# Vandals Hit 5 Schools

## Damages Run Into Thousands

By BILL SCOTT

An inventory to determine the extent of damages inflicted by vandals during the weekend to four Seminole County schools and Seminole Junior College is being completed today by school and law enforcement officials.

Action comes after Lyman High School, Seminole High School, Casselberry Elementary School, South Seminole Junior High School, and Seminole Junior College reported burglaries (Related photos on page 7A).

Since Friday with damages in the thousands of dollars.

Harvey hit was Lyman High at Longwood where intruders wrecked the library and band-room and damaged instruments and books extensively, requiring \$2,000 to replace.

The glass door to the band room was broken and, according to Deputy R. D. Miller's report, small fires had been set.

Miller found the smashed door shortly after 3 a. m. Sunday. Continued on page 1-B, Col. 6

FOCAL POINT of the Winter Park Mall was the fountain, pictured here surrounded by debris and water after the \$4-6 million blaze Easter Sunday morning. (Related photos by Herald staffers John Spolski and Bill Vincent Jr. on page 4A.)

# \$6 Million Blaze Guts Complex

## Winter Park Mall To Build

By DONNA ESTES

Inspector and chief of the Winter Park Fire Department are conducting investigations at the Winter Park Mall today to attempt to determine the cause of the inferno that swept through the southeastern section of the shopping center Sunday, gutting 12 stores and doing an estimated \$4 to \$6 million in damage.

The fire at the \$15 million dollar shopping complex is believed to be one of the worst in the history of Central Florida. Forty per cent of the huge, rambling less-than-five-year old center was damaged or destroyed in the blaze.

The Mall, biggest shopping plaza in the southeast United States at the time it opened for business in mid-1964, is located on U.S. 17-92 in Winter Park.

Winter Park Police Patrolman Tyler Copman discovered the blaze at 5:04 a.m. Sunday when he answered a burglar alarm set off by the fire in a jewelry store in the Mall.

The blaze was fought by six fire units from Winter Park, Maitland, Orlando and Kissimmee for more than six hours. The fire, smoldering for

GENTRY H. AKERS  
... To Employ 300

# Will Hire 300 Before Year's End

By JOHN A. SPOLSKI

The economy of Seminole County received still another jolt upwards with the announcement that Water Bonnet, Inc., of Orlando, will build a one-half-million-dollar plant in Casselberry, transferring its entire operation and personnel to the new site.

According to President Gentry H. Akers, "Construction should begin within a very short period of time and the 250 to 300 employees moved into their new quarters before the end of this year." Water Bonnet is a manufacturer of pleasure boat windshields and tops.

Akers gives a great deal of credit to Seminole Chamber of Commerce Manager John Kridler for aiding the firm in selecting Casselberry as its new site of operations.

Of no little importance was the announcement released on Friday to the effect Equity National Industries, Inc., an Atlanta based diversified holding company, announced that its board of directors elected Gentry to the position of vice president of the company.

Akers also will continue to serve as president of Water Bonnet, Inc.

In making the announcement, Charles H. Childs Jr., president of Equity National, stated that Akers would remain in Orlando until the change in plant sites, and would be involved primarily with the pleasure boat equipment operations of the holding company.

Equity National Industries, Inc., whose name was changed from Equity National Financial Corporation on March 11, 1968, has subsidiaries operating in the areas of life insurance, art crafts and art supplies, photography and pleasure boat equipment.

Specifically, these companies include Water Bonnet, Akers Marine of Orlando, Hewitt Studios, Inc., Atlanta; Cunningham Art Products, Inc., Stone Mountain, Ga., and Architects for the new plant.

Water Bonnet was founded 15 years ago by Akers and Winter Park.

CDR. KENNETH E. ENNEY will relieve Capt. George W. Kimmons as commander of Reconnaissance Attack Wing One, formerly at Sanford Naval Air Station. The change-of-command ceremony will take place May 9 at the Wing's new land base, Albany, Ga.

has since grown to the No. 1 rating in the entire industry for boat windshields and tops for both domestic and foreign boat manufacturers.

In 1968 Water Bonnet opened a plant at Casselberry for the production of tempered glass for use in its own products. The new plant will be adjacent to this plant site. This innovation adds improved strength and resistance to breakage to glass, and was initiated as a result of the emphasis on safety in the boating industry.

Architects for the new plant are Lopaska and McQuigg of Winter Park.

## Symphony Performs Tuesday

It's that time of the year! Groups of college students will invade Sanford rather than the beaches Tuesday evening when they will concert to provide lively entertainment for members of the Seminole County Mutual Concert Association as featured singers on the Florida Symphony's program, "Pops Goes to College."

Herman Herz will conduct the orchestra in a colorful and wide-ranging program at 8 p.m. at the Civic Center which will star the Station Concert Choir, the Valencia Singers and the Hollis Singers. Leonard Sarakatsanis will be the featured pianist for the first movement of Gershwin's Concerto in F.

Selections that run the gamut from Tchaikovsky to Gershwin, from Rodgers' "The Sound of Music" to Hamelin's "Music to Watch Girls By" promises to have the audience looking back to their carefree college days and singing with unabashed pleasure.

"Pops Goes to College" will be the sixth attraction of the current Mutual Concert Association's season. Later this month the Seminole Junior College Chorus will present a program for subscription holders as the seventh and last concert of this series.

## 4 Die In Traffic Mishaps

By TOM ALEXANDER

A grinding head on collision one mile south of Sanford on Highway 17-92 claimed Seminole County's fifth and sixth traffic fatalities early Saturday evening, as a car driven by Willie Lee Lynch, 37, of 441 Memorial Avenue, Maitland, collided with an auto being operated by Lucille S. Williamson, 50, of Route 1, Blue Ridge, Va.

A passenger in the Williamson vehicle, Mrs. Williamson's sister, Myrtle Powers, 51, of Vinton, Va., was killed instantly. Mrs. Williamson died after being taken to the Seminole Memorial Hospital.

Lynch was taken to Seminole Memorial and then transferred to Florida Sanitarium and Hospital in Orlando where he was listed in critical condition this morning in the intensive care unit.

Also injured in the crash were Mrs. Powers' son and daughter, Martha, 17, and Lennie, 14, also of Vinton. Martha Powers was treated at Seminole Memorial for minor injuries while Lennie Powers was rushed to Florida Sanitarium, and was listed in critical condition this morning in the hospital's ICU.

Trooper W. R. Smith Jr. who investigated the accident, told The Herald this morning that the Lynch vehicle was traveling north in the southbound lane of highway when it struck the Williamson auto. Smith said the Williamson's car was so damaged that he had difficulty in making out its model.

Gramkow Funeral Home in Sanford is in charge of local arrangements for Mrs. Williamson and Mrs. Powers.

A Seminole County teenager was killed Friday morning and her sister and another girl were injured, when Pat Papa, 16, of 114 Sherwood Drive, Altamonte Springs, in a 1967 Ford Mustang coupe, was traveling toward New Smyrna and attempted to pass a semi-trailer tractor truck. Althafter said that Miss Ellison, driver of the 1968 model foreigner car, was traveling toward New Smyrna and attempted to pass a semi-trailer tractor truck. Althafter said that Miss Ellison, driver of the 1968 model foreigner car, was traveling toward New Smyrna and attempted to pass a semi-trailer tractor truck. Valuable Protection Of Income Benefits

By CARLTON SMITH and RICHARD PUTNAM. The Harrison family, together, gave Ted Harrison the bad news. The income he had received in his auto accident would leave him with both legs and right arm paralyzed — totally disabled and, at age 28, with a promising career in the printing company ahead of him, now unable to work for the rest of his life.

"I wish I'd been killed in the accident," he bitterly told the doctor afterward. "I don't want to live like this. I would at least have collected some insurance. This way, she gets nothing but a helpless expense. Why didn't you let me die?"

It turned out to be not quite that bad because Ted Harrison, like most family breadwinners, was unaware that he was covered by some fairly liberal disability insurance — one of the lesser-known benefits of the Social Security program.

The Harrison family, for example, will receive for as long as Ted lives nearly \$200 a month as the disability income for which his earnings had qualified him. Any worker covered by Social Security, if totally disabled at whatever age, receives the same monthly income that he's got if he were 65 years old and retiring. The amount varies according to past earnings — and, to some extent, with age because the formula for calculating average earnings. The typical worker who has been earning the maximum subject to Social Security tax — it was raised to \$7,800 last year — would qualify at present for \$165 a month. But it can go up to \$218 a month for young men who have had a short history of maximum earnings. "Men in their early 20s, disabled in the Vietnam fighting, who have been drawing off-flow or top enlisted men's pay, are examples of those who will soon be getting the \$218 maximum payment," says Alfred Prandner, the New York representative for Social Security. "We have a number of such cases in this region."

That much life income is the equivalent of a substantial amount of commercial insurance. Given the life expectancy of a 22-year-old disabled worker or serviceman, it amounts to total payments of around \$277,000 and it would take about \$57,000 worth of life insurance to provide that much income from policy proceeds. Knowing that you have this kind of income protection available as a Social Security benefit can throw quite a different light on planning the family's insurance needs. Building on this base, the cost of providing adequate income in case of disability isn't nearly so formidable as it otherwise appears. At Ted Harrison's age, for example, about \$20 a year in additional insurance premiums, as the cost of disability-income riders on his life policies, could have given the family an income of about \$100 a week. Any planning of a family insurance program should be built on the base of Social Security benefits, which are far from being limited to old age. Young widows are surviving children, for example, can receive up to \$454 a month. Any well-trained insurance salesman can show the family how to determine the insurance potential of its benefits and plan a complete family protection program around them. As a beginning, get a report card from your local Social Security office that you can use to request a statement of your account. The report will show your average earnings, and from this you can determine exactly the income the

family would receive in case of death or disability. (Newspaper Enterprise Assn.)

# Hopes Are Spurred For Artificial Heart Patient

REBUILDING will be started almost immediately to reopen the Winter Park Mall completely after the disastrous \$4-6 million blaze which hit the huge shopping complex Easter Sunday morning. Her-

HOUSTON (AP) — Doctors were hopeful today that they had a heart donor for an artificial heart.  
Spokesmen at St. Luke's Episcopal Hospital said a patient was en route here who might provide a real heart for Haskell Karp, 47, living with a mechanical heart since Friday.  
The possible donor was scheduled to undergo evaluation tests upon arrival.  
Karp, who was able to drink water Sunday and was being fed intravenously, remained in satisfactory condition.  
But a hospital spokesman said, "The need for a heart donor for Mr. Karp remains urgent."  
Dr. Denton A. Cooley, who headed the three-hour operation, said the eight-ounce plastic heart as designed only to keep a patient alive until a human heart donor could be found.  
The mechanical heart was implanted in Karp's chest after surgeons determined that a severely damaged heart chamber could not be repaired.

### No Gerbils Wanted

SANTA FE, N.M. (AP) — "Beware of gerbils," says the New Mexico Department of Game and Fish. They could swamp the state.  
"The gerbil is a small, burrowing rodent, similar in many ways to a hamster," the latest Game and Fish news packet says. It explains that the little animals are sometimes sold as pets, but their sale in New Mexico is being forbidden.  
"Their native habitat is similar to many areas of New Mexico," said Bill Hays, chief of game management. "If released, they could no doubt survive and reproduce in the numbers that have made them pests elsewhere."  
Hays cited an account of how in the year 1878 a swarm of gerbils "totally destroyed all crops except an acre of about 6,000 square miles in one part of India by literally moving down the standing grain stalks."

### ACA To Hear Legislator

"Why Are We Losing Our Constitutional Freedoms?" will be the title of a speech to be given by U.S. Rep. William Chambliss at a special dinner meeting of the Sam Houston County Americans for Constitutional Action Tuesday evening at Chico's Hofbrauhaus.

Our thanks to the Sanford Herald and to Radio Station WTRR for their excellent coverage of this special drive.  
Gordon Meyer, President.

### Military Praise On War Efforts

WASHINGTON (AP) — Two former U.S. commanders in the Vietnam war said American escalation of the fighting was essential in preventing the fall of South Vietnam, but White House restraints ruled out a traditional military victory.  
In their 36-page "Report on the War in Vietnam," published today by the Pentagon, Gen. William C. Westmoreland and Adm. U. S. G. Sharp said their operations against Viet Cong and American effort from 1964 until

### Nixon Prodded By Congress

WASHINGTON (AP) — House Speaker John W. McCormack, D-Mass., prodded the Nixon administration today to speed up its recommendations to Congress.  
Emphasizing that he meant no criticism of Nixon, McCormack said in a statement that Congress and the new President "can best act by the executive expediting messages and reports as quickly as possible."  
Without mentioning criticism of Congress for having done little during its first three months in session, McCormack said that to state the legislative branch "has made fine progress."  
"As a practical matter," he said, "it is exceedingly difficult for the President to have to formulate a legislative program and timetable... until it has become a reality."  
McCormack's prod came on the heels of a weekend statement by Rep. Wilbur D. Mills.

### Nine Killed In Crash

COBBIN, Ky. (AP) — Eight members of a Williamsburg family were killed, and another critically injured, in a two-car collision Sunday night.  
William Ball, 41, a lay preacher, his wife, Vergene, 38, and children Daniel, 18; Mark, 14; Timothy, 12; Beverly, 9; Luke, 7; and Holly, 5, were killed. In critical condition at a Lexington hospital was 17-year-old Steven Ball.  
The driver of the other car, Carolyn Sue Falmer, 18, of Corbin, was killed also, in the crash on U.S. 25.

### Miss Beats Grandma

LONG BEACH, Calif. (AP) — Standing forlornly beside an automobile stalled just off the Pacific Coast highway stood, on different days: (1) A stepmother of 19 in a miniskirt and (2) A grandmotherly type of 73. It was a test of who does best among ladies in distress.  
Within three minutes after pretty Temie Jaco took up her position beside the car the first of a parade of males stopped to try to rescue her. Each time the scene was relented at a different location, she had an offer of assistance within three minutes.  
But 17 minutes went by before the first good Samaritan stopped for the older hitchhiker, Ula B. Scanlon.  
The Long Beach Independent Press-Telegram staged the test. A photographer lurking on the other side of the heavily traveled highway reported he got finger cramps from snapping pictures of males who wanted to help Miss Jaco.  
Her offers included one of a ride, "Anywhere."  
"They were all nice," she reported. "I think people are willing to get involved."  
A junior at California State College in Long Beach, she concluded that the miniskirt encouraged involvement.  
Mrs. Scanlon drew Sir Galahads, after the initial try, at an average of one every eight minutes. She said her would-be helpers were nice too.  
As to the comparative roadside fortunes, she offered this philosophical comment: "That's show business. The young ones have more to show than the old ones."

# Shooting Spree Probed

HARRISBURG, Pa. (AP) — Relatives say Donald Martin Lambricht, who staged a highway shooting spree in which four died and 17 were wounded, felt he was a victim of racial discrimination.  
An uncle said Lambricht, 31-year-old son of the Negro movie actor Sieppie Petrelli, had been diagnosed by a psychiatrist a year ago as suffering from violent or suicidal tendencies, but had refused treatment.  
"The whole black-white confrontation affected him very much," said the uncle, Howard Johnson, a sociologist in the New York City antipoverty program.  
In Cleveland, Lambricht's mother, Mrs. Winifred Lee, declared her son was "a victim of the racism that is abroad in this land."  
During his hour-long rampage on the Pennsylvania Turnpike Saturday, Lambricht killed Mr. and Mrs. Ignatius Keenan of Philadelphia, his wife and himself.  
Two of the wounded were in a Harrisburg hospital, which listed Vincent Saitta, 35, of Framingham, N.Y., as critical and

Ernest Stevens, 47, of Elkhart, Ind., as serious. Both were shot in the face.  
Lambricht was driving west on the turnpike about 10 a.m. Saturday when he began shooting.  
His 31-year-old wife, Annette, who was seated beside him, also in the car were at 300, 30-caliber semiautomatic rifle, a 30-caliber Remington-Union carbine, and several boxes of live ammunition which Mrs. Lambricht had bought in nine days earlier in St. Louis.  
Lambricht drove leisurely along the heavily traveled turnpike with a rifle cradled in his arms, taking random shots at passing cars.  
One of the shots struck and killed Keenan, who was taking his family to visit a son at Pennsylvania State University. When Keenan collapsed, his wife, Ruby, reached for the steering wheel and was killed by a second bullet. Their 13-year-old son, Paul, was cut by shattering glass.  
Lambricht pulled over to the roadside occasionally to fire at oncoming cars. About one mile east of Harrisburg, he made his final stop. He shot his wife in death, then took his own life.

# Thanks For Job Well Done

Editor, Herald: A very gracious "Thank You" goes to Mr. Jacob Best of the Melody Skating Club for again putting on a skating show with all proceeds going to the Heart Fund, and to Sheila Alberts, production manager, and to all of the boys and girls that worked so hard to make it the finest show ever.  
Our thanks to the Sanford Herald and to Radio Station WTRR for their excellent coverage of this special drive.  
Gordon Meyer, President.

### Grass Hopper

Editor, Herald: The Student Council of Hopper School and I thank you for letting us see the machines that make the "Grass Hopper." We enjoyed it very much. We have made our first edition of the "Grass Hopper," which is the name of our newspaper. We have enclosed with this letter the first edition of the "Grass Hopper." has the appearance of a professional job. Congratulations.

### Number Please

DES PLAINES, Ill. (AP) — General Telephone Directory Co. has received contracts to publish telephone directories in Singapore and Thailand.  
The Chinese and English-language directories will be printed year in Singapore.  
In Thailand, two directories will be published each year for Bangkok residents—one in Thai and the other in English. For the remainder of the country, Chinese and English-language directories will be published each year for Bangkok residents—one in Thai and the other in English. For the remainder of the country, Thai language only.

### Yankee Doodle

RENSSELAER, N.Y. (AP) — Fort Crails, built in 1700 as a manor house and fortress, is preserved as the place where the song "Yankee Doodle" was composed.

### Linda Was 'Linda'

NEW YORK (AP) — Linda Eastman, now Mrs. Paul McCartney, was the inspiration for the song "Linda."

### Military Praise On War Efforts

WASHINGTON (AP) — Two former U.S. commanders in the Vietnam war said American escalation of the fighting was essential in preventing the fall of South Vietnam, but White House restraints ruled out a traditional military victory.  
In their 36-page "Report on the War in Vietnam," published today by the Pentagon, Gen. William C. Westmoreland and Adm. U. S. G. Sharp said their operations against Viet Cong and American effort from 1964 until

### Nixon Prodded By Congress

WASHINGTON (AP) — House Speaker John W. McCormack, D-Mass., prodded the Nixon administration today to speed up its recommendations to Congress.  
Emphasizing that he meant no criticism of Nixon, McCormack said in a statement that Congress and the new President "can best act by the executive expediting messages and reports as quickly as possible."  
Without mentioning criticism of Congress for having done little during its first three months in session, McCormack said that to state the legislative branch "has made fine progress."  
"As a practical matter," he said, "it is exceedingly difficult for the President to have to formulate a legislative program and timetable... until it has become a reality."  
McCormack's prod came on the heels of a weekend statement by Rep. Wilbur D. Mills.

### Nine Killed In Crash

COBBIN, Ky. (AP) — Eight members of a Williamsburg family were killed, and another critically injured, in a two-car collision Sunday night.  
William Ball, 41, a lay preacher, his wife, Vergene, 38, and children Daniel, 18; Mark, 14; Timothy, 12; Beverly, 9; Luke, 7; and Holly, 5, were killed. In critical condition at a Lexington hospital was 17-year-old Steven Ball.  
The driver of the other car, Carolyn Sue Falmer, 18, of Corbin, was killed also, in the crash on U.S. 25.

### Miss Beats Grandma

LONG BEACH, Calif. (AP) — Standing forlornly beside an automobile stalled just off the Pacific Coast highway stood, on different days: (1) A stepmother of 19 in a miniskirt and (2) A grandmotherly type of 73. It was a test of who does best among ladies in distress.  
Within three minutes after pretty Temie Jaco took up her position beside the car the first of a parade of males stopped to try to rescue her. Each time the scene was relented at a different location, she had an offer of assistance within three minutes.  
But 17 minutes went by before the first good Samaritan stopped for the older hitchhiker, Ula B. Scanlon.  
The Long Beach Independent Press-Telegram staged the test. A photographer lurking on the other side of the heavily traveled highway reported he got finger cramps from snapping pictures of males who wanted to help Miss Jaco.  
Her offers included one of a ride, "Anywhere."  
"They were all nice," she reported. "I think people are willing to get involved."  
A junior at California State College in Long Beach, she concluded that the miniskirt encouraged involvement.  
Mrs. Scanlon drew Sir Galahads, after the initial try, at an average of one every eight minutes. She said her would-be helpers were nice too.  
As to the comparative roadside fortunes, she offered this philosophical comment: "That's show business. The young ones have more to show than the old ones."

Editorial Comment

Opening Of State Legislature Can Open Eyes

It will be well worth while for Floridians everywhere, and especially in Seminole County, to pay more than passing attention to the 1969 session of the State legislature as it convenes.

Without over-stressing the fact, this must be considered as historic. These legislators will carry the burden of spelling out in specific terms the meaning of the new state constitution which was adopted by popular vote last November.

Keeping the governor's office in mind, there is also the fact that there is now a lieutenant-governor who stepped into the office, created by the new constitution, being ushered in by the welcoming hand of Governor Kirk.

There is a novelty for Florida politics. The office itself has yet to be properly defined. In fact it was only a few days ago that the governor asked the legislature to formally put the lieutenant-governor in charge of a major state department and give him a vote in the cabinet which the governor is away.

Jacksonville's Day

Jacksonville's courage for tackling a new system of government employing consolidation now shines in the glow of praise which goes to it, we believe justly, by being named recipient of the All-America City Award.

It was last October when Jacksonville became the largest land area city in the United States with 827 square miles under a consolidated government.

Since then it has run into the sort of problems which attend any such bold step. Yet what was done then was reflected on April 4th when Frank S. Chatham, representing the National Municipal League and Thomas B. Shepard, publisher of Look Magazine, spoke at the award-giving event.

Mr. Shepard struck the basic note of congratulation. Aware of the challenge which confront all governmental structures today—especially the urban—these publishers chose to emphasize the boldness and the vision of this consolidation.

"Where newness is concerned," said he, "you have accomplished something so new that not many communities have the courage to try it." Words that can well be considered by our Sanford and Seminole commissioners.

Mr. Chatham, Savannah attorney, also placed the consolidation action in the realm of bold ideas translated into bold actions. The National Municipal League official spoke from intimate knowledge of a broad problem when he noted that the consolidation action had been taken following a period of crisis.

He praised its display of civic concern and responsibility and urged other cities to follow this example. The burden of the words from both key men, however, was that Jacksonville could not rest on its oars but would have to keep up its progressive pattern with even more courage and effectiveness in the years ahead.

We applaud these sentiments and the award!

Crane's Worry Clinic:

Fine Records Of Teen-agers

By GEORGE W. CRANE, Ph. D., M. D. CASE J-601: William P. Cooke is a former Ohio teacher and school board member.

There finalists came from all the 4 years of senior high, as follows: Freshmen, 19; Sophomores, 29; Juniors, 27; Seniors, 27.

H. L. Hunt Says:

Czechs And The Nuclear Treaty

Patriots are dismayed that the Senate has ratified the nuclear non-proliferation treaty.

Thoughts

"Let him who boasts, boast of the Lord." For it is not the man who commends himself that is accepted, but the man whom the Lord commends.

These young children get hooked every day on the cigar habit. (1,600,000 yearly!)

And here are some more data about these 93 elite teenagers:

Attend class ..... 81 5 7 Smoke ..... 0 89 4 Use alcohol ..... 1 85 7 Have dates ..... 22 29 42

Of the 29 who had never had a date, 3 were seniors; 6 were juniors; 9 were sophomores and 11 were freshmen.

Almost half of the entire group never had use of a car, and only had use of a car fairly regularly.

These data indicate the current behavior patterns of the cream of the crop of Ohio high schoolers who are tops in science.

It might make another interesting survey assignment for the class in high school psychology to contrast the dropouts with the honor stu-

that the constitution requires a maximum of only 25 state agencies be allowed. This steps on many toes, demands the utmost in wisdom and allows little leeway for the legislators.

The legislative process in regard to this issue alone will have a high hurdle to take. For the approach to restructuring of the executive can be either vertical or horizontal. The Senate sees one route as better than the one which evidently has House approval.

For the residents of Seminole County we believe that the bills, especially local, which are placed before the legislature for action and the manner in which each legislator votes will be one of the early indications of the understanding each has of the local problems of the cities and the county.

We do not believe that every local bill or every conviction of every local official is sacrosanct. But we do insist that local sentiments and local endeavors merit of experience should be honored.

Interpretive Report:

Nixon Putting On Brakes

By RICHARD WILSON WASHINGTON, D. C.—The Nixon administration is not in a mood to excite or startle the nation and we may just as well relax and enjoy this period of calm and consolidation.

Another factor outside Nixon's control is the state of public opinion. The next to continue the Vietnam War, and an accurate assessment of whether the public will demand more military pressure or less in the general frustration over the renewed fighting.

The ABM controversy has become more than just a congressional vote on a defense weapons system. It will test our public and congressional sentiment over a much wider range, including the continuation of the Vietnam War and the continued ability of the Defense Department to get what it wants to maintain an over-arching world-wide defense posture.

Just to relate this sounds pretty dull. But it is still a program, or an approach, of considerable significance. The inwardness of it is that Nixon is putting on the brakes as a positive act involving considerable political, economic, social and otherwise.

He is also holding the line in the Vietnam War, being to make the nation secure. The Nixon forces in Congress think they have this issue won but they admit that the outcome may be close.

Nixon's breaks on policy depend on several factors outside his control, leading among them to get a bare margin of support and all of them for a satisfying margin.

Global Comment:

Viets Can Shed Red Yoke

By RAY CROMLEY, Washington Correspondent. SEOUL, Korea (NEA)—One thing that may make the Com-

munist edgy in Vietnam to retreat with Kim's armies when they withdraw, destroying an underground of a strength that normally takes a decade or two to build over under favorable circumstances.

Because victory was so "sure," the Communist conquerors did not find it necessary to pretend friendship for the people.

They offered amnesty to anti-Communist officials who would surrender, then killed those men and women in open sight of the Communists.

They instituted a system of terrorism against those suspected of being against the new regime.

But what followed was worse. After Gen. MacArthur's Inchon landing, the Communist forces began their withdrawal to the north. As they retreated, in village after village, the Reds lined up the middle class—teachers, village elders and other local officials, farmers and fishery co-operative officers, police, merchants and all others of influence—along their neighbors—our teachers, killed those victims in 1950 and left them dead, sometimes buried in the trenches, sometimes not.

At the end, there was hardly a citizen of South Korea who did not have some relative killed by the Communists.

Victory seemed so certain for the Reds that almost all of the widespread Communist underground opposed itself and came forward in the name of the advancing armies. (Most of the activists were thus forced

Both sides are now looking upon this issue as a test vote not only on national security policies and the Vietnam War but on the extent to which Sen. Edward M. Kennedy can lead the political opposition to Nixon. Nixon may have to get more deeply involved personally if he is to win the crucial ABM fight and that will dramatize the opposite positions of Nixon and Kennedy.

This is a political risk tending to focus attention prematurely on a Kennedy challenge to Nixon for the presidency with Nixon barely settled in for a first term.

In other respect Nixon has taken a risk. He is implementing policies to slow down economic activity at the risk of creating a slightly higher unemployment rate.

The ABM controversy has become more than just a congressional vote on a defense weapons system. It will test our public and congressional sentiment over a much wider range, including the continuation of the Vietnam War and the continued ability of the Defense Department to get what it wants to maintain an over-arching world-wide defense posture.

Reds Ambush GIs, Kill 14

SAIGON (AP) — North Vietnamese infantrymen slashed into two groups of U.S. troops Sunday night, killing 14 Americans and wounding 8 in close-quarter fighting. Only three were known dead.

Fighting generally appeared to be at the lowest level since the enemy's spring offensive began six weeks ago.

Eleven Americans were killed and 13 were wounded in one fight about 100 miles northeast of Saigon.

Mortars slammed into a night bivouac of American paratroopers from the 173rd Airborne Brigade, defending the southern approaches to the provincial capital of Bao Loc.

The mortars pined down the defenders. North Vietnamese infantrymen drove to the barbed wire perimeter of the camp, hurling hand grenades and firing machine guns and rifles.

The paratroopers fought back and closed in helicopter gunships and troop reinforcements, who succeeded in driving off the

attackers after a 2 1/2-hour battle. North Vietnamese casualties were not known, spokesmen said.

The other engagement also lasting two hours, was in the Viet Cong War Zone C strong hold in northern Tay Ninh province, where thousands of American troops and machine guns are being used by the North Vietnamese.

At the height of the offensive, now in its seventh week, as many as 60 B-52s were flying daily raids north and northwest of the capital, most of them against Viet Cong and North Vietnamese troops near the Cambodian border.

Informants said Sunday these sorties have been reduced 50 per cent and the Strategic Air Command has shifted its main bombing campaign to the North Vietnamese supply lines through eastern Laos.

The population of Idaho is about 667,000.

It was the only action reported in the 3rd Corps Area that includes Saigon. Military spokesmen reported a notable drop in enemy activity there and said the threat to Saigon posed by Viet Cong divisions had eased.

Freighter, Barge Collide; 25 Lost

NEW ORLEANS (AP)—A ship is going to run into those barges. Then they collided, followed by an explosion.

The whole front end of the ship blew up into fire and smoke and you could hardly see the ship. The pilot house was burning in three or four minutes.

A radio operator on the freighter, Yu Fang Pan, 35, said he felt a "tremendous collision" and "I looked outside to see what happened, but there was fire and smoke all around."

Yu said he was rescued when a tugboat pulled alongside the ship after he had yelled out the porthole for help. He said at least one more crewman also climbed out through the port-

Harbor officials feared that barges and other ships along the wharves would be ignited by the oil fired fires.

"It looked bad," said E. S. Reed, acting port director. One ship was moved from the area and preparations were made to move others, but firefighters kept the sides of threatened vessels sprayed with foam and water and none caught fire.

"I heard an explosion and the whole sky lit up," said John Buola, 42, a bridge patrolman. Motorists on the bridge saw flames lapping up on both sides of the structure.

The river is three-fourths of a mile wide where the bridge spans it.

Buola was parked in his patrol cruiser on one of the bridge approaches. He and patrolman Ray Brown, in another car on the other side, rushed to the center span.

"There was a second explosion and the flames engulfed the center of the traffic deck," said Brewer. By then all cars had been cleared from this area.

About two hours after the collision the bridge, which connects New Orleans with West Bank suburban areas, was repaired.

The 23 crewmen in hospitals were reported suffering primarily from minor burns and smoke inhalation.

The collision was the second on the Mississippi River in four months involving a Nationalist Chinese freighter.

The freighter Helena and the Coast Guard cutter White Alder collided near New Orleans on Dec. 7, killing 17 crew-

men and the cutter.

# Jordan Pins Hopes For Peace On Big 4

BEIRUT, Lebanon (AP) — King Hussein, who has steered Jordan through 16 years of war and peril, is going to Washington this week to ask President Nixon to do all he can to smooth the course of the Big Four talks on the Middle East.

Hussein pins his hopes for peace on the talks that the United States, the Soviet Union, Britain and France opened in New York last week. The young monarch feels that continuing tension in his area can only serve Soviet purposes.

One of the most flexible and pro-Western of Arab leaders, Hussein rules an embattled land shorn of its richest province and overcrowded with embittered refugees.

Because of the refugees, Jordan has become the main base for thousands of Palestinian guerrillas who wage hit-and-run war against neighboring Israel. This has made the country the target for repeated retaliatory attacks.

In towns here and elsewhere, the guerrillas want to take over Jordan's problems.

The plucky, 34-year-old king has weathered plots and assassination attempts and has narrowly averted a showdown with the Arab guerrillas. But a showdown may still be inevitable.

The guerrillas do not interfere with the king's administration provided it does not hamper their activities. They run their own bases, military police, courts of drumhead justice, medical services and youth movements. They are virtual masters in the teeming camps that accommodate nearly half a million refugees in Jordan.

The Jordanian army frequently gives the guerrillas covering fire when the Israelis chase them back across the Jordan River.

Hussein has warned that should the United Nations fail to bring peace to the Middle East, "there will be no alternative but to take up arms—everyone of us will then become a commando."

In return for Israel's withdrawal from the occupied territories, Hussein is believed ready to make some adjustment in the borders his country had before the 1967 war.

# Nude-In A Bust; Crowd Unhappy

FORT LAUDERDALE, Fla. (AP) — Perhaps it was the advanced age of the young men, but there was no money for ball or legal fees. But whatever the reason, the Sexual Freedom League's "Nude-In A Bust" was called off for a nude-in-a-bust in the city of Fort Lauderdale.

The testimony was abundant. Cowd and his friends agreed that no one took off for a mass baring of flesh. But there were watchful eyes from Fort Lauderdale to Daytona Beach.

One refuted, partially sun-tanned girl did have a bikini top, but it was unintentional. She lost her dignity at the hands of several boisterous males who apparently decided to give the nude-in-a-bust a little shove.

# Thief Rates A Prayer At Easter

MIAMI (AP) — There was a special Easter service for a thief at St. John's Catholic Church Sunday, a service for the thief who robbed Sophia Larsen as she knelt in prayer in the church's sanctuary.

"We asked God to be merciful to this person," Larry Dies, a layman who led the 25-minute service, said in his prayer.

"It was a very small thing," the Rev. James Kiley said. "Just a few dollars and a pair of shoes. But it was a good thing for the guy that robbed her. It fits in very nicely with the story of the Good Samaritan, you know, the whole story of Christ's crucifixion."

It was an effort to show true Christian charity in terms of asking that God have some consideration for this person that did this thing," said Dies.

Two hands appeared from behind. One pointed a pistol at Dies and the other held a knife. Dies said he heard a voice behind him. The voice said: "Don't move, don't say anything, just sit quiet and still."

# TAMPA ADVERTISING CLUB

Scotty's Home Builders Supply, Winter Haven, has just received the Retailer of the Year Award for the first time in regular distinction from the Brand Names Foundation, New York, and also was honored, in tandem with Graphic Art Productions, Tampa, with the Tampa Advertising Club's coveted first place, best coordinated advertising campaign of the year "Addy Award."

"We believe those awards and our impressive 28.5 per cent sales increase over the last six months, are indicative of the positive effects gained from our new computer identity program," explained Jim Sweet, president.

Last fall, the firm's advertising manager, Dennis Stults, guided the then Home Builders Supply toward a total corporate "about-face," under the direction of Graphic Art Productions, Tampa, a MacGregor Advertising affiliate.

The company underwent a name change, Scotty's Home Builders Supply, introduced a new Scottish supply to match the name, adopted the slogan "Cash Buys More at Scotty's," created company colors, packaging, and labeling — and most importantly gained employee acceptance of their image innovations through sales training sessions.

Jim MacGregor, Graphic Art Productions' president, commented, "Stults and our organization set out to prove that a new corporate identity program doesn't take months.

# Scotty's Captures Retailer, Ad Awards

or years to produce an unyielding trend... and we did! And the successful program had another great advantage — the complete cooperation of company officials who were frightened in their approach to the image transition."

Founded 44 years ago by E. H. Sweet, chairman of the board, Scotty's Home Builders Supply is Florida's largest and fastest growing home building supply chain, with 20 statewide locations. A new Jacksonville store is scheduled to open in May, and two stores in the Orlando area will be completed by mid-summer.

# Slow But . . .

KATMANDU, Nepal (AP) — Nepal has what may perhaps be the world's slowest train. It leaves Jaynagar at noon and reaches Janakpur at four in the afternoon — a distance of 29 miles.

The train service is reported to be the only one in Nepal which makes a profit.

# Thousands Protest War

By THE ASSOCIATED PRESS

Protesters with stage groups ranging from crosses to the Congressional Record pulled off the antiwar demonstrations in four Florida cities Easter Sunday, but protests scheduled elsewhere in the state fizzled.

In Tampa, Hillsborough County Election Supervisor Jim Fair, appearing in red and white, flag-striped shorts, held court on the courthouse steps before 100 applauding demonstrators.

"The system is corrupt and twisted by big money. People are drug while the military industrial complex profits," said the heavily bearded official.

In Gainesville, several hundred University of Florida students and townspeople marched down University Avenue carrying 25 white crosses — in memory of the 23 Alachua County men who died in Vietnam.

Terminating the parade at the federal building, the marchers proceeded to slap together a mortar-and-brick, chimney-like structure in front of the government property. It contained 23 bricks.

Some 200 protesters in Alachua County soldier dies will place another brick on the monument," said James Pine, 29, a Florida student who coordinated the march.

"We're not here to honor the soldiers as war heroes, but as war victims," he added.

In Miami, 110 persons gathered in front of the Torch of Freedom Monument in a downtown park where they heard Robert Kunst, 26, chairman of the New party of Florida, criticize the war and the antiblastic missile system.

A heckler challenged Kunst: "Do you know what the ABM system is?"

He replied: "Yes, sir, it's a Edsel."

Fifty demonstrators, some of them carrying a streamer of 124 names, gathered in a downtown Los Angeles Sunday for an antiwar demonstration. The protesters in Miami, West Palm Beach and Tampa were called for by the New party, which also promised demonstrations in Orlando, St. Petersburg and Sarasota. None was reported in those cities.

More than 20,000 gathered in New York's Central Park Saturday in an orderly protest and set the tone for parades and rallies in other cities. The protests were organized by the National Action Coalition, made up of 12 antiwar groups.

The only violent incident came Sunday in San Francisco, where a peaceful parade of 10,000 to the Presidio army installation ended in a clash that injured 13 military policemen.

Seven MPs were treated for eye injuries after being sprayed with an unidentified liquid. Three others suffered chemical skin burns and three more were cut by thrown bottles. Police held three demonstrators.

The parade, which included

# 'Conservative' Legislature Convenes Tuesday

TALLAHASSEE, Fla. (AP) — Florida's 1969 Legislature, meeting for the first time in regular session under the new constitution, convenes here Tuesday facing budget problems, governmental reorganization and a racial demonstration.

State agencies, wondering how they'll fare under reorganization, are pressing legislators for more funds than were recommended by the Cabinet Budget Commission.

Despite this, Senate President John Mathews, D-Jacksonville, said he feels "it's going to be a fiscally conservative Legislature."

"I think that's the general attitude that I get in any general group of legislators," Mathews said.

Both houses convene at 11 a.m., at first separately for traditional reorganization. Then they get together in the House of Representatives chamber to hear Gov. Claude Kirk at noon.

Even as the lawmakers gather, Negro leaders plan to lead a demonstration on the Capitol building as a highlight to "days of confrontation" activities commemorating the anniversary of the assassination of Dr. Martin Luther King Jr.

Mathews and House Speaker Fred Schultz, D-Jacksonville, hope to get the job done in 60 days. Others say the task of reorganization and a new budget, plus other legislative business, will keep the session going longer.

Mathews predicted some of the major issues that will need legislation are crime, welfare, juvenile delinquency, conservation, consumer credit, tax exemptions, and local government.

"I look for a major drive for more constitutional revision dealing with Article 5 (judicial) and to lower the voting age," Mathews said. "The constitution now puts the voting age at 21, but many legislators favor 18."

TWO VIRGINIA women lost their lives in highway 17-92 at Sanford's south city limits. (Staff Photo)

# Balanced Budget Sought

TALLAHASSEE, Fla. (AP) — All figures so far indicate that the Legislature will have a balanced budget in 1969, but legislators still are trying to find a way to balance the budget without another major tax increase.

After a record tax increase last year, Gov. Claude Kirk and members of the Legislature have agreed that there is no need for another big boost.

But legislators will try to eliminate some expenditures and will probably increase some of the fees charged by state government in an effort to get enough money to go around.

The increase from 3 to 4 per cent in the state sales tax rate, put in on a temporary basis last year to raise money for education, is almost certain to be approved again this time on a permanent basis.

There also has been talk of a resort tax to fill the gap between the spending and income of the state's general fund.

A resort tax would raise an estimated \$25 million per year by adding a penny on each dollar spent in resort hotels, motels, bars and restaurants.

Polk informed that Steiner was apprehended by Casselberry police during the weekend. Steiner was charged with escape and a military hold had been placed on the fugitive.

# Damages Run Into Thousands

(Continued From Page 1) while making a patrol of the area and the vandalism was discovered.

Lyman damages consisted of drunks smashed, two typewriters smashed, a large globe destroyed, shelves poured over new books, books thrown on floor and appears set afire.

At Casselberry Elementary School, vandals opened lockers and threw books on floor. Deputy Willie Green was reported missing from the school and presumed taken in the break-in a tape recorder and tuner device for instruments.

House Speaker Fred Schultz said that if the bonds are not sold and the 1969 session is adjourned, the Legislature will have to raise the maximum interest rate to 6 or 6.5 per cent in an effort to find a buyer for the bonds.

Comparisons between figures recommended by the Cabinet Budget Commission and legislative groups are complicated by the fact that the Cabinet planned a two-year budget while the Legislature has started planning on an annual basis.

# 4 Die In Traffic Mishaps

(Continued From Page 1) hospital while Miss Ellison was listed as "some improved" but still in serious condition at Halifax Memorial Hospital in Daytona Beach this morning.

Seminole Funeral Home in Altonville Springs is in charge of funeral arrangements for Pat Pappas.

In another accident Saturday, the Sanford Police Department reported that Dennis J. Maxwell, 18, of 1239 Sierra Court, Daytona, was injured when the motorcycle he was riding was struck by an unknown driver who left the scene after hitting the victim.

Muselman was admitted to the Seminole Memorial Hospital and was reported in satisfactory condition this morning following surgery from cuts, abrasions, and a broken ankle.

The Sanford Police Department is continuing its investigation.

ROBERT C. GERRY RILEY, 50, of 18 E. Bay Street, Longwood, died Friday at Orlando Navy Hospital.

He was in Jacksonville, he came to Longwood 12 years ago upon retirement as an aviation technician with the U.S. Navy. He was a Baptist, was a member of the Sanford Yacht Club, president of the Seminole Investment Club, past treasurer of Seminole Democratic Association, a member of the Fellowship Class of Pinecrest Baptist Church, a member of American Society for Quality Control, and was employed by Dearborn Electronics in quality control.

Survivors are his wife, Mrs. Ann Riley and three sons, Kirk, Mark, and Don, all of Longwood, and his mother, Mrs. Maude Hurling, of Miramar.

Funeral and burial arrangements are under direction of Grankow Funeral Home.

MRS. CECILIA M. TONTRUP, 60, of 1205 S. Taylor St., died at 10:40 a.m. Sunday at Seminole Memorial Hospital.

Born Nov. 16, 1888, in Covington, Ky., she had lived in Sanford for the past eight months, making her home at 105 S. Sanford Drive.

She was a member of St. John's Lutheran Church of Coral Gables and of the Cincinnati, Ohio, Chapter of Daughters of America.

Survivors are a son, Jack W. Tontrup of Lake Park; two daughters, Mrs. Esther Morgan of Sanford and Mrs. Thelma DeGuis of Miami; six grandchildren, and one great-grandchild.

Funeral arrangements are under direction of Brissou Funeral Home.

MRS. NORA E. JOHNSON, 79, widow of Rev. James A. Johnson of Sanford, died Saturday morning at her home.

Born in Knoxville, Tenn., she came to Sanford 58 years ago. She was a member of the First Church of the Nazarene, Sanford.

Survivors are three sons, Alvin E., of Tallahassee, Herbert L., of Fredericktown, Mo., and J. Wesley of New Smyrna Beach; five daughters, Mrs. Helen Brown and Mrs. Pauline Brown, both of Sanford, Mrs. Ruth Harts, of Sanford, Mrs. Thelma Auld of Hattiesburg, Miss., and Mrs. Doris Jean Loutruff of Frankfort, Ind.; one brother, L. L. Keller of Lake Wales; and one grandchild, Mrs. M. L. Keller of Lake Wales.

Funeral and burial arrangements are under direction of Brissou Funeral Home.

Mrs. Helen Kessen, 71, of 108 S. Taylor St., died Saturday at Seminole Memorial Hospital.

Born in Loveland, Ohio, she came from Cincinnati to Sanford in 1957. She was a member of All Souls Catholic Church, Sanford.

Survivors are a son, Robert Joseph of Cincinnati, Charles E., of San Diego, Calif., and John Albert, of Sanford; four daughters, Mrs. June Gassman of Sanford, Mrs. Edna Mae Gorman of Lake Mary, Mrs. Virginia Dickman of Los Angeles, Calif., and Mrs. Ruth Clipping of Honolulu, Hawaii; a sister, Mrs. Mary Russell of Cincinnati; 26 grandchildren; and a niece, Mrs. Irene Brooks of Bellevue.

Funeral arrangements are under direction of Grankow Funeral Home.

MRS. NORA E. JOHNSON, 79, widow of Rev. James A. Johnson of Sanford, died Saturday morning at her home.

Born in Knoxville, Tenn., she came to Sanford 58 years ago. She was a member of the First Church of the Nazarene, Sanford.

Survivors are three sons, Alvin E., of Tallahassee, Herbert L., of Fredericktown, Mo., and J. Wesley of New Smyrna Beach; five daughters, Mrs. Helen Brown and Mrs. Pauline Brown, both of Sanford, Mrs. Ruth Harts, of Sanford, Mrs. Thelma Auld of Hattiesburg, Miss., and Mrs. Doris Jean Loutruff of Frankfort, Ind.; one brother, L. L. Keller of Lake Wales; and one grandchild, Mrs. M. L. Keller of Lake Wales.

Funeral and burial arrangements are under direction of Brissou Funeral Home.

# Drummond Bond OK

County Commission met in special session Saturday morning to approve the bond for new Commissioner Greg Drummond, who has been appointed by Gov. Claude Kirk to fill the seat of Robert Turp, resigned.

Drummond will participate officially in handling of county business at tomorrow's 9 a. m. meeting of the Commission.

Items on the agenda include three public hearings on requests for rezoning to multi-family dwelling district, hearing on a request to abandon certain rights-of-way and road improvement's report regarding speed limit on Red Bug Road.

# Escapée Captured

Seminole County Sheriff John E. Polk is again the custodian of Harry Charles Steiner, alias Charles Allen, who ran away from Polk after the sheriff had driven the youth to what he said was his home in Casselberry to obtain money to pay a petty larceny bond to avoid being kept in county jail until trial.

Polk informed that Steiner was apprehended by Casselberry police during the weekend. Steiner was charged with escape and a military hold had been placed on the fugitive.

Angel said today he would meet Dobbs' airplane and bring the government official here for a desegregation session with the School Board over six predominantly Negro schools which have been ordered by Dobbs to be paired with other existing schools, or zoned to eliminate the dual schooling of Negro students, which he says exists at Jackson Heights, Midway, Crooms High, Hopper, Goldsboro and Rosewood schools.

School Board is presently involved with Civil Rights Office over what is best method to bring about a unitary school system with no discrimination.

### From The Bench

By Tom Alexander

#### A LOOK OUTSIDE

Today is the first day of the 1969 baseball season for the major leagues. The traditional opening games are being held in Washington for the American League and Cincinnati for the National League. But is baseball the same game it always was?

I think not. Just like so many sports the All-American distinction is being lost. Why? There are many reasons. Football has captured the spectators sports scene. For one reason it is a contact sport, a little blood and guts. In baseball, especially at the local scene it appears that the only people interested in the game are the players themselves and their parents.

Baseball has also been suffering. No contact sports fans like to see a little bit of muscle. Yes, baseball and basketball are agile sports and the players have to be in top physical condition, but usually there is not too much contact until one of the players gets upset. Their victim?

In the professional field, to attract more interest the pro's have gone to a division system, dividing the league into four divisions. They have also put in fireworks that explode from the score boards and clowning running through the stands. They have even started giving away prizes. He thinks this will help to change, but America is changing and I doubt if baseball will ever be the same. It seems a shame, doesn't it?

★ ★ ★ ★ ★  
Basking on the baseball scene for a moment, Seminole Junior College center Jay Bergman has his eyes on two local players. Both of the athletes play for Seminole High. The one he is watching these two players for the past two seasons, and he has his doubts as to whether Bergman would like to land Steve Shumaker and Skipper Senkariak.

Shumaker was Seminole's leading batter last year, winning game after game and taking the Seminoles to the runner-up spot in Class in the Sunshine State. This year the little batter has had his troubles since he pulled a muscle in his arm, but this is not deterring Bergman. Shumaker's brother Carl has played for the Raiders for the past two seasons and Bergman believes that this brother combination is one of the finest ever to come from the area. Bergman also feels that Shumaker will have an outstanding chance with the growing SJC demand him to show his pitching chores for the Sanford baseball team. Bergman says Senkariak would be a fine asset to add to the Raider roster, and believes that the senior player would have a great opportunity playing for SJC as far as reaching the majors goes.

STEVE SHUMAKER SKIPPER SENKARIK

Shumaker was Seminole's leading batter last year, winning game after game and taking the Seminoles to the runner-up spot in Class in the Sunshine State. This year the little batter has had his troubles since he pulled a muscle in his arm, but this is not deterring Bergman. Shumaker's brother Carl has played for the Raiders for the past two seasons and Bergman believes that this brother combination is one of the finest ever to come from the area. Bergman also feels that Shumaker will have an outstanding chance with the growing SJC demand him to show his pitching chores for the Sanford baseball team. Bergman says Senkariak would be a fine asset to add to the Raider roster, and believes that the senior player would have a great opportunity playing for SJC as far as reaching the majors goes.

Take for instance the Raiders opening game this season. There were no less than 12 major league overtures made and these came from following the team throughout the season. Another big opportunity for any ball player is furthering his education. Like I heard Don Jones, quarterback of the champion Raiders, has a scholarship to attend a college in any sport today unless you have that college brain-power. Jones also pointed out that you improve when you play a college sport, and if the seniors want you high school, they will want you even more after you get out of college.

JAY BERGMAN VERNELL ELLIY

Seminole Junior College star Vernell Elliy added another ribbon to his collection Saturday night, as he was named by the Orlando Amateur Athletic Union for being the best college basketball player in Central Florida. This was the second year running that the Big "V" received the honor. This year Elliy was probably the most sought after junior college player in the state and an announcement is expected within the next few weeks as to where he should play next year. Top contenders appear to be Pitt, South Carolina State, and Western.

★ ★ ★ ★ ★  
Hats off to Harry Smith of the Sanford Recreation Department for the job he did last week during the Little League events. The new recreation assistant had no less than 160 prospects trying out at the P. Mellon Park.

Coming up now are the Pre-War, Junior and Senior League events and I am sure that he will have the same type of results.

It is really good to see the kids turnout in the Sanborn they did last week. It really shows your faith in the kids when they show this type of attitude. Now I hope each one of them turns into a Babe Ruth or Mickey Mantle in their own respective way.

## Seminole Stroke By Clermont

By DON WHITMAN

Herald Sports Staff

The Seminole High School golf team closed out its regular season last week by defeating the Clermont golf team. The aggregate score was 167 for the Seminoles and 174 for the team from Clermont. The entire SBS team was surprised when the Clermont squad arrived at Mayfair Country Club and their coach turned out to be none other than Wayne Dope, one of Dr. A. W. Dope's sons.

The Clermont team had been undefeated in their previous matches. The Seminoles' victory effort, captured the street by the Clermont High School golf team.

Low scores were by the Seminoles, as Herber Spyle, a last minute replacement for an ailing player, tossed home with an excellent two over par 88 on the front side at Mayfair. His round included one birdie and three bogeys. After missing the fourth hole, Spyle rolled home with steady even par golf.

Second low honors were accorded to team captain Bill Smith and Bubba Park as each carried an identical 41.

In a secondary squad match last week the Bishop Moore horrids defeated the SEB footmen.

With the season now over as far as regular competition goes, the Seminole four will now concentrate all their energies on the upcoming group meet to be played in Ocala. The course all the teams in the district will be trying to last about 7,000 yards long and should prove to be a tough test of the golfer's ability.

Last year, the group tournament was held at the Floridan Country Club and the Seminole's captain, Bill Smith, carried a three over par 75 for low individual honor. The Seminoles as a team placed fifth.

The four members of the Seminole golf team journeyed out to make the group meet at the 18th green, Bunn Park, Skip Dalton, and Don Whitman. Mike Lacey, one of the sophomore members of the team, has been named to the alternate spot.

Statistics: - Ryan—38, Smith—41, Dalton—42, Lacey—43, Harmon—41, Madra—41, Bergman—47.

## TROPHY TIME

By Alan Mover

THE STANLEY CUP—FOR WHICH THE NHL PLAYOFFS ARE NOW BEING CONTESTED IS NOT ONLY ONE OF THE WORLD HOCKEY CHAMPIONSHIPS BUT ALSO OF INFLUENCE, THE TROPHY IS THE MOST VALUABLE OF ALL. IT COSTS ABOUT \$150 PER YEAR TO ENGRAVE THE NAMES ON IT. THE TROPHY IS 18 INCHES HIGH AND WEIGH 35 POUNDS.

RICHARD... WHO HAS ONE OF HIS WINNING TEAMS... RECORD FOR GREAT PLAYOFF GOALS... IN ONE GAME.

## SHS Swimmers Split Tank Meet

By SCOTT KIRK

The Seminole High boys' swim team, although led by the powerful one-two punch of Bill Parker and Matt Morgan, couldn't seem to pull the meet from the first. The two teams, East and Sanford, were tied at the end of the meet to the last event. However, a speedy Commodore 400 yard swim took the final event and the boys fell to defeat, 50-45.

Rita Simas and Marjorie Smith were the lady winners in the 100 yard freestyle. Simas set a new school record in diving competition and first in the 100 yard freestyle. In his meet effort but to no avail.

Coach Greg Boyles complimented his team's effort after the meet. "I'm satisfied with my team's effort, the best really good 100 per cent."

The man who laughs in a New York (N.Y.) production. "Twenty minutes or so after the start of the 1969 State Tournament champion will walk smiling into the press box near the Augusta National gold course.

Another prediction: Two are better together in a slightly overweight, have gray hair and will have signed his name, "Billy Beas, Lion, Mr. Golf..."

## Montreal Tips Rangers In NHL Div. Playoffs

By HAL ROCK

Associated Press Staff - NEW YORK (AP) - Claude Ruel, the rookie coach who led Montreal to the National Hockey League's East Division championship and then a four-straight sweep over New York in the East Division Stanley Cup semifinals, has a plan for the Canadiens' next Cup battle—the Boston Bruins.

"We will play the same way we have all season," said Ruel, preparing freely in the stadium. "The Bruins are a very good team. We will play the same way we have all season."

But what about the body work and muscle hockey that has made the Bruins the scourge of the NHL. What will Ruel do about that? "We'll play our style and let them play theirs," he replied. "The Bruins are a very good team. We will play the same way we have all season."

Coach Jim Payne's Hawks hosted the visiting Southwesterners in the first game of the season last Saturday evening. The Hawks were there and then some against the Rangers. "They are" noted Emile Francis, New York's coach and general manager. "A pretty good team."

DeLand SW Flutters By Hound 9. By RON PAGE. DeLand Southwesters Elgin School snuffed out hopes for a Lynx victory in their 10th game of the season last Saturday evening.

Only One Madison, Wis. (AP) - Only one man was able to crack the standings of the 86th annual American Bowling Congress tournament Thursday as none of the amateurs was really hot.
