New Atomic Tests Are Being Planned At Eniwetok Atoll

New Weapons For Naval Warfare Are Believed To Be In Development Stage

WASHINGTON (AP)—The Defense Department announced today that preparations for new atomic tests are under way in the Pacific. The brief announcement gave no hint as to the nature of the tests. They will be conducted at Eniwetok, remote Pacific atoll, by a joint team of experts from the Army, Navy, Air Force and Atomic Energy Commission.

While there was no official information, the fact that Eniwetok was selected for the tests suggests that they involve some weapon other than the atomic bomb. It was pointed out that atomic experts had gained "much useful" information toward creation of a hydrogen bomb.

Some atomic experts have estimated that a hydrogen bomb might be 1,000 times more powerful than the A-bombs dropped on Japan during World War II.

Today's announcement coincided with word released in London that Britain expects to test an atomic weapon—her first—this year. The tests probably will be in September or October in Australia.

The test force has been designated as Joint Task Force 12. It will be directed by Maj. Gen. Percy W. Clarkson, deputy commander of Army Forces in the Pacific.

Clarkson served as deputy commander of the joint task force which conducted the 1951 tests at Eniwetok.

16 Year Old Girl Critically Hurt In Auto Accident

A 16 year old girl was critically injured and two youths were hurt Saturday night shortly after 8:00 o'clock in an automobile accident on the New Smyrna road about a mile and a half east of the Osteen Bridge.

The injured girl, Marjorie Wright, 16, of Osteen, was taken to the local hospital and then to Orange Memorial Hospital where her condition was reported last night as critical, according to State Highway Patrolman H. D. Harrison, who investigated the accident.

Two companions, Robert Harrison, 17, the driver of the car, and Johnny Rivers, 18, both of Cameron City, were knocked unconscious and received cuts and bruises as the automobile skidded on the wet pavement, and the rear of it hit a guard rail post and a small concrete bridge over a creek. They are receiving treatment at Memorial Hospital.

One of the major causes of the wreck was the fact that the rear tire of the old model car had been worn smooth, said Mr. Harrison. Harrison admitted having no drivers' license and having failed to pass tests necessary to secure one.

Chinese Voted Out Of One Community Invited By Others

SAN FRANCISCO (AP)—A Chinese family, voted out of a white neighborhood on the eve of Brotherhood Week, was swamped today with offers of welcome from across the country.

Bing Sheng, 25-year-old air line mechanic, said his telephone hasn't stopped ringing since Saturday, when white residents of South San Francisco's Southwood tract voted 174-0 they didn't want him as a neighbor.

Sheng had suggested the balloting, saying "I was sure every body believed in democracy." The Shengs could have insisted on their right to occupy the house. The U. S. Supreme Court has ruled that any agreement excluding home ownership because of race or creed is not enforceable.

Southwood residents said they objected because property values would decline if the former owner moved in. The Chinese Nationalist Army moved in with his American-born wife and two-year-old son.

The Shengs, who are expecting another child next week, retained the \$2,000 they deposited on the \$12,000 home. Today they hoped to get back deposits on \$1,000 worth of furniture.

U.S. Studies Aid To France In Indochina

Help May Be Limited To Dollars And Supplies If Chinese Commies Keep Out

By JOHN M. HIGHTOWER
WASHINGTON (AP)—The United States is considering giving special aid to help France carry on the fight against a Communist conquest of Indochina.

State Department officials believe that additional assistance in the form of either dollars or increased military supplies to Indochina would be sufficient to provide the Chinese Communists with the means to intervene in the Indochina war as they did in Korea.

Should the Chinese Reds launch a major assault there, however, it would pose an issue of a different sort—whether the United States and other United Nations would send in troops to help the French and native defense forces strike directly at Communist China itself.

What the American government would do in that event is still undecided. The problem of financial assistance has arisen at this time because American studies of France's continuing economic crises have convinced officials here that maintenance of the present forces in Indochina is a heavy drain on the French economy and an important factor in France's long-range ability to hold up its position in Europe.

The subject is understood to be up for discussion between Secretary of State Acheson and French Foreign Minister Schuman in their London talks.

The French Parliament has voted an aid of 10 billion francs (about \$1.6 billion) to the French forces in Indochina this year. This is expected to be from one-third to one-fourth of France's total military budget. The European section of which has yet to be fixed.

Additional American aid to France's Indochina burden is agreed upon, the present tentative plan here is to begin in fiscal 1953 when aid will be \$1.5 billion. President Truman has estimated the foreign aid outlay next fiscal year will total 10 billion dollars for all purposes, but whether the State will grant this sum is yet to be determined.

For the present fiscal year, end of June 30, the United States has assured France of 10 billion dollars. Half of this is to be in out-right grants and half in the form of U. S. military expenditures in France and French North Africa.

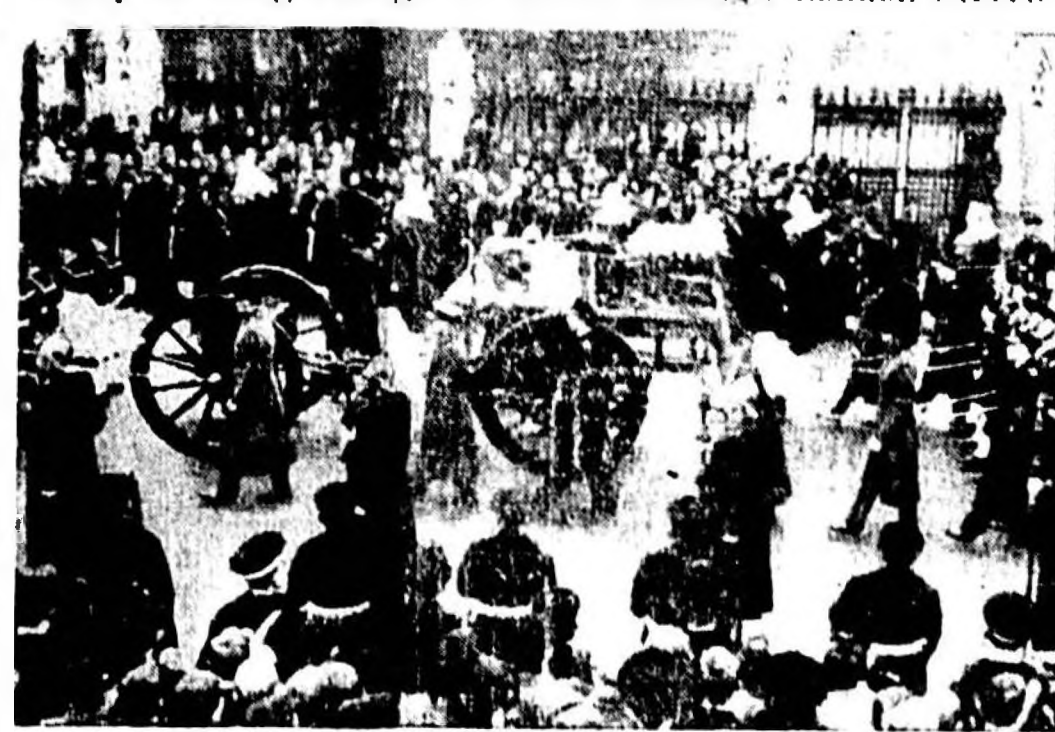

As to the latter half, which the State and Defense Departments and the Mutual Security Agency are now trying to figure out how to make good on the promise to spend 30 million dollars in France or French African territory before next June 30.

BUSINESS AS USUAL
LONDON (AP)—Queen Elizabeth II wants public functions connected with Britain's government, trade, charity and other duties, scheduled despite mourning for her father, King George VI.

The announcement of this by the lord chamberlain's office said, however, that other functions must be left to the discretion of the organizers, who may wish to allow a week or two to elapse before.

A statement issued by Queen Mother Elizabeth Sunday expressed thanks for the "wonderful tributes" to her husband and asked "loyalty and devotion" for their daughter, the new queen.

Body Of King George VI Borne Through London Streets

Draped with the royal standard, the coffin bearing the body of Britain's King George VI moves through the heart of London. While the hearse is being borne through the streets, the funeral cortege proceeds slowly to Paddington Station for the train to Windsor, where the monarch will be buried.

Road Department Starts New Test On Highway No. 1

Check Is Made To Determine Need For New Toll Highway

JACKSONVILLE (AP)—The State Road Department sent its second caravan south along U. S. 1 today to see how long it takes to drive to Miami.

The first test check, from last Nov. 16, made the 200-mile trip in nine hours 32 minutes. A proposed toll turnpike between the state's two largest cities inspired the check of travel time along the East Coast's present main highway.

Chairman Alfred A. McKethan of the road department did not accompany the test. Checkers today had to wait in line to drive to Miami.

The turnpike, at least five years old and the longest of the kind in the United States, now carries about 1,000 cars a day. It is a toll road, and tolls are collected at several points along the route.

He also expressed concern about the road's condition. The road is in poor shape, and the tolls are not enough to cover the cost of maintenance.

As in the November test, all traffic regulations along the way are being observed. The road is closed to all traffic except the test caravan.

The actual driving time, because of the increased traffic, is expected to take much longer today, it is said.

REPORTER BARRED
CLEVELAND (AP)—Reporter Marc Gleissner of the Cleveland Plain Dealer was barred from covering a meeting Sunday.

As he was about to be thrown out, he pointed out that the meeting was sponsored by the Ohio "Freedom of the Press Association."

New England Is Covered By Snow 6-20 Inches Deep

NEW YORK (AP)—A weekend of cold and freezing weather left a blanket of snow 6 to 20 inches deep over much of New England.

The snow, which began falling Saturday night, has caused travel difficulties in many areas. Roads are icy, and many schools have closed.

The snow is expected to continue for several more days. Temperatures will remain in the single digits.

By The Associated Press
Wind-whipped snow blizzards New England today after a cold front moved in from the north.

Spending Jumps As Governor's Race Warms Up

McCarty's Campaign Fund Hits \$8,190 From Contributors

ALEXANDRIA, Va. (AP)—McCarty's campaign fund today reported a jump in contributions to \$8,190 from contributors.

The weekly financial statement of the third major candidate for governor, H. Lee McCarty, was not in the hands of the state's election board.

McCarty reported deposits in his campaign fund totaling \$8,190 in Adams' reported deposits of \$2,200. All the deposits, by both parties, were from contributors.

McCarty's contributions included cash from W. P. Moore, a bank clerk, and J. H. Smith, a teacher. He also received a check from a local business.
