SANFORD, FLORIDA, TUESDAY, MARCH 2, 1920

NUMBER 108

TRAINS NOW RUNNING UNDER THE FORMER DELEGATED POWERS

More Authority Given To Commerce Com.

RATES WILL STAND

AND WILL BE EFFECTIVE FROM THE TIME DESIGNATED

Washington, Mar. 2.—Railroads of the country, operating for the first time in 26 months under their own management, were formally notified today by the Interstate Commerce Commission of the new powers delegated to that body and of the rights and privileges accorded it by the new railroad law. The commission's announcement explained that provisions of the law against rate reductions prior to Sept. 1 without the commission's approval, were mandatory, but that changes in rate regulations, classifications and practices in which a decision had been entered by the commission would be effective when designated.

Changes in rates and classifications effective prior to today will stand, the statement said.

VEGETABLE AND FRUIT SHIPMENTS

FRUIT SHOWS IMPROVEMENT AND VEGETABLE SEASON AT THE PEAK OF SHIPMENTS

Jacksonville, Fla. Feb. 28.—Florida citrus fruit shippers have already moved more than 6,500,000 boxes of fruit this season. The carlot movement of Florida grapefruit up to and including February 22 was 6,345 cars compared with 5,684 cars last year to the corresponding date. Likewise the movement of oranges was 12,183 cars compared with 11,183 cars, a total excess over last year's movement of 1,000 cars. The movement of grapefruit last week was 379 cars, of oranges 731, compared with 293 and 306 respectively during the corresponding week, last year.

Practically every citrus fruit shipping point in the state is now moving citrus fruit, with the exception of a few which have already completed their picking. The quality of fruit is almost invariably good, although heavy rains last week made some fruit fruit soft. There is no attempt on the part of shippers to delay picking any longer. The new bloom is appearing and in many places now already on, and the old fruit must be removed to make room for the new. Prices during the past week have been good, and the movement therefore correspondingly heavy.

The cabbage movement is breaking all records, 1,295 cars had been shipped to last Saturday. The movement to the same date last year was 353 cars. The output last week was 247 cars. A year ago it was 89 cars. The quality of cabbage this season is also breaking all records. Shippers and receivers alike are reporting good quality. Sales are good except at points where bad weather has interfered with distribution. Particularly heavy receipts are shown on all Southern markets which has to some degree caused a depression of prices.

One hundred and sixty cars of celery were shipped from the state last week, compared with 85 cars during the corresponding week last year. The total to Saturday, 388 cars in excess of last year's movement, was 627 cars.

The large acreage of early tomatoes which had not been knocked to pieces by the freeze of January 3 to 5, and later injured by rains, so far had only reached a total of 541 cars. The movement last week was 91 cars, which would not have been a half day's movement had conditions been favorable. Compared with last year's output to the corresponding date, of course the movement this year is over 400 cars heavier. But last year's crop was not planted

to begin movement before February 25. The quality of the tomatoes now moving is variable. There is no other truck or fruit crop moving from the state that shows as much variation in quality. The great bulk of stuff moving is small in size. Nevertheless prices have remained very good and sales show that demand is strong. There is some good fruit moving, and fancy prices have been reported for this grade.

There were 57 cars of mixed vegetables shipped last week. The movement to last Saturday was 755 cars compared with 457 cars last year. The lettuce shipping season is drawing to a close, only 66 cars having been loaded last week. This summary covers the solid carlot movement. The express movement has been very heavy during the entire season, both in fruits and vegetables. The movement by local freight is almost a negligible quantity. N. Y. Packer.

CHINESE PREMIER RESIGNS

ACCORDING TO REPORT RECEIVED BY JAPANESE NEWSPAPER

Honolulu Mar. 2 (By Associated Press) The Premier of China has resigned according to a special Tokio cable to Nippu Jiji the Japanese paper here.

Shipped Much Boozie

Washington, Mar. 1.—America's last year of export trade in alcoholic beverages, before the advent of prohibition resulted in an increase of nearly \$10,000,000 in the value of spirits, wines and liquors shipped out of the country, in 1909 compared with 1918, according to foreign trade reports issued by the Department of Commerce.

During 1909 a total of 48,465,831 gallons of spirits, wines and liquors valued at \$18,740,484 were exported against 20,242,226 gallons at \$9,000,600 in 1918. Whiskey was the heaviest item of alcoholic exports for the year, 83,936 gallons of bourbon valued at \$3,560,664 and 247,563 gallons of rye at \$79,769 being exported.

BUYING AND SELLING ARE POINTS

TAKEN UP FOR DISCUSSION IN SUPREME COUNCIL AT PARIS

Paris, Mar. 2 (By Associated Press) Joint buying and distribution according to necessitates and supervision of selling prices are provided in tentative plan reached last yesterday in a session of the Supreme Council says the Petit Parisienne. The plan will be submitted to Premier Millerand before becoming effective.

Florence Reed in "Wives of Men" At The Princess To-day

"Her husband had gone to catch the midnight train. She rushed to the telephone and called up another man, making an appointment for him to call upon her. The lights were low. A man entered, she ran to him; threw her arms about him; kissed him passionately. Then she suddenly discovered it was not the man she thought,—but her husband. What would a woman do under such circumstances? What would you do? You can find out all about it by seeing Florence Reed in the great seven part photodrama "Wives of Men" at the Princess today with another picture.

SANFORD HIGH SCHOOL CHAMPIONS

GIRLS OF SANFORD HIGH ARE THE LEADERS IN THE STATE AND PROVE IT

The Sanford High School is represented this year by the strongest girls' basketball team in the State. This school has in previous years been favored with very strong basketball teams, but the one representing Sanford at present is believed to be the major.

Upon her record for the basketball season to date, Sanford declares herself a claim to the State Championship. The schedule to the present has probably been the heaviest of any High School in the State. Sanford has games scheduled and intends to schedule other contests with honorable claimants to the Championship. Any High School making an eligible claim for the honor will please accept this challenge for two games, one to be played on your court and one in Sanford. If a third game is necessary the Sanford Girls will meet you half way. In answering this challenge please state your claims including a record of your schedule to the time of your acceptance of the challenge. Address all correspondence to Miss Julia Zary, Mer. Sanford High School Girls' Basketball Team, Sanford, Fla.

The Girls' Basketball Team of Stetson University is the only team in the state that has scored a victory against Sanford. A series of two games were played, one in DeLand and one in Sanford each team adding a victory to their list when playing on their home floor. Stetson University is not an eligible contestant for the High School Championship, and should this team have won both games the chances for Sanford could have been just as great. But, Sanford intends to play a third game with Stetson and thereby prove herself to be the fastest in the entire state.

The following schedule will support the claims of Sanford:
Sanford 51—Kissimmee 7
Sanford 20—Seabreeze 11
Sanford 15—Kissimmee 14
Sanford 07—Rollins College 12
Sanford 8—Leesburg 8
Sanford 21—Central 9
Sanford 21—Seabreeze 08
Sanford 16—Stetson University 20
Sanford 24—Orlando 16
Sanford 30—Rollins College 23
Sanford 26—Stetson University 13
Sanford 74—Orlando 8
Leesburg forfeited one game in failing to appear for a return game in Sanford.

Reese-McLucas

Mrs. Effie McLucas and Mr. Charles F. Reese were united in marriage last night at 7:30 at the Presbyterian manse Dr. Brownlee performing the ceremony. In the presence of a few friends and the immediate family. The bride has been a resident of this city for many years and is well and favorably known in a large circle of friends.

The groom has lived here for the past eight years being an employee of the A. C. L. for many years but for the past eight months an employee of the Southern Utilities Co. They will reside at the home of Mrs. Reese at 309 West Second street and the best wishes of their many friends is extended to them.

15,000 Cars of Tomatoes

Miami, Fla. Mar. 1.—The East coast tomato acreage is the largest on record. Around 15,000 acres has been planted in tomatoes, 50 cars already being shipped. The acreage is both larger and earlier than usual as the weather has been very mild all Fall. Most of the early acreage is south of Miami at Ferrine, Homestead, Goulds, Florida City, and Naranja. There is also a much larger acreage of cabbage on the East coast than ever before. Good acreage on cabbage at Florida City, Delray, Ft. Lauderdale, Boynton, Dania, Hallandale; also cabbage at Homestead and Goulds, besides West Palm, Beach Moore Haven will have both a good cabbage crop and Irish potato crop. First cars of cabbage will move shortly from the East coast points. Express shipments now moving.

WORLD'S GREATEST SHIPYARD

HOG ISLAND WILL LAUNCH LAST SHIPS IN JUNE AND THEN QUIT

Philadelphia, Mar. 2 (By Associated Press) The world's greatest shipyard at Hog Island, built to overcome the ravages of the German submarine and help win the war for the Allies, will launch its last war-time ship in June and turn it over to the government in September. When the last of the fabricated ships of the war-time contractor leaves the vast plant on the Delaware, Hog Island will have turned over to the government 122 vessels a record of more than one ship a week since the first boat was sent overboard in August, 1918. There have been several double launchings in one day, and on Memorial Day last year five ships were launched in a little more than an hour, establishing a world's record.

When Hog Island was going at top speed during the war with 50 ways occupied approximately 35,000 men were employed. This force has been reduced to about 22,000 and after the last ship is launched in June the force will be reduced to 25 percent of this number. These men will complete and equip the ships still left to be turned over to the government.

What is to become of Hog Island is the great problem confronting the owners of the yard. Recently the United States Shipping Board took over the title to the ground. Philadelphia has been urged to take over the yard and continue it either as a shipbuilding plant or convert it into a great terminal. Efforts to interest the state have also been made, but amount of money required to buy the great plant has been a stumbling block. It was proposed that the state purchase the 900 hundred acres with 2 miles of water front and lease them out to manufacturing and other concerns.

NEIGHBORS OUTCLASS AMERICA

IN DAIRY PRODUCTS CANADA AND SOUTH AMERICA WILL BEAT US IN RACE

Washington, March 2.—Canada and Argentina may soon prove serious competitors of the United States in the dairy industry. Government officials believe. The industry in both countries is in its infancy but Canada is producing 9 percent as much cheese and 12 percent as much butter as the United States, while Argentina is producing 08 percent as much cheese and seven percent as much butter. Canada's butter exports were 41 percent as large as those of the United States while her cheese exports greatly exceeded exports from the United States. Argentina's butter exports were double those of the United States and her cheese exports were equalled 32 percent of those of the United States.

It is generally believed, government officials say, that Argentina and Canada are capable of extensive development of their industries and it is probable, therefore, that the United States may experience in the future particularly energetic competition. Argentina, 21 days distant from New York, they say, may not be thought of seriously at this time as a direct competitor in the domestic market, but indirectly Argentina butter may supplant Canadian butter in the English market, in which case Canadian butter would find a logical outlet in the United States.

Canada is in a better position today in the world's markets with her butter and cheese than is the United States, officials declare. Moreover, Canada's policy with her returned soldiers and immigrants toward land development is bringing results

TREATY SEEMS DOOMED ACCORDING TO LEADERS VIEWING THE QUESTION

Neither Side Seems Disposed To Yield

which eventually will mean larger production. In the United States available lands are scarce and all lands generally expensive. It is reasonable to believe, government scientists say that in the future production will not increase in proportion to the population, as the greater part of the really productive land is now utilized. Resumption of the importation of European butter is again giving real competition to our products.

To Control Liquor Traffic

Birmingham, Eng. Mar. 2.—Lady Astor addressed the opening meeting here the other night of a women's campaign for state purchase and control of the liquor trade. She characterized the plan as "practical" but said no government in England at the present time could hope to win a election with prohibition as its main platform plank.

FRENCH RAILROAD STRIKE

PROMISED EARLY SETTLEMENT WITH SEVERAL POINTS TO BE CONSIDERED

Paris, Mar. 1. (By Associated Press) The railway strike settlement provides the right for the men to organize and arbitration points are not yet settled and immediate study of the future railroad rules are contemplated. Normal conditions are expected tomorrow.

Scotland's Local Option Law

Edinburgh, Mar. 2.—Scotland's new local option law will come into effect on June 1, and the prohibitionists are projecting a lively campaign throughout the country to persuade the people to vote their districts "dry" at the next election. The prohibitionists express the hope that if Scotland can be made dry under this law, England and Wales may demand similar legislation.

Railroading in Germany

Berlin, Mar. 2.—As instancing the laxity with which the Prussian state railways are now administered the Tageblatt cites the case of a Bremen engineer who took an idle engine and rode to a point nearby to buy yeast for his wife and to visit his aunt. Then he returned the engine to the Bremen roundhouse.

Celery Is Fine

A. Cherpany who owns the farm on Beardall avenue formerly owned by the editor of the Herald sent us in some fine celery the other day just to show us what we missed by not remaining a farmer. Others in the celery delta have sent some fine stuff into the Herald office but did not want their names used. The celery is excellent this year and should bring good prices and while you are coming to town drop off a few bunches for the Herald force. We like it.

Members Executive Council Of A. F. L. Arrive At Miami

Miami, Mar. 1.—Samuel Gompers, president of the American Federation of Labor, Frank Morrison, secretary and other members of the executive council of the American Federation of Labor, arrived in Miami today to continue the conferences begun in Jacksonville last week. The visiting labor leaders were welcomed by a delegation from the Miami Central Labor Union and all enjoyed an automobile ride to points of interest this afternoon. The sessions of the council will be resumed tomorrow.

Leaders in the Young Women's Christian Association campaign who are striving strenuously to raise \$30,000, went to St. Augustine Wednesday for a day's outing. Failure to raise this amount will mean curtailment of activities of the association this year.

Neither Side Seems Disposed To Yield

LEFT UP TO VOTERS

THE QUESTION SEEMS DESTINED TO BE LEFT TO THE VOTES OF THE PEOPLE

Washington, Mar. 2.—An early and unfavorable vote on ratification of the treaty was forecast today when the leaders, replying to demands of the treaty's irreconcilable republican opponents, reaffirmed their decision not to accept any change in the substance or language of the republican reservation to article 10. Both sides concede that enough democratic senators to defeat ratification are determined to stand with Mr. Wilson and vote against the treaty unless the republican reservations to article 10 are modified. All elements in the senate treaty fight seemed ready to co-operate to end the discussion and allow the matter to go before the national conventions and thence to the people in the fall elections.

Under the agreement between republicans and irreconcilables, the latter will not carry out the program of prolonged debate. They will support the republican revision program, as they did at the last session, but will vote, as they did then, against ratification. Today's decision grew out of a conference between Republican Leader Sen. Lodge, of Massachusetts, and Sen. Borah, republican Idaho, a spokesman for the irreconcilables. Previously Sen. Borah and Sen. Hitchcock, of Nebraska, the democratic leader, conferred and the result, laid before Sen. Lodge, convinced him that no agreement was possible either with or without modification of article ten's reservation. If modified, it was pointed out, the irreconcilables might feel disposed to oppose a ratification vote; if not modified a combination of irreconcilables and administration senators would down ratification.

The unyielding stand they have taken on article 10 by the democrats is said to have been backed by the determination of President Wilson not to accept the reservation.

INVESTIGATE MEXICAN OUTRAGES

MEXICAN CONSULS TO VISE PASSPORTS FOR AMERICAN TESTIFYING

Mexico City Mar. 2 (By Associated Press) Another request that the Mexican Consuls in the United States vise passports of Americans testifying before the Senate Committee investigating Mexican conditions have been presented by the American Embassy here. Data relative to recent outrages and alleged murders of Mexicans in southern U. S. are being gathered by the Mexican Embassy at Washington for protests.

Federal officers in Miami and Palm Beach seem to keep busy nabbing booze boats. Sixty cars of liquor and a jug of choice "old iteck" was taken a few days ago and two white men and a negro placed in the city jail in West Palm Beach.

Weather Report

Fur, Florida generally fair, tonight and Wednesday with slowly rising temperature. Light frost probably tonight interior of north and central portion. Gentle to moderate north east wind.

MEMBER OF THE ASSOCIATED PRESS

We wish to comment the City Commissioners for the placing of the new street signs at the intersection of all the streets. These new signs were badly needed by the strangers to the city. Sanford is an easy city in which to locate the homes of the people if the streets are placarded. The old signs had fallen down or were removed in many places and the bright new signs are not only a great convenience but they are an ornament to the city.

DOING GOOD ELECTORNEERING

Forest Lake, of Sanford, together with his associates, has taken over the immense holdings of the Union Cypress Company, whose mill was destroyed by fire and which showed no indications of being rebuilt, and plans to immediately put the plant into working shape. As Forest Lake is a candidate for congress-man I can see where he's going to catch a multitude of votes while the circling is excellent—and besides, make a good thing for those with whom he is associated.—Palm Beach Post.

SANFORD IN SORE STRAIGHTS

The people of Sanford have surely been up against it for several weeks—during which time the electric plant—styled by the Herald as a "junk-pile de luxe"—has been out of commission. The cessation of service has proved a big hardship for the Herald, which is engaged in getting out a daily paper and it looks to me as if there could be obtained full reparation in a financial way for the loss that has been sustained. It has just been ascertained by those of the more interested in

the matter that the city has a right to grant a permit to a home company to erect, construct, and equip a plant of a similar character—only one that would be a real company and render real service—and the proper steps are now to be taken by those who have the good of the city at heart to get in a concern that will be right. The "legal" decision that another franchise can be granted was a foregone conclusion. These "permits" granted all utilities are no "franchises" in the real meaning of the word; they are merely permits—and carry with them no exclusiveness of any sort. There is probably, no exclusive franchise given any proposition in Florida. There are "permits"—but in no case can there be an "exclusiveness" which would make too strong a class legislation. And after what the Sanford Herald has suffered, I think the people of Sanford should throw enough mazzuma into the pot to build a nice, up-to-the-minute plant for their city. I certainly do.—Thorn In Palm Beach Post.

FARMERS WILL TAKE A PART

The labor unions say they will organize this year and will not support any man for office who is inimical to labor. That has nothing on the farmers for they are waking up at last to their own importance. The farmers of this county, the farmers of this state and even the farmers of this county of Seminole want to know something about the candidates this year not only the local candidates, but those who are seeking state and national offices. They want to be assured that these men know something of the needs of the farmer and that they will get a square deal when the question of the farmer's interests come up. And when you come to think about it the farmer is the real man behind the country today. He is away above everything when it comes to importance and the farmer is coming to realize his importance. He is waking up to the fact that too long has he lain dormant and allowed the peanut politicians to run over him. The farmer is taking a part in politics and the farmer will speak and the farmer will be heard. And we would like to ask the growers of the Sanford section to be watchful and alive and on the job when it comes to voting for they have certainly been imposed upon in the past and they should know who is their friend and who is not.

BOARD OF TRADE PROTESTS STATE'S "FREE RANGE" LAW

Crystal Springs, Fla., board of trade is beginning a campaign against the free range law under which the cattle of the state have the privilege to graze at will and sleep on highways to their own satisfaction. The resolution which the Trade Chamber of Commerce is asked to pass states that free ranges cause much lawlessness, injury, quarrels, thefts and murders. The value of range cattle in the state is quoted at \$10,309,481 during the past year, while the total farm-raised live stock is quoted at \$18,569,361. The resolution demands a "no fence law" declaring that free range has discouraged the farmer, the grower, the trucker and the man who would raise the best stock. Relative to the measure, a member of the local chamber of commerce spoke of the free range as a menace on the public highways where cattle have the right of way. A number of the resolutions were read as having been worked in violation of night where cattle have been sleeping in the roads, not to speak of the fright which naturally resulted on the part of those in the machine. The motorists have been free to declare that if the tourist crop is the most profitable in Florida, the "no fence" law must come and the idea of free range must go. W. H. Brophy, secretary, is issuing the Crystal Springs resolution.

RAILROAD TO OWNERS TODAY

Persons who are patrons of railways and travel from place to place will rejoice to know that the owners of the lines will receive back their property this morning. If anything were needed to kill the government ownership idea the operation of the railways by Uncle Sam would do it. No one was satisfied while officers of the country ran the roads. The passenger and freight service was usually bad; the food served on dining cars was not what persons wished; the employees of the roads were impudent—not all of them, but many. And the reason is obvious: The man who said to a woman "Don't bother me wit your fool question. If you got any klick to make tell it to McAdoo" was in evidence. This was right after the government had taken over control of the roads and Mr. McAdoo was in charge. The impudent railway man was working for the government there was no immediate one over him who could summarily discharge him. He was working for Uncle Sam. No one must look for courtesy, for there

was nobody who could "fire him." That was the attitude of some of the employees.
When the owners take back their property everything will be changed except the higher fares. Employees will be polite; passengers on trains will get enough to eat and the victuals will be fit to eat. There will be competition, and efforts will be made to please patrons. With the exception of a group of employees of railroads who wish to run the roads themselves, everyone will be satisfied with private ownership. Travelers will begin to make plans for trips and all will be well.

Edward Brigham Steinway Hall, New York, Comes To Sanford.
Mr. Edward Brigham, Basso Profundo and Dramatic reader of New York City has been engaged by the Pipe Organ Club for the evening of March 11th.

The following press comments will give you an idea of the treat awaiting Sanford Music lovers.
Edward Brigham, who is a highly gifted and accomplished musician and reader, gave the best program that has been filtered for people in many seasons.—La Grange, Ga., Reporter.

As a dramatic reader Mr. Brigham has no equal on the American platform. Terre Haute, Ind. Post.
Edward Brigham gave one of the most remarkable entertainments ever given in this city. Mr. Brigham possesses a basso-profundo voice such as has never before been heard in this part of the State.—Caney, Kan. Daily.

Arranged for
Herald Readers

Among the visitors to the city are Mr. and Mrs. L. Emendola and son of New York. Mr. Emendola is the senior member of the well-known firm of L. Emendola & Co., and he comes to Sanford every year to buy Florida vegetables. He reports the recent snow storm in New York as being the heaviest of the kind in many years and traffic was blocked for many days. They are comfortably located at the Valdez and will be here several weeks.

Levy B. Giles of Orlando is a business visitor in Sanford today.

Electrical Fixtures, House Wiring, it fact all kinds of electrical work. Phone 442. W. H. Treadwell, Electrician. 83-11.

G. A. Starleton representing the Peacock Clothing Co., of Columbus, Ga., is at the store of Perkins & Britt today and tomorrow with a line of samples in men's clothing.

Floor coverings, Gold Seal Guaranteed Concrete Art Squares, Hall runners and yard goods. Boston Bargain Base, A. Kanner Prop. 213-215 Sanford Ave. 58-11 For Klim powdered Milk. Phone. 2412 W. W. Dress. 108-6tp.

J. E. Jerry is in the city again from his home in Charleston. Mr. Jerry is one of the popular buyers of Florida fruits and vegetables.

Crawford Jackson general secretary of the juvenile protective association of Guilford North Carolina is in the city in the interests of the Juvenile Protective Association. Mr. Jackson is no stranger to Sanford having organized a juvenile

association here several years ago. The many friends of Zeb Ratliff are glad to see him back to his accustomed duties as superintendent of the Herald Printing Co., after a severe illness.

A. V. French is visiting home folks for a few days. He is now in the government secret service with headquarters at Tampa.

Mrs. C. E. Stafford has purchased the Rivers home on Magnolia avenue and will make it her future home. This was her home before Mr. Rivers bought it some time ago and her many friends are glad to know that she has the opportunity of buying it back.

Claude Herndot is out again after a valiant struggle with I. N. Fluenza in which Claude came out best but he says he could not survive another round.

Charles Brabham spent Sunday with home folks in Bradenton and Palmetto. Mrs. Brabham who has been visiting her parents in Palmetto for a few days will return Wednesday

Restaurant For Sale

On account of illness in family necessitating removal to Georgia the Park Avenue Cafe and all furniture and equipment is offered for sale. Good business in good location. For particulars see Miss Carrie Gray, Park Avenue Cafe. 108-11.

Woman's Club Business Meeting

The regular business meeting of the Woman's Club will be held tomorrow (Wednesday) at 3:30 P. M. A full attendance of members is urged as this will be the annual election of officers and chairman of the club.

Benefit Show at Princess Theatre Fernald-Laughton Memorial Hospital

Thru the courtesy of manager Kitner, a benefit show will be given at the Princess Theatre, Friday night, fifty per cent of the receipts going into the treasury of the Fernald-Laughton Memorial Hospital. Under the direction of Mrs. A. E. Hill, a committee of ladies will sell tickets for Friday night so a record breaking audience is expected to overflow the commodious building. The hospital has already proven a valuable asset to the town and nothing further need be said in support of the present effort to secure funds. Buy your tickets from the lady who calls as only ten per cent of the door receipts to the hospital fund.

For Benefit Of The Hospital

The Princess Theatre will put on a good program Friday and fifty per cent of the tickets will be the ladies will be given to the Fernald Laughton Memorial Hospital. Ten per cent of the box office receipts will be given to the hospital.

A fine program will be given at the matinee and night performance Friday for the benefit being Ethel Clayton in the "Young Mrs. Winthrop" and Ruth Roland in the First Episode of the "Episodes of Ruth."

The Princess will give several of these benefits during the next few months and the ladies will sell the tickets and it is expected that a large crowd will be the result.

Annual Meeting Kn Woman's Club
The annual meeting of the Woman Club will be held Wednesday at 3:30.

J. FRANK HANLY NOTED ORATOR

To Be in Sanford on Friday March 5th

Hon. J. Frank Hanly, of Indianapolis, former Governor of the State of Indiana, will speak to a mass meeting of men and women at The Baptist Temple on Friday March 5th under the auspices of the Flying Squadron Foundation. Governor Hanly is President of the Foundation and Editor of the National Enquirer.

A lawyer of ability, and an advocate of remarkable force and power, he has given up his profession to devote his time and talents to the cause of prohibition and civic betterment.

Mr. Hanly has but recently returned from France, speaking in a series of meetings with the American Expeditionary Force there, going under the auspices of the Flying Squadron Foundation and the United Committee on War-Temperance Activities in the Army and Navy. He addressed many thousands of the men returned aboard ship with 2500 of them. A trained and thoughtful observer of affairs and of men and events, he brings back a stirring, vital message.

Dr. Geo. Hyman has charge of

The New City Government

has furnished two members of the "Lucky 13," Mayor Stevens and Mr. Henry, both Directors in the Sanford end of the Florida State League, and if you have your doubts about who is going to win the pennant this year, just ask Mr. Henry.

AND—IF—YOU

have your doubts about who should fit you out in that spring out-fit, just ask any one that trades with us. Nothing but the best will be found at our place and that is because we have found that the best is the cheapest in the long run. And the new lot of spring goods arriving at our place daily is of the kind that will make you want to become full fledged customers of
