In Aunt Miranda's day there was no question about whether you went to church on Sunday. Ye didn't stay have because it was raining or moving, or because you had a slight headads. You went—by here drawn to correspon as much harder trek than it is today.

Maybe because it was harder, people appreciated it more. Maybe in that are of pro-modern convelience people had a better sense of values. They seemed to know, at any rate, what was really important. Of course, the church is just as necessary today as it was in Aunt Miranda's day. Certainly the complexinext Bunday-and see for surraives?

Costa Nostra "family" in Florida.

EARLY MORNING MOLOCAUST destroyed a seven-room frame house Saturday in Altamente Springs. The home, owned by Mrs. Winifred Gallon, was a total loss with damage estimates running as high as \$5,000. Cause of the fire, which left Mrs. Gallon and her five children homeless, was blamed on an overheated fireplace. Mrs. Gallon and two of her children, Betty Jo and Mary Francis, were treated at Florida Sanitarium and Hospital in Orlando for shock and released. Altamonte Springs and Casselberry fire units spent two hours in controlling the blaze. (Herald Photo)

Perhaps the most important witness, how-ever, is the recent decision in Washington by the Economic Development Administration to provide the money to pay for a feasibility re-port which will deal with the determination of the future of the Sanford Naval Air Base. For this situation—the moving out of the Navy, whose people we are going to miss in every way—does create a vacuum which must be filled. This, too, is now full of promise.

For the EDA report is not the only factor

working towards a practical and worthwhile solution. There are others which are in the process of being concluded.

Thus we look ahead with clear, not rosy-colored glasses and see these early witnesses as indicating a 1968 where the challenges will have been anticipated and answers readied.

### Sad And Sober Lesson

Most of us have learned the sad and sober lesson contained in the lines of an old-time popular song: "Til never say never again,

But Mary Quant, high-priestess of the cult of the mini-skirt, evidently has not. An Asciated Press dispatch from London quotes her as saying: "The mini has built itself into a fashion classic that will never be replaced." Never? Miss Quant is young, eager and adventurous but we sense a lack of the philosophic approach that such a final word deserves. We appreciate that the battle is being cined between the maxi and the mini-skirt

Of course we doubt that Miss Quant will But we would like to remind her and others of her persuasion that there have been hoopskirts, hobble-skirts, and other that revealed and concealed; that London can and has devalued the pound stirling and shaken the fiscal fashion of the investment world; that in neither instance of the deadly sober matter of finance or the frivolous matter of ladies' skirts would we advise the use of the word

Oh, yes, dear Miss Quant and all dear lad-les, we would, however, NEVER underestimate the power of women!

This was prior to the inwasten of the outboard engine and the remarkable growth in Sumbers of small craft. Today over 40 million Americans from todding infants to unsteady octogenarisms are animating the hosting scene in more than 8 million pleasure craft. To be sure, a number may be found any day crossing another's bow, Ignoring aids to navigation and raising general havor with formance was Hargis who cut secure the win. their wake, but all are enjoying themselves immensely. If in drastic action will have to be taken lest any Sunday after-Shoon on any U. S. lake or inlet the scene be reminiscent of that of the Allied convoy in the early days of the war in the Atlantic after attack by a wolf pack of U-boats.

All who enjoy the healthful recreation of heating should be duly grateful for the existing motor beat laws of 1900 and 1988, and for the noteworthy achievement of the federal and state agencies in implementing these laws. By imposing the statutes, the Coast Guard and state authorities have performed an immeasurable service to the bouting public, without which the accident record of the small boot sentarers would have been far more calamitems.

There is a general consensus of opinion among competent boatmen that more vigorous action should be taken by the Coast Guard and state enforcement agencies to cope with the problem of bouting accidents. They contend that too much nattention is paid to minor violations, such as that of improper numbering, lack of required equipment and the like, while the flagrant violations are often gone unchecked and the violators not duly punished. Perhaps then, the Coast Guard and other authorities should concentrate on this. We are aware that lack of personnel and insufficient funds have been impediments In the functioning of these bodies. It has been suggested that one corrective measure would

SANFORD HERALD THE NEWSPAPER WITH 50,000 READERS

### Is this any way to treat your waterways?

Keep your home beautiful -- keep America beautiful

You swim and fish and go boating on America's waterways. You live there—they're part of your home. Why litter your home? Why litter your America? Litter is ugly and unhealthy and dangerous. Cleaning it up costs millions in taxes you help pay. Every litter

Litter doesn't throw itself away; litter doesn't just happen. People cause it - and only people can prevent it. "People" means you. Keep America Beautiful.
