

LITTLE RED SCHOOLHOUSE — The open classroom concept was practiced in the little red schoolhouse, according to Lynne Stafford, director of St. Mark's Parish Day School in Glendale, Calif. Mrs. Karison (right)

Open Classrooms Give Some Air Of Freshness

By ELAINE COLONNELLI
Copley News Service
LOS ANGELES — School was never so much fun. Johnny can go to school and help his classmates make a strawberry pie, or watch a pollworm turn into a frog or watch a silkworm spin its cocoon.
It's all part of the open classroom concept practiced at St. Mark's Parish Day School in suburban Glendale.
"When the children are working on a project, we have to throw them out of class for recess," director Lynne Stafford said. "There always are some of them here before we unlock the doors in the morning, and we have to return them that it is time to go home."
The day school specializes in "early childhood education," with students ranging in age from 3 to 6.
Mrs. Stafford has been in charge of the school since its founding 10 years ago.
Under her directorship, the school has grown from 16 children to 150.
Mrs. Stafford said St. Mark's is the first school where she has formally used the classroom concept. "But the teaching techniques and methods I have used all along. All good teachers eventually come down to the basic concept of teaching the individual child while instructing a group."
While the open classroom is a "radical thing," there are some common guidelines. "The basic philosophy is that the teacher finds the method by which a child can best learn and then provides the materials and avenues. It is an open-ended sort of education."
"This is not a new concept," Mrs. Stafford said. "It was practiced in the little red schoolhouse in the United States. There have been open classrooms in England since the end of World War II.
One of the evolutionary trends is increased use of simple manual skills as teaching tools. Looking is one that is particularly popular with the children.
The projects are geared to the grade level. The younger children may learn simple skills like stirring by making lemonade from real lemons. That's why get older, cooking

won't find pupils sitting in neat little rows. They may be off in different interest areas learning conventional things in unconventional ways.
"There is a different atmosphere," Mrs. Stafford said. "The teachers aren't authoritarian. They are there to help the children find things for themselves."
But at the same time, there is some serious learning going on. "The open classroom is freedom, but not license. It is not chaos or anarchy."
Mrs. Stafford describes herself as a "middle-of-the-roader" when it comes to the degree of freedom allowed in the open classroom.
"The radical way would be to give all the decisions to the child — let him choose his own curriculum. In our situation, the child is guided and directed in independent study by the teacher."
Within the classroom, the noise level may be higher than in a traditional setting, and you

Nixon's 'Gate Papers' Cause Of Pressure

By DONALD M. ROTHBERG
Associated Press Writer
WASHINGTON (AP) — The Senate Watergate committee and special prosecutor Archibald Cox are pressuring President Nixon to modify his tough stand against releasing presidential papers and avoid a confrontational confrontation.
Committee members scheduled a closed session today to discuss the possibility of trying to subpoena the White House documents, but an aide said he does not expect any decision on the issue this soon.
Rufus Edmister, aide to Chairman Sam J. Ervin Jr., D-N.C., said in an interview he doubts the committee will do more than "consider what course of action to take to obtain the materials the committee needs to do its job."
An Associated Press survey of all seven members of the Senate Watergate investigating committee disclosed no votes in favor of issuing a subpoena to the President to appear and testify.
But it appeared a majority could be mustered for a vote telling the President to surrender those documents the committee believes it needs for its investigation.
Edmister said the senators are "looking for signs. But so far we've seen no hope, no olive branch."
The committee has asked the White House for all documents relevant to the activities of staff members involved in the 1972 campaign.
President Nixon wrote Ervin last week that to comply with

explains the process by which silk is made to her kindergarten class. The primary classroom (for grades 1, 2 and 3) houses a colony of real live silkworms — in a box, of course.

the request would "inevitably result in the attrition and the eventual destruction of the indispensable principle of confidentiality of presidential papers."
Edmister said the only sign the White House might back away from that hard line was oral communications asking for a more specific request.
Meanwhile, it was learned that Cox has been quietly negotiating with the White House in an effort to avoid a similar confrontation over presidential documents relating to Watergate.
A White House spokesman acknowledged that discussions are going on with the prosecutor's office and that, so far, the issue is unresolved.
Warren had no explanation for the delay in announcing the ground rules.
"The White House invoked executive privilege in U.S. District Court Wednesday in response to a subpoena to produce documents relating to a decision to increase milk price supports.

What Conserving Energy Can Mean

By BILL NEIKIRK
Associated Press Writer
WASHINGTON (AP) — Cutting back energy consumption five per cent means a little more heat this summer and a little more cold this winter, the Nixon administration says.
It means going easier on the gas pedal, avoiding "jackrabbit starts" and 70-mile-per-hour speeds on the highways. Or keeping the house darker at night and repairing leaky faucets.
These are some of the energy-saving measures suggested by a key administration energy official, Deputy Treasury Secretary William E. Simon, chairman of President Nixon's Oil Policy Committee.
Nixon urged Americans on June 20 to reduce their personal energy usage by five per cent. The list suggests turning off all appliances and lights that are not needed and buying electric appliances that use less electricity.
What was meant by appliances that use less electricity was not explained, but one official said, for example, that frost-free refrigerators use more electricity than refrigerators without that convenience.
Simon and his staff said the list does not include all suggestions for saving energy. Americans may have their own ideas, he said.

Unhappiness Predicted For Phase 4 Controls

By BILL NEIKIRK
Associated Press Writer
WASHINGTON (AP) — As planning for Phase 4 wage-price controls nears an end, not all economic officials in the Nixon administration are sure the controls will work.
One official who has participated in Phase 4 planning predicted the tough new system soon to be announced will not enjoy great popularity with the American people.
"People are going to be more unhappy," said the official, who asked not to be identified. "There will be disillusionment with it."
He predicted that this would help erode the administration to drop wage-price controls relatively soon and return to a free market.
"Do you want to know what the real impact of Phase 4 will be?" he said. "Just compare the first freeze with the second, then compare Phase 2 with Phase 4. It will be about the same relationship."
By that, he meant that the 90-day wage-price freeze President Nixon imposed in August 1971 and the Phase 2 system of

list says. In the wintertime, dropping the thermostat four degrees can save 10 per cent in electricity.
Or, "use fans rather than air conditioning," it says.
The list suggests turning off all appliances and lights that are not needed and buying electric appliances that use less electricity.
What was meant by appliances that use less electricity was not explained, but one official said, for example, that frost-free refrigerators use more electricity than refrigerators without that convenience.
Simon and his staff said the list does not include all suggestions for saving energy. Americans may have their own ideas, he said.

Gun Battle Grocer Listed Serious In Hospital

APOPKA, Fla. (AP) — Grocer Lloyd House remained in serious condition today from an apparent heart attack following a gun battle at his tiny market in which a bystander was killed and House and a would-be robber were wounded, police said.
Officers said the bystander, Sam Scrivens, 56, apparently walked into Lloyd's market to make a purchase at the same time two gunmen entered it on Wednesday.
Scrivens was mistaken for one of the robbers and shot to death by House, who also shot one of the gunman and suffered bullet wounds himself, police said.
The gun battle started when one of the gunmen grabbed a screaming 13-year-old cashier and said "Give me the money screaming 13-year-old cashier and said 'Give me the money ... I'll shoot her if you don't.'"
House was hit by return fire as the suspects fled to a car in which an accomplice waited, authorities said. One bullet grazed his arm and another creased the shirt on his back, officers said.
House was taken to a nearby hospital where he was treated and released. But he collapsed as he left the hospital and was readmitted in serious condition, police said.
Cashier Brenya Kirkland was completing her first day on the job when the attempted holdup occurred, she said.
She quoted House as telling the gunmen, "I won't give you any money. I'll shoot you before you shoot her."
"I was screaming and praying and everything," the young girl said after the ordeal. "I thought I would be dead. I prayed he wouldn't shoot me."
It was the fourth holdup at Lloyd's market in the past two months, according to Mrs. House.

Immunity Claim Hits Blackburn Prosecution

By BOB LLOYD
Herald Staff Writer
Seminole Circuit Judge Volie Williams Jr. said today the question of whether Harlan "The Colonel" Blackburn has immunity from prosecution on charges in the June 1971 assassination attempt on Governor Clyde Lee should be settled in federal court—where the immunity allegedly was given.
Orlando attorney Chaney J. Mason, appointed special public defender for Blackburn Thursday, contends he was given immunity from further prosecution by the U.S. Government when he pleaded guilty in Jacksonville in May 1972 and was sentenced to 22 years in federal prison for gambling convictions.
A motion, filed in Williams' court by Blackburn says Blackburn discussed the Lee murder attempt with Assistant U.S. Atty. Bernard J. Dempsey and was assured the immunity covered the alleged shooting.
The motion asks Williams to require Seminole State Atty. Abbott Herring and Orange County State Atty. Bob Egan, appointed by the governor to assist in prosecuting Blackburn and co-defendant Sam Cagnina in the murder attempt, to show by July 26 cause why Blackburn's prosecution shouldn't be barred.
Mason said he has represented Blackburn in previous tax cases in civil court.
Blackburn was not arraigned (Cont'd On Pg. 3A Col. 7)

HARLAN BLACKBURN — Claims double-cross

Nixon Spends Bad Night In Bout With Pneumonia

WASHINGTON (AP) — President Nixon experienced a "restless night" and is continuing to suffer chest discomfort from a viral pneumonia condition for which he is being treated at Bethesda Naval Hospital, the White House said today.
The report was given by Presidential Press Secretary Ronald L. Ziegler from the hospital auditorium in a 11:30 a.m. briefing, the first word about the President's illness he entered the hospital Thursday night.
The President was examined this morning by his doctors.
He was reported to have a high fever.
His temperature was still said to be running at 101 or 102 degrees.
The 60-year-old President was reported ill and entered the hospital in suburban Maryland Thursday night, after carrying on a daylong schedule despite reported discomfort from his ailment.
It was the first time since he took office in 1969 that Nixon suffered any illness other than a common cold. And it was the first time he has been hospitalized since an injury to his knee during his presidential campaign of 1960.
White House physician Dr. Walter R. Tkach, an Air Force major general, said he foresaw "no complications," and that "rest and recuperation are the primary treatment."
Tkach assured reporters that there was nothing else wrong with the President.
Viral pneumonia is an infection of the air sacs in the lungs caused by virus germs so tiny that only the largest are visible under a powerful microscope. It often is accompanied by pains in the chest, coughing, chills and fever.
Tkach said the main treatment consists of making the patient comfortable, providing something to cause sleep if he needs it and becomes restless.
The President was taken by limousine from the White House to the hospital, a 30-minute drive. He was accompanied by his chief of staff Gen. Alexander M. Haig Jr., Tkach and Ziegler.
None of the Nixon family went to the hospital, Ziegler described the response was in effect: "Get lost."
Sen. Sam J. Ervin Jr., D-N.C., chairman of the Watergate committee, said he believes the panel will vote to subpoena White House documents for its investigation if the President does not release them voluntarily.
Moore told again of two California meetings last February at which the Senate hearings, the administration response, and the likely need to raise money were discussed.
But he said that when those meetings were held, he still believed implicitly in Nixon's August 29, 1972, statement that no one in the administration was involved in Watergate.
Reports on file with the Secretary of the Senate show Baker raised \$15,000 before April 7 when the new federal elections law went into effect. It requires full disclosure of all contributions and expenditures over \$100 made after that date by a candidate for federal office or by a political committee.

PRESIDENT NIXON

In for week

Prober Fund Is 'Mystery'

WASHINGTON (AP) — Sen. Howard H. Baker Jr., vice chairman of the Senate Watergate committee, raised \$185,000 from undisclosed sources last year to finance part of his re-election campaign.
In doing so, the Tennessee Republican violated no laws since full disclosure was not required until April 7, 1972.
Baker is the only member of the investigating committee, appointed earlier this year, who was up for re-election in 1972.
The disclosure timetable also enabled the Committee to Re-elect the President, whose fund-raising practices now are under investigation by the Watergate committee, to raise campaign funds from anonymous donors.
Through a spokesman, Baker said the matter would not pose any difficulty or potential conflict for him during the investigation. The aide, J. Hugh Branson, said "on our part there was total compliance" with the law.
Branson said Baker would be willing within a day or two to make the names of contributors to a Washington, D.C., fund-raising committee available. It was not clear how much of the \$185,000 was raised by that committee.

Nixon Aide Claims 'Gate' 'Unauthorized Adventure'

WASHINGTON (AP) — Presidential aide Richard A. Moore testified today that until March 1973, he had considered the Watergate raid no more than an "unauthorized adventure" by people who had some \$100 bills and eye playing James Bond.
Moore told investigating senators he did not know of official campaign involvement or cover-up. He has said he does not believe President Nixon knew about it.
Moore, recounting to the televised Senate hearings events about which he has said his memory is hazy, said he did not know the dimensions of Watergate when he and others discussed at a California resort a need for money in connection with the problems it had raised.
He said he agreed that Feb. 11 meeting to ask John N. Mitchell for fund-raising help, considering it necessary in connection with civil suits that stemmed from Watergate.
Moore said when he carried that message to Mitchell later, the response was in effect: "Get lost."
Sen. Sam J. Ervin Jr., D-N.C., chairman of the Watergate committee, said he believes the panel will vote to subpoena White House documents for its investigation if the President does not release them voluntarily.
Moore told again of two California meetings last February at which the Senate hearings, the administration response, and the likely need to raise money were discussed.
But he said that when those meetings were held, he still believed implicitly in Nixon's August 29, 1972, statement that no one in the administration was involved in Watergate.

Awesome sight of water spout or tornado towering over Lake Monroe was caught by amateur photographer Danny Lee about 7:20 p.m., Thursday with his Polaroid camera. (Related photos Page 3A)

Pastor's Corner

Dial 'G' For God

By REV. HAROLD A. HARRIS First Christian Church

"Be careful for nothing; but in every thing by prayer and supplication with thanksgiving let your requests be made known unto God."

There's something exquisitely luxurious about room service. All you have to do is pick up the phone and somebody is ready and waiting to bring you breakfast, lunch, dinner, chocolate milkshake, whatever your heart desires and your stomach will tolerate.

That's the concept that some of us have of prayer. We have created God in the image of a divine bellboy. Prayer, for us, is the ultimate in room service, wrought by direct dialing.

Prayer is many things, but this is not one of them. I do not claim to understand the techniques of the "great men of prayer," as they have been called, or even to know for sure what was and is meant by that designation.

Prayer is not a lobby in the halls of heaven. Prayer is not a let-God-do-it means of evading responsibilities rightly our own. Prayer is not a means by which we can persuade God to do what He does not wish very much to do.

Prayer is not a bulletin by which we must inform God of current news. (There was the seminar prayer which opened his classes with prayer, invariably greeted by "O God, as thou didst see in The New York Times this morning.")

But see what prayer is: A means by which we allow God to persuade us to do what we do not very much want to do. A means by which we let God do through us what is His nature to do.

As a small boy, I slept on the third floor, and I always had to go to bed first, and it was a long way up all those stairs. My father usually came with me, for we didn't have electricity above the second floor and the gas light had to be turned on, and then off when I was tucked in.

That bedroom seemed to be remote and close to unexplained noises and dark secrets. Sometimes father would read me a story, but inevitably the time came when he would turn out the light and shut the door and I would hear his steps on the stairs, growing fainter. Then all would be quiet, except for the noises and creaking imagination.

Once my father said, "Would you rather I have the light on and go downstairs, or turn the light out and stay awhile?" You can guess that I chose presence with darkness, over absence with light.

Is that not what we really want when we pray—the assurance that God is there? And if He is, darkness or light does not matter. Somehow, presence has gone out of much of our prayer, and when this goes, nothing much is left.

First Baptist Honors Richard Holtzclaws

RICHARD HOLTZCLAW

Mr. and Mrs. Richard Holtzclaw will be honored Sunday, by Sanford's First Baptist Church as it concludes two years as interim music director.

A reception for the Holtzclaws is scheduled for 8:30 p.m., following the evening service. Friends from the community are invited to the reception along with the congregation.

Special recognition will also be given to the couple in the Sunday services.

Holtzclaw, who has sun professionally with national opera companies for many years, has directed adult and youth choirs at the Sanford church since May, 1971.

Earlier this year, he sang basso roles in operas in San Antonio, Tex., and Shreveport, La.

The Holtzclaws have a fabric shop in Sanford.

Mormon Youths Develop A Variety Of Talents

By RON WELLS

Copley News Service

SALT LAKE CITY—At the close of World War II the Church of Jesus Christ of Latter-day Saints had 800,000 members—today it has more than three million.

The main cause for this phenomenal growth has been attributed to the church's broad base of appeal—literally something for everyone—in which the church has established programs and services encompassing every aspect of life.

At the present time the church is placing most of its emphasis on an area which modern social pressures appear to have undermined the most—youth people.

Mormons have always put great stock in the moral character of their young people and it was with great alarm that Brigham Young, in 1869,

saw their standards slipping. "This decay was attributed to the increased contact with non-Mormon wagon trains heading westward and youthful rebellion.

This prompted the church to establish a youth-oriented program called the Mutual Improvement Association. Under its auspices boys and girls from 12 to 18 years of age participate in separate and joint week-night educational, social, cultural, recreational and religious activities. Members are given opportunities to develop talents in speech, music, drama, dance and sports.

There are over 350,000 young men and women participating in each of these separate programs, said Mrs. Florence Jacobson, president of the Young Women's Mutual Improvement Association.

"In MIA everyone has a chance to do many things he or she may not have a chance to do in school.

"I have seen lives changed completely by this program," Mrs. Jacobson said in an interview. "I think anyone taking part in it is a better citizen and a more capable individual in life in general than those who don't have the program.

"Our greatest challenge and responsibility is to help raise and direct a decent, responsible, law-abiding, Christian generation, who not only know right from wrong, but practice it."

If there is such a thing as youthful rebellion among Mormons, Mrs. Jacobson said, it is kept at a minimum. According to Mrs. Jacobson, there are those who "fall away from the church," but in time most are brought back because the majority of their friends are involved in MIA activities and "it's no fun to be on the outside looking in."

Minister Learns Loans Go Unpaid

By W. LEE TRUMAN

Copley News Service

If anyone else would do it, it would be labeled social research, but for a clergyman, somehow it smacks of wicked pride.

That I am talking about is that for 17 years I have kept documented facts on all church panhandlers who ask me for a loan. The facts are that every transient, stranger, or angel unaware who has ever come to the church door for financial aid has received some help.

I have always followed up on their request for this to be only a loan. I mention to them that this would be very acceptable, and as soon as their lack turns, or the check which is expected momentarily comes, then because of the repayment someone else could be helped from the fund. Be it a loan or small, one has ever kept any promise for repayment in any form.

The number of requests secretly to depend whether or how prosperous the church I happen to be serving may look to the persons asking for help. I now have a small card with few requests. The money has always been taken out of the "pastor's discretionary fund," or the church emergency family help fund, or whatever you wish to call it.

At first, I had them sign promissory notes, which I never stole, but many stumble through life deeply hurting someone, then assume it all can be paid back with a casual, "Oh, I was only kidding," and that is supposed to be everything up right. That is using emotional play money for a very real debt.

In a family quarrel, bitter violent words are spoken which cut open their hearts and abuses are heaped by word and act, and then we have the church members, who are asked to give this, that, a little tag and kiss for a Christmas time we give away food and help like we should all year long.

The psychologist in me notes that this poor fellow who feel that play money can suffice for real obligations. You never stole, but many stumble through life deeply hurting someone, then assume it all can be paid back with a casual, "Oh, I was only kidding," and that is supposed to be everything up right. That is using emotional play money for a very real debt.

Participants from churches throughout Florida will be invited to the church with only hymnals of limited resources. A program of imaginative and improvisational music, even for the church with only hymnals for the choir and, perhaps missing a tenor," Langston said.

Loans Go Unpaid

By W. LEE TRUMAN

Copley News Service

and many laughs is what is given in any form, especially food and services is simply a gift, no matter what repayment is faithfully pledged or solemnly promised.

One of the very good things we have in our district is "Project Manna," in which the Protestant, Roman Catholic, and Jewish congregations cooperate. This is where we all take our food gifts in common. We collect it in our church in what we call "God's Cupboard," and any person needing help is referred to this community collection point. It works well, and I recommend it.

I received a letter the other day which had not been received by my faith and I thought my perfect non-payment record was broken. I had better quote it in full: "Dear Pastor: Ten years ago on Christmas Eve I stole money from the offering plate. Later my conscience began bothering me. I wish to return this to show that I am not all bad. Sincerely,"

He was as good as his word! Inside the envelope was \$20.00 in Monopoly play money. Of course, I was not a kid of a letter, and I wish the fellow had been back to the front door and asked the usher or said that he needed help. I don't know how much he stole, but he probably would have done much better by asking. I am sorry to note that at Christmas time we give away food and help like we should all year long.

The psychologist in me notes that this poor fellow who feel that play money can suffice for real obligations. You never stole, but many stumble through life deeply hurting someone, then assume it all can be paid back with a casual, "Oh, I was only kidding," and that is supposed to be everything up right. CLINTON WESTBROOK, CIVIL DEFENSE DIRECTOR, AT SCENE

Looks at area where barn had been hours earlier (Gary Taylor Photos)

Tornados Wreck Home And Garage

By GARY TAYLOR

Herald Staff Writer

Twin tornados moved over Sanford and Lake Monroe Thursday night, touching down and damaging a Lake Monroe house and demolishing the barn behind it. No injuries were reported.

Mrs. Joanne Bass said she was standing in the rear of her Church Street home, looking out a window, when the family's 30 foot by 60 foot storage barn exploded in front of her eyes.

The house shook violently, knocking paintings and fixtures from the wall, as the tornado lifted up the carport roof, slamming it down on top of

the house. The electrical power went off, stopping a clock in the house at 7:50 p.m.

Mrs. Bass' eight-year-old son, Michael, was watching television in the living room when the carport roof landed on top of the house, knocking a hole in the living room ceiling across the room from the chair where Michael was sitting.

Another son, Bobby, who's being treated in a hospital, was asleep in his bedroom when the twister hit. Her husband, Buddy Bass, wasn't home at the time.

Anna Bukur, a neighbor who was out on a bike ride with her two granddaughters, Lisa and Laura Bruce, 11 and eight-years-old, respectively, said they turned back and rushed home after Lisa spotted a twister in the sky.

The young Sanford girl said the first tornado passed high above the Bass residence, but then a second tornado came from the east, coming close to the ground and hitting the barn.

Mrs. Mary Ann Bruce, another neighbor to the west of the Bass house, was standing in the living room of her home with her children and watched the tornado do the damage.

All the witnesses said there was no sound to warn the approach of the twisters, and Mrs. Bass said the first noise she heard was when the barn came apart.

Seminole County Civil Defense Director Clinton Westbrook said he saw two tornados from his Park Ridge home. Westbrook said the tornadoes appeared to be over Lake Monroe, and area law enforcement officers confirmed that a pair of water spouts was seen dancing across the lake.

The Red Cross and their disaster crew came to the Bass home, and a tarpaulin was placed over the hole in the roof so the home could be secured for the night. The family stayed with friends in Sanford overnight, returning to their home to begin clean-up early this morning.

There was a bit of happiness in the tragedy when the family's pet dog came home this morning. "Britches" lived in the barn, and it was feared that he was killed when he couldn't be found last night.

"It's just a dog," explained Michael this morning when asked what breed the canine was. A pet cat, "Ferdinand," was found a few hours after the twister hit in mind since.

No estimate of damage was available, but Mrs. Bass said that carpets in two rooms were soaked, although they managed to get most of the furniture moved to other parts of the house before it was damaged.

Five architectural firms submitted proposals for the complex, in which a bank loan will be secured through franchise revenues.

NEW YORK (AP) — Monday's stock market was a mixed bag, with the Dow Jones Industrial Average ending the day at 1,114.14, down 1.14 points from its close on Friday.

15 Per Cent Hike In Food Cost May Soon Be Reality

WASHINGTON (AP) — Prices for certain food items could rise by as much as 15 per cent under the soon-to-be announced administration Phase 4 anti-inflation program, a spokesman for the nation's food chain stores says.

Fresh fruits and vegetables are among items for which prices are expected to rise sharply, Clarence G. Adamy, president of the National Association of Food Chains, told a House subcommittee Thursday.

Adamy's projections are partly backed up by the chairman of the Cost of Living Council, who says that price increases are inevitable even if business absorbs some of their increased costs.

"The notion that prices will be expected to be stable after the freeze in the short run... seems to me not to accurately reflect either agriculture information or this data on industry," says Chairman John T. Dunlop.

Dunlop based his forecast on what he called a great deal of "unused cost justification" remaining in the system.

Jacques said the question is whether the city can raise \$115,000 for expansion of the city hall and fire department or \$40,000 to renovate the medical building. He said because an addition must be built to the fire department, it would be most convenient if the medical building were, in fact, moved.

Cox, long-time city resident and a leader in the effort which succeeded in building the clinic through donations of money and labor in the 1960's, said, "The city fathers gave us the land on which the clinic was built years ago."

Mayor Eugene Jacques, trying to hurry Cox's presentation in view of several other items scheduled, interrupted to say that no record of any such agreement between the trustees of the building and the city has been found.

The city, a week ago ordered a 90-day eviction notice for the Seminole County Health Department to vacate the building for office space.

"The council at that time gave us the property with no strings attached," Cox said. "We took them at their word."

County Commissioner Greg Drummond said he could take no position on Jacques' new idea. "The county has rights-of-way but little land," Drummond said. He noted a building could possibly be moved to the motor vehicle inspection station site in Sanlando, but that property "unfortunately is not within waiting distance of anyone."

Cox, directing his final remarks to the council and mayor, said, "I hope and pray none of your relatives or friends need help at the medical clinic and it is not here."

Herald Staff Writer

LONGWOOD—County Commissioner Greg Drummond, who is questioning the annexation

Dear Abby: She just can't say 'No'.

By Abigail Van Buren

DEAR ABBY: I don't know what the matter with me, but I just can't say no. I go with the kind of guys who can talk me into anything. I am only 18, and I can't remember all the guys I've gone all the way with. Some of them I didn't feel a thing for. I just didn't want to hurt their feelings.

My parents think I'm a "good" girl because I don't stay out late. I am not dumb, and I am noting special to look at. I am just average, but I would like to stop giving in to one guy after another. Can you help me? CANT SAY NO

DEAR ABBY: You need counseling. Get in touch with your Family Service Agency if you can't afford private counseling. They can help you straighten out your thinking. Or check your phone book for the Mental Health Clinic nearest you and ask for an appointment. It's \$7 like a hearing from you after you've followed these two leads. God bless you.

DEAR ABBY: I have a suggestion that would give great hope to cancer victims. Most of them make a habit of reading the obituaries with apprehension and fear. It would, I believe, give them courage and confidence if families would allow obituaries to read: "Mr. X died at the age of 72 of a heart attack. He underwent cancer surgery 20 years ago."

DEAR NEW YORKER: Your idea is great for those who have survived cancer surgery. How do you think it would affect persons with heart conditions?

DEAR ABBY: I had a very irritating experience recently at a family gathering. One of my aunts greeted me with, "I didn't recognize you because you got so fat!" (And she said this in front of a lot of people.)

As one who has always been heavy, I am very sensitive about my weight and I found this very embarrassing. I feel that such comments are as rude and uncalled for as making fun of a cripple or an otherwise handicapped person.

My family tells me to drop the matter because my aunt is elderly and should be excused. I maintain that she should be excused. What is your opinion? BURNED

DEAR BURNED: Age could be an excuse. However, since no one can defend himself against possible hurtful remarks, you only infer to it, to avoid those who are inclined to make them, to develop a thicker skin, or try to reduce your "problem."

DEAR ABBY: My husband has earned a Ph.D. in psychology, and it took him 10 years of hard work to do it. Recently at a party a woman said, "My brother-in-law is a doctor—a REAL one." I felt like I had been slapped in the face.

Why do some people think that unless a person is a medical doctor, he isn't a "real" one? I am angry with myself for not having set that woman straight, but what could I have said?

Please print this, Abby, so others won't make the same mistake. GALLED IN GALVESTON

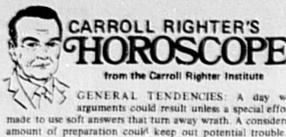

DEAR GALLED: You could have said, "My husband is also a 'REAL' doctor. He's a doctor of psychology." [P.S. Ignorance is no mistake.]

Problems? You'll feel better if you get it off your chest. For a personal reply, write to Abby, Box No. 8078, L. A., Calif. 90008. Enclose stamped, self-addressed envelope, please.

Write to write letters! Send it to Abby, Box 8078, Los Angeles, Calif. 90008, for Abby's booklet, "How to Write Letters for All Occasions."

Answers to crossword puzzle.

Polly's Pointers: Canisters Too Small? Use These Solutions. Importance of your first bid.

DEAR POLLY - My solution for Mrs. J. R. E.'s problem with canisters not being large enough to hold five pounds of sugar or flour is to get the large size cardboard containers from an ice cream parlor and then insert a small new plastic liner-type bag inside each one.

By POLLY CRAMER

DEAR POLLY - Department stores selling a well-known brand of rubber kitchen products have an attractive canister set that holds five pounds of flour, five pounds of sugar and two pounds of coffee and then has space for tea, too. This is one compact round unit, reasonably priced and comes in gold or avocado green. - L. P. M.

DEAR POLLY - Mrs. J. R. E. who finds most canister sets and arranges them in descending order with the two largest ones in the center and then on down to size at each side. This gives her the storage plus a conversation item when visitors notice. - ROY

DEAR POLLY - How can I get fingernail polish out of a pair of pants that are 50 per cent cotton and 50 per cent polyester? The cleaners were not successful in removing this polish. - MRS. L. W. A.

DEAR POLLY - My Pet Peeve is with all the screen strainer or soap film machines. The film holes are all clogged up with soap film and nothing. I have tried with my fingers, except pushing a needle through each one and that is time consuming. I would like to know of a good and easy way to clean these wire strainers. Please tell me. - MRS. L. W. B.

Longwood Council Actions

By DONNA ESTES
Herald Staff Writer

City Atty. Joe Davis, under orders of the city council, began moving mounds of paperwork Thursday as a preliminary gambit to add still more land to the city.

The city intends to annex two parcels of property, including the 26-acre Action Auto Parts tract parcel on U.S. 17-92.

Mayor Eugene Jaques said orders of the council asked for commercial zoning on the highway frontage and apartment zoning to the rear abutting Longdale.

Jaques said the owners agreed to extend the drainage ditch at the rear of the property to Soldier's Creek and to straighten and extend the Longdale Avenue right-of-way to U.S. 17-92.

Another property included in the resolutions is owned by the Sanford-Orlando Kennel Club on the north side of Seminole Boulevard. Commercial zoning is requested.

The city also is being asked for two lots on the west side of Island Lake to Palm Springs Road.

A rehearing will probably be given to the annexation request of the tract on the east side of the Radloff property east of SR 427. Owner Al Stals, the previously requested industrial zoning which was turned down by the board.

Duplexes Out

An ordinance eliminating duplex construction in all zoning categories in the city was adopted. Prior to adoption, the board, fulfilling a commitment to CAM Corp., approved duplex permits in Longwood Square adjacent to Orange Avenue.

In other action, a series of public hearings were held. Single-family home zoning was given to the McNitty property bounding Island Lake. The Schubert parcel on the south side of SR 426, east of Island Lake was zoned business district. Apartment and light industrial zoning was given to the tract adjacent to the Longwood Industrial Park on SR 424.

Commercial zoning requested for another parcel on Island Lake to allow construction of a grocery store and gas pumps was turned down. The parcel is located near the veterinary hospital. Council gave it district zoning.

The board voted unanimously to zone commercial the recently annexed Dog Track.

No Parking

Merchants in the business community, both north and south of the Church Street on SR 427, appeared to ask that the no parking zone planned for 100 feet in both directions of 427 be reconsidered.

The merchants, acknowledging the hazardous conditions at the intersection, said, however, the parking ban will adversely affect their businesses.

Police Chief Wesley Dowell and several councilmen said with parking permitted visibility is poor for westbound motorists on Church.

While another solution to the problem is being looked into, Chief Dowell asked the merchants to stop delivery trucks from brief parking in the street in front of the stores.

Cut Spending

Councilman B. H. Ferrell, the watchdog of the city's treasury, again warning spending must be cut, disapproved the purchase of a used fire tanker from the Orla Vista Fire Department.

Ferrell said the city is currently taking in \$20,000 monthly while spending \$20,000. As far as \$6,000 for the used truck, Ferrell remarked, "We don't have the money."

At 9 p.m., Fire Chief Roy LaBoussiere left the meeting, during a thunderstorm, when four separate fire alarms were sounded. It took 45 minutes to put out a blaze in a field behind Spenco Corp. at the Industrial Park. A drum of acetylene caught afire. The second fire was at a home on Land Avenue where lightning struck a telephone box. Lightning also struck wiring at Lyman and Milwee Schools setting off the alarms.

Home 'Security' Work For Nixon Gets Probe

By DICK BARNES
Associated Press Writer

WASHINGTON (AP) — A congressional subcommittee plans to investigate \$13 million worth of security expenditures at President Nixon's private residences — apparently without any comparable figures from past presidencies.

The General Services Administration already has told an oversight subcommittee that no statistics are available for security expenditures at the private homes of the late Presidents Lyndon B. Johnson, John F. Kennedy or Dwight D. Eisenhower, and said that it would be almost impossible to develop the data.

Controversy has flared in recent weeks over expenditures on the Nixon residences. Reported outlays increased several times as the White House and then the General Services Administration updated their figures.

"We fully recognize the need to provide extensive protection for the security of the president," said Rep. Jack Brooks, D-Tex. "However, it is essential that expenditures made in the name of security be reasonably related to that purpose."

He said his House government activities subcommittee would hold hearings at a date yet to be set.

A House appropriations subcommittee under Rep. Tom Steed, D-Okla., held hearings on the same subject June 27. Steed expressed approval of the expenditures.

The General Services Administration reported it had spent \$70,367 on installations and equipment at Nixon's San Clemente, Calif., residence and \$62,202 for the same purpose at his Key Biscayne, Fla., compound. The agency also reported operation and maintenance

expenditures of \$584,221 at Key Biscayne. No similar figure was given for San Clemente. Administrator Arthur F. Sampson, asked how these sums compared to previous presidential residence requirements, said:

"There just aren't any statistics available. We have tried. We have been requested by the White House, we have been requested by the press, continuously to try and find what was spent for LBJ, Kennedy, Eisenhower, and we have not been able to do that."

Expenditures for such items as landscaping and a new heating system at San Clemente have been questioned.

The Secret Service says the landscaping primarily was to restore grounds to the condition they were in before being dug up for security installations. The agency said the old heating system at San Clemente was unsafe.

The security expenditures are made under three sections of law that authorize the Secret Service to protect the president, direct other federal agencies to assist the Secret Service in that task and enable the GSA to make security installations on private property.

The law sets no limit on how many houses a president might accumulate. Even a retired president is entitled to protection at as many residences as he might choose.

Seminole Ponies

Seminole Little League's Pony All-Star entries are both down to the final game of their respective area playoff tournaments. The Nationals advanced by drubbing Winter Park, 12-0, and meet the same team again tonight at Ward Field in Winter Park. The Americans dropped a 3-2 decision to Pine Hills and those two clubs also have a "return" engagement this evening.

Richard Paul is the field boss of the Nationals who handed Winter Park its first tournament loss while Paul Ryan is the manager of the American League All-Stars.

The winners of these respective division tournaments will advance into further competition.

Sanford Americans, winners of the area tournament in grand and convincing fashion, will be seeing more action starting Monday in St. Cloud. The Americans knocked the St. Cloud team out of what was supposed to be the "host" team slot.

Oviedo's Little Major All-Stars hit the tourist trail Monday as well when they tangled with Appoka at Rolling Hills.

Both the Sanford and Oviedo crews are really loaded with talent and should win more than one or two games.

Oviedo's Senior All-Stars play Northwest Seniors tomorrow at Conway.

Real Boxing Action

Those lovers of the free swinging, mild hitting events of ringside will certainly want to take in the action, all the action, at the AAU Junior Olympic Regional Championships scheduled for tonight and tomorrow at the Orlando Naval Training Center in Orlando.

Willie Bessemanoff, Larry Anzalone and Wayne Leach form the training staff for the area participants who have advanced this far.

There are three area fighters who should advance to the national competition. Ricky Russi, 160 pounder; Allan Dalton, 82 pounder; and Mike Knight, 131 pounder. All of the boys are 15 years of age.

Area AAU boxing chairman, Harry J. Dalton, feels all three of these boys will advance to the nationals. Only senior division regional champs advance to further competition.

And while the action will be a boxing fan could stand the price is even better. It's free, the gates are open to the public.

Sports Stadium Scene

Boxing returns to the Orlando Sports Stadium next week with a top notch battle slated between Allen Kendall and "Snake" White.

"Snake" it will be remembered gave Mike Quarry the tough time when the latter made his last Sports Stadium appearance.

As usual Malcolm Tall and the Sports Stadium crew should provide added excitement with the remaining bouts on their card.

Quarry incidentally will be in the Saturday TV fight slated for July 14 on the tube.

That TV series opened last week with Sammy Goss becoming the first American to win the Junior welterweight title, scoring a win over Jon Rodriguez in their 12 round title bout.

It's that kind of action which will help catapult boxing to the high position it once held.

Seen In British Open

Tom Weiskopf Has Changed His Style

THORN, Scotland (AP) — Johnny Miller and Bert Yanney jumped into a tie for the lead with faltering Tom Weiskopf today early in the third round of the British Open Golf Championship.

Weiskopf, who started the day at 135, nine under par and three shots ahead of Miller and Yanney, teed off in a pelting rain and then bogeyed the first and third holes to drop back to seven under.

Meanwhile Miller birdied the third hole and Yanney birdied the second and third after taking a bogey on the first.

Jack Nicklaus, five under and fourth after the second round, went six under with a birdie at No. 3 but then bogeyed to drop back to five under.

The skies began clearing as the four leaders completed the first three holes. Nicklaus, Palmer, who won the British Open here with a record 12 under par 276 in 1962, fired a two-under par 70 over the 7,043-yard Old Course at the Troon Golf Club and shared the early lead at 218 with Hugh Baiocchi of South Africa. Baiocchi shot a

third-round 69.

Lee Trevino, the winner of the last two British Opens, took three bogeys in a string of four holes on the back nine to finish with a 73 for 221.

Weiskopf, known for his outbursts of anger, says he has a better feel, a better imagination, more determination and sharper concentration to help him through the final two rounds of the British Open golf championship.

No wonder. He has won three of his last six starts and has a three-stroke lead going into today's third round on the heath-

er-chad 7,043-yard Troon layout. He played calmly Wednesday and dizzied the huge gallery lining the links alongside Scotland's Western seashore with a 67 for a 36-hole total of 135—nine under par.

Yanney shot his second straight 69 when he ran in a 30-foot birdie putt on the final hole — after it hung on the rim and kept him on edge for a few anxious moments.

Miller, who had an opening round 70, improved to a 68 before a light drizzle dampened the course while Nicklaus bogeyed with a 70 on five holes and three bogeys to get with his opening round of 69.

"Temperamental" reactions have beaten me many times," Weiskopf said after his stunning round. "But I'm a competitor and when things go wrong it hurts. It's the easiest thing in the world to be a loser. Only when you win is it worth all the hours of effort and frustration which turn you inside out."

Miller, who had an opening round 70, improved to a 68 before a light drizzle dampened the course while Nicklaus bogeyed with a 70 on five holes and three bogeys to get with his opening round of 69.

...THE HOPE OF OUR COMMUNITY, OUR NATION! A GOOD KID

It's nice to see a headline about a good kid—because that's what most of them are. Of course, his parents worry about him. That's one of the reasons he is a good kid. He's had plenty of opportunity to learn how much they love him...
