Grand Jury Clears County Home Of Mistreatment Charge

Clean Bill Of Health Given After Inquiry

The Seminole Grand Jury this afternoon gave the County Home a clean bill of health and reported that charges of "misconduct and mistreatment were unfounded."

In a two paragraph statement submitted to Circuit Judge Roger Barker of Orlando, the jury found no evidence of mistreatment or mistreatment made against county employees at the County Home and as a result of a full and complete investigation into these charges, it has been determined that they are unfounded.

"The grand jury wishes to express its appreciation to the public officials who have assisted them in their performance of their job."

After the jury submitted the report to Judge Barker, the judge told them their term expired Nov. 6, and that unless other matters were brought to their attention their job was completed.

Last month, The Herald received a letter from a resident of the home claiming mistreatment of three residents there.

After an informal County Commission meeting, the board also gave home superintendent J. P. Boal a clean bill of health.

JOE BAKER

Baker To Stand For Re-Election

Mayor Joe Baker has officially announced his candidacy for a second term as a member of the Sanford City Commission.

"During the last three years," Baker said, "I have tried to represent all of the people of Sanford in a fair and efficient manner."

"I feel that the knowledge and experience I have acquired through operating my own business, plus the experience of helping run our municipal government, will qualify me for re-election in the eyes of the voters."

"It has been a great satisfaction to me to have been able to participate in the accomplishments of our city. I urge everyone to consider my voting record and feel free to ask me any questions."

Baker, 31, a lifelong resident of Sanford, is an owner-producer of Perfection Cooperative Dairy. He attended local schools, graduated from the University of Georgia with a degree in Business Administration and served two years as an Intelligence Officer with the Strategic Air Command.

He is a deacon in the First Presbyterian Church, vice-president and director of the Seminole County Farm Bureau, member of the Sanford-Seminole Jaycees and the Navy League.

Baker lives at 521 Plumosa Drive with his wife, Jean and children Susan, Cindy and Stephen.

Smathers Irked By OAS Lethargy

LAKELAND (UPI) — If the Organization of American States doesn't act soon to condemn Cuban Premier Fidel Castro, Sen. George Smathers says he will urge the formation of another hemispheric organization.

Smathers made the comment in a speech Wednesday night. Earlier he condemned the OAS for failure to act against the Castro regime.

Smathers proposed a NATO-type military force ready for mutual defense against Communism in this hemisphere. He said it would be formed outside the OAS.

Kennedy To Cut Spending In Face Of Huge Deficit

WASHINGTON (UPI) — President Kennedy, faced with a prospective federal deficit of nearly \$7 billion, told his Cabinet today that he intends to spend "substantially less" than Congress authorized for the current 12 months.

The White House did not say how big a tuck Kennedy will take in expenditures. But press secretary Pierre Salinger said this would be reflected in the mid-year budget review which will be made public Sunday night.

Kennedy, in a long statement to the Cabinet and a group of 13 agency heads, urged them to cut down all spending commitments "not absolutely necessary to the national interest at this time."

He also said he believed the government could function efficiently with fewer employees than Congress voted funds for. The White House declined to say whether this meant a reduction in the present federal force or a freeze on government jobs.

The president emphasized the need for a slowdown in spending programmed earlier this year for specific anti-recession purposes, saying the recuperative force of private enterprise has reversed the downward trend in income and employment and brought about a "steady and strong recovery."

Florida Ready To Slap Embargo On Livestock

TALLAHASSEE (UPI) — An embargo against shipments of most livestock into Florida was expected to go into effect momentarily today—intended to prevent a recurrence of screwworms in Florida.

Agriculture Commissioner Doyle Conner ordered the step Wednesday but did not set a definite date.

The order came on the recommendation of Conner's technical advisory committee on livestock. The committee acted on the advice of federal and state officials in Alabama and Georgia, who said they were experiencing a "critical" situation with screwworms and warned Florida to seal off its borders or face the same problem.

Oh That Rush! Let's Buy It Friday Night

Every week draws nearer to the coming holiday season and now is the time for shoppers to be looking over the wonderful stocks of gifts, clothing, appliances, furniture and many other needs and wants for the home and family and for personal giving.

Sanford merchants in the wide-awake, lit-up, music-enhanced downtown area are projecting Friday nights, when the stores are open until 9 p. m., as a good time to look things over, layaway, use your charge account, or buy now and they will hold it for you.

Merchants Gift Certificates in the amounts of \$40, \$30, \$20 and \$10 will be given away for the lucky ticket holders at the sound truck located on the corner of First and Magnolia at approximately 9:15 p. m., Friday.

A few of those gift certificates could go a long way to supporting that Christmas shopping list.

Sanford Plea For Higher Osteen Bridge Rejected

The approved Osteen Bridge of 25-foot vertical clearance and 50-foot width would not be a "serious detriment" to the proposed Sanford-Canaveral Canal said Max Brewer, a member of the Florida State Road Department, today in a letter answering the City Commission's protest to the present dimensions.

Brewer's letter, dated Oct. 18, was directed to Mayor Joe Baker and outlined, he said, the thinking of the Road Department on the Osteen Bridge.

Brewer said that no one had been able to give the board any assurance as to the year the canal would be built. He explained that the Osteen bridge would be only one of several conflicting structures along the proposed route of the canal.

He listed the other structures as a four-lane highway bridge on U. S. 1, a four-lane highway bridge on I-95, a two-lane highway bridge on State Road 46 and a railroad bridge on the Florida East Coast Railroad.

Brewer said that constructing a bridge of 45 feet vertical clearance and 90 feet width before the canal is definitely approved would require a greater expenditure of highway funds than is justified and that such bridge would be of no direct benefit to highway users.

"It would, in fact, benefit no one until and unless the canal is completed and at present we have no assurance of this," he said.

Brewer explained that when the canal is constructed it would be possible to build a detour, remove a part of the bridge structure and install a draw span. He said that this would cost more than a high level bridge built now.

"We have a choice at this time of either constructing the bridge on the basis set forth on the budget or delaying it indefinitely since the added cost of a 45-foot bridge is not available in this year's budget," Brewer concluded.

Navy Completes Jet Crash Probe

The Navy late Wednesday completed its investigation of an air collision of two jet bombers near the Sanford Naval Air Station Oct. 12, but said it would be some time before results of the probe are announced.

All six crewmen of the A3D Skywarrior jets were killed when the planes collided while practicing landings at Sanford, where they were based.

Capt. L. C. French, who headed the investigation board, said seven Navy men, all connected with the landing and air traffic systems at the base were called to testify before the board. They were not identified.

No charges have been made, said French, who is assistant chief of staff to Rear Admiral Joseph M. Carson, commander of Fleet Air Jacksonville.

The Navy also announced that night air traffic at Sanford was curtailed from Monday through Wednesday because the seven men called before the board were not available to perform their regular duties.

Kidnap Threat

ENCINO, CALIF. (UPI) — Police protection was given Kay Gable, widow of actor Clark Gable, early today following a report of a plot to kidnap her 7-month-old son, John Clark Gable.

GIs Force Way Past Vopos

Troops Escort American Into East Berlin

BERLIN (UPI) — The U. S. Army sent three jeeploads of armed soldiers, with guns loaded, past Communist guards today to escort an American civilian sedan into East Berlin.

For the second day in a row, U. S. troops drove into East Berlin to show American determination to keep the divided border open to Western traffic.

Five tanks and four armored personnel carriers roared up to the border when the civilian car first was stopped at the crossing point this afternoon. They stood fast as the jeeps—one in front and two behind—escorted the vehicle past the Red guards.

The combat-clad soldiers in the jeeps carried M-14 rifles with fixed bayonets and had their sub-machine guns cocked and loaded. The convoy went through the zig-zag maze put up by the Communists to slow traffic.

Once past the checkpoint and the Communist guards, the civilian car disappeared into the motorway and disappeared into East Berlin. The jeeps came back at high speed and a few minutes later, the civilian car also returned.

Earlier, the Communists stopped a U. S. official in civilian clothes who was carrying a message from Berlin's American commandant to the Soviet commander. He was permitted to cross into East Berlin only after he changed into an Army uniform.

The later incident came at mid-afternoon.

Five tanks and four armored personnel carriers roared up to the border. Four jeeploads of U. S. military policemen, wearing bullet-proof vests and steel helmets, fixed bayonets on their M-14 rifles. One of the tanks was going so fast it shot about five yards into East Berlin before it was stopped and turned around.

West Berlin police cleared the streets in the area of automobiles, and pushed back a crowd of about 500 spectators about a block.

Loses Appeal

TALLAHASSEE (UPI) — Emmett Monroe Spencer, sentenced to death for a Florida Keys bludgeon slaying that his girl friend said was his third murder, lost an appeal to the State Supreme Court Wednesday.

Frank G. Lucey First To Qualify At Casselberry

Frank G. Lucey qualified Tuesday and became Casselberry's first candidate to enter the Dec. 4 election contest.

Running on an independent ticket, Lucey will seek a seat on the Board of Aldermen where terms expire this year for Lytle Swaps, present chairman of the board and Ben Evans.

In his five-point platform, he proposes a municipally owned road maintenance department; enforcement of existing ordinances rather than creation of new ones covering many of the same problems; the division of the town into wards or precincts with responsible representatives from each to provide the town government with pertinent information concerning problems or improvements vital to the welfare of each section; streamlined board meetings with allotted time for public question and answer periods and creation of supervised neighborhood playgrounds for younger children.

Lucey says he believes all of the proposals have a strong reason and that they would go far toward making a better town for all concerned.

Other offices open are those of the mayor, the town clerk and town marshal. Candidates may qualify and voters may register at the offices of Mrs. Lillian Beisel, clerk, in the Town Hall on Tuesday and Thursday mornings of each week through Nov. 24.

Drought Spreads Across South

United Press International

Winds of near hurricane force pounded the Great Lakes and rain fell from New York to Virginia and Illinois today but the drought continued unabated in parched Dixie.

Western Pennsylvania's mountains got their first freeze.

A low pressure in south-east Canada produced rain from Chicago to the Atlantic and gales on the Great Lakes. Texas had thunder storms.

Extended drought brought forest fire warnings from Florida to southern Illinois.

A nearly rainless six-week period has forced closing of some parks and recreation areas in Dixie.

CD: What Do We Want?

The Herald is conducting a straw poll to determine just what the people want in the way of Civil Defense.

The sample ballot will be run each day for a two week period with the results made public Nov. 3.

Sample Ballot

(All Ballots to Herald Editor)
(Please answer yes or no)

- 1—Are you willing to pay for a half million dollar Civil Defense program?
- 2—Do you favor a skeleton warning system proposed by Civil Defense Director A. B. Peterson Sr. at a cost of \$16,000?
- 3—Do you favor a full warning system proposed by Peterson at a cost of \$32,000?
- 4—Do you favor not spending one dime more for Civil Defense than the \$1,000 appropriated this year?
- 5—Any other suggestions?

Name: _____
Address: _____

CD Section Today

Included in today's Herald is a four-page section on Civil Defense dedicated to the personal survival of the people of Sanford and Seminole County. It contains information which will benefit everyone.

Additional copies can be obtained from the Seminole County Civil Defense headquarters at the St. John's Realty Co., 116 N. Park Ave.

The section is sponsored by the following business establishments in cooperation with the director of Seminole County Civil Defense:

A. Duda and Sons, Slavia; Chase and Co., Sanford; Citizens Bank of Oviedo; Florida Jail Alot, Inc., Fern Park; Florida State Bank, Sanford; Hunt-Lincoln Mercury, Sanford; Nelson and Co., Oviedo; St. John's Realty Co., Sanford; Sanford Bank; National Bank, Sanford; Herald, South Seminole Bank, Fern Park, and the North Branch of the Winter Park Federal Savings.

By LARRY VERHEL

What's this about County Judge Vernon Mize and City Judge Ken McIntosh taking up weight-lifting?

The word around the courthouse is that department heads are really "bumming" over the 15 parking stalls placed in back of the facility. Seems the majority of them don't feel that the County Commissioners need five reserved places while their office staff is left out in the cold. One official told us: "They're here once every two weeks. Why do they need a special place?"

The new vote precinct 22 will be your Home Food service plant at 410 W. 13th St. Supervisor of Registration Camilla Bruce tells us that post cards will be sent out early next week to notify some 8,000 voters of a change in their precincts.

Insiders have been wearing "I told you so" looks these days with the formal incorporation of a non-profit organization to extend legalized gambling to include casinos and state controlled lotteries. State Rep. Mack Cleveland was cornered on this issue and told me, he would never vote for any extension of legalized gambling. "The only reason I voted for the horse track here was because it was a mandate of the people."

By the way, Florida only permits gambling on jai-alai, and on horse and dog races at present.

And wasn't the state's attorney asked to look into lottery operations in the area?

Attention Halloween Revelers. A word to the wise: Don't steal anybody's mailbox or something worse than a hubbubbin is likely to get you. Conviction of willfully damaging a mailbox carries a maximum penalty of \$1,000 or imprisonment for up to three years.

REMEMBER — Friday is the last day to register to vote in the city election Nov. 7.

City Manager W. E. Knowles warned residents to be on special alert for solicitors in the city. "We are being mobbed by them," he added. He urged all residents to call his office or the police department before purchasing anything from a solicitor.

Hoffa Loses In Election Ruling

WASHINGTON (UPI) — Teamsters Union President James R. Hoffa suffered a legal setback today in his efforts to block the anticipated defection of 2,000 teamsters in the Cincinnati area.

Federal Judge Alexander Holtzoff rejected the union's request to halt a National Labor Relations Board representation election scheduled for next Tuesday.

About 2,000 employees of Cincinnati area dairies and ice cream plants are scheduled to choose between Teamsters' Local 98 and the rebel union led by James Luken, a long-time Hoffa foe.

Hoffa, who was in the courtroom, said his union would appeal the ruling.

Luken's local already has voted overwhelmingly to leave the teamsters and apply for an AFL-CIO charter.

ON HER WAY to the Mrs. Florida Contest in West Palm Beach is Mrs. John Randall, "Mrs. Seminole County" who is ready to step into this new 1961 Mercury, the use of which was given her by her sponsor, Hunt-Lincoln-Mercury Motors. The contest is sponsored by the West Palm Beach Jaycees. Mrs. Randall lives at 161 Bombay Ave. in North Orlando Homes and has two sons, Mark two and Scott, four. She is a hazel-eyed brunette and a part-time photographer's model. The contestants will be judged on the basis of poise, good grooming, personality and ability to answer the questions of the judges. (Herald Photo)

'Building Shelters Not Un-Christian'

A number of Sanford ministers disagree with the published statement of a well-known Orlando pastor that it is un-Christian to build fall-out shelters.

Speaking in a panel discussion, similar to the "Pastor's Study" program heard over Radio Station WSPF on Sunday afternoons, a group from the Sanford Ministerial Assn. answered questions put to them by the Kiwanis Club members.

On the panel were Rev. Ernest Bolick, Good Shepherd Lutheran Church, who served as moderator, Rev. James Barnett, First Christian Church; Rev. John Adams, First Methodist Church; Rev. Herbert Goerse, Lutheran Church of the Redeemer and Capt. Richard Clark of the Salvation Army.

The question asked the panel was: "Do you agree with Dr. Anderson's published statement that he felt that it is un-Christian to build fall-out shelters?"

Rev. Barnett said that he disagreed and explained that he felt that it is a man's responsibility to protect his family and his children in any way he can from whatever danger they face.

"God gave man a brain to use," he said, "and here is a good example of man's own personal responsibility."

Rev. John Adams stated that he believes that everyone should take whatever protection he can.

"This could be likened to a vaccination," he said, "unpleasant to have to go through, but necessary to protect us from a far worse possibility."

"I do not believe that it has any bearing on our faith in God," said Capt. Clark, "for 'faith without works is dead.'"

Other questions on which the ministers had divided opinions were "Will there ultimately be a unification of Protestant churches? Is this wise? What would be the major problem of unified churches?"

The allotted time ran out before the panel was able to discuss all the questions which were handed in and Rev. Bolick, the moderator, told the audience that the remaining questions would be discussed and answered if possible on the regular Sunday program.

FAT OVERWEIGHT

Available to you without a doctor's prescription, our drug called ODRINEX. You must lose ugly fat in 7 days or your money back. No strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies, or chewing gum. ODRINEX is a tiny tablet and easily swallowed. When you take ODRINEX, you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions because ODRINEX depresses your appetite and decreases your desire for food. Your weight must come down, because as your own doctor will tell you, when you eat less you weight less. Get rid of excess fat and live longer. ODRINEX costs \$2.00 and is sold on this GUARANTEE: If not satisfied for any reason just return the package to your druggist and get your full money back. No questions asked. ODRINEX is sold with this guarantee by: Fausta Drug Store - Sanford - Mail Orders Filled.

Site Changed For Substitute Teacher Course

A course for substitute teachers, sponsored by the Adult and Vocational Dept. will open Monday at 7 p. m. at Seminole High School.

The course was originally planned for Lyman High School, but Sanford seems to be the most convenient location for the majority of persons interested in taking the substitute teacher course.

The instructor will be Mrs. Margaret Golt, supervisor of elementary education. There is no charge for this course and all those on the approved substitute list, or who wish to have their names placed on the list, are eligible to attend.

Biennial School District Election Stated Nov. 7

The Biennial School District Election will be held on November 7, in Seminole County as well as in other counties of the State. At the election three trustees will be elected for the next two years. The Trustees have the responsibility of acting as an Advisory Board to the County School Board, and to make recommendations on the employment of instructional personnel.

Mr. and Mrs. H. E. and Mrs. Margaret Ebelberger both from School Board Member District No. 1, in Sanford, are candidates for the position. Also Ray Slaton of Sanford from School Board Member District No. 2 and Fred Bistling from School Board District No. 3 are up for re-election. Only one trustee may come from any School Board Member District.

The Board of Public Instruction by law cannot exceed a levy of 20 mills for the operation of schools. Ten of these mills may be levied by the School Board. This is called the County School Fund and the millage is set at 2 mills for this school year. The other ten mills, or the amount the School Board needs to operate the schools are voted on by the qualified electors of the county.

Two years ago the citizens of the county authorized the School Board to levy 8 mills in the District Building and Bus Reserve Fund. The Board did not use all of this millage because the re-assessment program went into effect shortly after the election. This year the Board is using 2.75 mills in the District and 1 mill in the District Building and Bus Reserve Fund. On Nov. 7 the voters will be asked to vote the same millage in the District for the next two years, 2.75 mills District, 1 mill Building and Bus for a total of 3.75 mills.

Benefit Dinner For Annual Party Set In Longwood

Longwood Firemen reminded residents today of the turkey dinner to be staged from noon until 8 p. m. Sunday for benefit of the Annual Community Christmas Party.

Bill Baumholser, owner of the Pit Barbecue Restaurant where the dinner will be served including take out orders, will turn all proceeds over to the City to be used for this year's party.

Members of the Volunteer Fire Dept. will be in charge of arrangements for the Christmas celebration when Santa visits Longwood and gives gifts to several hundred youngsters.

Bob Crumley Agency

FA 2-0375

Dear Abby:

DEAR ABBY: Our 15-year-old son worked during his summer vacation. He delivered for a drug store at night, and took care of the neighbors' lawns during the day. He saved about \$300.00, and wants to buy an old wreck of a car with it. His Dad saw the car and said it wasn't safe to drive. Besides, his grades are just average, and we don't want him to have a car. He says he earned the money himself, and should be able to do what he wants with it. Is he right or are we?

SONNY'S FOLKS

DEAR FOLKS: As parents, you should have better judgment than your 15-year-old son. Don't permit him to get an "old wreck of a car" if you feel he shouldn't have it. If he wanted to spend all his money on pie, and eat himself sick, would you let him just because it was "his" money?

DEAR ABBY: I am 76 years old. Your stories about the "whistlers" gave me a glow. But I have one that tops them all.

One morning my phone rang. I said, "Hello." A gentleman said, "We are testing the line, Madame, will you please whistle a few notes into your telephone?" I whistled a few notes. Then he asked, "Will you please step back a few feet and whistle the same notes again?" I com-

By Abigail Van Buren

plied. Then he said, "Now stop a few feet to the right of your posse and whistle them again." I did. "Now stand to the left and whistle," he requested. I obliged. Then he said, "Thank you, Madame, you will receive your package of bird seed in the morning." And he hung up. I can laugh about it now, but I certainly felt like an old fool.

M. F. E.

DEAR ABBY: I am a high school girl who gets mostly A's. Some of my close friends always ask me if they can copy my homework. I don't want to lose their friendship, but I don't think it's fair that I should sit home doing homework while they're out somewhere, and then give them my answers. Can you tell me how to handle this problem so I won't appear to be mean and selfish?

STUDENT

DEAR STUDENT: Handing out homework is a poor way to show friendship. If your "friends" don't do the work themselves, when test time comes, they'll be stuck. Tell them firmly that you are sorry but can't do their work for them. If you lose their "friendship" because of this, it was a shallow friendship from the start.

CONFIDENTIAL TO JEFF: Watch out! When that girl selects her target, she MRS. it.

We The Women:

By Ruth Millet

"Bend, straighten, stretch. Bend, straighten, stretch."

What's going on?

Just housewives in one of the thousands of exercise classes all over the country, bending, stretching, and twisting to get or keep themselves in shape.

Why do housewives need exercise? Don't they get enough exercise taking care of their houses? Not any more, they don't.

At least, not those who can afford all the new labor-saving devices, each one guaranteed to cut physical activity to a minimum.

The ladies say "wonderful" every time they come across a new gadget to keep them from exerting physical effort. (Now there are even electric can openers).

Anything that will cut down on walking, stooping, reaching, bending, lifting, beating, or standing is a "must" for the well-equipped housewife.

So the lucky homemaker who has all of the latest labor-saving devices hardly has to move her muscles at all.

Then what happens? Why, the

housekeeper wakes up one morning to the shuddering realization that she is going soft—that what she needs is EXERCISE—just what she has been trying to avoid.

So she joins an exercise class and drives to it every day to put herself in the hands of a trim, young teacher who makes her do all the exercising from which modern inventions have delivered her.

She bends and twists and stretches to muscle to keep herself in shape. Kind or ironic, isn't it?

Jacoby On Bridge

By Oswald Jacoby

In the early days of contract the jump raise from one to three was played as a strong, but not absolutely forcing, bid. Today most players use it as a forcing bid if the man who gives the jump raise has not passed. But if he has passed, it merely shows 10 to 12, or possibly 13, supporting points.

North has just about the ideal hand for this bid. He has 9 points in high cards and 12 points in support.

South probably should have passed at three spades. He had a real minimum opening, but South was one of those players

NORTH (♠) 28	K 9 7 3	Q 10 9 2	A 8 7 5
WEST	J 10	A J 8	K 8 6 5
EAST	A 7 6	Q 8 5 3	K 8 5
SOUTH	A Q 8 5 3	K 4	Q 10 3 2
Both vulnerable			
North	East	South	West
Pass	Pass	1♠	4♠
Pass	Pass	4♠	Pass
Opening lead—A ♠			

who believes in playing every hand in game.

He was lucky enough to make it, with an overtrick. He won the trump opening in his own hand and promptly laid down the king of hearts. West grabbed the trick and led a second trump. South won that in his own hand, led the four of hearts and finessed dummy's nine.

He had nothing to fear since if the finesse lost he would be able to discard a club and a diamond on the last two hearts in dummy.

When the finesse worked, he played dummy's queen. This dropped the jack, whereupon South still got his two discards. This left him with only three diamonds. He lost one and ruffed the other two in dummy.

Highlights

7:30-8:30 p.m. (CBS) Frontier Circus — "Dr. Sam." Too long away from the TV screen, Irene Dunne lifts a 20-20 story to provocative, sometimes even eloquent, heights. Miss Dunne plays a femme doctor, frustrated by refusals of circus men — some shy, some outraged — to submit to her examinations. Playing her role with humor and restraint, Miss Dunne is aided nicely by Ellen Corby, as her nurse. Regular stars are Chill Willis, John Derek and Richard Jaeckel. Jay Silverheels ("Tonto" of "The Lone Ranger") is prominent as an Indian Chief.

7:30-8:30 p.m. (ABC) Ozzie and Harriet — "David Goes Back to Work." Life begins when the honeymoon is over; that is, office life, for David, just returned with his bride, June. He promises to keep in touch with her from the office. First day back with his law firm, and trouble begins. Work interferes with romance, proving that when love mixes with law, it

usually spells trouble, even for newlyweds.

8:30-9:30 p.m. (NBC) Dr. Kildare — "The Million Dollar Property." On a movie lot, a beautiful blonde may shine as a star, but at Blair Hospital, and especially to Kildare, she rates as strictly a patient. What's more, the doc, not overawed by blonde bombshell Kathy Stebbins (Anne Francis), takes a dislike to a

group of Kathy's rat-pack pals. The clan, headed up by Jan Murray, includes Joby Baker, Evelyn Ward and Tony Monaco. Cathleen Nesbitt appears as drama coach. Fresh background for a medic chapter, effectively handled throughout.

Auxiliary Plans

Hobo Party

Friday Night

The Ladies Auxiliary of the Fleet Reserve Assn. are sponsoring a Halloween "Hobo" party Friday night at the FA building on the lake front. The fun starts at 6:30 p.m. It is a costume affair and all those not in costume will be subject to a fine.

Hostesses for the event are Mrs. John K. White, Mrs. Robert French, Mrs. Wametta Cheser and Mrs. Vernon Feddersen. For reservations, please call one of the above committee members no later than tonight.

Highlight of the evening will be the appearance of a water-gate guest and anyone able to identify this person will win a prize. Lots of food, fun and games have been planned, so all members are expected to make their plans to attend.

Keep silver and glassware to an absolute minimum when serving on card tables.

Miss Nioka Lee Bowling Marries William C. Darling

Miss Nioka Lee Bowling, daughter of Mr. and Mrs. Chester Bowling, East Second St., Sanford, and William Charles Darling, son of Mr. and Mrs. Elmer F. Darling, 13 Stanley Drive, Syracuse, N. Y., were married Oct. 16, at 6 p.m. at the Central Baptist Church in Sanford.

Rev. Gail Smith, pastor, officiated at the double ring, candlelight ceremony.

The church was decorated with basket arrangements of white gladioli and candles. Mrs. R. D. Offenberg, organist, presented a program of nuptial music, including the traditional wedding marches.

The bride, given in marriage by her father, wore a white length dress of white net over taffeta, with net jacket, and carried a colonial bouquet of white carnations. Her shoulder length veil was attached to a headpiece of white satin, trimmed with seed pearls.

Miss Nancy Bowling, sister of the bride, was maid of honor and wore a semi-formal gown of pink chiffon, white accessories and carried a colonial bouquet of blue carnations.

Miss Janice Lott was junior bridesmaid and wore a blue party dress with white accessories and carried a bouquet of pink carnations.

Wayne B. Winters was best man and serving as ushers were John H. Keith and George Steve Bowling.

Miss Debra Kay Bowling, flower girl, carried a basket of white flower petals and scattered them in the path of the bride.

Mrs. Bowling chose for her daughter's wedding a pink crepe dress with matching lace jacket, white accessories and a white carnation corsage.

Following the ceremony, a reception was held at the home of the bride's parents. The refreshment table was centered with a three tiered wedding cake, surrounded with fern. Margie Keith,

Camella Muse and Jeanette Lott helped serve the cake, punch and coffee to members of the wedding party and friends.

The bride, born in Kentucky, is a graduate of the Oneida Baptist Institute, at Oneida, Ky. The family moved to Sanford two years ago and she has recently been employed by the Celery City

Printing Co.

The groom, a native of New York, attended schools in Syracuse and has been serving with the U. S. Marine Corp for the past three years.

The couple will make their home at 612 East Second Street, while the groom is stationed at the Sanford Naval Air Station.

MIR. AND MRS. WILLIAM C. DARLING (House of Rahija Photo)

Catholic Women To Attend Special Meeting Sunday

The officers and board members of the All Souls Catholic Women's Club urge all the ladies of the parish to attend the Eucharistic Congress to be held in St. Petersburg this Sunday.

Solemn Pontifical Mass for the Congress will begin at 11 a.m. After the Mass, the various parishes will take their turn for Adoration in one half hour periods. All Souls Parish will have the period from 4 to 4:30 p.m. Final Procession and Benediction will begin at 4:20.

A large representation from All Souls Catholic Women's Club is anticipated.

Story League Gives Birthday Program

Since this week marks the beginning of the Sanford Story League's 15th year of study and service through storytelling to Sanford and Seminole County, Mrs. W. L. Roche, program chairman for the occasion, presented a birthday celebration program at the Episcopal Parish House.

Symbolism was used to picture the history of the local Story League. As each past president, wearing a ribbon to show the years of her presidency, lighted her candles from that of her predecessor in office, she gave a short resume of the accomplishments and joyous occasions which highlighted her year in office.

A large representation from All Souls Catholic Women's Club is anticipated.

other officers were installed at a previous meeting.

Mrs. Ruth B. Scott and Mrs. B. C. Moore were welcomed as guests. Mrs. Williams announced plans for a workshop to be held in January. Mrs. Snyder appointed a membership committee for the year 1961-1962 composed of Mrs. R. F. Moule, Mrs. Roche and Mrs. Tench.

Following the meeting coffee and cookies were served to 25 members and guests. The table was charmingly arranged with a pink and white floral centerpiece and silver and crystal appointments. Hostesses for the evening were Mrs. C. C. Howard, Mrs. R. C. Long and Mrs. K. V. Mykkanen.

Church Calendar

FRIDAY

Church-wide Mission Study and family supper, sponsored by the WMS of First Baptist Church, Supper at 6 p.m. followed by class period and study at 7 p.m. The book "Hands Across the Sea" will be taught by Mrs. John Maguire of Jacksonville. Class is for young people, WMS members and brotherhood.

The Sunbeam Mission Study is scheduled for the same hour.

Friendship Night Observed By OES

Friendship night was observed at the recent meeting of Seminole Chapter 2, Order of Eastern Star, with 116 members and visitors present.

Visitors from other chapters in District 24, conducted the opening of the chapter.

Distinguished visitors included, Mrs. Ula Chilton, past grand organist of the Grand Chapter of Florida; Mrs. Okella Elrod, grand instructor for District 24 and Robert Davenport, committee member for Grand Chapter to the Pusan Children's Charity Hospital fund.

Mr. and Mrs. C. A. Thompson of Birmingham, Ala., frequent winter visitors to Sanford and the chapter, were also present.

The program centered around the theme "The Trinity," of the Worthy Grand Matron, Mrs. Helen Leinhardt. She has used, for her year, the triangle and the words of life, light and love and the star points representing these symbols

were filled by the Marthas, Electas and Esthers of the district.

A poem, with apologies to Joyce Kilmer, was read entitled "I Think That God Will Never Send a Gift so Precious as a Friend."

Guest officers who served were presented gifts by the worthy matron.

Mrs. R. F. Cole sang appropriate solos during the program. The chapter and dining rooms were decorated with glorious lilies and arrangements of croton leaves.

Refreshments of apple punch and gingerbread were served by Mrs. Mamie Warner, Mrs. Stella Moore, Mrs. Iva Wight, Mrs. Doris Stein, Mrs. Vera Williams and Mrs. Ella Rae Dunn.

Officers' Wives Of VAH-5 Enjoy Luncheon

The Officers' Wives of VAH-5 met at the Cherry Plaza for a luncheon and to bid a special goodbye to Mrs. A. W. Smith, Mrs. G. E. Jessen and Mrs. C. B. Schoonover.

Small gifts were presented to the three members who are leaving the squadron but not the area.

Hostesses, Mrs. R. H. Stolpe, Mrs. Jessen and Mrs. A. W. Thompson, used a bright Halloween theme or orange and yellow for decorations. The main attraction was a large pumpkin representing the squadron insignia "The Mush-Mouth."

At a brief business meeting, conducted by the skipper's wife, Mrs. A. W. Smith, it was announced

that VAH-5 would be responsible for the thrift shop, next month.

Others present were Mmes. R. E. Farmer, J. L. Shipman, G. W. Govan, R. D. Murphy, C. N. James, R. D. Cook, V. D. Monroe, C. L. Fitzpatrick, R. W. Repp, W. M. Hardman, J. L. Morgan, J. T. Palmadge, W. D. Shattuck, R. E. Watson, D. E. Boose, J. A. Latherow, K. R. Hamilton and T. H. Mathews.

The regular monthly bridge session of the group was held at the BOQ with Mrs. Farmer serving as hostess. Four tables were in play and high score award went to Mrs. Repp and low to Mrs. Betty Lackey.

SANFORD

Not Black, Or White

Pacifism, nuclear or otherwise, is always with us. It rises to peaks when war threatens or arms races gather speed.

Somehow, in this era, Britain seems to have become its focal point, with philosophers, playwrights and other notables going to jail, and the "ban the bomb" clamor a steady thing in London streets.

Naturally the Communists muddy the pacifist waters, as they do all others. Yet the sincere pacifists in Britain and elsewhere deserve the fullest respect for their views.

Some will argue that they speak for the conscience of mankind, that violence is foreign to the best in the human spirit and must be assailed whenever it threatens.

Few men can quarrel with this as a pure principle. Yet some will contend that the very "purity" of pacifism is gained at the price of total divorce from the world's other hard realities.

Thus the pacifist seems to be saying that any kind of living—even slavery—is better than any kind of violence, and especially nuclear violence, in the defense of freedom.

Many pacifists strike a posture suggesting they alone reflect human nobility, and that men who build defenses, test nuclear bombs and erect military posts are betrayers of mankind.

Dr. Robert Tucker, an international relations professor at Johns Hopkins, hits directly at that pose. By exalting nonviolence above all other concerns, he says in a New Republic article, pacifists simply can ignore the "uncertain and disputed contingencies marking every conflict situation."

"Even more important, absolute pacifism relieves its adherents from the constant necessity of distinguishing among greater and lesser evils, and from the nagging uncertainty that nearly always attends the act of choosing to preserve some values at the expense of others."

Nuclear pacifists generally assume that if bombs are made and tested, they will be used and humanity will be either annihilated or harmed beyond recovery.

Others contend, however, that it is just as likely—if not more so—that the East-West nuclear stalemate that has prevailed for some years will go on and on.

The pacifists, in other words, would yield the West's nuclear deterrent because they conceive the only real alternative is destruction. Their case is simple—and thus pure. The question is whether it is a good one.

It is fair to suggest that the really noble men may be those who grapple in the world arena where the choices are hard, the risks incredible, the dangers of war ever near, but the rewards in freedom infinitely superior.

Dr. Crane's Worry Clinic

CASE K-284: Emil R., aged 30, has been married twice.

"And he is now wanting to divorce his second wife," Emil's sister informed me.

"We don't know what to make of Emil. Oh, he was always spoiled, for he was the baby of the family."

"When he got home from the army, he fell in love and wanted to get married. But he had no job."

"So my father gave him a wedding present of \$5,000 to help set him up in business."

"But in 3 years, he was broke. And he was likewise soured on his marriage, so he divorced his wife."

"He moved to a different town. Then he married another girl and I understand her father gave him several thousand dollars to start up a grocery business."

"But he has failed again. Now he is back and wants my dad to give him \$7,500 to go into a new business raising chinchillas. Dr. Crane, what do you think?"

"Would you advise giving a kindergarten child \$7,500 for any kind of business. Certainly not. Why?"

"Although he is 30, he is still an adolescent in his emotions. For

you can differ in your various ages, such as your mental age, your physical age, your emotional age and your business age."

Emil is an adult in his I.Q., for he had one year of college. And he is a busy 6-footer, so he is physically mature.

But in his emotions he is scarcely 16, and in his business experience, he isn't a 12-year-old.

For a newspaper boy has more financial gumption and practical business experience than this 30-year-old.

You parents must never mistake physical adulthood for business gumption. So don't subsidize any child in a business unless he has previously shown his adeptness therein.

And if you readers are intoxicated by glowing sales stories about huge profits in any new venture, whether it be running a gas station or raising chinchillas, sober up by following this formula:

First, get a job on salary with somebody else who is already in the business you are interested in.

Let this established operator then teach you the tricks of the trade at his expense, as by working for him at least 6 months or longer.

SEAT FOR ONE, NO TROIKA

Roy Cromley

Political Notebook

WASHINGTON—(NEA) — It's going to be a different Army by the time the research men get through.

Army medics are looking for an electronic gadget that will diagnose sick GIs. The doctor would feed in the results of laboratory tests, X-ray shots, physical examinations and his own observations.

Out would come a precise diagnosis. If the machine couldn't make up its mind it would produce a list of possible diagnoses along with a list of things the doctor should do to find the answers for an accurate solution.

The medical men say the gadget should "assist, rather than replace, the diagnostician."

The medics are also thinking of missiles as a way of getting wounded men quickly off the battlefield and back to hospitals 200 miles in the rear.

They are looking into artificial hibernation—by means of a chemical—to keep wounded men in suspended animation so they won't "deteriorate" too badly before being treated thoroughly.

The Army medical men are trying to find a chemical that GIs can use to paint their hands and faces to artificially toughen themselves against wind, cold, sunlight and enemy gases.

They're also looking for a "mechanical liver," an insect-repellent pill GIs can swallow and a way to immunize large groups of people quickly with gases.

The Army engineers want to develop a way to "efficiently" transmit electrical power without wires. They want a chemical that can be sprayed in the air to cause bad operation of enemy high-voltage lines, but not to destroy them.

Object: to cut off power from enemy industry, but in such a way that the power could be used to get industry going again immediately after United States forces capture the territory.

The engineers want "diving rods" devices that would discover underground water supplies when nuclear attacks contaminated normal water sources.

They're seeking some light foam that can be sprayed over a battlefield immediately after a nuclear attack to moderate the radiation, make it possible for U. S. troops

to safely, quickly move in and occupy the area.

They want another foam so strong it could be sprayed out and used for the rapid building of bridges.

The Quartermaster Corps wants to find some simple way to predict quickly what any given GI will do in extreme situations. They want to know his breaking point.

The QMC men want to know what's the best thing to feed men when they're under military stress. The idea: to develop a special ration for front-line troops.

They also want to find some simple way to forecast which GI will do best in the desert heat, which one best in the Arctic cold.

That's so the Army can send the best-qualified men to any particular battlefield.

The Signal Corps researchers aim at developing completely unattended radio transmitting stations to save manpower, and flying platforms for short, quick intelligence missions.

The signalmen also want to develop a telephone system on which military men speaking different languages can talk and have their words automatically come out in the language of the man at the other end.

This system is needed for the North Atlantic Treaty Organization and for other armies which include units from several countries.

Hoffa Libel Suit Excludes Reuther

DETROIT (UPI)—United Auto Workers Union President Walter P. Reuther was conspicuously absent from the AFL-CIO officials named in a \$1 million libel and slander suit filed Monday by James R. Hoffa and his Teamsters Union.

The suit named the AFL-CIO, its President George Meany and 24 of its vice presidents—but not Reuther. It was based on remarks made by Meany at a recent AFL-CIO meeting in New York.

Teamsters attorney William E. Bufalino said Reuther was not present at the meeting because he was tied up with auto industry labor negotiations and that the teamsters did not believe he shared Meany's views.

IBM machines are wondrous gadgets, but they have nothing on the experts who make the college football ratings each week.

Between Saturday sun-down and Monday morning these men place the nation's teams in order of merit, beginning with No. 1 and going right on down to No. 20.

This is wondrous — probably the most wondrous of things that happen in the fall of the year, and I do not exclude the changing of the leaves, or the taking on of protective coloring by our little friends of the woods.

Consider what these experts do, and how they do it.

Hundreds of teams play each Saturday, over a vast range that runs from Nome to Key West.

More than two of the teams in action and quite often one or several of them are bedded with flu, grip, or thrush and see no game at all. That doesn't even come them to book odds. When the scores are all in, they retire to the quiet of their studies and — presto! — the

teams are lined up as orderly as teeth in a dentists ad.

It's an awesome performance, surrounded by an air of mystery, and it's hard to believe that it is performed, week after week, by ordinary mortals who wear trousers, sire children, and need electric blankets in winter.

I wish I could see one of these wonderful men at work. It would be a thrilling experience to look in on an expert in, say, Pullman, Washington, on a Saturday evening or Sunday morning.

Is there a flash of electric fire when, without so much as a moment of deliberation, he puts Idaho School of Bookbinding in 19th place and Fextrot Teachers in 12th?

above tells the expert that 12th not 18th or 9th or 18th is the exact spot for Fextrot Teachers? Would he be struck down by a bolt if he had put Idaho School of Bookbinding in 33th?

To reach his decisions on teams he has never seen, the expert must

feed himself a mass of data, digest it, and come up with the answers in a time that an electronic brain would envy.

Before he can rank a team, the expert must know the caliber of its opposition, the weather (did it handicap or help?), past performance, and a score of other factors, including physical conditions of the teams.

The more one thinks of the feat of rating college teams precisely, the more one is inclined to believe that it is a gift given to a select few, like the ability to cross Niagara on a tightrope while playing a bass fiddle, wiggling the ears, or keeping a family budget.

My college is now in 104th place, and I am miserable. I only hope that in a few weeks it will have so

will get to 103.

The ratings are taken very seriously by football buffs, players, and coaches. There is a dress on the campus when a team slips from 11th to 14th or, what is worse, drops clean out of the first or second 10.

what's new?

everything but the name!

You've heard rumors, talk, guesses about an altogether new kind of Ford to be announced in a few weeks. Now here are the facts. You will want to consider them carefully, because *this car is like no other new car you've seen this year*—unique in size, unique in price, unique in the advantages it offers you. Body, engine, transmission, suspension—the very proportions of the automobile—everything is completely new, everything but the name. We sincerely believe it will be one of the great Fords of all time.

Right size, right price
Galaxy and Falcon

The name is both familiar and famous. We have called it the Fairlane 500 after one of the most popular Fords ever built—but only the name is the same. In every other respect nothing's borrowed, everything's new.

Just right for just about everybody, the newest of Fords is in a class by itself. It will bring you big-car room, luxury and performance in a car that competes with the compacts in price and economy. It is priced well below the Fords that used to bear its name. It is priced under many compacts.

New unitized body... shaves bulk... saves room

As a first step in building the new Fairlane, Ford engineers took a fresh look at the proportions of the American automobile—and realized it was time to change the relationship between inside room and exterior size. They started with a full-size passenger compartment. They would not settle for less—because this was designed to be, above all, a fine car. At the same time they wanted to get rid of all automotive fat—those extra inches of steel that make some cars hard to park and expensive to run.

The solution: a completely new unitized body that gives you room on the inside and eliminates bulk on the outside.

New room, new comfort, new luxury

On the inside the new Fairlane 500 is actually bigger, roomier than the majority of the cars on the road today.

On the outside everything is different. With one foot less to park, the Fairlane 500 is the trimmest, sleekest automobile you have ever seen or driven.

Inside and out, it is in every respect a fine car, giving you every important luxury you want in full-size fine cars. Even the smallest details have been planned and executed with a jeweler's concern for precision.

Twice-a-year maintenance

Routine service has now been reduced to a minimum—30,000 miles on many items, no more than twice a year or 6,000 miles on the rest.

The new Fairlane 500 will travel 30,000 miles between major lubrications, 6,000 miles between oil changes and minor lubrications. You go two years, or 30,000 miles, without changing engine coolant-antifreeze. The car adjusts its own brakes, saving you those time-wasting little trips to the garage.

Introducing the world's first economy V-8

A new foundry technique, perfected by Ford, made possible a completely new V-8 engine of precision-cast iron, almost as light as engines made of less economical, less durable lightweight metal. Developed exclusively for the new Fairlane, the new Challenger V-8 is the world's happiest combination of performance and economy. Crisp, quick and eager, its thrust is a delightful surprise!

If you're looking for even greater savings, your natural engine choice would be the new Fairlane Six. Many compacts would envy its gas mileage figures.

The first of a new generation of automobiles

You have seen cars that were supposed to be in a new class—the intermediates—but which turned out to be slightly enlarged compacts or somewhat abbreviated big cars. The car you haven't seen yet is the first fine car that puts economy first. It will be at your Ford Dealer's in a few weeks. See it then.

JUST RIGHT FOR JUST ABOUT EVERYBODY!

IF YOU'RE INTERESTED IN AN A-1 USED CAR BE SURE TO SEE YOUR FORD DEALER.

Youth Council Plans Halloween Dance Saturday

The Youth Council, sponsored through the Recreation Department, held its first meeting of the school year recently. Members who are from the Junior and Senior High Schools, made plans for a joint Halloween dance on Saturday from 7:30 to 11:30 p.m. at the Civic Center. Free refreshments will be served.

Music will be furnished from the juke box.

Three transistor radios will be given away as prizes. Students are requested, but not required, to wear costumes. Admission will be 35c stag or 25c drag.

Chaperones, for the dance, will be parents and teachers from both schools selected by Youth Council members. Immediately following the dance, there will be a movie shown at the Ritz Theater.

All students must have Civic Center cards to attend the dance. Cards may be obtained at the Recreation Department Office located at the Civic Center Monday through Friday from 8:30 to 11:30 a. m. and 12:30 to 5:30 p. m. Those living outside the city limits must pay their non-resident fee at the City Hall before obtaining a card.

BUSY PRINTING AND SELLING tickets for the Band Barbeque, Saturday, are these band parents, who all have lots of tickets for sale. From left are Mrs. Clyde Humphrey, ticket chairman, Jim Hunt, president of the Band Parents Assn. Chief Elmer Avenel, barbeque chairman, Mrs. Jack Horner, co-publicity chairman and Mrs. Charles Lee, treasurer. Tickets will also be available at the barbeque on the Elks Club grounds. The Shrine Club will be open for those who prefer to eat inside. (Herald Photo)

Lyman Students Attend Convention

By JANE CASSELLBERRY

Six representatives of the Lyman High Student Council attended a district convention at Daytona Beach last Saturday.

Following a program of musical selections from the Maynard Evans High School Chorus of Orlando, attending students heard a thought-provoking address entitled "What is my Excuse for Living?" The remainder of the meeting was spent in discussion by small groups where students talked of functions expected from the councils and compared rules and regulations of various schools represented.

After the meeting, the boys and girls enjoyed fried chicken box lunches and a visit to the boardwalk.

Making the trip from Lyman were Dawn Barnes, Elizabeth Lunn, Linda Douglas, Gail Palmer, Ruth Wright and Larue Balmor. Accompanying the council members were Ralph Brewer, sponsor of the group, and Mrs. Virginia Champion.

Lake Monroe Jottings . . .

MRS. H. L. JOHNSON

Good afternoon to you. Bet there has been a lot of heaters put into running order this week. And it is supposed to be Indian Summer. . . . Ed and Chris Grow have returned to their home in Miami after a two weeks visit here with relatives. . . . The Brownies will hold an investiture service next Tuesday at 2:30 p. m. at the Monroe School. Parents of future Brownies are invited. According to their leader, Louise Thompson, they are planning a trip to the planetarium in Orlando in November. . . . Come one, come all, that is the call right now coming from the Wilson School. They are having their Annual Halloween Carnival this Saturday starting at 5 p. m. There will be booths of all kinds, such as fish pond, spook house, etc. Also sloppy Joes, hot dogs, pie, coffee and cold drinks. A king and queen will also be crowned later in the evening. The proceeds from this will go toward the purchase of electric clocks for the class rooms and also books for the library. So go out and have a wonderful evening of fun. . . . Mr. and Mrs. Joe Meisch went by plane to California to visit with daughter Clara and family. . . . L. E. Stevens has been confined to Seminole Memorial Hospital where he recently underwent surgery. . . . The Seminole County Home Demonstration Council will serve the birthday cakes at the USO next Tuesday. . . . That is also Halloween. Kiddies, when you go trick or treating, please be careful and above all, please don't be destructive. You can have a lot of fun and don't eat too much because you will have a tummy-ache and can't go to school the next day. Give to UNICEF if they call on you. . . . All of you lovers of football, follow the crowd Friday evening to Leesburg where our Seminoles will be playing. We certainly hope they will beat Leesburg and keep that unscored upon record too. I understand the Band has worked up a new routine which they will give during the evening. I really enjoy watching them. . . . Daughter Shirley and I visited the Orange County Home Demon-

Halloween Party Slated Saturday

The Anna Miller Circle is sponsoring a big Halloween Dance at the Elks Club Saturday for Elks, Anna Millers, Does and their guests.

There will be an orchestra for dancing from 9 p. m. to 1 a. m. and everyone is invited to come in costume, prepared for an enjoyable evening.

Prizes will be awarded for the best costumes, a spokesman said.

To Aid Enterprise

Carroll Peterman and Miss Helen Snodgrass, co-chairman of the Enterprise Blood Bank, today reminded residents of the area that blood donations to the local bank may be made from 4 p. m. until 7 p. m. Thursday at the Orange City Library Hall.

Seminole P-TA To Meet Tonight

Parents of Seminole High School students will have an opportunity to confer with high school teachers at a Parent-Teacher meeting in the cafeteria at 7:30 p.m. today.

There will be a short program of announcements by Principal A. J. Bracken, with the entire remainder of the time given over to the teacher parent discussions.

To help the conferences along, refreshments will be served.

Jayvees Romp Over Lakeview

By PETE LAYRUE
Herald Sports Editor

The Seminole High Junior Varsity Football team finished out the 1961 gridiron season here Wednesday night undefeated in all five games as they overran the Lakeview Junior Varsity Red Devils 34-0.

Winning its fifth and final game of the season, the Junior Varsity "B" Squad tied the all-time seasonal scoring record of 148 points in five games by a Seminole High Junior Varsity team. The Junior Seminoles will share scoring honors with last year's Junior Varsity team which held the previous record.

Junior Varsity Head Coach Ralph Stumpf was pleased with his team's 12 straight victories and their second consecutive undefeated season. "All I can say

is I'm mighty happy. We're had a fine year and a fine group of boys," the Coach said.

The scoring for the Seminole "B" Squad began halfway into the first quarter. Right End Dave McGillis crossed the goal line for Sanford, scoring the first touchdown of the game. Right halfback Lloyd Freeman made a successful kick for the conversion point. End Billy Higgins intercepted a pass intended for the Red Devils and returned the ball for Sanford about ten yards downfield for a first and ten. Fullback Jack Casolo, top scorer for the team, made a successful 30 yard run for a first down.

With 28 seconds in the first quarter left halfback Jim Westlund drove through the Lakeview defensive players to score Sanford's second touchdown. A kick by Lloyd Freeman for the extra

point was tried and made, bringing the score for the first quarter to 14-0.

Early in the second quarter a successful pass thrown by Seminole star passing quarterback Billy Lovelace was completed by halfback Floyd Freeman for a good 33 yard touchdown play. Freeman's attempt for the conversion point was no good, leaving the score at halftime 20-0 in favor of the Seminoles.

Offensive-defensive Line Coach Bud Laver found that his linemen were holding their own against the Red Devils. The Seminole backfield lost no time in finding weaknesses for the Sanford offensive push. Yardage was made by Casolo, McGillis, Westlund, and Freeman.

The second quarter saw another well-thrown scoring pass by Billy Lovelace. The receiver was Dave

McGillis. The ball traveled a smooth, unwavering arc for 45 yards to be caught by McGillis who chucked up the fourth "B" Squad touchdown. The point was made by Lloyd Freeman, bringing the score at the end of the third quarter to 27-0.

In the fourth quarter Bill Bassett intercepted a pass intended for a Red Devil receiver. McGillis completed several tackles for the Junior Varsity, holding the Lakeview offense. Dan Tillis made a several yard return for the Seminoles.

The last touchdown of the game was made by Billy Higgins who threw a short pass to Dave McGillis for the six-point, extra-point for the extra-point, made by Lloyd Freeman, bringing the final score in the final game of the season for the Seminole Junior Varsity 34-0.

Lyman Ranked Fourth In Grid Poll In State

Lyman Head Coach Bill Proctor's undefeated Varsity Greyhounds of Lyman High School have received a number four Dunkel High school football rating in their class. With six wins and no losses behind them, the undefeated Greyhounds claim the fourth place gridiron berth among the state's independent schools.

The Greyhounds with one of their best football seasons in Lyman High history have totaled 170 points in six gridiron contests. The average points per game is the highest in Central Florida at 28.33. The Greyhounds have had only 19 points scored against them by their opponents, leaving the Lyman team with quite an outstanding record.

Slow motion action films of last week's Greyhound 42-18 triumph over the varsity players of South Sumter High School were shown Wednesday night at the weekly meeting of the Longwood Boosters' Club. Weaknesses in the Greyhounds' defense were evident from the films and steps will be taken to correct them before this week's football competition.

Halfback Paul Blackford still leads the Greyhounds as the team's top scorer, in six games, Blackford has piled up an impressive 66 points, at an average of 11 points per game. An almost two touchdowns per game record is a good mark up for any player. Besides leading the team in scoring, Blackford is among the backfield players making the most number of tackles in the season.

Halfback Jim Williams comes in second in the record book of points scored by an individual player. Williams has scored 57 of the total 170 points the Greyhounds have marked up this season. For each of the six games, Williams boasts an average of 9.5 points. Yardage seems to be one of Williams' accomplishments as his passing and rushing gains are among the highest for the Greyhounds.

Another top scorer and the third member of the Lyman Triple-threat backfield is Carl Presley. Presley has scored a total of 28 points for the Greyhounds this season with a game average of 4.33 points.

A BEAUTIFUL CATCH of large-mouthed black bass were boated by these two happy fishermen, J. D. Dreggers, left, and Homer Stoffer, right. The two men lean back on the lines to hold up the 16 black beauties several of which weighed between five and eight pounds. Caught over near Grassy Point, the bass "bit just about anything we threw at them," the fishermen reported. (Herald Photo)

Gator Homecoming Game Saturday

GAINESVILLE—Blend a strong running game with an improving defense, mix in a potent passing game and add the flavor of Homecoming spirit for spice and you have the ingredients of Florida-Louisiana State football game at the Gator Field Saturday afternoon at 2 p.m.

Both Florida and LSU have strong attacks and they don't mind staying on the ground. The Gators have pulverized five foes for 1,000 rushing yards while the Tigers from the Bayou have ground out 829 yards.

The Gators have also run up 36 first downs on the ground and the Tigers have counted with 31. However, defensively, LSU has allowed only 18 moves of the chain marker on the ground. Coach Ray Graves' defenders have been moved backward 31 times.

Both clubs can throw the ball and have to deceive the opposition. Larry Libertore has hit on 12 of 30 tosses for 237 yards and two touchdowns. Bobby Dodd Jr. has completed 12 of 26 for 200 yards and a third score. Junior signal-caller Lynn Amadee is the Bengal's top thrower with 24 for 38, good for 293 yards and one touchdown.

This strong dual attack could spice up what many considered to be a Southeastern Conference defensive battle. It will be the 11th meeting of the two teams. LSU has won five, the Gators, four and the 1953 game was a wild 21-21 tie. The last time the Tigers visited

Florida Field, they twisted the Gator's tail, 9-0. All-America Billy Cannon was the key man for Coach Paul Dietzel then but the man who put the game under wraps—halfback Wendell Harris—is back for his senior year.

Harris bounced a field goal off the cross bar and over to elude the win. Last year's 15-10 win in Baton Rouge also had its high-light.

Before the 47,000 partisan Bengal fans had been seated and had turned around to watch the game, Libertore had broken over tackle on the option play and had gone 66 yards to score.

More of this same explosiveness is expected this year. The SEC

struggle between the two schools has provided many big name stars. Jimmy Taylor, Cannon, and now Harris and big Earl Gros, a 215-pound fullback, are the Tiger names. Jammy Dunn, Jim Rountree and now Don Goodman and Libertore are the Gator yard-gainers.

Both teams have rugged defenses. The Tigers have permitted only 387 yards rushing in five games, a little over 73 per game. The Gators have shown marked improvement and became the first team to contain Vanderbilt and hold them scoreless.

Despite this defensive strength, look for the offense to provide the excitement.

Prize Awarded In Kegler Loop

Sales manager Emmett Farrell of Holler Motors Co. paid a visit to the Friday Morning Holler Motors-Navy Wives League last week to award a prize for the high series with handicap which was won by Clara Barber with a 590 score.

The 87 split was made by Irene Dukak, the 3-10 by Fran Mackey, the 5-10 by Louise Cadenhead and the 5-7 by Peggy Mashburn.

High game of 187 bowled by Clara Barber put VAA-8 Officers Wives in first place with an 18 1/2 win and 9 1/2 loss. The Navy Wives Club 211 is in second place with an 18 win, 10 loss record. The VAA-7 Enlisted Wives team is in third place with a 16 1/2 win-12 loss record.

Lyman Jayvees Play Tonight

The Lyman High School Junior Varsity Greyhounds will play host to the Kissimmee Kowboys today at 7 p.m. at Lyman field in a gridiron contest that could give the Lyman Junior Varsity its third straight win of the season.

The Lyman "B" Squad has a 2-1 record in games played this season. After dropping their opening game of the season to Brooksville with a score of 13-0, the Junior Varsity Greyhounds rallied to two successive wins. In their first game with the Kissimmee Kowboys, Lyman walloped Kissimmee 12-4. Their toughest win of the season was two weeks ago as the Lyman "B" Squad edged Apopka 20-19.

Top Lyman Junior Varsity scorers Right Halfback Dave Haines and Left Halfback Pete Carlson, the players who scored the winning points in Lyman's win over Apopka are expected to start in these positions for Lyman.

Motorcade Set For Leesburg Game Friday

Booster Club sponsors announced today there will be a motorcade to Leesburg Friday as the Seminoles make a bid for their sixth victory of the season.

Sheriff J. L. Hobby will lead the motorcade which will form in the parking lot of Seminole High School and leave promptly at 6 p. m., escorted all the way by the Sheriff and his deputies.

All team boosters are invited to decorate their cars and join the parade.

Rodriguez Holds Sahara Golf Lead

LAS VEGAS, Nev. (UPI)—The younger generation, ignoring the temptations offered in the world's greatest gambling city, are giving the seasoned pros the works in the \$18,000 Sahara pro-amateur golf tournament.

As the final day of competition got underway today on two courses, there was only one well-known player among the top eight.

The leaders were Juan (Chico) Rodriguez of Puerto Rico, a tiny, 116-pound shotmaker who powers the ball with the lightning-fast handsome Tony Lena, a slender, tall 26-year-old from San Leandro, Calif.

NCAA Probing Athletic Standards

NEW YORK (UPI)—The National Collegiate Athletic Association (NCAA) is studying a proposal which would establish minimum scholastic standards for athletic eligibility.

The special gambling report was submitted to the council by Prof. Henry B. Hardt of Texas Christian University, the president of the NCAA. It will be studied again at the annual NCAA convention in Chicago, Jan. 11-12.

Before concluding its meeting, the NCAA council also listened to a plea by the Athletic Association of Western Universities (Big Five) to limit the advance scheduling of college football games.

Some schools now are scheduling games six or eight years in advance, the Big Five said in its report.

The West Coast group listed four advance results of such scheduling:

1. It "decreases the chance of close competition when the teams finally meet." A game that looks mighty attractive when the contract is signed may be a complete mismatch by the time it's played six years later.
2. It "slows down" any change in annual opponents which a school may think "advisable."
3. Athletic directors and coaches often find themselves trying to live with a schedule that is not of their own choosing, one that was drawn up by their predecessors several years earlier.
4. If a conference wants to admit a new school to membership, it might be years before the school could arrange a good conference schedule.

ago, Lombardi has been able to guide the Western leaders to a 20-6 records on all other NFL fields. But at Milwaukee the team is a poor 1-4.

"I guess we're just playing the tough teams there," he said. "I don't know the answer myself."

A bit of sunshine started peaking through the gloom this afternoon, however, with the announcement that Hornung may be rejected for military service because of long standing trouble with a vertebrae in his neck.

A Milwaukee newspaper The Milwaukee Journal said Hornung took a special physical examination at the Army's main recruiting center here Tuesday.

It Never Rains, It Pours For Lombardi, Packers

GREEN BAY, Wis. (UPI)—Green Bay Packer Coach Vince Lombardi is rapidly learning the meaning of the phrase "it never rains but what it pours."

First came the news that Paul Hornung and Ray Nitschke had been called to active duty. Then, Wednesday, the XIV Army Corps confirmed that flanker back Boyd Dowler has been activated also. That made three starters off a team that won the Western Division championship last year.

To top it off, Lombardi is faced with the prospect of playing next week's game in Milwaukee County Stadium—a "jinx field" as far as he's concerned. Since coming to the Packers three years

ago, Lombardi has been able to guide the Western leaders to a 20-6 records on all other NFL fields. But at Milwaukee the team is a poor 1-4.

"I guess we're just playing the tough teams there," he said. "I don't know the answer myself."

A bit of sunshine started peaking through the gloom this afternoon, however, with the announcement that Hornung may be rejected for military service because of long standing trouble with a vertebrae in his neck.

A Milwaukee newspaper The Milwaukee Journal said Hornung took a special physical examination at the Army's main recruiting center here Tuesday.

Seminole Area Edition

COUNTY NEWS

THURSDAY, OCTOBER 26, 1961

PAGE 12

EDITORIAL COMMENT

Is Interest Lagging?

Local elections, other than in Sanford, are scheduled within the next few weeks in four Seminole County municipalities.

Voter registration books will be open and candidates must qualify during the month of November in Oviedo, Casselberry, Longwood and Altamonte Springs.

Apparent interest in the localized elections has not been evidenced to any great extent as yet. Only one candidate from any municipality has definitely announced his intentions to seek office.

Four short weeks at this busy time of year can pass quickly and if the voters are to be given the opportunity to hear and study platforms of their candidates in order to cast a wise vote, these candidates should be prepared to qualify within a few days after the books open.

The need for capable men and women to serve in all municipal posts becomes a matter of much greater importance as each area grows. And, in the face of predicted population increases in all parts of the county during the next 12 months, the coming elections should be the main item of interest to voters and candidates alike.

Post 256 Name Voted By Casselberry Legion

By JANE CASSELBERRY

American Legion Post 256 of Casselberry, at a meeting last Friday night at the Casselberry Community Center, voted to honor as Memorial Post 256 in honor of all young men from the community who gave their lives while serving their country.

Kenneth Moyer, sixth district commander from Orlando, reported on the National Legion Convention held in Denver, Colo. last month and stated that membership in the district has shown a decided increase during the past year.

South Seminole Democratic Women Set Installation

Executive Board members of the South Seminole Democratic Women's Club, meeting Tuesday morning at the home of their president, Mrs. Hope Bennett, in Casselberry, set the date of their installation luncheon for Nov. 9.

Installing officer will be Mrs. Eva Palm of New Smyrna Beach, vice president of the Fifth Congressional District. The luncheon will be held at the King and Prince Restaurant at the Seminole Raceway in Casselberry and is scheduled to begin at noon.

Invitations are being extended to all women of the area who are interested in joining the South Seminole Club and to members of the Democratic Women's Club of Seminole County through their president, Mrs. Kathleen Reynolds.

Mrs. Bennett asks that those planning to attend make reservations by contacting her so later than 2 p. m. on Nov. 7.

Audubon Chapter Sees Program Of Tour Pictures

By MRS. ADAM MULLER

Those attending Monday's 7:30 p. m. meeting of the Seminole Chapter, Florida Audubon Society, held in the School Farm Building in back of Sanford Junior High, saw a program of pictures on the Audubon Caribbean Tours shown by Dr. Lois Wells of DeBary and Ethel S. Gray, president of the chapter.

Arrangements for showing the picture collections were made by James S. Sims, program chairman.

Future tours announced included the Eleuthera, from Nov. 9 through Nov. 12, and the Grand Bahama from Nov. 23 through Nov. 26. Departure for each tour has been set in West Palm Beach on Thursday morning with return set for the following Sunday afternoon.

THE ALTAMONTE SPRINGS CIVIC LEAGUE sponsored its annual Tea to welcome all newcomers in the area at the Community House on Wednesday of last week. Mrs. Milton Tinsley, left, past president, welcomes Mrs. Judy Proter, a new resident of the community, as one of the first visitors during the afternoon. (Herald Photo)

Enterprise P-TC Discusses Items Needed By School

By HELEN SNODGRASS

Members of the Enterprise Parent-Teacher Council, at the October 25 meeting, discussed the need of a radio at the school which could be turned to Conelrad stations at all times for Civil Defense purposes, suggesting that one be purchased with available funds or that perhaps someone in the area might donate one to the school.

The need for a water cooler on the second floor also was stated and persons knowing where either the radio or cooler, or both, could be purchased at a reasonable price under the conditions were asked to contact L. O. Hayman, principal of the school, or Mrs. Pat Hatchett, president of the P-TC.

The group agreed that the membership drive goal should be set at 100 per cent parent participation for each grade, however, rooms will be graded in the program on a percentage basis due to variation in number of students. Stamp Day was set to begin this past Monday with Mrs. Peggy Drach to be on hand each Monday morning during the drive to sell stamps in each classroom.

Hayman expressed the school's appreciation to Darwin Bruce who supplied clay to fill in several holes in low spots on the playground.

Following the room count, which was won by the first grade, the film entitled "Your Child's Intelligence" was shown after which refreshments were served by homeroom mothers of the fifth grade.

The group agreed that the membership drive goal should be set at 100 per cent parent participation for each grade, however, rooms will be graded in the program on a percentage basis due to variation in number of students. Stamp Day was set to begin this past Monday with Mrs. Peggy Drach to be on hand each Monday morning during the drive to sell stamps in each classroom.

Hayman expressed the school's appreciation to Darwin Bruce who supplied clay to fill in several holes in low spots on the playground.

New Homes Area Under Construction Near Lake Mary

A new 100-acre housing development of all Medallion Homes now under construction in Seminole County was announced last week with the first section tentatively scheduled to open late in November according to Charles Seligman and Nelson C. Flick, developers.

Approved by FHA, homes in the new subdivision may be financed under FHA or through First Federal Savings and Loan Assn. of Sanford under the firm's conventional financing terms.

The area, to be known as Park Royal Homes, is located on County Road 80, south of Lake Mary and will have its own water and sewage plant, paved streets, sidewalks and street lights plus an approved drainage system for all lots and streets.

Executive Board Of Women's Clubs Meets With Casselberry Member

By ATLANTA McGINNIS

Mrs. Albert Grimwood of Lotus Lake Dr., Casselberry, was hostess at a noon luncheon for members of the Executive Board of the Seminole County Federation of Women's Clubs last Friday.

Board members present were Mrs. Charles Rust, president; Mrs. Milton Tinsley, vice president; Mrs. Grimwood, second vice president; Mrs. C. M. Flowers, corresponding secretary; Mrs. B. R. Gray, recording secretary and Dr. Gertrude Forman, chaplain. Mrs. J. D. Morrison, treasurer, was unable to attend.

Business discussion of the meeting centered around a number of fund-raising plans for the coming year and announcements of several upcoming meetings in November.

Included on the calendar for next month is a covered dish luncheon on Nov. 16 when the Sanford Women's Club will be hostess to all clubs of the Federation. A board meeting at 9:45 a. m. will precede the general business meeting at 10:30 a. m. with the luncheon to follow at noon.

This meeting, to be held at the Women's Club building, 313 Oak Ave. in Sanford, was set ahead for one week since the regularly scheduled date falls on Thanksgiving.

THESE CASSELBERRY YOUNGSTERS will join those of the Community Methodist Church to "Trick or Treat for UNICEF" on Halloween Night. Pictured receiving an advance contribution from Mrs. I. G. Reuter are, from left, Keith Wayne Poole, Terri Reuter, Darwin Poole, Greg Poole and Cathy Casselberry who just might have a hard time disguising those curls. (Herald Photo)

Casselberry Children To 'Trick' Ghosts Of Illness And Starvation

By JANE CASSELBERRY

Children from the Sunday School Departments of the Casselberry Community Methodist Church on Halloween Night will join more than two million other boys and girls in America who will devote their evening's fun to save lives of children in more than 100 underdeveloped countries aided by UNICEF, the United Nations Children's Fund.

Under supervision of the Women's Society of Christian Service, the Casselberry youngsters will call on their neighbors for contributions and will be identified by orange tags and stickers bearing the UNICEF symbol when they "Trick or Treat for UNICEF" between the hours of 5 p. m. and 7 p. m.

At the close of the two-hour period, collections will be brought to the church to be counted while the children enjoy an hour of games and refreshments.

This program is sponsored nationally by the U. S. Committee for UNICEF and last year small coins collected for the Children's Fund totaled \$1,750,000.

Broken down into terms of aid for human suffering, this figure gains a tremendous meaning, for statistics show that one penny can provide the vaccine to protect a child from tuberculosis; one nickel can supply penicillin to cure a child of yaws; one quarter can save a child from blindness of trachoma and one dollar can supply 500 glasses of skim milk.

It is with these figures in mind that members of the WSCS say, "If a spook or goblin rings your doorbell on Halloween chanting 'Trick or Treat for UNICEF,' please welcome him for he will be collecting 'treats' of coins to 'trick' the ghosts of illness and starvation."

Veterans Plan Super Meeting

World War One Veterans of Barracks 486 will meet at 6:30 p. m. Friday for a covered dish supper at the American Legion Home on Hwy. 17-92 just south of Sanford.

During the regular business meeting to follow at 8 p. m., the final convention report on legislation and the Christmas program will be discussed and nominations for 1962 officers will be made according to W. F. Coveney, barracks commander.

All World War One veterans and their wives are invited to attend the supper, bringing their covered dish and table service and also are urged to have a good attendance at the business meeting in order that capable officers may be nominated to keep the barracks alert and working, Coveney said.

Nurse Reports On Volusia Work

By MRS. CLARENCE SNYDER

Mrs. Olive Seymour, supervisor of Volusia County public health nurses, was guest speaker at a recent directors' meeting of the Volusia Home Nursing Association.

She reported that demands on services offered through the association exceed those anticipated and said that nurses working in the program receive magnificent praise. Many seriously ill patients have said they could not have had proper care due to lack of finances without the willing and able work of the dedicated nurses, she said.

The association is a non-profit organization and is financed by civic groups and individuals who contribute to the program. Donations may be mailed to E. T. Lloyd, treasurer, in DeLand, according to officials of the organization.

Young Republican Officials Address DeBary GOP Club

By MRS. ADAM MULLER

Members of the DeBary Republican Club, meeting at the Community Center last Thursday, heard addresses from Hubert H. Hevey Jr. of Daytona, organizer of Young Republican Clubs in the area and John Jacobs, representative of Stetson's Young Republicans. Jacobs invited members of the local club to attend meetings of his group which are held twice each month.

Opening remarks of welcome to members and guests from Thornton K. Smith, president, and a program of musical selections presented by Mrs. William Burnett, Mrs. Adam Muller, Miss Adelaide Conte, Mrs. Charles Bartsch and Mrs. Louis St. Amant preceded the guest speakers' appearance.

During the business meeting following the talks, club members voted to donate \$10 to the DeBary Emergency Committee and \$25 to the Volusia County Committee. Plans also were made for a Christmas party and meeting for the third Thursday in December.

Guest At Assembly

Sgt. Z. V. Smallwood, from the Orlando headquarters of the State Highway Dept. of Public Safety, was guest speaker at the Enterprise School Assembly on Wednesday. During the program, Smallwood showed films entitled "You and Your Bicycle" and "In Step With Safety."

Chairman Hopes To Make Carnival At Altamonte 'The Biggest Yet'

By ATLANTA McGINNIS

This year's Altamonte Elementary P-TA Halloween Carnival to be held on the campus Saturday, will feature a country store, a cake walk and a spaghetti dinner.

Mrs. W. L. Swofford, general carnival chairman, has announced that serving of the dinner will begin at 5 p. m. and that its preparation will be under the supervision of Mrs. Catherine Grim, head dietician for the school.

Others to be in charge of various projects named by Mrs. Swofford included Mrs. Martha Hedrich, bean bag booth and hamburger, hot dog, and soft drink stands; Mrs. Blanche Houlihan, six fish pond and grab bag booths; Mrs. Colleen Hedley, five additional grab bag booths and the cake walk; Mrs. Nita Norris, miniature golf, the talent room, two dart game booths, a water gun booth and the "plate in basket" booth; Mrs. Janice Snover, spook room, record hop, country store and ice cream and popcorn stand and Mrs. Christine Elliott who will serve as general chairman of the dinner and of the bake sale.

A hay ride is included on the entertainment schedule and sweat shirts and T-shirts embossed with the school's name will be on sale.

The celebration will open at 3 p. m. with the grand march and judging of costumes set for 4 p. m. to be followed by the moderately priced spaghetti dinner with plates available for both adults and children.

Mrs. Swofford invites residents of the Altamonte area, and of surrounding areas, to attend, bringing all members of their immediate families, their guests and relatives.

"Last year's carnival was a big success and P-TA and faculty members are trying to make this one an even bigger success. We'll see you at the Altamonte School Saturday for the biggest Halloween Carnival yet," she concluded.

Casselberry Lions Complete Home

By JANE CASSELBERRY

Casselberry Lions were told at a meeting last Thursday that the retirement home built as a money-raising project by the club on Kentia Rd. in Casselberry, has been completed and that \$106 in additional discounts had been donated by suppliers and subcontractors.

Leonard Casselberry reported on activities of Boy Scout Troop 241, which is sponsored by the Lions, telling of the recent 15-mile weekend hiking trip to Lake Jessup and of the troops attendance at the Silver Springs Camporee.

He advised that Scouts had made \$130 by passing out handbills during the past months and now are selling light bulbs to raise money for the purchase of a second-hand bus.

Milton Freeman, president of the club, was welcomed back at his first meeting since recovery from a recent illness and greetings also were extended to W. Hugh Duncan of the Sanford Club, a candidate for District Governor 35-0 and to Neil Altman, Victor Viner was accepted as a transfer member from the club in Wheaton, Md.

Myrl Kiehligher of Daytona Beach, district governor, will attend next Thursday's meeting of the Casselberry Lions.

United Citizens Set Party Plans

Final plans for Saturday's Halloween Party for United Citizens of Casselberry were announced today by Mrs. Milton Lady, chairman of the entertainment.

Open to the residents of the area who are interested in joining the organization, either as a member of for the evening, the party will begin at 8 p. m. and will be held in the Women's Club Building on Overbrook Dr.

Costume dress will be optional, however prizes will be awarded for the funniest and the prettiest costumes, Mrs. Lady said.

Following a brief opening business session, the evening will be spent in playing games, with prizes to be given winners, and in old-fashioned group singing.

Assisting Mrs. Lady with party arrangements are Mrs. Edward Lunn and Mrs. Paul Lewis.

Southside Classes Begin Next Week

Sanford residents who have registered for a Personal Survival Course to be sponsored by the Southside Primary School will meet for the opening class next Thursday instead of today as was previously announced.

Although sponsored by Southside, classes will meet for four consecutive Thursdays, beginning next week, at 7 p. m. in Room 410 of Seminole High School.

SECOND GRADERS of the Enterprise Elementary School pictured preparing their Fish Pond for Friday's Halloween Carnival are, from left, Annette Watson, Wimberly Bryan and Jimmy Lashley. The annual celebration on the school campus is scheduled to open at 5:30 p. m. with a Costume Parade and promises to be "fun for everyone." (Cox Photo)

The Only Protection Against Fallout - Preparedness

In history books and picture post-cards one can see today the beautiful old castles of Europe. These castles were not designed, not built, to take their place on picture postcards! They were built for the purpose of defense. The high, thick walls on a high hill, or on the lower lands with a wide moat of water surrounding it; the castles of the Middle Ages were to defend the local population from invaders who might come to take their land and wealth, and along with it the lives of the defenders, so that they might not live to retaliate. Today, TV gives us an adequate history of the early days of our country when stockades were erected against the Indians; it is also a well known fact that those who did not band together for defense, and erect a stockade against the Indians, did not live to tell about it. So it has been throughout the ages that mankind has struggled to survive. In this day of modern warfare, nuclear warfare, the basic concept has not changed. There are still those who would deprive the people of their land, their substance, and their freedom; and in the course of such action, many would lose their lives. The realities of World War II and the Korean conflict are still with us. There is little doubt in the mind of anyone that we are willing to fight for, and defend our way of existence. However, in this day of the nuclear weapon, the average citizen cannot just pay his taxes, support Armed Forces, and sit back with the feeling that all is taken care of. The people of the United States have not suffered, as the Europeans did during World War II; the devastation and involvement of an all-out war. You well know that in the missile age no spot on earth is safe from attack. You well know that to support one man in battle against the enemy takes a tremendous amount of industrial might which is run by a large group of non-military citizens. In the event of nuclear attack upon this country the disruption of our industrial and governmental machine would be tremendous. Those areas not in the immediate area of dropping bombs would have disruption of government, communications, transportation, flow of food supplies and most necessities of life. Our military forces would be completely occupied in defending the country against invasion by the enemy, or mounting an attack upon the enemy's country, in order to terminate the war. It would be necessary for the average citizen to survive the attack rebuild the factories, restore law and order, and render the support necessary to the Armed Forces.

This Is Your Civil Defense

The Federal Government of the United States in past years has appropriated approximately \$0.33 per person for Civil Defense, or \$75,000,000. This can be compared with a high for Sweden which appropriates approximately \$5.30 per person and has tremendous mass shelters for their large cities. It is estimated by reliable research that Russia expends between \$500,000,000 to \$1,500,000,000 per year for Civil Defense purposes. In addition Russia requires that each citizen take a minimum of 22 hours instruction in Civil Defense. The United States is one of the few countries throughout the world which has not had an adequate Civil Defense program. You as a citizen, constitute the United States;

you as a citizen, constitute the Civil Defense program; it is up to you as a citizen to see that your local, state, and national governments are properly prepared and organized for Civil Defense; and it is up to you to see that you are personally prepared!

Just What Is Civil Defense

1. STOCKPILING OF MATERIAL, FOOD, MEDICAL SUPPLIES, MUNITIONS AND STRATEGIC MATERIALS

Unknown to the average tax-payer, this stocking of materials, metals, medical supplies, food, and other materials needed for us to survive as a nation, has been in process for some time. Our government recognizing the need for such action, has taken it! There are many who have thought that it was a waste of the taxpayers money. I am sure that you will realize that it is the same as the insurance that you carry to protect your family. Fortunately with the advance of our scientific knowledge we have found that some of these materials, the supply of

give the average community approximately 15 to 30 minutes warning. Warnings of an attack to individuals will come through sirens in your community, over your radio, and inside the homes through the National Emergency Repeater System (NEAR). If you hear a steady blast of 3 to 5 minutes—LISTEN. This is the civil defense ALERT signal. It means: Attack Probable—Take action as directed by your local government. If you hear a warbling tone or a series of short blasts for 3 minutes—LISTEN. This is the civil defense TAKE COVER signal. It means: Attack Imminent—Take cover immediately in the best available shelter.

The NEAR system, which will be shortly available for purchase, consists of a small black box which is plugged into one of your wall outlets. Upon warning within the United States a high frequency current will be introduced into the normal electric line which will activate a buzzer in this box. After an ALERT is sounded you will receive information over your radio through the CONELRAD system at 640 and 1240

agency Heating (suitable fuel supplies on hand) 6. Emergency Lighting (candles, flashlight, and batteries assembled) 7. Radioactive Fallout (protective measures taken) 8. Food and Water (14-day supply stocked) 9. Un-safe Water (purification supplies on hand) 10. Battery Radio (extra batteries provided) 11. CONELRAD (640 and 1240 marked on dial) 12. First Aid Kit (Essential emergency items assembled) 13. Clothing and Blankets (sufficient supplies on hand) 14. Recreation and Morale (games, toys, and reading material collected) 15. Fire Preventive Housekeeping (fire hazards removed) 16. Fire fighting (family trained for emergencies) 17. Emergency Sanitation (recommended supplies obtained) 18. Evacuation Plan (car prepared, route known) 19. Family Action Plan (all members drilled in duties) 20. Current Preparation (plans reviewed and revised as necessary).

4. CONTINUITY OF GOVERNMENT

Needless to say, in the event of an attack upon this country, the most important

out will be discussed at length below.

PERSONAL SURVIVAL

What is PERSONAL SURVIVAL? It is estimated that if our country were to receive a massive attack of nuclear weapons upon the most lucrative target areas of the United States, approximately 20,000,000 people would be killed by the blast and thermal (heat) effects of the attack. Needless to say, our Armed Forces would immediately retaliate upon the enemy with similar nuclear weapons. Of our nation of 180,000,000 persons, 160,000,000 would remain to fight back! Without adequate shelter, over 80,000,000 of these persons who escaped the initial attack could die within three to four weeks from radiation fallout! Possibly more!

WHAT IS FALLOUT?

The mushroom - shaped cloud formed after a nuclear explosion contains quantities of minute radioactive particles. Radioactive material gradually falls to earth. This falling of the particles is called "FALLOUT". The particles cannot be destroyed or chemically neutralized. They will continue to radiate until they "burn out". This may take less than a few minutes to thousands of years, depending upon their particular variety. The above are facts. They have been exploited and exaggerated to such monumental proportions that the average citizen is bewildered by the horrible prospect of radiation danger.—WHAT IS THE TRUTH!—

FALLACY

No means have been devised to detect fallout.

Fallout over Hiroshima during WW II caused 50% of the A-bombs deaths.

Chemicals have been produced to counteract fallout radiation.

Radiation is a product of the twentieth century—first introduced by the A-bomb.

We can exist without radioactive source.

Radioactivity produced by nuclear explosions lingers in great intensity for months.

Radiation sickness seriously affects the brain and nervous system within the body.

Fallout spreads itself uniformly throughout the world.

Bomb testing and resulting blast fallout produce freak weather, earthquakes, etc.

Sterilization in many cases is due to fallout.

Path of fallout cannot be predicted.

Strontium 90 absorbed in bones produced a hazard to our present generation.

The bomb test site has become extremely hazardous to local and surrounding communities.

Radiation sickness is a disease and is transferable from one person to another.

Baldness has increased among both men and women due to fallout radiation.

FACT

Fallout cannot be detected by human senses. However means are available for detection.

No deaths were recorded due to fallout.

Nothing can be done directly to fallout particles to stop or reduce radiation.

Radiation is as old as the universe.

We are alive today due to a radioactive source—our sun. Radioactivity decreases rapidly following an A-or-H Bomb detonation.

Brain tissue and nerve tissue are comparatively unaffected even when exposed to deadly dose of radiation. Most fallout is concentrated near the weapon burst and downwind.

No weapon has ever been devised to change weather. Amount of radiation necessary to produce sterility exceeds lethal dose.

which we had to rely upon foreign countries, has increasingly become available through our scientific advances in the fields of plastics and other substitutes. Even with the action taken by our government during the past 20 years, there are still items which are required for our complete independence upon foreign resources. Nevertheless we are far ahead!

2. WARNING

Billions of dollars have been spent on the perfection of a warning system to alert our population against imminent attack. Many of these warning measures were built some years ago when we had to guard against attack by jet aircraft. This is still a possibility; however, our warning today has to be against intercontinental ballistic missiles (ICBM). Our defense forces have continued to prepare warning measures against all types of attack. Needless to say, attack by ICBM is a matter of minutes, instead of hours by jet plane attack. Present warning measures can cover the United States within 2 to 3 minutes of the knowledge that a missile has left the USSR. With missiles, this will naturally

on the dial. A battery operated portable radio should be used for this purpose. CONELRAD will be used to inform you with official instructions and information in event of, and during, an enemy attack.

3. PLANNING

Planning Important Facet Of CD

An extensive National Plan for Civil and Defense Mobilization has been written and will be effective in the event of an attack upon this country. The State of Florida has such a plan, and some of our County and Municipal governments have prepared plans. Check with your municipal and county government and determine whether they have a plan for your Civil Defense! Do you have a family plan? The following are the 20 items that should be included in your family plan. 1. Warning Signals (family members know what to do) 2. Community Plan (local survival plan understood) 3. Shelter Area (safest place in home selected) 4. Emergency Cooking (emergency equipment assembled) 5. Emer-

matter, next to saving life, is the maintenance of governmental authority. We cannot have chaos, we cannot have lawlessness; the citizens have to be protected by due process of law. Order has to be maintained, we cannot have mob rule! The Federal Government has passed laws of succession of government in the event that the President and Vice-President may become casualties in the initial attack. Does your city and county have resolutions or laws which provide for the succession of office for elected officials who may become casualties? Commissioners, judges, sheriffs, mayors, councilman? Stop and think; stop and check! It is your duty as a citizen, and for the protection of your family!

5. RADIOLOGICAL DEFENSE

Hundreds of thousands of radiological monitoring stations are presently being set up throughout the United States to detect excess radiation due to the detonation of nuclear device. All areas of the country can be immediately notified of the approach of the deadly fallout from a nuclear bomb. Radiation fall-

Civil Defense Is For You... Take Advantage Of It

The fallout path can be predicted from upper atmosphere. Measurements used by the weather bureau are the criterion.

Strontium 90 was discovered to be less than 1/10 of the amount deemed to be hazardous.

Very slight rise in background radiation has resulted in the area around the test site. There has never been a health hazard. People near the site are cautioned to remain indoors for a few hours following a test.

Radiation sickness is not a disease, and cannot be transferred.

Loss of hair is only temporary for those who receive a substantial amount of radiation.

PROOF

Radiological instruments in the hands of trained CD personnel detect fallout.

No casualties due to high altitude (2,000 ft.) detonation of the A-Bomb. Radioactive particles were dissipated in upper air.

No known chemical will dissolve radiation particles. However, they will burn themselves out.

Cosmic rays have been hitting us from outside the earth's atmosphere for millions of years. (We have lived comfortably with them.)

No proof necessary if you are alive.

Measurement following tests indicate the decrease of approximately 90 per cent in radioactivity occur after explosion.

Older, tougher specialized brain and nerve tissue unaffected. Fast growing blood tissues are seriously affected. Nerve and brain tissue matures at an early age. Blood tissue is continually reproducing itself.

Weather, terrain, wind has ever changing effect on the fallout patterns.

There is less energy released in the largest H-Bomb than in moderate thunderstorms. Freak weather has occurred in cycles during recorded history.

AEC workers and Hiroshima survivors have thriving normal families. Animal experimentation has produced negative results.

Weather data issued twice daily through sixty weather stations in U. S., can be used in predicting the path of fallout.

Studies made in Chicago "Milk shed" and southern Wisconsin communities by "Project Sunshine" of AEC disproved fact — National Public Health Service Research has also shown negative results.

Continual monitoring by U. S. Health Service in neighboring states and at test sites claim no significant change.

Case studies of Japanese victims and experience indicates that only contamination in the form of dust can be

transferred by the careless or untrained, and not the sickness.

Not a single case has been recorded where normal hair growth has not returned to original state.

HOW TO SURVIVE?—As indicated previously our ancestors of the Middle Ages relied upon high, thick walls, on high mountains; or, high, thick walls, with moats of water, in the lower lands. Our American ancestors relied upon the stockade against the Indian arrows! In present day United States our people defend themselves against hurricanes, tornadoes, and violent thunderstorms. — by SHELTER.—There is more energy released in the average thunderstorm than there is in a 20 megaton nuclear weapon. Needless to say it is not concentrated. People in Florida have built their homes stronger to withstand the fury of the hurricane! People in our mid-western states build storm shelters to withstand tornadoes!

Rifle bullets and artillery shells travel faster than sound — accordingly our soldiers during World War I and II used to say, "You will never hear the one that gets you". This statement is almost true today with the hydrogen bomb. The difference is that the one that might get you could have exploded 200 miles away; you may never see it nor hear it; but the "FALLOUT" could "get you"! If we take the precaution to protect ourselves against NATURAL DISASTERS such as hurricanes and tornadoes, why don't we protect ourselves against MAN-MADE DISASTERS? We wear clothes to protect ourselves from cold, we build houses to protect ourselves against the elements, we take drugs to protect ourselves from disease. It is natural that we should take action to protect ourselves against man-made disaster!

Shelter Against Radio Fallout

The National Academy of Sciences, in a recent study of national preparedness, conclude: "ADEQUATE SHIELDING IS THE ONLY EFFECTIVE MEANS OF PREVENTING RADIATION 'CASUALTIES'." — In plainer language, we have to go back to the practices of our ancestors and build thick, THICK walls! — The gamma rays of radioactive fallout are like rays of light and X-rays, they can penetrate soft materials until they become absorbed. The human flesh is soft, and in penetrating they create damage to living cells, and if absorbed in a large amount, go beyond the ability of the body to effect repair, and after lingering radiation illness, you die! This can be avoided if you are SHIELD-

ED behind a material sufficiently thick or dense, to absorb the gamma rays of radiation. — What is thick?—What is dense?—Density of material is its weight per size! A cubic inch of lead is heavier than a cubic inch of concrete. A cubic inch of concrete is heavier than a cubic inch of wood!—Thus it is calculated that 0.7 inches of steel, or 2.2 inches of concrete, or 3.3 inches of earth, or 8.8 inches of wood will reduce the effects of radiation by one-half. Repeated thicknesses of the same amount will reduce its effect again, by one-half each time.—It is estimated that IN ORDER TO REDUCE THE RADIATION EFFECT OF FALLOUT FROM A NUCLEAR BOMB TO THE LEVEL THAT YOU WILL NOT SUFFER SEVERE RADIATION SICKNESS OR DEATH, THAT YOUR SHELTER SHOULD BE COVERED WITH A MINIMUM OF TWENTY-FOUR (24) INCHES OF (SOLID) CONCRETE, OR, THIRTY-SIX (36) INCHES OF EARTH, OR A COMBINATION WHICH WILL ADD TO THE PROPER PROTECTION DENSITY. The type construction of your shelter is immaterial as long as you are protected by the density of material on all sides, top and bottom. The cover page drawing shows you the recommended design of an aboveground double-wall shelter.

There is no mystery to the construction of a Fallout Shelter. It can be built with the normal construction procedures, with the one exception—as noted before—thickness—density—of the walls and roof are necessary for full protection. The following are suggestions of items to discuss with a contractor during negotiations:

1. Drainage from area around underground or outdoor shelters.
 2. Protection against cave-in excavations.
 3. Concrete strength and reinforcement.
 4. Waterproofing
 5. Doors or hatches
 6. Ventilations
- Pumps are used for ventilation with a vent for incoming air on top of your shelter. Vents can be secured with dust filters, however, the amount of radioactive dust that may be sucked in through the ventilation system will not be harmful to the occupants. Each time that a particle of dust is required to make a right turn it loses one-half of its radioactivity; this the usual baffles used to keep out rain will also act to reduce the radioactivity of the dust drawn into the ventilating system. Naturally a dust filter will further reduce this amount of radioactivity to a negligible amount.
- You will note from the design that the entrance to the shelter is an overlapping en-

tranceway, although this will prevent the entrance of gamma radiation it is more desirable to have a door erected, and solid 4" X 8" X 18" concrete blocks available to stack behind the door, after entry, to afford greater protection from fallout.

SHELTER CHECKLIST

Food and cooking equipment:

Water (2-week supply, a minimum of 7 gal. per person); Food (2-week supply); Eating utensils; Paper plates, cups, and napkins (2-week supply); Openers for cans and bottles; Pocket knife; Special foods for babies and the sick.

Supplies and equipment for sanitation:

Can for garbage (20-gal.); Covered pail for toilet purposes; Can for human wastes (10-gal.); Toilet tissue, paper towels, sanitary napkins, disposable diapers, ordinary and waterless soap; grocery bags, newspapers for soil bags; Household chlorine (2 pt.) and DDT (1 qt. of 5% solution); Waterproof gloves. Shelter equipment:

Battery radio with CON-ELRAD frequencies (640 or 1240) marked, and spare batteries for 2-week operation; Home use radiation meters, when available; Flashlights, electric lantern, and spare batteries for 2 weeks; Clothing; Bedding (rubber sheeting and special equipment for the sick); A first-aid kit; Writing material; Reading material; Screwdriver, pliers, and other household tools; Games and amusements for children.

Items outside the shelter but within reach: Cooking equipment (canned heat, or camp stove) and matches; Home fire-fighting equipment; Rescue tools.

★ ★ ★
Be sure to check your local supplier first for all fallout shelter equipment.

New County Jail To Be Dedicated On Tuesday

Dedication ceremonies and open house for the new half million dollar Seminole County Jail will be held Tuesday afternoon, Sheriff J. L. Hobbs said today. Hobbs also reported that he hopes to move into the new facility by the end of next week. The present jail will be turned over to the city. Circuit Judge Volle Williams Jr. will make the principal address at the ceremonies which will start at 1:30 p.m. Hobbs said that an open house will be held from 1:30 to 3 p.m. that day. "All the citizens of the county are invited to attend and look over the new facility," he added. The actual construction cost of the building is \$485,000 but furnishings will put it over the half-million mark. The jail includes two stories with the cell block on the second floor. The cell block will have a 37-prisoner capacity with separate wings for juveniles and incompetents. Hobbs said that 134 prisoners could be placed in the facility if need be. The jail is located on county property adjoining the courthouse. Work on the jail started in late November. The architect was James Gamble Rogers, associate John Burton. The contractor was Jack Jennings of Orlando.

Jaycees Hold Radio-Pancake Day Saturday

Every man in the Sanford-Seminole Jaycees will be busy Saturday as the organization lets go with both barrels in their big Radio Day-Pancake Day. It will all be centralized at the Civic Center with the radio broadcast using the entire facilities of WSPR in the auditorium and the Pancake Day in the dining area. Radio Day will begin at 8 a.m. and the pancakes will be flipping and flipping at 11 a.m., continuing all day, until 8 p.m. The name of the mystery celebrity will be revealed and all kinds of contests will be run. Every 100th pancake will be eaten for a cash prize and there will be interviews with all local dignitaries and celebrities. On the radio Jaycees disc jockeys will present the news, interviews, advertisements, music, contests with lots of prizes to be given away. Paul Lewis is chairman of Radio Day; Jim Smith is chairman of Pancake Day (sponsored by Aunt Jemima) and Mrs. Jack Erickson will head the Jaycees Wives portion of the show. Larry Varshel is Mystery Celebrity Contest chairman.

Berlin Protest Given Kremlin

MOSCOW (UPI)—U.S. Ambassador Llewellyn Thompson called on the Soviet Foreign Ministry today to deliver a note of protest against new interference by the East Germans with Western traffic in Berlin. Thompson spent about 40 minutes with Soviet Foreign Minister Andrei Gromyko. It was their first meeting since they got together in Washington during Gromyko's discussions here with President Kennedy and Secretary of State Dean Rusk.

Hunt B86

LONDON (UPI)—A search continued today for a missing U. S. Air Force B86 believed down in the North Sea.

4-H Council

Seminole County 4-H Boy and Girls Club Council officers will meet at 8:30 a.m. Saturday at the Home Demonstration Center on 23rd St.

Progress Edition Monday

The Herald's annual Progress Edition will be published Monday and the deadline for advertising copy will be Saturday noon. The big edition will be sent out to all regular subscribers and additional copies can be obtained at the Herald Office on First Street for those who wish to mail them out of town or want additional copies for themselves.

A Herald Editorial

Saturday the Navy is celebrating its 186th birthday and we in Sanford should never forget what the local base and its people mean to our community.

"YOU NEED A LITTLE MORE PRACTICE" cries Chief Elmer Avenel, chairman of the Seminole High School Band Parents annual barbeque this year. Drum Major Charles Rabun and Captain Billy Bowers show him how they will play a concert for barbeque diners at the big fete Saturday from 8 to 7 p. m. At the Elks Club on E. 2nd St. Tickets are on sale from all parents of band members. (Herald Staff)

Super Missile's Debut Called Total Success

CAPE CANAVERAL (UPI)—Most of France today successfully launched its mighty Saturn "super rocket" on its maiden flight into space. The 16-story tall Saturn roared from its launching pad at 10:04 a. m. and climbed nearly 100 miles into space. The only hitch was they were in the same car. Except for Clerk Arthur Beckwith Jr., the taxpayer would have been out \$40. I would advise one commissioner to check page 43 of the CC manual and also the Sheriff's Attorney General's report on a ruling made in June of 1957—Only a commissioner that owes or rents a car can be reimbursed. By the way, Sheriff crossed the expenditure of the commissioner's request.

Slide Buries Train

UNITA, Japan (UPI)—Thirty-one persons were killed today when a reinforced concrete wall on the side of a railroad track collapsed stop a passenger train.

Guard Mrs. Gable

FREMINGO, Calif. (UPI)—Police today maintained a 24-hour guard at the Clark Gable estate to protect the late actor's infant son from a purported kidnapping plot.

Lake Never Freezes

WASHINGTON (UPI)—Scientists have found a miniature Dead Sea in Antarctica so salty it never freezes even though temperatures there sometimes drop to 80 degrees below zero.

Film Star Marries

NEW YORK (UPI)—Pin-in-a-Paula Prettis and stage director Richard Benjamin were married Thursday in a ceremony performed by state Supreme Court Justice Arthur Klein.

No Settlement Seen

UNITED PRESS INTERNATIONAL (UPI)—British troops set up three roadblocks to block the movement of fresh milk—appears to be failing today.

Freeman Tours Asia

JAKARTA, Indonesia (UPI)—U. S. Secretary of Agriculture Orville L. Freeman, began the second day of a four-day visit here today as part of a trade development and food study tour of Asia and the Middle East.

Florida's Top Politicians To Gather At Gainesville

GAINESVILLE (UPI)—Florida's top politicians gathered here today for their biggest bonanza since the Legislature ended, and the 1961 governor race was certain to be the chief topic. The political leaders, including Gov. Farris Bryant, Cabinet members, Supreme Court justices and legislators, poured into town for the University of Florida's annual honoree weekend climax by lunch Friday, 1:30 football game Saturday.

Waterway Meeting Called For Monday

LAKELAND (UPI)—A committee of the Florida Council of 100 will meet here Monday to discuss what should be done about Florida waterways. The day-long session will feature such speakers as retired Gen. James Van Fleet of Auburn, Ala., Secretary of State Tom Adams, Conservation Director Randolph Hodger, Citrus Commission General Manager Homer Hooks and others.

CD: What Do We Want?

The Herald is conducting a straw poll to determine just what the people want in the way of Civil Defense. The sample ballot will be run each day for a two week period with the results made public Nov. 8.

Sample Ballot
(All Ballots to Herald Editor)
(Please answer YES or NO)

- 1—Are you willing to pay for a half million dollar Civil Defense program?
- 2—Do you favor a skeleton warning system proposed by Civil Defense Director A. B. Peterson Sr. at a cost of \$16,000?
- 3—Do you favor a full warning system proposed by Peterson at a cost of \$42,000?
- 4—Do you favor not spending one dime more for Civil Defense than the \$4,000 appropriated this year?
- 5—Any other suggestions?

Name: _____
Address: _____

news... BRIEFS

One of our county commissioners better brush up on his county commission manual. Two of the commissioners, went to Ft. Lauderdale and both put in for mileage of \$40.00. The only hitch was they were in the same car. Except for Clerk Arthur Beckwith Jr., the taxpayer would have been out \$40. I would advise one commissioner to check page 43 of the CC manual and also the Sheriff's Attorney General's report on a ruling made in June of 1957—Only a commissioner that owes or rents a car can be reimbursed. By the way, Sheriff crossed the expenditure of the commissioner's request.

What's all this stuff about Seminole High School giving an out-of-town firm the duty to take the photographs for next year's senior class year book?

How do we expect our people to shop locally when our governing bodies want?

Nobody asked me, but what ever happened to George Simons' master plan for the city? Is it gathering dust in a ball?

The three candidates for the Nov. 7 City Commission race, Chester Oxford, Joe Baker and Mrs. Rita Green will speak and discuss their platforms at next Thursday night's Jaycee meeting at the Civic Center, Gena McCall, chairman for the meeting, tells us that the Jaycees will throw the doors open to the public at 8 p. m. to listen to the talks.

The new county attorney's salary will be \$2,000 per year.

County Commissioner James B. Avery, back from the state commission association meeting in Ft. Lauderdale, tells us that he will ask the board next week to set up an informal meeting with top military and economic brass "as soon as possible" to find out just what the Nova impact will mean to Seminole County.

There will be an announcement soon on a new shopping center south of Sanford across the road from the Marlou Hotel.

C. Edward Semark of Sanford has been named Sanford area chairman of a statewide campaign to raise \$50,000 among Lambda Chi Alpha fraternities in 12 colleges in the state.

Funds derived from the fund-raising effort will be used to construct a new Lambda Chi Alpha house on University Ave. at the University of Florida.

The City Commission will meet in special session Monday morning and look for a further report from Bill Hitchcock. Workman's compensation case coming up.

Even stock investors can enjoy Friday night shopping. Gordon Toll told us this morning that A.C. Alby & Co., members of the New York Stock Exchange, will start staying open on Friday nights. The office is located on Commercial St. By the way, Toll, manager of the firm, said that the Dow Jones News Service has been installed in the office.
