## Sanford Charter Weak - Langford

The city of Sanford presently has a weak city manager, strong commission type of government. I suggest a strong city manager-mayor city commission government. These were the main remarks made by visiting Orlando Mayor Carl Langford last night as he spoke to the Sanford Charter Revision Committee.

Langford stated that he was not interfering that the city manager, as a person, is weak but that the office of the city manager is weak according to Sanford's aged charter.

Langford pointed out, "You have told the city manager to enforce all city ordinances but the charter does not give the city manager the tools to do this."

The always flashing Orlando mayor continued his remarks by stating, "Presently Sanford has only the legislative and judicial forms of government. The City Commission also undertakes the executive roll in government."

By allowing the city manager to appoint all city department heads, with confirmation by the City Commission (Continued on Page 1B, Col. 3)

## THURSDAY Headlines Inside THE HERALD

### World News

The jitters mount in Phnom Penh amid reports the enemy plans an attack today on the Cambodian capital. (Page 12A)

### Around The Nation

Administration leaders seem bent on de-emphasizing the "inflation alert" portion of President Nixon's new anti-inflation plan, saying the White House won't turn its publicity spotlight on individual price-boosting companies. (Page 1B)

Top labor leaders criticize President Nixon's economic proposals while the business community reacts with mixed views. (Page 1B)

Although President Nixon said the great majority of U. S. forces would be out of Cambodia by now, authoritative sources say half the number of American troops sent into that country are still there. (Page 12A)

A bold bit of strategy by Senate Democratic Leader Mike Mansfield helps Congress pass a generation gap-bridging bill that lowers the voting age to 18. (Page 12A)

### Sports World Thrillers

FSU battles Southern California tonight for NCAA pennant. (Page 8A)

Bob Gibson hurls one-bitter to pace Cardinals to big win. (Page 7A)

### Statewide Developments

Six persons suffering from gunshot wounds in Miami shooting. (Page 6A)

Federal court ruling send a flood of smut courting across Florida according to a state appeals judge. (Page 6A)

### WEATHER

Yesterday's high 92 low 69 with 27 inch of rain.

Partly cloudy today and Friday with slight chance of afternoon thundershowers.

High 88-93, low around 70.

Extended outlook Saturday to Monday: Scattered mainly afternoon and evening thundershowers with the lows in the 70s and the highs between 85 to 92.

# School Athletics Tops Freedom Of Choice

Parents who appeared at a meeting of the School Board last night were told by chairman John Evans that "the board is only interested in the welfare of the children... we are concerned and sympathetic and will listen to your problems."

The agenda listed the meeting as "Special" but several other items were listed, which is possibly what Mrs. Higgins alluded to. The spokesman continued that the parents were "disturbed because their freedom of choice had been denied and their children not of their choosing." She pointed out the reason for the denial and concluded, "We are not a regular board meeting, and that if all the parents could not be heard they were being deprived of their rights. (The agenda listed the meeting as "Special," but several other items were listed, which is possibly what Mrs. Higgins alluded to.)

The spokesman continued that the parents were "disturbed because their freedom of choice had been denied and their children not of their choosing." She pointed out the reason for the denial and concluded, "We are not a regular board meeting, and that if all the parents could not be heard they were being deprived of their rights. (The agenda listed the meeting as "Special," but several other items were listed, which is possibly what Mrs. Higgins alluded to.)

## Altamonte's City Council Approves Sewer Charges

ALTAMONTE SPRINGS — City Council approved upon first reading a resolution which establishes sewer connection charges in the municipality. The resolution stipulates that single family residences which do not have existing sewer collection lines available to their property shall pay a connection charge of \$125. The same category having existing sewer lines will be charged \$25. Multiple family dwellings will be charged \$125 for each unit apartment. This ordinance establishes a uniform schedule for the monthly city water bill. Rates were established for single family residences at 75 per cent of the monthly water bill, with a maximum of \$4.50. Multiple family, commercial and industrial establishments will be charged 100 per cent of the monthly city water bill, with no maximum.

Council also approved upon first reading an ordinance amending the rights-of-way north from SR 47 to the intersection of the right-of-way of the Seaboard Coast Line Railroad; south from SR 47 to the Orange County line; west from SR 48 to I-4. The east boundary from the city limits to U. S. 17-92 was deleted since Caspberry had annexed up to the east boundary.

Council authorized the expenditure of \$500 from a budgeted amount of \$200 to the agencies for publicity for the July Fourth festival. A representative stated that the municipality had already received a considerable amount of publicity as a result of the Joyce's using an Altamonte residence for a party. Altamonte resident State Jayce President.

A letter was read from Rev. John Schaefer requesting rental of the Altamonte Springs Community House for the purpose of establishing an independent Baptist Church. Rev. Schaefer stated that it was hoped that the building could be rented from 10 to 12 a.m. and from 7:30 to 9 p.m., each Sunday for services. Council asked that City Clerk Rolfe Wagner notify Rev. Schaefer that council would like more information as to the building plans of the church and the time in which the Community House would be used.

Dr. David Findell was appointed municipal judge. Dr. Findell previously teaches law at St. Johns Junior College and is the law partner of Altamonte City Judge Gene Stephenson. The appointment is effective June 15, and since the position is only in an emergency capacity, salary will be deducted from the present salary of the judge.

Newly appointed Councilman Dan Dorfman was also appointed to serve as Fire Marshall and as a consultant upon reception in the city.

## Commissioners Appeared Incongruous

Seminole County Commissioners appeared incongruous in rezoning action taken upon two separate parcels of land on SR 46. The request was for rezoning from A-1 to C-2.

On the first parcel R. Schwarm told the commission that he wished the change in order to sell the property to Robert Kennedy who plans to erect a building in which farm equipment will be sold and serviced. Schwarm said that the change was recommended by the Planning and Zoning Board, and that there was no opposition from adjacent property owners.

Commission Chairman John Alexander queried the advisability of commercial zoning SR 46 being primarily an agricultural area. In answer to Schwarm's contention that industries existed in the community, Alexander asked whether he did not consider a citrus nursery as industrial, but more in the agricultural vein.

Kennedy cited the advantages of proximity to farmers in the sale and service of farm equipment. Commissioners approved the zoning change by a 3-2 vote, with the negative votes being cast by Alexander and Commissioner Greg Drummond.

In the second parcel, Luis Delarco told the board that he wanted to use the property to erect an auction barn. The auctioneer at the present Farmers' Auction on U.S. 17-92, Delarco continued that this property will soon be sold. He went on to say that there would be ample parking at the location he proposed to accommodate 100 cars.

Alexander considered the rezoning to be "strip zoning" SR 46, and County Zoning Director Robert Brown agreed that this would be the beginning of strip-zoning on a first come first served basis. Commissioner Dan Feinhaus contended that the auction could not handle the volume of traffic or the parking needs which would be created. Alexander also opined that commercial zoning was unwarranted on suffering from. Feinhaus said that he hoped that SR 46 would not become another south Orange Blossom Trail, that the area on SR 46 should be block zoned, and that he was

## Chamber And SIC Pledge Cooperation

Complete agreement, complete co-operation, and complete communication, between the Chamber of Commerce and the Sanford Industrial Commission were apparently arrived at this morning following a special meeting by Chamber President George Touhy, who emphasized that he felt both the SIC and the "Blue Ribbon" board were both to improve the industrial status of Sanford and vicinity.

Touhy stressed, "This is a combination of efforts, no duplication of our ultimate aim to improve Sanford by all pulling together for results."

With the apparent attitude set by Touhy's statement, SIC Director David Kelly expressed his gratitude for the help the SIC was receiving from the "Blue Ribbon" committee and urged better communication between the two groups.

In an air of joining forces Kelly said, "Let's make sure that one group does not pull against the other which in the end result would confuse industrial clients."

Sanford City Manager and SIC member W. E. "Pete" Knowles suggested that the two groups have been suffering from a lack of communication and suggested periodic meetings of the two and an informal line of communication be established. This suggestion was immediately

## \$35,500 Collected

Ground will be broken for the new Good Samaritan Home on June 28 at 1:30 p.m. announced Robert Dush, coordinator for the community-wide drive to rebuild the home for the aged and indigent. The new home will be located next to the present, condemned structure on Mulberry Avenue in Sanford.

So far \$35,500 has been collected from donors throughout Central Florida to rebuild the home founded over 25 years ago by "Mother" Ruby Wilson. The shell and the roof of the structure will be constructed now, with the completion of the facility to progress as the funds become available. Total cost will be \$100,000.

"Donations of labor, goods and money are still coming in and out of the cost of construction significantly," reports Dush. Recently an anonymous donor from Orange City gave another \$500 to the building fund. This donor had given \$2,500 and plans to double that amount.

# Oviedoan Well Received In Recital

MISS KELLEY JEAN MULLER, mezzo soprano, presented a guest recital Tuesday, June 9, on the stage of Jackson Heights Elementary School, which she attended as a child. (Liz Mathieux Photo)

By LIZ MATHIEUX  
 Miss Kelley Jean Muller, daughter of Mr. and Mrs. Stanley T. Muller of Oviedo, was presented in a recital at the auditorium of Jackson Heights Elementary School on Tuesday evening, June 9, to a most attentive audience. Miss Muller, 16, is a member of the Oviedo area, she attended Jackson Heights Elementary School and graduated from Hangerford High School in Eastonville, (now known as Wymore Tech).  
 At Bethune-Cookman College, she was a member of the well-known Bethune-Cookman Chorus. Having a burning desire to explore music deeper, she enrolled in the preparatory department of Peabody Institute, Baltimore, Md., in the fall of 1968 to study voice and piano. She auditioned for the Conservatory and was accepted as a vocal major.  
 Because of her accomplishments in the preparatory department, she was awarded an \$1,800 Senatorial Scholarship from the State of Maryland through the untiring efforts of Mrs. Joseph Young, a well-known educator of Baltimore. Miss Muller holds membership in the following Conservatory Organizations: Chorus, Preparatory Department Madrigal Singers, and the Concert Singers. Just recently, she was invited to join and has become a member of the Mu Phi Epsilon Sorority, Phi Gamma Chapter and has been named a member of the Conservatory's "Traveling Quartet" commencing this September.  
 She shows much promise as a vocalist, she had a marvelous rapport with the audience, one could almost hear "a pin drop." Her flexibility and breath control were superb.

## Railroad Ordinance Approved By County

County Commissioners have approved a railroad crossing ordinance by a 3-2 vote following a public hearing on the matter. Casting negative votes were Commissioners Robert Parker and Edward Yarborough.  
 The ordinance provides that the railroad will install automatic signals at hazardous crossings when a contract is executed between the state and railroad following a resolution to the State Department of Transportation. The ordinance also provides for the use of county secondary funds. Upon execution of the ordinance, the railroad has 90 days to install signals or as an alternative, station flagmen, at the crossings or reduce speed until the train clears the crossing. The ordinance affects only spur lines outside municipalities.  
 A public hearing had been held upon the matter previously, and had been continued in order to allow representation by the railroad. However, the representative did not appear.  
 The initial reduction in speed had been set at 25 miles, but received opposition from Commissioner Greg Drummond, who felt it excessive and the cause of many passenger accidents. The ordinance was amended to 20 miles speed limit.  
 It was stated that the ordinance will go into effect when the Secretary of State is notified that it is on file. Drummond suggested that the railroad be given an additional 30 days in which to erect signals after the ordinance goes into effect.  
 Parker felt that the ordinance did not go far enough; that main lines and side roads should be included. Chairman John Alex-

## 200 Expected To Attend Annual Florida Institute

Nearly 200 persons are expected to enroll for the Eighth Annual Florida Institute on Alcohol and Other Drugs (FIAOD) which is being held for the second year at Florida Technological University (FTU) in Orlando, Aug. 30-Sept. 4.  
 FTU is again sponsoring the school in cooperation with the State Bureau of Alcohol, Tobacco, and Firearms, which comes under the Division of Mental Health in Tallahassee. The Department of Sociology at FTU has received a Federal training grant for \$4,600 from the Department of Health and Welfare, Public Health Service, Washington, D. C.  
 The state bureau is providing \$6,400 in state aid to bring the total grant monies for this year's Institute to \$11,000, according to S. George Clarke, director, Community Programs, at the Bureau.  
 While the Institute is primarily for professionals working in alcohol related fields, the school will consider applications from people who may have occasion to work with the alcoholic in their daily profession. All applications are subject to review. Directors for this year's FIAOD are Charles M. Tinsley, Ph. D., chairman, Department of Sociology, FTU, and Clarke.

# Cross-Florida Barge Canal: Proper '70 Issue

Editorial Comment

The inclusion of the Cross-Florida Barge Canal into the political campaign is an important and urgent issue.

We would hope that every candidate for every important office in the state would show that he or she has given thought to this project, done some thinking on his or her own and has concluded a stance which will be sustainable.

We are, of course, not surprised but gratified by the strong and uncompro-mising support which the respected and knowledgeable U.S. Senator Spessard L. Holland has given, is giving and will give to the completion of the project.

It is also quite enlightening to have the senior senator from Florida speak out in regard to the further study on the path which the canal will follow welcoming any such research which would be done while construction continues.

But his opposition to the rather alarming sug-

gestion of Secretary of the Interior Walter Hickel that a 15-mile moratorium be imposed on the canal is a personal event.

Opposition to this major addition to the transportation arteries of the nation and especially to the south east where a fine web of waterborne facilities exist and need the cross-Florida canal for completion is nothing new.

But its hastily dressing of the cloak of ecological study — now a rather hot and appealing political issue — has concealed opposition which, no doubt, would rather not stand on its own feet.

It is encouraging to see that the Putnam County Commissioners have spurred other important support. U.S. Representatives Bob Silvers and Don Fuqua on the record favoring continuation and completion of the canal.

Putnam County is at the eastern terminal of

the canal where it joins with the St. Johns River. Thus the interests of this specific area are protected.

For the benefits from a completed canal would stem from there down along the river until they would exert a positive factor on the economies of Central Florida and specifically Sanford-Seminole County.

Here there are two situations which rely heavily on the major canal for bright futures. One is the Port of Sanford which is now reaching itself for completion. What is needed is balance and common sense. In these we find no better champion than the retiring Senator Holland whose official actions and political support of the project is an earnest of his devotion to the state and his wisdom.

Canal of prime interest to every resident and every vote in the Sanford-Seminole area.

It is the backbone, only one of many, for all who have the best interests of this region at heart to ask the candidates for high office to stand up and speak out on the canal.

A starting point would surely be as to how each stands on the Hickel proposal for a moratorium. But the pay-off must be how each determines his position and by what means it was reached.

In all of this and in our stand as strong and persistent backers of the major and minor canals, it should be understood that we do not discount the need for considering the ecological factor.

What is needed is balance and common sense. In these we find no better champion than the retiring Senator Holland whose official actions and political support of the project is an earnest of his devotion to the state and his wisdom.

## Write Right Now

In the vast and varied provisions which have been made for the widows who have special conditions brought by no fault of their own there is one which has been overlooked.

This is the lot of the widow of a retired military man. We are indebted to a visit from Lieutenant B. Duke Moody of Sanford, regional vice president of the Southeast Region of the Fleet Reserve Association for information on this and similar situations.

Repeal it or not, as Ripley used to say, such widows are left without even a portion of the pension her husband had received.

"She is," Lieutenant Moody pointed out, "the only widow of a retired military man who does not receive an annuity based on her husband's retired pay."

This is, to be sure, a national issue and should be treated as such. Yet here in Sanford, where so many of the Naval men come home while stationed at the Sanford Naval Air Base, the issue is local, personal and urgent.

To be indignant is not enough. There is now before Congress legislation which would correct this glaring inequity. It is embodied in H.R. 6226, introduced on Feb. 5, 1969 by Rep. Charles S. Gubser of California.

Under this bill widows of retired military men will receive no more than what widows of federal civilian retirees are receiving. But it will be a step in the right direction.

We believe that our readers should take pen in hand and write to their representative. In Seminole County this would be to Rep. William Chappell, HOB, Washington, D.C.

### Farm Efficiency Puzzles Reds

By BRUCE HOSSAT  
Washington Correspondent

WASHINGTON (NEA) — Communist regimes toss out a lot of beguiling chatter about land reform, thereby captivating young urban Red Guards out among them. But they are consistently rated as the world's worst farm producers.

Not too long ago 8 per cent of the Soviet labor force was still engaged in agriculture, though today — after 50 years of trying — they have finally cut that proportion materially. Farming takes just one of every 10 Americans in the work force. Now we have a new report on Red China's farm output, and it is nothing to brag about.

Output in 1969 was up, and 1970 prospects are better still. But recent daily food consumption per person is roughly 10 per cent below the 1957-58 level. Available food supplies have remained roughly constant since 1965, though China's population keeps growing.

Last year some products were still rationed, such as wheat, oil, cotton, even food in designated deficit areas.

It seems to have required a crash program to produce the 1969 uplift, which U.S. farm experts say is Peking's second of the 1960s as it has sought to bring output to some approximation with need.

Obviously, Peking's three-year "cultural revolution," a time of sanctioned hysteria and vandalism which allowed the youthful "Red Guards" to tear the country apart, did little for the stock exchange.

But the economists are having their feelings that we have turned the corner on a variety of indicators which have become mixed and confused, some pointing up, others down. This mixture itself is a sign that we are turning a corner of sorts.

The Gross National Product has held relatively steady for something like nine months, even after discounting the effects of inflation. Employment has gained slightly in the same period, despite the increase in unemployment. Overall industrial output has held up well, despite the major slumps in defense buying, automobile sales and home building.

## Disposal Fee

Senator William Proxmire of Wisconsin proposes a penny-a-pound disposal fee on all products likely to be disposed of within 10 years of manufacture, saying the money would help cities dispose of wastes and encourage plants to control the waste they produce. Far too many people, however, would be willing to pay a fee rather than give up the disposable products of the affluent society — Little Rock (Ark.) Arkansas Gazette

## Domestic Comment:

### Economy Seen Turning Corner

By RAY CROMLEY  
NEA Washington Correspondent

WASHINGTON (NEA) — It is easy these days to go to a government economist and get an optimistic evaluation of what the economy is going to be doing six months or a year from now.

There is a well-marked administration line.

This reporter, therefore, has made it his business of late to talk to men who make economic their business but who are not in the government or necessarily sympathetic with it.

What has come up is surprising for the consensus of these economists is that from a technical standpoint we have begun to turn the corner toward renewed growth.

This may not be very heartening to the man who loses his job in the next two months or to the housewife who sees her grocery bills continue to move up for some months to come. But this belief is important in the sense that these men see daylight ahead, not continued gloom and not a 1959-60 plunge downward.

These economists do hedge a bit. The speed with which improvement comes depends, they say, on how much of his earnings and his savings the consumer is willing to spend.

If he freezes, in fear of a plunging depression, we're in for trouble. But if the consumer spends at a normal rate, things should gradually grow better and by a year from now the economy should be growing again at a reasonable or normal rate (with inflation not wiped out but pushing ahead at a much slower rate than in the recent past).

The thing to note in this regard is that personal income is expected to rise more than 10 per cent in July, 1969.

Industrial wages are moving ahead markedly. Government workers' incomes are higher. Retail security payments are larger.

Barring some major unexpected shift in the economy, the

## Washington Window:

### Stalled "Era Of Negotiations"

By STEWART HENSLEY  
WASHINGTON (UPI) — Russian leaders say, in effect, that the "era of negotiations" is over. This is a disappointing prospect for those who had hoped for a period of relative stability in the relations between the two superpowers.

President Nikolai Podgorny says Soviet-American relations are "in a deep freeze." Premier Kosygin says relations "have undergone no development in recent years." Party leader Leonid I. Brezhnev says "contradictions" between the USSR and the U.S. are really deep.

These statements were made last week in speeches connected with the Russian elections and naturally the propaganda content was not negligible.

However, American officials acknowledge that the Russians are essentially correct in saying that no real progress had been made.

Whatever the reason for the gloomy Soviet view on relations with the United States, review of the major efforts to ease tensions and find new limited solutions to world problems shows virtually no progress during the past 18 months. In some cases, things seem to be worse.

MIDDLE EAST: Despite Soviet-American negotiations for more than a year on a Middle East peace formula, the diplomatic progress has been zero and the military situation is worse.

INDOCHINA: The Soviet Union has refused Washington's pleas for the convening of a New Geneva conference to discuss settlement of the conflicts in Vietnam, Laos and Cambodia.

RACE: The Russians have

## Don Oakley Says:

### Politics And Study

By DON OAKLEY  
NEA Editorialist

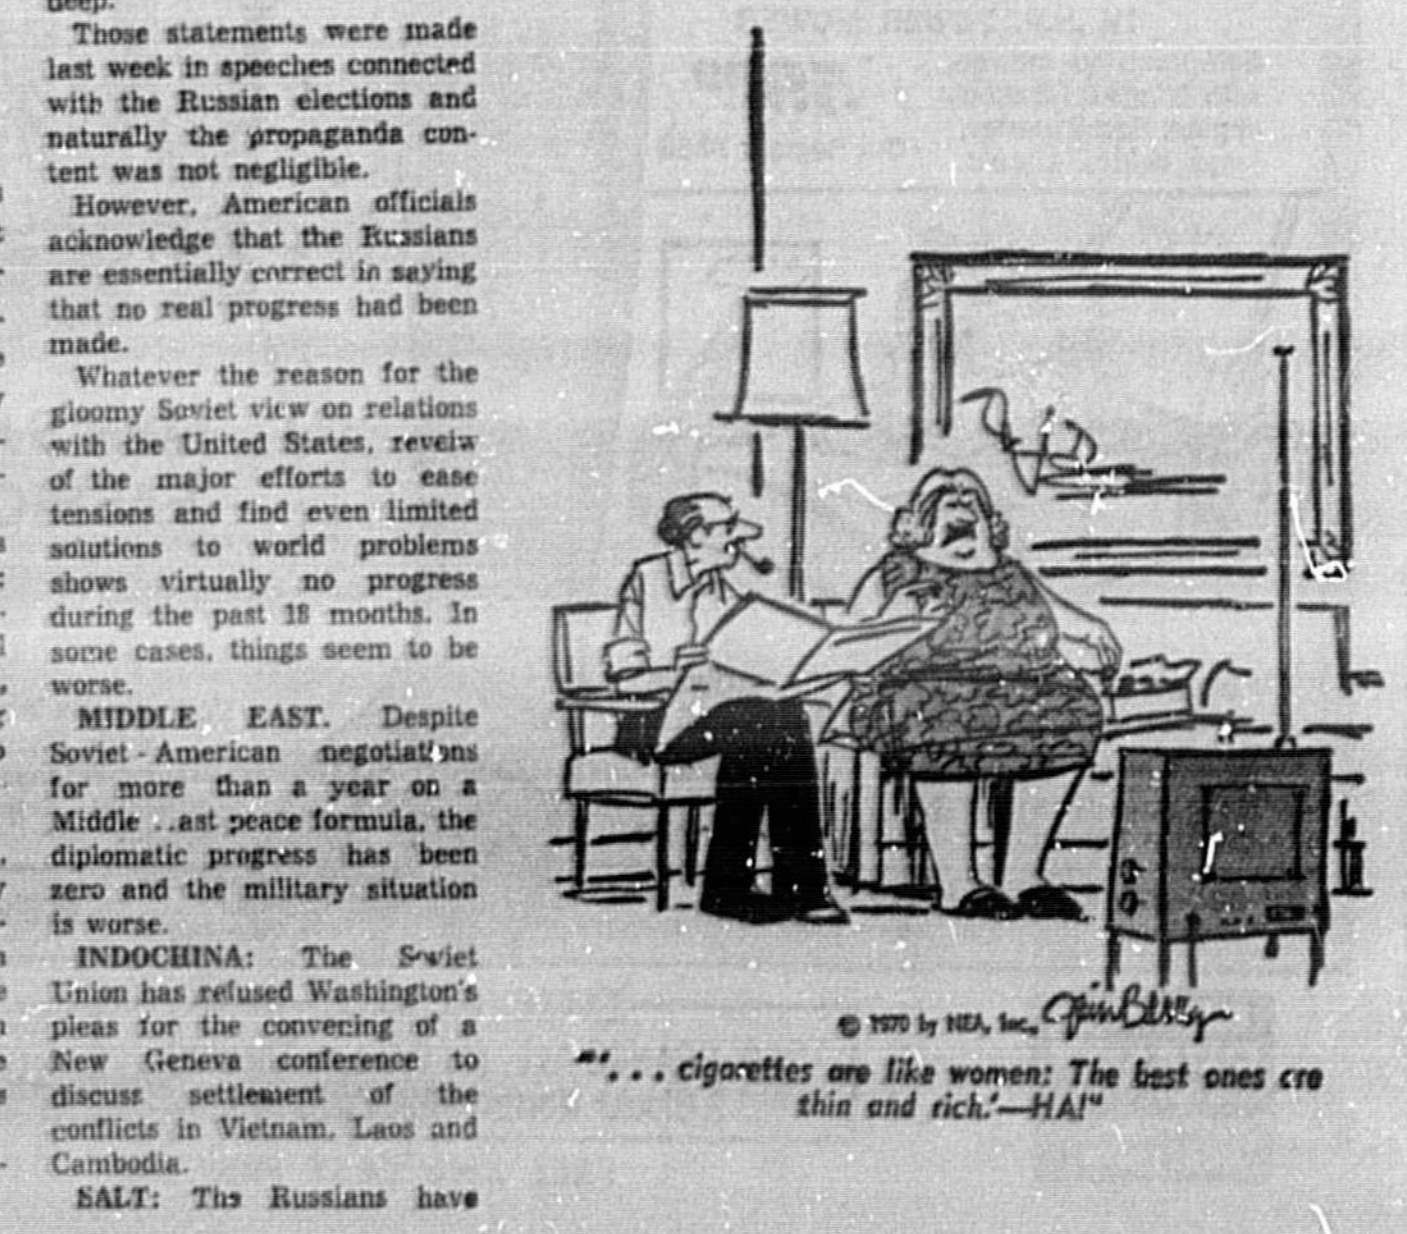

At least one college has declined to lend its support to the latest wrinkle in the student movement — the suspension of classes prior to the November elections to allow students to work in political campaigns.

In a position paper adopted by the faculty at Lafayette College in Easton, Pa., it is sent to all Lafayette students, a number of reasons are given for the decision not to join those educational institutions planning to grant "recessed time."

If recessed time for political activity is considered desirable, all segments of our society should have this freedom, not just the faculty argues. "Giving students released time can easily be reinterpreted as an endorsement of the activities of the student body which do not have the luxury of such free time."

This is a dubious objection. Young people have always re-

## Letters To The Editor

### Flag-less Flag Day Slapped

June 15, 1970

Editor, Herald:

Yesterday, while driving down one of the better residential streets of Deltona, I was disheartened to note that out of approximately fifty houses, there were only eleven flags on display.

Today, when I read your column, which is the first thing that I read, I noted with sorrow that Sanford had a much lower ratio of patriotic citizens (you said "one in twenty five"). To me, this is inexcusable and surely they must be taking the path of least resistance, in their apathy. I can not believe that they are all dissenters — or are they?

Keep up your good work and keep that stick working in the hornet's nest.

Sincerely,  
Fred H. Kerahner

## Wall Street Chatter

NEW YORK (UPI) — The key to moderating current inflation probably lies in a decline in prices of industrial raw materials, which may have been the real culprit rather than wages or prices of manufactured goods. Argus Research Corp. said. A turning point in raw materials prices appears to be at hand and a decline is likely to accelerate by the fourth quarter, bringing with it lower prices for intermediate materials and finished goods, the firm said.

The gloomy investor psychology in evidence for so long has pretty much disappeared, according to the Alexander Hamilton Institute. The market seems to have discounted most of the bad news and, after possibly testing the recent low ground, should get going on a solid advance, the firm said.

## Courts Hamstring Police

### Smut Peddlers Reaping Bonanza

TALLAHASSEE, Fla. (AP) — Federal court rulings have put police and prosecutors behind a dam and sent a flood of smut courting across Florida, a state appeals judge said in a ruling last week.

"The result is that the smut peddlers are experiencing a veritable bonanza throughout the State of Florida," said an opinion signed by 11th District Court of Appeals Judge Sam Spector. Spector was especially harsh against foreign investments in Japan.

The restaurant business is one of the latest to be opened to foreign money by Prime Minister Eisaku Sato's Conservative Government. The restaurant chains have applied for approval since the restaurant industry was liberalized by the Japanese government. Kentucky fried chicken is the first American company actually to gain approval. "Roy S. Weston, managing director of the Japanese operation, said:

"The senior vice president of Mitsubishi Trading Company, Motokata Nakamura, has been selected as president of Kentucky Fried Chicken Japan."

The new firm plans to open 100 to 200 company owned fried chicken shops throughout Japan under the company's trademark of the Kentucky Colonel. In the United States, it is negotiating for a chance to buy into Japan's booming car market.

Although Japanese like their fish raw and their rice boiled, they are eating more and more to European and American foods. Corn flakes and a score of other breakfast foods are manufactured in Japan along with hot chocolate, apple pie, hot dogs, hamburgers and milk shakes.

KFC's first fried chicken operates a booth at Japan's Expo '70 in Osaka and claims daily sales equivalent to 3,000. The Expo shop is only one-third as large as a chicken shop in the United States, the Kentucky boys say.

## Col. Sanders To Japan

Private Carousal  
READING, England (AP) — Five-year-old Patricia Williams is queen of the kids in her neighborhood in nearby Tadley. She has her own private merry-go-round.

Her father, Bill Williams, bought the carousel after it had been unused and neglected for years, bought it and gave it to Patricia. The carousel was built in 1903.

"She rides on one of the horses which has her name on it," reported Williams. "Friends ride the others."

## SANFORD ONLY 201 EAST 1st STREET

As I See It!  
by Gary Taylor

May 1 add my congratulations to Ralph Stumpf on his promotion to Athletic Director at Oviedo High. Stumpf is a highly capable replacement for a man that has served long and faithfully at Oviedo. — Paul Mikler.

Mikler is retiring from his position as Athletic Director and also as baseball coach. Jim Courier will be football and baseball coach. Courier played on the first Oviedo football team and was also a standout in baseball. Now he comes back to his old high school as a coach.

In other coaching changes around the county, Murray Arnold dropped Lyman like a hot coal a couple of weeks ago to accept a position at Birmingham Southern. Arnold had left Lyman as his assistant.

Lyman is ready to be named the head basketball coach at Lyman and he had already named his assistants.

Carlton Henley, principal at Lyman, told the Herald this morning that he would likely name his new head basketball coach Friday and that the new coach would be meeting with the players for the start of the summer program next week.

Henley told the Herald that they have narrowed down the choices and they're ready to go after their man. Round and Round she goes and where she stops nobody knows... who will be the next to go?

Everyone is in an uproar about the stadium situation for Seminole and Crofts. Last year it was Lyman. But what about Oviedo? They have a field you say, sure they do... lots and lots of seats... like about a whole one. Now how can a school make money on football when they can seat only 400.

Every game sees them packed and most people won't even go to the games because they know they either can't get a seat or will have to bring their own chairs.

Now couldn't the county do a little to help them out. There is no way they can make money to finance their spring sports if they can't sell tickets to the games.

And another thing... they don't even have rest rooms. The nearest ones are up at the school. Without seats and rest rooms and proper concession facilities, they might as well not have a field.

We've got a big eight-team double-elimination women's softball tournament coming to Seminole County July 3, 4 and 5. We're going to have four out-of-town teams and four teams from the Seminole County Women's Softball Association in the tournament.

Wilson Maier, Gordon's Durga (host team), WHO and a team composed from Lum's and Dearborn, will compete in the tournament representing Sanford.

There will be 14 games (15 if necessary) and there will be plenty of good talent on hand.

Make your plans to attend this tournament. The games will be played at Cooper Field located near Five Points on SR 419. Every Monday, Tuesday and Thursday the girls play their regular season games there.

Major Parts from the women's league will be in DeLand this week and for a tournament and several of the teams from the men's league in the city will also be in tournament play in DeLand.

We've got the Little League championships coming up toward the end of this month. Goodyear, Sanford's answer to the New York Mets, will play the winner in the Little League National League.

As of this writing (Wednesday afternoon) United States Bank leads by one-half game over First Federal. Still in the running is Chase, but it would take a miracle for them to win.

A job well done to all the boys on Goodyear. It wasn't too long ago when they were winning only one game a season. The Senior League crown was clinched by Chase last night. It gives them the automatic city championship as they rot away halves of play.

Rotary won the first half of the Junior League and they have a slim one game lead over Kiwanis in the second half. But these two teams must play each other two more times this season and anything can happen.

If a Junior League playoff is necessary it will be a two out of three games series July 1, 2, and 3. The games are played at Pinehurst Park.

Make sure you get your tickets for the bar-b-que chicken dinner as the Little League Park for July 4. The festivities will be held at Fort Mellon and there will be lots of fun and food.

There will be a father-son game and the umpires for this tilt will be the mothers. Man, that ought to make for quite a battle.

The highlight of the day will be the annual exhibition all-star game between the all-stars of the National and American Leagues.

See Harry Smith or Jim Jennings of the Sanford Recreation Department for further information or tickets or get your tickets from any Little League.

Until next week, this is your favorite little (77) sports writer, see you at the bank. Don't forget to pick up your all-star ballot where Gillette products are sold and write in Eric Carty for the starting outfield.

# FSU Battles USC For NCAA Pennant

CHARLES CHAMBERLAIN Associated Press Sports Writer  
ORLANDO (AP) — Florida State, never in the winner's circle of the College World Series in four previous trips, carried a 4-0 season mark against USC Thursday night in the first round of the double-elimination tournament. Florida State stamped No. 2 Texas out of the meet Tuesday night.

The No. 2 Seminoles will carry 40-8 season mark against USC Coach Rod DeLoach is expected to start sophomore right-hander Greg Widman 6.3 with Coach Jack Stallings of Florida State countering with junior southpaw Pat Obara 12-2. Each has a World Series victory.

Widman secured a split-batter victory, striking out three batters in the first inning. He pitched 7.1 innings, allowing four runs, four hits and 14 strikeouts. He lowered his ERA to .005.

Gene Amman was the big hero Wednesday night. The Seminoles' substitute pitcher, who entered the game with a 0.50 ERA, spaced seven hits, fanned 7 and walked 4 for a victory No. 15. His season's strikeout total stood at 41.3 in 11 innings when Texas pitcher Walt Rothe hammered a two-run homer in the fifth inning.

The Seminoles collected 13 hits off five pitchers, pinning the loss on starter James Street 5-1. He filled the bases on walks after one out in the first inning and was yanked.

Texas Coach Cliff Gustafson said that Street-quarterback of the Longhorn national football champions last year—had aggravated a pulled groin muscle on his first pitch of the game.

Florida State jumped off to a 5-0 lead in the first three innings and completed the comeback with six in the seventh, when 11 batters went to the plate with five singling in runs.

Catcher Harry Safrighi drove in at least one run during the game, but the only extra base hit was Dick Nichols' run-scoring triple in the third.

It averaged a 5-1 Florida State victory to Texas Monday.

"I have just as much confidence in Obara as I had with Amman," said Stallings. "I realize that USC is a big tournament when, having won five straight, it should be quite a ball game. If either is anything like the other, it's Texas' pitching had just won itself this. USC pitching is in much better shape."

The Pee Wee League City Championships between the East and West winners, will begin at 6 p.m. June 29.

# San Francisco Owner Seeks To Kill Merger

BY ED SHEARER  
ATLANTA (AP) — Frank Miele, saying he once was the "lone voice in the wilderness," claims he has enough votes to kill a merger of the National Basketball Association with the American Basketball Association.

The owner of the San Francisco Warriors here for the two day meeting of the NBA's Board of Governors, said Wednesday that there were seven negative votes in the most recent merger vote by the owners. It takes only five votes to kill a merger.

"I have just as much confidence in Obara as I had with Amman," said Stallings. "I realize that USC is a big tournament when, having won five straight, it should be quite a ball game. If either is anything like the other, it's Texas' pitching had just won itself this. USC pitching is in much better shape."

Major Parts from the women's league will be in DeLand this week and for a tournament and several of the teams from the men's league in the city will also be in tournament play in DeLand.

We've got the Little League championships coming up toward the end of this month. Goodyear, Sanford's answer to the New York Mets, will play the winner in the Little League National League.

As of this writing (Wednesday afternoon) United States Bank leads by one-half game over First Federal. Still in the running is Chase, but it would take a miracle for them to win.

A job well done to all the boys on Goodyear. It wasn't too long ago when they were winning only one game a season. The Senior League crown was clinched by Chase last night. It gives them the automatic city championship as they rot away halves of play.

Rotary won the first half of the Junior League and they have a slim one game lead over Kiwanis in the second half. But these two teams must play each other two more times this season and anything can happen.

If a Junior League playoff is necessary it will be a two out of three games series July 1, 2, and 3. The games are played at Pinehurst Park.

Make sure you get your tickets for the bar-b-que chicken dinner as the Little League Park for July 4. The festivities will be held at Fort Mellon and there will be lots of fun and food.

There will be a father-son game and the umpires for this tilt will be the mothers. Man, that ought to make for quite a battle.

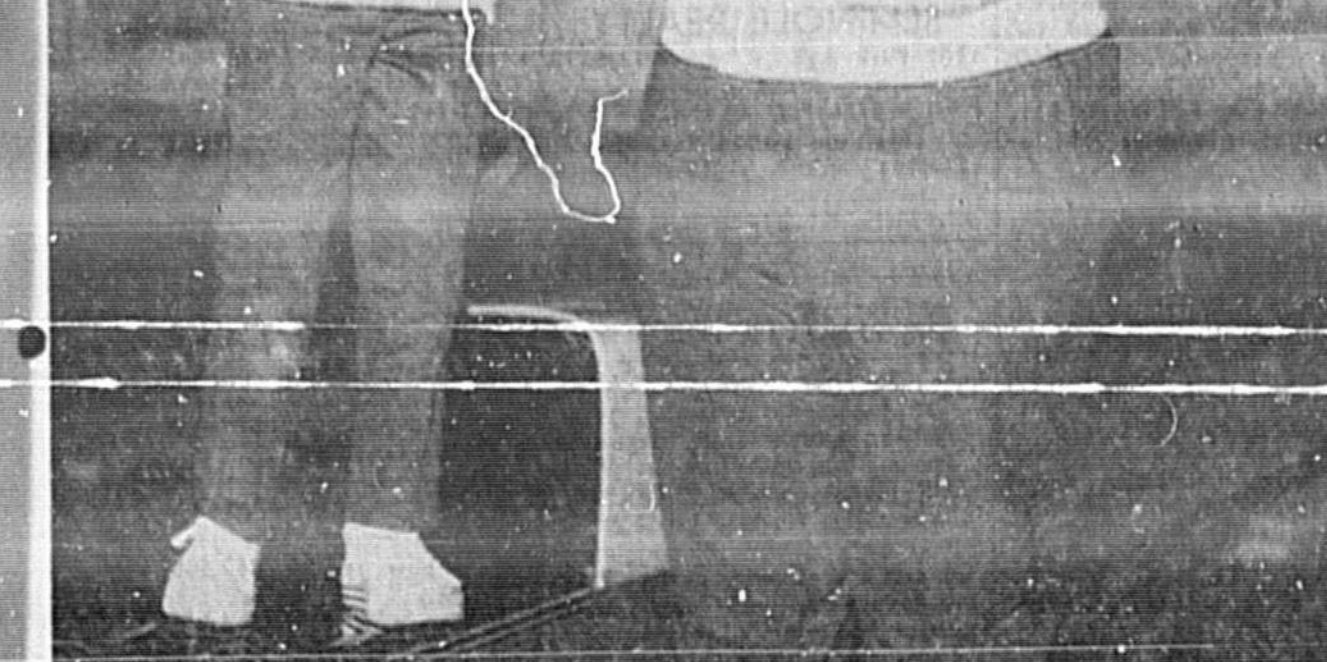

The highlight of the day will be the annual exhibition all-star game between the all-stars of the National and American Leagues.

See Harry Smith or Jim Jennings of the Sanford Recreation Department for further information or tickets or get your tickets from any Little League.

Until next week, this is your favorite little (77) sports writer, see you at the bank. Don't forget to pick up your all-star ballot where Gillette products are sold and write in Eric Carty for the starting outfield.

A HERO... to little Mike Towers is this year's Junior Bowler of the Year — Rick Payne. The trophy, presented by the men's City League as a memorial to Paul Perold, Payne was selected for his personal contributions to the game as well as his consideration and help to younger bowlers whom he also helped to instruct.

# More Money Than Ever In Grand National Races

DAYTONA BEACH, Fla. — There's more money than ever in Grand National racing today, still had to start last year before. And if you don't believe it, just ask Bobby Allison of Hickory, Ala.

When Allison made his Grand National debut in 1961 by finishing first in the Daytona 500, he went on to complete a total of four races and earned \$650 for the season.

That's the amount that last year in the 40-car starting field for the \$2,280 12th annual Firecracker 400 pays on Saturday, July 4th at Daytona International Speedway.

Times change and so do drivers. Now Allison, in the Mario Rossi Dodge, has his eye on the top place money in racing with the season just half finished.

Allison's top mark came last year when he earned \$66,775 in 27 races, including last Sunday's race at Riverside, Calif. He already has taken home \$64,490 and is battling Bobby Isaac of Catawba, N.C., and James Hylton of Inman, S.C., for the 1970 NASCAR Grand National championship.

"Rico had a completely normal recovery from tuberculosis," said Dr. Mirzay continued. "We follow Rico's progress every day. Everyone in the hospital listens to each game on Lantana, said recently. "Nothing was unusual at all about his radio when they're on television."

# Write-Ins Flow In

Rico Carty's name may not be listed on the ballot for the National League All-Star Team, but there are at least 48 people who have written in his name in the voting. The return address on those 48 ballots reads: "Southeast Florida Tuberculosis Hospital, Lantana, Fla.," the place where Carty spent six months of his life in 1968 recovering from the dreaded disease.

Now, the doctors and patients at the hospital have requested ballots from the Braves to write in Rico's name.

"Rico had a completely normal recovery from tuberculosis," said Dr. Mirzay continued. "We follow Rico's progress every day. Everyone in the hospital listens to each game on Lantana, said recently. "Nothing was unusual at all about his radio when they're on television."

# Horse Has Problems

VERNON, N.Y. (NEA) — A two-year-old yearling named Tio's Cardigan has yet to make his first start here at Vernon Downs, but his reputation is nothing to sneeze at.

He is the first horse in the track's history to develop hay fever.

His trainer, Jack Bailey, said: "He's allergic to hay and straw. He was fine until I trained him down to three months, then I noticed that whenever I brought him back to the barn he had trouble breathing and his eyes and nostrils watered badly. It got so bad he had trouble getting his food down."

Bailey and the colt's owner, Caroline Pitts of Owego, N.Y., contacted a veterinary team at Cornell University and it concluded that Tio's Cardigan, indeed, had an asthmatic condition caused by the dust from hay and straw.

The rest of Tio's Cardigan ran through wood shavings and a mild horse feed with no traces of hay. He also gets regular shots and undergoes regular sessions with a vaporizer.

"The problem is solved now," said Bailey. "He trained down to 218."

HITTER THURMAN MUNSON of the Yankees knows how catcher Andy Etchebarren of the Orioles feels at this moment. Etchebarren is looking for something, he's double-over in pain after being hit by a foul tip off Munson's bat.

# Safe Boating Week Coming

WASHINGTON, D.C. — Twenty national organizations and hundreds of local and regional recreational boating organizations are preparing for America's annual drive for better boating skills in the wake of Presidential proclamation of National Safe Boating Week, June 29 through July 4.

# Commiss Cut Cambodia Capital's Last Link With World

By ROBERT C. MILLER  
**PHNOM PENH (UPI)**—The Viet Cong blocked Highway 7, Cambodia's capital's last link with the outside world, Wednesday night, cutting the road to the north. The Communist forces seized the road and the city of Phnom Penh. The guerrillas seized the road and the city of Phnom Penh. The guerrillas seized the road and the city of Phnom Penh.

and out of the capital. Cambodian military spokesmen said North Vietnamese and Viet Cong troops operations had greatly increased around the capital. There were increasing indications the Communists intended to mount an attack on the capital. The guerrillas seized the road and the city of Phnom Penh. The guerrillas seized the road and the city of Phnom Penh.

# Nixon Repeats Vow: Evacuate By June 30

By ROBERT A. DOHERTY  
**AP Military Writer**  
**WASHINGTON (AP)**—Although President Nixon has said "the great majority" of the American troops in Cambodia will be out of the country by June 30, military sources say half the number of American troops sent into that nation is still there. The President also has promised to have all American troops out by June 30. He repeated the pledge Wednesday in his televised report to the nation on economic conditions. As of Wednesday, however, the sources said about 20,000 American troops remain in Cambodia "still searching, sweeping and still removing enemy supplies" from the jungle sanctuaries along the South Vietnamese border. In his May 8 news conference, Nixon said: "The great majority of all American units will be out by the second week of June." The Defense Department has said the U.S. troop level in Cambodia reached 20,000 men soon after the incursion started April 29. "The White House denied this week the President's words

# 18-Year-Old Voting Bill Forward to President

By JOHN BECKLER  
**Associated Press Writer**  
**WASHINGTON (AP)**—A hold bill of 1963 by Senate Democratic leader Mike Mansfield has helped Congress pass a generation-gap-bridging bill that lowers the voting age to 18. By a 573-132 vote the House Wednesday accepted the 18-year-old vote provision as part of a Senate-passed bill that also continues the 1963 Voting Rights Act for five more years. House approval sent the package to President Nixon, putting under the same pressure that Mansfield's strategy applied to the House—except the bill on both counts or risk further alienation of the nation's youth and its black. Nixon has said he supports the 18-year-old vote, but only through constitutional amendment, not by a simple act of Congress. He also has opposed extending the 1963 Voting Rights Act, which applies mainly to seven Southern states, on grounds it is regional legislation. At the end of Wednesday's

brief but emotional debate, House GOP Leader Gerald R. Ford spoke of Nixon's past opposition and raised the possibility the President might let the bill become law without signing it. There had been earlier speculation of a veto. Civil rights groups were alarmed when the Senate at Mansfield's insistence, tied the bill extending the Voting Rights Act. One of the most successful civil rights laws ever enacted, the 1965 act has resulted in adding a million Negroes to the voter rolls in seven Southern states. Its supporters feared it would be dragged under by the weight of a controversial proposal as teen-age voting. Particularly unhappy was Rep. Emanuel Celler, D-N.Y., chairman of the House Judiciary Committee, an ardent supporter of the Voting Rights Act, but equally strong in his opposition to lowering the voting age. It was mainly to overcome Celler's opposition that Mansfield devised his strategy.

Demos Brand Speech As 'Vague'

# Nixon's 'Inflation Alert' De-emphasized

By STERLING F. GREEN  
**AP Business Writer**  
**WASHINGTON (AP)**—Administration leaders seemed bent today on de-emphasizing the "inflation alert" portion of President Nixon's new anti-inflation plan, saying the White House won't turn its publicity spotlight on individual price-boosting companies. And congressional reaction

gave ample evidence that Nixon's Wednesday broadcast on the state of the economy will not quiet the clamor in Congress for a tougher anti-inflation clamp-down. While Republican senators generally endorsed the Nixon proposals, Democratic congressional leaders branded them "vague," "soothing rhetoric," "too little and too late."

Nixon announced he will name a new 24-member National Commission on Productivity. He has ordered his Council of Economic Advisors to "prepare a periodic inflation alert." This, he said, would "spotlight the significant areas of wage and price increases."

Some business executives and economists expressed disappointment that the President did not go far enough in the area of wage and price controls. Others lauded the President's stand, saying they found his speech reassuring. "President Nixon's latest program against inflation is, like his previous policies and tactics in the economic area, weighted against the American worker," said Paul Jennings, president of the International Union of Electrical, Radio and Machine Workers.

# Reaction To Speech

By DAVID BURKE  
**Business Writer**  
**NEW YORK (AP)**—Top labor leaders criticized President Nixon's economic proposals while the business community reacted with mixed views. Labor spokesmen said Wednesday the President's plan for calling public attention to significant wage or price increases would hurt labor without reducing inflation.

Some business executives and economists expressed disappointment that the President did not go far enough in the area of wage and price controls. Others lauded the President's stand, saying they found his speech reassuring. "President Nixon's latest program against inflation is, like his previous policies and tactics in the economic area, weighted against the American worker," said Paul Jennings, president of the International Union of Electrical, Radio and Machine Workers.

University of Chicago economist Milton Friedman called Nixon's a "further demonstration that the President has a steady, long-range policy and the course to pursue it despite a lot of political pressure for wage and price controls."

It approved with some restrictions funds for the controversial C-5 giant jet transport and the F111 fighter-bomber. The Safeguard action came in two votes.

# Litany Of Woes Faced By Metro-City Mayors

By MICHAEL J. SNIFEN  
**Associated Press Writer**  
**DENVER (AP)**—Whatever their political affiliation, no matter where they come from, most American mayors of large cities recite a similar litany of woes: unemployment, a growing narcotics problem, race relations and not enough money to better the quality of life in their communities.

The only differences a listener hears while attending the U.S. Conference of Mayors meeting here are opinions on how best to solve their problems. For instance, 10 mayors were asked the following question: "What is the most serious problem facing your city today and how can it best be solved?" Here are their answers:

Sanford Government Is Weak - Langford  
 Langford said that presently the mayor of Sanford is only a dignitary to serve at official occasions or be named in a suit when the city is sued. The Orlando official suggested that the mayor should be allowed to appoint the city manager on the confirmation of the City Commission.

MRS. ARTHUR D. SMITH, presented on behalf of the Geneva Garden Club, a check in the amount of \$105 to Clifford Holby, president of the Geneva Citizens Association. Plans are underway to install a new roof on the Geneva Community Hall at this time with the contract being let to Robert Yates. Work will start on July 15 and is expected to be completed within a month. (Lis Mathoux Photo)

# Athletics Tops Choice At Meeting

arose over Oviedo for submitting a bill for \$3,500 for lease during the year of Courier Field. Payment had been deferred since the board had not given official authorization. After much discussion, it was brought out that there had been no formal voting action taken by the board on the matter, and was only a "gentleman's agreement." Board attorney Douglas Stenstrom opined that in the absence of official action, state auditors might give adverse criticism if payment were made. He went on to say that the state says that unauthorized expenditure of funds must be repaid by the individuals involved. Stenstrom also said that "these things are being watched more closely than before." The problem is compounded according to Stenstrom, since three entities are involved and there is a question as to whether the athletic field could be legally leased to the board since there was a reverter clause in the contract and it was limited to use by Oviedo youth. Stenstrom said the board had a complicated problem, to which Ray Sileo said that all students were a problem and gave the piece of resistance with the statement "We are spending more time on

stadiums than we are on educating the kids."

William (Bud) Layer appeared asking to be placed upon the agenda for the next meeting on June 29 relative to salary increases for school personnel. The increases were made possible due to action of the state legislature in allocating all race track funds, with the exception of the Port Authority, to the school system.

Mrs. Nancy Bowers, representing the League of Women Voters, said that the league will sponsor a public program on June 30 upon the "Middle School." It includes teachers and parents will be involved, according to Mrs. Bowers, and if sufficient interest is indicated follow-up programs will be presented. Mrs. Bowers said that the middle school was considered a "progressive approach to education in Seminole County."

Personnel recommendations by Supt. Jim Angel were approved as follows: Edward Buckner Jr., Assistant Principal Seminole Middle School; Curtis Hughes, Dean of Students South Seminole Middle School; Tom Roll, Assistant Principal Lyman High School; James Geiger, Assistant Principal Lyman High School.

Langford said that presently the mayor of Sanford is only a dignitary to serve at official occasions or be named in a suit when the city is sued. The Orlando official suggested that the mayor should be allowed to appoint the city manager on the confirmation of the City Commission.

Langford also suggested that civil service appointees who have been recommended to the City Commission for approval, such as the city clerk, are narrow in scope, since the city cannot go outside the auspices of the Civil Service Board recommendations for appointments. Continuing his remarks and stating that he was not in Sanford as the mayor of Orlando suggesting change but as an invited speaker on Sanford's form of city government, Langford criticized Sanford's charter reference to zoning approval. Langford said that all officials serving on these boards are appointed and he feels that this is not giving the citizens a "fair shake."

Langford then suggested that the final voice of authority on zoning appeals should be the elected City Commission.

Concluding, the Orlando official stated, "Surveys show that in cities under 50,000 people the strong city manager type of government works best."

MRS. ARTHUR D. SMITH, presented on behalf of the Geneva Garden Club, a check in the amount of \$105 to Clifford Holby, president of the Geneva Citizens Association. Plans are underway to install a new roof on the Geneva Community Hall at this time with the contract being let to Robert Yates. Work will start on July 15 and is expected to be completed within a month. (Lis Mathoux Photo)

# Parents Should Participate Jointly In Miracle Of Childbirth

**Expert Says:**

By JOY STILLER  
AP Newsfeatures Writer  
NEW YORK (AP) — "Giving birth is one of the greatest moments in a woman's and a couple's life. By encouraging 'family-centered maternity' we give the husband and wife a chance to be together during labor and delivery," says Elizabeth D. Ring, who has taught thousands of parents the Lamaze method of prepared childbirth.

Prepared childbirth pays extensive dividends physically, psychologically and emotionally. Believes the Berlin-born physiotherapist who helped pioneer the Lamaze method in this country during the past decade. She still lectures extensively on the technique, which she teaches at Flower 27th Avenue Hospital here and privately.

Because Mrs. Ring received so many enthusiastic letters from couples she has taught, she felt she should share them. The result is a book, "The Adventure of Birth: Experiences in the Lamaze Method of Prepared Childbirth," which she edited. It is a compilation of 40 first-person accounts by mothers and fathers describing the excitement of actively participating in the birth of their child.

"Educating the husband and wife and letting them work together does something for the whole family relationship you can't put in statistics," she says, enthusiasm for her "cause" showing in her soft voice. "It wasn't a bad marriage but it makes a good marriage even more meaningful."

"It's better for the baby too," she adds. "Through correct training and actual participation of the mother we can reduce the amount of medication that would otherwise be used in labor. We're concerned about the condition of the fetus and it's safer to give the least amount than the maximum amount of medication."

"Natural" childbirth, she feels, is a bad term because people think it means primitive childbirth, without medication and just suffering through. Of ten medication is needed and it is provided.

"We don't promise painless childbirth but reduce pain by the techniques used," explains Mrs. Ring, who authored an earlier book, "Six Lessons for an Easier Childbirth," and who co-founded The American Society for Psychoprophylaxis in Obstetrics.

ASPO, as it is known, is a nonprofit educational institution set up in 1960 to provide instruction, and to train and accredit teachers in the Lamaze method. Initially used in Europe in the 1950s by the late Dr. Fernand Lamaze, it differs from the "natural" childbirth advocated by the late Dr. Grantly Read. But, Mrs. Ring says, "there is no animosity between us at all. Both aim at the same goal—better obstetrical conditions and making childbirth a better experience."

"Read says having a baby is a normal physical process and shouldn't hurt; that ignorance, tension and fear cause pain which wouldn't exist if the woman is taught to relax," Mrs. Ring explains. "Lamaze says labor is a situation of stress that likely to be painful, so let's do something about the pain."

This is done to a large extent by breathing techniques which the woman in labor synchronizes with contractions. The intense disciplinary training is given in a six-week course starting about the seventh month of pregnancy. In the weekly sessions, attended if possible by the husband, the physiological and anatomical changes during pregnancy, labor and delivery are explained.

Then come the breathing techniques used in labor and delivery—three different kinds: Slow, deliberate chest breathing, six to nine breaths a minute

—As contractions get stronger a shift into shallow, faster panting like breaths in 4-4 rhythm

—Still another rhythm, six short pants and a blow.

In addition to alleviating the pain through proper breathing, there's a psychological factor, since the focal point is on the mechanics of technique rather than on exploring pain.

Through ideally husband and wife should work as a team, with the husband giving commands and breathing along with his wife if she fathers, it's possible to use the method without him, since nurses familiar with the procedure can give support.

"But even if a husband isn't enthusiastic at first, in spite of himself he usually gets involved and afterwards can't stop talking about the experience," Mrs. Ring points out. "We get couples back for refresher courses when they have their second and third child."

Availability of the Lamaze method is almost nationwide now, and ASPO has 16 chapters and 26 affiliates.

Mrs. Ring's business-husband, Fred M. Ring, is "terribly involved in my work and awfully good about doing the dishes when I have to dash off to a lecture. They have a son, Peter, 13, for whose birth she used the Lamaze method which she had studied and taught before becoming interested in Lamaze's technique.

**Culinary Capers**

**GRAPEFRUIT Grog**  
Cranberry grapefruit grog is full of flavor and vitamins. Combine 1 pint of cranberry juice cocktail, 1 cup each of unsweetened grapefruit juice and orange juice, 1/2 cup of granulated sugar and 1/4 teaspoon of allspice in a saucepan. Bring to a boil. Four into mugs and garnish with sliced apple or cinnamon sticks, if desired. Makes 4 (1-cup) servings.

**LEMON FRANKS**  
New York's lemon franks are prepared in a heavy sauce and served with a mustard. Cook over medium heat five minutes, stirring often. Add 1 cup of water, 2 tablespoons each of lemon juice, vinegar and brown sugar, 3 tablespoons of Worcestershire sauce, 1 tablespoon of salt and 1/4 teaspoon each of pepper, paprika and dry mustard. Cover and simmer over low heat 10 minutes. Meanwhile, simmer 1 pound of frankfurters in water for 10 minutes. Drain. Slash frankfurters diagonally in several places and add them to sauce. Continue to heat them for 10 minutes. Makes 4 servings.

Dear Abby:

By Abigail Van Buren

DEAR ABBY: What do you with a husband who, when reading, finds something he thinks is interesting or amusing, and so he starts reading it out loud? It doesn't matter if I am reading something else, or writing a letter. I haven't been able to read him of this habit.

DEAR ABBY: My neighbor across the way keeps standing in his window stark naked. I do not catch accidental glimpses of him in this state. He actually parades around that way hoping to be noticed. I have reported him to the police, and they have even SEEN it themselves. But they say he is in his own home and there is nothing they can do about it. I think he needs some medical attention. He has a wife and children, but he does this while they are not there. Do you think I should tell his wife? Or should I speak to her myself? I don't know the wife very well, but I will speak to her if you think it might do some good.

Horoscope Forecast

FRIDAY, JUNE 10, 1978

GENERAL TENDENCIES: Until mid-afternoon today's aspects are fine for whatever concerns an interesting new project that requires you to be very organized and to consider how you can advance in the late afternoon and evening. This could cause separation problems. The best.

7:30-8:30 ABC Animal World
Jaquara are the largest carnivorous cats in the western world and the most vicious and feared of all animals in the Central and South American jungles. And yet, this program manages to inject some small humor into the bloody predator's daily routine. It was filmed in Mexico's Yucatan Peninsula where we see the big cats encountering a half dozen other animals ranging from the capybara a now-extinct first cousin to the common rat to an eight-inch thick box constrictor. Bill Burrud narrates.

TV Time Previews

10:11 NBC The Dean Martin Show
Charles Nelson Rayley's comedy steals much of the show although there's tight competition from Frank Sinatra, Jr. and Dean Martin in a duet to "Darn It, Baby, That's Love." The funniest is at his best as a fastidious greeting card salesman getting a hard time from Dino. Duddy Dean and daughter Deana also join Frank Jr. with "The Glory of Love." Added guests to non-singing roles are Ellie Sommers and Don Rice III.

### Nixon Proposes Increase Atomic Fuel Cost Hike Opposed

By JOHN B. LENIHAN, Associated Press Writer  
WASHINGTON (AP) — A Nixon administration proposal to hike the price of atomic fuel has drawn stiff congressional opposition on grounds it could raise electric bills for everyone who owns a light bulb and lead to a private monopoly of the atomic energy.

The complex issue concerns the administration's proposed 10 per cent increase for uranium enrichment services, presently performed exclusively by the Atomic Energy Commission.

"You'll see the price go up on every kilowatt of power in the United States," Chairman Carl Albert, D-Calif., said today at a hearing of the Senate House Select Atomic Energy Committee.

"Not only is the inflationary impact on the consumer in itself horrid, it sets a horrible example for every other industry," said Sen. Albert, D-Tenn.

The AEC argued the cost hike would justify establishment of a model plant to provide private industry with the know-how to enrich uranium.

The Atomic Energy Commission, which already has approved the hike, added the price boost will be justified on grounds of increased costs.

Hoffstadter and others charged the model plant concept eventually would lead to the private takeover of the three government-owned plants now performing the task.

The three plants are located at Paducah, Ky., Portsmouth, Ohio, and Oak Ridge, Tenn. One of these presumably would be used to instruct industry techn-

### SR426 Improvement Promised This Fall

By FRED VAN PELT  
OVIEDO — Neglected road-wise for many years, little Oviedo is about to move over to the winning side of the ledger. Two highways leading into this southeast Seminole County community have been widened and improved by the state — 320 and 426, both from the south — within recent years. Next on the work agenda is 426 to the north, to Geneva.

C. A. (Bill) Benedict, DeLand resident engineer of the State Dept. of Transportation, announced yesterday noon that his office will ask for bids in September or October for the widening and paving of SR 426 between Oviedo and Geneva.

This highway recently was improved between Oviedo and Goldenrod, SR 520, on which Florida Technological University fronts three miles south of Oviedo, also has been improved.

Only road through Oviedo now needing improvement is SR 419, from Five Points to Chuluota and beyond.

Benedict made his announcement at a meeting of the Greater Sanford Chamber of Commerce long range planning committee, of which Vernon Mize is chairman. Also attending were county commissioners and Oviedo city councilmen.

Major discussion was held on improving SR 419 between Five Points and Oviedo. Benedict said that improving of the present right-of-way is included in the 1972-73 budget and acquisition of right-of-way for widening and alignment is included in the 1973-74 budget.

Consensus was that improvement of the present right-of-way would delay widening and alignment for another 10 years.

County Commissioner Greg Drummond recommended that "we should make up our minds now what projects we want and go after them," rather than merely discuss what is needed and should be done.

County Commissioner Robert Parker recommended that the county improve Red Bug Road, for FTU students' use, until such time as the state can take it over as an arterial highway.

It also was brought out that \$300,000 will be required to improve the interchange at SR 436 and I-4, primarily for the purchase of right-of-way.

## Pretty Ex-Mayor Winning Battle Fly-Slapper Slaps 'City Hall'

By MARION BETHUA  
Thomas Jefferson once said that "as long as the press is free and men can read, all is safe." This was often illustrated yesterday, according to Mrs. Irene Van Epoual, controversial ex-mayor of North Orlando, who has been "fighting city hall" in a battle to eliminate breeding of stable flies at Seminole Turf Club.

Mrs. Van Epoual told The Sanford Herald that Ron Harrell, who produces graphic arts at WDBO television, had become interested in the problem as a direct result of news stories upon the problem which were carried by The Herald.

### Youth's Death Probed

A 16-year-old Sanford youth was found dead this morning at his home in Southside Fl. at 11:30 a.m. The victim was a friend who had stopped by to take him to summer school.

The dead youth was identified by Sheriff Lt. Roy Rice, as Stanley Bryan Sales, who attended Seminole High School. Sales was found around 7:15 a.m. this morning in a bath-

room at his home with a gaping wound in his head. Found in the bathroom sink was a .32 caliber pistol.

Sheriff's investigators were still on the scene located just off SR 464 several hours after the discovery of Sales' body.

Coroner Robert E. Carroll pronounced the youth dead and the body was taken to the Seminole Memorial Hospital morgue, according to Sheriff's Captain J. Q. Galloway, an autopsy will be performed.

A thief who apparently likes money rifles, radios and candy bars was being sought today following a breaking and entering.

### FBI Solves Truck Theft

Advise today of the recovery of five Ford tractors and four 40 foot Gindy trailers on the eve of June 17, 1970 by agents of the FBI and Florida Department of Law Enforcement.

The trucks, valued at in excess of \$100,000 which were reported stolen from Arnold Graphic Industries Inc., Hays, Mo., on May 21, 1970 were located by FBI and FDLE agents armed with a federal search warrant at Ft. Plying Seminole Ranch, Fla. 419, Seminole County, J. F. Santorana Jr., Special Agent in charge FBI, Tampa, said the trucks were hidden in a partially wooded area near the south end of the grass runway of the airport known as the Flying Seminole Ranch.

The incident happened between 9 p.m. Wednesday evening and 3 a.m. Thursday morning. The burglar broke a lock on the rear of the truck, and the access to the house was gained by removing jalousie windows.

What's been happening is that Smith has been retrieving these gloves after the excited youngsters depart from the ball diamond.

### One-Woman Project Milk Sent To Orphans

By CHARNER LEONE  
(First of series)  
There are 400 children starving in the Anlac orphanage near Saigon in South Vietnam. And in Lake Mary, Florida, there is a young lady who is doing her best to do something for these children.

"Donating money wasn't enough for me," she said seriously. "I wanted to help more actively." The 21-year-old with cropped blond hair, a student at the Seminole County School of Practical Nursing, is "doing her thing." And 400 children, half a world away are the beneficiaries.

Sharon Jenkins, daughter of Mr. and Mrs. John Jenkins of Lake Mary, is collecting Similk with iron, a powdered milk with a high iron content, often used as a formula for babies.

"One of the biggest needs for the children is for more iron in their diet. They are dying from the lack of it," she said simply. "This is a Lake Mary effort," she stressed. The Similk bought with funds donated from citizens of that tiny community, located south of Sanford, will be stamped "From Lake Mary, Florida." But others are welcome to contribute!

Sharon is collecting donations so that she may purchase the Similk or the actual cans, which may be bought in food or drug stores. "We'd like the (spks for the 400 children) be happy to accept the cans bought by the individual, or I will accept donations and buy the Similk at a wholesale price." Sharon, behind her "granny glasses" is a quiet and a (Cont. on Page 1B, Col. 4)

### County Eyes Car Speeds And Signs

Speed limit signs and hours within school zones came under consideration at a meeting of Seminole County Commissioners. Discussion was upon signs at Dodd Road and Howell Branch Road, and reduction of speed limits on Howell Branch Road from SR 436 to SR 426.

Speed limit signs and hours within school zones came under consideration at a meeting of Seminole County Commissioners. Discussion was upon signs at Dodd Road and Howell Branch Road, and reduction of speed limits on Howell Branch Road from SR 436 to SR 426.

### Eckerd Opposes Canal

By TOM ALEXANDER  
Slabbing at the Florida barge canal, Republican gubernatorial candidate Jack Eckerd came to Sanford yesterday, and at a coffee reception urged that construction be stopped on what he termed, "the big ditch."

The coffee reception was held at the residence of Howard Harrison Sr., on Park Avenue. During the meeting with local supporters the Florida County drug magnate said, "I think the cross-state barge canal is economically and ecologically unfeasible."

Continuing in his assault on the canal, Eckerd said, "The canal will be antiquated before it can pay for itself."

Continuing in his assault on the canal, Eckerd said, "The canal will be antiquated before it can pay for itself."
