WILL OUR NATION FACE GENERAL RAILWAY STRIKE IS MOST SERIOUS QUESTION

Important Meetings To Be Held in Chicago

REPRESENT WORKERS TO THE NUMBER OF HALF MILLION SHOP WORKERS ALL OVER UNITED STATES.

CHICAGO, Sept. 15.—A decision of whether the nation will face a general railroad strike may result from two important meetings here next week. Representatives of half a million shop men will meet Sunday to determine what action will be taken in regard to the wage cut and change in working rules effective the first of last July. A countrywide ballot taken some time ago, is said to have resulted overwhelmingly in favor of a strike. Heads of engineers, conductors, firemen, and steammen, switchmen and trainmen brotherhoods will meet Thursday to announce the result of the ballot now being taken in those organizations. Unofficial reports indicate a large majority in favor of the strike. Heads of some of the organizations recently cautioned the members to conserve their resources in preparation for a "show down that is sure to come."

TWO BANDITS KILLED WHILE ROBBING TRAIN OFFICERS TIPPED OFF.

FORT WORTH, Tex., Sept. 15.—Two would-be bandits were shot and killed late last night by federal agents and railroad detectives when they attempted to hold up a Texas Pacific passenger train ten miles west of Fort Worth. The tip received by federal officers caused the placing of a heavy guard on the train.

BRADENTOWN BOOSTERS BANQUETTED AT DELAND

DELAND, Sept. 15.—Forty Bradentown boosters, touring Florida in automobiles were entertained here today by the DeLand Commercial club with breakfast and ride about city. The party left at noon for Daytona where it will disband, the members returning home leisurely.

The Fashion Review of the Baumel Specialty Shop

Revealing a Pleasing Display of the Newest Modes and Creations

By MRS. R. A. TERHEUN

The Fashion Show at the Princess Theatre, Wednesday evening, put on by the up-to-date Baumel's Specialty Shop, demonstrated once again that Sanford with her live-wire merchants, is fast getting into the big city class commercially for certainly no metropolitan city could have given a more clever fashion review than that witnessed by a delighted audience last night. The lady folks were out in great numbers and it is no secret, that my lady's husband and sweetheart, were no less interested in the wonderful designs shown to the best advantage on living models whose grace and charm added much to the beauty of frocks and hats. Arrayed in ravishing apparel the models displayed by their graceful poses, the gripping charm of these, the first authentic styles of the fall season. The varied styles of the dressmaker's art designed for the nation were effectively displayed on Mrs. Fred Daiger, Mrs. Sherman Lloyd and Mrs. Hal Wight. Among the modish gowns worn by Mrs. Daiger was a handsome black costume for afternoon wear, accented with falling in straight lines to the uneven hem and finished with a deep fringe of crystal beads. A big picture hat in black, completed the stunning effect. A very lovely figure was Mrs. Hal Wight, wearing an exquisite evening cape of blue georgette with fluffy ruffles of white moine. Removing the cape revealed a charmingly fashioned evening gown of sunset taffeta with tight bodice and side draperies. A Parisian model of black beaded-net, over black satin charmeuse, with which was worn a cerise duvetine and feather hat to match the big velvet rose adorning the gown, was artistically displayed on Mrs. Lloyd, who later on was seen in a gorgeous imported Georgette blouse, heavily beaded in vari-colored beads in beautiful design. These two offerings are the last word in importations for the nation; the young matron, you know, for we are no longer wearing old lady frocks. Forsooth there are no old ladies in this age! Perchance, if the dear old-fashioned grandmother should stray into the modern shop, seeking the old lady styles of the years gone by, she would be surprised to find herself in a mallstrom of gorgeous coloring and youthful lines; for truly this is the day of youth. Miss Virginia Brady displayed advantageously the creations, more

WILL INVESTIGATE EXPLOSION, FIRE AT REFINING CO.

PHILADELPHIA, Sept. 15.—Investigation of the explosion and fire yesterday at Point Breeze plant of the Atlantic Refining Company which resulted in the death of eleven workmen and the injury of a score of others, was ordered today by the Department of Public Safety. Several of the injured are in a serious condition and additional deaths expected momentarily. It was the second serious fire at the plant within a month. In the first blaze five persons lost their lives and property damage was a million and a half. Property loss yesterday was comparatively small.

SAVANNAH, Ga., Spt. 15.—Warrants were issued today for James Rahal and Mary Rahal, his wife, who have been operating the Dainty Underwear company on the second floor of a building at Broughton and Barnard streets, charging them with arson. They were issued by State Fire Marshal Sharp, who has been here for several days making an investigation.

HOOPER STEALS BARE RUTH'S THUNDER—HITS 2 HOMERS, GETS 4 RUNS.

NEW YORK, Sept. 15.—Rightfielder Harry Hooper, of the Chicago White Sox, stole Babe Ruth's thunder. He hit two home runs, a single, drew a couple of bases on balls and scored four runs in the western team's thirtieth triumph over the Yankees this season. And he was supposed to have been crippled, due to an injured leg, which has kept him out of the game much of this season. Ruth, incidentally, playing on his home grounds, was hitless in three times at bat. None of the balls he hit went beyond the infield.

New York's defeat aided Cleveland's cause in the American League pennant race. By winning from Philadelphia, the Ohio aggregation narrowed New York's lead to five points. TO INVESTIGATE KU KLUX KLAN, SAYS JUDGE

LOOKS LIKE HE MEANS THE
KLAN WHEN HE SAYS WHAT
HE SAID—YES

NEW YORK, Sept. 14.—Judge William B. Sheppard of Florida, sitting in federal district court yesterday, told the federal grand jury it had the power and authority to investigate secret societies "which are reported to be interfering with the constitutional rights of citizens."

"Any organization," he said, "which holds its meetings by the light of bonfires in secret places and the members of which wear white suits and masks, which attempts to prevent orderly citizens from the enjoyment of their constitutional rights, freedom of speech, conscience and right of trial by jury, is a proper subject for investigation by a grand jury. That is because such behavior on the part of a secret society is a conspiracy, and the law can be brought to bear upon them."

Continuing his charge, Judge Sheppard said in part:

"There is a law here that can be brought to bear upon any group of people or secret organization which administers justice in the woods."

"It is not within the province of secret societies to say who is or is not a desirable citizen. When they, by a demonstration of power, seek to prevent others from the enjoyment of their constitutional rights, they are amenable to prosecution in the federal courts through presentment or indictment by the grand jury."

Judge Sheppard remarked that, according to newspaper reports, "there is a certain organization now in existence, the members of which are undertaking to censor the conduct of their fellow citizens."

"When you get to that state of affairs, one may well ask what difference there is between the United States and Bolshevism in Russia," he added.

While the dispatch does not so state specifically, Judge Sheppard was unquestionably speaking of the Ku Klux Klan, when he described an organization "which holds its meetings by the light of bonfires in secret places and the members of which wear white suits and masks."

Judge Sheppard is a citizen of Pensacola, in which city several outrages which are charged to the Ku Klux Klan were committed only recently. In New York just now the Morning World of that city is in the midst of a campaign exposing the operations of the Klan. The World claims to have full inside information as to its operations, its methods of gathering new members, its purpose and its plan. The World has even secured a copy of the Kloran, which is said to be the secret book of the order and which contains the K. K. K. ritual. The joke in relation to this is that, according to the World, the head of the order, one William J. Simmons of Atlanta, author of this supposed most secret of secrets of the Klan, secured

A CUBAN WAS NOMINATED FOR MOYOR OF N. Y.

NEW YORK, Sept. 14.—Henry H. Curran, coalition candidate, won the republican nomination for mayor yesterday over three opponents, leading his nearest rival by a vote of approximately two and one-half to one.

Judge Reuben L. Haskell, who made his campaign on a "wet" issue, and F. H. Laguardia, president of the board of aldermen, were running a neck-and-neck race for second place, with William H. Bennett, former state senator, a poor fourth.

The vote, with 932 out of 2,733 election districts missing was: Curran, 65,324; Bennett, 2,906; Haskell, 26,785; Laguardia, 23,886.

The other principal coalition nominees, Charles C. Lockwood for comptroller, and Vincent Gilroy, independent democrat, led their opponents by overwhelming pluralities.

Mayor John F. Hylan and Comptroller Charles F. Craig, were renominated without opposition in the democratic primaries. Murray Hulbert received the democratic nomination for president of the board of aldermen without a contest.

Returns from about one-third of the election districts in Manhattan indicated that James J. Hines, anti-Tammany candidate for borough president, would be defeated by Julius Miller, the democratic organization's choice, by about two to one.

lee, officiating, using the ring ceremony.

The church was beautifully decorated with bamboo and potted plants, the chancel being banked with greenery with white at the back ground. A large white arch gracefully entwined with asparagus fern, from which was suspended a large white wedding bell of white roses, with a single rose as a clapper, under which the bride and groom stood while the solemn words were spoken. On either side of the arch were pedestals of white entwined with fern and two of these held silver candelabra with five lighted white tapers. On the alternating pedestals were white wicker baskets filled with white roses. The bridal motif of green and white was prettily carried out in all the details.

A beautiful program of nuptial music in charge of Dr. H. H. McCaslin, organist, assisted by Miss Herminia Lehman, voice, was rendered preceding the ceremony. Miss Lehman's numbers were, "Because" and "O, Promise Me." The "Bridal Chorus" from Lohengrin, was used as a processional and Mendelssohn's "Wedding March," as a recessional. During the ceremony, "I Love You Truly," was softly played.

Little Misses Sara Maxwell and May Purdon, daintily dressed in white organdie frocks with white tulle bows in their hair, and carrying white wands, were the heralds and entered first, standing on either side of the chancel stairs.

The ushers and bridesmaids entered next. Miss Florence Henry coming down the left side and Mr. Lee Peck down the right, taking their places on either side of the chancel. After them came Miss Agnes Dumas down the right aisle, and Mr. Paul Dooley down the left they were followed by Miss May Thrasher and Mr. Sherman Moore, and Miss Serita Lake and Mr. Frank Purdon. The bridesmaids wore adorable frocks of green organdie trimmed with tiny ruffles, the waists being made basque style. With these they wore becoming "old fashioned" hats of green organdie and white ribbon woven crowns and streamers. They carried old fashioned round bouquets of pink roses and white asters in lace paper holders. The ushers had boutonnières of Dorothy Perkins roses.

Miss Ethel Henry, as maid of honor, was especially pretty in a green organdie costume; the skirt made bouffant effect, and the waist with a large cape collar. Her hat was also of green organdie and white ribbons and tied under the chin with the ribbons. Her flowers were pink roses and white asters in the lace paper holder.

Immediately preceding the bride was the cunning little flower girl, Margaret Purdon, who looked like a little fairy, in her white organdie dress with a fluffy tulle bow on her curls, as she scattered rose petals from a white wicker basket, in the path of the bride, who entered with her father, Mr. R. L. Peck.

The bride was a picture of girlish loveliness in her wedding gown of white tulle, made with an over skirt and side panels the waist fashioned in a draped effect with puffed sleeves, and worn with an exquisite picture hat of white tulle. Her flowers were a shower bouquet of brides roses and valley lilies.

Immediately following the ceremony, an informal reception was held at the home of the bride's parents, for the bridal party and relatives. Later in the evening, the bride and

SECRETARY LEDBETTER IS IN CITY TODAY.

W. T. Ledbetter, of Rome, Ga., is in the city today calling on his many friends and telling the world about Cloudland Park, in the mountains of North Georgia, close to Lookout Mountain. Mr. Ledbetter has just been made the secretary of the Georgia State Chamber of Commerce, a most responsible position and one that calls for a real executive and a real booster, but Georgia recognizes "the real stuff" in Mr. Ledbetter, and his Florida friends know they have made no mistake. Mr. Ledbetter, with his brother, were former owners of the Putnam House in Palatka, going from there to their wonderful summer colony proposition at Cloudland Park, one of the finest of mountain resorts with beautiful springs, bathing places, fishing, hotel and club houses and many up to date bungalows. TRAMMELL IS CONFIDENT OF 1922 ELECTION.

Senator Park Trammell, junior member in the United States senate from Florida, spent Tuesday in Tampa, not to talk politics, he said, but to renew old acquaintances in the "best part of the state, in the best part of the country."

The senator will be in Florida while congress is taking its four weeks recess, both for the purpose of getting some recreation, he says, and keeping closely in touch with the needs of the people of Florida. The senator came here Tuesday from Orlando, where Mrs. Trammell is visiting relatives, and left in the afternoon for Lakeland where he will meet Capt. A. J. Angle, who is to accompany him to a trip on the east coast where he will inspect his orange grove properties.

"I am gratified," the senator said, while here, "to see the evidences of development and growth in Tampa. My family lived here for a good many years and I am always pleased to have the opportunity to return."

Asked about conditions in Washington, the senator said that the republican party had failed in getting the remedial legislation through that they promised and that unless they can make a much better showing in the next few months, the democrats will be in a good position to carry the 1922 congressional election.—Tampa Times.

BIG EATERS GET KIDNEY TROUBLE

TAKE SALTS AT FIRST SIGN OF BLADDER IRRITATION OR BACKACHE

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; it neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

In the Circuit Court, Seventh Judicial Circuit, Seminole County, State of Florida.

Special Tax School District No. 3, Seminole County, Florida, by O. P. Swope, C. L. West and T. L. Lingo, Trustees, and C. F. Harrison, C. A. Dallas, and F. T. Williams, members of County Board of Public Instruction of Seminole County, Florida,

vs.
The State of Florida, ex rel Geo. A. DeCottes, State Attorney for the Seventh Judicial Circuit of Florida.

CITATION

To the Citizens and Tax Payers of said Special Tax School District No. 3, Seminole County, Florida:

Whereas: A petition has been filed in the above styled Court by Special Tax School District No. 3, Seminole County, Florida, setting forth the fact that an election has been called and held in said Special Tax School District No. 3, on the 9th day of August, 1921, to determine whether or not there should be issued by said Special Tax School District, bonds in the sum of \$20,000.00, to bear interest at the rate of six per cent (6%) per annum, interest payable semi-annually, principal to mature thirty years after the date of the bonds, and the said bonds to be dated July 1st, 1921, the proceeds of the said bonds to be used for the purpose of acquiring, building, enlarging, furnishing or otherwise improving school buildings and school grounds and for the exclusive use of the public free schools within said Special Tax School District No. 3; that a canvass of the returns of said election show prima facie that said election was in favor of the issuance of the said bonds as aforesaid by the said district.

Now, therefore, in pursuance to an order of the Court herein made and in conformity with law NOTICE is hereby given that the citizens and tax payers of the said Special Tax School District No. 3, Seminole County, Florida, are by the said order and by law required to be and appear before the Honorable Circuit Court of the Seventh Judicial Circuit, of Florida, on the 30th day of September, A. D. 1921, at ten o'clock in the morning, at Bradentown, Volusia County, Florida, there and there to show cause, if any they have, why said bonds should not be validated and confirmed.

Witness my hand and official seal of office at Sanford, Seminole County, Florida, this 7th day of September, A. D. 1921.

(SEAL) E. A. DOUGLASS, Clerk, Circuit Court, Seventh Judicial Circuit, Seminole County, Florida.

Altamonte Springs, One of the Beauty Spots of Seminole's Wonderland

ALTAMONTE SPRINGS has an atmosphere, and so have other places in Seminole County, but Altamonte's atmosphere has the peculiar quality of a Lodestone—it's inhabitants may remove to other places in other climes, but they always return or have a very strong desire to do so, and of course there is that—not very mysterious reason—Altamonte's beauty—for all humanity is drawn to beauty.

Altamonte Springs is placed in such a favorable location, that her man-made beauty, combined with the natural beauty, forms the Alta-Monte that we know today. The Altamonte of George Frost of Boston, of Herman Westinghouse of the great Westinghouse Electrical Company—who were among its founders—is not the Altamonte of today. Founded as the home of rich men only, we now reach out for residents of humbler means also, as we realize that riches alone do not make a town livable.

It stands to reason that the state was scoured by these wealthy men to find their ideal before founding their town. Therefore Altamonte's location is the pick of the state.

Altamonte Springs has an altitude of 220 feet—thus getting pine filtered sea air from the Atlantic Ocean 30 miles to the East, and the Gulf of Mexico to the West, forming that wonderful ozone known as the "Atmosphere of Altamonte" and when combined with the odor of orange blossoms and jessamine in season, and this combination comes breezing into one's window 24 hours a day, it is bound to give the ailing their health, and the healthy more health and joy of living.

Altamonte Springs has in its territory hundreds of acres of orange and grapefruit groves in high state of cultivation, and has within her boundaries five beautiful lakes with clean, sandy shores, no marshy borders. Lake Orienta (upon which is located the "Altamonte Hotel", famous among tourists all

over the country for its wonderful cuisine and excellent management of its owners, George E. Bates & Son) is the largest of these lakes and is noted for its black bass fishing, which is jealously guarded by the owners of the land surrounding the lake, who welcome the true fisherman with sporting ideals.

The "Altamonte Hotel" is located at the east end of this lake, upon a bluff overlooking the full length of its waters. Lake "Adelaide" is across a park to the rear of the hotel, and upon this lake is the "Altamonte Spring" of absolutely pure water.

The paved highway from Jacksonville to Tampa and all South Florida passes through Altamonte. A day's ride in an automobile may encompass two hundred miles in any direction without leaving a fine paved road, making Altamonte an admirable location for automobilists, a fine large garage is under construction and will be open for business in a few weeks, two stores with filling stations are handy and every advantage enjoyed in a city at hand.

Altamonte Springs is located on the Tampa and Jacksonville Division of the Atlantic Coast Line Railroad and gives fine service, Western Union Telegraph office, Express and Third Class Postoffice, Electric Lights, beautiful shady streets of large oaks, within 14 miles on brick highway of Sanford, and 9 miles on brick highway to Orlando. Winter Park, with Rollins College, is on the same road just five miles to the South.

The hotel is the center of social life with card parties, dances, etc., and Altamonte's winter residents and home-folks are of a superior order and of a prosperous, enlightened class. Our surrounding country and neighboring-towns of Longwood and Maitland are of the same order and are fine neighbors, and are only two miles away to the North and South.

The practical side of Altamonte Springs is not to be slighted in this article, for, aside

from her fruit industry, Altamonte is noted as having 40 acres in covered conservatories devoted to raising the beautiful Asparagus Plumosis fern used by florists. This is shipped in season mostly to the north, and the industry represents an investment of over a quarter of a million dollars and a payroll of hundreds of dollars a week. Hon. Charles D. Haines, ex-congressman from New York, heads the largest of these conservatories, The Royal Extension Fernery, Incorporated.

Mr. B. L. Maltbie, of the Maltbie Chemical Works, of Newark, N. J., is one of Altamonte's latest developers, and is planning a great future for us this winter.

Altamonte has a Chamber of Commerce, whose Secretary, W. B. Ballard, is always glad to give information upon request. Altamonte Springs has just recently been incorporated and is officered by unsalaried men of progressive ideas, but within keeping with a low millage.

George E. Bates and Son are men to whom Altamonte Springs owes much, as many coming as their guests buy property here and stay as residents.

Palm Springs, a noted resort, is only two and one-half miles through the pine woods to the Northwest of Altamonte. Here Mr. Lester Beeman has spent thousands of dollars to give a pleasure resort for the free use of the public, and one that is greatly appreciated. Mr. Beeman has a pretty little cottage at the Spring as have others from Sanford and Longwood.

Altamonte Springs has never been boomed or exploited, but is now on the verge of a growth that will not be sporadic, but steady and substantial.

A peculiar circumstance is the fact that there is only one "Altamonte Springs" in the world, and we are "IT". Numbers of "Altamontes" appear in the Postal Guide, but only one "Altamonte Springs."

Your big city competitor and the mail order houses are spending 5 to 10 per cent. for business publicity while you try to get along with one-tenth this amount or none at all.

The thing that obstructs your commercial vision is the little old stinking dollar that you are afraid to turn loose in payment for space.

EIGHT REASONS FOR NEWSPAPER ADVERTISING

Newspaper reading is a universal daily habit; newspaper advertising therefore reaches each day virtually all who buy.

Newspaper advertising is the lifeblood of local trade because it touches all consumer sources in every community. It gives the national advertiser the same opportunity for complete consumer appeal in any locality.

Newspaper advertising cuts selling costs because it entails no waste in locality circulation. Manufacturers use it to cover markets where it is profitable to do business.

Newspaper advertising insures quick, thorough and economical dealer distribution and dealer good will, because retailers are willing to sell products advertised direct to their own customers.

Newspaper advertising enables manufacturers to tell where their products may be bought.

Newspaper advertising can be started or stopped overnight, can be prepared between days to meet sudden developments and to obtain immediate results.

Newspaper advertising enables manufacturers to check advertising results and costs in every market which they enter.

Newspaper advertising costs less than any other kind.—St. Augustine Record.

FACTS AND FIGURES ON THE FREIGHT RATES

Representative merchants and growers of this and other sections met Tuesday night in Orlando in response to a call issued by the Ship-Water Committee of the Sanford Chamber of Commerce to form a permanent organization the objects of which would be to formulate plans for the utilization of our natural waterways.

The contention has always been that there was a direct saving in both time and amounts paid for freight as between rail and water, and this contention was again verified by the facts brought out by different speakers during the meeting.

S. J. Sligh submitted some very interesting figures showing the losses to shippers during the past season on account of excessive freight rates. Figures submitted by Mr. Sligh showed that Orange County had lost two and one-half million dollars due to these excessive freight rates.

The growers and shippers of Sanford may be interested to know that figures compiled for the period from November 10th, 1920 to April 9th, 1921, showed a loss for that period of \$755,350.00 which was considerably augmented by shipments subsequent to that period.

Mr. Sligh stated that Orange and Seminole counties shipped 25 per cent of all citrus and vegetable movements out of Florida, and the total loss to these counties was \$2,567,390.42. He further stated that the Traffic League of Orlando, of which he was president, had, in conjunction with similar organizations and organizations of growers, repeatedly appeared before the Interstate Commerce Commission in an endeavor to ameliorate these conditions, but without results.

In conclusion he recommended that in order to secure immediate relief the merchants and growers avail themselves of water transportation where practicable and which would insure them more efficient service and cheaper rates.

Mr. Sligh was followed by F. L. Skelly, of Orlando, who quoted the differentials favoring water on citrus fruits and advised that shippers of citrus fruits could save 58c per box by shipping via the Clyde Line from Sanford to New York.

J. W. Hart, secretary of the Palatka Chamber of Commerce advised the meeting that past experiences had proven the efficiency of water competition in deflating rail rates when generally used for this purpose. He also advised that shippers continue to route by water even after they had gained the much desired reduction.

D. C. Marlowe, chairman of the Traffic and Transportation Committee of the Sanford Chamber of Commerce cited specific instances where excessive freight rates had been responsible for loss on shipments which would have shown a profit had previous rates still been effective.

Representative of a freight truck line operating between Sanford and Orlando assured the meeting that the concern he represented would be willing to establish a freight truck line between interior points and Sanford providing sufficient business could be guaranteed to make its operation profitable.

The entire meeting was devoid of the usual hurrah enthusiasm and the earnest inflection in the voices of the speakers showed that they were in dead earnest that the new organization should not only be aggressive, but efficient and permanent.

"Pay your bills by check; it's safer"—Bank advertisement. It isn't always safer for the man who gets the check.

THE RAILROAD SITUATION—WHO IS TO BLAME?

The following article is written after long and due consideration. A careful study has been made of conditions and the editor has talked to many railroad men, including the heads of various unions and the ordinary laborer on the roads.

The railroad working man has been cursed because of the wages he drew, because freight rates are high and because of passenger rates. It seems to be the general conception of opinion that the laborer is entirely to blame. The editor concedes the fact that about half of what is the matter with present high prices is due to the cost of transportation between the manufacturing point and the point of consumption.

After the outbreak of the war the rail heads said passenger and freight rates would have to go up so that they could meet the increase in wages that was demanded and the increased costs of new machinery, repairs, etc. The main cry was wages. The American public stood the knife and the rail heads got tremendous increases.

The Railway Labor Board met and heard the rail heads and granted them a reduction in the wages they were paying, but the owners have not passed this reduction on to the people. The employees are now arguing the question of a strike. Had this reduction been given to the farmers in the way of reduced freight rates for their farm products to the markets, the editor does not believe a single word of protest would have gone up from the men.

It is very probable that the roads will again soon ask another reduction in wages. Will they pass this on to the people? Not unless they are absolutely compelled to do so.

While the wages of the average railroad worker are higher than those of other laborers, the fact must be taken into consideration that it costs the railroad man more to live. Take for instance the railroad man in High Springs with a family. He must necessarily maintain a home in High Springs for his family. Say his run is from High Springs to Lakeland. He must maintain rooms and an eating place in Lakeland. This is an added cost that the average worker does not have to stand.

He thought the railroad worker was the man that was holding the people up, but he has been convinced otherwise. He now believes that it is the rail heads that are doing the holding up and American sentiment must turn against the big man and not his worker.—Gainesville News.

people, who run them out here, made a
trip over Sanford, went to Orlando,
and then to DeLand landing, and put the
car on the Clyde line boat again and felt
like they had seen something, and it was
worth the effort. They did not mind the
extra money for shipping the cars here at
all. They were business men of New York,
who are too busy to get down here in the
winter time and they thought that Florida

CLYDE LINE EXCURSIONISTS SEEING FLORIDA

The Clyde Line summer excursions to
Florida are proving more popular than
ever this season. These excursions
were put on before the war and
were just beginning to take the
public eye when the war came on and
knocked all excursions into a
cocked hat. This is the first summer
they have resumed and if the big
crowds that come to Sanford three
times a week are to be considered,
it would seem that all the folks in
the northeast, are coming to Florida
in the summer time. It is certain that
these excursions are of greater value
to Florida from an advertising point
than the excursions in the winter.

Everyone knows that Florida has
the finest climate in the world in the
winter, but few know that the same
holds true of the summer climate,
and they can only gain this knowledge
by coming down here in the middle
of the summer season as they are
now doing on the Clyde Line. Among
the big crowds of summer trippers
coming here this week were a party
of people who brought their automobiles
with them for purpose of seeing
Sanford, Orlando, and DeLand, and
while it might seem rather
extravagant on their part, to ship
their autos down from New York,
for this short trip, they were well
satisfied with the returns when they
had driven around Sanford, Orlando
and DeLand, and taken the autos on
the boat again at DeLand Junction.
These excursionists are for the most
part busy business men who want to
see Florida but cannot get away from
business in the winter time, and they
are boosters for Florida from this
time forward, and they are looking
to the time when they can leave
business and come down here to either
remain for the winter or become
residents all the year round.

FATTY ARBUCKLE GETS TWO COUNTS AGAINST HIM

San Francisco, Sept. 15.—The
way was clear today for a speedy
trial of Rescoe (Fatty) Arbuckle,
motion picture comedian, on one of
two charges which hold that he is
responsible for the death of Miss
Virginia Ruppe, motion picture actress,
after she had been subjected to an
alleged attack in his rooms in the
St. Francis hotel.

The first charges is murder preferred
Monday by Mrs. Binnie Maude
Delmont, who said she was in an
adjoining room at the time of the
attack. The other is for manslaughter,
returned by the grand jury last night
which will become a formal charge
when it is charged.

The coroner's inquest, which started
Monday, was continued today with
Miss Zeh Prevost and Alice Blake,
show girls, as witnesses. They attested
to the authorities and to the grand
jury that they were present at the
Labor Day party in the St. Francis
hotel at which Miss Ruppe is alleged
to have received the injuries that
resulted in her death four days later.

Arbuckle received news of his indictment
in the city prison today. He said
nothing and appeared unmoved.
Newspapermen who attempted to
interview him noted that his face
was more pallid than usual and that
an air of dejection seems to have
settled on him.

Mariana Bertola, president of the
Women's Vigilance committee, said
that she expected the committee at
its meeting today would adopt
resolutions pledging every possible
assistance to the authorities in the
clearing up of the Arbuckle case.

"We will have a committee of women
at the trial," Miss Bertola said.
The grand jury indictment came
after two sessions, each lasting many
hours. At last night's session Zeh
Prevost and Alice Blake, show girls,
testified and Grace Halston, a nurse,
who attended Miss Ruppe was
closeted with the jury.

Zeh Prevost and Alice Blake were
guests at the party where Miss Ruppe
is alleged to have suffered injuries
from which she died. The grand jury's
voicing of an indictment charging a
lesser offense than murder will not
make Arbuckle eligible for bail at
once, the district attorney declared.
He will not be able to obtain
temporary liberty on bail until the
murder charge is disposed of, said
the district attorney. If the murder
charge is withdrawn he will be able
to obtain his freedom after the
hearing on the manslaughter charge.

Zeh Prevost, before the grand jury
last night, is said to have altered
statements she made to District
Attorney Brady last Saturday which
caused a charge that witnesses had
been intimidated. Alice Blake, in her
statement, corroborate Miss Prevost's
statements, it was said.

Miss Halston told of being present
at the postmortem on the body of
Miss Ruppe, which was performed by
Dr. Wm. Ophule and Dr. M. E. Rumwell,
last week.
