## Strategy Planned Calling For Defeat Of Italy, Germany, First, With Invasion Of European Continent, Then Japan

### OPA Rules Out Attendance At Civic Meetings

### Driving Home Cook, If Customary, Is Considered Personal Necessity

Driving to attend Kiwanis, Rotary, Lions, Junior League, Masons, Elk, Chamber of Commerce, P. T. A., Boy Scouts, American Legion, Civitans and Eastern Star meetings constitutes a violation of the pleasure driving ban, Harold C. Johnson, regional representative, today advised A. B. Peterson, executive secretary of the rationing board. Holders of B and C rations have never been allowed to "pleasure" ride on their rations. Mr. Peterson pointed out, consequently the A ration rules are the same which have always applied to B and C rations.

### Driving a cook home who lives many miles from her work, if this has been customary, is considered a personal necessity and an exemption for this purpose, Mr. Peterson said.

Under the personal necessity classification would be driving for the purpose of essential shopping such as marketing and buying medical supplies. Driving for the purpose of obtaining medical or dental services, necessary driving includes attending religious services, wakes or funerals, attending meetings directly related to the occupation or profession of the owner or person using the vehicle, such as farm mobilization meetings, ministers' meetings and doctors' meetings where they will hear a lecture by a specialist.

Clarifying driving by Naval or military personnel on leave or furlough, the instructions stated that rations may be used to visit relatives and make social calls, provided the driver has evidence that he is on furlough. This does not mean that the service man may go to theaters or night clubs. If the soldier does not own the car but is with friends who own the car, the pleasure ban would apply to the owner, unless the owner is a chauffeur for the soldier or unless the soldier is driving the car.

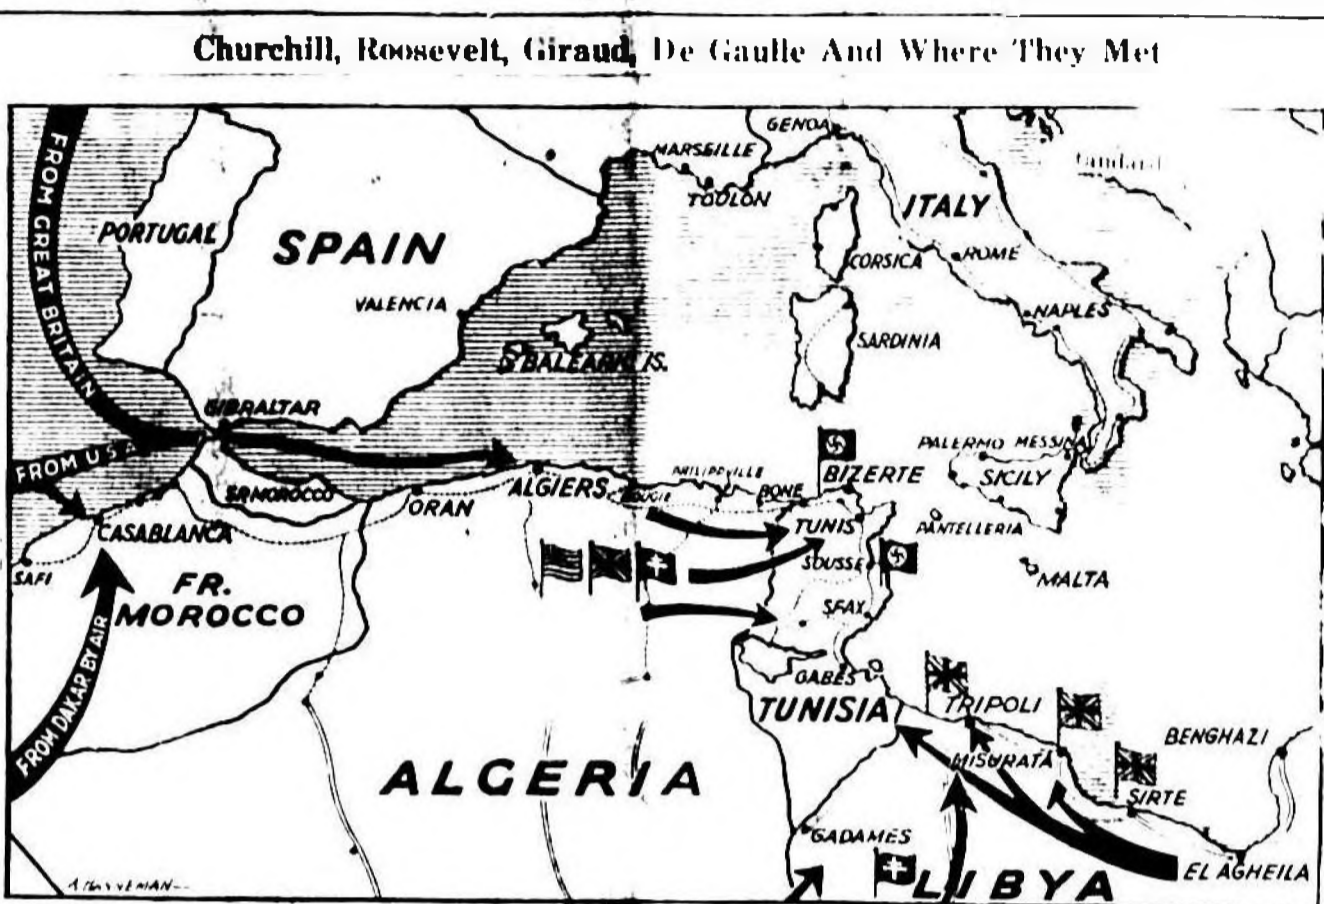

Occupational driving is not prohibited and this includes driving in connection with a business or related work, may work regularly performed by a person which contributes to the war effort or to the public welfare, pursuit of a religion and recognized courses of study.

### Name Chosen For Camp Carrabelle

WASHINGTON, Jan. 27. (AP)—The Army decided Tuesday that the name of Camp Carrabelle, Fla., had been changed to Camp Gordon. The name honoring the late Col. Gordon Johnson, a native of Charlotte, N. C., served in the Spanish American war with the second Massachusetts Infantry, and later was commissioned in the regular army. He served during the Philippine insurrection in President Roosevelt's first war, and in 1918 was a special assistant to the governor general of the Philippines. His last assignment was chief of staff of the 8th Cavalary, where he died in 1934 as a result of injuries received in a fall from a horse.

### Prohibition Vote Is Proposed In Georgia

ATLANTA, Jan. 27. (AP)—Prohibition legislation, pending in the Georgia House, is expected to be passed in the next session. The bill would prohibit the manufacture and sale of alcoholic liquors.

President Franklin D. Roosevelt and Prime Minister Churchill, with their staffs and aides, flew to Casablanca, Morocco (map above) Jan. 14 where they formed plans to refuse any peace negotiations of the Axis until the enemy meets final

defeat. Pictured also are General Charles De Gaulle and Henri Giraud, who held a two-day conference in the major political issues, following intervention by the two United Nations leaders. Josef Stalin and Generalissimo Chiang Kai-shek, although unable to attend the conference, were kept closely informed of all developments.

Council of War

The meeting of President Roosevelt and Prime Minister Churchill at Casablanca is by far the biggest news of the year so far, though it presages coming events which will surely surpass it in importance.

And yet there is in the dramatic aspects of this Allied meeting those elements which in themselves make it great and which in normal times would have made it the greatest event of the year.

There has been enough gold brain in Casablanca during the past two weeks to put a dozen contingents on the globe. The significant absence of the representatives of China and Russia, in mention only, is among whom there are no other in the Allied staff of the U. S. Army, Admiral Ernest J. King, commander in chief of the U. S. Navy, and Gen. H. H. Arnold, chief of the Army Air Corps, and the corresponding leaders in the British, French, and other Allied forces.

And again the American press has shown its keen interest in the meeting, for it is a military and political event, and its nature is of such military importance that it is being followed by the newspapers that something big was about to break loose. For several days there have been repeated hints to the newspapers that something big was about to break loose. For several days there have been repeated hints to the newspapers that something big was about to break loose.

Now that the meeting has taken place, and the plan laid, the American people will await with eagerness, not with anxiety, coming events.

Food Shortage

Herbert Hoover's statement on farm and food problems calls for careful consideration. Most Americans have had the impression that there was a great surplus stock of foodstuffs in this country and that vast quantities had already gone to our foreign allies, with only a few left for us.

HITLER'S "YES MAN" IN A NEW ROLE

Washington Daybook

Washington, Jan. 27. (W) From time to time in these columns, I have advised "If you don't agree, write your Congressman." I have done both Congressmen and read an injustice in not laying down a few basic rules.

TOO LATE TO CLASSIFY

And now the war is being fought on the American soil with a brutal emphasis in the form of unbridled propaganda. The "March of Dimes" is an organization that has been set up to raise money for the war effort.
