10,000 REFUGEES BURNED TO DEATH

ITALY REGARDS INTERVENTION UNJUSTIFIABLE

AMBASSADOR WOODS REPORTS THAT AMERICANS IN TOKIO ARE SAFE—10,000 DEAD THERE

100 FOREIGNERS REPORTED KILLED IN YOKOHAMA SECTION

AKERMAN IS SAFE

Sends Cablegram Telling His Friends of His Whereabouts

(By The Associated Press)
WASHINGTON, Sept. 5.—All Americans in Tokio are believed safe, Ambassador Woods reported to the state department today. His estimates of the dead at Tokio is placed at only ten thousand. Communication with Yokohama has been opened. He stated that some Americans had been killed at Yokohama, where the situation is exceedingly grave. A dispatch from the American consul at Kobe, dated yesterday, said refugees from Yokohama confirmed reports that the consulate general there had been completely destroyed and Consul Kirjassoff and wife killed, but their two children are safe in Kobe. Vice Consul Sam J. Wardell at Yokohama is safe, the dispatch said, but other members of the staff are not accounted for. The dispatch added that the naval hospital at Yokohama had collapsed and Commander Webb injured, while some of his staff were killed. A report from Consul Dickover, at Kobe, said the following members of the Yokohama consular staff were safe: Misses Martin and Mason, and Vice Consuls Sturgeon Wardell. Vice Consul Jenks was reported to have been killed, the message said.

NEW YORK, Sept. 5.—Congressman Ernest Akerman, of Plainfield, N. J., whose whereabouts in Japan was reported to be unknown, is safe at Nikko, according to a cablegram from him.

OSAKA, Sept. 5.—Approximately ten thousand refugees from the ruins of Tokio were burned to death in the yard of the Military Clothing Factory in the industrial suburb of Honjo. Three persons were seen sharing a single piece of bread in Tokio where water and provisions are still scarce.

PEKING, Sept. 5.—One hundred foreigners are believed to have perished in Yokohama, says a Reuters dispatch from Osaka. The dead include the American and British consuls.

NEW YORK, Sept. 5.—All missionaries in Tokio and Yokohama of the Reformer Church in America are safe, according to a cablegram from Kobe, received by the church.

PARIS, Sept. 5.—The French ambassador to Japan, Paul Claudel, is safe aboard a steamship, the foreign office is advised. It is believed the Italian ambassador was killed.

OSAKA, Japan, Aug. 5.—So vast an area of Japan has been devastated by the greatest earthquake in the history of this country that it will be long before the actual loss of life is known. The most reliable estimate of dead up to the present reach from 200,000 to 320,000.

Tokio and Yokohama, with surrounding towns, which formed the centre of the disturbances, are almost completely in ruins. For two days Tokio was swept by flames, and apart from the loss of life caused directly through the falling of the buildings, thousands must have perished in their attempts to make their way through

GERMANY IS AT THE END OF HER TETHER

Cannot Finance Further Passive Resistance in Ruhr District.

(By The Associated Press)
BERLIN, Sept. 5.—Germany has arrived at the end of her tether, so far as her ability to finance further passive resistance is concerned. This is the current impression in banking circles, which expect Germany in the course of the next few days to take the initiative in the direction of proposing that official discussions be begun with the French and Belgian governments.

The Herald for first class job work.

Yokohama, Tokio's busy port, is a city destroyed. Probably more complete destruction has been wrought there than in the capital itself, for its great docks were torn asunder, its shipping wrecked, its public buildings and homes leveled to the earth.

All advice received here indicate a succession of earth disturbances in that area extending for many miles inland and to the north and everywhere the first destructive forces were augmented by explosions, the bursting of water mains, the overflow of rivers and the terrible overpowering rush of tidal waves.

Details of geographical changes are lacking, but it is reported that new islands have been forced up from the bed of the ocean, while whole sections have disappeared. Rivers are said to have changed their courses, and volcanoes are erupting in various districts.

The disaster spared none who stood in its path. Many members of noble families have perished, but thus far the only notable foreign resident in the list of killed is the American consul at Yokohama, Max D. Kirjassoff, who, with his wife, is believed to have been buried in the ruins of the consulate.

The American Ambassador, Cyrus E. Woods, and all the members of the embassy at Tokio are known to be safe, but many of the diplomatic representatives of other nations have not been accounted for, nor has any word been received of their fate.

The newspaper Osaka Asahi estimates the earthquake dead at 320,000, which include 160,000 dead in Tokio, 100,000 in Yokohama and 60,000 in Yokosuka. Word is received that the fires in Tokio burned out Monday night, but at the same time couriers carry appeals for food and medical supplies and assistance for the hundreds of thousands of homeless refugees, who, unless succored speedily, can not survive.

For the moment all efforts are being directed, first, to ascertaining the extent of Japan's vast losses, both in citizens and foreign residents, and material damage to its cities, and secondly, to rushing all assistance in every form to the stricken districts. There has been no time yet for summing up of the terrible consequences of the earthquake, nor for the preparation of a list of the prominent dead Japanese or foreign residents.

The warships of many foreign nations are on the seas already bringing assistance which fact serves to give encouragement to the government and the people in the greatest calamity.

IS REPORTED M'RAE HAS RESIGNED

TALLAHASSEE, Sept. 5.—Commissioner of Agriculture McRae has resigned. He plans to be connected with important developments in the state. The letter of resignation is said to be effective November 1.

Nathan Mayo, of Marion county, a member of the house in the last legislature has been appointed to succeed McRae. McRae has been in office since 1912, when he was appointed by Governor Gilchrist to succeed B. E. McLin, who died. Governor Hardee, in accepting his resignation, thanked him for his services. McRae, in a statement, in which he reviewed his terms in office, said he felt grateful to the people for electing him.

TO SETTLE DAMAGE CLAIMS TABERT FAMILY

(By The Associated Press)
GRAND PORKS, N. D., Sept. 5.—Negotiations are under way for the settlement of the damage claims of the family of Martin Tabert, of Munich, N. D., against the Putnam Lumber Co., in whose Florida camp the youth died. G. Grimson, attorney for the family announced.

The Daily Herald, 15c per week.

SHANGHAI, Sept. 5.—Deaths in Japan as a result of Saturday's earthquake number 320,000, according to the latest estimates received by the Eastern News Agency from the Osaka Asahi.

This estimate said there were 150,000 dead in Tokio; 100,000 in Yokohama; 60,000 in Yokosuka and 10,000 in Titama.

The fire in Tokio was extinguished about dusk last night.

SAN FRANCISCO, Sept. 5.—The Japanese liner Taiyo Maru, credited with being the largest steamer sailing out of an American port, sent out S. O. B. signals from a point off the coast of Japan at 4:44 a. m. yesterday, and then held a long radio conversation in Japanese with the steamer Korea Maru in Yokohama harbor, according to messages received by the navy here from its station in Cordova, Alaska.

The Korea Maru, although crowded with refugees from the Japanese disaster zone, left to meet the Taiyo and assist her, according to the Toyokien Kaisha officers here. Both vessels belong to this company.

In view of the fact that the Taiyo did not give her position in English, her plight is not considered serious by company officials here.

The great office building of the Toyokien Kaishain Tokio as well as the company's office in Yokohama have been destroyed, according to a cablegram received at the company's offices here today. The message was sent by the company's offices in Kobe.

NEW YORK, Sept. 5.—Two official messages received at the offices of the Japanese consul general today estimated the casualties in Tokio and vicinity at 160,000, with one million persons homeless. One message was relayed by the Japanese consul at San Francisco, who received his information from Shanghai. The other, dated September 1, was originally sent by Count Makino, keeper of the imperial household in Tokio to Paris. It was relayed to the Japanese embassy at Washington, thence here.

Gas derived from ash pit waste of steam locomotives is used to generate the electricity that drives a train with which a railroad in South Africa is experimenting.

Development Board Wants Modification Immigration Laws

(By The Associated Press)
TAMPA, Sept. 5.—Directors of the Florida Development Board in meeting here have instructed the secretary to investigate a modification of the immigration regulations with a view of encouraging visitors to come to the United States and also ascertain whether customs regulations can be modified so as to permit motor tourists to drive from Canada. The directors voted to submit a referendum to chambers of commerce on the advisability of asking the next legislature to levy a quarter mill tax for advertising the state and another referendum question submitting a state bond issue for roads.

GOVERNOR APPEALS FOR JAP RELIEF

TALLAHASSEE, Sept. 5.—Governor Hardee last night issued an appeal to the people of Florida to make a generous response to the request for contributions for the stricken people of Japan. The text of the appeal follows:

"To the people of Florida: "A disaster unprecedented in history has overtaken the people of Japan. At this far distance we are not completely familiar with its exact proportions. From newspaper reports however, we learn of the destruction of people running into the hundreds of thousands. For the dead nothing can be done, save a proper interment, but for the living much can be done in supplying the necessary means of subsistence.

"The president of the United States has issued an appeal to the people of this country asking for contributions for the stricken people of Japan. I hope that the people of Florida will generously respond to that appeal.

"We have had our physical disasters. Every country has had them, but no nation has ever faced so great a loss of human life and of property values as that with which Japan is now suffering. May I indulge the hope that the people of Florida will make substantial contributions to this most worthy cause.

"It is suggested that all contributions be made through the official agency of the American Red Cross, either through the national organization or your local chapter.

(Signed) "CARY A. HARDEE, Governor."

YOUNG FLORIDA WOMAN MISSIONARY IN JAPAN NOT YET HEARD FROM

AVON PARK, Sept. 5.—Apprehension for the safety of Miss Sarah Andrews, church of Christ Missionary to Japan, daughter of Mr. and Mrs. W. T. Andrews of Avon Park, is felt here by relatives and friends who have been unable to get a reply to cables directed to her at her post at Okitsu about eighty-four miles from Tokio, which was devastated by earthquake and fire Sunday.

Miss Andrews visited Avon Park last spring. She has been a missionary in Japan six years. She formerly was from Dickson, Tenn.

A. J. Leasing, of the Quick Service Transfer company, states that the Stephen S. Leasing mentioned in the above dispatch, is his uncle, and that one of his cousins, a son of the deceased, was a visitor to Sanford last winter.

DUMAS SPEAKS KIWANIS MEET VALDEZ TODAY

Today's luncheon meet of the Kiwanis Club was called to order by President Jim Sharon and the blessing invoked by Rev. Brownlee.

Forest Lake was the first speaker and told of the Good Roads meeting at Green Cove Springs next Thursday, and stated that a Clyde Line boat leaving Sanford at 5 p. m. had been chartered for the trip and that the fare would be \$10.00 for the round trip, which includes meals and berth. He appealed for a large delegation to the meeting, and emphasized the importance of this direct route to Sanford from the north. Mr. Lake stated that he believed with the proper effort and assistance promised Sanford could secure this route, and said that he had received assurances that work on the road would be started at once and finished within a year.

An invitation from the Daytona Kiwanis Club to meet with them on September 20 was received. A big shore dinner is promised and lots of good company, as the Kiwanis Clubs of both Orlando and Palatka will be there.

Prof. McKay won the attendance prize—tickets for a week's admission to the Milano Theatre.

Marshall and Moughton, in charge of the entertainment for the occasion, put up "Dad" Dumas, who made one of the best talks of his long and checkered career. Here's what he said:

"I had the pleasure of attending a meeting of the Atlantic Coast Line representatives at Savannah, Labor Day, Sept. 3rd. These representatives gathered from all quarters of the United States and I am indeed glad to state to this Kiwanis Club that Florida was presented to this body of men in a way that they will not soon forget.

"In addition to what was said at Savannah by the various officials of the Atlantic Coast Line of the wonderful resources of Florida, the greatest state in the union, these gentlemen are now taking a trip over the state striking a few high spots, to secure first hand information which is bound to redound to the benefit of the state as a whole. We expect to have this body of men with us tomorrow and it is my purpose to meet them at Orlando with automobiles, driving them through from Orlando to Sanford. On arrival here we will drive them around the city and celery fields, giving them a bird's eye view of what we have, before they take their departure on our No. 80 at 8:58 p. m. for points of interest on other parts of our line. I am sorry that time will be too short for us to attempt to entertain these gentlemen at Sanford.

"I was much amused at Savannah listening to the claims and counter claims of our general superintendents on the First and Second Divisions of the Atlantic Coast Line to the distinction of communities on their respective territories for holding the world's record of production.

SALANDRA DECLARES GREECE IS TRYING TO SIDE-STEP HER RESPONSIBILITIES IN AFFAIR

MACON DENTIST IS UNDER ARREST AS WHIPPING BOSS

TWO OTHERS HELD IN CONNECTION WITH RECENT FLOGGINGS

MACON, Ga., Sept. 5.—Dr. C. A. Yarbrough, a dentist, and J. E. Patrick, a court official, were arrested yesterday charged with assault and battery and rioting in connection with recent flogging activities in Macon. Dr. Yarbrough, the police said, is a ranking official in the Ku Klux Klan and he has been charged with holding the position of "the whipping boss of Macon."

W. F. Delmar, a salesman, was arrested last night on warrants based upon the same evidence as that in the cases of Yarbrough and Patrick.

Dr. Yarbrough, police said, is known to have been associated with J. P. Durkee, said to be the organizer of the Klan in Macon. Durkee used Dr. Yarbrough's office to hold classes of instructions for Klan candidates who wished to become "naturalized."

The three men refused to discuss the case after a conference with friends. The police declared other arrests are expected momentarily and before the matter is closed they indicated that several other arrests of prominent persons will be made.

Should Unite in Associations

in Effort to Offset Competition of California Fruit.

RICHMOND, Va., Sept. 5.—A warning to Florida fruit growers that they face the gravest competition in years from California during the next twelve months was given here today by George Mayo Crump, president of the United Provision Corporation, of Richmond, Va., who has just returned from New York City with the information that California Fruit Associations are cutting prices sharply for the coming year.

Co-operative efforts in marketing and system in production developed through co-operative system is responsible for the ability of the California growers to cut prices in an effort to beat Florida competition for volume of business.

The Florida orange growers should unite in an association strong enough to control the situation in their state, he said. They should recognize that only organization can meet with the competition which is coming.

LORD ROBERTS CECIL OF ENGLAND ADDS TO THE SENSATION SITUATION IS TENSE

The Discussion Will Probably Be Resumed Tomorrow

GENEVA, Sept. 5.—Italy's representative, H. Salandra, told the council of the League of Nations that Italy would regard the intervention of the league in the Greco-Italian crisis as unjustified. The league, he asserted, had no competency in the affair which belonged properly to the inter-allied council of ambassadors. He said Greece was trying to escape her responsibilities by appealing to the league. He pointed out that several nations had not as yet recognized the Greek government. His statement created a sensation. Lord Robert Cecil of England added to the sensation by insisting that articles ten, twelve and fifteen of the covenant of the League of Nations be read in both French and English and declared if they were disregarded the whole settlement of Europe would be shaken. The articles stipulate clearly the right of the league to investigate when there is danger of rupture between two member nations of the league. Further discussion of the crisis were postponed until probably tomorrow.

CARU, Sept. 5.—With their meagre belongings piled about them, hundreds of refugees whose quarters were made uninhabitable by the Italian bombardment are sleeping in the open squares and along the streets. And thus the Armenians who fled from the Turks and found a refuge here under the patronage of American and British charities find themselves. The wounded, most of whom are children, are being treated in the civil and Near East relief hospitals on the island.

It is contended by the local authorities that the Italians fired after they had instructed the Greek prefect to ask the government at Athens to reconsider its refusal to surrender the island and before the time had elapsed for a reply to be received.

Ten specific clauses were included in the Italian demands for surrender. They were:

- "The Greek flag to be hauled down.
- "The Italian flag to be hoisted and saluted by twenty one guns.
- "Command of the island to be taken over by the Italians.
- "Barracks to be surrendered by the Greek troops and the Greek gendarmes to be disarmed.
- "Depots of arms, munitions and military effects to be surrendered.
- "Greek soldiers to be disarmed and concentrated.
- "The circulation of officers and troops to be forbidden.
- "Barracks to be provided for the Italian troops of occupation.
- "Immediate suspension of telegraph, telephone and postal facilities.
- "Control of communications and transports to be given to the Italians."

These demands were refused by the Greeks and it was their non-acceptance that caused the Italians to bombard the place. The Italians have expressed their regret over the casualties and have offered to make every reparation to the families of the sufferers.

Society Editor.
If you are going anywhere or come a postal card to this department, will be greatly appreciated.

Mrs. Frank Grayam and Mrs. L. S. Grayam returned home last night from Frost Proof and Lake Wales where they spent the past week as the guests of friends and relatives.

Charles Britt, Clarence Mahoney and Mr. Chapman left this morning in the Britt car. Mr. Britt going to Connelville, Pa., where he will join his family, who are visiting relatives for six weeks. The latter two are going to North Carolina for a short stay.

FOR MISS MURIEL

Miss Elsa Slauter entertained at auction yesterday afternoon in her home in Riverside honoring Miss Beatrice Muriel, whose engagement to Mr. Edmund Snyder Wood was recently announced, the wedding to take place in September.

Garden flowers were used effectively in decorating, and marking the places where tallies done in sprays of flowers in pastel shades.

Several progressions of bridge were enjoyed and after the game the players holding the highest totals were presented with prizes. The first prize a cut glass powder jar, was won by Miss Eleanor Lytle, the second, a Madeira handkerchief, being awarded to Mrs. Orville Klinge.

The guest of honor received a set of Madeira tea napkins, as a memento of the afternoon.

After the awarding of prizes an ice course was served on the card tables, which were laid with dainty embroidered covers. During the game candies were served.

Miss Slauter was assisted in looking after the pleasure of the guests by her mother, Mrs. R. L. Slauter, and sister, Miss Hildegard Slauter.

The affair was informal, and was enjoyed by the honoree and a number of her most intimate friends, three tables of players being the guests of Miss Slauter on this occasion.—Times-Union.

NEWS OF BABY THE PARADE.

Reginald Holly brought home his wife and baby last night to be sure to have a prize winner in the Baby Parade.

Mr. Frank Akers of the Frank Akers Tire Co., agrees to hold any blonde mother's triplets.

Seminole Athletic Club announces rain or shine the big baby parade and Labor Day celebration will take place at Lake Monroe, Monroe school grounds.

P. M. Elder and Aldine McMichael want to borrow a baby to push in the baby parade at Lake Monroe next Monday.

WOMAN SHOTS THE WRONG MAN

PROVIDENCE, R. L., Aug. 30.—Ernest R. Smith, a local coal dealer, was shot today by a woman, who, looking down on him as he lay in the street, exclaimed: "My God, I've shot the wrong man." She fled. Smith is in the Rhode Island hospital, possibly fatally hurt. Police are searching for the woman.

SURE IT DOES GOOD

Theodor's Black-Draught Liver Medicine (Vegetable) Praised by the Head of a Louisiana Family.

Lake Charles, La.—"I don't know what we would have done had we not had Black-Draught. It sure is one of the best medicines made, and am sure the best liver medicine," said Mr. Henry Garrett, of this city.

"My whole family uses it," continued Mr. Garrett. "My wife says she believes she kept off the flu by taking doses of Black-Draught regularly."

"I, myself, use Black-Draught for indigestion, and it is fine. "We used pills and tablets and other laxatives, but they never seemed to do us good, but the Black-Draught sure has, and it has come to our house to stay. We give it to our daughter for headaches and torpid liver."

"I am glad to recommend anything that has been the help to my family that Black-Draught has."

"My present health is good. Have two boxes of Black-Draught in the house now."

"If your liver gets out of fix, take Black-Draught. It will help to drive the bile poisons and other unhealthy matters out of your system."

Skelley Sees Big Demand for Citrus Fruit

Better Grading, Packing and Advertising Having Effect—Sees Necessity For Lower Freight Rates.

Just returned from a tour of the larger northern markets, F. L. Skelley of Orlando, manager of the American Fruit Growers, Inc., is of the opinion that Florida grown oranges and grapefruit stand higher today in the opinion of the fruit handling trade than at any time in the history of the industry here. The continued improvement in grading and packing practices which has featured the last few years has made many friends where previously there was a tendency to distrust these Florida products.

The present dependability of the leading Florida packs has, in his opinion, won friends among the trade which are of equal value to the army of consumers who have made the acquaintance of Florida grapefruit and oranges through the advertising of the principal shippers. Thus Florida citrus fruits now are able to obtain the fullest appreciation of the consuming public to which their uniform juiciness and superior quality entitle them.

Mr. Skelley says he was greatly gratified with the advertising plans for the coming season on Blue Goose and AFG Florida citrus fruits, which he recently went over with the advertising department and with N. W. Ayer & Son, the big advertising agency which handles the organization's business. The increased scope and greater intensiveness of the advertising effort in northern newspapers, he is confident, will have considerable effect.

General business conditions must of course largely affect the reception in the markets of the coming season's large citrus crops from both Florida and California. Mr. Skelley reports that throughout the larger manufacturing centers business conditions are generally excellent. There is no unemployment situation in sight, unless it shall be created through strikes or labor disputes. Wages are excellent in almost all manufacturing industries, and employees are prosperous. On the other hand, the middle west and the western part of the country, where the principal dependence is upon agriculture, do not exhibit the same sort of prosperity as is shown around the manufacturing centers. The farmers generally have not been making money, and the effect is noticeable throughout the business fabric of the sections in which the agricultural interest is paramount.

Mr. Skelley regards as a good sign the recent upturn in the prices being realized in the leading markets for California Valencia oranges, which for some time previously had not been obtaining the close attention of the trade.

He has not changed his mind in the slightest as to the absolute necessity for Florida growers and shippers not only forestalling the proposed increase in refrigeration charges, but repeated in no uncertain language his previously expressed belief that the time is now ripe for Florida to insist upon obtaining a readjustment of freight rates on citrus fruits, which will permit of their distribution over a larger portion of the country at all times of the year when shipping is practicable. He says the American Fruit Growers, Inc., will exert itself to the utmost to do its part in bringing about such a readjustment just as promptly as possible.—Orlando Sentinel.

COUGHS DISTURB SCHOOL WORK

School teachers should give the same advice to children who have coughs as did this Florida teacher. "I recommend FOLEY'S HONEY AND TAR to the children in my school who had the 'flu' and good results came whenever it was used," writes Mrs. L. Armstrong, Okeechobee, Florida. Foley's Honey and Tar contains no opiates. Ingredients printed on the wrapper. Quickly relieves colds, coughs and croup. Sold everywhere.—Adv.

A. C. L. RAILWAY MEN MET IN SAVANNAH

SAVANNAH, Ga., Sept. 4.—More than 100 representatives of the freight traffic and commercial departments of the Atlantic Coast Line railway met in Savannah yesterday to discuss the affairs of the system. It was a get-together meeting with visitors from as far North as Massachusetts, as far West as Illinois and as far South as Florida. C. M. D. Davis of Wilmington, N. C., assistant freight manager, presided. Representatives of the board of trade extended the delegates a welcome. The morning was given over to business discussions. In the afternoon the visitors went to Tybee Beach for recreation. Most of them returned home last night.

"Starving" Germans

Reports of "starving" people come from Germany. Here are some of the more prosperous of them at play on the beach at Norddeyne where silk pajamas are much in display, yet reveal no unstarved faces.

"I am a Progressive, but I Favor Retaining the Things That Are Good"

By ALVA B. ADAMS, New U. S. Senator From Colorado.

IT MAY be that government ownership and control is the solution of the transportation problem, but I believe a further test of private ownership of the railroads, with continued government supervision, should be made.

I favor the repeal of the Esch-Cummins law creating the railroad labor board. It has not worked well. It has served as a source of irritation among railroad men rather than as a means of soothing them. Its mission is good, but the results are not good because neither side is committed to abide by the decisions of the board.

I am in favor of law enforcement, and that applies to the Eighteenth amendment.

I am in sympathy with most of the economic purposes of the farm bloc, but I do not think blocs should exert their influence to the detriment of the whole, and I doubt their wisdom and propriety.

I am in favor of an adequate and effective line of defense. We ought to be better prepared than we were in 1917. I am in sympathy with arms limitation in a general way, and in favor of anything that will make war more improbable, but I think the arms limitations treaty is less effective than the league of nations plan for preventing conflict.

The international policies of Senator LaFollette and those who agree with him do not meet my approval. I am a progressive and I believe in eliminating the bad things in our government, but I am in favor of retaining the things that are good.

The government should stop child labor of the kind that stunts the child's growth. The government should prevent working conditions insanitary or destructive of the moral or physical welfare of the worker. Especially among women a far greater hazard of evil results from low wages rather than from long hours.

The preservation of peace is of far greater importance than the success of political parties, and if the President and his party can promote world peace I shall be glad to support their efforts. I hope the senate will give its consent to membership in the International Court of Justice.

Peanut Great Crop To Be Grown in Florida Better Than Others

WEST PALM BEACH, Fla., Sept. 4.—Peanuts grown in the muck, or peat, soil of the Florida Everglades lacked a market equal to the volume of production because they were "too soft." No one gave thought to why the nuts were soft; the growers accepted the verdict of the firms which roast peanuts that the nuts were not available and ceased to raise them except for use of the vines as hay.

Now the "softness" of the Everglades peanut has been found to be a merit. The nuts do not roast well because of the high percentage of oil, or fats, they contain but the possession of unusually large oil content makes them desirable for the oil.

During his winter vacation in Florida a New Englander ate a bag of the Everglades peanuts sold on the

street of a Florida east coast tourist city. He noted the presence of oil in large quantity, and brought the fact to the attention of associates in his firm. The result of an investigation that was made was that the New England firm has purchased 72,000 acres of Everglades muck land, bought sites for warehouses and docks on the coast and announces that it will plant the acreage to peanuts, ship the nuts to a New England port, crush the nuts to extract the oil and use the oil in a cooking compound or vegetable fat.

Preparation of the 72,000 acre tract purchased by the company requires construction of a drainage canal auxiliary to the main outlet canals of the Everglades drainage district. It will serve for transportation as well as for drainage. The canal will be 45 miles long, 80 feet wide, and deep enough to move barges from the plantation to a harbor on the Atlantic ocean.

Alabama Fans Turning to Football Now

MONTGOMERY, Ala., Sept. 4.—Alabama's sporting fans are turning their heads toward football for the next three months and with an array of major battles scheduled, interest is expected to be at fever heat.

Important battles scheduled for the entire season follow:

September 29—Union University vs. Alabama at Birmingham.

October 6—Auburn vs. Birmingham-Southern at Montgomery.

October 6—University of Miss. vs. Alabama at Tuscaloosa.

October 13—Mississippi College vs. Birmingham-Southern at Birmingham.

October 20—Sewanee vs. Alabama at Birmingham.

October 27—Camp Benning vs. Auburn at Auburn.

October 27—Spring Hill vs. Alabama at Mobile.

November 9—Birmingham-Southern vs. Chattanooga at Gadsden.

November 10—Auburn vs. Tulane at Montgomery.

November 10—Alabama vs. Kentucky at Tuscaloosa.

November 16—Union University vs. Birmingham-Southern at Montgomery.

November 17—Centre vs. Auburn at Birmingham.

November 24—Georgia vs. Alabama at Montgomery.

November 29—Alabama vs. Florida at Birmingham.

Southern League Will Close September 23rd

BIRMINGHAM, Sept. 4.—With less than a month to play, Southern League baseball players are preparing for the pace of swiftness that will be set in going down the homestretch which separates them from the close of the season, September 23. Closeness in standing has marked the race in the "Dixie Major" all season, at one time only six games separating the tail-enders from the leaders.

New Orleans, out in front at the present, has shown a marked fighting ability in obtaining the leadership a month ago and holding steadfastly to it. Mobile, pennant winner last season, however, is close in the rear of the Pelicans.

Since the season opened in April, every team in the league has been dangerously near if not at the top of the league standing with the single exception of Little Rock. Nashville at one time had a clean lead in the pennant chase, giving way before New Orleans.

Mobile during the last fortnight has been within easy striking distance, but a series with New Orleans of nine games found the going so hotly contested that teams came from the series with little change in their standing.

Birmingham has just reaped revenge from Atlanta by taking five out of seven games and getting one draw from the Crackers, climbing to third place at their expense.

SEPTEMBER'S GOLDEN DAYS ARE UPON US.

September's "golden days" are with us once again. The summer days with their heat and languor, their picnics and vacations, their fleeting joys and sorrows, their copious rains and welcome sunshine have passed away and are numbered among the things that were. Summer is gone and fall is here. It has a different significance in sunny Florida from that it has in less favored states.

Up north it means the ending of the strenuous work of summer, the gathering of the crops into barns and granaries, the gorgeous coloring and eventual falling of the leaves, the county fairs and the necessary preparation for a long, cold winter. If those preparations include a trip to Florida, as they often do in these days of automobiles and easy, com-

fortable and speedy travel, by so much of joyous anticipation is the pleasure enhanced, for the lure of Florida is always present in every northern home.

With us of the far south, September strikes a different note. The days of idleness, of listless lounging in the shade, with cooling drinks in easy reach, are past, and the strenuous work of the year is just beginning. No time then for fairs and picnics. The farmers are afield with the rising sun, looking after their seed beds, where under tented coverings of

white the seeds are germinating and fast turning into tender green plants that will later be transferred into long rows in the fields to bring joy and wealth to the fortunate trucker and pleasure and satisfaction to the northern consumer, as they bring the choicest products of the summer to them in the middle of winter's snow and ice. The oranges are filling with delicious and health-giving juices and will soon be turning to golden globes amid the evergreen foliage. That means work, work that will bring wealth.

With the coming of September the thoughts of our northern friends will be turning to Florida as a refuge from the snows and cold of winter, and they will soon be coming in crowds, bringing more wealth, much of which they will leave with us, in exchange for our sunshine and fruits. Florida should welcome the coming of September, even if it does preface the ending of another year. It is our seed time and harvest time combined, which is a truth that can be said of no other state. All hail its golden days!—Tampa Times.

Once You've Put STANOCOLA Polarine MOTOR OIL In Your Motor

and given it a test, you will not be satisfied with any other motor oil. Polarine is made in one of the world's greatest refineries, from the heart of specially-selected "crudes"—distilled, refined and filtered to just the proper grade of oiliness.

It is transported from the refineries to your dealer's tanks and dispensed by him with such care that you may be assured of its purity, regardless of whether you buy it in bulk or in packages.

Ask your dealer to consult the chart of recommendations and tell you just what grade of Polarine to use. After you have done this, the simple recipe for motor satisfaction is to watch your quantity and have your crank case drained every six or seven hundred miles and refilled with Polarine; then stick to the grade the chart has recommended.

CROWN Gasoline

is made and dispensed with the same care as Polarine. There is just as much difference in the quality of gasolines as there is in the quality of motor oils. Better stick to the standard and use Crown Gasoline.

STANDARD OIL COMPANY INCORPORATED IN KENTUCKY

First to Swim From France to England

Enrique Tirabochi, Argentine millionaire, as he neared the shore at Dover, having crossed from Calais, being the first man to swim the English Channel from France to England. His time was nine hours better than that of Sullivan who recently swam the channel from England to France.

ACID PHOSPHATE AND SOIL ACIDITY

Does acid phosphate make the soil acid or sour?

Acid phosphate consists of lime, sulfur and phosphorus. Among these only sulfur is regarded as having possibilities of creating soil acidity; but in acid phosphate the lime and sulfur combine, the lime eliminating its acidity.

Therefore when acid phosphate is applied to soils it does not make them acid. Long uses of acid phosphate by the Ohio Experiment Station and other stations show no signs of increased acidity in the soil and agricultural authorities are agreed that acid phosphate does no injury.

The only reason the word "Acid" has been used in the term "acid phosphate" is to indicate that the phosphate has been made soluble by the acid process. A more exact term for acid phosphate would be "soluble lime phosphate."

The lime is in combination with the phosphorus as well as with the sulfur. The lime-phosphorus combination is one part lime to one part phosphorus. In that combination it is soluble in water and ready for the plant to absorb as food. A little of the phosphorus in acid phosphate may be in a combination of two parts of lime and one of phosphorus.

When sulfuric acid is applied to make the phosphorus or rock phosphate soluble, the sulfuric acid is immediately changed to sulfate of lime or gypsum. In this form it is no longer acid.

This change is brought about by the sulfuric acid taking some of the lime away from the phosphorus in the rock phosphate. Stripped of two atoms of lime the phosphorus becomes water soluble plant food. The sulfur having the stronger pull, or affinity for lime, takes lime away from phosphorus.

Lime is, therefore, associated with every atom of sulfur and phosphorus in acid phosphate. In fact, acid phosphate is no more likely to render soils acid or sour than raw rock phosphate, or basic slag, or bone meal, or rock phosphate made available by non-acid methods. That acid phosphate does not render soils acid is generally conceded by soil chemists.

Alkalies are the opposite of acids. One is as dangerous as the other. In certain sections of this country "black alkali" is more dangerous than acidity has ever been known to be.

A farmer who does not realize that some acids are necessary elements of plant foods as well as some alkalies, is likely to be misled into believing that acids are always to be avoided.

Take sulfur, an acid-forming substance: Sulfur is a necessary plant food. Some soils are so deficient in sulfur that if it were not applied in acid phosphate the farmer would have to buy and apply it to get the best crop yields.

It has been found that with potatoes that it is an advantage to apply sulfur to the soil where acid phosphate has been used in order to create a certain amount of soil acidity to prevent the development of potato scab. Acid phosphate being neutral could not create the desired acidity.

Citrus growers of Florida are fearful of alkalinity believing that too much lime will cause freckling. They have been more anxious to have a neutral or slightly acid soil than an alkali condition.

In fact, if farmers generally knew the chemistry of plant foods they would not for a moment think of acid phosphate as a material that will render soil acid, or regard it in any other than the most readily available phosphate for plant use that science has yet found.

Rock phosphate is not as readily available as plant food because it has not yet been rendered soluble by the action of acids. Basic slag is not quite so readily available as acid phosphate because it has to undergo certain changes in the soil before it becomes water soluble and therefore ready for the plant to use. Certain processes wherein heat is used to change rock phosphate into a more available form does not produce much water soluble phosphorus but, like basic slag, it may become so under the action of the soil. In fact, these phosphate materials that are not water soluble at the outset may become soluble rapidly enough in the soil to meet crop requirements, but experiments of this and other countries are in general agreement in showing that no form of phosphorus is as efficient as the acid treated phosphate.

When a farmer finds that the sacks containing fertilizers are being eaten up, it does not follow that when the contents of the sacks are applied as a fertilizer that they will make the soil acid. Sacks can be eaten up by alkali as well as by acids, as one may imagine when lye, an alkali, is mentioned.

Sacks may or may not be destroyed, depending upon the materials used, but whether they are destroyed or not need not be significant. It is the available plant food contained in the sacks, as shown by chemical analysis, and not their ability to devour sacks that marks their plant feeding value.

Those who, for the purpose of selling other forms of phosphate, would claim that acid phosphate will make the soil acid, assume that the farmer is ignorant and are willing to appeal to his prejudice, which, of course, is poor salesmanship.

NEW BUS LINE FOR SEMINOLE COUNTY

Oviedo, Fla., Sept. 5.—The Red Star Bus Line is the name of the new Automobile Bus which is now making regular scheduled trips between Sanford, Oviedo and Chuluota. This line is only a week old, but in this short time business has been very good, and the owners have now placed their order for a much larger and better bus, which they hope to have in operation about October 1. The new bus will hold from twelve to fifteen passengers, besides being able to carry trunks and other packages.

It is quite a convenience to Oviedo and Chuluota citizens to have this line in operation, as it enables them to receive the Sanford Daily Herald about forty minutes after it is the street in Sanford, something the residents here have never enjoyed before. The Red Star bus line maintains the following schedule, connecting with all East Coast trains at Chuluota, also all the important trains at Sanford:

Leave Chuluota at 7:30 and 11 a. m. Leave Oviedo at 7:55 and 11:25 a. m. Arrive Sanford 8:50 a. m. and 12:30 p. m. Leave Sanford 9 a. m. and 3:20 p. m. Arrive Oviedo 9:50 a. m. and 3:50 p. m. Arriving Chuluota 10:20 a. m. and 4:40 p. m., giving double daily service both ways. Success has been assured the line, and it is only a question of a short time until the number of autos on the run will have to be increased.

FOURTH-CLASS POST-MASTER EXAMINATION

The United States Civil Service Commission has announced an examination to be held at Sanford, Fla., on October 6, 1923, as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth-class postmaster at Enterprise and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill any vacancy by reinstatement. The compensation of the postmaster at this office was \$699 for the last fiscal year.

Applicants must have reached their twenty-first birthday on the date of the examination, with the exception that in a State where women are declared by statute to be at full age for all purposes at eighteen years, women eighteen years of age on the date of the examination will be admitted.

Applicants must reside within the territory supplied by the post office for which the examination is announced.

The examination is open to all citizens of the United States who can comply with the requirements. Application blanks, Form 1763, and full information concerning the requirements of the examination can be secured from the postmaster at the place of vacancy or from the United States Civil Service Commission, Washington, D. C.

Applications should be properly executed and filed with the commission at Washington, D. C., at the earliest practical date.

SILVER KAYOB JUDGE

TAMPA, Sept. 5.—Lew Silver, of Atlanta, won a technical knockout over Martin Judge, Philadelphia featherweight, in the third of a scheduled ten round bout here Monday night, when Judge injured his hand near the end of the third. Silver has much the better of the short bout.

The Herald for first class job work.

Republican National Committeeman Dead

(By The Associated Press) LONDBERRY, N. H., Sept. 4.—Henry F. MacGregor, of Houston, three times a member of the Republican National committee from that state and a personal friend of former President Harding, died last night at his summer home here.

"PAY-DAY" IS A MAG-NET FOR CROWDS

"Pay Day," Charles Chaplin has taken the most popular day of any week, month or year for the title of his latest screen offering and the picture is living up to its title in popularity according to the crowds that went to the Princess last night where it was shown, and will be shown again tonight for the last time.

The prime comedian, who has established a classification limited to himself alone for unusual and original comedy, has evolved an entirely new line of gag and laughs for his latest comedy release. Although he retains his familiar screen character he has changed his fortunes with a plot that is certain to furnish laughs and abundant mirth.

Incidentally, "Pay Day" is the first picture Chaplin has made for the screen since "The Idle Class," a matter of almost a year.

Opening the lid for the insertion of letters or parcels automatically locks a new mail receptacle for residences against everyone but the person possessing the key to it.

Robs Calomel of Nausea and Danger

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected Tablet Called "Calotabs"

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

PELICANS AND CRACKERS SPLIT

NEW ORLEANS, La., Sept. 5.—New Orleans and Atlanta divided a double header yesterday afternoon, the locals winning the first game 3 to 0 and Atlanta taking the second, 2 to 1.

MONIE, Sept. 5.—Mable batted

Pitcher Stewart hard and often yesterday and won the first game from Birmingham, 8 to 2.

SANFORD LIBRARY Books Received in August

- Non-Fiction: "Life of Christ," by Giovanni Papini (translated by Dorothy Canfield). A simple and sincere story of the life of the Saviour by one of Italy's greatest writers; formerly an atheist, he has come to believe with all his heart.)
- Carpenter's and Builders' Guide. Four volumes with Frank Graham, adviser in chief and published by Andel in his famous educational series.
- "Through the Wheat," by Thomas Boyd. "Boyd has written a good book because he has stuck to the story of his own platoon, of what one man saw, heard and did, and how these things impressed" him.—American Legion Weekly.
- Western Tales.
 - Bindloss: Prescott of Saskatchewan.
 - The Wilderness Mine.
 - Carmen's Messenger.
- Dover: Flying-U Ranch. Flying-U Ranch's Last Stand.
- Gregory: The Joyous Trouble Maker. Judith of Blue Lake Ranch. Man to Man.
- Raine: A Man Four-Square. The Big-Town Round-Up.
- Grey: Last of the Plainsman. Light of the Western Stars. Lone Star Ranger. U. P. Trail.
- Wildfire. Betty Zane. Rainbow Trail. The Border Legion. Gold, by Stewart Edward White. The Last Chance, by Peter Kyne.

Because of the demand for stories of adventure in the West, these have been bought in the Hunting Co.'s reworked backs and strengthened covers. For the same reason children's books where hard usage is expected are ordered "re-sewed." However, the strongest back can be broken, and we urge parents to encourage the young readers to take pride in returning books to the library, in as good condition as they receive them.

- Attractive Juveniles: "Little Grey House," and "Daughters of the Little Grey House," by Marian Ames Taggart. "Boards-up House," a mystery story by A. H. Seaman. "Helen Over the Wall," by B. Gilchrist. "Miss Minerva on the Old Plantation," by Emma Sampson. Easy Reading. Phyllis May and Her Dollies, by Hazel Drukker. When Sarah Had the Day, by The W. Chuck Family, by Pauline Howard. Little Billie Bowlegs, by Strapp. Brownies—Their Book, by Palmer Cox.

Sam Jones Hurls No Hit, No Run Game

PHILADELPHIA, Sept. 5.—Sam Jones, of the New York Americans, was credited with a no-hit, no-run game here yesterday when he twirled his team to a 2 to 0 victory over the Philadelphia Athletics.

Only three men reached first base for the Athletics. Galloway received a pass in the first inning. In the eighth, Welch reached first on Segal's fumble and Dykes got on first by forcing Welch at second.

The Herald delivers six times a week for 10c.

SEMINOLE ATHLETIC CLUB ECHOES.

The football team will meet at the Parish House tonight. Mr. Gus Schmah is working hard to get his team all lined up.

Mr. Chas. Bell, our vice president wants a week's solid sleep to make up for last hours fixing the barbecue. The taste of which we shall long for until the next big celebration.

Mr. Porter Lancing, although a new bridegroom of less than a month's duration directed Lizzies, Henrys and all intermediate classes up to Pierce-Arrows most successfully and no cars were stuck owing to his capable management. He was ably assisted by Mr. Carl Muse.

Apparently Victor Check did not sprain his wrist taking in money at the gate as he left early Tuesday morning for Coronado Beach to beat the world's record catching big bass.

Mr. Edward Bender, our treasurer, who also was gate ticket man, together with Victor Check, made an excellent team mate. At 4 p. m. joined the baseball team. Oh, well, you know the score of course. S. A. C. beat.

Every dollar spent by Seminole Athletic Club for the Labor Day celebration was spent in Seminole county. And if any one has any complaints, suggestions or comments, please write the president, Victor Check. We welcome criticism.

Mr. C. Benton furnished the mules for the race. By-the-way, if you need mules, tame or bucking, call on Mr. Benton.

Some meat carvers, Jerse Lee, Joe Vennitz, Henry Lee, Mr. West, and the other fine looking boys behind the ropes.

The girls in those nifty aprons and caps were all Seminole Athletic Club girls, able workers, courtesy and smiling.

Tom Bell, we all vote you as a barbecue king—for you certainly do know how to fix the real meat, and Oh, Boy, didn't every one enjoy it.

The judges, Mrs. W. P. Wingler, Mount Dora, Mrs. W. E. Tuttle, Orlando, Mrs. John Leonard, Sanford, all agree that 225 of America's finest girls and boys we put before them to judge, and regret each and every one could not win first capital prize.

Mrs. Victor Check says she has the feeling that this is Xmas, writing orders for gifts, delivering gifts, etc., to prize winners. Those balloons and balls were Mrs. Check's and Mr. Deeber of McCrory's were personal gifts to the babies.

Jack Stewart Holly—Some Boy—clever sport. But look at his grandfather, our own Bob. There's the reason.

"Mad Love" is a Film Sensation

Pola Negri has been seen in America in a number of photoplays, such as "Fashion," which made her name a household word in this country almost overnight, followed by "One Arabian Night" (made from Max Reinhardt's wordless play "Sumurun"), "Gypsy Blood," adapted from Prosper Merimee's "Carmen," and "Vendetta," but never in anything quite like her new Goldwyn picture, "Mad Love," which will be the attraction at the Milane Theatre for today, matinee and night.

As Sappho, a beautiful and notorious woman who, in the course of the day, would be called a vampire, she lets loose the flood of her personal magnetism, that sensuous lure of beautifully moulded, which has been the characteristic of the world's most wonderful women.

SAM RICE SUSPENDED

BOSTON, Sept. 5.—Sam Rice, the right fielder of the Washington American League, has been suspended indefinitely, Manager Donnie Bush announced here last night. The penalty was inflicted because of Rice's too strenuous argument with his manager when he was criticized for his playing of a fly ball in the second Labor day game with the Red Sox.

Counterfeit Notes of Twenty Dollar Sort Made Appearance

328 Federal Reserve Notes Circulate in Florida.

JACKSONVILLE, Sept. 4.—The Florida Bankers' Association has received notification from the treasury department that two new counterfeit \$20 Federal Reserve notes have made their appearance in circulation. They are described in information furnished by the secret service as follows:

No. 1: On the federal reserve bank of Chicago; check letter D; face plate No. 208; back plate No. 683; D. F. Houston, secretary of the treasury; John Burke, treasurer of the United States; portrait of Cleveland. This is a photographic production on two pieces of paper between which silk threads have been distributed. The portrait of Cleveland is the most noticeable defect, having a flat, life-like appearance, and should bring about the ready detection of this counterfeit. The specimen at hand bears No. G-32882532A. The back of the note is not as good as the face, the fine lines of the lattice work being broken in many places and has an unfinished appearance.

No. 2: On the federal reserve bank of Chicago; check letter A; face plate No. 207; back plate No. 618; D. F. Houston, secretary of the treasury; John Burke, treasurer of the United States; portrait of Cleveland. This also appears to be a photographic production on two pieces of paper between which silk threads have been distributed. The workmanship on this note and the one described above is very much alike, but this counterfeit is poorly printed. Much of the lattice work in the face appears in solid color instead of the fine lines. The seal is poor and the number of the notes differ on different specimens submitted to this office. Some of them have the letter "K" prefixed to the number instead of "G" which is the correct letter. This counterfeit should be easily detected.

Florida Has the Clay For Brick Manufacture Says the Department

We Could Make Brick, Tile, Terra Cotta and Other Products.

(By The Associated Press) TALLAHASSEE, Sept. 4.—The possibilities of development of Florida's great deposits of clays suitable for manufacturing brick, tile, terra-cotta, pottery, fire-clay products, and the like, may be seen in the volume of products of this sort that were produced in the United States last year. Valuation figures on these products, just released for publication by the department of commerce at Washington, show that "the value of products of establishments engaged primarily in the manufacture of brick, tile, terra-cotta, fire-clay products, and non-clay refractories amounted to \$335,518,035 in 1922, as compared with \$278,492,385 in 1921, \$328,746,932 in 1920, and \$286,261,276 in 1919."

"For the brick, tile, terra-cotta, and fire-clay products," it is shown, "the value of products for 1922 was \$220,435,610, which was an increase of 23 per cent over 1921," while for

the 'pottery' industry, the value of products in 1922 was \$91,986,297, which was an increase of 0.3 per cent over 1921.

The reports for 1922 involve 1,973 establishments, including 1,051 primarily engaged in the manufacture of brick, tile, terra-cotta and fire-clay products, 270 primarily engaged in the manufacture of pottery, and 62 in the manufacture of non-clay refractories. Of the 1,973 establishments reporting in 1922, 331 were located in Ohio, 302 in Pennsylvania, 119 in Illinois; 116 in New Jersey; 101 in New York; 91 in Indiana, 62 in California, 56 in Missouri, 66 in North Carolina, 55 in Iowa, 47 in Texas, 45 in West Virginia, 35 in Kentucky, 34 in Virginia, 33 in Massachusetts, 31 in Alabama, 30 in Tennessee, and the remaining 429 establishments were distributed through 37 other states.

THE PERILS OF POOR HEALTH

A Forerunner of a General Breakdown That May Put You Out of the Running for Life.

Quickest Way to Get Well is Through New Treatment Containing Seventeen Ingredients That Renew Every Part of the Body.

If you feel sickly and good-for-nothing, have a sort of dizziness, dull headache, back pains, rheumatism, and are subject to indigestion or constipation, have no appetite and can't sleep, watch out! There is grave danger ahead!

Any remedy that will give temporary relief to pain and keep you up for a time simply postpones the final spell and makes it worse when it comes. This is why a complete systemic treatment is necessary to regain good health.

This complete treatment is found only in a prescription known as Re-Cu-Ma, which contains seventeen well known and thoroughly tested medicines, so skillfully compounded that each one performs its function on the various parts of the body perfectly and harmoniously.

This remarkable prescription thoroughly cleanses the colon of its accumulation of poisonous refuse, discharging it through the proper channel instead of allowing it to course through your veins and empty into your body. The colon, according to Prof. Metchnikoff of the Pasteur Institute, Paris, is the direct cause of all our aches and pains. In addition, Re-Cu-Ma starts the liver to work pleasantly and naturally without gripping or purging, purifies and strengthens the blood, thus building firm, healthy, rosy flesh that is free from pimples and other blemishes, relieves rheumatic and back pains, gives you a digestion that enables you to eat anything you like without fear of bad after effects and you sleep like a log. In a word, Re-Cu-Ma is a scientific prescription that revives, renews and regenerates your entire system so that you feel constantly full of pep and ambition.

Re-Cu-Ma is sold and recommended by the Union Pharmacy and other good drug stores, and if you don't feel a decided change in your condition, after taking according to directions, you get your money back.—Adv. 7-18-23

ATLANTA, Ga., Sept. 4.—G. F. Bell, for several years secretary of the local Pressmen's Union, died early yesterday from the effects of drinking poison, according to the police. He was believed to have become despondent over a physical impairment, sustained several years ago in the amputation of a leg and feared further trouble.

CELEBRATION AT PABLO BEACH ON SEPTEMBER 15TH

Reduced Rates for Georgia-Florida Get-Together Meeting.

JACKSONVILLE, Fla., Sept. 5.—All roads will lead to Jacksonville and Pablo Beach on September 15, when at least 30,000 people from South Georgia and Florida will gather at the famous resort and participate in the Georgia-Florida Get-Together Celebration.

The railroads have announced special rates and excursions will be run on that date and the highways are being put into shape for the automobile caravans that will pour in from all directions.

Every civic organization in Jacksonville has invited its sister organization in Florida and South Georgia to attend the celebration as their guests. Invitations have been sent to every mayor and the whole wide world is urged to attend.

Dr. N. B. Herlong, city commissioner of Jacksonville and president of the Florida League of Municipalities, is chairman of the general celebration committee and states a program is being arranged that will make the day a historic one in the memories of those who attend. There will be automobile races, foot races, bathing, dancing and other amusement features. One of the most popular events is expected to be the old-fashioned fish fry which will be staged on the sands of the beach, with volunteers in charge of the scene.

The sole purpose of the celebration is to bring the people of Florida and South Georgia, really neighbors since the coming of good roads, into closer touch and a more intimate friendship.

More Lawyers Will Be Turned Out By Supreme Court

Examinations Will Be Stiff And Not More Than 99 Per Cent To Pass.

(By The Associated Press) TALLAHASSEE, Sept. 4.—Florida's future judges and barristers will have an opportunity soon to display their knowledge of Blackstone's Commentaries when the state supreme court commences examination of applicants for admission to the bar. October 16 is fixed by law as the date to begin the examinations.

Applicants for admission to the bar are required to file with the clerk of the supreme court ten days before the date of examination, applications stating the age, place of residence, length of time devoted to the study of law, and the law books studied. The names of three reputable residents of the community in which the applicant lives, to whom he is well known and who are not related to him by blood or marriage are required.

A certificate signed by the judge of the circuit court, or the highest trial court of record having general original jurisdiction, and also by the state attorney or general prosecuting officer of the state or division of the state where he resides, certifying as to the applicant's moral character

The Daily Herald, 15c per week.

What's New in Frocks

Everything about these three dresses is new. Notice the collar, the slit front of the blouse and the strip of buttons down the side of the skirt on the first. The second has a wide skirt flounce that is pulled up to the waist on one side. The third has a normal waistline and long tight sleeves.

and habits also is a prerequisite to admission to the bar.

The rules for admission require that no applicant shall be admitted to the bar who does not answer with substantial accuracy at least seventy-five per cent of the questions, written and oral, that may be propounded to him on examination.

YOUTHFUL BANDITS HOLD UP TRAIN IN CALIFORNIA

(By The Associated Press) SACRAMENTO, Sept. 4.—A Western Pacific train was held up by youthful bandits, according to reports reaching the sheriff's office here. It was stated the bandits entered the private car of Edward Mason, vice-president and general manager of the road and robbed him. A posse is in pursuit.

Crash Victims

Three sightseeing buses have been in fatal accidents in Europe in the past two weeks. Mrs. W. W. Spaid (top), wife of a Washington (D. C.) broker, was seriously injured when an Alps bus plunged 300 feet into the River Var. Mrs. D. S. White (below), wife of a Washington publisher, was killed.

BEARS GETTING BAD IN OKEFENOKEE SWAMP

WAYCROSS, Ga., Sept. 4.—Reports have been received here from citizens residing on the Braganza side of the Okefenokee Swamp that

bears are invading nearby farms and killing a number of hogs. Farmers in the territory, it was stated, are taking up arms to protect their property.

The little hog bear, which formerly has given much trouble to those residing near the swamp, has practically disappeared, according to the reports, and the large black bears, weighing between two and three hundred pounds, are making the attacks on livestock.

Why He Called It "Portland" Cement

In 1824, an English mason wanted to produce a better cement than any then in use. To do this he burned finely ground clay and limestone together at a high heat. The hard balls (called clinker) that resulted were ground to a fine powder. When a mixture of this dull gray powder with water had hardened, it was the color of a popular building stone quarried on the Isle of Portland off the coast of England. So this mason, Joseph Aspdin, called his discovery "portland" cement.

That was less than one hundred years ago.

Portland cement was not made in the United States until fifty years ago. The average annual production for the ten years following was only 36,000 sacks. Last year the country used over 470,000,000 sacks of portland cement. Capacity of manufacture was nearly 600,000,000 sacks.

Cement cannot be made everywhere because raw materials of the necessary chemical composition are not found in sufficient quantities in every part of the country. But it is now manufactured in 27 states by 120 plants. There is at least one of these plants within shipping distance of any community in this country.

To provide a cement supply that would always be ample to meet demand has meant a good deal in costly experience to those who have invested in the cement industry. There have been large capital investments with low returns.

In the last twenty-five years, 328 cement plants have been built or have gone through some stage of construction or financing. 162 were completed and placed in operation.

Only 120 of these plants have survived the financial, operating and marketing risks of that period. Their capacity is nearly 30 per cent greater than the record year's demand.

These are a few important facts about an industry that is still young. Advertisements to follow will give you more of these facts, and will tell something of the important place cement occupies in the welfare of every individual.

Notice of Sale of \$200,000 Special Tax School District No. 2, Seminole County, Florida, said District Being Also Known as Longwood Special Tax School District, School Bonds. Notice to be given to the County Board of Public Instruction of Seminole County, Florida, at the office of the Superintendent of Public Instruction of the said County at the Court House in Sanford, Florida, on or before the expiration of thirty days from the date of publication of this notice and until 4:00 o'clock in the afternoon of Saturday, September 22nd, 1923, for the purchase of \$200,000 Special Tax School District No. 2, Seminole County, Florida, bonds, said bonds being dated July 1st, 1923, bearing interest at the rate of six per cent per annum, interest payable semi-annually, on the first day of July and January of each year until maturity; said bonds to mature and the principal becomes due and payable thirty years after the date thereof; said bonds have been validated and confirmed by decree of the Circuit Court of the Seventh Judicial Circuit of Florida, dated August 2nd, 1923, said bonds to be sold for delivery within twenty days after written notice of the date of sale of said bonds of \$1,000.00 denomination and interest and principal payable at the National Bank of the City and State of New York.

Witness the hands of the Chairman and Secretary and the seal of said Board at Sanford, Seminole County, Florida, this 7th day of August, 1923. COUNTY BOARD OF PUBLIC INSTRUCTION FOR SEMINOLE COUNTY, FLORIDA. By: C. F. HARRISON, Chairman. (Seal of Board) T. W. LAWTON, Supt. and Ex-Officio Secretary. Seville Mines. 8-22-23-9-5-12-19-2tc

Notice is hereby given that J. the undersigned, a married woman, the wife of B. W. Herndon, and a resident of Sanford, in the State of Florida, intend to apply by petition in disincorporation to the Judge of the Circuit Court of the Seventh Judicial Circuit of the State of Florida, in and for the County of Seminole, on the 26th day of September, 1923, at Sanford, Florida, or wherever the Court may then be, for a decree to incorporate, take charge of and control my property and to become a free dealer in sugar respect. L. V. A. HARRISON. 8-22-23-9-5-12-19-2tc

In the Circuit Court for the Seventh Judicial Circuit of the State of Florida, in and for the County of Seminole. E. A. DOUGLASS, Plaintiff vs. State of Florida, ex rel. George A. DeCottes, State Attorney for the Seventh Judicial Circuit of the State of Florida. To the Citizens and Tax Payers of the City of Sanford, Florida: Whereas a petition was filed in the above entitled cause on this 14th day of August, A. D. 1923, by the City of Sanford, Florida, a municipal corporation, by and through Forrest Lake, R. O. Chase and C. J. Marshall, comprising the City Commission of the City of Sanford, Florida, vs. State of Florida, ex rel. George A. DeCottes, State Attorney for the Seventh Judicial Circuit of the State of Florida. And whereas the City of Sanford, Florida, a municipal corporation, by and through Forrest Lake, R. O. Chase and C. J. Marshall, at the

City Commission of the City of Sanford, Florida, against the State of Florida, ex rel. George A. DeCottes, asking for the validation of certain bonds of the City of Sanford, Florida, in the sum of One Hundred and Fifty-one Thousand Dollars, fully described in said petition, authorized by a certain resolution, duly adopted by the City Commission of the City of Sanford, Florida, on the 9th day of July, A. D. 1923, entitled: "A Resolution Providing for an Issue of Bonds by the City of Sanford, Florida, in the sum of One Hundred Fifty-one Thousand Dollars, the Proceeds Derived from the Sale thereof To be Used to Finance the Improvement of the City of Sanford, Florida, Part of the Cost of Certain Street Improvements Associated with the Proposed Abolition of the City of Sanford, Florida, and to Provide for a Sinking Fund for the Payment of the Principal and Interest of said Bonds."

Each bid must be accompanied with a certified check in the sum of \$500.00 made payable to the County Board of Public Instruction for Seminole County, Florida, such check of the successful bidder to be returned to the successful bidder full or return to take up said bonds according to the terms of the notice and his bid. The said Board reserves the right to reject any and all bids. All proposals should be addressed to the County Board of Public Instruction for Seminole County, Florida, care of T. W. Lawton, Secretary, Sanford, Florida, and marked "Bid for Bonds." Witness the hands of the Chairman and Secretary and the seal of said Board at Sanford, Seminole County, Florida, this 7th day of August, 1923.
