### HOROSCOPE

By BERNICE BEDE OSOL  
For Thursday, November 18, 1976

**ARIES** (March 21-April 19) Dealing on a one-to-one basis is your strong suit today. You'll be especially fortunate with those who are practical and sincere.

**TARUS** (April 20-May 20) A good day to implement changes you've carefully thought through. If you feel you've touched all bases, then get on with it.

**GEMINI** (May 21-June 20) Your influence will be felt on a broader scope today than before. You can now reach quarters previously closed to you.

**CANCER** (June 21-July 21) This is a good day for you to assume the role of middleman in selling a product or service. You could wind up with a nifty little profit.

**LEO** (July 22-Aug. 22) Today you are far better at handling mental endeavors. You'll be surprised at how quick and nimble your mind is.

**VIRGO** (Aug. 23-Sept. 22) Be alert today for material opportunities with far-reaching effects. Put things together right. The benefits will be long-lasting.

**LIBRA** (Sept. 23-Oct. 23) If you have a chance to help an old friend today, do so. It'll make

the bonds between you much stronger.

**SCORPIO** (Oct. 24-Nov. 21) You're in a unique position today to pull strings behind the scenes. Use your power wisely. It could be highly advantageous.

**SAGITTARIUS** (Nov. 23-Dec. 21) If there is a serious matter in your group or organization, you want to bring to the attention of key people, this is the day!

**CAPRICORN** (Dec. 22-Jan. 19) You have more control over a matter in which you're involved than you may realize. Avoid overt actions. Let others come to you.

**AQUARIUS** (Jan. 20-Feb. 18) One you're closely associated with may have a difficult decision to make today. Lend him your moral support.

**PISCES** (Feb. 19-March 20) It comes down to the nitty-gritty in business today, don't be afraid to get a little tough. You'll come out ahead if you hold your ground.

**YOUR BIRTHDAY**  
Nov. 18, 1976  
Something in which you've invested considerable time and effort will begin to pay dividends this year. Don't get up before the trickle becomes a flow.

### WIN AT BRIDGE

SOUTH (D): ♠ K J 10 9 8 6, ♥ A K Q, ♦ A K Q, ♣ 2

West North East South  
Pass 3 ♠ Pass 4 N.T.  
Pass 5 ♠ Pass 6 ♠  
Pass Pass Pass  
Opening lead - J ♣

luck. It was bad play. This 1945 complaint would not have been made today. At least, not by an expert. This particular single-suit play is too well known. When you find yourself in dummy for one time and one time only, you have to make the best of your one lead.

The king play was the best chance. Consider all cases where West holds a singleton queen only, but will lose against a singleton ace, seven or four in West's hand.

Now suppose there is an extra entry to dummy. Then it's quite different. The king play will win against a singleton queen only, but will lose against a singleton ace, seven or four in West's hand.

Ask the Jacobys!

An Arizona reader wants to know what you should respond to partner's one-club opening bid when you hold:

♠ 10 8 7 5 ♣ A K J 3 2 ♠ 4 4 2

The correct response is one spade. You plan to bid hearts next unless your partner raises spades. The important thing is to bid your five-card suits in natural order.

## School Board Rejects 5 Of 6 Mediator Proposals

By KRIS NASH  
Herald Staff Writer

Negotiators for the Seminole County School Board Wednesday rejected all or part of five items in a six-point package aimed at resolving disputes that have kept 1,500 district teachers working without a contract for nearly three months.

The action came during a 3½-hour negotiating discussion on contract recommendations submitted by state mediator Douglas Stovell of Tallahassee. Stovell was in Sanford last month to help settle the current impasse between the school board and the Seminole Education Association (SEA). Some 100 teachers jammed the meeting room Wednesday — standing along the walls and perching in windowsills — to hear the four-man school board bargaining team, headed by Chief Negotiator Ernest Cowley, accept only one recommendation from the special master's 29-page report.

At a meeting held last week, SEA members voted overwhelmingly to approve Stovell's findings in their entirety.

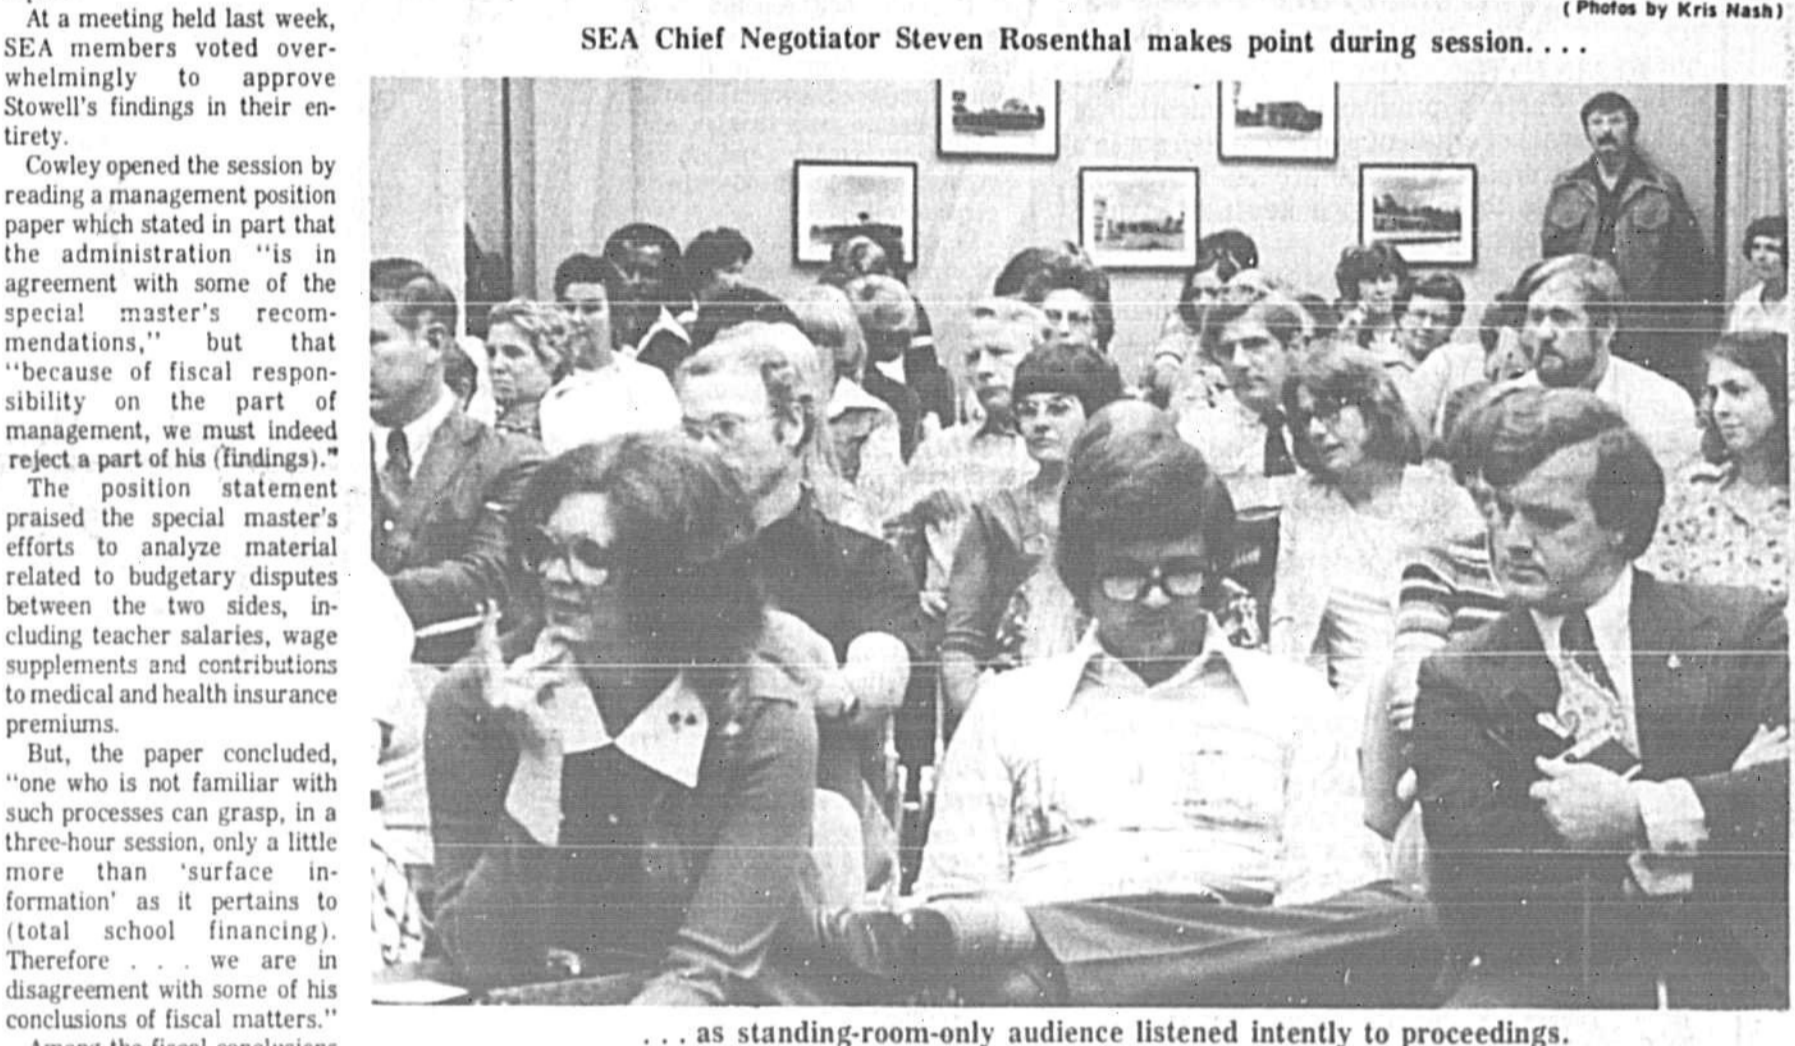

Cowley opened the session by reading a management position paper which stated in part that the administration "is in agreement with some of the special master's recommendations," but that "because of fiscal responsibility on the part of management, we must indeed reject a part of his findings."

The position statement praised the special master's efforts to analyze material related to budgetary disputes between the two sides, including teacher salaries, wage supplements and contributions to medical and health insurance premiums.

But the paper concluded, "one who is not familiar with such processes can grasp, in a three-hour session, only a little more than the 'surface' information" as it pertains to (total school financing). Therefore "we are in disagreement with some of his conclusions of fiscal matters."

Among the fiscal conclusions submitted by Stovell was one recommending a \$300 annual raise in base pay for contract teachers. Stovell also suggested increases in wage supplements and the \$150 payment made by the school board toward the teachers' \$220 yearly insurance premium.

After Cowley announced that the school board would not accept the state mediator's recommendations on these three points, a presentation was made by Sanford Middle School teacher Susan Smith, the SEA's financial consultant and finance officer for the Florida branch of the National Education Association (NEA). Mrs. Smith pointed out that

SEA Chief Negotiator Steven Rosenthal makes point during session. . . . as standing-room-only audience listened intently to proceedings.

Stovell's report had found more than \$75 million in the 1976-77 school budget which the special master said "it would seem . . . (was) available to the board" to meet teacher demands.

The difference between the total financial outlay required by Stovell's recommendations and the \$21,209,504 currently being paid teachers from the school board's \$52 million annual budget amounts to less than \$75,000, Mrs. Smith said.

"Out of \$7 million," she concluded, "we don't feel that \$75,000 is that big a dent."

"You can throw all the figures around you want to," Cowley responded. "You can confuse these people (in the audience), you can try to \$75,000 is that big a dent."

## Tax Hike For Floridians Predicted

TALLAHASSEE (AP) — The Senate's two most powerful leaders on budgetary matters are both predicting that taxes will have to go up next year.

Appropriations Chairman Phil Lewis and Finance and Tax Chairman Jack Gordon said Wednesday that unless revenue projections for the next fiscal year improve dramatically, some new taxes will have to be levied to meet all state needs.

The Senate Appropriations Committee was presented figures showing that taxes will bring in an additional \$107 million next year.

That amount would have to be balanced against agency requests already for \$380 million in extra funds, with many budget requests still out.

"This points up the problem we are going to be facing next year," Lewis told committee members.

Gordon, given the job of finding new tax sources, told his committee they would be looking at the state's entire range of taxing sources.

He said at a press conference the committee would make a major effort to raise revenue by closing loopholes and would examine new tax sources such as an inheritance tax, sales tax on professional services and perhaps changes in the gasoline tax.

"There are many areas of state service, certainly including education, that may very well be in need of more funding than we can anticipate from the present tax structure," Gordon told newsmen.

"That is why this committee is going to examine all possible tax sources and look at all kinds of loopholes to be closed in order to bring about a comprehensive and fair tax program," he said.

Gordon said he had major reservations about Senate President Lew Brantley's goal to eliminate property taxes as the source of \$750 million in school funding.

He said in addition to the problem of locating taxes to replace the \$750 million, the property tax elimination would represent a windfall to big land-holding corporations.

Gordon said his committee would probably vote on Brantley's proposal in January or February but said it might come out instead with some sort of "circuit-breaker" property tax relief to help low income persons rather than complete elimination of school property taxes.

Gordon said projections were that state revenue would increase \$110 million to \$170 million next year, insufficient to meet inflation.

"These kinds of figures certainly point to some kind of tax increase," Gordon said. But he said major increases such as an additional one cent on the sales tax might not be necessary.

Gordon said he would like to have gasoline tax levied as a percentage of the purchase price rather than eight cents per gallon.

He also said he planned to study allocation of gasoline dollars with the aim of getting more funds to urban areas.

New Senate Transportation chairman Kenneth Myers, Miami, told his committee a top priority would be to revise allocation formulas to give urban areas more transportation funds.

WHAT ARE THEY REALLY LIKE? Herald political writer Donna Estes profiles them today on Pages 10-A and 11-A.

## Two Women Hunted In \$7,700 Bilking

By BOB LLOYD  
Herald Staff Writer

Sheriff's investigators today were looking for two women traveling in a dark blue four-door sedan who bilked a 78-year-old Fern Park woman out of \$7,700 on Wednesday by offering her a "share" of \$200,000 they claimed to have found in an envelope in a telephone booth.

Sheriff John Polk said Anna E. Mihalak, of Fern Park, was approached by a woman while she was at a coffee shop in the U.S. 17-92-SR-436 area Wednesday afternoon.

A second woman came in claiming to have found the "bonanza" envelope in a telephone booth and that an attorney had told her they could split the money three ways. The unidentified confidence-game operator told the elderly victim that the attorney, who later turned out to be fictitious, "had suggested an exchange of money with different bills so no one could trace the \$50,000 cash in the envelope," a sheriff's spokesman said.

### Action Reports

- ★ Fires
- ★ Courts
- ★ Police Beat

The envelope supposedly also contained \$300,000 in bonds.

Sheriff's deputy John Thorpe reported that one woman took the victim to her home where she picked up \$1,700 cash and then went to a bank and withdrew her \$6,000 savings.

The victim gave the two women the \$7,700 and was told to go the "attorney's office" to get her \$30,000 "share" of the "found" money.

Thorpe said when Ms. Mihalak went to the address she named she had been given and realized that she had been bilked out of her savings.

Polk said the con women were last seen traveling in the dark blue sedan in south Seminole.

He described one suspect as

white, in her early 30's, about six feet tall, thin build with short, dark hair, dressed in front. She was wearing a tan suit and used the name Virginia.

The second suspect, also white, in her late 20's with short blond hair, officers said. She was wearing a white sweater, carrying a tan purse and reportedly spoke with a Southern accent.

**Murder Suspect Jailed**  
A Sanford man charged with attempted murder and armed burglary in connection with an incident Nov. 7 at Lake Monroe Terrace has been jailed without bond following his release from a local hospital.

Larry Cornell Johnson, 18, of 1505 W. 18th St., Sanford, was shot in the right foot by a Sanford auxiliary policeman as Johnson allegedly chased a woman from her burglarized apartment with a butcher knife. Gloria Bennett, 18, of 32 Lake Terrace, told police her apartment had been broken into three times and she found a man in the bloodspattered residence when she returned home.

Police said the apartment had been entered by smashing a glass in a rear door and apparently the intruder was cut in the break-in.

**Flood by Vandals**  
Sheriff's deputies today were investigating vandalism Wednesday night that resulted in four rooms of the residence of Roy R. Eckenrod, of 208 Lochinvar Ave., south Seminole, being flooded with water.

Eckenrod told deputies he was watching television when he noticed water on the floor and discovered someone had put a garden hose through a bathroom window and the running water had flooded the carpeted rooms.

Sheriff's investigators today reported that weekend vandals used a brick to smash water system controls at Forest Lake Elementary School, Sand Lake Road. The result was two burned-out pump motors and damages that may exceed \$1,000, according to deputy Ron Gilbert.

Gilbert said the school was closed to classes Monday for lack of water due to the damaged pump system.

Frank Fredryk, of Orlando, reported to sheriff's deputies that someone stole hoses, gauges and cutting torches valued at \$370 from the rear yard of 200 N. U.S. 17-92, Casselberry.

## 2 Teens Indicted In Robbery

The Seminole County Grand Jury Wednesday indicted two 17-year-old juveniles for trial as adults on armed robbery charges and an Orlando man on a first-degree murder charge in a Sanford slaying.

Harry Roy Robinson, 17, who gave police an address near Daytona Beach, and Craig Allen Walls, 17, of Orlando, are being held without bond on charges that they allegedly used a butcher knife to rob the Shop 'N Go store, Pressview Avenue and SR-434, Longwood, of \$145 on Oct. 11.

Officials said today that Robinson is being held by Orange County authorities and Walls is in custody at Sanford. Raymond Eugene Phillips, 29, of Orlando, is being held without bond at Seminole County Jail on the first-degree murder indictment. Phillips was arrested by Sanford police early Nov. 5 following an incident in which Robert Walker Tomasson, 30, of 700 Magnolia Ave., Sanford, was shot and killed at his home.

Authorities said the shooting occurred during an apparent argument after the men had attended an anniversary party for a Seminole sheriff's deputy and his wife.

Deputy Randy Pittman and Sanford police Lt. William Lykens were listed as witnesses heard by the grand jurors in the murder case.

## NATION IN BRIEF

### Government Reorganization To Be A 'Deliberate Process'

PLAINS, Ga. (AP) — President-elect Jimmy Carter's promised reorganization of the federal government will be carried out in a "very careful, deliberate process" over the next two to three years, a key Carter staff member says.

Carter discussed that proposed reorganization, the economy, and his dealing with the House and Senate in a threehour meeting with Democratic congressional leaders Wednesday at Sen. Herman Talmadge's home at Lovejoy, Ga., about 40 miles south of Atlanta. He later received expressions of support from some of the legislators present.

### Zzyzx Gets Breath Of Life

ZZYZX, Calif. (AP) — This abandoned desert town, intended by its founder to be literally the last word in health spas, is getting a new lease on life as a research center. Zzyzx (pronounced Zye-zix) was built in 1944 on federal property near Soda Dry Lake in the Mojave Desert about 200 miles east of Los Angeles by Curtis Howe Springer, who called himself the "last of the old-time medicine men." He picked the odd name to make it the last word in the English language. Springer himself is gone and now Zzyzx is being converted into an education and research center by seven Southern California colleges and universities and the U.S. Bureau of Land Management.

### Boy Saves Sister's Life

MIDLAND, Mich. (AP) — An 11-year-old boy may have saved his sister's life when he shot and killed a Doberman Pinscher that was mauling the girl, authorities say.

Police said the boy, Jamie Wright, fired three shots into the dog at point-blank range with his father's .22-caliber pistol when the animal attacked his 10-year-old sister, Vickie.

The girl was listed in fair condition at Midland Hospital on Wednesday following surgery for deep bites on both her legs.

"The dog would have killed my daughter," the children's mother said. "He would have killed her if Jamie didn't keep his head."

### Manpower Or Weapons?

WASHINGTON (AP) — Steadily rising costs may force Congress to make "hard choices" in allocating defense funds between manpower and new weapons, a new study warns. Although the report prepared by the General Accounting Office was directed to Congress, its conclusions carry significant implications for President-elect Jimmy Carter.

## Pupils Help Teacher Avoid Kidnap Try

JACKSONVILLE (AP) — Some of her first grade pupils helped Peggy O'Brien avoid being taken hostage by a pair of escaped state convicts.

When one of the two men held an eight-inch butcher knife to her throat as she arrived at St. Patrick's Elementary School Wednesday, Mrs. O'Brien said, she screamed.

Two of her pupils came running up and other children followed, she said, and they made the knife-wielding man nervous.

"He could have stabbed me in the heart or the back," she said. "But the children scared him. He dropped his knife to his side."

Mrs. O'Brien said she made a run for safety then, shuffling the children with her to the school entrance and through the door.

One of the men grabbed a set of keys she was holding, but she said they were keys to the school and not her car.

Until the children came up, Mrs. O'Brien said, the men

were trying to force her to get back in her car and drive them wherever they wanted to go.

She said one of them told her, "There's cops all over the place and you're going to drive us out of here."

When Mrs. O'Brien and the children entered the school, the fugitives fled into a nearby woods, police failed to catch them there, but less than four hours later apprehended them in a shopping center parking lot in the same north Jacksonville area.

Police identified the men as Scott D. Phlips, 23, and Russell Binstead, 19.

One of them dropped a knife when a special tactics squad

closed in and they gave up without resistance, Police Lt. H. W. Nicholson reported.

He said neither was carrying a pistol they had stolen from a home in Starke, where they tied up Mr. and Mrs. Frank Brady Tuesday night before driving off in the Brady car.

State prison officials said Phlips and Binstead escaped from the garment factory at Raiford prison Tuesday, apparently by cutting out a window.

Phlips is under a 25-year sentence from Collier County for robbery, breaking and entering and conspiracy. Binstead is serving 15 years from Pinellas County for armed robbery and assault.

## FLORIDA IN BRIEF

### Ethics Panel Seeks Approval Of Strict 'Sunshine' Penalties

TALLAHASSEE (AP) — The Ethics Commission is seeking speedy approval by the legislature of laws to implement the penalties for violation of the Sunshine Amendment.

The panel agreed Wednesday to urge legislators to pass implementing legislation during the 1977 session.

Executive director Larry Gonzalez told commissioners that the ethics and financial disclosure amendment to the Florida Constitution provides penalties for violations but requires legislation to implement the sanctions.

### Senate Wants ERA Defeated

TALLAHASSEE (AP) — Senate Chairman Tom Galen says his committee should defeat the Equal Rights Amendment so the full Senate won't be subjected to the "agony of listening to the issue."

Galen told the Rules Committee Wednesday that would be his position unless ERA supporters could show him they had the votes needed for full Senate passage.

### Scar Removal Developed

GAINESVILLE (AP) — Pediatric surgeons at the University of Florida have developed a simple technique to remove scar tissue which forms in windpipes of children who use air tubes as a breathing aid.

Dr. Bradley Rodgers says he recently reported the technique to the American Academy of Pediatrics.

### 'Bypass' Controversy Remains

MIAMI BEACH (AP) — Controversial and extensive coronary bypass operations have proved their value in relieving severe heart pain, surgeons say. But debate continues over whether the operation is overly used.

A panel of heart surgeons said Wednesday that 60,000 to 80,000 bypass operations are performed each year in the United States at a cost varying from \$10,000 to \$15,000 per procedure.

### Film Termed 'Distorted'

TALLAHASSEE (AP) — A public television documentary distorted labor relations in Florida's agricultural fields, a representative of farm owners has told a special House panel.

"This was a very obvious effort to help organize the farm workers and help with a secondary boycott," said Jack Angell, an American Farm Bureau Federation spokesman who previously worked for NBC News.

## WORLD IN BRIEF

### Christians Claim Capture Of Key Moslem Village

BEIRUT, Lebanon (AP) — Christians claimed the capture today of a strategic Moslem village near the Israeli border, and pro-Syrian Palestinians battled in a refugee camp in southern Beirut with guerrillas who support Yasir Arafat. Christian Phalangists claimed capture of Kfar Kial in house-to-house fighting. But leftists said the attackers were thrown back to the fringes of the village near the Israeli border. Meanwhile, in Beirut, there was fighting in the Chatilla refugee camp between the Syrian-controlled Saiga guerrillas and men of the Popular Democratic Front (PDF), one of the factions in Arafat's Palestine Liberation Organization. Three guerrillas were reported killed and 35 wounded when some 200 Saiga fighters stormed the camp to try to recapture Saiga offices which Arafat had given to the PDF.

### Political Prisoners Released

SANTIAGO, Chile (AP) — Chile's military regime said it would release 150 political prisoners today, leaving behind bars, according to its announcements, less than 1,000 of the more than 40,000 persons arrested for suspected political activity since the armed forces seized power in 1973.

The government, under increasing pressure because of accusations of torture and violation of human rights, freed 133 persons Wednesday who had been held without being charged.

### Hotel Cleanup Begins

AMMAN, Jordan (AP) — The staff of Amman's Intercontinental Hotel was scrubbing up bloodstains today and cleaning out the mess left by a four-hour battle between the army and four Palestinian terrorists who invaded the hotel Wednesday.

## School Board Rejects Bulk Of Proposals

(Continued from Page 1-A) SEA Chief Negotiator Steven Rosenthal replied, "that I would be making \$11,928. My present salary is \$12,899; I would have to take a cut in pay. Come on, Ernie. Let me ask you just one question — are you for real?"

"Then you're rejecting it?" Cowley asked.

"Of course I'm rejecting it! Any sound person with half a brain would reject this!"

The administration team proposed a new salary schedule which it said was based upon, but was superior to, teacher pay scales in surrounding counties such as Orange, Volusia, Brevard, Lake and Osceola.

"I see under this proposal,"

claim that his team was prepared to accept the special master's recommendation on an item, only to have the opposition contend that Stowell's wording was being changed or added to.

The single section signed by both bargaining units was the one dealing with "recognition."

The mediator's recommendation on the item allows SEA members or their agents to represent other associations in negotiations or grievance proceedings. The school board had contended that such a provision violated Florida law.

"We agree to the special master's recommendation on recognition," Cowley told Rosenthal. "It's in your favor — we concede that."

Stowell's report now goes to School Supt. William P. (Bud) Lauer, who is scheduled to bring the special master's findings and his own recommendations before the five-member school board at the panel's Dec. 1 meeting.

State law provides that before making a final decision on any of the disputed items, the school board must hold a public hearing at which the involved parties and/or outsiders may present their views on the matters at issue.

Once the hearing has been held and evidence from both sides has been reviewed, the law says, the board "shall take such action as it deems to be in the public interest, including the interest of the public employees involved."

### Willis Elected

George Willis of Sanford was elected Wednesday night to head Seminole's Countywide School Advisory Committee during the 1976-77 administrative year.

# Sanford's City Commission: 4 Battle For Seat 2...

JEAN AND GORDON MEYER WITH SON, STEVE

## Meyer: Earned Coins While He Slept

Gordon Meyer, born in Bellevue, Ohio, one of 10 children, worked full-time while attending high school during World War II delivering groceries.

With the shortage of manpower, Meyer was given a special driver's license, although he was underage, to drive a grocery delivery truck.

After finishing high school, he served in the U. S. Navy for two years.

Nineteen years ago Meyer got fed up with the cold weather of the North, heard continually about the wonderful climate in the South, quit his job, sold his small farm and moved to Florida.

He purchased the first coin laundry then under construction in Sanford, believing it was the way to make money while he was sleeping. He owned and operated the coin laundry for five years.

At the same time, he worked an insurance debt to Goldboro for Independent Life and was offered the chance to build his own agency in the general insurance line. Meyer had only his own files to begin the business. He has run his own agency for the past 12 years.

Three years ago he built his own building at 2201 French Ave.

Meyer and his wife, Jean, have six children: Gordon Jr., 27, a Marine; Marcia, 25; Nancy, 21; Gerald, 19, also a Marine; Dorna, 18, and Steve, 15, a junior at Seminole High School.

The Meyer family owns a motor home and enjoys camping, traveling and boating. Both

of the Meyer's are active in the Seminole High School athletic program and all of their children have been involved in sports.

Steve is on the varsity football team which Meyer noted is undefeated. Gordon Jr. graduated from Marine training as an honor man and Gerald received the honor award when he finished basic training at Parris Island.

Running for a third term on the Sanford City Commission, Meyer said he feels each person has a responsibility to put back into the community what he has taken out.

He got involved in city politics in 1968, wanting to be part of the future growth of Sanford and believing he had something to contribute.

Of the proposed new city hall, Meyer said the city wrestled with the decision for some time on whether to restore and renovate the old city hall or to build a new facility.

He said the city received advice from engineers, architects and other professionals before agreeing that a new facility could be laid out to provide more efficient operation and function.

"Reluctantly the city took that avenue. We found that the terms holding hands was what was probably holding the old building together."

"On the second floor of the old building, which was condemned, the vault had sunk 12 inches below the floor level," Meyer said.

He said he has an honest desire to serve and to help solve the city's problems. "I love being involved in the community. That's my golf," he said.

## WHAT ARE THEY REALLY LIKE?

### THE RACE

BY DONNA ESTES

#### A four-man race for the Seat 2 post on the Sanford City Commission will be on the city ballot Dec. 7.

Vying for the office currently held by Gordon Meyer are: Larry D. Blair, 30, owner-operator of a pet shop; E. O. (Eddie) Kieth, 59, salesman at a men's clothing store; A. G. DeLattibaudiere, 56, a contractor; and Meyer, 49, insurance agency owner.

This will be Blair's first bid for public office, while Kieth and DeLattibaudiere have unsuccessful prior campaigns for city commission posts behind them. Meyer is completing his seventh year on the commission.

Although the city has 8,200 registered voters, all candidates in the city election are hoping a better-than-usual number of voters turns out to select their choices. The most voters that have ever turned out in a city election in recent years was in 1971 when a bond issue was also on the ballot.

To win election to city office in Sanford, a candidate must carry 50 per cent plus one of the votes cast. In this four way race, it is expected that a runoff election will be necessary Dec. 21 to determine the winner.

LARRY, LAURIE AND MARY BLAIR WITH SPARKY

## Blair: Fond Memory Of Orient Venture

A totally unique experience for Larry Blair was the 13 months he spent in Korea during his tour of duty in the U.S. Air Force.

"It's a whole different world over there in the Orient," Blair said. "The customs, culture and habits of the people are so different from ours even though they have adapted a lot to the American way of life. Especially those who worked on the U.S. military installations."

Through his Jaycee activity, Blair became interested in local government and believes it is time for a change in city hall. "I want the chance to be involved," he said.

He doesn't like the proposed design of the new city hall, saying it is too plain and a lot more could be done with it. "The potential is there. Perhaps the public should have something to say about what it is going to look like."

"There were many Koreans I knew the whole time I was there, but they remained at a distance from me. There was some gap, some void, that I couldn't overcome in getting to know them on a personal basis. Perhaps a year was not enough time," Blair said.

Born in Atlanta, Blair went to high school there, but moved to Daytona Beach and completed his last year at Mainland High School. His father, an artist (a specialist who makes braces and artificial limbs), moved the business to Florida.

Blair went to Daytona Beach Community College, majored in art and met his future wife, Mary Williams, who was studying nursing there. Their daughter, Laurie, is five months old.

He considers himself a "plant nut" and enjoys oil painting in his spare time from his business, The Care-O-Sell pet palace on French Avenue, and his Jaycee activities. A past president of the Sanford-Seminole Jaycees, he is currently regional director of the Florida Jaycees. Blair is a tennis buff and played the game well before it became fashionable.

"I would keep an open-door policy and would not forget the people who put me in office. When one forgets, the people will not give him a second chance," Blair said.

# ...And Then There's The Race For Seat 1

## What Are They Really Like?

### THE RACE

By DONNA ESTES

James T. Melvin, an architect, is challenging six-year veteran City Commissioner Julian Stenstrom's bid for re-election to a four-year term in the Seat 1 post in the Dec. 7 city election.

Melvin, 42, born in Hooesville, Ala., is making his first try for public office. Stenstrom, 56, a native of Sanford, has served two three-year terms on the city commission.

The city has 8,278 voters eligible to cast ballots in the contest at the civic center polling place.

LOUISE AND JULIAN STENSTROM WITH DAUGHTER, JEAN

THE MELVINS: SON, BILLY; WIFE, DRENNIA; SON, JAMES III; JAMES

## Melvin: A Family Filled With 'James'

James Melvin's family came to the panhandle of Florida in 1840 when only 31,000 white people lived in the territory.

Later the family migrated to Southern Alabama, settling an area they called Hooesville, current population 300. Melvin's great-grandfather and the Lanier family homesteaded the land in Hooesville and the two families intermarried.

Eight uncles in the family fought as members of the Confederate Army during the Civil War in Florida. Since the first James Melvin of Scotland was knighted by the King of England centuries ago, all Melvin sons have been named James until the present generation, he said.

Melvin and his wife of 20 years, Drenna, have three sons—James T. Jr., 19, serving in the Navy; James M. III, 17, a student at Seminole Community College and working as well as a draftsman for his father's architectural firm; William Earl (Billy), 15, a sophomore at Seminole High School, and one daughter Ann Machel, 13, a student at Sanford Middle School.

Melvin broke the tradition when his third son was not named James.

Melvin left high school in the 11th grade to join the Navy, completed high school while in service. A disabled veteran from the Korean War, he went to Mississippi Southern and later Tulane under the G.I. Bill, choosing Florida to take his state examination in architecture.

"Florida, New York and California have the strongest architectural exams in the nation. I was not going to Yankee country and

California was too far away, so I chose Florida," he said.

The Melvins bought an old house at 708 Palmatto Ave. to restore—a "never-ending, continuous job."

Melvin enjoys working on the house, plays golf when he has time, and the whole family appreciates the outdoors, camping and riding motorcycles.

Running his first campaign for elective office, Melvin said "a professional in a field of expertise" such as himself, would be an asset to the city. "I've been trained to seek out problems and find economical solutions. I'm trained to see the entire city and not just isolated problems," he said.

Melvin opposes the planned construction of a new city hall. "The present building that took man effort to create—every brick was hand-laid—should be restored, rather than a new, modern building, which will clash with the historic style of the city, constructed," he said.

"The city should investigate whether the old building is really unstable. A professional study was never done," he claims. The question of whether it would be more feasible to shore up the old building and use the second floor has not been considered, Melvin contends.

The candidate favors acquiring federal money to solve the city's drainage problems. He said he is 100 per cent for Sanford and not for individual people. "What is good for Sanford is good for the people who live here," he said.

## Stenstrom: A Family Of Homesteaders

Julian Stenstrom's grandparents, Nels Julius and Josephine, were among the Swedish immigrants that settled in Sanford 100 years ago.

An old Stenstrom homestead still stands in Sanford.

Two Stenstrom brothers came from the old country to the Central Florida area. Julius chose Sanford as his new home while Christopher chose Wauchula. Some members of the family are still there.

The Sanford Stenstrom couple had 10 children. Orin, Julian's father, had five children in turn, four of whom—Douglas (School Board attorney and former state senator), Herbert, a local realtor, Francis and Julian—still live here. Their sister, Ruth, is active in politics in Cocoa Beach.

After going through the Seminole County schools, Stenstrom joined the Army in 1940, serving five years—including two years overseas in England, France, Germany, Luxembourg and Belgium. He was a master sergeant.

Stenstrom received his baccalaureate degree from Stetson University and was elected secretary of the Florida Baptist Brotherhood before being recalled to active duty during the Korean conflict. Stenstrom was the non-commissioned officer in charge of the public information office

at the Third Army headquarters in Atlanta.

Although he was ordained a Southern Baptist minister during his college days, he was never called to pastor a church. After leaving the service he was executive secretary of the California Baptist Brotherhood, later becoming executive secretary of the California Baptist Foundation before returning to Sanford in 1962.

Stenstrom taught school in Seminole County for awhile, was associate editor of the Sanford Herald, was associated in real estate with his brother, Herbert, and in early 1975 became the public relations director for Cardinal Industries.

Stenstrom and his wife, the former Louise Altman, have six children and 14 grandchildren. Their home is at 2200 Cordova Drive.

Stenstrom, who has served six years on the Sanford City Commission, says the biggest headache of the office is zoning and rezoning. "You're damned if you do and damned if you don't in almost any decision," Stenstrom said, adding he bases his decision on what represents the individual's highest constitutional right.

"I always support, when possible, the business community, but, particularly those firms which provide jobs for the people."

A weighty decision before the commission in recent months was whether to restore and expand the old city hall or to build a new one. The decision was to raze the old and build a new facility.

"I wish we could have redone the old building, decorating the windows in Spanish decor with wrought iron and shutters," he said the major quality a person needs in public office is "common horse sense."

THE KEITHS: JOSHUA, JAMIE; THEIR MOTHER, JOY; ROBERTA AND EDDIE; GRANDSON, AARON DWAYNE JR., SALLY AND AARON

## Keith: Dreams Of A Cabin

The dream of the E. O. (Eddie) Keith family is to build a cabin on their property in the Ocala National Forest, a favorite fishing spot.

The family—Eddie and Roberta, their five sons, Aaron, employed by the Sanford Water Department; Edwin Paul, a Sanford city fireman; Ryan, employed with the state and federal agricultural department in Tallahassee; Thomas Lee, who works at Seminole Bakery; Bradley, a student at Liberty Christian School, two daughters-in-law, Joy and Sally, and four grandsons—plan to have their Thanksgiving dinner this year in the Ocala Woods.

For the past 18 years, the Keith family has been living in one of Sanford's old homes, a 60-year old home at 305 W. 18th St., and are restoring it to its original splendor.

Currently, they are removing layer upon layer of enamel from

door frames to expose the beautiful old wood.

The couple has been married for 34 years, and met at a church function. Mrs. Keith is employed at Triple A Tree Service in Longwood.

Keith has been employed at B. L. Perkins Men's Clothing Store for the past 30 years. Born in Brockton, N.D., Keith lived in various northern states before migrating to Florida during the "tough Depression times."

He has resided in Sanford for 39 years; Mrs. Keith was born and brought up here. During World War II, Keith served in the 82nd Airborne as a paratrooper for four years. Two of his sons also have served in the military, one in Vietnam and one in Germany.

Keith is a past master of the Sanford Masonic Lodge, has been a captain with the Sanford Police Department Auxiliary for 10 years, is a charter member of the Disabled American Veterans, and works with the Downtown Business Association.

Even though it was not required, he took the minimum police standards college training. He is a regular blood donor, having given four gallons of blood.

Keith said his political philosophy is to do the best he can to make Sanford a place to be proud of.

He said, having been a resident for 34 years, that he has seen Sanford deteriorate and wonders if the people of the community are really interested. "And drainage is a big problem. We need a new city hall. There is no doubt about it. I've been on the second floor and it's bad," he said.

"I don't know how much one man can do, but I'm going to try," Keith said, adding that his entire family is involved in his campaign effort.

He said he wants to correct drainage problems in such a manner that it will not require an increase in taxes.

Sanford Mayor candidates Lee P. Moore and Harry Skop: WHAT ARE THEY REALLY LIKE? Find out in The Sunday Herald.

## 'Mr. D': Chasing A Rainbow

Alfred DeLattibaudiere emigrated from Jamaica, West Indies, to the United States 21 years ago looking for a "rosier" future and believing the "grass was greener on the other side of the fence."

In his homeland he was active in the political party in power, had completed 18 months police training and law school and had been a police officer for eight years.

He found on arriving in the United States, he said, that no rainbow was in sight and regretted the move.

DeLattibaudiere, known in the black community as "Mr. D", said that in Jamaica there was no racial prejudice. "Everyone was treated alike. No one paid any attention to color," he said.

Not being a "suitcase man" (one who can carry all his material possessions in a suitcase), it was impossible for DeLattibaudiere to return home.

"When a man invests his earnings he cannot walk off and leave them," he said.

He was 35 years old when he left Jamaica and had no family here. Within a year after arriving in the United States he met and married his wife, Juanita. She was a teacher in the Sanford area and the couple settled here.

Mrs. DeLattibaudiere was born in St. Petersburg and is an accomplished pianist, preferring classical, "deep music." Her favorite is "Kum-bee" by Schubert. She began her training in music when she was seven years old.

DeLattibaudiere has two children by a previous marriage in Jamaica. He returned to Jamaica the last time in 1973 when his mother died. It is a finish painter and building contractor. He enjoys politics, community service and community work and spends

ALFRED AND JUANITA DELATTIBAUDIERE

his off time in these areas.

DeLattibaudiere was an unsuccessful candidate for the Sanford City Commission in 1974.

He said he is not satisfied how the city government is being run and hopes to be the "Arthur Kennedy" (black Orlando City Commissioner) of Sanford,

representing the "poor and the blacks."

"Noting his affection for the city of Sanford, he said that he likes the city well enough to make it his home. "The poor and the blacks don't get a fair shake here," he said, claiming the city government is "one-sided."

"My desire is to help whatever way I can to make Sanford a better place to live. The residents now are not properly represented. The city fathers are selfish and think of themselves rather than those who elected them," he said.

# Seminole and Brantley to Battle

Seminole High is the heavy favorite with a 9 and 0 chance at an unbeaten regular season, but Lake Brantley has a home-field advantage. Their record is 3 and 6. Despite the fact this has been a rebuilding year they're still dangerous on occasion.

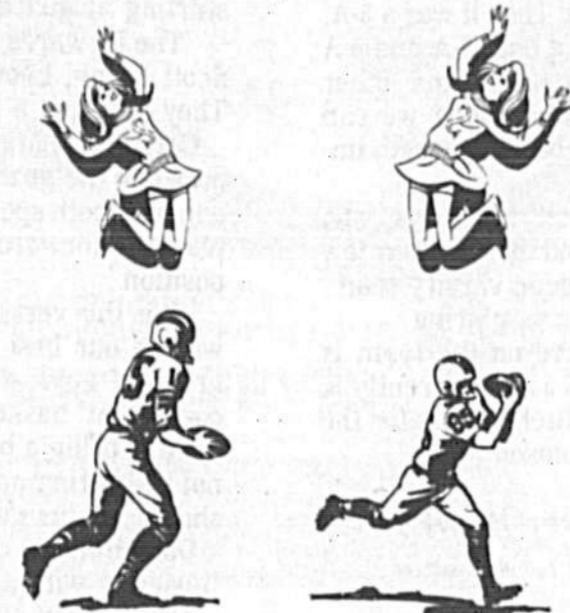

They're hoping old man upset can come through one more time. The probable key to the game will be with Lake Brantley eliminating the break-away threat of Tim Raines — something none of Raines' opponents have done to date.

# M.L. Carr Sparks Pistons By 118-95

By The Associated Press  
M.L. Carr, a second-year pro from Guilford College, scored a career-high 24 points and grabbed 12 rebounds, helping the Detroit Pistons to their seventh straight National Basketball Association victory, a 118-95 clubbing of Maravich's New Orleans Jazz Wednesday night.

In other NBA games, the Indiana Pacers surprised the Philadelphia 76ers 123-117, the Denver Nuggets routed the New York Nets 127-78, the Houston Rockets edged the Buffalo Braves 104-114 in overtime, the Boston Celtics beat the Atlanta Hawks 104-91, the Washington Bullets defeated the New York Knicks 115-97, the Phoenix Suns beat the Milwaukee Bucks 103-95 and the Seattle SuperSonics topped the Cleveland Cavaliers 92-78.

In other NBA games, the Indiana Pacers surprised the Philadelphia 76ers 123-117, the Denver Nuggets routed the New York Nets 127-78, the Houston Rockets edged the Buffalo Braves 104-114 in overtime, the Boston Celtics beat the Atlanta Hawks 104-91, the Washington Bullets defeated the New York Knicks 115-97, the Phoenix Suns beat the Milwaukee Bucks 103-95 and the Seattle SuperSonics topped the Cleveland Cavaliers 92-78.

Paul Westphal, used sparingly because of a knee injury, scored 12 points in the fourth quarter as the Suns beat the Bucks, Dick Van Arsdale, who hit all seven of his field goals in the first half, topped Phoenix with 22 points and Westphal finished with 18.

Bruce Seals scored 21 points and Fred Brown added 16 as Seattle posted its 21st consecutive victory at home and snapped Cleveland's three-game winning streak. The Sonics led by 25 points midway through the final period.

Patricia Mitchell scored 30 points and Wil Jones 20 as the Pacers snapped a six-game losing streak by stunning the 76ers in Philadelphia. Indiana scored 12 consecutive points in the first quarter and took a lead it never gave up.

Rookie Mike Palmateer had a little talk with himself before going out to play for the Toronto Maple Leafs against the Montreal Canadiens.

"I said to myself I'd be happy with only four goals again," said the 25-year-old neophyte, who went on to exceed his expectations with his second consecutive shutout and the first against the high-scoring Canadiens in 192 regular season National Hockey League games since Nov. 2, 1974, as Toronto blanked Montreal 1-0 Wednesday night.

After thwarting attempts by Steve Shutt — the league's leading goal scorer — and Rene Houde early in the game, Palmateer got the only goal he needed from Lanny McDonald's 40-foot shot at 8:26 of the first period.

Palmateer, who blanked Vancouver last Saturday night, made 39 stops in besting the Canadiens.

Blues 5, Red Wings 5  
Rick Lapointe's 90-foot goal with 7:49 remaining salvaged a tie for Detroit, which twice blew three-goal leads to the Blues.

Flames 6, Rockies 3  
Rookie right wing Bill Plett scored twice in a five-goal second period which lifted Atlanta over Colorado and gave the Flames a five-game unbeaten streak.

Rangers 3, Black Hawks 2  
New York's Phil Esposito scored twice against his goal-tending brother from Chicago.

Barons 3, North Stars 3  
Cleveland's Mike Christie scored with six minutes to go, completing the Barons' comeback from a 3-0 deficit and extending the team's unbeaten streak to seven games.

Sabres 3, Canucks 2  
Third-period goals by Terry Martin and Don Luce — Luce scoring with 13 seconds remaining — gave Buffalo its victory over Vancouver.

By The Associated Press  
The New England Whalers took a while to get used to home surroundings after being on the road for more than two weeks.

They felt comfortable Wednesday night after scoring goals at Hartford, Conn. before they left town to play four goals in the final period and a World Hockey Association 6-4 victory over the Birmingham Bulls.

Birmingham had taken an early 3-1 lead. But New England won, 5-4.

Norm Ferguson scored twice, including the San Diego Mariners to a 4-2 victory over the Edmonton Oilers in the only WHA game Wednesday night.

Center Mike Rogers took a loose puck after Birmingham goalie Wayne Wood blocked a shot to break a 4-4 deadlock at 13:49 of the final period.

Rogers backhanded the puck high into the net over Wood, still sprawled on the ice after the earlier save.

Other Whalers goals in the third period were by Gary MacGregor, newly acquired from the Indianapolis Racers, Ralph Backstrom and Alan Hangesleben, who fired into an empty net in the waning moments.

The Whalers also got goals from Tom Webster and George Lytle.

Mark Napier scored twice for Birmingham, while Tom Stimpson and Jim Turkiewicz each scored once.

Mariners 4, Oilers 2  
Ferguson got the game-winner with just 2:30 left when he beat Oilers goalie Ken Broderick from close in, breaking a 2-2 tie.

Mother Worries About Her Heart

By Lawrence E. Lamb, M.D.
DEAR DR. LAMB — Six months ago I had a baby. This is where by problem begins. I started having chest pains on my left side and my left arm seemed to go numb on me like it was asleep.

I went to one doctor every week for a few months. He said it was a strained muscle and gave me Motrin. I asked the druggist what they were for and he told me they were for arthritis.

I went to another doctor for his opinion and he also said it was a strained muscle. He said it could be tension, but I never seem nervous or anything like that. When these symptoms are extra beats. The individual may feel faint on standing or become breathless with mild exertion.

I was taking birth control pills so I stopped taking them but the problem is still there. It scares me a lot, I'm only 22 and have two children.

The doctor said my heart was beating too fast one week so that could be the problem with my arm. Do you have any suggestions?

DEAR READER — There is a rare condition in women after childbirth called post partum myocarditis. It is an inflammation of the heart muscle related to the pregnancy. The cause and many aspects of the illness remain obscure.

A good balance may be gotten by plenty of sleep one way or another and also get some time off to start a physical fitness program. Walking is a good start and you can gradually build up from there. I am sending you two issues of The Health Letter 1-11 and 1-12. Exercise, Heart and Circulation, Part I and Part II. You can use these as a guide to a fitness program. Others who want these two issues can send \$6 cents for each of them with a long, stamped, self-addressed envelope. Send your request to me in care of the Evening Herald, P.O. Box 1551, Radio City Station, New York, NY 10019.

Incidentally although Motrin is used to relieve arthritis pain, it is also used to relieve pain from other conditions.

HOROSCOPE

By BERNICE BEDE OSOL
For Friday, November 19, 1976

ARIES (March 21-April 19) A well-placed friend who can be relied upon may have an unusual proposition today that could benefit you. Listen closely.

Taurus (April 20-May 20) If a pal has someone he's been wanting you to meet, try to get together today. It could be one with whom you have a lot in common.

GEMINI (May 21-June 20) You function best today if you enter your life. Keep a sharp weather eye peeled. Today could be the day.

CANCER (June 21-July 22) Spontaneous things will turn out best for you today. Go where both the scenery and the company are new and different.

LEO (July 23-Aug. 22) What you need to make this day memorable is to have an impromptu get-together at your place with someone you're fond of.

VIRGO (Aug. 23-Sept. 22) Good news may come to you today in an unexpected manner. The glad tidings are in regards to something social.

LIBRA (Sept. 23-Oct. 23) Lady Luck could be riding on your shoulder today in financial matters. A family member may put you on to something profitable.

SCORPIO (Oct. 24-Nov. 21) Today, others will find you particularly appealing. You make a very favorable impression on those who meet you for the first time.

SAGITTARIUS (Nov. 22-Dec. 21) You will be lucky today by being in the right place at the right time. Good fortune comes through a unique chain of events.

CAPRICORN (Dec. 22-Jan. 19) Someone new is about to enter your life. Keep a sharp weather eye peeled. Today could be the day.

AQUARIUS (Jan. 20-Feb. 19) You may have some pleasant surprises in store today, simply because you're well thought of by others. People just want to do nice things for you.

PISCES (Feb. 20-March 20) Surprises in store today, simply because you're well thought of by others. People just want to do nice things for you.

YOUR BIRTHDAY
Nov. 19, 1976
The coming year is not likely to be a run-of-the-mill one. There are some pleasant surprises ahead. You'll do more things you enjoy.

PBS Film Producer Eying Move West

LOS ANGELES (AP) — Public television's mightiest original drama, "Lisa's Pioneer Diary," which shows the life of a young Kentucky woman moving westward in 1848. As fate would have it, Nell Cox, the film's producer, director and writer, is doing a little westward pioneering of her own. After 17 years of working in New York, she's moving here to get to the heart of it.

### Pipe Line To Provide Too Much Gasoline

By Evening Herald Staffed Ft. Thursday, Nov. 18, 1971

LAS ANGELES (AP) — From the Alaska pipeline, the West Coast's supply of oil is expected to be so abundant that the oil companies haven't figured out exactly how much to supply. The Alaska Pipeline Project, a \$1.5-billion venture, is expected to begin pumping oil to the West Coast in 1975. The project will add 1 million barrels a day to the West Coast's supply of oil, which is currently about 1.5 million barrels a day. The Alaska Pipeline Project is a joint venture of the Arctic Slope Regional Corporation, a consortium of Alaskan oil companies, and the U.S. Government. The project will cost about \$1.5 billion and will be completed in 1975. The pipeline will run from Prudhoe Bay in northern Alaska to the coast of Alaska, where it will cross the Bering Sea and enter the Gulf of Alaska. The pipeline will then cross the Bering Sea and enter the Gulf of Alaska. The pipeline will then cross the Bering Sea and enter the Gulf of Alaska. The pipeline will then cross the Bering Sea and enter the Gulf of Alaska.

### Poor Engine Maintenance An Epidemic

By Evening Herald Staffed Ft. Thursday, Nov. 18, 1971

More than 45 million vehicles in the United States show evidence of improper engine maintenance, according to a survey conducted by the American Automobile Association. The survey, which was conducted in New Jersey, the only state with emission inspections now in effect, found that 45 percent of the cars tested had improper maintenance. The survey also found that 15 percent of the cars tested had improper maintenance. The survey also found that 15 percent of the cars tested had improper maintenance. The survey also found that 15 percent of the cars tested had improper maintenance. The survey also found that 15 percent of the cars tested had improper maintenance.

### Sanford Youth Builds Own Hot Rod

By Evening Herald Staffed Ft. Thursday, Nov. 18, 1971

Sanford youth built his own hot rod, a 1932 Model-T Ford, in his white hot rod shop. The car was built by Josh Howell, a 17-year-old high school senior. The car was built in his white hot rod shop. The car was built in his white hot rod shop. The car was built in his white hot rod shop. The car was built in his white hot rod shop. The car was built in his white hot rod shop.

### What Gas Shortage? How We Forget

By Evening Herald Staffed Ft. Thursday, Nov. 18, 1971

The human mechanism has a remarkable ability to forget. It is this ability that has allowed us to survive in a world of constant change. It is this ability that has allowed us to survive in a world of constant change. It is this ability that has allowed us to survive in a world of constant change. It is this ability that has allowed us to survive in a world of constant change. It is this ability that has allowed us to survive in a world of constant change.

### Speed Causes Some Problems

## Community Action Units Open Doors

By BOB LLOYD  
Herald Staff Writer

Seminole Community Action Inc. (SCA) and the Seminole Employment and Economic Development Corp. (SEEDCO) officials Thursday opened the doors of their poverty-fighting, community service operations to the public for open house and guided tours.

SCA's primary objective is to enhance self-help among low-income families throughout the county, according to SCA Board Chairman S. T. Muller and Executive Director Rev. Amos C. Jones. Jones said federally-funded SCA isn't

## Prices Creep Up, Inflation Slowing

WASHINGTON (AP) — Consumer prices rose three-tenths of a per cent in October, the government said today. It was the smallest increase in seven months as the nation's inflation rate continued its moderating trend.

The increase in the Consumer Price Index followed a rise of four-tenths of a per cent in September and monthly advances of five-tenths of a per cent during the June-August period. The Labor Department said October's price increase was the smallest since a two-tenths of a per cent rise last March. Over the past 12 months, retail prices have risen 5.3 per cent, marking the smallest increase since the 12-month period ending in April 1973, when they rose 8.1 per cent.

In a separate report, the department said the purchasing power of the average worker's paycheck rose last month as it declined in August and September.

Today's economic reports See INFLATION, Page 2-A

## Moral: Protect 'Old Glory'

ST. PETERSBURG (AP) — "Gentlemen, the first step in crime prevention is to make sure no one can pull off the crime."

That's how a note began from the phantom "Caped Crusader" who returned a stolen American flag to a bank Thursday.

"This was done as an example," the message went on. "The first guy that tried this was a complete jerk, as he was caught."

"I did this because this is the most beautiful flag in the state and represents a beautiful country."

"Please take better precautions next time. You're lucky I did this and not someone who would never have returned it."

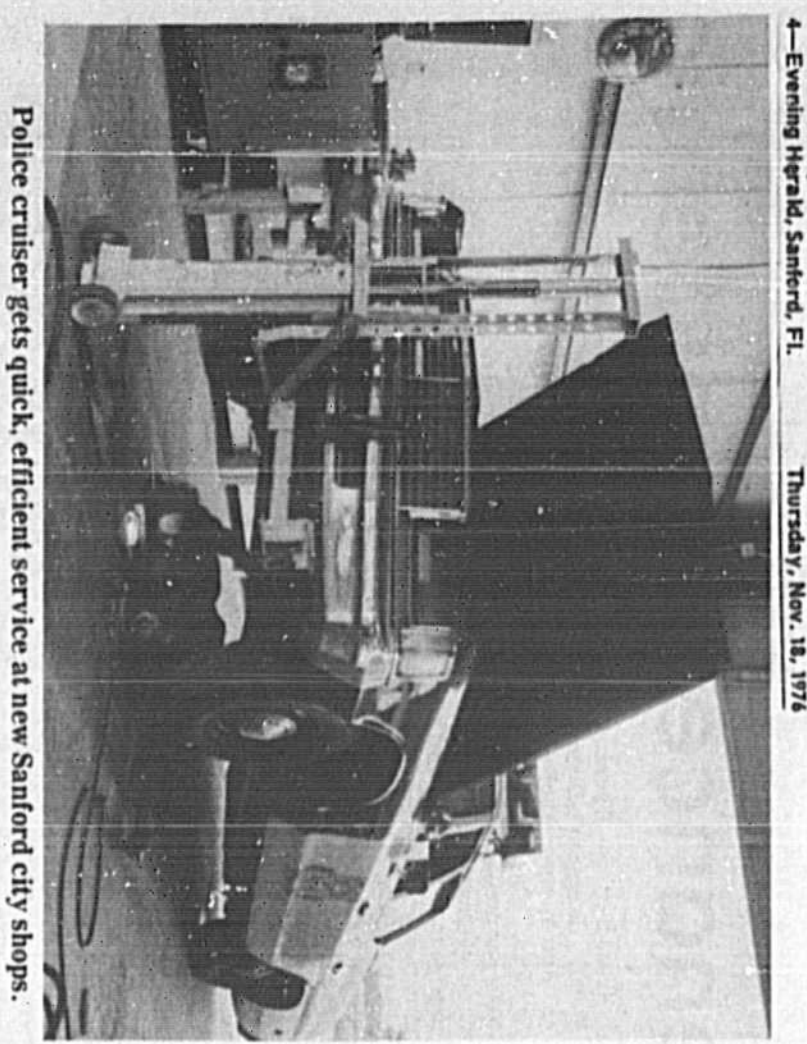

## Sanford Program Target: Computerized Car Care

By BOB LLOYD  
Herald Staff Writer

The plan is to save the taxpayer money. The name of the game is Preventive Maintenance. And there are many ways to do it.

Sanford's new Public Works Complex on the waterfront started Oct. 1 and is now in full operation. At the city's new modern shop facilities, complete maintenance is being kept on all city-owned vehicles, including police and staff cars, trucks, and other vehicles.

Assistant Public Works Director George Hata and his staff are the ones who will be doing the work. Hata explained that the city's maintenance program is being computerized. The city staff will be using a computer to keep track of all the vehicles in the city. This will allow them to schedule maintenance at the right time, saving money and ensuring that all vehicles are kept in good condition.

## The Zoo Cries Help! Today -- \$30,000 Needed

By JANE CASSELLBERRY  
Herald Staff Writer

Central Florida Zoological Society Finance Committee Chairman Wayne Simpson reported Thursday afternoon that the zoo facility needs \$30,000 immediately to bail it out of a "desperate short-term financial crisis."

With outstanding debts of over \$20,000 and no cash on hand, Simpson said, the zoo may be forced to close if area organizations and the public do not come to its rescue.

Simpson revealed that zoo suppliers have either cut off delivery or are threatening. The zoo has less than a week's supply of food for the animals.

The zoo has had to lay off 11 employees in the past four months to cut down expenses, Simpson said, and the final four were let go last week. The maintenance man is now doubling in the refreshment stand, he added.

Simpson said several factors triggered the financial problems which forced the zoo to spend an unexpected \$66,000 out of the current expense account. He said \$15,000 had been budgeted for insurance, but the insurance carrier had raised the premium to \$31,000. Simpson said inflation has raised to \$150,000 the cost to develop leased county park property to satisfy the "after the fact" requirements of the \$100,000 federal grant obtained through the state. A 355-ft. deceleration lane on 17-92 was also an unexpected expenditure.

Under state law these funds could not be used to develop the zoo proper, but went for such items as picnic facilities and comfort stations. To raise matching funds a group of 57 local citizens signed a \$100,000 note with local banks. When inspected and audited in July, the park met state approval.

Simpson said the society hopes to meet the long-term financial problem of paying off this year's subsidy from the state," he said.

Another problem has been wet weekends that cut down on gate receipts. Simpson said that although no money has been available for advertising and promotion, the zoo has been grossing between \$2,000 and \$4,000 on a good weekend.

Fire of undetermined origin early today destroyed a vacant building known as "The Red Barn," a former garden tractor sales building, at U.S. 17-92 and Spartan Dr., Fern Park. The frame structure, recently moved to the location behind a vacant gasoline station, was already consumed by flames when a sheriff's deputy spotted the fire and summoned county fire units. Officials said ownership of the barn wasn't immediately determined.

## Jail Screening Program May Reduce Inmate Population

By January 1, 1977, officials expect to begin a diagnostic program at Seminole County Jail at Sanford aimed at reducing repeat incarceration of offenders in the short-term county facility.

A \$9,810 grant from the Federal Law Enforcement Assistance Administration (LEAA) is being used with state and county funds to pay the \$10,500 first year cost of the program.

Jail Administrator George Proudfoot said it took two years of work to obtain the federal crime-fighting funds for the program which will entail screening of inmates who remain in jail after initial court appearances.

The screening and evaluation program to be headed by a professional staffer, yet to be hired, will lead to decisions on cell assignment based on the offense, the offender's age and personal background.

The jail nurse will participate in the new program in the areas of recommending mental health, drug and alcohol abuse treatment for inmates found to need the help.

Outside professional counseling services will also be used on a contract basis.

Proudfoot believes the diagnostic program, by furnishing personality profiles and background data on inmates, will help shorten the time period required for pre-sentence investigations ordered by the court from state probation and parole department officials.

One objective of the new screening program is to reduce the average inmate population at county jail. For the three-month period ending in September, the average jail population was 91.5 prisoners. A jail record survey just completed shows 27 per cent of those arrested remain in jail.

Of the prisoners booked on their own recognizance by judges, one per cent were released on their own recognizance, 15 per cent were released on probation and parole officials, 15 per cent completed sentences, three per cent were released when charges were dropped, and four per cent were transferred to states and other counties.

If current correction facility standards were used, the county jail would be able to house 40 prisoners. But the county is allowed to exceed this figure because the 1954-vintage facility was built before the current criteria was adopted.

By the end of January, a new modular jail addition will be usable for housing 46 minimum security prisoners, including trusts and work-lease inmates, Proudfoot said.

Once the new inmate staffer is hired for the screening program and a contract is entered for counseling services and testing of inmates, Proudfoot said the new program is expected to process an average of three to six persons a day plus evaluation of inmates already in county jail.

"If an inmate is found to have educational needs," Proudfoot said, "we'll encourage him to continue his education through classes already offered in the jail."

He said an average of 300 persons are booked into county jail each month.

The diagnostic screening program will utilize present space at the sheriff's department and provide increased guidance and counseling based on inmates' needs instead of the current almost-random selection due to a lack of staff to screen inmates.

Professional consulting services are budgeted for \$1,400 of the first year's program cost. The salary of the jail intake counselor, with a college degree in human behavioral disciplines, is \$9,500 the first year.

Proudfoot said that when the new staffer is hired there will be a 30-day training period on the screening program implementation for county correctional officers who run the jail and handle booking procedures. — Bob Lloyd.

## Sanford: Computerized Car Care

City staff car gets new brake linings after preventive maintenance check.

Facilities to service everything from public cars to private cars. The new computerized maintenance program will allow the city to schedule maintenance at the right time, saving money and ensuring that all vehicles are kept in good condition.

## Wash That Salt Out of Your Car

WAX... There's nothing more important to your car than the car's exterior. The chemical cleaning process of the car's exterior is the most dangerous period in a car's appearance. Car washes on highways can cut close attention to hard to reach areas such as the roof, hood, and trunk.
