SUSPENSION IS GIVEN SENATE ORDER KEEPER

Sergeant At Arms Is Disciplined For Article Hinting That Solons Sold Votes

WASHINGTON, Feb. 4.—(AP)—Chairman Norris today called a meeting of the Senate judiciary committee for Monday to consider whether further action will be taken against David Barry, sergeant at arms, on the Senate for writing a magazine article hinting that some members sold their votes. Should the committee decide to hear testimony, he said, it will be in the open.

The article which created the commotion was published under Barry's name in the current issue of the New Outlook, magazine edited by Alfred E. Smith. Its title was "Over The Hill to Demagoguery."

Among the statements it contained were these:

"Contrary to popular belief, there are not many crooks in Congress. That is out-and-out grafters."

"There are not many senators or representatives who sell their votes for money and it is pretty well known who those few are."

The dapper but aging Senate officer, a former newspaper editor and for years a Washington correspondent, gave a hesitating and somewhat conflicting statement. Part of the time he contended the story did not convey his meaning and at others he insisted it was true. He said he could not name any members of Congress who had accepted bribes.

Facing the chamber, and trembling hand fingering papers on the clerk's desk, just below that of the vice president, Barry told the Senate his purpose in writing the article was "to defend the Senate from a popular belief that there are crooks and grafters here."

At another point in response to the relevant cross-examination of several senators, he replied to a question as to his opinion of the truth or falsity of his article with:

"I think it is true."

The Senate heatedly debated for two hours whether to discipline him summarily or suspend final judgment until next week.

Barry sat uncomfortably in his official chair next to the presiding officer.

A motion by Senator Reed, Republican, Pennsylvania, to suspend the sergeant-at-arms, refer the case to the judiciary committee, and take final action next Tuesday was adopted after an alternative proposal by Senator Norris, Republican, Nebraska, for immediate censure had been rejected 40 to 31.

A resolution by Senator Walsh, Democrat, Montana, to certify the case to the District of Columbia and New York state authorities for possible prosecution on the grounds of criminal libel also was referred to the judiciary committee.

Convicts Continue To Strike Against Work

MACLENNY, Feb. 4.—(AP)—Still contending they are "tired of working in such" and were "not going to build any more roads in Florida," 36 convicts at the state prison camp near here continued their peaceful strike yesterday.

Meanwhile an investigation was launched with the arrival of prison bureau officials from Tallahassee. Forty prisoners at the camp returned to work as usual but 25 continued to roam peacefully about the camp stacks laughing and talking.

The prisoners have the same which were stationed at the Broomfield camp near Jacksonville when Arthur McAllister, New Jersey convict, was found strangled to death in a sweat box.

Farmers Will Meet Next Monday Night

F. F. Dornier, president of the Seminole Agricultural Club today announced that at a special meeting of the club in the court house next Monday night at 8:00 o'clock, information relating to the meeting of growers and shippers in Lakeland last night will be explained in detail and a general discussion will arise as to the present plan of plowing up a portion of the celery crop. All growers, whether members of the club or not, are invited to this meeting, he said.

CITRUS IS BEING RUN CLOSE RACE BY VEGETABLES

Value Of Fruit Crop Hard Pressed For at Place Position

TAMPA, Feb. 4.—(AP)—Strawberries and vegetables, accounting for more than thirty-three percent of \$11,500,000 Florida farm product sales during January, run citrus fruits, with fifty-eight per cent, a closer race than in any recent month with respect to returns, it is shown by figures compiled by the Florida Grower and released yesterday. December cash crop income, amounting to \$10,400,000, was seventy-four per cent from citrus and only nineteen per cent from vegetables and other fruits.

Seasonal increase in demand for dairy and poultry products during January also materially enlarged the returns to producers in comparison with any recent month.

Farm and grove income for January of \$11,506,925 was derived from the several sources in amounts as follows: Citrus, rail and boat movement, \$4,719,022; truck movement, \$750,000; freight charges on transportation in Florida, \$700,000; fruit consumed within the state, \$500,000; vegetables and other fruits, rail and boat movement, \$3,837,833; truck movement, \$250,000; freight charges on transportation in Florida, \$450,000; canned and consumed within the state, \$100,000; staple crops, nuts, poultry and dairy products and livestock, \$1,000,000.

December sales of \$10,400,000 followed a November aggregate of approximately \$5,000,000. Including the total for the two months with that recorded for January gives a figure of nearly \$26,000,000 from the beginning of the active shipping season to the first of February. Output ready for shipment in the current month, March and April is expected to exceed in volume that of the past three months but the proceeds received by farmers and growers will depend in large measure on price levels.

Citrus fruit markets generally showed improvement following the end-of-the-year holidays, and prices stiffened rather consistently until well into the last half of January. Toward the end of the month, however, declines were recorded in most areas. For the period the average is believed to have been somewhat higher than it was a year ago. Vegetable returns were subject to wide variations as a whole were none too satisfactory to growers.

Seminole Talent To Feature Air Program

Local radio users will be interested to learn that Seminole County talent will occupy a considerable portion of time over Station WDBO Orlando next week.

Mrs. Gladys Morris Williams will, with the assistance of Miss Carmen Guthrie, offer her 10th consecutive Monday night program next Monday from 8:30 to 9:45 o'clock.

On Tuesday night from 10:00 o'clock to 10:15 o'clock, Ed Lane's Minstrel, a group of Sanford players and comedians, will make their radio debut.

Thursday night starting at 7:30 o'clock, the Seminole County Chamber of Commerce will sponsor a 30-minute program featuring the Sanford Minstrel Club in a quartet and talks by Mayor V. A. Spear, H. M. Papworth, and Earl Lehmann, president and secretary respectively of the county trade body.

DISSOLVING OF PRUSSIAN DIET DENIED IN VOTE

Combination Of Communists, Socialists And Centrists Beat Attempt 214 To 196

BERLIN, Feb. 4.—(AP)—The Prussian diet today defeated the National Socialist motion for dissolution. Communists, Centrists, and Socialists in combination defeated the proposal 214 to 196.

BERLIN, Feb. 4.—(AP)—The next Reichstag election brings the 51 percent majority which Adolf Hitler's Nazis confidently expect, the Nazis storm troop leaders will head the police forces in countless German cities, a close adviser to the chancelor said yesterday.

Beginning with Berlin, where Count von Helldorf, leader of Berlin storm troops, is slated for chief of police, and continuing in to the smallest towns, the Nazis expect to take the places of anti-Nazis.

"The street now belongs to us," the Hitler spokesman said. "Hereafter our demonstrations will be held under the police protection instead of combating police chicanery. With our men heading the police everywhere it will be unnecessary to proclaim special laws against political terrorists. They will disappear so quickly that special measures will not be needed."

The powerful Catholic parties—the center and the Bavarian people party—made their first, attack on the Hitler government yesterday by declaring that President von Hindenburg acted on false information when he dissolved the Reichstag earlier this week.

Roosevelt Unable To Pay Visit Here Says George Hills

Efforts to have President-elect Roosevelt come up the St. Johns River as far as this city on his short trip about this state were impossible of fulfillment according to information contained in a telegram from George B. Hills at Jacksonville this morning.

Mr. Hills said that the yacht upon which the distinguished visitor will make his home for the next few days is 15 feet of water, a fact which would prohibit his entering the St. Johns much farther south than Palatka. The official party also was scheduled to spend probably not more than 45 minutes in Jacksonville this morning after which the yacht was to leave for the open sea and a leisurely cruise toward the Florida keys. Mr. Hills also wired that the official party expected to make no stops along the East Coast.

The Seminole County Chamber of Commerce telegraphed to Jacksonville yesterday in the belated hope that the party might include the St. Johns on its itinerary, either on the Astor yacht "Nourmahal," or on a smaller craft.

Future Farmer Group Will Attend Exhibit

Twenty members of Seminole Chapter, Future Farmers of America left for the South Florida Fair at Tampa late yesterday afternoon by motor when they today were guests of Fair officials on a tour of the exhibits and pleasure drives.

Accompanying the group was Alex R. Johnson, chapter advisor, at whose old home near Lutz, the boys will spend the week-end camping in an orange grove on the Johnson property. The party will return late tomorrow night.

CONCERT POSTPONED

Inclement weather that included gusty winds, this afternoon brought an announcement from Edmund Mohler, business manager of the Sanford Minstrel Club, that a one-hour concert scheduled to be played tonight at Magnolia Avenue and First Street, has been postponed until next Saturday night at the same place and hour, 8:00 o'clock.

Urgent Pleas Are Made To Senate Committee For Aid To Care For Unemployed

VERDICT IS GIVEN IN LAKE MARY'S HEART BALM SUIT

Judge Orders \$50,000 Damage In Breach Of Promise Action

Sensational charges having to do with the alleged indiscretions of several prominent residents of Lake Mary were aired before Judge P. D. Anderson in that community Thursday night, charges that were upheld in the verdict of a jury that Mrs. Nellie Heartslain be awarded \$50,000 damage in her civil action suit against a former acting postmaster, who was accused of breach of promise.

The defendant was assigned in court after Sheriff H. J. Wertz had traced him to a roadhouse near Orlando. While Prof. Robert True and Prof. C. W. Ishill, prosecutors were preparing their arguments, the charges were read by Webster Grother, clerk of court. Defense attorneys, Frank Evans, and E. A. Douglas, entered a plea of not guilty, and the trial proceeded.

First witness was the plaintiff, Mrs. Nellie Heartslain, who testified that she first met the defendant when he returned a purse that she had dropped in a Sanford department store. She testified that despite her protests, he had made violent love to her, and that at his insistence, she accompanied him to Warm Springs.

Edward F. McGrady legislative representative for the Federation of Labor, told the committee that unemployment has passed the 12,000,000 mark; that 3,000,000 other are on part-time; that 450,000,000 Americans are living "in poverty" and that 15,000,000 of them are existing "only with the help of charity, without which they would perish."

Almost as black a picture was painted by Miss Grace Abbott, chief of the Federal Children's Bureau, who said that relief demands have "passed all experience" and are not being met anywhere.

Harvey Couch, director of the Reconstruction Corporation, recommended liberalization of the law under which the relief organization can make construction loans from its fund of \$1,500,000 for self-liquidating projects.

A desperate condition among thousands of youths wandering from city to city in search of work was described by Big Gen. Pelham D. Glasford, former Washington, D. C., police chief, who recommended an appropriation of \$15,000,000 for their aid.

P. J. Horne, who said he was one of the transient unemployed, told the senators "revolution is hanging over your heads." He advised opening army camps for the migratory labor force you have a revolution."

Purchase Of Auto Tags Keeps Apace With Last Year's

Indicating to W. H. Schmidt, local tag dealer, that Seminole County automobile owners are cooperating with the administration in purchasing their automobile tags for 1933 just as quickly as possible, is Mr. Schmidt's report this morning—that whereas on Feb. 1, 1932 a total of 2374 tags of all kinds had been sold through Dec. 1.

The actual collection of cash is about 20 percent off, he pointed out. The total collected on Feb. 1 last year for the 2374 tags was \$47,516.98, while this year the total sum collected is \$39,021.70.

This decrease or saving to the automobile owners is due to the fact that the price of small trucks was reduced over that of last year. For instance, he said, the price of a tag for a Ford pickup truck last year amounted to about \$18 whereas this year the tag may be purchased for \$12.60.

He urged all persons who have yet to purchase their tags to do so as early as possible in order to avoid the possibility of arrest for failure to have a tag on Mar. 1. He again expressed the opinion that Governor Shotts will stand by his view that he has no authority to waive the penalty or extend the time for purchase.

PLOWING UP OF CELERY WILL BE EXTENDED

Meeting At Lakeland Decides To Continue Practice One Week; Rate Action Taken

Satisfied that their course of action is leading to the effect anticipated and desired, a group of representative Florida celery growers met in Lakeland last night and unanimously approved the extension, through the week of Feb. 11, of their plan to plow under one-third of the present matured celery crop as a means of solving a difficult marketing situation.

At the same time, the group agreed to spread the message of the need for eliminating 10 dozen sizes from the markets, and to work toward that end until such time as it is apparent that a benefit has been derived in this action, when a future course may be decided upon.

Seen as an important step in the general betterment of conditions among celery growers of this state was the appointment of a committee composed of J. T. Hurlbush of Sanford, R. H. English of Manatee, and H. W. Powell of Sarasota, whose efforts will be bent toward securing emergency freight rate reductions on celery.

The special meeting, called by Loring Haoul, temporary chairman of Florida Celery Shippers, Inc., brought out what was termed a representative gathering of shippers and growers from Sarasota, Manatee, Sanford, and other celery producing sections of the state.

Emergency freight rate reduction came as a final matter of discussion when S. R. Dighton, secretary of the organization read a copy of a letter he had written to 38 heads of traffic departments of the leading Eastern and Middle-Western railroads.

The letter called attention to the drastic action taken in Florida by growers who not only are committed to the plan of plowing up one-third of their crop but who are reported as ready to plow up one-half of the crop if it will bring them at least an even break for the season.

The letter also pointed to the "imperative need of a reduction of freight rates on celery," and asked for a rate "that will permit the movement of the present crop, basing the same at not over 35 percent of first class."

During a discussion of this phase of the situation, several speakers were heard before a committee was appointed to further handle the freight rate reduction matter.

Mr. Bell, of Sarasota, expressed the opinion that more immediate action could be secured if the communications upon this subject are limited to the officials of the eastern lines, and that after their cooperation is secured, the scope of the matter can then be extended to cover negotiations with the western lines. W. E. Rogerson, of Sarasota, approved the suggestion, adding that a more extended contact will result in delay.

P. N. Whitehurst, of Sanford, suggested that in view of the general situation this is an opportune time to call a joint meeting of growers, shippers, and traffic officials at a central point.

In response to a question by Rex Packard, of Sanford, as to whether the consent of the Interstate Commerce Commission should also be sought, Mr. Haoul explained that the plan is first to secure the hourly support of leading carriers, and to leave the application for an emergency rate in the hands of the carriers entirely.

W. A. Leffler, of Sanford, expressed the opinion that political support be secured if possible as a means of giving the request for the rate more weight.

L. P. Butolph, Sanford office manager for the American Fruit Growers, Inc., told of a similar application made by a Northwestern apple grower that was defeated largely through the intervention of Missouri apple growers who protested the application for an emergency rate on the grounds of discrimination. He added that since there are no similar producing sections between Florida and eastern markets that he can see no difficulty arising (Continued on Page Five)

ROOSEVELT LEAVES JACKSONVILLE UPON 10-DAY YACHT TRIP

LIQUIDATORS NOT OVER-PAID, SAYS EX-COMPTROLLER

Amos Declares They Received No More Than Law Allowed

JACKSONVILLE, Feb. 4.—(AP)—Ernest Amos, former state state comptroller, insisted in a statement yesterday that bank liquidators on whom Comptroller Lee had called for a refund of \$114,730 had earned what they got and that fees in no case had exceeded the amount fixed by law.

Lee, in his demand for the refund, said the liquidators had been overpaid in commissions and fees and that the 1923 law limited the salary of each to \$6000 a year.

"While I have no more to do with it now, of course, a statement might lead to clarify the situation," said Amos. "The statute under which liquidators are hired says:

"The compensation of a liquidator shall be fixed by the comptroller and shall be based on the amount of work actually necessary and performed and in no case shall it exceed five percent of the cash collections."

"No liquidator was paid commissions of more than five percent.

"As a matter of fact five percent would have been inadequate in some cases, measured by the work actually performed."

"My construction of the law was that the comptroller had power to pay liquidators for the necessary amount of work performed, provided the amount paid did not exceed five percent of collections. This view was confirmed by former Attorney General Davis.

"It might be well to mention that the earnings of a number of liquidators, such as interest collected, trust fees, recoveries of bad debts charged off before closing, and other earnings of like character were more than enough to pay the entire expense of the liquidators, such as lawyers' fees, court costs, liquidators' commissions and the like and which, though a fact, is not generally known."

Club President C. E. Adams will act as master of ceremonies and will introduce the Sanford Concert Orchestra which, under the direction of George T. Fellows, will play an hour-long concert interspersed with songs, dances, and instrumental selections.

Memo's Orchestra will provide music for dancing that will continue until after midnight. Attendance to this affair is by card only.

Government Of Palm Beach Almost Ended

WEST PALM BEACH, Feb. 4.—(AP)—Suspension of all functions of government except absolute essentials such as police, fire, and health protection were considered today by city commissioners who are without funds to pay employees and are restrained by courts from raising money by ad valorem taxation. A sales tax and other new forms of money raising to continue the government will be considered at a conference of officials Monday.

President-elect Met By Governor Shotts And Mayor Alois; Speaks To Throng

JACKSONVILLE, Feb. 4.—(AP)—Waving farewell from the quarterdeck President-elect Roosevelt put out to the open seas today aboard the Astor yacht, Nourmahal, for a 10-days' fishing cruise.

Surrounded by intimate personal friends, Roosevelt answered the last cheer from the people here with a wave of his hat. Before departing he disclosed plans to call in a congressional committee during the forthcoming British debt negotiation a month hence he made the conversation.

Fully prepared for debts talk at the very outset of his administration a month hence he made clear to the actual negotiations in executive function and will go ahead in that way.

Reaching Jacksonville, Roosevelt made a motor trip through the city before boarding the yacht. In the center of the city he stopped and spoke a word of greeting to a huge crowd.

Governor Dave Shotts and Mayor John Alois rode in the car with him and introduced Roosevelt.

Once aboard the yacht he had a final talk with Democratic leaders including James Farley, national chairman, and a last interview with newspapermen who agreed not to trail him on his last private vacation before he enters the White House a month from today.

Among those who accompanied him were Vincent Astor and Kermit Roosevelt, son of the late President Theodore Roosevelt, both distant relatives, George Tuckers, another distant relative, Judge Frederic Kernochan, New York, and Dr. Lester Helter, Mobile.

Roosevelt promised to have a daily report of progress sent by radio to Miami where a Democratic base has been established for the period of the cruise.

C. Of C. Captains Are Reminded Of Meeting

All captains comprising the Seminole County Chamber of Commerce membership campaign army that will swing into action in a drive for 1000 members in 25 hours starting at 8:00 o'clock Tuesday morning, today were reminded that they are expected to gather at the trade body offices next Monday afternoon at 4:30 o'clock to select prospect cards and secure other campaign materials.

The drive gets under way in a "kick-off" breakfast at the Valdez Hotel on Tuesday morning, where for more than an hour plans of attack, enthusiastic talks by local trade body leaders, and other entertainment by Charles Herring, of Daytona Beach, will be heard as a prelude to the drive itself.

Pumping Operations To Begin Upon Boat

The \$75,000 motor freighter "City of Sanford" still laid on its side in about 15 feet of water just off the end of the Clyde dockable afternoon, but divers and workmen employed by the St. Johns River Line Co. boat owner, were just about ready to begin pumping water from her hull in an effort to refloat the craft by Monday.

Since last Tuesday night when the boat suddenly listed and tilted while being loaded with citrus, officials of the line have been pushing the work of raising her. To do this economically and quickly, it was found necessary to close all door-ways, hatch-ways and other openings through which water might enter the hull. The rather difficult task had been completed this afternoon, and pumps that were started yesterday are expected to be set into operation late today.

VERSE FOR TODAY

WISDOM—HARVEST—LIFE—Not to be rich; cease from own wisdom. For riches come, make themselves wings, fly away.—Proverbs 23:4, 5.

Another thing this country has is bigger and better poor.

Mr. Rogers is America's foremost humorist, particularly when he writes about war debts.

Mr. Pinchet serves Nikesa for to forty—headline. There's a salutation for you, with a vengeance.

We dare say an "electric dollar" won't bounce any farther than the ones we get now.

Where do all the farmers go when their farms are foreclosed on by finance companies? Some place a city man goes when his house is taken away from him. To some other town.

The Gainesville man who objects to our farmers plowing part of their celery should attack on this city. He better get close enough to use a machine gun.

A dancer in a Miami night club was drowning her troubles in "pre-war stuff" and woke up in a nearby canal. As two fishermen fished her out clad only in beauty underwear. Glin, like oil and water, don't mix.

Sanford farmers will furnish the inmates of Chattahoochee with celery they want free of charge. We have always heard that celery is good for the nerves. What a wonderful thing it would be if all the people up there could regain their senses. If it could, we might try it on Congress.

For be it from us to criticize the next president of the United States, but for the life of us we cannot see the general economic advantages of spending millions of dollars of public funds to re-land vast areas of now worthless lands in order to give to unemployed more farm lands which to compete with real farmers who are already reaping three or four times as much as they can profitably dispose of. Increased agricultural production would not seem to be the best answer for farm relief.

Speaking of currency inflation and a number of organizations when Germany tried it, the German dollar would buy four hundred billions of them, and in France during her comparatively mild period of inflation after the war, the franc devalued to two cents. If such a thing should happen in this country, should five thousand crop bales which you have piled away in the milk can on the street, would actually be worth five hundred dollars, or in the case of Germany, nothing.

Insurance companies instead of the purchasing power of a dollar by three billions of dollars last year when they said amount from that reserve which they hold and have. It is impossible to see the possibility of such a thing.

Mr. and Mrs. E. E. Tolar have moved into their new home on Magnolia Avenue.

The Sanford Work Circle was entertained by Mrs. N. E. Gomez Thursday afternoon. The dinner was a delicious one.

Dr. W. E. Rosenblyder has moved his office to the Gomez Woodruff building over Woodruff's woman's store.

Dr. W. E. Rosenblyder has moved his office to the Gomez Woodruff building over Woodruff's woman's store.

The Chamber Of Commerce Work

At 8:00 o'clock Tuesday morning the Seminole County Chamber of Commerce will begin its annual drive in which it is hoped to duplicate the remarkable performance of last year when three thousand memberships were secured in thirty-six hours, making this the second largest Chamber of Commerce in Florida.

Buying memberships in a chamber of commerce is to a very great extent the same principal as meeting the annual payments on insurance. The policies of the big insurance companies are designed to mitigate loss in the event of catastrophe. Memberships in a chamber of commerce in the same way combine to prevent business losses or to keep them at a minimum.

Every dollar which finds its way into the Seminole County Chamber of Commerce is spent locally or is otherwise expended in the promotion of better business. The expenditures of Chamber of Commerce funds is under the supervision and direction of the business, agricultural and professional leaders of the community who exercise the very best judgment at their command to see that worthwhile results are obtained.

Discouraging as general business conditions sometimes are, it goes almost without saying that matters will not of themselves right themselves and that only by the most whole hearted co-operation and intelligent organization will more prosperous conditions be realized. This of all times is one when the round table discussions and enterprising activities of the Chamber of Commerce are most sorely needed.

During the past year President Papworth, with the capable assistance of Kati Lehmann and the directors, have done a splendid job in promoting scores of worthwhile movements in the face of most trying obstacles. They deserve the unqualified praise of every loyal Seminole County resident and should be accorded the utmost support when their drive gets under way next Tuesday.

The Bigger Golf Cup

Probably because it is perhaps the most difficult of games, golf is continually in the throes of agitation over means to make it easier. It wasn't so long ago that furor was raised over the advent of steel clubs, a proportion of links enthusiasts seeing in the innovation a possible additional yardage on their shots, while the conservatives viewed any change in the historical wood shafts as a desecration against the royal and ancient sport.

In recent years there has been a great deal of excitement stirred up over the size of the ball. One faction of golfers strove for a long time to have the golf ball made larger so as to be more easily controlled by the club player. This faction contended that the small and exceedingly hard sphere gave the good players a distinct advantage because it permitted them to hit terrifically long shots and that the increased difficulty of control didn't bother them anyway. The contention was made that the average player could get just as much distance with the large ball and that it would be more easy to control on approaches and on the green.

The experiment was tried and turned out to be a complete failure. Both professionals and dubs were almost unanimous in their complaints about the larger ball. It appeared that none of the expected benefits were forthcoming. The fact of the matter was that the professionals continued to score as they always did, and the duffers could see no improvement.

The latest attempt to make the game easier is one which should be sure-fire. It embraces the simple device of enlarging the size of the cup from 4 1/2 inches to 8 inches. In other words, putting, which is about one-half of the game, would be made twice as easy.

There is no question about this plan making golf scores much lower, but it is also a fact that what will benefit one player will benefit another. In the final analysis no one will gain. The only net result would be that scores would take a drop among all classes of players alike.

If what the golfing world wants is some device whereby all dubs will be raised to the equal playing status of good players then what should be done is to have two types of links, one very difficult for professional and high-ranking amateurs, and the other extremely easy for the duffer, then, possibly scoring would be more nearly equal.

SANFORD, TWENTY YEARS AGO

Little Miss Maude Lake was the charming hostess at a very delightful party Saturday afternoon when a number of her little friends and neighbors were invited to help her celebrate her sixth birthday at the home of her parents, Mr. and Mrs. Forrest Lake. Mrs. Lake was assisted by Mrs. E. O. Chase in entertaining the little guests at a number of pretty juvenile games on the pretty lawn.

Mrs. Henry Wright entertained most delightfully and informally Tuesday afternoon complimentary to Miss Elizabeth McLaughlin who will leave the city Friday for Tallahassee where she has been appointed assistant at the Woman's College. Mrs. Wright's guests were Mrs. A. B. Wallace, Mrs. C. G. Butt, and the Misses Elizabeth McLaughlin, L. J. Danstrom, Elizabeth Mettinger, Beulah Phillips, Belle Smith, Nell Butler, Irene Brady, Ruth Butler, Madge Ward, Veda Ward, Lucy Walker, Isabel Hand, Helen Rowland, and Charlotte Hand.

Dr. W. E. Rosenblyder has moved his office to the Gomez Woodruff building over Woodruff's woman's store.

Mr. and Mrs. E. E. Tolar have moved into their new home on Magnolia Avenue.

The Sanford Work Circle was entertained by Mrs. N. E. Gomez Thursday afternoon. The dinner was a delicious one.

Noted Missionary To Speak Here Monday

In announcing that officials of the Florida Chain of Missionary Assemblies had instructed Dr. Samuel Higginbottom, M. A., M. Sc., B. Sc., Ag., to come to Sanford to deliver an address at the Union service to be held at the Presbyterian Church here Monday night at 7:30 o'clock, Rev. E. D. Brownlee, pastor of the church today said that "We are to be treated to a most unusual privilege in the address which this noted man will bring us. He will speak on 'India Today.'"

Dr. Higginbottom, he said, prepared for a long career as a missionary at Mt. Hermon, Amherst, and Princeton. A college professor in India followed his graduation. Seeing evidence of dire poverty on all sides in that country, he returned to America for an agriculture course in Ohio State University. Today he is superintendent of the Leprosy Asylum and president of the All-India Agricultural Institute in India. He has received from the British government in India the Kaisar-i-Hind Medal in gold for distinguished public service and the degree of Doctor of Philosophy from Princeton.

Dr. W. E. Rosenblyder has moved his office to the Gomez Woodruff building over Woodruff's woman's store.

YOUR INCOME TAX

INCOME TAX IN A NUTSHELL

WHO? Single persons who had net income of \$1,000 or more or gross income of \$2,000 or more, and married couples who had net income of \$2,000 or more or gross income of \$3,000 or more must file returns.

WHERE? Collector of internal revenue for the district in which the person lives or has his principal place of business.

WHAT? Four per cent normal tax on the first \$4,000 in excess of the personal exemption and credits. Eight per cent normal tax on the balance of net income. Surtax on net income in excess of \$4,000.

INCOME-TAX DON'TS

- DON'T prepare your return without first studying the instructions on the form. DON'T procrastinate. Early assembling of data permits a careful consideration of all tax problems. DON'T destroy the memoranda from which your return was prepared. DON'T omit explanation when such information is essential to an intelligent audit. Attach memoranda to your return.

PERSONAL EXEMPTIONS

In addition to the personal exemption of \$1,000 for single persons and \$2,000 for married persons living together and for heads of families, a taxpayer is entitled to a credit of \$400 for each dependent, defined by income tax law and regulations as a person under 18 years of age or incapable of self-support because mentally or physically defective. The term "mentally or physically defective" means not only cripples and those mentally defective but persons in ill health and aged.

Neither relationship nor residence are factors in the allowance of the \$400 credit for a dependent. The taxpayer and the dependent may be residents of different cities. If husband and wife both contribute to the support of a dependent, the \$400 credit may be taken by the one contributing the chief support, and may not be divided between them.

A single person who supports in his home and aged mother is entitled not only to the \$400 credit for a dependent, but also to the personal exemption of \$2,500 as the head of a family. A widower supporting under similar circumstances a depend child under 18 years of age also is entitled to the credit for dependents as well as the head of a family, plus the \$400 credit for a dependent.

Under the revenue act of 1932 both the personal exemption and the credit for dependents are required to be prorated where the status of the taxpayer changed during the year.

The normal tax rate is 4 percent on the first \$4,000 of net income in excess of the personal exemption credit for dependents, etc., and 8 percent on the remainder of such excess amount. The surtax rates—in computing which many taxpayers make mistakes, usually to their own disadvantage—begin on net incomes in excess of \$4,000. The rates increase in accordance with the amount of net income included in varying so-called income-tax brackets. On a net income of \$5,000 and not in excess of \$10,000 the rate is 12 percent of such excess. The surtax upon a net income of \$10,000 is \$40 and upon a net income in excess of \$12,000, the rate is 2 percent in addition of such excess. The surtax on a net income of \$10,000 is \$40, and upon a net income in excess of \$12,000, the rate is 2 percent in addition of such excess. The maximum rate, heavy taxpayers make the error of applying the maximum rate instead of the rate provided for in the bracket in which their net income is included.

Following is an example of how to compute the tax on a net income of \$14,000. The taxpayer being single and without dependents:

INQUISITIVE

Table with 2 columns: Taxable Income, Tax. Rows include \$4,000 (160), 8 percent normal tax on balance of \$9,500 (760), Surtax of \$140 on \$14,000, plus 4 percent on \$500 in excess of that amount (200).

Total, normal tax and surtax 1,080. The earned-income credit allowed individuals under the revenue act of 1928 is entirely omitted from the revenue act of 1932. Therefore, no earned-income credit may be taken for the calendar year 1932 or succeeding taxable years.

Verdict Is Given In Lake Mary's Heart Balm Suit

(Continued from Page One) where they spent two weeks. She further testified that he left her at that place after a bitter scene in which he denied that they were engaged or ever had been, and she said that she was and is now willing to marry him. As a result of her experience, she testified, she has been broken in spirit and heart ever since.

ness, produced Dr. T. A. Greenleaf, who, after a quick examination, pronounced the woman in perfect health.

The defense followed Mrs. Hearstain's testimony by that of Miss Elizabeth Watercrest, a close friend of the plaintiff. This witness testified that she was with Mrs. Hearstain for two weeks at Warm Springs, and that she was present when the pair announced their intention of later being married. She also testified to the ardent love-making of the defendant and said that she was "positive that he was pledged" to marry Mrs. Hearstain.

A surprising angle developed during Miss Watercrest's testimony when she admitted that she was at Warm Springs with another resident of Lake Mary, although she knew that he was a married man. This turn in the case followed

by the presence on the stand of Mr. Musgrave who first asked that his wife be excluded from the room before he gave his testimony. Judge Abraham denied his request, and while the testimony tittered and laughed, Mr. Musgrave told what Attorney Douglas later described as "damaging evidence" against the defendant.

Before the prosecution witnesses began their parade to the stand, Dr. Ray Townsend, gynecologist introduced testimony intended to vouch for the character and reputation of the plaintiff who, he said, had been employed by him for four years and was of sound moral character.

Prosecutor True called upon Miss Amelia Black as the first prosecution witness. Miss Black testified that she had lived with Mrs. Hearstain in Georgia for some time and that she had tried to get her to use a wealthy man in Paganon Hollow, Ga., for breach of promise.

The star witness of the defense was Virginia Hearstain, daughter of Mrs. Hearstain, who, upon cross-examination broke down and wept on her mother's shoulder. Other character witnesses introduced by the prosecution were: Miss Caroline DuPre, Earl Tenney, S. E. Westler and Donna Marie, a Spanish woman now living in Lake Mary.

The jurymen, who listened to the testimony were Mrs. Earl Harvey, Mrs. Earl Tenney, Miss Villa, Matt of Lake Mary, Karl Lehmann, E. F. Householder, and L. F. Boyd, the latter three of Sanford.

The jury found the defendant, John Evans, guilty as charged, and recommended that he be ordered to pay the \$50,000 or carry out his agreement to marry Mrs. Hearstain, immediately upon the rendering of the verdict. Mr. Evans' attorneys announced they will seek a new trial.

The trial was staged under the auspices of the Good Fellowship Club of Lake Mary, with Robert True as president. It was held in the Chamber of Commerce building in that city, with C. W. Isbell, E. A. Douglas, and D. W. Skewes as committee in charge of the trial.

Those who impersonated the various principals were: R. D. White as Mrs. Hearstain, Homer Gleason as Elizabeth Watercrest, Melvin Dunn as Amelia Black, Fred Cummings as Caroline DuPre, Charles Moresby as Virginia Hearstain, and Albert Whitaker as Donna Marie.

The Comforts of the American Home

IT IS a well-known fact that, home for home, the American household has more comforts and conveniences than that of any other nation. In foreign lands the modernized dwelling is found only in the better sections of the larger cities. In America, even in remote rural districts, you find the radio, the vacuum cleaner, washing machines, up-to-date heating systems, telephones and numerous labor-saving appliances. There is a well-kept look about residences, store or outbuildings with an atmosphere of prosperity and content. Did you ever stop to realize why this is so; how this condition was brought about? It is largely due to advertising. And a big share of the credit belongs to newspaper advertising. Stop and think how many of the books you read, the letters you read and other articles entering into your every-day life, you first heard of through newspaper advertisements. You will then realize what a part they do play, or should play, in your daily life.

ANNUAL BUSINESS MEET, LUNCHEON OF GARDEN CLUB HELD FRIDAY

Mrs. W. E. Watson was re-elected president, Mrs. E. N. Scott was again chosen vice-president; and Mrs. R. B. Monroe was re-named secretary and treasurer at the annual business meeting and luncheon of the Garden Club of Sanford held yesterday morning and afternoon at the Sanford Country Club with a large number of members and guests in attendance.

Features of the meeting were the talk on moths and butterflies by Mrs. Malcolm McPherson Landers, of Jacksonville, and the group of vocal solos rendered by Mrs. Ralph S. Alvord, of Boston and Lake Mary, with accompaniment by Mrs. R. R. Deas.

Along with her talk, Mrs. Landers displayed her collection of moths and butterflies which included specimens from Florida, North Carolina, the New England states, the Amazon River district, the East Indies, and India. She cited several interesting ways by which insects are protected by their nature, and told of the habits of a number of moths and butterflies. In bringing her talk to a close she described how fascinating collecting is and urged and recommended that every woman have a hobby of some kind.

During the business session reports were heard from the various standing committees that trees have been replaced on the lakefront and depressions about trees on parkways have been filled in.

As conservation chairman Mrs. J. C. Bills reported that her committee assisted in organizing the Junior Garden Club, of Geneva, and reforested three acres of land on the Orlando Road with the assistance of the Agriculture Department of Seminole High School and the Future Farmers of America.

Mrs. E. B. Stowe, distribution chairman, stated that a large number of plants and shrubs have been distributed throughout the city, and the Junior Garden Club reported that 1520 flowering trees have been given out to various school children.

Announcement was made of the flower show which will take place on Mar. 22 and Mar. 23 at the Mayfair Hotel. Members then voted to join the Florida Forestry Association and the meeting was brought to a close.

Luncheon was served in the club dining room (tables which were overlaid with linen

place cards. During the luncheon questions about flowers and shrubs, written on the place cards, were answered. Those present were: Mrs. R. R. Deas, Mrs. H. B. Pope, Mrs. L. I. Frazier, Mrs. H. M. Watson, Mrs. Roy G. Williams, Mrs. E. B. Stowe, Mrs. Katherine Davis, Mrs. E. D. Rinehart, Mrs. L. P. Hagan, Mrs. J. Adrian Brown, Mrs. Walter S. Coleman, Mrs. J. H. Colclough, Mrs. E. M. Covington, and Mrs. W. W. Goetsch, who made the

cloths and entered with alternate flower arrangements of red gladioli and statice, and sprays of viburnum avatum. Novelty imitation red hibiscus was used to mark the places of the guests. At the officers table a large bowl of gerbera daisies was placed. Other decorations about the room consisted of bamboo and quantities of viburnum avatum.

Mrs. J. C. Benson, general chairman of the luncheon, was assisted by Mrs. E. M. Galloway, Mrs. R. R. Deas, and Mrs. J. H. Colclough, who had charge of directing the tables; Mrs. E. N. Scott, Mrs. W. D. Hoffmann, and Mrs. W. C. Erickson, who decorated the club rooms; and Mrs. W. W. Goetsch, who made the

place cards. During the luncheon questions about flowers and shrubs, written on the place cards, were answered. Those present were: Mrs. R. R. Deas, Mrs. H. B. Pope, Mrs. L. I. Frazier, Mrs. H. M. SCRIP IS BEING USED BY 500,000 PERSONS IN U. S.

Official Washington Sees No Challenge To Sound Currency

WASHINGTON, Feb. 4.—It has taken three years of economic disturbance to remove the barrier from that old but still valid wooden money, and now more than 500,000 persons in scores of communities in about 30 states are using it, or something similar—scrip and liking it.

Official Washington, according to a survey is practically unanimous in seeing no such challenge to real money or to the banking system. Officials regard scrip as a handy emergency and auxiliary currency which facilitates barter. It is pointed out that it must necessarily be used on a voluntary basis, since it would be illegal to compel a debtor to take it to satisfy a debt, contrary to his wishes.

Furthermore, this sort of scrip used in barter, which must not be confused with the stamped purpose of accelerating trade and which are eventually backed by real money, is distinguished from the money itself, in that it does not involve interest and credit.

As one official here put it, "It satisfies the survival instinct, but not the profit motive." The difference between ordinary money and scrip, as it is seen here, is that one is based on gold, while the other is based on man-power energy or goods. It is a curious fact that the use of scrip coincides with the demands of leaders of technology for elimination of the present price system, and substitution of a new medium which would have energy units or ergs as its common denominator.

The scrip now in common circulation in a great number of American communities really does have an energy or skill equivalent. It represents a system of barter in which the skill and man-power of a farmer, say, is facilitated in exchange with that of a common laborer, or of a carpenter, or the like.

Ordinary money, it is explained here, represents gold, or a store of value, in the period of an acute business slump, like the present, there are plenty of people who don't have money, but who have either a surplus of goods to sell, or some trade skill, or just plain energy for use in day labor.

LABOR TO FIGHT FOR REMEDIES OF PRESENT PLIGHT

Green Says Organized Labor Can Wait No Longer For Action

WASHINGTON, Feb. 4.—Organized labor can wait no longer for voluntary action by industry and will fight with every legitimate weapon at hand "to compel the plain remedies withheld by those William Green, president of the American Federation of Labor, says in an interview in Nation's Business, organ of the United States Chamber of Commerce, issued recently.

In the interview, written by Chester M. Wright, editor of the International Labor News Service, Mr. Green declares his organization is in earnest. "Its pronouncements may sound harsh," he admits, adding, "Why not, can anything be harsher to the privileged, than the words 'there is no work' for the unemployed?"

No physical violence is expected, however, Mr. Green re-emphasized parts of his recent speech in Cincinnati, in which he said, "We shall fight not with physical violence, but with our economic strength."

Among the demands for which Mr. Green says labor will fight are: Federal licenses for corporations doing an interstate business, with specific requirements as to accounting.

National economic planning, aiming at the raising of standards of living and not at price-fixing and limitation of output. A protective governmental service for investors. Recognition of the equities of workers in the industries in which they work.

Constructive governmental control of credit finance production. A federal agency to collect and collate data as to man-hours of work available and as to wage-earner income, to provide standards for determining economic balance.

Higher wages. Organization of workers into more and stronger unions. He holds that although a round-table discussion with the employing interests would be preferable, such co-operation, he declares, is not expected. The methods to be used in the drive for better conditions, Mr. Green said, will not be disclosed until the time is ripe, to avoid preparing the "money-fat enemies of America."

Mayor Of Atlanta Tells Bishop To Sit Down And Shut Up

ATLANTA, Feb. 4.—Mayor James L. Key, of Atlanta, outspoken opponent of prohibition Tuesday night engaged in a verbal clash with Bishop W. N. Alsworth, of the Methodist Episcopal Church, South, at a legislative hearing on a beer bill, during which the mayor told the bishop to "sit down and shut up."

Bishop Alsworth sought to have the mayor yield to questioning. The latter refused and shouted, "Sit down, bishop, and shut up. I will not be dictated to by a bishop or anyone else, even if that bishop is of the church of which I have been a member for fifty-two years. I had this crowd all over my back at one time and I beat them and I don't fear them any more."

When the bishop first arose to speak several in the crowd at the hearing shouted "sit down."

PLOWING UP OF CELERY WILL BE EXTENDED

(Continued From Page One) In the matter. He urged the committee to contact with Governor Sholtz, all of Florida's Congressional representatives, and leading bankers in this state, to secure their co-operation.

Appointment of Mr. Hutchison, Mr. English, and Mr. Powell came to Mr. Bassel said, "because each of these gentlemen represents the largest celery lotting shipped from their respective sections and they are connected with co-operative associations." The committee has full power to act in the matter, he added.

During the discussion preliminary to the decision to extend the plowing up period for one week, F. F. Dorner, of Sanford, and both Mr. Powell, of Sarasota, and Mr. English, of Manatee, announced that the program is meeting with the enthusiastic support of almost 300 percent of the growers in each section. Quoting Mr. Dorner, "They are alive to the need for drastic action, and they are ready to sign this program in whatever it thinks best in the matter."

A noticeable effect has resulted in celery markets of the nation since the initiation of the movement, according to the views expressed by various sales managers present. Mr. Scoggan, of Sarasota, said that inquiries lately had increased largely. He predicted that a satisfactory effect would begin to be noticed early next week.

The market has a slightly better undertone, he said, "although this might be attributed in a measure to decreased shipments on account of weather conditions on well as to the program in question." Before concluding, Mr. Scoggan expressed the hope that in the event of a higher market, which he anticipates, that growers will not "make the mistake of thinking that they have made a mistake in destroying a part of their crop." Digressing, he said that Sarasota growers, in addition to carrying out the program, are stripping heavily.

Agreement to Mr. Scoggan's picture of conditions came from Mr. Buttolph who joined with Mr. Scoggan in urging growers present to combat any reactionary tendency on the part of growers, stating that "Shipments must be held down if the market is to be improved further."

Mr. Peterson, of Manatee, said that while inquiries are increasing, buyers appear none too anxious to take hold. "I expect an advance in the market next week," he said, "but I see that it is imperative to keep the tonnage down because many of the smaller markets are already clogged."

Mr. Leffler, in stating that he "becoming somewhat apprehensive that an artificial market might be created due to the holding up of shipments, through weather conditions," urged that all growers paper their celery as it becomes ready, "so there will be no gaps in the flow of celery from Florida."

When the question "What effect has been noticed in the market through the resumption of shipment of three, eight, and ten ton lots," Mr. Buttolph, Mr. Scoggan, and Mr. Hutchison all stated in their opinion the resumption of such shipments had served to expand the market for celery and to secure a wider distribution.

Mr. Schuur also stated that he could not adhere to a plan calling for the elimination of shipments of tons at this time. Mr. Bell, Mr. Leffler, Mr. English, Mr. Powell, and Ralph B. Chapman of Sanford expressed themselves as, in effect, believing that the proposed movement to order the discarding of tons is at this time inopportune and too drastic, and since it is apparent that such action will not meet with harmonious support in the meeting, it should be discarded as an order. Each of the speakers urged the need of complete harmony and agreement in the larger program of saving the celery industry.

Adjournment until next Friday night in Lakeland followed the passage of the resolution over the sole dissenting vote of Mr. Symes, of Sanford.
