Miami woman late for work, so she steals an ambulance, patient and all

MIAMI - A woman who said she needed a fast ride to work Monday because she was late stole an ambulance, its emergency lights still flashing, as three rescue workers and their patient looked on, police said.

The woman was identified as Aurelia Small, 32. Although she said she was late for work, the arrest report did not list an occupation and said she did not have a valid driver's license, leaving her story with much to be desired, said police spokesman David Rivero.

Ousted city commissioner taking Longwood to court

she said was the distress and embarrassment of being kicked out of office.

The suit, filed in U.S. District Court in Orlando, accuses Mayor Hank Hardy, two commissioners and the city attorney of violating the rights when they ousted her from the commission on Feb. 27.

At the beginning of the city commission meeting last night, a representative of the federal court served the complaint to the city government, Hardy, commissioners Ted Poelking and Rick Bullington and City Attorney Richard S. Taylor Jr.

One of Odom's attorneys, Michael A. Kramer said that the parties will have a period of time, "typically a 20-day period", to respond.

The suit states that Odom experienced "great embarrassment" and "severe emotional distress"

Odom was accused of violating the city charter by interfering in the day-to-day activities at city hall. Acting City Administrator Don Terry said that Odom conducted unauthorized interviews of employees over a matter that was in the process of being handled through a grievance.

At a February meeting, Poelking made a motion to remove Odom from her District 3 seat. Hardy and Bullington supported the motion, while Deputy Mayor Gene Farach voted against it.

Odom, unconfident in Taylor's advice, called on Kramer, a former Longwood attorney, who was sitting in the audience for help. Hardy did not allow Kramer to defend Odom saying that Taylor was the appropriate person from whom to seek legal advice. Kramer, contacted at his home last night, said

Legislators want more for schools, less for prisons

TALLAHASSEE - A \$152 million prison construction budget proposal by Gov. Bob Martinez should be trimmed to bolster social services and education, according to Democratic leaders in the House.

But one of Seminole County's legislators., Sen. W.W. "Bud" Garder, D-Tituaville, today disagreed. Rep. Art Grindle, D-Altamonte Springs, was unavailable.

Despite what the House leaders said on Monday, the leaders of various committees on human services acknowledged it will be difficult to adequately pay for education and social services without new taxes, which Martinez firmly opposes.

"Candidly, the criminals are going to win." said Rep. Mike Friedman, D-Miami Beach, chairman of the Education Committee. "The criminals are going to have the things our children need.

Martinez has proposed construction of new prisons to house 8,843 and reduce but not eliminate an early release program that has freed tens of thousands of inmates since he took office in 1987.

The early release program is expected to continue even if Martinez' prison budget is fully funded. The governor's plan to boost community control and other alternative sentencing programs could be further expanded to accommodate any construction cuts, the lawmakers said.

City denies task force request

By LAURA L. BULLIVAN Herald staff writer

SANFORD - A task force established by the city to study recreation programs won't get \$3.000 it requested for a questionnaire to be mailed to local residents.

At a workshop yesterday, the city commission agreed to ask members of the recreation task force to publish the questionnaire in the two daily newspapers distributed in Sanford. The commissioners also considered mailing the questionnaire with information about reclaimed water subscriptions to be mailed to all city households later this month.

Commissioner Lon Howell recommended granting the \$3,000 task force request. "We asked for their input," he said. "I think \$3,000 is a small price to pay.

Commissioner Whitey Eckstein said the task force was created by the commission earlier this year to draw input from members. Response from a questionnaire would not justify the expense, he said.

The commission agreed to grant money to the task force to rent a van for touring area recreation facilities.

Bill Simmons, director of engineering and planning, presented to the commission a resolution to the debate over boat-trailer parking in the marina at Lake Monroe. The commission agreed to accept the plan to allow 23 forty-foot boat trailer spaces, and asked that parking citations on the marina be upped from \$5 to \$25 to discourage trailer parking on the grass or car-only spaces.

Simmons recommended enforcing trailer parking prohibitions daily, instead of on weekends and holidays as the commission had

discussed earlier. Police Chief Steve Harriett told the commission that signs were needed to warn boaters that illegally parked vehicles would be towed away.

On another matter, five local developers met with the commission yesterday to consider changes in the minimum living area requirements for single family homes. The commission last week adopted an extension of an emergency ordinance establishing requirements at 700 square feet for SR-1, 1,200 for SR-1A and 1,500 for SR-IAA. The emergency ordinance was passed in January to establish requirements omitted from the land development regulations adopted by the commission in December. All developers agreed 700 square feet was an

appropriate requirement for SR-1. a zoning district for single family homes on 6,000-square foot lots. But the requirement for SR-1A - a zoning district for single family homes on 7,500-square foot lots requiring a garage or carport - was debated by developers David Stump and A.K. Shoemaker.

Stump contended that 55 percent of single family homes on current Sanford tax rolls are below 1,200 square feet. Building a 1,000 square foot home next door to homes of equal square footage would not devaluate existing homes, he

Shoemaker argued that building a smaller home in a neighborhood where existing homes meet land development requirements is unfair to homeowners who comply.

Commissioner A.A. McClanahan suggested keeping the SR-IA requirement at 1,200 square feet, but allowing a variance for fill-in lots in neighborhoods where homes are smaller than the minimum square footage.

The commission asked city engineering and planning staff to develop recommendations on

the living area requirements issue.

Auto insurance report issued

TALLAHASSEE - A task force reported Monday that one-third of the state's drivers are ignoring Florida's mandatory automobile insurance laws, with the non-compliance rate for Dade County near two-thirds.

Legislature to study whether drivers were operating without insurance because it cost too much or simply was not available, said neither issue appears to be a problem.

However, the seven-member panel added it had too little time to review the effect of boosted insurance requirements approved last year, and unsed creation of a larger task force to conduct a more detailed analysis.

The report said the immediate outlook for premium reductions "is not encouraging."

But average premium increases have slowed since 1986. In that year, rates for the top 20 companies rose by more than 13 percent, slowing to 5.3 percent in 1987 and 1.4 percent last

The study shows about 31 percent of the state's motorists lack mandatory no-fault coverage and 35 percent lack mandatory liability coverage — high rates of noncompliance by ustional standards.

Compliance rates varied broadly in different areas. Small north Florida counties showed about 1 percent of drivers disobeyed the laws, while in Dade County 63 percent ignored the laws.

Beginning in October, the current requirement for personal injury protection will be expanded to include \$10,000 in property damage liability. Those who do not comply will have their tags taken on by law enforcement agencies, which would get a \$50 rebate once the guilty driver pays a reinstatement

Pilot bails out, plane crashes in gulf

MIAMI - A pilot in a suspected drug plane parachuted from the aircraft after he was spotted by authorities and a military jet was sent to destroy his unmanned vessel late Monday afternoop, authorities said.

The suspect, who refused to give his name or any other information, was captured near Sarasota. The plane crashed into the Gulf of Mexico and several bales of what was thought to be marijuana were seen floating near the wreckage, said U.S. Customs spokesman Michael Sheehan in Miami.

He said a Coast Guard cutter was dispatched to pick up the bales from the scene, about 190 miles west of Naples.

"The plane was flying in a south southwesterly direction back toward the Yucatan Peninsula and was back over the gulf," he said. "An F-18 out of Tyndail Air Force Base was launched. However, at 6:45. before the F-16 arrived, the suspect plane crashed into the guif."

A Coast Guard radar detection plane spotted the suspect twin engine Beechcraft Travelair about 3:30 p.m. The plane was flying northeast toward the Sarasota area and was about 140 miles southwest of Cudjoe Key in the Bahamas.

It was flying about 200 feet off the water, apparently to avoid detection by radar, officials said.

A Customs Blackhawk helicopter spotted the plane at southeast of Tampa over land. The Blackhawk followed the parachute and located the pilot. who refused to talk and was turned over to Customs authorities at Sarasota-Bradenton Municipal Airport, Sheehan said.

Meanwhile, a Customs twinengine tracking plane from Tampa flew alongside the sus-pect aircraft, looked into the front and side windows and saw no other people, but did see large packages suspected to be drugs. he said.

"The plane started out moving from the Yucatan Peninsula northeast toward the Sarasota area, made a U-turn, the pilot jumped out and it headed back out over the gulf." he said.

Woman reports rape by unseen man

WINTER PARK — A 25-year-old rural Winter Park woman told Seminole County sheriff's deputies she was raped by a man who was waiting for her when she came inside her apartment after sunbathing at about 1:45 p.m. Monday.

The woman said she never saw the assailant who apparently had shut off electrical power to her house before grabbing her

SANFORD - The massive 497-acre office, commercial and residential park planned by Duda Land, Inc., may contribute to congestion on a four-laned Red Bug Lake Road during the early 1990s.

Because Seminole County commissioners voted last year to restrict sections of Red Bug Lake Road between Autumn Glen Road and Tuskawilla Road to four lanes, traffic could be reaching a bumper-to-bumper standstill by 1993, according to traffic estimates calculated by consultants for Duda Land, Inc.

Last month, commissioners voted for a 120-foot roadway between Tuskawilla Road and the realigned Red Bug Lake Road intersection, which would allow for a narrow six-lane road.

"We've got our fingers crossed they'll design a four-lane road expandable to six lanes (between Autumn Glen Lane and Tuskawilla Road)," said George Viele, DLI Properties project manager. "Other than that, it's hard to say what will happen."

Commissioner Pat Warren, who has led the drive to keep Red Bug Lake Road to four lanes, said it should be widened to six lanes only as a last option. "Only if the expressway is widened to six lanes and the surrounding network of roads are widened to four lanes should we consider widening Red Bug to six lanes if its needed," Warren said.

A review of DLI's office and commercial park, named DLI

Properties, by the Seminole aside for preservation because it County Planning and Zoning members will be Wednesday at 7 p.m. County commissioners will review the project April 25 at 7 p.m. Because of its size, the state has found DLI Properties will have an impact regionally and is requiring state and regional

planning council review. The development is mostly northwest of State Road 426 and Red Bug Lake Road. The proposed Seminole County Expressway will pass through the eastern portions of DLI Properties. A separate 40-acre section of the development lies north of the intersection of the During the morning and af-existing Red Bug Lake Road and ternoon rush hours, the the proposed realigned Red Bug Lake Road.

The \$158 million DLI project includes 68 acres of offices, 91 acres of office-showrooms, 30

contains the nest of a pair of American bald eagles.

According to traffic figures provided in DLI's development application, traffic will exceed the levels designed for a fourlane road even if DLI properties is never built.

By 1993, when the second phase of DLI Properties is begun. the consultant's estimates show traffic on all sections of Red Bug Lake Road between SR 436 and the intersection of the realigned Red Bug Lake Road will be higher than what four lanes can handle smoothly.

estimates show traffic will become dense on many of the Red Bug Lake Road segments west of Tuakawilla Road.

Viele said traffic in the western acres of commercial sites, up to sections of Red Bug Lake Road 512 apartments and a 500-room hotel. A 41-acre site is being set more than four, but less than six

offering to contribute \$5.8 million to widen area roads and add turn lanes and traffic lights to help reduce the impact of their development, which will employ nearly 8,000 people by the mid 1990s.

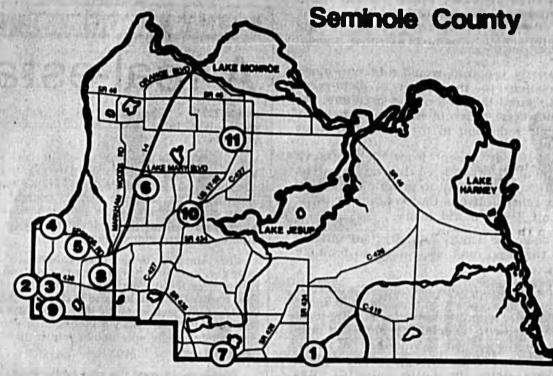

One DLI proposal that might have offered some relief to Red Bug Lake Road was a suggestion to build an access road at the northeast corner of the development to Winter Springs Boulevard at Seneca Boulevard. But homeowners in nearby Tuskawilla opposed the road saying it would add to conges-tion on Winter Springs Boulevard.

Seminole County planners, who are recommending approval of the development, are seeking a requirement that no DLI Properties structures be occupied until the expressway is com-pleted between SR 426 and State Road 434.

A solution to debt

Anyone who doubts that Latin American democracies are jeopardized by their oppressive debt burden need only consider the sudden explosion of unrest in Venezuela.

Although it is one of the oldest and most durable Genecracies in the region, Venezuela was form recently by riots that claimed 300 lives overdue austerity measures imposed by Caracas in response to its international creditors. All told, Venezuela owes foreign banks and multinational lending institutions

A similar upheaval could occur at any moment elsewhere in Latin America. During this decade, most countries in the region have experienced steadily falling standards of living as their external debts have soured. consuming an ever-larger share of capital reeded for domestic investment and economic growth. Among the democracies most value and the debt provoked political instability are Mexico (\$107 billion in foreign obligation), Brazil (\$120 billion) and Argentina (\$60 billion).

Against this backdrop. Treasury Secretary Nicholas F. Brady has been searching for a formula to provide the substantial debt relief that is argently needed to spar economic expansion and social progress. The broad ideas put forth recently by the Treasury secretary are steps in the right directon but fall short of a specific plan that can be tailored to meet the varying conditions of different

The core of the Brady proposal is an effort encourage commercial lenders to write to encourage commercial fenders to write down voluntarily the face value of their loans to severely strapped developing countries. This would result in lower principals and

To provide an incentive for banks to accept such losses. Mr. Brady is proposing that the laternational Monetary Fund and the World Hank guarantee the reduced face value of the loans, thereby eliminating some of the uncertainty now attached to these investments.

The Brady proposal would add one more sensible item to the menu of debt-relief options shared by debtors and creditors. By itself, however, it is not likely to provide a large-scale reduction in the Latin American debt load.

Conspicuously absent from the Treasury Department's plan, at least thus far, are steps by the U.S. government to provide regulatory and tax relief to banks that voluntarily incur losses on Third World loans.

Nor does the Brady initiative adequately satisfy the need for fresh capital to promote growth.

As the Bush administration's approach to the debt crisis evolves, it must bear in mind that the only genuine solution is long-term economic growth. This can be achieved only restructuring the economies of most obtor nations. Chile, with one of the highest per-capita debta in Latin America, has demonstrated the enormous benefits of converting a state-controlled economy to one based on free-market principals. Without such fundamental changes by the govern-ments of the region, all the debt relief in the world will do scant good.

Lorenzo's strong arm sank Eastern

WASHINGTON — The principal issue is-the month-long strike against Eastern Airlines is the company's insistence that its mechanics and

ramp workers accept \$150 million worth of pay cuts and other concessions yearly.

But those employees already are among the lowest paid in the industry. The mechanics, who bear the awesome responsibility of keeping Eastern's planes airworthy, receive a maximum hourly wage of slightly less than \$19, about the name as carned by mechanics employed at American Airlines. American Airlines.

Mechanics who work for four other major airlines — Delta, Northwest, United and USAir receive a top hourly wage of just over \$20. At those carriers and at American, company executives are not pushing their employees to the brink of a strike by demanding drastic pay

The only major air carrier whose mechanics are paid substantially less is Continental Airlines, which shares with Eastern the dubious distinction of having the Texas Air Corp. as its parent company.

Continental's mechanics are paid a maximum

of \$16 hourly, a wage that dates back to 1963, when Texas Air Chairman Frank Lorenzo abused the federal bankruptcy statutes. He declared the airline bankrupt, then invoked an obscure section of the law to repudiate all of the company's labor contracts and break its unions.

- at drastically lower wages. Con-gress has subsequently amended the bankruptcy code to preclude a repetition of Lorenzo's unconscionable action.

The current strike against Eastern. called by the In-ternational Associa-tion of Machinists: almost certainly would not have been successful without the support of the Air Line Pilots Association, a union whose upscale members (many earn in excess of \$100,000 annually) tend to identify

more with corporate managers than with grimy aircraft mechanics and airport ramp workers.

Many employees lost their jobs overnight. Others were offered the opportunity to be rehired

Many employees last their jobs overnight m

But the pilots have been resolute in their backing of the IAM strike. The probable reason: Lorenzo also antagonized the ALPA members, by demanding that they too accept concessions in addition to the pay cuts he earlier imposed on

The maximum monthly pay for senior captains is \$6,200 at Continental and \$7,600 at Eastern. The comparable figures for veteran pilots at American, Delta, Northwest, United and USAir range from more than \$10,300 to almost \$12,000.

Lorenzo is transfixed by labor costs. He has repeatedly insisted that driving down the wages and salaries of those who work for him is crucial to building a successful airline empire that can offer the public reasonable fares while enjoying financial success itself.

He has had ample opportunity to test that theory at Continental, where the compensation he unilaterally imposed on the air carrier's employees averages \$29,000 per year. At the country's other major airlines, that figure ranges from \$37,000 to \$51,000 annually.

Perhaps even Lorenzo now recognizes the consequences of his harsh management style. Only if he sells Eastern to somebody else does the airline have even a chance of surviving as a pale copy of its former self.

A real-estate class gap

BOSTON — They were talking about real estate. It is, to be frank, one of their favorite

Each of them had a story to tell. One had bought a house in 1973 for \$40,000. It had just been valued at \$265,000. Another had a neighbor who sold her house, tripling her money in ten years — the right ten years. A third figured carefully the inflated value of his home into his retirement plans.

They did not brag, these couples in late middle age, of having had any special prescience about a real-estate boom. They had put money down on a house in the '60s or '70s and won the jackpot of the '80s. There were no oll wells in their backyards, but their homes had made a more spectacular return than any

They simply rode the real-estate boom to a certain measure of paper profit. The houses they chose to live in were also investments to live off. They were now middle-income and house-rich. So conversations like these make them feel good or at least lucky.

But then the subject turned to their children. grown children. Could their children afford to buy the houses they had grown up in? A second set of stories poured out, more troubled than the first.

They had working children wholly unable to save a downpayment that might equal the parents' entire first mortgage. They had married children who needed two jobs to afford what they had supported with one. Most of their offspring were double income and

To this eavendropper, there was no news bulletin in this exchange. These days the economic gap between generations is built on the private turf of real estate. A space has grown between those who have houses and those who do not.

More people over 65 and fewer people under 35 own their own homes these days. In 1977, 11.5 percent of new home-buyers were in their early twenties. In 1987, only 4.2 percent of these buyers were that young. More than half of new mortgages depend on second incomes.

The gap grew through the vagaries of supply and demand. Over the past 15 years, incomes fell behind inflation and houses sped ahead. Tax breaks have gone to those with mortgages, and so-ciled tax revolts made generational differences even more striking. In California, fames Proposition 19 froze property taxes at 1978 rates — but only for those who

already owned homes. A new neighbor now may pay vastly more than the older couple in an identical house next door.

There are other very real effects of real estate on these two generations. Generations find common ground in the family. There, the house-rich middle class increasingly is called upon to help its house-poor children.

I am told that standard equipment for any mortgage lender's office includes at least four chairs: Two for the couple, two for their parents who help bankroll the sale. As many as half first-time young buyers are getting help from their parents.

If I am to judge by my listening sample. these elders feel both duty-bound and willing to share their good fortune. But another of their favorite conversations echoes concern about the long-term dependence of "kids these days." The "kids" of 25

and 30 have in turn become awkwardly conscious of the way that real estate has solidified the twoclass structure. The have and have nots of their own age are often those who cither have or have not parents with home equity. Those who will have or will not have their legacies.

I don't want to turn a real-estate boom into a sociological bust. The windfall is a large component of an older generation's improved economic status. Their independence is a boon to their children as well.

They had working

children

wholly unable

downpayment that might equal the

parents' entire

mortguage

But it is also a major reason why the scales are tipping, why grandparents often live better than grandchildren. It's why there is a need to build more affordable housing, tax more of the capital gains that came to those who rode the real-estate boom and allot the money to help families buy into the market.

Rising real estate makes for great conversation. I can attest to that from my listening post. But a younger generation is being left out of the lucky dialogue. It looks as if the family homestead rests on very shaky ground.

Inspection becomes a casualty of trade

WASHINGTON - The Free Trade Agreement between the United States and Canada has prompted both nations to be freer with the trade of meat than may be palatable to U.S. consumers.

Before the Free Trade Agreement, every truckload of Canadian meat entering the United States was supposed to be inspected to make sure it was up to U.S. Agriculture Department stan-

dards and could carry the USDA scal of approval.
Under the new

system, a computer in Washington, D.C., randomly chooses trucks of meat, still in Canada, that will be inspected at the border. A Canadian inspector then picks a sample from that load and sets it aside on the truck bound for the United States. U.S. inspectors at the border will look at that sample and nothing elec.

That means a load of meat - contaminated with feces,

abecesses, hair, grease and blood clots could cross the border undetected because it was not on the truck with the mmple picked by the computer for inspection. Inspectors and others in the meat import business told our reporter Jill Schmidt that about one in 12 trucks has been inspected since Jan. 1. If the sample on the 12th truck is found to be contaminated, the meat is not allowed into

the country. But what of the other 11?
Reports of the USDA Food Safety and Inspection Service show that in the first two months of the new program, only 16 loads of Canadian meat were rejected at the border. In the last two months of 1988, under the old program, 31 loads of Canadian meat were rejected. Meat can be rejected for minor, major or critical amounts of things the USDA considers unacceptable for the American palate — bone, feces, abscesses or other flith.

Inspectors say that even some of the trucks carrying an inspection sample have crossed the border without inspection because the border guards didn't know those trucks had been earmarked for inspection. Some of those trucks were called back. But inspectors fear that some trucks slated for inspection get by without being discovered.

It is obvious that the United States has lost control over Canadian meat imports. The U.S. Customs Service directs the import traffic at the borders, but Customs agents do not routinely open the trucks. Instead, they look at the paperwork. If the papers say the truck is supposed to be inspected. It is sent to an inspection station. If not, the truck is waived through.

Many U.S. inspectors are not happy with the new system, even though the meat comes from an industrialized nation with high meat inspection standards of its own. After Australia, Canada is the second largest exporter of meat to the United States. Canada led the way in meat rejected by U.S. inspectors last year.

Perhaps the most disconcerting loophole in the new system is the fact that the randomly selected samples are handled by Canadian meat inspectors. When the computer in Washington selects a load of meat, the inspector in Canada pulls out a sample from that load. The new system trusts that the

inspector won't clean up that sample. On the grocery shelf, the Canadian meat does not carry the USDA stamp of approval. Instead, it is labeled with a Canadian inspection seal.

Mosteller sentenced to 16 years

Herald staff writer

SANFORD - One of the men involved in a failed Longwood robbery which resulted in the deaths of the other robber and the intended victim was sentenced to 16 years in prison Monday.

Arthur D. Mosteller pleaded no contest to murder charges, and Monday denied he was involved in the deaths. He said he entered the no contest plea because he had been told by his attorney that charges against his wife Continued from Page 1A the pica.

Charges against Gina Mosteller, 34, were dropped last week, but prosecutors said Mosteller's plea had nothing to do with that.

Mosteller, 27, was one of two men who approached the home of retired Gen. Wilbur McNenny March 2, 1988. Mosteller's companion, Clive Mitto, carried a gun and posed as a pizza delivery man. After a confrontation at the door, Mitto fired through the door at McNenny and the 76-year-old man returned fire, hitting Mitto three

At NCNB National Bank, we realize that borrowing money can mean as much an emotional investment as a financial one.

So when we loan you money for braces, we see it as helping to create a priceless smile. We understand that the long-term reward of a coilege education can't be measured in dollars and cents. And that the investment you make in a marriage will continue long after the wedding bills have been paid.

You see, it's all in the way you choose to look at things. NONB National Bank of Florida @ Equal Housing Lender Member FDIC. @ 1989 NONB Corporation.

And at NCNB, we'll really make an extra effort to see things your way. We'll work to come up with a monthly payment schedule that suits your terms, not ours. And to give you an interest rate that is competitively low.

So whatever your borrowing needs, stop by any NCNB office. Or, call 1-800-283-NCNB to arrange an appointment with the loan officer nearest you. Wed like to loan you money for things you can't put a price on.

The two men did not tackle the delicate question of Moscow's massive aid to Cuba but planned to discuss the issue during subse-quent talks. Gerasimov said. He said Gorbachev would suggest that Cuba might balance the Soviets' massive level of ald and subsidies to Havana by increasing its exports to Moscow.

Gerasimov said the two leaders discussed Latin American issues in depth and that Gorbachev had shown "a real interest in the development" of the region. Among the topics were Latin America's staggering foreign debt, which Gerasimov called ''robbery,' and escalating production and consumption of illegal druge in Latin

America. Gerasimov said the two men reviewed regional conflicts in Central America in general terms" but lanned to discuss the Bush administration's policy in the region in greater detail.

"We could work together to resolve the problems and conflicts in different regions, in-cluding in Central America," Gerasimov said, noting that Cuba helped resolve the conflict in southern Africa by agreeing to withdraw its troops from Angola.

When reporters asked Gerasimov about a letter Bush sent to Gorbachev urging him to reduce aid to Nicaragua, Gerasimov said such a letter was received, but declined to Indicate Gorbachev's possible response. "Gorbachev is a true friend of Castro," he said.

Gorbachev also briefed Castro on the recent election in his country, where a new national legislature was chosen in unprecedented multi-candidate voting, Gerasimov said.

IN BRIEF

MERICAN LEAGUE

Orioles open with a win

A rookie made sure a long and embarrassing streak would not repeat itself this year. Rookie Craig Worthington singled home Mickey Tettleton from third base with one out in the 11th inning giving the Baltimore Orioles a 5-4 Opening Day victory over the Boston Red Sox. The hit prevented the Orioles from starting the season like lat

year - with 21 atraight losses.
The Orioles set-a major-league record for consecutive losses to start the season and an American League record for consecutive losses in 1988

before finally win-ning on April 29. Baltimore finished with the worst record in the major leagues at 54-107, 34 14 games behind the AL East champion Red

Elsewhere in the American League on Opening Day, Toronto edged Kansas City 4-3, Cleveland nipped Milwaukee 2-1 and Oakland alipped by Seattle 3-2.

COLLEGE HOOPS

Houston gets Tennessee Job

KNOXVILLE, Tenn. - Louisville assistant Wade Houston was named basketball coach Monday at the University of Tennessee. only hours after Florida State's Pat Kennedy turned down the job.

Houston, an assistant under Louisville Coach Denny Crum for 13 seasons, becomes the first black basketball coach in the Southeastern Conference. He succeeds Don DeVoe, who was forced to resign last month.

Houston, a native of Alcoa, Tenn., signed a five-year contract worth \$170,000 annually, including a base salary of \$85,000 and an equal amount for television and radio shows.

Kennedy decided late Monday morning to stay at Florida State.

"I am very flattered by the interest shown by the University of Tennessee," Kennedy said.
"They have great programs and an outstanding athletic director. We believe strongly that we have developed a first class, top-20 basketball program at Florida State."

Jets sign O'Brien

HEMPSTEAD, N.Y. - Quarterback Ken O'Brien, who attributed a late season alump last year to a sore shoulder, Monday signed a multi-yaer contract with the New York Jets.

O'Brien and Jets Coach Joe Walton said they were happy to get the signing out of the way before training camp. O'Brien's contract, which paid him \$825,00 last year, expired after the

"It's always good to get it done early so he won't miss any time," Walton said.

O'Brien said he did not seriously negotiate with any other dubs.

There were a lot of possibilities but I wanted to stay in New York," O'Brien said from his Sacramento, Calif., home. "There is no other city where I would rather play. I'm happy to get it over with now."

NATIONAL LEAGUE

O'Nelli leads Reds to victory

Cincinnati fans welcomed Manager Pete Rose back Monday from a troubled spring, and Paul O'Neill rewarded them with a three-run homer that proved prophetic.

O'Neill went 4-for-4, adding a double and two singles to his three-run blast, powering the Reds to a 6-4 Opening Day

victory over the world champion Los Angeles Dodgers. Rose, the subject of a gambling in-

vestigation that could lead to his ban from the game, re-

ceived a 30-second standing ovation from most of a sold-out Riverfront Stadium crowd of 55,385, the second-largest regular-season turnout in Cincinnati history.

Elsewhere in the National League on Opening Day, the New York Mets clubbed St. Louis 8-4 and San Francisco topped San Diego 5-3.

Michigan in overtime

United Press International

SEATTLE - Michigan, abandoned by its coach on the eve of the NCAA Tournament, won the title Monday night when Rumeal Robinson hit two free throws with three seconds left in overtime, lifting the Wolverines to an 80-79 victory over Seton Hall.

Michigan, under interim coach Steve Fisher, received 21 points and 11 assists from Robinson and 31 points from Glen Rice to win the first overtime game in an NCAA championship since

The Wolverines fought off a gallant Seton Hall attack, as John Morton scored 35 points and rallied the Pirates from a 12-point deficit in the second half.

After Robinson's free throws, the Pirates threw a long inbounds pass to Darryl Walker, who missed from 3-point range.

The Wolverines surged on the court, having won their first basketball championship and making Fisher the only rookie coach to lead his team to the title.

Fisher, an assistant coach, took over the team two days before the tournament, following the departure of Bill Frieder to Arizona State. He was given the title of interim coach, and Michigan Athletic Director Bo Schembechler said he will decide on Fisher's status after the tournament.

But with this latest victory in the Kingdome,

Fisher made an altogether compelling case for the permanent coaching job.

In winning their sixth straight tournament game under Fisher, the Wolverines stayed composed when the game seemed to be slipping away and put to rest the notion they lacked fortitude in the postsenson.

Rice, whose 3-point shooting bedeviled the Pirates, also grabbed 11 rebounds and became both the leading scorer in an NCAA Tournament

and the all-time Big Ten scoring leader. The Wolverines, 30-7, not only put the finishing touches on a captivating season, but ended Seton Hall's bid for its first national title in only its second appearance in the NCAA □See Overtime, Page 2B

Lyman advances in Tremendous 12 By MARK BLYTHE

Herald sports writer

BASEBALL CITY - Lyman cashed in on its offensive opportunities and claimed an 8-6 victory over Lafayette High School from Lexington Kentucky in the opening round of Tremendous 12 Tournament being held at Boardwalk and Baseball.

The Greyhounds Improved to 13-4 overall and will return to action Wednesday against the winner of the game between Owassa (Oklahoma) and Erwin-Unicol (Tennessee). The Spartans, Kentucky state champions last year. dropped to 2-1 on the season.
"They're (Lafayette) just getting

started and it's obvious they will be a tough team after they get a few games under their belt," Lyman coach Bob McCullough said. "They have a strong hitting club and our starter Jim Lucas was off just a little, so we had to bring in a reliever and he (Chuck Lamb) was able to get the job done."

The game was deadlocked after two innings with both teams having chances to put runs on the board but not coming up with the timely hit to break on top.

Lyman finally broke the ice in the top of the third inning when it came up with a four run rally. After Lamb opened the inning with a ground out Chris Radcliff reached on a walk and stole second, Kevin Wainscott then drew a base on balls to place runners on first and second. Andy Spolski then flew out to center and Radeliff moved to third.

Kenny Jackson then went the opposite way and singled to left field to bring in the games first run, a passed ball moved the runners to second and third and Jim Lucas ripped a double over the left fielders head to bring in a pair of runs. Jared Sota was then hit by a pitch

before Charlie Curley stroked a run scoring double to left center to give the 'Hounds a 4-0 advantage.

The Spartans bounced right back. though, with two runs in the bottom half of the inning. Jamie Anderson started the frame off with a single followed by an infield single by Scott Corman. Kevin Goins then hit a double of the left field wall to bring in a run followed by an run scoring single by Shawn Wiglesworth that trimmed the lead to 4-2. Lucas managed to work his way out of the jam and keep Lyman on top.

The Greyhounds picked up another run in the top of the fourth as, with two outs, Wainscott singled and moved to second on a wild pitch before scoring on a Spolski single that increased the lead to 5-2.

Lamb then came in to pitch for Lyman and put the Spartans down in order in the bottom of the fourth before they came up with two runs in the fifth. Wiglesworth led off with a walk followed by a Chris Feltham single, after an out, Keith Gadd singled to bring in a run before Eddie Brooks reached on an infleid single to load the bases. A sacrifice fly by Todd Baxter brought in the next run cutting the lead to 5-4.

The Greyhounds put the game out of reach in the top of the sixth when they came up with their final three runs. Lamb led off with a single before Radcliff walked. Wainscott then drilled a run scoring double to the right center field gap followed by a two run single by Spolski that gave Lyman a commanding 8-4 lead.

The party was not over, though, as Lafayette came up with a final attempt in the bottom of the seventh inning. After an out, Brooks reached on a bad hop single before Baxter sent a shot to right field that Curley could not make the grab on. Baxter moved all the way to third Gee Greyhounds, Page 2B

'Original' Magic hope to play in Dutch softball tournament

SAC Showdown

Jim Robinson is a man who gives his heart and soul to giris softball.

Pitcher Diann Lowe and the Lake Howell High School Lady Silver Hawk

softball team, currently second in the Seminole Athletic Conference

standings, have a chance to gain ground on leader Lake Brantley when

the Lady Patriots pay a visit to Lake Howell for a 4:15 p.m. game today.

After 10 years of coaching the sport in the Orlando

recreation leagues and helping coach the Apopka High School Lady Blue Darters, Robinson decided to turn his taients in a new direction and help Ileana Gallagher turn around the softball program at Seminole Community College.

Seminole is off to its best start ever with a 29-12 overall record and a 15-5 Mid-Florida Conference mark heading into today's game with defending national Ccampion Lake City Community College.

But while the Lady Raiders appear headed for the state tournament later this onth in Pensacola and have a legitimate shot at the state litle, Robinson has other thoughts in the back of his mind.

If the money can be raised and travel connections made, his summer season 16 to 19-year-old girls team play in the Dutch International Federation Tournament, starting June 17. The team has the opportunity to play in Belgium, Holland, and Germany during a 10-day visit.

The team, nicknamed the Magic, is made up of players from Seminole, Orange, and Osceola counties and most of the girls have been playing for Robinson since they were 13 or 14 years old.

"We were the original Magic," Said Robinson. "We were using the name long before the NBA came to town. In fact, I was one of the people who suggested that they call themselves the Magic.

"They (the NBA Magic) have been very good to us. Two years ago, when we qualified for the national tournament in Hutchinson, Kansas, Bill duPont (the NBA team's owner) called and paid for the airline tickets. But it is going to take many more people to make donations for us to make this dream a reality."

After getting off to a 24-0 start, the Magic posted an □See Trip, Page 2B

Quote of the Day

"I think we ought to interview Steve Fisher. We certainly ought to do that."

- Michigan Athletic Director Bo Schembechler after the Wolverines, under Fisher's direction, won the NCAA basketball title Monday night with an 80-79 overtime victory over Seton Hall. Fisher was named interim coach just two days before the NCAA Tournament, after Bill Frieder left to become coach at Arizona State.

Ram J.V. led by Jackson

From Staff Reports

Chris Jackson came up with a strong pitching performance, striking out 14, to aid Lake Mary's junior varsity baseball team to a narrow 5-4 victory over Lyman Monday night at Lake Mary.

The Rams improved to 11-2 and will return to action today on the road against Winter Park at 4. Lyman fell to 8-3 for the scason.

After two scoreless innings each team scored a single run in the third inning. Lyman then broke on top 2-1 after four and one half innings before the Rams came up with three runs.

Chris Barfield led the rally off with a walk before stealing second and scoring on a single by Jackson. T.J. Giuffreda then reached on an error by the Greyhound shortstop that plated Jackson. Giuffrida then stole second, moved to third on a balk and scored on an errant pickoff attempt.

Lyman nearly tied the score in the top of the seventh but fell one run shy of possibly sending the game into extra innings.

86-14 record last season, which included the Orlando Metro Regional Championship, the Bally Class C championship, and fourth place in the World Tournament in Wilmington, North Carolina. The fourth place finish was what got the team elected to represent the U.S.-Southeast in the Dutch Tournament.

The Magic opens its regular season May 21 and has already qualified for the World Tournament in Beaumont, Tex- Fralix, and Jackie Story: Lake as. They have also been invited Brantley High School pitcher

to play in the Coca Cola Invitational in Tifton, Georgia. The trip to Europe would make the season and Robinson's career complete.

"After this season I will concentrate on coaching SCC," said Robinson. "I want to take off for about three to four years until my daughter Brooke is ready to

Overtime

Continued from 1B Tournament.

The Pirates, a basketball program in ruins a few years ago, made a magnificent run through the tournament and finished the season 31-7.

Morton was backed by Gerlad Greene with 13 points and Walker 13 points and 11 re-bounds. Andrew Gaze, the Pirates' outside threat, did not score a field goal until overtime.

The Wolverines had some breathing room with 3:35 to go in regulation, leading 66-61. Then Morton single-handedly carried he Pirates - jamming on the break, hitting from the side and scoring off a floor-length drive. Walker's free throw put Seton Hall up with 1:12 left. But Rice was to have his turn,

bagging a 3-pointer. Sean Higgins' pair of free throws placed Michigan ahead 71-68. But soon it was Morton again, sinking a 3-pointer to even the score 71-71. Rice failed on a 3-pointer, forcing overtime.

With the score 76-76, Morton buried a 3-pointer with 2:41 to go. But those were the last points for Seton Hall.

Terry Mills backed in for a turnaround jumper to draw Michigan within a point with 57 seconds left.

With the Wolverines working for their last shot, Greene fouled Robinson in the lane and Michigan was on its way The Wolverines led 37-32 after

a first half that matched the evenness and defensive strengths of both teams. Michigan depended largely on

Robinson and Rice, who combined for all but 10 of the Wolverines' points.

Robinson, a 6-foot-2 guard, repeatedly bulled his way down low and dictated the tempo for the Wolverines. Rice struck often from outside, shadowed by Seton Hall's most experienced player, Gaze, a two-time Olymplan from Australia.

The Pirates made the only big run of the half, reeling off 12 straight points to move ahead 26-20. Morton, who was limited offensively in Seton Hall's semifinal victory over Duke, deliver-

The Wolverines, putting their multiple skills to good work, spun off 7 straight points a few minutes later. Rice struck from 3-point range, Higgins filled the lane on a break and Robinson sank a pair from the line.

Michigan outshot Seton Hall early in the game. The Wolverines also owned the boards in a half that brought them 20 minutes closer to a storybook finish for Fisher.

Roommate's sloppy ways getting to her

DEAR ABBY: What can you do when you have a sloppy. inconsiderate roommate? I've been living with the same girl for a year and a half now and have kept hoping things would improve, but they haven't.

I'm not saying I am the world's best housekeepter, but for some reason, my roommate thinks I am the maid. is Sanford that friendly? Tell us by Friday

Sanford boasts the nickname "The Friendly City." But does it live up to its name?

The Sanford Herald would like to hear the answer from a reader's perspective.

What makes Sanford such a friendly place? How does Sanford differ in personality from surrounding communities? What is a visitor to Sanford likely to experience in the way of friendliness from residents?

Write down your ideas and experiences, and send them to "Friendly City," Sanford Herald, 300 N. French Ave., Sanford, FL 32771. Include your name, age, city and daytime phone number.

Responses should be typed or written legibly. There is no minimum or maximum on length.

Entries must be received at the Herald by 1 p.m. on Friday, April 7. Selected responses will be published in our April 16 Sunday edition.

MPO Meats also offers seafood, smoked meats

MPO (Meat Producers Outlet) Meats, at 2397 S. French Ave. in Sanford, is a full-service meat market which also has scafood, smoked meats and a deli.

MPO specializes in personalized service. Planning an outdoor barbeeue? MPO will be

happy to cut one steak or 50. Save money by buying a quarter or half freezer beef or whole strips, top strioins or tenderlons. Mike "Butch" Basila will be glad to cut and wrap your order to your specifications.

Butch is an experienced meatcutter. If you don't see what you want in the case, he will be glad to cut what you need from all USDA choice beef and pork. He grew up in his family's meat market and he knows his business. MPO's scafood prices are lower than chain

stores. Their pork, beef and chicken are priced comparably. They offer the advantages of several family package deals which bring your MPO services the needs of local restaurants as

well as individuals. They have something for everyone's taste and

pocketbook, including a full line of pork, poultry

(they carry only Cookin' Good chicken), fresh fish filets, shrimp and lobster. For large families they have a special five

pound box section. Owner Java "Red" Jones moved the business to its present location in December 1986 and his daughter Glenda Mangum is the manager.

"We're proud of our friendly, helpful staff," Glenda sald. "They know our customers and this is something you can't get in the big chain stores. Our prices are competitive and lower than most. She added, "We have found a dedicated

extraordinary young man in our butcher, Butch, who first learned his trade at age 13 in his father's store. He is a conscientious young man who works very hard to make sure everything is appealing to the eye and always fresh."

You don't have to wander all over a big parking lot in the hot sun or rain to find your car at MPO, where you park your car at the door under cover.

MPO Meats is open from 8 a.m. to 6 p.m. Monday through Saturday and noon to 6 p.m. on Sunday. Call them at 321-2398.

Exxon tanker readied for move

United Press International

ABOARD THE EXXON VALDEZ - While authorities search for its fired captain, the tanker Exxon Valdez was being readted for an attempt to haul it off the reef it hit last month causing the nation's worst oil spill.

Crews struggled Monday to empty the last of its cargo, and if all goes as planned, an attempt will be made at high tide Wednesday to refloat the tanker and pull it out of Prince William Sound one of North America's most sensitive ecological regions that has been turned into an olly disaster. Thousands of birds and untold numbers of sea

otters have died since more than 11 million gallons of Alaska crude oil gushed out of the tanker March 24 - fouling an area bigger than the state of Rhode Island by Monday.

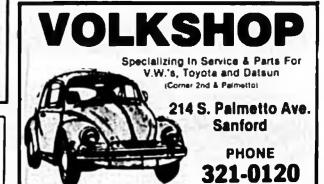

Joseph Hazelwood, the fired captain who

vanished from Alaska after the grounding and is

sought by the state on three criminal counts, was a fugitive and police staked out his Huntington. N.Y., home.

At the same time, Exxon Corp. took the unusual step of taking out newspaper ads across the country to apologize for the oil spill.

Chairman Lawrence Rawl said in the ads, "I want to tell you how sorry I am that this accident took place. ... We at Exxon are especially sympathetic to the residents of Valdez ... We cannot, of course, undo what has been done. But I can assure you that ... the accident has been receiving our full attention and will continue to

Bacon-eggs breakfast not bad for everyone DEAR DR. GOTT: I'm think- these two oils do not themselves

ing of trading in my daily breakfast of bacon and eggs for a healthier alternative. Any sug-

DEAR READER: My initial reaction to your question was to assume that you need to change diets. Although a clear majority of Americans would be healthier cating low-cholesterol diets, this is not true in all cases.

For instance, if you are a 23-year-old lumberjack with no family history of heart disease and have a serum cholesterol of 150 milligrams/dl (well below the 200 milligrams recommended), you needn't change your eating habits.

On the other hand, if you are 40 and sedentary, have a family history of premature heart disease, have a serum cholesterol of 300 milligrams and smoke, you'd be crazy not to make major dietary modifications to reduce fat. (Also, you'd want to start moderate exercise and stop smoking.)

For most of us, bacon and eggs are not appropriate or healthful as a breakfast mainstay. These edibles contain much too much fat: the dietary benefits do not exceed the risks. The cholesterol in the egg yolk, about 250 milligrams, constitutes about a

day's "allowance."

The most common — and nourishing - alternative to a bacon and egg breakfast is cere-al. Grains are a valuable source of protein, minerals, fiber and trace elements. Cereals are marketed in an almost inexhaustible array: hot, cold or instant. I suggest that you consider switching to a grain breakfast, reserving eggs for a once-a-week "treat." You might want to rely heavily on cereals that contain oatmeal or bran, since both these substances have been shown to reduce cholesterol. Stay away from cereals containing coconut and palm oil, both of which are added for flavor but can elevate blood cholesterol even though

contain cholesterol.

For more information, I am sending you copies of my Health Reports "Eating Right For a Healthy Heart" and "Understanding Cholesterol." Other readers who would like copies should send \$1.25 for each to

P.O. Box 91369, Cleveland, OH 44101-3369. Be sure to mention

You are South, playing six spades. Cover the East-West cards and picture the opening lead of the heart five. You play low from dummy and win East's 10 with your jack. You play two rounds of spades ending in dummy, East throwing a heart. Next you play A-K and ruff a Then you play the heart king to dummy's ace, West following with the deuce. It is now time to play diamonds. What is your plan? There is no right answer. since the correct play is determined by the diamond dis-

Suppose West has four diamonds. If so, you should play low from dummy and put in your 10, hoping to drop an honor from the East hand next.

(You presume that West would have led the diamond king if he had held K-Q.) What if four diamonds are in East's hand? Now it becomes correct to lead the diamond jack from dummy.

If East covers with an honor, win the ace, return to dummy with a trump and lead another diamond. Even if you go up with the 10 and West wins the king. as here. West may have no more diamonds and be forced to give you a ruff and a sluff for your contract. Finally, if diamonds are 3-3, it's best to lead low from dummy and put in the 10. hoping that you will be able to guess the situation when West returns a diamond. Every declarer must make his own decision, and the defenders do best by falsecarding.

HOROSCOPE

By Bernice Bede Osol YOUR BIRTHDAY April 5, 1989

Something of immense importance may occur in the year ahead that will cause you to revise your philosophical out-look. Your new perspective will enhance your character and increase your potential for suc-

ARIES (March 21-April 19) Today is not likely to be without its frustrations, yet you can achieve your objectives if you keep a cool head and don't get rattled. Do your best without expecting optimum conditions. Aries, treat yourself to a birthday gift. Send for your Astro-Graph predictions for the year ahead by mailing \$1 to Astro-Graph, c/o this newspaper, P.O. Box 91428, Cleveland, OH 44101-3428. Be sure to state your zodiac sign.

TAURUS (April 20-May 20) Do what you can to be helpful to others today, but don't let certain individuals who should be fending for themselves strap all

of their burdens on your back.
GEMINI (May 21-June 20) Don't tackle anything new today

without first thinking out all of its ramifications in advance. Operating in haste could lead to carly mistakes,

CANCER (June 21-July 22) You're likely to be more effective today if you are able to operate independently of others. Even well-intentioned allies could disrupt your progress. LEO (July 23-Aug. 22) Have

adequate faith in yourself and your ideas today or else minor setbacks could cloud your mind with negative thoughts and entice you to quit instead of asserting yourself.
VIRGO (Aug. 23-Sept. 22)

Guard against tendencies today to change things that are presently running rather smoothly. The adjustments you implement could create some unnecessary complications. LIBRA (Sept. 23-Oct. 23) If

you are willing to compromise and make reasonable concessions, people with whom you'll have dealings today are likely to do the same, but they may act only upon your cues. SCORPIO (Oct. 24-Nov. 22) A

disgruntled co-worker with problems might try to involve you

today, which could ultimately create problems for you. It's best to let this individual resolve matters unaided.

SAGITTARIUS (Nov. 23-Dec.

21) You may get involved in something today that could work out to a fairly good deal, but not necessarily in the way it will be initially presented. Adjust it more to your liking. CAPRICORN (Dec. 22-Jan. 19) Things can be worked out to

your ultimate advantage today if you have the tenacity to do so. Keep the types of end results you desire in mind and don't let circumstances blur your focus.

AQUARIUS (Jan. 20-Feb. 19)
There's a possibility you might
put too much stock in the opinions of associates today and dilute good plans and ideas in order to pacify them. Try to be your own person. PISCES (Feb. 20-March 20) Be

extremely selective to whom you lend things today. It might be wiser to say no rather than worry if you'll ever get the borrowed things back
