## JOHNSON IMMIGRATION BILL PASSED THE HOUSE BUT WONT PASS SENATE

### Amended Measure to Prohibit For One Year

### TOO MANY COMING

### AND ALL KINDS OF DISEASED PEOPLE WAITING TO REACH AMERICA

WASHINGTON, Dec. 14.—The Johnson immigration bill as amended to prohibit all immigration for a period of one year, was passed yesterday by the house. It now goes to the senate, where its defeat is predicted by senate leaders.

The vote was 293 for the bill and 111 against. Six members voted present.

The Siegel amendment, extending to brothers and sisters of aliens who have become American citizens the right to immigrate to this country, was passed by almost as large a majority.

Hundreds of persons ill with disease are seeking to enter this country, gathered in English and French seaport towns, watching for an opportunity to sail for America, said Rep. Johnson. These people will not hesitate to avoid passport restrictions.

The house yesterday adopted a rule limiting to two hours' debate on the Volstead resolution to repeal most of the wartime laws. Debate was started immediately.

An embargo for one year against the importation of wheat, wheat flour, barley, rye, oats, flax, wool, hogs and cattle and sheep is proposed in a bill introduced yesterday by Rep. Young, Republican, North Dakota. He also introduced a bill establishing a permanent schedule of import duties upon these items after the one year embargo.

Congress took the initial step toward framing new revenue legislation when the ways and means committee opened hearings on tax questions and the nation's revenue needs.

At the outset the committee was informed of the treasury's attitude and views by Dr. Thomas S. Adams, tax expert and economist, who declared the first problem for the committee to decide was the determination whether the level of taxes should be retained at \$4,000,000,000 annually.

Although he avoided saying so, the treasury representative indicated this decision hinged on whether a reduction in tax rates was possible. He himself believed no reduction could be considered.

First opposition to the move to re-establish the war finance corporation as a means for relief of the farmers, was voiced on the floor of the senate by Sen. Edge, Republican, New Jersey. The New Jersey senator said he felt there was sufficient investment capital for the expansion of the American export trade in farm products and all other lines.

Government held, he said, he regarded "as merely postponement of the inevitable day when the law of supply and demand must be recognized."

The senator has just returned from the meeting at Chicago where an export finance corporation was organized with \$100,000,000 capital. He said such moves were in the right direction to help the situation.

Referring to the high cost of living through which the country has just recently passed he told the senators, one hesitates to construct hastily a government agency for the admitted purpose of still further holding up food because some one else will lose money otherwise.

"We all must believe," he said, "that the only infallible barometer of business is the law of supply and demand and that the conditions arising from observance of it."  
Senator Edge declared that if America "through artificial means, maintained high prices at a time when prices were declining in the rest of the world, the United States would be placing itself in a position where it will be more difficult to get orders for American exports at prices higher than the general level of the world's markets. He expressed

## LEAGUE OF NATIONS DISCUSSED

### TAKING UP MUCH OF MR. HARDING'S TIME THESE DAYS

(By The Associated Press.)  
MARION, Dec. 14.—President-elect Harding yesterday discussed the problems of his administration with Elihu Root, a former secretary of state and one of the most notable of the nation's elder statesmen.

International relations and the prospects for an acceptable world peace association held the center of attention in their four hour talk, Mr. Harding drawing exhaustively upon the recent experience of his visitor as an adviser abroad in the formation of a world court under the Versailles league. The president-elect asked many questions about details of the court plan and about the present attitude of European states toward the league.

What advice Mr. Root gave with regard to reservations of the framework of the league, was not revealed nor would either comment on the results of the conference except to say that no conclusions were reached. It is the indication that Mr. Harding was attempting to form no opinion for the present, but was content to gather information and advice.

Coincident with Mr. Root's visit it became known that Colonel George Harvey, the New York editor is urging Mr. Harding to advocate a world agreement that no nation would resort to offensive warfare until its people had so desired by referendum. Colonel Harvey did not indicate to what degree this proposal had been approved but he expressed hope that some such provision would be written into any world association sponsored by the coming administration.

The war referendum proposal has been advanced many times during the peace treaty fight and several reservations embodying it were introduced in the senate. One of its leading advocates has been William J. Bryan.

## Sharp Criticism Coal Industry Says Report

### DRASTIC LEGISLATION TO MEET ALLEGED EVILS OF THE COAL COMBINE

(By The Associated Press.)  
WASHINGTON, Dec. 14.—Sharp criticism of the national coal industry with implied threat of drastic legislation by congress to meet the alleged evils of profiteering and speculation, accompanied the report of the Senate Committee on production and reconstruction.

"Coal profiteering, especially following priority orders of the Interstate Commerce Commission, continues unchecked by the Department of Justice and is a national disgrace," the report said.

It added "It is the duty of the government to take reasonable and practicable steps to remedy every injury."  
strong advocacy of the government co-operation with private business, but said congress should go slowly in any effort to make water fill the jug.

## ROD AND GUN CLUB ORGANIZED LAST NIGHT WITH 76 MEMBERS SIGNED

### ST. PETERSBURG PREPARES TO GREET ROTARY MEMBERS

(By The Associated Press.)  
ST. PETERSBURG, Dec. 14.—Rotarians from five cities will meet here December 17th in what promises to be one of the liveliest meetings ever held in the state. Sessions will be held at the Detroit hotel. A 100 per cent attendance is expected. Information from Lakeland is to the effect that that city will be fully represented.

### Voted to Purchase Property On Lake Front

### WILL INCORPORATE AND START BEAUTIFUL BUILDING AT ONCE WITH BASIN FOR BOATS

At the organization of the Rod and Gun Club meeting held in the court house last night 76 members had enrolled their names as stockholders in the corporation. The Rod and Gun Club has been fostered by the "13" Club who sent out committees last week and had set the figure at 100 members but as it was near holiday time and many of the prospective members were out of town they have have not been seen and the meeting last night looked like 150 members will be enrolled by the time the club is ready to operate. Col. G. W. Knight, chairman of the "13" Club presided at the meeting and stated the object and then called for an election of officers which resulted as follows:

Dr. S. Puleston, president; Judge E. F. Housholder, vice-president; W. M. Haynes, secretary and treasurer. The following board of governors or directors were elected:

R. C. Bower, Geo. W. Knight, F. Eugene Roumillat, A. R. Key, Edward Higgins and G. D. Bishop.

The governors were instructed to proceed with the organization and incorporation and as soon as this is accomplished the work of construction of a fine building and boat basin will be begun on the property recently purchased of J. D. Hood and for which the deal was closed last night by paying cash for the lot. This property is on Chapman avenue near the John Russell home and has several hundred feet on the water front that will be bulkheaded into a boat basin and a fine club house will be erected on the lake shore for the tourists and visitors and for a general assembly and meeting place for home folks. This is one of the most important moves that has been made in this city in many years and means that at last Sanford will take advantage of her fine water front and make it an inducement for tourists to come to Sanford with their fine yachts and where they can not only have hundreds of miles of good water for boating and fishing and hunting but they can be assured of a safe harbor at all times of the year for their boats and in fresh water where the insects that ruin their boats on salt water do not abound. In fact Sanford offers and will offer more to the pleasure-loving tourist than any city in Central Florida. It is already recognized as the sportsmen's paradise and all that was needed was the club house and boat basin and now that these are assured this city will become the mecca for the tourists who want to see the real Florida by boat.

### SALMON HAD TRAVELED FAR

Fish "Tagged" at Point Partridge Washington, in 1918, Taken in Waters 600 Miles Distant.

The Canadian department of marine and fisheries has notified the bureau of fisheries of the United States Department of Commerce of the capture in the Skeena river, British Columbia, in the spring of 1920, of a chinook salmon bearing an aluminum button or tag with the letters "B. F." stamped on one side and the number "1011" on the other. An examination of the bureau's records shows that the tag in question, one of a special series employed in connection with an investigation of the rate and route of migration of the sockeye salmon in the Fraser river-Puget sound region, was attached to a fish at Point Partridge, Whitby Island, Wash., on August 13, 1918. It is now evident that the fish was a chinook salmon tagged by mistake.

The fact that a chinook salmon should be caught in a shore trap far from the sea two years after the fish attained the spawning condition is interesting and suggestive, and the wanderings of this fish before and after

tagging would be a fascinating theme for speculation. The distance between the two points at which it came under observation is about 600 miles by the most direct water route.

The communities of St. Lucie county joined in the endeavor to make the county exhibit at the state fair a first class one.

DR. WALKER HAS BEEN RETURNED TO SANFORD

The best news that the Sanford people have heard today is that Dr. S. W. Walker has been returned to the Sanford church for another year by the Methodist conference in meeting at Tallahassee. There was but little doubt about his being returned the only chance for his being taken away was that he was slated for several positions higher up but the Sanford people, Methodists and every other denomination, would not listen to Dr. Walker going away just when he had become entwined in the hearts of the people here and his coming back to us is greeted with enthusiasm all over the city. Mrs. Walker, who has been very ill for several days is improving today and this is also good news to the many friends of the Walker family here and elsewhere. Dr. Walker had the misfortune to lose his fine watch presented him by the Elks of West Virginia when the burglar broke into his home the other night and as a mark of the esteem in which he is held by his congregation a collection was made up in a few minutes on Monday morning and a fine new watch given to him. It is this spirit that makes churches and makes the pastor and his family feel that they have not labored in vain.

THE DAYS ARE HERE.

Mr. and Mrs. Edward Day have arrived in the city and will spend the winter here as is their custom. Mr. Day is one of the largest manufacturers of chemicals in the north and makes his home in Michigan but for many years has been coming to Sanford to visit his old friend John Russell and be here with his fine yacht where he can have all the pleasure of boating and fishing and hunting. Mrs. Day is just as fond of the outdoor life as Mr. Day and now that we have the Rod and Gun Club we will have more of their kind. The Herald long ago named Mr. and Mrs. Day the "Happy Days" for they are always in the best of humor and meet the world each day with a smile and a pleasant word for everyone. A hundred more such "Days" would be fine for Sanford. Mr. Day has also looked kindly upon the winter vegetable business and recently purchased the Leach place on the west side and has a fine crop on it.

These signs, which are 9x12 feet, show a clear and true road map of the county and placed, as they will be, at the prominent intersection of roads, will be of vast aid to motorists and should be appreciated by the traveling public.—Eustis Lake Region.

School bonds have recently been sold at a good price in Lake Worth and very soon work will be started on the new high school building, the place to be completed in time for the opening of the next term, in September, 1921. The bonds have a face value of \$40,000 and were sold for \$38,600.

THIS "ANGEL" WAS A KITE

But Superstitious Railroad Man Who Shot It Down Was Certainly Scared for a Time.

"The shooting," says a Texas man, "occurred some years ago on the Panhandle branch of the Santa Fe, and the hero of the tale was a superstitious engineer who believed in 'warnings.'"

"One night he was rolling along at a good speed, when he saw a clear, white light, like a will-o'-the-wisp, dancing over the track a few hundred feet in front. He shut off steam and came to a stop as quickly as he could. The conductor and train crew came running up to the engine to see what was the matter.

"There is some one swinging a lantern across the track," said the engineer, and the crew went ahead to investigate.

"We can't find anyone," reported the rear brakeman, and the engineer pulled out again, but he went slowly, and in a few minutes stopped again. The crew went ahead once more to see what was the cause of the light. The conductor, who was a good shot, drew his revolver, and at his second shot there was a crash, a scream, and the light went out, and something white came fluttering down from the clouds.

"The engineer was scared. 'You're shot an angel, sure,' he said to the conductor, with a face as pale as death.

"Investigation brought out the fact that a small boy, with a lantern tied to the tail of a kite, was the cause of the trouble; but for a long time it teased the engineer to be asked about 'shooting angels.'"

HIGH PLACE FOR LEWIS CLASS

Was Instrumental in Setting Up American Farm of Government in Western Territories.

"Those who pushed the frontier westward were themselves the products of frontier conditions," says William B. Shaw in the American Review of Reviews. "Such a leader was Lewis Cass, a native of New Hampshire, who went out as a youth to the settlements that were soon to be organized into the state of Ohio, took part in lawmaking there, served as a volunteer officer in the war of 1812, was appointed governor of Michigan territory, and for many years was engaged in the difficult task of setting up an American form of government in regions that had barely emerged from the wilderness stage.

"That Lewis Cass was in after years a United States senator from Michigan, a member of cabinets, a diplomat and an unsuccessful aspirant for the presidency may have partially blinded us to the really important services that he rendered in the pioneer period of Michigan's history. Neither he nor any of the men of his day could have foreseen the strain that was to be put on the states created out of the old Northwest territory caused by the attempt to absorb vast populations of northern European blood into the citizenship.

First Payment of Rent

It would be hard to find exact records of the first rent paid. It is said that when the Germans conquered parts of Gaul, the land was parceled out to chiefs, lieutenants and private soldiers. In return the holders of the lands promised military service when needed. Some of the land was given to favorites, who were allowed to pay in money instead of service, and the system was established. Rent was certainly known in the days that Rome flourished, there being Latin names for rent under long leasehold tenure; rent of a farm, ground rent, rent of state lands and the annual rent payable for the right to the perpetual enjoyment of anything built on the surface of the land.

Ancient Bible

A Bible belonging to Elizabeth Haddon, a Quakeress, printed in 1568, has been discovered in the East. The Haddon Bible is sixteen years older than the Reims Testament sometimes spoken of as "the oldest Bible." The Haddon Bible is an authentic "Great" Bible. It is also a "Treacle" Bible. Coverdale, the translator, rendering "The Prophecy of Jeremy" gave the reading "I am heavy and abashed; is there no triacle at Gilyad." This in the King James modern version reads "balm in Gilead."

Few Do Much Walking

Statistics of mankind's ambulations, including young children and old persons, and taking into consideration the fact that nowadays there are the inclination and the facilities to ride more and walk less than our forefathers did, show that a fair estimate of the average distance walked during the 24 hours by the men, women and children of continental United States seems to be four miles. The postman and the policeman and the messenger boy walk far more miles than four, so does the farmer, though the use of the tractor has taken some of the burden of agricultural work off their backs.

Willis Powell was in to see us yesterday. Willis is like a breath of fresh air that blows into our stuffy den when the air is stifling around about press time and our pulse is at the lowest ebb. He spreads joy and good fellowship and makes one feel better just for having seen him a moment. It is the Powell spirit that builds cities and we believe that he will eventually inject new life into Tavares.

No machine has ever been shipped ready for use although they may tell you so in the circulars and letters and our new linotype is no exception to the rule. It came with the wrong motor and other parts that were not ready for operation and it will stand idle for the week when it is needed so badly to take care of the holiday rush. However, when this marvel of the printer's craft does get started it will make up for lost time and the Daily Herald will blossom into a full fledged eight page paper.

It does not seem possible that Harry Brown is such a close neighbor now since he left St. Augustine and took up his residence in Lakeland where he has purchased the Lakeland Telegram. It will do Harry good to leave the frozen north and come down into South Florida where he can see the oranges grow. And we can also congratulate the people of Lakeland in getting one of the finest fellows in the world and one of the finest families when they attacked Mr. and Mrs. Harry Brown and children to their list of residents.

This is not the time to stand back and "let George do it" and if there was ever the right time to get down to the business of building a bigger Sanford it is right now. There has been too much "letting George do it" in the years gone by while "Hank" sat idly by whittling a stick until George built a town here and let "Hank" get the profits of his labor without any effort on his part. However, the time is here when those who do not labor will not get any of the honey and they are being marked by their inactivity. This city is going ahead in spite of all that some people can do and the hold backs will go back where they belong.

Happy Jack Worthington is leaving the Tampa Times that he has edited for so many years and takes the Lake Wales Highlander, having purchased this property from the late Harry Gans before his death. Well, all the boys with city jobs are looking for a nice spot in the country where they can boast as much as they please and where they are known as "the editor" and where they can't stay a day or two for a fishing or hunting trip and where they can be home folks with everyone. Life in the city is rather strenuous and while some may like it we want none of it and more and more of the city staff of the big dailies are seeking the smaller cities where they can build up a newspaper of their own and have something in life besides a job.

The Rod and Gun Club and the boat basin for yachts that will soon be built in this city means as much for the progress of Sanford as any-

**YEARS AGO I KNEW A YOUNG MAN WHO PURCHASED FIVE SHARES OF STPEL COMPANY STOCK ON THE INSTALLMENT PLAN OF \$5.00 DOWN PER SHARE AND \$5.00 PER MONTH. HE WAS THEN MAKING A SALARY OF \$60.00 PER MONTH AND WAS MARRIED, LIVING IN TWO ROOMS. BY MINT AND STINT HE MET THE PAYMENTS EACH MONTH UNTIL HE HAD THE STOCK FULLY PAID FOR. SEVERAL YEARS LATER AN OPPORTUNITY OF PURCHASING A PARCEL OF LAND WITH A PAYMENT OF \$500.00 CASH DOWN, PRESENTED ITSELF. THIS YOUNG MAN HYPOTHECATED THE STOCK, BOUGHT AND ALMOST IMMEDIATELY SOLD THE LAND, CLEARING OVER \$10,000.00 IN THE TRANSACTION. MORAL: HE HAD A GOOD STOCK UPON WHICH TO RAISE MONEY WHEN THE OPPORTUNITY CAME. SUGGESTION: THAT YOU INVEST TODAY IN THE SOUTHERN UTILITIES COMPANY 8 PER CENT CUMULATIVE PREFERRED STOCK. IT WILL STAND YOU WELL IN HAND IN TIMES OF OPPORTUNITY. THIS STOCK CAN BE PURCHASED IN CASH OR INSTALLMENTS. THERE IS NONE BETTER.**

**JOE BREAKS WITH SID**

In the last issue of the Palm Beach Post Joe Earman devotes a page of editorial telling that he has broken with Governor Catts because the governor appointed Edgar Thompson again as State's Attorney after he had been suspended for good and sufficient reasons. Joe made a noble fight in Palm Beach county for Catts for United States Senator against great odds and went down in defeat for a friend. He says that consistency and standing by his friends are the only things he knows in politics and when he has been mistaken in a friend he is through. Joe is right. But as long as there is any politics there will be inconsistency, jealousy, enmity and every other kind of rottenness and Joe knows this as well as anyone. It is an awful job to wake up and find out that the friend you have been backing in your paper has played out on you at the first opportunity. It has happened to us several times and it embittered us with the political world to such an extent that our political friends are few and far between but Joe Earman is our friend and always will be and his editorial about Governor Catts going back on him strikes the right spot in our heart for we know it comes straight from the heart of Joe Earman. But such is life and the only way to play safe in politics is to let the procession go by while you watch it from the grandstand. There are a few people we would get out and work for in politics at the present time and they are ones who have been time tried and fire tested and have never been found wanting.

**PRESBYTERIAN BROTHERHOOD**

How can men follow their daily occupations, the keen pursuit of money, the intricate ways of business, the diversities of labor and capital and still be happy in the possession of their self-respect and a clean conscience. This was the lesson told to a large and attentive audience at the Presbyterian Brotherhood last Sunday. An audience, comprising the heads of the most successful business and farming enterprises the heads of county and city governments and many others whose lives spell "success," listened in wrapt attention, which shows that there must be an invisible connecting link between success and these teachings.

To the stranger in our midst, to the doubter and skeptic, here is the opportunity to become acquainted with those that can be of help and a sincere welcome is always extended to all corners at the Presbyterian Brotherhood Sunday meetings at 9-45.

When two women fall in love with the same man they cut each other by looking daggers.

**"BILL" HEALEY DEAD; BURIED AT LONGWOOD**

W. R. Healey, for many years an employee on the train service of the Florida East Coast railroad and one of the best known conductors on the road, died Sunday morning in the railroad hospital in St. Augustine, where he had been a patient for several weeks. Mr. Healey had been in poor health for about two years, and though his death was not unexpected, the announcement that the end had come came as a shock to his many friends here.

Affected with lung trouble following a severe cold, Mr. Healey went west and spent nearly a year at Colorado Springs, returning to New Smyrna much improved in health. Not long after his return, however, the old trouble returned and he made several trips to North Carolina and was finally removed to the railroad hospital.

The remains were taken from St. Augustine to his old home at Longwood, Fla., accompanied by his widow and his father and mother, the funeral services were held at Longwood Tuesday afternoon. The services were attended by a number of friends from this city, among them being Dr. D. Forster, D. P. Smith, K. Hildreth, F. S. Myers, Mr. and Mrs. W. S. Bowdon, Mrs. K. Leopold, Misses Annie Pattillo and Cornelia Smith. The services were in charge of the Elks lodge of Sanford, of which the deceased was a member.

The deceased was 34 years of age and was born in St. Thomas, Ontario, but had been a resident of Florida for a long time, having accompanied his parents to this state many years ago. Mr. and Mrs. Healey, Sr., came originally from London, England, and settled in Canada when they first came to America. Holding the position of conductor on the Florida East Coast railroad, the deceased was well known up and down the line. Mr. and Mrs. Healey, Sr., are now making their home in Miami, and Mrs. W. R. Healey will reside with them. She came over to New Smyrna after the funeral Tuesday and is the guest of Mrs. A. I. Prosser for a time.—New Smyrna News.

### SMITHS LEAD ALL COMERS BY 500 IN GOTHAM DIRECTORY

NEW YORK, Dec. 14.—The well known Smiths have regained their place in New York nomenclature, it was revealed by the city directory issued today. Last year they were several columns behind as compared with the Cohens and Cones, but the list of Smiths, exclusive of the Schmidts and Shmidts, have leaped into a four column lead with about 120 names to the column, this gives them also a 500 majority.

One Against the Archbishop. In his book, "Our Family Affairs," Mr. E. F. Benson, the English novelist, tells of a joke he played on his father, the archbishop of Canterbury.

The archbishop was a loving but exacting parent, although he sometimes nodded. He certainly did so one hot Sunday afternoon when Mr. Benson was deputed to read the life of St. Francis to him and the assembled family in the garden.

The tranquillity of the listeners became after a while so remarkable that the reader decided to test it by giving them a senseless jumble of lines selected at haphazard from different pages of the volume. No one stirred till the cessation of his voice caused the primate of England to open his eyes.

"Wonderful!" he said. "Is that the end, Fred?"  
"Yes, that's all!" said Fred.

"Money? Puff!"  
"I don't know how much Sarah Bernhardt got for her recent farewell performances in London, but I don't suppose it was much less than the \$1,000 a night she was paid when she last appeared at a West end music hall. The divine Sarah has made and spent more fortunes than any other woman, one of her American tours realizing £50,000.

But she cares nothing about money. "My earnings during my career?" she says. "Nothing. Nothing, I say. It comes, it goes. I keep no account. Could I not spend money, I would not earn it. Money is to spend. I detest accounts. I don't bother. I have enough. I never calculate. I can't calculate. Oh, bother the money!"—London Tit-Bits.

United States King Celebrates. Mike Fogel, "King" of Moorea Island, who at one time was a San Francisco musician, recently gave an elaborate banquet and hula hula dance to all of his native subjects in celebration of the first anniversary of the beginning of his reign. Fogel became "king" when he married Taata Mata, native "queen" of the island, whose husband died when influenza swept the Society Islands. At the banquet Fogel served native foods cooked in European style. The natives, who never before tasted foods cooked other than in the time-worn manner, enjoyed the banquet immensely. Ten oil cans and four ancient hollow drums furnished "music" for the dancing, in which 200 girls took part. The dance lasted until daybreak.

West Palm Beach is doing the right thing in consolidating its civic organizations. Most towns can only support one such organization, and if it is handled right it can be vastly more efficacious than half a dozen poorly managed.
