DRY IS PICKED AND SHEPHERD TRIAL STARTS

Effort to Save Alleged
Poison Slayer From
Gallows Is Begun In
Earnest In Chicago

Drury Is Selected From 900 Names

Howe Opens Battle
For State and Stewart
For The Defense

Chicago, June 11.—A jury to try William Darling Shepherd for the alleged murder of his millionaire foster son, William Nelson McClintock, whom he is accused of killing by feeding typhoid germs, completed Wednesday afternoon three weeks and three days of effort during which two hundred and seventy special venire men each were examined.

Completion of the tedious task with unexpected suddenness. Only a dozen men had been examined to obtain the last juror in final panel of four when Charles McClintock, street car motor- man, was called. He was the only one of several hundred prospective jurors who had not read the case and was found suitable for the prosecution.

Without a question, defense attorney then accepted the panel of the juror box was filled. The prosecution announced renewed to continue the trial with its address to the jury, but ended only a few minutes of the hour for adjournment and case was out until this morning.

Reading it however, William Stewart, chief defense coun- sel, will make several motions, and fight the first session of the trial promised to be a wor- ful battle.

Stewart said he would have to the prosecution limited in its use of the McClintock and to the death of Dr. Oscar Olson, alleg- edly a plot which was nearly a score of years ago Shepherd to obtain the McClintock estate.

Dr. Crowe, the state's at- torney, will make the opening statement but his intentions were divulged last night.

The prosecution depends upon substantial evidence and the corroborated testimony of Char- les F. Fineman, self-termed accom- plices in the murder of the rich youth.

Fineman, head of the National Academy of Sciences of Chicago, indicted with Shepherd after testimony he had supplied typhoid toxins and taught Shepherd how to use them to young McClintock a month before the death of the estate, which Shepherd became the chief beneficiary in a will Shepherd drew up for himself only a few months be- fore the young man died. Fin- eman was granted a separate trial last night after the death of the McClintock where Harry Olson, chief justice of Chicago's circuit courts and brother of Olson, proclaimed himself guilty of the murder and demand- ed an investigation. He was an- nounced yesterday as the first wit- ness for the prosecution.

The second witness for the state is Alexander Reichman, an at- torney, who, with Mrs. Shepherd, was the formal co-guardian of the McClintock.

Dr. Fineman, who attended young McClintock in his last illness and the coroner's chemist, who per- formed an autopsy on the youth's body will follow them.

Shepherd, fifty years old, will be a jury ranging in age from the 21 year old youth will be alleged to have slain to well be- hind his own years.

Carl W. Bjelland, 22 an adjust- er in the "baby" of the jury, and Frank R. Spinks, an aged proof reader, the senior.

Grand Old Lady" Of Golf Is Still Supreme

GREENWICH, Conn., June 11.—
The "Grand Old Lady" of golf still
is a 21-hole match, Mrs. Mabel
F. Fox, of Philadelphia, a
mother who has been play-
ing in National championships for
a quarter of a century, defeated
younger opponent, Miss Har-
riet Curtis of Boston, national
champion, in 1909.

Strike Of Plasterers Holds Up Construction

NEW YORK, June 11.—Another
day of construction in New York
is held up by plasterers' strike.
The department of labor
has failed to bring warring
sides of the inter-union strike
to a halt.

Judges Urge Abolition Of Conspiracy Indictments In All Of Federal Tribunals

Use of Such Indictments Has
Been Abused, Especially In
Prohibition Cases, Judges
Claim In Their Resolution

Will Call Attention Of Congress In Case

Chief Justice Taft Is Chair-
man of Judges' Conference
Held In Capital Wednesday

WASHINGTON, June 11.—Recom-
mendations adopted at the con-
cluding session Wednesday of the
conference of senior court judges,
presided over by Chief Justice
Taft, included one through which
it is hoped to exert pressure upon
federal district judges and federal
district attorneys to abolish the use
of conspiracy indictments in mis-
demeanor cases.

The judges made it plain during
their discussion that they thought
the use of such indictments had
been grossly abused, especially in
prohibition cases. The recommen-
dation adopted on the subject read:

"We note the prevalent use of
conspiracy indictments for convert-
ing a joint misdemeanor into a fel-
ony, and we express our conviction
that both for this purpose and for
the purpose—or at least with the
effect—of bringing in much im-
proper evidence the conspiracy stat-
ute is being misapplied.

"Although in a particular case
there may be no precedent of plan,
excepting that necessarily inherent
in mere joint action, it is difficult
to exclude that situation from the
established definition of conspiracy
law, the theory which permits us to
call the aborted plan a greater of-
fense than the completed crime
supposes a serious and substantial
continued group scheme for co-
operative law breaking. We observe,
so many conspiracy prosecutions
which do not have this substantial
base that we fear the creation of a
general impression, very harmful
to law enforcement, that this meth-
od of prosecution is used arbitrar-
ily and harshly. Further, the rule
of evidence in conspiracy cases
makes them most difficult to try
without prejudice to an innocent
defendant.

"Congress' Attention Called.
"We think it proper for us to
bring this matter to the attention
of the district judges, with the re-
quest that they present it to their
district attorneys, and for us to
bring it also to the attention of the
attorney general, with the sugges-
tion that he call it to the attention
of the district attorneys, as in his
judgment may be proper, to the
effect that this form of indictment
hereafter not be adopted here but
only after a careful conclusion that
the public interest so requires, and
to the end that transformations of
a misdemeanor into a felony should
not be thus accomplished unless
the property thereof clearly ap-
pears. We also think it proper to
bring the subject matter to the at-
tention of congress, that it may
consider whether any change of the
law in this respect is advisable."

Poison Gases Are Outlawed For War Purposes By Meet

GENEVA, June 11.—Without a
dissenting voice the international
conference on the control of trade
in arms and munitions Wednesday
night adopted the text of a special
protocol for which the American
delegation is sponsor, prohibiting
the use of poison gas or bacteria
in time of war. This obviates the
necessity of President Coolidge
calling a special conference at
Washington, as he was reported
ready to do if it was found impos-
sible to obtain results at Geneva.

The protocol will be opened for
signature the same day as the con-
vention on arms traffic will remain
open until September 30,
1925. Ratifications will be sent to
the French government and the
protocol will be operative for each
signature from the date of ratifica-
tion, and from that moment each
power will be bound as regards other
powers which have already
ratified it.

After a long debate, the confer-
ence, with the object of strengthen-
ing the convention, voted to re-
store arms traffic, which the mili-
tary committee had decided to ex-
clude, they will figure in the first
category of arms traffic and will
be subject to the widest publicity
and control.

Concerning exports the confer-
ence decided that within a half
year after delivery all nations
must publish a list of exportations
of both air crafts and motors to
include the number of exported
and the countries to which they
were forwarded.

Canadian Guilty Of Scalding Little Boy

MONTREAL, June 11.—Rene
Francis De Vrieschouwer, better
known as Brother Umar of the
Orphanage of Huberdeau was
found guilty of manslaughter to-
day for scalding to death of eight
year-old Hector Gabarneau, one
of his charges. The boy died follow-
ing immersion in a tub of boiling
water.

Dog Meat Still Being Sold In German Cities

BERLIN, June 11.—Dog meat is
still an article of human food in
Germany and the Berlin chief of
police has decreed inspection and
regulation governing other meats
to apply in the future to this article.

Greek Cabinet Resigns

ATHENS, June 11.—The Greek
cabinet, headed by Premier Michal-
akofoulous and formed in October,
1924, resigned today.

NEW DRIVE HAS BEEN STARTED BY ABD EL KRIM

Riffian Warriors Establish
New Six-Mile Front, Making
Attacks Repeatedly Upon
Smaller French Outposts

Natives Cross River 'Ouergha For Battle

Spain and France May Join
Forces In Waging Fight;
Conference Begins Monday

FEZ, French Morocco, June 11.—
Abd-el-Krim, the rebel chief-
tain, apparently desires to pro-
vide M. Painleve, the French pre-
mier, with an adequate reception on
his arrival in the fighting zone in
Morocco. The official communica-
tion issued by the French Wednes-
day evening says Abd-el-Krim
now is attacking the French along
a six-mile front. It adds that
the enemy pressure now extends to
the extreme eastern part of our
front."

While the communication an-
nounced that the attacks of the
tribesmen have been repulsed, it
admits that "several small posts
had to be abandoned."

Continuing, the communication
says that "other enemy elements
crossed the Ouergha river east
of Kelaia de Sless" and that an-
other Moorish offensive was start-
ed in the direction of Onezzan.

400 Rebels Killed

MILLA, Spanish Morocco, June
11.—Native reports reaching here
say that more than 400 rebels have
been killed in fighting near Mar-
ra. French airplanes assisted in
the operations.

Spain and France Agree

GENEVA, June 11.—France and
Spain have reached a full accord
on the general idea of co-operat-
ing to end finally the long pre-
vailing warfare in Morocco, it
was learned authoritatively here
Wednesday.

French Foreign Minister Briand
and Count Quiroga de Leon,
Spanish ambassador to France,
who are here for the meeting of
the League of Nations council,
have been conferring regarding
the Moroccan situation, it was
learned they have agreed that
France and Spain must deliver
blows against the turbulent trib-
esmen of Morocco and so restore
peace in northern Africa.

Details for united military and
naval action by France and Spain
will be worked out at a Franco-
Spanish conference at Madrid early
next week.

French delegates will depart for
Madrid Sunday.

Britain Not Interested

LONDON, June 11.—The British
government is not interested in
the situation in Morocco, where
tribesmen under Abd-el-Krim have
invaded the French zone, and is
not in a position to take part in
suppressing any rebellion there
which is not of an international
character, it was stated in official
quarters today. This statement
was made in answer to reports that
a British destroyer was patrolling
the Moroccan coast.

French to Join Spanish

NEW YORK, June 11.—Morocco,
the trouble spot in northwestern
Africa, is again engaging serious
attention of European chancel-
lers. Checkmated in their fighting
with the Spaniards, Abd-el-Krim
and his doughty warriors of Riff,
recently turned rifles against the
French zone, and now face the pros-
pect of having to stand off the
legions of both powers.

A Franco-Spanish conference to
consider joint action is to open at
Madrid Monday.

Henry Ford Enters Negotiations For Purchase of Tampa Dock Company

TAMPA, June 11.—Negotiations
for purchase of the Tampa Dock
Company by Henry Ford, auto-
mobile manufacturer, have been
under way for several weeks and
are nearing consummation, it was
learned from reliable sources
Wednesday.

It is understood that Ford con-
templates extensive improvement
of the Tampa Dock Company ship-
yard and repair plant at the head
of the Ybor Channel, and that in
addition to this he proposes to
build a Ford assembly plant for
shipment of his cars on his steam-
ships to Cuba and other countries
to the southward, as well as for
Florida.

Collier Interested
It is known that Barron G. Col-
lier of New York and Everglades,
has been interested in this Tampa
property, along with Mr. Ford, but
the extent of his connection in it
is indefinite. Persons in close touch
with the New York advertising
millionaire say he has unlimited
belief in the future of Tampa.

L. Edli Knight, one of the owners
of the Tampa Dock Company, said
that plans for sale of the property
are under way, but have not been
completed. As the deal has not
yet been closed, he was unable to say

definitely whether the persons with
whom his firm is dealing are act-
ing for Mr. Ford or not, although
it was his belief that they are.

Although the matter is still pending
and no official announcement of it
has been made, it is no secret, and
talk concerning it has been com-
mon on the streets for several days.

Organized During War
The Tampa Dock Company was
organized during the World War,
by A. J. Knight, his son, L. Edli
Knight, and others, for the purpose
of building wooden steamships for
the Government. Five of these
ships of 3,500 tons each, were built
here.

The company now operates a
marine railway for hauling ves-
sels for repairs, and has a complete
plant for ship repairs of all kinds.
It also has a contract with the Sea-
board Air Line Railway company
for building and repairing railway
cars.

The property fronts on the twenty-
seven-foot wide channel, on the
east side of the Ybor Estuary, at
Seventeenth Street and First Avenue.

COMMISSION IS AGAINST SHORT SHOALS LEASE

Special Committee Opposes
Move and Secretary Davis
Announces Government To
Be Governed By Decision

Body Is Unanimous In Recommendation

Temporary Lease Might Mean
Delay by Congress in Adopt-
ing Final Policy on Plant

WASHINGTON, June 11.—Propo-
sals of the War Department for
a temporary lease of Muscle Shoals
pending final disposition by Con-
gress were disapproved Wednes-
day by the President's special com-
mission.

Acting Secretary Davis announ-
ced that the Department would be
governed by the commission's re-
commendation. Meanwhile, how-
ever, he has referred its communi-
cation to the chief of army engi-
neers for a study and report.

Advantage To Rentor
The major reasons assigned by
Chairman McKenzie for the decision
of the commission were that a
temporary lease might cause delay
by Congress in establishing a final
policy with respect to the great
Alabama plant and that the com-
pany obtaining a temporary lease
could "dig in" on the ground by
erecting buildings and facilities
that it would have the advantage
if Congress finally should deter-
mine on a permanent private lease.

The commission's decision was en-
dorsed in a letter to Acting Sec-
retary Davis in reply to a communi-
cation from him on April 4 asking
for an opinion as to leasing
temporarily or the sale of surplus
power developed before Congress
acts.

LONGWOOD BOND ISSUE FOR WATER SYSTEM PASSES

Citizens Pass \$21,000 Issue
By Vote of Five to One;
Work Will Be Rushed, Ac-
cording to Mayor Walker

By a vote of five to one, Long-
wood citizens Wednesday passed
favorably upon a \$21,000 bond is-
sue for the construction and in-
stallation of a municipal water
system. Results of the election
have been acclaimed with praise
by those who fostered passage of
the issue since it was put before
city council some time ago.

Longwood has engaged the ser-
vices of Joseph E. Craig, who for
the past few months has served as
consulting engineer for the city of
Sanford and under whose super-
vision the municipal waterworks sys-
tem in this city has been com-
pleted. Mr. Craig will serve in
the same capacity in Longwood, as
he has in this city, it is announced.

Mayor J. E. Walker, in com-
menting upon the bond election,
stated that he and other city of-
ficials will lend every effort to
rush work on the new system in
order that Longwood may have a
municipal water system by Nov.
15. Bids for the installation of the
system will be received in a few
weeks and work upon it is expect-
ed to be started shortly thereafter.

Praise for the enterprise of citi-
zens of Longwood was sounded by
Mayor Walker today, who declared
that the town has long felt
the need of good water. The rapid
growth and expansion of the
community had convinced its citi-
zens that no further delay should
be made in the matter, he said,
and accordingly went to the polls
and showed their whole-hearted
support of the project.

"With its new water system in-
stalled, Longwood is bound to
grow faster," the mayor contin-
ued, "and in a short time it will
become one of the most thriving
and progressive communities, not
only in Seminole county but in this
section of the state."

Airplane ambulances have been
used with continuous success for
two years by the French operating
in Algeria, Morocco, and Syria.

Belgium Officially Proclaimed Winner Of Big Balloon Race

BRUSSELS, June 11.—Belgium
has won the first renewal of the
Gordon Bennett cup race for light-
er-than-air craft. This fact be-
came definitely known Wednesday
evening when news reached Brus-
sels of the landing of M. Veenstra,
piloting the Belgian bag
Prince Leopold at Cape Toriann,
Spain, after having traversed more
than 800 miles. Torianna is on
the Atlantic coast about 50 miles
from Corunna.

Previously Veenstra had not been
heard from since the race started
near here on Sunday afternoon.
Announcement that he had landed
safely relieved the Aero Club
of Belgium of the necessity of
making a ruling whether Wade T.
Van Orman, the American acro-
naut, who piloted the Goodyear
III, but who fell into the sea off
Ushant light after having flown
441 miles, should be disqualified.

Van Orman was picked up by
the steamer Vatarland, and there
was some question as to whether
or not this did not eliminate him
from the race, although he had
gone farther than the other pilots
who had reported, led by Ernest
de Myster, Belgium's champion, who
flew 422 miles.

COPELAND URGES PEACE IN PARTY IN 1928 ELECTION

New York Senator Scores Religious, Sectional, Occupational and Other Differences Existing in Ranks

KANSAS CITY, Mo., June 11.—Urging reorganization of a "democratized" Democracy, Senator Royal S. Copeland of New York declared here last night that the party could never win until it put aside its "sectional, occupational and religious differences."

"Speaking before the Women's Jefferson Democratic club, Senator Copeland scored the record of the New York convention last summer and predicted that it would take years to efface from the minds of the American people the impression gained by "the foolhardy procedure of that terrible convention."

Strike Situation On River Front Acute, Paralyzes Shipping

(Continued On Page Two)

Marines Protect College. HONG KONG, June 11.—U. S. marines have been landed on Honan Island in Pearl River near Canton to protect the American Christian College.

U. S. Gunboat Fired Upon. CANTON, June 11.—The American gunboat Pampanga of the South China patrol was fired upon near Whampoa today while conveying a supply launch to the Canton Christian College. The Pampanga returned the fire but no casualties were reported.

COMMISSION IS AGAINST SHORT SHOALS LEASE

(Continued On Page Two) that this will be an added reason why Congress will early determine upon a policy—either of government operation or of private lease. Chairman McKenzie and other members of the commission believe firmly that the Muscle Shoals project should be treated as a nitrate and not a power project as Congress intended it should in providing for its establishment. They feel that if even a temporary power lease is granted the nitrate feature for national defense and for fertilizer for the farmers will be lost sight of forever.

Southern Golf Meet Gets Under Way At Asheville This Week

ASHEVILLE, N. C., June 11.—The annual tournament of the Southern Golf Association, opening on the course of the Biltmore Forest Country Club Tuesday, is the first held in the Carolinas since 1902, a year after the organization of the association. The 1902 tournament was held over the course of the Asheville Country Club, a charter member of the association. J. J. McCloskey, of Asheville was the first vice president of the association and 1903-04 was president.

H. F. Smith, of Nashville, Tenn., has been president of the Southern Golf Association for 21 years. Agreement with the directors of the association will constitute the tournament committee.

The annual meeting of the association will be held at the Biltmore Forest Country Club Tuesday evening, the board of directors meeting immediately after the annual meeting.

Virtue being its own reward, the recent Congressional salary increase was for something else.—Wall Street Journal.

Nature's Strong Man Is the Man with Fresh, Red Blood

The stomach is the center of the body from which radiates out vitality, strenuousness, our fighting strength. A healthy stomach turns the food we eat into nourishment for the blood stream and the nerves. Dr. Pierce's Golden Medical Discovery tones up the stomach walls, removes the poisonous gases from the system. Impure germs and accumulations begin to separate in the blood and are expelled through the liver, bowels and kidneys. Send for trial pkg. to Dr. Pierce's Invalids Hotel, Buffalo, N. Y.

Banquet Reservations May Be Made As Late As Friday By Alumni

Reservations for the Sanford High School Alumni Banquet, which will be held at the Seminole Cafe Friday night at 8 o'clock, may be secured until noon tomorrow, it was announced this afternoon by C. L. Walker, president of the Alumni Association.

It is believed that a large number who expect to attend have not yet made their reservations. These persons are especially requested to reserve their plates at once, so that it may be definitely known how many to prepare for. The banquet will start at 8 o'clock, and immediately after it is over the Alumni and their friends will journey to the Sanford County Club for a dance which is being looked forward to with much anticipation.

Charitans take new names to keep pace with the times, but a "consulting psychologist" is often nothing more than the old-time patent medicine faker.

Plan For Railroad Into Fort Myers Is Filed By Seaboard

WASHINGTON, June 11.—Conditions under which the Seaboard Air Line railroad proposes to extend its line from Fort Myers, Fla., south and west to Naples on the west coast of the same state, were filed Wednesday by the company with the I. C. C. The Naples, Seaboard and Gulf railway, newly organized by John S. Jones, of Columbus, sought permission to build from Naples to the south bank of eastern river, a distance of 20 miles, all funds to be furnished by the company organizers.

A copy of a contract between Mr. Jones and the Seaboard company by which the latter organization undertook to build eighteen miles additional from Fort Myers to the Estero river and later on to acquire control of the Naples company was included in the document.

No estimates of cost were given,

but the project was said to be ready and a completion date in February, 1926, was set for it.

Georgia-Florida Elevated. WASHINGTON, June 11.—The valuation of \$2,445,625, tentatively was fixed by the Interstate Commerce Commission Wednesday upon the Georgia Florida and Alabama railroad. The Commission's valuation of \$2,445,625 compares with the capital issues of \$9,869,000 and an investment account of \$9,197,146.

GUARD IS EXONERATED

NEW YORK, June 11.—James W. Gerard, former Ambassador to Germany, today appeared in the supreme court and told of his activities as treasurer of the Democratic national committee in connection with the suit against the committee by Van Patten, Inc., and advertising agency for \$84,000. Earlier in the day Mr. Gerard was exonerated of charges of contempt of court.

Mrs. Elizabeth Williams, Complainant
vs.
E. H. Tomlinson, et al., Defendants.

ORDER OF PUBLICATION
The State of Florida to: E. H. Tomlinson, Erasmus H. Tomlinson, Jesse A. Icenhour, John P. Dunn, Howard H. Kimball, Lemuel O. Rawson, and Annie E. Rawson, and each of said parties if living, and if dead all parties claiming interest in the land and premises involved in this suit under the said E. H. Tomlinson, Erasmus H. Tomlinson, Jesse A. Icenhour, John P. Dunn, Howard H. Kimball, Lemuel O. Rawson, and Annie E. Rawson, and each of them deceased or otherwise, and all per-

ties interested in the lands and premises involved in this suit: It appearing by the sworn bill of complaint in this cause that you may be interested in that certain lot, piece or parcel of land situated in Seminole County, Florida, and described as follows, to wit: The North 12 acres of Lot 2 of Section 5, Township 29 South, Range 30 East.

It is therefore ordered that you and each of you, are required to appear to the bill of complaint in this cause on Monday, the 8th day of July, 1925, at the Court House at Sanford, Seminole County, Florida; otherwise Decree Pro Confesso will be entered against you, said cause being a suit to quiet title to the above described tract of land in this complainant, Mrs. Elizabeth Williams.

It is further ordered that this order be published once a week for eight consecutive weeks in the Sanford Herald, a newspaper published in Sanford, Seminole County, Florida.
DONE and ORDERED this 7th day of May, 1925
V. E. DOUGLASS,
Clerk of the Circuit Court, Seminole County, Florida.
By A. M. WEEKS, Deputy Clerk.

ODD, but true, nevertheless.

If you invest in Oak Hill—a beautifully located close-in subdivision, where prices are right—Oak Hill will make you money without any help or direction from you!

MANY, by making such investments in Sanford in earlier years, have reaped great profits. Today is the time to buy in Oak Hill, that naturally beautiful subdivision just within the city limits. There you can buy at similar prices to those paid in Sanford years ago for similarly located property.

GO to see Oak Hill today. Consider it thoroughly. Use the same business judgment that you do when buying any other commodity. There are definite reasons for value always, and the basic reason for increased value and enhanced profits in real estate are three in one—LOCATION.

OAK HILL has it—in a paramount degree. Oak Hill's location is absolutely incomparable. It can never be duplicated. There you have one of the great fundamental causes for the success that Oak Hill has met with.

MANY wise investors saw this in the first place and have acted accordingly. WHY NOT YOU?

BIBLE THOUGHT FOR TODAY: NOT MEAT AND DRINK.—For the kingdom of God is not meat and drink, but righteousness, and peace, and joy in the Holy Ghost. Romans xiv:17.

MARY ELLEN

There's a river by your window, Mary Ellen, Mary Ellen, And in the heavy shadow of the shore...

Singing slowly, singing softly of a lovely lazy river, Night-wandering, a dusk afar and free, Of a woman in the moonlight paler even than the coral...

There's a whisper, Mary Ellen, cleaving through the river grasses, The croaking onrs go seaward and depart, The night is singing; water ever ripples over water, And deep your eyes are, drenching, feather hair.

Fall will soon be here. Will it find anything done in the new First Street Extension section?

Evolution or no evolution, we'll have to admit that some men make monkeys out of themselves when they are in love.

A lot of people who are good mathematicians don't know how much is half of the road when it comes to driving automobiles.

The weather has become so hot in Paris that it is reported the ladies have discarded their stockings. Thank goodness, we haven't come to that yet.

A Connecticut paper in describing a wedding says, "the bride wore a June Night dress and carried a bouquet of gardenias." Oh, tell us what the bridegroom wore.

Today's best laugh: The first observation of the Americans now landing in France is, "Lafayette, where's the beer?"—James J. Montague in New York Herald-Tribune.

They say necessity is the mother of invention and we wonder whether the hot weather had anything to do with this "Up-to-the-knee movement in ladies' dresses."

What has become of the old fashioned girl who used to pinch her cheeks to give her that school-girl complexion?—Sanford Herald. She now has a daughter who comes out with a brand new complexion every day, just fresh from the drug store.—Tri-City News.

Perhaps another lot cleaning campaign might improve the general appearance of the city. Especially is attention needed in the residential section of the southside where there are lots that have had no attention for years. If the owners don't clean up their property, adjacent residents who take pride in the well kept condition of their lawns should not be made to suffer. June would be a good month to begin this badly needed work.

"Strong reasons make strong actions."

"Those sisters wild, called Hope and Fear."—Shelley.

Those brothers wild, called Guilt and Beer.—Exchange.

The latter Par, though it's called Near.—Judd Lewis.

Now, neither one is found out here.—Adam Brede.

Then what's the use of all this smart?—Tom Denning.

It fills a lot a space of dear!—R. M. M.

Then, in other words, we get no cheer.—Jiggs.

Makes life less arduous and drear.—Ema Spencer.

So just for fun we print it here.—Charlie Loedy.

Well, go ahead 'n' see if we kear.—J. D. S.

Ah, here's where we bring up the rear.—Henry Vance.

Not so fast for we're in gear.

Good News For The Tall Fellows

We have our Rotary Club, our Kiwanis Club, and several other clubs, all with good ideals and all achieving great results, but now along comes the Long Fellow Club with an organization which will have a wonderful appeal to many men and which we predict will soon become great in membership.

Up in Marshfield, Oregon recently twenty-eight men, all six-footers or more, got together and perfected an organization known as the Long Fellow Club No. 1 for the purpose of alleviating the woes of tall men. They hope to make the club national in scope.

"To make life more comfortable and longer for tall men," is one of the purposes of the club. Others are: "To promote closer relationship and friendship among members."

"To furnish each member all possible information bearing on improvements made in living conditions for tall men."

These "higher-ups" hope to accomplish many needed reforms without unnecessary delay. One of the first tasks will be to start a movement for longer beds in hotels; longer berths in Pullman cars and staterooms; longer bathtubs; for awnings on streets which will not cause the downtrodden of this group to dodge continually while strolling down the streets, and for more comfortable car and theater seats.

Sanford has a good many men eligible for membership in such an organization. Perhaps this city will form the second Long Fellow club of the country.

"IF" He Had Jim O'Connell's Money

If he had James D. O'Connell's money he thinks he would be just as great a philanthropist as is the kindly Canadian. The hypothetical young man of whom we are speaking is just like the rest of us. He reads about the "Picnic King", James O'Connell who spends something like two hundred thousand dollars every year providing picnics with "everything free" for a half a million, and more, boys and girls in Canada, the United States, and some of the West India Islands.

O'Connell now a man in his sixties remembers a time when he tried to have a glorious picnic. He had sold some junk for nine cents, junk collected after days of labor for he was only ten years old. Five of the hard-earned pennies he put into a card-board box which he labeled "BANK". The other four he sent to town by an older brother for a supply of candy. Then he invited all the boys and girls in the neighborhood to come to the prospective feast. And when the big brother came home he brought all the candy the money bought—eight gum drops.

That was fifty years ago. Since then O'Connell has become a wealthy man. And he is spending his fortune establishing permanent funds that will provide wonderful picnics, with "everything free", so long as trust-funds exist.

It is an unusual philanthropy, and a mighty happy idea. O'Connell is laying up treasures in Heaven that ought to keep him smiling through all eternity. But while this stopping for a bit of praise for the children's big friend is genuine pleasure, The Herald wants to get back to our hypothetical young man who would be doing quite as much as is James O'Connell, for other folks, if he had the money.

That "if" is the only drawback. He has to have a million dollars before he can start giving picnics and other holiday pleasures to boys and girls in his home town.

Our hypothetical young man, who remember, is just like the rest of us, doesn't risk giving pleasure with the twenty-five cents with which he sets himself up to a cool drink or two. He doesn't care to emulate Jimmie O'Connell to the extent of giving some raggedy little boys the price of a cane fishing pole and line all round. He doesn't give many nickles to the shabby little girl, peering into the entrancing windows of the five and ten cent stores.

Being just like the rest of us, the hypothetical young man is going to start being generous, and thoughtful, and joy-giving WHEN he accumulates a great fortune. THEN he is going to do big things for everybody just like Jimmie O'Connell.

And little every-day acts of kindness are worth all the big philanthropies in the world! Most of our "ifs", after all, are a camouflage for our inefficiency or our selfishness. Big hearts can spend their pennies right royally.

MY FAVORITE STORIES

BY IRVIN S. COBB

The president of one of our large railroads has always enjoyed life and the living of it. He has ever favored good things to eat and plenty of them, good things to drink and more of the same, long back, strong cigars to smoke and a box full handy.

Until he reached middle age and had progressed a trifle beyond it, his customary modes seemed to agree with him. But about a year ago his health rather failed him. At least, he developed nerves and curious sensations.

In the midwestern city where he lives he had the best available medical advice. But treatment, as locally applied, did not seem to help him any. The annoying and alarming symptoms persisted.

So in the fall he packed up and went to New York. Arriving here he summoned three of the leading diagnosticians in stomach trouble. These high-priced scientists came to him, equipped with small black bugs. They examined the sufferer thoroughly. They asked him countless questions—all about his diet, his habits, his fam-

ily history, his emotions, sensations, feelings, likes and dislikes. Then they withdrew for a consultation.

After the lapse of an hour they reentered his presence. The oldest specialist acted as spokesman.

"Mr. Blank," he said, "my conferees and I have considered your case from every standpoint. I now give you our deliberate judgment. You must cut those thick steaks and rich pastries thick with your butter; you must cut out black coffee and heavy cigars; above all things, you must cut out all alcoholic stimulant. You must alter your plan of life altogether—live hereafter on the strictest and simplest of diets, refrain from smoking, avoid all exertion and all excitement, go to bed every night at nine o'clock and get up every morning at six."

"And if I should do all these things, which you gentlemen recommended—what then?" asked the railroad.

"In that event you should live at least five years."

"Mr. Blank took a deep breath. "What for?" he asked.

THE BIG POCKETBOOK

LOS ANGELES TIMES

Because Uncle Sam sent over to Europe and financed the world and the war and now hesitates to remit the debts of those countries he is accused of all sorts of crimes and misdemeanors. They cartoon him and lampoon him unmercifully. They snip at the hand that helped them.

It becomes Uncle Sam to re-strait two of Uncle Sam's dollars made mighty fine cymbals. When they chimed to the "Star Spangled Banner" it was gloriously sweet to European ears. But it seems they not only enjoyed the music, but they now want the cymbal thrown in.

It becomes Uncle Sam to re-gent the instances of generosity in the past. He will likely respond with more than metallic sympathy to Japan in her new earthquake horror.

The big pocketbook has a beautiful heart inside. And that heart is the engine that is keeping the world on the up-grade. If there had been no heart there Prussianism would hold Europe as a vassal at this hour.

Uncle Sam may have patches on his pants; but he has a pocketbook right behind the patch that is a little fatter than some other volumes of that sort; because he does not go around knocking chips off other bullies' shoulders.

Uncle Sam has not made a bad neighbor. When a neighbor nation throws some of its refuse and tin cans into his back yard he salvages what he can and then telephones the junk man.

If a bandit bursts into his neighbor's home Uncle Sam is the first to rush in and capture the scamp and protect the household. But is it fair to call him a Shylock because he does not feel the family forever after?

of that.—New York American.

A doctor asserts that cross-word puzzles have reunited many families. Hands across the dictionary.—Brooklyn Eagle.

As Brisbane Sees It

Men to Haul Earth's Forces. Smith and McAdoo Will Try. Inside the Hen's Egg. Proud Man—His Egg. By ARTHUR BRISBANE (Copyright 1925)

THE SCIENTIFIC person says "the recent terrific heat comes from spots on the sun, unusually fierce."

Another says "the heat travels north from tropical jungles, thanks to atmospheric conditions."

Accidental conditions of the air lanes send us heat from the Equator. How soon shall we learn to do, for ourselves, what nature does fitfully and at the wrong time?

DO YOU doubt that fully civilized men will transfer surplus heat from the Equator to the North Pole? That will seem a modest accomplishment some centuries hence.

It seems difficult to us. But suppose you had predicted two hundred years ago that the lightning flashes in the sky, occasionally killing men, would be harnessed one day and made to run a washing machine, a fan, or a carpet sweeper.

Men will manage and direct the earth's heat as easily as they now direct heat from the furnaces.

KIND HEARTED persons raised a quarter of a million to pay the Democratic party's debts for 1924. Mr. John W. Davis, you are told, has promised to keep control of the party, and not allow McAdoo, of Governor Smith, to take control of the 1928 convention.

Easy to promise, not easy to do. Both Smith and McAdoo intend to run that convention. If Frank Hague, of New Jersey, is made chairman, he will not help the programme to suppress Smith. And, anyhow, the latter knows SOMETHING about politics and conventions.

You will probably have the Smith-McAdoo contest over again.

THE TENNESSEE Legislature, having forbidden teaching evolution, is now requested, by a sectarian society, to forbid teaching that the world is round, or that it revolves about the sun. That would be consistent.

WHY NOT, also, forbid anybody to study evolution as it goes on, during twenty-one days, inside a hen's egg. The innocent young man, observing evolution within the egg, might be led to ask the impious question "Is the earth, perhaps, a great egg, in which life develops, through evolution, as it does within the eggshell?"

A really intellectual hen would tell you that the chick was inside the shell, feathers, beak, eyes, feet and all, from the moment it was laid. You could not convince her that any evolution goes on in that shell. She's chick's mother, and ought to know.

SHOULD A LAW be passed against teaching that the earth is round? W. J. Bryan, according to semi-official announcement, will not act as prosecutor, if that law is violated. Years of deep study have convinced Mr. Bryan that the earth MAY be round, for all he knows, although it LOOKS flat, and the Bible says it has four corners.

VANCE THOMPSON, writer, worked in New York, went to France, died, will be cremated in Marseilles, and his ashes sent to rest in Los Angeles, at his request. Had he gone to Los Angeles, instead of Europe, as 1,000,000 Los Angelesians will assure you, there would have been no ashes, but many long years of life instead.

MR. THOMPSON wrote "Eat and Grow Thin" and other books. Concerning love, he said "when a man loves a woman, in proportion to what he gives her of himself, he sacrifices some essential part of his ego." Too bad, too bad.

How seriously men take their important affections and careers. If a man sacrifices anything in his devotion to a good woman, it is part of the monkey within him, and that part of his ego is no great loss.

THE SUPREME Court upholds as constitutional the criminal anarchy law, under which Benjamin Gitlow was sentenced in 1920.

Justices Brandeis and Holmes write dissenting opinions. Justice Holmes says the article published by Gitlow, that caused his conviction, presented no immediate danger of the overthrow of this Government by force.

It is just as well, however, not to run any risks.

HOWEVER WEAK this nation may be, in the face of a spirited article written by an obscure Socialist, it is a strong nation, financially.

U. S. Government bonds went higher than ever yesterday.

Those assured by this writer during the bond selling campaign that bonds would go above par will please note that "Treasury four and a quarters" sold yesterday at 107.10.

YESTERDAY THE Government issued \$125,000,000 three per cent certificates. The issue is the smallest since the war, to the disappointment of finance.

As was said by the late J. Pierpont Morgan, who knew, "it is not wise to sell this country short." But there is considerable consideration when some radical says or writes that he intends to overthrow our government as soon as he can get around to it.

JUDGE GARY is studying diet in the model hospital built for its employes by the steel company at Birmingham.

"Plain food, plainly prepared, plenty of good, not over-strenuous exercise, and plenty of sleep, with no worry." Such is Judge Gary's triple health recommendation.

LIL' PLAYMATES

DAN DOBBS SAYS

All work and no pay makes but a scarce article. Children and flappers are better seen than heard. Saw an auto so old it must be nearly paid for. A thing of beauty wants cream, and so forever. There are those who work because they are too lazy to loaf. Treasure hunters are not so distinct. They are called realtors now. The hand that rocks the cradle is the hand that ruins the world. Only nice thing about a big city is you never meet anyone you know. A girl friend tells us she refused a man's heart because his face went with it. The quickest way to get a boy to take a bath is by asking him to water the lawn. There will be gold at the end of the rainbow if you save it while your way there. Boat raced a train in New York and won, and we had no idea New York was that wet. One oyster can lay 60,000 eggs. You might cut this egg paste in your henhouse. What's worse than the life of a canary bird while the woman the house is out of town? The weeds in our garden are growing so fast you can hear their leaves click as they unfold.

UNSAID THINGS

TAMPA TIMES

Life sometimes seems infinitely articulate. There are a hundred thousand words in the dictionary and there are millions on our tongues, and it seems impossible that there should be any corner in our hearts unilluminated by language, or any thought or feeling that we do not ever and over convey to others. Yet there are few human beings who are not daily impressed by unexpressed, more or less consciously by the things that are not said.

There are the things we long to say and cannot, for all the multiplicity of words. What a surge of splendid or clever sayings arises in all of us when the opportunity is wanting and then, when it comes, we stammer and falter, utterly fails us. There is the good advice that we might give. We know just what people ought to do, we see how we might help them; yet we are tongue-tied until they go to destruction before our eyes. And there are our own hopes and aspirations. If we could make people understand them as we feel them, the world would be a different world for ourselves and for others. Most of all, there is

affection. It seems as if the language were rich enough to pour out all that anyone could feel. Yet, somehow, even with those we love best, the love stays hidden in our hearts and all that words can do is to disguise tenderness with a jest or betray it with stupid conventionalities that are more misleading than mockery. And on the other side are the things we are glad we didn't find words for, though we strove hard enough at the moment. We are like the woman who, when she was reproached for her bitter tongue remarked: "Ah! You know the things I do say, but you never know the things I don't say." There are always worse things that might be said, and when we repress harsh phrases we should allow for the possible restraint that does not appear.

So, for the multitude of words, a vast part of life goes unexpressed. Some times the worst, often the very best, and always the most interesting secrets of men's hearts have to be guessed at, and the human soul remains a riddle, in spite of our endless effort to unveil its inmost depths.

RIGHTING A WRONG

ST. PETERSBURG INDEPENDENT

Another chapter in the most discreditable volume of American history has been written, but the book is far from closed. The Doherty leases on the Elks Halls reserve have been declared void by a judgment of a primary court but must pass through two more stages before "finis" can be written to the proceedings. The next step is to the appellate court and then to the supreme court of the United States.

Paul J. McCormick, of Los Angeles, who ordered the leases surrendered, occupies a post similar to that of Judge Call, of Florida. His opinion, which may or may not turn out to be controlling, is well worth examination. He cancels the leases on two main grounds: First, that the payment of \$100,000 by Edward L. Doherty to Albert B. Fall, then secretary of the interior, who warded the contracts without taking bids, is contra bona mores (against good manners) and against public policy. Second because President Harding exceeded his powers in transferring authority over the navy's oil fields from the navy department to the interior.

The guilt or innocence of Mr. Fall was not at issue in this hearing. The Judge therefore dealt with him in carefully restrained language when he used the phrase contra bona mores. Mr. Fall's personal accountability will be determined under the indictments returned under the indictments returned just this week by the District of Columbia court. What Judge McCormick actually thinks of Mr. Fall's performance is shown by his declaration that the "payment constitutes a fraud upon the United States" rendering void all of the contracts between the Doherty companies and the United States. This judicial notice of the

existence of fraud will undoubtedly be used by the government's attorneys to resist reimbursing the oil companies for any expenditures they may have made under the leases. Although Judge McCormick ordered such payments to be fairly determined by a master in chancery, the government's attorneys will enjoy exceedingly tenable ground in argument that the dishonesty of the nullifies any claim for recompense. The cost of the fraud should not fall upon the public.

Senator Walsh's constant insistence that congress had never vested the chief executive with the power to transfer authority over the reserves from one department to another is completely upheld by the court. This reflects not on President Harding but on Harry Dugherty, the then attorney general, who was undoubtedly consulted for legal advice.

The court also reflects sharply on the conspirators in the sentence that the work in Hawaii was kept secret "in order that congress and the public should not know what was being done and not military reasons." Merely incompetent in its appraisal of Secretary Denby in the line that he was "passive throughout all the negotiations and signed the contracts and leases under misapprehension and without knowledge of the contents of the documents."

We have at last an opinion on this whole miserable transaction which cannot be accused of partisanship. That portion of the public which had heretofore been inclined to lend an ear to the cry of "politics" wherever "oil" was mentioned must be impressed with the gravity of the court's conclusions. A step toward righting a wrong has been taken which is perhaps more than the public in its amazing indifference to this unprecedented scandal, has deserved.

IT TAKES every man fifty years to learn how to live. "At fifty a man is either a fool or a physician." But if a man at fifty will do what he knows he OUGHT to do, he may easily live fifty years longer.

TO KNOW is one thing, to DO is another.

THE NINETEEN most beautiful girls of Vassar's sophomore class will carry the daisy chain this year for the last time. The heavy chain,

of two strands, 300 feet long, ten inches thick, hurts the girls' shoulders, and they carry the chain resting on cushions.

Besides, girls are changing, and perhaps the young ladies dislike presenting themselves as very beautiful. If so, they make a mistake. Nothing that they learn is more important than beauty. Beauty is important and perfect in itself, and it stimulates ambition, consider Helen of Troy. Had she been plain, you might never have read Homer.

NOTICE
Persons who wish to make up their minds for the Fifth through the 15th, please see Mrs. Babbitt at the Grammar School, Monday, June 15 at 8 o'clock.

Miscellaneous Shower Give For Miss Frank On Monday Afternoon

A lovely party of Monday afternoon was the miscellaneous shower, honoring Miss Gussie Frank, a June bride-elect which was given by Mrs. Leslie Went and Mrs. George Shipp, at the home of Mrs. Went on Central Street.

The color scheme of pink and lavender was beautifully carried out in the decorations in which were used roses and asters with fern.

A musical program, both vocal and instrumental, was given by Miss Pearl Robson, Miss Virginia Shipp and Miss Luella Mahoney, which gave much pleasure to the assembled guests.

Many and varied were the beautiful and useful gifts which filled to overflowing, "cupids wagon," drawn by little Misses Mary Went and Dorothy Smith and presented to the bride-to-be who was a picture of loveliness in an orchid gown. She was seated in a bower of green fern and pink roses. The gifts were accepted with a prettily spoken expression of appreciation.

The hostesses served dainty refreshments. The guests included the "Ladies Union", a number of neighbors and other friends.

Spanish War Auxiliary Will Hold Flag Sale Here Next Saturday

On Saturday committees of ladies and girls representing the auxiliary of the United Spanish War Veterans will put on a sale of small flags for the benefit of the relief work of the auxiliary and camp in celebration of Flag Day, June 14, which occurs Sunday. Homes for veterans and orphans are maintained by the United Spanish War Veterans and on "Flag Day" funds are raised for this purpose in every section of the country.

It is urged by these organizations that the flag be displayed from every home and on public buildings in observance of the day. This being the first call upon the public of Sanford that has been made by Col. Theodore Roosevelt Auxiliary No. 3 U. S. W. V., it is hoped there will be a generous response to the plea.

LOU SMITH TERHEUN, Department President.

Missionary Union Holds Regular Meet

The Woman's Missionary Union met at the First Baptist Church Tuesday afternoon for the regular business meeting. The chairman, Mrs. L. N. Hansell, presided.

Reports from the different circles were given. A motion was made and carried to have one meeting each month during July, August and September, combining the literary and business meetings. These meetings are to be held the second Tuesday of each month.

Arrangements were made for all members to attend the rally at Monroe Thursday, June 11. All who desire to go should be at the church at 9:30 o'clock Thursday morning.

Huston—McAlexander

Mr. and Mrs. Samuel A. Huston announce the marriage of their daughter, Mildred Louise to Watson Le Roy McAlexander on June 10 at St. Mark's Episcopal Church, Cocoa.

Polish Nurses Turned Out By The Red Cross

WARSAW, June 11.—The Warsaw Nursing School, founded by the American Red Cross and still supported in part by it has celebrated its third commencement exercises. Twelve diplomas were issued to young girls, who had finished a two years' course.

Miss Bridge, the head of the school, spoke in Polish, which she has mastered since 1921. The work of the school is so highly appreciated that the Polish government has set aside a sum of money for a new building.

A pair of dreamy eyes can put a man to sleep.

They will be accompanied by their children, Eleanor, Henry, Jodah and Perry. Their daughter, Mrs. Robert Merritt, weather and husband and little daughter, Ellen will keep house at the Cameron home during their absence. Mrs. Cameron's mother Mrs. R. F. Holzendorf at Arcadia.

Women To Have Busy Summer At Wembley

LONDON, June 11.—Women are going to have more to do with this year's Wembley Exhibition than

they did last year. Queen Mary will pay many more visits during the summer, if her engagements permit. Under the presidency of the Duchess of York and the vice-presidency of Princess Mary, the women's section has organized many functions including a "National Baby Week." The march of women into spheres hitherto exclusively held by men is indicated by the intention to hold a conference of women engineers.

The majority of women, however, will be engaged principally in the food section, giving hints on household affairs, the selection of fruits and food, and demonstrating the latest household labor savings appliances.

Doing a lot of work wouldn't be so bad if you could do it quickly without any effort.

Connie Mack Throws In His Reserves and Cops Contest In Ninth Frame; Senators Win From Ty Cobb's Team

PHILADELPHIA, June 11.—Throwing his reserve strength into the breach in the ninth inning of Wednesday's opener with Chicago, Connie Mack yanked victory from defeat by a score of 9 to 8. Two pinch singles, a sacrifice and three more singles in succession allowed Philadelphia to score three runs in the ninth to win.

YANKS STAGE RALLY NEW YORK, June 11.—The Yankees came from behind in the tenth Wednesday to win the first game of a series with Cleveland, 6 to 5. A triple by Wanning followed by a double by Combs, a base on balls to Ruth and a triple by Meusel brought the winning runs. Five home runs were made in the game, Ernie Johnson's homer enabling New York to tie the score in the ninth.

SENIATORS HIT HARD WASHINGTON, June 11.—The Senators pounded three Detroit pitchers for a total of 17 hits and won the first game of their series here Wednesday, 11 to 7. Cobb and Wingo each got a home run off Coveleskie in the sixth.

BROWNS RUN WILD BOSTON, June 11.—St. Louis' batters ran wild in the first game of the series with Boston Wednesday. They made 17 hits and won 15 to 8, aided materially by seven Boston errors.

CINCINNATI COPS THREE IN ROW BY BEATING PHILLIES

Cardinals Also Make It Three Straight From Brooklyn; Dean Pitches Fine Game And Giants Beat Chicago

CINCINNATI, June 11.—Cincinnati took the third straight game of the series from Philadelphia, 3 to 2, yesterday. Critz opened the first inning for the Reds by knocking in a home run.

CHICAGO FANS SHIVER CHICAGO, June 11.—Wayland Deans, held the Cubs to eight scattered hits yesterday and the Giants won the third game of the series, 5 to 3. Fans shivered in the cold wind that blew off Lake Michigan.

HORNBY HITS HOMER ST. LOUIS, June 11.—Making it three in a row from the Brooklyn Robins, the Cardinals won yesterday's game, 11 to 2, of which eight runs were scored in the fifth. Hornby batted into the right field bleachers for his sixteenth home run this year.

BRVES HIT TIMELY PITTSBURGH, June 11.—Boston hit three Pittsburgh pitchers timely Wednesday and won the third game of the series, 6 to 4. Three of Pittsburgh's runs were accounted for with a home run by Traynor with two runners on base.

Americans Taking Lead In Swimming At British College

OXFORD, England, June 10.—On present form the Oxford University swimming team for this term will be composed largely of Americans. In the races for the freshmen B. Brodie, of Failing school, won the 50 yards in good time from H. M. Cleckley, the Georgia hurdler, and J. L. Merrill of California, the middleweight boxing champion of the university led in the 100 yards. Brodie has a smooth easy stroke and is one of the most promising swimmers in the university. Another clever American swimmer is C. C. Fletcher of Pembroke college, who has made all but two of Oxford's goals at water polo this season.

Trousers Grow Fuller As Skirts Get Shorter Among The English

LONDON, June 12.—There has been much speculation among local tailors and male members of the smart set whether royalty would take up the "elephant leg" trousers which have proved very popular this spring at Oxford. There was quite a suggestion of flowing fulness in a blue-crepe suit worn by the Duke of York when he opened the Wembley Exhibition Garden Club recently, which caused no end of comment. The duke's trousers were just full enough to swing a little as he walked.

Reports that "bag" or "bloomer" trousers, as introduced by the university students, are to be worn this summer has been welcome news to the cloth trade at Bradford, which has been in the doldrums since short skirts for young women became the rage.

— plus one advantage no other open car can offer

HERE is a sturdy, low-priced car of the very finest quality — the new Studebaker Standard Six Duplex-Phaeton.

It is the most powerful car of its size and weight, with every proved advantage that a high-grade open car can offer — rugged dependability, brilliant performance, outstanding comfort.

In addition, it has one great advantage no other open car provides — Duplex roller side enclosures that give enclosed-car protection in stormy weather. You make the change in 30 seconds—without leaving the seat.

Built complete by Studebaker—both body and chassis—in great manufacturing plants where the overhead is shared by three different models. Thus only "one manufacturing profit" is included in the low purchase price.

Come in and inspect this new-type car—see this exclusive Duplex convenience—learn the value Studebaker offers before you buy.

Classified advertisements have come to be an American institution—they vitally concern every member of the family.

Many men and women have become habitual readers of classified advertisements because they have found it a very profitable habit, indeed.

Pick Up Today's Herald read through the classified advertisements and learn for yourself why classified advertising is so important.

Double Your Investment

In the centre of two proposed highly developed sub-divisions on paved road, facing loading station, and one and half miles from Post office, **TWELVE ACRES TILED, 4 wells, six room house, two story barn, two mules, two horse wagon; all kinds of farming implements. Price \$16,000.00. Good Terms.**

Seminole Business Exchange

221-E First Street, opposite postoffice

"Why! He's Nothing But Skin and Bones" "Marry Him? Never"

"Quit kidding me, Agam; when I get ready to land a man he's got to be a real man with plenty of good healthy flesh on his bones."

"Of course, I dance with Ed; He's a good enough fellow and I just feel sorry for him, but no skinniness, hollow checked spindles shanked with is going to sail the voyage of life with me."

"Cheer up, Ed—things aren't as bad as they look to you right now. Many hundreds of skinny, gaunt, emaciated men looked even worse than you do till someone told them about McCoy's Cod Liver Oil Compound Tablets (the new way to take Cod Liver Oil) and how it would put pounds of good firm, healthy flesh on their bones in just a few weeks."

Nothing like these health creating weight producing tablets for skinny, underweight men, as thousands can testify. Start to take them today—60 tablets—60 cents at Bower's Pharmacy, Union Pharmacy or any real druggist anywhere in North or South America.

And listen; if they don't put 5 pounds of good flesh on you in 30 days, get your money back—that's fair enough, but be sure—very sure that you get McCoy's Cod Liver Oil Compound Tablets—the original and genuine.

Dancing frocks have done much toward keeping us from being shocked by bathing suits.

Now it would seem that sitting on a bank and holding a light pole and waiting for the fish to bite would be about as easy a job as even a lay man could crave. But not so with this friend of mine. He says it takes an expert to catch fish. He says he studied an encyclopedia about fish and one of the things that he learned was that a fish cannot survive in the water. This gave him a big idea. He filled his bait can with red pepper and went out to the old fish hole. The first thing he was sure of, if anything gets red pepper in its nose it simply has to sneeze. So he sprinkled red pepper all over the pond and waited.

In a few minutes the fish began coming out on the bank to sneeze. Whenever a particularly nice fish would come out and be seized with a fit net snuffing, he would turn his little trout head loose and let him run over and bring him in. In a few minutes he had a sack full of fine fish, after which he stretched out under the shade of a tree and took a nap for the rest of the day.

He says one of the funniest things he ever saw was an old cod that came out and sneezed for about ten minutes. He says a sneeze will run from an old cod's head to his tail like a wave in a long race.

As I say, I am no expert on fish-lore. But I do claim to know all there is to know about automobiles and I want to tell the old man world that if a man buys an Essex Coach the only mistake he can possibly make is that he didn't buy one before.

Yours,
Bill.
