Bigamy Charge Reveals Strange Marital Mixup in South Dakota Village.

Something has been written of the extraordinary effect of Doctor Coue's mental suggestion treatment upon a group of British shell-shocked soldiers. He delivered his lecture to them and ed thousands of more or less normal people at his now world-famous Nancy clinic, and the result was an outburst of hysterical excitement which was deemed to be exceedingly injurious to the sufferers. It was, indeed a mad riot of the shell-shocked.

The episode created much criticism of the whole idea of therapeutical use of mental suggestion.

Don't be Fooled-

"Fool me once," says the proverb, "and it's shame on you. Fool me twice and it's shame on me."

Don't be fooled when it comes to spending your money. Patronize the merchants who have a reputation for fair dealing and honesty. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his patrons.

The consistent advertiser pays money to tell you about his goods. He KNOWS they are good—he backs them with his money because he believes they will satisfy. Only merchandise which is consistently good can be consistently advertised.

So advertising PROTECTS you against fraud and inferiority. It tells you what is new and good, making you a wise buyer. It saves you money by pointing out for your consideration ONLY THE BEST products and the best places to buy them.

Thrifty men and women read the advertisements. To them it is a plain every-day business proposition—a DUTY they owe to themselves and to their pocketbooks.

Don't be-fooled!

Don't Spend Your Money Blindly Read the Advertisements

WHERE DO YOU BUY?

Towns and cities are very convenient institutions. It's mighty nice to be able to go a few miles and get groceries, medicine, lumber, clothing and many other commodities. However, if everybody bought outside the county-from the mail-order houses-there would be no towns like ours. There would be no businesses like ours to help pay taxes. The mail-order man contributes nothing to the upkeep of our town and county. He is not prepared to render services comparable to those we give you. Generally, we can meet and beat his prices. Why buy from him?

Don't be Fooled---

"Fool me once," says the proverb, "and it's shame on you. Fool me twice and it's shame on me."

Don't be fooled when it comes to spending your money. Patronize the merchants who have a reputation for fair dealing and honesty. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his patrons.

The consistent advertiser pays money to tell you about his goods. He KNOWS they are good-he backs them with his money because he believes they will satisfy. Only merchandise which is consistently good can be consistently advertised.

So advertising PROTECTS you against fraud and inferiority. It tells you what is new and good, making you a wise buyer. It saves you money by pointing out for your consideration ONLY THE BEST products and the best places to buy them.

Thrifty men and women read the advertisements. To them it is a plain every-day business proposition—a DUTY they owe to themselves and to their pocketbooks.

Don't be fooled!

WHERE DO YOU BUY?

Towns and cities are very convenient institutions. It's mighty nice to be able to go a few miles and get groceries, medicine, lumber, clothing and many other commodities. However, if everybody bought outside the county-from the mail-order houses-there would be no towns like ours. There would be no businesses like ours to help pay taxes. The mail-order man contributes nothing to the upkeep of our town and county. He is not prepared to render services comparable to those we give you. Generally, we can meet and beat his prices.
