### Sales Of Georgia Pecan Crop Begin

ALBANY, Ga., Oct. 25.—(AP)—Sales of Georgia pecans, a \$1,255,000 crop in 1934, began here yesterday. Prices were slightly lower than on the opening last year. At the co-operative warehouses, extra large Schley's brought 11 cents; large Schley's, eight cents; extra large grade a blanda, seven cents, and large blanda, six cents. The majority of first offerings was of poor quality, as is customary early in the season.

Erosion deals a double-edged blow to fertile land. It slashes steep, unprotected slopes into gullies and strews over bottom lands infertile subsoil washed from gullied hillsides.

### Motor Magnate Gives Hitch-Hikers Lift

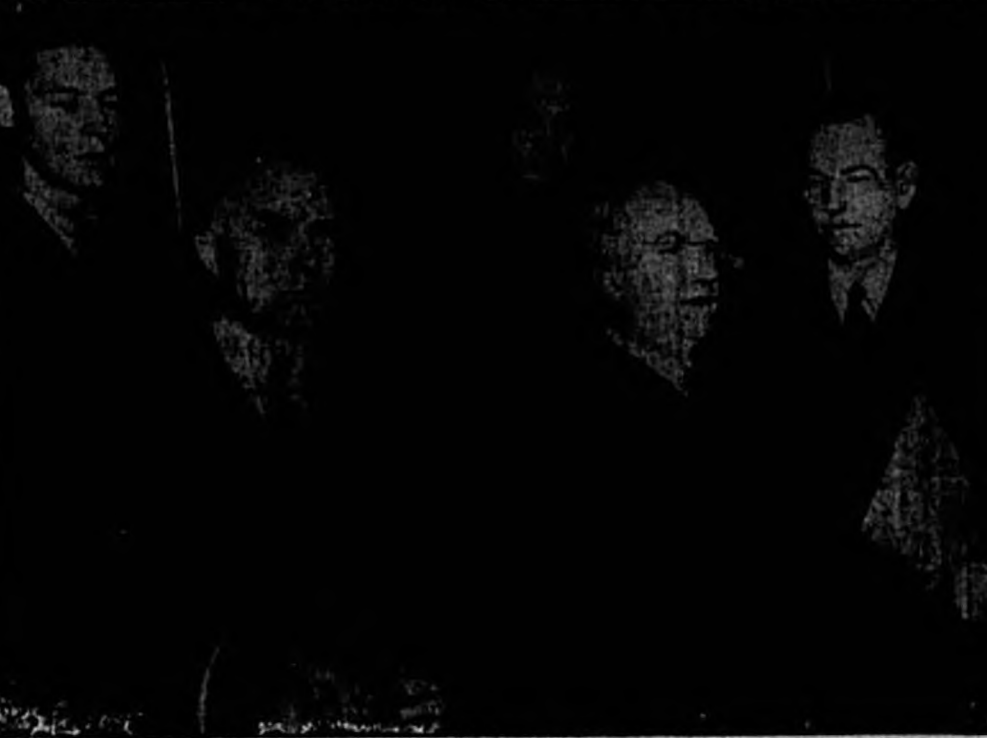

WOOSTER, O., Oct. 25.—(AP)—Henry Ford, the motor magnate, can be susceptible to the jerk of a thumb along an open highway. John Smucker and Robert Strong say that while hitch-hiking to their homes here from jobs at Pontiac, Mich., they flashed the thumb signal to an approaching car at the outskirts of Dearborn, Mich. A large, maroon car pulled to a stop and gave them a lift to Monroe, Mich.

Who whom are we indebted? Smucker and Strong inquired as they got out. "To no one," came the reply, and then as if an after thought: "I am Mr. Ford."

When a submarine is expected to meet enemy ships, she cruises along the surface with her ballast tanks half filled with water in order to dive more rapidly.

During the past year there were reports of 3,402 missing persons in St. Louis; 5,103 in Philadelphia; 10,796 in New York City; 2,638 in San Francisco, and 3,982 in Los Angeles.

### U. S. DELEGATES, 'OPEN-MINDED,' OFF TO BRUSSELS

"We are open-minded. We have no commitments!" So spoke Norman H. Davis (center in front row), head of the United States delegation to the nine-power conference on the Sino-Japanese conflict as he and his colleagues sailed from New York for Brussels, Belgium on the steamship Washington. Left to right, front row: Dr. Stanley Hornbeck, Mr. Davis and J. Pierrepont Moffat. In the back row Charles E. Bohlen (left) and Robert T. Pell.

### Deer Hunters Are Advised To Wear Red

DENVER, Oct. 25.—(AP)—O make deer hunters poor targets, R. G. Hunter, state game commissioner, suggests they wear red caps and hats. "Last year we had only three fatalities among 14,000 deer hunters but this year we would like to get by without accidents," says Hunter. "And if hunters must drink strong liquor, they should do so moderately," he added. "Liquor and bullets do not mix successfully."

### Iron-Melting Shells Are Used By Franco

LONDON, Oct. 25.—(AP)—A new German shell that melts iron and steel is being used by Franco's forces, says Prince Hubertus Loewenstein, the German author, who recently returned from Republican Spain.

The shells, with a specially prepared termitic filling, are fired by ordinary anti-tank guns. Exploding inside the tank they develop a heat of 4,000 degrees Centigrade, by which, of course steel and iron melt like snow," Prince Hubertus said.

## "Independent - Home Owned and Operated" FORREST GATCHEL'S CASH GROCERY AND MEAT MARKET

## Cold And Floods Unite To Produce Trouble In East

**Rising Ohio River Is Expected To Reach Crest Of Two Feet Above Flood Level**

**Hundreds Driven From Their Homes**

**Buckhannon River Is At Highest Crest Since Peak Of 1918**

PITTSBURGH, Oct. 29.—(AP)—A cold wave swept the western slopes of the Allegheny mountains, halting a three-day downpour as high waters raced on to this steel city from south western Pennsylvania and northern West Virginia.

The Monongahela River is rising and government observers said the Ohio River at the junction of the Monongahela and the Allegheny probably would reach a crest of 227 feet, two above the flood stage, today.

They predicted the water probably would overflow sections of lowlying streets and flood cellars in river front homes. Last night hundreds of families were driven from homes in towns and rural areas along these rivers. Damage appeared slight, however, and flood waters were falling.

The rain swollen Buckhannon River in central West Virginia left a flood damage unofficially estimated at \$100,000.

The river reached its highest flood crest since 1918. Muddy water was six feet over the flood stage at its peak. Water was three feet deep in a railroad station at Buckhannon but was falling. Officials reported no suffering in the community.

One life was lost on the West Coast and more than 200 families were driven from their homes in (Continued on page three)

**Spanish Stop Fight To Dodge Flood**

ZARAGOZA, Spain, Oct. 29.—(AP)—Insurgent and government armies on the broad Aragon front quit fighting each other today to combat a common enemy, the flood, that was sheeting wide areas in the valleys of the Ebro River and its tributaries.

The Gallego River, rushing down from the French frontier to join the Ebro at its highest level in 20 years, is 21 feet above normal. The flood cut the highway, filled the trenches and sent the soldiers to higher ground. Hostilities generally were disrupted.

**Gus Schmah's Bear Goes To Silversprings**

The pet Florida Black bear which Gus Schmah, local farmer and sportsman, kept for a number of years has been added to E. Ross Allen's colony of animals at his farm in Silversprings.

Mr. Schmah used the animal to train dogs and also as a decoy in his bear hunting expeditions. The animal has become a fine specimen of the Florida bear species and Mr. Allen will include the animal in some of the sports pictures he plans to make in the near future.

E. C. Bilderback, from Cross Bluff in Lake county, was in Sanford today to discuss plans with Mr. Schmah for the formation of a hunting party to kill a large black bear that has been seen near the Cross Bluff and has killed several pigs in that vicinity.

It was intimated that a party would be formed to search for the marauder sometime in the near future.

### EVERY SHOT COUNTS

CODY, Wyo., Oct. 29.—(AP)—Five years ago, Mrs. Wylie Sherwin of the North Fork country near here received a gift of a big game rifle and a box of 20 shells. Since that time she has killed four elk and a deer. She still has 18 of the 20 gift bullets unused.

## Students Require Worship, Insists Bram At Meeting

**Simpson And Lehman Also Speakers On Lake Mary Program**

"Geographical facts, arithmetic knowledge, etc., are essential parts of any education," declared the Rev. Martin Bram last night in Lake Mary before 115 Seminole County school teachers. "This, however, is only a part of education," he continued. "Every student must have something to worship for in as doing he becomes like the object of this worship."

T. E. Simpson, president of the Seminole County Chamber of Commerce, was the second speaker and indicated "that the civic responsibilities of a teacher were well filled when she gave of her time so generously to train the youth of any city."

H. J. Lehman, Seminole County's representative to the Florida Legislature, discussed with the teachers of a member of a school faculty. He asserted that every person and especially those who are trained to govern should at least exercise their franchise and vote. Too many people today do not take active parts in their government and all students should be instilled with a love of American ideals and a watchfulness over American democracy.

After the speeches, a round table discussion was held in which the teachers themselves discussed the subject of teacher tenure, the teacher's retirement bill, and the teacher's salary law.

The Lake Mary P. T. A. association and the faculty of the school were hosts to the teachers' club and Mills Lord of Oviato presided.

Seminole County teachers spent all day today in Orlando where several of their number filled important positions in the East Central Teachers Association.

## Local Teachers Go To Orlando Meeting

All of the white schools of Seminole County were dismissed today and all the teachers are expected to be in attendance at the meeting of the East Central District of the Florida Education Association which will be held in the Orlando Senior High School, T. W. Lawton county superintendent, reported today.

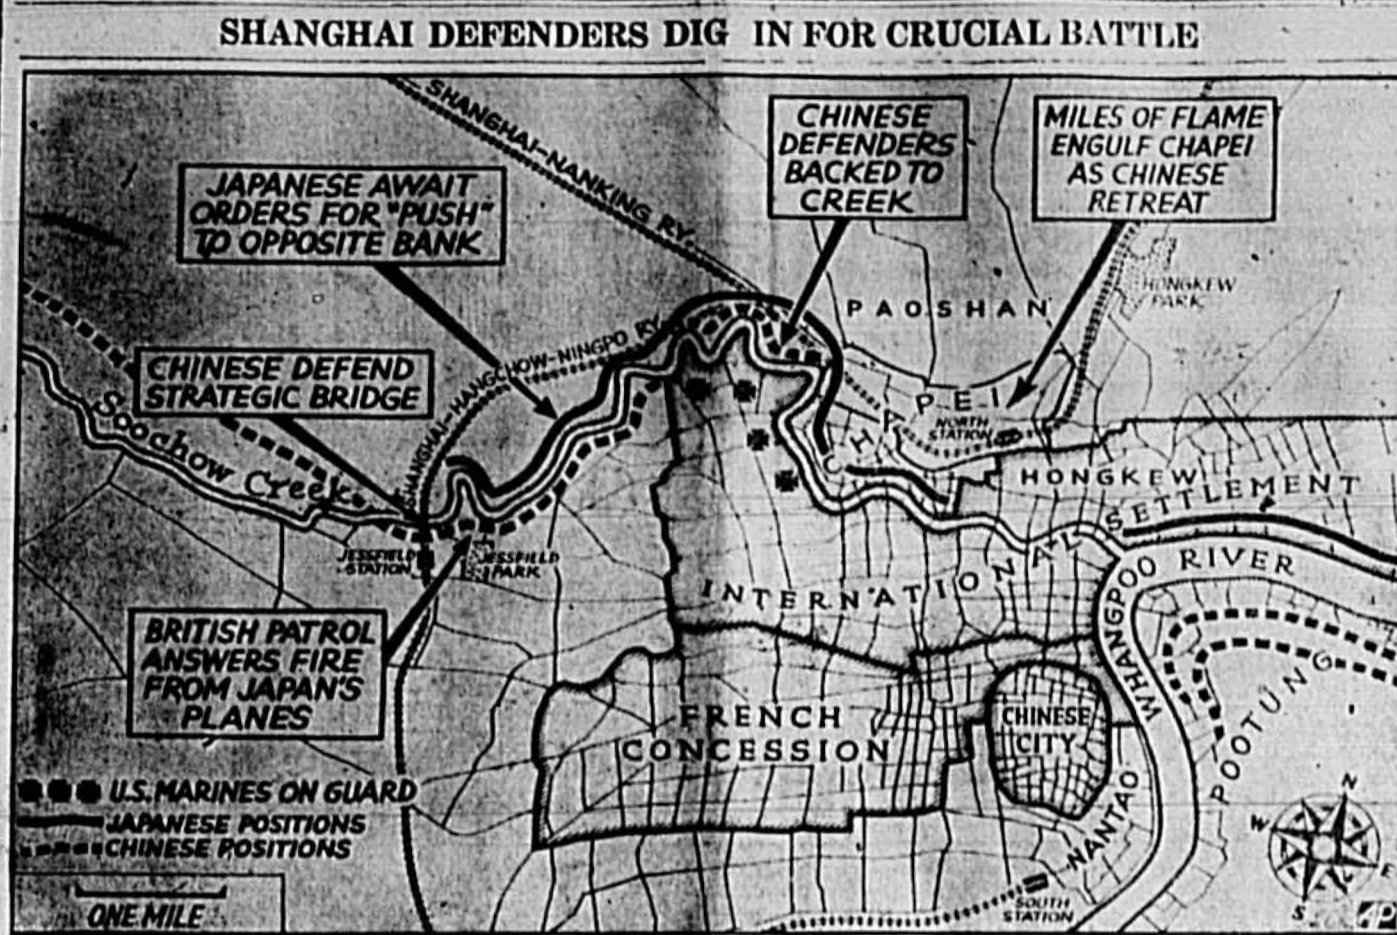

Mr. Lawton indicated that the proposed teacher retirement system and the proposed constitutional amendment placing school financing on a parity with State government operation would be discussed at the session.

## Sons Of Legion To Parade In Sanford

The Sons of the Legion Drum and Bugle Corps will stage a practice parade in the streets of Sanford Wednesday night in preparation for their parade in Tavares on Armistice Day, Percy Mero, advisor of the Corps, announced today.

The boys will be attired in their dress uniforms and will march to the tune of their bugles and drums in regular parade formations, Mr. Mero said.

The meeting night for the corps has been changed from the usual Friday to Wednesday night because of the interference of football games and other programs usually scheduled for Friday night, Mr. Mero stated.

With Japanese forces in possession of bomb-riddled Chapei, the Chinese army defending Shanghai has dug into new defensive positions as indicated on this map. The defenders retreated from Chapei after one of the most destructive battles of modern history. While miles of flames swept the vast area, both sides prepared for the next major engagement which is expected to rage along Soochow creek west of the International Settlement.

## Safety Council Says Accidents Are On Increase

**Nine Months Record Of 28,140 Deaths Is 9 Percent Up**

CHICAGO, Oct. 29.—(AP)—The National Safety Council reported yesterday 28,140 persons died in traffic accidents during the first nine months of 1937, a 9 percent increase over the total for the same period last year.

Despite the increase, the Council noted "several favorable aspects" of the traffic situation. September was the second month in which no increase over 1936 was registered. The total for the month—3,550—represented a 10 percent drop from August.

For the first time this year the increase in deaths for 1937 was less than the 10 percent increase in motor traffic, the Council said. The increase in deaths during the second and third quarters of 1937 was only 4 percent over the same periods last year. During the first quarter it was 24 percent.

Thirteen States reported declines in traffic fatalities for the first nine months of 1937 as compared with the same period last year while two reported no change. The Council figured the reductions represented a saving of 317 lives.

The distinction of being the "safest city" among those with more than 500,000 population—held by New York for 21 consecutive months—was regained by Milwaukee when it recorded only two fatalities last month.

New York led in fatalities for the nine-month period with a total of 551. Chicago was next with 544 and Los Angeles third with 542. In the 500,000 population or over class, only Boston and Pittsburgh showed reductions from last year. Milwaukee's total was un-

(Continued on Page Three)

## Dingfelder Will Go To Kiwanis Meeting

Julius Dingfelder, chairman of the International Committee of Kiwanis on the Support of Churches in Their Spiritual Aims, will leave Monday for Chicago where he will attend the meeting of the International Council during the week, Sidney J. Nik, president of the Sanford Kiwanis Club, announced today.

Other members of the International Council from Florida who plan to attend the Council are: G. Harold Hippler of Eustis; Rex Fulkerson, editorial writer of the Kiwanis Magazine from Hollywood and Simon Doyle, of Tallahassee, district governor-elect.

At the meeting of the International Council, it is expected that plans will be formulated outlining the activities of the Kiwanis Clubs during the year throughout the Kiwanis International in the United States and Canada, Mr. Nik said.

## EZEKIEL BRINGS HOME THE BACON

393 ALEXANDER STREET, ROCHESTER, NEW YORK

MY DEAR ELVIDA GARDNER,

I NEVER HEARD OF SANFORD TOWN UNTIL YOUR AMUSED REPLY CAME TO MY FOOT LOCKER. BUT NOW THAT I HAVE HAD A LITTLE PEEP INTO THIS QUARTER OF THE SOUTH I THINK MAYBE I WOULD ENJOY A GOOD LOOK AT IT. WOULD THERE BE ANY PLACE THERE WHERE YOU TENDED GROWN UPS AND ONE LITTLE NINE YEAR OLD BOY COULD PLAY AND SLEEP? CHRISTMAS VACATION. I WOULD BE VERY GRATEFUL FOR THIS INFORMATION. IN THE MEANTIME I AM GOING TO ENJOY SELLING EZEKIEL TO ANYONE OVER SIX YEARS!

Sincerely yours,  
Robert R. Weyger

The above electrolyte reproduction of a letter received by Mrs. Elvira Garner, author of "Ezekiel" from a resident of Rochester, N. Y., who having read the Sanford story, writes for a place in which she and her family can spend their Christmas vacation, proves that "Florida's Ambassador of Goodwill" is bringing home the bacon. The original is done in colors.

## Negro Boy Pleads Guilty To Theft

There will be at least one less person in the future to rifle the cars of theater-goers, it was learned at the sheriff's office today.

Recently there have been a number of complaints resulting from the theft of many small articles from autos while the owners are attending the theater, County Sheriff C. M. Hand stated, and for some time the members of the department have been on the lookout for the petty thieves.

Deputy Sheriff Carl Williams nabbed a 14-year-old negro boy as he was rumaging through the back of a car belonging to O. B. Ferrell. He pleaded guilty before County Judge R. W. Ware and was taken to Marianna Wednesday where he will serve his third term for misdemeanors of this type.

Sheriff Hand stated he believes that there are more thieves and plans to continue his search for them.

Massachusetts ranks fifth among the states in the number of workmen employed.

## General Motors Head Condemns Exorbitant Taxes

**Knudsen Offers Hope Break Between Capital-Labor May End**

BOSTON, Oct. 29.—(AP)—William S. Knudsen, president of the General Motors Corporation, last night told 1500 Massachusetts industrialists "that the time has just reached the point where it is but a few steps ahead of confiscation, and we all know what that means."

"I sincerely trust that ways and means will be found to arrest this class movement (taxation of capital) before it becomes so strong that nothing can stop it," Knudsen said in a prepared address before the Associated Industrialists of Massachusetts.

One of the leading figures in the recent national tax strike, Knudsen expressed people's grief between capital and labor would not weaken. "American industry must go forward, fight or no fight," he asserted. "I do hope we can go forward peacefully and in an orderly manner, without class class anger entering into the question."

Our standard of living has been obtained by narrowing the gulf between capital and labor. To widen it will unquestionably tend to lower the standard of living instead of raising it."

The General Motors head declared the profit motive can not be destroyed without destroying private capital, which means destroying private industry.

Franklin D. Bennett, former Sanford youth, was recently appointed advertising manager of the Moore Dry Ice Co. of Jacksonville by C. J. Williams of the company.

Mr. Bennett is the son of Mrs. J. C. Bennett of this city and is a graduate of Seminole High School. Last June he was graduated from the School of Business Administration at the University of Florida with high honors.

While Mr. Bennett has had no experience in advertising, Mr. Williams, the report reads, feels that his splendid training and excellent record at the university will make it possible for him to adjust himself quickly to his new position.

### MARKET SPURT

NEW YORK, Oct. 29.—(AP)—Stocks hit the up trail with lengthy strides as leaders posted gains running up to seven points. The buyer was spasmodic. Bonds went forward with stocks but commodities were a trifle uneven.

## 3 British Soldiers Killed In Battle On Shanghai Front

**State Rests Its Poison Case Vs. Anna Marie Hahn**

**Evidence Is Admitted Surrounding Deaths Of 4 Other Persons**

CINCINNATI, Oct. 29.—(AP)—The state rested its murder by poison case today against Anna Marie Hahn, charged with the death of 78-year-old Jacob Wagner. The circumstances surrounding the death of four other elderly men were admitted by Judge Charles Bell as "corollary evidence." The judge recessed trial until tomorrow but denied a defense motion for a recess until Monday to study the evidence.

Previously, the middle-aged woman had leaned forward and listened attentively when Mrs. Katherine Keeler, member of the staff of the famous Northwestern University crime detection laboratory in Chicago, pointed out what she considered forgeries of the name of Jacob Wagner, for whose death Mrs. Hahn is on trial.

Mrs. Keeler, blonde and attractive, standing close to the jury box, pointed out with a yardstick characteristics which she said showed that Wagner's purported signatures on a \$1,000 check, on a will in Mrs. Hahn's hand and another document giving Mrs. Hahn power of attorney, were not in Wagner's handwriting.

The youngest scientific corroborated testimony of Albert D. Osborn, New York City expert who testified in the trial of Bruno Richard Hauptmann in the Lindbergh kidnap murder trial.

Mrs. Keeler's testimony climaxed the sixteenth day of the trial in which the state brought in 95 witnesses in an attempt to show that four men died of poison at the hand of Mrs. Hahn in an elaborate scheme to obtain their modest fortunes.

### CITY NEWS BRIEFS

Workers today were repairing a portion of the Court House roof which has been leaking.

C. C. Howard, Seminole County game warden, reported that there has been a large increase in the duck migration here this year.

The old wood shed has been removed and a new concrete floor is being laid in the store room of the Pineda Wigby store located at the corner of First Street and Main Street.

Local Women were called for yesterday afternoon to attend a two-day course. Mrs. Chief Clerk Cleveland reported today that she has seen at Ben Lanta and the other at 214 South Street and French Avenue.

Dr. H. D. Smith, prominent Sanford physician, underwent major operation at the Toronto University Hospital in Philadelphia recently and according to a report received here he is getting nicely.

The Rev. and Mrs. M. J. Root, radio evangelists, will be at the Full Gospel Tabernacle, located near Geneva Avenue on the Orlando Highway, for both the morning and evening services Sunday according to a report received today.

### ATTEMPTED DEATH

SAGINAW, Mich., Oct. 29.—(AP)—Anthony Chebotaris, 25, a convicted robber, was found in his cell with his throat slashed as he awaited mandatory death sentence. His part in an attempted robbery of the Chemeketa State Savings Bank of Midland, Mich., last month ago. The doctor said his condition was serious but he would recover, barring complication.

## Jap Launches Halted By British In Try To Shell Chinese "Lost Battalion"

**American Missions Damaged By Fire**

SHANGHAI, Oct. 29.—(AP)—British army authorities today blockaded Soochow Creek with junks and cargo boats to forestall Japanese naval attacks on the Chinese "Lost Battalion" beleaguered opposite the International Settlement.

Three British Ulster riflemen were killed and several wounded tonight (Friday night) during the Japanese shelling of Hsinjiao, a suburb in the west of the International Settlement and the home of many Americans and other foreigners.

The artillery shelling and aerial attack on the Chinese-Japanese war also caused damage among American missions and other foreign properties. British defense lines have been under fire several times during the day. One unidentified foreigner and a number of Chinese were reported killed by Japanese shells falling inside British lines.

British authorities also halted two Japanese naval launches when they steamed up the creek toward the warehouse opposite the United States Marine Corps. Japanese ships also held off the attackers when the Chinese evacuation of Hsinjiao two days ago.

Japanese troops moved a battery (Continued on Page Two)

### Mme. Chiang Kai-Shek Injured In Accident

SHANGHAI, Oct. 29.—(AP)—Mme. Chiang Kai-Shek, wife of the leader of the Chinese government and army, suffered a fractured rib and bruise to her abdomen in an automobile accident today.

Her injuries were the result of a collision with a truck in an open car. She was with William Howie Donoh, Australian adviser to the Generalissimo, and a Chinese officer when a truck hit the car.

The car plunged into a stream by the roadside and overturned. Mme. Chiang was hurt four to five feet and knocked unconscious for fifteen minutes. Donoh, who was not injured, picked her up and took her to a neighboring farm house where she was revived.

Mrs. Chiang then insisted on continuing the inspection and drove on her way in a military motorcade. She finally arrived in Shanghai at 11 P. M., seven hours after the accident. A doctor took two X-rays which revealed a broken rib. She also was badly bruised and shaken.

### Social Security Has Cost \$230,425,436

WASHINGTON, Oct. 29.—(AP)—Social Security for more than 20,000,000 persons since February 1, 1935, cost \$230,425,436. In a report released today, the Social Security Board reported that, in addition to the \$230,425,436 cost, 23,947 dependent children were accounted for \$214,447,571 of the outlay. The balance paid the cost of administering State Unemployment Compensation laws for 21,600,000 insured workers.

### LOCAL WEATHER

Forecast  
Fair tonight and Saturday, slowly rising temperature Saturday and in north portion and near extreme south coast tonight. Severe southwest Florida; fair and slightly warmer tonight and Saturday.

**KNOWLEDGE AND DOUBT**

They know much; they know  
 what not to try,  
 They know the hazards where the  
 dangers lie,  
 They know the stopping places;  
 where to stay;  
 They know the books, as printed  
 yesterday,  
 Did not the wise the dreamer  
 dare to go,  
 Tomorrow is the land he wants to  
 know,  
 The wise are cautious. They would  
 be secure,  
 They seldom walk a pathway till  
 they're sure,  
 The books say: "No! Past this no  
 man has gone!"  
 Some doubter thinks the truth lies  
 hidden on  
 His knees to leap the barriers alone  
 And find a fact that the wise had  
 never known.  
 Not from the wise but from the  
 daring mind,  
 Comes progress, since the wise  
 men stay behind.  
 The books know the limits all too  
 well,  
 Only what now is possible they  
 tell,  
 But some brave doubter o'er the  
 barrier looks  
 And finds a truth not printed in  
 the books.  
 Edger A. Guest.

We learn by doing. But not  
 by doing someone else.

Ross Allen, the Ocala herpetologist  
 (a grand opera word for  
 snake charmer) says there is no  
 danger in milking snakes. How-  
 ever we still prefer the boyvine  
 variety.

The government has reduced the  
 margin requirements on the  
 New York Stock Exchange. That  
 will give people a chance to  
 gamble a little more heavily in  
 Wall Street stocks requiring them  
 to put up a little less money.  
 Consequently stock prices should  
 go up for the time being at  
 least.

The Deland Chamber of Com-  
 merce, following the lead of Mi-  
 ami, St. Petersburg, and other  
 Florida communities which have  
 allotted big sums for promotion-  
 al work, has budgeted \$1,  
 000 for publicity purposes during  
 the coming winter. Six hundred  
 dollars will be spent on news-  
 paper advertising, \$400 on maga-  
 zine advertising.

John Montague won his acqui-  
 tal from the jury but evidently  
 not with the approval of the  
 judge, who said, "Gentlemen,  
 this verdict is not in accord  
 with what I think you should  
 have returned. That, however,  
 is up to you." Very likely Mon-  
 tague was guilty of the charge,  
 but the jury felt that he had re-  
 formed and wanted to give him  
 another chance. We hope the trick  
 shot artist doesn't let them down.

The Duke of Windsor is com-  
 ing to Miami this winter. In  
 fact he may pass right through  
 Sanford. If they go to the Duch-  
 ess' old home in Fort Myers,  
 they would probably take the  
 S.F.C. north right through this  
 Central Florida section so all of  
 those who wouldn't go across the  
 street to see them can at least  
 stand on the depot platform and  
 wave to them as they go by.

Stunt, harassed by longshore-  
 men's strikes and strange bombings  
 in the construction trades, is now  
 concerned over the prospects of a  
 shifted as tourist season as a  
 result of the stock market  
 crash. Not many stockholders  
 come to Sanford in the winter  
 season, but many of them go to  
 Tampa and when a \$2 million dol-  
 lar stock market crash in the  
 city of St. Petersburg there is danger  
 of a change of vacation funds.

**New Safety Features**

While considerable progress has already been made in the construction of automobiles so that the driver and his passengers have a maximum degree of safety no matter what happens on the highway, Eddie Rickenbacker, former war ace and now general manager of the Eastern Airlines, says that there are still many things that can be done to increase the safety factor. And automotive engineers, he adds, are now concentrating on a campaign actually "to save the motorist from himself."

In a recent article in Collier's magazine, Rickenbacker discusses the multitude of improvements which have recently been made to overcome the faults of the average driver. Many of the design developments which appear on their face to be merely for comfort or appearance, are in fact important safety features, he says, since everything which adds to the driver's comfort and reduces distraction lessens the possibility of accident. Such things as non-shatterable glass and blow-out-proof tires are obvious safety developments but there are a multitude of other features of a car which yield indirect contributions to the cause of safety.

"These secondary safety features," Rickenbacker writes, "have become so numerous that it is now standard practice when any part of a car comes up for consideration, to spend some time seeing whether in one way or another it can't be made to give its quota. A program of this kind is bound to be a long-haul proposition; improvements come slowly and often imperceptibly; old cars still litter the road; and increased safety will not be reflected suddenly and dramatically in reduced accident rates. But the engineers have faith in their program."

Rickenbacker, who has been both a famous driver and a manufacturer of automobiles, envisions the car of the future as follows: "In size and appearance the interior will be like a small living room. It will be air-conditioned, and there will be no noise or vibration. You will have to look twice to find the engine. It will be much less conspicuous than in the cars of today. It may be X-shaped or it may be radial like certain aeroplane engines. It may be in front or it may be behind. In any case it will be lighter and more compact but just as powerful as the engines you are used to. Top speed may be no higher than in the cars of today, but smoothness will have increased and fuel consumption will be very low."

"There's a cheerfully realistic note in this scientific campaign to save the motorist from his own shortcomings. The engineer knows as well as anyone that it isn't possible to build a completely foolproof car. He might equip it with all the safety devices he could dream of, and yet some madman would succeed in driving it off a cliff. But he knows, too, that the average motorist has moments of inattention, that sometimes he is careless and sometimes he takes chances. There's a reason to believe that he's improving in all these respects, but there's no immediate prospect of perfection. In the meantime the engineer is going to look out for him with every slide-rule and pair of calipers at his command."

**Drink More Milk**

National Milk Week will be celebrated this year between November 14th and 20th, and is expected to center the attention of the country on the value of milk to the economic and physical welfare of all the people. As the largest single source of farm income in the United States, milk contributed \$1,417,000,000 of cash to the \$8,100,000,000 total income received by all divisions of agriculture in 1936, according to a recent release from the National Milk Week Committee.

"Twenty-five million cows are milked on about three quarters of the nation's six million farms," it is said. "Milk is the chief source of farm cash to some 1,500,000 farm families. About 200,000 workers are employed in the processing and distribution of dairy products. Milk is the principal source of income to one out of every fifteen families in the United States."

Milk was the mainstay of farm income throughout the depression, according to the Milk Industry Foundation. In 1932, when the farmers' cash income from all other agricultural commodities, except milk, declined to 40 percent of the 1925-1929 average milk returned producers well over 60 percent of its average during the same years.

The medical profession, not only in this country but in every country of the world, has repeatedly emphasized that a larger per capita consumption of milk would improve the general level of public health. It is estimated that 2,000,000 people in this country are alive today because of the improvement in purity resulting from added sanitary precautions taken by producers and milk companies in the last quarter century.

A national extra glass of milk daily would mean an increase of more than \$5,000,000 in dairy farmers' pockets. An increase of 10 percent in per capita consumption of fluid milk alone is said to mean an estimated increase of \$125,000,000 annually to dairy farmers' income.

**British Soldiers Killed In Battle On Shanghai Front**

Continued From Page One  
 lery of 75 millimeter guns to within 400 yards of the building. Some military observers thought the guns soon would start shelling.

Fluttering over the Chinese held warehouse was a huge flag which the Chinese Chamber of Commerce sent to the battalions last night. It dwarfed the Japanese Rising Sun banners flying throughout the city.

Thousands of Chinese and foreigners crowded the housetops to watch the last stand of the "Lost Battalion."  
 American mission property was severely damaged and American lives were endangered at Sunkiang, near Shanghai, when 29 Japanese planes made two raids, dropping more than 100 bombs on the residential section, killing and wounding many Chinese civilians.

Victorious at Tazang and Chapel Japanese army and marine units were being steadily reinforced all along the northern bank of Soochow Creek, the new front west of the International Settlement.

Apparently they were awaiting the zero hour for an offensive designed to drive the Chinese back to strongly entrenched new defense lines running through Hongjiao, southwestern suburb which already was under Japanese artillery fire.

The indicated area of the impending battle is a strip some five miles wide, from Soochow Creek on the north to the Whangpoo River on the south, including fine residences and country clubs. Some of this territory is inside the British defense lines. The western districts of the French Concession and International Settlement were gravely threatened by the approach of the conflict.

Along the south bank of Soochow Creek Chinese forces which had retreated from Tazang and Chapel, key points of their old front north of Shanghai, were preparing for a determined stand in a maze of trenches crisscrossing the fertile truck gardening area which supplies much of Shanghai's food.

# Indians Go On Warpath Against Ocala Wildcats Here Tonight At 8:00 O'clock

## Game Will Be Played On Even Terms Although Ocala Still Remains Unbeaten This Year

"Tiger" Howell May Not Be In Starting Seminole Lineup Due To Ankle Injury Sustained In Wednesday Session

In a game that is being regarded as the feature game of the Northeast Florida Conference this week, Head Coach Leonard L. McLucas and his two assistants, Cosches Russell McCracken and Woody Riser, will send a group of their prospects out to meet the Ocala Wildcats who are at the present time leading the conference with no defeats.

The game will start promptly at 8:00 o'clock on the new Seminole High School Athletic Field which is not quite completed but is in a condition to have a game played there.

Coach McLucas' boys are in very good condition for the opening tilt but one defect is that Robert "Tiger" Howell will not be in the starting lineup tonight due to the fact that he injured his ankle in a dummy scrimmage session Wednesday night during the after-dark practice.

Reports from Ocala show that Head Coach Jack Smyth and his assistant Willis Pebbles, bring to Sanford an undefeated eleven and only one touchdown has been scored against them this season. They have run up a total of 159 points in six games and having only six points scored upon them and that was by Eustis, 13 to 6.

Sanford has played only four games this season and much stronger teams than Ocala has played and has a run up total of 24 points and having 45 points scored against them.

The game should furnish plenty of excitement to the fans and the Seminole High School Athletic Department is expecting a record attendance at the tilt.

The starting line-up for Sanford will be as follows:

Name	PO.	WT.	NO.
Sam Wells	LB	170	21
Robt. Rumbley	LT	165	6
Jim Young	LG	180	11
Fred Gans	C	185	10

# Dummy Scrimmage Features Semi-Pro Workout Last Night

## Ex-Football Men Use Notre Dame System Of Play

### Wilkinson Says Boys Are Trying To Make Plan A Big Success

Coach S. A. B. Wilkinson's Sanford Semi-Pro Blackcats underwent another tough drill session last evening under the floodlights of the Sanford Armory Field and featuring the practice session was the running of many plays in dummy scrimmage for 30 minutes. Approximately 150 spectators and automobiles lined around the field to see the ex-gridiron stars workout under the eyes of Coach Wilkinson who stated this morning that prospects seemed very bright for making a success of the team after a lull late week.

The boys went through an exercise drill and limbered up before the tough work began. They kicked and passed the ovals up and down the field. The backfield men did some punting while other backs returned them while the linemen went down under the boots.

The outfit looked "like a million" after the practice and plans seem the brightest since the opening of the seasons. The dummy scrimmage was the main event of the evening as the boys ran through many of the old straight Notre Dame plays.

Coach Wilkinson stated this morning that the making a success of the team is entirely up to the boys and it depends upon how hard they work in order to make it go over the top. So far, Coach said, the boys have been working to their extent in putting the idea over and the mentor stated that Sanford will see some good semi-pro football games before the gridiron season is over.

A first string in the dummy scrimmage last night were as follows:

NAME	Pos.	WT.
Jack Purdon	LE	172

### Today's Sporting World

#### SPORT TOPICS

BY JULIAN STENSTROM  
Herald Sports Editor

#### CONFERENCE FEATURE

The Northeast Florida Conference clash tonight between Sanford and Ocala is the feature of the conference play this week due to the fact that Ocala is now leading the conference with Leesburg and Tallahassee also being undefeated in conference games. Leesburg won over Eustis last night by a score of 14 to 12 while Daytona Beach plays hosts to the Leon High boys tonight in a Kiwanis Charity tilt. The outcome of the Sanford-Ocala game tonight will more or less settle the argument at this present time and possibly for the entire season. As one fellow says, Sanford is improving considerably and although they have been defeated once in a conference game this season, they can still burn up the circuit.

#### PRO GRIDMEN WORKOUT

Coach S. A. B. Wilkinson's Sanford Semi-Pro Blackcats went through another important drill last night on the field of the Sanford Armory and an important session it was as Coach Wilkinson sent his proteges through a

Mac McWhorter	RHB	155
Leslie Harnage	FB	160

The management also announced that the next practice session will be held Monday evening at 8:15 in the Armory Field.

tough drill which was featured with the running of many plays, of course of the Notre Dame style of play which they will use this season with a few variations.

#### FLORIDA PRO LEAGUE

Now there is some person in Sarasota who is attempting to organize a Florida Professional Football League with a season to start after Jan. 1, 1933, for their first season. He mentioned eight Florida cities in an article in the Daytona Beach Sun record this morning and he left Sanford and Leesburg out because they were smaller cities. We have a bit to say about that question right here and now. The Sanford semi-pro outfit may be small and light and in a small town as Sanford as they call it, but if his home town Sarasota, which of course he mentioned, we will eat our hats if this city will not draw Sarasota in a football game, other than a high school game.

#### LEGAL NOTICE

IN THE CIRCUIT COURT, IN AND FOR SEMINOLE COUNTY, FLORIDA, IN CHANCERY.

GEORGE F. WHITMAN, H. M. CALLAWAY, CARY D. LANDIS, BIRKING W. LANDIS and MYRTLE LYDIE WERTZ, as and constituting the Directors and Trustees of LAKE FRONT IMPROVEMENT COMPANY, a former corporation organized under the laws of the State of Florida, and heretofore dissolved under the provisions of Chapter 1836 of the Laws of Florida, Plaintiffs.

High Tribunal Denies Plea Of Tom Mooney

State Supreme Court By Five To One Ruling Decides Against Convicted Bomber

Evidence Fails To Show Perjury

Mooney Convicted For Preparedness Day Act Killing Ten

SAN FRANCISCO, Oct. 30.—(AP)—The California Supreme Court denied Thomas J. Mooney's plea for freedom on a writ of habeas corpus. The decision was five to one against the convicted 1916 parade bomber with Justice William H. Langdon dissenting.

In announcing the opinion, Chief Justice William H. Waste said the court "has concluded that Mooney failed to establish by substantial credible evidence that his conviction was the result of perjury on the part of the prosecution witnesses."

Mooney's charge that he was "framed" has been the battle cry among the world's laboring classes. For nearly 21 years Mooney has contended his political beliefs and labor organizing activities led to his conviction on alleged perjured evidence. Mooney and Warren K. Billings was convicted of placing a bomb which exploded during the Preparedness Day here, killing 10 persons and injuring 40 others. Mooney and Billings are both serving life sentences. Billings did not join Mooney in the latest attempt to gain freedom. Mooney's case has been in the courts often, even reaching the United States Supreme Court.

Brother And Sister Marry, Then Separate

WARRENSBURG, Mo., Oct. 29.—(AP)—Mary Lee Williams, 21, resumed her routine farm life today, her month old secret marriage shattered by the discovery that the young farm hand she married was her brother from whom she was separated in babyhood.
