

# Florida Orange Week Announced By Governor Cone

## Beginning Thursday 189,000 Stores To Begin Citrus Drive

LAKELAND, Feb. 23.—On the eve of the largest national promotion ever arranged to increase the consumption of oranges, Governor Fred P. Cone today proclaimed the week starting tomorrow as "Florida Orange Week" and urged the people of the state to help growers by using more of this fruit.

The Governor's proclamation, released here by Charlie H. Walker of Avon Park, chairman of the Florida Orange Growers Committee, directs attention to this season's bountiful crop and describes the healthful benefits to be obtained by making oranges and orange juice a regular part of the diet.

Starting Thursday, 189,000 retail grocery stores throughout the country will launch a nationwide drive to increase orange sales. Mr. Walker said, participating in this campaign will be the 182,000 stores represented by the Independent Food Distributors Council, and the 37,000 stores represented by the National Association of Food Chains.

Two other weekly orange promotions will be staged by the same retail groups starting March 24 and April 21. These special sales, which will be similar to last year's successful national grapefruit promotion, in which the chain stores alone are estimated to have spent nearly \$2,000,000 in advertising grapefruit. While not available in such large quantities this season, grapefruit sales will be promoted from now on until March 8 by the 4,000 member-stores of the National Association of Chain Drug Stores, which is staging a special campaign in this period to increase drug fountain sales of grapefruit juice, according to L. W. Martin, advertising manager of the Florida Citrus Commission.

Following the grapefruit juice drive, Mr. Martin announced that the chain drug stores will support the national orange promotion with a campaign to increase drug fountain sales of orange juice from March 19 to April 9. He said that the two citrus campaigns will be the most extensive ever undertaken by drug stores to aid agricultural producers.

Mr. Martin revealed today that California interests had endeavored to have the national orange promotion delayed one week, because of the serious curtailment of their shipments resulting from recent heavy rains. He said that both independent and chain store groups decided to proceed with the promotion originally planned in view of the record shipment of oranges from Florida in recent weeks.

Glass Hints At Its Abolition Special Relief Bill Is Sent To Senate-House Conference

WASHINGTON, Feb. 24.—(AP)—Demand for an increase in the appropriation of the National Labor Relations Board drew from Senator Burke, Democrat, Nebraska, today a declaration that the Board's administration of the Labor Act had been a "national disgrace."

The proposed Labor Board appropriation is one of the items in the \$1,400,000,000 supplemental bill which came before the Senate for consideration today.

Seminole Cagers Get Seeded Berth For Tournament

The Seminole High School cagers because of their record during the current cage season have been given a seeded berth in the Northeastern Conference basketball tournament to be held at the Leeward High School Gym beginning at 1:00 o'clock Friday afternoon.

The proteges of Coach Leonard McLucas have lost only two conference games, one to the Daytona Beach Buccaneers and one to the Leeward Yellow Jackets and the local team is expected to make a good showing and may take leading honors in the conference.

Ten cage teams are scheduled to enter the conference tournament. Lake City, Live Oak, DeLand, East Ocala, St. Paul, Leeward, Daytona Beach, Palmetto and Sanford.

FREEZING PREDICTED

ATLANTA, Feb. 24.—(AP)—Forecasting temperatures as far south as Mexico and frost generally over the state were forecast for tonight by the Weather Bureau. At Lakeland, the Federal Front Warning Bureau predicted temperatures may fall as low as 24 and frost in north Florida. Track warnings were advised to take precautions but the bureau said there would be no danger of blizzards.

Audubon Society To Hold Annual Meeting In March

Business Session To Be Enlivened By Motion Pictures

Harold S. Peters of Washington and Ernest F. Coe of Miami, well-known ornithologists, will be the chief speakers at the annual meeting of the Florida Audubon Society to be held at Rollins College, Winter Park on Mar. 5 and 6.

Mr. Peters who spent several months this past summer with MacMillan's Arctic Expedition, will bring to Winter Park for their first showing, the motion pictures of bird life in the Far North taken on this trip. Mr. Peters, a member of the U. S. Bureau of Biological Survey staff, is in charge of the Atlantic flyways from Labrador to the tip of Florida, and will appear on the Saturday afternoon program to which the Society admits not only its members but the general public as well.

Mr. Coe is well known throughout the country for his efforts to further the Everglades National Park. He will show by illustrations the area to be covered by this park and explain its present status.

The Saturday morning business session will be enlivened by a showing of motion pictures of the Tern colonies of the Dry Tortugas, taken last June by H. J. Long, secretary of Dry Tortugas in connection with the third expedition of the Society to this outpost of South Florida.

Miss Edna Mae Oliver of Orlando will tell of the relation of Bird Life to the Girl Scout program, while Mrs. A. R. Nourse who is most active in the Winter Park Bird Club, will describe some of the Club's typical outings. The luncheon will be held as usual at the Whistling Kett's Tea Room, with Professor A. J. Hanna, of Rollins College, as toastmaster. The guest speaker will be Mr. Oscar E. Hayward, Park Naturalist of Highlands Hammock State Park, and long associated with Audubon work as a warden, educational writer, and photographer.

Following afternoon tea at the guests of Mrs. Reinhard Siedentz, at "Hilawatha" the Democratic estate in Maitland, where the Florida Audubon Society was founded more than a quarter century ago, and a supper meeting of the Tortugas group, the Annie Russell Theatre will again be the headquarters for the evening meeting.

Fear Grows Of Another Raid On Jap Island

Ten Chinese Planes Roar Over China Sea But Fail To Arrive In Japan

TOKYO, Feb. 24.—(AP)—One of Japan's main islands was under air raid warnings for several hours today as reports that Chinese bombers were roaring over the China sea to carry the Far East war to Japan.

Warnings were sounded on the island of Kyushu, southwesternmost main island, less than 24 hours after a Chinese squadron bombarded the Japanese island of Formosa in the first air attack Japan ever has suffered.

Home Japanese news agency said defense headquarters at Fukuoka five words of the approach of 18 Chinese planes. The air raid warnings were lifted several hours later when the planes failed to arrive.

Formosa counted slight dead and 25 injured as a result of yesterday's air attacks. The whole island remained on the alert for a second raid from somewhere along China's east coast, only 120 miles to the west.

Damage Suits Were Filed Before Jury Returned Verdict

Suits for damages against R. M. Kidd of Charlotte, N. C., whose truck recently figured in a fatal automobile accident, were filed prior to and not after the verdict of the Coroners Jury, G. W. Spencer, attorney for the plaintiffs, signed today in a letter to The Herald regarding an article on the suits appearing in yesterday's Herald.

Mr. Spencer's letter in full is as follows: "Referring to an article appearing in your paper yesterday headed 'DAMAGES ARE BOUGHT FOR ACCIDENT VICTIMS' please permit me to offer a correction.

Your article states that the filing of the suits for damages on behalf of the widows of the two deceased parties followed the verdict of the Coroners Jury releasing the driver of the truck. As a matter of fact the suits were both filed with the Clerk of the Circuit Court at nine forty-five A. M. on Tuesday, February 22nd, and the Coroners Jury did not convene until ten o'clock the same day. The summons were served upon R. M. Kidd by a deputy sheriff before the verdict of the Coroners Jury was returned.

Mrs. C. A. Haines Dies At Age Of 50 Following Illness

Funeral Services To Be Held At Old Home In Thomasville, Ga.

Mrs. C. A. Haines, wife of the mechanical superintendent of The Sanford Herald, died at her home on Park Avenue about 2:00 o'clock this morning following an illness of several weeks.

Born in Thomasville, Ga. on June 21, 1887, and a resident of Miami for many years. Mrs. Haines came to Sanford with her husband in 1927. A member of the Garden Club and the Woman's Club, she also belonged to the Daughters of the American Revolution and has been an active worker in the Methodist Church since childhood.

She is survived by her husband, one daughter, Miss Dorothy Haines, who is an instructor in music at Center Hill, and two sisters, Mrs. F. M. Houston and Mrs. S. L. Everett, both of Tampa.

Funeral services will be conducted Friday morning at 10:00 o'clock at the Methodist Church in Thomasville. Members of the immediate family and her two sisters will accompany the body to their old home in Thomasville.

General Pershing Loses Ground In Critical Illness

Bulletin From Sick Room Says General Definitely Weaker

TUCSON, Ariz., Feb. 24.—(AP)—Physicians attending General John J. Pershing said the World War commander, veteran of many campaigns, was losing ground today in a critical illness.

An official bulletin from the sick room said the general was "definitely weaker and somewhat apathetic."

Pershing's physicians disclosed late yesterday the aging World War commander "had suffered acute damage to his heart muscles which would require prolonged rest in bed."

Dr. Roland Davidson said discovery of the damage to the heart muscles was the result of "additional observation of Colonel Marrietta and myself."

"The rheumatism is minor," Dr. Davidson continued. "The heart illness is due partly to his age and partly because he is a man who has always overdone himself because the people of the U. S. made great demands on him."

A cardiologist, a machine for measuring electrical reactions of the heart, showed "a very favorable record," the physician reported yesterday. The general ate a hearty lunch and was "perfectly comfortable" after a quiet day.

Zinn Beck Comments On Detroit's Chances

Zinn Beck, well known baseball figure and talent scout of Mickey Vernon's Detroit Tigers of the American League, stated yesterday that the announcement of Cushman's retirement would not hurt the Tigers' chances of coming through with an American League pennant next season due to the fact that his successor, Rudy York, will add plenty of pop to the Tigers' batting platoon.

Townsend To Fight 30-day Term In Jail

Decision To Appeal Case To High Tribunal Follows Parley With Attorney

WASHINGTON, Feb. 24.—(AP)—Dr. Francis E. Townsend, who came back to the capital to serve a 30 day jail sentence for contempt of the Congressional Committee of the Congressional Committee would appeal today that he would appear to the Supreme Court instead of going to jail.

The elderly old-age pension advocate stepped off the train car today with an expressed intention of serving the sentence but after conferring with an attorney issued a statement saying that he would let the case go to the Supreme Court.

He said "the principle is so tremendous that I feel, as do hundreds of my friends, that this case should be fought to the finish."

Before conferring with his attorney, the 71-year old Californian in a genial mood greeted five congressmen who met him at the train. He declared he intended to serve the sentence rather than appeal the case to the Supreme Court. Among congressmen who greeted Townsend was Representative Lex Green, Florida Democrat.

Lehman Announces For Re-Election To State Legislature

H. J. Lehman, Seminole County representative in the State Legislature, today announced his candidacy for re-election, subject to the Democratic Primary which will be held in May. Mr. Lehman will run in Group No. 1, which is the same group in which he was elected in 1936.

Judeo James G. Sharon has also announced in this group while in Group No. 2 there are three candidates: Gordon Bennett, who is seeking re-election; H. Bridge, the mayor of Longwood, and John Leonard, former prosecuting attorney.

Mr. Lehman is a native of Indiana, but came to Seminole County in 1926 where he engaged in farming. He has continued to pursue this occupation ever since while taking an active part in civic affairs.

Celery Market Shows Slight Upward Trend

Proration For Coming Week To Be Decided At Meeting Friday

With a slight upward trend in the market for Florida celery during the past week as shown in the celery reports of the Federal State Market News Service and a considerable reduction in truck holdings in the principal celery markets over the nation, members of the Florida Celery Industry Control Committee will meet in Sanford and Sarasota Friday night to discuss proration for the coming week.

Loyalists Block Rebel Path Along Sagunto Highway

HENDAYE, France, Spanish Frontier, Feb. 24.—(AP)—Spanish insurgents fighting their way down Sagunto Highway southeast of Teruel, laid siege to the mountain pass of Escudon where strong government forces barred the route to the Mediterranean sea.

The Iron Insurgent command reported government defenses as continuing to give ground in the face of a steady insurgent advance.

A headquarters bulletin said 16,200 prisoners were taken by the insurgents during final stages of the re-occupation of Teruel and that more than 9,000 government dead were buried.

BIBLE VERSE FOR TODAY

WE LOOK FOR LIFE'S GREATEST BLESSINGS FROM A DISTANCE AND MISS WHAT IS CLOSE AT HAND. That they should seek the Lord, if haply they might feel after him, and find him, though he be not far from every one of us: For in him we live, and move, and have our being.—Acts 17:27, 28.

THE LAST WORD

Croop into thy narrow bed, O sleep, and let no more be said! Yain thy onset, all stands fast. Thy thrall must break at last.

Let the long contention cease! Geese are swans, and swans are geese.

Let them have it how they will! Thou art tired, best be still.

They out-talked thee, biased thee, tore thee?

Better men faced thee before thee?

Fired their ringing shot and passed.

Hotly charged—and sank at last.

Charges once more, then, and be dumb!

Let the victors, when they come, Find thy body by the wall.

Matthew Arnold.

The government will pay salary at \$110 a year of which the growers will get fifty cents. That is better than plowing it under.

It is going to be difficult to convince our children that they should honor their father and mother when they start paying on some of the bonds we have left them.

Business may not be anything to brag about this winter, but it is probably better than it will be next summer. Pay your bills now. It will help your credit later on when you may need it.

President Roosevelt rules further devaluation, further inflation out as a means of raising the price level. However, further government spending in excess of government receipts may accomplish indirectly what the President opposes directly.

General Sumnerall insists that the cross state canal is needed as a matter of national defense. The idea seems to be that in case Key West is captured by the enemy and an encircling movement is launched against Ocala, the enemy troops would fall into the canal and be drowned.

"Hiller Demands Return of Colonies."

Pretty soon he'll send an order to King George: "On or before the 1st prox. send me quit-claim deed to Australia."—Phil Barney in Tampa Tribune. And unless the British change their present policy, the deed would be sent by return mail.

The illness of General John J. Pershing reminds us that it has been exactly twenty years since he was at the height of his military power as commander of the American Expeditionary Force in France. He is, we believe, the last of the leading World War commanders, and his present illness at the age of 77 shows that another generation has arrived ready to carry on.

Austria acquiesced peacefully enough to Hitler's bloodless conquest but the question is will Czechoslovakia also take it sitting down. The land of the Czechs, Slovaks, and Bohemians is closely tied to Russia in a military alliance. It was a similar alliance between Russia and Poland, when the latter country was dominated by Austria, that precipitated the World War.

Know Florida

As this is officially known as "Know Florida Week," it might be well for us to celebrate the occasion by pointing out a number of interesting oddities as gathered together by the Florida State Chamber of Commerce and with which, we feel sure, most of our readers are unfamiliar. Did you know, for instance, that:

Key West has a Royal Palm which branches out into two trunks?

Lafayette, the well known French general and American sympathizer, was given an entire Florida township for his services to the American Revolution?

Ocala has, of all things expected to be found in Florida, a ski manufacturer?

The Monstera Deliciosa, marvelous tropical fruit of Florida, is shaped something like an ear of corn and in taste combines the flavor of pineapple, peach and banana? Because of this it is sometimes called the "fruit salad" vine.

The first air transport line in the United States was established between St. Petersburg and Tampa in 1914? It operated three months out of the year and carried both passengers and express.

Tampa has a cannery which puts up rattlesnake meat to be used as canapes and hors d'oeuvres? The strange product is shipped to gourmets, all over the world.

In Seminole County is found an outstanding tree, "The Giant Cypress," that is 125 feet high and 17 and a half feet in diameter at the base? It is estimated to have begun its growth five centuries before Homer wrote the Iliad.

A spring of pure water gushes out of a hole seven feet above the ground in a sweet bay tree near Jacksonville?

The fish-tale or Toddy Palm of Florida grows backwards. Each year the blood is produced lower on the trunk until it finally appears at ground level. When this happens, the tree dies.

A "Kapok Tree," bearing pink cotton or "kapok" located a few miles east of Clearwater, is believed the only tree in the United States which bears cotton or kapok?

Florida has one of the strangest "farms" in the world at Fort Lauderdale? It is a "lion farm" and breeds and raises the huge animals for sale to circuses and zoological gardens. The animals are not behind bars, but are kept in natural rock pens in an old stone quarry.

Curing The Recession

Dale Carnegie, who was one of the principal "authors" in the Rollins Animated Magazine last Sunday, can not only tell you "How to Win Friends and Influence People," he is scarcely less an authority on "How to Win Wealth and Influence Recession."

Writing in Collier's magazine on the subject of "Grab Your Bootstraps," he insists that the only thing that is keeping the country from embarking on a new era of prosperity is a lack of courage and will power on the part of the citizens of the nation. He declares that if everyone will carry out the following eight simple rules, the country will emerge victoriously:

- 1. Analyze your fears. When you realize the basis of your fear you will be on the way to conquering it. 2. Determine what your next step will be. A soldier who knows where his second line of trenches is—is not defeated. 3. When your friends talk discouragement, talk encouragement. 4. Determine how much of your thinking is directed toward solving your recession problem and how much is going over and over the same thing. 5. Act as if you were not afraid. 6. Don't think about your troubles at night. 7. Keep physically fit. The more discouraged you are the more golf you should play. 8. Remember the present recession will pass. Others always have.

If carried out these rules are guaranteed by Carnegie to cure all ailments.

DURING THE SIEGE of Paris in 1870, the food problem became acute; and within a month of the investment of the City by the Prussians its inhabitants were doing their best to believe that horseflesh was beef, and that cat was rabbit. By the middle of November, a good fat cat cost 20 francs; the ordinary household rat sold for 1 franc, and a fat sewer-rat fetched 1 franc 50 centimes. Calling at one house, Henry Labouchere, English politician and writer, reported that the sole dish was a cat, surrounded, sausage-fashion, by mice.

"All the animals in the Zoological Gardens have been killed except the monkeys," he wrote in December. "These are kept alive from a Darwinian notion that they are our relatives. Yesterday I had a slice of Pollux, one of our relatives. It was tough, coarse and like the elephants, for dinner. It was tough, coarse and oily, and I do not recommend it. But cat is delicious—either smothered in onions or in a ragout."—Heaketh Pearson, Labby (Harper)

Organdy Featured In First Preview Of Summer Modes

By ADELAIDE KERR New lacquered organdies, shimmering with enameled flowers, have made their debut at the New York Swiss Fabrics Show, the first preview of the summer mode.

Mannequins paraded in summer lace frocks of sheer Swiss-made organdy and dotted Swiss, designed with full billowing skirts, which can also be worn now in the south.

Gray and black lacquered tulle shimmered on the surface of lace frocks. Others were spotted with enameled confetti dots or with white-dotted bow-knots. Delicate frosty tracery marked the weaves of others. They appeared in white, pastel blue, pink and yellow. Other colors which will appear in next summer's seasonings were made of checked voile.

Many were designed with puffed sleeves and a number had boleros to match. Velvet shoulder straps and occasional floral accents were noted on the frocks, which were worn with the new high-waisted coiffures, often accented by a hair-bow in the back.

Daytime costumes featured simple printed voile dresses worn under boleros and detachable skirt made of sheer navy blue voile.

Very sheer white organdy blouses designed with short sleeves, high necklines and ruffling jabots were displayed as accessories. They were worn with very short puffed skirts sixteen to seventeen inches from the ground and wide, rolling-brimmed hats of navy blue straw, set over navy blue veils that fell to the shoulders.

A number of the Swiss fabrics were processed with a finish which manufacturers say enables them to withstand the rigors of after-laundering. If treated with soap.

THE PRICE OF ART . . . Robert Burns, immortal Scottish poet, early learned that genius has a habit of going unrewarded. Yet Burns looked at the truth in a manner far from philosophical when, in 1792, he met it face to face. His fame already rooted among the Scottish literati with such masterpieces as "Auld Lang Syne" and "Tom o' Shanter," Burns was asked in 1792 to contribute to George Thompson's "Select Collection of Original Scottish Airs with Symphonies and Accompaniments" for the Pianoforte and Violin; the Poetry of Robert Burns. Burns evidently could not resist the title and set about to compose some 10 brand new songs, the best of which still ring in the ears of every true Scot (the world over). When they were compiled, Burns went to collect the magnificent commission he anticipated. His amazement was overwhelming when he received instead a check for his wife, a picture by David Allan representing the "Cotter's Saturday Night" and five pounds! Burns sat down and indignantly wrote a letter expressing his chagrin and disappointment, and never afterwards composed for money. GIANT CORN KERNELS . . . Where maize originated is still a disputed question, some authorities favoring Mexico, others Peru. In the latter country, strange as it seems, the Peruvian maize, or Cuzco corn, produces huge kernels, some of which are nearly an inch across. The natives of Peru eat these kernels one at a time, considering them quite a delicacy as well as a staple food. They are usually boiled before eating, as roasting or parching would require more fuel, a scarcity in the Peruvian highlands. Oddly enough, this country also produces a plummy corn in direct contrast to the Cuzco corn. It grows at an altitude of nearly 12,000 feet. Strange as it seems, one entire ear of this tiny corn is only about one inch long! Tomorrow: The 10-Cent Medal.

## Concert Association To Present Pianist

Emile Haume, pianist, will present a concert at the Princess Theatre Monday evening at 8:00 o'clock under the auspices of the Woman's Club for members of the Cooperative Concerts Association.

Mrs. A. M. Phillips, president of the Woman's Club, gave the following information about Mr. Haume this morning:

Emile Haume, still in his early thirties, is a native of Toulon in Southern France. If inheritance has any influence on destiny, Haume on that score alone could be truthfully called predestined to become one of the world's great artists.

"His grandfather, who originally had started on a commercial career, decided for himself that he was destined to become a pianist and pedagogue and, by sheer will force, achieved his end. It is both the precision of his work and the power of his will that was to be transmitted later on to his grandson.

"His grandmother was an excellent singer, and his father, as can easily be imagined, followed the footsteps of the grandfather and became a famous pianist.

"With this background and environment, it was natural that young Emile should hear the best of piano literature from his cradle up, though his three brothers and sister, who all studied music, abandoned it; whereas of Emile it was said 'He won't be a musician—he will have to cultivate potatoes and also eat them.'

"However, the call of genius became so strong that at the tender age of seven the youngster insisted upon having piano lessons and it was his grandfather and his father who taught him all they knew and all they had learned by experience."

## Dance Is Planned By Elks Lodge

Local officials of the Elks Lodge today extended a cordial invitation to attend the monthly benefit dance to be held in the Lodge Hall Friday night beginning at 9:30 o'clock.

The funds derived from these monthly benefit dances are used for charitable work of the organization, officials reminded. Beckham's Orchestra will furnish the music for the occasion.
