

Mayor Shinholser Pitches Fast One At Opening Game

Yankees Victorious In First Contest Of Junior League

Mayor S. O. Shinholser proved to be a second Walter Johnson yesterday afternoon when he pitched the first ball at the opening of the Leon Club's Junior League baseball season. He sent a scorching over the plate, and it came to fact that Maxwell Stewart, president of the League, took one wild swing at it, and threw down his bat. Glenn Lingle, chief umpire, was in the catcher's box, and he caught the ball which both he and Stewart said was "hot."

After these ceremonies, highly pleasing to the youngsters, none of whom is over the age of 15 years, the regular teams went on the field, the Yankees vs. the Red Sox. The Yanks won, 9 to 7. The game went only seven innings, as it did not begin until 5 o'clock and the opening ceremonies took up some time.

The batteries: Yankees, Godwin and Tippins; Red Sox, Hoover and Kennedy.

The Pirates play the Gaints this evening.

All games in the Junior League will be played on the Grammar School grounds at Elm Avenue and Seventh Street, weekly, excepting Saturdays, at 5 P. M.

18 Men Are Signed Up For The Sanford Lookouts And Begin Practice Work Today

Eighteen men for the Sanford Lookouts of the Florida State League were signed up by the directors at a session that lasted until last midnight. All of them will not be kept, as Elm Buck is expected to bring over eight men from the Chattahoochee Lookout camp, and the team is to be restricted to 14 men.

The bunch was to go out for first practice this afternoon, and it will be a case of the survival of the fittest. The best men will be kept, and the poorest allowed to travel.

The 18 signed last night are in addition to Staffy McCrone, manager, who sat in with the directors and advised them as to what players to take and who to let go. Many were eliminated after the manager watched them in a short practice workout yesterday afternoon.

Those tentatively signed for the Lookouts are the following:

Joe Bristuff, 22, pitcher, Jacksonville.

Felix Gavorink, 21, pitcher, Jersey City.

Bill Loper, 22, pitcher, Ocala.

Herbert Moses, 18, pitcher, Sanford.

Ray Evans, 20, pitcher, Chicago.

Doc Harden, pitcher.

Julia Purcell, 21, infielder, Perry.

Robert Wayne, Jr., 17, infielder, Kirkwood, Mo.

David James Swindell, 22, outfielder, Lakeland.

Gordon Barnes, 18, outfielder, Bridgeport, Ala.

Elwood Spidal, 20, outfielder, Cleveland.

Ninth Race Will Be A Feature At Longwood Tonight

Seven Star Dogs To Compete For First Place In The Derby

A feature almost as interesting as the first annual \$1,000 added Central Florida Greyhound Derby which will be run Wednesday night is the feature ninth race tonight in which seven stars will fight for the first place and the right to enter the Friday night consolation race.

The Consolation—Elimination entries tonight are Caroleen Wager, Billy Kay, Bollyclava, Ann Wild, Hawkeye Chief, Wild Pansy, and Shiny Barney. The first four over the line will join Lady Traffic Sunny Key, Flash Past and Caroleen Queen in the consolation over the 7-16 mile distance on the closing night feature Friday.

The \$1,000 Derby entries—Molly Malone, Chance Charlie, Tracie Slag, Ann Tray, Wild Maiden, B-w-k's Light, Ann Hope, and N-w-k—are being kept out of action until the ninth race Wednesday.

Speculation last night over the outcome of this race had a big crowd of enthusiasts gathered in to groups claiming "hunch" knowledge that so and so would cop the season's climax event.

With the running of the Derby, the Longwood track jumps into the front rank of Florida dog tracks. No track ever has offered a 7-16 mile race, and few have offered \$1,000 added purses. Every track in Florida will be represented in the record crowd expected.

Tonight's races begin at 8:15

Plague Tuner's Cures Bring French Discord

NANCY, France, April 7.—(AP)—Jean Mathieu, plague tuner, who turned doctor and tried to find "harmony between the individual and his ailing stomach," was fined for illegal practice of medicine.

The French Medical Association, which pressed charges against Mathieu, said his "healing" method consisted simply "of looking his patient straight in the eye with a magnifying glass. He would then say which organ was off pitch and prescribe a drug to attune it to the stomach, or vice-versa."

Mathieu's diagnosis was popular. Patients flocked to his home for "harmonious" treatment.

Boom In Buggies Ends Threatened Plant Shut-Down

LAWRENCEBERG, Ind., Apr. 7.—(AP)—The buggy business is booming for one of the largest buggy factories in the country located here. The boom began in 1932 and still is going strong.

William Knapp, who at 78 guides the destinies of the company he founded years ago, says he sold 900 buggies last year for approximately \$75,000. Plant capacity, however, is 5,000 buggies a year.

The company's biggest year was in 1920 after which sales fell off almost to the vanishing point in 1931. Since then it's been different and there's no more talk heard of closing the plant.

Knapp says about 75 percent of all buggies made are sold in the South. There a buggy has a resale value much higher than that of a used automobile, says E. J. Knapp, an official of the local concern.

Custom Officials Report

McALLEN, Tex., Apr. 7.—(AP)—U. S. Customs officials report these items brought in from Mexico in 1935: coconuts, bananas, dry bones, baskets, limes, gralls pineapples, live quail, orcs, shelled pecans, arsenic and goat skins.

Sugar Manufacturer In Florida Is Sent Million Dollar Check

WASHINGTON, Apr. 7.—(AP)—A payment under an AAA sugar contract—\$1,067,668 to a Florida producing corporation—was the largest of all benefit payments reported by Secretary Wallace to the Senate agriculture committee.

The committee is considering a resolution by Senator Vandenberg (R, Mich.), to require a report on large AAA payments.

Another large payment was \$961,064 to a Puerto Rican corporation. The largest payment to a Louisiana producer was \$366,010. None of the recipients was named by Wallace in his report.

The largest payment under a beet sugar contract was \$92,237 to a California producer covering the advance for 1934 and compliance for 1935.

Clerk 'Spots' Stolen Dress On Customer

AUGUSTA, Ga., Apr. 7.—(AP)—Helen Snellgrove, department store clerk, looked up to inquire what a customer would like.

The customer was a stranger, but her dress was familiar to Miss Snellgrove.

So she summoned a policeman and charged the customer with theft the night before of two dresses from the Snellgrove residence.

MRS. M* knows Electric Cookery and Water Heating Cheap and Convenient

MRS. M. is the Modern Homemaker

Mrs. M. has exploded the old myth that electric cooking and water heating is expensive. You will also find that these convenient services are CHEAP, and well within your budget.

With electric cookery you'll save on your meat bill ... roasts cooked in an electric oven don't shrink. And this waterless cooking method retains the sparkling minerals and juices of your vegetables and meats.

Yes, you will save money and time with the automatic reliability of an electric range. Merely flick the switch, set the timer, and forget all about your meal until it is done.

An electric water heater heats the water in the tank, and not the kitchen. Just turn the switch and the water is silently heated. No matches needed!

Electric cooking and water heating is done. On This! There's no need to look. Ask your neighbor, see an expert electric dealer and plan your modern home kitchen today.

Mrs. L. I. Frazier of Sanford in a Modern Housewife she says:

"I consider my electric bill one of my biggest household bargains. There are three in our family, and the cost for cooking, water heating, refrigeration, and power washing, that many small appliances, averages only 10c per day."

State Submits Official Audit Public Offices

(Continued From Page One)
policies of the County Commissioners.

The audit states that during the period that Douglass was clerk the clerk's record of convictions was indifferently kept until corrected during this audit. No record has been kept of County property, but such a record is now being installed. Several other criticisms of the former clerk are made in the audit. It states that he failed to supply the bank with a certified list of warrants, paid bills and vouchers that "show-no-approval-of-members of the Board of County Commissioners, and met payrolls by warrants drawn to one individual who secured the cash to pay off."

The audit of the accounts of Sheriff J. F. McClelland covers the period from Mar. 1, 1932, to Sept. 30, 1935, and shows that the sheriff has accounted for all collections, fines, costs and forfeitures charged to him and that his accounts and records are well kept. According to the audit, several estrated appearance bonds do not appear to have been properly disposed of "but the responsibility for further action seems to lie elsewhere."

The auditor had one criticism to make of the sheriff's office. The report showed that "it has been the custom of the sheriff not to remit collections on fine and cost bonds until the bonds have been fully satisfied, either by payment or commitment of the principal to serve the remaining time represented by the unpaid balance. This procedure is contrary to the law requiring weekly deposit of all collections."

Audit of the accounts of the Board of Public Instruction for the Feb. 1, 1932, to June 30, 1935, period shows "the financial condition is good and finance" appear to have been conservatively and carefully administered, on the other hand, expenditures other than for teachers' salaries appear somewhat out of proportion, and sinking funds for long term bonds are seriously below requirements. The audit also states that "little importance appears to have been attached to the preparation and administration of budgets until the 1934-35 fiscal period." The financial

condition of the schools was found to be good.

While the audit states that Superintendent T. W. Lawton "claims to have signed all papers presented to him by the liquidator of the Bank of Oviedo, the fact remains that he does not hold certificate of proof of claim from either bank," the Bank of Oviedo and the Seminole County Bank. Both banks have paid dividends, "but none was received by the school funds since no claims were filed." The total loss in closed banks from 1927 to the date of the audit amounts to more than \$80,000, and the audit criticizes the board for not taking "reasonable precaution to see that the maximum amount was realized from frozen balances after the Seminole Bank and the Bank of Oviedo closed."

The audit states that records of the board and the school superintendent have been "accurately and neatly kept, the minutes were comprehensive and complete, and the various bank accounts were in agreement with the depository account," though the superintendent's office room "is very small and there is a general lack of filing and record space."

Greyhound Derby To Be Run At Longwood Track Tonight

Fastest Dogs Are To Be Seen On Course; \$1000 Added Purse

Ann Hope, two year old pride of the Franklin kennel, loomed this afternoon as one of the favorites to win the first annual \$1,000 added Central Florida Greyhound Derby which will be run over the 7-16 mile distance as the ninth race at Longwood tonight.

With the running of this event, longest ever presented on a track in Florida, Sanford-Orlando Kennel Club at Longwood climaxes a 90-day season which ends Friday night.

Fair weather and the prospect of seeing one of the most sensational endurance tests ever asked of a canine has led track officials to believe that all records for attendance will be shattered tonight.

Ann Hope, a daughter of the noted Just Andrew and Wild Maiden are considered the most improved dogs at the track. Their recent performances mark them as coming champions, and the wise boys are looking for these young puppies to out-game and out-last their older running mates.

The 7-16 mile event requires that the dogs travel nearly twice around the track before a winner is proclaimed. Years of selective breeding and scientific training will be portrayed in the outcome.

Ann Hope and Wild Maiden must hope their wits against six other tested greyhounds, however. They are: Molly Malone, New York state champion; Chance Charlie, whose 69 pounds makes him the heaviest dog in the race; Traffic Sing, a champion sired by Hip Sing; Ash Tray, a frisky English import; Hawk's Light, star of Miami tracks, and Newt, a sturdy 69-pound kennel mate of Chance Charlie's.

Tonight's program of 11 events starts at 8:15 o'clock. The final program of Friday night will be climaxed by a consolation event, also over the 7-16 mile distance.

Entries and selections for tonight, with the latter capitalized as to dogs which should finish in the money:

Student Court Tries Campus Traffic Cases

COLUMBUS, O., Apr. 5.—(AP)—Ohio State students who violate traffic rules on the campus are liable to be called before the student court, and anyone getting a second summons is almost certain to be fined.

The local campus is bordered by one principal highway and another bisects it.

Two sessions of the court are held weekly, one to issue warnings in first offense cases and the other for trials. Fines range from one to ten dollars, and go to a student loan fund.

Defendants may present their own cases and, if dissatisfied with the verdict, may move for new trials. A disgruntled defendant may carry his case to the highest tribunal of the campus—Dr. George W. Rightmire, president of the university.

Parl Mutue Play At Miami Tracks Shows A Market Increase

MIAMI, Apr. 5.—(AP)—Increase in revenue from Hialeah and Tropical Parks here during Florida's recent 90-day horse racing season resulted today in track officials planning for large purses next year and expansion of grounds.

The State Racing Commission reported pari mutuel play at two horse tracks increased from \$21,814,037 last season to \$23,453,584 this year.

The State of Florida received approximately \$22,266 this year in taxes to be divided equally among 67 counties, each to get about \$9,755.

Pirates Walop The Tar Out Of Giants In Second Contest

The Pirates gave the Giants a terrible drubbing in last evening's game, the second contest of the Junior League season. The score was 27 to 13. The Cubs play the Seminoles this afternoon at 5 o'clock.

Maxwell Stewart, president of the League and manager of the Pirates, said the one-sided score can be expected the first week, but that after the boys "get into the swing of the thing" more closely contested games can be expected.

Body Of Princess Dead 5,500 Years Found In Tomb

CAIRO, Apr. 5.—The remains of an Egyptian princess, who flitted about the royal courts of Egypt 2000 years before King Tut Ankh-Amen was born, have been discovered in the Giza Pyramids, Prof. Selim Hassan announced today.

Hassan said water from the River Nile had seeped into the ancient tomb, covered the body of the princess with a thick coating of mud and preserved it through the centuries better than any known man-made chemical preparation.

The princess was said to have died about 5500 years ago and was believed to have been the daughter of Pharaoh Chephren, who constructed Egypt's second greatest pyramid.

Chephren was the brother of Theops, builder of the Great Pyramid, and succeeded him as ruler of Egypt. Cheops sold his daughter's honor to obtain money to build the Great Pyramid which was to be his tomb. There is no record that Chephren also obtained money for his tomb that way.

The song was published in 1858, and dedicated by "J. K." to Charles H. Brown, once the operator of a music store on Main street, Jackson, Tenn. It was a Civil War hit, and is being revived for the Texas centennial.

Frank Evans Agrees To Lead Drive For County Chamber Of Commerce Apr. 16-20

Simpson Pleads For Co-Operation

Support Of Business, Professional Men And Farmers Asked

With Frank Evans of Lake Mary in command of a membership committee to be organized on a "sales army" basis, the Seminole County Chamber of Commerce will inaugurate its annual membership drive next week.

This was decided upon at a meeting of the executive and finance committees of the organization last night. The meeting was well attended by enthusiastic members of the committee.

The dates of Thursday, Friday and Saturday, Apr. 16, 17 and 18, of next week, and Monday, Apr. 20 of the following week, were selected for the days General Evans and his "army" will endeavor to "sell" the Chamber of Commerce to every resident of Seminole County. The drive is to start with a "kick-off" breakfast of Thursday morning and will close with a "victory" supper on Monday evening. The location of these events and the personnel of the "army" will be announced later.

Last night's meeting of the important committee was the first held since T. E. Simpson was elected to the presidency of the Chamber of Commerce and to the office of president of the organization.

"We must have your financial support, which means your membership," President Simpson says in an open letter to the citizens of Seminole County today. "We must have your ideas and suggestions regarding what is needed in the community and what should be done by the Chamber. We must have your co-operation which means your willingness to work heart and hand in hand with your neighbor in carrying out the projects which the majority of the membership has decided upon."

Trade Body President In Letter To Citizens Asks For Co-Operation

To the Citizens of Seminole County:
On the night of Mar. 24, the Board of Directors of the Seminole County Chamber of Commerce elected me President of this organization for the balance of the ensuing year and I am indeed appreciative of the high honor which has been bestowed upon me. I accepted with the prayer that I might prove worthy of their confidence and with a resolve to dedicate my time, energy and such few talents as I might possess to help restore the Chamber of Commerce to the high plane to which it rightfully belongs.

It is our earnest desire and purpose to make this in the strictest sense of the word YOUR Chamber of Commerce—a real common meeting ground where your sentiments can be crystallized and your suggestions and recommendations carefully and impartially weighed and fabricated into workable plans mutually beneficial to all.

Any Chamber of Commerce can only be just what the citizens of a community want it to be. My observation while going over the length and breadth of this County convinces me that the citizens of this County sincerely desire an alert, progressive and aggressive Chamber of Commerce. Whether or not we have this depends entirely upon you. There are three essential things you must do to help us accomplish that:

1. We must have your financial support—which means your membership.

2. We must have your contribution—which means your ideas and suggestions regarding what is needed in the community and what should be done by the Chamber.

3. We must have your co-operation—which means your willingness to work heart and hand to hand with your neighbor in carrying out the projects which the majority of the membership has decided upon.

At a meeting of the Executive and Finance Committees last night, it was decided to start our membership drive on Thursday morning, Apr. 16, continuing until Monday night, Apr. 20. Full details of this drive will be published shortly.

Some have intimated that it is impossible for us to put on a successful membership drive at the present time under existing conditions. Looking back over the past accomplishments of Seminole County, we challenge this statement, for we firmly believe the people of Seminole County are entirely capable of caring for their needs—that they can accomplish things on their own accord and we have implicit faith and confidence in their support of this drive. We are counting on you, as you have never failed us before!

Because this is a countywide organization and we are working for the betterment and development of the County as a whole, and its various communities, we feel that every merchant in the County, every business and professional man, every farmer, and all others whose livelihood is derived from Seminole County should become a part of the Chamber of Commerce which is constantly at work for the benefit of all interests.

The Seminole County Chamber of Commerce, working in conjunction with the Board of County Commissioners, City Commissioners and agencies throughout the County, has made many worthwhile and noteworthy accomplishments, yet there is much work to be done.

This is your Chamber of Commerce, working for your interests. We need your help, your ideas and your contribution toward the betterment of our County.

Yours very truly,
T. E. SIMPSON,
President.

Jury Refuses To Put Negro Woman Out Of Her Home

Also Acquits Negro Of Charge Of Attempt To Defraud

Ethel Britt Harris, negro woman, can continue to occupy her home as far as a trial jury in County Court is concerned. The woman was arrested on a charge of unlawfully retaining possession of property not her own, but the jury brought in a verdict of acquittal.

Evidence adduced at the trial yesterday showed that the negro woman's home was bought by J. E. Jackson at sheriff's sale for \$12 and then, according to the woman's testimony, she was ordered to vacate the premises unless she paid \$200. She did not have the money, refused to move, and continues to occupy the house. Records were introduced to show that the property was in her name when the City foreclosed for non-payments of taxes.

Another jury in County Court acquitted Henry Burke of a charge of obtaining goods with the intent to defraud. Evidence showed that he obtained a pair of overalls from L. P. Hagan at a commissary at Markham preparatory to going to work in a turpentine camp. He was to meet the company's truck at a certain point the following day and, according to evidence, was at the appointed place at the appointed hour. However, the truck took a different route. The following day Burke was arrested on the charge of attempting to defraud the commissary out of the pair of overalls.

Judge Jas. G. Sharon instructed the jury to bring in a verdict of acquittal for Joe Harrison, accused of selling meat that had not been inspected. The trial developed that the alleged offense was not in this County.

Otha White was convicted of petit larceny and was sentenced to pay a fine of \$50 or serve six months on the County road. White is the negro who robbed L. D. Martin's store of \$9.10 a few days ago. Henry Jones, a 13-year-old negro boy, was convicted of stealing a hat from the Jacobson store and was ordered transferred to the Juvenile Court. Tom Elkins pleaded guilty to petit larceny and was sentenced to pay a fine of \$25 or to serve 90 days.

Russia Rejects Protest
MOSCOW, Apr. 9.—(AP)—Russia rejected China's protest against the Soviet-Outer Mongolian mutual assistance pact, a communique early today disclosed, but asserted the treaty does not signify any territorial claim by the Soviet Union over China or Outer Mongolia.

Washington Apr. 9.—(AP)—Justice Fred Davis of the Florida Supreme Court testified at the Senate impeachment trial of Federal Judge Halstead Ritter of Miami that he considered the \$75,000 Whitehall receivership fee Ritter allowed A. L. Rankin, his former law partner, "out of line."

Davis said that payment of fees is a "matter of judgment," but he believed \$50,000 would have been the outside limit allowed by a state court.

Federal Judge Alexander Akerman of Tampa testified he thought the \$15,000 fee he allowed Rankin was the "total" fee to be paid in the Whitehall case.

Judge Ritter is charged with allowing excessive fees to Rankin, with obtaining money from Rankin in return, with practicing law after going on the federal bench and with failing to pay proper income taxes.

Hundreds More Made Homeless By Heavy Rains

By The Associated Press
Rains fell on many sections of the Southland today, swelling rivers which already were out of their banks and doing damage in towns and the countryside.

The Tennessee River at one end and the Mississippi at the other rendered hundreds of Tennessee families homeless as flood waters crept through buildings and across lowlands. Additional hundreds of Georgians and Kentuckians were forced out of their homes by overflows. Additional rains were forecast for most of the flooded area, but communities pinned hopes on the chance the rains would not be so bad as those which sent virtually all streams out of their banks.

A cold rain poured down on Gainesville, Ga., chilling refugees and relief workers of the tornado-torn town. The dead list there stood at 180 with 33 persons still missing. The Red Cross said that property damage will run into the millions and at least 3,600 persons were made destitute by storm.

The death list at Tupelo, Miss., where the tornado hit Sunday night, stood at 201. More than 1,000 were injured and many were left homeless.

Business began returning to normal in both Gainesville and Tupelo.
