### HIGH CHINESE OFFICIALS WILL ACT AS HOSTAGES FOR RELEASE FOREIGNERS

MINISTER OF COMMUNICATION AND GENERAL GO TO BRIGANDS TODAY

#### SHOW FAITH

Not Only to Brigands But to All The Foreign Governments as Well

(By The Associated Press)  
SHANGHAI, May 16.—A strong force of bandits entrenched in the hills back of Lincheng where they are holding foreign prisoners, are contemplating possible attempt to kidnap parties of foreigners at Taso Schwang, who have been negotiating for the release of the prisoners captured on Shanghai-Peking express May 6, according to advices brought here from Lincheng.

SHANGHAI, May 16.—Members of Chinese government gendarmerie boarded the train bound from Peking to Shanghai today, attacked officials and beat the Chinese servants who resisted, seized everything on the tables despite the protests of foreigners and held possession of train several hours, was learned when the train reached here this afternoon. Finally consular officers aboard backed by Chinese officials prevailed upon the gendarmerie to leave train.

PEKING, May 16.—With the government's consent, Minister of Communication Wu Yu Lin and General Lang Iteh have proceeded to the stronghold of the brigands as hostages in order to obtain the release of foreigners held captive.

SHANGHAI, May 16.—Three Chinese captives taken by the Suchow train bandits in the raid on the Shanghai-Peking Express, have been hurried to their death over a precipice, near the brigands' mountain stronghold as a warning that the negotiations for the release of the foreigners must be brought to a speedy termination, according to an unconfirmed message received yesterday from Lincheng.

SHANGHAI, May 16.—The Suchow captives have moved their foreign captives ten miles farther back into the mountains behind Lincheng, according to advices received here early this morning.

This action in carrying their prisoners still farther into the hills is taken as a strategic move by the brigands to impress the Peking government on the eye of negotiations for the release of the foreigners.

Dr. Mertens, who has been attending the captives, has been refused permission by the bandits' chief to make further trips into the mountain stronghold.

PEKING, May 16.—Banditry in six provinces, anti-Japanese riots in one province, Japanese boycotts in several, piracy on the southern coast and up the Yangtze river and warlike preparations in a fourth are outstanding problems of the past few weeks confronting the Chinese government. At the head of the list owing to the international complications involved stands the Suchow outrage, in which bandits from Shanghai and Hunan provinces raided the Peking-Shanghai express May 6, and kidnaped a number of foreigners, including some Americans, who still are prisoners.

The captives are threatened with death unless the Peking government, endorsed by reliable foreigners, agrees to grant the brigands immunity for their crime, restore them to their places in the army from which they were discharged and immediately recall troops besieging them.

At Tangshan in Chihli province Sunday, Chinese troops mutined and attempted to loot a native bank. Fearing damage to the railroad, which it is their duty to guard, American troops at Tientsin were ordered out. Later they retired to their quar-

### MEN INDICTED FOR MURDER FIRST DEGREE

FOR KILLING GRADY REYNOLDS WHILE THEY WERE OFFICERS AT OCALA

OCALA, May 16.—Marion county Grand Jury today indicted for murder in the first degree, Henry Gordon, Madison Bronson, O. G. Wiggins and C. P. Howell, accused of the murder of Grady Reynolds on the night of December 31st. They were indicted last January but the indictment was faulty and was dismissed. The indicted men are members of the Ocala police force and declare Reynolds resisted arrest.

### OFFER REWARD FOR DEFINITE INFORMATION

REGARDING DEATH OF FRESHMAN AT CHICAGO UNIVERSITY

(By The Associated Press)  
CHICAGO, May 16.—A reward of \$10,000 was offered today by trustees of Northwestern University at the request of President Scott for definite information that would clear up the mystery surrounding the disappearance of Leighton Mount, freshman, who vanished September 21, 1921, after a class flight.

If the potatoes raised in the garden this summer look as big as pictured in the seed catalog, neither the cellar nor the woodshed will be able to hold them.

Banditry has been rampant in Honan province for months and only a few weeks ago, a large party of prominent Chinese were carried off and held for ransom.

Piracy is the form of lawlessness that infests the rivers of the south, and the coast line from Hongkong as far north as Swatow. In several instances recently boats plying up the Canton river, from Hongkong have been fired on by bandits and one, a Chinese owned craft, was seized, beset and looted a few weeks ago, almost within sight of Canton. Coasting vessels have been seized by Chinese pirates travelling as passengers, the passengers robbed and their goods stolen. In the case of the Chinese steamer Taisun, bound for Shanghai, from Hongkong yesterday, the craft was seized by pirates and run for 24 hours with her European passengers locked in the captain's cabin and her Oriental passengers forced into the hold. The pirates abandoned the ship near Swatow and escaped with \$60,000 worth of loot.

Serious anti-Japanese riots broke out yesterday at Shasi province of Hudeh. Advices from Shanghai state several were killed and many injured in that city's disturbance which grew out of the Chinese boycott of Japanese refusal to abrogate the famous "twenty-one demands" treaty of 1915.

### BUSINESS DISTRICT OF RESORT CITY LAID WASTE WITH BIG LOSS ESTIMATED— ONLY ONE PERSON REPORTED INJURED

Merchants Re-opened Their Doors Today After Working all Night Long to Clear Away the Debris—City Returning to Normal Conditions

(By The Associated Press)  
HOT SPRINGS, Ark., May 16.—Merchants reopened their doors today after a night through which crews of men worked tireless efforts to remove wreckage and debris left behind the flood and fire late Monday when torrents from a mountain cloudburst dashed down the slopes to form raging currents in the principal streets while flames enveloped the buildings in an entire block. Central avenue the main thoroughfare and chief water bed of the whirling flood thirty-six hours earlier, again is open to traffic though working squads were able to clear away but a small part of jetsam which the current piled against every obstacle. Normal activities of city returned in many instances.

(By The Associated Press)  
HOT SPRINGS, May 16.—Hot Springs, its business district swept by flood and flame, last night was slowly recovering from the effects of the storm which late yesterday sent a torrent sweeping down from the mountainside, leaving in its wake a trail of destruction which in monetary loss is estimated well in excess of a million dollars.

While the property loss will be heavy only one person was reported seriously hurt. Mrs. Katie Christensen, caught in an automobile when the flood swept down from the mountain and engulfed Central avenue, the principal business street in the city, was in a hospital last night, her skull crushed. Physicians said her chances for recovery were slight.

The Marquette hotel and nearly a score of business buildings were in ruins as a result of a fire which sprang up after the torrent raced into the city.

Store fronts smashed, bathhouses wrecked and debris strewn about last night stood as mute evidence of the fury of the elements.

Earlier reports that there had been several loss of life were not verified when a check was made yesterday by city officials and newspaper men.

Destruction of the Marquette hotel by fire caused one of the largest individual losses. The building with its furnishings was valued at approximately a quarter of a million dollars.

### Dr. Carr Preached on "Deserters" Last Night

Dr. Carr held his audience spellbound at the Presbyterian church last night as he spoke to them of "Deserters." His text was an incident in Israel's history when the tribe of Ephraim deserted their comrades in time of war. He spoke of three possible reasons for their desertion which whether they were the reasons for their desertion was certainly the cause of similar desertions from God's army today.

First, Dr. Carr questioned the possibility of their deserting because they were disgruntled, they did not like somebody else in the army, or they did not like the plan of battle. He told of a woman he found when he went to one church who had not been to her church for five years because she did not like some of the people in the church. He clinched the case of those like her by supposing what would have happened in France if some of our men had left the field at Belleau Woods because they thought General Wood ought to have been given the command instead of Pershing.

Second, he supposed that some deserted from "fear" and after one or two human interest stories illustrating his point he pointed to the way to overcome fear by faith.

Third, he assigned as the fundamental reason for desertion "their hearts were not in the cause." He said: "And what is this cause in which the hearts of some men are not? It is the cause for which Jesus left His throne in glory, suffered and died on earth. It was for the cause he hung on Calvary. It is the cause for which martyrs have died. It is the cause which lifts men from darkness to light. It is the cause which gives despairing ones hope.

Fine congregations are being helped by these gospel messages at 4 and 8 p. m. each day, and they are enjoying singing of the old songs led by the large chorus of men.

In addition to the Marquette hotel, a dozen or more store buildings—almost an entire block—was laid waste by the flames.

Tonight, a company of Arkansas National Guard was on duty patrolling the area wrecked by the storm and fire.

While Hot Springs was cut off from wire communication with outside points last night and early today, angry stories of heavy death loss were spread. Some placed the toll at 17, while one said that 50 persons had been killed. Immediately on restoration of wire service to the stricken city, the fact was quickly established that there had been no deaths and that the number of injured would be small.

Central avenue, principal business thoroughfare of the city, last night was a seething whirl of waters, poured down from the mountainsides and drained from two natural basins to the north formed by a range of mountains which take the shape of a giant horseshoe.

Hot Springs, a city of approximately 14,000 persons, nestles on the sides of two mountains, sloping down to a point scarcely wide enough to accommodate Central avenue. Through this street, fed by two connecting streets running from the end of Central avenue similar to the winfs of a Y, the flood raged and tore. Asphalt

### GEORGE GOULD DIED IN FRANCE OF PNEUMONIA

FINANCER AND RAILROAD MAN DIED AT MENTONE TODAY.

(By The Associated Press)  
MENTONE, France, May 16.—George Jay Gould, American financier who has been ill at Cap Martin, near here, died at 3 o'clock this morning. He was stricken with pneumonia at his villa March 21.

George Jay Gould, financier and railroad man, succeeded to the leadership of the famous Gould family upon the death of his father, Jay Gould, December 2, 1892.

In addition to assuming responsibility, as trustee and executor, for the \$60,000,000 estate left by his father, he carried on and expanded the great railroad holdings of the latter, and within a few years, during which he applied the lessons learned from the elder Gould, he became one of America's foremost railroad financiers. The 6,000 miles of road left by Jay Gould grew into more than 20,000 miles under the management of his son, while the many investments in other huge enterprises, including the Western Union Telegraph Company, also were largely managed by the principal heir.

George Jay Gould was born in New York City February 6, 1844, the sixth in line of descent from Major Nathan Gould, or Gold, the original ancestor, who came from the south of England in 1646 and settled in Fairfield, Conn. While many of Nathan Gould's descendants attained eminence in colonial affairs and through service in the Revolutionary war, it remained for Jay Gould to become the first financier.

### GOVERNOR WILL NOT VETO WHIP BILL

UP TO HIGHEST POWER TO ABOLISH LEASE AND LASH

(By The Associated Press)  
TALLAHASSEE, May 16.—The tenure of the whipping boss in Florida, was nearing its end yesterday, his life was absolutely in the hands of the governor. Final passage of a bill to dethrone him was effected yesterday morning when the senate after discussing the subject for several weeks refused 16 to 13 to reconsider their action which had outlawed him Monday.

The bill originally introduced by Senator Turnbull would have placed the whipping master on the shelf for two years and if it was found at the end of that time, his services could be dispensed with, then the legislature was an unnecessary evil, and therefore struck out the experimental clause of the measure, which was agreed to by the senate after a bitter fight Monday.

Strange to say, the exit of the whipping boss from the senate was accompanied by good will on all sides in spite of the known fact that the victors were victorious only through the keenness of parliamentary wit. Several weeks ago, the senate voted irrevocably 18 to 14 against a corporal punishment ban introduced by Senator Hodges. Senator Turnbull voted with the winning side. Then Mr. Turnbull proffered a resolution, which would have requested the state officials to abandon the whip as a trial. It was rejected in the house, and Mr. Turnbull came a step farther and put his trial provisions into a mandatory bill.

The house wrote the bill the effect of Mr. Hodges original bill, and when it came back to the senate, Senator Stokes and MacWilliams who had fought so hard for an outright corporal punishment ban took advantage of a temporary balance of power and put it through. Even yesterday they were found short in supporters, and while Mr. Stokes spoke against time, Mr. MacWilliams rustled up the truant supporters.

from 1860, when Jay Gould, a partner in his father's hardware store in Delaware county, New York, bought for ten cents on the dollar a controlling interest in the Rutland and Washington railroad, a little bankrupt line running between Troy, N. Y. and Rutland, Vt. Young Gould, in addition to selling hardware, had studied surveying in his spare time, and took an interest in railroad building as a result of these studies.

Two years after purchasing the road, Jay Gould had succeeded in extricating it from financial difficulties, whereupon he sold at 120 the interest originally acquired at ten. This was the first feat of that generalship which, over and over in later life, made him the foremost railroad developer of his time.

George Jay Gould, even when quite young, showed an inclination to follow in the footsteps of his father. He received a thorough education from private instructors, and subsequently entered Columbia University, but was not graduated.

After a tour of Europe, he became a clerk in the Western Union office, where he developed such an aptitude for detail that he soon became the assistant of his father. George Gould was at his desk ten hours a day, and often remained long into the night, learning the business which, when he became its vice-president a few years later, operated more than a million miles of telegraph wire.

This apprenticeship prepared him for the responsibility devolving upon him when Jay Gould died. Soon after he obtained full charge of his father's interests, he called upon J. Pierpont Morgan in regard to the purchase of the New York and Northern railway from the Manhattan Elevated road. Something was said which angered Mr. Gould, and he vowed never to enter the Morgan office again.

### SANFORD TRUCK GROWERS WILL ORGANIZE ASSOCIATION REPRESENTING THE ACREAGE

### FILIBUSTER IS CONFRONTING GASOLINE TAX

ADVOCATES FOR TAX HOLDING THEIR LINES TIGHT TODAY

(By The Associated Press)  
TALLAHASSEE, May 16.—Advocates of one cent gasoline tax to be distributed equally among the counties for road building held their lines tight in the house and the gas tax bill gradually shaped up to call for three cents levy, two of it for the state road department. At this stage, however, the bill is confronted with a filibuster to keep it from final passage.

### NEW YORK WOULD REPEAL PROHIBITION

PRESIDENT EXPRESSES VIEW WHICH IS MADE PUBLIC

(By The Associated Press)  
NEWSBURG, N. Y., April 16.—Repeal of the state prohibition enforcement statute would likely result in "more or less conflict between the state and federal authorities" in the opinion of President Harding. The views of the president were expressed in a letter to Wesley Wait, of this city, made public today. The bill passed by the legislature repealing the act and is now awaiting action of the governor. Wait wrote to President Harding urging that if the governor should sign the bill congress members of the legislature who voted for the bill be suspended.

### Past President Connelly Gets Emblem

Leave it to Dad Dumas to plaster a thing on in fine shape, as witness his oration at the Kiwanis Club today when he delivered the past president's emblem to Kiwanian Connelly. Connelly served with honor as the first Kiwanis president in Sanford, and Dumas told all about it, in that fiery, witty and entertaining style of his, and then to cap the climax had Mrs. A. M. Phillips, a visitor, to pin the emblem on the past president. Mr. Connelly responded in kind, and with a few well chosen remarks, thanked the club, his venerable friend, and Mrs. Phillips for the great honor done him.

The club was entertained today by Mrs. R. L. Glenn and Mrs. A. M. Phillips in a duet, "Oh That We Were Maying" and as an encore rendered in true style the Kiwanian favorite "Lisa Jane." Mrs. Schelle Malnes accompanied on the piano. As a mark of appreciation the ladies were presented with bouquets by Mr. Jenkins on behalf of the club.

Dr. Carr, of Savannah Kiwanis Club, now preaching at the Presbyterian church, was a visitor and addressed the club, bringing greetings from Savannah.

Dr. King, of the local Baptist church was the invited speaker of today and discussed at length inter-racial relations. His address sought to bring the caucasian race face to face with problems that they must face as against the colored races of the world. He stated that the world population of the colored races were more than double that of the white, and by quotations showed the state of unrest of the minds of the leaders of the colored races.

Announcement was made that all those Kiwanians going to the Atlanta meeting should deposit \$5.00 with

### AND MAJORITY OF LARGEST GROWERS OF SANFORD SECTION

### SUCCESS ASSURED

By The Attitude of the Growers at the Meeting Last Night—Committee Appointed

The growers of the Sanford section will organize.

This much was assured by the fine meeting held last night in the court house when practically some of the largest and most influential growers in the Sanford district were present as well as the majority of all the growers and decided that the organization of the co-operative growers association would proceed at once.

F. F. Dutton presided at the meeting as chairman and the secretary pro tem L. I. Frazier read the minutes of the last meeting. The minutes disclosed the fact that the association wanted a majority of the growers and of the acreage and wanted the members to join the association for three years. 1463 acres had already been signed up when the growers met last night which was in itself a fine showing. The chairman called on Judge Housholder, R. J. Holly, and A. P. Connelly to say a few words about the value of a co-operative association of the growers and they gave their ideas and some of the benefits to accrue not only to the growers but to the whole community from a strong organization of the growers.

The chairman then announced the committee appointed for the purpose of perfecting the organization, writing the by-laws and constitution and arranging for the charter, etc. The committee represented the east and west sides and Ovelio as follows:

John Melch, Henry Nickel, John Holly, Joe Cameron, I. A. Humesley, G. F. Smith and O. P. Swopes of Ovelio. F. F. Dutton will be a member of the committee as chairman, and L. I. Frazier as secretary. Mr. Frazier having been elected as permanent secretary.

G. F. Smith reported on the attitude of the Sanford Truck Growers, Inc., and T. F. Adams also spoke about the Truck Growers and their work along the same lines and it was decided to have a meeting of the officers of the Truck Growers and the organization committee of the new organization, Thursday night at the offices of the Truck Growers, to see if plans can be made with a view of the two organizations combining.

At the close of the meeting all those who had not previously signed their names to the petitions drawn for the organization of the association were asked to come forward and sign and 78 acres more were signed up making a grand total of 1581 acres now in the new organization.

With the men in the organization that are now signed up the success of the new organization is practically assured and a better era is dawning for the growers of the Sanford section.

### BIG CHORUS OF MEN.

The large chorus of men at the Presbyterian Church each night singing the old Gospel songs are having the most enthusiastic support in singing for the congregation that has been seen heretofore in the Presbyterian church. People love those old songs and they are coming to prove it.

Buick Lloyd to secure hotel reservations. The Sanford boys expect to go in numbers and style and the Secretary did not want them to have to sleep in the streets after they arrived in Atlanta—so put her there boys.

It was also announced that inasmuch as Father Neal knew Forest Lake would be absent from the meeting, and he would have no one to help him, make a fuss, he just stayed at the Herald office.

### AMERICAN INDUSTRIES ARE FLOURISHING SAYS EDGERTON

NEW YORK, May 15.—American industry is flourishing and now is probably better than it has been in the past decade, John E. Edgerton, president of the National Association of Manufacturers, said today upon the opening of the annual convention. The statement was incorporated in his annual report of a nation-wide survey of industry, in which more than 42,000 manufacturers were consulted.

The survey showed a low percentage of labor disturbances as evidenced by strikes or lockouts.

"Generally, conditions are most wholesome," Mr. Edgerton reported, a very great number of those reporting characterizing trade as excellent and placing the prospects for fall in the same category. The number of firms reporting business as poor is only a small fraction of one per cent.

Production, the survey revealed, is showing a 30 per cent increase over last year and stocks on hand are reported as low or normal, indicating that sales are keeping ahead or abreast of production. Wages are reported to be steadily rising with the demand for labor becoming acute as the supplies narrow.

### COUNTERFEITER IN ATLANTA PRISON MAKES HIS ESCAPE

### 24 Patches Put On Miller Road Bill; Debate is Heated

TALLAHASSEE, May 15.—The house passed the Miller bill in amended form which directs the road department to concentrate its work on state roads No. 1 to 5, inclusive and state road No. 8 until completed.

TALLAHASSEE, May 15.—Twenty-four amendments clogged the way for the adoption of the Miller road bill, designating roads on which state money should be expended, in the lower house of the legislature yesterday. The measure was sent to the engrossing committee and will probably be reported out late today and put up for adoption.

The bill which involves an expenditure of approximately \$5,000,000 resulted in lengthy debate, map waving and conferences on the floor. Practically every member had something to say and efforts were made to include many cross country and lateral roads leading from one hamlet to another. One representative attempted to include in the road program a highway to Key West after several amendments were offered to pave roads leading to picnic and other small summer amusement centers.

The most important amendment offered was by Representative Taylor of Highlands, who after a hard fight succeeded in having a road extending from Haines City to Fort Pierce via Lake Wales, Frostproof, Avon Park, Lake Annie and Okechobee City, included in the first of the group of five trunk highways to be worked by the state road department.

Representative Weeks of Holmes, brought applause from the gallery for the manner in which he defended the measure and his plea to allow the road department to proceed with its work systematically instead of having the task of attempting to improve roads throughout the state at one time.

The Holmes representative also lauded an amendment by Representative Williams providing the five trunk roads completed before any new contracts are let on any of the other roads. This amendment passed by a vote of 62 to 11, but was reconsidered to allow an amendment by Representative Taylor.

During the discussion of the bill the house was in an uproar. Representative O'Neil, of Okechobee county made his maiden speech and several representatives offered amendments in order that they could go back home and "tell my people I secured a road running in front of their homes."

### GOVERNOR SELECTS NEW LEON SHERIFF

TALLAHASSEE, May 15.—Frank Stouramire was named sheriff of this, Leon county, yesterday afternoon by Governor Hardee to succeed J. R. Jones, who was ordered removed by the senate some two weeks ago on charges growing out of the death of Martin Tabert and whipping of leased convicts.

TALLAHASSEE, May 15.—The house passed 61 to 7 a resolution already passed by the senate which would submit to the voters a proposed constitutional amendment to prohibit the imposition of inheritance or income taxes in this state.

## Daily Fashion Hint

### YOUTHFUL SPIRIT INTERPRETED HERE

The new skirt with flat back and flounced sides is cleverly illustrated in the frock to the left. For its development the crepe silks or cotton crepes may be used and the colors may be as soft and subdued as the fancy dictates or as gay as an exuberant spirit demands. The dress closes on the left shoulder. Two saucy frills finish the short kimono sleeves and the girle is of self-material. Medium size requires 5 3/4 yards 36-inch material.

A plaited skirt, a monogrammed blouse and a Deauville kerchief divide smart livor in the second model. New fabrics have exalted the blouse from an accessory to a strangely significant fashion. Crepe de chine or silk tricot usual success. If preferred, the blouse may be slashed in the center and the fronts rolled back to form revers. Usually the monogram is in self-color. Medium size requires 4 1/4 yards 36-inch material.

First Model: Pictorial Review Dress No. 1538. Sizes 34 to 44 inches bust and 14 to 20 years. Price, 35 cents.

Second Model: Blouse No. 1490. Sizes, 34 to 46 inches bust. Price, 30 cents. Skirt No. 9126. Sizes, 24 to 34 inches waist. Price, 35 cents.

### SETS STYLE FOR AFTERNOON

Hand drawn-work, so simple yet so elegant in its decorative possibilities, is prominently featured on this slip-on kimono frock of fine Georgette crepe. The extended panels with rounded lower edges are faced with changeable silk in lime and turquoise. The girle is of self-material. Medium size requires 4 3/4 yards 40-inch Georgette, with 3/8 yard 36-inch lining for underbody.

Pictorial Review Dress No. 9941. Sizes, 34 to 48 inches bust. Price, 35 cents.

### CREPE FROCKS IN GREAT FAVOR

The crepes lead in favor for the transition period leading into spring, subtle and unobtrusive, calling upon a bit of contrasting material or embroidery for gay accent. The first design pictured may be carried out in cotton, silk or wool crepe. Simple and well planned, it rests its case with a side drape lined with bright silk, graceful sleeves and a youthful neckline. Medium size requires 3 1/2 yards 40-inch material.

The second frock, less independent, relies largely upon check silk to complement the blouse of knit silk. This is ideal for sports or general daytime wear. The skirt is higher at the sides than at the back and front, this arrangement giving variety of line without introducing a decorative scheme that would make the design unfitted for practical use. Gingham, and the smart colorful linens are also attractive in this model. Medium size requires 1 3/4 yard 36-inch light and 2 1/4 yards 36-inch check material.

First Model: Pictorial Review Dress No. 1475. Sizes, 36 to 46 inches bust. Price, 35 cents.

Second Model: Dress No. 1486. Sizes, 34 to 46 inches bust. Price, 35 cents.

### FROCK FOR LITTLE GIRLS

An unusually attractive dress is pictured, fashioned in cross-hatched muslin combined with plain lawn. It is boldly appliqued with flowers in bright colors. The round neck is gathered in front and finished with a bias fold. The front and back of the dress are in panel style, with pockets at the sides. Medium size requires 1 3/4 yard 36-inch cross-hatched muslin and 1 yard 36-inch lawn.

Foreign Advertising Representative: THE AMERICAN PRESS ASSOCIATION

THE GROWERS WILL ORGANIZE.

One of the most important steps ever taken in this community was taken several weeks ago when the growers of this section decided that they wanted a real co-operative growers association established here and after a preliminary meeting they came together last night and appointed a committee to perfect the organization. The great outstanding feature of the meeting last night was the appearance of some of the largest representative growers of the district present and working faithfully to organize an association of the growers that will embrace not only a majority of the farms in acreage but will also mean a majority of the growers and their earnest and faithful cooperation along all lines.

A real growers' organization is like a strong fraternal organization and the members should stand or fall together no matter what the issue may be. They must stand together on every vital question and even upon the smaller details and they must never waiver for an instant in their whole hearted devotion to the cause. Every man's problem in this community should concern every other man and only by the faithful performance of our duty toward our fellow man can

we expect to get the best results in this life. This idea must be inculcated in the organization of the growers which will not and should not look forward to the single idea of making rich returns but primarily to the end that all the growers may live and prosper.

The Herald congratulates the growers of this section today. By your action last night you have proven that you are in earnest in this idea of a real organization of the growers and your organization can not fail. You have the real principles and the right idea at last and never in the past fifteen years have you shown such a spirit as you now demonstrate. The organization is already a success for it has the support of the men who will put it over.

A new and a better era dawns for the Sanford growers.

OUR LEGISLATURE.

The present legislature is no worse than the legislature of former years. The men in the house and the senate are elected usually to foster some pet scheme of their own and the "people's business" is only a side issue with them. How many of your jaw-makers who have gone to Tallahassee in the past even had a platform of principles that were laid down in the campaign? How many of them have even had any reason for wanting to go to Tallahassee other than a change of climate and a sixty day vacation paid by the state?

And yet we people are to blame and when you sum up all the short comings of the legislature we should always remember that we sent these men to Tallahassee and we are responsible for their actions just as much as they are. We pay but little attention to the election of men who would really give the state of Florida the kind of legislation needed and we never stop to think that the position of Representative or Senator is a very responsible position and our future depends upon the kind of men who represent us. We elect any kind of material and then ask why the legislature does not act. We never ask the candidate about his platform and he goes to Tallahassee without any definite plans for the betterment of either his own community or of the state. The campaign is made on personalities and not on the platform of the man. We know this to be true for we have been all through it and until this is

changed we will never get the right men in the legislature. We do all our voting on the strength of our love or dislike for the man running for office with never a thought about his fitness or what he represents or what he really intends to do for his \$6 a day. The people are responsible for the shortcomings of every legislature and when the legislature meets the people should not throw stones at them for they are creatures of our own making.

And the legislature of 1923 is above the average.

SENATORIAL COURTESY.

Senatorial courtesy is proverbial in the state senate and the members are white washed and spotted and pampered and made immune to the attacks of the plebeian world because they are supposed to have their heads in the clouds and can do no wrong. The time is coming when the common people of this state and of every other state will abolish the senate and when the senate is abolished the common people will have a chance. The senate is a relic of the early days in this country when the "gentry" wanted to rule and the lower house was composed of the common people who were allowed to have just what the "gentry" wanted them to have and they were allowed to hold their sessions in the house to keep them quiet but when they were all through trying to frame some law for the people the "gentry" in the senate would stamp it out instantly. This really follows today if you will note the progress of the bills in the legislature and because of the iron clad cloture rule of senatorial courtesy the people of this state and of every other state suffer. The Eustis Lake Region says:

"They are talking of dropping the investigation of T. J. Knabb in connection with alleged cruelties and deaths in his turpentine camps. If Senators Stokes and MacWilliams decide to discontinue the investigation it will be because they recognize the futility of any further effort to rid the senate of the prince of brutes. There is little doubt that a majority of the senators are in sympathy with him. If they were not he would have been ousted long before this. He will probably retain his seat. His position will probably make him immune from a criminal prosecution and save him from wearing the stripes of the convict but no whitewashing any set of senatorial colleagues can give him

will put the heart of a human into his foul body or remove one iota of the odium that will follow him to his grave. He is a murderer in the eyes of the good people of Florida and no plastering over of his sins will ever cause them to regard him in any other light."

The room mate of the murdered student at Chicago is keeping the facts from the public. If you can get any information from one college boy about another you are going some.

The mails are abominable and there is no service in the postoffice that can be called service any more. The postoffice force is not to blame. The benign government can not give the postoffice any more money to put on extra help until the congress meets again. We should ask the government to stop collecting income tax until they can give us service. The exchanges coming to our desk are three and four days late and we suppose the subscribers to the Herald are in the same boat. We can not help it. The postoffice service is rotten.

The legislature has a bill regulating the practice of naturopathy (whatever that is) and we hope they pass it. While we are regulating everything we might just as well regulate naturopathy.

**CELERY SEED**

Another game tomorrow.

Sanford DeMolay vs. Oviedo Boy Scouts.

Oviedo has one of the best young men's teams in this section of the state, so a good game will be expected.

Mende Baker will twirl the opening game of the season for the DeMolays. He was one of S. H. S.'s pitchers this year, so fans will get to see him perform again.

The game will start promptly at 4:15 o'clock at the Ninth street park. Collection will be taken up and all live fans are expected to kick in as balls and bats are not given away. They have to be paid for.

If Sanford cannot claim a regular team she can at least have several good amateur teams. The Brotherhood of St. Andrew has a team made up of some of the best material in the city. The DeMolay team boasts of good stuff in having Vic McLaulin, Ralph Woodruff, Bill Moye, Mende Baker and others.

DeLand came over here yesterday to play S. H. S. but after getting a good look at the wet diamond and feeling the showers they beat it home. The weather cleared up fifteen minutes before the game was scheduled to start but nothing but the Sanford High School team was on the diamond—looks like S. H. S. will have a forfeited game on hand.

Last Thursday afternoon Sanford's golfers held a tournament out at the country club with quite a crowd participating. Tomorrow afternoon another of these tournaments will be staged. Admission of 50c will be charged to help defray expenses.

**TRAPSHOOTING TOURNAMENT STARTS HERE TOMORROW**

The Florida State Championship Trapshooting Tournament will be held here May 17-18-19, under the auspices of the Sanford Rod and Gun Club. It is expected that there will be a large number of shooters in Sanford for the occasion as reservations are now being made at the local hotels. These state championship shoots invariably attract the best men in their line from a number of states and it is seldom that new records are not made in the different events.

Only bona fide residents of Florida will be eligible for the amateur trapshooting association trophies, but all shooters, regardless of residence, will be eligible to compete for purses and other trophies offered by various individuals, firms and corporations. The program for the first day of the meet calls for five classification events at 100 single sixteen yard targets. The first day's shoot begins promptly at 1:30 p. m.

Starting time for the second day is 9 a. m. and completion of the five events will constitute the first half of the Florida state championship at single targets, amateur and professional. The second day's program will also include Florida state handicap, sixteen to twenty-three yards, the winner of which will receive a gold medal from the Amateur Trapshooting Association.

The third and last day of the meet will complete the state championship at singles. After completion of preceding five events the Sanford Rod & Gun club special will take place, consisting of twenty-five pairs of walking doubles. Following this will be the Florida state championship at doubles, twenty-five pairs, two events.

The Sanford Rod and Gun club will also play on a professional special, twenty-five pair walking doubles to which only trade representatives will be eligible. The winner of this latter event will be awarded a seventeen-jewel gold watch by the club. Substantial cash prizes and suitable trophies will be given winners and runners up in all events.

The five high guns and runners up in events 1-2-3-4-5 on Friday and events 1-2-3-4-5 Saturday will constitute the grand and alternate to represent the state of Florida at the zone shoot at Memphis, Tenn., later in the year.

There will be a diversity of entertainment provided for the ladies during the meet, and it is expected that a large number of shooters will bring their wives and other members of their family to Sanford.

R. W. Norris, of Atlanta, will attend and cashier the shoot, assuring success of this department. All guns, ammunition, etc., shipped or expressed prepaid to either the Hill Hardware Company or the Ball Hardware Company, Sanford, Florida, will be delivered free to the clubhouse in ample time.

The handicap committee will be selected from well known shooters in attendance and all shooters will be handicapped in accordance with the rules and regulations laid down by the Amateur Trapshooting Association.

The Valdez hotel will be official headquarters during the tournament. Sanford prides itself on its hospitality and is making arrangements to show all a good time.

NEW IDEA FOR LOANS

In this issue in the advertisement of the Sanford Mortgage Loan Company setting forth the fact that the people can now obtain small loans as well as large ones from this company capitalized at \$250,000. Every one is familiar with the loans already made by this company that is composed of Sanford men well known to everybody.

The small loan plan gives many folks a chance to make a loan that will tide them over a period of financial strain and heretofore they may have had difficulty in making these loans. The Mortgage Loan Company will now let them have any sum from \$50 to \$250 for immediate needs for a small payment each week for fifty weeks at eight per cent interest.

The Mortgage Loan Company will continue to make large loans for building purposes and they have been instrumental in building many new structures here in the past year or more. Read the advertisement and see George W. Knight for particulars.
