BERLIN, Jan. 5.—President Ebert's decision to solve the existing parliamentary crisis by the formation of a non-partisan cabinet is viewed by the newspapers as an emergency measure which is destined to keep national politics in a state of latent unrest.

While it is generally assumed that the three middle parties—the Democrats—will permit their present delegates, Chancellor Marx and Minister of Defense Gessler to return to their present offices, it is not yet evident that Marx will be able to recruit other members of a cabinet from either the nationalist or socialist parties.

Game Indicate That Fight Rages Between Those Who Favor Popularization and Members of Old School

Hints From a House-Wife's Kitchen Diary

Cooking—Art and Science

A WHOLE VEGETABLE DIN- NER ON A SINGLE PLATTER
Vegetable salads are a very ap- petizing and healthful dish and should be served a few times a week during the summer months while fresh vegetables are avail- able.
Most housewives know that these salads can be made most attrac- tively and make a tremendous ap- peal to the members of the family who come home tired out after work on a hot day.
The objection raised is that a salad of this kind should be made up of three or four vegetables and that the cooking of these vegeta- bles requires a few flames burning on the stove for at least an hour, making the kitchen unbearable.
Here is a suggestion for a salad of four vegetables which can all be boiled together, leaving the kitchen cool and comfortable and saving considerable fuel.
Scrape and cut up some young carrots, prepare some string beans in about two inch lengths, and shell some fresh lima beans and peas. Place all in an enameled ware saucepan, cover with cold water and add salt. When finish- ed, pour into an enameled ware colander to drain and cool. If enameled ware is used there will be no danger of the vegetables be- coming discolored.
Cover a platter with lettuce leaves and place the heart in the center. When the vegetables are cold, distribute them on top of the lettuce. If you have any cold left- over potatoes, they can be diced and added to the salad. Garnish with a few sliced hard-boiled eggs, celery, radishes and olives. This will make an elaborate-looking but simply prepared meal.

BEETS—APPETIZING AND JUICY

Many inexperienced housewives serve tasteless, colorless beets, simply because they do not know how to prepare them. They either cut the leaves off too close to the root or test them too often with a fork while boiling. One method is as bad as the other and so is the result.
To get the best results, just cut off the leaves about three inches from the root—no other trimming is necessary. Scrub the beets gen- tly, put them in an enameled ware saucepan, cover with cold water and add salt. Use enameled ware to be sure that they will keep their bright red color, because this ware does not affect the acids in veg- etables. Let them boil for fifty min- utes before testing them. When they are good and tender, pour off the water and peel them. Cut in quarter of an inch slices and tuck a few lumps of butter between the layers.

BAKED FISH WITH PARS- LEY SAUCE

Fish makes a nice light supper very much appreciated in warm weather, and bluefish, weakfish and fresh mackerel offer a variety at this season. It is especially nice baked and an agreeable change in the usual routine of roast, broil, fry and boil. Another advantage is that it requires such a short time to cook, and although many housewives realize this they are averse to baking fish because they have experienced some trouble in removing it from the baking pan to a platter. This difficulty can be overcome by using an enameled ware baking pan. No transferring will be necessary then—the fish can be garnished with lemon and watercress and served intact in the china-like pan in which it is baked.
Remove the scales by scraping with a dull knife from the tail and split the fish down the belly. Clean, wipe and dry and rub with salt inside and out. Dredge with flour, season with a little black or cayenne pepper. Place the fish with the inside upward in a well- buttered enameled ware baking pan and put a piece of butter about the size of an egg on top of the fish. Place in a hot oven without water. As soon as it begins to brown pour a half cupful of hot water into the pan and baste re- peatedly every ten minutes after- wards. Bake until tender and serve with a sauce made of chopped parsley and onions mixed with salt, vinegar and oil.
New potatoes boiled with their jackets on and fresh asparagus with drawn butter would add the finishing touches for a nice meal.

A SCIENTIFIC CUP OF COFFEE

If we told the truth we could all own up to numerous cups of un- palatable coffee that we have had in our own homes or at the homes of friends where we know that the best of coffee is used. There are two kinds that are particularly dis- tasteful—the bitter kind and the too finely ground—almost pulver- ized—which leaves a sediment on one's tongue and a choky feeling in one's throat.
But at last the scientists have found the secret of making good coffee. In a report entitled "Scien- tific Coffee Research," recently is- sued by Samuel C. Prescott, Pro- fessor in the Department of Biolog- y and Public Health in the Mas- sachusetts Institute of Technology, many facts of interest are re- vealed.
Professor Prescott maintains that the blend of coffee has very little bearing on the flavor produced—that coffee of low commercial grade, if freshly roasted and ground and properly prepared, is better than high-grade coffee when it is stale and badly prepared. He also points out that the utensils employed are of the utmost im- portance. Metal containers should never be used, says the report, be- cause the action of coffee infusion on metals is pronounced, and bitter, astringent or metallic tastes may be produced. Enameled ware, with its vitreous, porcelain sur- face, has no influence on the taste of coffee.
Install Restaurant For Rome Pilgrims
ROME, Jan. 3.—The big square in the shadow of the Castle of St. Angelo has been leased by the municipal authorities to a Genoese restaurateur for the construction of a huge popular-priced restaurant to accommodate thousands of Holy Year pilgrims to Rome during 1925. The plot of ground, comprising about two acres, is now occupied by an amusement park, a miniature Conny Island, but all these gaudy trappings will be removed and, instead, air restaurant pavilions installed where meals will be served at a flat rate of nine lire, about 40 cents, including a bottle of wine.

LONDON SELLS FLATS

LONDON, Jan. 3.—Despite the rapid modernization of London, the great metropolis is not to have the advantage, most desirable in a climate as uncertain as that of London, of central steam heating in its new houses now being erected by the London County Council for middle-class tenants.
The house committee of the council recently reported that, in view of the present legal restrictions, the cost of such heating installa- tions would be prohibitive.

Many Fail to Qualify As Public Accountants

NEW YORK, Jan. 3.—Less than one-third of the candidates who tried the examination Nov. 13 and 14 for certified public accountant registration conducted in 29 states and the Territory of Hawaii suc- ceeded in passing, according to the American Institute of Account- ants, which prepared the examina- tion. There were 509 candidates of whom 113 passed, 122 were dis- qualified, and 273 failed. The state boards of accountancy cooperate with the Institute in conducting the examination. Papers are rated both by the institute's board of examiners and by the state boards.
California was first with 40 suc- cessful candidates, and Indiana second with 24.
RADIO RAMPANT IN ENGLAND
LONDON, Jan. 3.—The number of persons in Great Britain who have taken out wireless receiving licenses has passed the 1,000,000 mark, and is growing steadily. It is estimated that the actual num- ber of listeners in exceeds 4,000,000.

CHURCH PROBLEM AGAIN CONFRONTS FRENCH CHAMBER

Catholics Organize National Federation to Oppose Ap- plication of Law of 1906 Separating Church and State

PARIS, Jan. 3.—A national fed- eration of Catholics has been founded by General de Castelnau, and meeting of protest of Catho- lics continue to take place through out the country for the purpose of opposing the government's propos- als with regard to the church.
Premier Herriot in a recent speech at Epinal is quoted as hav- ing said: "Religion is just one aspect of the liberty of French- man. Laity demands that the people be sovereign. It insists that our interests be regulated not in the name of a confession, even if such a confession is the most widely received in the country."
The program upon which the radical-socialist party was elected last May called for "a strict ap- plication of the law of 1906 con- cerning the complete separation of church and state."
Cardinal Dubois, some weeks ago, published in the official or- gan of the Catholic party in France, a protest against dom- inism, saying it would prove the ruin of France and asking all Frenchmen to band themselves to- gether "in sacred union for the defense of law and order, author- ity, property, morality, patriotism and religion."
At Tours, a mass meeting of Catholics was held recently for the purpose of "defending the rights and privileges which they now en- joy." This meeting was presided over by the Archbishop of Tours and the Abbe Bergey, a deputy, addressed it. A resolution was passed demanding the abrogation of all laws contrary to Catholic rights, and declaring the intention of Catholics to stand together and to offer resistance until their claims triumphed.
The annual assembly of the Catholics of the Nord, and Pas- de-Calais departments, held at Lille, voted a protest against "the re- awakening of the religious strug- gle provoked by the party now in power." It also declared its de- termination to obtain the integral recognition of the rights of Cath- olicism in the schools, family and social life.

Mariners Plan To Lessen Dangers of Virginian Coast

RICHMOND, Va., Jan. 3.—As- sateague, a densely wooded island whose shores are washed by the waves of the open Atlantic, lying just beyond the network of bays and islands forming the isolated counties of eastern Virginia, may soon be to the sailors of the east Atlantic what the Canaries are to those of the west, a haven of refuge.
Coastwise shipping interests, weary of the huge toll of ships, goods and men exacted when the fury of winter storms descends from the north, have enlisted the aid of commercial interests of Vir- ginia, Delaware and New England in their plan for the United States government to establish off Assa- teague a haven for tempest driven ships.

Chickens For Show Should Be Washed And Taught Posing

GAINESVILLE, Fla., Jan. 3.—To be separated from the general flock several weeks before hand and then given special care and attention, should be the lot of fowls selected for the poultry exhibit, according to extension poultrymen of the Florida College of Agricul- ture.
Train the birds to pose correctly, and not to be frightened; and white birds should be washed, but this is not necessary in the case of partly colored birds, provided they have been kept in clean quarters. The face, comb, wattles, legs and feet should be given a thorough washing and cleaning just before starting to the show, it is advised.
By all means the owner should accompany his exhibit to the show and stay with the birds through their battle for supremacy. He should talk the good qualities of his breed to every man and woman passing the poultrymen sug- gest.
Any bird having the following defects they say should not be considered for exhibition: Lop combs, except females of the Med- iterranean varieties—Leghorns, Anconas, Minorcas; side wings on the blade of single-comb varieties (single combs of either male or female falling to one side); white in face of Leghorns, Anconas and Minor- cas; crooked tail, crooked back, squirrel tail; any feathers on shanks or toes of non-feathered varieties.
There will be county and com- munity fairs in many more coun- ties of the State this winter. Fair associations recognize the impor- tance of good poultry and will offer attractive prizes for all classes of standard poultry, turkeys, ducks and geese and rabbits, it is sug- gested. Those interested in bet- tering the poultry industry in Florida are said to be always anxious for raisers of poultry to take ad- vantage of these fairs.

Coolidge Will Have Old Style Inaugural

WASHINGTON, Jan. 3.—W. T. Galligher, Washington banker, was selected by President Coolidge to- day as chairman of the committee to have charge of the inaugural ceremonies on Mar. 4. Mr. Galligher announced after conference with the President that he favored the old fashioned inaugural cere- monies.
It was announced also that there will be a revival of the inaugural ball. President Coolidge announced that while he had no objection to the ball, he himself would not attend.
Plans for the proposed parade would be worked out by Galligher and the congressional committee re- cently selected and the plans sub- mitted to the president.

NEW CLAIMS IN TO HARNESS POWER OF OCEAN

Is in Form of Raft
Inventor Claims Will
Over 2,700 Horsepower
in Waves Five Feet High

KEHOKE, Jan. 3.—How to harness the power of the sea for industrial purposes has been solved by the inventor of a new power station. The inventor, who has secured a patent for his invention, claims that his power station will produce 2,700 horse power in waves five feet high. The power is produced by a turbine-driven dynamo which converts the power into electricity. It consists basically of a shaft 600 feet long and 300 feet in diameter, which is so constructed that it will rise and fall with the waves about 80 per cent of the time. The shaft is actually in a wave. It is not at all possible to give details of the invention, but experiments already made with a small-scale model show that a single wave five feet high can deliver 2,700 horse power at the station, and that the power increases at a more rapid rate than the height of the wave. For example, a ten-foot wave can deliver 15,200 horse power. The inventor declares that his power rafts of this type will be ready for production in about a year. He would like to see factories that develop chemical fertilizers out of the water. He makes also a claim that an adapted invention can be made so that enough power, in a moderate sea, could be used to the propeller shaft of an average freighter at a speed derived from

Jazz Player Goes In For "Harmonic" Effect

Ted Lewis, artist extraordinary with the baton and with nearly every musical instrument invented, has now gone in for making pictures on wax. The theme of his latest effort is a golden June night, dripping with romance and the sweet smells of clover and honeysuckle. In this Lewis drawing are lovers (in pairs, of course) and plenty of vine-hung bushes and woody lanes. The drawing is not exactly like Lewis' easy in wax, but the drawing is of an entirely different character. The wax he uses is that of the phonograph record, and his former use of that medium of expression has been only when he had super-syncretism to offer.

"I never before felt the urge to portray harmonic themes in music," Mr. Lewis confesses, "but the minute I heard that fox-trot 'June Night,' I felt that I must translate the quiet and beauty of a perfect June night in musical terms on a phonograph. This is my favorite of all the wax pictures I have put into a record."

Bulgaria Is Facing Long Hard Winter Premier Declares

SOFIA, Bulgaria, Jan. 3.—Bulgaria is plunging into a hard winter, said Premier Alexander Tsankoff recently to the Associated Press. "The feeling of the country grows gloomy," he continued. "Although we grow wheat, we have had a short crop, and also we have had to turn over a large quantity of grain to Yugoslavia under the restitution treaty. We are trying to develop a new granary in southern Bulgaria," the premier went on to say, "but the money is lacking for development. Our payments to the allies amount to 157,000,000 leva annually, and we are meeting them fully and promptly. The support of the reparational and military commissions alone costs us 30,000,000 leva. To Serbia we are paying 116,000,000 annually, in addition to her share of the general reparations. There is nothing left for improvements of any kind, either agricultural, railway or educational. "And one of our most distressing burdens at the present time, as winter approaches, is the constant flow of refugees from Macedonia, Thrace and the Dobruja. The shortage of food and of money makes this problem peculiarly distressing. "We are doing our best to prevent further depreciation of the lev, which is now stabilized at 157 to the dollar. Another drop in exchange, however, is not impossible unless we receive the support of the great powers. In that lies our hope of salvation."

Kansas College To Turn Out Farmers With A Personality

MANHATTAN, Kan., Jan. 3.—The "final touch of personality" has been added to the records of students at the Kansas State Agricultural College here, with the installation of a new system which includes placing the photograph of each student with his personal history in the college records. Administration officials have long pondered over the problem of becoming personally acquainted with the individual student and keeping a mental catalogue in coordination with his written records and qualifications. The solution was found in the gallery system now being organized. As each freshman furnishes his photograph to the college annual a duplicate is inserted in the volume that forms the permanent liaison between the institution and the student. This becomes a valuable identification in later years, college officials said, when the student writes back for recommendations. "After the record of a student's accomplishments and honors has been kept through his years of college, that record ceases to be a page and becomes the student himself," said the registrar. "Add his picture to the page and it is the final touch of personality by which he will always be remembered. It will prove of inestimable value to this office and to the student as well."

Speed Limit Law Is Repealed in Belgium

BRUSSELS, Jan. 3.—New Belgian road traffic regulations which go into effect in February provide that a speed limit will no longer apply to motor-cars. Motorists merely must avoid driving in any fashion which may endanger the public, and pedestrians must get out of the way and allow cars to pass.

French Courts Are Four Years Behind

PARIS, Jan. 3.—The Paris Court of Appeals has well over 14,000 cases on its docket awaiting trial, and the principal provincial courts of higher jurisdiction are in much the same situation. At the same time cases are added faster than old ones are decided. Rene Renault, minister of justice, in revealing these facts to the Chamber of Deputies, said litigants often had to wait two years for hearings, and in some instances even four.

Hotel Tax Free

VERO, Jan. 3.—City council has accepted a proposition granting free light and water and no taxes for ten years to a hotel of 180 rooms which has been suggested for Liberty Park. The builder states that the hotel will cost not less than one million dollars. Council's acceptance was contingent upon starting work on the building within 60 days.

STATE OFFICE IS FLOODED BY RUSH AFTER CHARTERS

Rapid Development of State
Shown in Fact That Fees
Charged for Charter Issue
Are \$70,000 in December

TALLAHASSEE, Fla., Jan. 3.—Secretary of State Henry Clay Crawford is getting desperate, with his back against the wall, to speak, and he hardly knows which way to turn. It is all due to the rapid development of Florida, and the multitudinous charters that are being asked for by the ever-increasing business concerns bobbing up here and there over the state. Applications for charters are coming into the secretary's office at the rate of 25 daily. Each one requires on an average three hours to check it over, attend to all the details of issuance and then type and proof-read. There are only two typists provided by legislature enactment for writing the charters. As a result of this situation, Mr. Crawford declares, his office is behind in the issuance of papers to the extent of more than 125 applications. This he does not like, because just so long as the charters are held up in this way the business projects involved are delayed just so much in getting started. The secretary of state, however, is without authority to remedy the situation, in so far as putting on additional typists and clerks is concerned, as his office has no contingent fund. He has found temporary relief, though, through the aid of Governor Hardee who has agreed to pay two more clerks from his contingent fund.

These clerks now are engaged in helping to catch up on the charters that have piled up. Fees from the issuance of charters have become a source of considerable revenue for the state treasury. During December, for example, they amounted to approximately \$70,000 and in November \$60,000. These compare with a total for the year 1921 of \$99,837, and in 1922, a total of \$120,682.

Obenchain Weds Again

"The one man in a million" has married again, Ralph R. Obenchain, who won that "title" because of the defense of his divorced wife, Madalynne Connor Obenchain, in her three trials for the murder of J. Belton Kennedy in Los Angeles a few years ago, has married Miss Mabel Schmitz, 21 of Evanston, Ill. Obenchain is a lawyer and theater manager of Evanston.

Infant Death Rate Lowered in England

LONDON, Jan. 3.—Despite the witness of the climate England is a healthy place to live in, if statistics are anything to go by. The death rate for England and Wales during the third quarter of 1924 was 9.8 for each 1,000 inhabitants,

or the lowest on record, according to the Registrar-General's report. The birth rate of 19.3 a 1,000 was also the lowest in any third quarter of the year, except during the war. The chief reasons for the improved death rate return are the absence of summer epidemics among the children, and the improved care of infant life.

Boy Emperor of China Would Print Golden Literature

PEKING, Jan. 3.—Hsuan Tung, the "Boy Emperor" of China, has no desire to re-enter the Forbidden City from which he recently was removed and he now considers his former home a "cage" which would restrict his desired activities.

He said recently he would not avail himself of the withdrawal by Tuan Chi-ji and Marshal Chang Tso-lin of the restrictions imposed upon him by General Feng Yuh-shan, whereby he was forced to leave the palace. The boy emperor declared he had no desire to "re-enter the cage" of the Imperial City because he disliked the imperial system which it would be necessary to maintain there. Instead he looked forward with keen delight to a future life of freedom. He proposed, he added, to visit his ancestor's tombs in Manchuria as soon as possible, after which he hoped to see something of the world.

Hsuan Tung, referring to the four imperial libraries, made known that he recently had proposed the publication throughout the world of the "Golden Treasures of Chinese Literature" not as a commercial venture but as an interesting revelation of secret history and a true picture of Oriental civilization through the ages. Former President Taio Kun, however, had raised objections to this proposal. The libraries include dynastic and popular histories, classics, and other works of rare skill.

Buenos Aires Nears 2,000,000 Population

BUENOS AIRES, Jan. 3.—The population of this, the largest city of the southern hemisphere, is approaching the 2,000,000 mark. Although no census has been taken since 1914, when the population was 1,575,000, statistics based on births, deaths, immigration, emigration and other factors, kept by the municipality, give a population on August 31 last of 1,817,000. Buenos Aires street cars during August carried more than 48,000,000 passengers and its subway 5,200,000. Montreal has 1500 schoolboy hockey players in organized leagues in that city this winter.

DAVID B. HYE ARCHITECT Member A. I. A. High Building Orlando, Florida

Towers in Beauty in Architectural Features And in Investment Opportunities

NO ANNOUNCEMENT of great projects to be carried out in Southern Florida has been made in recent years which overtops in far-reaching consequence that of the Miami-Biltmore Hotel at Coral Gables. It is at once a recognition and endorsement not only of Coral Gables and its beauty, but also of the importance which Miami has assumed in the midst of America's foremost business men.

The Bowman project is vastly more than the construction of a large hotel—great as that may be. It is the beginning of a notable design to build up at Coral Gables the foremost high-grade sports center of America—to establish here a Westchester-Biltmore Club of the South, on a scale which will eclipse the notable organization of which Mr. Bowman is the head, at Rye, N. Y.

The investment opportunity which is offered by the unfolding and building up of this magnificent Miami-Biltmore project has also many lowering features. High-grade residential plots surrounding the Hotel sites and Country Club grounds are easily the best buy of the year. Miamians and visitors will invest here with more than usual confidence because of the large increase in values already recorded in the first Country Club plots which were sold last February. When the plots sold at that time can command—as they do command at the present time—an increase in value of one hundred per cent, it is a very reasonable presumption that the increase during the next year with the splendid building program included in the Bowman project will be greater and more rapid than in any section heretofore opened at Coral Gables.

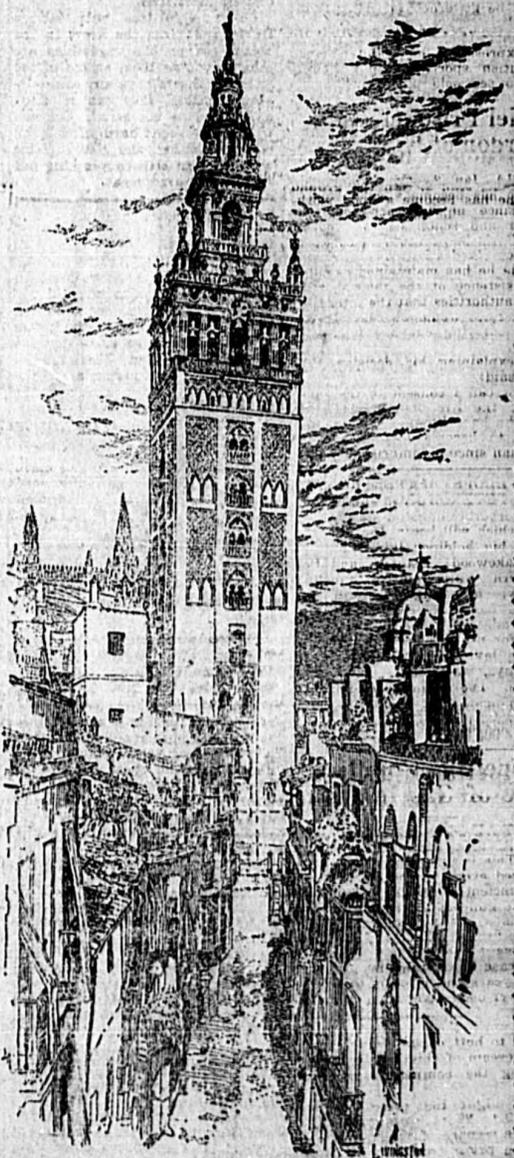

You are invited to come with us in a special free sight-seeing trip to Miami and Coral Gables, the biggest and best sight-seeing trip in this country. It will be the most enjoyable experience of your life to make this trip in our Deluxe Highway Coaches, which leave this city every week. By filing your reservation without delay you can enjoy this trip before the season's big rush begins. Our local office will be glad to make a reservation for you today.

MEMBERS SANFORD'S COLLEGE SET LEAVE AFTER SPENDING HOLIDAYS

The return of the girls and boys to the various schools and colleges marks the close of one of the gayest Christmas seasons Sanford has ever known. There have been few hours that have not been full of overflowing with many affairs given for the members of the college set.

Returning to Florida State College for Women in Tallahassee Monday will be the Misses Maude Lake, Mae Holly, Helen Verney, Sarah Wheeler, Emma Spencer, Lily Ruth Spencer, Ruth Haad, Emily Lingle, and Elva Mary Muirhead, Claire Gertz, Addie Muller.

Miss Anna Du Bose and Miss Mina Howard returned Sunday to Queen's College, in Charlotte, N. C. Miss Katherine Symes and Miss Margaret Zachary leave Monday for Bristol, Va., where they attend Sullins College.

Frank Chase returns to Exeter, N. H.

Miss Ruth Henry Is Hostess at Dance

One of the most gala parties of the Christmas season was the dance given Saturday evening by Miss Ruth Henry at the home of her parents Mr. and Mrs. C. E. Henry, on Magnolia Avenue. The dance was given in honor of Miss Frances Teague of Mountville, S. C., who is the attractive guest of Mr. and Mrs. Edward McLeich.

The entire lower floor of the handsome home was beautifully decorated with an abundance of roses, poinsettias and Christmas greens. Unusual and attractive favors added much to the pleasures of the evening.

Punch was served throughout the evening and during the intermission delicious refreshments were served. Excellent music was furnished by a local orchestra.

The guest list included the Misses Carmetta Barber, Claire Zachary, Jessie Allen of Montgomery, Ala., Lena Bell Hagan, Selma Swain of Green Cove Springs, Emily Griffin, Gene Maxwell, Dorothy Ray, Katherine Symes and Dorothy Crabtree of Tampa, and Jack McQueen, Algernon Speer, Hampden, Dulose, William DuBose, Frank Chase, Charles Ritter, Earl Christcherry, Dean Turner, Jr., Horton Mabry, Warner Seagan, Ed. Moyer, Byron Stevens, William Linder of Tampa, Sam Byrd and Max Stewart.

NO DECISION AS YET ABOUT GRID COACH OF GATORS

Don Miller, Noted Halfback of Notre Dame Mentioned Frequently as Successor to Van Fleet; Sebring Lauded

GAINESVILLE, Jan. 5.—Dame humor is hard at work striving to solve the answer of the varsity football coaching situation at the University of Florida.

Some coach of major or lesser renown in practically every section of the United States has been mentioned as Florida's next coach through one source or another.

The name of Don Miller, noted Notre Dame halfback, is among the recent additions to the roster of prospective Gator mentors as compiled by John Public.

Members of the University of Florida faculty committee on athletics Saturday knew nothing of Miller having been seriously considered by that committee as successor to J. A. Van Fleet.

Whoever is eventually named to coach the "Fighting Gators" will truly have been a headliner on the Florida sports scene.

Michigan Coach Warns Against Post Season Inter Sectional Grid Games

CHICAGO, Jan. 5.—Fielding H. Yost for twenty-four years gridiron coach at the University of Michigan, taking inventory of the National intercollegiate athletic situation, sounded a warning against post-season inter-sectional games, voiced his objections to professionalism and declared that not more than four football games a season should be scheduled that would require the players to be keyed up to the highest pitch.

Yost sets forth his views in an article on the "administration of intercollegiate and interscholastic games."

Briefly he says that sport is good only as sport; that when it interferes with studies, evil results are likely to follow.

Crowley Suffering Nervous Collapse; Stuhlreher Hurt

SAN FRANCISCO, Jan. 5.—Jim Crowley, one of the four horse men of the famous Notre Dame football team, was in the St. Francis Hospital here Sunday recovering from a nervous collapse which he suffered yesterday on the train bringing the squad from Pasadena, where the Indiana men defeated Stanford, 27 to 10, New Year's day.

Crowley got through the game apparently in good shape. He was taken from the train to the hospital, where it was said Sunday his condition, though improved, probably would not permit him to leave for South Bend with the team Monday.

Asked about the report that he had been invited to coach for New York University, Stuhlreher admitted that he had been approached on the subject but there had been no negotiations yet.

High School Cage Tournament To Be Staged March 6-7

GAINESVILLE, Jan. 5.—Dates for two important major high school affairs were released here Sunday night by University of Florida athletic authorities.

The fourth annual Florida state high school basketball tournament will be staged on Mar. 6 and 7. A report that the cage tourney would be held Mar. 13 and 14 is unfounded, the court competition to be decided on the first Friday and Saturday in March officials said.

Of significance concerning the championship basketball tournament is the announcement that it will again be an open affair with cordial invitations extended to every scholastic entry in Florida.

The University of Florida hopes to have complete by March its new basketball court, so that despite the large number of contestants, the tournaments can be completed easily within two days.

On April 17, and 18, Gainesville and the University of Florida will entertain the eleventh annual Florida state high school track meet and field and an affair that is being eagerly anticipated throughout scholastic circles of the state.

Authorities here expect both the basketball and track tournament will eclipse any held in former years. Elaborate programs are being outlined for both meets.

SCOUT EXECUTIVES MEET

TACKSONVILLE, Jan. 5.—Scout executives and others interested in the Boy Scout movement in this state will meet here Jan. 14 for a regional conference that will be attended by James E. West, of New York, chief scout executive of America, it is announced locally.

Hiker Sings His Way Across the Continent

Walter Welsh Finds Song Aids Digestion, Nerves and Spirits

New York City.—Walter Welsh, modern troubadour, has just arrived here after a walk of 3,000 miles across the continent.

"I am out as an unpaid, unsolicited propagandist for song," Mr. Welsh declares.

Philadelphia has been the chief cricket center since the first introduction of the game in America.

Florida, as per the above, duly recorded in the Public Records of Seminole County, Florida, in Book 3, page 51, that said writ of subpoena could not be served upon the Florida Land and Colonization Company, Limited, a corporation, one of the defendants herein, due to the absence from the State of Florida for more than six months, last passed before the issuance of said writ of all agents or officers of said defendant corporation, the Florida Land & Colonization Company, Limited.

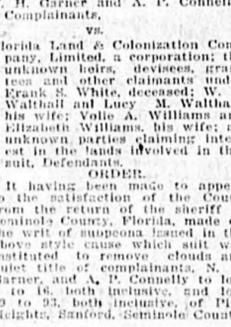

Now, therefore, it is adjudged, ordered and decreed that the said defendant, the Florida Land and Colonization Company, Limited, a corporation, its successors and assigns do appear to the Dkt. of Complaint herein filed on or before the Rule Day in February, A. D. 1925, of said Court and make defence thereto, or a Decree Pro Confesso will be entered against it.

It is further ordered that the said writ of subpoena be published in the Florida Land and Colonization Company, Limited, a newspaper published in Seminole County, Florida, for four consecutive days, to-wit: the first Monday, Tuesday, Wednesday and Thursday, next, to-wit: the 22 day of December, 1924.

J. J. DICKENS, Judge of the Circuit Court of Seminole County, Florida. George G. Herring, Solicitor for Complainant. Dec. 23, 1924, Jan. 5, 1925.

The first national tournament in the three-ball billiard-ship was held at St. Louis and was won by Leon Messersmith.

A Christmas Candle Caused This!

Smouldering ruins of the Hobart (Globe) hotel are late evidence of the Christmas Eve tragedy which caused the death of more than 30 persons when the building burned to the ground. A Christmas candle tipped over as Santa delivered his presents to the children, causing the blaze. Above shows relatives and friends searching for the ruins for the bodies of their loved ones.

Bandits Rob Banks and Burn Town

Bank bandits, after looting two Valley View (Tex.) banks of \$10,000 started a fire which destroyed two blocks of business buildings, causing a loss of \$250,000. The bandits blew open two safes, started the fire by use of a slow fuse, and escaped before the blaze was discovered. The picture shows the havoc wrought by the bandits and the fire.
