**STUDENT:** Some of those teachers just coming out of college and looking for jobs in schools should be tested to make sure they could do the work, so they could teach it.

**EVENING HERALD:** What about teachers who have been in the system many years?

**STUDENT:** Maybe you ought to give it to them also. Maybe pick a variety of teachers sometimes, and give them a test.

— MARYLIN SHEDDAN

### HOLIDAY HAVOC

In the forefront are the toys. The Christmas presents for Lue Ella Williams' three children which were destroyed, along with the rest of her possessions in a fire Monday. Despite the experience, Mrs. Williams remains of good holiday cheer. Her story today in Around The Clock, Page 4A.

### Neighbor Breaks Up Battle

## The Cougar Vs. The Setter

Cougars and dogs don't mix. Seminole County Sheriff's deputies and animal control authorities found that out Wednesday about 8 p.m. when they responded to the home of Gregory Mears, of 2053 Red Bus Lake Road, Casselberry. Deputies found a neighbor breaking up a fight between a cougar and an English setter at the Mears resident with a stick. It was the neighbor who had called authorities.

According to Dr. Bill Delaporte, who dragged both cougars for transportation to Central Florida Zoological Park, one of two cougars housed in a pen had dug under a partition and reached an adjoining pen where two dogs were kept.

The dog pen had no cover over it to contain the 45-pound cougar in case it decided to jump out, Delaporte said.

Mears said this morning he was told by animal control officials there would be no charges filed because the cage meets all state requirements.

Mears said it was very unusual for cats to dig.

However, Mears said he would place a concrete run around the cage's dirt floor to prevent any further outbreaks.

**COUGAR ESCAPED FROM PEN, ATTACKED DOG**
