

New Type Gauze Clings To Itself, Expands, Contracts

NEW BRUNSWICK, N. H. (AP) — You can even bandage a slippery rubber balloon with a revolutionary new gauze bandage.

This gauze clings to itself, won't slip or slide, even when a novice uses it, and fits any contour. Once in place, it's flexible—expanding and contracting as it swells ankle, for example, swells our ankles. It lets you move a bandaged knee, and is never too tight, but still gives some support.

And if you clumsily drop the roll of gauze, it won't go skittering across the room unwinding itself.

This bandage is ordinary gauze treated with caustic soda to make it shrink and become kinky with little twisted fibers that grab and hold each other as the gauze is wrapped around an injury.

And you hold the patent on this bandage, for it was developed by Charles F. Goldthwait and Dr. C. H. Fisher of the Southern Regional Research Laboratory, U. S. Department of Agriculture, New Orleans. The patent was assigned to the people of the United States.

The difficult task of perfecting a mass production method for making the bandage was solved by Johnson — Johnson, suppliers for surgical dressings at government request.

Dr. William H. Livan, vice-president and research director, predicts the bandage will replace roll gauze in all its applications, and some uses of rubberized bandages.

The bandage is now being supplied to hospitals and should be available to the general public sometime this summer.

The bandage can save two-thirds of the time a skilled doctor or nurse usually needs for bandaging difficult types of wounds, Dr. Livan said.

It saw some service in Korea, as a non-sterile outer dressing on burns. It's now being produced in sterile form.

KOREAN PILOT CRASHES JET PLANE
BERYL, Utah (AP)—A Korean exchange pilot crashed a jet plane into the roof of a railroad section bunkhouse in a central Utah desert area yesterday, then was ejected from the cockpit before the plane hit the ground and was demolished.

The pilot, Lt. Li Kyo Ahn Lee, M, escaped serious injury. He was flying a jet from Nellis Air Force Base, Las Vegas, Nev.

Uranium Hunters Are Closing In On Monastery

By A. I. GOLDBERG
OKA, Quebec (AP)—Noisy uranium hunters are slowly closing in on the trappist monastery near here where monks have lived and worked since 1861 under vows of silence and poverty.

But Brother Leon, spokesman to the outside world for the silent brothers of the order, chuckles as he snaps shut his snuff box.

"This monastery isn't going to move," he says.

Nearest the hunters have gotten to noisy operation is in a ravine a quarter of a mile away. Stakes are down on the monastery grounds itself but the drills looking for uranium from ore and columbium veins haven't come any nearer—yet.

"The Montreal papers said there was a new klondike here," Brother Leon said. "Klondike, pah!" "We just want to stay here and continue our devotions in this peaceful country solitude where we have served our religious offices for decades.

"We want to continue with our agricultural college where we educate this countryside. We want to keep on making our Oka cheese, grow our melons and poultry, produce honey. We are not a mining development. We are an agricultural exploitation. People should leave us alone here in meditation."

The Oka monastery sits in the low hills at La Trappe, about 32 miles southwest of Montreal and four miles east of Oka. The Ottawa River, now frozen over, churns past into the Lake of the Two Mountains and finds its way to the St. Lawrence.

An old prospector looking for iron ore and a Montreal mining professor who thought he had uranium were responsible for a mineral hunt in the area that has also uncovered evidence of columbium, tantalum and thorium.

Paul Rivierin, the professor, and Jean Gour, Montreal lawyer and industrialist, secretly staked 10,000 acres of the surrounding countryside for mineral rights but stayed off the cloister grounds.

Then they made a deal with Molybdenum Corp. of America to develop mines.

Now it looks as if they have found mostly columbium, valuable in turbojet, jet and rocket engines because it resists heat and rust. About 4,000 pounds was produced in the world last year, worth \$19.50 a pound.

"Are we millionaires?" Gour mused in Montreal. "We don't know. We still have to find out just what we have. But it looks like it now. I don't much care. I've always had a comfortable living."

Brother Leon said here, "Rivierin and Gour were very sober. They didn't try to stake out the cloister grounds. Some other prospectors didn't stop at our fence. But we hope they won't insist on mining our grounds."

In Canada, landholders own surface rights. Subsurface mineral rights can be registered by any who stake claims.

U. S. railroads operate about 3,000 mail cars.

Strolling In Sanford

A demonstration on "Eating a Good Breakfast" will be given by Home Demonstration Agent Myrtle Wilson at two 4-11 Club meetings this afternoon at Oviedo school.

Jay M. Walker has been appointed business manager of the Sanford Cardinals for the 1955 season. His name appeared in Monday's issue of The Sanford Herald as Jay M. Walker.

Shooting Leads To Two Arrests

ATLANTA (AP)—Two men charged with shooting a non-striking telephone worker in the leg were arrested last night in the headquarters of a union local.

Police said one of the two was among 13 union representatives deputized two weeks ago to help prevent violence in the 17-day strike.

Elsewhere in the South, the Southern Bell Telephone Co. reported additional acts of violence. The company said cables were cut, paint was thrown on workers' cars, fights occurred, and bricks and rocks were hurled through windows of a telephone building at Maryville, Tenn.

Atlanta police Sgt. R. E. Little identified the men arrested for the shooting of 24-year-old D. C. Baily, a cable splicer, as J. T. Becker and A. A. Neely. Becker was recently made a special deputy sheriff, Little said. The two were booked on suspicion of assault with intent to murder.

When Becker and Neely were arrested, they were in the company of John C. Huss, president of the Atlanta local, and S. E. Tibbitts, vice president, Little said.

The CIO union, the Communications Workers of America, issued a statement after the shooting deploring the use of violence.

A Southern Bell spokesman said 500 phones were cut off and long distance lines were disrupted in Titusville, Indian River City and Patrick Air Force Base at Cocoa, Fla. Long distance lines between Pensacola and Bainbridge, Ga., also were cut.

The Rev. Edward D. King, rector of St. Mark's Church in Cocoa, will preach his concluding sermon in a series of five Lenten sermons on "The Fruit of the Spirit" tonight at 8 o'clock at Holy Cross Episcopal Church. Father King has been presenting these talks every Wednesday evening at the church during the regular Lenten services of the evening prayer and Lilany.

The club elected Rupert Strickland and Al Wilson as delegates to the national Kiwanis convention June 26-30 in Cleveland, O. Chosen as alternates were Cliff McKibbin and Howard Montleth.

It was announced that the club has collected \$88 to date for the Fred Ganas appreciation fund.

H. E. Morris, principal of Seminole High School, was welcomed back to the club after a lengthy illness.

Ed Lane read a letter from Willard Connelly, a former member of the club who is now a patient at Bay Pines Hospital, near St. Petersburg. Connelly said he would enjoy hearing from club members and other Sanford residents.

The program chairman was A. A. McClanahan who introduced Rep. Williams.

A car wash will be held April 9 by the Key Club, it was announced, to raise money to pay expenses for a member to attend the annual Key Club convention. The place where the wash will be held will be announced later.

Nearly 200 ballots are distributed by Seminole CoFC

Nearly 200 ballots have been handed out by the Chamber of Commerce in the Courthouse complex sponsored by the American Automobile Association.

Tomorrow, March 31, is the final day in which Seminole County residents and tourists can vote in the contest to determine the seven most courteous law enforcement officers in Florida.

While competition has been spirited, Kenneth C. Kinkle, manager of the AAA's North Florida Division, said an 11th-hour surge of ballots could change the results in several classifications, particularly for officers from smaller towns.

Prizes include trips to Cuba, Nassau, Tampa, Miami Beach and Palm Beach for the winners and their wives.

Although an exact count of votes will not be available until Sunday, April 10, AAA officials said Ed Arnold Williams of Sanford was among the leading contenders in a sampling of ballots a week ago.

Others in the Division 3 race (for towns of 5,000 to 10,000 population) are Assistant Chief R. D. Edwards of Quincy; Officer Ed Perpetua of Sarasota; Lt. Al Cosmili of DeLand; Officer Elsie Wilson of Bartow; Assistant Chief S. G. Roddick of Delray Beach; and Officer Bob Willoughby of Winter Park.

Members of the Florida legislature will get complimentary stalks of celery from the town of Oviedo on the opening day of the 1955 legislative session Tuesday.

The town will ship several crates of celery to Tallahassee for distribution to the legislators, the Governor, and the cabinet.

Each stalk of celery will be individually wrapped and will carry this notice: "Compliments of the town of Oviedo. Best wishes for a successful 1955 session to State Sen. Douglas Sisson, Rep. Volie Williams Jr., and Rep. Mack Cleveland Jr."

DR. COLLINS NAMED TO HEALTH BOARD

TALLAHASSEE (AP)—Gov. Collins yesterday named Dr. Charles J. Collins of Orlando, no relation, to the State Board of Health.

Collins will serve out the unexpired term of Dr. Albert L. Ward of Port St. Joe, a member of the five-man board since 1951, who died of a heart attack Sunday.

CHERYL K-RAE CARDS ARE MAILED

Mrs. Lorraine Graham, executive secretary of the Seminole County Tuberculosis and Health Assn., announced today that negative cards have been sent out to persons who had their chest x-rayed last month.

The secretary also made public that the total returns in the Seminole County Christmas seal drive amounted to \$1,824.00.

Williams Relates No Decision Made On Milk Program

"No decision was reached." That was the announcement which followed a lengthy meeting in Rep. Volie Williams' office yesterday afternoon on a proposal to abolish the State Milk Commission.

Otis W. Shiver, Miami's crusading grocer, sought to get the legislator to promote a law doing away with the commission.

Shiver, who defied the commission by selling milk 4 cents under the fixed price until stopped by a temporary injunction, came to Sanford in a car plastered with signs emphasizing his campaign.

Shiver has charged that milk processors rebate to milk dealers, by one device or another, sums amounting from 10 to 20 per cent of the wholesale price of milk set by the milk commission. The public, he declares, is penalized by paying a higher price for milk.

Rep. Williams announced some time ago that he plans to present a bill to abolish the price-fixing powers of the commission at the retail and distributor levels in accordance with recommendations made by investigators appointed by Gov. LeRoy Collins.

He commended the Cancer Society for its efforts to increase the number of cancer cures by a program of professional and public education, of humanitarian services to cancer patients, and of scientific research.

The text of the Mayor's proclamation follows: "Cancer killed a great number in Seminole County last year, while throughout the United States more than 230,000 persons died of that disease. And it is estimated that one out of every three died unnecessarily because proper treatment was not undertaken in time.

"The American Cancer Society is the only voluntary agency that is conducting a year-round, nationwide program to inform physicians and the general public of the known significant facts about cancer so that lives may not be lost through ignorance or avoidable delay.

"Clearly the Society is financing vital scientific research to improve present methods of combating cancer and also is constantly providing humanitarian services to cancer patients.

"And because the three-front attack waged by the Cancer Society against cancer depends on voluntary contributions obtained during its annual fund-raising crusade, I, Denver Corbett, Mayor of the City of Sanford, do hereby proclaim that the residents of this city shall commemorate April as Cancer Control Month.

"Further, I earnestly urge generous financial support for the fund-raising crusade being conducted by the Cancer Society to the end that its program may give the most effective and immediate aid against cancer, and stimulate the essential goal of adding cancer to the inspiring list of formerly deadly diseases conquered by medical science."

License Tag Money Causes Controversy

TAMPA (AP)—The Florida Highway Users Conference will try to line up support of state legislators for its recommendation that Florida roads get some of the state's surplus auto tag money.

The main features of the group's legislative program are reorganization of the State Road Department and earmarking of some auto tag funds for road purposes. There now about 19 million dollars of these funds not earmarked for schools.

S. O. Chase Jr. of Sanford, committee chairman, advised members to talk up the project with their legislators.

"Florida is the only state that uses none of this vehicle tax on highways," Chase said.

Jelke Trial Meets Final Stages Today

NEW YORK (AP)—The cafe society vice trial of Minot F. (Mickey) Jelke reaches its final stages today with the jury hearing closing arguments from defense and prosecution attorneys.

Jelke's lawyer George Washington Herz finished presenting evidence for the defense yesterday.

The case goes to the jury tomorrow.

The trial is Jelke's second fight against charges that he induced Pat Ward, 21, into the high-priced call girl business and tried to do the same with hawkeck girl Marguerite Cordova, 26. If convicted on both counts, the 25-year-old heir to a multimillion-dollar fortune will be given up to 40 years in prison.

MEN ROB BANK

O'FALLON, Mo. (AP)—Two holdup men robbed the Bank of O'Fallon of about \$11,500 yesterday. Cashier N. B. Schwendeman said they "took everything that wasn't under time lock" after forcing four employees and one customer to lie on the floor.

Chinese Expect Communist Attack

April Named Month For Cancer Control

Mayor Denver Corbett today signed a proclamation designating April as Cancer Control Month and urging general public support for the American Cancer Society's 1955 educational and fund-raising crusade.

The campaign will open Friday under the auspices of the local ACS unit.

Citing the many deaths in Seminole County last year, Mayor Corbett deplored the fact that an estimated one out of every three cancer deaths in this country might have been avoided by proper treatment in an early stage of the disease.

He commended the Cancer Society for its efforts to increase the number of cancer cures by a program of professional and public education, of humanitarian services to cancer patients, and of scientific research.

The text of the Mayor's proclamation follows: "Cancer killed a great number in Seminole County last year, while throughout the United States more than 230,000 persons died of that disease. And it is estimated that one out of every three died unnecessarily because proper treatment was not undertaken in time.

"The American Cancer Society is the only voluntary agency that is conducting a year-round, nationwide program to inform physicians and the general public of the known significant facts about cancer so that lives may not be lost through ignorance or avoidable delay.

"Clearly the Society is financing vital scientific research to improve present methods of combating cancer and also is constantly providing humanitarian services to cancer patients.

"And because the three-front attack waged by the Cancer Society against cancer depends on voluntary contributions obtained during its annual fund-raising crusade, I, Denver Corbett, Mayor of the City of Sanford, do hereby proclaim that the residents of this city shall commemorate April as Cancer Control Month.

"Further, I earnestly urge generous financial support for the fund-raising crusade being conducted by the Cancer Society to the end that its program may give the most effective and immediate aid against cancer, and stimulate the essential goal of adding cancer to the inspiring list of formerly deadly diseases conquered by medical science."

Plane Crashes Near Osteen

A plane crashed early this afternoon in the hills near between Maytown and Osteen, the Highway Patrol office at Deland reported.

The Highway Patrol said a car had been dispatched to the scene of the crash, but it was believed that the officers would have to resort to some other form of transportation, such as a jeep, because of the thick undergrowth.

It was not known whether the plane was military, commercial, or civilian.

Behavior Promise Accepted By Party

LONDON (AP)—British Labor party chiefs today dropped a move to expel left-winger Aneurin Bevan. They obtained assurances from the fiery Welshman he would toe the official party line in the future.

The National Executive—high command of the party—after a three-hour meeting accepted Bevan's promise to behave.

This was the first step by the party to patch up differences in the face of a general election possibly this summer or fall.

Eight Weary Nebraska Convicts Release Guards To End Rebellion

LINCOLN, Neb. (AP)—Eight weary Nebraska penitentiary convicts ended a 65-hour rebellion early today and released unharmed three hostages—two guards and another prisoner.

The convicts surrendered after four of them received personal assurances from Gov. Victor E. Anderson on the prison punishment they would receive.

The guards, Eugene Swanson, 34, and Warren Miller, 43, were released first. Thirteen minutes later the eight rebel convicts and the hostage inmate walked unguarded to the main prison building where, by agreement with the governor, a warm meal was awaiting them.

Eleven men had been held up since 10:30 a. m. Sunday in the maximum security building, a three-story brick and concrete structure, separated from the other prison buildings although on the prison grounds.

Their only food had been a loaf of bread and some sugar which the convicts shared with their hostages.

Newsman Not Given Set Date

Col. Hua Refuses Further Comment

MATSU ISLAND (AP)—The commander of the Chinese Nationalist garrison on this far edge of the free world expects the Communists to attack at any time but will not commit himself to a date.

Col. Hua told visiting newsmen today "it looks as though they intend to come pretty soon, maybe tomorrow, maybe next week—or it might be next year, you can't tell."

His title person would not permit use of his full name, a tough 36-year-old Shansi fighter, says Red activity on the coast nine miles away from this bleak crag smells like trouble. The Reds are busier than they have ever been. Hua said he had no idea which of the seven islands under his command the Reds might choose to attack but he said his forces (estimated at 14,000) are ready all along the island chain.

This six square miles of more or less perpendicular granite—whose defense is involved in American foreign policy—seemed remote indeed from America on this warm misty day but it is full of things American. Its soldiers have American gear and guns, vehicles and tractors and on the island is a handful of American Army men from the Military Assistance Advisory Group in Formosa.

Col. Hua says he will reinforce one island from another and will thus throw his full force whenever the attack comes. But when I stood atop a windy peak and scanned the sea, the other islands and the awful nearness of the Red mainland I couldn't help wondering whether such untold and powerful could succeed. Again the old provincial remark comes in—America helps. But nobody knows whether America intends to help defend Matsu.

First Atomic Men Ready To Describe Nuclear Submarine

GROTON, Conn. (AP)—The world's first atomic sailors were ready today to tell what it's like to man a nuclear-powered submarine.

The Navy brought the atomic submarine Nautilus into the port where she was built and invited newsmen to interview her skipper, Cmdr. Eugene P. Wilkinson and his crew.

The Navy arranged the press visit for a week before publication of the first of two articles written by Wilkinson, a native of Long Beach, Calif., for the Saturday Evening Post. Criticism of this project has resulted in a policy review by the Defense Department which may result in a ban against similar articles in the future.

The 30-million-dollar Nautilus has been put through trial runs ranging from a few hours to several days over more than two months.

Soviet Ministry Reports Gromyko Took Advantage

MOSCOW (AP)—The Soviet Foreign Ministry today said that Andrei Gromyko had violated a secrecy pledge by revealing the Soviet Union's position at the London five-power disarmament talks.

The Foreign Ministry press chief, Leonid Bilych, told a news conference Gromyko had merely taken advantage of his rights to "correct biased, distorted and apparently inspired versions" which he said had been appearing in the Western press.

The statement was brought forth by a storm of criticism in Britain, France and the United States following publication of an interview which Gromyko, then chief Soviet delegate at the arms talks, gave in London to a correspondent of Tass, the Soviet news agency.

Department Failure Told By Humphrey

WASHINGTON (AP)—Sen. Humphrey (D-Minn.) said today the State Department has "utterly failed" to answer his request as to who "leaked" the long-secret Yalta papers March 15.

Humphrey said he will make a second and stronger demand to Secretary Dulles for information about the source who supplied the documents to the New York Times one day before they were officially made public. The Times has said its copy came from the State Department.

Armed Forces Pay Approval Seen

WASHINGTON (AP)—Leaders predicted the Senate would quickly approve today a 750-million-dollar pay boost for slightly more than half the three million persons in the armed forces.

"I know of no serious opposition," Chairman Russell (D-Ga.) of the Senate Armed Services Committee said.

His committee gave the pay bill a unanimous favorable recommendation yesterday, clearing the way for Senate consideration.

The House passed 399-1 a nearly identical measure March 16. The increased would take effect April 1 if the Senate passes it quickly. The House accepts a few changes and President Eisenhower's immediate sign it into law, it is believed.

for enlisted personnel from 7 to 17 per cent.

The bill also would boost hazard pay for air and submarine crews, paratroopers, glider crews, demolition experts and other special categories.

Biggest change made by the Senate committee in the House bill was a base pay boost of \$100 a month for lieutenant generals and \$200 a month for full generals and admirals. The Pentagon had urged slightly higher boosts for the 75 three-star and 24 four-star flag and general officers now on active duty. The House rejected this request.

Three and four-star officers now get the same base pay as two-star generals and admirals, although they do get higher allowances.

Contempt For Time

The New York Times reports that Columbia University scientists now place the age of the universe at 4,800,000,000 years, "plus or minus 200,000,000 years."

We seldom argue with people who are equipped with statistics and we are impressed by any number that has more digits than there are in our income tax payment. But this cavalier shrugging off of 200,000,000 years with a "plus or minus" reference cannot escape comment. It demonstrates an attitude toward time that is far too common today.

Tell a woman you will meet her at six and she shows up at six—plus (never minus) 45 minutes. Stand and wait for a bus and it shows up plus or minus a couple of minutes and then it is crowded. Being crowded has nothing to do with the present argument but as long as we are working up a rightful indignation why doesn't somebody do something about that, too—and the parking problem.

All we can say about those scientists is that they should narrow down their figures a bit. You just can't go around plusing or minusing some 200,000,000 years. It isn't done. How would you like to have an appointment for lunch with a chap who snaps his fingers at 200,000,000 years? Worse yet, how would you like to have him owe you money?

TODAY'S BIBLE VERSE

The fear of the Lord is the Beginning of Wisdom—Prov. 9:10.—Information is often misinformation. Character is the great essential and the fear of the Lord its chief support.

SAM DAWSON

Price Of New Car Is Issue Today

WASHINGTON (AP)—The price of that new car you want to buy is an issue today at the senatorial inquiry into the stock market.

Chairman J. W. Fulbright (D-Ark) of the Senate Banking Committee thinks the factory list price is too high. He asks why auto manufacturers couldn't lower it.

And the man who makes the most cars in the country—Harlow H. Curtice, president of General Motors—insists prices of the new cars, his own and his rivals, are actually set by a highly competitive market.

Auto company profits, he contends, come from holding costs below the price the buyer is willing

to pay, and from improving methods of producing cars with high customer appeal.

Today's duel between the two men on Capitol Hill is being fought against the dramatic backdrop of more than a year of struggle within the auto industry. During that time mergers for survival cut the six smallest companies down to three. Ford and GM's Chevrolet fought fiercely for top sales position.

General Motors' connection with the stock market, aside from its listing there of 80 1/2 million common shares for trading, is its recent sale to its stockholders of 4,214,386 additional shares for around \$25 million dollars.

Inquiring senators see another connection: GM's size and importance in the nation's economy, they say, make its sale a possible influence on price stock trends in general.

Curtice sees the daily fluctuations of the stock market as having no effect on GM's plans for expansion or for its stock offering. And he calls the success of GM's recent stock sale proof that there is plenty of investment money around to be tapped if the investor likes the deal.

Sen. Fulbright's interest in the price of today's cars is tied in with his wondering about the reasons GM's earnings rose last year. He notes one reason given was that the end of the excess profits tax saved the company a lot of money. He has asked during the inquiry why some of this saving couldn't have been used to lower prices of cars instead of "raising earnings to \$ a share."

Curtice sees car prices set—not by a cartel, as Fulbright once hinted—but by the rough and tumble of the most highly competitive market in the industry's history. And he denied GM is playing the market. He says the only way it can even stay where it is competitively is to work as aggressively as possible to better its position.

He states that GM is above com-

Food For The Hungry

A great deal has been heard in recent years of the need for finding new sources of food for the growing population of the world.

Such new sources are necessary, the fact is that potentially more food is available in the world than is now grown or harvested. Dr. Raymond W. Miller, consultant to the director of the Food and Agricultural Organization of the United Nations, urges the United States to make greater efforts to help underdeveloped countries raise their food production. Use of obsolete agricultural methods in many parts of the world is keeping production down and starvation up.

Dr. Miller pointed out that the bulk of the world's grain production is still harvested with an eight-inch sickle. In India food production lags because of inadequate irrigation. As an example of what efficient methods can do he cited the fact that Japan now produces four times as many food calories on a given acreage as is produced in India on similar acreage. He suggests a program by which the United States may assist other countries in getting the most production profitably from available land.

Such a program is practical and humanitarian. Hand-outs to starving people meet their immediate need in a small way but do not solve the problem of future famines. We have a technical assistance program under way at present. Wherever possible that program should be improved and extended, as Dr. Miller suggests.

A Fighting Group

Toledo, Ohio, must be an interesting city. Some years ago it worked out a successful program for industrial peace, after having had the familiar experience of warfare between employers and unions. Now its citizens have adopted a plan for protecting residents' constitutional rights. A committee of eminent lawyers and industrialists, all serving without pay, are seeing that cases of apparent injustice are investigated and get redress. Their concern is with civil and legal rights. They are the exact opposite of the vigilante groups which in some communities try to take away the livelihood or freedom of persons whose ideas they dislike.

The Toledo Bar Association is cooperating, with a special Committee on Constitutional Rights. Very few bar associations, if any others, take such a stand. Yet maintenance of constitutional rights and privileges is one of the main reasons for the existence of lawyers.

HAL BOYLE

Kramer Fascinated By Failures

NEW YORK (AP)—"Fortunately," said Stanley Kramer, "failure is just as fleeting as success."

Kramer, who once worked for \$18 a week as a studio laborer, has produced 18 pictures in 8 years. Now only 41 years old, he is one of Hollywood's favorite success stories.

But Stan himself, one of the film figures whose passion for perfection often conflicts with their desire for the dollar, is fascinated by failure. He is perfectly aware of the price you often pay if you aim high—which is, you land a lot harder on your face if you miss and fall.

"That's part of the business," he said. "You have to learn to bounce. But once you have felt the deliciousness of failure—lashed the sting, tasted the blood—you know it isn't really as bad as you feared."

"Failure gives you a feeling of solidity. When you climb back on your feet, you have a confidence that comes from surviving a failure. It's a confidence you can't get in any other way."

"Kramer, a stocky man who seems driven by a brooding restlessness, is in a comfortable position at the moment to discuss failure. His "The Caine Mutiny" has been nominated for an Academy award, promises to become one of the top 10 boxoffice draws in cinema history. He expects his latest film, still to be released, "Not as a Stranger," based on the best-selling novel, to be even more profitable.

Behind him also lie such smash hits as "Champion," "Home of the Brave," and "High Noon."

"But at least half of my pictures only barely broke even or failed to do that," he said.

Stan doesn't feel a film necessarily is a failure because it fails to bring in a golden flood at the boxoffice. Timing, he feels, has a

lot to do with that. And proper promotion.

His own favorite, "The Men," dealing with paraplegic war veterans—it gave Marlon Brando his first starring role—came out during the Korean War an unfortunate accident in timing.

"But I think that 10 years from now it will still stand up as an honest picture," said Kramer.

His own idea of a failure is a film he feels he didn't really do as well as he could have. From now on he plans to turn out only about one picture a year.

"It takes a full year if you really hand out a picture," he remarked. His goals are interior. He competes with himself.

"I want to narrow down the percentage of disappointment to myself with each succeeding job. There comes a point in every picture where you think it is the best you've ever done, and another point when you're convinced it absolutely stinks. The truth is somewhere in between.

"The frustration of trying for the best is that you can never hope really to succeed. But it does make you dig deeper."

Kramer is convinced motion pic-

JAMES MARLOW

Campbell Starts Off With Bang

Associated Press News Analyst WASHINGTON (AP)—Joseph Campbell, handpicked by President Eisenhower as comptroller general, started with a bang. He put a firecracker under the administration's highway program.

If this surprised the administration, it must have doubly surprised Campbell's critics in Congress. They had suspected but could not be an administration yes-man.

Campbell, a 55-year-old New Yorker and an accountant all his life, was treasurer and vice president of Columbia University, where Eisenhower was president. He must have made an impression on Eisenhower.

In 1953 Eisenhower made him a member of the Atomic Energy Commission. Campbell got into the row of his life when he voted for the administration-backed Dixon-Yates contract. Under it private power companies would build a 107-million-dollar power plant to supply the Tennessee Valley Authority with power to replace

power which the TVA sent into atomic plants.

TVA's friends in Congress and elsewhere practically screamed in protest. They said they saw this as an opening move to undercut TVA. Tennessee's two Democratic senators, (Gore and Kefauver,) didn't forget Campbell's role in Dixon-Yates.

Last December Eisenhower appointed Campbell comptroller general.

The comptroller general is head of the government's General Accounting Office, which Congress created in 1921 as a watchdog. The comptroller general has to watch how the government spends money and keep Congress informed about it.

Campbell's appointment ran into trouble in the Senate right away, particularly from Gore.

Gore said he had nothing against Campbell personally but an accountant was not the man for the job; it should go to a lawyer or former member of Congress.

And besides, Gore expressed fear Campbell might, as comptroller general, go along with the administration instead of being critical when it needed criticism. But the Senate finally approved

Campbell March 18.

Yesterday he was called before the Senate's Public Roads subcommittee, of which Gore is chairman. Gore wasn't there. Gore's severest critic of the administration's 101-billion-dollar highway program—which seems doomed anyway—has offered a program of his own, an eight-billion-dollar one.

Campbell was asked what he thought of the administration's program. He blasted it.

Byrd To Make Fifth Visit To Antarctic

WASHINGTON (AP)—Rear Adm. Richard E. Byrd will make his fifth visit to the Antarctic later this year as head of a U.S. scientific expedition.

The expedition, announced late Monday by the White House, will set out in November and continue into 1957. Byrd will be 67 when the expedition begins.

The Navy is organizing the trip to set up scientific observation sites for use in the International Geophysical Year, 1957-58. During that period, scientists from many countries have agreed to conduct simultaneous studies in the earth sciences.

By: Bob Bennett

Although global television is currently being talked up by a handful of visionary experts, it could, we suppose, become a reality in the next decade.

The big problem in this effort would, of course, be that of hedge-hopping the Atlantic. Experts are in agreement that the best method of accomplishing this herculean feat would be to construct a series of microwave relay stations running in an arc from the northeastern U. S. through Canada and across Greenland and Iceland. The arc would continue through the Shetland and Orkney Islands to Scotland and England. This is a pretty ambitious project, fraught with a host of technical problems which have to be ironed out. Also, the cost which will probably nudge \$100,000,000, isn't likely to rush interested parties into the project.

Although, as we said, this big Atlantic hookup appears to be in the offing, we wouldn't recommend that you run right out and snatch up a 37-inch set to celebrate opening night at the Folies Bergere. It'll come—in time.

The time has come to take a gander at the new DuMONT TV! Why struggle along with a second best when a fine new DuMONT can be had at a surprisingly low price at BOB BENNETT'S TV ... 300 East 57th Street in Sanford.

MISS BEVERLY FORNES

Beverly Fornes To Wed In Fall

Mrs. Clara Fornes of Archbold, Pa., announces the engagement of her daughter, Beverly Evelyn Fornes, to Perry Dorton, son of Mr. and Mrs. Charles Dorton of Sanford.

The bride-elect was born in Archbold, attended schools there and graduated with the class of 1953. She then moved to Sanford and is now employed by Lovetts.

Mrs. Dorton was born in Sanford and attended schools here. He is now employed with the Green Valley Dairy.

The wedding will be sometime in the fall with complete plans to be announced at a later date.

Truthseekers Meet Monday Afternoon

The Truthseekers Class of the First Methodist Church met Monday at 3 p. m. in McKinley Hall with Mrs. R. W. Turner, president, presiding.

The meeting opened in regular form and the class sang a hymn, "Lead Me to Calvary." Mrs. Nellie Vaughan was in charge of the devotion using as her scripture lesson the 24th chapter of Luke.

In addition to this she gave a beautiful reading entitled "Mary in the Garden." Prayer was led by Mrs. Eva Harkley.

Minutes were read by the secretary, Mrs. Baughan, and reports of officers and collections of dues were also made. The class sang "Happy Birthday" to Mrs. Carrie Draper and Mrs. Eva Harkley.

Refreshments of hot chocolate and cookies were served by the hostesses, Mrs. R. W. Turner and Mrs. Olyis Wells, to 12 members and two visitors.

Sense Of Humor Best Prescription For Happy Couple

The best prescription for a happy marriage, says Myrna Loy, is to hang on to your sense of humor.

Mrs. Loy, in private life Mrs. Howland Sargeant, thinks she had the best possible preparation for matrimony in her movie roles, which usually called for a gay, modern, wise-cracking wife and a husband who appreciated her jokes.

She played opposite Bill Powell in the "Thin Man" series before the war and later in such successes as "The Best Years of Our Lives" and "Belles on Their Toes."

After a two-year vacation from acting, she is coming back for a new TV show, "It Gives Me Great Pleasure," based on Emily Kimbrough's hilarious book about the experiences of a woman novelist on the lecture circuit.

The TV work has been very busy, because the studio where the shooting is being done is just across the East River from the Sargeants' New York apartment.

Myrna has been blissfully domestic since 1931, when she married Sargeant, then an assistant secretary of state but now president of Radio Liberation, a privately supported organization formed to broadcast American news and views to Communist satellite countries.

She has been active as a member of the National Commission of the United Nations Educational, Scientific and Cultural Organization, has twice been a delegate to conferences in Europe, and retains her interest in the work although not at present a member of the commission.

She divides her time between the New York apartment, a house she has just remodeled in Georgetown, Md., and an occasional spell of work in Hollywood.

RITZ
LAST TIME TODAY
7:15 - 9:15
STARTS TOMORROW
STANLEY POWERFUL
MICKY MINN

Seminole Hi

The Glee Club will present the "Moonlight Ball" Friday night with Lull Kramer and his orchestra. All you boys who haven't gotten dates be sure and do so, 'cause it's really going to be fun. All alumni are cordially invited.

Let's as many of us kids as possible be sure to attend the Fred Ganas appreciation night out at the ball park.

We had an interesting assembly program Tuesday on "Scientific Marvels." It was enjoyed by everyone.

All new Tri-Hi-Y application blanks were turned in by last Friday. There will only 15 graduating members so they will only be able to take in 15 new members.

Now for some gossip: Joe Hunt and Eric Causey have called it quits. It seems Joe decided that it was Minnie Lee all the time. Gladys Silkwood's still trying to do the mambo. Oh well, don't give up, Gladys, it isn't impossible. Robert Carver—just who is he crazy about? There he is with a different girl every day.

Has anybody seen Patti Witte's chin lately? What happened to you Patti? Ann Vance is in "pigs heaven" 'cause Richard Batinneau is home. Haven't seen you quite so happy in a long, long time. Ann, Ann Harvey and Milner Osborne are going steady. Congratulations to you two. Guess that's all for now. Be seeing you!

The meeting adjourned at noon and a delicious luncheon was then enjoyed. The dining room table was decorated with a lovely arrangement of sweet peas and ferns. Centering the table was a beautiful pink and white birthday cake with one large candle. This signified the first quarterly birthday party to be held by the lodge. All members having birthdays in the past three months were presented with gifts. Those honored were Mrs. Vernon Hardin, Mrs. J. L. Horton, Jr., Mrs. E. W. Peterson, Mrs. Arthurine Flanders, and Mrs. L. E. Jeffords.

The following members were present: Mrs. J. Calhoun, Mrs. Hattie Roller, Mrs. L. E. Jeffords, Mrs. Vernon Hardin, Mrs. J. L. Horton, Jr., Mrs. Lloyd Cronner, Mrs. Alfred Greene, Mrs. H. H. Fortner, Mrs. E. W. Peterson, Mrs. Arthurine Flanders, Mrs. Leon Bryan, Mrs. H. J. Bridges, Mrs. A. G. Pitts, Mrs. John Blanton, and guest, Mrs. Virginia Glenn.

Interesting Talk Given By Dr. Root At UDC Meeting

The Norman de Vere Howard Chapter No. 1728, United Daughters of the Confederacy, met Friday afternoon at the home of Mrs. J. M. Hayes with Mrs. J. M. McCaskill as co-hostess.

The meeting was presided over by the president, Mrs. Zeh Ratliff, and was opened with the Lords Prayer, American Flag pledge and Confederate Flag salute in unison.

The chaplain, Mrs. A. K. Rousseter, offered the scripture reading. Reports were given by the officers and chairmen of committees and plans for Southern Memorial Day, April 26, were discussed by the chairman, Mrs. O. P. Herndon.

Mrs. J. H. Nicholson was welcomed as a new member. The revised by-laws were read by Mrs. F. E. Roumillat and Mrs. J. H. Truluck. Mrs. Herndon and Mrs. E. H. Laney were elected to serve on the nominating committee.

After the business meeting, Dr. J. B. Root was introduced and gave an interesting talk on "Florida, Past, Present, and Future."

Late in the afternoon a refreshment course was served to Mrs. Zeh Ratliff, Mrs. Mary Strong, Mrs. Margaret Marshall, Mrs. L. A. Brumley, Mrs. C. P. Herndon, Mrs. A. K. Rousseter, Mrs. A. B. Wallace, Mrs. David Caldwell, Mrs. J. N. Nicholson, Mrs. J. H. Truluck, Mrs. W. R. Dyson, Mrs. J. St. Clair White, Mrs. E. H. Laney, Mrs. F. E. Roumillat, Miss Margaret Roberts, Mrs. J. M. McCaskill and Mrs. J. M. Hayes.

Miss Caroline Biggers has returned from a week's visit in New York City where she attended the opening of the opera, Don Pasquale, in which Richard Holtzclaw starred in the title role. She also attended Cinderella in which Mr. Holtzclaw appeared as Don Magnifico.

Miss Judy Irvin, a student at Mt. Holyoke College, South Hadley, Mass., is home for a few days visiting her parents Mr. and Mrs. R. G. Irvin.

The Misses Dial and Rosa Coke Boyle, who are attending Duke home visiting their mother Mrs. University in Durham, N. C., are Lloyd F. Boyle on S. Meltonville Ave.

The State Florida Convention of the National Society of the DAR being held in the McAllister Hotel in Miami is being attended by Mrs. H. W. Rucker and Mrs. Miriam Russell, who are acting as delegates from the region of the Sally Harrison Chapter of Sanford.

The convention started last night and will run through April 2.

Company Dessert: top baked pear halves with a meringue and brown in a very hot oven until the meringue is topped with brown. Serve with a rich custard sauce made from the leftover egg yolks, light cream, sugar and vanilla.

Next time you are serving boiled or mashed potatoes, cook some extra omelets. For a next-day's meal, fill the potatoes thin and douse with melted butter mixed with a little garlic or onion powder and paprika. Bake in a moderate or hot oven.

Four economy foods are milk and cheese; dried beans and peas; liver and other organ meats; whole-grain and enriched products such as oatmeal and other cereals, macaroni and spaghetti.

Use these foods freely if your food budget is on your mind. Fold cubes of left over cake into vanilla pudding; arrange alternately with drained canned and cut-up fresh fruit in a glass bowl. Refrigerate for several hours and serve topped with whipped cream and a drizzle of freshly-grated nutmeg.

MISS SHEILA BROWNING (Photo by Cox)

April 2 Wedding Date Chosen By Miss Browning, R. Almassey

The engagement and approaching marriage of Miss Sheila M. Browning, daughter of Mr. and Mrs. Robert E. Browning, to Robert Louis Almassey, son of Mr. and Mrs. Alexander Almassey of Chicago, Ill., is being announced today.

The wedding will take place Saturday, April 2. The bride-elect was "Miss Sanford of 1954" and represented many of the local civic clubs and the City in several beauty contests. She graduated with the Seminole High School class of '54.

Mr. Almassey, born in Chicago, graduated with the class of '49 from Steinmetz High School, attended Northwestern University and was employed as a radio announcer and producer before enlisting in the U. S. Navy where he has served for the past four years. He received his honorable discharge March 28.

Mr. Almassey's fiancée is a major, a member of the Glee Club, and had a lead part in the senior play. For the past year she has been employed by the Southern Bell Telephone and Telegraph Co.

Among the girls it's Judy Garland, born in a vaudeville trunk, versus Grace Kelly, born in a Philadelphia mansion. Miss Garland, a great child star, is Hollywood's heartbreak kid. An Oscar would climax an amazing Hollywood story, the kind of story sentimental Hollywood likes.

If she wins, Judy will become the first Oscar winner to hear the news in a maternity ward. She gave birth to a son yesterday.

In Miss Kelly's favor is a tremendous talent, a craftsmanship that most actresses don't acquire until middle career.

Of the supporting actresses, the race is between Eva Marie Saint of "On the Waterfront" and Kay Jurado, the brilliant Mexican actress, who played Spencer Tracy's Indian wife in "Broken Lance."

The whole show will be telecast over NBC-TV from 10:30 until midnight, EST.

A blouson or bun warmer is a deep utensil with a cover; sometimes the cover has vent openings. The warmer's insert pan is usually constructed of wire mesh.

In a healthy bird, each feather which falls from the body is replaced by a new one.

Humphrey Bogart, Dorothy Dantridge and the musical "Seven Brides for Seven Brothers" thus rated better than an outside chance.

So closely contested was this year's race that even such famous stay-at-homes Marlon Brando and Bing Crosby did everything but ring doorbells for votes.

In favor of Brando, nominated for his role in "On the Waterfront," is the fact that the Academy can't go on much longer ignoring the man many regard as the greatest living actor. But then John Barrymore never won an Oscar either.

Crosby, who has made millions playing Crosby on the screen, decided on playing someone else in "The Country Girl." Add such a performance to Crosby's vast per-

formance to Crosby's vast per-

CALENDAR OF EVENTS

WEDNESDAY
The First Baptist Sunday School Superintendents will hold their cabinet meeting in the chapel beginning at 7 p. m.

The First Baptist Prayer Meeting will begin at 7:30 p. m. in the Memorial Educational Building.

A Doctor's Day dinner will be held at the Longwood Hotel starting at 8 p. m.

The Ursula Community Church will have a fellowship supper at 6:30 p. m. at the church. There will be a program. All interested persons are invited to attend and to bring a dish of food and a table service.

THURSDAY
The First Baptist Junior Royal Ambassadors will meet at the Church at 7 p. m.

The First Baptist Church-wide Music School will begin at 7:30 p. m.

Seminole Rebekah Lodge No. 43 will meet in the IOOF Hall at 8 p. m.

The Seminole County Education association will meet at Southside School at 8 p. m. State Legislators will be present.

Senior Choir Rehearsal at First Methodist Church at 7:30 p. m.

The First Baptist Carol choir will hold rehearsal at 3:30 p. m. at the church.

The First Baptist Church Choir MONDAY

The Executive Board of the Church will meet in the Session Room of the First Presbyterian Church at 9:30 a. m.

At 10 a. m. in the Women of the Church will meet in the educational building of the First Presbyterian Church for an all-day intensive study of "Love in the New Testament." A covered dish luncheon will be served at noon.

Organ Guild Meets In Local Church

The Central Florida Chapter of the American Guild of Organists, who met in the Presbyterian Church last night, were entertained by the church choir with a preview of some of the songs to be sung on the annual Palm Sunday program to be presented in the church at 7:30 p. m. next Sunday.

Representing the crucifixion and resurrection of Christ six of the nine songs were sung and two organ preludes played. They were "I Heard the Bells on Christmas Day," "How Deep," "Hallelujah," "Listen to the Lamb," "Go To Dark Gethsemane," "Jesus, Our Lord We Adore Thee," and "Send Down Thy Spirit."

Mrs. George Touhy, choir director and Minister of Music, was hostess of the event and served punch and cookies in the church annex afterwards. Mrs. Guy Bishop of Sanford is also a member of the Guild.

Wedding Plans Are Announced

The final plans are being announced today of Miss Betty Moore daughter of Mr. and Mrs. Arthur C. Moore, and Jack Woodruff, son of Mr. and Mrs. John DeVin Woodruff, whose wedding will take place on April 26 at 8:30 p. m. in the First Presbyterian Church.

The Rev. A. G. McInnis will be officiating and Mrs. George Touhy is to render the organ music with Dick Aiken as soloist.

A reception will follow at the Woman's Club.

USO Plans First April Weekend With Dance, Party

Friday night everyone is urged to attend the skating party to be held at 7 p. m. Meet at the USO and bring a car if you have one.

Saturday night a "Backwards" dance will be held. Refreshments will be served and dancing will be enjoyed from 8 till 11.

Sunday a party to Rock Springs is planned. Everyone is to gather at the USO at 1 p. m.

TOMORROW THURSDAY, MARCH 31st IS THE LAST DAY TO FILE YOUR 1955 APPLICATION FOR HOMESTEAD EXEMPTION AND PERSONAL PROPERTY RETURNS!

TAX LAWS PROVIDE SEVERE PENALTIES FOR FAILURE TO FILE RETURNS ON TANGIBLE AND INTANGIBLE PERSONAL PROPERTY.

HOMESTEAD EXEMPTION CANNOT BE GRANTED UNLESS APPLICATION IS FILED WITHIN THE PRESCRIBED TIME.

Blank forms have been mailed to all who filed application or made returns last year. If you failed to receive yours please call for them at the Assessor's Office.

When applying for Homestead Exemption for the first time, please bring your deed with you. Also your 1955 Automobile Tag Number.

If you need help with your returns, I shall be glad to assist you.

IT IS NOT NECESSARY TO FILE APPLICATION FOR HOMESTEAD EXEMPTION AT THE CITY HALL. BUT IF YOU ARE ENTITLED TO WIDOWS EXEMPTION OR DISABILITY EXEMPTION, APPLICATION FOR THESE SHOULD BE FILED WITH THE CITY.

SANFORD F. DOUDNEY
TAX ASSESSOR

'Beetle' Creator Turns Art Critic

At the request of Uncle Sam, the creator of "Beetle Bailey," which appears in The Sanford Herald, turned art critic last week. Mort Walker, creator of the famed comic strip G. I., answered a call by the Army Special Service and served as a judge of the all-Army art exhibition and contest in the nation's capital.

Almost simultaneously Walker was officially adopted by the Air Force. This recognition came when he complied with a request from the 1607th Supply Squadron, Atlantic Division, M. A. T. S., to design a special "Beetle" insignia for the outfit.

This makes a clean sweep of the three services for the 31-year-old cartoonist. Late last year the crew of the new atomic submarine, S. S.

Nautilus, requested the original of a "Beetle Bailey" Sunday page, which they installed as a permanent fixture on the bulletin board of the history-making vessel.

Walker and "Beetle" were also honored last year with the Billy DeBeck Award, the "Oscar" of the National Cartoonist Society.

Orlando Contractor Trial Set For May

BARTOW (AP)—J. Willard Durden, Orlando contractor, will go on trial here May 24 on charges of conspiracy to kill a Lake Wales man and an Orlando woman.

Criminal Court Judge Roy H. Amidon heard Durden's plea of innocent yesterday and ordered the case tried together. Durden was convicted in December of plotting to kill Mrs. Byrd T. Hoach of Lake Wales. He appealed and is free on bond.

In the present cases, he is accused of conspiring to kill Kinsley H. Gerlach and Mrs. Louise Clark Hawley.

In all three cases Durden is accused of conspiring with the late Emmett H. Donnelly, Lake Wales lawyer who was found shot to death a few hours after being released on bond when the cases broke last summer.

Variety Of Bomb Rips Hole In Roof Of Phone Workshop

ATLANTA (AP)—A sudden outbreak of violence in Alabama was being investigated today as the strike of Southern Bell Telephone Co. employees entered its 16th day.

R. L. Lamplery, fire chief at Montgomery, Ala., reported a "bomb of some type" ripped a two-foot square hole in the roof of a one-story Southern Bell workshop adjacent to the main telephone company building last night.

He said the blast hurled plaster through the inside of the building and shattered windows in the telephone company's main plant. No injuries were reported. In Louisiana, district manager Harry A. Cassidy said four Southern Bell cables were severed by 22 caliber bullets and a fifth was hacked by an axe at Baton Rouge yesterday. Union leaders earlier in the strike have disclaimed any knowledge of damage to company property.

Peaches Badly Hurt By Gripping Cold

By THE ASSOCIATED PRESS
With blustering winds and icy temperatures apparently abating, the South today counted its crop damage at more than 60 million dollars. The unusual spring cold wave which gripped the region over the weekend left a death toll of seven and virtually destroyed the peach crop in seven states.

Estimates of crop damage mounted in three states. Mississippi's loss was estimated at 9 million dollars. Previously the estimate had been 3 million. In Louisiana the damage count went from 1 to 4 million and in Alabama from 13 to 15 million.

SENATE PASSES BILL

WASHINGTON (AP)—The Senate has passed and sent in the House a bill to prevent transportation of obscene matter across state lines for sale or distribution. Passage was by voice vote.

Officer Describes Reserve Program For Leathernecks

Reserve training is the best preparation for regular military service according to Major W. F. Lane, Officer in Charge of Marine Corps recruiting in Florida.

The veteran Leatherneck officer described the reserve program as the easiest and quickest way for a young man to prepare himself for obligated service. He said that a young man living at home can get a thorough indoctrination on Marine Corps life by simply attending periodic drills with his neighborhood reserve outfit. Without interrupting his civilian activities, a young man can take his part-time training the easy way, draw liberal pay for extra spending money, learn a trade, and by applying himself, advance in rank.

Of particular benefit is the fact that a reserve non-commissioned officer up to the rank of sergeant can be enlisted in the regular Marine Corps with his same rank and date of rank. Thus, the stripes he saw on as a Citizen Marine remain on his arms as a regular. The Major pointed out that when a reserve with two or three years training enlists in the regular Marines to discharge his obligated service, he'll certainly find himself in familiar surroundings and can quickly adjust himself to being a full time Leatherneck. Needless to say, this man will have a distinct advantage over untrained recruits both in pay and in rank.

So all in all, a young man has everything to gain by joining the Organized Marine Corps Reserve in his community. The Major concluded. For further details on Reserve enlistment, meet your Marine recruiter next Wednesday at Post Office from 9 to 12:00 p. m.

THIRTY MEN stationed at NAAS, Sanford received good conduct medals Friday. They are front row, left to right, J. Franks Jr., V. T. Life, W. L. Springfield, W. J. Konwick, E. S. Zombird, J. E. Young, R. H. Lockman, and L. B. Jones. Center row E. E. Beckwith, J. A. Gubachy, F. J. Schaffer Jr., Commanding Officer J. A. Goodwin, Executive Officer F. J. Plumer, R. L. Cook, C. R. Will and R. D. Lundquist. Back row E. M. Swartz, W. D. Dooley, H. A. Penny, D. D. Murphy, G. P. York, M. P. Hinchaw, F. Hockstadt, and F. D. Smith. Awards made to men not in the photo went to T. P. Fallon, M. S. Slack, R. S. Burdick, L. G. Pruett, J. W. Hilley, M. H. Husey, C. J. Knutson, and B. F. Kiser. (Official Photograph U. S. Navy)

Good Conduct Medals Given

Commander John A. Goodwin, Commanding Officer of Photographic Squadron 62, presented the Good Conduct Medal award to thirty men of his command Friday at the conclusion of the monthly Captain's Personnel Inspection. The Commander stated that it was with great pleasure that he presented the awards and that it was the largest group of men that he had been privileged to decorate. The men who received this medal have maintained an excellent conduct record for the past three years of military service.

Columbia Bakers Get Housekeeping Seal Of Approval

ATLANTA, Ga.—Striking endorsement of the power of newspaper advertising to move merchandise across Southern retail counters was contained in the announcement, made here today, that the Spring, 1955 advertising for Southern Bread and Cake would employ every one of the 109 daily newspapers in the seven-state territory served by Columbia Baking Co.

Columbia's all-out campaign centers around the most far-reaching merchandising event in the company's 25-year history—the award of the famous and coveted Good Housekeeping Seal of Approval to Southern Enriched Bread and Southern Thin-Sliced Sandwich Bread.

"We know from experience," President Ogden A. Gelfuss said, "that people buy newspapers to read two kinds of news—news of current happenings, and news of favorite products they meet in the marketplace. When a food product known and enjoyed in millions of Southern homes wins such an honor as the Good Housekeeping Seal, housewives naturally expect to read about it in their newspapers."

The Good Housekeeping Seal, it was emphasized, is not merely given. It is a distinction which must be earned, based on careful and continuing quality checks conducted by technicians and home economists of Good Housekeeping Institute and Laboratories.

Spreading the campaign locally will be a campaign of large-space advertisements in the columns of this newspaper, supported by extensive use of outdoor posters, radio, car cards, store displays and national advertising in Good Housekeeping Magazine. Local grocers are now featuring Southern bread with new end-labels that carry the famed Good Housekeeping Seal—buying guide to 31 million housewives.

Roundup Finished By Federal Agents

TAMPA (AP)—Federal agents have completed a roundup of 33 persons charged with failing to buy gambling stamps. It was the largest group in one connected series of raids for this reason in the Tampa area.

This is the same band of Hillsborough and Pinellas county residents arrested last spring on state charges of being involved in a multimillion dollar bolita racket.

Headliners in the group are Henry and Santo Trafficante Jr., Tampa bar operators convicted in Pinellas last fall of bribing an officer to get protection for bolita operations.

The Persian cat which originated in what is modern Iran has become relatively scarce in that country says the National Geographic Society.

News Of Men In Service

Marine Private First Class Ernest H. Canada, son of Mrs. W. H. Bradford, Celery Ave., Sanford, has requested active duty with the Marine Corps and has been assigned to the Marine Corps Recruit Depot, Parris Island, S. C. to undergo recruit training.

Private First Class Canada was formerly assigned to the Marine Corps Reserve unit in Orlando, the Second Shore Party Group Company, where he participated in the regular drills of the unit. Following a period of about 10 weeks of recruit training he will be given a leave. His tour of active duty will be for two years.

CAMP GORDON, Ga.—Pvt. Robert L. Reeves, whose wife, Bobie, lives at 1845 Summerlin, Sanford recently was graduated from the Military Police Training Center at Camp Gordon, Ga.

Private Reeves, who attended the school after completing basic training at Fort Jackson, S. C., was taught unarmed defense, traffic control and other law enforcement duties.

Reeves, son of R. Reeves, Lake Mary, entered the Army in October 1954. He was graduated from Seminole High School, Sanford, and was employed by the Atlantic Coast Line Railroad.

MAN IS SUPERSTITIOUS
NEWARK, N.J. (AP)—Elijah Walton, 49, pleaded no defense to a manslaughter charge in the fatal slaying of Basil Jones, 27, during an argument. But when Judge Alexander Waugh set April 13 for sentencing, Walton protested: "Oh judge, not the 13th! I'm superstitious." The judge was obliging. "Very well, then," he said, "you shall be sentenced April 22."

MUCH HELP GIVEN
NEW YORK (AP)—Luthera World Relief has shipped more than 40 million dollars worth of clothing, food, medicines and other supplies to needy foreign areas in the last two years.

Florida Man Object Of Georgia Search

ALBANY, Ga. (AP)—A 29-year-old Florida man who escaped officers in an exchange of gunfire Sunday was still the object of a wide search through Southwest Georgia today.

Bloodhounds were added yesterday as about 20 FBI agents and a large posse joined in the search for Robert Gravel of Jacksonville, one of two men who held FBI agent Bill Bolyard and Thomasville policeman G. C. Alred at gunpoint after the officers attempted to question them about a stolen car.

Bolyard and Alred were forced to drive Gravel and Fred C. Salligiver, 30, of Jacksonville several miles before being released.

Children in ancient Rome shot marbles, played jackstones and a form of hopscotch.

NEW CHEVROLET Task-Force TRUCKS

America's leading truck builder went all-out to bring you the most modern trucks on any job—with all these trend-starting advances!

These are the trucks that started out fresh on the drawing board months ago—the great new Chevrolet Task-Force Trucks! Now they're here—ready to roll on your hauling or delivery job... ready to make or save you money... ready to shorten your schedules... to make the driver's job lighter, his efficiency greater than ever before!

Whatever your task or trade, there's a new Chevrolet truck made to match it with the most modern engineering features in the industry. From engines to rear axles, from cabs to tires, you get a whole truckload of new advances in new Chevrolet Task-Force trucks! You can read about some of them here. Then come in for the whole story.

Work styling—a new approach to truck design! Two distinctively different styling treatments—one in light and medium-duty models, another in heavy-duty!

Six powerful new "high-voltage" engines! With a modern 12-volt electrical system for increased generator capacity—plus many other new advances.

The last word in cab comfort and safety! New Sweep-Sight windshield for increased visibility. A new concealed Safety Step that stays clear of snow or mud.

New capacity—up to 18,000 lb. G.V.W. Offered in 2-ton models! This means you can do a lot more work on heavy hauling jobs with real savings.

New more durable, standard-width frames! New frames are of 34-inch width to accommodate special body installations. And they're more rigid!

All models available with new Power Steering! New Chevrolet Power Steering has turning effort up to 50 per cent less... optional hand crank. Combined in one unit.

You can have new Overdrive or Hydro-Matic! Overdrive is optional on 1 1/2-ton models; truck Hydro-Matic on 1 1/2-, 2- and 3-ton models. 28 more cars.

Power Brakes optional on 2-ton models! This great power helper is yours at no extra cost on 2-ton models! Optional at extra cost on all other models.

Wholesome tires optional on 1 1/2-ton models! New tubeless tires give you greater protection against a blowout... deflate more slowly when punctured!

Come in and see the newest things in trucks!

Atomic Energy Is Being Brought Into Ordinary Peaceful Uses

By **RELMAN MORIN**
 WASHINGTON (AP)—Building the atomic bomb was a ferociously complicated process. But it is beginning to seem like child's play compared with bringing atomic energy to ordinary peaceful uses. Take electric power, for instance.
 This may be the first great field where the atom goes to work. America's power consumption tends to double every 10 years. The economy demands more and ever more electricity.
 Technically, you could have atom-generated electricity in your home today. Engineers know how to hook a nuclear reactor to a generator and take off electric power. But it is too expensive to be competitive with ordinary power.

Suppose you are the president of a big electric power company. The Board of Directors is in session. One of them asks: "How big is in the difference in cost?"
 "Pretty big," you answer. "Power rates vary all over the United States. On the average, however, I'd say that with present techniques, atom-electricity would be at least twice as costly. That's only an estimate."
 Q. Will new techniques cut costs sharply in the future? A. Let's take just one big phase of the problem. Nobody yet knows how to transmute atomic energy directly into electricity. You still need turbines, generators and all the conventional equipment. The nuclear reactor merely takes the place of one part of the machine. Now suppose a method is found to convert atomic energy into electric power without those intermediate steps? Then, no doubt, atomic electricity would be more than competitive with the processes we are using now."

Q. Apart from that, what will it cost to build a nuclear reactor? How long will it take? A. Between 40 and 50 million dollars, and four to five years. It depends on the size of the reactor.
 Q. So if we started today, it would be around 1960 before we had any atom electricity. A. That's right. And you've touched on another part of the problem. We decide to build a reactor and it's about half finished when somebody comes along with a new design, more efficient, lower operating costs, and so on. In a technical field moving ahead as rapidly as atomic energy, that can easily happen. In other words, our reactor could be obsolete before it ever turned out a kilowatt.
 Q. You mentioned operating costs. What about them? A. That's an uncharted sea. No private industry has operated a reactor. So we just don't know much about the costs, or amortization factors.

output, personnel expenses, safety. C. Safety? What's the problem there? A. Well, fortunately, there hasn't been a serious reactor explosion in America. But suppose one did explode near a city. The blast itself could be serious. Now picture, in addition, a radioactive cloud boiling down on a crowded community, poisoning the air, the food, even the water.
 Q. Suppose we decide to go into the atomic business? Where do we start getting the information? A. Mainly from the AEC. We would need a license. And we would have to get security clearances first for the engineers and everybody else who might be directly connected with building the reactor."
 Q. As a broad, general question—would you say the government really wants private industry in the atomic energy business? A. Everything seems to indicate it does. For instance, if we come forward with a workable proposition, the AEC will give us certain advantages—the loan of fissionable fuel without charge, and making available their laboratories for specific research studies, and so on.
 Q. Well, finally, do you think we should come in? A. I don't see how we can stay out. Here's a big, new field with tremendous potentialities. Sure, the costs and the problems are staggering. But this isn't the first time American industry has taken on a big tough job—and it won't be the last."

Q. Nebraska has pending a bill providing a 1-cent bounty on empty beer cans returned to the county clerk. Its sponsors say it would help keep empty cans off the roads. Residents of Maine planning to set out bear traps may have to surround them with two strands of barbed wire bearing signs "Bear Trap" and "Trapped Ours." Reason is that the traps are supposed to snare bears, not French-Canadian woodsmen working the forests.
 Inland Utah has a bill to make the seagull the state bird.
 In Nevada anyone wanting to hunt wild horses can't do so with an airplane. And he has to advertise his plans in a newspaper in the county where he intends to hunt.
 Drunken drivers in Iowa have escaped special distinction. The House killed a bill to require those convicted to carry on their windshields a yellow label with a scarlet "X."
 Alabama has a proposal for a \$25 tax on divorces as a means of getting extra money for old age pensions.
 Colorado has one setting up special license plates for 25-year-old automobiles. The antique cars could be used only in parades.
 Rep. T. W. (Buckshot) Lane, a

Varied Proposals Confront Members Of Legislature

CHICAGO (AP)—Every day someone somewhere vows "there ought to be a law" for or against something close to his heart.
 As a result state legislatures are confronted with proposals embracing a strange assortment of persons, places and things. These range from bear cans, bear traps and seagulls to wild horses. For instance:
 Nebraska has pending a bill providing a 1-cent bounty on empty beer cans returned to the county clerk. Its sponsors say it would help keep empty cans off the roads. Residents of Maine planning to

former county sheriff, wants Texas to tax telephone poles 50 cents apiece.
 And in Rhode Island small type would be banned from insurance policies.

Legal Notice

NOTICE IS HEREBY GIVEN that we are engaged in business at 118 W. 2nd St. under the fictitious name Sanford Automatic Laundry and that we intend to register said name with the Clerk of the Circuit Court, Seminole County, Florida, in accordance with the provision of the Fictitious Name Statute, to-wit: Section 465.09 Florida Statutes 1951.
 Martin A. Dyer Jr.
 Dorothy D. Dyer

NOTICE OF APPLICATION FOR TAX DEED (Sec. 194.16 Florida Statutes of 1951).
NOTICE IS HEREBY GIVEN, that Eunice B. Horton the holder of the following certificate has filed said certificate for tax deed to be issued thereon. The certificate number and year of issuance, the description of the property, and the name in which it was assessed are as follows:
 Certificate No. 246 Year of Issuance June 27 A. D. 1952
DESCRIPTION OF PROPERTY: Lots 67 & 70 Holiday Bear

Take Subdivision No. 3, Plat Book 4 Page 44.
 Name in which assessed Circle J. Holiday All of said property being in the County of Seminole, State of Florida. Unless such certificate shall be redeemed according to law the property described in such certificate will be sold to the highest bidder at the front door of the Seminole County Court House at Sanford, Florida, on the first Monday in the month of May, 1955, which is the 2nd day of May, 1955.
 Dated this 30th day of March, 1955.
 O. P. Herndon
 Clerk Circuit Court
 Seminole County, Florida
 (Official Clerk's Seal)

NOTICE TO DEFEND
 TO: L. C. LINDSEY and N. P. BAKER, and each of them, if living, and if dead, their respective unknown heirs, devisees, legatees, or grantees; all parties claiming interests, by, through, under or against the said L. C. LINDSEY and N. P. BAKER or either of them: SOUTHERN MOTOR COMPANY OF GREENVILLE, INC., a dissolved corporation under the laws of South Carolina; LARA STRICKER, her husband, 6744 Whitcomb, Cincinnati, Ohio; LEONORA BARBER and D. D. BARBER, her husband, 4916 Genessee, Buffalo 15, New York; O. G. LYNN, c/o Tool & Equipment Co., 815 N. Broad St., Philadelphia 31, Pennsylvania; the unknown heirs, devisees, grantees, creditors or other parties claiming interests under F. B. LYNN, deceased, in and to the lands hereinafter described; all parties having or claiming to have any right, title or interest

in and to lands in Seminole County, Florida, described as: The Southeast Quarter (SE 1/4) of the Southwest Quarter (SW 1/4) of Section 26, Township 11, South, Range 10, East.
 You, and each of you, are hereby notified to defend a suit that has been filed against you in the Circuit Court of Seminole County, Florida, the abbreviated title of which is H. C. PARKER and KATHA A. PARKER, his wife, plaintiffs, vs. F. B. LYNN et al, defendants, Chancery No. 3709, seeking to quiet and confirm the title of plaintiffs to the above lands, and you are required to file your answer or other defense with the Clerk of said Court at Sanford, Florida, and to serve a copy thereof upon the plaintiff's attorney, W. A. Pattishall, at the address shown below, on or before the 2nd day of May, 1955, in default of which, a decree pro confesso will be entered against you.
 This Notice shall be published as required by law, in the Sanford Herald, a newspaper of general circulation published at Sanford, Florida.
 WITNESS the hand of the Clerk and the Seal of said Court, this 23 day of March, 1955.

Family Moves In As Skunks Leave

CHICAGO (AP)—Mrs. Helen Luther and her four children are back in their home in suburban Winthrop Harbor after more than a month's battle with a family of skunks underneath the house.
 Mrs. Luther, the village clerk, said the last of the skunks finally was trapped after she had received more than 75 suggestions from persons in 20 states.
 They followed a deodorant spraying of the entire house, chemical treatment of the ground underneath, and washing or dry cleaning of all furniture and other objects inside the house.

PRIVATE INDUSTRY ASKED FOR HELP
JACKSONVILLE (AP)—The University of Florida dean of engineering called upon private industry Monday to finance construction of a nuclear reactor at the university.
 Dr. Joseph Weil told a civic club that the State Board of Control has ruled it cannot be built with state funds in emphasizing that its cost of 14 million dollars would be "a mere pittance" compared with the benefits it would produce.

Midges Warned To Be On Alert

Midges, beware! Life is going to get tougher for you. Dr. Terry Bird, County Health Officer, and V. J. Robbins, sanitarian with the Health Unit, are now armed with the latest methods of controlling the pesky flying insect.

Odham Declares Civic Campaign Needed For Roads

"The only way we can hope to have U. S. Highway 17-92 four-laned within the near future," Bralley Odham declared last night, "is to start a civic campaign to have as much right of way donated or given free of charge as possible."

Odham, chairman of the Chamber of Commerce's long-range roads planning committee, made the statement at a dinner meeting of the committee last night at Elmer's Restaurant.

Calling attention to the fact that \$860,000 has been appropriated for the project, Odham said this is enough to begin construction. But the project, he added, will be made prohibitive if all right-of-way has to be purchased.

Unless the owners of property abutting on the highway cooperate in the right-of-way movement, he said "we might as well sit back and wait for a bypass to be built."

Present at the meeting from the district highway office at Deland were C. A. Benedict, head of the drafting department, and Kenneth Kinsey, assistant to District Engineer Richey Green. Green was unable to attend because of other business.

Benedict reported that the center line for the four-lane highway has been fairly well established, barring a few possible minor changes. He said the right-of-way acquired in past instances, would be 130 feet from the center line of the present road.

Kinsey said the total cost of the project from the Orange County line to Five Points would be approximately \$1,100,000.

U. N. Truce Chief Makes New Try For Border Peace

UNITED NATIONS, N. Y. (AP)—The U. N. truce chief for Palestine heads back to Jerusalem today for a new try at bringing peace to the strife-plagued border between Israel and Egypt.

Backed by two disputing nations, Canadian Maj. Gen. E. L. M. Burns planned an early morning huddle with delegates of the Western Big Three before taking a British airliner back to his Middle East headquarters.

The council condemned Israel Wednesday for its Gaza raid Feb. 28 in which 38 Egyptians and eight Israelis were killed.

In another session yesterday the 11-nation group adopted a second resolution calling on Burns to build up a campaign against the illegal border crossings he says spark the shootings and retaliatory raids.

The first step in his new peace program will be to set up mixed Egyptian-Israeli border patrols. With his U. N. officer observers, they will keep an eye on trouble zones where Arab refugees try to sneak back into their former homeland.

Hubbard Alderman Dies In Longwood

Hubbard Alderman, 83, died yesterday afternoon after an illness of six weeks. He made his home with his daughter, Mrs. Alline Barwick, and had lived in Longwood for the past 31 years.

A retired carpenter, Mr. Alderman was born on Sept. 2, 1871 in Moultrie, Ga., and was a member of the Baptist Church. He is survived by his daughter, one brother, Ben, Alderman of Sylvester, Ga., and several nieces and nephews.

Funeral services will be held tomorrow at 3 p. m. at Brison Funeral Home with the Rev. Louis Futch of the Longwood Baptist Church officiating. Burial will be in the Longwood Cemetery.

FORGETS MEMORY COURSE

DENVER (AP)—This solo, signed by assistant city editor, Wm. French, was left on the Rocky Mountain News city desk last night: "Dear Boss: You told me to send reporter Bob Stapp to get a story on the memory course at Denver University, I forgot."

Governor Accepts Gay's Resignation

TWISTED METAL is all that could be determined at the scene of the crash of a private plane. Exclusive photos were taken by Carl Overstreet of The Herald staff.

Young Flier Found With Wrecked Plane

By MARY ANN HURK

Only the cows heard as the Globe Swift plane of Fred A. Scudellari came to a screeching halt, burying its nose five feet deep in the muddy ground about one mile south-southeast of May Town near Osteen; and just the incoherent crickets replied as the crumpled and broken body lay motionless in the thick marsh grass.

Cable Dynamited As Phone Strike Enters 18th Day

ATLANTA (AP)—An underground cable carrying about 1,000 communication circuits was dynamited in South Carolina early today, shortly after the nine-state strike against Southern Bell Telephone Co. entered its 18th day.

Southern Bell officials said the cable was of the coaxial type and carried long distance, press, government, radio and television service on a north-south route.

The break occurred about 19 miles south of Columbia on the Columbia-Augusta, Ga., leg of the cable.

Repairs were at the scene within a few hours, officials said, and the break was repaired shortly after daylight.

Time of the dynamiting was set at about 1:45 a. m. (EST). Much of the service affected was rerouted before repairs were reached the scene.

The company said the cable was one of the largest damaged since the strike started March 14. South Carolina law enforcement agencies are investigating the incident, officials said.

INCOMES RISE

LONDON (AP)—Personal incomes in Britain rose 6 per cent last year, from 38 1/2 to 40 1/2 billion.

King Favors Emergency Plan For Successorship To Governor

Florida's constitution now provides that the Senate president succeed to the governorship in an emergency.

"It certainly is only right that the people of the whole state, rather than the people of a single district, should vote on the man who would succeed the governor in an emergency," King said.

"My personal belief is that a line of succession should be set up in the cabinet."

"I will vote for a lieutenant governor since that seems to be what the governor wants, but it appears to me we would be creating a useless job. I am opposed to a lieutenant governor presiding over the Senate because I don't believe we should intermingle the executive and legislative branches."

King said he would oppose the lieutenant governor presiding over the Senate. In many states the lieutenant governor is elected by popular vote in statewide election and presides over the Senate.

Ray Green Appointed To Post

Comptroller Will Return To Orlando

TALLAHASSEE (AP)—Gov. Collins today announced acceptance of the resignation of Comptroller Clarence M. Gay effective April 11 and said "I will forthwith appoint Mr. Ray Green to fill the unexpired term."

In a brief statement dictated to a secretary in his office, the governor said he is accepting Gay's resignation with reluctance and yet I can understand his compelling personal reasons for taking this action.

The governor said Green, now assistant to Gay, is a man of proven integrity and ability.

"I have full confidence in him and his experience will assure the orderly continuance of the business of this office."

Gay announced his resignation at a news conference. He said he was giving up his cabinet post to return to his Orlando banking business.

Gay released a letter to Gov. Collins which said they had agreed on the appointment of Green because of "his general qualifications and his experience as my first assistant, both in respect to the work and personnel of the office."

In his letter of resignation, Gay said he would be available in an advisory capacity at all times. Gay told reporters that after a quarter of a century in public life he felt it was his duty to his family and business associates to return to private life.

He said his business interests had been neglected because of his public service.

Gay conferred with Gov. Collins prior to releasing his statement.

Bulgarian's Regime Undergoes Another High-Level Change

MOSCOW (AP)—Premier Nikita Khrushchev's government underwent another high-level change today with the removal of Konstantin M. Sokolov as soviet construction chief. He was replaced by V. A. Kucherenko, one of the four new deputy premiers appointed March 1.

Sokolov, 51, was chairman of the State Committee of the Soviet Council of Ministers for Construction Affairs. He had headed the Soviet building program since 1949.

It was uncertain whether Sokolov's removal spelled his ouster from the ruling Kremlin group or whether he was only being given another post. He was elected a candidate member of the Central Committee of the Soviet Communist party in October 1952.

The construction ministry has been under fire for the past few months from Nikita S. Khrushchev. The Communist party boss accused Russian builders and architects of wasteful, inefficient construction work.

Eight Indicted For Tax Evasion

TAMPA (AP)—Eight figures in last week's mass roundup on gambling stamp charges have been indicted by a federal grand jury for evasion of excise taxes on bolita bets.

They are Santo Trafficante Jr., his brother Henry, Joe Perrone and Salvatore J. Lorenzo, all Tampa white men, and four St. Petersburg Negroes: Joe Bryant, Alfred Poole, Arthur Brown and George Seymour.

All are charged with conspiring to evade payment of the excise tax on wagers accepted by or for the Trafficante brothers and Perrone.

The Trafficante and Perrone also are charged with evading payment of about \$200 on \$2,000 in bets. Asst. U. S. Atty. Vernon W. Evans Jr. called this sum "ridiculously low" compared with the total operations of the group. He said it is only a token figure.

Florida Bar Assn. Opens Convention

MIAMI BEACH (AP)—The Florida State Bar Assn. opens its annual convention here today with State Supreme Court justices on hand.

Among matters to be discussed will be the legislative program adopted by the bar's board of governors yesterday.

These include a law permitting life sentences for incurable or habitual child molesters and a bill to make parents more responsible for the actions of delinquent children.

PRIZES DISPLAYED—David Thrasher, left, and Melvin Dekle hold a poster giving information about the Jaycee-sponsored Easter egg hunt. Prizes to be awarded are placed on the table between the men. (Staff Photo)

Strolling In Sanford

Mr. and Mrs. J. C. Davis have received word that their son James has been initiated into Lambda Chi Alpha fraternity at Florida State University in Tallahassee. He was also presented the "Outstanding Pledge" award of his fraternity at a founder's day dinner Saturday.

A used playpen is needed for the two bear cubs at the Sanford Zoo. Mrs. Arnold the Hood, keeper, said today. She said the Zoo will accept one as a donation or will purchase it if the price is reasonable.

'Fair Trade' Laws Repeal Is Proposed To Stop Cut Rates

WASHINGTON (AP)—A government-sponsored committee today proposed repeal of "fair trade" laws designed to prevent cut-rate retail sales of nationally advertised, brand-name products.

If the administration and Congress should follow through, the law would be open for discount houses to spring up everywhere.

Merchants would be able to charge whatever they wished for electric mixers, cosmetics, fountain pens and the like—regardless of prices manufacturers want to impose.

The recommendation by the National Committee to Study the Antitrust Laws brought praise from Rep. Celler (D-N.Y.) and some question from Sen. Sparkman (D-Ala.).

Other portions of the committee report were criticized vigorously by them and Rep. Patman (D-Tex.). Celler heads the House Judiciary Committee; Sparkman and Patman are chairmen of Senate and House small business committees.

The study committee also called in somewhat heavy language for legislative curbs on labor union activities that may restrict trade and competition.

Dr. Bird Reports Letters Sent Out

Dr. Terry Bird, director of the Seminole County Health Unit, announced that letters were being sent to a few people in Sanford whose x-rays taken during a mass x-ray survey were unsatisfactory for interpretation, probably due to over exposure.

If you receive a letter go to the trailer that will be parked at the Seminole County Health Unit, 113 S. Palmetto Ave. on April 4 between the hours of 10 a. m. to 1 p. m.

"This is the only time it will be here for another two years, and we urge you to take advantage of the opportunity to have your x-ray taken over," Dr. Bird said.

REPRESENTATIVE SUGGESTS TWO-YEAR LEAVE

WASHINGTON (AP)—Rep. Curtis (R-Mo.) has proposed a constitutional amendment requiring senators and House members to take a two-year leave after 10 consecutive years of service. After the leave, they could return if re-elected. He said the plan would get long-time members out of "a fascinating

Sixty Dozen Eggs Donated To Jaycees For Easter Hunt

Sixty dozen eggs have been donated for the Easter Egg Hunt to be held Easter Sunday at Ft. Mellon Park by the Junior Chamber of Commerce.

Dave Thrasher, hunt chairman, made the announcement at the chamber's weekly luncheon meeting today at the Yacht Club.

The largest donation, 15 dozen, came from Celery City Grill, Thrasher said.

He said raw eggs will be received up until Thursday.

Twenty-six prizes have also been donated for the hunt. They were donated by Powell's Office Supply, Robson Sporting Goods, Garrett's, Firestone Store, Frank Noell, Cowan's, Yowell's, Walgreen's Drug Store, Western Auto Store, Jacobson's Department Store, Hanson's Shoe Shop, Hill Hardware, Touchton Drug Co., J. C. Penny Co. and McCrory's.

John Melch, chairman of the county commission, gave a talk on taxes and labor.

Now than Seminole County has the new hospital, Melch said, a re-evaluation of county property is needed to raise more tax revenue to operate the hospital and the school system. He pointed out that the County is growing at the rate of between 1,200 and 1,500 people per year.

Tom Lemon Seeks Mayor Nomination In Bloomington

Thomas L. Lemon, former City Manager of Sanford and one-time Mayor of Bloomington, Ind., announced last week that he will seek nomination on the democratic ticket at Bloomington may or in the City election in November.

Lemon's decision was influenced, he reported, by the thousands of names on hundreds of petitions that had been circulating since his announcement that he would not be a candidate.

After relating that he would seek nomination, a full slate of candidates fell in line and indicated they were solidly behind the young politician.

Lemon resigned his position as Sanford's City Manager in January, 1954.

Civilians Cleared As Security Risks

WASHINGTON (AP)—The Army says it has cleared 27 of 35 Ft. Meunmouth, N. J., civilian employees who had been suspended as suspected security risks. The other eight have been fired, according to Army records.

The Pentagon disclosed last night the completion of action in the cases of the 28 workers who were suspended under government loyalty procedures. The Army said all 27 of those cleared were reinstated but that three later quit.

LIONESS GIVES BIRTH TO SIX CUBS

ST. LOUIS (AP)—Lena, the lioness at St. Louis Zoo, gave birth to six cubs, not five as announced earlier this month. Attendance disclosed there were six yesterday. Zoo Director George P. Vierheller said he'd never heard of octuplets and promptly passed around a box of cigars to celebrate the event.
