BEARD OF TRADE

"There is a tide in the affairs of men, which taken at its flood, leads on to victory." In the above philosophy is summed up the success or faltare of life, either nationally or individually. A great erisk man just confronted its as a nation and we arose as one may and, not it, with the roult that our country today is the invogenment leader of two weight:

Todies tille officetunit, if the his Seminor construction the map of a live, progress a contribute, clean and most county is staring as in the one, will we embrace it! There is but one way and that is be united, unscitish effort. No town or county has ever magressed that was filled with factionalism and could not get its citizenship to units in their efforts for the general upifft and presperity of the whole people. There has never been found in the experience of other and larger cities a better way to accomplish these ends than through a Board of Trade. Such a medium is democratic in principle and unselfish in purpose.

All those, who in the past have stuck loyally by the Board of Trade and enabled it to accomplish some things which were greatly beneficial to our people as a whole are resolved to put new life and energy into this organization And in a recent meeting passed such resolutions and will immediately have committees of live citizens active in soficiting memberships. They have secured and made ready commodious quarters in the Herald building and will have this home in the care of some live, polite and well informed person, to the end that strangers may be welcomed and instructed about our county, city and other matters of general interest. But best of all, with one voice they are fully resolved and determined to put forth the whole force of their influence toward the carrying out of the plans now under way of securing a firstclass hotel in Sanford. Most of our citizens have already been advised of the plan to purchase the Welborne Block and adjoining Second property and of remodeling the brick building and making an upto-date hotel. A competent architect has been secured and he worked out a feasible and economical plan by which this can be accomplished, and I dare say for less money than anyone would imagine. And you have but to see these plans and make your own calculations to be convinced of its feasibility and practicability. Hence to afford every citizen in the county this opportunity an engagement has been made with the architect to be present at a mass meeting of citizens to be held in the Court House on Eriday evening (tonight) at 7:30 and everyone is invited and arged to be present.

The time for cheap-talk has past, only constructive action will accomplish results.' Let us with one accord lay aside our own selfish purposes and unite our brains, our energy and our means and put this, the greatest need of Sanford into effect. Then, as naturally as water gravitates down hill we will find other needed public improvements will follow in quick succession.

"A HAVEN OF REST" or "A MILLIONAIRES' PARADISE"

It is located between two sparkling, crystal lakes, surrounded by beautiful, tropical trees, and in a community of magnificient homes. It is only three miles from one of Florida's leading industrial cities, and is one-half mile from the Dixie Highway. It is equipped with a'l modern conveniences; has eleven acres in the lot; an eight room modern house, a large variety of fruits, and a landscape that an artist would revel at an opportunity to paint. After seeing this place one would think of the price reaching in to seven figures, but we have it listed at the astonishing price of only \$8,500.00.

"With all the children married and living in different places the Bell Telephone is essential to our happiness. We can call any of them, day or night, and hear them as well as if they were right here.

"Very often one of the girls calls me by Long Distance and we have a pleasant visit of five minutes or more. You'd be surprised to know how little it costs as compared with the joy and satisfaction.

"When any of the grandchildren are sick and I am called at night, I simply reach for my extension telephone and talk without moving from my bed. Often I can give advice and direction that saves lots of worry."
