

Braves Shoved Into Third Place As Giants Snatch 2 Tilts Before Record Throng

BOSTON, Mass. Sept. 2. (AP) The mighty arms of Carl Hubbell and Fred Fitzsimmons both pitched and batted the New York Giants into a double victory that dropped the Boston Braves into third place, a single point behind the Pittsburgh Pirates, yesterday before 48,000 spectators, the largest major league crowd of the season in Boston.

Hubbell out-classes Fred Frankhouse by a wide margin while burling the Giants to a 2-0 win in the tenth inning of the opener. Fitzsimmons batted the Braves as he chalked up his twentieth victory of the season and his tenth shut-out. Fitzsimmons was almost as effective while working for his 5-3 triumph in the second half of the clean-sweep, which lengthened the Giants' lead over the virtually deadlocked Pirates and Braves to seven games.

Frankhouse, with his fast curve misbehaving, encountered plenty of trouble but the brilliant performance of his infield mates kept the Giants scoreless until the tenth, when the Boston right-hander opened by fanning the veteran Travis Jackson, in at third base for Johnny Vergez, who underwent an appendix operation Thursday night.

Gas Mancuso started the Giants on their way by gaining first as Baxter Jordan juggled third. Hubbell's throw from third whizzed to the first baseman and Hubbell bled Ryan's liner and Hubbell came up with two on and one out. He slashed a single to center, sending Bernie James, running for the sluggish catcher, flying home from second base. Ryan moved on to third and scored on Hubbell Critia's drive to right field.

The Giants gave their brilliant catcher treatment making him work so long for his delayed victory. He was never in danger and the only time he eased up on the Braves batsman was in the tenth when he gave Wally Berger, whose homer paved the way for Thursday's Boston victory, four eyelid pitches with Frankhouse on second with two out.

He held the Braves to four scattered hits and Maranville who got two of them was the only Braves to reach third base. Fitzsimmons had the second out firmly under his thumb on the eighth inning when the Braves bunched seven of their six hits for three runs that tied the score.

Mancuso provided another timely hit in the ninth and again James was his runner. Ryan nudged out a safety over shortstop and Fitzsimmons, aroused by the loss of his three-run lead.

TIGERS INCREASE LEAD BY SCORING WIN OVER BRUINS

After Lake Monroe started yesterday's game with a fire, you lead in the first inning off of six hits. Eubanks held them to five scattered hits in the remaining eight innings to a score of ten to eight in Edgewood's favor.

Edgewood Winner Over Lake Monroe Team By Ten To 8

The superb batting and base running by Edgewood in the fourth and seventh innings added eight runs to the two in the first inning to pile up a ten run lead that Lake Monroe could not overcome.

The feature of the game was the team work by all of Edgewood's players that enabled them to score seven runs that seemed lost. The home run by Roy Lee, the fielding by the Myrick twins and Clay Williams deserve honorable mention.

Edgewood as usual brought the spectators to their feet with double plays which no other team has done in the second half of the Seminole County League Series.

CENTRAL FLORIDA LEAGUE statistics table with columns for team, runs, hits, errors, and other stats.

ORLANDO, Sept. 2 - Potential Leesburg bats again fell under the spell of Orlando Tiger pitching at Tinker Field Friday afternoon and the Central Florida league to two and half games.

The win marked Lefty Fred Flora's return to form. He allowed six Leesburg hits, three of them bunched in the eighth when the Bruins scored their two runs, but was always in command of the situation.

The once mighty Reed again had a goose-egg for his day's efforts. He couldn't beg, borrow or steal a basehit in three trips to the plate. He fanned twice. These failures ran his streak of consecutive times at bat without a hit to a figure pitifully close to 20.

FEDS WILL PLAY 2 GAMES HERE IN NEXT TWO DAYS

Charlie Abbott's Sanford Celerys, strengthened today by the addition of infielder Rhodes and pitchers Harden of the championship American U. S. club, will play two Central Florida Baseball League games here on Monday night, both games at Municipal Park.

Tomorrow afternoon the last-place New Smyrna Cracker, despite their defeat, are playing highly improved baseball, will be in Sanford the last time this year.

Monday games around the league include Orlando at Sanford, Daytona at Leesburg, and Cocoa at New Smyrna.

The convention was willing to listen to a full length address last night by Daniel C. Roper, secretary of commerce, only after it had reduced the afternoon speeches to 10 minutes each and revised the entire program for today in order to give the delegates a bigger voice in proceedings.

"I know the spirit that animates you," Mrs. Nellie Taylor Ross, director of the mint, told the delegates.

"You want to help build up the strength of your party. You want to have a voice in its affairs that through it you may have a share in shaping the course of the nation."

The grand total up to a few days ago was 271,706 agreements for the three states, whereas the structures of about 900,000 employees are being sought.

Coincident with its publication, figures for signatures to the President's agreement and for the grand total for the three weeks of the campaign were released. They showed that fewer than 30 per cent of the employees in the tri-state area, according to estimates in Mr. Hodgson's office, had signed either the blanket code or specific industrial codes to shorten hours and increase minimum wages.

NEW YORK, Sept. 2.—There is no longer an acceptable excuse for any individual employer or group of employers to refrain from signing up under the N. R. A., said a statement issued recently at the office of James Plinn Hodgson, district manager of the Department of Commerce, directing the President's campaign in New York, New Jersey and Connecticut.

Young Democrats Want More Action And Less Oratory

A growing movement within the young Democratic clubs of America to take over their national convention and substitute action for oratory brought results yesterday.

Mostly cloudy with showers to night and Wednesday.

## Damaged Fruit and Property Are Left in Wake of Storm

**Hurricane Traverses Central Section of State After Hitting East Coast Areas**

(By The Associated Press)

Florida was counting at least \$1,000,000 damage to homes, business and citrus after a tropical storm struck the state on the East Coast, cut a path of damaged fruit through the south central portion and blew into the Gulf of Mexico north of Tampa.

Communication with the southern portion of the state remained difficult but meager reports disclosed the loss of but one life, Henry Cornell, negro, who died at Palm Beach as the storm approached and was killed when the home collapsed.

Only four persons had been reported injured in the path of the storm—lost, slight, all of them at West Palm Beach.

Jupiter reported severe damage from the wind and the freighter Elizabeth was blown around near that place.

The beautiful and costly estates at Palm Beach were strewn with coconuts and uprooted trees but the residences escaped heavy damage as most of them had been boarded up for the summer.

Fort Pierce suffered from the blow to the extent of some \$200,000. Two sections of the causeway to the beach and the seawall were undermined and washed away. Garage and automobiles were wrecked, buildings damaged by water leaking in, business houses were damaged and the streets were littered with debris.

The shrimp houses on the waterfront were washed away and small boats were cast up the streets.

On the shore, along the river, St. Augustine, Bunnell, Bradenton, Fort Myers, Miami, West Palm Beach and Fort Lauderdale with their surrounding areas last night were completely cut off from communication with each other or the outside except by radio.

The storm on the East Coast disrupted wire facilities to the re-established by routing lines cut off from communication with along the West Coast and then across the lower peninsula from Fort Myers to Miami, south of north but communications were the storm area. Yesterday, however, the storm cut across the

(Continued From Page Two)

## Hurricane Hits Texas; Reports Are Lacking

**HOUSTON, Texas, Sept. 5.—**(A.P.)—Shattering property damage and heavy loss of life from the tropical hurricane that battered the Lower Rio Grande Valley for several hours was indicated today by the first meager reports from the stricken area.

(By The Associated Press)

The Brownsville and garden country of the lower Rio Grande were cut off from the world today by a hurricane. Smashed homes, crashing trees and scattered crops marked its path.

No one dared to traverse the damage until the winds subsided. The center apparently raged inland near Brownsville had that city was in an area of blank silence.

Gales also smote Corpus Christi, 200 miles north. Water rushed through the streets and people took refuge on bluffs. At Freeport, all but six families were evacuated.

## Warning Issued By Weather Bureau

**WASHINGTON, Sept. 5.—**(A.P.)—The Weather Bureau issued the following storm warning: South-Florida storm warning: South-Florida storm warning: South-Florida storm warning.

At Charleston and warnings changed to small craft from Tampa to Cedar Key, Florida. The Weather Bureau reported the storm with considerable diminished intensity has centered inland west of Apalachicola and moved through the Tallahassee and Thomasville, Georgia area. Heavy rain and wind gusts of 55 miles an hour are continuing in North Florida area.

## Double Bill Will Be Featured At Milane

Because it was impossible to screen any of the several motion picture scheduled for showing at the Milane Theater yesterday, Manager Joe L. Marennette has decided to show them in connection with today's performances, he said this morning.

Theater goes therefore will see two feature films. One of them is "College Humor," with Bing Crosby, Jack O'Neil, Mary Carlisle, and a host of assisting artists. The second feature is James Cagney's "Picture Snatcher."

## LIGGETT KILLED

**CHICAGO, Sept. 5.—**(A.P.)—A blustering wind brought tragedy to the second day of the international air races, causing the death of Ray Liggett, 37-year-old racing pilot from Omaha, Neb. Liggett, pushing his racing plane at 175 miles an hour in a qualifying trial for the first contest of the afternoon was killed when his ship had the left wing torn off by turbulent pressure resulting from its speed and the resistance of a 25-mile-an-hour wind.

## Prohibitionists To Meet

Members of the Seminole branch of Florida Patriots will meet tonight in the sun parlor of the Montezuma Hotel for the purpose of electing a chairman and setting up an election campaign and finance committee, according to R. F. Cooper, temporary chairman. The meeting is called for 8:00 o'clock, and all friends of prohibition in this section are urged to attend.

### Barometer Readings

Official barometer readings observed at the observatory and Anderson drug store on First Street during a 10 hour period beginning 5:30 A. M. Monday morning after dropping from 30.00 (normal) Sunday:

## STEADY STREAM OF FUNDS BEING PUMPED BY U. S.

**WASHINGTON, Sept. 5.—**From the Interior Department, where Secretary Harold L. Ickes presides over the emergency public works administration, there is being pumped into every section of the country a steady stream of funds for public works calculated to place more than 1,000,000 men at work on industry's reviving wheels of industry to new momentum.

In a forecast report which would scarcely have been dreamed of a few years ago, the Public Works Administration in the 10 weeks of its existence has allowed \$1,957,096,138 out of the total public works fund of \$3,000,000,000 which was set up by Congress at the behest of President Roosevelt as a central factor in its re-employment program.

Last Thursday announcement was made of the first construction loans and grants to municipalities, all requirements having been met. Waterworks systems were involved in each case. For these first projects, the Federal Administration made grants of 30 percent and loans of 70 percent of the cost involved. There was in addition to other projects which had been pending before the R. F. I.

In all, the work carried on under the Public Works Administration this week will be a 10-hour week to speed employment among 3,000,000 men as possible.

The following table shows allotments from the \$3,000,000,000 Public Works Fund to date:

Tennessee	\$10,000,000
Ohio	\$9,000,000
Illinois	\$8,000,000
Mississippi	\$7,000,000
Alabama	\$6,000,000
Arkansas	\$5,000,000
Louisiana	\$4,000,000
North Carolina	\$3,000,000
Georgia	\$2,000,000
Florida	\$1,000,000
Maryland	\$1,000,000
Delaware	\$1,000,000
Pennsylvania	\$1,000,000
West Virginia	\$1,000,000
Kentucky	\$1,000,000
Missouri	\$1,000,000
Wisconsin	\$1,000,000
Indiana	\$1,000,000
Michigan	\$1,000,000
Ohio	\$1,000,000
Illinois	\$1,000,000
Mississippi	\$1,000,000
Alabama	\$1,000,000
Arkansas	\$1,000,000
Louisiana	\$1,000,000
North Carolina	\$1,000,000
Georgia	\$1,000,000
Florida	\$1,000,000
Maryland	\$1,000,000
Delaware	\$1,000,000
Pennsylvania	\$1,000,000
West Virginia	\$1,000,000
Kentucky	\$1,000,000
Missouri	\$1,000,000
Wisconsin	\$1,000,000
Indiana	\$1,000,000
Michigan	\$1,000,000

## Virtual Promise Made For Higher Prices On Tobacco

**WASHINGTON, Sept. 5.—**A virtual promise of higher prices for this year's crop of flue-cured tobacco was made yesterday by farm administration officials provided growers will join in a voluntary crop reduction campaign.

In order to ensure similar promises of crop reductions within a week or two, officials last night were drafting a blanket agreement to slash production for presentation to the farmers within the next few days.

Meanwhile warehouses in North Carolina and South Carolina, which were closed by orders of the state governments, are to remain inactive until farmers have been given an opportunity to sign the blanket pact to curtail their flue-cured tobacco crop.

An average reduction up to 25 percent was suggested at a meeting between farm administrators and delegations from the South yesterday.

Without definitely committing themselves, Chester C. Davis, farm administration director of production, and J. B. Hutson, head of the tobacco section, indicated the government would either go on the market and buy surplus tobacco, if that were necessary, to raise prices, or would furnish the funds for such purchases.

## Engineer, Well Known Here, Is Hurt In Wreck Which Kills Brakeman

Approximately two hours after the tropical hurricane had passed to the westward of the Sebring area yesterday afternoon, at about 3:15 o'clock, an Atlantic Coast Line special freight train piloted by Engineer W. L. Tapp, well-known in Sanford, ran into a washout, between Sebring and Lake Placid, turned over on its side in a ditch filled with water and brought instant death to brakeman Fred Davis of Lakeland who jumped from the train as it left the rails. Mr. Tapp suffered cuts on the right arm.

News of the wreck reached Sanford late yesterday afternoon in a message picked up at the local National Guard Army which was as follows:

"Engine #15 went into a washout at a point one quarter mile

(Continued on Page Two)

## CITY SUFFERS DAMAGE FROM WIND AND RAIN

**Crops, Telephone And Power Lines, Signs And Shacks Form Chief Casualties**

Although Sanford was only about 100 miles from the center of the tropical hurricane which swept westward across Florida after striking in the Miami-Ft. Pierce area late Sunday night, this city came through the heaviest of the storm with less actual damage than it did in 1928 and 1929, according to a hasty survey made this morning.

At no time did the wind in the Sanford section exceed 60 miles an hour, and when it did reach that speed, the wind came in gusts and not steadily. In 1928, and again 1929, it was estimated that the velocity of the wind in Sanford nearly 70 miles an hour.

There was a surprising absence of blown-down trees after the storm passed late last night. In 1928 and 1929, thousands of trees were swept into the streets and blown down.

City streets were clean, and in fact, not a single tree had been blown down in the city. The only damage reported was to crops, telephone and power lines, signs and shacks.

## Warships Ordered To Cuba As Radicals Of Island Gain Control

**FLORIDA WILL BE DRY EVEN AFTER REPEAL ARRIVES**

**MACHADO SAYS HE WILL RETURN TO FACE TRIAL**

WASHINGTON, Sept. 5.—(A.P.)—A cruiser and three destroyers were ordered to Cuba because of a coup d'etat to protect American lives and property from danger in the threatened strife precipitated by the revolt of the army against the new provisional government.

This was the second time in the matter of weeks that war vessels have been sent to Cuba, the first time during disturbances in connection with the overthrow of the Machado government.

The action was taken promptly after State Secretary Hull had been apprised of the swiftly developing situation in the long distance telephone call from Ambassador Welles at Havana.

HAVANA, Sept. 5.—(A.P.)—Cuba's revolutionary government, a month old, prepared today to resign in favor of a commission of five members, selected by soldiers, sailors and national police who seized the power through a bloodless coup d'etat last night.

Soon after the details became known, Washington ordered United States warships to Cuba. President De Cespedes, inspecting the storm area, was summoned back to Havana and is expected to resign. The coup placed the power in the hands of radical socialists representing student groups and the A. I. C.

Privates, corporals and sergeants of the army and police sent home commissioned officers and selected control by placing military guns at the national street corners. They said the commissioned officers will be restored to power after the radical government is installed in power. There was disorder on the streets today with automobiles carrying armed young men clashing about and there is fear of looting before nightfall.

Leaders demand economic tendencies and said they wanted economic reconstruction, respect for foreign obligations and formation of courts.

There is talk of asking American intervention and Ambassador Welles is reported to have said there will be no interference with liberty as long as there is no bloodshed.

STRIKE BREAKERS IN CUBA ARE ATTACKED BY WOMAN'S GROUP

RANTIAGO, Cuba, Sept. 5.—(A.P.)—Groups of women girded with clubs accosted the city yesterday attacking strike breakers as several Communist-organized strikes created disorder.

Two civilians and one soldier were killed in a gun battle. Tension was at a high pitch in Santiago and now outbreaks of trouble were feared. Many merchants failed to open their doors yesterday morning.

The army took possession of the streets, firing frequently to clear off traffic. Several persons were wounded.

Among the striking groups were cooks, house servants, street car men, dock workers and construction workers. A general strike was feared.

The two civilians killed yesterday morning were Francisco Balart and Francisco Flores. The dead soldier was Aniceto Borden.

Borden sought to arrest another soldier, Jesus Alman, charging he was a Machado informant. Alman shot and killed Borden and escaped. Balart was pursuing and was challenged by Puente. Each shot and killed the other.

Alman took refuge in the military barracks about which a cordon of troops was placed and two machine guns set up.

## FLORIDA WILL BE DRY EVEN AFTER REPEAL ARRIVES

Only 6 counties that were wet in 1933 will be outside of ban.

TAMPA, Sept. 5.—When the thirty-sixth state, in convention, pursuant to the vote of its people, adopts the 21st amendment and thus repeals the 18th and banishes prohibition from the law of the land, what will be the immediate effect in Florida?

Legally, nothing whatever that will still be constitutionally and by statute dry.

So much uncertainty prevails as to the meaning of federal repeal of the 18th Amendment as to Florida that it is well to state briefly the situation.

Repeal of the 18th Amendment will leave Florida, as every other state which has prohibition in its constitution, as dry as before.

Florida will continue to have national prohibition and its own state constitution prohibition amendment is repealed.

Florida, in the past of the late legislature, will vote on repealing the state amendment on general election day, November, 1934.

If a majority vote is cast for the repeal amendment on that date, all counties of Florida will continue legally dry, with the exception of the six counties, which were wet when state prohibition was adopted, which have the right to repeal the law of their state, through one of these, because of the repeal of the 18th Amendment.

It is known that the state will vote on the 18th Amendment, and the other 30 counties, the sale of liquor will be legal under the state constitution at that time. This prohibition was adopted in 1909, known as the Davis pack law.

A general legislature may repeal its own state law, so long as the state constitution of Florida, which is adopted by the people, is not changed. The Davis pack law, which is adopted by the people, will remain in effect until the state constitution is amended to permit the repeal of the Davis pack law.

It is known that the state will vote on the 18th Amendment, and the other 30 counties, the sale of liquor will be legal under the state constitution at that time. This prohibition was adopted in 1909, known as the Davis pack law.

A general legislature may repeal its own state law, so long as the state constitution of Florida, which is adopted by the people, is not changed. The Davis pack law, which is adopted by the people, will remain in effect until the state constitution is amended to permit the repeal of the Davis pack law.

## MACHADO SAYS HE WILL RETURN TO FACE TRIAL

Only He Asks Is To Be Assured Of His And His Family's Safety

MONTREAL, Sept. 5.—(A.P.)—General Gerardo Machado, deposed president of Cuba, kept strict silence yesterday on the possibility of his return to Havana to stand trial for alleged crimes committed during his regime.

Arriving Sunday from the Bahamas for a three months' rest, he issued a statement saying he would be willing to return for trial before any military or civil tribunal if guaranteed safety for himself and his family.

Yesterday he sent word from his hotel suite that he would grant no more interviews and refused to comment on the reported statement of Dr. Horacio Ferrer, secretary of war in the new Cuban regime, proposing to guarantee Machado's safety.

In his statement the former president declared he had "no fears of any orderly investigation" and added:

"I expect justice because I think the people of Cuba realize the benefits I have brought to Cuba, particularly in balancing the Cuban budget, for the first time in years."

On his trip from Bermuda to Montreal on the liner Lady Goda, fellow-passengers reported hearing the general utter only four words:

A fair woman passenger clad in the swarty Gandhi costume passed his cabin on the way to a ship's messparade.

"Gandhi, Ah Mahatma Gandhi," he was heard to exclaim.

Later he sent a member of his staff to the young woman to convey his congratulations on her costume. Otherwise he slumped to his rooms.

The supreme court at Havana has arranged to group 10 charges against Machado and his aides for alleged crimes committed during their regime into a single case. Opposition groups in the Machado regime charged the former president and others with plotting to kill as many as possible of the revolts that erupted in the capital on Aug. 7 following a false report of Machado's resignation.

## Coup D'Etat Followed By Disorders With Privates Of Army Overawing Officers

WASHINGTON, Sept. 5.—(A.P.)—Cuba's revolutionary government, a month old, prepared today to resign in favor of a commission of five members, selected by soldiers, sailors and national police who seized the power through a bloodless coup d'etat last night.

Soon after the details became known, Washington ordered United States warships to Cuba. President De Cespedes, inspecting the storm area, was summoned back to Havana and is expected to resign. The coup placed the power in the hands of radical socialists representing student groups and the A. I. C.

Privates, corporals and sergeants of the army and police sent home commissioned officers and selected control by placing military guns at the national street corners. They said the commissioned officers will be restored to power after the radical government is installed in power. There was disorder on the streets today with automobiles carrying armed young men clashing about and there is fear of looting before nightfall.

Leaders demand economic tendencies and said they wanted economic reconstruction, respect for foreign obligations and formation of courts.

There is talk of asking American intervention and Ambassador Welles is reported to have said there will be no interference with liberty as long as there is no bloodshed.

STRIKE BREAKERS IN CUBA ARE ATTACKED BY WOMAN'S GROUP

RANTIAGO, Cuba, Sept. 5.—(A.P.)—Groups of women girded with clubs accosted the city yesterday attacking strike breakers as several Communist-organized strikes created disorder.

Two civilians and one soldier were killed in a gun battle. Tension was at a high pitch in Santiago and now outbreaks of trouble were feared. Many merchants failed to open their doors yesterday morning.

The army took possession of the streets, firing frequently to clear off traffic. Several persons were wounded.

Among the striking groups were cooks, house servants, street car men, dock workers and construction workers. A general strike was feared.

The two civilians killed yesterday morning were Francisco Balart and Francisco Flores. The dead soldier was Aniceto Borden.

Borden sought to arrest another soldier, Jesus Alman, charging he was a Machado informant. Alman shot and killed Borden and escaped. Balart was pursuing and was challenged by Puente. Each shot and killed the other.

Alman took refuge in the military barracks about which a cordon of troops was placed and two machine guns set up.

## Engineer, Well Known Here, Is Hurt In Wreck Which Kills Brakeman

Approximately two hours after the tropical hurricane had passed to the westward of the Sebring area yesterday afternoon, at about 3:15 o'clock, an Atlantic Coast Line special freight train piloted by Engineer W. L. Tapp, well-known in Sanford, ran into a washout, between Sebring and Lake Placid, turned over on its side in a ditch filled with water and brought instant death to brakeman Fred Davis of Lakeland who jumped from the train as it left the rails. Mr. Tapp suffered cuts on the right arm.

News of the wreck reached Sanford late yesterday afternoon in a message picked up at the local National Guard Army which was as follows:

"Engine #15 went into a washout at a point one quarter mile

(Continued on Page Two)

## Final Rites Will Be Paid Mrs. E. E. Huston

Funeral services for Mrs. E. E. Huston, who died at her home at 111 E. 21st Street early yesterday morning after a lingering illness, will be held from Holy Cross Church Wednesday afternoon at 3:00 o'clock. Burial will be in Evergreen Cemetery, with Rev. Martin J. Braun officiating.

Mrs. Huston was born in Louisville, Ky., but she has resided in Sanford for the past 25 years. Surviving here are her husband, S. A. Huston, her daughter, M. Mildred Hancock, two grand-children, Huston Hancock and Kathleen Hancock, of Sanford, and two nephews, Sam Dickson, of Longwood, and Robert Dickson, of Columbus, Tenn.

## Ethel Louise Carver Is Victim Of Death

Ethel Louise Carver, three-year-old daughter of Mr. and Mrs. John J. Carver, died at the home of Mrs. Carver's relatives in Wilkesboro, Ga. yesterday morning at 10:10 o'clock. The little girl became ill suddenly on Sunday.

The body arrived in Sanford today, and funeral services will be held from the Erickson Funeral Home at 10:30 o'clock Wednesday morning. Burial will be in Evergreen Cemetery, and Rev. South Hardin of the First Methodist Church will officiate.

The little girl was born in Sanford a little more than three years ago. She left here Saturday afternoon by train with Mrs. Carver for the purpose of spending the week-end in Wilkesboro. Her survivors are her parents, and a sister, Mary Elizabeth Carver, aged about four. Mr. Carver is an employee of the South Barber Shop here.

## Last Rites Are Paid To Mrs. Kreinbring

Funeral services for Mrs. Ethel Kreinbring, 17-year-old wife of A. H. Kreinbring, Lake Monroe grower, were held from the Erickson Funeral Home at 3:00 o'clock Sunday afternoon (yesterday) with Rev. J. M. Milligan of Lake Monroe officiating.

Mrs. Kreinbring died after an illness of about a week's duration. She was born at Day, Fla., on May 19, 1916, but had lived here for the past seven years. Surviving here besides her husband are an eight-month old daughter, Mary Ann Kreinbring; a mother, Mrs. Iry Boyett; her sister, Mrs. Martha Boyett, and her brother, Eddie Boyett, all of Lake Monroe.

## MAN KILLS BELF

HOLLAND, Sept. 5.—(A.P.)—Reverend children was expressed in a letter left by L. Percy Smith, 30, of Gainesville, who took his own life Saturday by shooting himself here. Smith drove here from Gainesville by truck. He was employed by a Gainesville furniture company.

# LABOR DAY TILTS IN STATE LEAGUE ARE RAINED OUT

## Leaders Improved With Victories On Sunday Afternoon

CENTRAL FLORIDA LEAGUE	
Team	Score
DAYTONA BEACH	10-4
WEEKS	7-2
ORLANDO	6-1
LEESBURG	5-1
LAKE MARY	4-0
SEVEN SPRINGS	3-0
LAKE WAREHOUSING	3-0

Central Florida Baseball League teams were able to get in but one of the two games which they had scheduled over the Labor Day weekend owing to the unusually heavy winds and rains which accompanied the hurricane "scare."

Results of Sunday games, which were won by Orlando, Cocoa, and Leesburg, leave the official standings just about the way they were before the games began.

Orlando remains two games back of Weeks in first place, while the Braves are exactly five games in front of first place.

The Reds patterned a 7 to 3 victory over the New Smyrna Cracker when they combined 10 hits with five errors a couple of plays, and a passed ball or two.

Red Veale hurled for the Reds, although he was touched for seven hits, three of these hits were in the ninth inning when the Cracker staged a rally which produced two runs. Veale shut-out ball for four straight innings only to have the Cracker come to life.

Opped to Veale was a husky left-hander named Ernie Godfrey whose fast ball had the Reds humping all afternoon. Miscellaneous support cost him a possible victory or at least a closer decision, for the Reds earned only one of the seven runs they made.

Both pitchers led at bat. Veale got three hits in four tries including a triple, while Godfrey shut-out three hits in four tries. George Beck, Cracker out-fielder, got two singles in three tries.

The game marked the debut of Rhodes, a mighty fine looking third baseman picked up by Fred Daniels in Georgia, and Doc Harn, a pitcher who took a turn in the outfield. Rhodes appears to know what to do with the ball now he gets it, while on several occasions when "going hot" he showed signs of baseball intelligence by quietly muzzing the situation.

Another new Fed hurler, Victor Henderson, arrived here last night. He and Rhodes and Harn were members of the prominent-winning American club which won the Georgia State league title.

No date has been arranged for any of the play-offs of the nine out games of Labor Day. The Reds now have two games to play with the Orlando team on the local ground, both of them postponed games.

**COCOA, 7; DAYTONA, 3.**

DAYTONA BEACH, Sept. 5.—Cocoa handed the Islanders a belated trimming in a Central Florida League game here Sunday. The score was 7 to 3. Spac Kinney, University of Florida pitcher, was on the mound for the Islanders and gave a good account of himself, leaving only six runs.

Kent Greenland, former big league hurler who went 18 in 1926 and further contributed to the Islanders' defeat by giving up five walks and making two errors that paved the way for five

# BRAVES KNOCKED OUT OF PENNANT RACE BY GIANTS

## Double Defeat Sunday Sends Tribe Lower In League Standing

BOSTON	
Team	Score
BOSTON	1-4
BOSTON	1-4
BOSTON	1-4
BOSTON	1-4
BOSTON	1-4
BOSTON	1-4

**BOSTON, Mass., Sept. 5.—(AP)—**The Boston Braves checked out of the National League's red-hot pennant race Sunday by dropping their fourth straight game to the New York Giants in the 14th inning 4-3 doubleheader opening before holding the leaders to a tie in the finale that was halted by the 6:30 P. M. Sunday time limit with two out in the home team's side of the ninth.

Before the six-game series started last Thursday, Manager Bill McKechnie announced to the world that his Tribesmen would shoot the works against the Giants to make or break.

"If we can't beat them in our own park," he said, "then we have no right to the pennant."

When the Giants hit the wig-wam Thursday, the Braves were trailing them in second place by six games. A clean-sweep of the series would have put the Braves even with the leaders. But they won only one of the six, the opener, and the four defeats have dropped them into third place, a full game behind the Pittsburgh Pirates, who will take their turn at attempting to stop the Giants on Tuesday.

The Sabbath twin-bill was expected to draw well over 50,000 and break all of Boston's major league attendance records but, probably due to the Tribe's fallures, the crowd was around 40,000, leaving about 8000 vacant seats in the bleachers. Figures for the series, stretched over four days, ranged around 140,000 which was almost as much as some of the past Braves teams have drawn in an entire season.

**LAKE MARY.** DULL EYES may be made and kept clear and healthy by applying MURINE daily. It dissolves the dust-laden mucous film, and overcomes bloodshot condition resulting from over-use, Smoking and Refracting. Contains no belladonna nor anything harmful. Successfully used and recommended for infant and adult since 1887. BOOK SENT FREE ON REQUEST TO THE MURINE COMPANY Dept. H. E. 9 East Ohio Street, Chicago

**LAKE MARY.** The Young People's Society of the Baptist Church in Sanford conducted the Christian Endeavor service last Sunday night at the Community Church. A splendid program was given, including an address on "Prayer," by Miss Jenkins; "Observance of the Sabbath," Mr. Becker; "Value of the Christian Life," Miss Tew. Music was furnished by a mixed quartet. The meeting was led by the District Representative of the B. Y. P. U.

The Community S. S. social, which was to have been held Wednesday evening, Aug. 23, was postponed to Tuesday evening of this week, on account of the severe electric storm.

A special song service will be given in Community Church on Sunday evening, Sept. 10 at 8 o'clock.

**Tells How Cardui Stopped Cramping**

"Several years ago, when I was younger, I was advised to take Cardui for cramping and irregular bowels," writes Mrs. Ethel L. Dodson, of Lenoxy City, Mo. "It helped me and stopped the cramping. I feel that my good health is due to Cardui, and I can certainly recommend it to other women."

"When womanly aches and pains and orange are due to a weak, run-down condition, take Cardui."

Sold in drug stores.

# VISITORS AT FAIR OBSERVE STRIDES MADE BY PLANES

## Tremendous Progress Made By Aviation Shown At Exhibit

**CHICAGO—A vivid story of the tremendous strides of aviation in the last third of a century is portrayed for visitors to a Century of Progress exposition here, where a comprehensive collection of early day airplanes is shown side by side with the latest and fastest models.**

Although it is possible to fly from coast to coast in less than one day with modern commercial planes, the first transcontinental record was made in 1911 with a flight taking 49 days. The trail Wright model plane used by Calbraith P. Rodgers for his flight from New York to Pasadena, Cal. when 69 landings were made along the way, is one of the most interesting exhibits, occupying a conspicuous place in the center of the hall. This plane was loaned by the Carnegie Museum in Pittsburgh.

Louis Bleriot's memorable flight across the English Channel in 1909 is recalled by the equally frail monoplane loaned for the fair by Edsel Ford, of Detroit. In this modest little craft Bleriot crossed the 25 miles from Calais to Dover in 37 minutes, astonishing the world by his bravery.

Katherine Stinson's little 1913 model Laird, in which she barnstormed the Orient nearly two decades ago, is another of the historic old-timers in the air show. To turn abruptly from the past to the present, one of the most spectacular of the newer planes is the latest military model, the P-26, or low-wing Boeing pursuit plane just recently perfected. This is said to be the fastest military airplane in the world, capable of a speed of 230 miles an hour. Only two of these new planes have been placed in service and one has been loaned by the Air Corps for exhibition purposes.

# GENEVA

Mrs. P. B. Dooley and daughter, Eleanor, have returned from a two weeks' vacation spent at Coronado Beach.

Mrs. Floy Miller returned Tuesday from a visit of several days at Daytona Beach.

Miss Willa Johnson, of Tampa, is visiting Miss Edwing Sutton.

Miss Edwina Sutton entertained a number of young people Wednesday with a picnic at Lake Harney in honor of her house guest, Miss Willa Johnson.

Miss Rose Edith Zauderer has gone to Mayo where she has accepted a position as a teacher of foreign languages in the Mayo High School.

Miss Opal Peters has returned to her work at Daytona after spending a three weeks' vacation with her mother, Mrs. Pearl Peters.

Mr. and Mrs. A. A. Moran, Miss Pauline Moran, Mrs. J. V. Toole and children are visiting at various points in Georgia.

# LIGHTNING KILLS THREE

**CABOT, Ark., Sept. 5.—(AP)—**A bolt of lightning struck a soft drink stand, killed three persons and injured eight others here Friday night. The dead were George Snyder, 35, of Little Rock, Gerald Pickard 78, and Earl Suggs, both of Cabot. The victims were part of a crowd that sought refuge in the building during a rainstorm.

# DETROIT POLICE ARE FACED BY GHOSTLY MURDER MYSTERY

## Two young men stumbled across the arms and legs of a woman found roughly hacked from the body in an outlying field, last night sent police on a baffling quest for the slayer in one of the city's most sensational murder mysteries.

While patrolmen leaped through the bushes in the city's northern western section in search of the woman's torso, detectives unwound a tangle of circumstances pointing, they said, to the identity of the slayer. The fingerprint they reported, were identified through immigration bureau records as those of a Mrs. Lorrie Jobb, who in 1922 encountered difficulty in entering the United States from Canada.

Mrs. Jobb, the police said, was divorced and four years ago married Edward McCann, a Detroit automobile factory employe. McCann could not be found yesterday, and relatives of the woman,

# CREATLY RELIEVED BY BLACK-DRAUGHT

"Constipation caused me to have a bad, warm-up feeling and a dull headache," writes Mrs. J. W. Alverston, of Danville, Va. "I was anxious to find something to help me for I would not feel like doing my work. I found that by taking small doses of Black-Draught at night I was greatly relieved. It makes me feel just fine. I am glad to tell others about it."

Children like the new, pleasant tasting SYRUP of Black-Draught.

# 32 Dead, 1500 Hurt In Texas Hurricane Doing Much Damage

**Beautiful And Prosperous Rio Grande Valley Devastated By Tropical Storm**

**EDINBURG, Texas, Sept. 6.—(A.P.)—**Thirty-two dead, approximately 1,500 injured and damage estimated at millions was the known toll exacted by the great tropical hurricane which devastated the beautiful and prosperous Lower Rio Grande Valley of Texas and Mexico Monday night.

There were 20 known dead in Brownsville and vicinity, 10 in Hastingen and two in Rio Hondo.

Calls for relief and martial law went out from some of the stricken communities. Five relief trains were rushed into the zone, the Red Cross marshalled its forces, but Governor Ferguson said he did not believe martial law was necessary at this time.

W. R. Marler, engineer of a north-bound train on the Missouri Pacific, reported upon his arrival in Edinburg from Brownsville that the bodies of three persons had been recovered from the hurricane area in the Lower Rio Grande valley "and there undoubtedly are at least a hundred more."

## Lunatic Killed By Trooper In Effort To Prevent Escape

**MATTEWAN, N. Y., Sept. 6.—(A.P.)—**One inmate of the state hospital for the criminally insane was shot to death by a state trooper and two others were overcome by tear gas when officers forced their way into a small room where four crazed men had barricaded themselves during an attempted escape early today.

Ray Fisher, 36, of Buffalo, the leader, was killed by Trooper Robert Galvin after Fisher leveled his revolver at the trooper. Two of the remaining three were found crawling on the floor, overcome by an enormous amount of gas fired into the room. They were James Ellis, Brooklyn, and Skelly Marshall, New York City.

The man had struck a guard down with a chair in their dash from the large ward, where they were kept with 64 other patients. The remaining inmates went on a rampage, smashing furniture and windows in the ward, but did not molest the two guards who held them. Quiet was restored by daylight.

**BOVENI-ITALIAN FACT**

**ROME, Sept. 6.—(A.P.)—**Premier Mussolini and Soviet Ambassador Potemkin yesterday signed an 11,140,000,000 non-aggression treaty. The pact includes a mutual promise not to boycott products of the other country or to engage in mutually harmful economic or political practices.

**WONT AID TANNANT**

**NEW YORK, Sept. 6.—(A.P.)—**The Times says it learned from a confidential source that the Senate will not aid Tannant in his efforts to secure a seat on the Federal Reserve board.

## EASIER BANK CREDIT URGED BY ROOSEVELT

**WASHINGTON, Sept. 6.—(A.P.)—**President Roosevelt today urged easier bank credit to help the flow of credit and enable industry and commerce to take the fullest advantage of the National Recovery Act.

"I am confident you will work with me to meet the credit needs of industry and trade," he said in a speech read before the annual convention of the American Bankers' Association, attended by 6000 bankers from over the nation.

Two of the administration's spokesmen, Gov. Eugene R. Black of the Federal Reserve Board and Chairman Jesse H. Jones of the Reconstruction Finance Corporation, expressed in even stronger tones a demand that banks loosen their credit.

Black declared the government had made provision for the banks to make credit more abundant, saying: "Now, it's up to you to do it."

## Note Confessing Murder Doubt By Georgia Officials

**AUGUSTA, Ga., Sept. 6.—**Officials here yesterday were frankly skeptical of a "suicide note" found in Charleston, S. C., purportedly confessing the murder of a Georgia sailor.

The Rev. J. M. Williams is serving life sentence on conviction of slaying his son, Franklin Grady Williams, whose body was found near here three years ago after he had been home on furlough from the Navy.

## 2 Cases Appealed To Supreme Court

The Florida Supreme Court is being appealed to by the Atlantic Coast Line Railroad Co. and the Winter Park Furnace Co. In a review of damage suit verdicts rendered against them.

The railroad company seeks a rehearing of the Sam Kinlaw case which resulted in favor of the company, while the furnace company seeks a rehearing of the Hibbard Cannery case in which Mr. Cannery was given a verdict. Both cases are scheduled for hearing later this month.

## Citrus Exchange Officials Place Fruit Loss Caused By Storm At 18 Percent

**TAMPA, Sept. 6.—(A.P.)—**Florida Citrus Exchange officials announced the storm had caused an estimated loss of 1,200,000 boxes of citrus fruit, approximately 18 percent of the crop. The heaviest sufferer was Polk county, followed by Highlands, Bayard, St. Lucie and Indian River counties.

Relief workers in Florida today moved to care for a thousand families of homeless or in need because of the storm. The Red Cross, under Henry M. Baker, assistant national director, is already moving to aid those in distress.

## FEDERAL REINS TAKEN UP AGAIN BY ROOSEVELT

**WASHINGTON, Sept. 6.—(A.P.)—**President Roosevelt took quick command of the government plan to return from sea yesterday night within a few hours had been passed thoroughly by the cabinet and the progress of national recovery.

He went into immediate conference with State Department and naval officials in Cuba upon his arrival at the White House at 2 P. M. He then reviewed the whole course of domestic affairs with the Recovery committee.

## Money Available For Storm Relief In Stricken Area

**TALLAHASSEE, Sept. 6.—(A.P.)—**Marcelo Fagg, state relief director, announced last night he had received authority from Henry Hopkins, federal relief administrator, to use funds allocated to Florida in giving employment cleaning up storm debris.

Fagg said several hundred persons could be given such employment as part of regular relief work projects in the storm-stricken sections of the state.

## Drug Store Owners Will Meet Thursday

All drug store owners and operators in this city are urged to attend a special meeting of the Advisory Committee of the local NRA Campaign Army to be held in the City Hall Thursday night at 8:00 o'clock.

The meeting is being held for the purpose of clearing up several points of confusion which have arisen in regard to the druggists' participation in the NRA campaign.

## 14 ARE KILLED MANY HURT IN TRAIN WRECK

**Crack Erie Passenger Train Is In Fatal Collision Occurring In New York State**

**CLEVELAND, Sept. 6.—(A.P.)—**Vice President R. E. Woodruff, of the Erie Railroad, said the engineer of the milk train which ploughed last night into a waiting passenger train near Binghamton, New York, was aware he did not have a clear track.

Fourteen persons were killed in the wreck. Woodruff, who is in charge of Erie operations made the statement today after a preliminary investigation of the accident. The statement of the Erie vice-president appeared to contradict the quoted informal statements by Engineer M. H. King, of Elmira, New York, that he "didn't see the signal in time to stop."

## COUNTY BOARD HOLDS REGULAR MONTHLY MEET

**1933-34 Millage Has Been Increased By Over Seven Mills**

Although the Board of County Commissioners affected a one-quarter cent reduction in the county governmental departmental millage which they have control, the 1933-34 county millage has been increased by the Sanford district, 7.24 mills over what it was last year.

Increases of from 5.14 to 8.14 mills are required in other special school districts of the county.

## Sleeping Sickness Case Is Reported In Georgia Town

**QUILMAN, Ga., Sept. 6.—**A case of sleeping sickness, commonly known as sleeping sickness, was reported yesterday to the county health authorities by Dr. H. E. Sanchez who confided to a private sanitarium at Hartsfield a patient suffering with the disease.

The case is the first reported case of the mysterious not previously unknown malady in South Georgia or North Florida and is causing widespread interest and alarm.

## Expenditure Of Big Sum For Harbor At Miami Supported

**WASHINGTON, Sept. 6.—(A.P.)—**An expenditure of \$3,311,000 for the further improvement of Miami Harbor was recommended yesterday by Major General Lytle Brown, chief of army engineers, in a report forwarded to the Senate committee on commerce.

Brown recommended a 20-foot depth in the channel from the ocean to and in the turning basin at Miami, with the prospect widths now authorized including 300 feet in the channel across the bay. He estimated the annual maintenance cost would be \$9,000.

## Roosevelt Orders U. S. Battleship To Proceed To Havana

**MUCH DAMAGE IS DONE SEED BEDS BY HEAVY RAINS**

**CELESTINE GROWERS ESTIMATE THEIR LOSSES AT 50 TO 70 PERCENT**

Reports from all sections of the Sanford celery district, heard this morning after growers had made a close inspection of the damage wrought by the driving winds and rain of the past few days, indicate that growers lost from 20 to 50 percent of their seed beds, and that production of celery stands to be held back for at least two weeks.

Earlier estimates of damage, made yesterday noon, indicated that the loss would not exceed 25 percent, but the torrential downpour which fell over the area late yesterday afternoon as a final sign of the fast disappearing storm, inflicted additional damage.

Because of yesterday afternoon's heavy rain, sections of seed beds that had been only slightly damaged, suffered considerably as fast moving streams of water flowing from higher ground toward Lake Monroe, swept through the beds, cutting paths from 10 inches to three feet wide, and sweeping plants of all ages before it.

For several hours after 6:00 o'clock last night, practically every field in the entire district, on both the east and west sides, was under water, in some places as deep as two feet. Home after home in Celery Avenue was surrounded by knee-deep water which had not made its way into Lake Monroe until around midnight.

**THOUSAND MARINES ARE HELD IN READINESS ALTHOUGH INTERVENTION IS NOT PLANNED**

**WASHINGTON, Sept. 6.—(A.P.)—**President Roosevelt today directed Secretary of the Navy Claude Swanson to proceed directly to Havana aboard the cruiser Indianapolis. Swanson will sail from Annapolis today and will arrive in Havana Friday morning. Leaving the White House conference on the Cuban situation, Swanson said he would go directly to Havana. He added he had no specific orders.

Intervention is not contemplated it was said today, but neither will there be any lying back if foreign lives are endangered.

The battleship Mississippi was ordered to proceed to Cuban waters. A concentration of 1,000 marines was ordered at Quantico, Virginia ready to move in emergency.

State Department officials who recognized no fanatical masses among the new holders of Cuban power were frank to say they knew not what to expect, but it was evident they expected serious results from the swift overthrow of President Carlos Manuel de Cespedes and the sudden emergence of Cuba's army as the dominating factor in the future.

## Train Service Resumed After Slight Disruption

**WASHINGTON, Sept. 6.—(A.P.)—**An expenditure of \$3,311,000 for the further improvement of Miami Harbor was recommended yesterday by Major General Lytle Brown, chief of army engineers, in a report forwarded to the Senate committee on commerce.

Brown recommended a 20-foot depth in the channel from the ocean to and in the turning basin at Miami, with the prospect widths now authorized including 300 feet in the channel across the bay. He estimated the annual maintenance cost would be \$9,000.

**TRAIN SERVICE IS RESUMED AFTER SLIGHT DISRUPTION**

Train service into Sanford from the south was disrupted for several hours during the night, owing to a washout on the main line near Inter Ocean City, just south of Taft. However, service was resumed satisfactorily, and a noon train as well as the 6:30 o'clock train from Tampa this afternoon arrived and departed on time.

The south-bound train, which arrived here early this morning from Jacksonville, was detained at the depot until about 6:30 o'clock this morning, or slightly more than six hours.

The washout occurred in the lowland vicinity between Taft and Kissimmee. All automobiles held up since Monday afternoon because the roadway was "under water" to a depth which varied from one to five feet.

Automobiles are being rooted around the area, but in some cases, detours of nearly 50 miles have been necessary in order to get the cars through from Ocala to Kissimmee and onward.

His recommendation was "subject to the provision that no work on the deepening of the channel shall be undertaken, until local interests have furnished assurances satisfactory to the secretary of war that suitable and sufficient slips and berths adequate for the full utilization of the increased depth, will be provided at the terminals at Miami."
