

Cards To Send Man Here, To Close Deal With Blues

Representatives Slated To Arrive In Sanford Some-time During Week

By KENT CHETAIN
Negotiations between the Seminole Blues and St. Louis Cardinals headed toward a successful conclusion when the Red Bird Farm Director, Mr. Mathes, wrote Bill Parry John D. Callahan that a Cardinal farm representative will be dispatched to Sanford this week to complete final arrangements for the proposed working

John Imbra Joe Parise
negotiation between the two organizations.

Visibly pleased with the progress in consummating the proposed Cardinal alignment, Callahan stated, "We have come to tentative terms with the Cardinals and they are sending a man here to discuss some minor matters, or clarify some questionable points, and submit a contract for our signature."

The latest twist to the revolving series of negotiations came in a form of a letter from Mathes, Cardinal minor league farm director, which informed Callahan that since both parties were in agreement as to the terms of the original contract submitted, the Cardinals would close the deal by sending a representative to Sanford for final discussions and signing of the working agreement for 1953.

The Cardinals have reason to believe that they will field an entire team for Sanford next summer," Callahan began. "They will train the players at their Albany, Ga., farm camp, but we will have to carry the training expense for them, which will probably eat up most of that \$500 per month allowance.

"However, if they release one of those players, they will pay us for them at the end of the season." This will leave the door open for the Blues to dispose of such high salary players as John Imbra and Joe Parise, not to mention George Rivera, Martin Byrd, George Jones and "Chico" Fundora. If Dominic "Yogi" Petruccino ever returns to organized ball, he can be sold at a commanding price and Jesus "Chico" Corrales will eventually be out of the Army and might be sold at a later date.

The sale of one or all of these performers would help the Blues to pay off some of last year's debts, which can be settled up for \$4,000.

Callahan expressed confidence in the forthcoming deal with the Cardinals. "We have agreed to their terms almost entirely and I am sending a man down here to complete the deal, so I think that you can almost be sure the deal is complete." However, he cautioned, "We must not be too overly confident, since the deal is not complete until the contract is signed by both parties."

It cannot be told definitely when the St. Louis Cardinals representative would arrive, since no arrival date was given in the letter from Mathes to Callahan.

Boxing Results

FIGHTS MONDAY NIGHT

By The Associated Press
SAN FRANCISCO — World Light Heavyweight Champion Archie Moore, 178, St. Louis, stopped Leonard Dugan, 200, Oakland, (8, non-title).

MONTRÉAL — Armand Savoie, 138 ½, Montreal, outpointed World Lightweight Champion Jimmy Carter, 134 ¼, New York, (10 non-title).

BROOKLYN — Bob Baker, 204, Pittsburgh, outpointed Cesar Brion, 200 ¼, Argentina, (10).

CHICAGO — Joe Ludansk, 161,

Jones Drives For 300 - Point Mark With 249 Total In 14 Games

Oviedo "Swish Kid" Holds 101 - Point Bulge Over No. 2 Scorer, Driskill Slated To Arrive

Remaining: John Jones Oviedo's 15-year-old cage wonder, now his eight-point lead toward the 300-point mark for the current cage season and it seems reasonable that before the curtain falls on the 1952-53 season, he will have attained that lofty figure if not made an unassailable record in his bid for the 400-point mark.

Jones paces the Seminole County prep scorers with 219 points this season in 11 games and the Lions have two more who've got the Sea Birds' second basement.

He could have won the pennant last year with a good double play combination. Manager Red Treadway claims—and the matter is just as important this year.

A short time ago Treadway announced he had traded even with Leesburg in the Class C Florida Conference tournament in Mount Dora beginning tomorrow and the Wiesards group tourney still to be played.

Figuring that Oviedo will play at least 20 games before the season ends Jones with his robust 178 average per game can add almost 100 more to his 125 absolute

points to 230.

Then Leesburg said they had fired Latshaw for not reporting on time and had acquired the services of Red Dunaway, former catcher for the Gainesville G-Men.

Surprisingly, Dunaway said the Robertson Fingers were still in town.

Latshaw next said Leesburg owners were not in their contract privileges when they fired him.

In Baltimore Monday night, he said the difference arose over his refusal to leave an off season job with an oil company there and return to Florida to sell advertising.

Dunaway, 25, has 75 points in 10 games. Coach Paul Miller is going to rest his hopes with Warren Mac McCall, a rebound from Seminole High School who has been

dropped into his own late.

OVIDE BEACH LOSSES "CHICO" FUNDORA IN LEESBURG ROW

Latshaw Made Deal But Was Fired By Husebo Brothers

OVIDE HOPE TO REST ON SLAYTON, MCCALL AND JONES

Having drawn a bye in the first round of the Class C Central Florida Conference tourney, Oviedo will wait until Thursday night to play the winner of the Clermont-Groveland clash in the second round.

The Lions from Oviedo are undisputed favorites to win this year's CFC title since they have not been defeated by CFC play, holding a gaudy, 11-0 loop mark.

Besides, the Ovidians have a

178 average winning streak on the line.

Johnny Jones with 219 points is the big man on the Lion quintet.

Walt Duda is home but whether he can play or not is still a question mark.

Harvey Joe Slayton, giant 6-foot-3 junior, has been ably filling in for Duda. Slayton is the No. 2 Oviedo scorer now with 90.

Jones with 219 points is the big man on the Lion quintet.

No. 128

Controls Are Lifted From Drugs, Butter

Dairy Products, Cosmetics And Service Charges Affected By OPS Order Today

WASHINGTON (AP) — The government today lifted price controls from milk, butter, ice cream and other dairy products. Drugs, cosmetics, coal and food service charges, such as for auto, radio and television repairs, also were freed from controls.

Price Stabilizer Joseph Freshill said all items decontrolled in the new list affect about 10 per cent of the articles used in making up the cost of living index. He said the Office of Price Stabilization still will control over 90 per cent of the items and partial control over about 3.5 per cent.

Missing from the list was cigarettes and other tobacco products on which OPS had planned yesterday to lift controls. The agency decided overnight to substitute milk and dairy products and also margins for the tobacco.

This was the third major action in stripping off price controls since President Eisenhower called for ending controls in an orderly manner April 30.

Freshill estimated that more than \$2 billion worth of goods and services based on an annual business volume was affected by today's action.

Freshill predicted at a news conference there would be price increases for many of the newly exempt items. He mentioned higher charges for services, some spotted increases in food and dairy products, and general raises for many types of building materials.

Among major commodities and services decontrolled in the new list, effective at once, are:

Lumber, wood products and related services, including such things as plywood, poles, wallboards and shingles. This industry is estimated as doing six billion dollars of business yearly at the manufacturers level.

Coal, all other solid fuels and related commodities such as coke, briquets, and coal chemicals such as coal tar, creosote oil and tar bases. Freshill estimated coal and gas sales were around five billion dollars a year.

Drugs and cosmetics, including all medicines, toilet preparations, dentifrices and pharmaceutical products. Freshill estimated the drug industry does three billion dollars of business at retail annually, with the consumer industry doing one billion dollars.

All consumptive services except laundry, dry cleaning and linen and diaper supply services. Services affected by the action include fees for parking lots; automobile, radio, television and appliance repairs; warehousing docks; and terminal fees, rental charges for cars and admission to sports events.

George Named As Purchasing Agent For County Board

William (Billie) George, Sanfor, was hired yesterday afternoon by the County Board of Commissioners to fill the newly-created position of purchasing agent for the County Road Department.

In time to act in the purchase of the new office, Mr. George is to be a permanent citizen, performing other duties such as bookkeeping and timekeeping.

Salary for the job was set at \$10 per week for a trial period of six months. Should Mr. George prove to be satisfactory in the job at the end of this period, he is to be given a raise.

The job was accepted by the Commission at a recent meeting.

The Commission instructed the County attorney, Senator Lloyd Boyle, to write to the City Commission and inquire about a "deed-in-lieu" in the condemnation suit which is to be filed against the French Avenue widening project.

The Commission also instructed that a copy of the letter be sent to Voile Williams Jr., who is acting as rights-of-way agent for the City.

The County has agreed to provide a maximum of \$25,000 for the project. It was said at the meeting yesterday the County has other ways to raise money and the Commission could understand the cause for the delay.

The Commission turned down the request of Sheriff J. L. Hobby for the installation of radio equipment in his office, at a cost of \$2,000. The sheriff wanted transmitting equipment so the sheriff's office to supplement such equipment at the City Police Department.

The County Clerk, O. P. Henderson, was instructed to advertise for four, two-ton dump trucks with three-yard capacities.

A bidder for the office of the Commissioner of Public Instruction was approved. The bid came from a firm of four men in Lake near the Big Tree. The bid is being planned for issuance on Overstreet property.

Public Invited To Organization Meeting Of Sanford Industries, Inc.

All those interested in seeing Sanford go forward in its drive to attract new industries and new migrants to this community were urged today to attend an organizational meeting of Sanford Industries, Inc. at the Court House tonight at 8:00 o'clock.

Pointing out that Sanford has already virtually secured one new industry employing 1,000 persons in the form of a boat building concern largely through the personal efforts of Ralph Cowan, who has spearheaded the movement so far, George Williams, secretary for the Sanford Industrial Board, commented on how much more we could expect to accomplish if an efficient organization is formed along these lines.

Tonight's meeting, he said, will see the adoption of the by-laws by the stockholders of Sanford Industries, Inc. as well as the election of a permanent board of directors and permanent officers, including a president, vice president, and be selected, Mr. Williams stated.

Kiwanians Told About Freedoms At Today's Meet

Evangelist Relates Experiences With Soviet Censorship

"Democracy to be alive must have rootage in God," declared Dr. Roger T. Nook in a talk entitled "Dynamic Democracy" delivered at the regular luncheon meeting of the Kiwanis Club at the Yacht Club today.

Dr. Nook is holding a revival at the First Christian Church this week and is a native of Wilmore, Ky. He holds an AB degree from Transylvania College and a DD in Theology from the College of the Bible, Lexington, Ky.

Problems of the American people were discussed by the visiting evangelist. He cautioned against permitting freedom of speech to such an extent that it becomes a license to libelate things that are not true of others.

He told of living in many countries where press was censored, and where newspapers that did not print what were ordered to use were suspended.

In discussing freedom of religion, Dr. Nook said that when he was in Russia he saw many churches being closed to the public, and pointed out for special mention one church in Leningrad which was rechristened as being atheistic.

He told of living in many countries where press was censored, and where newspapers that did not print what were ordered to use were suspended.

Proceedings were started this morning in Circuit Court in the damage suit for \$25,000 against Petit Paris.

The visiting evangelist urged all the service club members to be workers for a dynamic democracy. "By building citizenship in communities and throughout the nation, you shall build for yourselves a more stately mansion," he concluded.

Dr. Nook was introduced by (Continued on Page Four)

Cuckoo Clock Needed By Theater Guild

Has anyone a man's raccoon coat, a cuckoo clock on a small antique marble-top table they would be interested in lending the Sanford Theater Guild for their current production "Cuckoo on the Heart"? If so, they are requested to contact Mrs. Frances Thomas, Box 17, 75th Street.

Members of the jury are George W. Carver Jr., George W. Miller, Manuel T. Jones, John E. Baker, John C. Lodge and Morris G. Hodge.

Proceedings of the case were continued again this afternoon after a recess for lunch.

Firemen Have Busy Time With Minor Fires

Like the old saying, "things come in bunches," so it is with fires. At 2:25 yesterday afternoon City Firemen answered a call at the Valder Hotel for an electrical fire. In the second act, the fire was filled—over for a man and one woman. Anyone interested in these parts is asked to drop in during rehearsal nights, usually Wednesday and Friday, at the Guild buildings, Ninth Street and Laurel Avenue. Due to the flu epidemic, rehearsals have been troubled with absences, but after a break of only one-half hour, it is hoped that the rest will be clear sailing.

The entire membership has worked on the sets under the direction of Mrs. Rousillat and they are practically complete and all props are lined up except the three items mentioned herein.

TELEPHONE PIONEERS

The life member club of the Telephone Pioneers of America will hold an all-day meeting tomorrow at the Chamber of Commerce luncheon meeting in the Yacht Club tomorrow.

Mr. Milwae, slated to speak at the Jaycees at last Thursday's meeting but had to cancel the engagement because of an attack of

flu.

All members of the club as well as any telephone pioneers are invited to bring their own basket lunch, Mr. Turner stated. Card games and a business meeting will highlight the day-long program of activities.

Sending Deserters To Korea Receives Holland's Support

WASHINGTON (UPI)—Sen. Hollis (D-N.C.) said today he feels the Army is "right" in sending deserters to Korea.

Hollis expressed this view in response to a letter from Sen. D. Rustin of the Grace Methodist Church, St. Augustine, Fla., who urged him to oppose the bill.

In his reply Hollis said:

"I believe there is a misund-

standing about the clear-

"Generally speaking, all

of us

deserters are

sent to Korea."

During the war, Hollis said,

the Army would "eventually

apprehend such deserters, court

them, and then

have them

punished or

expelled from

the United States."

"You can see that actually such

a person would succeed in his

endeavor to evade overseas duty and would remain

service instead of facing the

enemy."

Army officials stressed that

the deserters

were

violently opposed a policy

of repatriation.

Mardi Gras Is Officially Over As Climax Is Reached

NEW ORLEANS, La.—The end of

Mardi Gras revelry and the begin-

ning of Lent was marked

Mardi Gras, its merrymaking

ended last midnight and the devout

began preparing spiritually for

the Lent.

But, while Mardi Gras may be

over, the revelers from all parts of

the world lauded, cheered and

spotted along the parade route of

Holy Week of Miracles.

The veteran Tennessee coach

who turned 81 yesterday, has been

in New Orleans since last Sunday

when he had been re-

united with his wife,

Dean W. Dougherty, chair-

man of the board, and

said a meeting of the board would

be held next Monday to discuss

the future of the school.

Dougherty emphasized that Ney-

land, who became head at ce-

ntral in 1929, is asked to be

re-elected for one more year.

The deserts around the Red

Hut, while Mardi Gras had

been almost no rainfall, had

to provide a hot, moist heat,

soil conservation.

New Canadian Jet Is Packed With Power

TRENTON, N.J.—The Royal

Air Force says it has

successfully completed firing tests

on a new jet fighter carrying 28

missiles.

The CAP officials were unable to

find a source due to the where-

abouts of the unknown sponsor.

According to Deputy Ensign

John C. Enders, the plane is

about 100 feet long and 30 feet

wide.

The plane, the Mark IV version

of the "improved" model of an earlier Can-

adian aircraft which was armed with

missiles.

Blues Will Hold Reorganizational Meeting Tonight

7th Graders Edge Grammar School, 13-9, In Tourney Opener

Walter Shannon Of Cardinals Will Be Here Saturday To Consume Deal

By KENT CHETLIAN
Directors and stockholders of the Remington Blues will hold a re-organizational meeting tonight to appropriate the assets of Wal-ter Shannon, St. Louis Cardinal farm representative, who is slated to arrive here Saturday to sign a working agreement with the San-ford club for 1953.

The Blue officials will meet in the studios of WTRH at 8:00 p.m. this evening to form a new

Denver Cordell A. E. Yowell board of directors, considering expanding the board from five to seven active members, and discuss the sale of more stock in the team. Blue President John P. Smith said:

In announcing the meeting yes-terday, Callahan reported that Cardinal farm director Joe Mathes had just written to the club in-forming them that since both par-ties were in agreement with the working agreement terms offered by the St. Louis club one week ago, the Cardinals would let Shannon complete the deal.

The Card representative is due

in the Celery City on Saturday to make final arrangements, conclude last minute details and submit the working accord for the necessary signatures.

The Blue-Cardinal pact calls for St. Louis to furnish a complete and equal number of players and coaches to help with training the Braves at Albany, Ga., in the Can-did farm loan training camp.

The Blues will be directly con-nected with Columbus of the Cle-A-Bus League and players will be shifted between the two clubs. Besides electing a new board of directors, the Seminoles club will consider selling their 30 remaining shares of stock under the 50 limit of non-subsidiary cor-poration limit. Currently, 12 shares are held by the directors and seven other stockholders.

Ticket sales will be reported and discussion of player sales will al-so be considered, Callahan stated.

"We also must form a committee to discuss with the routine work which I planned immediately hand," he added.

The present board of directors consists of President Callahan Vice President J. C. Davis, W. G. Kilke, and City Commissioner Denver Cordell. The seven other stockholders are H. B. Price, Al Lee, H. H. Coleman, M. L. Robins, G. G. Krohn, T. S. Crowley, and Zeb Ratliff.

Tug Rushes Aid To Yacht In Distress In Bahama Waters

Ten Persons Including 3 Little Girls Reported On Board Stricken 83-Footer

MIAMI, Fla. (AP) — An 83-foot American yacht with 10 persons aboard, including three little girls, was reported aground and in distress off Nassau, Bahamas, today.

A rescue tug was rushing to her assistance from Nassau.

The Coast Guard identified the yacht as the "Caitlin," owned by Lawrence J. Holland, Jr., New York.

A radio message reported the yacht was "taking quite a beating and we expect to have to abandon ship."

The "Caitlin" was aground on Frasers Hog Key in the Berry Island group about 30 miles north west of Nassau. Easterly winds were high and seas were rough and many seas were breaking over the deck.

The yacht left Miami Feb. 4 for a month's cruise in the Bahamas and a visit to Jamaica.

Aboard her were Newton H. Crowley, 42, Elmo, New York, wife Frances, Fr. Crowley, 39, and their three daughters, Janice Lee, 12; Linda Jean, 10, and Peggy Fran

cie and Goldie.

Immigration authorities listed crew members as Thomas Malone, Nassau; Alfredo DaCosta, Miami and John Charles Dennis, Las Gatos, Calif.

The yacht, a recommissioned Coast Guard cutter, was en route to Miami's Atlantic Yacht Show.

Authorities at Nassau were alerted immediately. Efforts to reach the yacht by radio from Nassau were not successful.

The tug Nassau was sent to the area to search for the "Caitlin." No Harbor Master R. A. Russell.

Authorities said it was possible the yacht's engine room might have been flooded, preventing further radio communication.

Naval Planes Join Search For Missing Fisherman In Lake

Naval planes from the Sanford Naval Auxiliary Air Station joined in the continuing search for John E. Hendricks, 33, a sailor missing conservatively who disappeared Tuesday while setting fish traps on Lake Mills, near Chalfont, Sherriff C. L. Hobby reported, after noon today.

This morning planes from the Sanford Air Station combed the 400 acre lake from the air, without a sign of the missing Orlando employee of the U.S. Department of Agriculture.

The continuing search reached its 10th day this noon without a single trace of Hendricks, a nephew of former U.S. Congressman "Little Joe" Hendricks, of Defuniak, Sherriff Hobby said.

The Seminole County Sheriff is holding up the joint search because he fears that if it might take a week before they can find Hendricks.

"The trouble is that we don't know where the boy went down," Hobby explained. "We may have to drag every inch of the lake. He has might rise to the surface again."

Hendricks was believed to have drowned when he plunged his flat boat into a hole in Lake Mills about noon Tuesday and was last seen by Mr. and Mrs. Homer Hobbs, residents of the "Hobbs" Ranch where the missing man launched his boat as he left for Orlando.

Hendricks lived with his wife and two children, Allen and Alice, at 2109 Valencia Rd., Orlando.

Court Must Decide Tunel, Bridge Issue

TALLAHASSEE (AP) — Approval of a proposed 18 million dollar bond issue to finance a system of bridges and tunnels in Broward County now is up to the State Supreme Court.

State attorneys from Broward and Leon counties Wednesday filed an appeal from an order of Leon County Judge Wadsworth Taylor upholding the bond issue.

The major question is whether the Broward County Commission had authority to pledge its share of surplus gasoline taxes to add to totals received in the future from the bridges and tunnels to pay off the debt.

Seminole Schools To Get \$135,000 Milwee Tells JC's

State Board Rules Out 2nd Survey; OKs Local Plan

The State Board of Education approved the Seminole County School Board's school building plan for an initial expenditure of \$135,000 for construction and improvements this year, Bayboro T. Milwee, superintendent of public instruction, revealed today at the June meeting of Commerce Committee of the Yacht Club.

"After presenting our needs and

plans to the State Board of Education during our recent trip to Tallahassee," Mr. Milwee said, "they readily agreed that the original survey of the county in 1947 was outmoded and then fully agreed with our plans to expand and improve our schools at Oviedo, Oklawaha and Goldsboro."

In approving our plans for school improvements in critical areas, they decided to dispense with the idea of another survey of the county," Mr. Milwee said.

Under the state Board of Education's all-inclusive system of financing county construction for overcrowded classrooms, Seminole County is entitled to \$135,000 from this fund, Mr. Milwee pointed out.

He then proceeded to outline the initial building plans for this year to be constructed with \$135,000 State money.

"Because of the increasing growth of the Lyman school district," he added, "the State approved our plans to spend \$60,000 building four additional rooms on the Lyman school that houses students from the first through the 12th grades."

Payroll Padding Added Millions To Airbase Cost

Probing Senators Unearth Racketeering On Huge Scale

WASHINGTON (AP)—Senators reported today that "payroll padding by racketeers and local politicians at a New Jersey waterfront" added millions of dollars to this nation's airbase building program in North Africa.

The organization of the newly incorporated waterfront commission has been implicated in the law of the state of Florida. However, certain Senate claims must be upheld by the Florida Securities Commission before the securities will be issued, and since the commission has been investigating the truth of all night, it is believed that more documents will be forthcoming.

Earlier, the commission had issued a temporary injunction against the sale of stock in the new corporation.

The commission has been investigating the critical need of adequate colored schools facilities throughout the county. Mr. Milwee stated that \$105,000 would be spent to construct a new colored elementary school in Oviedo.

"The colored children are present found to attend one or more classes in the same room with other classes taught by other teachers," he said.

Under this initial building program, the Goldsboro primary school would be enlarged with the construction of several buildings at a cost of \$60,000.

Mr. Milwee added that the State School Board would send some representatives next month, and that another delegation would come in September to approve further construction plans of the county school board, which would come under the new school amendment.

The third major project will be the Goldsboro primary school, which would be enlarged with the construction of several buildings at a cost of \$60,000.

Mr. Milwee said that the State School Board would send some representatives next month, and that another delegation would come in September to approve further construction plans of the county school board, which would come under the new school amendment.

The fourth major project will be the Goldsboro primary school, which would be enlarged with the construction of several buildings at a cost of \$60,000.
