ATLANTA, Mar. 7.—(INS) The
truth of a guilty con-
fession today had revealed the
plot of Bert Donaldson,
oil investigator and nemesis
of dope peddlers and boot-
leggers.

Charles Hubert Fitchett, 27,
former Atlanta policeman, con-
fessed he fired the shot that
killed Donaldson in the Georgian

caragua civil war were brightened
when the State Department
announced that American minister
Gardner had been authorized to
make "good offices" to Gen-
eral Gómez, the revolutionary general.

Moscoso was quoted in press
as saying he would make
terms with the Diaz government
through the medium of min-

make proposals to Mon-

from Washington.

Charges Involving 7

Major Larre-Borges And Com-
panions Who Attempted An
Ocean Flight, Are Carried
To Spanish Town On Coast

WASHINGTON, Mar. 7.—(INS) The
Ajury to try Harry F. Sinclair
multi-millionaire oil operator, for
alleged contempt of the U. S. Sen-
ate, was secured today two hours
and a quarter after the trial opened
in district supreme court.

Twelve men were placed in the
jury box soon after noon to decide
whether the oil operator should be
fined or sent to jail for refusing
to answer questions propounded to
him by the Senate oil investigating
committee three years ago.

Four years and eleven months
after the execution of the celebrated
Mammoth Oil Company contract
with the great Wyoming naval
oil reserve, and more than three
years after the revelations of the
Senate oil committee's inquiry into
the leasing policies of the Harding
administration, Harry F. Sinclair,
multi-millionaire oil operator ap-
peared for trial in the Supreme
Court of the District of Columbia on
seven counts of contempt for re-
fusal to answer questions propounded
by the Senate committee.

The arrival of the airmen, whose
lives had all but been endangered
during the four days of fruitless
search following their disappearance,
was greeted with wild enthusiasm
by the Spanish authorities of Cape Jubi, which rendered the avia-
tors every assistance.

The Spanish cruiser Bonifaz was
due to arrive at Cape Jubi today and
the Uruguayans will be taken
aboard and brought back to Spain
according to present plans.

Thus far the meager dispatches
received indicate that the Uruguayans
suffered no great injury when
their plane crashed beyond bridges
and ran out of fuel. It is believed that
their lives were saved by the fact
that they came down in sand dunes
which softened the impact of the
crash.

The fliers were fortunate in
Tribesmen, as the region in which
they came down is frequented by
hostile bands who are unfriendly
to white men.

The trial will require probably
less than two weeks, both sides
having agreed upon the essential
facts in the case. They plan to
push directly to argument upon the
constitutional questions involved
immediately upon selection of the
jury.

Although the entire story of the
Temperance League by former
secretary of the interior, Alvin P.
Morrill will not be presented in the
trial record, the decision will be
not upon the validity of the lease
or the alleged conspiracy incident
to its execution, but solely upon
whether Sinclair violated section
104 of the federal code in refusing
to answer 10 questions put to him
by the Senate investigating committee
on December 4, 1926.

Mr. French, publisher of the
Monroe, Mich., Daily News, was in
Sanford today enroute to his home
in Michigan and while here he visited
the office of The Herald, where he talked of his experience
on this, his first visit to Sanford.

Mrs. French, who accompanied
her husband south for the winter,
is at the home of her cousin, Fred
Daley, of Lake Mary, where she is
to remain for at least another
month. Mr. French will probably
return to Sanford in April, for a
brief stay.

The substantiality of the San-
ford district is all that he has
heard claimed for it, the visitor
stated, and he was more than sur-
prised at the enormous wealth re-
sponsible for the agricultural suc-
cess of central Florida.

Mr. Stobel was arrested on a
charge of murder and held in Mon-
mouth county jail.

State Railroad Commission Indignant Over Propaganda Against Screen Provisions

TALLAHASSEE, Fla., March 6.—Members of the State Railroad Commission today expressed themselves as "very indignant" at the alleged attitude of railroad officials visiting St. Petersburg in "polishing the public" again; Florida railroads to furnish screens on the windows of day coaches in certain seasons of the year.

Members of the commission charge that railroad officials have misinformed citizens of St. Petersburg as to the commission's order, and have had paid propagandists seeking to have various citizens write the commission protesting against the enforcement of the rule.

As a result of the alleged "unscrupulous methods" of railroad officials in "polishing" as members of the commission declared today, over a score of letters from St. Petersburg business men have been received by the state railroad commission asking them not to enforce the rule requiring screens on day coaches.

"This rule was adopted to give relief to citizens on the lower east coast who complained to the commission that travel in day coaches at certain seasons of the year was unbearable," the commission said today in a circular letter in reply to the letters of complaint.

"We have had no previous criticism of this rule, although it has been in effect three months, and in our opinion the only unfavorable publicity that the state will receive will be from the agitation started in St. Petersburg."

"All railroads and private lines are in effect, in other states," the letter said. "All Pullman and private cars are screened. The rules of the state board of health and the hotel com-

Governor Martin Will Speak To Pardoning Board And Deliver His Annual Address To The State Legislature

TALLAHASSEE, Fla., Mar. 5.—(INS)—Governor John W. Martin, who has assumed the name of "The Town Governor," will be confined most of the time in the next few weeks to his desk here preparing two messages to be delivered at the annual paroling board meeting on March 15 and the legislature in April.

Governor Martin expects, however, to attend the meeting of all Florida sheriffs in Okeechobee on March 17 and 18 and go to New York the latter part of the month for a conference with President S. Davies Warfield of the Seaboard Air Line railway and one of the leading bond houses in New York City with a view to enlisted financial assistance to the Everglades district.

Governor Martin said today that he had been forced to decline invitations to the annual dinner of the Palm Beach Anglers club on March 3; a conference on the improvement of the channel up the Apalachicola and Chattahoochee rivers at Columbus, Georgia, scheduled for today; the opening of the theatre in Jacksonville on March 12.

He was also forced to decline invitation to the industrial development conference at Birmingham on March 21, 22; the banquet of the West Palm Beach club in honor of their grand exalted ruler on March 22; the banquet of the Baptist Church of the Wakiki as association in Orlando on March 23;

The annual convention of the Florida department of the American Legion at Tarpon Springs March 26, 27, and 28; and a scheduled address to the Spanish War veterans and the American Legion of Fort Myers on Memorial Day.

Governor Martin is planning on the acceptance of an invitation to speak before the convention of Lions International in Miami on June 18 if possible, he announced today.

Franklin Simon Is Resting Well After Going Under Knife

WEST PALM BEACH, Fla., Mar. 5.—(INS)—Franklin Simon, prominent New York merchant, today was reported resting comfortably following a sudden operation. He is under the care of Dr. George M. Dawson, former New York surgeon now attached to the Good Samaritan Hospital here.

Simon's complete recovery is anticipated unless complications arise.

Resting Simon might not react favorably to the operation. Mrs. Simon summoned their daughter, Mrs. Lloyd, who is constantly with her mother at Simon's bedside.

Mrs. Simon has requested hospital authorities to give out no details of the operation or her husband's illness and she also refuses to talk. Friends of Simon, however, say he has been in poor health all winter and took a sudden turn for the worse on Sunday, requiring an operation as soon as the daughter arrived in this city from New York.

NEW YORK, Mar. 5.—(INS)—Irene Ruth formally signed a contract at 12:30 o'clock this morning to play for the next three years with the New York Yankees for the largest salary ever paid, any sum in baseball, player or executive.

The contract called for a total payment of \$20,000 over the three-year period, or \$70,000 a year. Terms between Ruth and the Yankees were agreed upon after a conference two days ago.

"Now for some home runs," Ruth remarked with considerable zest after the papers were signed. "I can hardly wait till I get at that old apple again. No, I'm not making any predictions as to how many I'll hit but I'm going after my record of fifty nine."

SAVING DEPOSITS SHOW INCREASE, IS BANK REPORT

Despite Some Unfavorable Comparisons In Business Conditions, Bank Business Indicates Healthy Situation

ATLANTA, Mar. 5.—(INS)—Despite some unfavorable comparisons with business conditions a year ago, savings deposits in January continued to increase, according to the monthly business review report of the sixth district federal reserve bank, made public today.

Manufacture of cotton cloth and yarn also increased during January, while grain exports through the port of New Orleans were about 50 per cent greater than a year ago, due to larger movement of wheat, oats and rye.

The volume of retail trade was 1.4 per cent smaller than in January of last year, but collections were greater, the report said.

Wholesale trade in all report lines was also smaller, and help lines, dry goods, shoes and hardware showed increases over December, 1928.

Building permits issued in January were 32.7 per cent less than in January, 1928, due largely to decreased reports from Florida.

Building contracts in the sixth district declined 30.3 per cent over last year.

Louis and discounts declined 1.5 per cent.

Low temperatures in the middle of January caused considerable damage to truck crops and citrus fruits in Florida, but with milder weather in February, many farmers have begun to prepare their ground for the coming season, the report declared. A favorable year for livestock producers was predicted.

Searchers Have Failed To Find Any Trace Of Trans-Ocean Airmen

LAS PALMAS, Canary Island, Mar. 5.—Although an intensive search in sea and air has been made in an effort to locate the Uruguayan trans-Atlantic flyers, missing since Wednesday morning, no sign of them had been found today.

Radio stations at all points along the coast last night made continuous efforts to get into touch with the airmen, but without result. French and Spanish warships have been ordered to search the Motorcoast and these islands, and both French and Spanish airplanes are now covering the route taken by the Uruguayans.

The flyers, headed by Major Larre Berger, hoped off from Casa Blanca, Monroe, Wednesday morning in an attempted flight to the canaries as one of their scheduled hops on a Spain-to-Uruguay flight.

TALLAHASSEE, Fla., Mar. 5.—(INS)—The Florida State Supreme Court has denied the petition of the Seaboard Air Line Railway for a rehearing in the writ of mandamus of the court granted on January 17 ordering the railroad to build a passenger depot at Deale City.

The railroad commission had ordered the Seaboard Air Line to construct a suitable railway station in Deale city, but the railroad protest and refused to obey the order.

The commission then asked for a writ of mandamus from the state Supreme Court and it was granted.
