## FRENCH FOREIGN OFFICE EXPECT COMMUNICATION ON REPARATION PROBLEM

ON FRIDAY OF THIS WEEK FROM THE BRITISH FOREIGN OFFICE

TERMS GUARDED

With Greatest Secrecy Until the Two Governments Reach an Agreement

(By The Associated Press) PARIS, July 18.—French foreign offices indicated it expected to receive Friday the British communication on reparations problem. It has been proarranged by both French and British foreign offices that precise terms of note shall be guarded with the greatest secrecy until the two governments have reached agreement or have become convinced they can not agree. The meeting of council of ambassadors was held at foreign office today. The principal conversation before and after meeting was regarded as so-called crisis between England and France. Jules Cambon, French diplomat remarked in course of conversation such crisis are rarely of dangerous character.

Owing to the incompleteness of certain clauses of British draft of reply to German reparations memorandum and explanatory letter to accompany it the cabinet meeting that was to be held today was postponed until tomorrow morning. Most rigid silence connected with the foreign office regarding the nature of the British response.

## County Commissioners Must Clean Camps and Screen Them

Asked to Put All Convict Camps in Sanitary Condition

(By The Associated Press) TALLAHASSEE, July 18.—Instructions are being mailed out this week by Commissioner of Agriculture embodying resolutions adopted by the commissioners of state institutions calling on all boards of county commissioners and road department to thoroughly screen jails and convict camps and put them in first class sanitary condition.

## Serious Floods in Colorado Do Much Damage

Rains in the West Swell the Rivers and Cause Floods.

DENVER, Col., July 18.—Danger of serious floods in Colorado seemed to have passed yesterday. Reports from Florence and Portland, Colo., where floods prevailed last night showed the water receding. Conditions are practically normal today in the rivers in Pueblo and nearby. Damage to low lands will be heavy.

DENVER, Col., July 18.—After an all night vigil, due to swollen rivers and creeks, that threatened lives and property, residents of Denver and of other cities and towns in the storm swept areas were estimating the damage.

Rains that in some localities assumed the proportions of a cloudburst descended upon Denver, Parker, Franktown, Melvin, Sullivan Pueblo, Florence and Portland and other points in such volume that creeks overflowed their banks, washed out highway and railroad bridges and damaged scores of homes and business houses.

During the night it was feared that the Castlewood dam southeast of Parker, would go out and precipitate on Denver and the Cherry Creek valley the worst flood in the region's history. Water poured over the dams throughout the night.

Early Monday night residents all along the valley close to Cherry creek fled to higher ground. Telephone operators remained on duty at several points to spread the news.

Two cloudbursts in the Parker district, were responsible for the flood conditions in this part of the state. So far as could be learned early today there had been no loss of life.

## Three Corporations Internat'l Harvester Must Be Separated

Attorney General Petitions For Breaking Up of Trust.

(By The Associated Press) WASHINGTON, July 18.—Separation of the International Harvester company into at least three distinct corporations with wholly separate owners, stock holders and officials was demanded by Attorney General Dougherty Tuesday in a petition filed in the federal district court at St. Paul, Minn.

Such a step is necessary, the attorney general's petition declared, because the dissolution decree originally entered against the company in 1918 had proved "inadequate" to break up restraint of trade and restore competition in the production farm implements.

The court was asked by the petition to "enter a new decree" holding that the Harvester company is still a combination in restraint of interstate trade and commerce in harvesting machinery, and still is monopolizing and attempting to monopolize said trade and commerce in violation of the Sherman anti-trust law and contrary to the several opinions, orders and decrees of this court.

## TEMPERATURES ARE MODERATE IN THE SOUTH

Progress of Cotton is Fair But Condition is Poor

(By The Associated Press) WASHINGTON, July 18.—Moderate temperature was the rule in central and eastern portions of cotton belt but very warm weather prevailed in more western portions during the week ended yesterday, said the department of agriculture weekly crop review issued today. Rainfall mostly light to moderate though with some heavy local amounts in central eastern portions.

Summary for Florida says: Showers and locally heavy rains. Progress of cotton fair but its condition continues poor. More sunshine and crop better cultivated but growth slow and late with weevil active.

## USE MOLASSES FOR WHISKEY SHIPMENTS, BUT METHOD FAILS

MIAMI, July 18.—Suspensions of a clerk were confirmed here Tuesday when upon opening one of three barrels of molasses which had been left at municipal dock for shipment to Wisconsin, revenue officials discovered that in each barrel was a sealed sheet iron tank containing bottles of whiskey packed in straw. Molasses filled the space between the tank and the sides of the barrel. The clerk, to whom the barrels were delivered, thought it extraordinary that the barrels should be shipped to Wisconsin since the production of molasses here has not reached that amount and as no molasses had been shipped out over that line before. The shipment was seized but the shipper has not been arrested.

## Extradition Papers Being Prepared For Dr. Corthell

(By The Associated Press) TALLAHASSEE, July 18.—State authorities are preparing extradition papers asking the state of Pennsylvania to turn over to Florida Dr. A. Edwards Corthell, who is held in Pittsburgh as a fugitive from Florida prison farm. Information of Corthell's arrest was contained in information received by prison farm officials from the chief of detectives in Pennsylvania city. Corthell escaped from the farm May 4th.

## BURR, SAYS DEMAND OF ROADS FOR AN INCREASE IS UNJUST AS WELL AS UNREASONABLE

Commission Has Won the Same Case Three Times Before

(By The Associated Press) Money, which has not been supplied by the Florida Legislature. The so-called Budget Committee has cut up into specified amounts the money which the Railroad Commission can spend for any particular thing. The Commissioners tried to impress the Budget Committee, and afterwards the Legislature, with the importance of giving proper elasticity to the money appropriated for the maintenance of the Railroad Commission; and also that the amount be increased to an extent which would enable the Commission to function in a way to be of the greatest service to the people of Florida.

"The petition to Interstate Commerce Commission for the suspension of increased refrigeration rates, which has been filed with the Commission by the Railroads, effective August 10th, 1923, shows clearly the history of the long fight over this question which was inaugurated by the Florida Railroad Commission in September 1919. We have won the case three times, and yet in the face of the last order of the Interstate Commerce Commission the railroads have filed the increased rates, which we seek to have suspended.

"This shows very clearly the determination of carriers to be unreasonable in their demands upon the public.

"This comes at a time when the railroads of the country are moving more traffic than at any time in their entire history, and also in the face of operating revenues which are the greatest and most favorable to carriers since the war. The Florida Railroad Commissioners have felt encouraged because of this increased movement of commerce, and the improved financial results from railway operation, and if the present ratio of business and operating revenues so far in 1923 were to continue for the full calendar year, it would seem certain that some reductions in rates might be made.

"The contest before the Interstate Commerce Commission over this new tariff, if properly conducted, means the expenditure of a large sum of

## JOEL SQUEEZED OUT OF BUSINESS IN LAKE LAND

WAS IN THEATRE BUSINESS AND FORCED TO CLOSE UP BY TRUST

(By The Associated Press) ATLANTA, July 18.—L. D. Joel, theatrical man of Jacksonville, appeared before E. C. Alvord, examiner for the Federal Trade Commission here, to detail his charges that he was "squeezed" out of his theatre in Lakeland by unfair practice of Famous Players-Lasky Corporation. The corporation is now under investigation by the Trade Commission on charges that it maintained a monopoly in the motion picture industry.

## WASHINGTON HAVE TO ACT IN PHILIPPINES

General Wood Seems to Be in Serious Trouble

(By The Associated Press) MANILA, July 18.—It is conceded generally here that a ruling must come from Washington in controversy which developed over Governor General Wood's reinstatement of Ray Conley, secret service agent, cleared of charges of bribery and which became governmental crisis yesterday, when members of the cabinet and members of the council of state, all Filipinos all resigned. Manila itself is quiet on the face but undercurrents of excitement following in the wake of yesterday's events. With the resignations of departmental secretaries administration of governmental branches devolved on under secretaries who automatically became acting chiefs and everything apparently functioning smoothly. Manuel Quezon, head of the new Collectivists party and critic of the Wood administration, who quit the presidency of the senate in general walkout made statement to Filipino people generally urging them not to organize demonstrations here or in province since such action might lead to collisions between Americans and Filipinos.

## Missouri Man Shot Up the Family Today, Killed the In-Laws

(By The Associated Press) SEDALIA, Mo., July 18.—W. M. Puckett, of Waverly, this morning shot and killed his wife, mother-in-law, Mrs. Tubbs, and sister-in-law, Janie Tubbs at the family home according to telephone message received here.

## BIG MUSICAL CARNIVAL WILL BE HELD AT LAKE MARY FOR BENEFIT OF THE BAND

Second Annual Event Will Bring People From Everywhere

Thursday, July 26th, has been the date selected to hold the second Annual Musical Carnival day for Sanford and Seminole county. This event was inaugurated last year by the Sanford Chamber of Commerce and the large attendance at that time was sufficient evidence that it met with popular approval.

It is the purpose of those having the matter in charge to make the event this year surpass in every way the one held last year. The famous Lake Mary Casino has been engaged for the occasion with its excellent facilities for bathing and all other forms of aquatic sports. Being but four miles from Sanford it is easily accessible from all points in Seminole, Orange, Lake and Volusia counties, and it is expected that a large number of people from these sections will attend. The committee has arranged to have two out-of-town bands present, and these, with the Sanford band, will give a massed concert during the various events. In the afternoon there will be a number of athletic contests open to all. Prizes donated by Sanford merchants will be awarded the winners of these contests which include running, jumping and water events. There will also be an artificial bait casting contest at targets and the local Rod and Gun Club will in all probability arrange to hold a shoot as was done last year. The athletic program also includes two fifteen minute wrestling bouts and two four round boxing exhibitions.

## GEORGIA'S CONSTITUTION WOULD BE AMENDED OVER RIDES PROCLAMATION OF FORMER GOV. HARDWICK BANNIN CORPORAL PUNISHMENT FOR ALL CONVICTS

Pittsburg Woman Beaten to Death By Unknown Party

Bride of Few Months Found Dead in Bed by Her Father.

(By The Associated Press) PITTSBURGH, July 18.—The nude body of Mrs. Patrick Coyne, 18, bride of few months was found in her home today by her father, John Conroy. The father went there to tell that her husband, a railroad brakeman, had lost his legs in an accident, and was battling for life in a Pittsburgh hospital. Mrs. Coyne had been beaten to death as she lay in bed.

The Fort Pierce News tells of the organization of a building and loan association in that city, which will have capital stock of \$500,000. These organizations, when properly managed, are of great assistance to builders and help the town or city in a way somewhat different from the usual. The News-Tribune adds that out-of-town and local capital are interested in the association, and that the purpose is to encourage home-building.

## ERIE TERMINAL FREIGHT DEPOT WERE BURNED

Jersey City Has Big Fire at the Railroad Terminals

(By The Associated Press) JERSEY CITY, July 18.—The Erie railroad terminal and freight office were destroyed by fire today and the flames spread to railroads, grain elevators and terminal roundhouse. The fire started in the office of the terminal, a two and half story structure, covering a block just as three hundred employees began to arrive for duty. In an hour the building was demolished. The firemen were handicapped by low water pressure. The roundhouse and grain elevator were eventually saved.

ALTON, Ill., July 18.—The cause of the explosion in the East Alton plant of the Eastern Cartridge company in which 12 persons were killed a week ago, still remains a mystery after the failure of the inquest to bring to light any details that might explain the origin of the terrific blast.

## SUNDAY SCHOOLS CHARACTER SAYS PROMINENT BANKERS ARE MOST IMPORTANT TO CITY

(Contributed)

Mr. and Mrs. Reader, if you are brave enough to read with care, I shall let you see the estimates of two of the city's financiers on a matter of primal importance to Sanford's future.

It was after banking hours when I went to fill an engagement with the president of the First National Bank. When I was seated in the president's office, I said: "Mr. Forster, I really want to dig into your heart, and get your estimate of a matter which concerns me much." I wanted to know how well acquainted the banker is with the city as I proceeded to bombard him with some questions.

"How long, Mr. Forster, have you lived in the city?"

"Continuously since '78," was the answer.

"What was the population of Sanford when you came?"

"I dare say about 500," was the answer of the man who has lived in Sanford for forty-five years. After forty-five years of residence, what do you think of the outlook for the city?"

"From what viewpoint?" came the discriminating question.

lex of bricks and stone were drawing his eyes in that direction. I saw the chance for a different question.

"What is the cost of that magnificent new building across the street?"

"Something over \$200,000."

Then followed another question: "What prompted you and the directors to erect this larger and more expensive home for the First National Bank?"

"Our quarters are crowded here, and growing business demanded more room." If you will watch closely, Mr. and Mrs. Reader, you will see presently why this question was asked. Now we are ready for a turn in the conversation.

I turned upon the banker with a very searching question: "Mr. Forster, I want to ask a banker a question, and I insist upon the fairest, and the completest answer you can give. I understand that the banks are indeed a great asset to the city, and the community; now, sir, tell me what you think of the Sunday schools as an asset?" The man with the iron-gray mustache sat in silence for a time, and then his pent up feelings began to express themselves.

"I believe that more bankers attend churches than most any other profession of people. And I believe that the men's classes in Sanford are larger than any city of similar size in Florida. The churches and the Sunday schools do more than anything else to keep the city straight. The Sunday school, Mr. \_\_\_\_\_ is a character-builder for the citizens. I'd be delighted to see every man in this bank in Sunday school. When they go to

Resolution Would Submit Question of Lash to the People

(By The Associated Press) ATLANTA, July 18.—Georgia's constitution would be amended to over-ride former Governor Hardwick's proclamation banning corporal punishment of convicts under the terms of a resolution before the Georgia legislature. The resolution would submit the question to the voters. Whipping of convicts is essential to discipline, according to the author of the measure.

## Farmer-Labor Party Going Strong, Johnson's Lead Increases

Chairman Admits Result is Protest Against Republican Party.

(By The Associated Press) ST. PAUL, July 18.—Minnesota's representation in the United States Senate has been turned over to the farmer-labor party as a result of another political transaction the state went through in the special senatorial election Monday. Magnus Johnson, of Kimball, Minn., a "real dirt farmer," gained the coveted post vacated by the recent death of Senator Knute Nelson, additional returns Tuesday from the special election swelling his plurality.

When 2,639 of the state's 3,520 precincts had reported at noon on the election, Johnson had a lead of 62,500 over Governor Preus, republican, the count standing: Johnson 244,207; Preus 181,422; James A. Carley, Democrat 17,170.

Senator-Elect Johnson will sit with Henrik Shipstead, who was elected last fall over Frank R. Kellogg, Republican. Both Johnson and Shipstead are Farmer-Laborites and have announced their intention to affiliate with "the followers of Robert M. La Follette in congress."

Mr. Johnson today issued the following statement: "The majority of voters have elected me to the United States senate because of the principles they and I stand for.

"Government is instituted to promote the welfare of the people, not to protect a few in the special privileges given them. The high tariff on the consumers, the unjust treatment of labor, the plight of the farmers, the packing of the judiciary with men favorable to the large financial and railroad groups, the short-sighted bungling foreign policy pursued by our government towards other countries and their peoples, and other similar problems will receive my earnest attention and study.

"I congratulate the people of this state on their victory. What the organized farmers and workers, pulling together, have accomplished in Minnesota they can likewise accomplish in other states of the Union.

"I thank the people of this state for the honor they have conferred on me."

Charles R. Adams, chairman of the Republican state central committee, attributed the defeat of Gov. Preus to the fact that "the best efforts of Republican workers were unable to overcome the evident feeling of unrest and dissatisfaction with economic conditions, which found its vent in a protest vote against the party in power."

Gov. Preus, who found his support in the policies of the Harding administration had lent a Harding vs. La Follette flavor to the administration added nothing today to his brief statement yesterday thanking his supporters for their votes. He will continue as governor until the expiration of his term January 1, 1925.

About the only way to cure an ardent radical is to give him a little authority and let Nature take its course.

Phone 217-W

If you have any friends visiting you—  
if you are going anywhere or coming  
home, or if you are entertaining, write  
a postal card to this department, giving  
details, or telephone the item. It will  
be greatly appreciated.

## IN THE BLOOD.

I swear when I get home again I'll  
never care to roam again,  
I'll settle down and try it  
In some quiet  
little spot.  
My friends shall not be censuring  
my roving and adventuring;  
In the blood of peasants  
In the blood of garden plot.

For what of home I'm pondering, I  
fell I'm sick of wandering,  
I weary of the places  
And the faces  
That are strange.  
I think I'll be in readiness to lead a  
"life of steadiness,  
And stick around forever  
Where there's never  
Any change.

And yet I know, down deep in me,  
though wanderlust may sleep  
in me,  
It's pretty sure to waken  
When I've taken  
My abode;  
And sure as flowers sprout again and  
grasses grow about again,  
And luring winds are blowing,  
I'll be going  
On the road!

Miss Kathleen Brady was the guest  
of friends in DeLand this morning.

Miss Mary Mahoney is visiting in  
Palatka as the guest of her uncles,  
Messrs. Charles and Will Ryan.

Miss Kitty McCrea of Lakeland is  
spending a few days here at the  
Gables.

D. T. Aldrich of Jacksonville is  
among the popular business visitors  
in Sanford today.

Mr. and Mrs. George DeCottes have  
returned home from Titusville, where  
the former went on business.

J. R. Watson of Gainesville is reg-  
istered at the Montezuma while in the  
city attending to business.

Jacksonville was represented here  
yesterday by Joseph Mikolos, who  
made his headquarters at the Monte-  
zuma.

Dr. and Mrs. W. D. Gardiner and  
Mr. and Mrs. Clyde Derby made up  
a congenial party motoring to Day-  
tona Beach, for the day, on Sunday.

Mr. and Mrs. W. H. Tunncliffe and  
Mr. Tunncliffe, Sr., have returned  
from St. Cloud where they spent the  
week-end.

Bishop and Mrs. Mann sailed on  
July 4, for abroad where they will  
spend the summer, they were accom-  
panied by their daughter, Mrs. Fisher  
of New York.—Orlando Sentinel.

Miss Lucy Byrd Smythe has re-  
turned home from Titusville, where  
she spent the week-end as the guest  
of Mrs. S. W. Ferguson (nee Dorothy  
Fieldin).

Mr. and Mrs. W. B. Ryan and Mrs.  
Austin and Miss Nix of Palatka who  
have been the guests of the former's  
sister, Mrs. Andrew Mahoney for the  
past week, left Sunday evening for  
their homes in Palatka.

Mr. and Mrs. Benjamin Whitner,  
Jr., have returned from their wedding

# LOCALS

And the nice warm sun continues to  
shine. No rain yesterday.

Don't forget that the Kiwanis Club  
and the Rotary Club will play ball  
Friday afternoon.

He who has lost confidence has lit-  
tle else to lose—re-instate confidence  
by opening a Savings Account at the  
Seminole County Bank today.

Mr. and Mrs. W. H. Tunncliffe and  
Mr. Tunncliffe, Sr., have returned  
from a visit to St. Cloud and vicin-  
ity.

Hon. Forrest Lake is in Tallahassee  
today on road matters and will en-  
deavor to get the Sanford-Orlando  
road paved with asphalt.

The daily schedule of boats on the  
Clyde Line has been postponed until  
the winter season starts and there  
will be only three boats a week now,  
on Monday, Wednesday and Friday.

Churchwell's are running special  
prices on satens, linens, Indian Head,  
Ratine, Colored Voiles, Soisette, Or-  
gardies, etc., and the prices will make  
these dress goods go in a hurry. See  
the prices in this issue.

The Ball Hardware Co., calls your  
attention to the fact that they sold  
the hardware in the new Puleston-  
Brumley building and the beauty of  
the fittings is seen in this fine new  
building. Read their advertisement  
today.

Mr. and Mrs. R. H. Muirhead and  
family have returned from a visit to  
Fort Myers and other places in South  
Florida. Mr. Muirhead says that they  
are tearing up the earth around Ft.  
Myers and cultivating hundreds of  
acres of new lands with the idea of  
putting it into vegetables.

Mr. and Mrs. Walter Schucht, of  
Winter Park are in the city today call-  
ing on relatives and friends. Mr.  
Schucht was formerly a Sanford  
grower and surveyor of lands but is  
now in the landscape gardening busi-  
ness and recently laid out the Irving  
Bacheller place and other noted places  
near Winter Park and in other parts  
of the state.

Mr. and Mrs. R. H. Muirhead and  
family have returned from a visit to  
Fort Myers and other places in South  
Florida. Mr. Muirhead says that they  
are tearing up the earth around Ft.  
Myers and cultivating hundreds of  
acres of new lands with the idea of  
putting it into vegetables.

House, Mobley's Drug Store and  
Hunt's Pharmacy.

Hambone can fry a fish like the  
old French chef Brillat-Savarin, of  
whom it was said that he fried a  
pound of fish so delightfully that it  
turned itself in the skillet and cast  
upon the chef a grateful look. Thurs-  
day at Silver Lake. Five-thirty in  
the afternoon. 93-2tp

A congenial party of Sanford peo-  
ple spending the day at Daytona  
Beach on Sunday were Mr. and Mrs.  
Andrew Mahoney and family and  
their guests, Mr. and Mrs. W. B.  
Ryan, Mrs. Austin and Miss Nix of  
Palatka and Mrs. Junie Roumillat.

Mrs. K. R. Murrell, Jr., left yester-  
day afternoon for West Palm Beach,  
where she will visit for a short time  
before going to Bowling Green, Ky.,  
for the rest of the summer.—Orlando  
Sentinel.

Mrs. John Leonardi has returned  
home from Daytona Beach, where she  
chaperoned a house party given by  
Miss Lena Belle Hagan. After the  
house party, Mrs. Leonardi spent  
several days at the beach as the  
guest of Mrs. L. P. Hagan.

MEETING OF DEMOLAY  
Tomorrow night (Wednesday) be-  
ginning at 7:30 sharp the Sanford  
Chapter, Order of DeMolay will open  
on installation of officers and initia-  
tory degree. Every member of the  
chapter is urged to attend this meet-  
ing. All Master Masons are also in-  
vited.

NOTICE, I. O. O. F.

H. J. Lehman, D. D. Grand Master,  
of the I. O. O. F. is having a strenu-  
ous time this week among the various  
lodges under his supervision; as, in  
order to install the respective officers,  
he, with his staff, are compelled to  
make the trip to Orlando, St. Cloud,  
Leesburg and Kissimmee this week, as  
he expects to start north soon on a  
visit to his old home.

He especially requests those who  
are to accompany him to Leesburg on  
Wednesday night, to be at the hall  
not later than five o'clock.

Secretary.

# Rates Will Not Be Raised Says Manager Skelley

A vigorous protest from all the cit-  
rus and vegetable shippers in the  
state has avoided the handicap to  
these industries that would be in-  
curred by the proposed increase in re-  
frigeration charges, according to F. L.  
Skelley, manager of the American  
Fruit Growers, Inc., which has head-  
quarters in this city. While the sub-  
ject has not yet been finally disposed  
of, for it will ultimately rest with the  
decision of the Interstate Commerce  
Commission, Mr. Skelley feels that the  
proposed increases in refrigeration  
charges not only will not go into ef-  
fect, but that they may be entirely  
cancelled.

Practically all shippers are report-  
ed as having been considerably stirred  
by the sudden issuance of a supple-  
ment to the refrigeration tariff carry-  
ing an advance in the refrigeration  
charges of approximately twenty per  
cent without previous notice to Flori-  
da shippers or any discussion of the  
subject.

Mr. Skelley points out that two  
years ago, following a stubborn con-  
test, Florida shippers were able to  
obtain an order from the Interstate  
Commerce Commission reducing the  
then existing refrigeration charges 15  
per cent. This order was twice sub-  
jected to review at the urging of the  
transportation lines, and on December  
12, 1922, they were successful in ob-  
taining a small advance, on top of the  
small advance last December, it is  
pointed out, would bring refrigeration  
charges up to one hundred and two  
per cent of what they were two years  
ago, before the reduction was ob-  
tained.

Mr. Skelley says that there is no  
doubt that the Interstate Commerce  
Commission will suspend the opera-  
tion of this new tariff supplement.  
When that is done, instead of going  
into effect the proposed rates will be  
subject to hearing by the transporta-  
tion lines to prove their right to  
this advance in charges. Mr. Skelley  
is confident this cannot be done. He  
is personally appreciative of the co-  
operation of the Florida representa-  
tives in congress in this matter, par-  
ticularly of that of Senator Park  
Trammell with whom he has been in  
close telegraphic communication for  
some days.

As to the proposed "Three Hoop  
Citrus Box," which is shortly sched-  
uled for discussion, Mr. Skelley regards  
this simply as another effort on the  
part of some of the carriers to do  
away with the bulge pack, which he  
believes would be a serious mistake.  
He says the bulge pack is here to  
stay; that it is not only a distinct  
asset to the citrus industry but that it  
is a material advantage to the rail-  
roads because fruit thus packed is  
better ventilated than fruit packed in  
the flat pack in tight boxes.

Mr. Skelley is rather inclined to  
doubt the real sincerity of these two  
apparent efforts on the part of the  
transportation interests to impose  
higher charges and additional burdens  
upon the shippers. He says that un-  
doubtedly the time is here when Flori-  
da is justified in not only asking for,  
but in obtaining, some reduction in the  
transportation charges upon its fruit  
and vegetable crops. He feels that the  
growers and shippers will not lose  
sight of this fact because of any other  
transportation propositions which  
may be brought up by the carriers to  
complicate the discussions and bedevil  
the real issue.—Orlando Sentinel.

# Convicts Put to Sea to Join the Rummers, Make Good Escape

Was One of Most Daring Pulled Off  
In Many Years.

PHILADELPHIA, July 17.—Four  
of the six convicts who escaped Sat-  
urday from the Eastern State peni-  
tentiary in this city are believed by  
the police to have put out to sea in a  
motor-driven dory that they stole  
from a wharf at Pocomoke City, Md.,  
early yesterday. The report that the  
dory had been stolen by four men  
was received today by Captain Souder  
of the local detective bureau from  
Mayor E. J. Tull of Pocomoke City,  
a small eastern shore town. Although  
a complete description of the men  
was not obtained by the Pocomoke  
City officials, Souder said he was in-  
clined to believe they were the fugi-  
tive convicts.

It was at the wheel during the wild ride  
from this city to Elkton is believed  
by local authorities to be aboard the  
Sunbeam. Edwards not only is an  
expert automobile mechanic, but is  
familiar with all types of engines. He  
once raced an airplane in a Canadian  
air tournament. That he is at the  
throttle of the Sunbeam's engine is  
regarded as probable by Captain  
Souder. One theory of the police is  
that the convicts plan to join a rum-  
running fleet off the Virginia coast.

# Daily Fashion Hint

## MODELS FOR COTTON FABRICS

The day of the frilly frock has re-  
turned and there are many lovely  
designs to lure one away from the  
severe models of familiar type. The  
first dress picture is in novelty voile  
trimmed with plaited net. The deep  
collar is of plain net and widens as it  
nears the belt. Satin ribbon forms the  
sash. Medium size requires 3 1/2 yards  
36-inch voile and 1 1/4 yard net.  
Gingham, that aristocrat of cottons,  
forms an alliance with organza to  
achieve the striking model to the right.  
The large, side-closing collar is pic-  
turesque and particularly suited to the  
summer fabrics. Medium size requires  
3 3/4 yards check and 1 1/4 yard 36-inch  
plain material.  
First Model: Pictorial Review Dress  
No. 1012. Sizes, 14 to 20 years.  
Price, 35 cents.  
Second Model: Dress No. 1010.  
Sizes, 34 to 46 inches bust. Price,  
35 cents.

## DELIGHTFUL IN BLUE SPONGE

No one of the cotton fabrics so  
extensively used this season makes up  
more delightfully than sponge. This  
model in the new blue called bluebell,  
closes at the left side of the inverted  
vestee and has set-in sleeves, which  
may be made long or short. The  
skirt is gathered and attached to the  
lower edge of the blouse under a  
girdle of self-material. Mercerized  
picot braid trims the collar, cuffs,  
pockets and upper edge of the hem.  
Medium size requires 4 1/4 yards 36-  
inch material.  
Pictorial Review Dress No. 1542.  
Sizes, 34 to 52 inches bust. Price,  
35 cents.

## YOUTHFUL LODES ARE COLORFUL

In the coloring and texture of this  
Normandy voile dress there is the  
very spirit of youth. The deep yoke  
of plain material is opened at the  
back for the fastening; the collar  
being in round outline. The embro-  
idery of simple design which appears  
on the yoke and about the neck and  
sleeves carries out the color scheme  
of the pattern of the print. Other  
suitable fabrics for this model are  
the creps, both wool and cotton, and  
the various ratine and sponge effects.  
Medium size requires 3 1/2 yard 36-inch  
plain and 1 1/2 yard 36-inch figured  
material.  
Pictorial Review Girls' Dress No.  
1586. Sizes, 6 to 17 years. Price, 30  
cents.

The Herald for first class job work

# Grand Dragons Gather at Asheville, N. C., For a Three-Day Session

ASHEVILLE, N. C., July 17.—The  
Grand Dragons from forty states in  
which there are Ku Klux Klan organ-  
izations are expected to participate in  
the meeting of the Imperial Kloneil-  
lum, which convened here Monday for  
a three days session.

H. W. Evans, of Texas, imperial  
wizard, is here to preside over the  
meetings, which, according to an-  
nouncement are to discuss matters of  
policy governing the Klan organiza-  
tion. The Kloneilum is composed of  
the highest state officers of the Ku  
Klux Klan.

The local organization has planned  
entertainment features.

This is said to be the first import-  
ant conference in which the women of  
the Ku Klux Klan, recently chartered  
as a Klan auxiliary, have been rep-  
resented. Mrs. Lula A. Markwell, of  
Little Rock, Ark., grand commander  
of the official staff are present. An  
initial program was marked by an ad-  
dress by the imperial wizard who  
spoke of the achievements of the or-  
der during the last six months and  
outlined work for the future. In his  
speech he said that the Klan had been  
unjustly branded as a lawless organ-  
ization and that while the Klan stood  
or enforcement of all laws they wish-  
ed these laws enforced only through  
the properly constituted officers. He  
said it is every Klansman's duty to  
support the public officials. Dr. Evans  
also said unrestrained immigration  
is dangerous and that a flood of  
undesirables is entering the United  
States. The Klan will make every ef-  
fort to curb this, he said.

Plans for the creation of a nation-  
wide sentiment for better education  
throughout the country were also out-  
lined by the imperial wizard.

Imperial Klaziak Brown Harwood,  
who has charge of the meeting, pre-  
sided and briefly outlined what the  
conference proposes to do.

"Ten million Klansmen for America  
is the goal of this order," Mr. Har-  
wood said.

A majority of the international  
Kloneilum or executive council of the  
Klan is present at the meeting, which  
is an international affair.

A free people is one that endures  
the waste of billions and scolds about  
a little junket.

The only thing France doesn't con-  
trol is the Ruhr now is the situation.

# BIG FISH-FRY THURSDAY AFTERNOON AT HAZEL- TON'S ON SILVER LAKE

The Chair Committee of the Wom-  
an's Club, of which Mrs. E. P. Morse  
is the head, will give a fish-supper  
at Silver Lake Thursday afternoon,  
beginning to serve at about half-past  
five o'clock. A substantial and abun-  
dant supper will be provided for fifty  
cents per plate for adults and thirty-  
five cents for children. The cooking  
is to be done by Hambone, whose  
skill with frying pan and skillet is  
too well known to need comment.  
Cold drinks and ice cream cones will  
be on sale also, and the committee  
bespeaks the presence of every one  
who would enjoy a good supper and  
the delightful bathing at Dr. Hazel-  
ton's popular place. 93-2tp

Foreign Advertising Representative: THE AMERICAN PRESS ASSOCIATION

Since it seems to be so hot in the north where all those folks are visiting why in the summer breeze don't they stay in Sanford instead of writing us about the weather.

The Titusville Advocate calls attention to the fact that it costs \$3.50 an hour to operate a linotype machine, and insists that all copy be typewritten. And it should also be "boiled down." Say what you have to say in a few words. The story of creation was told in only a few hundred words.—Daytona Journal.

Bill Glenn of the Orlando Sentinel has nothing to do now but to meander out the Orlando-Winter Park road on Sunday evening and watch the "spoon couple" in the autos as they spin past him wrapped in each other's thoughts and paying no attention to Bill. He says it is dangerous. It is. And if his wife don't hurry back it will be more dangerous.

If there is one thing in the world that makes a man sore it is the silly postcards sent him every day by well meaning friends who have the time and money to travel while he sweats at work at home and the postcard usually reads "How we wish you were here." If they want you "up there" so badly there is no reason why they should not send the money for you to get up there.

Guess that election in Minnesota will throw a scare into the Republican ranks that will hold them for a while. Their promises to the people in the last campaign to reduce taxes has not been carried out and their wild economy in the postoffice department has crippled that service in a manner never before seen in the history of America. These two things alone have condemned the Republican party to oblivion—provided the Democrats put up the right man.

Remember when you go to Orlando that the one hour parking law has gone into effect again on certain streets. The Sentinel says: "The city council has given the police department instructions to rigidly enforce the one hour parking law which went into effect this morning. The streets affected by the regulation are Church street from Garland to Main; Pine street from Railroad to Main; Central avenue from Railroad to Main, and Orange avenue from Jackson to Washington. The law is effective from 8 a. m. through 6 p. m. every day of the week."

The Chicago News is all wrong on that booze question they played up so strong and they hurt the state of Florida very much. For instance the articles said you could buy liquor anywhere on the east coast for five dollars a quart when everybody knows the current price is six dollars and since the articles in the Chicago News have been printed there has been thousands of Illinois people coming to the east coast of Florida looking for five dollar booze. The daily News should make the advertisers confine themselves to the truth or refuse to print the "ads."

EDITOR IS PARDONED.

Governor J. F. Hinkle has signed pardon papers for Carl C. Magee, editor of the New Mexico State Tribune, Albuquerque, convicted recently of libeling Supreme Court Justice F. W. Parker, and of contempt of the fourth judicial court at Las Vegas, precluded over by Judge D. J. Leahy.

The indictment on which Magee was tried for libel "was obtained without the knowledge or the consent of the party supposed to have been libeled" Governor Hinkle said, in commenting on the pardons and "trial was held in a district court where neither Parker nor Magee lives. The bringing of Magee to the bar seemed to be a conspiracy and more of a

persecution than a prosecution." As to the contempt cases, Governor Hinkle declared they also were "a persecution, the sentence harsh and beyond reason, and the whole procedure a disgrace and a blot upon the name of New Mexico and the good people thereof." The governor declined to make a formal statement, saying that the pardons spoke for themselves.

Magee, tried before Judge Leahy in the libel suit, was sentenced to a year to eighteen months in the penitentiary for an editorial in which reference was made to Justice Parker. Other editorials followed, in which Magee charged that Judge Leahy's court was controlled by a political machine dominated by Secundino Romero, former sheriff and now United States marshal for New Mexico. He was cited for contempt by Judge Leahy and at the conclusion of the trials last Friday was found guilty on seven counts and given jail sentences amounting to 360 days and fined \$7.

An incinerator capable of handling twenty tons of garbage every ten hours has just been finished in Orlando. This is something badly needed in Sanford as we still dump all our garbage and rubbish on some heap near the city limits and as the city grows the garbage dump is removed farther and farther and it will soon be at a point five miles from the city making it an expensive proposition. Throwing the rubbish into the places where the lake is to be bulkheaded is all right as long as the property owners want it filled up but even this plan will soon cease and then it is the incinerator again.

"MY CITY AND I."

My home and my business is founded in my city. She gives me and mine protection of law and order, that my property may be enhanced and my right be sacred. I vibrate here. My city gives my children a superior schooling. Good neighbors are mine. Truly, my city is "home spot" for me.

I owe my city my full measure of civic loyalty. If I pretend a mainly and fair conception of reciprocity, I must, upon every occasion give my city a full measure of loyalty through intelligent co-operation with others of similar sentiments.

My city does not want my partisanship, my officiousness, my dissent, my criticism, nor my indifference. Rather my city expects of me qualities of high citizenship, tolerant friendship, willing co-operation, heart given sympathy and intelligent support.—Daytona Journal.

FLORIDIANS SATISFIED WITH THEIR WEATHER.

A perusal of the weather reports from northern cities will tend to make the residents of Florida glad they are living in this delightful climate which is cooler in summer and warmer in winter than almost any other section of the United States east of the Rockies. Of course nobody feels inclined to criticize the citizens of Washington, Baltimore, Philadelphia, New York, Boston, Buffalo and other cities for picking a location where such marked extremes of temperature abound. A week ago Buffalo was shivering in a temperature well down in the forties. The last day or two Old Sol sent the mercury away up in the nineties. Yesterday's official temperature readings for all that stretch of country from Washington to Bangor showed a maximum reading of 96 degrees and this, mind you, was taken from the top of the highest building in each locality. Street temperatures were well above 100 degrees. Polk county thermometers yesterday recorded from 69 to 84 degrees. We have cause to be thankful.—Lakeland Star-Telegram.

CREDIT TO THE PRESS.

Declaring that "Florida has done all it can," yet regretting that "in Tabert's case it comes too late," the Louisville Post gives credit for the eradication of convict evils in this state to the press. The Post is entirely right. But for the publication, by Florida newspapers, of the facts in the Tabert case, followed by their practically united demand that the guilty be punished and that the system be abolished, it is very likely that the Putnam Lumber Company would still be maintaining its murder camps, that the Tallahassee grafters would still be railroading boys to the hellholes of the lessees and that Walter Higginbotham would still be inflicting 100-lash beatings upon helpless victims.

As the Post says: "It was through the newspapers that the facts in the Tabert case and the conditions in the Florida convict camps were made public. It was through them that public opinion was so aroused that the legislature of Florida was forced to action. In one more case it has been shown that a free press can and does bring about

JUST KIDS—Chewin' Cloves.

INTERNATIONAL CARTOON CO.

bettered conditions and is a powerful agency for justice." It is significant, in this connection, that the men in Florida who have criticized the conduct of the press in this case are the men who were personally interested in the perpetuation of the lease or who were in the pay of the offenders—including the legislators who voted to the last to retain the system or its main evils and the legislator who received a fee for defending its chief criminal.

The chapter has been written and its conclusion is to Florida's everlasting credit. And it was the Florida press that brought about that conclusion.—Tampa Tribune.

THE CITY COURTEOUS.

Of interest to any city in America is the bulletin posted at headquarters by the chief of police in Minneapolis:

"You are hereby urgently requested to extend every courtesy possible to visitors, for the reason that Minneapolis has acquired a nationwide reputation for politeness in greeting visiting automobile tourists. In fact, one of our officers was acclaimed the politest traffic officer in the United States.

"Do everything possible within your power to make every visitor with whom you come in contact feel perfectly at home the minute he enters the portals of our city."

As the Orlando Sentinel remarks, a town with such an enviable reputation wants to keep it. A town without it should want to acquire it. Courtesy, like mercy, is one of the things that blesses him that gives and him that takes. It is worth while to itself, and it brings rich dividends in material profit, as modern business men are learning. It pays a city no less than a business institution.

Courtesy can be dispensed with special effectiveness by the police, in the case of visitors—a fact sometimes overlooked by harassed traffic officers. It can be dispensed more effectively if citizens in general form a habit of courtesy to each other and to strangers, so that it becomes second nature. Could any finer blessing be sought by a community?—St. Petersburg Times.

SOUND ADVICE TO NEGROES

Coming from one of their own race, Florida negroes probably will lend ear to the words of G. S. Crawford, pastor of the Primitive Baptist churches of Orlando, Sanford and New Smyrna. He has written a pamphlet which is being mailed to the colored men of Central Florida and one of them happened to fall into our hands. Couched in language unmistakable in its origin, the pamphlet goes into the subject and convinces by its plain terms. Excerpts from it follow:

To the Negro people of the South, I take this method of speaking to you in regard to the migration of the Negro from the South to the North. You may think that you are bettering yourselves by leaving the South, but I am compelled to say to you that you are making a dangerous mistake. I have traveled the North all over, studying the situation of the Negro in the North, and to my conviction I must say, the South is the best place for the Southern Negro. The Northern climate will not do for the Southern Negro, as a man or as a whole, they can't stand the cold weather in the North. I visited many of my best friends, ministers, deacons and laymen, in the city of Philadelphia, New York, Camden, Baltimore, Harrisburg, Pittsburg, and other large cities in the North, who went north during the World War, and I am

By Ad Carter

Lake Harris and Lake Griffin merged as one over the city limits of Jacksonville—but in those days the water receded as rapidly as it rose. They told of steamers plying between Jacksonville and the chain of lakes in Lake county for a period of a year, and also of a year when the waters were so low that only the smallest boats could negotiate the Ocklawaha.

All this interesting history and the water gauge readings, with essays on hydraulics, seepage and evaporation, do not discount the fact that year by year the water levels of the lakes and rivers are growing higher and higher, until today the flood stage is reached, and, according to past performances, covering eight years of observation by those damaged by water, it will continue to rise unless relief is afforded.

Readings by A. P. Gibson, of Clermont, shows the following rainfalls:

Table with 2 columns: Year and Rainfall. 1914: 43.17, 1915: 65.18, 1916: 47.32, 1917: 52.98, 1918: 42.78, 1919: 48.32, 1920: 56.13, 1921: 46.20, 1922: 44.99

Although the rainfall for 1921 and 1922 was less than for 1920, the "old-time inhabitant" stated that marks on fence-posts and knots on trees proved that the water continued to rise. The Weather Bureau at Jacksonville in 1920 stated that "the mean rainfall for 49 years is 50.9 inches." Yet the mean rainfall for the years quoted above is 48.56, thus being 2.34 inches less than the average covering a long period, when the rivers were able to carry off excess water.

A condition confronts Florida that must be considered, because all of Florida is studded with lakes and bisected by rivers and streams—streams which would have the dignity of rivers if cleared of tropical decay. We learn from the edifying and instructive meeting of representative citizens at Tavares, with the efficient engineering corps of this district, that, while the rainfall is less than in years gone by, the water level is growing higher. What is the cause? It is largely the price of progress.

As Florida grows, the menace of flood stages will be more and more pronounced if we do not seek remedial measures at this time. With about 7 per cent of Florida under cultivation and possibly 25 per cent of the wooded area timbered, we have less conservation of rainfall and a greater flow of water to the various outlets. A watershed that gives of its rain only under deluges now contributes its quota of water with a small downpour. It is history repeating itself—the story of forest-denuded China, of the Mississippi Valley, of Dayton and of the recent floods of Illinois, Oregon and other states.

The remedy lies in reforestation, in the federal government creating lower high water marks and providing for carrying off the water to the seas at the lower stage; in drainage and reclamation projects by private enterprises.

It is a condition, not a theory, that confronts all Florida. As the years go by and other millions of acres are laid waste, we will have floods as damaging as those recounted in the more settled sections of the United States. We must seek remedies NOW.—Tampa Tribune.

FROM OTHER SANCTUMS

THE HIGH WATER MENACE

An interesting discussion in relation to the present high water in lakes and rivers of the state was brought out at a hearing at Tavares this week, when residents along certain rivers and lakes sought relief from encroaching high water, their contention being that insufficient outlet in the Ocklawaha river is the cause of the continued increase in the water level. The federal officers who attended the hearing would not admit this argument but assigned other causes, such as the accumulation of water over a period of many years with excessive rainfall; also claiming that the state is spring-fed, with many boiling springs pouring forth rivers of water, this water coming from mountain ranges hundreds of miles north of Florida.

The fact was stressed that Lake county is not alone in damage to lowlands and the possibility of encroachment upon groves built upon hammock lands. The federal engineers stated that the St. Johns river is out of its banks and that, even at the mouth of the river, crews are working at a disadvantage, owing to the excessive flow of water. High lake levels are prevalent all over the state. Old settlers, who have lived in Lake county as long as 70 years, and many 30 and 40 years, recalled high water stages in years gone by—even when

MIAMI'S PROPERTY VALUE WORTH 41 TIMES VALUE 1910

MIAMI, July 17.—Miami's property today is worth forty-six times as much as it was in 1910, just thirteen years ago, according to figures submitted to the city commissioners by C. K. Cring, city assessor. The valuation, according to his figures, was \$1,500,183 in 1910, as compared to \$69,911,300 in 1923.

In 1910 money derived from city taxes amounted to \$45,183; in 1922 the levy brought in \$1,136,933. The millage rate and the levy have not been fixed by the commissioners for this year as yet.

ORLANDO, July 17.—Christian Endeavor work in Florida has again taken the lead, according to word received from Karl Lehman from Des Moines where the international convention has just ended. The Florida union was presented with a banner representing that the state society has organized more societies and added more members than any other in the United States. This is the third year this honor has been given Florida.

Robbs Calomel of Nausea and Danger

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected Tablet Called "Calotabs"

The latest triumph of modern science is a "de-nauseated" colored tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles, Calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—thats all. No taste, no griping, no nausea, no pills, good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—(Adv.)

EXPERT ADVICE OF ACTION DURING THUNDER STORMS THAT MAY SAVE YOUR LIFE

(By The Associated Press) MILTON, Mass., July 18.—Get under cover if possible when a thunder storm threatens. If this is not practicable, lie down. That is the advice which Alexander G. McAuley, director of the Blue Hill Observatory in this town and professor of meteorology at Harvard University, gives in an explanation of the action of lightning prepared for The Associated Press. He gives what he describes as "ten good rules to help people take care of themselves."

"In a battle," says Professor McAuley, "a hundred bullets are fired for each soldier killed. It is something like this with lightning flashes. There are a hundred discharge for every bolt of lightning that hits a person. Fortunately, too, of every hundred streaks of lightning about ninety are from cloud to cloud or spill-over discharges of moderate electrical energy and are mostly horizontal, doing no damage whatever."

"About ten flashes in a hundred come vertically, that is, down to earth in a straight line. Some flashes come sideways and seem to be crooked, although there are really no flashes zigzagging like the teeth of a saw as artists generally depict lightning."

"The intense straight flashes are the ones to be feared, and it is a silly person who stands out in the open when such flashes are seen. He invites trouble, but the invitation is not always accepted."

"At this time of the year thunderstorms are frequent and there are a comparatively large number of fatal accidents. One reads in the press dispatches that four men are walking along a New Jersey beach during a thunderstorm. There is a flash of lightning, one man is killed outright, one severely burned, and the others stunned."

"Now there is no protection for a case like this unless one could carry around with him a metallic cover well grounded. The first rule is then: Do not stay out on a beach or in a field when dark, heavy clouds are overhead or coming slowly from the west or south. Get under cover if possible. If this is not practicable, lie down. Don't remain standing."

"Second: Do not stand under a tree with thick foliage. You are forming a part of the line of disadvantage, since the body, more particularly the skin if moist, is a better conductor than the trunk of the tree. More people are killed by lightning in this way than probably any other."

"Third: Don't stand in the doorway of a barn or at a window in proximity to a chimney. There are currents of air or winds, and the lightning follows to some extent any draft or column of rising air, especially warm air."

"Fourth: Don't laugh at any one's nervousness during a severe thunder storm. There is a good reason to be nervous. Even if one is in a building that is struck the damage is, in ninety-eight cases out of a hundred, confined to ripping out plaster or knocking off sills and tearing off any projecting timbers. But there are times when the storm clouds descend to earth and amid darkness the flashes are heavy and numerous. At such times there is danger. It is dangerous to be near a chimney or a tree or a flagpole or a metal clothes-line."

"Fifth: Stock should not be tied near a wire fence."

"Sixth: There is no particular sense in going to bed. Standing on glass or rubber or any good insulator, a woolen blanket for example, will give one a little more security and a great deal more confidence. The probability of a person in an ordinary residence building being struck is very slight."

"Seventh: If you are near a person who has been struck make every effort to resuscitate him. Only rarely does lightning kill outright. Mostly people are stunned, and all that is needed is a little artificial respiration to restore them to consciousness. Of course get a doctor quick."

"Eighth: If you are in a trolley car and a flash comes in and burns the fuses wit ha roar and a blinding flash, sit still. The danger is over, and while you may be frightened you are not likely to be hurt."

"Ninth: If you have a radio, better cut it out during a thunder storm. The antennas should be grounded direct and all wires, as far as possible, kept outside."

"Tenth: If your house is provided with good lightning rods you need not have much fear. Moreover, dwelling houses in city blocks are practically safe."

BOHUM IS ISOLATED FROM REST OF RUHR

DUSSELDORFF, July 18.—The Bochum is almost completely isolated from the rest of the Ruhr as the result of bomb throwing. The street car service has been suspended and all

restaurants, picture shows and places of public assembly have been closed. The French have allowed the German city authorities until July 20 to produce the person who threw a bomb from a street car Sunday. Should they fail to do so more serious measures will be taken, it is declared.

The Belgian authorities at Gladbeck have arrested forty-eight citizens as hostages to ride in military trains as an assurance against sabotage on the railways. The bomb thrown Sunday landed in the huge automobile parking space at Weitmer, a suburb of Bochum. Several citizens including the head burgomaster, were arrested, but all were released shortly afterward.

The Herald for first class job work.

CALLS OCTOPUS SHY; NOT THE MAN-EATER OF FICTION WRITERS

(By The Associated Press) SAN FRANCISCO, July 18.—Devilfish, better known as "polypus octopus hongkongensis," are being caught at Santa Cruz, California, like flies in a trap, and the tentacles are being shipped to fish markets in San Francisco, New York and other cities where they are sliced and sold at from fifty to sixty cents a pound, according to C. H. Florence, secretary of the California State Fish Exchange here. Mr. Florence says the sliced octopus tentacle makes a succulent table delicacy when properly fried.

While fishermen emulate Victor Hugo and other writers of fiction by telling of terrific battles with giant devilfish, usually ending by explaining how the fish reached one of its eight arms above the water and wrapped it around the boat, breaking the craft in two, Mr. Florence and Professor Harold Heath, department of zoology, Stanford University, California, state that this is physically impossible. Professor Heath describes the octopus as being "of a shy and retiring disposition."

"The devilfish has no bones or no structure of any kind," says Mr. Florence. "It cannot swim, but can only float on the water, or propel itself on the floor of the ocean by means of, fastening its suckers on a rock and pulling itself along. Each of the eight tentacles are covered with cup shaped suckers, and these form a vacuum when fastened on an object. Fishermen haul them out of the traps with their bare hands and throw them in boxes in a manner that is extremely undignified to a fish that has an age-old fictional reputation of being a man-killer and boat-smasher."

In the picturesque food shops that line the narrow streets of San Francisco's colorful Chinatown, the tentacles of the devilfish may be seen hanging from hooks alongside many other edibles that are strange to the native American. On the floors of the wholesale fish houses here the devilfish may be seen stacked in jelly-like heaps, with tentacles, in some cases, extending ten feet across, five feet from each side of the small, egg-shaped head.

The traps at Santa Cruz, where the majority of the devilfish are caught on the Pacific Coast, are built like fly traps, only much larger. The traps are made of wire, with a cone-shaped entrance for the octopus to squeeze through in order to reach the bait fixed for him. He has no trouble in entering the ever-narrowing funnel, but finds it impossible to leave. Usually, fishermen state, two or more are caught in the same trap.

Instead of being a fighter, the devilfish protects itself from attack by changing its color and hiding from its enemy, according to Professor Heath. He says:

"To agility and naturally acute senses should be added their surprising ability to change their color to harmonize with that of their surroundings, so that prey and enemies alike are usually unaware of their proximity. This color change is based upon minute elastic sacs filled with pigment and supplied with muscles for causing their expansion."

"As a devilfish crawls about on the sea bottom its color can be seen to change in a twinkling from deep chocolate through dull red and to gray. If sand or rock is encountered on the journey the skin is usually thrown into lumps and ridges, so that under all conditions the body is practically invisible."

However, if Professor Heath's opinion of the devilfish as a food is heeded, the fish will continue to be eaten by its celestial admirers and by a limited few who crave the unusual. Properly to place before the American epicurean a dish of tender octopus, Professor Heath says, something must be done "to destroy its rubber-like consistency."

ABOLISHING THE LASH DID NOT MEAN SNAP FOR THE STATE PRISONERS

Happy Medium is Wanted Between Harshness and Other Extreme

TALLAHASSEE, July 17.—No effort was made by Florida officials in framing the law that abolished the whip to provide a bed of ease upon which the recalcitrant prisoner could recline at will. At the same time every effort was made to find the happy medium between the harshness of the lash and the other extreme. Such is the substance of expressions by officials who were instrumental in reforming the Florida convict laws.

The law was framed after a thorough study of penal institutions in the Southern states by two cabinet officials of the state government, J. C. Luning, state treasurer, and W. A. McRae, commissioner of agriculture. They visited virtually all prisons located in the south, it is stated. They did not go to the northern and western states, because of the difference in climatic conditions that make the adoption of methods used in those sections impracticable in the mild climate of this state.

After observing the actual operation of the various systems of handling prisoners by the different Southern states, collecting data on the subject, and discussing various phases of the subject with officials charged with the administration of prison affairs, the two officials returned to Tallahassee and submitted their findings to Governor Hardee and his "cabinet."

That body then threshed the matter out, giving consideration to all angles of prison discipline. It was finally agreed that the consensus of thought pointed to isolation and confinement as the method producing the maximum effect of discipline upon the stubborn prisoner, yet doing him the least personal harm.

The plan of punishment as adopted was designed for discomfort, those in charge of the prisoners say, and it is declared to be extremely effective, yet far less severe than the lash. When the prisoner becomes unruly he is merely placed in a cell 6 1/2 feet long by three feet wide. There he is forced to stay until he agrees to obey the rules. By the insertion of a small partition he is forced to stand in a restricted area, or else sit down on the floor—he is not provided with chair or cot—until he makes up his mind. The prison authorities do not deprive him of his food, but continue to give him full rations, except as a last resort when he says he positively will NOT work or obey rules.

This method is said to be effective, yet comparatively humane. Officials here say that from thirty minutes to three or four hours usually suffices to cause a change of mind.

To some sentimentalists the methods of punishment may look cruel, prison officials say, but they have found it impossible to yield to sentiment; they declare that the change must get results.

ARTILLERYMEN LEAVE TAMPA FOR CAMP BRAGG

TAMPA, July 17.—Tampa artillerymen will leave Sunday for Camp Bragg, Fayetteville, N. C., for fifteen days annual encampment of the National Guard. Nineteen officers, 404 enlisted men will comprise the contingent, which will require fifteen cars for the trip.

The Herald for first class job work.

BIG MUSICAL CARNIVAL WILL BE HELD AT LAKE MARY FOR BENEFIT OF THE HAND

(Continued from page 1) secured by Miss Allie Gillon and Mrs. Howard Overlin.

In the evening a big moonlight dance will be staged. Those familiar with Lake Mary Casino know that it is the largest and finest dance floor south of Jacksonville. Situated on the edge of the lake, and open on all sides to the cooling breezes, it is one of the most popular dancing pavilions in the state. An excellent orchestra has been engaged guaranteeing to the lovers of dancing an evening of real enjoyment.

The Woman's Club will serve luncheon and all kinds of refreshments can be secured on the grounds. The Rotary and Kiwanis Clubs are also behind the event and working to make it a success.

The proceeds of the day will go to the 154th Infantry F. N. G. Band, which leaves shortly for the annual state encampment. The Sanford Chamber of Commerce is urging every citizen of Sanford to give their fullest support in making this the greatest day ever staged through local effort. In addition to raising the funds necessary for the band the opportunity is presented to everyone to have a real good time.

FOR THE MOVIE FAN

Another good one tonight.

Milton Sills, John Bowery, and Marguerite De La Motte in a Thomas H. Ince production, "What a Wild Learner."

A man, primitive, masterful—a girl who loves his strength and fears his domination—and a polished man of the world.

Comes a terrific conflict in the elemental, and the struggle to win a woman's soul.

Added attractions too.

And tonight the honor guests will be George A. DeCottes and family and will see this fine picture without cost to them.

Tomorrow—Douglas MacLean in "The Sunshine Trail." Also a two-part Century Comedy full of laughs.

Friday and Saturday—"You Can't Fool Your Wife."

JACKSON TRYING AGAIN TO GET IN LEAGUE

AMERICUS, Ga., July 18.—A row that threatens to entirely disrupt the recently formed South Georgia baseball league has developed here with the announcement that Joe Jackson, former Chicago White Sox player, has been signed to play with Americus, Jackson, according to Manager Thomas L. Bell of the Americus club, will either play here Tuesday afternoon or Americus will refuse to put a man in the field.

A meeting of the league directors was held at which, it was said, vehement protest against Americus playing Jackson was made.

Baseball Commissioner Landis has been appealed to by the directors but up until a late hour Monday night no ruling had been handed down.

Jackson was scheduled to arrive here at midnight. He has been playing in Bartrop, La., with other members of the Chicago American League team who were outlawed. Members of the Americus team are firm in maintaining he will be in the line-up against Dawson, Ga., Tuesday.

LUQUE WINS TWO GAMES FOR REDS

BOSTON, July 18.—Pitcher Luque of Cincinnati ran his total of victories for the season to 16 when he was credited with winning both games of the double header with Boston yesterday. The scores were 4 to 3 and 9 to 5. The Cuban pitched six innings of the first game and was relieved by Rixey and then returned and pitched all the second game. The scores: Cincinnati..... 000 000 400—4 9 1 Boston..... 000 002 100—3 8 1

Luque, Rixey and Hargrave; Wingo, McNamara, Denton and E. Smith, O'Neill.

Second game: Cincinnati..... 003 003 300—9 10 3 Boston..... 000 000 203—5 10 0 Luque and Hargrave; Oeschger, Denton, Fillingim and E. Smith.

BROOKLYN, July 18.—Brooklyn took the odd game of the series with Pittsburgh yesterday, 6 to 2. Score: Pittsburgh..... 000 000 101—2 10 2 Brooklyn..... 000 600 00x—6 7 0 Morrison, Kunz and Gooch; Smith and Taylor.

PHILADELPHIA, July 18.—St. Louis took the final game of the series from Philadelphia yesterday when Fred Tony outpitched Jimmy King in 10 thrilling innings. The final score was 2 to 1. The score: St. Louis..... 000 001 000 1—2 9 0 Philadelphia..... 000 000 010 0—1 7 0 Toney and Ainsmith; King and Henline.

NEW YORK, July 18.—The New York Nationals made it 3 out of 5 from Chicago, winning yesterday's game, the last of the series, 7 to 3. The score: Chicago..... 000 100 002—3 9 0 New York..... 000 014 11x—7 12 0 Osborne, Fussell and O'Farrell; Ryan and Snyder.

NEW YORK, July 18.—The New York Nationals made it 3 out of 5 from Chicago, winning yesterday's game, the last of the series, 7 to 3. The score: Chicago..... 000 100 002—3 9 0 New York..... 000 014 11x—7 12 0 Osborne, Fussell and O'Farrell; Ryan and Snyder.

NEW YORK, July 18.—The New York Nationals made it 3 out of 5 from Chicago, winning yesterday's game, the last of the series, 7 to 3. The score: Chicago..... 000 100 002—3 9 0 New York..... 000 014 11x—7 12 0 Osborne, Fussell and O'Farrell; Ryan and Snyder.

ORLANDO PLAYS HERE TOMORROW

The Orlando Independent team will play the Sanford Independent team here tomorrow afternoon (Thursday) at the Ninth Street base ball park. The game will commence promptly at four o'clock.

CELERY SEED

Orlando and Sanford tomorrow.

They will play on the local field game starting promptly at 4 o'clock.

Kiwanis and Rotes will stage another scrap Friday afternoon at the Ninth Street Park.

Ed. Lane says that he will start the hurling himself for the Kiwanis and he promises the Rotes a good chance to fan the breeze.

Howard Overlin, the star of the last game, will hold down the receiving end for the Kiwanis again. So beware, Rote base stealers! Lloyd will probably adorn first base.

Schelle Maines will do the base stealing for the Kiwanis. He has been practicing in his law office so that accounts for the strange noises coming from the Seminole County court house every day.

This is not all of the stars that will be in the lineup for the Kiwanis but every one knows of Sam Baumel's, Judge Sharon's, Handmaster Hall's and Steele's stellar playing so no need to mention any more about it.

Harry Neel is reported to have refused the managership of the Kiwanis on account of the salary. Says he can make more on job printing and anyway is not experienced at managing semi-pros.

We haven't heard who would be "chief cook and bottlewasher" for the Rotes but we feel pretty sure that they will be doctors and druggists with perhaps a certain reality man thrown in for good measure.

Managers of both clubs have pledged themselves not to use non-members because their own players complain and say they want to pull off that grandstand stuff.

Whiddon's Independents are in fine shape for the fray with Orlando Independents tomorrow. Ammons will do the hurling and judging from the report of his last game there will be trouble for the Orlando team.

The local ball diamond is in an awful shape and the local teams could

CLEVELAND, July 18.—Cleveland pounded Carl Mays for 20 hits and defeated New York 13 to 0 in the final game of the series here yesterday, making it an even break with the champions. The score: New York..... 000 000 000—0 4 3 Cleveland..... 020 510 50x—13 20 0 Mays and Bengough; Uhle and O'Neill.

CHICAGO, July 18.—Philadelphia was unable to do much with Cvangros yesterday while Chicago launched two big attacks and with the aid of errors won the final game of the series 8 to 1. The score: Philadelphia..... 000 000 100—1 5 2 Chicago..... 300 004 01x—8 7 0 Helmach, Nayler, Walters and Perkins; Howland, Cvangros and Schalk.

PROBABLE PLAYERS FOR SANFORD TOMORROW

Rive or Spencer, catcher; Ammons, pitcher; "Dubby" Spencer, left field; Crocker, right field; Thompson, center field; Henderson, first base; McCucas, second base; McCall, third base; Dieter, short stop and Whiddon, Babe McCall and Betts on the bench ready to go in any time.

Are you moving? Call 498 for a QUICK SERVICE TRANSFER, and have it done right. 83-tfc

make a much better showing in their regular games if the park was put in proper shape so that they could get some good practice.

Again trouble comes up about the disbanded Chicago American players that were expelled from organized baseball several years ago for alleged throwing of games. Jackson, one of the players disbanded is trying for the second or third time to get back into organized ball. We thought Judge Landis had settled that once and for all.

However hard Jackson may have tried to get back into baseball light the directors of the South Georgia League put an end to it which shows the good of organized baseball. We couldn't do without our league presidents and directors so give us organized baseball!

LOCATION OF DEMPSEY-FIRPO FIGHT BE DETERMINED TODAY

NEW YORK, July 18.—Whether Jack Dempsey will defend his heavyweight boxing title next time in the United States or the Argentine probably will be determined today when Jack Kearns, the champion's manager confers with Tex Rickard, promoter and Luis Angel Firpo, the South American challenger. Rickard Monday advanced a proposal to stage a Firpo-Dempsey contest in Buenos Aires, the capital of the Argentine, around November 1, but Kearns has expressed a preference instead, for two title bouts in this country, one with Firpo about Labor day and the other with Harry Wills, negro challenger, shortly before the world's baseball series.

The titleholder's manager, however said last night he was open to the proposition and might accept Rickard's South American offer if no better one was in sight. At any rate, he has promised the promoter he will make his decision today.

Promoter's who hold boxing privileges at the Yankee stadium are anxious to promote a Wills-Dempsey match at world's series time.

Firpo reiterated his desire to fight for the title before his countrymen who look upon their rugged batter as something of a national hero. Rickard has received assurances from his agents in the Argentine that prospects of financial success for a championship fight there are unusually good.

YPHOID'S LOW DEATH RATE NEW YORK, July 18.—Control of typhoid fever has made such progress that in 1922 the death rate for this disease was the lowest ever recorded, according to figures compiled by the Metropolitan Life Insurance Co.

Based on statistics from one-seventh of the total population of the United States and Canada, the death rate in the year mentioned was 5.9 per 100,000 of population. In 1911 the rate was 22.8 per 100,000.

These figures are particularly cheering to the American Child Health Association, which is engaged in fighting typhoid as well as other diseases which affect children and mothers.

Daily Herald on sale at Joe's Smoke House, Mobley's Drug Store and Hunt's Pharmacy.

NO SHIPPERS PRESENT AT ATLANTA HEARING WILL BE AT JACKSONVILLE

ATLANTA, Ga., July 18.—A public hearing on the proposal of the southern carriers to place a penalty on non standard citrus fruit shipments was held at the offices of the Southern Freight association here Tuesday. Only representatives of the carriers appeared at the meeting which, it was declared, was preliminary to a meeting to be held in Florida. Shippers had been invited to attend Tuesday's meeting here but the Florida Citrus shippers requested that a hearing be held in that state.

Laxity on the part of shippers in packing their fruit caused the carriers no little trouble, spokesmen at Tuesday's meeting said, and reacts to the detriment of shippers themselves. The proposal to penalize non standard shipments as high as 20 per cent is intended primarily, it was said, to help the shippers.

A meeting will be held at Jacksonville September 27 between carriers and citrus fruit shippers to discuss the carriers proposal that 2.29 per cent penalty be applied to non standard citrus shipments. It was decided at a meeting attended only by carriers' representatives at the office of the southern freight association here yesterday. It was decided to hold a meeting in the Florida city in order to have a good attendance of Florida shippers. They found it too inconvenient to attend the meeting here.

Daily packed citrus shipments have been a sore subject to carriers and leading shippers alike for several years. It is with a view to minimizing these shipments that the roads have demanded a penalty it was said.

FIND WHISKEY AND WINE ON SCHOONER

CARABELLE, July 18.—A Cuban schooner supposed to be a fishing smack, was boarded Monday by the captain of the Revenue Cutter Arrow who found, it was reported, half a barrel of wine and ten-gallon demijohns of whiskey, which was sent to the Tampa office of the revenue service.

The Herald delivered six times a week for 10c.

Want to Increase Your Business?

You may have the best merchandise in the world, but it isn't going to sell very fast unless you present your story convincingly to as many purchasers as you can reach. The 10,000 readers of the Herald represent the greatest audience of buyers in Sanford. Each year they spend tens of millions of dollars on the necessities and luxuries of life. To place your advertising message in the columns of the Herald is like placing your show window where an army of 10,000 consumers pass daily.

"But who is to prepare my advertising announcements?" you may ask.

The Advertising Service Department of The Herald is at Your Disposal

These specialists will help tell your story in an attractive, dignified, powerful manner. They will submit for your approval a single advertisement or a complete campaign, also many ideas that have proven successful in other cities. Fall buying is about to start. If you want a big increase in sales over last year, telephone 148 now for the Herald representative to call.

SALT LAKE CITY, July 18.-The gas company is the latest victim of the bootlegger's art, according to officers of the sheriff's office here, who assert they have uncovered moonshine making meter tappers. The officers state the manufacturer of illicit liquor has no desire to avoid an "honest" gas bill, but he fears an excessive use of gas will lead to suspicion and investigation. Consequently the last word in 1923 model bootlegger calls for a device that forms an emergency pipe around the meter, giving the operator unlimited gas for his operations, without a foot of gas being registered. 93-6tc

CHILD KILLED; THREE WOMEN INJURED WHEN AUTOMOBILE SKIDS GREENVILLE, S. C., July 18.-The two year old child of Dr. and Mrs. W. B. Walker of Centerville, Ala., was killed. Mrs. R. L. Walker, Mrs. R. C. Goodson and Miss Helen Moore, Woodrow, N. C., injured when the Walker automobile skidded off a high embankment on the Dunham bridge road 14 miles from here Tuesday. Mrs. Walker and Miss Moore were brought to the city hospital here where it was said the former's injuries were serious. Mrs. Goodson was taken to her home. The party was en route from Centerville, Ala., to Woodrow, N. C., Mrs. Walker's former home, according to Dr. Walker, who was driving the car. 94-6tp

TURKISH TREATY OF PEACE TO BE SIGNED JULY 24 (By The Associated Press) LAUSANNE, July 18.-The Turkish peace treaty will be signed July 24 or 25, according to present expectations. The Allied and Turkish delegates now at Lausanne will be the signatories of the main treaty and the other documents to be signed including the agreement for control of the Turkish straits. The Russian Soviet government has been invited by the conference to become a signatory to this agreement but has not signified its intention. 94-6tp

THE PERILS OF POOR HEALTH

A Forerunner of a General Breakdown That May Put You Out of the Running for Life.

Quickest Way to Get Well is Through New Treatment Containing Seventeen Ingredients That Renew Every Part of the Body.

If you feel sickly and good-for-nothing, have a sort of dizziness, dull headache, back pains, rheumatism, and are subject to indigestion or constipation, have no appetite and can't sleep, watch out! There is grave danger ahead!

Any remedy that will give temporary relief to pain and dope you up for a time simply postpones the final spell and makes it worse when it comes. This is why a complete systematic treatment is necessary to regain good health. This complete treatment is found only in a prescription known as Re-Cu-Ma, which contains seventeen well known and thoroughly tested medicines, so skillfully compounded that each one performs its function on the various parts of the body perfectly and harmoniously. This remarkable prescription thoroughly cleanses the colon of its accumulation of poisonous refuse, discharging it through the proper channel instead of allowing it to course through your veins and empty into your body. The colon, according to Prof. Metchnikoff of the Pasteur Institute, Paris, is the direct cause of all our aches and pains. In addition, Re-Cu-Ma starts the liver to work pleasantly and naturally, without gripping or purging, purifies and strengthens the blood, thus building firm, healthy, rosy flesh that is free from pimples and other blemishes, relieves rheumatic and back pains, gives you a digestion that enables you to eat anything you like without fear of bad after effects and you sleep like a log. In a word, Re-Cu-Ma is a scientific prescription that revives, renews and regenerates your entire system so that you feel constantly full of pep and ambition. Re-Cu-Ma is sold and recommended by the Union Pharmacy and other good drug stores, and if you don't feel a decided change in your condition, after taking according to directions, you get your money back.-Adv. 7-18-23

LION'S SHARE OF HUGE RUM PROFITS GOES TO SYNDICATE (By The Associated Press) DETROIT, July 17.-Certain powerful interests control the available supply of beer and liquor on the Canadian side and the big money is made there, according to the rum runners who operate the tiny boats which chug across the river here with their cargoes of illicit beverages. According to these operators, this "syndicate" or "system" as it is termed, sell at prices which permit the runners and American bootleggers a comparatively small margin or profit. Thus, say these runners, the huge profits in the rum running business across the Detroit river area thing of the past. Large profits, they maintain, still are being taken in the liquor smuggling traffic, but the business has progressed and has been systematized until only those who control the traffic and crack the whip over the rum running fleets reap the golden harvests. The fre and easy ways of the days shortly after prohibition became effective, say the runners, are gone. System has come in, and now it is impossible for a free lance runner to obtain supplies on the Canadian side unless he buys them from what amounts, virtually, to a closed syndicate, according to these operatives. The runners cite instances. They say that a Canadian beer, when bought from the Canadian operators, often costs close to \$5 a case, although its actual brewery price is much lower. The runner gets 50 cents a case for transporting it across the river and it is laid down in River Rouge, Wyandotte or Ecorse or some other place for \$5.50. If it is delivered to the retailer he can truck it to his place of business and sell it for 80 cents a bottle and make a comfortable profit. But, the runners say, if often goes through the hands of an

American middleman and reaches the retailer at a cost of about 33 cents a bottle. He has to keep up his overhead expense and run his risk and still sell it at 50 cents a bottle.

The same situation obtains in whiskey smuggling, these runners say. They declare it is virtually impossible to get whiskey to smuggle on their own account. When they run it across for the controlling interests they receive \$2.75 a case.

Despite these protests, however, it appears probable that some of them, by hard work, make a comfortable living. One youth claimed he averages 4 cases of beer to a trip and

makes from three to four trips a day with a motor boat. At this rate he would make \$20 a trip and from \$60 to \$80 a day. Other craft are said to carry larger cargoes.
