Children From Methodist Home Present Program At Church

The Women's Club of Oviedo gave a Children's Christmas Party at their Club House last Friday afternoon. Each member invited two children to the party in her group. Entertainment was provided with a story from Victor Hugo's *Les Misérables*, given by Miss Clara Lee Wheeler, with Mrs. Joe Leinhart leading in the singing of Christmas carols. Mrs. Leinhart also rendered several piano selections. After the entertainment the children decorated a Christmas tree, and presents were given to the little guests. Club members present were: Mrs. Jack Gore, Mrs. Annie L. Carter, Mrs. Walter Cartwright, Mrs. H. R. F. Cooper, Mrs. Leo Dau, Mrs. C. S. Lee, Mrs. Orson Bennett, Mrs. B. F. Wheelock, Mrs. Don Carraway, Miss Martha Carraway, Mrs. J. E. Leinhart, Mrs. Max Leinhart.

You've never tasted Corn or Peas like these... they're secret varieties never found in home gardens or markets

NIBLETS CORN

The tenderest, juiciest golden sugar corn that ever came out of a can. Big whole kernels that are just off-the-cob. Extra-deep kernels designed to hold more flavor. Fresh packed in vacuum to keep fresh roasting-on flavor. An exclusive treat that you'll find only in Niblets cans. Niblets by name. None but the genuine is the name you see on the label.

FOR THE FIRST TIME MAIN NIBLETS CORN AND GREEN GIANT BRAND PEAS

Wright Grocery Co.

A thrilling discovery. Grand in size and flavor—just off-the-cob taste. The largest, deepest, most succulent whole kernel corn ever developed. Different from all other corn. Packed in vacuum to keep fresh roasting-on flavor. An exclusive treat that you'll find only in Niblets cans. Niblets by name. None but the genuine is the name you see on the label.

Repair Drive Is Successful, FHA Officials State

SANFORD, Dec. 27—(Special to the Herald)—The latest figures available from the sixteenth annual census indicates that the average number of persons in the average family is continuing to increase, while Director William E. Austin, of the Bureau of the Census' Department of Commerce, announced today.

The average population per occupied dwelling unit in the United States in 1940 was 3.8, the same figure in 1930 was 3.6. The average family may be compared with the average population of the United States.

The average population per occupied dwelling unit in the United States in 1940 was 4.3, in 1930, 4.7 in 1900, and 4.9 in 1890. The average population per family, which had been decreasing at the rate of one-tenth of a person per decade from 1890, as indicated by these figures, decreased three-fourths of a person or half as much again, between 1890 and 1940; or, making the comparison directly with the average population per family in 1940 it is seen by a comparison, it was 50 years ago, that the decline in the average size of the family in the United States has primarily to increased specialization and the decline in birth rate.

In 1890 and 1940 the percentage of the United States advanced 7.5 percent, but the number of families increased 16.3 percent. If there had been no change in the average size of family from 1890 to 1940, the percentage increase in the number of families would, of course, have been the same as that in population. Instead of the increase of 16.3 percent, however, according to the latest figures, the increase amounted to only a 1.4 percent of families.

The decline in birth rate may account for the decline, but the increase of nearly half of families between 1890 and 1940.

Among the geographic divisions, Florida's 1940 population per dwelling unit ranged from 3.3 in the Pacific division to 4.2 in the South Atlantic division; in only two divisions was the average four persons or more in 1940, whereas all but one division has averages of four persons or more in 1930.

Among the states, the range of average population per dwelling unit was from 3.2 in Washington, Oregon, and California, to 4.6 in North Carolina. Twelve other states, nine of them in the South, had averages of four persons or more, while no state in the country showed

A couple of men in MacClellan are having a "will" time trying to find enough hogs to eat all the swill they are receiving under their contract for hauling away all the scraps and swill accumulated at Camp. Standing. The 750 hogs they now have can't make a dent in what they are getting—and this is just a "drop in a bucket" compared to what there will be when 60,000 men at the camp.

such items as washing machines, refrigerators, and similar machinery and equipment were eligible for Title I financing, while today such financing is limited to property improvement. The average loan for the 1940 period was \$400, compared with \$300 for the 1940 period.

The campaign is continuing into the winter months, much has been accomplished in the banner month of September, October and November.

Before the campaign began Title I loans were being rendered by lending institutions to the FHA for insurance at the rate of around 10,000 loans amounting to about \$4,000,000 a week. During the past three months this rate almost doubled, averaging around 18,600 loans amounting to \$7,600,000 a week.

Title I loans reported for insurance under the 1939 amendments during September, October and November 1940 numbered 11,040, and amounted to \$37,900. This was the largest amount ever reported for insurance in three months in FHA history. It exceeded the \$38,617,985 reported during the same three months in 1938—the previous record—by 10 percent.

The number of loans reported this year, however, was smaller than the 262,933 reported for the same period in 1938. In that year

an average less than 3.5. The number of families increased between 1930 and 1940 in every state, including the six states in which the population decreased. It is evident, therefore, that an increase in the number of families may occur with an increase in population. Each state's population has been slowly declining, except for an increase in the number of families by the process of spreading the population out into a larger number of smaller families.

The decrease in the size of families in the United States, and fairly rapid, has for some even though it has been persistent reason not received as much attention in the interpretation of population changes as it deserves. For many users of population statistics, the number of families is more directly significant than the total population, since each new family, for example, potential buyers of homes or units of home or dwelling unit. Under favorable economic conditions a large proportion of this potential demand will result in the purchase or rental of additional homes—perhaps representing, in some cases, the undoubling into separate dwelling units of two or more families previously living in one unit. It is evident that the increase in the number is of paramount importance as an indication of prospective demand not only to the construction and building-material industries, and to banks and other institutions interested in home financing, but also to many other lines of business concerned with supplying household needs.

Orlando-Orlando Kennel Club

Inaugural Handicap Is Principal Event On Bill Of Eleven Races

(Special to the Herald) LONGWOOD, Dec. 27.—This tiny Central Florida village becomes the mecca for greyhound racing fans tonight as the Sanford-Orlando Kennel Club launches its sixth consecutive season with a 10-day racing meet. Post time for the first of 11 races slightly after Sundays will be 8:30 o'clock.

Top attraction on the program of tonight's events is the annual Inaugural Handicap, an eight-day event over the grueling 5/16ths of a mile distance.

At least 5,000 fans from all sections are expected to watch this race involving dogs, the calibre of which has never been seen in Central Florida before. Among the star entries are: Rambling Nore, holder of the track record, \$22 for the distance; Grand Son, one of the top sprinters of the nation; Big Steve, a consistent winner; Dolly Green, the past summer; Dolly Green, who defeated the best on the West Coast last season; Smoky Ranger, sweet sprinter from the New Smyrna Kennels of N. A. Holt; Extra Special, another fast-footer, and Moreno.

Probable co-favorites are Rambling Nore and Grand Son. Grand Son won last year's Inaugural at the Palm Beach track. This season has been brought to better shape for the meeting. The photo-finish has been installed again to assure correct decisions. Parimutuel betting, with strict State supervision, on the "straight," "place" and "show" dogs with a daily double on the second and third races and a quintuple on the closing 11th heat will again be allowed.

In accordance with Florida law, competent State supervisors will oversee all details of the track.

Dr. Edgar Mobley of Sanford will be chief inspector while Henry Tribble, well-known DeLand man, will be paddock judge. A secondary feature of the night will be the Orlando Air Base Handicap, 5/16th of a mile, distance, which goes to the fastest dog. The event is named in honor of the U. S. Army Air Corps outfit stationed at Orlando.

Mrs. T. S. Yeast, wife of Col. Yeast of the Air Base, will present a trophy to the winning owner who also wins the Inaugural. Mrs. D. M. Young, wife of Major Young of the Air Base, will place a blanket of flowers on the winner of the secondary feature.

The track, located midway between Sanford and Orlando, is just off U. S. Highway 17.

Demand for the new DODGE, PLYMOUTH and DODGE TRUCKS has been so great that we must move the cars listed below so that we may trade for more.

Bowl fans will see plenty of these players in the major games on New Year's Day. Left to right: Bob Suffridge, outstanding miler in the Tennessee line, faces Boston College in Sugar Bowl at New Orleans; Georgefoe's good mare who will see action against Birmingham State Bidens in the Orange Bowl at Miami.

Orlando Boy Wins In Opening Round Of Net Tourney

JACKSONVILLE, Dec. 27.—The only champion who risked his title in the opening round of the Florida public courts tennis tournament here yesterday came through without trouble.

He was Billy Windham of Orlando, holder of the boys singles crown. He defeated Fred Davis of Fernandina, 6-1, 6-1, and today will play Guy Peoples of West Palm Beach in the second round. Peoples downed Karp Haskell of Jacksonville, 6-0, 6-0.

The play also covers competition in the junior and men's division but the women's division matches were called off this year because the entry list was so small.

Harris Everett of Jacksonville, son of the National Conference champion, was seeded first in the men's division but no seeded players were in action yesterday. Bob Decker of the University of Miami was second and George Park of Miami was third.

Claude Fister of Jacksonville, who recently won the University of Florida title, was seeded fourth in the men's division and first in the junior division.

Billy Smith, Orlando, third seeded boys' performer, gave Bryan McLean, Lakeland, 6-1, 6-6, trimming to advance to the second round against Robert Sprout, West Palm Beach youngster who won the hard way over Frank Wood of Jacksonville, 7-6, 7-6, 6-2.

Tom Bur, Margot, Jacksonville, and Stanley Gruner, West Palm Beach, advanced to the second round as result of defeats by Bobby Dell, Tampa, and Claude Luka, Tampa, respectively.

Louis Leibovit, Palm Beach, junior took a hard-earned 6-4, 6-5 decision over Paul Behnbaum, Jacksonville, in a first round junior affair.

Bill Maloney, Jacksonville, outlasted R. C. Williamson, Gainesville, to triumph 6-4, 6-4, in the lone men's singles match of the day.

Everett will swing into action today, meeting George Stoddard, Miami, in a second round affair.

Gayda Asserts Aid Of U.S. To Britain Violates Neutrality

Italian Editor Warns
America It May
Cause Conflict To
Spread Across Seas

Writer Declares
Axis Is Watchful

Totalitarian Powers
Will Act To Stop
Extension Of War

BOMB, Dec. 28.—(AP)—
Virginia Gayda, highly-placed
Italian editor, warned Ameri-
can "interventionists" today
if they sent supply convoys to
Britain via neutral Ireland,
they would start the
"spread of the conflict from
Europe to the Western Hem-
isphere, the Southern Atlantic
and the Pacific."

Editorial, written by Gayda
for Japanese radio, said Italy
and Germany would watch
any movement without imme-
diate intervention, the situation of
the Americas, and Asiatic con-
trols.

"Any move to Ireland with
British supplies, he said would
be seen as violation of neutrality
and therefore would signify the
involvement of the United States in
intervention in the war."

Longer Shipping Season Seen For Florida Citrus

LAKELAND, Dec. 28.—(AP)—
Florida citrus crop, which
was expected to be the smallest
since 1935, will be larger than
expected next week, it is believed.
The new crop is likely to be lighter
than a year ago, Frank Seymour,
manager of the growers' administrative committee, told
committee members yesterday.

The 1940 season, he said, started
several weeks earlier than
anticipated.

Citrus leaders agreed that
growth conditions the first three
weeks of December had been
extremely favorable to the crop.

While the new crop available
now is greater than that actually
shipped at this time a year ago,
Seymour said, "almost all
of the growers in the industry
will be satisfied with the re-
sults of Tuesday night's wind and
sunshine."

The U. S. Department of Agri-
culture's December estimate was
that 100 million boxes under the
Octo-
ber 1 contract for the Florida
crop of oranges, grapefruit and
tangerines.

While the newest government
crop estimate figures, released
yesterday, were lower than the
October report, they compared
favorably with the latest
government estimate.
