

Strike Settled At Government's Oak Ridge Plant

Workers Return To Work For 10 Hourly Wage Increase

OAK RIDGE, Dec. 11 (AP)—The labor dispute which had threatened to tie up production at one of the government's largest atomic energy plants was settled early today when the Carbide and Carbon Chemicals Corp. and a CIO union agreed on a new contract.

The company and officials of the United States Gas, Coke and Chemical Workers Union reached an agreement in two marathon negotiations held immediately after plans for the first strike in the history of an atomic energy plant were shelved Monday by the union at the urgent request of the government.

Under the new 18-month contract 3,000 production workers at the giant gaseous diffusion atomic process plant receive a 10 cents an hour "across the board" wage increase and other concessions.

Throughout a months-long dispute, the union had held out for a 25 cents an hour blanket wage increase.

In announcing the agreement, the atomic energy commission, which had taken a hands-off attitude in the dispute, said it came "through the give and take of negotiations. There was no resort to action which would interrupt production at the plant so vital to the national security."

The new contract also contains a wage re-opening option that can be exercised in eight months, and provides for additional increases for more than 30 percent of the hourly employees "where wage equities were claimed to exist under the old pay schedule."

Shift differentials of 10 cents an hour on the second shift and 15 cents an hour on the third shift also were agreed upon. Negotiations previously had resolved about 30 other points at issue.

A general meeting of members of local 288 of the CIO union was called for tonight for ratification of the agreement, Clyde L. Terry, president, said.

COMMENTS from the SIDELINES

By ARTHUR BECKWITH, JR.

A Reminder
We would like to remind all hunters of Central Florida that one of their responsibilities as a licensed hunter is to observe the rules and regulations of hunting, safety and conservation. The Seminole County Sportsmen's Association is making a special effort to show the way and set the pace for the others to follow.

Staying within the bag limit, is one of the first rules which should be observed. Anyone shooting game after he has his limit for the day is just destroying his own sport in the years to come.

This Outdoor World
Everyone knows that eating habits of fish are peculiar, and sometimes may even be classed as provoking to the angler. They are temperamental in their tastes and one never knows just what their appetites may crave.

It all leads up to a pair of fishermen who were fishing in a lake near Winter Park. They brought in the limit, while the fellows in the other boats were catching nothing.

Their secret was that they were trolling, not casting. They were trolling with polar flies, and their average catch was from three to four pounds.

That may be a way that some of these Seminole County anglers can bag a few of the big ones. It is worth a try, anyway. There have also been reports that the blue fish are biting well all the way from Ormond Beach

Politics In Aid

(Continued from Page One)
made "sharp charges" about the conduct of foreign affairs, that the speech was "one of the most regrettable" he had heard in his 19 or 20 years in the House.

Rep. Clarence Brown (R-Ohio) teed off on McCormack. If McCormack regretted what Halleck had said, Brown thundered, "I far more regret the remarks he has made. Certainly this is not the time and place for personal attacks."

The Ohioan, who has crossed swords with Halleck on inter-party political strategy at times, called the Indianan "a great American" who "spoke as an American on the floor here today."

Rep. Jarman (D-Ala) replied briefly to Brown, deploring that "the gentleman from Indiana, the majority floor leader, has come in at this crucial time and delayed this bill with a political discussion."

"I believe the people of this country want this legislation passed without the delay of twaddled and tweddledum," Jarman said.

Supporters of the bill hoped to get a vote on final passage later in the day. But the chances of Republican-Democratic cooperation in that direction apparently dimmed when Halleck, McCormack and the others started in.

Anderson's amendment came up at the start of perhaps the final day of House action on the emergency aid program. Supporters of the bill have said they consider it "over the hump" and are driving for a vote on passage.

Rep. Vorys (R-Ohio), piloting the bill through the House, said he saw no objection to the Anderson proposal since it was in accordance with the objective of substituting plentiful for scarce foods in helping hungry, broke nations through the winter.

Vorys and Rep. Jarman (D-Ala) told reporters they figured the bill, skinned over its biggest hurdles when the House late yesterday rejected an amendment to cut the bill to \$200,000,000, reduce it to \$500,000,000, and raise it to \$661,000,000.

Other congressional developments today included: A House Foreign Affairs Subcommittee said in a report on international political movements that "the Communist hope of early victory in western Europe through legal Democratic politics is dead for years to come."

The report, prepared by Rep. Maloney (R-Pa.), added, however, that the possibility of the Communists using "their party cadres through illegal and violent means is therefore open."

Mr. Truman said he hopes to send Congress his long-range European Recovery Program (Marshall Plan) in a short time, but that his message will not be ready this week.

Rep. Horan (R-Wash.) told the House he was "amazed to learn that hundreds and probably thousands of government employees" are taking advantage of the 40-hour week to hold down additional part-time jobs.

to Flagler Beach. While we are on the subject, and are giving out trade secrets, we might as well say that there are plenty of ducks this year in the Central Florida area. They seem to be feeding in Lake Apopka and roosting in Lake Jessup. There are many ducks on the salt water inlets around Titusville, it has been reported.

We heard a report on one hunter who went to Titusville Tuesday and bagged his duck limit then caught 15 speckled bass with his fishing tackle before returning home. Yes, they are here, but you have gotta know where to get 'em.

Florida State News In Brief

TALLAHASSEE, Dec. 11 (AP)—Plans for the formation of a statewide school safety advisory council to plan an "effective program of safety education in the schools" were announced today by State Superintendent of Public Instruction Colin English.

In a letter of invitation sent to 27 state safety groups, English said "the seriousness of the accident problem in Florida requires that we give increased emphasis to safety education in the schools."

English said he will appoint a 27-man committee consisting of representatives of teacher-education institutions, the University of Florida, Florida State University, motor clubs and safety councils and official state agencies.

MIAMI, Dec. 11 (AP)—Fifty-four Puerto Ricans were stranded here temporarily after flying this week from San Juan in a promise of agriculture jobs at Vero Beach.

"Most of the men were broke, hungry and terrified at the situation in which they found themselves," said Mrs. M. M. Thomason of the Travelers Aid Society

"The Florida State Employment Service found the jobs for them," Mrs. Thomason said the Puerto Rican government had been advised through the American Red Cross that reports of "easy money" in Florida agricultural jobs were exaggerated and watch should be kept on unauthorized emigration from the island.

MIAMI, Dec. 11 (AP)—The police department warned owners of small bars and eating places today that a trio of thieves have schemed out a new way to rob them.

The trio has used this system successfully three times this week: All three enter a small bar or eating place which has no cashier on duty. They eat or drink, then two go to the cash register. There one opens up a newspaper as though reading it but in a manner that hides the cash register from others in the place. The second thief opens the cash register and dips in, while the third one chats with the waiter-owner and clears the way for escape.

The scheme netted the men \$464 in three raids.

First Look Into Mysterious Core Of Human Nerve Fibers Announced

By ALTON L. BLAKESLEE, Associated Press Science Reporter
PHILADELPHIA, Dec. 11 (AP)—The first look into the mysterious core of human nerve fibers, revealing a structure never seen before, was announced today to the Electron Microscope Society of America.

The discovery, which promises new knowledge about how nerves work, was made by Dr. E. De Robertis and Dr. Francis O. Schmitt, biologists of the Massachusetts Institute of Technology.

The looking was done with an electron microscope, which achieves effective magnifications of 100,000 times actual size, or far beyond the power of microscopes using ordinary light.

Nerves are composed of many fibers arranged in parallel, like a cable. Evidence was found that the core of each individual fiber contains many long string-like structures about half a millionth of an inch thick. They appear to be tubular or cylindrical in shape, and they run in parallel lines. They are denser or thicker along their outer edges than in their centers, but whether they may be hollow has not been determined. They have cross bands spaced at characteristic intervals.

This type of structure has been found in all types of nerves studied so far, and appears to be characteristic of all nerve cores, the biologists said. This arrangement has never been observed in

other types of tissues. The M. I. T. scientists found the string-like structures in the nerves of humans, rabbits, and frogs, and in invertebrates like squids, lobsters, and crabs. The human nerves were obtained from operations in which sympathetic nerves were removed to relieve the symptoms of high blood pressure. Nerves of the brain or spinal cord have not yet been examined.

The nerves were broken into fragments in order to study the central cores, which are surrounded by a sheath known as myelin. The central core ranges from 1/25,000ths to 1/1,000ths of an inch in diameter.

Exactly how nerves transmit impulses is still a mystery. It is known that it is an electro-chemical action in nature, and that impulses may be transmitted at speeds as high as 300 feet per second. The role of the new-found particles in this transmission mechanism and the function of nerves is not known, but is being studied intensively, Drs. De Robertis and Schmitt said.

Dr. De Robertis is an Argentine scientist now working as a Guggenheim fellow at M.I.T. The three-day meeting at the Franklin Institute is the fifth annual convention of the society, and is the first international conference, with delegates attending from England, Holland, Australia, and France.

Pauley Tells Of Deals In Grain Market

Government Official Says He Is \$100,000 Worse Off Since Taking Present Job

WASHINGTON, Dec. 12 (AP)—Edwin W. Pauley testified today that neither President Truman nor Secretary of Agriculture Anderson could have known when they criticized speculators that Pauley was operating on the commodities market.

Pauley, a special assistant to Secretary of the Army Royall, made the statement before the Senate Appropriations Committee. He testified he is \$100,000 worse off because he started selling his holdings in commodity futures after taking over the post last Sept. 3.

Mr. Truman in a radio message Oct. 5 criticized the "greed of speculators who gamble on what may lie ahead in our commodity markets." Later, in laying his 10-point anti-inflation program before Congress, the President asked legislation to regulate speculative trading on the exchanges.

Pauley testified he had "something less than a million dollars' worth of commodities when he took the Army post."

In a statement to the committee he said that he had "liquidated approximately 90 percent of those commodities, reducing my holdings of grain from 600,000 bushels to approximately 50,000 bushels."

Later he told the senators that he "did rather well" in commodity trading this year.

But he denied, under questioning by Senator Ferguson (R-Mich.), that President Truman could have "consistently known" of Pauley's activities. Oct. 12 (Continued on Page Eight)

1947 Airline Fatalities Double Number In Any Previous Year

By JAMES J. STREIBIG
Associated Press Aviation Reporter
WASHINGTON, Dec. 12 (AP)—The nation's airlines this year have carried more persons, flown more miles and had fewer crashes than in either of the two preceding years, but in 1947 fatalities to date are more than double any previous year.

Civil Aeronautics Board figures show that 199 passengers and 17 crew members were killed in five accidents during scheduled domestic operations. The 1946 total was 75 passengers and 22 crew members in nine accidents, the previous flight record, while in 1945 eight crashes killed 76 passengers and 12 crewmen.

The current total of fatalities this year in all kinds of accidents on scheduled airlines is 274. This includes 20 passengers and 13 crewmen killed in three accidents on United States international airlines and 14 crewmen and 11 other persons killed during non-passenger-carrying flights, such as training operations.

Two persons were killed by propellers and one crew member fell into the sea when an airplane blew out and he was sucked from the ship by the rush of air.

In addition, 32 passengers and five crew members were killed in four accidents to non-scheduled commercial planes and eight persons were killed in four accidents on cargo flights.

Scheduled domestic airline traffic this year is estimated at 4,260,348,181 passenger-miles and the volume of plane miles at 328,520,614, each figure exceeding 1946 by 5 percent.

The estimated number of airline passengers in 1947 is 1,181,014, an increase of nearly 10 percent over 1946. (Continued on Page Eight)

Propaganda Is Denounced By U.S. Secretary

Marshall Says Less War Talk And More Spiritual Conquest Needed By World

LONDON, Dec. 12 (AP)—American officials reported tonight Soviet Foreign Minister Molotov had renewed his bitter attacks on the western powers in the foreign ministry council today and Secretary of State Marshall told him in response.

"It is very difficult to have any respect for the dignity of the Soviet government," Marshall said.

"First information on today's reportedly stormy meeting was that Molotov offered no compromise on outstanding issues before the council, but instead lambasted the policies of the western powers in Germany."

"American informants said that British Foreign Secretary Bevin commented to the council, when Molotov had finished, that what had been said was a whole series of insults and complete untruths, and that Molotov might at least have the courtesy to thank the other ministers for sitting through such a statement."

LONDON, Dec. 12 (AP)—Secretary of State Marshall called tonight for a supreme effort to silence new war propaganda and for a "spiritual conquest" of world problems to restore mankind's faith in peace and understanding.

Both, he declared, are necessary to reassure a world "sick unto death of war."

"The great desire of all mankind is for peace and understanding," Marshall said in a speech at a dinner of the Pilgrims Society, which is devoted to promotion of Anglo-American friendship.

"Peace and understanding—they should not be so difficult to secure when the common people throughout the world are hoping and praying for such a result. Yet people are again fearful of war, to such lengths have the propagandists gone." (Continued on Page Eight)

Truman Price Ceiling Plan Announced By Schwelienback

14 Arabs Killed By Jews As Holy Land War Rages

Bevin Tells Commons May 15 Is Latest Abandonment Date

By JOSEPH C. GOODWIN
JERUSALEM, Dec. 12 (AP)—The Jewish underground struck hard with bombs and gun today at Arabs in five parts of Palestine and when dusk descended on this Monday night, 21 persons had been killed for a total of 194 since partition was announced.

At least 14 of the dead were Arabs whom Irqun Zvai Leumi said it had struck down in "retaliatory" blows at Tikh, Gaza, Haifa, Yezur and Shafar. Three bodies were found burned in a British overcast airplane trunk seized by Arabs tonight at Lydda village. At least 10 Arabs were wounded.

By ASSOCIATED PRESS
Jewish commandos striking from Haifa to Hebron, killed 14 Arabs today. The 13-day death toll in the communal strife over the impending partition of Palestine rose to 187 in the Holy Land and 303 in the Middle East.

Foreign Secretary Ernest Bevin told the House of Commons today that May 15 is the latest date at which Britain intends to abandon her Palestine mandate.

Bevin pleaded that the situation in Palestine not be aggravated and thus make more difficult the task that is to be seen through to an end to strife in the Holy Land which would be weighed "in Great Britain, New York and outside" as well as in Palestine itself.

Defense Minister Ahmad Sharabi of Syria voiced in Cairo Arab determination to fight against creation of a Jewish state, saying all Palestine would become a battlefield with the Arabs "going into a blood bath to cleanse themselves."

"The people's army is more than capable of defeating the Jews." (Continued on Page Eight)

U. S. Jews Asked For \$283,156,000 For Aid In Developing Palestine

By JAMES P. HACKETT
ATLANTIC CITY, N. J., Dec. 12 (AP)—American Jews were asked today to provide \$283,156,000 for aid to Palestine in 1948, a sum that would amount to the purchase of arms to equip a Jewish army of tens of thousands of men.

Cherter Kaplan of Jerusalem, treasurer of the Jewish Agency for Palestine, told 1,500 delegates to the National Conference of the United Jewish Appeal a tolling army must be recruited to meet current Arab threats of a holy war.

He said an estimate of strength other than the army should comprise "tens of thousands."

"We have the manpower to defend and secure the Jewish state, but we need help of the Jews of America to purchase the necessary equipment and to provide for the training and maintenance of the defense forces of the Jewish state," said Kaplan.

The \$283,000,000 arms request is seven times greater than the \$40,000,000 request last year. (Continued on Page Eight)

Authority Over Basic Goods Is Asked; Price Rollback To June Is Possible

WASHINGTON, Dec. 12 (AP)—Specifications for the price ceilings President Truman wants under his 10-point anti-inflation program went to Congress today.

Secretary of Labor Schwelienback sent them to the House Banking Committee, along with a proposal that a proposed wage control bill will be along in a day or so.

Price control authority was requested over commodities which basically affect the cost of living, are basic to the cost of agricultural and industrial production, or essential to effectuation of the foreign policy of the United States.

Schwelienback recommended that maximum prices be established only when such a commodity is found to be in short supply, or when its price has risen "unreasonably" over last June's level.

Prices could be rolled back below the June level under the plan.

Meanwhile, the Senate Republican Price Committee got together on a four-point program aimed at bringing down the high cost of living. Chairman Taft (R-O.), said it would be unveiled tomorrow after it has been checked with other Republican senators and with the House Policy group.

While details were not made available, the plan would: (Continued on Page Eight)

Doctor Says Gain In Wages Is Lost Due To Inflation

Average Teacher's Salary Today Has Less Buying Power

WASHINGTON, Dec. 12 (AP)—Although state legislatures increased 1947 appropriations for education by about \$480,000,000 inflation has more than erased the gain in teachers' salaries, an official of the National Education Association said today.

"Today the average teacher in the nation receives a salary with considerably less purchasing power than the average teacher's salary of 1939," Dr. Ralph McDonald told a regional conference of educators in a prepared address.

"Further inflation is taken for granted, and it is quite probable that the close of the present school year will find the schools in a worse financial crisis than last year."

Partly as a result of that, McDonald added, American elementary schools face a shortage of from 385,000 to 420,000 teachers in the next five years.

"The seriousness of this disparity cannot possibly be overstated."

The present shortage of teachers, even by the low standards of 1939, he said, is "a result of the public, elementary and secondary schools."

"It is essential," he added, "that emphasis be placed upon quality as well as upon quantity."

He said many of the 1200 recognized teachers colleges "make a travesty of the process" of preparing their graduates to teach.

Police In Jeeps Attack Red Mobs In Rome Square

Communist - Inspired Strike Reported To Be Losing Strength

ROME, Dec. 12 (AP)—Jeep-armed police riot squads, swinging clubs, charged surge crowds today in the heart of strike-bound Rome, as throngs chanted the Communist anthem "Red Flag."

Police quickly cleared the crowds in the Piazza Colonna, from their concentration point below the windows of the Italian foreign office. The crowd gave way, jeering and hooting.

Two associated press photographers from the United States, J. Walter Green and Frank Noel, were struck on the head by police clubs, but suffered no serious injury. They continued working after identifying themselves.

Rome's general strike, now in its second day, appeared to have loosened its grip somewhat, despite the determination of the Communist-controlled Chamber of Labor to pursue it to the bitter end. Strong-arm police measures weakened the strikers' effectiveness as Premier Alcide de Gasperi's Christian Democratic government pressed for a settlement.

The most vigorous police action was at the Piazza Colonna, and (Continued on Page Eight)

Labor Committee Urges Action On Lea Act Violators

Generally Cold Over Most Parts Of U. S.

WASHINGTON, Dec. 12 (AP)—The House Labor Committee called today for prosecution of offenders in violation of the Lea Act, which was designed to restrict the activities of James C. Pettillo, American Federation of Musicians.

In a report criticizing what it called Pettillo's "tyrannical power," the committee recommended:

1. Consideration by the Justice Department of whether "the monopolistic practices of James C. Pettillo and the American Federation of Musicians are subject to prosecution" under the Sherman Anti-Trust Act.
2. That the Taft-Hartley Labor Law be amended "so that monopolistic practices by labor unions which are injurious to the public interest shall be forbidden."
3. That it be made illegal for a union to "license an employer" to do business.
4. That persons or firms put on union "unfair" lists be given the right of redress in federal courts.

Scientists Reveal Mammoth Solar Explosion That Dwarfs Atom Bomb

Four Men Arrested On Murder Charge

WASHINGTON, Dec. 12 (AP)—A record-breaking solar "explosion" which drove flaming, gaseous material more than a million miles above the sun's surface was reported today by the Carnegie Institution of Washington.

The titanic solar "prominence," which makes the mushrooming cloud from an atom bomb a mere puff by comparison, was photographed at Carnegie's Mt. Wilson observatory more than a year ago.

Measurements which established its altitude at 1,064,185 miles were completed only recently, the institution's annual report said.

Other news on the sun's activities included a finding that sunspot disturbances in May, 1947 were the most violent for any month since May, 1778, when our continental forefathers were (Continued on Page Eight)

Farley Denies He Is Prodigal Son At Postal Dinner

Former Head Says He Was Not Asked To Come Back Before Christmas Buying Is Credited With Hike In Citrus Prices

WASHINGTON, Dec. 12 (AP)—James A. Farley says he is no "prodigal son" from the household of the Democratic administration.

Amid roasting laughter, the one-time chairman of the Democratic National Committee and postmaster general told a gathering of postal officials last night that he just had not been "invited" to come back before.

Farley appeared at a testimonial dinner for the newly-appointed postmaster general, Jesse M. Donaldson, who once covered a 12-mile letter carrier's route in Shelbyville, Ill.

Farley's reference to his status with the administration followed an address in which Frank C. Walker, postmaster general from 1940 to 1945, noted his presence and said:

"Let's bring out the fatted calf. It is good to have the prodigal son return to the household of his fathers."

Responding, Farley told the gathering: "I did not come back as a prodigal son. This is the first time I have been invited since I left here. I hope it will be possible for me to be here more often."

Farley served as postmaster general from the beginning of Franklin D. Roosevelt's administration in 1933 until 1940, when he broke with the late President over the third term issue.

In a statement in New York last week, Farley said "I want to see President Truman re-elected."

Mr. Truman, who designated Donaldson as postmaster general last month to succeed Robert E. Hannegan, made a five-minute surprise visit to the dinner gathering of several hundred postal service officials and shook hands with Farley and others at the head table.

Telling the group that "tonight (Continued on Page Eight)

Christmas Buying Is Credited With Hike In Citrus Prices

Blood Stained Shirt Shown In Evidence

LAKELAND, Dec. 12 (AP)—A steady upward trend in prices for Florida citrus on northern markets this week appeared to be continuing, with buyers on the New York market paying more for oranges than they had in a month.

At yesterday's New York auction, 6,000 boxes of the so-called "interior" oranges brought an average of \$2.79 per box and 3,500 boxes of Indian River oranges sold for \$1.80.

This was the best price for "interior" fruit since Nov. 14 when they brought \$1.14.

Lower prices in other auctions brought the day's average for Florida oranges to \$2.37 on 13,000 boxes sold at nine eastern markets.

The New York price was a welcome change from the low of \$2.05, off Dec. 1 and an average of all markets of that day of \$2.12.

Pre-Christmas buying was believed by many citrus men to be the cause of the climbing prices. Grapefruit prices are also getting better, although not as pronounced as oranges.

Truman Discloses Election Possibilities

Growth Is Expected In Legion's Posts

WASHINGTON, Dec. 12 (AP)—President Truman was quoted for the first time today as speaking of re-election possibilities.

Dr. J. J. Vallarino, the retiring ambassador from Panama, told White House reporters after bidding good-bye to Mr. Truman that the president had told him he might visit Panama "if I am re-elected."

Vallarino, emphasizing that he and Mr. Truman had spoken in a jocular vein, related the following exchange:

"I told him that I am going down to Panama to run for President and that if I am elected I wanted him to come down and visit me."

To which he said Mr. Truman replied:

"If I am re-elected, maybe I will. It will be fine for our future relations."

Envoy Says Poland Fears Rebirth Of German War Spirit

PORTLAND, Ore., Dec. 12 (AP)—Polish Ambassador Josef Winciewicz said today his country fears that "the rebirth of the aggressive German spirit" will start a new war which could be avoided by the "friendly cooperation" of the United States, Russia and Britain.

That is why, he told the city club in a prepared address, Poland "looks with some anxiety at the present state of relations between the great powers."

"The information we Poles have from Germany indicates that a (Continued on Page Eight)

Lions Club Makes Plans For Party At Country Club

Plans were made today by the Lions Club at its meeting at the Seminole Country Club, Christmas party next Thursday evening at the Seminole Country Club. The regular scheduled meetings for Dec. 19, 26 and Jan. 2 were dispensed with.

Fred Cenas, Celeryed assistant football coach and member of the Lions, announced that a trophy had been donated at the recent football banquet at Longwood to Byron Beard for his good blocking as a Celeryed gragger during the past season. He announced the trophy including Beard's record will be given to Seminole High School by the club.

King Lion W. O. Livingston and former King Lion Henry Witts commended club group in charge of welcoming International President Fred Smith Wednesday morning, also the club members, City and County officials, and representatives of other civic clubs for turning out so well. It was reported that the Sanford (Continued on Page Eight)

Two, Then Kills Self

SAN FRANCISCO, Dec. 12 (AP)—A young Chinese cook, apparently brooding over taunts about his race, shot and killed an 18-year-old housewife to death, wounded her sister and then killed himself, police reported today.

Police Inspector Lloyd Kelly said Jim Cok, Tom, the cook, shot Mrs. Betty Young Harrington, estranged wife of a former serviceman, twice in the stomach and twice in the shoulder last night, then turned a .45 caliber pistol on her sister, Frances, 16, before shooting himself in the head.

The sister, who was not wounded seriously, said there had been a dispute earlier in the evening over community kitchen privileges in the rooming house where all lived, Kelly related.

Kelly said the girl apparently had taunted Jim about his race.

Police said Mrs. Harrington's estranged husband is now in Norfolk, Va.

G. I.'S LEAVE ITALY
ROME, Dec. 12 (AP)—The last American troops in Italy will be in the United States for Christmas, it was announced yesterday.

Maj. General L. C. Jynes, commanding U. S. forces in the Mediterranean Theater, said final detachments will sail from Leghorn on the U. S. Army transport Admiral Sims in time to clear Italian territorial waters before midnight Sunday, Dec. 14.

The final hour set by the Italian peace treaty for their departure.

Doctor Says Control Of Birth Is Urgent

OKLAHOMA CITY, Dec. 12 (AP)—Dr. O. McCormick, professor of obstetrics at the University of Indiana, says control of the birth rate is more important than atomic bomb control in a future war to be averted.

Speaking before a postgraduate course conducted by the University of Oklahoma, the professor said last night that "over-population produces want, produces despotism and despotism produces war."

"Therefore, over-population is basically the cause of war. Where food and jobs are plentiful, the problem of government is simple and strife is not necessary," he said.

Dr. McCormick said planned parenthood is concerned with a neglected field of public health, pointing out that causes associated with childbearing constitute the third largest group of deaths in America.

Truman Appoints Coy

WASHINGTON, Dec. 12 (AP)—Officials close to President Truman said today he has decided to appoint Wayne Coy, radio director of the Washington Post, as chairman of the Federal Communications Commission.

These officials, who declined to be quoted by name, said the nomination of the former Indiana newspaperman and long-time associate of Paul V. McNutt in government service, will be sent to the Senate under the first of the year.

REDS STOP TRAIN
BERLIN, Dec. 12 (AP)—Fifteen heavily-armed Russians held up and broke into a U. S. Army supply train recently on the road to Berlin in the Soviet occupation zone, the American provost marshals office said today.

A report made by American train guards to their commanding officer said the Russians were intoxicated. No shots were fired and although the Russians broke the seals on nine cars in the 53-car train no loot was taken, the report said.

Four Men Arrested On Murder Charge

BIRMINGHAM, Ala., Dec. 12 (AP)—Police Chief Floyd Eddins announced today arrest of four men on charges of assault with intent to murder in the shooting of a milk truck driver, employed by a dairy involved in a labor dispute.

The police chief said one of the four, whom he identified as Otto Robertson, 19, admitted orally that he fired the shot that wounded the driver yesterday.

Eddins said Robertson claimed "self defense." Robertson was quoted by police as saying he had been working as a truck driver at various places in Birmingham for the past several weeks.

The other three arrested, were identified as Clifford L. Mark, 29, Tarrant, Ala., a former driver for White Dairy Co.; Don Vestal, 31, Dallas, Tex., southern organizer for the AFL International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, and Oscar Leroy Harrison, 22, Pratt City, Ala.

Boyle Announces

SANFORD, Dec. 12 (AP)—Senator Lloyd F. Boyle of Sanford has qualified for re-election from the 37th district, it was announced this morning at Tallahassee.

Senator Boyle, local attorney and veteran of World War I, was elected to the State Senate in 1944, and his district embraces Seminole and Bravard counties.

Postpones Awards

Awards and letters will be presented to the football players of Seminole High School during the chapel program on Monday, Principal Herman Morris announced today. Coach Carl Kettles has been attending a short course conducted by the general extension division of the University of Florida to prepare teachers to conduct courses in automobile safety and driving, and has been in Gainesville all this week and was unable to make the awards today as was previously announced.

Sheriff P. A. Mero and deputies today warned gypsies camped on the Orlando Highway near the Bluebird Inn to leave the county. Police Chief Roy G. Williams accompanied the Sheriff.

Doctor Says Many U. S. Scientists Refuse Army Work

CAMBRIDGE, Mass., Dec. 12 (AP)—Dr. Theodor Rosebury, one of the nation's leading authorities on bacterial warfare, says today American scientists are refusing to work on military developments.

Artist Shows How To Cook Food By Photos

LOS ANGELES, Dec. 12 (AP)—With the help of a medicine man, a Pasadena artist, the Navajo Trails Caravan hopes to popularize Multi-Purpose Food among the

destitute Indians of Arizona and New Mexico, spokesmen said yesterday.

The caravan has been sending the Indians quantities of M-P-F. The artist, Paul Cose, went into a huddle with a Navajo medicine man at Winslow, Ariz., and was able to design a photograph showing Indians who cannot read how to cook M-P-F. The photo-

graph, copies of which will be distributed with the food, shows a Navajo woman receiving a can of the preparation from a native dietitian, pouring it into a vessel, adding water and stirring, and placing on the fire. The length of time required for its cooking is pictured by the time required for

her husband, on a distant hill, to reach his bogam.

Chinese legend credits the discovery of tea to Emperor Shen Nung, who called the "Divine Healer" and who was supposed to have lived about 2737 B. C.

BIBLE VERSE FOR TODAY

WE CANNOT PLEASE GOD BY NEGLECT, IDLENESS, AND DILIGENCE. IF WE IGNORE INVITATIONS AND ABSENT OURSELVES FROM HIS HOUSE AND TABLE, AND ILL TREAT HIS CHILDREN, WE SURELY WILL NOT PLEASE GOD. But with many of them God was not well pleased.—1 Cor. 10:5

Los Angeles reported zero weather this week. No wonder the Yankees prefer Florida.

We see where Senator Shands of Gainesville has announced his candidacy for governor. Another good man.

Another airplane crash in which 29 have been killed. At least four others in other parts of the world. First think you know people are going to stay out of planes until someone learns how to fly them.

We hope you read "The Way to Brotherhood" in last night's Herald. If you didn't, look it up. It was quoted from the Pittsburgh Courier, a negro publication, and expresses the best possible way for the colored people to get ahead in this world. You don't make friends, or eliminate prejudices with switch blades and machine-guns, but only by friendliness, courtesy and cooperation.

Senator Bridges proposes that the United States limit the number of visiting Russians in this country to the number of Americans allowed in Russia. If it did, there wouldn't be many visiting Russians. Someone has said that the best way to avoid war is to get acquainted with the peoples of other races and nationalities and learn to love and understand them. It is rather hard to get acquainted with the people who limit their visas as drastically as the Russians do.

Russia is accused by Secretary Marshall of taking \$500,000,000 a year out of Germany, while demanding reparation payments of ten billion dollars. While Russia bleeds Germany, the United States is asked to supply the goods—free of charge—which the western European nations normally buy from Germany. But why should Russia expect us to have any more sense than that? After the first World War we lent Germany the money to pay reparations to France.

Henry Wallace opposes U. S. aid to the starving people of China "because Chiang Kai-Shek is a Fascist," but he favors aid to the nations of eastern Europe even though they are Communists. He thinks it is wicked to withhold aid on ideological grounds when he agrees with the idea, but when he disagrees with the idea it is all right. In this respect he is consistent with his other line that aggression, when it comes from Fascists, is wrong and should be opposed, but when it comes from Communists, it is all right. Personally we can't see the difference. They are both evil in our opinion.

Do you know how much money the government of the United States owes its bondholders? The latest figures which we have from the Treasury show that the federal debt is \$257,710,362,285.27. Or to put it another way, nearly 258 billion dollars, and that, too, leave us, brother, ain't hay! At the peak of federal indebtedness following the first World War, it reached 26 billions. The Coolidge and Hoover administrations reduced it to 16 billions, and then it started its upward climb, reaching about 50 billions before the war expenditures began. And all this, in spite of taxes which even now are over 40 billion dollars a year or less than what they were before the New Deal.

Practical Co-operation

More than 2,100 apprentices, over half of them in the building trades, are being trained in Cleveland, O., through the co-operation of the public school system, the United States department of Labor, local industries and unions. Most of them are ex-G.I.'s. The program was set up in an effort to break the shortage of skilled craftsmen available, especially in the building trades, though some are being trained for mechanical and shop positions.

An interesting project in connection with this craft education is the building of an addition to a down town school building used as the training center, which became greatly overcrowded when the enrollment of apprentices jumped from 67 in 1945 to the present figure of 2,140. The students are doing nearly all the work of construction, under supervision of skilled workmen in the various lines, the school board supplying all materials.

Here is a practical example of community co-operation in meeting a critical need. The Cleveland area is one where the housing shortage is acute. All elements interested in home building seem to have been able to pool their aims and drop their differences in order to train young men and to give homes to citizens.

Benelux

Business Week's Amsterdam Letter states that in spite of red tape, regulations, and the near-war in the Netherlands Indies, Holland is doing a good job of recovery.

Nearly all of the bridges which were destroyed have been rebuilt, railroads are moving toward complete electrification and are doing more business than before the war. Airlines and shipping are holding their own, too. Many lines of manufacture, including rayon, chemicals and metal products are producing well. But the export-import gap which plagues other countries has to be coped with in Holland, too. It is hoped that the proposed customs and economic union binding together Belgium, Netherlands and Luxembourg will help to solve this problem.

Benelux, as this union is called, is an effort at co-operation between nations, in which, gains and losses are expected to balance to the over-all good of the nations concerned. This experiment will be carefully watched and may prove to be a successful example for other countries to follow.

THE NATION TODAY

By JAMES MARLOW

WASHINGTON, Dec. 12 (AP)—There's a big difference between the programs of President Truman and the Republicans for controlling living costs.

The Republicans' is far milder. The great difference between the two is this:

1. Mr. Truman asked Congress to pass a number of laws giving the government power to stop inflation if it gets much worse.

For example: Power to put back price and wage controls if prices keep going up.

2. The Republicans want no part of price and wage controls imposed by the government. They want mainly voluntary control of living costs.

For example: Letting business do its own controlling by voluntarily keeping prices down or cutting them or doing things to reach that end.

So, under the program offered by the Republican leaders of the Republican-controlled Congress this is still the score:

Labor would be free to fight for higher wages. Business would be free to lower prices. It also would be free to raise them.

The Republicans hope to get their program passed by Congress by Dec. 19.

Will it work? Is it enough to stop inflation? You'll have to

wait to see.

Suppose it doesn't work. When will we know it's not working? probably in three or four months, if the Republicans ran their program through this month.

Suppose it doesn't work. What then? Worse inflation, probably, with prices going higher and labor fighting for higher wages.

If the Republicans' program doesn't work, will they then give Mr. Truman by law the power he asked of Congress to control living costs?

That'll put the Republicans on the spot. They've already said they're against government control of prices and wages in peacetime.

The program they came up with yesterday is the Republican answer to Mr. Truman, the Republican attempt at solving inflation.

The Republicans—after they denounced Mr. Truman's program in November—have been criticized for not offering one of their own.

So now they've offered one. And it's serious business for both Republicans and Democrats.

Since 1948 is the big election year, for president and Congress, the politicians in both parties have to worry about inflation.

Living costs are taking more and more money out of the pockets of Americans, and American voters, and they won't forget it.

They'll probably take out their anger on the party—Republican or Democratic—which they'll blame if inflation gets worse.

If the Republicans' mild program fails to stop the rise in

THE WORLD TODAY

By DEWITT MACKENZIE, AP Foreign Affairs Analyst

The conflict between Red Russia and the Western Democracies is, of course, one of the great tragedies of history—or at least that's the way it seems to the present generation which has to endure the consequences—but it would be equally tragic if the world allowed wishful thinking to blind it to the true nature of this struggle.

There still are folks in the United States, and in other democracies, who think that because Russia was our ally in the world war the present clash must be based on a misunderstanding. Therefore, they think the difficulty can be cleared up by comradery and concessions toward the Soviet Union.

It would be grand if the problem could be solved so easily! The trouble with such an argument is that it's based on wishes and not on facts. What are the facts which should govern our attitude in this historic clash?

Well, in the first place we must recognize that the Soviet Union was not an ally under any circumstances over which it had no control. Russia signed the non-aggression pact with Hitler willingly and knowing that this would precipitate the world war, and at the same time the two countries partitioned Poland between themselves.

Furthermore, Nazi Foreign Minister von Ribbentrop (charged for his war crimes by the Allies) testified at Nuremberg that Moscow also offered to join Germany against the allies, but that the price was too high. Then when Hitler became suspicious of a double-cross by Russia, he attacked her and thus forced her to become one of the Allies.

Once the war was over, Russia immediately resumed her world revolution for the spread of Communism. The fact that she had

living costs, Mr. Truman is in a position to tell the voters:

"See, I asked for the power to stop this inflation but the Republicans wouldn't give it to me."

In November, when he asked for the power, Mr. Truman made it clear he did not intend to use it right away but only later if inflation grew worse.

When, later? Maybe not before the Spring, his advisers have said.

If the Republican program fails—and shows clearly in the Spring, they can say:

"We wanted to try the voluntary method first."

Maybe then—it would be Spring by then—they might note Mr. Truman the power he asked for in November.

Well, if Mr. Truman didn't figure on using the power until Spring and if the Republicans should give it to him in the Spring, nothing is lost in the long run. Yes, months will have been lost. If Congress voted him the power now, months would be needed to set up the machinery to use the power.

If Congress votes him the power in the Spring, months still will be needed to set up the machinery, months in which inflation can grow still worse.

But if the Republicans' program works, they can tell the voters:

"Mr. Truman wanted to control inflation by police methods but we did it on a voluntary basis."

1947-48 Orange Crop Expected To Be Good

WASHINGTON, Dec. 12, (AP)—The Agriculture Department today forecast orange production for the current 1947-48 marketing season at 108,260,000 boxes. This compares with 113,980,000 produced during the past season and 83,488,000 for the 10-year average (1936-45).

Grapefruit production was estimated at 62,270,000 boxes compared with 59,520,000 during the past season and 44,593,000 for the 10-year average.

California lemon production was indicated at 14,100,000 boxes compared with 13,760,000 during the past season and 12,186,000 for the 10-year average.

The forecast of Florida tangerine production was 4,200,000 boxes compared with 4,700,000 during the past season and 3,190,000 for the 10-year average.

Florida lime production was indicated at 190,000 boxes compared with 170,000 during the past season and 135,000 average for the 10-year period.

The indicated production of oranges and grapefruit by states this season follows:

Oranges—California 50,000,000 boxes, Florida 50,500,000, Texas 5,800,000, Arizona 1,060,000 and Louisiana 300,000.

Grapefruit—Florida 31,000,000 boxes, Texas 24,000,000, Arizona 4,100,000 and California 3,170,000.

aren't going to tie our hands with friendly feelings while our throats are being cut. There is no place whatsoever in our way of life for Bolshevism. We won't stand for it in our own country, and we will assist weaker countries to defend themselves against Red aggression.

This doesn't mean that we don't want to be friends with Russia. We do. But it takes two parties to make a friendship, and we

Social And Personal Activities

Social Calender

FRIDAY
The Dependable Class of the First Methodist Church will have a Christmas party at 8:00 P. M. at the home of Mrs. W. R. Herron on the Country Club Road.

The Cub Pack meeting will be held in the Methodist Church annex at 7:30 P. M. All parents and the Pack committeemen are urged to be present at this is the time for re-registration.

SUNDAY
A buffet supper will be held at the Seminole Country Club at 8:00 P. M.

MONDAY
The W. M. U. of the First Baptist Church will hold a program meeting at 3:00 P. M. at the church. Circle No. 4 will be in charge of the program.

The Junior G. A. s will meet at the church at 3:30 P. M. The program will be under the direction of Grace Marie Stinecipher. The Sunbeams and R. A. s will also meet at 3:30 P. M. at the church. The Past Matrons Club, Order of Eastern Star, will meet with Mrs. Joe Corley at 8:00 P. M. for a Christmas party.

The regular meeting of the Sanford Tourist Club will be held at 8:00 P. M. at the Tourist Center. E. M. Armitage, tourist director, announced that the Center will be open beginning on Dec. 15 every day and night except Sundays for the convenience and enjoyment of members of the club.

The Elsie Knight Circle of the First Baptist Church will meet in the annex at 8:00 P. M. Mrs. George Dixon will give a report on the life of Lottie Moon, Baptist Missionary to China.

The Y. W. A. girls of the First Baptist Church will meet at 8:00 P. M. at the home of Mrs. Thomas Groves, 1413 Oak Avenue.

The Prayer Band of the Presbyterian Women's Auxiliary will meet at the church at 3:00 P. M.

Vernice Adkins Joins Paul's Beauty Shop

Vernice Adkins, coiffure stylist, who studied at Twentieth Century Fox's School of Beauty Culture and at the Vanity House in New York, is now associated with Peter Paul's Beauty Shop on Magnolia Avenue, operated by Mrs. J. M. Wilson.

Mr. Adkins, a former resident of Sanford for many years while a young boy, spent eight and a half years in the Marine Corps, visiting 21 foreign countries during that time.

Studying under the supervision of Perc Westmore who was in charge of make-up at Fox's Studios at that time, Mr. Adkins has operated his own shops for a number of years. He has just recently closed his shop in Yabok due to the high water in that area. He invites his friends in Sanford to visit him.

The regular business and inspirational meeting of the Presbyterian Women's Auxiliary will be held in the social room of the church at 3:30 P. M.

TUESDAY
The Daughters of Wesley Class of the First Methodist Church will hold its annual Christmas party at the home of Mrs. Claude Herndon at 8:00 P. M. Hostesses will be Mrs. Herndon, Mrs. D. A. Dunn, Mrs. Francis Hickson, Mrs. R. B. Monroe, Mrs. Harrison, Mrs. Brodie Williams and Miss Ruth Hand.

The Sanford Pilot Club will have its monthly business meeting at 8:00 P. M. at the vocational building. The board will meet at 7:30 P. M. Mrs. Sara Hughes, District Governor of Orlando, will make her official visit at this meeting.

The American Legion Auxiliary will have its monthly covered dish supper at 6:30 P. M. Hostesses will be Mrs. Charles Lawson, Mrs. W. L. Roche, Mrs. Paul Pezold, Mrs. E. A. Covington.

Personals

Mrs. Sybil Roth has as her guest her father, P. M. Hayes, who arrived by plane over the past weekend from New Albany, Ind.

Mrs. R. J. Holly is spending a few days with Mrs. Harry Papworth. Mrs. Holly is en route to New Orleans where she will visit her daughter, Mrs. H. E. Walker.

Friends of Miss Helen Slaughter will regret to learn that she is confined to Hope Haven Hospital in Jacksonville because of illness.

Mr. and Mrs. T. R. Ticconi and son, Tommy, of Savannah, N. Y. are spending several weeks with Mrs. Ticconi's parents, Mr. and Mrs. G. R. Best, at their home on Crystal Lake.

Mr. and Mrs. M. L. Wright have had as their guests for a few days, Mr. and Mrs. K. P. Aldrich, formerly of Washington, D. C. and now of St. Petersburg. Mrs. Wright and Mrs. Aldrich are cousins.

MISSIONARY TO SPEAK
Miss Margaret Wearley, founder and director of a chain of missions in the Kentucky mountains, will be the speaker at both services at the Christian & Missionary Alliance Church on Sunday.

Miss Wearley graduated from the Missionary Training Institute, Nyack, N. Y. in 1934, and has been devoting her life to missionary work in the Kentucky Mountains since that time. She now has about 21 workers with her in the various mission stations which she has founded, and which she directs.

The public is cordially invited to attend.

Mrs. Perry W. Sewell Speaks To Hadassah

Mrs. Perry W. Sewell of Memphis, Tenn., was the guest speaker at the monthly meeting on Wednesday night of the Sanford Chapter of Hadassah, the woman's Zionist organization of America. The meeting was held at Temple Beth Israel.

In decorating the Temple a lovely arrangement of Picardy gladioluses and tuberoses was placed on the speaker's table. On the buffet table, used for the supper following the program, was a large, low arrangement of yellow and white chrysanthemums flanked with dark green tapers in crystal holders. Hostesses for the meeting were Mrs. Maury Moses, Mrs. Freda Shames and Mrs. Frank Shames.

A regular business meeting was conducted and the program included the kindling of Chanukah candles and a prayer conducted by Mrs. Dave Levy. A prayer was given for the newly established Jewish state in Palestine after which the poem, "The Day Has Come" by Beale F. Collins, was quoted by Mrs. Herman Jacobson. The supper, served buffet style, was enjoyed following Mrs. Sewell's talk.

Mrs. Sewell gave an outline of the work done and being done in Palestine stressing particularly the medical and child welfare program being conducted by Hadassah. She told of Hadassah's \$1,000,000 hospital atop Mt. Scopus in Jerusalem and stated that the hospital is for the benefit of the Jews and Arabs and numbers among its patients, two sons of Ibn Saud. She described the school of nursing being conducted by Hadassah in connection with the hospital. The school was established by the late Henrietta Sold.

Mrs. Sewell stated that "Palestine's medical program has rendered Palestine an island of health and sanitation in a vast sea of disease" and told how the child welfare program is being carried out from infancy through adolescence including care and vocational guidance.

"Through these children Hadassah is helping to build the 'builders of Palestine'," she stated and in closing gave this quotation, "When you build with iron, it can melt; when you build with stone, it can crumble; when you build with wood, it can rot, but when you build with human personalities, it endures forever."

Ten plants begin to yield commercial crops about five years after planting and sometimes continue to yield for 100 years or more.

It is estimated that about seven percent of the tea drunk in America is consumed at afternoon tea parties.

Double Barred Cross To Be Sold Saturday

Small replicas of the red Double-Barred Cross, international emblem of the campaign against tuberculosis, will be sold on the streets Saturday, according to Mrs. Sybil Roth, chairman of the Double-Barred Cross Days observance.

Proceeds from the sale of Double-Barred Crosses will be added to funds from the Christmas Seal Sale, which opened Nov. 24 and will continue until Christmas. The funds finance the tuberculosis control activities of the Seminole Tuberculosis Association.

"Without the control activities of the association and the cooperation of the community, tuberculosis would be an even greater public health problem," Gen. Chairman Jack Katigan said. "Tuberculosis is a communicable disease, spread from the sick to the well, and causing great suffering and economic waste. Yet, if control measures were universally applied, tuberculosis, which kills 53,000 Americans a year, could be eradicated. Again, I urge citizens to give generously."

Mrs. Roth representing the American Legion Auxiliary, assisted by her Sixth Grade Grammar School Students will carry on the Street Sale Saturday.

Miss Gillis To Wed Oliver Leo Butler

Mr. and Mrs. Alexander A. Gillis of Westfield, N. J. announced the engagement of their daughter, Cora Margaret, to Oliver Leo Butler, Jr., son of Mr. and Mrs. O. L. Butler of this city.

Miss Gillis, a member of the Delta Delta Delta social sorority, was graduated from Florida State College for Women in June of this year.

Mr. Butler served as pilot in the Army Air Corps during the recent war. He attended the University of Florida and is now a student at Duke University in Durham, N. C. He is a member of the Alpha Tau Omega fraternity.

The wedding will be an event of the spring.

Rummage Sale To Be Held By Les Socurs

Miss Peggy Pippin, president of Les Socurs, announced this morning that the group will have a rummage sale on Saturday morning at Fourth Street and Sanford Avenue. She told of future plans for the organization which include the selling of longles for the T. H. Association the week before Christmas. Other plans include a tea dance on Christmas afternoon and assistance with the Infantile Paralysis drive.

BIRTH ANNOUNCEMENT

Mr. and Mrs. T. J. Nichols announced today the birth of a son, Thomas Anthony, on Dec. 10 at the Fernald Loughton Memorial Hospital. Mrs. Nichols is the former Nancy Quinn of West Warwick, R. I.

Geneva Club To Help State Welfare Board

A decision to donate \$10.00 to the State Welfare Board to help pay for tonsilectomies for underprivileged children in Seminole County schools was made by the Geneva Garden Club which met at the Geneva Community House on Tuesday afternoon. The president, Mrs. J. H. Wilroy, presided over the business meeting.

Among those attending the meeting were Mrs. W. L. Alderman, Mrs. A. A. Jane, Mrs. Katherine Davis, Mrs. R. S. Strivell, Mrs. Nelle Thomas, Mrs. J. A. Logan, Mrs. Ed Fulford, Mrs. W. G. Kilbee, Mrs. Phillip Flowers, Mrs. Alvin Allen, Mrs. Ray McGill, Mrs. Dave Spoor, Mrs. Henry Kretzer, Mrs. Grover LeFills, Mrs. Fred Youts, Mrs. Lucille Norton and Mrs. H. H. Pattishall.

Elizabeth Woodruff Hostess To C.A.R.

Elizabeth Woodruff was hostess on Wednesday evening to the Ft. Mellon Society, Children of the Revolution. The Woodruff home was decorated with artistic arrangements of red poinsettias and the dessert course, which was served upon the arrival of the guests, carried out the holiday motif. The dessert included individual cakes iced with red and green. The hostess was assisted in serving by her mother, Mrs. Harry Woodruff, and Marianna Springer.

Endsley Meisch, junior president, conducted the business meeting during which time Mrs. A. R. Key, senior president, told of the national convention of C. A. R. held in Washington and showed a picture of the delegates group on the steps and in front of the D. A. R. Memorial, Continental Hall.

Later in the evening the members wrapped 25 Christmas gifts which will be sent with articles of clothing to the Kate Duncan Smith D. A. R. School at Grant, Ala. Those present included the hostess, Elizabeth Woodruff, Nolley and Murray Nance, Patricia and Henry Tucker, Mary Ann Galloway, Robert Pullin, Marianna Springer, Barbara Rucker, Endsley Meisch and Mrs. Key.

Rev. J. E. McKinley Talks To Junior High PTA

Rev. J. E. McKinley was the guest speaker at the monthly meeting of the Junior High School Parent Teachers Association. The group met on Tuesday afternoon at the school with Mrs. Gordon Blison presiding.

Plans were made for a picnic to be held for Mrs. Robert Humber's room, which had 100 percent membership. Rev. McKinley's topic for his talk was "What our churches can do for the recreational program."

One half the mass of the air is below the three and one-half mile level.

Circle No. 4 Meets With Mrs. Ponder

Circle No. 4 of the First Baptist Church met recently at the home of Mrs. J. A. Ponder at 319 West Sixteenth Street. The rooms of the Ponder home were beautifully decorated with roses and carnations. During the business session Mrs. H. W. Rucker asked each member to bring a contribution for a Christmas basket to the program meeting of W. M. U. to be held on Monday.

Those attending were Mrs. L. H. Harvey, Mrs. R. E. Penitroy, Mrs. Rucker, Mrs. J. C. Calhoun, Mrs. H. M. Knauer, Mrs. R. T. Thomas, Mrs. Joler Cameron, Mrs. F. E. Holz, Mrs. B. F. Mes-Whorter, Mrs. M. S. Nelson, Miss Martha Fox and Mrs. John L. Lee.

Plans were made for a picnic to be held for Mrs. Robert Humber's room, which had 100 percent membership. Rev. McKinley's topic for his talk was "What our churches can do for the recreational program."

One half the mass of the air is below the three and one-half mile level.

FASHION NOTES
Associated Press Fashion Editor

As U. S. glamor girls dance the old year out and the New Year in, a survey of the American scene will show an overwhelming choice of the strapless evening gown. It's the dress of the year, incorporating all the best points of the "new look" with the classic boned bodice, tiny waist line and swooshing skirt, gently rounded at the hips. Men who grew in the evening gown, now in admiration for the after-dark version of the 1947-48 silhouette. Besides the fundamental flattery of the strapless dress, it offers a perfect backdrop for costume jewelry. Drills, Trusts, and their favorite necklaces and bangles. Give them a bare-top dress, and there's practically no limit to the variations. A neckline may be worn as a single shoulder strap, or for instance, a bit of pearls may be used to fill in the décolletage.

TEEN TALK

Dear Lady, The kids like 1947 goods with a solid look on a hip pan, it should be a lustrous snook because soles of things changed for teenagers during the year. There was the "new look," sporty sweaters and scarfed shoes took a nose-dive on the teen-ager's mind. Hens were jet all over the country and what at first had seemed a repulsive switch soon became a sleek, chic silhouette. Kids climbed into Gilson girl blouses and form-fitting sweaters. They bought a new ash and their popularity went up with the ever-tanned-skinned boys. The adoption of sporty and girly and girly sporty styles, camisoles and even waistline. They stood the test of time and their own slow waltz which helped them to a ballroom and an occasional dancing lesson a very romantic ensemble, indeed.

Rev. Yesley Heads Ministerial Group

Rev. William Perry Yesley, pastor of the local Christian Church, was elected president of the Sanford Ministerial Association at the regular meeting of that body on Thursday. Rev. Douglas Clark, assistant pastor of the First Presbyterian Church, was elected secretary.

Larry Parks and Rita Hayworth take some sage advice from James Gleason in this scene from "Down to Earth."

Britain Gets No Bread From Russia Pact

LONDON, Dec. 12 (AP)—Hopes that a proposed new trade agreement with Soviet Russia might mean more than 500,000 tons of oats, corn and barley under the short-term agreement, but had not asked for wheat. This, he said, would be discussed in talks scheduled for next May on a projected long-term trade treaty.

Hospital is approved by the American Medical Association and the American College of Surgeons. Apply immediately to Director of Nursing Service, Orange Memorial Hospital, Orlando, Florida.

Florida State News In Brief

TALLAHASSEE, Dec. 12 (AP)—Agents for the State Beverage Department destroyed 22 stills and made 189 arrests during November, Director James T. Vocelle reported today.

A decision on whether to spend some of a \$1,200,000 trust fund for repairs and improvements to the Ringling Museum building or set it all aside for purchase of new works of art.

MARIANNA, Fla., Dec. 12 (AP)—Sheriff Barkley Gause of Jackson county said today he is holding five men in connection with an attempt to extort \$25,000 from J. J. Jones, Graceville automobile dealer, by threatening to kill one of Jones' daughters.

TALLAHASSEE, Dec. 12 (AP)—The Florida Supreme Court is going to take a 10-day Christmas holiday this year.

Aid To Palestine (Continued from Page One) amount expended by UJA for Palestinian security costs in 1947.

Truman Plan (Continued from Page One) public. It is known that the G.O.P. program is based on voluntary action rather than compulsion.

Other items requiring huge expenditures, Kaplan said, are land acquisition, \$57,800,000; agriculture, \$27,500,000; urban development, \$25,000,000; loan services, \$19,000,000; education activities, \$10,794,000, and education and culture, \$5,000,000.

Replying to Republican demands that the Administration spell out its anti-inflation program, Schwelienbach said price controls would be limited to commodities:

1947 Air Line (Continued from Page One) 8 percent. A passenger-mile in the flight of one passenger one mile.

what the Administration proposed and the Senate accepted. President Truman wanted \$597,000,000 for the three European countries. The Senate went along. Then the House passed an act authorizing \$500,000,000.

Farley Talk (Continued from Page One) you don't have to worry about the Hatch Act—the law which forbids certain political activities by government employees—Mr. Truman said he had known Donaldson for 33 years.

As the stop-gap aid program moved into the dickering stage with a possibility the Senate might okay some help for China if the House would agree to more for Europe, congressional leaders shot for a compromise by Monday.

Solar Explosion

(Continued from Page One) magnetism which may contribute to the study of the organ of planetary systems.

It was found that four of seven such "carcinogens" studied also had the power of causing genetic mutations, or changes. He listed three of the four as the hydrocarbon compounds "methylanthracene," "methylcholanthrene" and "benzopyrene."

14 Arabs Killed

(Continued from Page One) Zionists," he said, referring to a volunteer force of some "tens of thousands" which the Arabs planned to use, rather than regular armies, until British troops leave Palestine in August.

When advised of Watson's statement, Miss Manning said she had no authority to care for their children's hair and added she thought their hair combed before going to school.

Pauley Tells

(Continued from Page One) when Mr. Truman declared that the cost of living must not be a football kicked around by gamblers speculating in the market.

Lea Act Violators

(Continued from Page One) prohibited from calling strikes or work stoppages, such as Petrillo was threatened in the recording industry on Dec. 11, 1947, under after an election and an affirmative vote of at least a majority of the employees in a plant or in industry.

Watson Raps State Beauty Board For Interpreting Law

TALLAHASSEE, Dec. 12 (AP)—Attorney General Tom Watson today characterized as "absurd" a State Board of Beauty Culture declaration that home beauty treatments are illegal.

Watson displayed a letter he received inquiring if Miss Manning's interpretation of the law means children are required to drop by a beauty shop each morning to have their hair combed before going to school.

Propaganda Hit

(Continued from Page One) "We must make a supreme effort, I think, to brush aside such insinuations and rise above our difficulties in what might be termed a spiritual conquest of our present weakness and frailties. We must restore the belief that we all can live together in peace and understanding."

Polish Fears

(Continued from Page One) new underground movement is working there which is based ideologically on the same principles which led Germany to aggressive wars in the past," Winiewicz said.

Trieste Warned

TRISTE Dec. 12 (AP)—The Allied Military Government has warned Trieste residents that it will not tolerate a recurrence of recent disorders protesting the alleged leniency of an MG court in sentencing three youths to two years imprisonment each for killing an 11-year-old girl in a demonstration Sept. 14.

Lions Club

(Continued from Page One) welcome was one of the best given here. Smith during his tour of Florida. Lion J. D. O'Neill was commended for fine floral decorations in the Florida State Bank.

Propaganda Hit

(Continued from Page One) "We must make a supreme effort, I think, to brush aside such insinuations and rise above our difficulties in what might be termed a spiritual conquest of our present weakness and frailties. We must restore the belief that we all can live together in peace and understanding."

Whether such a concession would open the way for an overall German settlement remains questionable. The Russian approach to the creation of all-German administrative and economic agencies differs substantially from U. S. views.

KIDNEYS GETTING YOU UP NIGHTS?

If you get up nights - have frequent desire to pass your water - but have only scanty passages - you have backache due to excess acidity in the urine be glad you're reading this!
These generations ago Dr. Kessler, a famous doctor, found hundreds of his patients with this trouble. Pathetically he made a medicine of 16 herbs, roots, vegetables, balsams - Nature's own way to relief. He called it "Swamp-Root" and millions of grateful men and women have taken it - often with amazing results. Swamp-Root goes right to work to flush out kidneys... increases the flow of urine, helping to relieve excess acidity... so the irritated bladder gets a good flushing out, too. Many report getting a good night's sleep after the first few doses. Caution: take as directed. For free trial supply, send to Dept. K. Kessler & Co., Inc., Box 1135, Stamford, Conn. Or - get full sized bottle of Swamp-Root today at your druggist.

By Walt Disney

Matching Strides WITH FLORIDA IS A JOB FOR "SEVEN LEAGUE BOOTS"!

EVEN before the war ended, Florida Power & Light Company embarked on an \$85,000,000 expansion program designed to provide electrical sinews for the tremendous growth we foresaw for our state.

To date, great new generating plants have been completed at Sarasota and Riviera. Additional plants are nearing completion at Sanford and Miami. Our productive capacity will soon be double that of prewar 1940 - and scheduled additions through 1951 will triple the figure.

This record has not been accomplished without difficulties, delays and hardships. Material shortages have hampered us at every step of the way. Nor will future progress be devoid of headaches and hindrances. There may be periods this winter when we will have to ask your cooperation to prevent overloading the electric system.

Of this, however, you may be sure. The entire program is being rushed to completion in the spirit of the wartime slogan, "The impossible we do immediately - Miracles take a little longer!"
