FIELDS TAKES SHARE IN THE LEGION BUILDING ENTHUSED OVER PROJECT

Will Give One Per Cent of Entire Cost of Building

FORMER SANF'D MAN

NOW LIVING IN AUGUSTA BUT HEART IS WITH SEMINOLE FRIENDS.

That the idea of Seminole county building a memorial building for the boys of the American Legion or joining some other enterprise in a building and giving them a room in that building or doing anything in that respect that the boys wish is giving this city a bunch of good advertising is proven by the many letters that Secretary Holly is receiving every day from parties wanting to know something about our plans. The committees from the D. A. R. and the American Legion and the committees on Building and Grounds and the Ways and Means met with Chairman Brumley in the Valdez Hotel Friday night but the committees were not ready to report and the next meeting was called for Friday night April 23, at which time something tangible in the shape of plans will be ready for discussion. The following letter from W. P. Fields of Augusta Georgia a former resident of this city has the loyal ring of a true American citizen and a Sanford booster:

Augusta, Ga., April 9, 1920.
Mr. R. J. Holly, Secretary,
Sanford, Florida.

Dear Sir:
I notice in the Sanford Herald that the D. A. R. Ladies are going to build a home for the American Legion or secure a room, or rooms, in some building as a club room for them instead of erecting a Memorial Arch.

I think this is very commendable in the good Ladies, and to show you that, while I am not with you at present, my heart is in the "right place". I will donate 1 percent of the cost of one of the three following buildings: a County Club building with a room or rooms set aside for the use of the American Legion; a Y. M. C. A. building with a room or rooms set aside for the use of the American Legion, or a building exclusively for the use of the American Legion.

My offer is good on either one of these buildings selected, and is good on any price building up to \$50,000 (fifty thousand dollars). I hope the committee will decide on a Country Club building for I know what a big thing it has been for Augusta. Our Tourist Hotels are packed every winter. Ex-President Taft and Senator Hitchcock have just left here after a stay of ten days and nine-tenths of their time was spent at the Country Club and on the golf links.

The Tourist Hotels stock is the best paying stock in Augusta, but they would have to close if it were not for the Country Club with their golf links, tennis, dinner dances etc., and the Augusta people keep it just as lively in the summer as they do in the winter.

It took eight years to build your hotel, but with the men you have on the different Committees, I know they will "go over the top" just like the boys did in France, and I can just picture myself and Charley Williams sitting down in the Country Club building drinking a Scotch Coffee Ball and explaining why I did not beat on the Links that afternoon.

In conclusion, I find that the people all over the country are trying in some way to show the boys (that were fortunate enough to come back that they not only appreciated them then, but appreciate them now, and I know the Sanford people too well to think that they are going to be backward. I am only sorry that I cannot afford to do more.

As soon as the contract is let

notify me and I will mail you check to cover my offer. I am,
Very respectfully yours,
W. P. FIELDS.

First Beans Bring \$10

Webster, Fla., April 10.—The first beans of the season were picked last week. They were sold by J. C. Getson to Hill Smith of Center Hill. Picking this year is only one day later than last year. Cucumbers have also started to move from this section.

MERCHANTS STEAMER LINE ON

PALATKA BUSINESS MEN PURCHASE STEAMER FOR ST. JOHNS RIVER TRANS- PORTATION.

More steamers on the St. Johns river to bring down the freight rates and get quicker service seems to be a proposition that has already been taken up by the Palatka merchants and that is also interesting Sanford and DeLand and other points on or near the river.

Water transportation is the cheapest transportation in the world and the business men of south and central Florida have at last come to the conclusion that by using the St. Johns river and motor trucks combined freight rates could be materially lessened. With the big motor trucks in operation from all interior cities and with the St. Johns river steamers working in conjunction with the trucks of Orlando and Kissimmee and Lakeland, Eustis, Leesburg and DeLand and many other cities could get a much better freight rate and the merchants would own shares in the new steamers on the river.

The Palatka News has the following about the Palatka steamer recently purchased by the business men of that city:

"Word has been received here that Captain Thomas Martin will leave Savannah Monday with the steamer Pilot Boy, which was recently purchased by the Palatka-Jacksonville Steamship Line to be placed on the run between Palatka and Jacksonville. The boat will be stopped in Jacksonville for inspection and some minor repairs will probably be made. Sanford is very much interested in the steps that have been taken here to establish an independent line, having suffered some of the same inconveniences that local merchants have suffered in getting freight out of Jacksonville. It is intimated that an effort will be made by Sanford interests to join with the local company and put two boats on the run making the trip all the way down to Sanford."

FRENCH TO WITHDRAW IN GERMANY

BUT WILL WITHDRAW WHEN GERMANS LEAVE THE RUHR VALLEY.

London April 12 (By Associated Press) The latest French note says the French will withdraw troops from Frankfurt and other occupied cities when Germany withdraws from the Ruhr region and promises no further independent action by France.

Killed Policeman

Memphis April 12 (By Associated Press) Dr. Buford N. Donovan killed a policeman called to quiet a disturbance at his home today. The police declare that Mrs. Donovan alleged her husband threatened her life.

SANFORD MEDICAL SOCIETY

MEETS AND ELECTS MEDICAL STAFF FOR FERNALD- LAUGHTON HOSPITAL.

A regular meeting of the Sanford Medical Society was held here Friday night in Dr. Langley's office. Three new members were accepted viz. Drs. Puleston, Stevens and DeCdds. The principal business of the evening was the appointment of a Medical and a Surgical Staff for the Fernald-Laughton Memorial Hospital. It was decided to have four physicians on each staff, and each of the four to serve as Chief of Staff for three months each year, his immediate successor to serve as Alternate in case of the absence of the Chief at any time during the quarter.

The calendar is as follows:—
Jan. Feb. Mar., Surgical, Chief, Dr. Tolar; Alternate Dr. Stevens; Medical, Chief Dr. Robson; Alternate Dr. Denton.

April, May, June, Surgical Chief, Dr. Stevens, Alternate Dr. Puleston.

PROCEED AGAINST GEO. CREEL

GOVERNMENT PRESS BUREAU WASTED TONS OF PAPER AND MUCH MONEY.

Washington, April 12.—(By the Associated Press) Legal proceedings by the government against George Creel, former chairman of the committee of public information; Roger Babson of Wellesley Hills, Mass., and others concerned in the transfer of the committee's war publication, the Official Bulletin, to Babson, are recommended in a report made public today by Senator Smoot, Republican, of Utah, chairman, and Representative Kies, Republican, vice-chairman of the joint congressional printing committee.

The report charged that Babson obtained the "bulletin" in March, 1919, by "secret connivance" with Creel and others "without the government receiving a cent in compensation" and urged that suit be brought to obtain "just compensation" for the government.

Numerous abuses in the government.

JACKSONVILLE BUILDERS PLAN TO CURB THE COST OF BUILDING MATERIALS

the average time of construction on each building in sixteen cantonments was forty six minutes.

Cool Weather Helps Fla. Potatoes

New York, April 10.—According to advices received by L. Willis Holden of Smith & Holden, the cool weather this week in Florida helps the potato crop by assisting to kill any blight that may be on the plants. He also had late advices from Georgia stating that peaches were hurt in the Cornelia district and that in the Pine Mountain section the damage was from nothing up to 25 percent. The Georgia Fruit Exchange reported no damage at Macon.

LOTTERY CAUSES ARRESTS

OHIO SCENE OF NATION WIDE LOTTERY COMPANIES WORKING.

Columbus O. April 12.—What is declared by local police officers to be the start of a nation-wide campaign against four big lottery companies operating throughout the country was taken here today, when fourteen Columbus men were arrested and jailed on charges of selling lottery tickets or promoting a lottery.

More than \$100,000 worth of lottery tickets were seized here, the police say.

Columbus men were arrested and jailed on charges of selling lottery tickets or promoting a lottery.

More than \$100,000 worth of lottery tickets were seized here, the police say.

The four lottery companies are said to be the Honduras, the Cuban which is declared to be conducted through the National Bank of the Republic of Cuba; the Metropolita whose headquarters are in Montreal but whose printing establishment is said to be in Toledo O., and the Alaskan.

According to the local police, they learned of the alleged lotteries when ticket salesmen approached a policeman and asked him to buy tickets.

The police state the tickets were offered for sale at from 50 cents to \$10 each and that the prizes ran as high as \$10,000 and \$20,000.

Those arrested today include one alleged general agent of one of the lottery companies and thirteen other who acted as salesmen for the various companies.

Police here said arrests were expected soon in Toledo, Cleveland and other Ohio cities.

The police said all information regarding the lotteries had been placed in the hands of federal officers.

REED WILL OPPOSE THE DRAFT LAW

SHARP CONTROVERSY PRO- MISED IN SENATE OVER THIS MEASURE.

Washington April 12 (By Associated Press) A sharp controversy is promised in the senate over the plan to make the draft automatically effective in a declaration of war. Senator Reed advised the leaders that he and others would oppose the plan.

Weather Report

For Florida Showers and thunder storms this afternoon and tonight. Tuesday fair and cooler. Strong south shifting to west winds with squalls.

Hope to Reduce Costs By Co-Operative Buying

SITUATION ALARMING

AND MEANS THAT BUILDING WILL STOP UNLESS PRICES COME DOWN.

Jacksonville, April 12.—The Jacksonville Master Builders' Association has made detailed plans to prevent further increases in building costs in Jacksonville. In fact, the association through cooperation with labor and material interests—hopes to rapidly reduce costs by cooperative purchasing and increased labor efficiency. The association states that wages are not to be reduced at this time, and that no unwarranted advances are to be made.

These steps were taken at a recent large and representative meeting of the association.

In connection with the matter, the association yesterday issued the following statement:

"After thoroughly discussing all factors entering into the present cost of building construction in this territory the Jacksonville Master Builders' Association decided that the time has come when immediate steps must be taken to curb any further rise in costs. The future of our city urgently demands it. Only by taking a firm stand at this time can the vicious cycle of higher costs be kept from mounting to a figure, which will strangle the industry by making it unprofitable or impossible for home builders and investors to prosecute building operations."

"The builders fully realize the responsibility of their position, standing as they do in the relation of middleman between the investor and home-builders on the one hand, and the laboring man on the other. If unwarranted increases in wages are sanctioned and the cost to the owner thereby increased, building construction will soon reach a point where it must cease from inability to pay the cost. With the present crying need for more industrial and residence buildings, our city cannot afford to have building cease."

"The building material situation is also to receive its share of consideration. Large activities in local and foreign markets has run the cost of many materials beyond a fair price. In some cases, the manufacturer has taken advantage of the demand to boost prices. In some cases, also brokers have held materials up to the highest bidder, and have sold at largely increased cost, regardless of fair price. In other cases, stocks have been bought by one wholesaler and then by another and so on through several operations, each of which was attended by an increased price, all of which has ultimately been borne by the owner. Such practices are unqualifiedly condemned by the association."

"Every effort will be made to secure materials through the regular channels, our business being given only to the most reputable dealers and manufacturers. Speculators, profiteers, and all who are aiding to keep up the prices by unfair methods or by taking advantage of congested transportation conditions, or temporary scarcity, will be at once exposed and eliminated from future business relations. Any violations of the federal laws will be turned over to the district attorney for action."

"This is a large and comprehensive program, and the builders have adopted it knowing full well that powerful government agencies have been grappling with it for months. The gravity of the situation, threatening as it does the very foundations of our prosperity and, indeed even of our government, gives them courage to go out and do battle in no half-hearted way. Cooperation and impartial discussion is asked for from the building owners, and the employers, the wholesalers and retail distributors of materials, and lastly, and most important of all, from all different trades and crafts employed in the whole building industry."

GREAT SPRING FESTIVAL SANFORD'S ANNUAL EVENT WILL START THURSDAY

And Will Continue Three Days and Nights---Amusement Galore

BENEFIT WOMAN'S CLUB

THURSDAY FRIDAY AND SATURDAY WILL BE GIVEN OVER TO JOYOUS OCCASION

April 15-16-17! Three days and nights of fun at the foot of Park Avenue. Laughter, mirth and merriment and every body in town will be there at the Spring Carnival given under the auspices of the Woman's Club, so just join the procession and follow the crowds that hear the barkers speling "this way La-dees and Gentle-men" and then you are right in the heart of the carnival beginning to enjoy yourself, for there will be everything to make you happy.

The opening event will be a big parade in which everybody connected with the various booths and shows will take part. A parade that will be only a preliminary insight into the wonderful events it heralds.

On the carnival grounds will be found genuine carnival attractions. Various booths, where the turn-of-the-wheel decided one's good or bad luck. Everybody can't win but somebody is going to get that basket of groceries at the Country Store where Mrs. R. J. Holly, with a corps of able assistants smilingly hands out the baskets and other good things always to be found on the shelves of an up-to-date reliable Country Store especially at a Carnival.

Mrs. F. L. Miller and her committee will tempt you into trying your

luck at the candy wheel and Mrs. T. M. Puleston will be in charge of the refreshment booth, who with efficient help will dispense hot dogs, hot coffee, tasty sandwiches, potatoes, "n everything, to appease hunger and appeal to the fellow that loves to eat.

At the booth where Mrs. W. C. Hill presides, Yum! Yum! Such delicious home made candies and cakes and if your lucky star is in the ascendant you might have that special cake knocked down to you that will be auctioned off each night. There's balloons and confetti too.

Then a really, truly fortune teller, who can tell you if your best girl is joy riding with the other fellow or if your mother-in-law is coming for a visit or—Oh! you know! All kinds of interesting things about money and love and marriage and the "some day you'll cross the ocean and find riches etc., ect.

Under the direction of Mrs. J. S. Wilson there's going to be dancing and Mrs. R. L. Peck will have charge of "Violet Day". Flowers and plants are going to be sold by Mrs. W. L. Morgan and an attractive group of girls and the doll! Beach dolls, Kewpie dolls and bathing beauties, the Mack Senett kind will be found on a booth under the supervision of Mrs. Grovenstein.

Added to all this will be the entertainment features. In "Flora's"

REPUBLICANS CHARGE UP INEFFICIENCY

REPUBLICAN CONGRESSMAN SAYS HIGH COST DUE TO SPECULATING AND HOARD- ING.

Washington April 12 (By Associated Press) The House Rules committee will be called on to decide whether Congress shall investigate the Federal Representative system. Representative King, Republican, is urging an immediate adoption of the investigation and declares that seventy five per cent of the high cost of living is due to financing speculators and hoarders.

SAY DEMOCRATIC DYNASTY PAID TOO MUCH FOR WAR CAMPS.

Washington April 12 (By Associated Press) The Republican majority charge the government lost seventy eight million dollars through waste in efficiency and hold secretary Baker responsible while Secretary Baker and the Democratic minority defend themselves by saying the record was a distinct achievement and in the report of the investigating committee on building army war camps. The minority declares that

More than just materials

When you let us supply your building needs you get a great deal more than just so many feet of lumber—bundles of shingles—pounds of nails—or panels of Beaver Board.

You get the benefit of our building material knowledge and experience in Service that helps you get the results you want at the right price. Service first in planning the work—more service in selecting proper materials—speedy service in delivering the goods.

You pay for the materials. The service pays for itself in the larger volume of business it brings through super-satisfied customers.

It will pay you to be one of them.

WATCH YOUR STEP

Nothing Lost by Keeping in Mind "Safety First."

Government Bulletin Lists Varieties of Accidents in Industries That Might Easily Be Avoided by the Exercise of Care.

Electric signs blink the slogan, "Be Careful," around the big mills. From mother's apron strings to the latest newspaper the voices of safety first call "Be Careful."

Now comes the United States labor department and tells how many ways you can get hurt by falling. There are three kinds of falling: (1) falling from a high place to the level; (2) falling from the level into a place below level; (3) falling while walking or standing on the level.

In the first classification we find all kinds of high places to fall from. In the card indexes of the safety engineers they have records of people falling from benches, boxes, chairs, tables, bridges, dams and docks, cranes, elevators, derricks, hoists—elevated bins, pockets, tanks (falls from but not falls into)—buildings in construction or demolition—floors—ladders, scaffolds, staging—hoists, engines, machines—poles, trees, roofs, runways, balconies, platforms, gangplanks, stairs and steps, tramways, trestles, windows, walls and wall openings.

Ladders, by the way, are the worst and trickiest of all. More falls from ladders than from any other high spots are recorded. As the safety engineers classify ladder falls: (1) You hit the ground because the ladder broke or a step in the ladder went to pieces under your foot; (2) either you slipped and twisted or the ladder slipped and twisted; (3) somebody or something knocked you off the ladder; (4) or how it all happened was a mystery.

Getting into Class B, where the fall is from the level into territory not on the level, people fall into excavations, pits, shafts, bins, vats, floor openings, man-holes. If standing or moving on the level you slip or stumble, you get into Class C. A stumble, however, may be caused by fixed objects or loose objects. A sleeping dog or a hunk of pig iron may trip up the feet that do not respectfully elevate.

The number of falling objects that knock people down and get their names into the accident records are collapsing buildings, walls, scaffolds, stangings, chutes, conveyors, slides, stacked, stored or piled-up material. Also racks, shelves, machines, work benches, temporary floors, trees, ditch and trench cave-ins, mine and quarry coal, rock and ore.

Experiences with "injuries due to scuffling, larking or horseplay" are noted in the federal labor department bulletin by Commissioner George Elmer of the workmen's compensation board of Ontario, Can. A railway porter wrenched his foot but was

denied compensation because he "was larking with two young ladies" and showing them how nifty he was at jumping trains. Claims were allowed "where a Chinaman employed in a factory was the innocent victim of horseplay—blown up by hose; where a man had been teased by another workman suddenly turned in revenge and hit an innocent party; where a man about to punch the time clock was hit from behind by another workman, injured man innocent of any horseplay."

All of which gives us a hunch as to what the electric signs mean blinking late at night and early morning, "Be Careful."

His One Consolation.

One of the best of many good stories in "As a Tale That Is Told," Rev. F. W. Macdonald's book of reminiscences, concerns a theological argument he once overheard between two Scottish cattle drovers.

One, belonged to the Free Church of Scotland the other to the United Presbyterians, known for short as the "U. P.'s."

From belittling each other's churches (says the author) they descended to personalities, and finally the U. P. man roundly denounced his opponent and all his ancestors, winding up with:

"Your father was a thief, and your mother was a witch."

"Maybe they was," replied the other. "Maybe they was. But they wasn't U. P.'s!"—Pearson's Weekly.

Where He Would Begin.

"I have made up my mind that I should like to devote the remainder of my life to serving my fellow men," said the man of wealth.

"Fine idea," said one of his friends. "I presume you will now start out to help the poor and devote yourself to charitable service."

"No, that isn't my thought exactly. I had an idea I should like to start my public life in the United States senate."

Willing to Learn.

"I see where a college professor advertises for a job that will pay him a living wage."

"Does he say what he can do?"

"No; but he says if somebody will give him a chance he will forget that he studied abroad and got a string of degrees."—Birmingham Age-Herald.

REHER BROS.

PHONE 112

after the absence of Poland as a sea nation for 148 years.

Throughout the new republic bells tolled and a holiday spirit prevailed in commemoration of the historic event. At Putzig, on the Baltic, General Haller, commander in chief of the Polish armies, reclaimed in the name of the republic the sea coast which fell from Poland to Prussia after the first dismemberment of Poland in 1772.

Simultaneously with Poland's reaching out to the Baltic the diet celebrated its first birthday. The most striking speech was made by Spenker Thomszynski, who proclaimed that justice had at last triumphed, giving Poland access to the sea.

"Poland will defend this historical strip of land with its very last drop of blood," he declared.

The diet decided on the construction of port facilities in the region of Putzig, giving Poland her own gateway to the sea.

TOT LAUNCHES BIG SHIP

EX-DUKE WINS AGAINST STATE

Confiscation of Estate by People's Commissioners in Germany Held Illegal.

Berlin, Germany.—The former reigning duke of Gotha has won his suit against the free state, which peremptorily confiscated his property and incorporated it among the state's assets without affording the duke the slightest reimbursement. The duke immediately began suit to recover the estate and also claimed damages. In their defense the people's commissioner pleaded that they had acted within the letter of their prerogatives and were not answerable to the court. This plea has been rejected by the new tribunal, which has decided that the seizure of the duke's property was illegal. A special commission will now negotiate for a compromise.

Baby's Batteries

Ruth often helped her mother look after baby brother. One morning her mother told her to go and listen outside the bedroom door to see if brother was crying. "Why don't you want him to cry?" asked Ruth. "Are you afraid he'll run his batteries down?"

MEMBER OF THE ASSOCIATED PRESS.

Power was off again Saturday, making the paper late and preventing the casting of type and getting out a good paper. A daily cannot be operated under such circumstances.

We note an "ad" in the Bradenton Journal of the Southern Utilities Co., which reads: "Buy a motor and use electricity" and goes on to say that the motor can be used for everything from a sewing machine to a saw mill.

It must be wonderful to live in a town like that.

EXAMPLE FOR MIAMI

The Sanford chapter of the Daughters of the American Revolution are going to see that a building be erected for the use of the ex-service men and for other practical uses instead of having money spent for a memorial arch. This is a sensible thing to do. It should set a precedent for Miami.

NOT US, BROTHER BROSSIER

In commenting on the news print situation in a recent editorial, The Orlando Reprinter Star says: "The Gainesville News and the Palm Beach Tropical Sun are the first two daily papers in the State to suspend. Many weeklies have already given up the ghost. The Sanford Herald announces that it will suspend its daily publication May 1."

We fail to understand how brother Brossier gained the impression that The News had suspended as we have not missed a single issue since we started. However, had it not been for the goodness of Brother Brossier in lending us a little paper at a very critical moment, we might have been forced to suspend. At present we have enough paper enroute to last us a short time and we believe before this is gone the good Lord will again provide.

MORE HOUSES NEEDED

The cry for more houses goes up from every quarter of the universe and Florida probably needs more than any other state in the union for Florida is growing faster than any other state. The people are here this year and they will be here in greater numbers next year and every city, town and village should make arrangements to take care of them. The following from the Eustis Lake Region applies to Sanford and every other part of Florida:

If the Lake Region was not aware of the progressive spirit of the citizens of Eustis, we would feel that the conditions here are in a distressing state on account of the demands for houses, which far exceed the supply. It is a fact that practically all available cottages and apartments have been leased for next season and unless provisions are made for the great increase of tourists that will come to Eustis next winter, the city will lose hundreds of people, many of whom would probably locate here permanently. The question of erecting apartments, cottages, etc., is being considered and we believe before fall quarters will be provided for all who desire to spend next winter in Eustis. Families, the perma-

ment resident class, seldom endure hotel life. They want family life, quite naturally, and family life requires houses. Families will go where they can live. Materials are high, labor is high. Supplies of all sorts are away out of sight. But the town can't grow and, by growth increase her business possibilities without providing a way for the increased population to live. Moreover, there are no indications of any change for the better in building conditions. Eustis wants people. To get people, she must get homes. To get homes she must work. This is one issue on which the city must sink or swim, stagnate or develop, and knowing our people and her civic organizations, we feel confident all necessary steps to provide adequate quarters for those who desire to spend next season in this city will be provided.

HOW IMPORTANT IS YOUR

JOB TO YOU?

"How much you goin' to get?" "Don't know."

"Huh! You ARE a bright one..."

Usually that is the way a small person in a small job looks at the question of salary. It is the biggest thing in the world to him. But here is what one man in a big job thinks of the pay envelope end of his job, and it is just because he has always had this point in view that Harry B. Thayer is now president of the American Telephone and Telegraph Company, as reported by Forbes Magazine (Y. Y.).

"Don't think of yourself at all. Don't waste an hour of your time scheming or planning to get promotion. Don't worry about how big an increase in your salary you can contrive to get—don't let your mind dwell on money at all if you can help it. Throw yourself, body and soul and spirit into whatever you are doing. Become so interested and so engrossed in your tasks that you have neither time nor inclination to think about yourself or your prospects or the possibility of a raise."

"Don't imagine for one moment that your superiors don't know what you are doing or how valuable an employe you are. Some fellows have the impression that if they are in a very large organization their work is buried and that none of the bosses has a chance to know just what they are accomplishing. The truth is that every organization, no matter how large or how small, some one is taking notice of any employe who shows special ability."

WHAT IS AILING US?

What's the matter with America these days?

Too many diamonds, not enough alarm clocks.

Too many silk shirts not enough blue flannel ones.

Too many pointed-toed shoes, and not enough squared-toed ones.

Too many decolette and not enough aprons.

Too many serge suits, and not enough overalls.

Too many satin upholstered limousines, and not enough milk cows.

Too many consumers and not enough producers.

Too much oil stock, and not enough savings accounts.

Too much envy of the results of hard work, and too little desire to emulate it.

Too many desiring short cuts to wealth, and too few willing to pay the price.

Too much of the spirit of "get while the getting is good," and not enough of the old-fashioned Christianity.

Too much discontent that vents itself in mere complaining, and too little effort to remedy conditions.

Too much class consciousness, and too little common democracy and love of humanity.—Exchange.

PRINTERS GET TOGETHER

Heretofore the different newspapers and job offices of the county have each been playing a lone hand in pricing job printing and advertising and consequently there has been underbidding and price-cutting with the result that no office in the county has made the money it should have made with the investment and outlay required.

You will find that merchants and all other business men excepting printers are well enough organized that you will find none of them cutting prices below a good substantial profit. While there is sometimes a slight difference in their prices, it is caused by some one, or more of them being desirous of asking larger profits than are deemed just by others.

At the meeting of the DeSoto County Press Association last Saturday at the court house, the high and increasing cost of labor and materials were taken into consideration and means and methods of making the newspaper and printing business pay in spite of these handicaps were discussed at length and means adopted to overcome them.

The matter of legal publications

came up and it was moved, seconded and unanimously carried that the newspapers of DeSoto county charge full legal rate for all such notices as is required by law. Both of the local papers voted for this motion. This rate is \$1 per inch for the first insertion, 50 cents an inch for each of the additional insertions for eight issues, and 37 1/2 cents per inch for each insertion after the ninth. This applies to all advertising for which an affidavit of publication is required of the newspapers.—Arcadia News.

New City Directory For Sanford And Seminole County

R. L. Polk & Co., the oldest and largest directory publishers in the United States are to publish a new directory of Sanford and Seminole County. Charles X. Thompson, manager for the Polk Company is organizing a staff for the purpose of canvassing the City and County. Mr. Thompson has been here one week and says as far as he has gone in gathering subscriptions and advertising for the directory, the same territory covered this year yields 100 per cent more business than all the canvass of 1917 when the last directory was issued. The outlook for a good and well patronized directory for 1920 is assured.

When R. L. Polk & Co., have completed their canvass of Sanford the authentic and correct population of the city can be arrived at and it is with interest that many are watching for the result.

R. L. Polk & Co., send the Sanford directory to every city where they publish a directory which means four hundred and eighty seven different cities in the U. S., where the Sanford directory can be found—such publicity cannot but help to advertise Sanford and its many industries. The directory giving as it does a numerical street, directory of classified business directory and the name of every individual with occupation and street address etc. and also full particulars regarding every business firm in the City and County.

The directory is acknowledged as the only index to each and every line of business carried on within the territory covered by such a publication.

BRITAIN GETS GERMAN DYES

Well Ahead of Allies in Obtaining Coloring Stuffs—300 Tons Received.

London.—Great Britain is well ahead of the allies in obtaining German dyes, of which 300 tons have already reached this country.

The committee of dye users which has gone to Germany under the authority of the board of trade to purchase 2,000,000 pounds of dyestuffs, includes representatives of the board as well as expert users engaged in the cotton and woolen textile and the paint and varnish trades. They are in number and will devote a fortnight to selecting the colors most urgently required here. Their purchases will be in addition to the 1,500 tons to which Great Britain is entitled under the reparations clauses of the peace treaty.

From a census of stocks of dyes in Germany, it has been ascertained that there were about 22,000 tons, of which 6,500 are dug the allies. The remainder, after the British quota, will be distributed to users in the United States, France, Belgium and Italy.

MULES IN COASTING RECORD

Slide Five Hundred Feet Down an Icy Hill Road Near Chilllicothe, Ohio.

Chilllicothe, O.—A record was made in local coasting annals when Jeff and Jerry, two draft mules owned by a local wholesale grocery firm, tobaggained 500 feet down an icy hill road.

The Ross County Tuberculosis sanitarium on Bellevue Hill, west of Chilllicothe, was running short of provisions because delivery wagons were unable to make the trip up the ice covered road.

A driver for the firm said that Jeff and Jerry, the trusty mules, could make the ascent. Midway up the slope they began to slide, and to keep the wagon and its contents from going over the bank the driver unharnessed the mules.

Jeff and Jerry sat down and slid to the bottom of the hill. A horse on the slope nearby decided to imitate the mules, but slid into a fence.

"Sure, I Proposed to Him." Manitowic, Wis.—"Sure, I proposed to him," said Mrs. Annie Prueger, as she applied for the license to marry. The bridegroom in the case was August Kreis, sixty-seven, and this is his second marriage. The bride is fifty-eight years old, and is plunging into matrimony for the third time.

Primitive Fire Prevention.

In the early days of the fire insurance business each company in London maintained its own fire brigade. In those days a citizen might go out into the street and shout "Fire!" as loudly as he liked, but unless he had paid his insurance premium no fireman would lift his finger or a bucket to save his possessions from burning.

BABIES HELP PAY FOR WAR

Even Talcum Powder Has Been Levied Upon to Meet Expenditures Due to Slaughter.

The postbellum H. C. L. has hit the babies.

In the Home Sector William G. Shepherd says: "About \$3,000,000 will go into Uncle Sam's coffers from the pockets and purses of soda water drinkers in 1920. Folks who like bowling or billiards or pool will give about a million and a half to Uncle Sam. People who play cards will give him two and a quarter millions. Automobiles and motorcycles will bring him in 50 cents a head from the whole 100,000,000 of us. We'll give him about \$55,000,000 for going to theaters and movies."

"Every one of the 100,000,000 of us, indeed, will give Uncle Sam an average of two cents a day, directly, for pleasure and conveniences, with baby paying tribute for his talcum powder, mother and sister paying tribute for their perfumes, father paying tribute for his cigarettes and athletic club dues, all the kids paying tribute for the movies and their trips to the corner soda fountain."

"The war did it all, too. We're paying just ten times more to Uncle Sam in internal revenue this year than we did in 1914. We paid so little then—one-tenth of 7 1/2 cents a day—and we paid it so indirectly that few of us realized that there really was such a person in the world as Uncle Sam. At last the old party has found us. Since then a lot of us have fought and died for him. And if he's worth dying for he's worth supporting."

MAY DEVELOP GUM MARKET

Opening of Mesopotamia to Civilization Likely to Add Largely to the World's Supply.

As law and order come into the wild and unsettled mountains of Mesopotamia, especially when new roads and the eventual railway connect the northern Kurdish country around Mosul with the rest of the world, many a now useless tree and shrub will doubtless be put to service as a contributor of gum. The gums of Mesopotamia have many commercial uses, and the unsystematic tapping and trading that now brings the product on pack animals to Suleimannya, where merchants buy it from the Kurds and sell it again to other merchants in Baghdad, is a mere suggestion of the industry that may be developed by enterprising promoters who may have observed the extent of this natural resource in Mesopotamia and looked further afield than Aleppo and Baghdad for markets. Now that British occupation has opened the land to Western ideas, it would not be surprising if the gum industry grew to be a source of considerable national wealth, and an important factor in creating a new Mesopotamia.

Lengthening Life of Silk Stocking.

"No economies are small," says a French proverb, and the professional stocking mender's job is evidence of thrift as understood by the Parisienne. "Here," said one of the craft, "are 30 pairs of silk stockings which have been through my hands more times than I can count, and look at them." They were patched and darned till there was little of the original left, but as Elise remarked, "with boots they still make an effect." Before the war madame paid three half-pence per pair to her mender and provided the thread; now she gives fourpence or fivepence and expects miracles of endurance from the fragile web. Where the mender formerly spent ten minutes she now must devote an hour to some of these stockings, and it is difficult to see how she gets a living. But madame's motto is, "Throw nothing away," and she lives up to it.

Plastic Dressing for Wounds.

Industrial plants are now using the Ambrose treatment for burns, scalds, and all surface wounds which proved very successful for casualties incurred in the world war.

The dressing is a compound of wax and resin, and is solid when cold. It is heated to about 150 degrees Fahrenheit and applied by means of a special atomizer, or it can be generally dabbed on with a soft brush. A plastic dressing, impervious to air, is thus formed, which does not adhere to the wound and which promotes the healing process without appreciable contraction. Disfigurement and scars are prevented to a greater extent than was possible under the old methods.

Bold Chinese Bandits.

Bands of kidnapers recently have caused much alarm in Tanchowfu, Shantung, China. Operating in groups of from 30 to 50 they have carried away and held for ransom wealthy Chinese for whom they have obtained as much as \$50,000 in some cases. Ten citizens were kidnaped in October. Promises to pay ransoms have been exacted by torture. Troops have tried to capture the bandits, but have failed. It is believed the kidnapers came from Dalny, crossing the Gulf of Pechili in boats in which they escaped with their captives.

Spanish Licorice Industry.

The manufacture of licorice extract and paste is an important Spanish industry. This is a comparatively new industry; as formerly the root was exported unmanufactured. Over 6,000,000 pounds of the root were exported in 1918 and more than 600,000 pounds of extract and paste.

The National Banking Laws of This Country

constitute a bulwark of protection to the depositors of such institutions.

National Banks are becoming more and more public institutions and the Government is taking a strong hand in seeing that they are conducted for the safety of the public.

First National Bank

F. P. FORSTER, President B. F. WHITNER, Cashier Sanford, Florida

Stood for Religious Tolerance. On the 5th of February, in 1031, Roger Williams, founder of Rhode Island, arrived at Boston. He was the first advocate and leader among the Puritans for the principle of religious tolerance.

Transparent Soap. Transparent soap is prepared by drying ordinary soap, dissolving it in alcohol, allowing the solution to remain at rest so long as any impurities settle to the bottom, and then pouring off the alcoholic liquid and evaporating it until it is of such consistency as to become solid when cooled in molds.

Infallible Method. An amateur farmer answered an advertisement headed "A Sure Way to Make Hens Lay." This is what he got for his money: "Tie a stout string around the hen's body, place the bird on her side on a board and fasten the string underneath. If it is thought desirable, a pillow may be placed under the hen's head."—Boston Transcript.

Keep Up Your Confidence. The majority of failures begin to deteriorate by doubting or depreciating themselves or by losing confidence in their own ability. The moment you harbor doubt and begin to lose faith in yourself you capitulate to the enemy. Every time you acknowledge weakness, inefficiency or lack of ability you weaken your self-confidence, and that is to undermine the very foundation of all achievement.—Orison Swett Marden in Chicago Daily News.

Caught at Folkston Georgia

B. H. McKinney had his Oakland car stolen last week and Sheriff Brady immediately wired descriptions of the car all over the country with the result that Richard Hilliard was caught at Folkston Georgia Saturday with the car in his possession and Deputy Sheriff Roy Tillis went up there and brought him back to Sanford today with the stolen car. His preliminary trial will come before Judge Housholder today and he will probably be bound over to the next meeting of the Circuit Court. It seems so easy to steal cars nowadays in the big cities and the smaller cities and even in the villages. And together with the theft of the car is the theft of tires and accessories and it is always good work on the part of

Society Personals

Mr. and Mrs. E. L. Ferran of Eustis are the guests of their daughter Mrs. D. L. Thrasher.

Mr. and Mrs. C. W. White returned to Ocala Friday accompanied by Newton Lovell and Curtis Barber.

Mr. and Mrs. S. O. Shinholer Miss Carolyn White and Le Cleve Irwin will motor to-day to Ocala to spend the week-end with Mr. and Mrs. C. W. White.

Mr. J. D. Starling has returned from a business trip to Jacksonville. Rev. G. B. Waldron of Winter Park was a visitor in Sanford, Friday.

Mr. Becker was the guest of Mr. and Mrs. Elmer Smith several days this week, while en route from Arcadia to his home in Canada. Miss Mildred Vorce will spend two weeks in Sanford the guest of her grandmother, Mrs. C. M. Vorce after which time they will return to Michigan together.

Mrs. K. M. Seig and little granddaughter, Khadra Culppepper of Geneva were the week-end guests of Mrs. David Speer.

Miss Kathleen Brady and Sarah Wight were home from Rollins College for the weekly vacation.

Mr. W. O. Newman spent Sunday in Palatka with his friend Dick Branch.

Mrs. J. E. Pace, Mrs. C. M. Vorce, and Miss Mildred Vorce are visiting in Orlando today.

Mr. and Mrs. J. C. Smith and Mr. and Mrs. D. P. Drummond spent the week end at Daytona Beach reporting the water fine for bathing.

Charming Card Party

One of the prettiest and largest card parties of the early spring was given Friday afternoon by Mrs. W. J. Thigpen and Miss Katherine Wilkie in honor of Mrs. R. S. Keelor of New Jersey. Miss Jeanette Chapman of Galesburg, Illinois and Miss Mildred Vorce of Detroit Mich. The attractive home was very lovely with ferns and foliage plants, artistically arranged and quantities of pink roses. High score was made by Mrs. B. W. Herndon and Mrs. Sam Younts secured the cutting prize. To Mrs. Keelor was presented a dainty piece of lingerie and the girls, corsage-bouquets and pins. The predominant color was repeated in the refreshments.

Assisting the hostesses were Mrs. W. E. Watson, Mrs. E. F. Housholder, Misses Adelaide Higgins, Thelma Harber and Emma Lee Owen.

T. N. T. Sewing Club

Mrs. R. M. Grovenstein was hostess to the jolly little T. N. T. Sewing Club, Thursday afternoon at which time busy fingers kept pace with merry tongues and happy laughter that characterizes the T. N. T. meetings. Punch was served throughout the afternoon and a delicious strawberry course was served at the refreshment hour. Next week the club will meet with Mrs. Robert Herndon.

In Honor Of Miss Margaret Neal
"Margaret" means a pearl in the language of names and Marguerite is the French name for the golden

hearted daisy so little Miss Margaret Neal has a double reason for her delicate charm. Yesterday this Fair Margaret was twelve years old and Mrs. T. A. Neal gave her fair little daughter a very unique entertainment at the residence of Mrs. Margaret Barnes in Sanford which was in the nature of a cabaret supper.

Mrs. Willis trained the young participants in the varied and most attractive program given at this cabaret, which program embraced singing and dancing and among the latter, there was an exquisite Egyptian dance given that was very lovely, as was also the Hula and the Fairy Ballet, and after supper the happy young people danced to the Victrola. After the program, Mrs. Neal and Mrs. Barnes served the supper cabaret style, the first course for this was delicious salad deviled eggs, hot buttered rolls, olives, with strawberry ices, perfectly lovely cakes, and all sorts of bonbons.

The children from Orlando went over with Mrs. Neal in autos and were met at the residence of Mrs. Barnes by a gala crowd of Sanford friends of the sweet birthday girl.

The happy young people who enjoyed her birthday with "Sweet Margaret" were Margaret Berlin of Tampa, Mildred Slemmons, Gertrude Jones Rebekah Leland, Henry Leland Sarah McCormack, Jenette Hoby, Stanley Epping of Orlando, Maud Lake, Mildred Holly, Rebekah Stevens, Elizabeth Whitner, Mary Elizabeth Puleston, Camilla Puleston Olive Newman, LeClair Jones, Martha Fitts, Ruth Henry, Frank Chase, Albert Connelly, and Billy Fitts of Sanford.—Orlando Reporter Star.

Little Folks Enjoy Easter Egg Hunt

Jack Aycocke was the happy little host to twenty kiddies on Thursday afternoon, the occasion being an Easter Egg hunt and all the attendant fun and frolic that such delightful parties bring with them. It was lots of fun hunting the pretty colored eggs and the ice-cream and cake was awfully good.

Mrs. Vorce Entertains at Bridge

In honor of Mrs. R. S. Keelor and Miss Mildred Vorce, Mrs. C. M. Vorce gave a lovely card party, Saturday afternoon.

Informal Evening at Bridge

Mrs. Forest Lake was hostess Saturday at a delightfully informal evening at bridge in honor of Miss Mildred Vorce.

The hostess with Mrs. C. M. Vorce coached the game. The prizes were won by Miss Emma Owens and Mr. Benjamin Whitner. Other guests were Miss Katherine Wilkie and Miss Jeanette Chapman and Messrs. Randall Chase, Carl Schultz and Dr. Caswell.

For Miss McAllister

Miss McAllister was the guest of honor at a beautiful shower, Thursday afternoon given by Mrs. Schelle Maines at her home on Magnolia avenue, which was charmingly decorated with spring flowers, in which the predominating note was yellow. This color was also seen in the pretty umbrella which held the gifts and later in the ices and cakes. Pansies and nasturtiums were used in profusion. A cleverly constructed device concealed in the dining room let down a shower of gifts at the feet of the bride as she entered the "shower" including lovely linens, lingerie, cut glass and silver.

A matrimonial contest giving advice to the bride and a Shakespearean Romance furnished fun and amusement the greater part of the afternoon and Mrs. Porter Pitts gave much pleasure by the rendition of sweet vocal solos. Miss May Fields served punch and Mrs. W. M. Haynes and Miss Nettie Maines assisted the hostess serving refreshments. About twenty-five guests were invited to meet the honoree.

Jacksonville's Legion Post Would Bar De Valera

Jacksonville April 11.—The executive committee of the Edward C. DeSaussure Post, No. 9, American Legion at a special meeting held at the chamber of commerce yesterday afternoon for the purpose of completing plans for a social meeting of the post following considerable deliberation, adopted a resolution protesting the appearance at the Duval Theatre on April 14, of Eamonn DeValera, self-styled president of the Irish Republic in this city to deliver an address on the Irish question.

Commander H. L. Covington, Jr., stated after the meeting that the ac-

tion of the executive committee represented the well-matured thought of the members of the body, but as the executive committee is not empowered to act finally for the post in this matter, it will be presented for adoption at the next regular meeting. Birmingham post has protested De Valera's appearance in that city, while similar action has already been taken in a number of California posts, and others in the country.

Large Tomato Acreage At Palmetto

Palmetto, Fla. April 10.—This is always a large point in both fruit and vegetables. The orange crop is nearly all shipped and most of the celery crop is gone. There were good rains the past week, therefore the big tomato acreage here, as well as other Spring crops are growing fast and prospects never were better than at this writing. Tomatoes will start to move by May 1st to May 5th, also peppers, eggplants, beans, cukes, squash, Irish potatoes and other vegetables. Operators here report the cabbage market dull at present. Most of the crop has already been shipped out. Several cars of grapefruit yet remain to be marketed.

WINTER BALL IN FLORIDA

Clark Griffith Thinks The Venture Would Prove To Be Profitable.

The St. Louis Sporting News of yesterday carried the following Washington dispatch:

Clark Griffith, president-manager of the Washington Baseball Club, while in the city with his team Saturday and Sunday stated that an offer had been received to build a ball park for the club at Daytona, Fla., provided a long-time contract would be entered into for the team to train there. It is part of a plan, it is stated, to enter into long-time contracts with several clubs to train in Florida, with annual spring games so arranged that Florida would have practically a short inter-league season every year. Capitalists behind the plan are said to believe it will be a profitable venture, and would draw many new visitors to Florida resorts.
