By Mildred Haney Decision of the Deltona L ons Club to sponsor Little League in the area was announced at the group's February meeting by Hans Theurer who reminded "much is being done here for senior citizens, but little for the youth." The League will be organized under direction of Gill Henry, director of Northeast Florida District of Little Leagues. Teams will come from Orange City, DeBary, and Deltons, while a fourth will be made up of boys from Enterprise and Osteen. Playing fields will be made available in each community.

A club member, Arnold Varn, who has had past experience with semi-pro baseball, will be active in forming and coaching the teams. Speaker for the meeting was Monroe Morris, execu-

tive vice pre-president of First National Bank of De-Bary, who explained the origin and development of bank-ing and showed the film, "Banking in Action."

A three-minute reading by Secretary L. F. Bollens, one of 30 prepared by John F. Nicholson, Florida Lions District Governor, explained the meaning of the Lion's emblem. Charles H. But there were some Americans stricken - non-fatallyin the epidemic at the famed resort of Zermatt in the Swiss Alps in 1963.

All three countries have high sanitary standards on a par with those in the United States and the outbreaks were quickly quelled. But they pointed up why immunization against infectious diseases are so important for the traveler. Inoculation against typhoid

is not compulsory for the American tourist. However, the U. S. Public Health Service urges anti-typhoid shots for Americans traveling anywhere in the world, including some sections of the United States itself.

The service also recommends vaccinations against paratyphoid, tetanus, polio and diphtheria in addition to those which may be required by various countries included on the itinerary.

Americans do not have to be vaccinated against smallpox to leave the United States. But a vaccination against such disease is compulsory for returning citizens. Each must have a certificate of vaccination or other proof of immunity for reentry from foreign lands with the exception of Canada, the Canal Zone, the west coast of Lower California in Mexico and some Carib-

cople. He strolls "up and lown the street checking out ll my friends, and say hello to all the doormen and car hikers. See that's going on. Sometimes I sit in with some of the bands that are playing." Sunday is his day off.

Proper Exceptions Help Keep

The new Gold Star Plan covers every conclusible kind of sickness and socident except, of course hospitalization caused by the use of alcoholic beverages or narcotics, mental or nervous disorders; act of war; pregnancy; pre-existing conditions (during the first 3 years only); or where care is in a government hospital. Everything else IS covered.

How Can Only \$1 Buy So Much?

If it seems incredible to you that we can provide you with \$100.00-a-week Income Protection for the first month for only one dollar - let us assure you that we can make this remarkable offer only because we provide insurance coverage for NON-DRINKERS and nobody else. We know that if YOU do not drink, you are a far safer "risk"

than a person who does drink. We make this special \$1 offer so that you can become introduced to The Gold Star Plan, and share-if you so decide-in the benefits this special protection is now providing for so many others who, like yourself, use their common sense to stay away from alcohol...to live same: and safer lives because they refuse to let drinking imperil their health, and therefore are ENTITLED to lower insurance rates After your first month's protection, you may continue at the regular low monthly rates - and the rate you pay now will never be increased because you grow older!

What Would Happen To Your family?

The chances are one in seven that even you will spend some time in the hospital this year. A fall on the stairs, in the bathtub, or on the sidewalk - a sudden illness or operation could lay you up for weeks, months, perhaps even years. Right now, you probably have some hospital coverage. You may think you're "safe" from all the financial burdens of sick-ness and accident. But hospital coverage usually takes care of only part of your expenses.

Can you afford the soaring costs of doctor, surgery, and nurse bills? Can you afford missing your weekly paycheck dur-ing the time you're laid up in the hospital? Even though you probably have some protection now - will it be enough? Sickness, accidents, hospitalization, cost many people their savings, their cars, even their homes. Don't take chances with your financial security. Now for only pennies a day, YOU can enjoy the added protection, the peace of mind, the freedom from worry that this new Gold Star "Preferred Risk" \$100-A-Week Extra Income Protection Plan NLLE-9965 offers.

IF YOU ARE OVER 65 "MEDICARE" WILL HELP-BUT YOU STILL NEED GOLD STAR Why are smart non-drinkers, people over 65 as well as under 65, now hastening to protect themselves with The Gold Star Plan - and making sure they stay protected --regardless of what "Medicare" might do for them after it goes into effect on July 1st? Other folks might be tempted to ask, "Why do I need Gold Star protection, when Medicare will be taking care of hospital expenses for me?" The fact is, of course, that while Medicare will certainly help - it has very definite limita-tions. tions. Medicare promises to cover only part of your needs, and for only legally limited periods of time. Suppose an acci-dent or illness should put you into the hospital for a period that far exceeds Medicare's 90-day limit for any single hospitalization - the limitation set by Congress. You know, from the experience of your own family and friends, that from the experience of your own family and friends, that prolonged hospital care can actually run into thousands of dollars. How would you pay such bills 7 the answer is to make surce, new, that you have THE GOLD STAR PLAN, which will pay you \$100.00 a week - even for LIFE if Medicare will not cover private-duty nursing. Medicare Medicare will not cover private duty human be such a will not help toward loss of earnings, which can be such a tragic blow if you work for a living. Medicare will not cover the many "non-medical" expenses that hit your pocketbook so hard when you are laid up in a hospital. But GOLD staR, by paying \$100.00 a week direct to you, to spend h, helps pay for such estras regardless of what they are. You can see why it is so vitally necessary to carry this protection in addition to Medicare. Clearly and positively, yeu need MORE protection than Medicare will provide. And the way to make sure you have it is to send the application form at the bottom, teday.

The Added Protection You NEEDI All benefits of this Gold Star \$100.00-A-Week Income Protec-

tion Plan are paid directly to you, in tax-free cash, in eddition to whatever you may receive from your other insurance! Spend the money as you see fit - for hospital or doctors' bills, mortgage payments - or any necessary but costly extras not fully covered by usual hospital policies.

covered by usual hospital policies. Everything costs more these days (need we tell you?) and hospital care is certainly no exception! While 7 out of 8 Amer-icans have some Acoppial insurance, they have found it does not cover all the bills that pile up when sickness or accident strikes. That's why Gold Star developed low-cost Income Protection that helps you pay either hospital costs or anything else you

You get your \$100.00 per week (\$14.28 per day) -TAX FREE confined there, even for life, if necessary. Additional Gold Star benefits pay \$2,500.00 cash for complete accidental loss of one hand, or one foot, or sight of one eye; \$5,000.00 cash for com-plete accidental loss of both hands, or both feet, or sight of both eyes.

For Older Folks - Greater Protection Than You Ever Would Have Thought Possible!

Right now, would advancing age prevent you from getting hospital insurance, or income protection with another com-pany? Or if you could get a policy elsewhere, would you have to pay a big premium for it? Or perhaps you no longer have a regular income, and are living on Social Security. What would happen to you then if you had to suddenly go to a hospital? Your "life saver" could be this wonderful Gold Star Income Protection Plan - because Gold Star welcomes folks of all ages into its Plan. You can even be OVER 100 and still be eligible! into its Flan. You can consider this your "reward" for protecting your And you can consider this your "reward" for protecting your health and "stretching out your life" by not drinking!

Compare This Plan With Any Other We are confident that it would open your eyes to compare Gold Star's low rates with what you would have to pay for the same health protection in ANY other company - your own policy, or anybody elses!

UPTON SINCLAIR, Pulitzer Prize author: "I think your

idea of giving people the insurance discount they earn by not shortening their lives with alcohol is a brilliant one, and I am glad to be counted in on it." glad to be counted in on it." CHARLES ATLAS, holder of the title The World's Most Perfectly Developed Man: "My lifelong career has been de-voted to helping others enjoy the rewards of right living and of wholesome regard for the body God gives them. I know what a deep ratisfaction it must be to you to reward others, through substantial savings, for their abstinence from alcohol - a basie rule for every individual who sincerely respects and wishes to rotect his own God-given health." GENERAL W. K. HARRISON, U.S. Army (Ret.) : "In my
