ng him onto first and pushing that "unknown" Mickey-

what's-his-name back to centerfield. Ever give thought to how a youngster gets signed to a major league contract or even, what a major league scout

I caught two of them at work at the Seminole Jr. College game and couldn't have landed better subjects. The dean of all major league scouts, a gentleman who's been a scout for SIXTY YEARS (longer than anyone else in the country) lives right here in Sanford.

His name is Zinn Beck, a former major leaguer with the Cardinals and the Yanks and for the past 37 years, a scout for the Twins. Some of his "signings" included John Early, Gil Coan, Jimmy Bloodworth, Ray Scarborough, to name just

The other "hawk-eye" was Tony Pacheco for the Houston Astros and a former big time player who's career was cut short after getting hit on the head with a baseball . . . and this happened while he was taking a drink of water in the dug out. How cruel that fickle finger of fate.

TONY PACHECO and ZINN BECK

It Just Ain't Right

You figure this one out, will you? 'stinkeroo" where they forced three coaches to resign and have literally black-balled 10 to 12 athletes, not only from additional college participation, but, it will most certainly AND IT WAS ALL DUE TO THEIR GETTING A FEW BUCKS TO HELP THEM THROUGH COLLEGE. BIG

Did you know that top ranked "amateur???" tennis players get PAID not to turn professional. And I'm not talking about peanuts either, cause these guys pocket somewhere from \$700 up to \$1,000 PER WEEK for a guest appearance. Now whom do they think they're kidding about tihs amateur stuff?????

HOW ABOUT THAT DEPT .??? . . . Avid sports enthusiast Fred Van Pelt writes in about that golf ball-in-side of car picture, "How did the golfer play out of it?" I dunno what he did, BUT this the way I'd of handled it. I would have had the driver wheel that chariot right up onto the green and open the door and pray for the ball to drop into the cup. Can you imagine a hole-in-one on a 500 yarder? . . . Boy, a word in the right spot really pays off. Not too long ago we mentioned that the Seminole swim team didn't have a pool in which to practice and wouldn't you know it but that local offers poured in. Many thanks to Dr. Brooke Smith and family for offering theirs. Gleason can have his My-ah-mee Beech . . . we have our kind of folks right here in "Scintillating Sanford" (Now cut out that laughing, John!) . . . Speakin of the swim team, those kids have voted their Coach Grey Boyles "the most." A real likeable guy who's doing a fine job and is most co-operative. . . . And let's not forget to thank those coaches who've been jamming our telephone lines with info this week. Richard Evans from Crooms was in with his baseball report. Ralph Stumpf filled us in on the JV happenings at Seminole High. . . . Jay Bergman and his assistant Tony Begley out at Seminole Jr. College are hard to beat, too. . . . Purely as a matter of information, we're at the office every morning by 6:30, so, if you do have something you want plugged, give me a buzz. (Ah, make sure you're on the sports line, though, cause there's another left handed scribbler here at that time, and you just might be feeding it into the "Clock." . . . Good luck to Richard Kondracki and his co-driver Dr. Pickering at the Sebring 12 Hour Endurance Race this weekend. Perhaps Sanford will get national recognition with Kondracki and his Triumph Spitfire winning this big meet. . .

Just Wonderin' Just Wonderin'

You talk about consistency and brother you don't dare consider this subject, I'll guarantee you. Why can't a minor go in to watch a sporting event, like

horse racing, dog tracks, etc.?

minimum age.

NOW BACK DOWN TIGER if you're going to spout off about the "influence" it might lend. First of all, if I'm going there for the enjoyment of watching these events (and I don't necessarily mean to make a wager, either), I can't see anything wrong with my son being by my side. You know of course that there are times when he'll see a horse race without my knowledge, too, simply by turning on the TV set. Let's Go to the Races was a popular show, wasn't

I just received my copy of the Thoroughbred Racing Association's directory and year book for 1967, covering all of the tracks around the nation. Look at some of their statements relative to this subject. Assiniboia Downs-Manitoba, Canada-Children admitted

with parents, no charge under 12 years. Delaware Park-If accompanied by adults and pay full admission. No minimum age. Kenneland-Lexington, Kentucky-Children admitted, no

But the one that really got me was good old Atlantic City, New Jersey. Here's what they have to say: "Children Not Admitted-Minimum age 16." If that's the case, I'll betcha they'd call me an old man at 28 (ch, would you believe 29?)

How five little digits are bringing you closer to everyone you know

How long does it take a letter to travel from a man in Portland, Maine, to his grandmother in the Houston Medical Center? From a woman in Oklahoma City to her soldier son in Fort Bragg, North Carolina? From a girl at the University of Michigan to her parents in Smithtown, New York?

Because every letter must go through many post offices before it reaches fts destination. And since the volume of mall keeps growing at every post office, each letter may wait a little longer to be sorted. But now there's a new way to get the mall through faster-and bring you closer to everyone you know. It starts with those five little digits you know as Zip Code. With Zip, postal

workers can sort mall faster and route it more directly. With Zip, they will use modern electronic machines that "read" Zip numbers and sort mail fifteen times faster than ever before! Many people use Zip Codes. But those who don't are holding up the mail for themselves and everyone else.

Add Zip Code to every mailing address-and to your return address, too. Then others can easily Zip their mall to you, When you don't know a Zip Code, call your post office or look it up in their Zip Directory. Remember those five little digits. They're doing a big job.

HOW ZIP CODE WORKS Suppose the Zip Code is 60635. The "6" says it goes to the Midwest. The "06" narrows it down to Chicago. The last two digits-"35"-pinpoint the local post office. This eliminates many handling procedures. The letter is sorted faster, and sent more directly to its destination.

Mail moves the country—ZIP CODE moves the mail!

What's up?

New sign of service...New symbol of quality

It took some doing to get all the signs on our "Happy Motoring" stations here in the Southeast changed over to the new sign of energy - Enco. (And while we were busy getting them ready our friendly Tiger kept watch up there.) But now they're up - everywhere! A landmark to look for when you want the extra measure of quality and

service you get from the Tiger Team . . . companies in the country in research when you want the kind of Tiger power you put in your tank when you fill up with Enco Extra ... when you want the kind of "Happy Motoring" automotive products you'd expect from America's Leading Energy Company. Enco means ENergy COmpany,

and Humble leads all other oil

and production. No wonder the men who now proudly wear the Enco name on their chests step a little more lively these days. Big things are happening at the Enco sign!

America's Leading **EN**ergy **Co**mpany
