5 ARMY FLIERS KILLED IN LESS THAN 5 DAYS

Deaths, Accidents In Air Mail Service; Move Made To Stop 'Legalized Murder'

(By The Associated Press) The Army counted five dead, three injured, and nearly a dozen cracked planes today as the toll of the first week-long excursion into the nation's airmail lanes.

All of the dead were either flying the mail or had been assigned to the task when they plummeted out of the sky.

The latest in a series of mishaps came in the midst of a blizzard near Fremont, Ohio, early today when Pilot Norman Burnett became lost and bailed out, suffering a fractured leg.

Reluctant to speak until investigations are completed, Army men tentatively laid some of the mishaps to equipment failures.

After Representative Hamilton Fish, New York had called the government's assignment of service men to airmail duty a form of "Legalized murder," a program was brewed in Washington House circles today to put airmail pouches back into private planes. The administration was silent.

Dirty flying weather belts of fog and snow—apparently caused one of two accidents yesterday, that near Deshler, Ohio, in which Lieutenant Durward O. Lowry rocketed to his death in a wood.

Near Denison, Tex., Lieutenant Fred J. Patrick lost his life when his plane plunged to earth. He was not carrying mail.

A little more than 12 hours after Lieutenant Lowry, miles off his course, plowed his craft into a creek bank on a farm Lieutenant Harold Delta catapulted onto a farm field near Marion Station, Md., and was hurried to hospital at Crisfield. He was piloting a mail plane from Newark, N. J., to Richmond, Va.

Less serious was the forced landing early in the afternoon at Woodland, Pa., of Second Lieutenant McCoy, another airmail pilot, with a burned-out engine, but Lieutenant G. P. Hollstein, flying a load of mail from Cleveland to Washington, lost his ship when he encountered sticky fog near Uniontown, Pa. He washed it out in a clump of trees, but luck saved his life among the jagged rocks of the Alleghenies.

Fear For Lives Of 101 Persons On Ice Field

MOSCOW, Feb. 23.—(AP)—Cut off from rescue by storm conditions on a bleak ice field in Bering Strait, 101 survivors of the sunken steamer Cheliuskin were reported Wednesday in grave danger of perishing on a drifting and breaking ice floe.

Among them are eight women and two small children. They have been marooned on the ice for nine days, and although plentifully supplied with food, the reported break up of the ice field and its northward drift in front of a high wind made their rescue doubtful.

Storm From South Is Causing Coastal Gales

(By The Associated Press) A change to much colder weather today was followed by a rapid movement of a storm area from Southern states toward the northeast. The disturbance caused gales on the north Atlantic coast.

In central Canada today the mercury was from 20 to 30 below zero, and near zero readings are general in northern Illinois, Indiana, and Ohio, while freezing temperatures extended to central parts of Mississippi, Alabama, and Georgia.

Exchange Head Seeks Substitution Of Act Placing Mart Under Charge Of 7 Men

WASHINGTON, Feb. 23.—(AP)

The New York Stock Exchange last night asked Congress to scrap its bill for strict governmental regulation of the speculative securities exchanges and substitute a measure of its own originating giving control to a commission on which it would have representation.

The plan was presented to the House commerce committee through Richard Whitney, president of the exchange, who had spent the day battling objection after objection to the pending Fletcher Rayburn bill, principally opposing its minimum margin requirements on the ground they would tend to eliminate abuses which grew out of an unfair and stalling competition.

In an address at a dinner given him by the citizens of Savannah, Farley reviewed the work of the Roosevelt Administration and referred to the cancellation of air-mail contracts as a move that would result in the elimination of abuses which grew out of an unfair and stalling competition.

He said a not very distant day would see in operation a better and more serviceable airmail system.

President Roosevelt, Farley said, with stout heart had "banished the fears of pessimism and carried us safely through a winter that a year ago promised to be as severe as any that confronted George Washington and his soldiers in the dark winter days at Valley Forge."

"It is the purpose of the Administration to see to it that the fruits of labor from now on are more equally divided, that the rights of property are adequately protected and that the rights of all people are jealously guarded."

Lakeland Negroes To Work In Naples Fields

TALLAHASSEE, Feb. 23.—(AP)

A train load of 1,000 Negroes has been brought to Florida for the first time to work for the benefit of the Fair. They will be brought to Lakeland, Fla., where they will be employed in the fields of the Central Florida Council.

Meeting at the Montezuma Hotel about 11:00 o'clock, the Scouts piled into the trucks and were taken directly to the gates of the Fair. They will be brought to Lakeland, Fla., where they will be employed in the fields of the Central Florida Council.

Adolphus Busch, 3rd, To Succeed Father

ST. LOUIS, Feb. 23.—(AP)

Adolphus Busch, 3rd, elder son of August A. Busch, who killed himself Feb. 18, was elected president of Anheuser-Busch, Inc., by its directors, yesterday, succeeding his father.

Busch will take his place as head of the family and its various business interests. Anheuser-Busch, makers of the best beer and other products, is the largest corporation in the group.

His brother, August A. Busch, Jr., who has been second vice-president and general manager of the firm, was made first vice-president yesterday, retaining the presidency.

Brisbane Again Calls For Issuance Of Paper Money To Take Care Of Nation's Debt

Wallace Charges Ten Large Packers With Unfair Practice In Controlling Prices

WASHINGTON, Feb. 23.—(AP)

Arthur Brisbane yesterday told the Georgia press institute that the United States should issue paper money instead of bonds to take care of its indebtedness and prepare armed forces that would be "invincible."

The newspaper writer said interest on bonds doubled the burden the nation had to carry and added that both bonds and paper money were inflationary but there was no reason why the issuance of paper money should get out of hand and that the money could be handled just as bonds are.

He warned Americans against the "insidious wiles of foreign influence" (tying fleet, submarine) and recommended an efficient and mechanized army.

He lauded Washington as a living symbol of the great American dream, and a father of his country who will never cease to exercise a beneficent paternal influence.

Van Nys was conducting a poll of the subcommittee but he said he is sure it will be four to one against the measure and that the full committee would stand by the opposition. The subcommittee is expected to make an adverse report to the full committee Monday.

Van Nys told newsmen "I think this repudiation of debts has gone far enough. I think it both unconstitutional and against good public policy."

DAYTONA BEACH, Feb. 23.—

Johnny Risko and Bob Godwin will meet here Monday night, Feb. 26, in one of the most important fights of the winter season in Florida from a standpoint of sportsmanship and what the outcome means to the two contestants.

The show, for which provisions are being made to seat 5,000 or more spectators in the City Park baseball park, will begin at 8:30 o'clock with a jam up card of preliminaries, with the main event slated to go on about 10 o'clock.

It is scheduled for 10 rounds.

Risko will enter the ring with the prestige of wins in the last year over Mickey Walker and Timmy Loughran. In his last three starts, Godwin beat Maxie Howenblom in 22 rounds, stopped John Cuth Griffin and boxed a draw with Mickey Walker.

Godwin is in excellent shape al-

ready as a result of a couple of weeks of work with the U. S. Naval academy boxing team near his camp at Roswell Harbor, Md., but has been here since Sunday put

on finishing touches.

Risko is training at Miami and

will arrive here Saturday.

Upon conviction, they would be subject to a fine of not less than \$400 or more than \$10,000 or imprisonment of not less than six months or more than five years. Each day such an order is violated would constitute separate offense, he said.

WYNEKOOP SLAYING IS
SCRAPPING OF
CONTROL BILL

(Continued From Page One)

WHITNEY ASKS CREDITED TO INTRUDER

CHICAGO, Feb. 23.—(A.P.)—

The way was paved Wednesday by Defense counsel in the second trial of Dr. Alice Lindsay Wynekoop,

accused of slaying her daughter-in-law, Clara, for a defense based on the theory that the 23-year-old wife of the defendant's son Earle was slain by an intruder in the basement operating a room of the Wynekoop mansion. A trial ended the first hearing of the case with the defendant's physical condition little critical.

The assertion that Mr. Wynekoop did not see his daughter-in-law from 2 o'clock on the afternoon of the murder until she dis-

coved the body on an operating table that night was made by W. W. Smith, defense attorney, in his opening statement to the jury.

The purpose to be accom-

plished by such legislation," he said, "are: First, the prevention of fraudulent practices affecting stock exchange transactions; second, the prevention of the use of an excessive amount of credit for security speculations; and third, the elimination of practices which, though not fraudulent, permit the manipula-

tion of security prices."

In contrast with the pending bill's outright ban on such activities as pools, creation of an appearance of activity in any issue, wash sales and the like, the Whitney proposal would give the autho-

rity it contemplates power to

require stock exchanges to adopt

rules and regulations preventing

not only dishonest practices but

also all practices which unfairly

influence the price of securities or

unduly stimulate speculation."

Federal Financing Course Being Altered

WASHINGTON, Feb. 23.—(AP)—Secretary Morgenthau is turning the government's financial course toward a long-term borrowing, with a bond issue likely during March.

This path was marked clearly yesterday in an announcement of a \$75,000,000 offering of six-

month bills. The bills will be dated Feb. 28 and sold to the highest bidder.

Treasury bill sales are a weekly routine with new bills being sold to raise cash to meet maturing issues. But the importance of yesterday's announcement was that for the first time in many months, the new offering is smaller in amount than the maturity.

2 EMPLOYEES OF STATE RACE BODY FOUND CHEATING

Hammond, Miller Fired For Trying To 'Fix' Accounting Sheets

MIAVIA, Feb. 22.—(AP)—Florida racing commission has set its foot down hard to stamp out fraud and illegal practices at all racing places in the state.

In one of the most sweeping actions taken by the racing commission, which was legalized four years ago, the supervising body found two of its own employees guilty of charges of conspiracy, fraud, and other illegal practices.

It also decided to prohibit "peak race exhibitions," such as money jockeys riding greenhorns, and ostrich racing.

Following the executive action of the commission, Walter A. Donovan, secretary, announced that Grady Hammond and J. N. Miller, judge and chief inspector, respectively, for the organization, had been found guilty by the meet-

It was considered important that posts in Washington and to-day they should a large part of the responsibility for the score of the "new deal."

The peninsula state likewise has supplied men and women for post now of an emergency nature of importance in normal government operations.

The field offered the proposal as a ride to an Administration committee that Senator Byrnes, (D. S. C.) had proposed to attach to the Senate Select Committee on Small Business.

Those given responsible assignments include a former governor of Florida, four former members of Congress, the secretary of the state Democratic executive committee, a former head of the state civil service commission, and several noted thousands of veterans whose disabilities were presumed to have been of service origin for the Economy Act and who were not included in the survey.
