

Gondoliers Defeat Sanford By Score Of 6 To 2

Finger Holds Leesburg In Check Until Eighth

Both Clubs Hit Freely, Gons Securing Twelve Base Blows As Sanford Collects Eleven Bingles

Breaking a 2-2 tie in the eighth inning, Billy Gobel singled cleanly to center field scoring Frankie Drew and Butch Onis to give the Leesburg Gondoliers a commanding lead over the Sanford Lookouts to which they added three more runs to win the game Wednesday night at the Municipal ball park by 6 to 2.

With Big Jim Fink hurling for the Lookouts, Ring doubled and Onis singled to center scoring him for Leesburg's first marker. Finger tightened and the side was retired with no further scoring.

Tying the count in their half of the second, Sanford's catcher, Adk, singled and advanced to second on Bink's single and from there to third on Finger's fly to center and scored on an error by Onis when his attempt to catch Bink at second resulted in a wild throw.

In the sixth, Adk singled down the third base line and went to second on Bink's error, coming home when Hudson doubled down the third base line. The eighth inning saw the Gondoliers put on a rally in which they got three runs on errors and one error. Two more runs were added to the tally after Cox had relieved Finger as the beginning pitcher in the ninth. Jim Mahaffey, starting hurler for Leesburg, was ejected in the second inning for arguing with the umpire. He protested

a decision at third base when Umpire Frosty Peters called him out when Pitman made a play for him. Both clubs hit freely, Leesburg collecting 12 base blows and Sanford 11.

Lookouts Engage St. Augustine Is Leesburg Tonight Defeated Twice In Row By Senators

Locals Suffered Loss Last Night In First Of Two-Game Series

The Sanford Lookouts journey tonight to the home of the Condoliers, Leesburg, for the second of a two game series, the first of which Sanford lost last night by a score of 6 to 2.

Loss of the game last night brought the number of games lost for the week to three with one win recorded. The losses were to Gainesville, Palatka, and Leesburg. The single win was recorded at the expense of Palatka here Monday night.

Despite the set-back last night, Manager Bill (Rawmont) Rogers hopes to take the Gons into camp tonight. The losses to Gainesville and Palatka were close and the Lookouts played excellent ball even in defeat. The game last night was no exception, the Sanford club exhibiting passably good ball except for a lapse in the eighth when an error permitted a score.

It is felt that members of the team have played sufficiently together to begin functioning as a unit. All season long changes have been made in the line-up, new faces appearing every week or so and hardly had one group of players learned to work together than more changes were made, disrupting whatever unity had been achieved.

However, that situation should be remedied now for most of the players on the roster have worked together for a month or more.

Besides Leesburg's victory over the Lookouts last night other winners in state league ball were Daytona Beach over Palatka, the Gainesville G-Mens over the Deland Reds and the Orlando Senators two games over St. Augustine.

In Palatka, Daytona Beach marked up a 5 to 3 victory over the Azaleas as Palatka made several errors. Stan Charkut went the route for Daytona Beach and Jack Gully hurled for Palatka. Daytona Beach made 9 hits while the Azaleas were able to garner only 5.

The Gainesville G Men took the Deland Reds for a ride in the tune of a 4 to 2 score. Weldon laced the route, permitting but five hits. Bob Overstreet flung both ends of a double header against the Saints for the Senators and won both, the first by a 3 to 2 score and the second by 2 to 0. In the first game he was opposed by Lefty Brewer, sensational Saint flinger.

Islanders 000 131 000-3
Azaleas 100 200 000-1
G-Men 000 000 001-4
Reds 100 000 010-2
Saints 100 010 000-2
Senators 000 001 200-1
Saints 000 000 0-0
Senators 200 001 0-3

In a Y. W. C. A. study of the wages of 680 working girls, only 15 were free to spend their money as they chose. The rest contributed to the support of their families. The average weekly wage was \$18.40.

Primary Vote In Tennessee Seen As Large

Continued From Page One
Democratic showing for Senator McGill, who had only a shadow of opposition, and for Governor Hickman, unopposed. In the circumstances, the party vote totals afford no real basis for comparisons and for election predictions; but they do show that Kansas Republican voters were stirred by the party contest and acted to eliminate the Winrod candidacy which might have created a November split and even thrown Republican support to the out-and-out Roosevelt supporter. On a strictly numerical basis, new deal political dynamite probably could claim that a majority of Democrats named for

senate and house thus far were either renominated on new deal voter records or made support of Roosevelt policies their primary campaign platforms. The trend toward renomination of incumbents, again so sharply emphasized in Tuesday's contest, lends itself to that interpretation.

Crump Group Wins Victory In Tennessee

Gov. Browning Goes Down To Defeat As Prentice Cooper Is Given Nomination

Senator Berry Also Defeated

Primary Culminates In Bitterest Campaign In History Of State

NASHVILLE, Tenn., Aug. 5.—(AP)—The Democratic faction headed by National Committeeman E. H. Crump and senior United States Senator Kenneth D. McKellar, won a smashing victory over Governor Gordon Browning and junior Senator George L. Berry in yesterday's statewide primary.

Prentice Cooper, 43-year-old Shelbyville attorney and former state commander of the American Legion, was nominated for governor over Browning who two years ago received the greatest majority ever given a gubernatorial candidate in the state.

In the 1936 primary the Governor had Crump's support. This year Cooper had it.

Senator Berry bowed to A. Tom Stewart of Winchester, a district attorney who expressed 100 percent endorsement of President Roosevelt's policies.

Alton Richardson, 25, of Englewood, was slashed to death and scores of others, including J. Tom Taylor, candidate for Circuit criminal judge, were injured in violence that marked McKinn county's bloodiest Democratic primary in history.

Authorities were forced to close some polls. Richardson had attempted to interfere in a fist fight between five men at the polls when his throat was slashed.

He died in a hospital later.

Polls at Clanton, Tenn. closed after election officers, C. S. Simpson, and Jake Burris, judge, both were beaten and stabbed. Both were in a hospital.

At Atwood, fighting marked the voting and the jail was full. Taylor, who opposed incumbent S. K. Hicks, Circuit judge, suffered scalp wounds in a fight with John Rogers and Jim Carmichael, election officials, which resulted when Taylor demanded to be shown election lists. Carmichael suffered injuries about the face and head.

No arrests were made in this case, but two other arrests were made at Williamsburg in other fights.

At Athens, Vix Logan allegedly took an axe and tried to chop down several election booths. He was arrested on a charge of public drunkenness.

Father Of Sanford Business Man Dies In His 95th Year

Edwin E. Randall, father of E. B. Randall, Sanford business man, died at 8:50 o'clock Thursday night at the home of his daughter, Mrs. George Randall, in Daytona Beach at the age of 95.

Mr. Randall, who was born in Windsor, Nova Scotia on May 14, 1844, came to Florida in 1882 and settled in Orange City. He lived in Sanford from 1894 to 1921, during which time he was engaged in the contracting and building business.

He is survived by two daughters, Mrs. George Randall, of Daytona Beach, and Mrs. Emma A. Schmidt, of Leesport, and three grand-children, George H. Randall, of Leesport, Mrs. Robert Davidson, of Daytona Beach, and Hubert Schmidt of Jacksonville.

Funeral services will be conducted at the Rogers & Westcott Funeral Home in Daytona Beach at 10 o'clock Saturday morning and will be in charge of the Rev. W. P. Brooks, Jr.

15 Italian Sailors Killed In Blast

ROME, Aug. 5.—(AP)—Fifteen Italian sailors were killed and 20 injured in a fire-ship explosion aboard the Italian Cruiser Quarto in the port of Pollenza, Island of Malorca, the government announced today. The accident occurred last Monday but was not included until today's communique. The Quarto had been on duty in Spanish waters for 18 months Malorca is held by the Spanish insurgents.

Martha Moffitt Gives Account Of California Trip

Townsend Group Hear Interesting Story Of Her Experiences

Reporting on her trip to Los Angeles as a delegate to the Townsend Convention, Mrs. Martha Moffitt, treasurer of the local Townsend Club, digressed from a recitation of facts in her official capacity and related many interesting experiences of her travels to California and back at the meeting Thursday night at the Townsend headquarters in the Welala Building, to which came Mr. and Mrs. J. L. Spaulding of Orlando and the Rev. James A. Logan of Geneva, and many local Townsends.

Reminiscences of personal observations, such as "Old New Orleans," the cemetery built above ground because of the high water level; the mile and a half Huey Long Bridge, which spans the Mississippi River; the interesting rice fields and the 1500 miles of travel through Texas where she saw thousands of cattle and steers with horns sprouting measuring in some instances 10 feet, were side-lights told by Mrs. Moffitt.

In Western Texas, Mrs. Moffitt said that about the only living thing that could be seen was an occasional lizard. The trip through New Mexico and Arizona she described as "interesting" but also any afternoon in the office of the Sanford Grammar School, Prof. H. E. Kipp has announced.

Mr. Kipp pointed out that some of the boys took these tests at the end of the school year but it was later learned through the University that they would not accept one of the tests that was given at the local high school.

Upon learning this information, Mr. Kipp stated, he executed a number of tests from the University so that local boys would not have to make the trip to Gainesville to take them. The tests will be given in the University during the next three Saturdays.

Professor Kipp advised that any boy wishing to take the tests in week of Aug. 8 to 12 so that the week of Aug. 8 to 12 so that the records can be sent on to the university immediately. Any boy who cannot find time to take the tests during the afternoon can make an appointment by calling 810-W or 225.

Daytona Beach In Mathias Day Of Ohio

DAYTONA BEACH, Fla., Aug. 5.—(AP)—This Florida east coast city, famous for its wide, smooth beach, was named 66 years ago in honor of the man who founded it two years earlier.

Mathias Day of Mansfield, Ohio, founded the city on the Atlantic ocean and the Halifax River in 1870. Two years later the Federal Writers' Project says, Day and two other pioneers decided the community should have a name. They called upon other settlers for suggestions.

"Daytown," "Daytonia" and "Daytona" were recommended and the latter name was chosen. The section along the beach became a separate community later and was called "Daytime Beach". In 1924 the two cities were merged under the present name.

The "Beach" part of the name was retained because the city had become known all over the world for its fine ocean sandway, the wide smooth sands on which a number of land speed records were made.

During hot weather cows may drink 50 percent more water than usual. Water is used in cooling the body and enables the cow to tolerate the heat better.

Building Here For July Hits High Figure

Permits Of \$17,650 Exceeds Total Of Last July By More Than 15 Thousand

Building permits issued during July amounted to \$17,650 according to the monthly report of City Hall departments. Last year the same month saw permits issued to the amount of \$2,410, a difference of \$15,240.

The great increase of July this year over last July was due to a \$15,000 permit for the Yowell Company for remodeling, and for installing an air conditioning unit.

Seven electric permits were issued with fees amounting to \$10,000 for the same month, three permits were granted with fees amounting only to \$150, a difference of \$9,850.

Four plumbing permits were granted with fees amounting to \$10,000 for the same month, one plumbing permit was granted with a fee amounting to \$50, a difference of \$9,950.

Police collected fines amounting to \$241 while last year fines for July amounted to \$368.65, a difference of \$127.65.

During July Police handled a total of 56 cases, 22 of which were for disorderly conduct. Sixteen were dismissed and four transferred to other counties. For the same month last year 18 cases were handled by the Police, 19 of which were for disorderly conduct. Seven were dismissed and five transferred to other counties.

Professor Kipp To Hold State School Placement Tests

Graduates of Seminole High School, Lyman High School, and Oviedo High School who plan to attend the University of Florida during the next regular session may take their placement tests any afternoon in the office of the Sanford Grammar School, Prof. H. E. Kipp has announced.

Mr. Kipp pointed out that some of the boys took these tests at the end of the school year but it was later learned through the University that they would not accept one of the tests that was given at the local high school.

Upon learning this information, Mr. Kipp stated, he executed a number of tests from the University so that local boys would not have to make the trip to Gainesville to take them. The tests will be given in the University during the next three Saturdays.

Professor Kipp advised that any boy wishing to take the tests in week of Aug. 8 to 12 so that the week of Aug. 8 to 12 so that the records can be sent on to the university immediately. Any boy who cannot find time to take the tests during the afternoon can make an appointment by calling 810-W or 225.

CORRIGAN RIDES IN TRIUMPH

Douglas Corrigan, the "wrong way" flier, who landed in the Hudson River in New York, is the subject of a play at the City Hall today, a motion picture with a filmstrip that will be shown in the auditorium.

Right Of Cone's Brother To Name Judge Questioned

TALLAHASSEE, Aug. 5.—(AP)—A new order was prepared to be signed by Governor F. Woodcock in a Jacksonville hospital to avoid any legal doubt of Judge William V. Albry's right to preside at the Tampa election fraud trials starting Monday.

Solution J. E. Williams of Hillsborough county asked the Attorney General's office to rule whether Judge Albry, in Tampa from Key West, could preside on the authority of an appointment issued by the Governor's secretary.

Assistant Attorney General T. A. Newwood conferred with W. Branch Cone, the Governor's brother and secretary, and Cone announced a new order would be taken to the Jacksonville hospital for the Governor's personal signature.

Marjorie Uman, Tampa attorney, questioned Judge Albry's right to preside on ground that the Governor had not signed the order.

SNOW MAKER

NEW YORK, Aug. 5.—(AP)—R. J. Stiphens of Chicago signed a contract with the New York World's Fair of 1939 yesterday, guaranteeing that no matter how hot the weather may be he will produce a snow storm (artificial, not synthetic) every night in the fair's Alpine Village.

WCTU CHARGE

SAN FRANCISCO, Aug. 5.—(AP)—Mrs. Ida B. Wise Smith, president of the National Woman's Christian Temperance Union, charged in an address last night that "a rapid increase in x x venereal disease" resulted from "a renewal of the old alliance between prostitution and the saloon."

Formal Organization Of Southside Baptist Church To Be On Sunday

The formal organization of the Southside Baptist Church, located near the airport entrance, will take place next Sunday afternoon at 3:00 o'clock in the afternoon, it has been announced.

The church was opened by Rev. Thomas E. Thompson, as a full-time Baptist preaching station on June 5 of this year and it is reported there has been good attendance at all the services.

A program has been arranged for Sunday afternoon and a cordial invitation is extended to all to attend. The program is as follows: Hymn No. 250 "I Am Thine O Lord" Invocation—Rev. J. N. Thompson; Oviedo Hymn No. 239 "Near The Cross" Sermon—Rev. James E. Sathman, Lake Monroe. Prayer—Rev. W. P. Brooks, Jr. Sanctified—Vocal Solo Mrs. J. H. Caldwell.

Mrs. Curlett In Spite Of Peace Urges Board Aid 'Big Tree' Project

New Road And Beautification Project Asked To Enhance Value Of Cypress

Mrs. Curlett, who has been active in the Big Tree project, urged the Board to aid in the beautification of the area. She stated that the project would not only enhance the value of the cypress trees but also provide a new road and beautification project.

The Board of Public Works is expected to take action on the project soon. Mrs. Curlett expressed her confidence that the project would be approved and that it would be a great benefit to the community.

BIBLE VERSE FOR TODAY

DO IT TODAY: Boast not thyself of tomorrow; for thou knowest not what a day may bring forth.—Prov. 27:1.

And just to think Senator Clark did it without a hill billy band or anything!

Now that Joan Crawford has decided to get a divorce we suppose Franchot is singing a new Tune.

Senator Claude Pepper is now on a tour of Europe. Probably trying to get away from the job hunters.

If Germany does attack Russia in the Ukraine, we suppose some smart aleck will call it a blow to the bread basket.

61-Year old Man Becomes Father of 26th Child—headline. Father and child, no doubt, are doing as well as could be expected.

Roger Babson again predicts that we are on the threshold of a great era of prosperity. We had a hunch it was just around the corner.

With all the other troubles England is having, the Gulf Stream, which keeps the British Isles from freezing, is turning cold.

If Russia goes to war with Japan, and Germany goes to war with Russia, and France and England go to war with Italy and Germany, what does that make us, or does it?

If the Japanese keep on spreading out, they are liable to get in the position of some of the blind boys during our late lamented boom who had an equity in everything but didn't own anything.

Harold Cole, president of the Florida Chamber of Commerce, has launched a drive against the gross receipts tax, and incidentally in doing so has launched a movement to elect him governor. At least he is being considered as the logical choice by many small business men.

We are no scientist but we can explain the unusually cold water in the Gulf Stream which has lately been killing the fish. The Gulf Stream originates in the Gulf of Mexico where the altitude of the Mexican off-shore toward Secretary Hull's appropriation proposals has undoubtedly been reflected in the neighboring waters.

Some day farmers, professional small business men, and those who get no benefits under the Social Security Act are going to be asking for their pensions, and they are going to feel they are entitled to the consideration by their government as CIO members and organized workmen. They will then be asking for some embracing pensions are going to be asked.

Overcoming victory which Clark won in Missouri was a logical choice for the party in 1940 if it is probable to select a somewhat conservative Clark is a son of the party who was nearly elected for president in 1912 an excellent record both as a Democrat and a liberal. While some along with the New Deal things, he has not been some of the more conservative. He may be a conservative for the left wing. Clark has been radical for many years, and he will be the one to lead the New Deal.

Sanford Steps Out

In spite of the market slump which marred the celery season last winter and a number of other unfavorable aspects of the business situation, Sanford has been making remarkable strides throughout the past year and is giving every indication that it is now going places. Nowhere else in the city is this more clearly apparent than on First Street.

It was only a little more than a year ago that the new Armory on East First Street was dedicated, while across the street the Mayfair Hotel which had been closed for years, has been re-opened, refurbished and improved. Between the hotel and Sanford Avenue Fort Mellon Park is now under construction, the most promising beautification project in the city.

The McLander Arcade has recently been sold and is being reconstructed for the Sanford home of the Mather Furniture Company. Across the street the old Bishop Block was freshly painted and reconditioned a year ago by the Hill Hardware Company shortly before moving into it. The old Hill Hardware Building, farther on down the street, we understand, is soon to undergo extensive remodeling.

The improvements which are now being made to Yowell's store are making it one of the most beautiful and thoroughly modern buildings in town. It is also the first business in Sanford to install a complete air conditioning unit and is the only air conditioned department store in central Florida. Across the street, Speer's Department Store has recently put on a fresh coat of paint, while next door McCrory's has just spent over \$25,000 in modernizing its store.

In the telephone building two new stores, The Hollywood Shops and Ivey's Shoe Store, have taken up residence while the exterior has had its face lifted and presents a thoroughly modern and metropolitan appearance.

On down the street, W. L. Cooper has been making some extensive improvements to the Cooper Block where it is rumored a new bank is to be located. Next door is the Princess Theater which last year was completely renovated and furnished with a most attractive front. And next to it a new building is under construction which is to house Sanford's newest grocery, the Table Supply.

All in all it is a most extensive reconstruction program. Had anyone told us a year or two ago that such improvements were to take place we could have had difficulty in believing them. And yet it has been done. Nor are these all for Sanford. Other sections of the city have not lagged behind. Sanford has really been doing things.

Why Not Now?

We are glad to see Judge Sharon renewing the agitation for a trailer camp in Sanford. Speaking before the Junior Chamber of Commerce this week, he advocated the establishment of such a camp here before another winter season arrives, and he recommended that the Jaycees put their shoulders to the wheel in such a movement.

Declaring that Sanford has long lacked adequate tourist accommodations, Judge Sharon pointed out that for several years there has been a great deal of talk about a tourist camp but so far nothing tangible has resulted from it. Last summer the movement had progressed so far that it seemed almost a foregone conclusion that the camp would be ready by the first of the year. But we are still waiting for it to be built.

It seems to us that it would be possible to make a WPA project out of the proposals for a trailer camp and get the government to pay all or at least a substantial portion of the cost of its construction. The explanation for the failure of the plan in the past has always been inadequate finances. And yet most of cost of such a project would be for labor which the WPA ought to be in a position to furnish.

The advantages of a trailer camp have been outlined in these columns numerous times before. Judge Sharon expressed them admirably when he said that Sanford had long lacked adequate tourist accommodations and that a trailer camp would help a great deal in alleviating this situation. A trailer camp might not prove the answer to the entire tourist problem, but it would help. It would be a decided step in the right direction.

WHAT SHALL WE tell the young man today? That question was partly answered by W. J. Cameron on the Ford Sunday Evening Hour: "Tell him he was fortunately cast by birth into a land where everything he has in him can come full circle. Tell him he lives among a people where men grow big doing big things, or doing lesser service in a big way—a country that has only 6 percent of the world's population and 71 percent of the world's automobiles; 6 percent of the world's population and 52 percent of the world's telephones; 6 percent of the world's population and 44 percent of the world's radios; 6 percent of the world's population and 30 percent of the world's railroads, 6 percent of the world's population and double the life insurance of the rest of the world.

More children in the schools, more homes owned by families, more college opportunities, than anywhere else. This is part of the so-called "wreckage" the elder generation is leaving him. Don't say these are merely material things—they are the visible symbols of spiritual wealth. Tell him that this is a country where men with no capital but their hands, their overalls, an idea, and an urge to serve their generation have always had a wide field, and never before so wide as now."

SANFORD TWENTY YEARS AGO

A letter was granted Wednesday evening to Deacon M. W. Lovell to unite with the Baptist church at Leesburg, where he is now living. Just thirty years ago Mr. Lovell was received into that church and baptized.

Mrs. David Speer has returned from a pleasant stay in Jacksonville, where she heard Y. M. C. A. Secretary Sunay Stephens preach in Dr. Hobson's church. She also saw Mrs. Savage who expects to return about Sept. 1st. David Speer has returned from a business trip to Georgia.

Mrs. A. C. Williams and son, Robert, have returned after a brief visit to Seville.

W. C. DeCourcy has returned from his vacation spent in Nevada, N. C. with his family, who will remain here.

Experts Explain Basis Of Trouble In New Conflict

Continued from Page One

In China and replaced by recruits. Russian activity in the Far East would hinge on what the latest border incidents disclosed about Japanese troops.

The proponents of Theory No. 2 also argue the Russians are great fellows for killing two birds with one stone. Why not also begin forging a huge military ring around Manchukuo, the end of which would be anchored in Outer Mongolia in the west, and the other on Posselt Bay on the Pacific? But Posselt Bay is unfortified. Unless the red army could defend the coast line of the bay, it would be useless to the Russian fleet for mobilization and refueling, or seaplane berthing in case of war.

Russia has been watching Japan hog down in China with a great deal of glee. Every day the warfare is prolonged, the more it will cost the Japanese in money and men. At the same time, Russia has been glad to see the so-called democratic nations stiffen their policy toward the so-called totalitarian states, even the United States have been talking up Italy, Germany and Japan, the anti-Communist allies.

But the attitude of the so-called democratic nations a cue for Russia to do her part in the Far East? Thus argue the backers of Theory No. 3. Without actually stirring up a war, isn't it up to Russia to harass Japan, make every step of Japanese expansion all the harder?

And wouldn't it also be the natural thing to erect fortifications in areas of strategic military value?

There you have the ideas of the experts on Far Eastern affairs who have been trying to figure out the game of both the Japanese and the Russians. Based on logic, the third theory appears to hold more water than the first or second, although there seems to be a measure of truth in all.

It stands to reason that if Great Britain and France are willing to lead the way by re-announcing to Germany and the world their eternal friendship for each other, then certainly Russia—the only nation publicly condemned by the three totalitarian states—should do her part in defiance of Japan, Germany and Italy.

Whatever theory is correct, Japan and Russia are making special war propaganda both at home and abroad at this time, and they are willing to sacrifice the lives of a few hundred soldiers to make the international chess game look real.

What worries the heads of other states is that both nations may get themselves into a fight they can't stop if they keep on testing each other—and that means the rest of the world would have to werry along with another big trouble spot.

Waxed vegetables can be kept two to three times longer than unwaxed ones. The consumer can remove the wax by washing the vegetables in warm water.

Two Negroes Are Captured In Raid On Whiskey Still

Continued from Page One

John Ware and Henry Durant, negroes, were arrested Thursday morning by Deputy Sheriff Jack Hickson, operating out of Sheriff C. M. Hand's office, and Constable O. P. Sloan of Ovidio for operating a whiskey still, located about five miles from Ovidio.

Mr. Hickson said he had discovered the still last Friday but kept watch in an effort to apprehend those running it.

Thursday morning about 8:00 o'clock, Mr. Hickson asserted he and Mr. Sloan went to the site of the still and hid themselves where they could watch it. Shortly the two negroes arrived and began operations at the still. Mr. Hickson and Mr. Sloan started to make the arrest and one of the negroes broke and ran but was caught by Mr. Hickson without trouble.

They will be held for trial before Judge R. W. Ware, on a charge of illegal manufacturing of liquor.

The still, Mr. Hickson explained, was the finest captured in over a year. It had a 100 gallon capacity and was made of copper. Several gallons of whiskey and a number of barrels of mash were found and despoiled.

Aid Requested Of Welfare Board By 44,694 Persons

JACKSONVILLE, Aug. 5.—During the first year of its incumbency the State Welfare Board received 36,274 applications for Old Age Assistance which added to the 8,418 pending when it was inducted into office on July 1, 1937, brought the total number of applications to 44,694.

Of the applications filed, 21,121 were approved, 6,890 rejected, 1,455 disposed of for other reasons, with 12,227 pending as of June 30, 1938.

Other statistics made public today showed that 10,838 persons

Japanese controlled territory in Korea and Manchukuo and to reconsider Japan's suggestion of last month that a joint commission be established to arbitrate all border disputes in the future.

It was pointed out that the area around Changkufeng, in what formerly was known as the Chientao district where Japan's Korean and Manchukuoan protectorates adjoin the Soviet Usauri Province formerly was a "no man's land" by tacit agreement between Japan and Russia since neither side was certain just where old border markers which disappeared long ago had stood.

The informants said Japan was not backing down and does not intend to accept Russia's contention that Changkufeng is in Soviet territory until the former border has been more definitely established but equally she is not demanding that Russia suffer humiliation by surrendering the disputed area.

"A return to the former position and settlement of the dispute by negotiation is logical and we think Moscow will accept it in fact if not in a formal reply to our proposals," one foreign office official said.

In Spite Of Peace Overtures Fight In Orient Continues

Continued from Page One

Experts have been divided off recently in the scene of warfare fighting last week and cease-firing on reinforcements.

In addition Russia was requested to refrain from new aerial and land bombardments of Japan.

Cone Removed After Week In Oxygen Tent

Doctor Reveals Gov-
ernor Had Coronary
Thrombosis July 29
Despite Denial Then

Says Condition
Now Favorable

States Executive Will
Recover If There
Is No Interference

JACKSONVILLE, Aug. 6. (AP)—Dr. Stanley Erwin disclosed today Governor Cone was removed yesterday from an oxygen tent under which he had been kept for one week following a heart attack.

"It is time for the people of Florida to know that Governor Cone had coronary thrombosis last Friday, July 29 at noon and has just been removed from an oxygen tent," Dr. Erwin said.

Seasonal Program For Farm Needy Is Hopkins' Plan

MEMPHIS, Tenn., Aug. 6.—(AP)—Insurrection of a permanent program of between-season employment for needy farmers was announced here last night by Harry L. Hopkins, works program administrator, as the first step of President Roosevelt's "frontal attack" on the South's inequality of income.

Hopkins, in an address prepared for nation-wide broadcast, said he came to talk with state and regional administrators of 11 southern states in which diets for thousands consist of "grits, greens and gravy."

He said he discussed with the administrators "measures" the WPA can take to further the President's purpose, after previously giving them authority to add a total of 200,000 persons to the WPA rolls pending the time when labor would be needed for picking cotton.

"We intend to close out this employment in picking time, and to open it up again when the harvest is over," Hopkins said. He said there were thousands of southerners in the rural areas not earning an adequate income from agriculture.

Kentucky Goes To Polls In Primary Choosing Senator

Prestige Of New Deal
At Stake As Bark-
ley Faces Chandler

LOUISVILLE, Ky., Aug. 6.—(AP)—A "bloody Breashtitt" county killing marked the height of bitterness between Democratic factions supporting New Deal Senator Barkley and Governor Chandler for the senatorial nomination in Saturday's primary.

Lewis Combs, county chairman for Governor Chandler and a former Breashtitt, was shot to death last night at Jackson when he and his brother, Leo Combs, started up the stairs leading to Sheriff Deaton's in a Lexington hospital with bullet wounds inflicted at the same time.

Murder warrants were out for W. A. Combs, no relation to Lewis and Leo, and the county chairman for Barkley, and for two other persons.

Senator Barkley concluded his campaign Friday with a barnstorming motorcade through the first congressional district. He visited 19 towns and climaxed his drive for votes with a big rally in his home town of Paducah, on the banks of the Ohio.

Governor Chandler made two speeches yesterday and two last night. There was a big Chandler rally at the University of Kentucky stadium at Lexington. The governor will conclude his campaigning with a radio speech early in the morning.

Fighting Goes On Over Hill In Border Area

Soviet Army Report-
ed As Moving Up
Troops For Mass
Onslaught On Japs

Fighting broke out anew today over the disputed Changkufeng hill on the Siberian Manchoukuo frontier as Japan and Soviet Russia wangled over the terms to keep the incident from spreading into war.

Japan held to her original overture—cessation of hostilities, mutual withdrawal from the disputed zone and arbitration of the border line through diplomatic channels.

The Associated Press correspondent at Kogi, Korea, said the Soviets apparently were moving up for a strong attempt to retake the hill.

On the other Far Eastern front Japanese warships were within 110 miles of Hankow, in virtually the same position as a week ago.

In Spain, government forces struck at an important road junction at Nogueira which dominates the insurgent communication lines northwest of Teruel. The government also launched a strong offensive in the Pyrenees.

Continued hostilities along the Siberia-Manchoukuo frontier, with their constant threat of a general Russo-Japanese war, appeared inevitable as a result of a deadlock in first efforts to settle the dispute by negotiation.

Russia lent her Red army forces in the Changkufeng area 150 miles south of Vladivostok, on wartime footing pending Japan's formal answer to the Soviet's list of terms under which a peaceful settlement of the conflict would be considered.

These terms, as announced officially following Foreign Comissar Maxim Litvinov's two and one-half hour conversation Thursday with Japanese Ambassador Mamoru Shigemitsu, were so adamant that diplomats believed there was scant chance of Japan's acceptance.

Litvinov, indirectly rejecting Japan's first verbal proposal for a peaceful settlement, made it clear to Shigemitsu that Russia still regards the Japanese as aggressors and that there could be no negotiation so long as "even a single Japanese soldier remains on Soviet territory."

Fascist Defense On Race Policy Given

ROME, Aug. 6.—(AP)—Requirements of empire defense form the primary reason for the new fascist race policy, an official inspired statement said yesterday criticizing "misunderstanding" abroad of fascist motives.

It was the first time empire defense rather than anti-Semitism was stressed in interpretations of the new race policy, one phase of which, it was announced, will permit only one Jew for every 1,000 non-Jewish Italians to participate in "the full life of the state."

Sanford Building Record Is Best In Several Years

Thousands Of Dollars
Spent In Re-Model-
ing And Renovating

Building activity in Sanford during the past six months has been greater than for any time in the past several years, according to records at the City Hall.

In addition to numerous home construction jobs, several large buildings have been remodelled and renovated and one has been built.

The building was constructed at a cost of approximately \$14,000. The single storey building contains a floor area of 2,200 square feet with a frontage of 40 feet on First Street. Walls were made of brick and tile. The steel-trussed roof is covered with a 15-year bonded roofing.

The recent purchase of the Melander Arcade building by the Malher Furniture Company and subsequent remodeling at a cost of \$1,000 gives First Street another first class business house.

"Charlie Chan" Of Movies Fails To Come Back

Warner Oland Dies
Of Pneumonia In
Stockholm, Sweden

WEST HARTFORD, Conn., Aug. 6.—(AP)—Warner Oland, motion picture actor best known for his screen role of Charlie Chan, died today at Stockholm, Sweden, his lawyer announced here.

Carl Oland, the brother, reported a cablegram from Stockholm said the actor, who for days had been ill of pneumonia died at 2:30 A. M.

Death came as Oland's estranged wife was preparing to go to his bedside. His lawyer had announced at Santa Barbara, Calif. she would sail for Stockholm Monday.

Economic System Due To Break, GOP Says

CHICAGO, Aug. 6.—(AP)—The Republican program committee last night charged current trends in legislation and administration threatened the breakdown of the economic system and the "disintegration of responsible and effective government."

Opening Dates For Seminole Schools Given

Sanford, Geneva, Osceola, Monroe, And
Wilson Schools To
Begin September 12

The opening date for Seminole County Schools has been set at September 12 and 13, in agreement of the board of trustees, Superintendent of Public Instruction L. W. Fisher, announced this morning.

The Sanford, Geneva, Osceola, Monroe, and Wilson schools open on Sept. 12 while the Union, Lake Mary, Delton and Deltona schools open Sept. 13.

All white and colored schools will observe the above dates. M. Lawton pointed out that teachers of the schools are out in the county at least two weeks before the opening date, must present a certificate from a doctor indicating that there was no epidemic of communicable disease and no case of infantile paralysis in the community from which the teacher or student may have arrived.

At the noon meeting of the school board, a letter was read from L. K. Cannon, assistant state highway engineer, promising that a crew of workers should be at work on the bridge across the Lake Mary canal within 10 days. At the previous meeting a resolution was passed calling the attention of the state road department to the fact that the bridge was badly in need of repair in order to be safe for the transport of pupils over it in the school buses.

The board urged the road department to take immediate action on the resolution.

J. C. Fennell was authorized by the board to write contained in a letter on all county-owned blanket policies.

The resignation of A. G. Wagner, for many years chairman of the board of trustees of the Chulavita school, was accepted.

Miss Myrtle Chalker of Chulavita was recommended by trustees of the Chulavita school as successor to Chulavita to succeed her mother-in-law.

Dearborn Police Kill Man Who Fled Florida's Prison

Another Convict Cap-
tured In Gun Bat-
tle After Try At
Escape From Cops

DETROIT, Aug. 6.—(AP)—Police of suburban Dearborn killed one man and captured another whom they quoted as confessing that both were fugitives from a Florida prison camp they had escaped by slaying a guard.

The two Dearborn men with whom they were riding were held for investigation. Arthur Sherman, 26, of Los Angeles, Calif., was shot and killed at 2:10 A. M. by Patrolman Ralph Dahlen who said the man broke away while being questioned as a suspicious character.

Bruce Parsh, 22, of Marianna, Fla., told police that Sherman had killed W. L. Waters, a guard, July 22 near Floral City, Fla. Parsh said they seized an automobile occupied by two Florida state representatives and after dropping them and obtaining West Virginia license plates drove to Dearborn.

Here they met William Zahari, 24, who said he had been released in February, 1937 after serving time with them in Florida.

The fourth man in the car with them when stopped was the driver, George Borgia, 21, of Dearborn, who told police he had picked up the other three when Zahari, whom he knew, asked for a ride.

Sheriff Charles Dean of Inverness telegraphed he would come here for Parsh.

Expert On Citrus Suggests Sale Of Oranges By Weight

ORLANDO, Aug. 6. A case for sale of Florida oranges by weight was presented in graphic detail last night to members of the newly organized Orange County Citrus Growers Inc., group of simon pure growers.

Vernon E. Collier Dies At Age Of 69

Vernon E. Collier, 69, died at 6:00 o'clock yesterday afternoon at his home in Lake Mary after a long illness.

Mr. Collier had resided in Seminole County about 28 years. He was born July 5, 1869.

A former contractor, he had been with the Sanford Novelty Mill, for the last several years.

Bolita Racket In Tampa Ceases As Law Threatens

Grand Jury Requests
Officers Take Steps
To Erase Gambling

TAMPA, Aug. 6.—(AP)—The Tampa bolita racket has been closed suddenly and tightly.

It closed on the heels of a conference of law enforcement officers from Florida and other states Tuesday in Mayor Chalmers' office and after the grand jury had requested officers to cooperate in stamping out gambling.

But nobody could tell how long it will stay closed.

The lid was down on single bolita, parlay, ABC bonds and all other forms of the numbers game, apparently by general agreement. There were no arrests and no indication of how long gambling numbers would be off the market.

"We're not selling," was the reply customers got at the bolita window.

The gamblers' griping said the shutdown order was passed around Thursday night after a found bolita "throwing" in Tallahassee.

Although the racket had been quiet for the last few weeks with most representatives declining to give out written tips, the closing was the first since early last Spring when a former grand jury indicted nine officials and seven persons on charges of operating gambling.

All the charges later were dropped except one against Joe Romano. He was fined \$100 on a plea of nolo contendere which means he didn't say whether he was or was not guilty.

BARTOW, Aug. 6.—(AP)—Query as to what will be done in Bartow to clamp down on bolita sales has been answered by Mayor Commissioner Edwards who said: "We have already instructed the chief of police to clamp up the town."

Mayor Edwards did not enlarge upon that statement, other than to say: "If the chief does not carry out orders we can replace him."

It is generally known that bolita has been running wide open here for some time, and that arrests to date for bolita sales have been practically "nil."

EQUIPOISE DIES

LXINGTON, Ky., Aug. 6.—(AP)—Equipoise, second to Sun Beau as the world's leading money-winning race horse, died last night at the C. V. Whitney farm near here. In his six years racing, the chestnut son of Pecos Indigo, won \$55,610 and held the world's record of 124 2-5 for the mile, set in 1932 Arlington Park.

BREAKS FAST

LOS ANGELES, Aug. 6.—(AP)—After 18 days of a hunger strike in protest against the Hitler regime in Germany, Alfred Theodor Henry Hammborn, 49, broke his fast yesterday. He has been held in the county jail hospital for immigration authorities. He said he would be executed if returned to Germany.
