... by a player's ability to slip about where it will count—making the opening. placing of a court shot is like that of a ring blow. one big difference is that in tennis you slip in the marker where the opposing player isn't. In old days one was likely to see J. Corbett or Jimmy Britt in placing and stepping power the fight ring. with these two battlers in of used-to-be, they have man- ners to a spectacular degree. would seem that the old times, he cry of "forty-love" from a court brought forth a mock in a voice from passers-by, have out via the knockout route.

STATE NEWS

MIAMI—Citrus fruit growers of this section at a meeting in Coconut Grove last week agreed not to pick or ship any grapefruit before September 20, in order that they might do as much as possible to prevent the flooding of northern and eastern markets with green fruit. It was decided that all fruit picked September 20, should be thoroughly matured and fit for shipment, testing "seven to one" or better, and half colored or better.

MIAMI—M. Stein, owner of a poultry farm at Buena Vista, a suburb of this city caught a chicken hawk recently which he condemned to death by "casting to the lion." Stein has a wildcat in a cage at his place and decided to put the hawk in the cage with the feline, believing that only a few feathers would be left to tell the tale. The result was similar to that when Daniel was cast into the den of lion. The hawk and wildcat must have been old acquaintances, for the cat paid little or no attention to the hawk and the two occupy the cage in perfect amity with the hawk using the back of the cat as a perch.

GAINESVILLE—Florida's rural daily and weekly newspapers will compete in a state newspaper contest to be conducted by the General Extension Division of the University of Florida, at the annual state fair at Jacksonville this fall, according to an announcement by B. C. Riley, director of the extension division. The contest will be open to papers falling within two groups, the weeklies and those of the dailies having a limited circulation. The circulation limit has not been definitely decided upon, but according to Mr. Bailey, it will probably be held to less than 5,000. Ribbons and medals will be given by both the university and the state fair for three winning papers in the various contests. Tentative plans call for distribution of prizes, as follows: Best front page make-up; general handling of community news; handling of farm news, and perhaps a prize for the best display in typography in advertisements. Judges for the contests will be selected from men living out of the state, according to Mr. Bailey, and the prizes will be awarded on Press Day at the fair. The contests will be held in the University building. Competing publishers will only be required to submit three copies of their publications, probably any issue of the last six months, Mr. Bailey says. Final arrangements for the contest are being held up pending advice from the numerous editors and publishers who are expected to compete.

GAINESVILLE — Arrangements have been made for construction of a residence for the superintendent on the grounds of the branch of the Florida Experiment Station at Lake Alfred, in Polk county. The station which was provided for by an act of the 1917 legislature, is to be devoted entirely to citrus investigations. The legislatures of 1919 and 1921 made no specific appropriations for the support of the branch and it must be maintained out of the appropriation for the main station at Gainesville, together with donations from private sources. Up to the present time the citizens of Polk county have donated approximately \$14,000 as well as 84 acres of land for that project.

MIAMI—Members of the Florida Dairymen's Association will meet in annual convention here September 20-21, according to advices received by the local Chamber of Commerce. Approximately fifty members, with their families, are expected to be in attendance. The organization is said to have a membership of about eighty dairymen. Preliminary arrangements for the program of the dairymen's stay here include visits to local dairies and motored to other places.

GAINESVILLE—The State Plant Board and Florida Agricultural Experiment Station officials are greatly concerned over the discovery of the Mexican bean beetle at Thomasville, Ga., not far from the Florida line. This insect attacks beans and peas and recently has also been found feeding upon beggarweeds, and velvet beans. It is a native of Mexico and for some years has been damaging the bean crops in New Mexico and Colorado. Last summer it was discovered in the Birmingham section of Alabama and investigations made during the present summer show what it has done in Alabama and adjoining sections of Georgia, Tennessee, North Carolina and South Carolina, is causing a great loss. The infestation at Thomasville now covers about 10 square miles.

HUNDREDS OF VALUES THAT WE HAVENT SPACE TO LIST

Because so many members of the legume family are subject to attack, the difficulty of control by sprays under field conditions, and the further fact that the insect is a strong flier, the Florida authorities do not see much prospect of excluding the pest through quarantine measures.

CORN POPPED ON EAR BY THE HOT WEATHER IN NORTH CAROLINA.

The following article from the Twin City Sentinel of Winston-Salem, North Carolina, will be interesting to Sanford folks and especially those from North Carolina: Master John Cly, of South Main street, exhibited to a Sentinel reporter yesterday an ear of pop corn on which something like sixty grains had been popped open. He explained that his grandmother, Mrs. S. D. Cly, gathered some ears from his patch the first of last week and placed them on the window sill outside the house, where they lay for several days. Thursday evening Mrs. Cly noticed that several of the ears were full of white snots and upon closer examina-

tion it was found that a large number of the grains were popped open.

The extremely hot weather of last week caused the corn to pop open under the burning sun. The rays of the sun shown directly on the ears most of three of the hottest days of the week. Mrs. Cly states that this is the first time in her life that she has heard of anything of the kind, but she says she has never known the weather to be hotter than it was last week. Records of the local weather observer show that the hot spell of last week outstripped anything that had been experienced this summer.

Searchlights with which a Los Angeles motion picture studio is experimenting are claimed to provide a billion candle power in a beam of light having seven times the actinic value of sunlight.

Argentina's government has appointed a technical committee to study the contemplated distillation on a large scale of ferude petroleum from state-owned wells for the production of light oils for its industries.

A new French process for the manufacture of artificial silk from wood fibres yields a finer thread than the viscous process, from which velvet has been made.

INTERESTING SPORT NOTES

Automobile Race can be won by horse. Chess players want Dr. Lasker, former champion, to Jose Capablanca again. H. H. Hansen, Jr., New York, elected president of the United States Amateur Chess association. Fisher became the Middle Atlantic States tennis champion by defeating Dr. P. B. Hawk in five sets in Philadelphia. W. T. Tilden, second, will represent Wimbledon, Eng., next June and his title as British singles champion. H. Hill, Scotland's great miler, set a record for that country at 4 miles in 15.5 seconds, the fastest miler in the world. College stadiums in course of construction include Michigan, Vanderbilt, California, Stanford and University of Kansas. Michigan's is being enlarged.

MIDDLEMEN

According to the check-up on the fees who witnessed the "Fight of a Century" at Tex Rickard's hotel July 2, 80,000 was paid \$1,650,000 to gain admittance. But that was a small item as compared with the total of what those 80,000 paid. Railroads, hotels and food houses went into the fans' pockets for an average of possibly \$100 to \$150 per. That makes a layout of more than \$8,000,000. And they spent it all for just 10 minutes and 18 seconds of fighting. But it was worth it—to a fight fan.

Member of The Associated Press

The rain came as close as Orlando last night.

It seems difficult to coax it as far as Sanford but it must be done.

What the state needs now is a good heavy rain that will be fine for the growing crops and fine for a change in the weather.

Sanford is too big now to be in the one-man-idea class. We all have good ideas and we should assist in putting them all over.

We hear nothing of the golf links. The Chamber of Commerce was supposed to take up this matter and father it along with many other improvements.

It seems almost certain that two of our principal corners will have four story buildings on them in the near future. This will mean a greater Sanford with a vengeance and will be the big start toward that city of TWENTY-FIVE THOUSAND.

Other Florida cities who turned down the auto camps have rescinded their action and now say that a well regulated auto camp is one of the necessities of any city that expects to take care of the winter visitors. No city has accommodations for all of the people and a well regulated auto camp has many good points in its favor.

ANOTHER ICE FACTORY

In Saint Augustine the price of ice was painfully high and the service painfully poor. A new company was formed and commenced to sell ice, with a good service, at a modest price.

Let the farmers and merchants purchase their own ships and run the line as a stock company, then they will be more interested to make it pay and keep their goods coming via the water route.—Orlando Reporter-Star.

SAUSAGE ROLLS

Sausage Rolls will be enjoyed equally as much at luncheon as on a picnic. Roll rich biscuit dough thin. Cut in strips and roll one of Libby's Vienna Style Sausages in each strip of dough, leaving the ends of the sausage exposed.

Deane Turner, WELAKA BLOCK, Phone 497-404

THE HEADLINES

Where is the world drifting? Just listen to this bunch of headlines taken at random from a few newspapers that lie on the editors' desk this afternoon as he contemplates the pile of exchanges that are waiting their turn to be scanned and thrown into the waste basket.

Well that is more than enough for one day, tomorrow there will be a new crop. Where are we "at" and how did we get here?—Arcadia Enterprise.

GOODE ON THE NEWS.

Among the daily papers of the state that has some deep and wonderful editorials is that Daily News with Goode Guerry on the editorial tripod. The day never passes that Goode does not take his typewriter on his lap and dash off something that is really good and straight to the point.

Herbert Felkel, of the St. Augustine Record shoots the following bromide at Goode:

"A heartless paragrapher refers to one of Goode Guerry's editorials as being 'flowery but inclined to be Sophomoric.' That shows how ignorant we are—we always thought Goode was inclined to be 'Freshman' with the emphasis on the 'Fresh'."

And here we thought all the time that Goode was soporific—derived from the word "soup," meaning "soft soap" or "bull" or other French derivatives.

TAKING SIDES.

Some residents of St. Petersburg expect the local newspapers to fight all their battles for them and take sides on every petty matter that arises. They seem to think that a newspaper should be a public scold or policeman, or something of that order, instead of a purveyor of news.

Those who insist on newspapers taking sides on every trivial question that comes up forget that if the newspapers did this their influence would soon be lost. And they also overlook the very important fact that a newspaper has influence largely by virtue of presenting facts to the public.

Many persons here, men more than women, lack the courage of their convictions and are unwilling to let the public know how they stand on this or that question and these usually are the ones who want the newspaper to fight their quarrels.

WHAT DO I GET OUT OF IT?

There are some people paying taxes who have no children, who might ask the question, "What do I get out of the schools?" There are men who never go to church—neither do they belong to any. They might say, "What do I get out of the church?"

CATTLE LEAK IN WEST FLORIDA IS STOPPED.

JACKSONVILLE, Sept. 7.—The tick fever quarantine around Florida to prevent movement of quarantined cattle out of the state seems to be 100 per cent air tight again, following discovery by federal government officials of a slight leak in Madison county.

SHIP BY BOAT NEW SLOGAN FOR INLAND FLORIDA—CUT RATES.

"Ship by Boat," will be the slogan of inland Florida to combat the high freight rate which is making farming and citrus fruit raising very unpopular at the present time. On September 13th, a large delegation from the towns of Sanford, Easton, Leesburg, and other inland cities, will meet here to discuss the best plan to combat the high freight rates.

THE LABOR SITUATION IN FLORIDA.

According to the report of the employment bureau Florida is the brightest spot in the whole South as regards labor conditions. Practically no unemployment is reported anywhere in the State. Strenuous efforts are made to remedy the acknowledged housing shortage, before the coming of the winter tourists, and the building trades workers have no difficulty in finding employment.

WEATHER AND CROP CONDITIONS IN FLORIDA.

Weather and crop conditions in the State of Florida for the week ending September 6, were as follows: Temperature:—The temperature was generally higher than usual over the section, except that it averaged about normal or below in the extreme west and south.

Condition of Crops:—The weather as a whole during the week was unfavorable for crop growth such truck, and the dry weather delayed cane and sweet potatoes on uplands. The planting of strawberries and celery began, but the growth of truck is generally backward.

DANCE!

One of the biggest social events of the season will be the big dance at the Hotel Valdez FRIDAY, SEPT. 9th under the auspices of the WOMAN'S CLUB for the benefit of THE LUNCH FUND FOR SCHOOL CHILDREN Everybody Invited Daytona Beach Orchestra THIS SPACE DONATED BY The First National Bank

LAKE WALES GROWS PRIZE AVOCADOES.

LAKE WALES, Sept. 8.—An avocado weighing three pounds and measuring eight inches long, with a girth a twenty and one-fourth inches the long way and fifteen and one-half inches around the middle was brought to the Highlander office last week by Councilman George Wetmore as proof that the soil of the ridge will produce avocados as well as oranges.

WASHINGTON, Sept. 8.—Rail water carriers were authorized by Interstate Commerce Commission today to reduce rates on freight from the Atlantic Coast to Texas point way of Galveston. The commission thereby reversed its former decision in the case which it held that the reductions posed by the Mallory and McJannet lines were not justified except in certain particulars.

WATER AND RAILROAD COMPETITION GIVES TEXAS LOWER RATES.

Some cattlemen who thought he was wise enough to get ahead of government officials evolved the idea that the quarantine could be circumvented by killing the cattle out in the woods on the Florida side of the state line and hauling the dressed carcasses into Georgia. The first trial worked alright and soon the information was known by several cattlemen who proceeded at once to make contracts with butchers in Valdosta to deliver dressed beef carcasses at seven cents per pound "on the block."

THE BEST AID—

The best way—to effect this is advertising in the medium that can pull the best results.

NOT HOW MUCH—

But how wisely he spends his advertising appropriation—is the gauge that the public applies to the Modern Merchant. Your advertisement placed in the columns of THE DAILY and WEEKLY HERALD goes to virtually every potential purchaser in Seminole County.

COMPARE THE COST—

of HERALD advertising with the use of the mails.

TO WHOM IT MAY CONCERN:

The undersigned has sold his one-half interest in the firm of Haight & Magee to George A. Welland.

GOVERN ISLAND LIKE VESSEL

In Guam the Usual Routine of a Naval Ship is Observed With Scrupulousness.

The routine of a naval establishment gives an unusual amount of life to the plaza of Agaña, Guam.

On Sunday mornings the men of Agaña are exercised in military drill, which is compulsory for all the able-bodied men within certain age limits.

Occasionally a most interesting drill is witnessed of the "carrabao cavalry," as it is called, although the mounts are not water buffalo but domestic cattle.

RELIEF FOR HEAT SUFFERERS

English Savant Who Probably Knows Offers Some Advice on the Problem of Keeping Cool.

The obvious expedient of avoiding exposure to the sun, "stimulating" foods and drinks, and the use of dark and heat-retaining garments is not always sufficient to keep the human body cool.

It is nearly one hundred years since the Silesian peasant Priessnitz reintroduced the curative use of cold.

Anybody may prove for himself the refreshing coolness produced by bathing the nape of the neck and the spine and the inner side of the arms with ice-cold water.

Saved by His Cuffs.

"There's superstition personified," said the tailor, as he nodded in the direction of an elderly man who was being fitted for a suit.

TAMPA TIMES IS SPENDING MONEY

In newspaper circles there is much comment on the way that The Tampa Daily Times spends money for news and features.

Phones to Suit Patrons.

"Speaking of service!" exclaimed the traveling man as he stood in front of one of the telephone booths in the Pennsylvania station.

"Well," grined a guard who was standing by, "we strive to please, so when you found that some folks were too short to reach the telephones if they were high, and others had to almost bend double to talk over them if they were low, we decided we'd have 'em arranged accordingly."

Venerable Ministers.

Dr. Oliver S. Husketai of New York is the authority for the statement that there are 30 ministers more than ninety years of age in active service in the Methodist Episcopal church.

The oldest is the Rev. Seth Reed of Flint, Mich., who is ninety-eight, while another is nearly ninety-seven, and three are ninety-six.

Yes Sir! You can bet your sweet life I'm going to be at the Big Dance at the Valdez Hotel next Friday and I am going to be amongst the very best dressed because I am wearing a Campus Togs suit that I purchased from PERKINS & BRITT "The Store that is Different"

IF KIDNEYS ACT BAD TAKE SALTS

SAYS BACKACHE IS SIGN YOU HAVE BEEN EATING TOO MUCH MEAT

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.
