

## ARBUCKLE AT LIBERTY UNDER \$5,000 BOND TRIED FOR MANSLAUGHTER

Within Few Days If the Present Plans District Attorney Pan Out

### TWO CHARGES

ONE PLACED YESTERDAY AT CONCLUSION AND OTHER RETURNED BY GRAND JURY

(By The Associated Press) SAN FRANCISCO, Sept. 29.—Fatty Ar buckle is at liberty today under a \$5,000 bond after two weeks' preliminary hearing on the charge of murder in connection with the death of Miss Ruppe and will be tried on a charge of manslaughter within a few days if the present plans of District Attorney Pan materialize. Two such charges pending, one placed yesterday at the conclusion of the preliminary hearing and the other returned recently by the county grand jury. Whether he would be able to have Ar buckle appear to answer to one complaint and then try him on another one on the same date the district attorney was not sure. On the Grand Jury accusation Ar buckle was placed on his own recognizance to return October 3rd.

### Pope Trial Drags While Jury Selection Goes on Apace

Cannot Get Enough Men in Jacksonville—Try Sanford

(By The Associated Press) JACKSONVILLE, Sept. 29.—Circuit court marked time this morning in the Pope trial, when the second venire of one hundred due to appear yesterday afternoon only fifty-nine was present. Court adjourned until this morning to permit the sheriff to get more. When court opened today only eleven additional veniremen were rounded up. Judge Gibbs declared an indefinite recess and ordered the sheriff to go out for more veniremen.

### State Witness Called To Stand Again In Belcher Case

(By The Associated Press) CLEARWATER, Fla., Sept. 29.—Dr. John Bowen, witness for the State in the Belcher trial, was recalled to stand this morning. He testified on examination of stains on the foot rug in the Belcher car led him to believe they were blood stains. He said blood concealed on fibre of the rug which it would not have done had it come from a dead body. The State expected to finish its case today and the defense planned to conclude its side this afternoon.

### SPAIN'S QUOTA IMMIGRANTS HAS BEEN EXHAUSTED PROFESSOR'S WIFE DETAINED

(By The Associated Press) WASHINGTON, D. C., Sept. 29.—Mrs. Maria Sanjurjo, wife of a Spanish professor at Cornell, has been detained at Ellis Island because of Spain's quota of immigrants has exhausted, but ordered released for admission today by the immigration bureau. Sanjurjo married this summer while on a vacation in Spain.

### CALL STRIKE AT ONCE IF TRAINMEN VOTE TO WALK OUT.

CHICAGO, Ill., Sept. 29.—An immediate strike of the 168,000 railway trainmen employed on American roads will be ordered if the strike vote, now being counted, favors it, James Murdock, vice-president of the organization, announced today. "As a matter of fact," said Mr. Murdock, "a strike really has been authorized already by the leaders. The minute the vote is counted the strike order will be issued—provided the vote favors a strike and there is little chance that it won't. The leaders will not oppose the wishes of the men."

Counting the strike ballot will be completed within a few days. —Get your Scratch Pads from The Herald—by the pound—15c.

### BREAD LINE STARTS IN NEW YORK CITY FIRST TIME IN YEARS.

(By The Associated Press) NEW YORK, Sept. 29.—New York's first bread line since the stormy days that marked the start of the world war, is in operation today at the church of St. Marks, in the Bowery. The bread line opened last night and about six hundred men were fed.

### SINN FEIN ARE INVITED TO CONFERENCE

IN LONDON WITH BRITISH GOVERNMENT AND WILL BE LAST CALL

(By The Associated Press) LONDON, Sept. 29.—Sinn Fein have been invited to take part in a conference here October 11, a note dispatched today to DeValera by Premier Lloyd George. The note is considered to be the British government's final word in exchange of messages between London and Dublin. Lloyd George informed DeValera, however, the government could not alter the position that Ireland could not be allowed to separate from the British Empire, but must base her proposition upon self government as a member of the British Dominions.

### MICHIGAN CONTEST UP IN THE SENATE

FORD-NEWBERRY CONTEST CONFLICTS ALONG PARTY LINES

(By The Associated Press) WASHINGTON, Sept. 29.—Opinions conflicting along party lines were presented today by the majority and the minority members of the senate privileges and elections committee on the Ford-Newberry 1918 senatorial election contest from Michigan. The majority report cleared Newberry, the Republican candidate, of corruption and all other charges and recommended he be legally seated. Democratic members asserted Newberry was elected by corrupt and illegal methods and practices and recommended his seat be declared vacant. With filing of reports the case now goes to the senate for final decision which probably will not be made for several weeks. In the meantime it is understood Senator Newberry will not attend the senate sessions.

### ELAINE'S RIOTING NEGROES TO KNOW FATE TODAY.

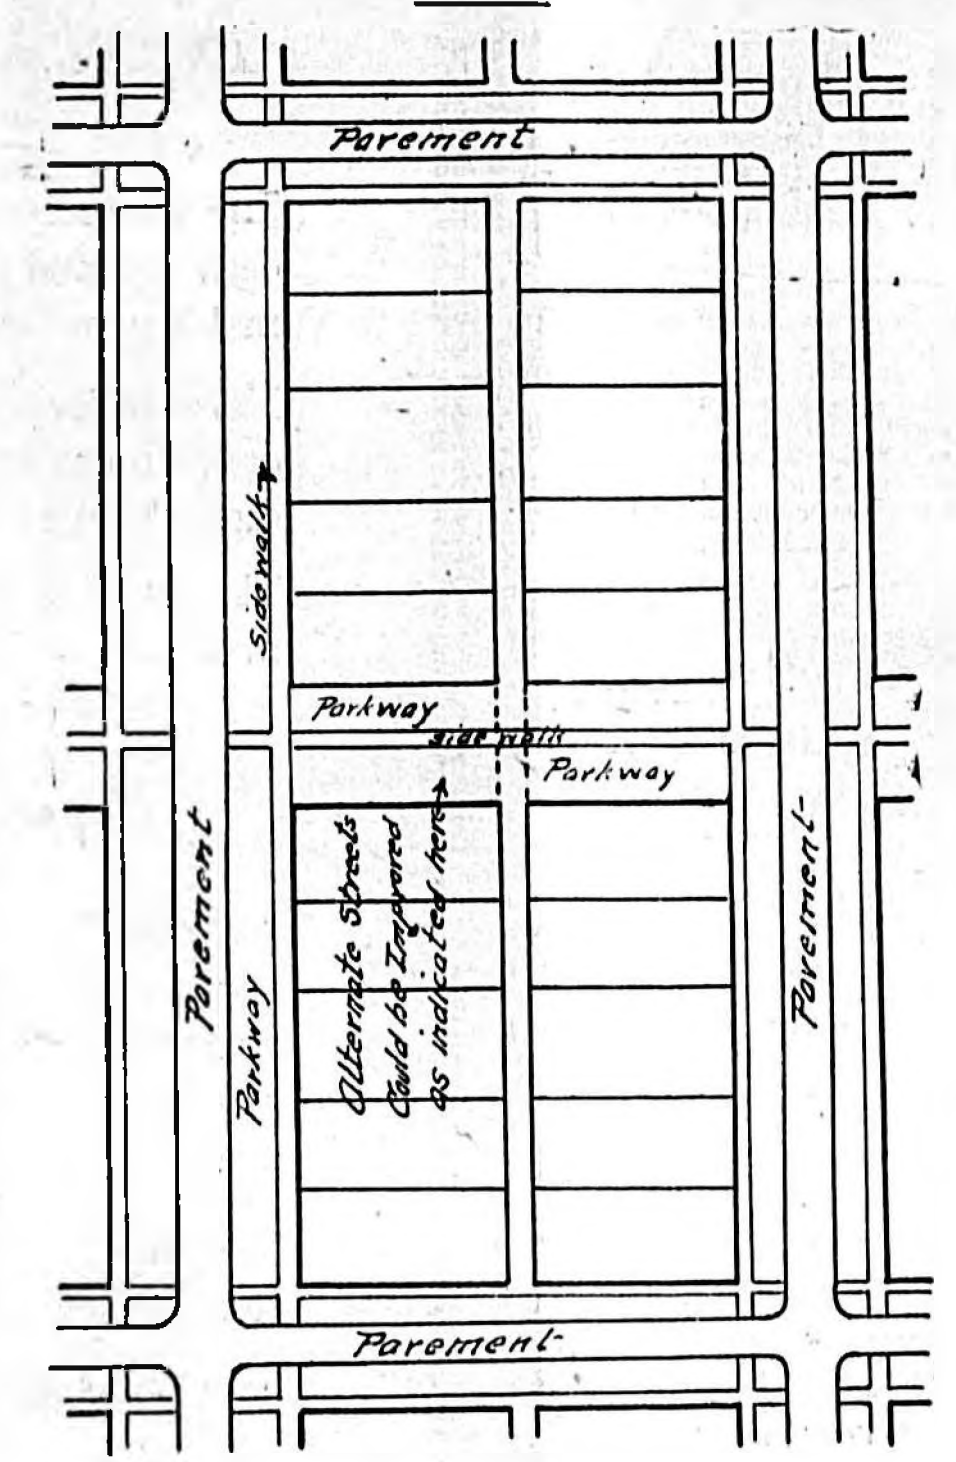

LITTLE ROCK, Ark., Sept. 27.—United States District Judge John H. Cotteral of Guthrie, Okla., after hearing today arguments on a demurrer filed by the state in habeas corpus proceedings in behalf of six Elaine (Ark.) negroes whose electrocution last Friday was stayed by a temporary injunction, announced that his ruling on the demurrer would be ready tomorrow.

Attorneys for the negroes based their efforts to obtain a new trial through habeas corpus proceedings on the allegation that the original trial of the negroes on a charge of murder, in connection with the Elaine riots of two years ago, and at which they were convicted and sentenced to death was influenced by mob spirit.

Attorney General J. S. Utley, in denouncing, declared that the question had been brought in the state courts and ruled against, and that habeas corpus proceedings brought in federal court on these grounds should be dismissed. He cited as a precedent the Leo Frank case of Georgia, in which it was held that evidence of hostile manifestations, once admitted, could not again be used as grounds for action.

Daytona Beach last week disposed of \$20,000 worth of bonds for general municipal improvement.

## PLAN FOR IMPROVEMENT OF SANFORD'S STREETS, ELIMINATING SIDE STREETS

Some time ago, the City Planning Committee of the Chamber of Commerce, brought out a comprehensive plan of improving the city streets, and especially the side streets, by eliminating the streets altogether in many places in the city, where there were no houses facing the side streets now, and making one sidewalk down the middle of the street and grass plots in the center, an ideal playground for children and where there would be no danger from automobiles as there would be no street. The idea is a good one, and will, no doubt, be tried out in this and other cities in the near future. Sanford has too many alleys and side streets taking up a lot of valuable room that could be utilized for the children to much better advantage. The following plan was drawn by City Engineer Williams who made the following explanation regarding same:

Omit the paving. Place a sidewalk down the middle of the street leaving the balance of the street for parkway which can be used as a play ground for children, keeping them off of the paved avenues. At present prices, this plan will save city and adjacent property owners \$2,600 over what it would cost to pave the street and construct sidewalks on each side. Property owners desiring this plan adopted, along with their property, should present to the City Commission a petition requesting same, and signed by all adjacent property owners. On account of there being more cross streets than are necessary, in the residence portion of the city, the Chamber of Commerce has recommended this plan to the City Commission for their consideration. The City Commission feel favorable to the plan providing all adjacent property owners desire this plan adopted and will request it by presenting a petition.

## RETURN OF PROSPERITY ANNOUNCED BY TWO OF NATION'S BIG MERCHANTS

### Charles E. Bedford and John Wanamaker Both See Clouds Rolling Away and Sunshine Flooding the Country from Coast to Coast

NEW YORK, Sept. 29.—The speedy return of prosperity with plenty of work for all was forecast yesterday by two notable figures in industrial and mercantile circles, Charles E. Bedford, president of the Vacuum Oil Company, and John Wanamaker, merchant of New York and Philadelphia. "Business Revival Week," said Mr. Wanamaker, "I think will be expanded into a business revival of years and years. I have more faith in America today and more belief in our prosperity than in all my 50 years as a merchant. There will be plenty of work for all if we show our faith, not by relaxing our efforts, holding back in fear, put on blue glasses and keeping our money in our pockets, but by making needed improvements, starting to build and rebuild, buying and selling,—putting to work our energy our brains—everything we have—for the good of the country. "Instead of curtailing our advertising we are enlarging it. Instead of standing pat on our stores as they have been, we are refitting, rearranging, rebuilding and improving them. To do this we have given employment to large bodies of mechanics and others, day and night."

In Mr. Bedford's view, conditions will be restored to normal by spring, barring unforeseen developments. "It is my opinion," he said, "that American business men now have abundant cause to be optimistic and hopeful as to the future. Likewise those who are engaged in relieving the unemployment situation may find the same reasons for a belief that it will be brought to normal before very long. "Business and with it, employment, have picked up steadily, since the low ebb reached this summer, and both continue to show a gradual and steady growth. Unless the central European or some unforeseen crisis intervenes there is every reason to believe that the improvement will continue throughout the fall and winter months."

### LIGHT EARTHQUAKE SHOCK FELT IN LOS ANGELES DID NOT KILL ARBUCKLE.

(By The Associated Press) LOS ANGELES, Cal., Sept. 29.—Slight earthquake shocks were felt in the southwest section of Los Angeles early today. The tremor lasted only a few seconds, and no damage is reported.

## EMERGENCY MEASURES FOR IDLE MUNICIPALITIES MAY BE CALLED UPON TO FURNISH WORK

(By The Associated Press) WASHINGTON, D. C., Sept. 29.—The possible emergency measures by municipalities to cut down the number of the country's involuntary idle was taken up today at a public hearing before the public works committee of the national conference on unemployment. Inquiry was directed toward developing what measures might be taken by towns and cities for speeding up public works.

## CHICAGO COPS HAD SYSTEM ON BOOZE

CHICAGO, Sept. 29.—A multiple shakedown system through which Chicago policemen were alleged to have obtained as many as half a dozen rackets on the same case of whiskey was revealed in the government investigation of the police department said by Chief of Police Charles Fitzmorris to contain 2,500 bootleggers in a membership of 5,000.

The request of Chief Fitzmorris that the federal authorities help him clean his own house, made last week, was placed before the federal grand jury with a score of witnesses, most of them policemen, testifying. One of these witnesses, according to officials, explained the multiple shakedown. Members of the police force, organized in bands, he said, would obtain information as to whiskey shipments from other cities into Chicago, and then, in uniform, would rob the cars in freight yards under the pretense of confiscating the liquor. The whiskey then was sold at fairly cheap bootlegging prices to get customers to take it in cash lots. When the liquor was delivered, however, a policeman appeared and demanded a substantial amount from the recipient for protection. After the sum had been paid, other policemen would raid the place, and, after collecting another protection fee, would "confiscate" the liquor, resell it and repeat the process of graft, sometimes half a dozen times before turning the whiskey over to a favored saloon-keeper for sale by the drink at high prices.

According to federal officials, the investigation will go back to the Mike DePike Heiter case where two bands of uniformed policemen fought for possession of a carload of liquor, valued at \$165,000 and shipped here from Kentucky. Detective Sergeant Eddie Smale, involved in that case, now is under arrest with two other detective sergeants in connection with the present investigation. He is charged with extortion. Charles F. Glyne, United States district attorney, still was preparing a full report to Chief Fitzmorris in which he promises to name every member of the police force against whom he has evidence. Half a dozen police commanders were questioned by Mr. Glyne in addition to the policemen taken before the grand jury. It is believed they were asked about reports that policemen had been seen intimidating government witnesses in the case and offering them money not to testify or to leave town.

Work has started on the handsome new building for the First Bank at Bradentown. The furnishings and equipment of the new bank will be up-to-date in every respect.

## Merchants' Gala Day Promises Big Time For Everybody

### BARBECUE AT NOON

#### TOURNAMENT RIDING, RACES AND EVERYTHING THIS AFTERNOON—DANCE TONIGHT

The big day was started this morning when the parade swung down the streets headed by Sheriff Hand as grand marshal and the Sanford band playing inspiring airs as the horses pranced and the little boys were well repaid by the great sight for coming down before daylight to see it all. Captain George DeCottes, of Company D, led his gallant men on a fine horse and looked the part and his men followed with their ammunition carts, each cart being pulled by a mule and the array of military men and their equipment made a most imposing appearance. Many of the men were unable to get off from their work and the entire company was not in the parade but enough were there to show the public what they have in the way of armament.

Following the company came the merry minstrel men in costume with a piano on the wagon playing a merry tune and two rag time darkies playing the bones and tambourine advertised the big Dixie Minstrels tonight. The Quality Shop had a bevy of pretty girls in the parade as did the Lexington and Hippobile cars, Willys-Knight and Handley-Knight and Overland cars, the Dodge cars and several others. The Hot-Mac Batteries had their "boat" driven by Billy Hoffman, Lord's Purity Water had a car, and the rear was brought up by the tournament riders and there was a bunch of these Florida riders of the ranges and that they will give the public some real riding this afternoon goes without saying.

The parade was good for having been jumped up in a hurry a few days ago as it was decided at first to cut out the parade but the parade is half of the celebration and more than half of a racing event and it gives the crowd the proper pep to take in what comes later on. At noon today the big crowd will be entertained by the big free barbecue on the lake front and thousands will be fed here. The folks are bringing their baskets and it will be a general gathering of the folks for many miles around.

After the parade this morning Captain DeCottes gave a fine address to the big crowd in front of the court house and the morning was a busy one with the great mingling of the crowds on First street and the general shopping and trading of the out-of-town people. A big horse and mule auction is going on at the lake front and there is plenty of excitement and an atmosphere of a county fair.

This afternoon will come the tournament riding, the horse racing, the machine gun company shooting, the Rod and Gun Club shoot and many other features. Tonight the Dixie Minstrels and the big street dance in front of the court house.

The Sanford band is furnishing the music and everything looks like a perfect day. As the Herald force has gone on a strike at 2 o'clock today the program and the write-up of the big day will follow in tomorrow's Herald.

## OPPOSITION TO KU KLUX IN SOUTH JAX BETTERMENT LEAGUE ORGANIZES

(By The Associated Press) JACKSONVILLE, Sept. 29.—Opposition to the Ku Klux Klan groups in South Jacksonville one of announced purposes Fifth Ward Betterment League organized at that town last night.

"New buildings are nearing completion," says the Clermont Clarion in a headline. The newspaper tells of advance made in the construction of the Balloy-Isler building and at the Jones building. Both structures are going forward rapidly, and will be ready for occupancy in a short time. Another building that is fast assuming shape is that of the First National Bank. Clermont will be much changed when the improvements noted are finished and occupied.

**TOURIST SEASON HAS OPENED FOR SEASON**

JACKSONVILLE FILLING-STATION SAY NEARLY 400 CARS PASS IN WEEK.

Tourists have begun to gravitate toward Florida. From the chill of northern forests, the sizzle of middle western plains, the rush of the coming eastern "season" and the drizzle of an advancing California rainy period, they are weaving their varying routes through the webwork of American good roads, to the state of heavenly climate and ribbon-roads.

The first reported arrivals in Bartow came through from Atlanta bound to Ft. Myers, about two weeks ago. Since that time, they have been noted in numbers, by the garages and filling stations where they stop for supplies.

It was reported in Jacksonville last week, that during the third week in September a single filling-station owner reported the passage of nearly 400 cars into the state from points from Maine to California. The tourist season is beginning unusually early this year, and Florida towns are doing well to make preparations for influx of visitors who will come early and stay late.

The housing problem promises to be a serious one again this winter and man ysouthern cities are preparing their tent grounds for use of the earliest occupants. According to one prominent real estate man in Bartow, this city could well afford to supply two or three apartment houses and fifty or more private residences for the demands that will be made on it if present inquiries continue at the rapid rate at which they have started.

Work has just started on remodeling the First National Bank building at Brooksville.

PRESIDENT HARDING ACCEPTS VICE PRESIDENCY OF ORGANIZATION.

JACKSONVILLE, Fla., Sept. 28.—A letter from President Harding announcing his acceptance of an honorary vice-presidency of the Merchant Marine Minute Men of America, was read at a meeting of the organization held in the council chamber of the city hall here yesterday.

The organization grew out of a movement started here recently by J. W. Hart, formerly connected with the shipping board and now secretary of the Palatka Chamber of Commerce, which has for its purpose the taking over and operation of the merchant marine in the interest of former service men.

A letter from Senator Fletcher at Washington was read saying he had inserted the so-called Hart plan in the Congressional record, of September 25, in full. President Harding expressed the hope, in announcing his acceptance of a vice-presidency, that the "organization may realize the large usefulness of which its program gives promise."

It was announced that another meeting of the organization would be held next Friday. Ernest Metcalfe, secretary to Mayor Martin, and who acted as chairman of today's meeting, asserted that requests for information and membership had been received from all sections of the country.

Other speakers today included, J. Line, C. M. Tyler, Florida Freight agent for the Southern Railway, Major H. R. Payne, commander of the local American Legion post, J. H. Coughlin, of a local business firm, J. W. Hart, originator of the plan, E. R. Waite, publisher of the South Atlantic Ports magazine, and City Commissioner W. A. Evans.

**JOE CAMERON TOOK FIRST PRIZE IN BEEF CONTEST**

If anyone has any doubts about what kind of beef the stockmen of this section of Florida can raise they should see the big array of choice beef piled up in the cold storage of George Fox Co., in this city awaiting the big fires that will barbecue it tonight and all of tomorrow morning, getting ready for the big feed at noon.

The meat came from ranches in this and adjoining counties and is some of the finest that has ever been on exhibition. It is native beef, grass-fed and came from Joe Cameron, J. H. Padgett of Volusia county, C. C. Humphries and several other ranches in this county. The meat brought in by Joe Cameron took first prize and it is meat that speaks well for the cattle breeding in Seminole county. The other meats are also fine, that of Messrs. Padgett and the Humphreys being choice also but the Cameron meat in the opinion of the judges was the finest and it took the prizes. The exhibition of Florida beef was a great idea and brought in a fine array and showed the folks who did not know that Florida beef is fine and not of the ticky variety they have been led to believe it might be. Mr. Stokes, of the Stokes Market, had charge of the meats for the barbecue and he states that the Florida meats when fed right are better than any that he can obtain as well as being cheaper. Mr. Stokes also wishes to announce that Florida cattlemen donated a lot of fine beef to the barbecue and Smith, Richardson & Conroy, of Jacksonville also donated beef. W. E. Walthall, W. W. Long and Alex Vaughn were the judges in the beef contest and they are well versed in beef and their decision gave general satisfaction. Tomorrow we will taste it and find out for ourselves. Aside from the beef the Fox Cold Storage also is filled with nice young Florida pigs all ready for the barbecue and there will be some delicious meats to be given out tomorrow.

**Make Effort to Prove That Fatty Was Not to Blame for Death**

(By The Associated Press)

SAN FRANCISCO, Sept. 28.—The defense in the preliminary hearing of Fatty Arbuckle charged with murder, announced it is prepared to begin its effort to clear him when Police Judge Lazarus' court resumed its session at 2 o'clock this afternoon, Pacific time. The prosecution completed its presentation of evidence yesterday.

Sensational charges of blackmail hints of "white powder" and bad hooch, of intimacy between principal state witnesses were expected.

The spotlight of searching cross-examination was to be turned on the testimony, lives and character of Mrs. Bambino Maude Delmont, the "avenger" of the dead Miss Rappe, Al Semnacher, who gathered up the dead girl's clothing "to clean an automobile" and the other witnesses upon whose testimony District Attorney Brady depended on a conviction.

Development of the "blackmail" theory—based upon the assumption that Al Semnacher took the dead girl's clothing for the purpose of later extorting money from Arbuckle—was promised before the defense finished.

Three main channels in which the case for the defense would run were outlined yesterday:

First—That Virginia Rapp died from causes for which Roscoe Arbuckle shared no responsibility.

Second—That the state's witnesses were not to be credited.

Third—That the episode involving the death of Virginia Rappe was seized upon as an opportunity to blackmail Arbuckle.

Possibly, it was said, the real punch of the Arbuckle defense would be retained for the trial, if one is ordered.

But, starting today, it was certain that the testimony which the chief attorney for the defense, Frank Dominguez, would try to elicit would be spiced with tales of life around Los Angeles studios, of "wild parties," leading, perhaps, to disclosures of things that have occurred on the "white ways" of other cities throughout the country.

**ROLLINS STARTS PRACTICE.**

**WINTER PARK, Fla., Sept. 27.**—Rollins College's football squad has started practice with more than 30 candidates, said to be the largest number ever to come out for the team. Coach Schlitcher has held the workouts thus far to the preliminary stages by putting the men through a process of falling on the ball, going down under punts and receiving passes. Some tackling of the dummy has also been carried out. Several practice game have been arranged with teams made up of former college players from Orlando and vicinity. Prospects at this time are for a line averaging 175 pounds. The backfield will probably include Bob Wright, this year's captain, and Lloyd Boyle, last year's field leader.

Rollins will have its opening game with the University of Florida at Orlando on October 8. Thence the team will wade into its schedule which calls for several game with out of state colleges. The season will end at Tampa, Thanksgiving Day, when Rollins tackles Birmingham Southern University.

Arrangements are also under way for a post-season game with the University of Havana at Havana Cuba.

Eddie Lee and a lady friend spent Monday evening at the home of his brother, Jesse and wife.

Clarence Bergquist is having a little rest up at the home of his parents at Tiger Bay, and his brother, Elmer, is here just now, both have hurt a finger.

Our Grapeville young men are about all off on a motor trip this week and things seem pretty quiet.

Miss Olga Vihlen is enjoying a well earned rest at the home of her parents; was a caller at the home of Mrs. Jesse Lee, Monday. She has just returned from a three weeks vacation spent with friends at Miami.

Mrs. A. F. Westerlick leaves with Mrs. Parkinson and granddaughter, Miss Helen, of Osteen, on Thursday to attend the annual Adventist camp-meeting in Orlando, for ten days.

Mr. and Mrs. A. L. Campbell and little ones, left on Monday to visit two or three weeks with his relatives in Indiana.

Friends will be sorry to hear that Mr. and Mrs. Chas. Rantone of Boston, have given up the idea they had of coming south this winter, so Mr. and Mrs. Stent, who have been keeping up their place for them will move back to their own home in a couple of weeks.

Upsala had a good rain Sunday, but only a few drops fell in Grapeville.

Magnuson spent a few days at the home of Mr. and Mrs. Ericson, he is expecting soon to leave to take up his work again for Mr. Chase.

We hear that Mr. J. E. Sundquist has been ill for a few days.

Mrs. Ballinger was in Upsala Tuesday spending the day with Mrs. Ethel Leo and mother, Mrs. Stedt, also calling on Mrs. Barrel and Mrs. Ericson.

Mr. and Mrs. Edwin Peterson and daughters motored over Sunday from their home at Holly Hill and spent the day with relatives in Grapeville.

In our last items we gave the sad news of the death of Mrs. Emil Magnuson, which we think will be in the weekly. Rev. Walker, from Sanford, conducted the funeral services and a large number of relatives and sympathizing friends attended the funeral with many beautiful floral offerings, covering the grave at Lakeview. Her sister, Mrs. Adam Karr, of DeLand, and Mr. and Mrs. Larson, and Mr. and Mrs. Jackson, from Piedmont, also attended.

J. C. Collier, of Sanford, left on Saturday for Canton, N. Y., to bring back his better half, who has been spending the summer north with their relatives.

# Altamonte Springs, One of the Beauty Spots of Seminole's Wonderland

ALTAMONTE SPRINGS has an atmosphere, and so have other places in Seminole County, but Altamonte's atmosphere has the peculiar quality of a "Lodestone"—its inhabitants may remove to other places in other times, but they always return or have a very strong desire to do so, and of course there is that—not very mysterious reason—Altamonte's beauty—for all humanity is drawn to beauty.

Altamonte Springs is placed in such a favorable location, that her man-made beauty, combined with the natural beauty, forms the Alta-Monte that we know today. The Altamonte of George Frost of Boston, of Herman Westinghouse of the great Westinghouse Electrical Company—who were among its founders—is not the Altamonte of today. Founded as the home of rich men only, we now reach out for residents of humbler means also, as we realize that riches alone do not make a town livable.

It stands to reason that the state was scoured by these wealthy men to find their ideal before founding their town. Therefore Altamonte's location is the pick of the state.

Altamonte Springs has an altitude of 220 feet—thus getting pine filtered sea air from the Atlantic Ocean 30 miles to the East, and the Gulf of Mexico to the West, forming that wonderful ozone known as the "Atmosphere of Altamonte" and when combined with the odor of orange blossoms and jassamine in season, and this combination comes breezing into one's window 24 hours a day, it is bound to give the ailing their health, and the healthy more health and joy of living.

Altamonte Springs has in its territory hundreds of acres of orange and grapefruit groves in high state of cultivation, and has within her boundaries five beautiful lakes with clean, sandy shores, no marshy borders. Lake Orienta (upon which is located the "Altamonte Hotel", famous among tourists all

over the country for its wonderful cuisine and excellent management of its owners, George E. Bates & Son) is the largest of these lakes and is noted for its black bass fishing, which is jealously guarded by the owners of the land surrounding the lake, who welcome the true fisherman with sporting ideals.

The "Altamonte Hotel" is located at the east end of this lake, upon a bluff overlooking the full length of its waters. Lake "Adelaide" is across a park to the rear of the hotel, and upon this lake is the "Altamonte Spring" of absolutely pure water.

The paved highway from Jacksonville to Tampa and all South Florida passes through Altamonte. A day's ride in an automobile may encompass two hundred miles in any direction without leaving a fine paved road, making Altamonte an admirable location for automobilists, a fine large garage is under construction and will be open for business in a few weeks, two stores with filling stations are handy and every advantage enjoyed in a city at hand.

Altamonte Springs is located on the Tampa and Jacksonville Division of the Atlantic Coast Line Railroad and gives fine service, Western Union Telegraph office, Express and Third Class Postoffice, Electric Lights, beautiful shady streets of large oaks, within 14 miles on brick highway of Sanford, and 9 miles on brick highway to Orlando. Winter Park, with Rollins College, is on the same road just five miles to the South.

The hotel is the center of social life with card parties, dances, etc., and Altamonte's winter residents and home-folks are of a superior order and of a prosperous, enlightened class. Our surrounding country and neighboring towns of Longwood and Maitland are of the same order and are fine neighbors, and are only two miles away to the North and South.

The practical side of Altamonte Springs is not to be slighted in this article, for, aside

from her fruit industry, Altamonte is noted as having 40 acres in covered conservatories devoted to raising the beautiful Asparagus Plumosis fern used by florists. This is shipped in season mostly to the north, and the industry represents an investment of over a quarter of a million dollars and a payroll of hundreds of dollars a week. Hon. Charles D. Haines, ex-congressman from New York, heads the largest of these conservatories, The Royal Extension Fernery, Incorporated.

Mr. B. L. Maltbie, of the Maltbie Chemical Works, of Newark, N. J., is one of Altamonte's latest developers, and is planning a great future for us this winter.

Altamonte has a Chamber of Commerce, whose Secretary, W. B. Ballard, is always glad to give information upon request. Altamonte Springs has just recently been incorporated and is officered by unsalaried men of progressive ideas, but within keeping with a low millage.

George E. Bates and Son are men to whom Altamonte Springs owes much, as many coming as their guests buy property here and stay as residents.

Palm Springs, a noted resort, is only two and one-half miles through the pine woods to the Northwest of Altamonte. Here Mr. Lester Beeman has spent thousands of dollars to give a pleasure resort for the free use of the public, and one that is greatly appreciated. Mr. Beeman has a pretty little cottage at the Spring as have others from Sanford and Longwood.

Altamonte Springs has never been boomed or exploited, but is now on the verge of a growth that will not be sporadic, but steady and substantial.

A peculiar circumstance is the fact that there is only one "Altamonte Springs" in the world, and we are "IT". Numbers of "Altamontes" appear in the Postal Guide, but only one "Altamonte Springs."

All out for a good time today.

This day is not such a largo day, but just a general getting together and a gathering of the clans and a neighborhood picnic.

It should mean much to the business interests of Sanford for it is the gift of the merchants of this city. We hope that the many hundreds of visitors enjoy it to the limit.

And don't rush off in the heat of the day. There will be a big minstrel show tonight, and street dance—the latter being absolutely free.

Th tournament riding and races this afternoon will be worth your taking a day off and coming to Sanford to witness. The best riders in the state are here today.

And when you sink your teeth into that barbecued meat you can remember that it is real Florida beef and some that perhaps has not been dipped for a year or more and yet it is all that could be desired in meat. Try it and see how you like it.

The soldier boys of Sanford looked real classy this morning in the parade. We hope they will never be called for duty but if they are called they can be depended upon to deliver the goods. And Sanford is proud of her machine gun company.

And after today let every business man in Sanford get right square on the job of advertising, having special sales, of going after the business of this section. Otherwise the gala day is thrown away. Kindness and courtesy are great things but prices are better.

**WHAT WATER TRANSPORTATION REALLY MEANS.**

Few people here have realized in the past and will realize in the present just what a great advantage water transportation really will mean in this section of Florida. (S. J. Sligh, one of the pioneers in the "ship by water" movement, and one of the largest shippers of fruits in Orlando, knows whereof he speaks, for he has shipped his fruits by water since the time when there was no other means of transportation. In his speech at Orlando the other night, he told them many things of interest and he was listened to with interest for he is an experienced shipper, and one of the oldest and largest shippers in the State. We reproduce what the Reporter-Star said of his talk:

"Mr. Sligh told of a ship-by-water meeting which had been held in Orlando in the early afternoon, full details of which will be found in another column of this issue. Mr. Sligh said he had figures to show that the railroads had taken from the shippers and merchants of Orange county since 1918 \$20,000,000 more than their normal rate. It does not look like the expenses of the roads for Orange county has increased that much and yet the railroad heads tell us they are losing money.

"I met a gentleman on the train the other day who in discussing the problem advanced the idea that the

easiest way to bring the rates to where they should be was for the farmers to own their own railroad to the seaport towns and ship over their own boat lines from those points. This was a small shipper of fruits, he suggested that each box of fruit be assessed ten cents as a fund towards the building of the road, this with other revenue would soon pay for the construction of the road and put it on a paying basis.

"It is Mr. Sligh's opinion if we want any assistance from Washington for our waterways we must show them the amount of tonnage which will be handled over these routes. He said he was in the Capital City some weeks ago when a large delegation from the State of Washington and Oregon were there to secure an appropriation for waterways, this committee had the exact amount of tonnage that would be taken over these waterways if they were completed, when the officials were shown the vast amount of good that would be accomplished by the building of canals and deepening of the natural waterways the appropriation was granted. Mr. Sligh is of the opinion that should Florida not be visited by hard freezes in the next few years it will be utterly impossible for the railroads to handle the freight. 'This must be moved by water transportation,' he said, 'we will have the St. Johns river connected with the Indian river at or near Titusville and will have almost hourly service from the numerous steamship lines that will make our ports.'

**"GASOLINE HOGS"**

The suggestion is made that States throughout the country set out now to establish laws that will make life a burden to "gasoline hogs" of all kinds that infest the highways and endanger pedestrians and themselves. "Gasoline hogs" are divided into the following classes of dangerous and inconsiderate drivers:

- 1.—The man who leaves his empty car standing at a busy street all day long.
- 2.—The man who turns a corner at fifteen miles an hour after a single toot of the horn, giving the pedestrian no chance.
- 3.—The man who alls to stop back of the building line when halted by a crossing cop.
- 4.—The man who passes to the left of a trolley car, whether the street is empty or crowded.
- 5.—The man who refuses to stay in the traffic line and persists in edging ahead of the mgn in front of him.
- 6.—The man who uses the left side of the street or roadway to get ahead of the line.
- 7.—The man who, intending to turn a corner, rushes up alongside of the car on the right, thrusts out his hand, wings across the front of the other car and compels the latter driver to make his car stand on its nose to prevent a collision.
- 8.—And the worst nuisance of all, the man whose passengers stick their hands out in all directions, leaving you to guess whether he intends going to the right or left or up in the air.—American Industries.

**THE PURELY HISTORICAL SIGNIFICANCE OF THE BIBLE**

When the proposal is made that the Bible be taught in the public schools of this country one class or another protests, because they fear their views will be supplanted by other views in the minds of their children, and it is not always unreasonable for them to assume the attitude of protest, since they are helpless once the authority is given an instructor to furnish his own footnotes to the study of this important subject.

However, although they do not want another individual teaching the lessons of the Bible to their children, some parents make no effort to instruct along these lines, and therefore all instruction is lacking.

A private correspondent of the New York Times, whose name would add nothing to the merits of the idea, advances a point worthy of consideration. He discusses the Bible from the purely secular viewpoint, and in the course of his communication says:

"The cure lies in the instruction of our children in the public schools in the true nature of the mass of literature known as the Bible. Our children are now entitled to know that the Bible is neither intended to be used as a textbook of science nor as a cryptic almanac of coming events. The Bible, quite apart from "religion," has a secular value as the best account we possess of one of the strains of thought and experience wrought into the fabric of our civilization. David and Solomon, Jesus and Paul are persons of secular import, as much as Charlemagne or Cromwell, Washington or Lincoln. Until the knowledge which has been secured regarding the books of the Bible is given to our children, not through biased and futile Sunday schools, but as facts of the secular world with which as citizens they will have to do, the minds of our people will continue to be open to accept the debasing superstitions of

Biblatrous and other sorts which is so many quarters pass for "religion" today, and which are given a laissez-faire tolerance by a menacing misuse of the phrase of "religious liberty." Aside from its teachings, the Bible is the greatest history ever written, and it is well for us not to lose sight of this fact. Modern history is a sequel to Biblical history. In the recording of some events the two histories parallel each other, in many others the one takes up where the other left off. There are no important contradictions. It is best for the teachings as interpreted by various denominations to be taught in Sunday schools, but secular historical emphasis might be worth while.

**WEATHER AND CROP**

Conditions in Florida for the Week Ending September 27, 1921.

Temperature—A week of abnormally high temperatures, maximum well up in the 90's prevailing over the section. The daily excesses ranged from 0 to 6 deg. Too hot to work.

Precipitation—A continuation of an unbroken drought of from 4 to 6 weeks' duration in some portions, and the driest September in some portions of the section i n about 50 years. The weekly deficiency in rainfall at regular stations ranged from 0.83 inch to 2.25 inches, and a cumulative deficiency since the 1st of the month of more than 6 inches. "Dry as powder" is typically true in much of the section.

Condition of Crops—No fall crops of moment, except where moisture has been sufficient. Truck on uplands has made no progress; much has died as a result of drought. Conditions are better on low lands, and a few reports indicate fair condition. Cane and sweet potatoes actually deteriorated during the week on uplands, and the latter crop will be short, although some planting continues at this late day. Citrus fruits have dropped badly over much of the section—some report fruit as drying up; trees are wilting, and some are being watered. Strawberry plants have made no progress—some have died. The cotton crop has been mostly picked; there will be no top owing to weevil and drought. Stock-water is scarce; ranges are exceedingly dry. The weather has been

too hot and dry to do much plowing. Little or no fall grain has been planted.

**PAINTS OUT HIS SENTENCE.**

**ST. PETERSBURG, Fla., Sept. 29.**—W. F. Green, convicted here of having liquor in his possession, and sentenced to pay a fine of \$100, went to jail because he didn't have the money. Green asked for a conference with Chief of Police Bidaman several days ago, told the Chief he had heard the city desired to have some painting done about the jail and asked for the job, with the understanding that the wage he received was to be applied to his fine. Chief Bidaman consulted with Judge Speer and the Judge agreed to let Green take the job. Green now is painting the jail at the wage of a regular painter.

**In the Circuit Court, Seventh Judicial Circuit, Seminole County, State of Florida.**

Special Tax School District No. 3, Seminole County, Florida, by O. P. Swope, C. L. West and T. L. Lingo, Trustees, and C. F. Harrison, C. A. Dallas, and F. T. Williams, members of County Board of Public Instruction of Seminole County, Florida,

vs.  
The State of Florida, ex rel Geo. A. DeCottes, State Attorney for the Seventh Judicial Circuit of Florida.

**CITATION**

To the Citizens and Tax Payers of said Special Tax School District No. 3, Seminole County, Florida:

Whereas: A petition has been filed in the above styled Court by Special Tax School District No. 3, Seminole County, Florida, setting forth the fact that an election has been called and held in said Special Tax School District No. 3, on the 9th day of August, 1921, to determine whether or not there should be issued by said Special Tax School District, bonds in the sum of \$20,000.00, to bear interest at the rate of six per cent (6%) per annum, interest payable semi-annually, principal to mature thirty years after the date of the bonds, and the said bonds to be dated July 1st, 1921, the proceeds of the said bonds to be used for the purpose of acquiring, building, enlarging, furnishing or otherwise improving school buildings and school grounds and for the exclusive use of the public free schools within said Special Tax School District No. 3; that a canvass of the returns of said election show prima facie that said election was in favor of the issuance of the said bonds as aforesaid by the said district.

Now, therefore, in pursuance of an order of the Court herein made and in conformity with law NOTICE is hereby given that the citizens and tax payers of the said Special Tax School District No. 3, Seminole County, Florida, are by the said order and by law required to be and appear before the Honorable Circuit Court of the Seventh Judicial Circuit, of Florida, on the 30th day of September, A. D. 1921, at ten o'clock in the morning, at DeLand, Volusia County, Florida, then and there to show cause, if any they have, why said bonds should not be validated and confirmed.

Witness my hand and official seal of office at Sanford, Seminole County, Florida, this 7th day of September, A. D. 1921.

SANFORD'S TEMPERATURE

Dawgona, she fell for it—we coaxed the old bulb down yesterday by telling about the cold that was coming and today we take great pleasure, ladies and gentlemen, in calling your attention to the fact that the temperature has fallen to 92. We can also promise that if another rain will come tonight after the dance is over—of course—that the 88 mark will soon be recorded. But anyhow, ain't we got fun today with everything stirring, and the streets filled with people, the people filled with barbecue and the colonels full of corn, yes.

Table with 2 columns: Temperature, Barometer. Values: Maximum 92, Minimum 68, Range 72, Barometer 30.12

Circle No. 1 will have a cooked food sale at the Jones' Cash Store Saturday afternoon. 161-2tp

The Central Florida Water Traffic League Born in Orlando Yesterday.

Preceding the love feast of the Orlando and Sanford chamber of commerce, representatives from commercial organizations of sections interested completed the organization of The Central Florida Water Traffic League.

According to the by-laws, the object of this organization "shall be to promote the development of the facilities and business, via the St. Johns river, to secure equitable freight rates out of, into and through Central Florida, and generally assist in improving the service of ship via water o rtruck, and solving the traffic problems of the shippers of freight into and out of Central Florida and its trade territory.

At the evening meeting the combined chambers of commerce stood godparents for this lusty infant, which upon maturity will give a good account of itself.

Conserve Your Sight

Immediate and careful attention should be given to the first indication of eye trouble. You are fortunate if you have found it unnecessary to wear glasses, but indeed unfortunate if you have neglected to do so when it is really needful. By correcting a slight error in your sight today will save a multiple of trouble later on in life.
