## El Salvador Charged

# Shaky Cease Fire Is Broken!!

TEGUCIGALPA, Honduras (AP)—Honduras charged that El Salvador broke the cease-fire in their undeclared war by the capture Sunday of five more towns or villages.

El Salvador replied with a charge that Honduran troops opened fire with machine guns on President Fidel Sanchez Hernandez of El Salvador while he was inspecting Salvadoran troops inside Honduras. The cease-fire, which supposedly went into effect at 10 p.m. Friday, calls for the withdrawal of all Salvadoran troops from Honduras by 10 o'clock to night. But El Salvador said it would not withdraw until it received "satisfactory" guarantees for the safety of more than 275,000 Salvadorans living in Honduras and their property.

Guillermo Sevilla Sacasa, Nicaraguan chairman of the peace commission of the Organization of American States, said that if El Salvador does not pull its troops back, it will be "considered an aggressor and subject to the sanctions specified in the Rio de Janeiro Charter."

According to Honduran announcements, the Salvadorans have now captured a sizeable

Minor Injuries  
A nine-year-old youth was treated for minor injuries and dismissed from Seminole Memorial Hospital late Wednesday after a car in which he was a passenger collided with a second vehicle at the intersection of Park Avenue and 25th Street.

### THEY'RE OFF

And headed for that vacation at last. No matter where you spend your vacation this summer, you'll want to keep pace with the happenings back home.

# Russian Fleet Is In Cuba

By FENSTON WHEELER, Associated Press Writer  
HAVANA (AP)—Thousands of Cubans lined Havana's waterfront Sunday to cheer the arrival of the first Soviet naval force to visit Latin America.  
It took the seven-ship task force almost two hours to steam into the harbor and to Cuban navy headquarters for welcoming ceremonies, but the crowd waited patiently under the glare of the sun.  
A band on board the first ship, a rocket cruiser, played the Cuban anthem as the squadron passed Morro Castle at the harbor's entrance. Cannon from La Cabana Fortress boomed a 21-gun salute as the ships moved slowly down the channel.  
Following the cruiser in single file were two destroyers, two submarines, the submarine mother ship Totok and the tanker Lena.  
Soviet sailors in dress whites manned the rails and shouted greetings in cadence as the Cubans waved from the seawall. The destroyers and submarines off 70 miles of the bayfront for the welcome, and Soviet flags were on display throughout the city.

## Men Barred

JOHANNESBURG, South Africa (AP)—Anyone over the age of 18 in South Africa can see the German sex education film "Heiga" except members of the sex responsible for Heiga's pregnancy.  
In other words: All men are barred, and the women are up in arms about the ban. Nearly all of them want their menfolk to see "Heiga" so they can "see what a woman goes through."  
South Africa is the only country in the world where men are barred.

## Maintenance Men Plan On Striking

A strike by Seminole County school maintenance workers looks for Friday if that school department is not given a 20 per cent pay increase.  
An exclusive interview with a maintenance employee, who wishes to remain nameless for obvious reasons, The Herald learned that some maintenance employees had in a "discussion" last Wednesday agreed to "get sick" by this Friday, if an average 50 cents an hour pay increase is not granted.  
Jean Bryant, board member, at a Thursday school board session, advised Supt. John Angel of his disagreement with the pay scales as recommended by the 1968-70 school budget.

# Airport Deed Still 'Floating'

By BILL SCOTT  
Sanford City Manager W. E. Knowles was authorized by the city commission last night to en-act a plan for Washington on a fact-finding trip designed to pry the Sanford Airport deed from the General Services Administration (GSA).  
Mayor Len P. Moore brought the matter before the commission last night just before a scheduled city council meeting when the city's 1969-70 operations budget was up for consideration.

## And They Say..

City Manager W. E. Knowles was advised in a telephone conversation with an aide in the Washington office of Walter Moreland, GSA official, that the two memos concerning the transfer of the SNAS to the City of Sanford from the Justice Department will be mailed today.  
Knowles said he would expect to receive the documents by Thursday and would delay his trip to Washington until then as he wanted to have the papers in his possession before making the fact-finding trip.  
Knowles said he understands the Justice Department has informed the GSA that in researching the legality of city getting the 150-acre industrial site—the department's findings that the containment section which has been classified industrial by the GSA must be classified under a different name before the property can be given over to the city free and clear.

## Fire Aide Bickers

By DONNA ESTES  
Paid fire department was turned down by the Longwood City Council in budget session last night for the second year in a row and the grounds for the action were the same as in prior years—the city cannot afford it.  
Fire Chief Carl Lommier and Commission and Fire Commissioner Eugene Jaques spoke on behalf of the \$28,845 budget request for fiscal 1969-70 which would permit employing two full time and one part time fireman and allocate expense moneys for the chief and assistant.

## Budget Request Cut

Put in the requested budget, than we can get away with," Ferrell stated, "If you'll cut your request to \$9,000 to \$10,000, we'll talk about it."  
Meanwhile, Council Chairman E. E. Williamson pledged, "I ain't going to vote for no increase in taxes above the 2.23 percent millage or eliminating current programs. The council estimated its revenues in the new year to be \$11,100,000 exclusive of water department accounts. The board estimated some \$12,000 from ad valorem taxes at the present rate of 2.27 mill, with building permits at \$2,000; fines and forfeitures, \$9,000; occupational licenses, \$1,000; miscellaneous revenues, \$500; county road and bridge fund, \$1,100; franchise tax, \$1,800; cigarette taxes, \$13,900 and utility taxes, \$23,500.

### 'Master Or Slave'

Calling the conquest of the moon by America's astronauts "earthman's greatest single accomplishment," Judge Volie A. Williams Jr., of Florida's 18th Judicial Circuit told the Sanford Rotary Club at Monday's luncheon of the effects the feat could have on mankind.

### TV Times

NEW YORK (AP)—Scheduled Apollo 11 coverage on the three major television networks (all times EDT):  
Tuesday: ABC, 9:02-9:17 p.m., live pictures from capsule, 10:35 p.m. program report; CBS, 9:20 p.m., live transmission, progress reports through day; NBC, 12:50-1:15 a.m., rocket firing for return to earth.  
Wednesday: ABC, CBS and NBC, 7:30 p.m., live transmission from capsule.

American Deeds Rouse Mankind's Aspirations

We join with the millions who are proud today that two Americans placed the Stars and Stripes on the lunar surface and fulfilled a mission which has long lodged in the hearts and minds of mankind. No words of ours or of anyone else are needed to place the names of Astronauts Neil A. Armstrong or Edwin E. Aldrin, Jr. on the pages of history. There they are! There they will stay!

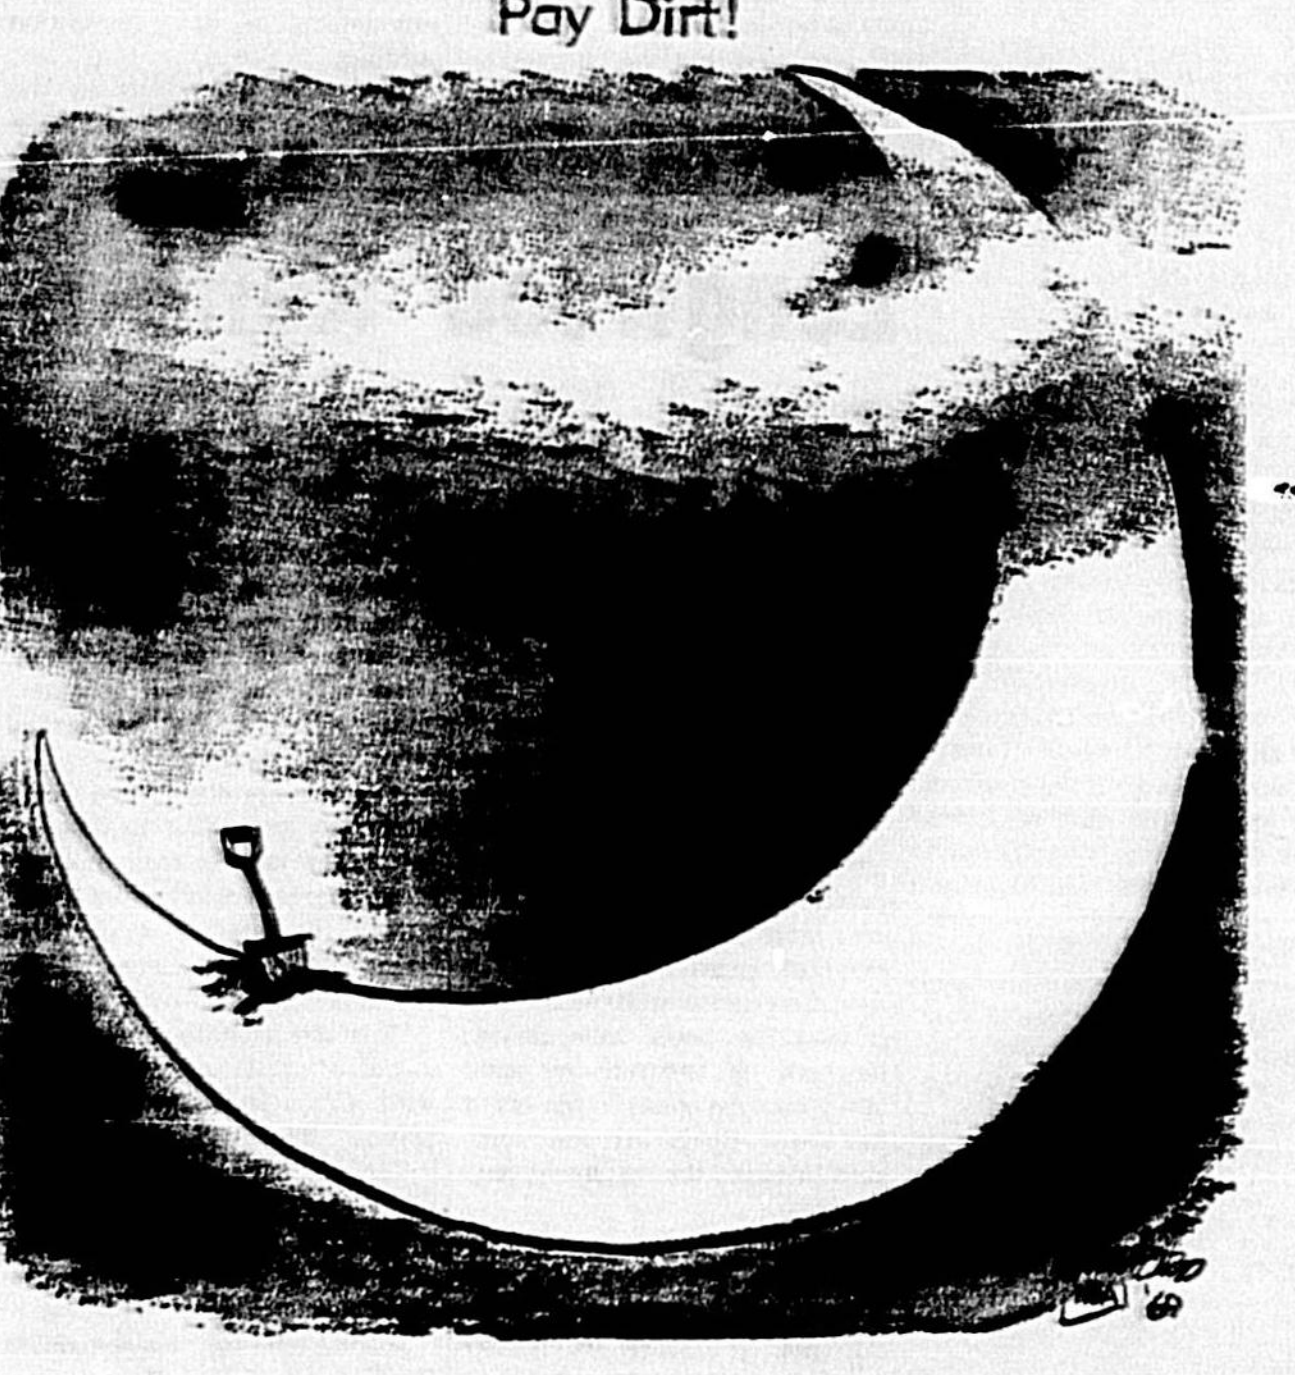

The "man-in-the-street" responses to questions as to their reaction to the momentous moon-landings had a thread of common sentiment. Many recognized the event as a triumph for American know-how and performance. But almost in every Main Street from Tokyo to London, was voiced the feeling that this is, in truth, a step forward for mankind. Stepping on the moon Armstrong put it: "One

small step for man - One giant leap for mankind!" When the Apollo 11 mission finally comes to its conclusion, the time for thinkers will surely have arrived. For this event will prove its depth of meaning only when the best thought of the world is devoted to exploring the best ways in which this new knowledge and this new understanding of the universe can be applied. If there are two conclusions that can logically be drawn from the events up to the time this is written (Monday) they are: 1. This is no time to hamstring the space program by any ill-vised Congressional action impelled by knowledge which did not include the successful moon-landing. The other is not allied to the lunar accomplishment but is strengthened by that tremendous achievement. This is a re-affirmation that whenever our na-

tion sets its mind to do something, gives it to a group of men and women who are the best sense of that word, dedicated to its fulfillment, it takes place. Thus the inspiration of the Apollo 11 success, the fruits of years of intent self-sacrifice and even the total commitment which resulted in the fiery deaths of the three Astronauts of Apollo 1 - Grisson, White and Chaffee whose path now rests on the lunar surface - needs continuing. It also needs to be broadened to include all those changes to our national greatness which exist in our earth-bound goals and impair our global reputation. Not now, to be sure, but sometime soon America can once more give itself the inspiration of the space program and start out with re-born vigor to realize the attainment of those more complex and humbly important goals of moral greatness!

"Row-Row-Row"

Rowing may have been given some headline prominence by the hard-nosed and hard-headed British oarsman - John Fairfax - and his audacious on-man, oar-propelled trans-Atlantic crossing. But this is a sport or a pastime which needs more general and intimate acceptance than that generated from tales of a young man who was not bothered by the lack of feminine attention during the six-month, 4,000-mile solo, but whose most dangerous minutes came when he, attempting to save a bottle of Scotch from total loss and kept his finger over the

Pay Dirt!

But this is a sport or a pastime which needs more general and intimate acceptance than that generated from tales of a young man who was not bothered by the lack of feminine attention during the six-month, 4,000-mile solo, but whose most dangerous minutes came when he, attempting to save a bottle of Scotch from total loss and kept his finger over the

We welcome his arrival on the shores of Hollywood Beach. We applaud his courage. We envy his strength. But we would like also to use this tasty news morsel, to invite all of the people of our lake-riparian region to think again and kmidy of the oar and paddle as means of water propulsion. No, we do not undervalue the out-board motor. Nor do we ignore those impetive and dangerous navigators who speed along with wakes that threaten the very buoyancy of the hand-propelled boats and canoes. But the St. Johns River and its intriguing backwaters, Lake Monroe and others of lesser size, offer spots where canoes can glide or rowing waterfowl at their feeding or rest which gasoline motors forbid.

Crane's Worry Clinic:

Ocean Water As A Fine Cure

By GEORGE W. CRANE  
Ph. D., M. D.  
CASE HISTORY: Frank F., aged 58, is typical of thousands. "God bless you, Dr. Crane," he greeted me after my annual check-up in his clinic. "For I was a wheelchair cripple with arthritis just a year ago!"

"Now I am able to exercise my arthritic joints without pain and handle my job as a grocer. "And it is all due to the 4 tablespoons of ocean water that I put into my cereal every morning and another 4 that I put into a glass of milk before I go to bed. "Within a few months after following this simple procedure, I was back on my feet. "I was not kidding my sister to try to my remedy, since she has been doctoring fruitlessly for two years for her arthritis!"

time they pool-pounded the idea and made the astinine statement that "There is nothing in the sea of ANY medical value!" But at the recent 135th annual meeting of the American Association for the Advancement of Science the delegates took the stand that: "The trace elements appear to be important factors that can mean the difference between disease and health." They reported that zinc has speeded up healing of wounds and even promoted growth in dwarfs!

When the Apollo 11 astronauts landed on the moon this month they bore the United States flag. This marked a triumph of the pioneering spirit in our country. At one point there were rumors that the United Nations flag would be planted instead of our own. This would have been wholly unjustified, since the United Nations has had nothing whatever to do with our achievement in space. It would have been foolish to plant the flag of an organization which has members violently hostile to the country that was the first to reach the moon. The citizens of the United States have provided the financing for space exploration, the technical know-how necessary for this project, and the courageous men who have risked their lives to explore the unknown. Americans can well take pride in the results of the Mercury, Gemini, and Apollo program. No other country has come close to equaling this total achievement. The Soviet Union finally had to admit its

Interpretive Report: Practical Politics Illustrated

By RICHARD WILSON  
WASHINGTON, D. C. - A pilot demonstration in practical politics illustrates how important it is to know where the power lies. To some of the new breed in Washington, millionaire Senator John J. Williams was merely a chicken farmer from a little state on the eastern seaboard who would have to take his turn in getting the President's ear. It develops, however, that Senator Williams, who is the ranking Republican member of the powerful Senate Finance Committee, is now in a key and perhaps controlling position on the two issues closest to Nixon's heart: surtax extension and the deployment of antiballistic missiles.

Senator Williams' vote is urgently needed to provide a majority for ABM deployment and his initiative may be the only thing which will force the Senate to vote the surtax extension ahead of tax reform. Senator Williams hasn't said how he will vote on the ABM. Despite the cold shoulder at the White House, however, it is expected that Senator Williams will vote for deployment and give President Nixon the victory he so sorely needs. Extension of the surtax is crucial to the President's heart and he is convinced he will find the way the Republican leader, Senator Dirksen, has not yet found to force a favorable vote in this Senate. By his loyalty to or love of the Republican President but out

Helen Fuller Says: Watch "Underdeveloped" Aid

WASHINGTON - A miniature war in two tiny Central American republics may have more immediate meaning for Americans than our thrilling trip to the moon. Salvador and Honduras - what used to be called "Banana Republics" - first armed clash between Latin American countries in 30 years. What is notable is not the fighting but the fact that both armies were trained and equipped by the United States. What makes the Honduran-Salvadoran war of deep importance is that it dramatizes the explosive dangers in our present policy of military aid to governments committed to the status quo. The Central American war makes clear that as long as policies of handing out arms broadcast stay in force Vietnam is only the beginning.

That holds out to us the prospect of years more of military involvement in a multitude of so-called "underdeveloped nations," disoriented with their present ruling cliques. The smallest country in the Western hemisphere - Salvador - is a red flag that prudent American foreign policy makers are taking very seriously. The bloody and senseless conflict in the Central American forests is giving point to current Senate hearings on whether or under what terms to continue supplying planes, guns, and thousands of how to use them, to governments of smaller countries who profess friendship for us. Many millions of American

Reunion Day, Aug. 10

Mayor Lee Moore of Sanford has proclaimed Sunday, Aug. 10, as Family Reunion Day, calling upon his fellow citizens to set aside this day for family activities, picnics, reunions, dinners, and similar events designed to dramatize the family as the basis of all that is good across our land today.

The proclamation reads, "The family is the keystone of our nation's strength, the basis of a stable society, and chief deterrent to lawlessness, disorder, corruption and moral laxity... The structure of today's society is such that family members are highly mobile and frequently separated." It continues, "Sharing family experiences and memories, planning for the family's future, and maintaining continued family contact are essential for our people." Events International and the Freedoms Foundation at Valley Forge have developed ideas and programs to dramatize the family and its vital role, thereby strengthening our city and nation, and are sponsoring this family event.

Just because you are new in town, it's not the end of the world... Your Welcome Wagon Hostess will help you get acquainted with your new community.

Despite Current Momentum Congress Unwilling To Sign Blank Check

By HARRY KELLY  
Associated Press Writer  
WASHINGTON (AP) - Congress appears unwilling to sign the blank check for a new space commitment to send man beyond the moon - despite momentum fueled by the success and standard of Apollo 11. But government programs linking out payroll and profits among top-a-rocket-thrust of their own. The pressure will be there in the congressional debates over national priorities to keep the manned space establishment - symbolized by the Saturn V rockets - going business with a goal such as Mars in 20 or 30 years. In fact the pressure is already on with plans for manned space flights starting in the early 1970s. Even before the Apollo 11 astronauts got moon dust on their boots, Vice President Spiro

Agnew and House Democrat Whip Hale Boggs were calling for the goal of Mars. Around Cape Kennedy, Fla., there is worry about the 30 percent cut in employment planned for the next 12 months. As in Boggs' home district of New Orleans, the Boeing Co. is building the last authorized Saturn V launch vehicle. When it is finished the space agency will have nine Saturns, enough for three moon flights a year for three years. The departing Johnson Administration did not include in its 1970 budget any funds for further lunar exploration after the first Apollo landing or for continuation of Saturn production. The Nixon Administration amended that to add funds for

the manned program but Congress has yet to approve the money. The availability of the Saturn rockets, plus the multimillion-dollar installations at Houston and Cape Kennedy, make it unlikely that Congress will authorize the completion of the moon program into the mid 1970s. So the debate, and the worry, focuses on the - once distant future, which is only around the corner when it comes to planning for space voyages. To fulfill the moon goal commitment made by the late President John F. Kennedy, the space agency budget once reached about 6 billion a year but is down to \$3.7 billion. Sen. Ralph W. Yarborough, D-Tex., also indicates he will push for more money for going beyond the moon in space ventures. "I will vote for money to continue the exploration," said Yarborough, whose home state houses NASA headquarters at Houston. "I think the level should be kept up and increased." To decide the future of the American space effort, President Nixon named a task force and asked it to make its recommendations by Sept. 1. Handling that task force is Vice President Agnew whose call for a goal of putting men on Mars by the year 2000 may be a tip-off on the group's thinking. Although Agnew got support from Boggs and Yarborough, Senate Democratic Leaders Mike Mansfield and Edward M. Kennedy announced "needs on earth" as priority. It was a clear caution signal.

Letters To The Editor

Trees Must Go To Improve Shopping...

"Our Bill"  
I would like to point out to Mr. Alex Serrea that the city commissioners in voting against the palm trees and medians on First Street are really working for the advancement of the Downtown Merchants Association more effectively than he is. Perhaps Mr. Serrea has forgotten it, but a successful merchant must have customers. And I believe that if the traffic congestion and the difficulty in parking were eliminated most of the people would again become customers downtown. While most of us appreciate the idea of beautifying downtown Sanford, let's not make it more difficult to "Shop Sanford" than it already is. Mrs. Pat McGovern

Both you and your paper are commended for calling attention to a problem which somehow never got through until now. Again thank you, and may we have more such articles from Mr. Scott. Mrs. Jane Morgan Lake Mary

Nursing Care Not Covered

"Medicare does not pay for routine nursing home care," Beatrice Fitch, Social Security field representative, reminded Seminole county residents yesterday. Only limited coverage for full-time skilled nursing care and other health services provided in an approved nursing home can be paid for under Medicare. Many people do not know that Medicare pays up to a hundred days of nursing home services under any circumstances. This is not true. Congress made it very clear that only a certain kind of nursing home care would be paid for under Medicare. This is the type in which the patient's condition, upon discharge from a hospital, requires him to be in an institution for the primary purpose of receiving continuous skilled nursing services.

SPACE CENTER, Houston (AP) - America's space plans for the early 1970s include a earth orbiting workshop in which scientific, biomedical, technological and engineering experiments will be conducted. It will be equipped to keep men in space for periods up to 60 days. Actually, an approved nursing home that qualifies to give this service is called an "Extended Care Facility." Services in such a facility are really an extension of the kind of service he was receiving in the hospital for his injury or illness.

Board To Meet  
The Oviedo City Council will meet at a Board of Equalization on 8 p.m., Aug. 4, at the City Hall.

# KNEE DEEP in OUTDOORS

**by BILL VINCENT JR.**

The fishing action is up and down with some good reports of bass action along the shore lines and some deep water bass fishing, with most of the catches being reported on under-water pugs, sonics, gaff blades, minnows, livers, and the old stand-bys, purple worms.

"There has been some bass action for the east end of the government cut or Woodruff Creek as some fishermen call it; these bass are schooling after marm minnows and really like to play.

The BIG DADDY of the Car Salesmen has done caught a BIG DADDY of a string of bream and perch while fishing with Bay Hatchet. Their catch was over thirty fish. The Big Daddy is none other than Gene (BIG DADDY) Miller of Sanford.

**TALLAHASSEE** - Florida sportsmen will have additional doves added to their bag during the 1969-70 hunting season. According to the Game and Fresh Water Fish Commission the daily limit for doves has been increased from 12 to 16 per day. Hunters will again have a three phase dove season as follows: First phase, October 4 through November 2; second phase, November 15 through December 2; third phase, December 13 through January 6.

Hunting will be allowed from 12 noon until sunset of each open day.

According to Dr. O. E. Frye, Commission Director, the increase bag limit is a continuing step in a continuing wildlife research program, and during the next two years wildlife biologists will study results of the increased limit to determine what, if any, effect the extra harvest might have on the dove population.

Previous research has indicated a normal 70 to 80 per cent annual mortality in doves whether they are hunted or not. The increased bag should provide additional information without any damage to the overall dove population.

"The increased limit," Frye said, "is a two year study. The six bird increase was selected in order that effects might be measured."

"We don't feel one year study or a one or two bird increase would have provided sufficient data to measure effects of hunting pressure and without this information it would be difficult to determine future management plans."

The increased bag limit research is being carried out in counties generally east of the Mississippi. Other parts of the state will have either a reduced bag limit or the same as last year.

Frye pointed out that at the end of the study, the bag limit could possibly remain at 16 doves per day, or it could return to 12 per day, or if hunting pressure shows any great effect on the dove population there might be a reduced bag limit in the future.

The mourning dove is classified as a migratory bird and is protected by both Federal and state wildlife agencies.

The U.S. Fish and Wildlife Service establishes a general framework of open hunting days from which states may select open seasons. Both daily bag and possession limits and shooting hours are set by the Federal Agency.

Other states and local migratory bird hunting includes the season for rails (marsh), gallinules, and woodcock.

The rail season opens September 1 and continues through November 2. The limit for clapper and ring rails is 12 per day with a possession of 30. Sora and Virginia rails are limited to 25 per day and possession. A total of 15 Florida and purple gallinules may be taken per day, the possession limit is two days bag.

The woodcock hunting season opens November 1 and continues through January 4. Daily bag limit is 5 with a possession limit of 36.

The seasons for waterfowl and snipe will be announced later as regulation frameworks are received from the U.S. Fish and Wildlife Service.

Some of the best fishing holes in the world are almost hidden by all the water around them.

Most anglers fishing the big man-made lakes miss these hot spots because they spend most of their time fishing above the dam which forms the reservoir, while the best fishing is often not in the lake, but below it.

For there, in the deep pool at the foot of the dam, is where large numbers of fish tend to concentrate. Fishing authorities say that this is especially true of hydroelectric power dams. When the generating turbines are operating, the discharge of fresh water from the lake into the river below will cause fish to move upstream, coming right to the dam.

# Sanford Legion Nine Bombs Evans !!

**By GARY TAYLOR**  
Herald Sports Staff

Bobby Lundquist fired a dazzling three-hitter, striking out 10 as he led the Sanford American Legion diamond nine through a round of competition. Sanford defeated Evans 8-1, knocking Evans out of the tournament.

Sanford jumped ahead in the fourth inning on singles by Glenn Robinson, Mike Roid, Steve Shumaker, Dale Wagner, and Billy Miller. Sanford sent nine batters to the plate and collected four runs in the fourth.

Evans made a bid for a big inning in the fifth, as three batters walked and another singled but Wagner, the catch-er, threw one runner out trying to steal second and Lundquist picked a runner off third. One Evans run crossed the plate on an error. It turned out to be the only Evans run of the game.

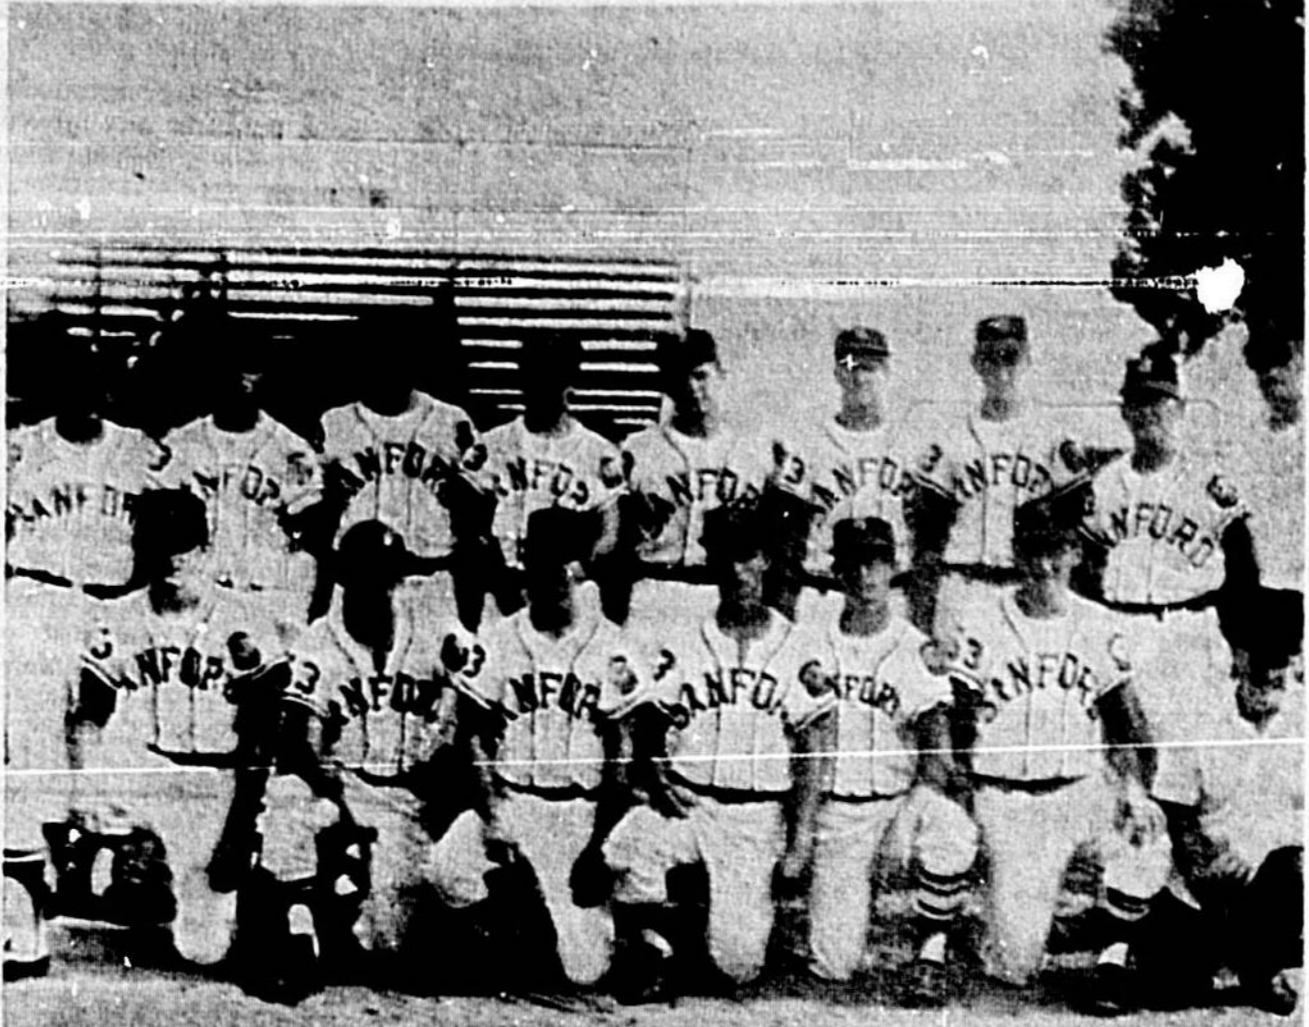

Evans picked up a hit in the fifth, and singles in the sixth and seventh, and that was all that Lundquist gave them. Two of the three hits were infield-nits.

Sanford added to their score in the seventh with a triple by Robinson and David E. Charde. Sanford's scoring efforts were capped by a two-run ninth featuring Ferrell's second triple of the game.

Lundquist went the distance striking out 10 and walking seven. Steve Brazil was the loser as he won the distance striking out three, walking three, and allowing 11 hits.

Bill Holbrook had the only Evans run when he walked in the fifth, took second on a passed ball, and then scored on a throwing error by the shortstop.

Glenn Robinson was the leading batter for the Sanford squad as he collected three hits, scored twice, drove in a run and stole three bases. Ferrell had two hits, both of them triples. Lundquist had the only other extra-base hit, a

## All-Stars To Play Tonight

**Winning Family**

LEXINGTON, Ky. (AP)—Native Dancer won 20 of 21 races. His son Raisin A Native won all four starts. And Majestic Prince, won all nine starts before finishing second to Arts and Crafts in the Belmont.

Native Dancer lost his only race by a head when Dark Star beat him in the 1953 Kentucky Derby.

But that's pretty good for the Native Dancer family. The 20 wins in 26 starts, Majestic Prince was bred here by Leslie Combs II.

Sam Baker of the Philadelphia Eagles has scored 888 points in 14 National Football League seasons. All but 12 points have come on extra points or field goals.

Sanford's Junior League All-Stars will play host to the Ormond Beach All-Stars tonight at 8 p.m. at Pinehurst Field in Sanford.

This is the first game for Sanford in a double elimination tournament featuring Melbourne, Sanford and Ormond Beach. The winner of the tournament will travel to the State Championships.

In double-elimination tournament last year between Sanford and Melbourne, Melbourne won two straight to clinch the title, and Sanford will be looking for revenge.

The Sanford team, coached by Rudy Sloan and Gordon Bradley, features the fine pitching of Frank Sloan, Willie Walt, Brent Bahorn, Donald Brown and Mike Kofke.

## All-Star Practice Set; Jourdan Jumps In Europe

The festivities for the 21st annual Florida Athletic Coaches Association Clinic and all-star football and basketball games gets underway Thursday, July 24 when the football and basketball teams report for practice.

The coaching clinic will begin July 30 and run through August 2. Bill Pace, head coach at Vanderbilt University will head the football portion of the clinic.

The Leonas, popular basketball coach of Oklahoma City University will conduct the basketball clinic.

The three day clinic will be held at the Reitz Union on the campus of the University of Florida. The clinic will end Saturday, Aug. 2 with the playing of the annual all-star games.

Jim Niblack of Gainesville will coach the North squad that features such standouts as Gainesville's All-American quarterback, Eddie MacArthur; linebacker Eddy Moore of Orlando; Edgewater and Jeff Rouice, a fullback from Jacksonville.

South coach Tom Atwell of Lakeland Kathleen will be assisted by Spriner Gerald Tinker of Coral Gables as a wisdom. Tinker recently was elected in 8.4 for the 10-yard dash and 20.8 for the 220.

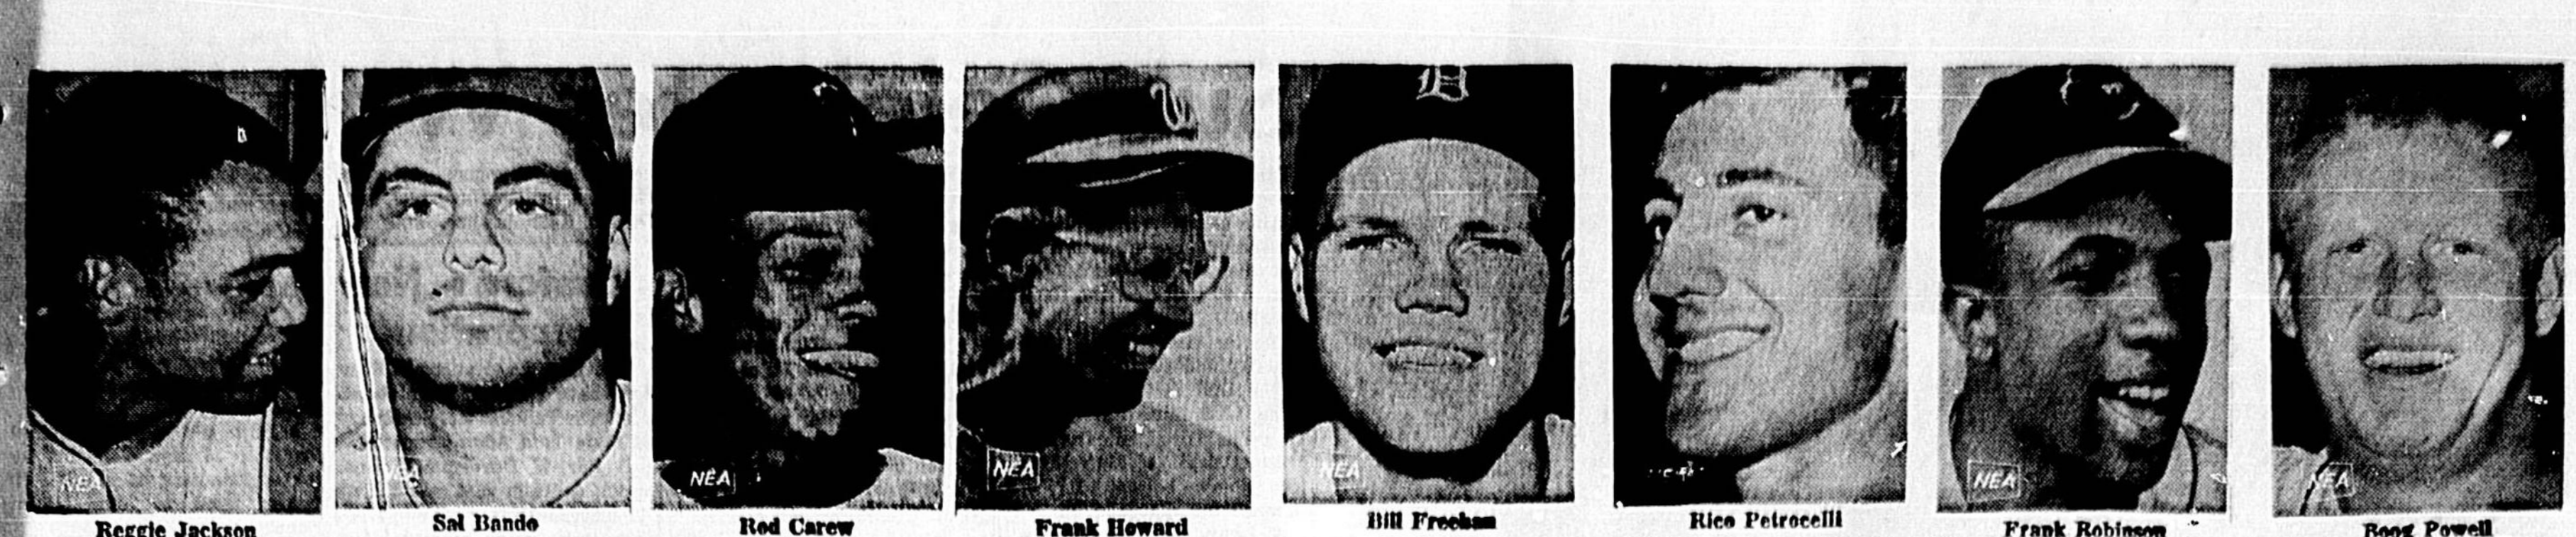

Larry Prosch, a 6-5, 200-pound quarterback from Sarasota will be filling the air with passes in Tinker and Jerry Parris, a standout receiver from Vero Beach.

Jack Wilson of Clearwater High School will coach the Rebel basketball squad and Gainesville High's Ed Poore will guide the North team.

The North-South basketball squads will meet Aug. 2 at 4:00 p.m. in Florida Gym, while the football team starts their action on Florida Field at 7:45 p.m.

Florida's high jumper Ron Jourdan is scheduled to compete in Europe later this summer. Ray Graves, Director of Athletics announced today.

The 6-1, 140-pounder will represent the United States National team on a special six meet tour starting July 30 and ending Aug. 10.

# American League Bent On Revenge Tonight

## Sell-Out Crowd Expected Tonight

**by MIKE RATHET**  
Special Press Sports Writer

WASHINGTON (AP)—Some 80,000 fans, including President Nixon and a host of baseball fans, will watch the power lineup of the American League try to break a six-game losing streak against the National League tonight at the All-Star Game.

Eight hitters in the American League starting line-up, including Oakland's Reggie Jackson and Washington's Frank Howard, have hit a total of 179 homers. This compares with 165 homers for the National League's eight best.

But it's not only the long ball threat that is adding excitement to this year's game at Robert F. Kennedy Stadium.

Pregame festivities included: A \$125,000 bouquet Monday night to top off baseball's centennial celebration and to announce selection of an all-time All-Star team.

"A White House reception for the players in tonight's game, members of baseball's Hall of Fame, club owners and sports writers.

In addition to the President and the sellout crowd here, a national television audience will be watching the American League attempt to blast open the pattern of recent years. The National League won 21 in both 1968 and 1967, and 10 last year.

"We've got power on this club," said American League manager Mayo Smith of the Detroit Tigers. "I think after the last three games, people would be very happy to see some balls go out and I think some balls will be popped pretty good."

So does National League manager Red Schoendienst of the St. Louis Cardinals.

"I don't think the pitchers can overpower the hitters as in the past couple of years," Schoendienst said.

But Schoendienst isn't about to admit that the American League's homer advantage will be enough for them to snap the six-game losing streak that has given the National League the 21-17 edge—there has been one win in previous All-Star classics.

The American League power-parade features Jackson, the

## Joe Feels Fine After Workout . . .

**HEMPSTEAD, N.Y. (AP)**—Joe Namath's six-week retirement didn't hurt his razor-sharp throwing arm, and it certainly didn't discourage his adoring fans.

Both the super quarterback and his legions of admirers were in fine shape Monday when Namath completed his first workouts with the world champion New York Jets since settling his differences with Commissioner Pete Rozelle over a swinging East Side restaurant.

"He looked good," said Coach Weeb Ewbank after drills in passing and running plays.

Namath had little to say except, "I'm glad to be back and I feel fine."

"I'll play in the College All-Star Game Aug. 1 in Chicago if they'll let me," he added.

Namath, who arrived at the Hofstra University training camp Sunday night, was greeted by 500 exuberant youngsters who showed up early on a dreary, drizzly day and chanted, "We want Namath, we want Namath."

## Wilson Says; Y'm Just As Good As Vince'

**BOGA RATON, Fla. (AP)**—George Wilson, four years deep into building the Miami Dolphins from the ground up, believes he's just as good a pro football coach as Vince Lombardi.

"I'm tired of all this Lombardi business," said Wilson. "Everyone rakes him out to be such a great coach. Given the same material, I'll beat him every time."

"I can get a team 'up on the day of a game,'" Lombardi shrugged retirement from coaching after one year. The man who built a dynasty with the Green Bay Packers accepted a new challenge as head man of the Washington Redskins.

"It's got to do something at Washington." Wilson mused. "Yes, he's got never had the great talent. I think we're about one year from being a contender in Miami."

Wilson claims he works players as hard as any coach, but doesn't believe in long drills. "It's a lot of malarkey that everybody to know about it," he said. "I don't want my ballplayers to be dead by September."

The Miami mentor made his first cut Monday, dropping 20 lb. Wilson is a veteran of years in pro football and was a Redskin assistant before coming to Miami with the new American Football League franchise in 1966. He was named NFL "coach of the year" in 1957 while winning a title at Detroit.

"I'm a setter coach, not a setter coach," Wilson said. "Like anybody

major league's homer leader with 37, and Howard, the runner up with 34.

And it has Rico Petrocelli of Boston, 23 homers; Roge Powell of Baltimore, 24; Frank Robinson of Baltimore, 22; Sal Bando of Oakland, 18, and Bill Freehan of Detroit, 13. Only Bob Carew of Minnesota, among the starters, is under double figures.

On the bench are such other homer-hammerers as Carl Yastrzemski of Boston, 29, and Harmon Killebrew of Minnesota, 28.

The National League has Willie McCovey of San Francisco, with 30, and Lee May of Cincinnati, with 29.

Three other National League hitters have reached the 20 homer plateau: Hank Aaron of Atlanta, 24; Tony Perez of Cincinnati, 22, and Ron Santo of the Chicago Cubs, 22.

McCovey, Aaron and Santo will be in the starting line-up.

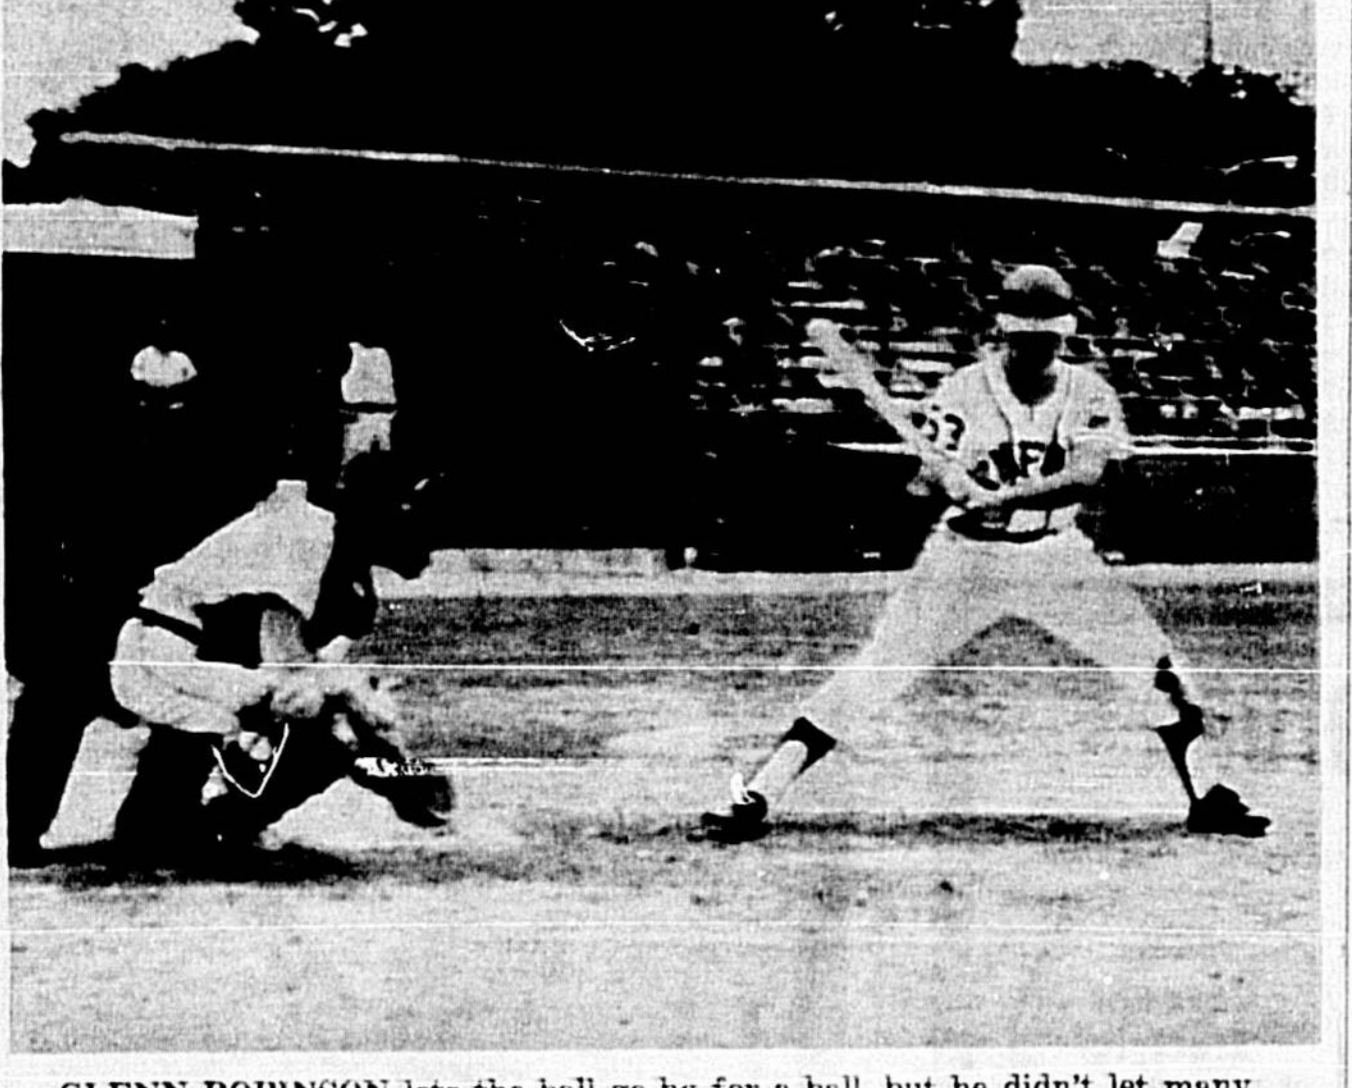

Game time is 8:15 p.m., EDT.

George Wilson

RAY ANDERSON will be fighting tomorrow night at the Orlando Sports Stadium at 8:30 p.m.

## Tarpons Edge Cocoa, 1-0

**FLORIDA STATE LEAGUE**  
**BY THE ASSOCIATED PRESS**  
Danny Oshorn, who took the mound Monday night with a pitchless 5-10 record, threw a no-hitter for Tampa and the Tarpons finally managed to squeeze him out at two in the ninth inning to edge Cocoa, 1-0, in the Florida State League.

Two runners reached base, both on throwing miscues by Tampa's Dick Fernandez. Both were then shown out attempting to steal second.

Oshorn earned eight and walked two in his masterpiece. Jeff Brezford scored the lone run on a fielder's choice.

In other games, Bryan Bach and Ray Hatte gave a stout set of pitching performances as St. Petersburg double-whipped West Palm Beach, 2-1, and S.D. Beach had a five-inning and singled in the deciding run while Dave Evers threw a two-inning for the Cardinals.

Pompano Beach scored seven runs in its final two innings to overcome Daytona Beach, 8-4. Don Sheppard hit two homers as Key West beat Orlando, 5-3. The Miami-Lakeland and Fort Lauderdale at Winter Haven titles were rained out.

Rick Forzano, offensive back-field coach of the Cincinnati Bengals last season, is Navy's new football coach.

## Ray Anderson To Fight In Orlando Wednesday

**ORLANDO**—Ray Anderson, ranked fifth light heavyweight boxer in the world by Ring Magazine, will fight Billy Marsh of Las Vegas at the top of a five bout, 32-round professional boxing card Wednesday at Orlando Sports Stadium. Matches start at 8:30.

Anderson is partly owned by Dean Chance, Minnesota Twins pitcher.

The main event is for ten rounds.

Marsh has had 110 professional fights, 77 of them wins, 23 losses and 10 draws. He went to a 16-round split decision win over Don Pullimer and fought Billy Welsh when he held the British Heavyweight championship.

Other opponents of Marsh include Charley Hall, Andy Heilman, Mark Tessaun, Andy Kendall, Carl Zurhude, Pete Rickatelli, Ron Marsh, Ernie Lopez and Eddie Spence.

Lyfe Randolph, a stalwart of Anderson, whose home is in Clinton, Ohio, will fight Ken Sheffield of Eustis, is a six-round junior welterweight match.

Another six round heavyweight bout will match Cody Gainer of Plant City against George Holden of Melbourne.

Tommy Howard of Gainesville, former 3rd Army Champion, will meet Wayne Hockett of Tampa in the opening four-rounder.

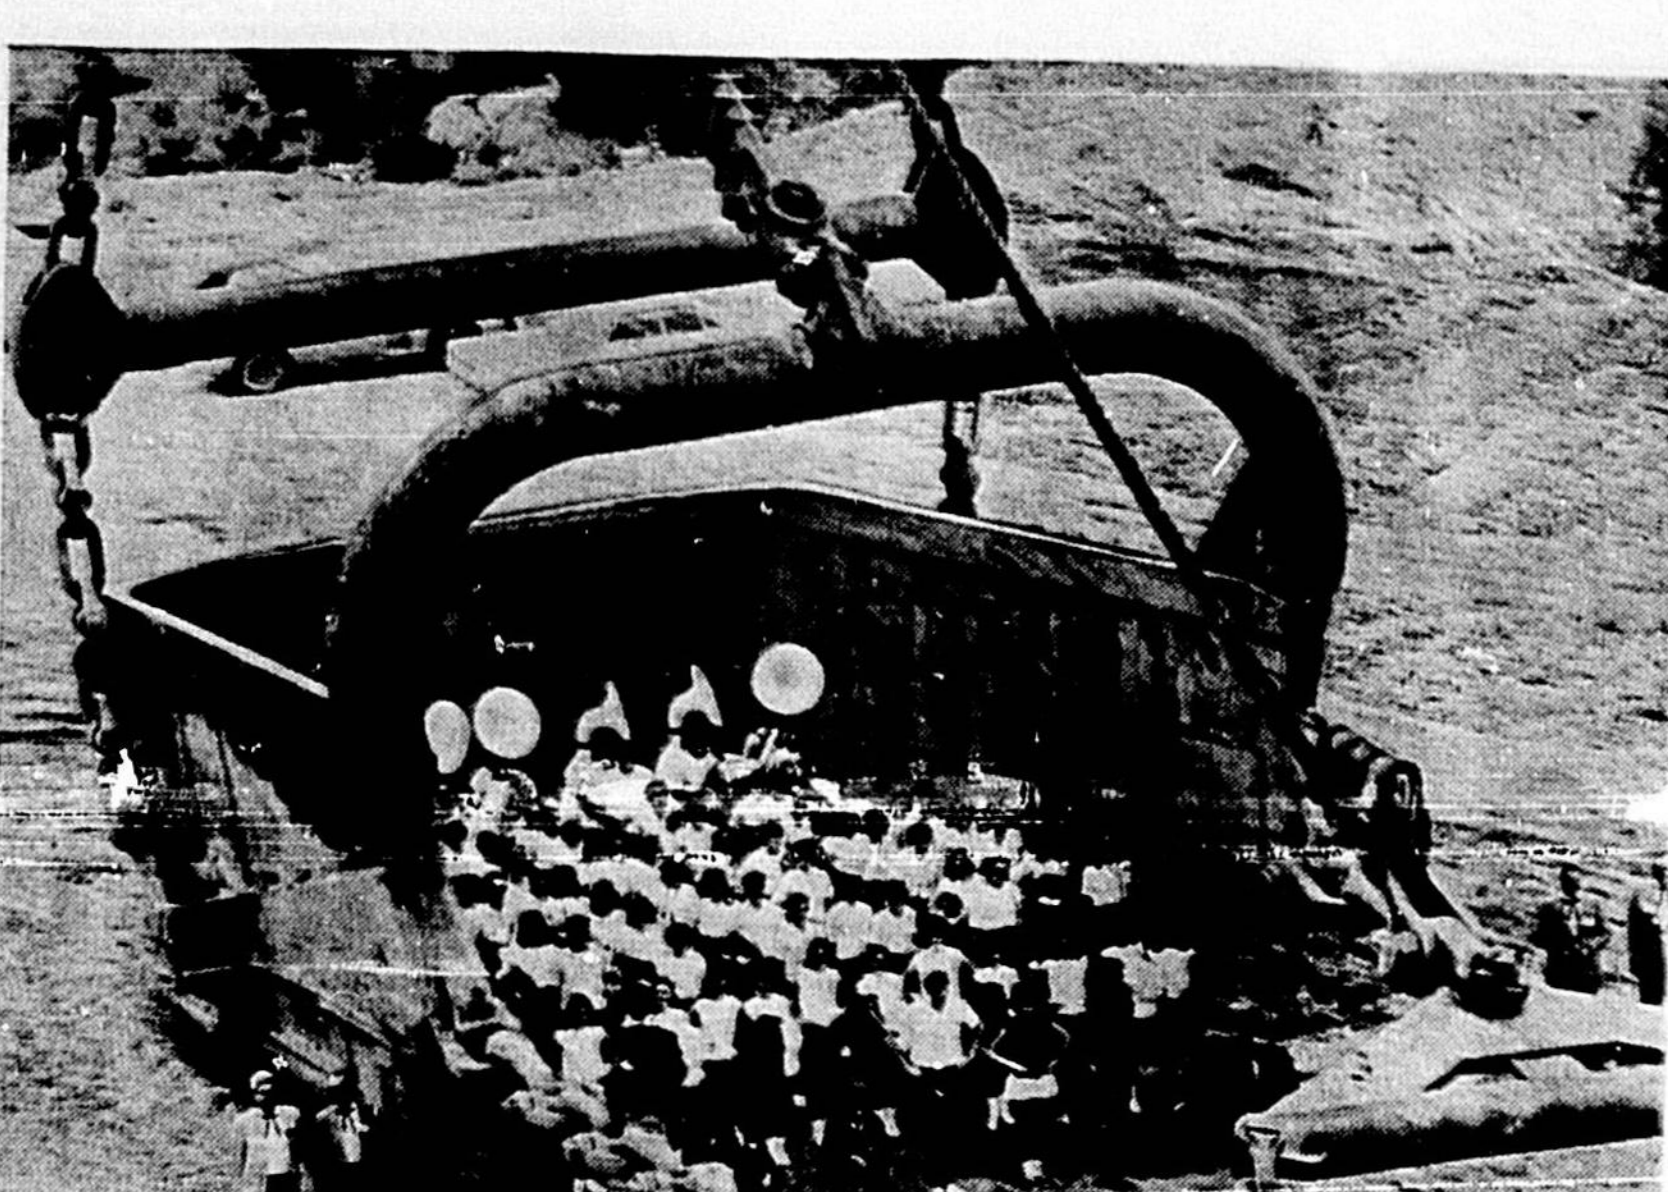

WEST PALM BEACH—Bob Feller, former star pitcher with the Cleveland Indians and a member of baseball's Hall of Fame, will be at West Palm Beach Municipal Stadium Wednesday, July 23.

The famed mound immortal will conduct a free clinic for local baseball players of all ages from 4 to 5 p.m. An autograph session beginning at 6:30 p.m. will precede a home run hitting contest between West Palm Beach Expos and Tampa Tarpons with Feller on the mound serving up the pitches. Three players from each team will participate in the contest.

Feller, author of three no-hitters and 17 one-hitters in his major league baseball career, still holds many American League pitching records including his feat of striking out 348 batters in a single season.

All players, coaches and managers of little league pony, colt, Babe Ruth, American Legion or semi-pro clubs are invited to attend the clinic, and then stay on to watch the Expos-Tarpons Florida State League contest as the guests of the Expos.

BUSINESS END of the world's largest land machine, "Big Music," swallows up the 20-piece Morgan High School band from McMansfield, Ohio, with room to spare. The 23 cubic-yard-capacity driller bucket is part of a \$24-million, 2700-pound machine that is expected to surface approximately 150 million tons of coal in southeastern Ohio during the next 30 years.

### State Insurance Code Is Studied

TALLAHASSEE, Fla. (AP) — A select committee should study proposed changes in Florida's insurance code with some of its members having ties with the industry, says Rep. Carey Matthews, D-Miami.

"It is necessary the public have total confidence in the impartiality of that committee," Matthews said Monday. "We are an elected body and it is our duty to do so."

The committee subject of a congressional investigation, filed recently, Matthews' law firm had done work for the company. Matthews said he received some \$200,000 for work with the firm, but Matthews testified Monday the total was \$46,000 for 16 months of work. This involved handling more than 300 cases with a staff varying from eight to 10, he stated. Even with this, Matthews

absolutely no interest or any financial ties with the insurance industry," Matthews said.

Matthews testified before the House Standards and Conduct Committee, which held a special hearing to look into his connections with controversial State Fire and Casualty Company of Miami — target of recent press reports.

The committee subject of a congressional investigation, filed recently, Matthews' law firm had done work for the company. Matthews said he received some \$200,000 for work with the firm, but Matthews testified Monday the total was \$46,000 for 16 months of work. ### DISCOVER THE CHEVRON ISLANDS

### Sub Celebrates With Dive

BRUNSWICK, Ga. (AP) — The crew of the Ben Franklin submarine celebrated completion of a week underwater with a 1,200-foot dive Monday to explore the bottom 65 miles of the Georgia coastline.

The 110-ton vessel, which is 30 days underwater exploration of the Gulf Stream as it flows along 1,200 miles of America's coastline, dropped from her cruising depth of 650 feet to 25 feet above bottom. Its crew snatched the sea-scape up to 500 feet away on either side with six cameras and a television projector for the Grumman Corp.

### Summit Conference For Reorganization

TALLAHASSEE, Fla. (AP) — Department heads and their key staff members scheduled a summit conference here today to try to learn exactly what they can do under governmental reorganization.

"We've just been getting a lot of questions. We want to try to lay down some guidelines before they (departments) get too involved and have to do some backing up," said Wallace Henderson, head of the Division of Planning and Budgeting.

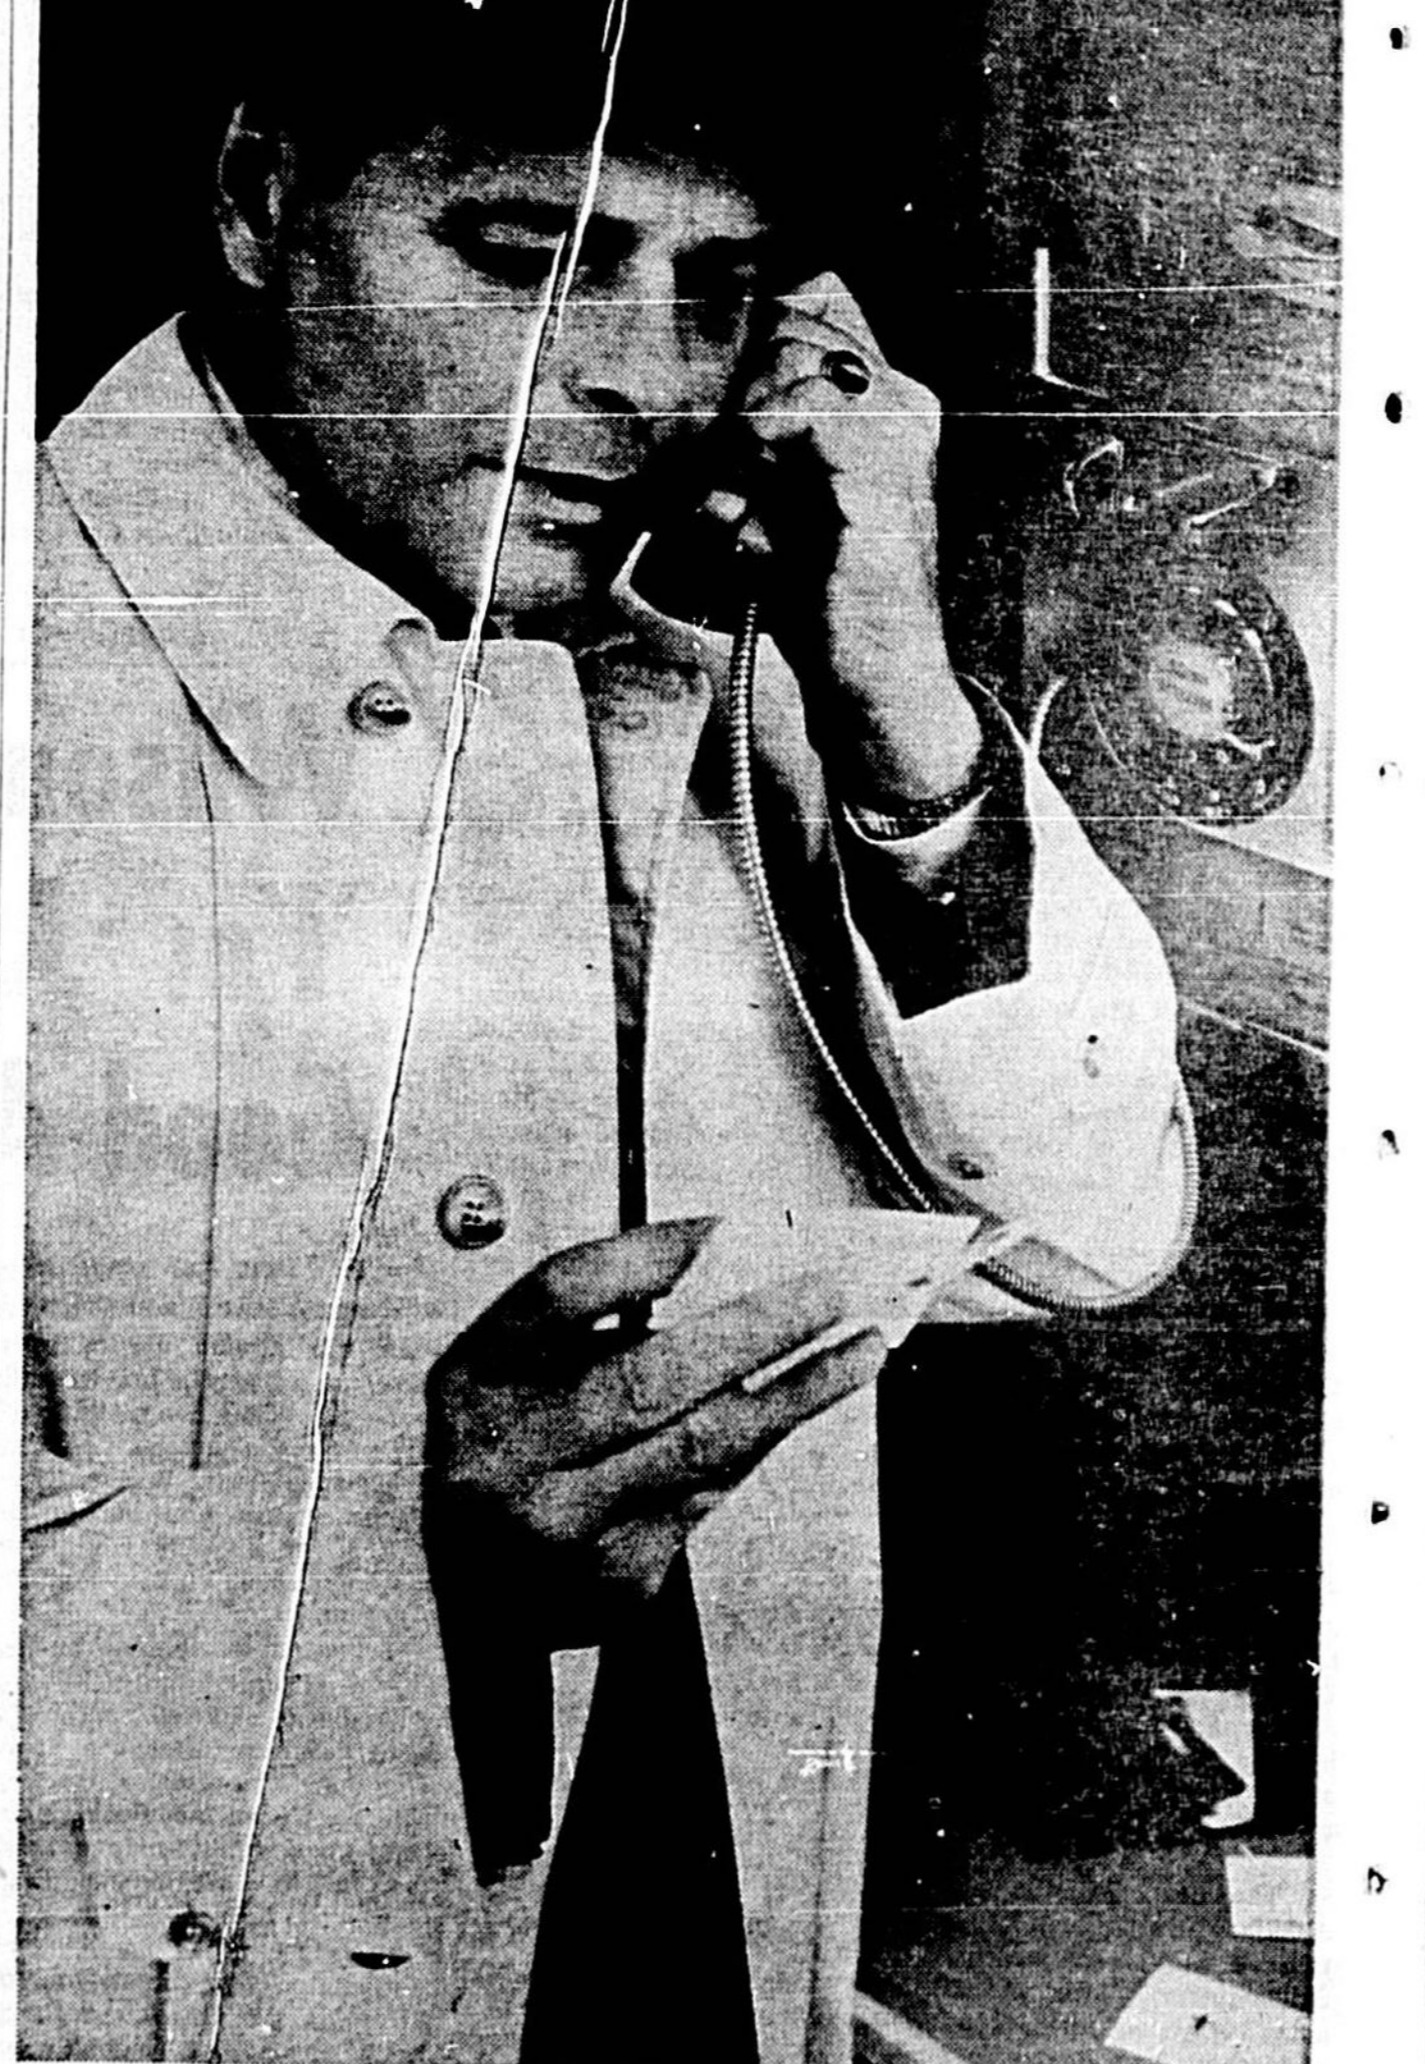

### Refugees Arriving Fast, Spanish Accent A Must

MIAMI (AP) — Cuban refugees are arriving so fast that a Latin accent is needed to capture a rapidly growing Spanish-language market in the United States, a marketing expert said today.

"Names, labels and packaging must be tailored to fit the Spanish market," said Mariano Guastello in a report for the American Marketing Association's South Florida chapter.

### See You Around The Old Cosmos

By SAUL PLETY  
AP Special Correspondent  
SPACE CENTER, Houston (AP) — A week ago, the Apollo 11 mission, the first to land on the moon, was seen in history. Eagle, the lunar module, landed on the moon.

And you, Eagle, will circle the earth for a few months and show the circle will grow smaller and you'll fly lower and, finally, back to the moon. The Sea of Tranquillity will be a nice touch, don't you think, Eagle?

### Relocation Of Zoo Comes Up Again.

By BILL SCOTT  
What to do with the Sanford Zoo? This often-asked question came to the fore again last night during the first of several meetings on the \$1,725,000 general governmental budget for City of Sanford held by the city commission at the city hall.

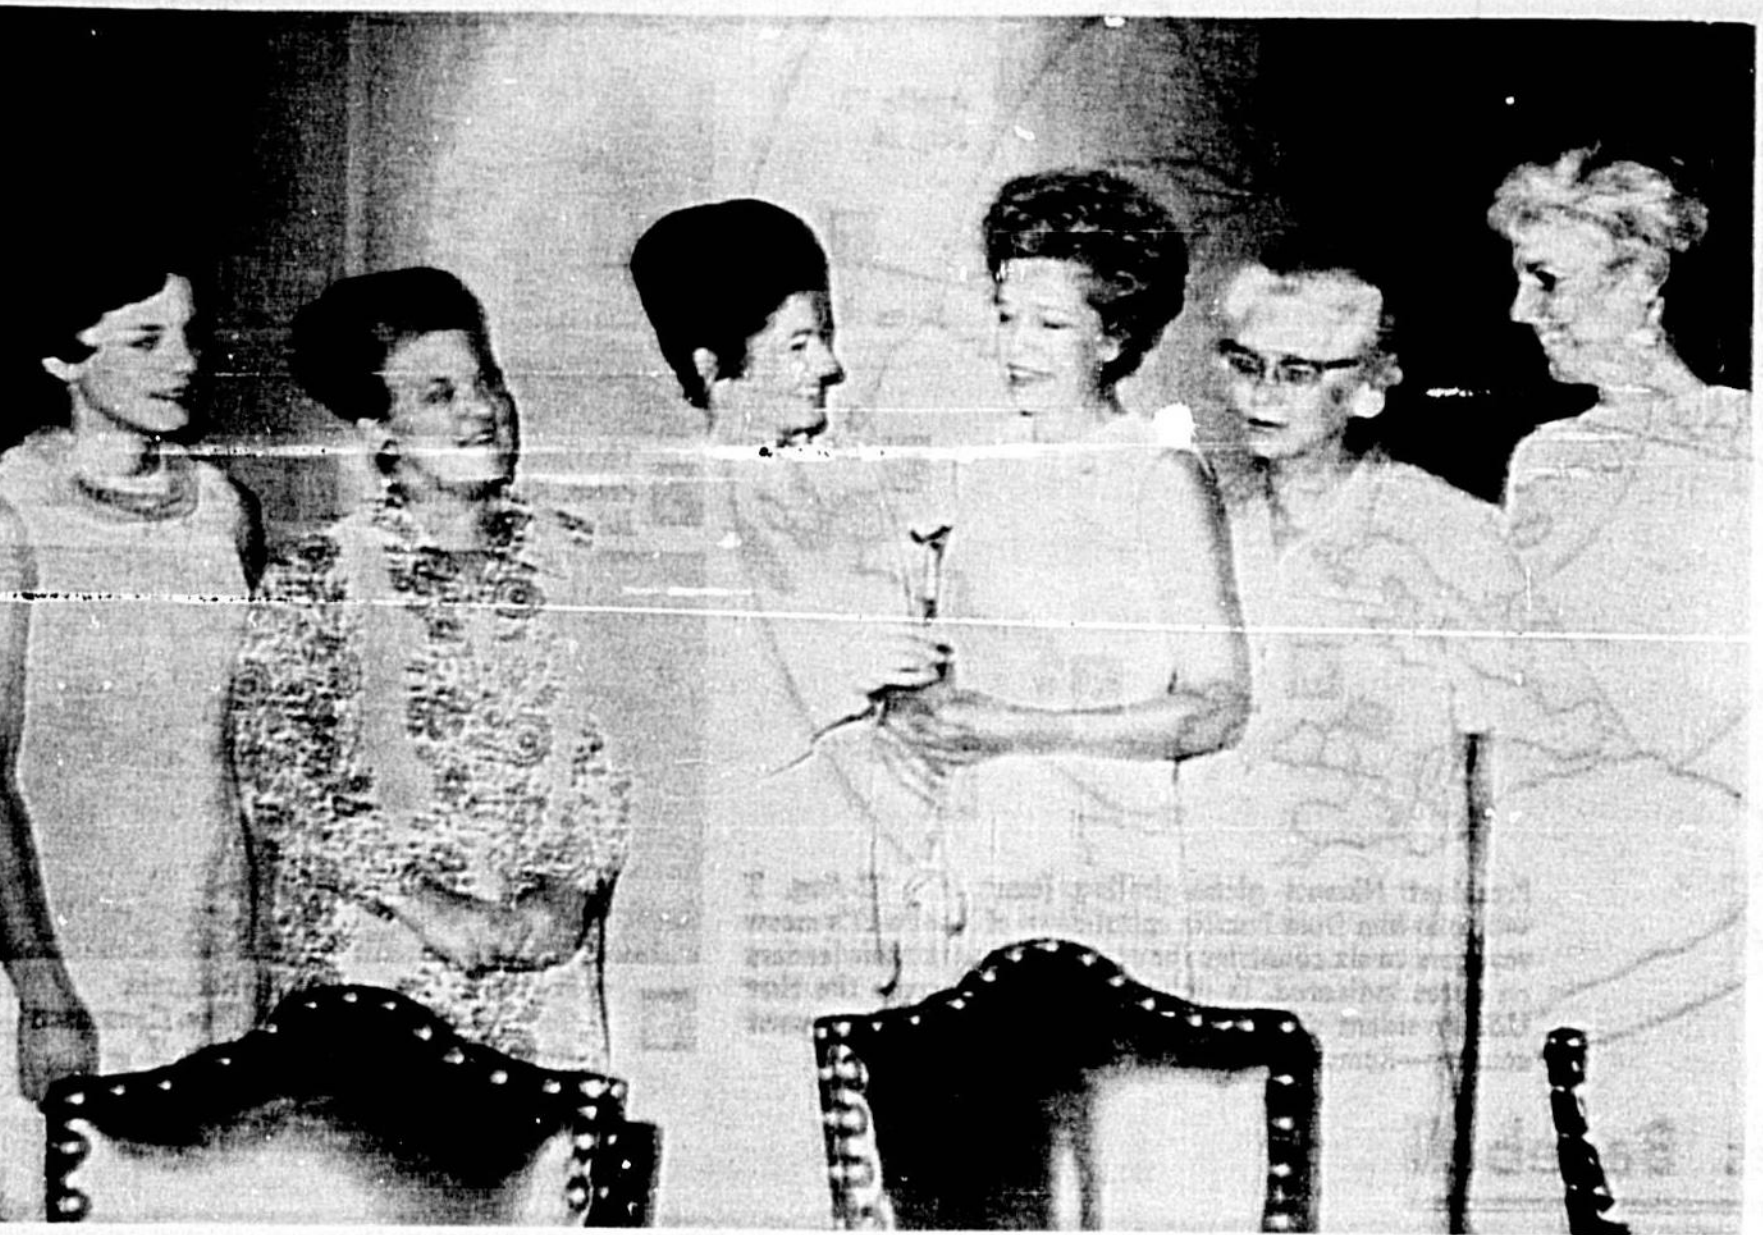

"For this is the will of my Father, that everyone who sees the Son and believes in him should have eternal life."

# Sister Organization Holds First Installation Of Officers At House Of Steak Dinner Meeting

The SISTER organization held its first annual installation of officers at a house of steak dinner meeting July 17 in the private dining room of the House of Stine, Joan Hoening, Irene Lane, the Gradick, Caroline Howard, Cecile Heard, Irma Bill-James, Springfield, Dorothy Hill, Vivienne Sweeney, Val Colbert, Ruth Swamy, Anola True and Margaret Ganas.

The SISTER ORGANIZATION held their first installation of officers at the House of Steaks. Left to right are, Elizabeth Hill, recording secretary; Vivienne Sweeney, vice president; Irene Lane, installing officer; Val Colbert, president; Margaret Ganas, corresponding secretary and Janice Springfield, treasurer.

Following installation of officers president Colbert presented retiring president Lane a gift of a black crocheted tie in appreciation from the entire SISTER organization.

The next meeting will be held in the Chamber of Commerce Building on Thursday, July 24, 8 p. m. at which time Jack Gardner of the Seminole will bring a guest speaker, Dick Russell, who was instrumental in the recent relocation of the zoo in Kissimmee. He will give an informative talk on all the most important SISTER projects. All Go Down town merchants and all SISTERS are urged to attend.

Miss Lane presided at the luncheon at which was served an attractive cold fruit plate. The long table covered with a snowy cloth with scarlet napkins held a centerpiece of crimson, poppies and white Confederate jasmine surrounded with greenery. Presiding as Installing Officer and with appropriate ceremony Mrs. Lane presented a white carnation with red tipped petals to each of the following officers: president, Val Colbert; vice-president, Vivienne Sweeney; recording secretary, Elizabeth Hill; corresponding secretary, Margaret Ganas and treasurer, Janice Springfield.

# Linda Brothers Guest Of Honor Florida Nurses Board To Meet In Orlando

Nursing is a serious profession. Lives depend on it and its ability to improve with the changing times. That is where the Florida Nurses Association comes into the picture, offering direction and organization through a team effort which has become the key to the advancement of the nursing profession in Florida.

Miss Helen Voss, R.N., St. Petersburg, president of the 6,200-member Florida Nurses Association, said "Every day new breakthroughs and changes in medical science challenge Florida's nurses. The key to meeting this challenge successfully begins with education. When we have high educational standards in nursing, we have better nurses, and thus we are better able to serve the citizens of Florida. The Florida Nurses Association concentrates much of its effort on raising these standards so that Florida will have nurses better prepared to meet the challenge of an ever-changing field."

On July 24 and 25, the board of directors of the Florida Nurses Association will meet in Orlando to discuss the future of nursing in Florida.

Said Miss Voss about the meeting, "Out of this meeting will come some thoughts and ideas that may prove to be invaluable information for nurses all over the State."

# Dear Abby: By Abigail Van Buren

DEAR ABBY: I raised five children, and when the last one got married, I thought at last Dad and I could take a vacation together for a year.

No such luck. In fact, it's worse than ever now. The two married girls bring me their husbands' shirts to be ironed, and my new daughter-in-law brings me ALL her laundry.

Dad and I can't go anywhere to fish on weekends because we always have a couple of our six grandchildren with us.

This place is getting to be a real pain in the neck. I'm tired of ironing shirts and I don't have time to go to the laundry and see my son and his wife. How can I do this? I don't have time to go to the laundry and see my son and his wife. How can I do this?

# Horoscope Forecast

WEDNESDAY, JULY 23, 1969  
GENERAL TENDENCIES — This is a beautiful day and evening to think out a course of action that suits you very well. Make it a continuous one in your scheme of life. Then plan to work steadily toward success by combining long-time accepted methods with new inventions.

ARIES (Mar. 21 to Apr. 19) — Be sure that you pay all responsibilities of a governmental nature in particular and handle association matters with precision. Meet the expectations of an associate. Let there be mutual happiness.

Taurus (Apr. 20 to May 20) — Be sure you know what associates expect of you and then be consistent in all that you do. Many situations arise that indicate how to all consider-ably to present success. Self-improvement is wise.

GEMINI (May 21 to June 21) — Get busy with the work you have to do, be it buying, selling, at your desk, or whatever. A worker at your side can give very fine advice or suggestions so that production is increased. Follow it.

MOON CHILDREN (June 23 to July 21) — Ideal day to get into some new type of diversion you have not as yet experienced. Let it be of a very high caliber. You need a new spiritual uplift at this time, so get busy.

# The Theo Tice Family Gathers For Reunion

By MELENDIA CASSELLBERRY  
The family of Mr. and Mrs. Theo A. Tice gathered recently for a family reunion at their "Three Pines" home in Longwood.

Among those present were the Tice's son, Jack V. C. Tice of Orlando, his wife, Thelma and children, Linda Faye and Allen; their daughter, Eloise, and her husband, Henry W. Ellis of Donelson, Tenn.; and their son, James; and daughter, Mrs. Emily Warren and children, George, Ben, Jack and Sarah, of Orlando. George was on leave from his position as a lieutenant in the U.S. Air Force and is presently stationed at Keesler Field, Miss. Ben is now at ROTC Summer Camp, Ft. Bragg, N. C.

# Square Dance

The Starlight Promenaders Square Dance Club, which meets each Wednesday night at the Civic Center, will hold graduation ceremonies for the current class, this Wednesday.

Class members will meet for the final lesson from 7:30 to 8:30 p. m. followed by the graduation ritual and presentation of diplomas. After being officially welcomed into the club they will dance with members for the remainder of the evening.

Special refreshments will be served during the social hour, about 10 p. m. and each new member will receive favors and club rules and regulations. All square dancers in the area and visiting dancers are invited to join in the fun.

# Decorative Lamps Take Limelight

Textured shades, ruffled tassels and velvet, will be shown for Fall.

One important trend in lamps this year is the use of unbreakable material for the bases. New manufacturing processes and materials now make it possible to have lamps that can withstand most domestic mishaps... and that look as well.

# Jacoby On Bridge

South looks over dummy's hand in accordance with the code word ACRIB.

He analyzes the lead as a fourth best and goes right up with dummy's queen. He has two lines of play to choose from, depending on whether or not East produces the ace.

In either case, he has counted seven top winners and can produce enough tricks to winners in either club or diamonds to give him the nine tricks he needs for a clean sweep. Of course, an optimist will count to 12 winners if both the club and diamond suits can go through home without the loss of a trick but South is a realist playing these no-trump and wants to be sure of nine tricks.

# Polly's Pointers

DEAR POLLY — New mothers usually receive many samples of various products a baby uses. These are small and do not take up much space. I have found they are handy to have for use in the baby's diaper bag when you are going out, so the large container can be left at home. A clean baby bottle also makes a good substitute for a measuring cup.

— A NEW MOTHER

DEAR POLLY — I would like to use a recently completed three-by-five hooked rug as a wall hanging. How can I attach it, other than just nailing it up?

DEAR POLLY — I use a safety pin as an emergency eye at the waistline or neckline of a dress when an eye breaks at the last minute. The straight sharp side of the pin becomes the eye for a hook with no discomfort. A clean pin will lay flat on the reverse side. When used at the neckline, direct the rounded part of the pin toward the hem so it does not show at the collar. With a safety pin all ways in one's purse, this can be done at any time and a smooth way or neck closing is not "disturbed" by a broken, hard-to-find eye. One living alone can locate a "pin eye" by its touch much faster than they can find a thread eye on the back of a dress.—SANDY

# Men In Service

Two Seminole County men are becoming active in the U.S. Navy. Frank Rubin, 29, of 118 1/2 St. Lawrence, and Leslie William Scott, 210 Grand View, Altamonte Springs, are presently undergoing nine weeks of recruit training at the U.S. Navy Training School, Orlando.

Frank and Leslie enlisted in the U.S. Navy through the U.S. Navy Recruiting Office at 2520 North Orange Avenue, Orlando, Florida.

# Beauty after Forty

When you visit New York and want to see real celebrities such as Arthur Godfrey and other of your favorites, go to eat at the most attractive small restaurant, "Ches You." The name is French but the menu, the food, the decor are pure Italian, fascinating, wine, coffee, wine bottles, flowers and paintings of Italian scenes and yes, one of Paris made the small restaurant look delightfully foreign. It's down near the Village, the interesting part and I would even approve of the pasta and fine Italian food is recognized in the rum cake. This is a place to go when you visit New York's Summer Festival.

Recently a very high class house put "quick whiskers" on the market, made from real hair and easily applied and sold extensively. Because there were no "salt and pepper" matches for the forty forty men, it's a fascinating discovery. "Palmer" does not want to wait to grow his "salt and pepper" mustache, he wants it instantly. Well, everything from instant mustaches to instant coffee is now ready for you. A magnificent display of American needlework past and present was one of the most successful affairs in New York this season. Gathered from celebrities and from Museums was a display of such beautiful needlepoint and crewel work. All this was done by the Hallmark Gallery which is an asset to the cultural life of New York City. The imagination and work of women of the past was inspiring and many outstanding women of today find a great pleasure in needlepoint.

Tomorrow, "Dear Edith Thornton McLeod."

## Only At Wes-Kay

E. D. Wesley, better known as Wes to the many patrons of the WES-KAY WASHETERIAS, seems to always be coming up with a "FIRST AND ONLY" slogan.

Here are some of his past "FIRST and ONLY" coin laundry in Sanford to offer DOUBLE LOAD WASHERS for the SAME PRICE as all other single loads.

1. FIRST and ONLY to offer air-conditioned comfort to his customers at the French Ave. location.

2. FIRST and ONLY to offer SINGLE LOAD WASHERS for 40 per cent LESS THAN ANY OTHER coin laundry.

3. FIRST and ONLY to offer coin laundry in Sanford to offer air-conditioned comfort, but you can save at least 40 to 50 per cent of the cost of doing your laundry anywhere else in Sanford! You can't beat that, can you?

4. The FIRST dollar bill changer IN SEMINOLE COUNTY was installed at Wes-Kay on French Ave.

There are many others but this will give you an idea as to why people drive right by one, two, and three coin laundries to go to Wes-Kay!

Since Wes recently started operating the WES-KAY II WASHETERIA at 111 W. 27th St. (near Princess School), he has been constantly improving the facilities offered, and NOW HE HAS AIR CONDITIONED THIS LOCATION!

Now you can wash in comfort at the ONLY FULLY ENCLOSED, AIR CONDITIONED COIN LAUNDRY IN SANFORD. This is ANOTHER FIRST and ONLY! Not only can you wash in air conditioned comfort, but you can save at least 40 to 50 per cent of the cost of doing your laundry anywhere else in Sanford! You can't beat that, can you?

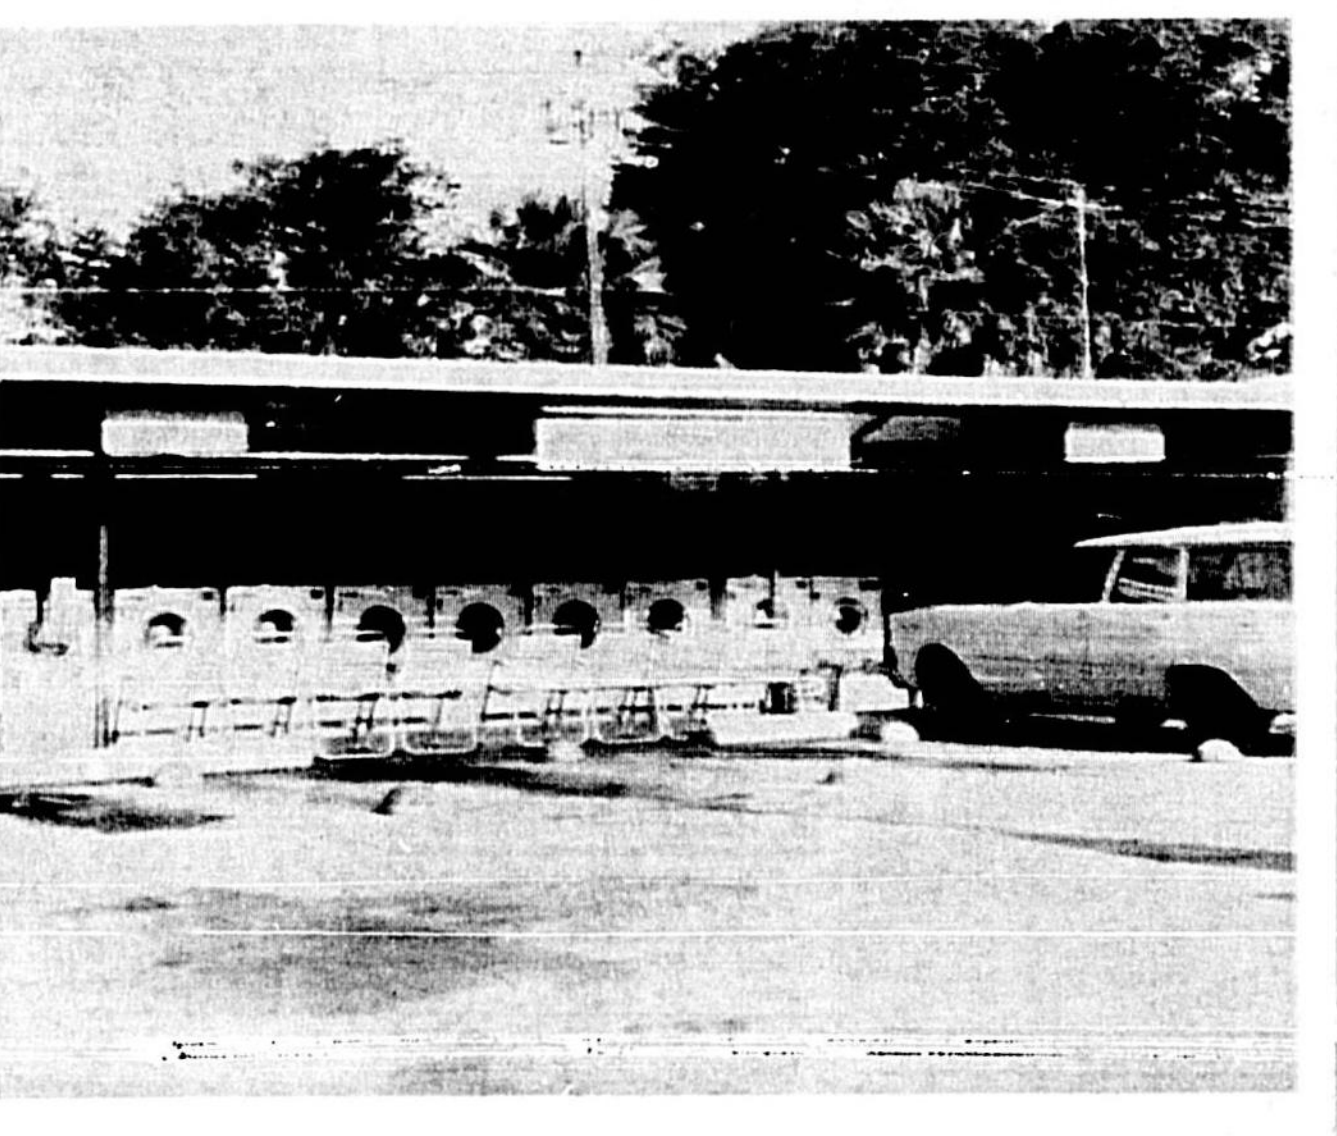

If you have never washed at either one of the Wes-Kay Washeterias, you are in for quite a surprise. At Wes-Kay you can use a DOUBLE LOAD (20 pounds) washer and wash ten (10) double sheets or about two bushel baskets of clothes for THE SAME PRICE THAT YOU PAY FOR A SINGLE LOAD WASHER ANYWHERE ELSE IN SANFORD!

In fact, Wes guarantees that you can wash MORE clothes, CLEANER, and CHEAPER at Wes-Kay and if he can't prove this to you your money will be cheerfully refunded. Incidentally, Wes has never had to make a refund on this basis.

While discussing his operating procedures and theories, Wes says, "Give your customers a little bit more in value and service than the next fellow; let them know that you don't feel that you are doing them a favor by letting them use your equipment, but rather that THEY are doing you a favor by coming to your place of business, and last, don't try for the "fast buck" — give your customers a break on price and they will make up the difference in the volume of business that you do."

Wes also issued this WARNING TO ALL PEOPLE IN THE SANFORD AREA: Don't wash at Wes-Kay unless you are prepared to become unhappy with the place that you are now washing, and then become another steady Wes-Kay customer.

Both Wes-Kay Washeterias are open 24 hours a day. Wes believes that you should be able to do your wash at YOUR convenience — not his.

WES-KAY LAUNDROMAT located at 20th and French and also East 27th Street at Palmetto is the most modern laundry of its type in the Sanford area. That's why more people go to Wes-Kay.

## The Business World

Receives Permission

WINTER PARK — Florida Gas Transmission Company, based here, received Federal Power Commission approval to provide natural gas for approximately half of all the energy needs for the 27,400-acre Walt Disney World under construction 15 miles south of Orlando. The energy requirements for the resort complex call for substantial quantities of natural gas when the first phase of Walt Disney World opens in 1971.

Florida Gas will construct and operate a 15-mile pipeline lateral for the sale and delivery to the Reedy Creek Improvement District.

NEW YORK (AP) — Amazingly, apathy has been cited as one of the reasons why support for the U. S. space program has lagged in Congress and among some people. But what now? After allegedly being lured and wearied with the space program, almost all Americans have been shot through with an electric fascination during the past few days, their attention magnetized to one event as never before.

The instruments of communication demonstrate the intensity of the feeling: it dominates every conversation, it pre-empted television time, it made newspapers break out the biggest type they've ever used, bigger even than the type used for assassinations, elections, wars.

## Commission Cuts \$ Chamber, Jaycees

County Commission Chairman John Alexander dropped what he described as a "bombshell" yesterday when he announced the county has appropriated no funds in the budget for fiscal 1969-70 for any chambers of commerce.

"We are considering creating a publicity advertising committee to recommend to the board the best utilization of the board, Chamber of Commerce interests, industrial interests and tourist promotion," the chairman declared.

He stated programs to be considered by the select committee would include coordinated billboard projects, advertising in publications outside the state, printing of promotional materials etc. "The board intends to review whether this is the procedure to be taken in the next budget year probably beginning Jan. 1, 1970."

"We could work in conjunction with Area Chambers of Commerce but the expenditures would be made by the Board of County Commissioners," Alexander said. Commissioner Greg Drummond added, "There would be no overlapping programs."

Seminole Chamber Director John Krizer queried by The Herald today on the effect of this move on the chamber said, "Chamber officials will be happy to meet with the Commission or any committee to discuss the advertising and promotion of Seminole County. We feel that an organization with 600 members is more important than the amount of money that might be funded in the future development of this county."

## Drummond 'Sails' Into Besserer SMH Rates Probed Again

By DONNA ESTES

Seminole Memorial Hospital Board of Trustees, in an attempt to "help the county" with its budgetary problems reduced its requested allocation for fiscal 1969-70 by some \$18,000 yesterday.

Robert Besserer, hospital administrator, in an appearance before the County Commission said his board is willing to reduce its request to \$8,000. The reduction was made in view of the \$48,000 included in the county's budget for the new year for industrial development under the Medicare-Add program. It is expected some \$100,000 in federal matching funds will be forthcoming for the program as well.

The administrator added the hospital had no indigent patients to be given no trouble at all. "The problem is not with the paying patients," he said.

Besserer answered that if the hospital had no indigent patients it would reduce its room rates and get along with no trouble at all. "The problem is not with the paying patients," he said.

When pinned down as to places of reduction of patients at the hospital, Besserer said some 30 per cent reside in the area north of Five Points, another 30 per cent live in Volusia County, and five per cent are from South Seminole.

Drummond strongly urged that a rate concessionary policy be paid by South Seminole citizens at other hospitals while they are paying taxes to support "this one," he charged.

The district three commissioner further noted that television sets and telephones are charged for at most hospitals while the Seminole-based hospital makes no charge.

Following a few words of appreciation from the Commission chairman for the cooperation of Commissioner Greg Drummond said to Besserer again over room rates at the hospital.

Commissioner Robert Parker started the ball rolling by questioning whether consideration is being given to raising the rates at the hospital. Besserer said the room rates have been raised in the last six months and currently are at a point midway between those charged in other area hospitals.

TRAIN SMASHES CAR

SANFORD ATTORNEY Phillip Logan was seriously injured yesterday when the car he was driving was hit by a Seaboard Coastline freight train on Hwy. 419 near Ficusavilla Road, five miles west of Orlando. Logan was reported in fair condition at Seminole Memorial Hospital this morning. (Herald Staff Photo)

## Ohio Firm Buys Industrial Site

By BILL SCOTT

An Orlando and Lima, Ohio embroidery paint products firm has purchased a 60 acre tract at intersection of I-4 and SR 46 east for a reported \$100,000 for industrial development and to build a display and distribution center for its products.

Charles H. Crockett, president of Artes Hobby Products of Lima, Ohio with an Orlando outlet on Lake Elinor Drive, revealed his firm has purchased from Edward Davis and John Williams, property to construct industrial buildings to specifications of lessees.

Crockett said his firm would not build for at least three to four years, but would start construction soon on leasing properties for industrialists.

The official did not reveal when ground would be broken or what potential clients have been contacted about leasing the sites to be located approximately five miles from downtown Sanford.

He said his firm manufactured a product similar to Tupperware and would in time build a large structure at the site for light manufacturing and display purposes.

The firm has plants in Ohio, Canada and has distribution in Ontario, Australia, and other countries.

Reliable sources indicate that at least one million dollars will be spent by the company in developing the acreage and at least two industries are reportedly ready to locate as soon as property is cleared and structures completed.

The land deal was handled through Husky Realty of Winter Park with the assistance of the Seminole Chamber of Commerce.

## Bulletin!

William Kibler, 71, of Geneva died today at Seminole Memorial Hospital, the second victim of a July 15 auto accident. His wife, Katherine, died Sunday. Funeral arrangements are still incomplete with Brissson Funeral Home in charge.

Unsuspected windfall of money must have hit the Seminole County governing body.

County Commission Chairman John Alexander announced Tuesday afternoon that it is expected the budget for fiscal 1969-70 will balance with no need to increase the current ad valorem tax rate of 6.33 mills.

The chairman just smiled when queried as to the source of the revenues which is allowing the county to hold its present tax rate.

Before opening of budget hearings which have been going on daily for two past four weeks, the chairman told The Herald that total requested budgets of all departments was some \$99,000 over last year and further that increases in revenues including the estimated \$100,000 from new assessments would not make up the slack.

It was feared at the time, that taxes would have to be raised to their 18 mill limit if all requests were approved. In their fourth week of hearings, the Commission eliminated the excess. (Continued on Page 1B, Col. 1)

## Board Rescinds Lease Agreement

By BILL SCOTT

To avoid possible criticism over the leasing of a 20-acre orange grove to the Sanford Airport, the Sanford Industrial Commission, at a special meeting this morning, rescinded an action taken a week ago during a regular meeting that tentatively approved a leasing of the grove to A. G. Anthony of Orange County and approved another motion placing the grove open for lease to the highest bidder.

The action came after W. C. Hutchinson, SIC attorney, informed the session that since the city is still the technical entity at the airport, the airport authority act has not been implemented by the city commission, it is the city's responsibility to see that such property be made available to the best offer.

Board tentatively agreed to lease to Anthony for five years at \$1,500 the first year, and \$1,700 for each of the remaining four years of the lease.

On a motion by W. E. Knowles, new SIC member, the board rescinded the previous action ordered and move to run an advertisement in the Sanford Herald for a seven day period advising the taking of bids to be opened at next board meeting scheduled for 8:30 a. m. August 1.
