

Rape Is Subject Of New Picture Made By Lupino

By BOB THOMAS
SANFORD, Fla., Mar. 10. — Having treated the problems of unwed mothers and pull on the screen, Ida Lupino is now tackling the subject of rape.

The actress discussed the question in a rare moment of leisure during the filming of "Outrage," which she is directing. She relaxed at lunch with Collier Young, with whom she is still on friendly terms as co-producer but not as husband. They are separated maritally.

"Our picture," said Mrs. Lupino, "deals with the psychological effect of rape upon an average American girl. We are treating the subject not in a shoddy or sensational way, but with a clinical approach.

She related that the heroine is the daughter of a college professor and the fiancée of a normal young man. She is attacked by a rapist who has been eyeing her for some time.

"That was our only trouble with the censor," the actress-director said. "Originally we pictured the rapist as mentally deranged. We had to change it so the act was premeditated."

The rest of the picture will show the effect of the rape on the girl. She slams her boyfriend and flees to a small community. There she comes under the influence of a minister, who tries to treat her mental instability.

All goes well until a boy tries to kiss her at a country dance. She chouts him senseless with a farm implement. A trial determines whether or not she should be punished.

"Outrage" will be treated with the same realism that distinguished other pictures. Mrs. Lupino helped produce "Not Wanted" and "Never Fear." She and her partners are on the lookout for other controversial topics to film. Their next one should cause a sensation in the ranks of amateur athletes.

It is called "Loving Cup." The title is ironic, because it's really a biting view of the big business aspects of amateur sports. The story concerns a young girl who is pushed by her mother into becoming a tennis champion. In the end, all she has is a bitter heart and a few dozen loving cups.

The producers are seeking new film subjects and new methods of selling movies, too. Young said that their latest stunt is advertising by mail.

"We are sending postcards from Ida to 30,000 people in Charlotte, N. C., where 'Never Fear' is opening," he said. "We think this personal approach might help interest the public in the picture, which is a highly personal one to Ida. She went through much the same experience."

Capsule review: "Perfect Strangers" (WB) tells the story of ten people who fall in love while serving on a murder trial jury. Both are married to other people. The premise is good and it's carried out with judgment and an eye for creating out characters. Ginger Rogers and Dennis Morgan show admirable restraint in the leads, and Thelma Ritter supplies some fine comedy.

Attlee Rules Against Russian Bomb Talks

Prime Minister Sees No Hope As Long As Soviet Refuses To Work Toward Peace

LONDON, Mar. 13 (AP)—Prime Minister Attlee ruled out once more today any new approach to the Soviet Union for outlawing the atomic and hydrogen bombs.

"I do not think a new approach would get over the difficulty, which is the unwillingness of Russia to cooperate," Attlee told the House of Commons.

Attlee's remark was prompted by this question from Liberalite Norman D. Dodd:

"Will the Prime Minister take the initiative in calling a conference for the purpose of endeavoring to find ways and means of outlawing the hydrogen bomb and all atomic weapons in view of the desire of the people that he should do so?"

Attlee replied that "the initiative has already been taken as long ago as 1945. We have been pressing this matter continuously and it is now before the United Nations."

The suggestion of a new top level approach to Joseph Stalin was made by Conservative Leader Winston Churchill during the recent election campaign. Foreign Secretary Ernest Bevin waved it away as a "stunt" in get votes.

Conservative Sir Walter R. Smith then asked Attlee whether, in view of the betrayal of the West's atomic secrets by Communist Dr. Klaus Fuchs, the government will introduce a bill to outlaw Britain's Communist Party.

No sir, Attlee said.

Meanwhile government whips in the House of Commons breathe a little easier as unofficial reports circulated that the Liberal members would refuse to vote, in vote with a list, on a new Conservative effort to unseat Prime Minister Attlee.

In last Thursday's first confidence test, the Conservatives, but the government was approved by 14

Truman Axes 1 Commission; Limits Others

Twenty-one Reorganization Proposals Sent To Congress In Major Shake-up

WASHINGTON, Mar. 13 (AP)—President Truman today sent Congress a deal of plans to reorganize a long list of Federal agencies and abolish one of them.

Reorganization proposals and dropping interests were expected to shift the balance of power in the executive branch.

In number of the 21 proposals, Mr. Truman in the face of a second major explosion in Congress by calling for abolition of the Federal Reserve Board. The board, held by Robert N. DeLoach, Democratic president and postmaster of the United States, is the only one of the 21 proposals that he calls "repeal."

The White House plans to effect automatically in 60 days, unless acted by either the House or Senate.

The 21 accompanying messages to Congress, Mr. Truman said, will be "substantial" ones. All are based on proposals of the reorganization commission, headed by former President Herbert Hoover, in a report.

"These plans will take us well along the road toward more effective, economical and responsible government."

The Commerce Department would take over all activities of the two-member Maritime Commission. The Sanitary Food and American Shipping Bill, 1949, a new three-man "Federal Maritime Board" would be set up in Commerce to regulate rates and

Sander's Status Will Be Decided By State Board

STATE MEDICAL SOCIETY RECOMMENDS TAKE ACTION AGAINST DOCTOR

ST. GEORGE, S. F., Mar. 13 (AP)—The New Hampshire State Board of Physicians in Medicine today set April 15 for a meeting to consider the status of Dr. Henry Sander, whose license to practice medicine was suspended last year.

John S. Wheeler, secretary of the board and the 11-year-old doctor who was acquitted last year of a murder charge in the death of Mrs. Abner Borzoi, 59, a cancer patient, would be notified of the date Wheeler and Dr. Sander, his counsel or both may be present at the closed meeting.

Wheeler added that meanwhile there would be no further comment on the case by members of the board and that a statement probably would be forthcoming immediately after the meeting.

Yesterday the New Hampshire Medical Society refused to take any disciplinary action against the doctor but left it to the Hillside

Jack E. Stemper Enters Race For County Commission

Jack E. Stemper, 44 years old, long-time resident of the west side today announced his candidacy for County Commissioner in Group No. 2.

He is married and the father of three children, and resides at 1205 West Third Street. He attended Sanford school and is a member of the First Baptist Church. For the past four years he has been successfully engaged in the grocery and meat business on West Thirteenth Street. Prior to this he farmed for 10 years and also worked as a clerk for the Atlantic Coast Line Railroad for eight years.

While attending school he served as a paper carrier for The Sanford Herald for several years.

He stated that he is familiar with the details of the county government, that if given the pleasure of working with and for the people of his district and county he will do his best to take care of the needs of the people.

Inquest Held For 80 Killed In Plane Crash

DEPUTY CORONER SAYS CATASTROPHE LIKE MISSING DISASTERS

HEAVY MAJOR WALKS

Mar. 13 (AP)—A gruesome mass of 80 bodies was found today in the wreckage of a plane which crashed in the Ohio Valley plane crash yesterday.

Eight bodies of unknown identity were found in the wreckage but a Florida airport gliding on the down and bogged features of wreckage of the dead.

Col. Harold Rees, deputy coroner of Lee County, today opened the proceedings shortly before noon by saying the air crash was similar to coal mine disasters which have occurred in Wales.

He brought sorrow into him by the loss of his son, and the feeling of suspense is similar to that of Welsh women who have waited at paths when there was no sign of the man.

"The disaster that occurred yesterday is a disaster unparalleled in recent times in South Wales and is comparable only to the great mining disasters of the past," he said.

Many of those who died have survived the war on sea, on land and in the air, and some of them know the hardships of prisoner of war camps for many years.

They had seen Wales' rugby team walloped in a United Kingdom championship match, 6 to 0.

Most of the bodies still lay in two long rooms, one in an L-shaped airport building and another of nearby Cowbridge. A few still remained on the ground.

Northern Strikes Hurt Farm Prices At State Market

In spite of the fact that 29,126 more hogs were sold during the past month at the Sanford State Fair market than in February, 1949, produce sales brought \$150,000 less, Manager Sandy Anderson revealed in his monthly commodity report.

He attributed the lower prices received this year to strikes which lowered buying power in northern states, and in an excess of vegetables, such as cabbage, which were grown during the prolonged warm season in Georgia and in California.

Total sales for the month were \$297,100, compared to sales of \$458,126 in February, 1949. Of the total, \$7,800 was received for out of state produce.

The 50 pound sacks of cabbage averaged only 72 cents a unit for 141,415 units. In crates the vegetable fared a bit better, 38,000 units averaging 95 cents a crate.

In citrus, the picture was much brighter with 53,734 boxes of oranges bringing an average of \$1.23 a crate (net weight) and number 10,240 averaging \$2.50 a unit.

Citrus was next to citrus in total return with 13,715 crates bringing \$182,480, an average of \$3.03 a crate.

The potato deal was rather heavy and 30,516 of the 50 pound sacks averaged \$1.97 a sack.

Due to insufficient tonnage of locally grown produce the new auction market will not be opened tomorrow. It will probably be a month's time when the spring crop is ready for sale, Mr. Anderson announced this morning.

People Are Warned To Guard Against Phony Census Men

A warning was issued today to the citizens of Sanford and Seminole County by George Touhy, Assistant Supervisor of the district office of the Census Bureau in Orlando, that they should be careful that they are not imposed on by persons representing themselves to be census takers.

The Bureau of the Census is reported alarmed by the fact that a "thriller" depicted a member of the FBI posing as a census enumerator, and a video show carried a gag in which a salesman was admitted to a home under the guise of being a census bureau employe. In recent comic strips have made the same implication.

Mr. Touhy made it clear that bona fide census enumerators will all carry identification cards that leave no doubt of their authority to ask for the data required in the 15th Decennial Census. He also pointed out that while census enumerators will do a few "practice counts" on the last two days of this month, the actual enumerators will not appear until the first of next month.

NEW 200 ARRIVAL:
The answer to the old puzzle, "how much wood can a woodchuck chuck" may now be found at the Sanford Zoo, for "Woody" the woodchuck arrived there yesterday.

"Woody" was found in DeLand by Postman Joe Lane who presented the woodchuck to the Zoo.

Woodchucks are sometimes known as ground hogs or marmots and are found all over North America. They are 18-24 inches long with black feet and tail, and reddish chestnut fur. They feed on vegetation burrow in the ground, and hibernate during the winter.

STRAWBERRY PLANTS
John Bell, pioneer grower of Lake Monroe, is really puzzled at the behavior of some of his strawberry plants, and don't know whether it is due to the weather or to some prank of nature.

The mystery is due to the fact that when he went to pick some of the big, red berries he found that they were sprouting leaves from the top of the berries. He has never seen this before.

Majority Of People Vote For Monarch; Stalin Is Elected

BRUSSELS, Mar. 13 (AP)—Belgian politicians met secretly today to consider the critical question which has arisen in the wake of a referendum showing that 57.68 percent of Belgium's voters want King Leopold III returned to his throne.

Belgians awaited a statement from their handsome king, who has been barred from the throne since surrendering his army to the Germans in World War two. Premier Gaston Eyskens met with the king, then prepared to leave for Pregny, near Geneva, in conference with Leopold. The monarch said earlier he would abdicate if he did not win 55 per cent of the vote.

There was no statement following the cabinet meeting. A minister commented dourly: "We have exchanged our points of view."

The vote Sunday split the country and the political parties. Leopold won a 72.2 per cent majority in Flanders but got only a 40.2 per cent minority in the Walloon provinces.

The Liberals would not say whether they would join the pro-Leopoldist Social Christians (Continued on Page Two)

Jack Shultz Describes Thrilling Adventures At Dinner Club Meeting

By TOM DOYLE

All of us at sometime or other have wished to transcend the narrow confines of experience and broaden our scope by a venture into the unknown. Jack Shultz did. Speaking before the Seminole Dinner Club Friday evening, he related the thrilling and unusual experiences which occurred as he traveled from Quito, Ecuador to Miami, covering the 6,000 mile distance in an Indian dug-out canoe.

Mr. Shultz spoke with ease and bright enthusiasm, his mannerisms and observations indicative of his youth—He is 21.

It was May, 1947 in Ecuador when the speaker was vacationing with his mother that he chanced to reread Maselfield's poem, "Sea Fever." With the poem as inspiration, the youth determined to embark upon his ambitious undertaking. With but a few staple supplies and \$21 in his pocket Shultz set out.

Being inexperienced with the rigors of this type of travel, he had to learn as he went along, profiting today from yesterday's error. Walking over the Andes, Shultz finally arrived at the Rio Napo, a tributary of the great Amazon, where he embarked in an Indian dug-out canoe. When it became necessary to replenish supplies, he would put into places where a hospitable reception always awaited him.

more "sea-worthy" vessel, Shultz purchased a Casco, a larger type Indian dug-out which he named the "Sea Fever." Down the Amazon and onward, he paddled, setting anchor in the evening in floating clumps of water hyacinths, sometimes drifting as much as 20 miles while sleeping. Shultz experienced difficulty managing the "Sea Fever" and was shown the correct method of paddling by some friendly native Indians.

Deciding not to return to the University of Chicago just then, he made Trinidad his goal. This venture would take him into the ocean which would be quite different from the quiet rivers he had traveled on the Continent.

Near the River-ocean juncture he refitted his boat and employed a crew of heavy breezes. He had received a sextant from a second officer of an American Cargo Ship who had been appointed to think that the youth carried

Elks Club Robbed Of \$410 In Cash

A small safe containing \$410 in cash was stolen sometime Saturday night from the Elks Club, Police Chief Roy G. Williams reported this morning.

The robbery was discovered yesterday at noon by Peter Shurrock, steward of the club, which is located on East Second Street.

The safe door had been torn open, locks of cabinets near the bar had been broken, and the small closet where the safe was kept had been broken into. The thieves even went into the cellar of the club. In addition to the cash, some liquor is reported missing.

Help Is Requested For Helpless Negress

Jay Beck appeared today before the County Commission at an adjourned session and as a citizen, requested that the County do something to aid Anna Lewis, 40 year old Negress, who is helpless due to an injury, said O. P. Herndon, county clerk.

Dr. C. L. Park, county surgeon, advised the Board that the hip of the Negress had been fractured, and that she needs an operation. Otherwise, he declared, she will be a hopeless cripple the rest of her life.

The Board directed that she be admitted to Fernald-Laughton Memorial Hospital and an operation be performed on her hip as suggested by Dr. Park. Upon recovery and discharge from the hospital, she is to be returned to her home.

Mr. Herndon pointed out that Mr. Beck advised the Board that he and his wife purchased property upon which they built a house and deeded it to Anna Lewis, and that he holds a \$500 mortgage in the premises, which he agreed not to foreclose during her lifetime.

Due to the fact that County assessor H. B. Pope was unable to be present, due to illness, the Board postponed plans for discussing new additions to the Court House.

Explorer Boys Scouts Invite New Members

All boys interested in joining the Explorer Boy Scout troop are invited to meet in the Episcopal Parish House tomorrow at 7:30 P. M. Felix Wins, scout leader announced today.

The age limit for members was set at 14 years.

Wins said that in addition to general scouting, the troop will attempt to build good character and good citizenship.

Other members of the Scout Troop are Joe Lane and Sam Ferris.

Building Permit

Felix G. Wins, Jr. recently obtained a City permit to erect an \$8,000 concrete block home at 201 Virginia Street. It is to be a two-story house.

Boyle Suffers Heart Attack At Meeting

Formation of the Central Florida Livestock Co-operative took place Friday night at Union Park and a building program will start soon, C. R. Dawson, county agent, who participated in the organization work, announced today.

Senator Lloyd F. Boyle, who assisted in the formation of the co-operative, and who attended the meeting, suffered a heart attack during the evening, was brought back by Mr. Dawson, and is confined to his home. He has been attended by specialists.

Billoh was selected as the site of the new co-operative and work of building a headquarters is due to start soon, Mr. Dawson said this morning.

Assisting in the work of organization were C. D. Hlatt and Leonard R. Toy, Florida representatives of the Columbia Bank for

Sanford Giants Begin Spring Drills Under Mgr. Ed Levy Whitner

Present Squad Of 32 Will Be Cut To 20; Three Other Farm Clubs Now In Camp

By BILL HERING
Herald Sports Reporter

The Sanford Giants, under the watchful eye of Manager Ed Levy, began their spring training drills today.

A squad of 32 young hopefuls donned uniforms to vie for starting positions on the team. When the season opens the Giants will only be allowed to field 20 men.

"After four weeks of league play," Levy said, "we will have to cut that number to 17."

Levy declared that every position on the team was wide open, but added that he has practically made three selections already.

Stanley Baron, signed at the 1950 tryout camp, was almost sure of playing centerfield with this year's squad. "And this fellow Weeks," Levy said, "looks very good at shortstop." Playing in street clothes, Weeks managed to lay his hands on every ball that was batted within one country mile of him.

Levy also has high hopes for Bob Mrosinski, left handed pitcher. "I'll predict," the manager said, "that he wins over 15 games this year." Mrosinski was also signed at the tryout camp.

The manager stated that it was still a little too early to try and select other players for starting berths. "Most of the boys come from the cold Northlands," he said, "and they aren't ready yet to show just what they are capable of doing on the diamond."

Levy expects to put the team through light drills for the remainder of the week or until the "cold cracks" are thoroughly ironed out of his ballplayers.

"I'll start making final selections then," he declared.

The team ran through easy batting practice and infield pepper play today.

Three more farm clubs reported to the New York Giants headquarters over the week-end.

The Jacksonville Tars of the Sally League, Sioux City Royals of the Central League, Knoxville Smokies of the State League, got off to fast starts in their spring training schedules yesterday by pacing through light workouts.

Manager Hal Gruber, Sanford pilot in the 1948-49 campaign, held a brief indoctrination talk with his four holdovers and 10 fledglings of the Jax-Tars. A one hour session of easy running, light throwing and pepper games followed the talk.

Twenty-three men reported to Manager Hugh Poland of the Sioux City squad, while 13 men signed to Knoxville Smokies roster. Both teams ran through light workout drills Sunday.

Howard Bleier, Glant official, said the Sioux City team will meet the Quince Marine nine next Sunday afternoon in an exhibition game. Monday the Jax Flyers will be host to the Marine squad. No times or fields were announced for either tilt.

Managers of the six farm clubs new training at the base said they would continue to hold light drills Monday while awaiting for late arrivals.

Mal Ott, ex-New York Manager, arrived in camp late Sunday night.

"Mutt-Dog Derby" To Be Attraction At Kennel Track

Kids from all over central Florida are awaiting the second annual running of the Sanford-Kennel Club's "Mutt-Dog Derby." The 1950 renewal of this race for pups and pooches of all ages, varieties, descent and disposition (just as long as they aren't pedigreed) will be held on Sunday Mar. 20th at 2:00 P. M. P. M. Entry blanks are now available at Sears-Roebuck's Orlando store or the blank published in this newspaper can be used. All entries must reach Sears by 5:00 P. M. Wednesday, Mar. 23. Mail them to the Catalogue order desk.

There will be prizes for the winning owners, including a \$50 gift certificate and numerous other fine gifts such as a stream-lined suitcase and a \$25 Waring brand. All dogs competing will receive a can of dog food and the owner of each dog will receive a silver dollar regardless of where his dog finishes in the race. However, entries are limited to the first 100 dogs that qualify.

This year's Derby renewal promises to be even more hilarious than last year's event when "Skippy," a young pup with personality plus romped away with the honors.

The Mutt-Dog Derby was made possible through the efforts of Walter C. Anderson, owner of the Sanford-Kennel Club, and various central Florida merchants, business men and civic leaders. It had its origin in the boast of a small boy that he had "the fastest old hound dog in the world." His pals didn't agree and a heated argument ensued. When word of the dispute reached Mr. Anderson he made arrangements for the Mutt-Dog Derby and made only one stipulation: "That the Derby was strictly for the kids, at their request, that it would be held each year at no time would there be an entry fee for the dogs nor an admission charge to the track for the kids and their parents."

Response from the small-fry set all over this year of the state was terrific and on Mar. 13, 1949 more than 6,500 people packed the Kennel Club.

Every effort is being made to have major newsreel cameramen cover this year's Derby and it will probably be on a statewide radio broadcast. A number of nationally-known dog organizations have shown interests in the Derby.

The Mutt-Dog Derby has all the

Goose Kettles Cancels Spring Scrimmage Tilt

Celery Feds Coach Sees Successful 1950 Grid Season

Goose Kettles, high school football coach, cancelled his club's final spring scrimmage session last Friday after a rainstorm. Edward Gordon pulled a muscle in his right arm during a previous workout.

In place of the scheduled 20 minute contest, Kettles put his charges through a defensive scrimmage.

The coach said he had high hopes for the 1950 campaign, but strongly stressed the fact that the Celery Feds 1951 football team would be the eleven to watch.

"We have a string of sophomores who have progressed nicely in spring workouts, and if things get to come a cropper, look forward to a cross-country football team when those boys reach their senior year," he said. Kettles singled out the following:

accoutrements of official dog racing. The electric rabbit and the reaction of the mutts to this method. Some of them take one look at it and head for home. Others just sit and grin at all impressed but a surprisingly large number tear out after it just as though they had been racing all their lives and their speed is amazing. Veteran greyhound owners and trainers will be on hand to help the kids in getting their dogs lined up for the race.

The Derby proved to be popular with children and adults alike. It has been a means of bringing out the finest qualities of sportsmanship and gamesmanship of both kids and their dogs. Why not enter your pup today? He just might prove to be the champ of central Florida. Maximum age limit is 15 and girls as well as boys are eligible to enter their dogs.

BASEBALL HIGH LITES

By Associated Press

ST. PETERSBURG, Mar. 13.—(AP) Joe DiMaggio has had trouble again but it's not serious this time.

The slugging New York Yankee's outfielder came up with a blistered heel and was eased from the world champions' exhibition game with the St. Louis Cardinals yesterday.

Yankee trainer Gus March listed the case a minor one. Even Casey Stengel, the "bombers" manager, is not worried. "He could play tomorrow if it was improved, but naturally we're not taking any chances," Stengel said.

PHOENIX, Ariz., Mar. 13.—(AP) The New York Giants' pitching staff, the club's No. 1 question mark, must improve on yesterday's showing if the New Yorkers are going to make the first division this season.

Five of manager Leo Durocher's hurlers were pounded for 17 hits for 18 runs by the Cleveland Indians. Cleveland won, 18-6.

CATALINA ISLAND, Calif.—(AP) Frankie Fricke, the Chicago Cubs skipper, is concerned about one of his top pitchers, Bob Rush.

Rush, who is being counted on to take a mound assignment every fourth day, so far has not been too impressive. Recently he was belted for three hits in two innings. Saturday the White Sox gathered eight hits and six runs off him in three innings.

TUCSON, Ariz., Mar. 13.—(AP) Too much schooling, reasons Coach AJ Simmons, ruins a baseball player.

The former Philadelphia Athletics coach explained, "They (rockies) attend baseball schools and are taught how to hit by a lot of old Major League ball players who never hit over 250 in their lives. Whatever natural ability they have is ruined by instructors who make the kids

Mayfair Handicap Featured Event At S-O Dog Track

A lightning field of eight dogs headed by Beach Star, will race for high honors tonight in the Mayfair Inn handicap at the Sanford-Kennel Club.

Mayfair Inn residents will be special guests of honor tonight, announced Bob Baird, general track manager. Mr. Baird, manager of the Inn, will present a silver plaque to the owner of the dog that wins the featured ninth race.

"Each lady guest from the Mayfair that attends tonight's 83rd evening of racing will receive a free corset," said Baird.

Beach Star, a fast corner, clipped a tenth of a second from the 80-track record Friday for the 1/16 mile course with a blistering 55.1. Blonche previously claimed the record.

TENNESSEE STAKES
Yankee, 1948-49 All-State and All-Conference high scorer, carried away first honors for the Mocs again this season with a total of 385 points for an average of 13.9 points scored per game. Chuck Terry, All-State star, claimed the second spot with 281 points in 21 games, an average of 13.2 per game.

Comparative squad figures show that FSC scored a total of 641 baskets for 827 for 80 per cent. Despite a one percent advantage in free throws, 60-59, Southern scored a low of 307 points in 30 games. Total points show Southern trailing 1649 to 1651.

Five of FSC's varsity will be lost in the squad next year. Gene Robbins, Lynn, Ind.; Chuck Terry, Lakeland; Lou Hufnagel, Birmingham, Ind.; Joe Zovath, Canton, Ohio; and Don Kumm, Newton, Iowa, have completed their collegiate careers.

Southern's Cage Men Capture 'Dixie' Crown

LAKELAND, Mar. 13.—(Special)—The windup of the 1948-49 basketball season for Florida Southern College gives the Mocs an squad a total of 16 wins and 11 losses and an average of 61 points scored per game, according to statistics released by the Department of Athletics today.

In the state's intercollegiate competition, FSO scored a total of seven victories and sustained six defeats with only two opponents, the Universities of Miami and Tampa, able to claim double wins. The Mocs split with the University of Florida and Stetson during the season and blanked Florida State University and Rollins College.

High spot of the 27 game schedule was the upset performance staged by the inspired Southern quintet in the Dixie Conference tournament at Tallahassee, Feb. 27 to Mar. 1. By virtue of wins over Howard and Mercer the Mocs swept the field and carried the Conference crown back to their Lakeland campus.

Gene Robbins, 1948-49 All-State and All-Conference high scorer, carried away first honors for the Mocs again this season with a total of 385 points for an average of 13.9 points scored per game. Chuck Terry, All-State star, claimed the second spot with 281 points in 21 games, an average of 13.2 per game.

New Smyrna Beach To Dedicate Golf And Country Club

Pat Brown, Seminole High School student, was selected by her fellow students Friday to represent this municipality in a beauty contest to be held Mar. 15 at the second annual Shad Festival at Blue Springs Park near DeLand.

Four other beauties are scheduled to enter the contest for the crown and title of Queen of the Shad Festival. Other entries represent DeLand, Pierpont, Daytona Beach and New Smyrna Beach.

The festivities are scheduled to get under way at 9:00 A. M. when anglers will leave for the search of the elusive fish. Prizes will be awarded for the largest catch recorded during the day-for the greatest amount of fish caught.

All catches must be registered with Tom Bolger, contest supervisor, before 4:45 P. M.

Other events on the program include a parade, a water-skiing show, ball and five casting, sports, aquatic events, picnic supper and a band concert.

The beauty contest will begin 8:00 P. M.

Pat Brown Picked To Represent City In Shad Festival

Allen is pro of the College Arms course at DeLand, while Bagwell is pro at the Daytona Beach Golf and Country Club. Freitas, who hails from White Face, N. H., was on the golf staff of the Sheraton Hotel for several years and has spent the past several months getting the local course in shape for play. McClaren is an aid to Golf Pro Jimmy Thomson at the Ormond Beach Hotel and Country Club.

The exhibition will be over 18 holes. Golf Clubs in Daytona Beach, Rio Vista, DeLand, Ormond, Titusville and Sanford and city officials from Orlando, DeLand, Daytona Beach, St. Augustine, Holly Hill, Ormond, Sanford, Cocoa and Titusville—as well as the leading service clubs in the County—are being invited by Mayor Doris Huffaker to attend the formal opening of this new municipal course.

According to John E. DeBerry, chairman of the chamber of commerce athletic and recreation committee, plans call for a parade at 2 P. M., followed by short dedication ceremonies, exhibition golf play, band concert and a tree fish fry at 5 P. M. Every thing is free, including the golf course which will be open for play after the exhibition.

What value would you place on your telephone?

What value would you put on your telephone if you were to name your own price? What value would you place on those strands your telephone runs, all over town, in good weather and bad? What is it worth to chat with friends and relatives whenever you please... or to make a date for bridge or golf?

What value would you put on that hurry-up call to the family doctor... or on those important business calls you sometimes receive at home? What's the price tag on a familiar voice wishing you a heart-warming "Happy Birthday."

Probably you'd find it almost impossible to estimate the full value of constant dependable telephone service. When you think how much it does for you compared to what you pay, telephone service stands out as one of today's real bargains.

Even in scientific experiments man must start with the assumption that they do not know. Humility enables us to enter all doors. Be not wise in thine own eyes.—Prov. 3:6

The United States patent office was opened just 160 years ago with the signature of President George Washington. The one millionth patent issued by that office was in 1911 just 121 years later.

Our friend and neighbor General Joe Hutcheson has again been honored for service to his country. In Jacksonville Saturday General Hutcheson received the State Distinguished Service Medal from Major General Mark W. Lance, State Adjutant General.

"Manners belong on the road as well as in the home," says the Times-Union. How many of us have seen fine young men who are as polite as Lord Chesterfield in the parlor who, when they get behind the steering wheel, act like the old Harry himself.

South Carolina's late great John C. Calhoun is coming into his own again. It is for no other reason than 100 years ago he was able to set the majority in as a result of making mistakes as the minority, and that a tyranny of the majority can be as devastating as any tyranny by itself.

Whither Freedom

Speaking in Orlando the other day Senator Pepper said that the people had lost none of their liberties since he has been in the Senate. He declared that he is a great believer in freedom as guaranteed the people under the Constitution of the United States and that as long as he is in office he will do nothing to deprive them of any of their liberties.

Now freedom is a nebulous substance. When you have it, you do not realize what you have got, and when you do not have it, you do not know where or why it is gone. No tyrant ever deprived the people of their freedom by a coup d'etat. He took their liberties away from them in dribs and drabs, a little bit at a time, a little here and a little there.

There are in the State of Florida at the present time thousands of Federal employees. Many of them, no doubt, are opposed to Senator Pepper's re-election to the United States Senate. But up to the present time we have not heard a single one of them publicly oppose the Senator's re-election. Can it be that they are afraid to speak out against him for fear of losing their jobs?

There are also in Florida many business men, engineers and contractors who are working on large government contracts. We haven't the slightest doubt that some of these people are opposed to Senator Pepper's re-election. But have they said so? Have they come out publicly against him? To the best of our knowledge and belief not a single one of them has dared to utter a word against Senator Pepper's re-election.

If Senator Pepper's FEPC bill were enacted into law, no employer would be allowed to discriminate in the hiring of any worker on account of race, religion, or national origin. It might be that a farmer wanted to hire a crew of Negroes, but if a white man or a group of white men applied for the job the farmer would have to hire them whether he wanted to or not.

It may be that none of us has yet lost all of our freedom, but it is certainly true that some of us have lost some of it, and all of us are in danger of losing more of it. Now is the time to stand up and be counted if we would preserve those liberties we have.

The Average

Averages seem to hold a strange fascination in these days. The most talked-about man in America is the average man, who lives an average life span and has an average town and so on, and on. There is hardly anything encountered in daily living which is not reduced to averages.

In succumbing to this fascination we may forget that the average man does not really exist. He was invented to represent all the different men. The man you meet on the street is, like yourself, richer or poorer, wiser or more foolish than the average. The average is not an offer of refuge or comfort. It is a measuring stick by which we can determine whether or not we progress. If we move at the average level we are not advancing; progress results from doing better than the average.

THE WORLD TODAY

By DEWITT MACKENZIE AP Foreign Affairs Analyst

They tell us we shouldn't look at a gift-horse in the mouth but that axiom certainly doesn't apply to horse swapping. Moscow is said to be working on an amazing proposal. U. S. officials are said by James Reason Washington correspondent of the New York Times, to believe Soviet Russia is making a new effort to arrange a deal with America to divide the world into spheres of influence.

Well, that's horse-swapping on an unprecedented scale. We get a better idea of just how big a deal it is when we look up how much of the world has been brought under Red domination. Soviet Russia, plus its satellites and China, comprise roughly one-third of the globe's population, and about one-fourth of its land area. Some of this, of course, Russia is in process of trying to digest, and China is included in that category.

Looking the Russian horse in the mouth we get the idea that Moscow has over-run about all the territory it can handle conveniently at this time. The Muscovites would be glad to see the cold war ended if they could, but they are not so sure they can get organized for another offensive in the course.

Still looking the horse in the mouth we are reminded that we have been an active participant in the intervention program before. From the advent of the Bolshevik government in 1918 until 1933 the United States steadfastly refused to recognize the Red government, and it was not until 1933 that we got its world revolution under way. Britain, for instance, was constantly fighting the Russian agents who were doing their best to overthrow the British government.

That drive has progressed to a point which brought me a letter from a friend in America but it can't be signed. He says he would like to see you and when it does you will be one of the first to be taken out and get his neck stretched.

When we have reached unity and determination on the part of the free nations — when we have eliminated all of the areas of weakness — we will be able to evolve working agreement with the Russians.

That, I take it, is a tacit warning not to try any horse deals until we know the animal is right.

Sanford Strides, How About Us?... We have in fact not had all the progressive people of Sanford and that's no task at all compared to their own achievements of recent days.

Just about everybody agreed that the stands had to be improved, not only to keep the New York Giants' valuable enterprises there but also to make it safe and comfortable for fans to watch local contests.

Only issue was: Could the city afford a big new stadium and also meet some of the other needs confronting the fast growing community — such as \$1 million sewage disposal plant?

Manacled Killer Hunted In Texas By Armed Poses

MARFA, Tex., Mar. 14.—(AP)—The hunt for the killer of a Texas sheriff today had all the elements of a wild west thriller—a handcuffed fugitive afoot in a rugged arid pose on horseback.

The shooting early Sunday of Sheriff O. W. (Blackie) Morrow, 43, on a lonely mountain ridge, on the days of the old west. It brought back the pose on horseback—hunted men packing six-shooters; the sign cutters who can read a story in a smudged cactus; a scuffed path of hooves.

Texas Ranger Gully Cowart rode into Marfa late last night and a mounted posse had tracked the killer of Morrow 15 miles through rugged mountains, but the fugitive near the Mexican border.

Convent said his posse—made up of officers who are experienced horsemen and trackers—picked up the trail about half a mile from the spot where Morrow's car was ditched when he fled.

Just about everybody agreed that the stands had to be improved, not only to keep the New York Giants' valuable enterprises there but also to make it safe and comfortable for fans to watch local contests.

Only issue was: Could the city afford a big new stadium and also meet some of the other needs confronting the fast growing community — such as \$1 million sewage disposal plant?

Exhibit Shows How Electricity Helps

An exhibit that depicts how electricity has helped mankind will be placed on display Friday in the window of the Florida Power and Light Co., by pupils of the eighth grade science class under direction of Mrs. Jack Burney. It was announced today by Gordon Toll, a member of the class.

Many pupils have made contributions that tell the story of electricity and how it has helped man. On display will be many hand operated devices used before electricity was available and the contrast between these and modern electrical appliances will be plainly illustrated.

TODAY'S BIBLE VERSE

Thoughts are infinitely more permanent than things. Every deed started with thought.

In Wilmington, Del. a 23-year old woman was arrested the other day for practicing witchcraft.

A six-year old child in Canton, Ohio, was awarded a silver Carnegie life award medal the other day for rescuing his boy friend.

A good suggestion comes from Representative Jackson of California. "Why not have the State Department bargain with Russia for the release of Robert A. Vogeley in exchange for Valentin Gubichev."

Everyone has the right to vote in this country, but not everyone does. That is one of the tragedies of democracy.

We have heard a lot during the past few years about the underfed millions of the world. And they do deserve our sympathies.

England has had worse kings than John. The worst were generally the feeblest, who could neither resist foreign enemies nor keep order at home.

Are you looking for a promising business opportunity? A friend of mine suggests the establishment of a "Political Supply Store."

Pact For The Pacific

From various sources have come suggestions for a defensive alliance of nations of the Pacific area, similar in pattern to the North Atlantic Pact.

It is noteworthy that he said the arrangement should not be just militarily defensive in nature, but also should have positive aims.

For The Throne

Americans, long removed from monarchy and inclined to regard king as relics of a bygone era, occasionally find in the British nations some happening which reminds us of the strong ties which still can rest on the simple existence of a monarch.

King John

"Foul as it is, hell itself is defiled by the fouler presence of John." This medieval chronicler's searing condemnation of the only king in English history to have the commonest English forename, sums up for most Americans their idea of King John.

(Continued From Page One) to credit the project with the benefits of flood control.

Although the project is in the Central and South-Florida flood control district, engineers are crediting part of the benefits of flood control in the upper St. Johns district to this project.

This, he declared, materially substantiates the expenditures of the funds. The separate report is scheduled to leave the Jacksonville engineer's office sometime in the near future.

In his report to the directors, Mr. Higgins revealed that the Park County Directory Co., has decided to postpone compilation of a new directory for Sanford and Seminole County until fall.

He stated that Lea R. Lesher had reported on the success of the Seminole County exhibit at the Central Florida Exhibition in Orlando, and that Mr. Lesher had received a letter of appreciation from Claude Wolfe, director of the exposition.

Tom Swalm, Mr. Higgins said has reported taking pictures of hockey players at the Giant's football school, and sending the pictures and articles about the players to home town newspapers.

Mr. Higgins told the directors that another survey will be conducted by the Federal Housing Administration relative to financing of homes and apartments in Sanford.

The Chamber of Commerce membership drive is running 100 per cent higher than at this time last year, and contributions from 117 out of 180 members now total \$3,400, said Mr. Higgins.

He stated that U. S. Engineers now inspecting sites for a proposed U. S. Air Force Academy will visit Sanford during the latter part of the month.

Georgia Election

(Continued From Page One) in Georgia have pledged their support for generals to the state's next election. Talmadge and his father, the late Gov. Eugene Talmadge, usually failed to win support in thickly populated counties.

"Our question is primarily whether the federal Constitution is violated thereby. In general, that constitution is not committed to elections by the people over the state effective territory in which every vote shall have equal weight," the majority opinion said.

The opinion noted that the President of the United States "is not elected by the equal votes of the people but by electors in each state appointed in such manner as the legislatures thereof may direct."

The opinion observed that the nation has "two senators from each state, though the population of Rhode Island and Nevada differ from New York, Pennsylvania and California, as much as Fulton county does from Georgia's smaller counties."

World Federalists

(Continued From Page One) of words, public opinion." Watson explained he drafted a 1941 Senate resolution, offered by Senator John Beauchamp of West Palm Beach, condemning ratification of the proposed "human rights" part of the UN Charter.

The Senate adopted the Beauchamp resolution. He added that the World Federalist movement is being "directed by leaders in what some believe to be an deliberate program to merge some of the sovereignty
