Headline: Townsmites Alter Name to 'Recovery Plan'

Henry Ford says that animals on a farm are no longer necessary. But who wants a farm without animals?

We see where Col. Lindbergh is heading. He is going to the East to see Hitler. We hope he tells him what we think of him.

Mussolini has ordered a bonus of \$16 paid to all Italian soldiers who served in Ethiopia. His troubles are beginning.

Governor Landon is understood to be very particular about the color of his residence. Of course, he prefers a white house.

We read that Nicaragua has balanced its budget. But Nicaragua is a rather backward country.

Of course, it is too soon to brag too much, but if most northern cities could boast the kind of weather we've had so far this summer, they'd be advertising themselves as summer resorts.

The Democrats want to change the Constitution. The Republican advocates a constitutional amendment.

The Tampa Tribune points out that during the past six months alone, the Pardon Board has released 474 prisoners from Rikers Island.

England proposes to manufacture a gas mask for every man, woman and child in the country, to be kept in storage by the government.

According to Robert L. Newman, secretary of the Florida Taxpayers' Association, out of every dollar a man makes in this state, on the average, he has to give half of it to the government.

What's wrong with this picture? When Ruth Miller, the bridegroom's sister, became his brother-in-law, she was the bride.

A Lesson To Fathers

The conviction of C. C. Gracey in Circuit Court Wednesday for complicity in the slaying of Odell Bumbalough was not only a remarkable victory for the State and a triumph for justice, but it should also serve as a valuable lesson to mothers and fathers who are inclined to take too lightly the burdens of parental responsibility.

Virgil Gracey had already had a number of altercations with the Bumbalough boy. While it is not known what particularly aroused the antagonism between the two boys, it is certain that the father did nothing to discourage the friction or to teach his son the wisdom of avoiding such difficulties.

Upon the occasion of the slaying, the Gracys, both father and son, were together when the Bumbalough boy approached. We are not concerned here with who started the row, who struck the first blow, or whether the Bumbalough boy used, or even had, a knife.

Witnesses testified that the father actually encouraged his son in making the attack; an attack which in no sense of the word was a fair fight with bare fists, but was conducted with the aid of a murderous screwjack handle.

A single word from the father should have been sufficient to have ended the affair then and there. But instead of warning his son to go slow, or otherwise calling him off, the elder Gracey shouted, "Kill him! If you don't, I will!"

Virgil carried out his father's instructions and struck the Bumbalough boy over the head with the screwjack handle, killing him. Then the father, hoping to escape any penalty for his part in the affair, allowed his own son to plead guilty to a manslaughter charge in a futile attempt to let the boy take the rap for him.

It is an amazing and shameful story. One finds it hard to believe that it could happen here. But Seminole County citizens are to be congratulated that such dereliction is not to escape unpunished.

Traffic Rules

With the opening of the new \$65,000,000 Triborough Bridge in New York, booklets were distributed to drivers of those vehicles passing over the bridge containing certain rules and regulations looking to the prevention of accidents.

Dangerous or Unsafe Vehicles—Vehicles which are loaded in such a manner or with such materials or which are so constructed, operated or equipped as to be likely to endanger persons or property, or which are likely to render the use of vehicular crossings unsafe, shall not be allowed in or upon vehicular crossings.

(a) Vehicles with persons standing on the outside thereof, or trucks with persons sitting on the rear with feet dangling.

(b) Vehicles having flat tires.

(c) Vehicles in charge of incompetent or intoxicated operators.

(d) Pushcarts, wheelbarrows, velocipedes and similar vehicles.

(e) Self-propelled vehicles or trailers with metal tires, including steam rollers.

(f) Vehicles loaded with garbage, loose hay, straw or similar material not efficiently covered.

(g) Vehicles loaded with animals or poultry not properly confined.

(h) Vehicles overloaded to such an extent that the means of propulsion are insufficient.

(i) Vehicles with inadequate brakes.

(j) Other vehicles which in the judgment of the superintendent are likely to endanger persons or property, or to render the use of vehicular crossings unsafe.

Slow Moving Vehicles: No unusually slow moving vehicles, and no vehicles which, for any other reason, are likely to cause undue delay or interference with traffic, shall be permitted on vehicular crossings, except at such times and under such circumstances that no undue delay to traffic will result.

Buses: In addition to the vehicles mentioned in Section 1 of this article, buses with passengers standing between the driver and the front entrance door or so located as to obstruct the view of driver both front and/or sides will not be permitted upon bridges.

SANFORD TWENTY YEARS AGO

LONDON, July 17.—The heavy fighting that has been going on in the region of the Somme has dropped in intensity. Calm reigns on the French line while heavy bombardments occurred on the British front in the Verdun region, and southwest of Tancourt, the French have captured German positions. In the area around Lutch in the eastern front, the Russians have received vigorous attacks every attack. No communications have come through from the Carpathian region, but Petrograd reports the capture of Balkent in Turkish Armenia, from the Turks. From Rome come reports that the Italians are still making headway against the Austrians.

The Standard Board of Trade advised all with a long and a spirit of co-operation, that has never before been witnessed in Sanford. With a full membership of 25, a determined effort will be made to obtain an opinion every week, and a determination will be made to obtain an opinion every week, and a determination will be made to obtain an opinion every week.

Mr. Hamilton defies Bonnie Prince Parley to name six states that the Democrats are certain to carry. Mr. Hamilton doesn't think that it's true even when Mr. P. says about Dixie—F. W. A. in New York Herald Tribune.

What the Governor of South Carolina said to the Governor of North Carolina is a whole lot less important than what an ex-Governor of New York recently said to the present Governor of New York.—Manchester Union.

Seed Bed Safety

If you build your seed bed with TOBACCO DUST with all the NICOTINE and you think you will have plenty of good, HEALTHY plants, you are only an idiot.

A. J. CAYNE CO., INC.

He Never Fails!

TIME FOR THINKING

When the Supreme Court of the United States ruled that the N. R. A. was unconstitutional, the decision contained this paragraph: It is not the province of the Court to consider the economic advantages or disadvantages of such a centralized system. It is sufficient to say that the Federal Constitution does not provide for it.

In other words, if the people of the United States desire to have a centralized system of government, all they need do is to write into the Federal Constitution an amendment that withdraws the present state rights, and places them under the control of the federal government in Washington.

President Roosevelt desires a centralized government. All major problems, he classes as national problems. His idea is to handle them from the national capital. By bureaus of various kinds, these problems can be handled by some plan similar to the N. R. A. Business and industry can be placed in one great regiment, with each unit directly answerable to the officials in that part of the organization.

The Times is trying to state this plainly. Every man and woman in the United States who can read the newspapers should be getting the situation clearly. They should be studying the history of the last three years, not from the selfish viewpoint of whether or not the years have brought them prosperity or destitution. They should be studying them as indicative of the new course mapped out for the government of the United States.

And they should make up their minds which they want, government from Washington, or government from their own state. Many men of great mental ability, and great knowledge of economics sincerely believe that the

government chosen by the people of the Federal Constitution has been destroyed. Many of our brilliant men are convinced that the time has come for a new centralization of power in the hands of the nation. They believe that the emergency measures undertaken by Mr. Roosevelt and his advisors should be made the basis of a permanent handling of the nation's government.

The experiments of the last three years, the enormous spending of the people's money, the regimentation of the nation's business concerns, the New Deal in all its phases, are not something to be used as political fuel for party hot-broth. They are to be used by thinking people in the privacy of their own free minds as subject matter for serious decisions.

If the thinking man believes the time has come for a change from state government to a centralized federal government, then he can endorse the New Deal, and urge its continuance. The Democratic party, so far as the party was represented by its delegates at Philadelphia has given that endorsement. The point to decide in all honesty is what the reader of these words endorses. The free man is entitled to free thoughts, free speech, free action. The honest man is true to his convictions.

## Neighborliness To Attend Meet Of U.S., Canada

### President To Visit Canadian Governor Late This Month

WASHINGTON, July 17.—(AP)—Neighborliness, in a double sense, will attend the meeting July 31 in Quebec of President Roosevelt and Lord Tweedsmuir, governor general of Canada.

They direct the governments of adjoining nations whose relations for decades have been of the friendliest. In addition, the President has a summer home on Campobello Island, New Brunswick, a few hundred yards over the Canadian border. There he actually is neighbor to the governor general's people.

As governor of New York, Mr. Roosevelt twice visited the Dominion during yachting trips that took him into Canadian waters. Since becoming President he has visited Canada once, informally, in the summer of 1933 he cruised to Campobello and stayed almost a week.

The President's and governor general's respective governments frequently have been referred to as examples of good neighbors in international relations. The President himself has spoken in that vein.

Not since the Civil War, when the United States abrogated its commercial treaty with Canada, has there been a serious dispute between the two countries. Their common border is called the world's longest unarmed international boundary.

Canada is the second largest customer for exports from the United States, and the United States is the second largest market for Canada's exports.

## Townsendites Ban Politics At Conclave

(Continued from page one)

organization non-partisan. Lemke will address the convention Sunday and it was argued that the Townsend convention could lay no claim to being non-partisan if other candidates were not invited, too.

A fight that has been brewing for three days broke out on the floor of the convention toward evening when Gomer Smith, defeated senatorial candidate from Oklahoma, came to the platform, to make a blistering attack on another Smith—the Rev. Gerald L. K. Smith, who recently was elected to the Townsend board of directors.

He also lashed away at Coughlin. Gerald Smith is carrying on Huey P. Long's share-of-wealth movement and many old-line Townsendites resent the fact that he has moved to such a place of eminence in their organization in such a short time.

Dr. Townsend announced last night he would ask his board of directors to expel Gomer Smith. Gomer Smith charged that Coughlin and Gerald Smith's attacks had caused some Townsend clubs to tear up their charters and say "Take the Townsend Plan and go to hell."

Only Earl Browder, communist presidential candidate, was ignored in the attempt on the part of the delegates to repent and forget the pitch of enthusiasm to which Coughlin carried them yesterday with his attack on President Roosevelt, Governor Landon and Browder as "an unholy trinity."

So the delegates still are Republicans, Democrats or anything else they want to be. But Townsend plumped to Lemke yesterday, apparently irrevocably.

## SEEK EXTRADITION

TALLAHASSEE, July 17.—(AP)—Governor Sholtz's office sent a request yesterday to Gov. Eugene Talmadge of Georgia for the extradition of two alleged fugitives from Florida. The men listed as Grady DeLoach, charged with desertion and non-support and Kibee Cowart, accused of receiving and concealing stolen property.

He did so after a conference with Coughlin and Gerald Smith. They formed some sort of loose, informal alliance. No document sealed their pact; no pledge was taken. They simply shook hands and agreed to work for Lemke.

The practical result of it will be that Townsend, Coughlin, Smith and Lemke probably will take the stump together. Plans are being made for them to appear in New Orleans, Philadelphia and Kansas City in behalf of Lemke.

Father Coughlin's and the Rev. Mr. Smith's march on the Townsend convention was the most dramatic event of yesterday.

Trump, tramp, tramp, came Smith and Coughlin down the center aisle, their arms linked. A tall, powerful sergeant-at-arms moved ahead of them, but he was not needed. Crowds fell back out of the aisle and on and on came these two men who started their careers in churches and then spread their influence beyond cloistered walls into the market places and the halls of public debate. They were in perfect step—mentally and physically. On the edge of the platform stood Townsend with a welcoming smile on his lips.

Trump, tramp, tramp, went the feet of Smith and Coughlin and now they were directly in front of the platform. They wheeled to the right, marched on to the stage and walked up to Townsend. There they stood—three men who rose out the despair of the depression.

Miss Elizabeth Turner has returned from Gelmer, Texas, where she has been visiting for a month with Mr. and Mrs. J. T. Whitener. While in Texas, Miss Turner also visited in Gladewater and attend the Texas Centennial Exposition.

Rodman Lehman of Winter Park, son of Mr. and Mrs. H. J. Lehman of this city, has returned from Kansas City where he attended the first international conference of DeMolay and the first grand preceptory of the Legion of honor.

### Droughts Cover U. S. Continent For Untold Years

#### Science Reads Story In Trees Of Areas Hit By Aridness

WASHINGTON, July 17.—(AP)—Droughts, if science reads correctly the records on the trees, have been scourging American for untold centuries.

From 1839 through 1934, records of the U. S. geological survey show, there have been 10 major droughts, affecting, at one time or another, all but one state in the union—Vermont.

But six centuries ago, tree rings show, Pueblo Indians abandoned a settlement of 40 villages in the Chaco canyon area of New Mexico because of a 23-year drought.

A pine forest flourished in the canyon 700 years ago, according to this evidence. Today the region is semi-arid, a treeless waste in which agriculture is almost impossible.

The same story, in greater detail, is told by rainfall records since 1890 kept by the Weather Bureau and geological survey. Ten times during this half century, roughly, considerable areas have suffered moisture deficiencies of at least 15 percent below mean annual precipitation.

Kansas and North and South Dakota, hit by seven of the 10 major droughts, have experienced water shortages most frequently. The drought of 1934 extended over 75 percent of the nation's

The board gave to Paul Campbell a \$1,029 contract to erect a new school lunch room in Oviedo. Bids to paint the gymnasium in that town were rejected because they were in excess of the budget.

It was voted to receive bids on July 27 to re-roof a portion of the Lyman school at Longwood. The body also recommended the purchase of a bus to be county owned and operated on the Lake Mary route.

Bids on the Altamonte negro transportation system were referred to the local board with power to act.

I. L. Talbot was awarded the contract to paint the Wilson school in Paola at a cost of \$192. Bids on the same building's roof repairing were read but action deferred.

Those attending yesterday's session were Fred R. Williams, chairman of the county board, L. E. Jordan, member, T. W. Lawton, county superintendent, and Elton J. Moughon, architect. The Sanford local board was represented by W. M. Haynes, Mrs. M. W. Morgan and R. B. Chapman.

### Asks To Eliminate Licenses For Beer

DAYTONA BEACH, July 17.—(AP)—Charles J. Reeves, Jr., president of the Florida Association of Liquor Dealers, charged Wednesday some 25 percent of business places license to sell beer and wine are bootlegging whiskey.

He said the Dealers' Association meeting here Wednesday, will recommend to the 1937 Legislature a bill to eliminate the licensing of beer and wine vendors unless they have license to sell liquor.

# Lookouts Drop 11-Inning Contest To Reds, 4-3

## Locals Blast 11 Safe Blows But Fail In Pinches

### Medler And Wilson Allow Reds Only Seven Good Hits

By JULIAN STENSTROM  
 DELAND, July 17.—Sanford lost a typical one-run game to the Reds yesterday afternoon by the count of 4 to 3. Although the Reds were out-hit, 11 to 7, they bunched two hits and a walk in the eleventh inning to push over the deciding marker.

Herman Medler relieved Jack Wilson with two out in the fifth frame and received the blame for the loss. Wilson hurled three hit baseball up to that time but

The Daytona Beach Islanders will play Sanford's Lookouts at Municipal Athletic Field tomorrow.

wildness dimmed his effectiveness. Wilson walked seven men during his stay on the mound.

Medler allowed the Reds only four blows during the remainder of the game and two of them came in the eleventh when the Reds launched their attack.

The Lookouts scored the first run in the fourth frame when Eddie Davis doubled to the left-center field fence, went to third on an outfield fly and scored on an infield out.

The Reds came back in their half of the fourth to tally one. Bolling singled and stole second after an infield out, Roberson walked, and Falconi singled to right to score Bolling.

The Reds tallied again in the fifth as a result of three bases on balls, three stolen bases, and two infield outs. Dridrickson was issued a free pass and went to second on an infield by Welsh, Bolling flied out to Clary at short, Holdstock walked as Dridrickson stole third, trying to break up a double steal. Bill Cates, catching for Joe Blistrud who is out with a bad shoulder, threw the ball over "Shorty" Maltby's head to let Dridrickson score and Holdstock go to third.

The Lookouts came back in the sixth frame to tie the score when Eddie Davis potted his second double of the day. Torres popped out to Dridrickson, and then Cates singled to left to advance Davis to third. Overstreet singled to center to score Davis. Duncan hit into a double play to end the inning.

The Reds hit a stride in the eleventh inning to win the game. McMullen singled to left. Dridrickson slapped a short one out to center field and Troy Duncan made one of the most spectacular catches ever made at Conrad Park. Welsh was issued a base on balls which was disliked by the large number of Sanford fans. Bolling then sent out a long single to left center to score McMullen and Welsh to end the game.

## Palatka Annexes Doubleheader At Saints' Expense

### Takes Opener, 7 To 3, Wins Last Fray By Count Of 5 To 3

PALATKA, July 17.—Palatka won both games of a doubleheader for the Saints here yesterday to go half a game ahead of their Ancient City rivals who were humbled, 7-3, in the opener and 5-3 in the afterpiece.

Joe Sparkman limited the Saints to six hits in the first tilt while fanning eight and walking but one opponent. St. Johnson tallied the regulation distance for the visitors and was nipped for an even dozen wallops, including George Andrews' home run in the first frame, which came with Casular on second.

Zupanik, with two singles, was the only Saint to connect safely twice off Sparkman while Casular, Andrews, Smith and Junonville each collared a brace of hits off Johnson. Masale also collected a triple.

Skippy McGowan essayed the mound role for the Saints in the nightcap but was yanked in the fourth stanza after being nipped for 4 hits and a like number of runs. He walked five while on the slab. Frank Venle finished the tilt for the Saints and was touched for three blows and one run while on the hillcock.

Bill Gould worked the seven inning finale for the Azaleas and allowed seven blows. Poor support in the sixth inning allowed one St. Augustine run and found the bases populated when the frame was over. The first two Saint markers came in the second on Zupanik's single and successive doubles by Davis and Owens.

Three walks, sacrifice, infield out and Masale's single gave the Azaleas three runs in the first stanza. Three singles brought another across in the fourth and the final tally came in the sixth with a pair of singles and an infield out.

McNeill Arrives At Eastern Quarters

NEW YORK, July 17.—(AP)—Don McNeill of Oklahoma City, the 18-year-old Keayon College freshman who has surprised the eastern tennis world by his "iron man" feats in two tournaments, reached the quarter-final round of the Eastern men's clay court championships yesterday by defeating Simon Miller of New York, 6-1, 12-11.

Before his marathon match with Miller, McNeill had won both singles and doubles matches in the Eastern Junior championship at Forest Hills. Then he and his partner, Mory Lewis of Texarkana, Ark., started a fourth match. They won one set in the doubles from Christian Emt, Stony Brook, L. I., and Harry Pagel, New York, 6-3, before darkness finally halted them.

## Louis' Scans Baer As Testing Horse In Comeback Try

CHICAGO, July 17.—(AP)—Joe Louis wants to start his comeback campaign in September with Max Baer as his opponent and Soldiers Field, Chicago, as the proving ground.

The co-managers of the brown bomber, Julian Black and John Roxborough, definitely made this decision today. They urged Mike Jacobs, head of the Twentieth Century Sporting Club, to capture Baer if possible. If the match is made, they want the same promotional set-up which handled the Louis-Levinsky fight in Comiskey Park last September.

Joe Foley of Chicago, in cooperation with Jacobs, was the promoter. That fiasco, with Levinsky surrendering in the first round, drew 39,000 spectators with gross receipts of \$214,000.

Louis' managers have decided that they do not want Max Schmeling, after all, to start the brown bomber's comeback. Black explained there is a bit of psychology in connection with this decision.

Baer roared out of retirement shouting defiance at Louis, no sooner than Schmeling had knocked out the negro heavyweight in 12 rounds. Since then, however, the Livymer adonis has been neglecting his Louis intelligence corps, and little has been heard from him.

## Perry Exhibits Court Poweress

Fred Perry, English champion, opened the series with a 7-6, 6-4, 6-3 triumph over Bryan (Bitsy) Grant of Atlanta while red-headed, Oakland Calif., Donald Evedge, the series by defeating H. Wilfred (Bunny) Austin, 2-3, 6-0, 7-5, 9-7.

Doubles will be played today and two singles on Monday. The series is played just like Davis Cup competition.

## Helen Wills Moody Shows Fine Form; Silent On Plans

SAN FRANCISCO, July 17.—(AP)—Helen Wills Moody, still silent on her national championship tournament plans, is playing center court today to win the All-English title last year, her practice partner, Howard Kinsey, said yesterday.

"She has more speed, a harder serve and more confidence," said Kinsey, who has played once or more a week with the San Francisco matron. "Mrs. Moody is quicker on her feet. 'Drop shots' do not bother her as much. Once she was weak in this department. Now she anticipates the shots more. I believe she will regain the national title easily if she decides to compete next month."

During a recent Eastern trip Mrs. Moody indicated she would return for the American championships at Forest Hills, N. Y. Since returning home, however, she has been non-committal, although practicing strenuously, meanwhile.

## Best Linksmen Ready For Fight In St. Paul Play

### Simon Pures, Professionals Limber Up For Open Meet

ST. PAUL, July 17.—(AP)—America's foremost professional golfers, with a sprinkling of good amateurs, had their final workouts over the sunbaked Keller course yesterday before settling down to the serious 72-hole grind for a share in the \$5,000 St. Paul open tournament starting this morning.

Virtually all of the 175 ace shotmakers from all sections of the country were on hand for the final practice rounds.

Mixed fournesses in the afternoon closed the pretournament play.

For three days the pros have practiced on all-time record temperatures of between 100 and 108 degrees and turbed in 68 over the 6,522-yard well-trapped championship layout. The weather observer saw little chance for cooler weather Friday and Saturday when 18 holes will be played each day. The low 60 and ties will go 36 more Sunday.

Pacing the record list of money winners are Harry Cooper of Chicago, winner of the title on two occasions, and tied another year; Tony Manero, smiling national open champion; Jim Foulis, another former winner; Walter Hagen, Horton Smith, McDonald, Ray Mangrum, John Revolta, John Dawson, Jimmy Thompson, Lawson Little and Tommy Armour.

## Lehman And Haas Execute Rout Of Walker Cup Outfit

OMAHA, Neb., July 17.—(AP)—Comeback-bound Johnny Lehman of Chicago, and slender Freddie Haas, Jr., of New Orleans completed the rout of the Walker Cup delegation in the thirty-seventh annual Western amateur golf tournament yesterday by brilliantly fashioned triumph over Charlie Yates of Atlanta, Ga., and Omaha's Johnny Goodman.

Tall Johnny, who won the 1932 Western crown, but who has done little of note in championship golfing warfare for the last few years, took the blond, smiling defending champion, Yates, out of action in their second round battle by a 2 and 1 margin over the Happy Hollow Club's piffoed course.

Haas, overlooked when the U. S. Walker cup force was selected last spring, swung his clubs for a rousing 34-35-60, three under orthodox figures, to conquer Goodman, Walker copper, former national open champion and the tournament favorite, one up on the final hole of another second round tussle. Goodman, one down at the turn, fought his way back to even terms, but faltered on the final hole.

The third member of the cup squad, Oklahoma City's Walter Emery, failed to qualify for the match play division of the tournament, winding up with 75-78-163.

## Islanders, G-Men Split Twin Bill, 4 To 1 And 9 To 5

### Wildness Of J. Hall Gives Gainesville Nightcap Game

DAYTONA BEACH, July 17.—Gainesville's G-Men divided a double bill with the Islanders here yesterday afternoon, the Islanders taking the first, 4 to 1, and Gainesville walking off with the second, 9 to 5.

Bill Kinsel limited the G-Men to four scattered hits in the first frame, two of them triples by McNamara and Beville.

The Islanders garnered eight hits, including two doubles by Dillingham and a triple by Moose Fralick, off McNamara.

In the seven-inning nightcap, the G-Men quickly capitalized on the wildness of Jack Hall in the first inning. Hank Gornicki relieved Hall in the first with none out after the latter had walked three men and allowed two hits. Gornicki was reached for 11 hits, while the Islanders could get only nine off Gornicki and Perazzi who pitched the last inning.

Both games were full of errors. The G-Men committed four miscues in the first and six in the second game. The Islanders were charged with three in the first and one in the second.

### Founder Of Pension Movement To Support Lemke; Won't 'Coerce' Followers

### Suit Is Entered To Oust Leader

### Robert E. Clements Sees Forces Of Politics At Work

CLEVELAND, July 18. (AP)—Townsend National Convention today adopted a resolution declaring the old pension organization "shall not at any time during this campaign, directly or indirectly endorse any Presidential or Vice-Presidential candidate."

This was the answer in the question of which way the "Townsend Family" would throw its vote in November.

Dr. Francis Townsend, founder of the movement, announced he would support Representative Lemke, Union Party presidential candidate, but said he would not attempt to "coerce" followers. The leadership of the pension movement was beset from within and without last night with difficulties involving the political and financial trend of the organization. (Continued on page three)

## Board Authorizes Purchase Of Dozen New School Buses

Seminole County School Board last night authorized the purchase of 12 trucks to be used as school buses in the Sanford area. Estimated cost of the vehicles was announced at \$23,000, according to T. W. Lawton, superintendent of county schools.

The authorized purchases include two Maas, two Dodges, two Fords, three Chevrolests and three G. M. C. machines. All are to be bought locally, according to the board's decision.

The vehicles will be county owned. Bids from private individuals submitted sometime ago were rejected for a variety of reasons.

All new machines will be equipped with all-steel bodies, an improvement step which was taken this summer by the county board.

## Bonus Activity Is Diminishing Locally

Less than five persons in this county failed to call for their bonus checks today, Postmaster E. A. Holly announced.

He said the certificates which were recalled had been returned to regional distribution headquarters in Atlanta from where the early claimants must obtain them.

Bonus activity has slowed down to practically nothing here, the postmaster said. Some service men, residents of other counties but who have just returned here, are applying for their checks through this post-office.

## Woman's Death In Seminole County Is Unavoidable, 4-H Club Girls Says Local Jury

### Coroner's Body Ends Probe Of Accident Fatal To Mrs. Brown

A coroner's jury investigating the motorcycle crash in which Mrs. D. O. Brown sustained fatal injuries Wednesday night yesterday returned a verdict of "unavoidable accident."

When legal action is taken by private individuals, C. C. Rourke, operator of the vehicle, is automatically released by police who were detaining him on suspicion of manslaughter.

Rourke at present is in the Fernald-Laughton Memorial Hospital where he is undergoing treatment for a fractured skull received in the smash.

Witnesses who testified before the six-man jury yesterday told corroborating stories of the accident. None brought out any evidence on which the jury felt justified in holding Rourke any longer.

General opinion seemed to center around the point that a flat tire, found on the motorcycle, was the cause of the mishap.

Chief Roy Williams said the machine apparently was not speeding.

Mrs. Brown died Wednesday about midnight. Funeral services were held the next day.

Rourke was taken first to the hospital, then transferred to the jail and later returned to the hospital.

The jury which returned yesterday's verdict was composed of Bob Dodson, W. C. Woodruff, P. D. Cobb, E. B. Higney, U. S. Hays and E. C. Walters.

## Officers Seek White Suspect In Girl's Death

### N. Y. University Student Is Found Assaulted, Murdered In North Carolina

ASHEVILLE, N. C., July 18. (AP)—Detective Chief Fred Jones today said he expected an immediate arrest of a white suspect in the mysterious assault-killing of blonde Helen Cleveland of New York.

Sheriff Lawrence Brown is holding a negro bellboy named Joe Urey for questioning about the death of the New York University student who was found killed in a hotel room Thursday.

The girl had been shot to death after being assaulted, and her face cut badly.

The 27-year-old negro bellboy went off duty at the hotel about the time one guest said he saw a man standing in the doorway of the girl's room.

No charges have been made against the negro.

## Sanford Avenue Paving Project Gets Final Okeh

### Oviedo Park And Swimming Pool, Hospital Ventures Expected To Be Approved In The Near Future

A WPA project to widen Sanford Avenue near the Municipal Airport has been approved in Washington and is expected to get under way next week, the County Planning Board announced today.

Estimated cost of the venture is \$16,000, according to plan which will be followed.

At the same time the Board announced it expected the \$19,000 hospital project here to be approved within the near future.

The plan originally was scheduled under the WPA but was later changed to the PWA which allows more than \$25,000 to be expended on one single endeavor.

A swimming pool and public park project at Oviedo is expected to receive final approval in Washington within the near future, according to information in the hands of the Planning Board. The cost has been set up at \$9,872.

The Sanford Avenue project will allow the widening of the thoroughfare from its present nine-foot width to 18 feet from Glenderville to Pineway.

It is planned to grade the road from Glenderville to the city limits.

A limberock bast will be laid and surface treated to create a suitable driving area.

Several other projects in the Sanford area and in other parts of the county are now in Washington awaiting allocation of funds which will come from the 1936 relief quota.

## Shark Steals Ocean Catch Made By Dr. Caswell At Daytona

Dr. B. D. Caswell today held a particular grudge against all sharks in general.

The Sanford dentist was one of twelve fishing off the Ponce de Leon inlet snapper banks near Daytona Beach yesterday when he hooked a 25-pound red snapper.

He hauled in his line until the fish was some 20 feet under the surface, then a shark, some 10 or 12 feet long, darted by, nipping the catch clean off the hook, leaving the angler with nothing but a fish head.

Frank Meisch said he saw the shark in the clear water and could easily judge his aim.

Despite the loss, the party returned with 500 pounds of ocean fish.

## Revolution In Spain Said To Be Shattered

### Leftist Government Blamed For Fierce Fighting In Morocco And Continent

### Meagre Reports Say Many Killed

### Former Army Staff Chief Alleged To Be Held Prisoner

—A fierce army revolt which flared rapidly throughout Spanish Morocco today was "broken tonight," the government announced, after planes bombed rebel strongholds and a number of generals had arrested.

Reports from the French border points said the revolt spread to Spain itself, and garrisons in cities throughout Andalusia were in revolt. The government here denied these stories. However, an official announcement said fleet warships are enroute to Morocco to crush the widespread army revolt there.

This announcement followed previous ones that the rebellion was crushed. Madrid itself is calm, though. Government spokesmen admitted they had to take "radical and urgent measures in the interior."

So far as could be learned, the revolt of the army was caused by opposition to Spain's leftist government.

In the French frontier town of Hendaye, reports said the revolt is participated in by a third of the Spanish Foreign Legion and regular garrison troops. These troops said fierce fighting with many dead and wounded is going on.

Government censorship made it difficult to learn what is happening. French correspondents said the revolt had been planned for July 25 but was hastened by leaders.

Unconfirmed reports from Tangier, Morocco, said General Ramon Franco, former chief of the Spanish army general staff, had been arrested as a suspected leader of the revolt.

## McClelland Leaves For Raiford Jail With Two Prisoners

Sheriff J. F. McClelland left today for Raiford to deliver to the state prison warden C. C. Gracey and Fred Shannon, sentenced yesterday to five years in the Florida penitentiary.

Gracey was found guilty of manslaughter, as a principal in the second degree, in connection with events which led to the death of Odell Humberlough in July, 1935.

Shannon was declared guilty of assault with an attempt to commit manslaughter on George Calhoun, a local engineer.

The sheriff is delivering his prisoners by automobile.
