Kiwanis Head To Talk In Central Florida Section

Officers of the Kiwania Club Mosser, prominent Pennsylvania industrialist and recently elected president of Kiwania International probably will speak in this sec-tion some time during his oneyear administration.

Frank Lamson, president of the club, said that following his election at Los Angeles the new Kiwanis chief executive had in dicated he would launch his speaking itinerary in late sum mer. This schedule undoubtedly will carry him into a majority of the 29 Kiwanis districts throughout the United States and Canada, Mr. Lamson added.

Delegates to the largest con-International named Mosser to succeed Dr. Charles W. Arm-strong, Salisbury, N. C., who served as president of the community service organization during the past year.

Long active in eastern indus-trial circles, Mosser is vice presi-dent and general sales manager of the Speer Carbon Company and vice president of the International Graphite and Electrode Corp., both at St. Marys, Pa., where he maintains his home. In a press conference a few days ago, Mosser said that during his administration he would advocate a program of adult education based primarily on the priciple that freedom is "every-body's business." He declared the nublic must become aware of the dangers that threaten liberty.

The apathetic and indifferent attitude of today that has resulted in mounting government debt, in broken homes, and empty churches is not the spirit that forded the rivers and scaled the Recky Mountains."

Are you satisfied with the returns you have been getting from your citrus crops?

The Central Florida Growers Cooperative, Incorporated offers you advantages worthy of your consideration. The Central Florida Growers Cooperative, although a new organization, offers modern packing and canning facilities-plus a marketing and distribution system backed by 50 years of experience. CON-TRARY TO RUMORS THE DR. PHIL-LIPS COMPANIES ARE NOT INTER-ESTED IN SELLING OR OTHERWISE DISPOSING OF THESE FACILITIES.

The new co-op will have available packing facilities capable of handling 15 cars daily, plus benefits of the only precooling system of its kind in Florida, and a canning plant with capacity of 25,000 cases per day. Therefore, members of the Central Florida Growers Cooperative will not be required to invest in expensive plants and equipment.

As you know, the Dr. Phillips Com-

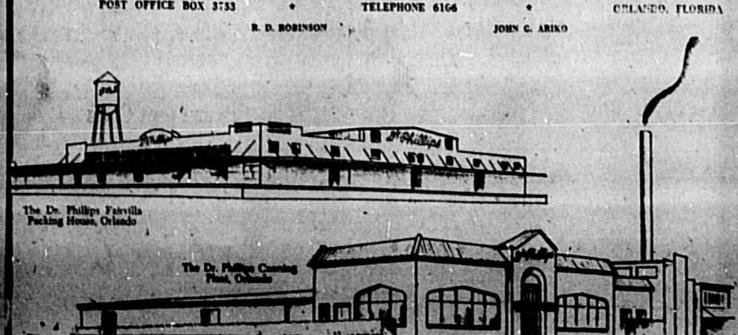

pany has always worked for the "high nickel" in both the fresh fruit and canned goods field. The Dr. Phillips Company has never sold "price" and will not compromise quality for price. The success of these principles suggests a wile policy for the new co-op.

Investigate the Central Florida Growers Cooperative now! NO STOCK TO BUY. NO HIGH RETAIN FEES DE-DUCTED. The entire operation is run for the benefit of the grower member. Plans are still tentative, subject to final approval by the members. The Dr. Phillips Company will only have one vote, the same as any other member in this new organization.

Consult today with either of the temporary officers named below. Delay may cost you money. Memberships are limited to packing and processing facilities now available. This co-op will only accept a limited tonnage in order not to overcrowd markets when prices are low.

VOLUME XXXIX

Candidate Tells FollowersThat Convention Marks Turning Point For Country

PHILADELPHIA, July 23—(AP)—A pledge to seek destruction of all atomic bombs and work for a world agreement outlawing atomic warfare is contained in the "peace with Russia" platform being drafted for Renry A. Wallace's new party.

PHILADELPHIA, July 23, 679—Henry A. Wallace said to-day he will not repudiate any support that comes to him "on support that comes that comes to him "on support that comes that comes that comes the comes to him "on support that comes that comes that comes that comes the comes that comes that comes the comes that comes that comes the comes t ine pasis of peace" in his Third Party Presidential race. Wallace told a news conference that if the Communists want to support him he will not denounce them. At the same time, he said no the is going to be able to prove that he is a Communist.

By JACK HELL PHILADELPHIA, July 23, (/P) -Henry A. Wallace arrived here today and told cheering backers of his Third Party Presidential candidacy that they are making world history.

"This convention will mark a great turning point in the history of this party, the United States and the world," he said to several hundred party leaders, delegates and party workers who greeted him at the Pennsylvania Railroad's Broad Street Station with shouts and party campaign songs.

Stepping from the train, Wallace declared chances of his party in the coming election "are

And that means that he is a moderate conservative, about on a par with our Senator Vandenberg, for instance. And we suppore that in France, our Senator Claude would be known as a Republican Reactionary.

A negro speaker at the Wallace convention wants President Truman to send U.S. troops down South to make the negroes register and vote. Real freedom, we aiways thought, presupposes polls, as well as to vote. In Germany under Hitler they voted under the bayonet point and so they do in Russia now. Sanford Residents Report Spout Of Water On St. Johns

A water spout that form the St. Johns River near Mullet Lake P.rk at about 6:00 o'clock Wednesday evening and then dis appeared when rain began to fall was seen by several persons fish-ing in the vicinity, including Dr. W. D. Gardiner, Sanford esteepath.

The white column of the water epout whirl twisted and nov-ed about, approaching to within about 76 yards of where Dr. Gardiner and A. W. Wise were fishing from a small boat, and then receding into the river. The column, reaching up to the clouds, varied from about four feet in diameter to a few inches, said Dr. Gardiner.

Near Lake Harney, A. M. Phillips reported that he saw the waterapout reaching up into the clouds and supposed that the bot-tom of it was in Lake Monroe. It moved about at a rate of about 10 to 12 miles an hour, but caused no apparent damage. Henry Williams, colored employee of the Davin Furniture Co. was said to have seen the water spout.

A waterspout is a whirling, funnel-shaped column of water and water vapor, extending from the auriace of a sea or lake into heavy clouds. It is a meteorological phenomenon and is caused by op-posite winds of different tempera-tures meeting in the upper atmosphere, thereby condensing a vast amount of vapor into a heavy cloud to which a vortical motion is given.

This vortical motion causes th cloud to take the form of a vant funnel, and creates a partial vacuum at the center into the vortex of which water is drawn. thereafter joining in the whirling motion. Waterspouts are frequently 20 to 30 feet in diameter but according to reientlats, the common opinion that they are liquid water for their entire height is an arror; the water drawn upward does not rise above 32 feet.
