WIN AT BRIDGE

By OSWALD and JAMES JACOBY

Bridge bidding table with North, South, East, West hands and bidding sequence.

Hamlet, the melancholy Dane, never did anything without soliloquizing first. Thus, before playing from dummy he said to himself, 'To finesse or not to finesse is the question. For whether its better in the end to have to attack the spade suit against the sting and arrows of outrageous fortune. There's the rub.'

Although local figures for November haven't been compiled, State Employment Manager Ralph Prescott said he anticipates an increase comparable to the national increase.

The jobs rate in Seminole for October was 6.5 per cent, while the average rate for the Orlando metro area was 6.2. The metro area includes Seminole, Orange and Osceola counties.

Speaking on information provided by Mayor Norman Floyd, Dorfman's earlier contention that Ms. Wilson reneged on a promise to include two city representatives with the five county commissioners on the expressway authority is refuted by the legislation itself.

The minutes recount the discussion between Casselberry City Atty. Kenneth McIntosh and Altamonte Springs Councilman Cal DeVoney on the need for, and powers of, the proposed expressway authority.

The first annual South Seminole Rotary Charity Bowl between local power Lake Brantley High School and Metro Conference representative Orlando Edgewater will be covered with story photos in Sunday's Sports Section.

Construction industry workers are the hardest hit locally by increasing unemployment. Construction, Prescott says, effects "the primary wage earners" — the individuals who support the household.

per cent from last October for Seminole County, and from 3.4 for the metro area. Of total local unemployed, over 65 per cent of those are "primary wage earners" — the individuals who support the household.

'Empire Building' Dorfman Assails County

By DONNA ESTES Herald Staff Writer Altamonte Springs Councilman Dan Dorfman today recanted earlier statements charging the county with using surreptitious methods to consolidate governments in Seminole County via the expressway authority legislation.

Minutes of the hearing indicate Dorfman's concern about the expressway authority was directed toward whether secondary road funds would be obligated to back up any revenue bonds for the proposed tri-county high speed, limited access beltline to traverse Osceola, Orange, and Seminole counties, rather than the authority's membership.

Sunday Bridging The Gap

Taking on the doubly difficult task of bridging not only the generation gap, but an international generation gap are Pat and Buddy Atkinson of Longwood, hosts to Finnish exchange student, Kris Ignatius.

Look Mommy, Here Comes Santa Claus

35,000 See Parade; Wreck Mars Event

An estimated 35,000 spectators lined downtown Sanford streets Thursday night to welcome the holiday season with the annual Sanford Christmas Parade, which was marred by a hit-and-run accident in the lakefront staging area when three Seminole High School students were struck by a car that police chased to a halt 10 blocks away.

More Photos on Page 2A

A spokesman for the sponsoring Downtown Business Association, 93 floats, bands, marching units and cars participated in the nearly two-mile-long parade. Winners of trophies in parade categories were: Religious — First Baptist Church of Sanford, first place; Pinecrest Baptist Church of Sanford, second place.

Local Agents Joining Drug Fight

Sanford police departments and the Orange, Seminole, Volusia and Brevard County sheriff's offices to staff the permanent narcotics task force.

Seminole Sheriff John Polk said today that this county has a surplus to send to all parts of the county," LePore said.

Butler said hard drugs aren't the major problem now in Sanford. He termed marijuana sales the biggest problem here, but noted there are definitely some heroin and cocaine transactions. He said much of the local problem is a "spill over" from Orlando.

The new federal district office and task force will operate under a \$250,000 budget provided by the Law Enforcement Assistance Administration, LePore said, and will be the fourth office in the state.

best horse entry will be awarded to entry 148, no name available.

The Seminole High School marching band, majorette corps and dance team didn't participate in the parade after members were shaken by the hit-and-run incident in which three students were injured.

Police said Kay Siras, 16, 2631 French Ave., Cathryn Kirchain, 16, 2101 Hartwell Ave., both Sanford, and McClaine Byrd, 15, 260 First St., Lake Mary, were treated at Seminole Memorial Hospital for abrasions and bruises and released.

Officer Rick Dearing was directing traffic at 8:04 p.m. at Seminole Boulevard and Sanford Avenue, where the Seminole High groups were lining up to precede Santa Claus' float in the parade, and said he tried to flag a speeding eastbound auto to a stop. The vehicle hit a barricade, skidded approximately 120 feet and struck the three teenagers.

Officers said the auto then fled, crashing through another barricade.

Motorcycle Patrol Lt. Doug Bishop said the auto careened eastward on Seminole Boulevard, skirting the parade route and staging area.

"I tried to stop the car at Seminole and Melville Avenue," Bishop said, "but it accelerated and I started pursuit."

Ten blocks after the chase started, police apprehended the driver, identified as Joseph R. Payton, 19 of 120 Shirley Ave., Sanford, according to officer Eugene Fogle.

Bishop said he fired two shots at the vehicle's left front tire at East Second and Shirley after the car crashed through a rail fence into a yard and then started backward toward him as he stopped his motorcycle "about 15 feet" behind the car.

Payton was in Seminole County Jail today, in lieu of \$13,000 bond, charged with leaving the scene of an accident with injuries, driving under the influence of alcoholic beverages, reckless driving and attempting to elude a police officer.

LaShanda Robinson, 2, beams approval with grandmother Mrs. Ethel Robinson, Sanford

NATION IN BRIEF

Dems Draft Economic Plan, Bury Party's Quota System

KANSAS CITY (AP) — Democrats drafted a sevepoint economic program for their miniconvention to counter-attack the White House today after burying the party's troublesome quota system. The economic package was approved by the rules committee in principle Thursday and sent to a drafting group. It will be presented to the convention's opening session tonight. Earlier, the committee finished action on a draft charter which is to be adopted by the convention Saturday. It will be the first written constitution of any major political party in this country.

National Sales Tax Hinted

WASHINGTON (AP) — The man most likely to be running the House's tax-writing committee next year hints the income tax may need to be supplemented with a national sales tax. Possible new taxes and final action on national health insurance were among ideas Rep. Al Ullman, D-Ore., outlined Thursday as he predicted, "We're going to get a tax reform bill next year, and it will be a good one." Ullman is expected to take over the chairmanship of the Ways and Means Committee from the hospitalized Rep. Wilbur D. Mills, D-Ark.

Top Energy Advisors To Meet

WASHINGTON (AP) — The Ford administration has set a meeting of top energy advisers for Dec. 14 at Camp David, Md., amid indications it may be getting ready to impose tough limits on gasoline consumption. Interior Secretary Rogers C.B. Morton expressed fears Thursday that voluntary measures to cut fuel consumption may not be enough and the government may have to take strong measures. He said mandatory conservation steps that might be considered included gasoline rationing, a stiff new tax on gasoline and a quota limiting oil imports.

Better Gas Mileage Possible

CAMBRIDGE, Mass. (AP) — Automobile fuel economy could be increased by as much as 43 per cent if manufacturers used the latest existing automotive technology, according to a federally funded evaluation of car design. In a year-long study to be published next year, research engineers at Arthur D. Little Inc. said the design improvements now are economically feasible because the high price of gasoline has increased the value of fuel savings.

Pie-Slinging Not Assault

PORT HUENEME, Calif. (AP) — Comedian Suzy Sales, a self-proclaimed expert on pie-throwing, says a pie-slinging Seabee didn't commit assault and battery because a pie-in-the-face "is always a very funny incident." Sales testified Thursday at the special court-martial of Leon Louie, 19, of Fresno, Calif., who is charged with assault and battery for throwing a chocolate cream pie at his superior officer, Lt. (j.g.) Timothy Curtin.

'Connection' Burns Career

FORT LAUDERDALE, Fla. (AP) — Eddie Egan, the drugbusting New York police detective whose exploits provided the material for the novel and movie "The French Connection," says he was burned in his new career as a restaurant owner.

Today, the doors of his 14-month-old establishment, The Lauderdale Connection, are locked because of deep financial troubles.

Egan, 44, says he had to take a job with a local detective agency to make ends meet. "If I hadn't been for this job, I'm not sure what I would have done," he said. "I got burned. My name made me a hot shot. People figured they could use me, use me and use me. I got sick and tired of handshakes and promises."

Cities Can Tax Official Facilities

By DONNA ESTES
Herald Staff Writer

Gov. Reubin Askew has endorsed a plan to eliminate utility bill taxes entirely with the revenue losses to the cities to be made up by additional state money allocations.

According to law, the circuit court ruling will stand unless successfully challenged before the Florida Supreme Court. In other business, a barbecue planned for elected officials in the county will be held at the February meeting. Morris reported. He said the site will probably be the Sanford Airport.

Scheduled for consideration at the Jan. 15 CALNO meeting at the courthouse in Sanford are the election of officers and discussion of the new state law, which applies only to Seminole County, requiring adoption of comprehensive land use plans.

FLORIDA IN BRIEF

Trailer Law Proposed Requiring Clear Title

TALLAHASSEE, Fla. (AP) — State Sen. Jim Glisson, R-Eustis, says the legislature should require mobile-home park developers to have clear titles to recreational and other common facilities before they can sell lots.

Glisson said Thursday he will introduce such legislation for the 1975 session as a result of the foreclosure of a developer's mortgage on recreational facilities in a Tavares mobile home park.

He said in a telephone interview he had asked the state Division of Land Sales to immediately audit the records of Envorsons Property Management Inc. and its subsidiaries as a result of the foreclosure.

The firm operates several other mobile home parks in Florida and a determination needs to be made as to the status of mortgages on recreational and other common facilities in those parks, Glisson said.

Some 50 families owning lots in the Lake Francis Estate learned Wednesday night that the mortgage on the park's recreational facilities, including the swimming pool, had been foreclosed, he said.

Extradition Hearing Set

WEST PALM BEACH, Fla. (AP) — James Cecil Mitchell, a traveling carnival worker charged with abducting and raping a North Carolina woman and kidnaping a local waitress, faces an extradition hearing today in West Palm Beach.

Mitchell's attorney, Asst. Public Defender Gregg Scott, said Thursday that Mitchell might not fight extradition to North Carolina if authorities there agree to give him psychiatric treatment.

Mitchell was arrested Nov. 27 on North Carolina warrants charging him with two counts of kidnaping, one count of rape and one count of committing a crime against nature.

Rule Changes Assailed

TALLAHASSEE, Fla. (AP) — Legislative attempts to protect the public from state rules which go beyond the law are being circumvented by government agencies, lawmakers say.

Agencies should stop their rush to rewrite rules until a new Administrative Procedures Act goes into effect Jan. 1. The House Senate APA committee said Thursday in a letter to Gov. Reubin Askew and Cabinet members.

Practically all state agencies have held or have scheduled hearings this month to readopt rules, making substantial changes in many instances.

Man Queried In 9 Deaths

MIAMI (AP) — A Miami lawyer says as yet undisclosed slayings will make Paul John Knowles, already charged in three killings, "the most heinous murderer in history."

Attorney Ellis Rubin, assisting in the defense of Knowles, noted Thursday that the Florida man was being questioned in connection with nine murders in several states.

"There are many, many more murders that will be disclosed, making Mr. Knowles the most heinous murderer in history," Rubin said at a press conference.

Upon questioning by newsmen, he later amended his remark to include "if he is convicted."

Knowles, 29, was arrested Nov. 19 in Macon, Ga., and charged in the kidnaping of Florida Highway Patrol trooper Charles E. Campbell and Delaware businessman James E. Meyer. Their bodies were found two days later south of Macon.

Anong the charges subsequently filed against Knowles are two counts of murder in the slayings of Carswell Carr, 45, of Milledgeville, Ga., and Carr's daughter Mandy, 15, and a charge of first degree murder in the strangulation death of Marjorie Howie, 48, of Atlantic Beach, Fla.

Rubin said his comments were based on information given to him by a federal judge about the "incriminating nature" of tape recordings made by Knowles prior to his arrest and turned over to Knowles' personal attorney, Sheldon Yavits of Miami.

"I believe that the tapes would be the key to the jailhouse door for Paul John Knowles," Rubin said.

The 5th U.S. Circuit Court of Appeals is expected to rule within a few days on whether the recordings can be heard by a federal grand jury deciding whether to file additional charges against Knowles, currently being held in a Macon jail.

Rubin argued before the court Tuesday that release of the tapes would violate Knowles' civil rights. Rubin also represents Yavits and Yavits' wife, who were held by Georgia authorities until they revealed the location of the tapes.

U.S. Won't Fight Lansky Ruling

WASHINGTON (AP) — The Justice Department says it will not appeal a U.S. Circuit Court ruling that reversed a contempt conviction against reputed underworld financier Meyer Lansky.

"We've decided it's a non-appealable situation," a department spokesman said late Thursday. "We feel it's not something we can take to the Supreme Court." He declined to elaborate.

Lansky, 72, was convicted in Miami last year of failing to answer a subpoena issued by a

federal grand jury and sentenced to serve a year and a day in prison. He was freed on bail pending appeal.

The conviction was reversed last June by the 5th U.S. Circuit Court of Appeals in New Orleans, which said the govern-

ment failed to prove that Lansky willfully and contemptuously avoided compliance with the subpoena.

The grand jury, which was investigating allegations that Lansky skimmed gambling profits from a Las Vegas hotel, ordered him on Feb. 22, 1971 to appear in 19 days. But Lansky was in Israel and did not receive the subpoena until March 4.

Lansky was expelled from Israel in November 1972. He was arrested in this country Nov. 7 "When the government requested that the court fix March 11 as the return date of the subpoena, it made compliance by the defendant virtually impossible," Judge Robert A. Alvarez wrote in an opinion for the appeals court in New Orleans.

JACK ANDERSON

Release Of Religious Leaders Sought

SEOUL. — I flew to South Korea...

Voters Mandated Budget Cuts

Nothing seemed more popular during the recent election campaign than the "old-time religion" of economics.

Any candidate victorious in that election would have trouble denying that balancing the budget was part of the "mandate" given to him by voters.

President Ford is trying to convince the outgoing Congress that spending in the current fiscal year should be cut to \$300 billion from the \$305.5 billion projected last spring.

This means, unless it is prepared to reduce some of its programs, the government would have to resort to massive borrowing in an economy that only recently has begun to see some relief from high interest rates and a tight money supply.

The current Congress has given a cold shoulder to President Ford's proposal for a 5 per cent surcharge on income tax as a means of paying for programs that would cushion high unemployment and stimulate segments of the economy now caught in "stagflation."

Time Will Tell

Gen. George S. Brown, chairman of the Joint Chiefs of Staff, has made a public and obviously sincere apology for this utterly indefensible and unfounded remark the other day about Jewish influence on American life.

He has also been called on the carpet by President Ford, and we hope Mr. Ford counched his representative in large part because of his own Jewish influence.

The White House has indicated that there is no plan to dismiss Gen. Brown for the incredible remarks he made before a group of law students at Duke University.

From this it may be inferred that his superiors believe that Gen. Brown's apology and clarification will satisfy the demands for his dismissal that came from an array of offended Jewish organizations.

BERRY'S WORLD

national emergency, he cited an alarming North Korean military build-up, the discovery of an infiltration tunnel under the demilitarized zone...

He stressed that the imprisoned Christians had not been arrested for criticizing the government but for violating the law.

As evidence that he is confronted with a grave national emergency, he cited an alarming North Korean military build-up.

RAY CROMLEY

The Height Of Economic Absurdity

WASHINGTON (NEA)—We have now reached the height of economic absurdity.

To reduce demand and fight inflation, Arthur Burns and the Federal Reserve tighten the money supply so drastically that industries retrench and huge numbers of men and women are thrown from work.

The net result is that hundreds of thousands of men and women are being removed from work aimed at turning out goods needed to end the scarcities which cause inflation and are forced to reproduce consumers, destroying their self respect.

A multi-billion dollar public service program will inevitably be a monstrous bureaucratic monstrosity like the WPA of a depression we would like to forget.

Officials insist this program will be different, that it aims at giving important jobs to skilled people temporarily out of work because of the Burns monetary policies.

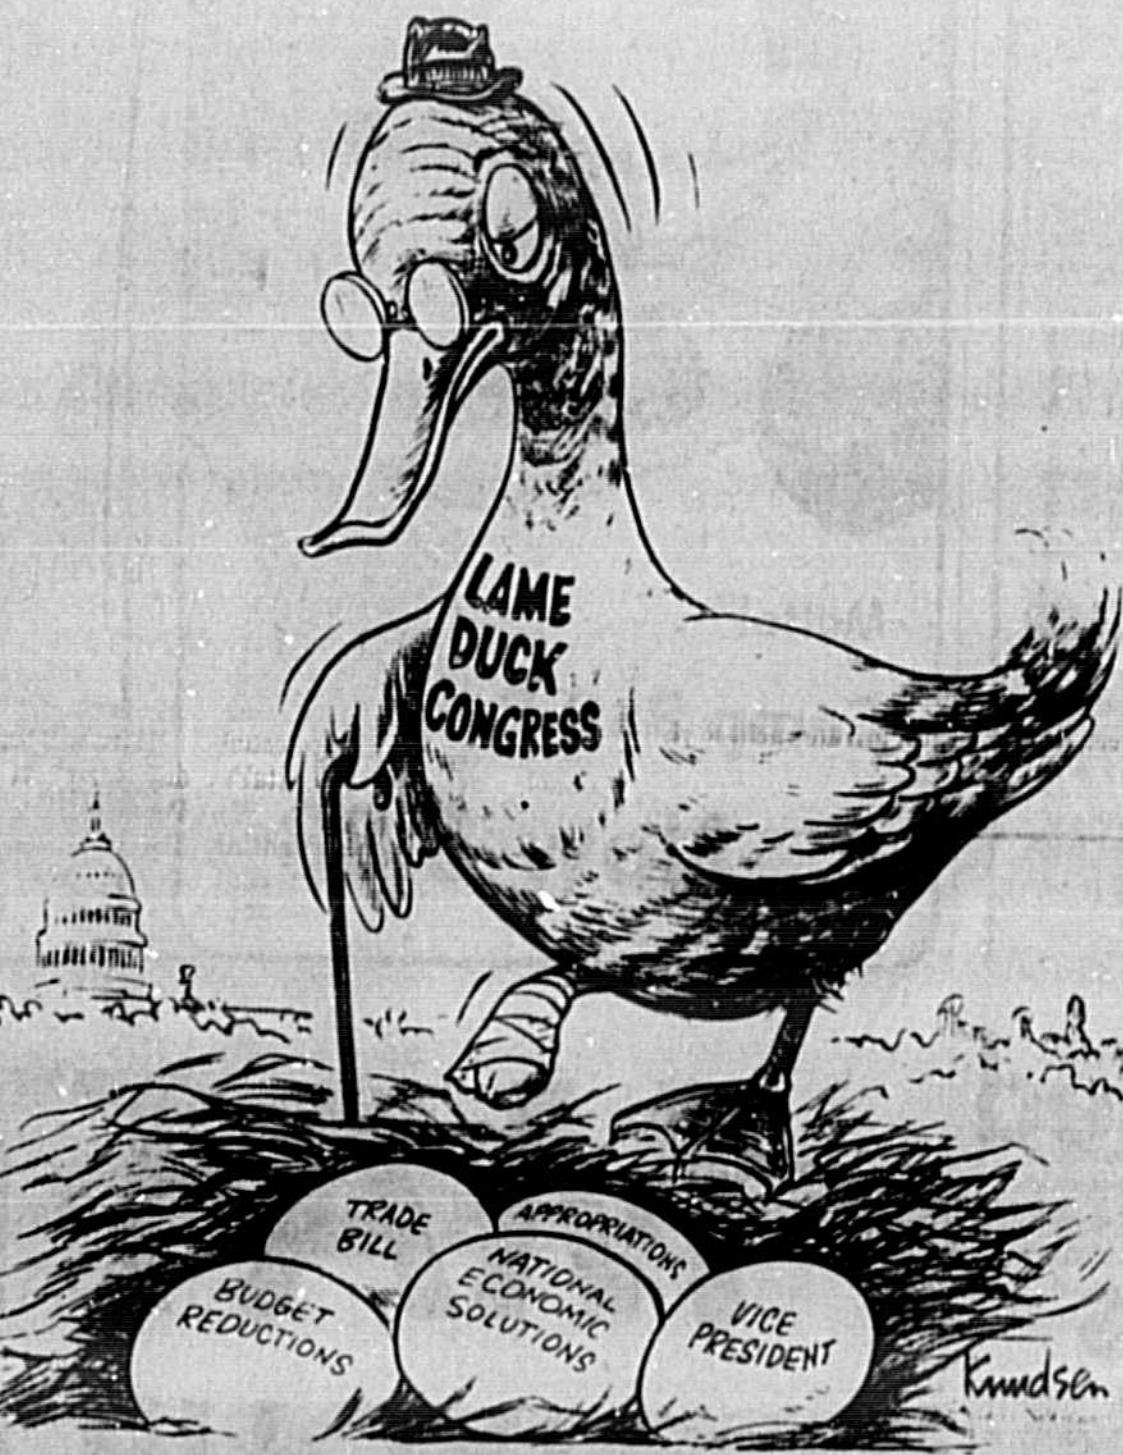

In making us identical, the ERA would constitutionally require women to serve in the military combat units.

Why is it that this country is expected to provide food for some of the others? Is it because we're more proficient in the production of crops?

Russia has 39 million farmers who try to feed their country and still had to import 400 million bushels of American wheat.

In this country we have 3 1/2 million farmers who feed approximately 200 million persons — and better than anywhere else, too.

In South America they have 23 million farmers to feed their 100 million people; South Africa shows 97 million farmers to feed their 25 million population.

PLENTY OF EGGS LEFT TO HATCH

Letter To The Editor

Editor, Herald: Can we please step back and take an objective look (or a change) at this proposed Equal Rights Amendment?

The ERA is a divisive issue and it creates the illusion that men and women are identical, although it's fairly obvious that there are physiological and functional differences between males and females.

Letters to the editor are always welcome. They should be as brief as possible and comment on matters of general interest.

All letters must be signed with a mailing address and, when possible, a telephone number so the identity of the writer may be checked and established.

Why is it that this country is expected to provide food for some of the others? Is it because we're more proficient in the production of crops?

The military build-up has been accompanied by a propaganda barrage which has now reached 800 hours of broadcasting beamed against South Korea.

The propaganda is designed to support an underground effort to overthrow the Park regime and replace it with a government that would be acceptable to North Korea.

The Christian activists contend that Park has turned South Korea into a dictatorship and that they are fighting for elementary freedom.

The majority of church members are in agreement that the church must side with the oppressed and work to change society.

As the Rev. Kim reminds, Jesus Christ was the Prince of Peace.

DON OAKLEY

Business Seeks Own Activists

Some two decades ago, Charles E. Wilson told a congressional committee that "What's good for the country is good for General Motors and vice versa."

At the time Wilson uttered his famous quote — of which most Americans heard only the "vice versa" part — the responsibilities of business to the consumer were relatively simple.

Since then, the corporate philosophy attributed to the former GM head has been drastically altered by such factors as inflation coupled with a depressed economy and sagging stock market.

It is time for more business people, working through their organizations and acting independently as private citizens, to take a more energetic, active part in political and social causes to preserve and protect our economic and political systems for the good of all the people.

When power appears to be evenly distributed, there seems to be a sense of public confidence that these institutions will operate in the public interest by maintaining checks and balances on each other.

But business people, Thomas charged, have not participated to the extent they should in governmental affairs — the right kind of participation. This is reflected in the current balance of power among government, labor and business.

On the other hand, organized labor, despite its declining membership as a percentage of the total work force, has maintained a strong influence on governmental affairs and political activity. The balance of institutional power has also been affected by the tremendous growth and proliferation of government agencies.

farmers? I thought all they had was jungles loaded with lions and tiger, and lots of diamond mines.)

That "sweet stuff" is getting in many of us. An example, there's a sign in a donut shop on SR-426 in Altamonte Springs which reads — "Our price increase is due to sugar Oct. 1, 1973—\$14.49 per 100 pounds — Oct. 1, 1974—\$48.38 per 100 pounds — Nov. 15, 1974—\$75.00 per 100 pounds"

Grin and Bear it... there was this note tacked into my typewriter. Have you heard of the new drink called "The God-father?" It is Chianti mixed with prune juice and it makes you an offer you can't refuse.

Coal Miners Return To Jobs, More Pay

CHARLESTON, W.Va. (AP) — The nation's soft coal miners began returning to work today just hours after their leaders signed a new contract with the coal industry.

Most of the miners reported for work on the midnight to 8 a.m. shift this morning in southern West Virginia.

The union had shut off 70 per cent of the country's coal production since the old contract expired Nov. 12.

UMW President Arnold Miller, in announcing that the new contract had been approved by 95 per cent of those voting, said the agreement would take effect at 12:01 a.m. today.

Immediately, officials of Consolidation Coal Corp., the nation's second largest producer, were on the phone with local UMW leaders.

There were threats that 4,400 mine construction workers covered under a separate UMW contract might prevent miners from reopening by posting pickets this morning.

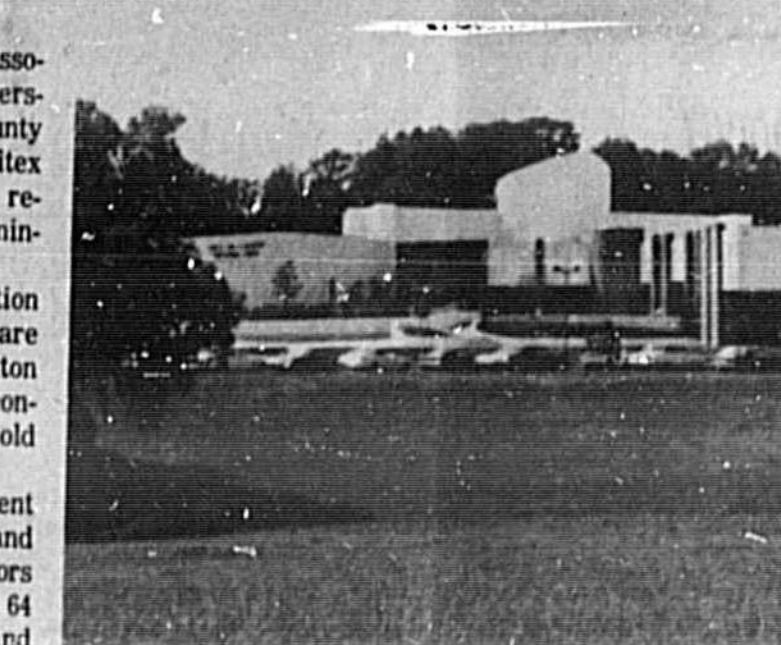

committees began inspecting the closed down mines so that production could resume at midnight. Other companies followed suit.

Most companies kept their mines at a work-ready condition during the walk-out. Supervisors were at mine sites daily making sure pumps and fans were operating and conducting inspections on roofing support and electrical systems.

In Washington, the Interior Department's mining enforcement and safety administration ordered its coal mine inspectors Thursday "to spot inspect as many mines as possible" on the first shifts of returning miners.

One union official said the miners were eager to return to work because they wanted to receive at least one paycheck before the Christmas holidays.

With 79,495 UMW members casting ballots, the final vote on the accord was 44,754 in favor of 24,741 against. It represents the first time in the union's 64-year history that rank-and-file miners had a direct vote in determining their working conditions.

Forest Lake Education Center has been chosen for exhibit by American Association of School Administrators.

Kelley Design Is Selected

Forest Lake Elementary Education Center at Forest Lake, Fla., designed by Sanford architect Eoehagan Kelley, has been selected for an exhibition of outstanding school designs at the American Association of School Administrators Convention to be held in Dallas, Tex. Feb. 21-24, where it will compete for honors.

The building is designed for use as a resource center and as a chapel. The multi-purpose room is used to accommodate the 40-per-cent student hand as well as large group and evening activities involving church organizations.

WORLD IN BRIEF

Trudeau Says Canada Will Cut Oil Exports

OTTAWA (AP) — Prime Minister Pierre Elliott Trudeau says he will cut off Canadian oil exports to the United States despite strong protests from U.S. leaders.

During Trudeau's visit to Washington that ended Thursday night, President Ford and several senators argued strongly against the planned eight-year phase-out of exports.

Most of the senators were from northern states whose refineries would be hurt most by the cutoff. Mr. Trudeau told Trudeau it could lead to an "ugly relationship" between the two countries.

DEAR ABBY For 'Dear Sir,' How Bout 'Hi Y'all'?

By ABIGAIL VAN BUREN

DEAR ABBY: The idea of eliminating all salutations in business letters in order to do away with the sexist "Dear Sir," has provoked me to write.
I propose, "Dear Y'all," is friendly, all inclusive, personal, impersonal, masculine, feminine and in between. A less formal "Hi, Y'all" might also be considered.

FRIENDLY IN DALLAS
DEAR FRIENDLY: Y'all's entitled to Y'all's opinion. But I doubt that it will play in Peoria.

DEAR ABBY: Our son, Cliff, is 22. He's seeing a woman who is 32. She is twice divorced, has one child with her last mate and two (ages 10 and 12) with her first.
She's a cocktail waitress in a private club. I've never met her so I'd like to go on her track record and see that she's ten years older than Cliff.
This woman appears to be chasing our son. She met him when she and a girl friend went to the night club where he was performing. She has called her several times trying to locate him. My husband and I are terribly upset to think that he may have an interest in her.

CONCERNED MOTHER
DEAR MOTHER: Your son is over 21, and there is nothing you can do. Any suggestions from you concerning this woman would be viewed by your son as meddling. Further, any attempts on your part to "rescue" your son from her would only drive them closer together. The word from here is cool it, Mother.
DEAR ABBY: Since I am a pastor with 43 years experience, I'd like to offer this suggestion to the young, inexperienced minister who didn't know how to handle a very bold married woman in his congregation who had designs on him:
Whenever I noticed a romantic twinkle in the eye of a woman in my congregation, I always checked to make sure it wasn't caused by a reflection from the gleam in my own.

DEAR REVEREND: Beautiful! Many a young, inexperienced pastor would do well to take a page out of your diary.
DEAR ABBY: I have a touchy problem. A friend of mine has four children. One is married, two are away at college and one is in an institution. I understand he was severely brain-damaged at birth and will probably live out his years in that institution.
When I talk with my friend, I would be out of line to ask how the child in the institution is? I always ask about the others.

TOUCHY PROBLEM
DEAR TOUCHY: If your friend never mentions the child who is institutionalized, don't you mention him. And the same advice holds for friends who have a child in a correctional institution, or is living with someone. A good rule to follow is: Be kind, don't bring up anything that might make a friend uncomfortable.

CONFIDENTIAL TO ANNAMARIE: One woman's letters can be another woman's banquet. Now is the time to talk turkey.
Problems? You'll feel better if you got it off your chest. For a personal reply, write to ABBY, Box No. 8970, L.A., Calif. 90069. Enclose stamps, self-addressed envelope, please.
For Abby's new booklet, "What Teen-Agers Want to Know," send \$1.15 Abigail Van Buren, 121 Lasky Dr., Beverly Hills, Calif. 90212.

Baby's Born, So Back To Work

NEW YORK (AP)—Millington F. McCloy, an executive of a personnel-search firm, worked late on a Friday, had her baby on Saturday, and was at the phone from her hospital bed with her clients on Monday.
About two months later, she was back in her Park Avenue office and little Daniel was at home with a baby-sitter.

restlessness, more and more new mothers are returning to work within weeks of their baby's arrival, leaving the joys and duties of child care to someone else.
According to the Bureau of Labor Statistics, in March 1974, there were 1,377,000 mothers with children under the age of 3. Of that group, 22.4 per cent of the mothers were in the labor force, up from 30.2 per cent in 1973 and 21.8 per cent in 1964.

Despite continuing debate about a mother's role and importance in successful infant rearing and many company policies allowing up to one year maternity leave, these women have willingly and in some cases eagerly opted to push pencil instead of baby carriage.
Though private, professional baby-sitters are expensive, mothers say it's worth the \$30 or more a week to keep up with their careers as well as to ease any lingering anxieties about their baby's welfare.
Some mothers working in lower-paying jobs have no choice but to place their children in day care centers. However, there are hardly enough such facilities available.
As an assistant vice-president of Handy Associates, Mrs. Millington "Mille" McCloy was well able to afford a \$30 a day nurse for Daniel, now 3 months old. She said she wouldn't be comfortable in the role of a full-time mother and housewife.
"I have always been very committed to my career and it simply would not have been to my advantage to drop out and care for a baby," said Mrs. McCloy. "I've always been able to keep a lot of balls in the air. Even though one has to make sacrifices, I was determined to combine both worlds."
But sometimes, mothering during office hours has presented some unique problems.
Even though she was back at work on a regular schedule, Mrs. McCloy wanted her baby to have mother's milk. It was too difficult to go all the way home at lunchtime. So while her male counterparts socialized with martinis, Mrs. McCloy excused herself, collected the milk from her breasts in a glass, and asked the astonished waiters for a dish of ice so the milk would keep until she could take it home to Daniel.

Divorce 'Vows' Suggested
FRESNO, Calif. (AP)—A ceremony to release a couple from their marriage vows could go a long way toward easing the pain of a bitter divorce, a Methodist minister says.
And though Donald Fado has only performed two such ceremonies in his career, he views his unique idea as a valuable tool to ease the transition between marriage and life as an "ex-wife or husband."
"There needs to be some kind of therapeutic understanding of their new relationship," said Fado, who serves at the United Church Center here. "It's more a counseling situation than a religious ceremony, although the fact that I am a minister gives it religious connotation."
The ceremony is not formalized, and Fado says the different problems each couple faces would require a different approach in each case.
The divorce ceremony would provide a final realization that the marriage is over, Fado said. It would allow the couple to free themselves of guilt by releasing hostilities and expressing their honest feelings about the broken relationship.
Fado feels the best time for a divorce ceremony would be after the fact. "When a person is at the point of a divorce, emotions are often too high to face the problem."

BUSINESS WOMEN

ELECT OFFICERS
Officers elected at a recent meeting of Seminole County's Citrus Chapter of the American Business Women's Association (ABWA) included (from left) Brenda Long, treasurer; Janet K. Clemons, vice president; Margaret D. Gabbert, president; Shelly McKinney, recording secretary; and Debi Ritz, corresponding secretary.

Gamma Lambda On The Move

Lambda Judy Webb, presented to Jack Hanna a check for the chapter's donation to the Central Florida Zoological Association.
Eileen Mack was hostess as the chapter held its Rituals dinner which began with an assortment of appetizers at the home of Eileen Mack in Pinecraft. A delicious main-course dinner of turkey, dressing and numerous vegetables was served at the lovely Palm Drive home of Carol Ann Smith. All enjoyed desserts of various pies and cakes at the Mayfair home of Myra Schanel. Members and their husbands were Jane and Ron Carpenter, Helen and Bud Dow, Diane and Joe Gazil, Ann and Jack Hanson, Fran Hoffon, Wanda and Ed Kirkland, Eileen and Clark Mack, Myra and Brian Schanel, Donna and Ed Smith, Carol Ann and Elmer Smith, and Judy and Eddie Webb. Cindy and David Taber were guests in this social event.

Chapter No. 64, AARP (American Association of Retired Persons) will hold its annual Christmas meeting and fund party, Dec. 13 (not an unlucky Friday, 19th, for them, says club president, Mary O'Leary), at 10 a.m. in DeBary Fire Hall. New members will be welcome, provided they have paid their National AARP dues and sign up for membership before the start of the meeting at 10 a.m.
Members are asked to be in their seats at that time, as a happy surprise in store for those attending, according to Miss O'Leary. Entertainment, refreshments and socializing will be the order of the day, she says.
Members are needed to volunteer to serve on the membership, legislative and non-installing committees for the coming year. Mrs. Ida Bastedo will be on hand to receive names of volunteers. She also asks for ideas and suggestions for the future programs. The association meets the second Friday of each month in the Fire Hall at 10 a.m.
Members wishing to tour the Colonial Penn. Community of Hawthorne, at Leesburg, should sign up for the 43 passenger bus that will take one group Dec. 16, at 8:30 a.m. to visit this retirement community. Buses leave from the fire hall in DeBary and return at 6 p.m. that evening. Another trip will be made Jan. 15. First come first served. Contact Miss O'Leary for further information. There is no charge.

Charity Is Real Winner As Patriots, Eagles Ready

By PETER ROGERS
Herald Sports Editor

LONGWOOD—Why the first Rotary Charity Bowl? With Seminole County high school football on the opening, not only in interest but also in the caliber of play, with four varsity teams and another (Lake Howell) competing on the varsity level next year, a post-season bowl was definitely needed. With the South Seminole Rotary Club seeking one so-called "grand project" for the year, the staging of a high school bowl game was a natural.
The proceeds from the game will be distributed to 14 or 15 charities sponsored by the club. They are involved in three high school Interact Clubs, Boy Scouts and Girl Scouts, the Sky King Youth Ranch, foster children, exchange students and assisting in the collection of playground equipment, books, clothing, medical and dental supplies for the young of foreign lands.
Aside from the most important aspect of raising money, the bowl has created added interest among those who enjoy speculating about not only who should play in a bowl, but which team is better, and which conference is better.
Similar speculation is related each year when the major college bowls announce their selections, then the talk begins. The talk began early for the Rotary Bowl, when Lake Brantley, a 3-A school, was announced as one of the participants in the bowl. Would the selection committee invite a good 3-A school, such as New Smyrna Beach, Astronaut, or Leesburg, or would they attract a local 4-A school from the Metro Conference?
As John Jones, spokesman for the selection committee stated, "We want the best at

classified a 4-A school next year.
Both squads are senior-dominated with 22 on each team, but Edgewater only plays nine of the 22 in the starting line, whereas Brantley leads with 24 in the starting line. Coach Bill Duly utilizes more graduation candidates.
The Eagles have one starter who's definitely out in 215-pound tackle Jeff Jarvis and two doublets in Kanan Little, who's 235 and guard Mark Brown.
Dolce hasn't scouted Brantley all season until the Seminole loss and was impressed with its size and pressure, although Brantley displayed its worst offensive output of the season.
When asked whether his Eagles or Brantley had the stiffest schedule, Dolce replied, "We played in a tough conference and every week your opponent is strong, but Brantley has played more and will be

These Lake Brantley seniors will be playing their final game tonight as the Patriots oppose Orlando Edgewater in the first annual Rotary Charity Bowl at the Lyman Field at 8:15 p.m. From left, defensive tackle Marty Williams, defensive back David Arnett and linebacker, fullback Craig Davis lead the 6-4 Patriots.

SPORTS IN BRIEF

Craigton Center Found Dead
OMAHA, Neb.—Mike Heck, the 7-foot starting center on Craigton University's basketball team, died in his dormitory room at the age of 20.

Licata Replaced
BOSTON (AP)—Unbeaten middleweight Lou Forrier, 17-year-old New Bedford, Mass., high school sophomore, will replace U.S. middleweight champion Tony Licata in a bout on a Christmas boxing show Dec. 20 at Boston Garden.
Matchmaker Sam Silverman signed Forrier Thursday to face Vinnie Curto of Boston and Miami after Licata withdrew because of a back ailment. However, the Massachusetts Boxing Commission will limit the bout to nine rounds, instead of 10, because of Forrier's age.
Forrier, a classy boxer, has won all 22 pro starts. Curto, only 18, has an 15-1 record, losing only to world middleweight champion Rodrigo Valdes on a 10-round decision.

Shorter Favored
FUKUOKA, Japan (AP)—Olympic marathon champion Frank Shorter of the United States is favored to win the ninth annual Fukuoka international marathon race Sunday for the fourth straight year against a field of 96 runners. The 27-year-old distance star is unbeaten in international races since he first won the Fukuoka event in 1971.
The 26-mile, 385-yard race is sanctioned by the International Amateur Athletic Federation and will be run through the streets of Fukuoka City, 500 miles south of Tokyo.

Lions Add Safety
CINCINNATI (AP)—The Detroit Lions Thursday activated safety Bill Frohose for Sunday's National Football League game against the Cincinnati Bengals.
Frohose has spent the season on the injured reserve list after spraining his left knee in the second preseason game.

Engine Designer Dead
LOS ANGELES—Leo Goosen, one of the world's foremost race car engine designers and engineers, died at the age of 82.

Carmen Bowling Leader
HONOLULU—Carmen Salvo, of Chicago, rolled a 2,357 total for a five-pin lead after the first day of the \$35,000 Winston-Salem Hawaiian Invitational, the year's last major event in the professional bowling tour.

Gibby Leads
MIYAZAKI, Japan—Gibby Gilbert of the United States and Tadaishi Kita of Japan shot four-under-par 68s for the first-round lead in the \$166,666 Phoenix Golf Tournament.

Tonight Marks Full Cage Slate

Today marks the first full schedule of high school basketball in the area as four local teams see action tonight and two play afternoon games.
Every Seminole County team sees action either today or tonight except Lake Brantley and Seminole. Brantley's scheduled Saturday night affair with New Smyrna was postponed due to New Smyrna's football team playing in a bowl in Ocala, also on Saturday.
Seminole currently 2-0 wasn't scheduled but will resume its schedule next week.
The afternoon games included Hollywood Miramar at Lyman and Howey Academy at the Sanford Naval Academy. Of the four games on tap tonight, the biggest could be the Oviedo Lions at a strong Ocala Vanguard five.

Oviedo, led by course 6-4 Glennie Patterson is currently 1-1, losing a nine pointer to Edgewater in its opener then downing Lyman Tuesday. Ocala Vanguard is highly regarded in the pre-season polls and should present Oviedo many problems especially at its own court.
The Lions resume their home appearance next Tuesday hosting also another strong opponent in Daytona Mainland.
First year coach Dale Phillips is expected to start along with Patterson, Robert Borkoski and Ed Brodsky, but the other two spots are wide open.
The new school in the county, Lake Howell, plays its second game ever tonight opposing Howey Academy, but the majority of the opponents are JV teams.
First year coach Greg Robinson, former standout at Crooms High Schools, and assistant at Seminole Junior College is planning to use former football players Jim Pritchard and Ray Hyokski in the starting lineup, along with Tim Carroll, Joe Seminars and Jim Meadows.
After tonight's game, the Silver Hawks go on the road for four consecutive games at Wymore Tech., Sanford Naval Academy, John Carlin and Trinity Prep. Trinity Prep opens its season against a strong Lake Highland Prep team, with only seven able players at the present time. This year appears to be a rebuilding year for the Saints.

Bishop Moore of Orlando and a member of the strong Metro Conference is also in action playing at Apopka High School.

Raiders Comeback For 91-73 Victory

By LEE GEIGER
Herald Correspondent
The Raiders of Seminole Junior College returned home from a three game road trip and came from behind to take the measure of the junior varsity from Rollins College, 91-73.
With just over four minutes

left in the first half, the Raiders trailed by nine when Bob Kisman hit a fifteen foot jump shot giving Rollins a 30-21 advantage.
When questioned about the deficit, the Raider's head coach, Joe Sterling responded, "We just weren't hitting our shots. The ball wouldn't fall for us as we shot 19 for 50 in the opening half."
"What did we do to get it going? The same thing we had been doing but we started to put a little more pressure on. We went to a man to man press and it started to pay off."
The payoff that Sterling alluded to was a run of 18 straight points before halftime that allowed the Raiders to leave the floor ahead by a 41-36 count.
During this streak Ken Atkins hit for eight of his 10 first half points. The guard scored twice by stealing a Rollins pass and taking the ball the length of the court for a driving lay up, then twice he pumped in jumpers from the 15-18 foot range.
Adding Atkins in the scoring spree were Johnny Forte and

Bob Jacobs. Jacobs accounted for two baskets with a tip in and a jump shot from just outside the foul line, which Forte put in an offensive rebound and also hit on a lay up after stealing an errant Rollins pass.
At the start of the second half Rollins was able to maintain the five point deficit till Atkins began another Seminole rally that just about put the game out of reach. With 14:28 left in the contest, Atkins hit the key with a one hander. This was followed quickly by a jumper from the base line by freshman Randy Wright. Then Atkins intercepted another pass to pick up an easy bucket before Stan McNeal added two more points with another basket off of an offensive rebound.
This run of scoring by the Raiders gave them a 13 point lead at 55-42 which they were able to maintain throughout most of the remainder of the game.
Rollins was able to make one last run at the SJC when it got back to within five points, 62-57, with almost nine minutes left to play.

Randy Wright, former Lyman High School standout gets off jump shot in Seminole Junior College's win over Rollins' JV Team, Thursday.

ROLLINS JV—Lake 38-44; Morris 27-30; Hawk 44-33; Colling 41-19; Klismann 2-12; 5; Shields 6-13; Malone 2-10; 2; Rishel 2-0-4; Totals: 38-122 22.

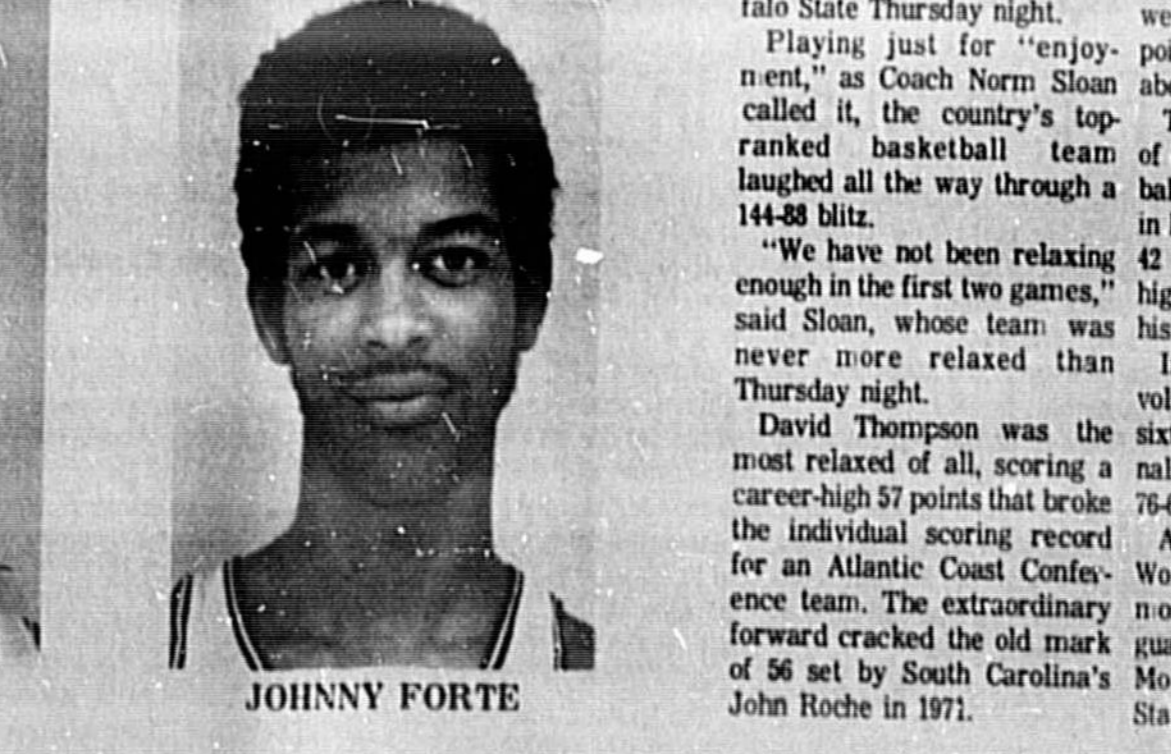

SEMINOLE—Williams 10-12; Fox 10-23; McNeal 6-10; 2; Faber 10-22; Kennebrew 4-0-0; Huest 2-4; McNeal 8-0-12; Forte 4-11; Jacobs 3-0-4; Wright 1-3-5; Johnson 6-12-13; Totals: 91-24 89.

Rollins JV
Kainine 41-56
Fouled Out: Forte, Jacobs, Team Fouls: Rollins 28, Seminole 21.

This rally was led by guard Dirk Twine but it fell short as Chip Nee, an excellent assist man at Atkins, got free for a lay up. Then Forte canned four quick points and SJC was back on top by 11 and never seriously threatened again.
Four other N.C. State players scored in double figures. Stoddard and freshman Kenny Carr each scored 16 points, Spence added 15 and Rivers got 14.

NC State Relaxes, Foe Suffers

By KEN RAPPAPORT
AP Sports Writer
For a team that didn't try very hard, North Carolina State really underwhelmed Buffalo State Thursday night.
Playing just for "enjoyment," as Coach Norm Sloan called it, the country's top-ranked basketball team laughed all the way through a high style game.
"We have not been relaxing enough in the first two games," said Sloan, whose team was never more relaxed than Thursday night.
David Thompson was the most relaxed of all, scoring a career-high 37 points that broke the individual scoring record for an Atlantic Coast Conference team. The extraordinary forward cracked the old mark of 36 set by South Carolina's John Roche in 1971.
"We played this one to enjoy it," noted Sloan, whose defending national champions won their first two games of the year with more of a struggle. "We were not worried about the point total. We felt very good about this game."
Thompson, last year's Player of the Year in college basketball, had started out this season in high style. He scored 33 and 42 points, his previous game high before Thursday night, in his first two games.
In the only other game involving a ranked team, the sixth-ranked Louisville Cardinals whipped the Dayton Flyers 78-65.
A crowd of 12,400 watched the Wolfpack use its fast break for most of the game as 5-foot-5 guard Monte Towe and guard Mo Rivers pressured Buffalo State into 31 turnovers. Thompson

The R in the code word ARCH stands for Review the bidding. Usually it is the least important of the four code letters, but there are times it becomes all important.

South ruffs the second spade. If he is the least bit careless, he will wind up losing two club tricks. He'll complain about the bad luck that placed both the king and jack in the West hand, but to no avail.

A careful South will Review the bidding and mark West with the king of clubs and find a way to make the hand even though West also holds the jack and one.

There will be a slight element of risk in his play. If someone is unkind enough to trump the second heart lead, the hand will collapse. But South can't afford to pull trumps before embarking on operation end-play. He starts by cashing dummy's ace and king of hearts, ruffs a heart, returns to dummy with a trump, ruffs the last heart, plays another trump to dummy, leads a low club and plays his own 10 spot.

West wins with his jack, but is totally dead. A spade lead allows a ruff and discard; a club lead is allowed to ride around to South's queen.

County Voter Turnout Averaged 29 Per Cent

By DONNA ESTES Herald Staff Writer

The votes are all counted. The city elections in Sanford, Casselberry, Altamonte Springs, Longwood, Winter Springs and Lake Mary are certified. The victors include many newcomers to office who must now play the waiting game for the next few weeks until they can officially take office.

The results of the election were as follows: Mayor, Marge Hess and Councilman Louis Blankenship of Lake Mary led the dust of defeat.

Lake Mary has been the scene of government turmoil since its incorporation 16 months ago. Earlier a move to dissolve the city ended in defeat — not because most of those voting wanted the city to remain but rather because of the large number required to approve the action — two thirds of those voting.

Although Mrs. Hess did not actively support the dissolution movement, her husband, George, led it.

While city residents last December voted against those in office who fostered the city incorporation, this year they gave the margin of victory to Sorenson, a worker for incorporation.

A touch of irony could be seen where one incumbent, John Leighty, was defeated, while another, Charles Glascock, won handsily.

The issue that separated the two men was whether the city should levy a property tax to subsidize the water and sewer system operation or increase utility rates to make the system self supporting.

Leighty opted to keep

statistically was seen in Lake Mary at 56.7 per cent, followed by Longwood 44 per cent; Winter Springs 34.4 per cent; Sanford 29.3 per cent; Altamonte Springs 23.2 per cent; and Casselberry 23 per cent.

The election was a pleasant surprise for some of the incumbent office holders.

"Real" Christmas Trees Fall Victim to Inflation

By JANE CASSELBERRY Herald Staff Writer

Florida Christmas trees are celebrated with many artificial substitutes—snow from a pressurized can, foil icicles, plastic holly wreaths and trees that fold up in a box.

In past years, it was simple to go into the woods and chop down the shapeliest live pine or cedar you could find, but no trespassing signs and development of woodlands have ended that practice.

Former partners, who preferred the more formal blue spruce, balsam Scotch pine, formed a new partnership for the North American Christmas tree industry.

More and more organizations got into the act—Boy Scouts, churches, Jaycees, VFW, Optimists, Little League... competing with the commercial tree dealers. Some made money, while others ended up with trees they day after Christmas and lost money.

The rising price of live Christmas trees the past few years had driven many families to purchase the nonshedding artificial tree. Although the initial cost is higher, the artificial tree can be used year after year.

G. J. Rhodes of Rhodes and Sons north of Maitland, who has been in the Christmas tree business for 25 years and is one of the largest retailers and wholesalers of trees in the area, said Christmas trees are not plentiful yet because of the severe winter weather in Canada and New England.

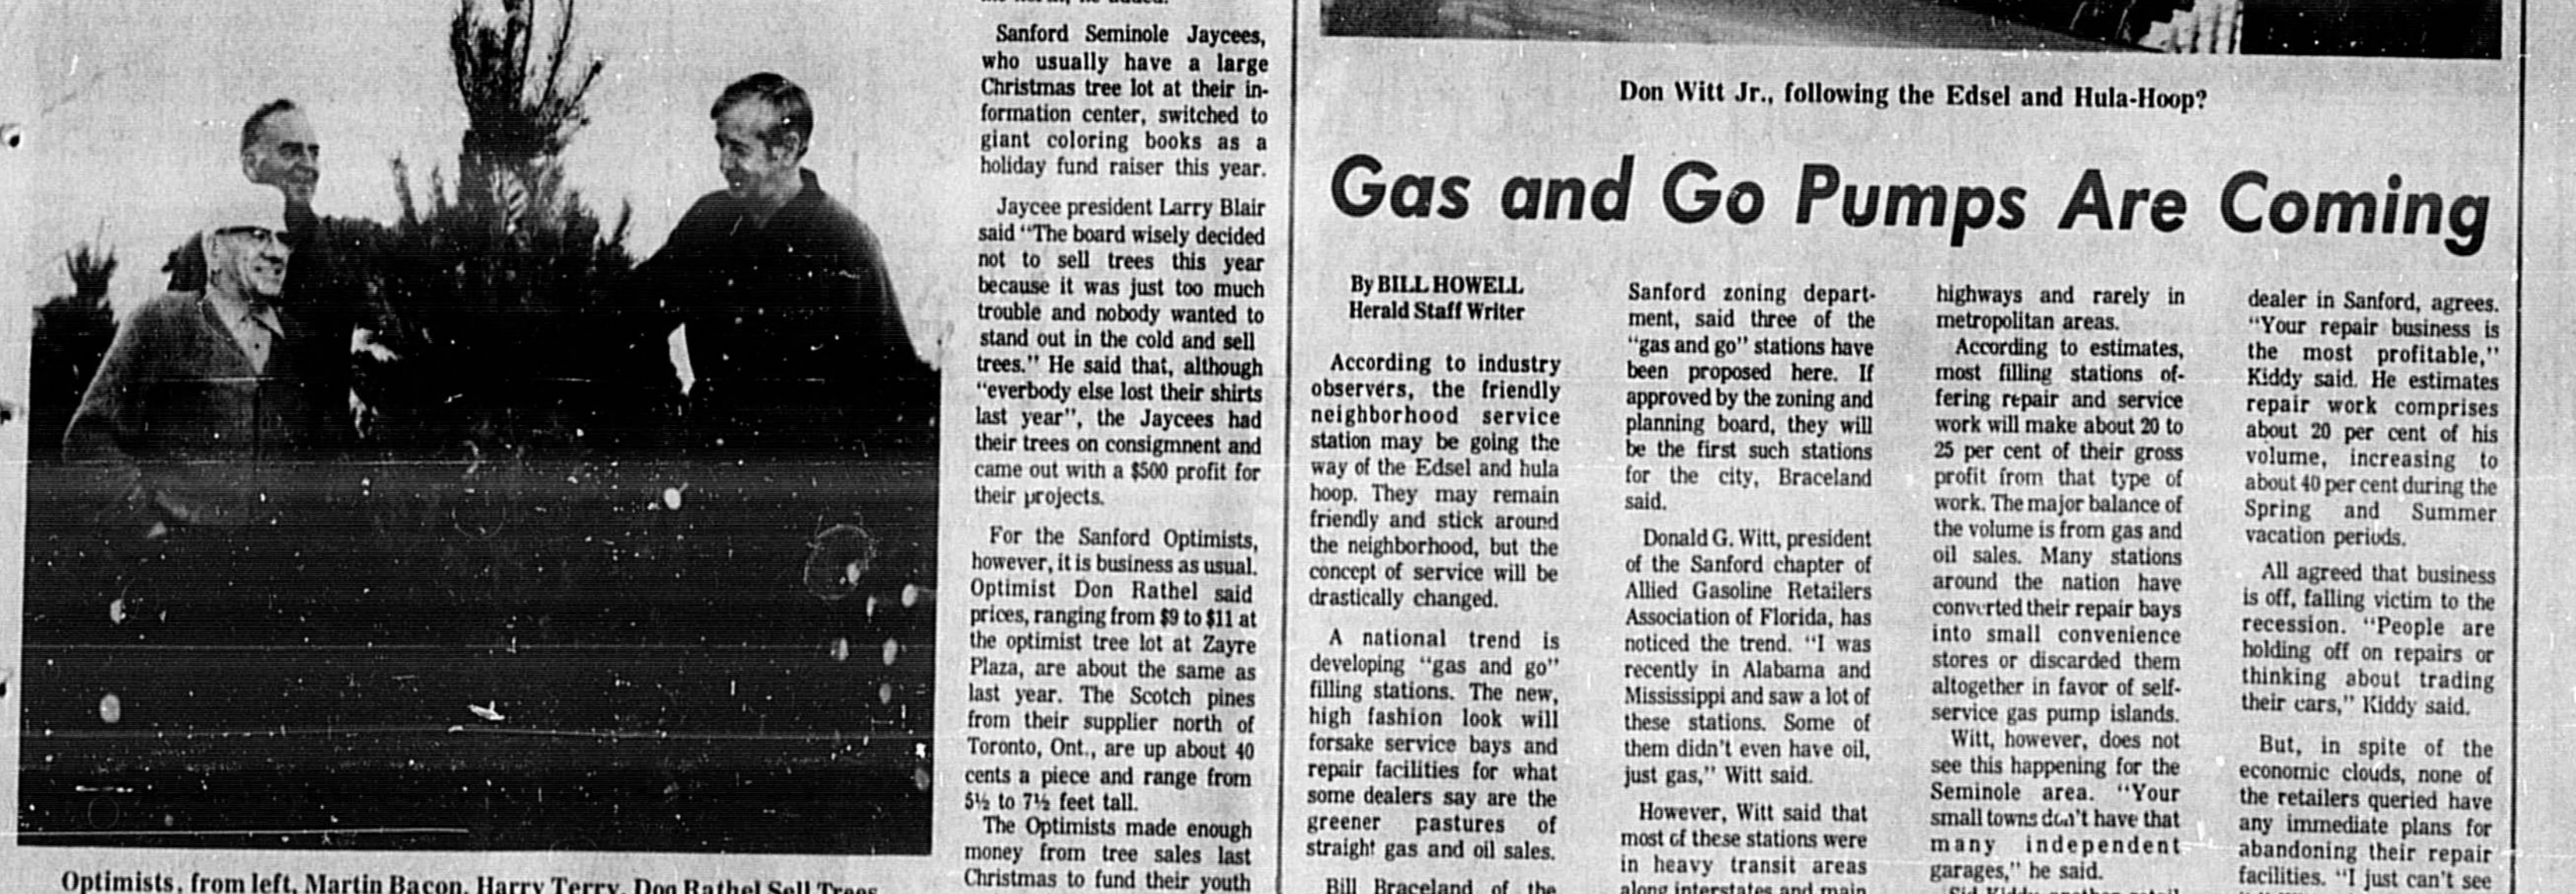

"The temperature in Vermont today is 20 below," he said, and when trees are cut and loaded in below 20 temperatures they break and splinter. "They have had snow since mid-October in the growing areas, adding to difficulty of cutting the trees. High cost of gasoline has added to the cost of transporting trees from the north, he added.

Sanford Seminole Jaycees, who usually have a large Christmas tree lot at their information center, switched to giant coloring books as a holiday fund raiser this year.

Jaycee president Larry Blair said "The board wisely decided not to sell trees this year because it was just too much trouble and nobody wanted to stand out in the cold and sell trees." He said that, although "everybody else lost their shirts last year," the Jaycees had their trees on consignment and came out with a \$500 profit for their projects.

For the Sanford Optimists, however, it is business as usual. Optimist Don Rathel said prices, ranging from \$9 to \$11 at the Optimist tree lot at 21 Zayre Plaza, are about the same as last year. The Scotch pines from their supplier north of Toronto, Ont., are up about 40 cents a piece and range from \$16 to \$19 feet tall.

The Optimists made enough money from tree sales last Christmas to fund their youth projects for the year.

Don Witt Jr., following the Edsel and Hula-Hoop?

Gas and Go Pumps Are Coming

By BILL HOWELL Herald Staff Writer

Sanford zoning department said three of the "gas and go" stations have been proposed here. If approved by the zoning and planning board, they will be the first such stations for the city, Braceland said.

Donald G. Witt, president of the Sanford chapter of Allied Gasoline Retailers Association of Florida, has noticed the trend. "I was recently in Alabama and Mississippi and saw a lot of these stations. Some of them didn't even have oil, just gas," Witt said.

However, Witt said that most of these stations were in heavy transit areas along interstates and main highways and rarely in metropolitan areas.

According to estimates, most filling stations offering repair and service work will make about 20 to 25 per cent of their gross profit from that type of work. The major balance of the volume is from gas and oil sales. Many stations around the nation have converted their repair bays into small convenience stores or discarded them altogether in favor of self-service gas pump islands.

Witt, however, does not see this happening for the Seminole area. "Your small towns don't have that many independent garages," he said.

Sid Kiddy another retail dealer in Sanford, agrees. "Your repair business is the most profitable," Kiddy said. He estimates repair work comprises about 20 per cent of his volume, increasing to about 40 per cent during the Spring and Summer vacation periods.

All agreed that business is off, falling victim to the recession. "People are holding off on repairs or thinking about trading their cars," Kiddy said.

But, in spite of the economic clouds, none of the retailers queried have any immediate plans for abandoning their repair facilities. "I just can't see it," Witt said.

Prohibitionists Predicted It: People Are Drinking More

By BILL BELLEVILLE Herald Staff Writer

The repeal of the Eighteenth Amendment, enacted in 1920 to stop the sale, manufacture, or transportation of alcohol, "will leave all states to deal as they see fit with strong drink and its difficulties," the article concluded.

And, although President Franklin D. Roosevelt expressed his hope that "the tendency would be away from the old-fashioned, brass rail bar with loonies, towards sale with food and the sale in unbroken packages (to go)," Americans with their new found freedom to handle liquor.

Will drinking become more or less fashionable? Will the saloon return by another name? Will the terrible predictions of the prohibitionists come true? These were questions that newspapers were asking 41 years ago this week when Prohibition was repealed.

"Prohibition ends tonight," a Dec. 5, 1933 article in the Herald declared, "and the American people face a curious period of experimentation on how to handle liquor."

And if the "curious experimentation" did not teach people temperance, it at least gave them a taste for variety—a taste that turned hard wooden bars into plush leather seats and shots of whiskey into Bloody Marys.

Most Seminole county lounges, secure today from the an-banking heretics of the Carrie Nations of the land, have settled back into a comfortable routine of providing a myriad of drinks to a plethora of patrons under a diversity of circumstances.

Yet, while each lounge has its differences, it also has its similarities.

According to local bartenders, local tippers favor alphas like scotch and water, over the fancy cocktails. But when cocktails are ordered, the recipient is a female, and the drink is either a whiskey sour or a Collins drink of some variety.

Prohibitionists will also be pleased to know that their "terrible predictions" are, in fact, coming true: people seem to be drinking more.

(Continued on Page 2A)
