

War Views On Battlefield At Sinai Different From Israel And Egypt

By THE ASSOCIATED PRESS
Egypt claimed its tanks counter-attacked new positions in the Sinai Desert today after beating back an Israeli counter-offensive. Israel said the Egyptians again tried to push forward in the desert's northern reaches but were stopped short.

The Egyptians said they advanced farther into the Israeli-occupied Sinai peninsula in a tank battle Sunday that cost the Israelis 150 tanks and 29 warplanes.

But the Israelis said they relinquished no ground in the seven hours of desert fighting and claimed the attacking Egyptians lost more than 200 tanks and 15 planes.

"The pattern of today's fighting has become localized clashes in various sectors," the Egyptian statement said.

On the Syrian front, Damascus reported heavy tank, infantry and artillery battalions raged as the fourth Arab-Israeli war ground into its 10th day.

Syrian shelling was slowing the Israeli advance toward Damascus and the Israeli tanks were reported about 21 miles from the ancient Syrian capital. Correspondents with the Israeli forces reported that long-range Syrian guns opened up whenever the armored columns tried to advance.

The Israeli military command also reported another naval exploit. It said its naval patrol boats sank 14 "armed fishing type" boats in harbor of Has Gharib, on the Gulf of Suez during the night. Israel said the harbor, 20 miles across the gulf from Israeli forces on the Sinai peninsula, was an Egyptian commando base.

Otherwise, the Israeli command said, it was a quiet night on both the Syrian and Egyptian fronts.

"The Egyptian military command said the fighting Sunday along the 102-mile Sinai front 'raged with utmost violence and savagery.' Egypt said its forces made territorial gains all along the line.

But in Tel Aviv, the Israeli command claimed Egyptian armored units failed to penetrate the Israeli defense line which it said was still about 24 miles inland from the Suez Canal.

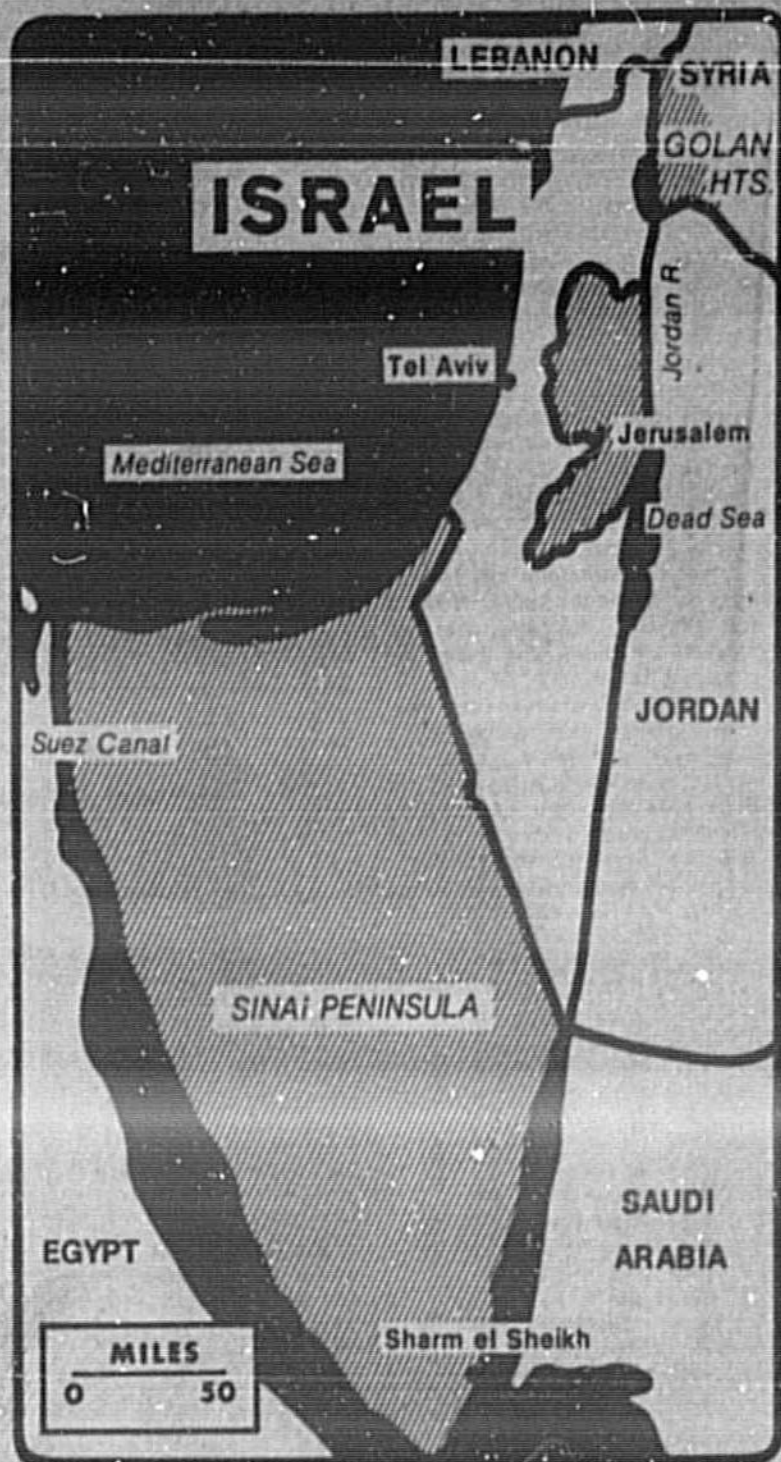

Associated Press correspondent Paul Kohn reported from the front that he saw no evidence that the Israelis gave up ground.

Defense Minister Moshe Dayan said in a televised speech Sunday night that the "serious, decisive battle" with Egypt was yet to come.

"This is not like previous wars. It is a war of many days and much blood," he said. "The important question is not a cease-fire. It is how much equipment the enemy will have left when we have finished the war. What we would like is for the Arabs to hurt so badly that they cannot think of war."

The Israeli command announced Sunday that Israel had lost 656 soldiers in the first eight days of fighting; the state radio gave an unofficial figure of 2,000 wounded. Neither Syria nor Egypt has given casualty figures.

Egypt reported intense air battles over the northern Nile delta Sunday and claimed 15 Israeli planes had been shot down.

Meany Says Peace Agreement Topples

MIAMI BEACH (AP)—AFL-CIO president George Meany indicated today the tentative peace agreement with the Teamsters for settling the California Farm Worker dispute may be falling apart.

"Something has happened," Meany said. "We reached an agreement then all of a sudden nothing."

In speech to the AFL-CIO Maritime Trades Department, he said there had been no contact with the Teamsters since the tentative peace pact was announced Sept. 28 in Washington.

Efforts to contact the Teamsters have been unsuccessful, he said.

At that time, Meany and Teamsters President Frank E. Fitzsimmons disclosed a "agreement in principle" with United Farm Workers President Cesar Chavez that would end the long and sometimes violent jurisdictional fight between the two unions. Details of the agreement were withheld pending a examination of the legal "language" by counsel for Meany and Fitzsimmons.

Meany said all that remained was final approval by himself and Fitzsimmons.

"We have not given up

hope...whether they go through with the agreement, I don't know," he said.

Meany gave no indication as to the nature of the problem but said a full report would be made during the AFL-CIO Convention which opens here Thursday.

Under the tentative agreement, the Teamsters were to have repudiated contracts signed this year with California grape growers and leave organizing of 50,000 hands to Chavez's union. The Teamsters would retain jurisdiction over all other workers, such as in the canneries, warehouses and packing sheds.

County Receives Fire Plan

A \$68,664 preliminary budget request for the newly-created Seminole County Fire Protection Department was presented today to the county commission by Gary Kaiser, chairman for the fire standards committee.

The commission, noting \$4,866 has been earmarked from federal revenue sharing funds for fire protection, indicated it will settle the budget disparity at Tuesday's regular meeting.

GEORGE MEANY
...Something happened

The board last week passed the ordinance, effective Nov. 12, setting up for the unincorporated areas an authority for building inspections and plans review that can be enforced by the district fire chiefs, according to Kaiser.

Kaiser called his budget request a "minimum necessary to effectively implement the program," saying he doubted an inspector can be hired at the \$7,500 rate set by the county.

The budget includes \$15,000 salary for the department head for which Kaiser, former Altamonte Springs fire chief, is the apparent top candidate.

Agnew Talks To U.S. Via Television Tonight

WASHINGTON (AP)—Former Vice President Spiro T. Agnew addresses a television audience tonight and sources indicated the farewell speech may be an instruction on avoiding the problems that ruined his political career.

The approximately 15-minute speech is to be televised live at 7:30 p.m. EDT by NBC and CBS.

SPIRO AGNEW
... Career ruined

Agnew resigned Wednesday and pleaded no contest to a federal charge of income tax evasion.

He spent much of the weekend working on the speech, without the help of his speechwriters.

Sources close to the former vice president said the speech would be "largely his own work."

"There won't be any whining and complaining and I don't expect him to be terribly defensive about it," said one associate. "But I think he will state his case firmly."

After leaving the U.S. courthouse in Baltimore Wednesday where he was given a \$10,000 fine and three years' probation on the tax charge, Agnew promised he would make the speech.

LBJ, High Court Bugged: Douglas

WASHINGTON (AP)—Supreme Court Justice William O. Douglas asserted today that President Lyndon B. Johnson's phone was tapped during his term in the White House.

Douglas also asserted that the Supreme Court's ultra-confidential conference was bugged.

Douglas' assertions came in a dissent to what would normally have been a routine action denying bail to a criminal defendant.

"We who live in the District of Columbia know that electronic surveillance is commonplace," wrote Douglas. "It is indubitably certain that the conference room of this court has been 'bugged,' and President Johnson during his term in the White House asserted to me that even his phone was tapped."

Douglas offered no substantiation for either claim.

Board To Study Electric Ordinance

Seminole County commissioners were scheduled today to work on a proposed electrical ordinance blasted last week by the grand jury as an example of how some public officials show "carelessness toward public property and life."

Commissioners have not formally discussed the grand jury report since it was issued late Tuesday.

Dennis Lee Shindle, 31, a member of the county electrical review board, will be arraigned today on extortion and perjury charges stemming from the grand jury probe.

The "voluntary" suspension of Shindle, 1400 Allison Drive, Altamonte Springs, was requested by the commission after the report detailing what proper and possibly illegal construction and inspection practices in the county.

The charges against Shindle stem from an alleged incident in the building department offices in which he reportedly told an electrical inspector to expect "a couple of accidents" if a job by Shindle was continued through Tuesday.

Altamonte will appoint City Charter Study Panel

ALTAMONTE SPRINGS—A 9-11-member charter study commission will be appointed by the city council at its 4:30 p.m. meeting Tuesday.

Mayor Lawrence Swofford said today the commission will hold public hearings to determine recommendations to be made to the council on a new city charter.

The present charter was adopted in the late 1960s. Swofford estimated the charter study will take about one year.

Also on the agenda is a report from consulting engineer Bill Palm on costs of hiring an engineering firm to do an analyses of the new sewer interceptor system.

The board will discuss memos from the zoning department, a fire prevention code and will hear from representatives of the Maitland-South Seminole Chamber of Commerce on a proposed election rally.

Weather

Yesterday's high 86 low this morning 65. Partly cloudy for the most part through Tuesday with slight chance of showers. Highs mostly mid to upper 80s. Lows tonight mid to upper 60s.

Shower probability 20 per cent through Tuesday.

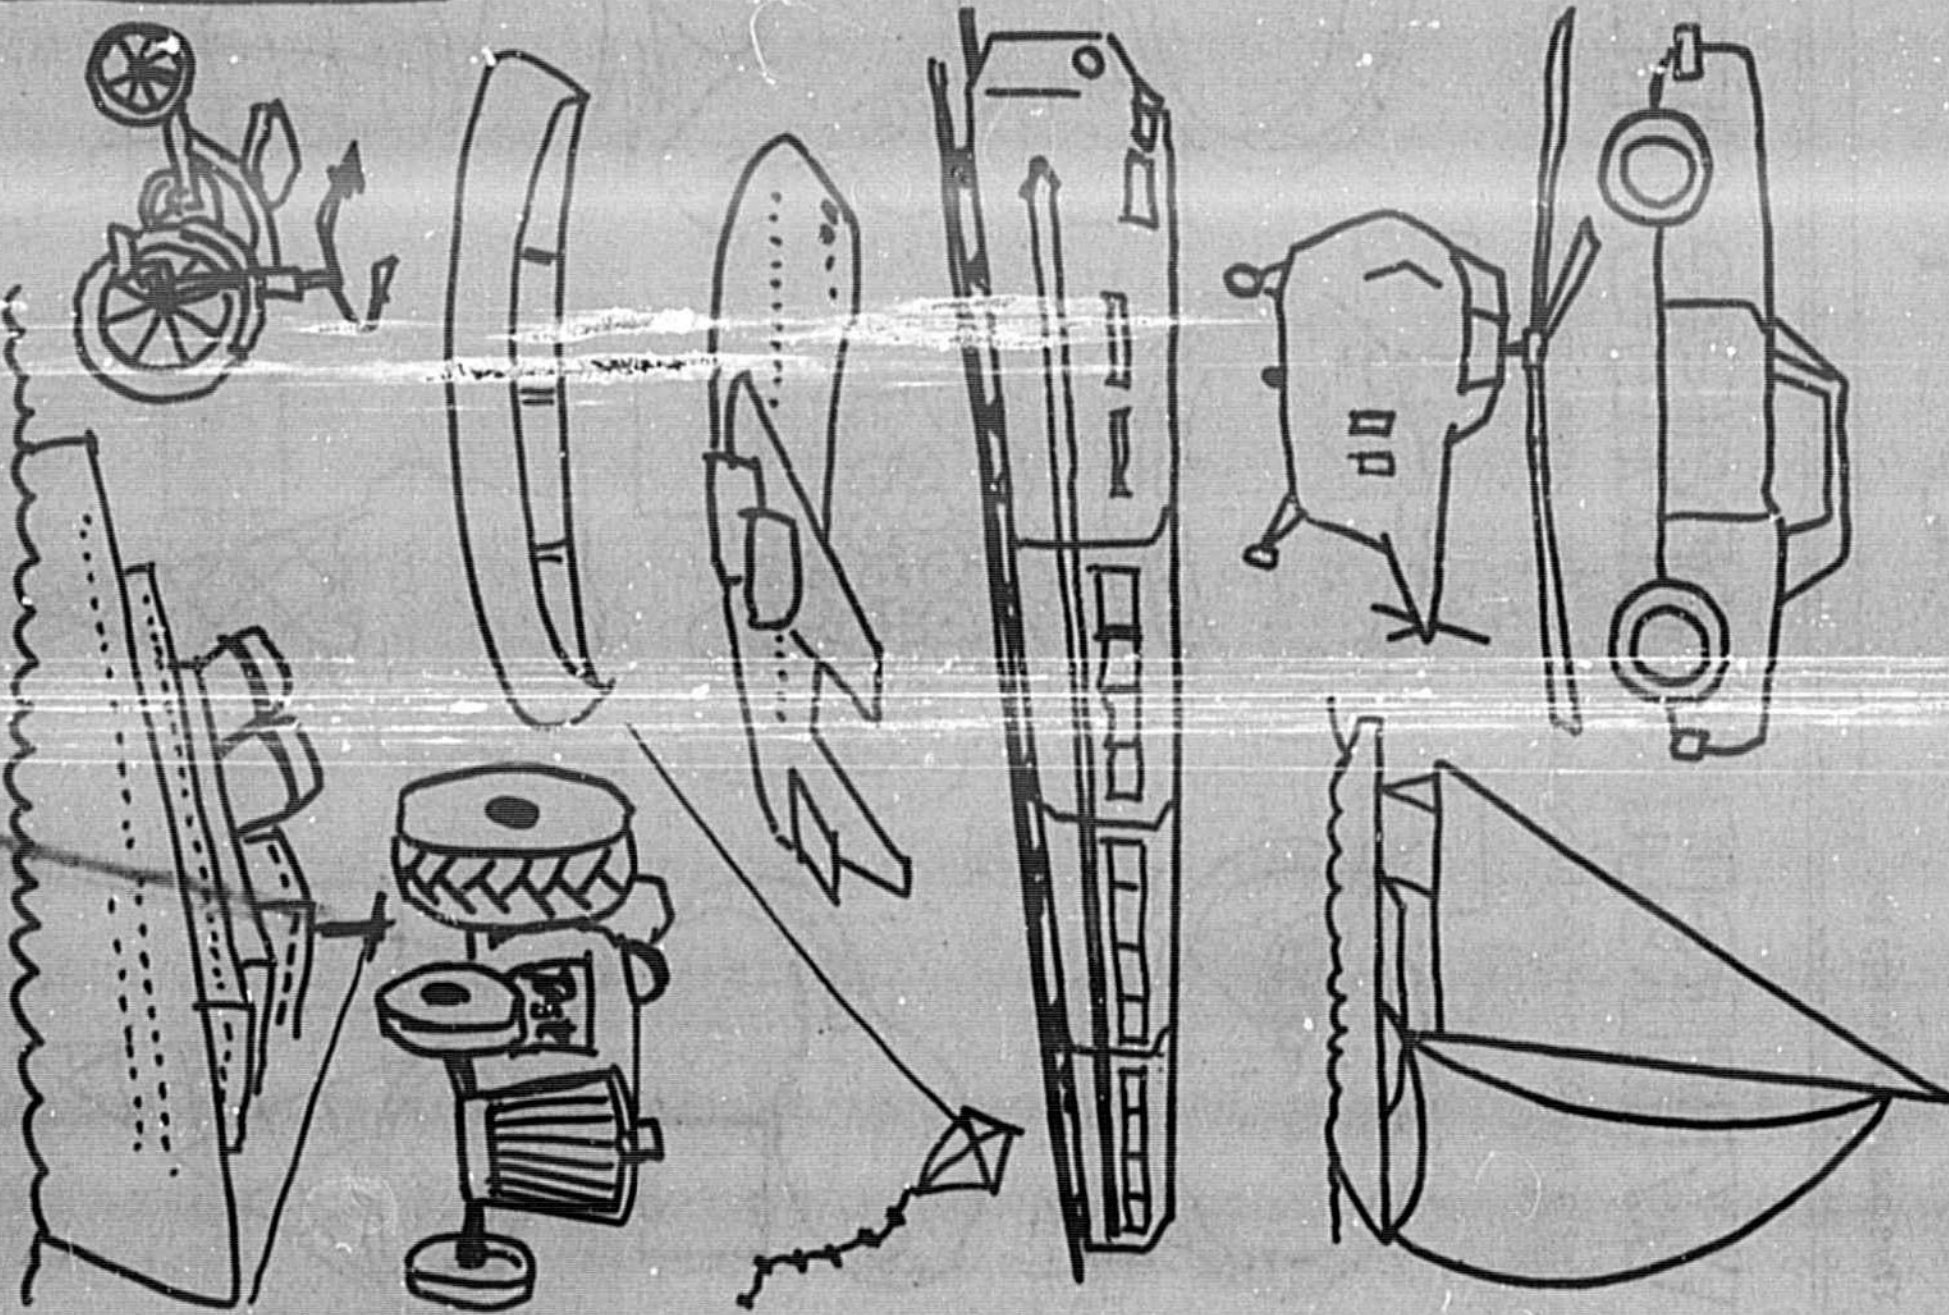

Thanks to you it's working

ABOUT ANIMALS

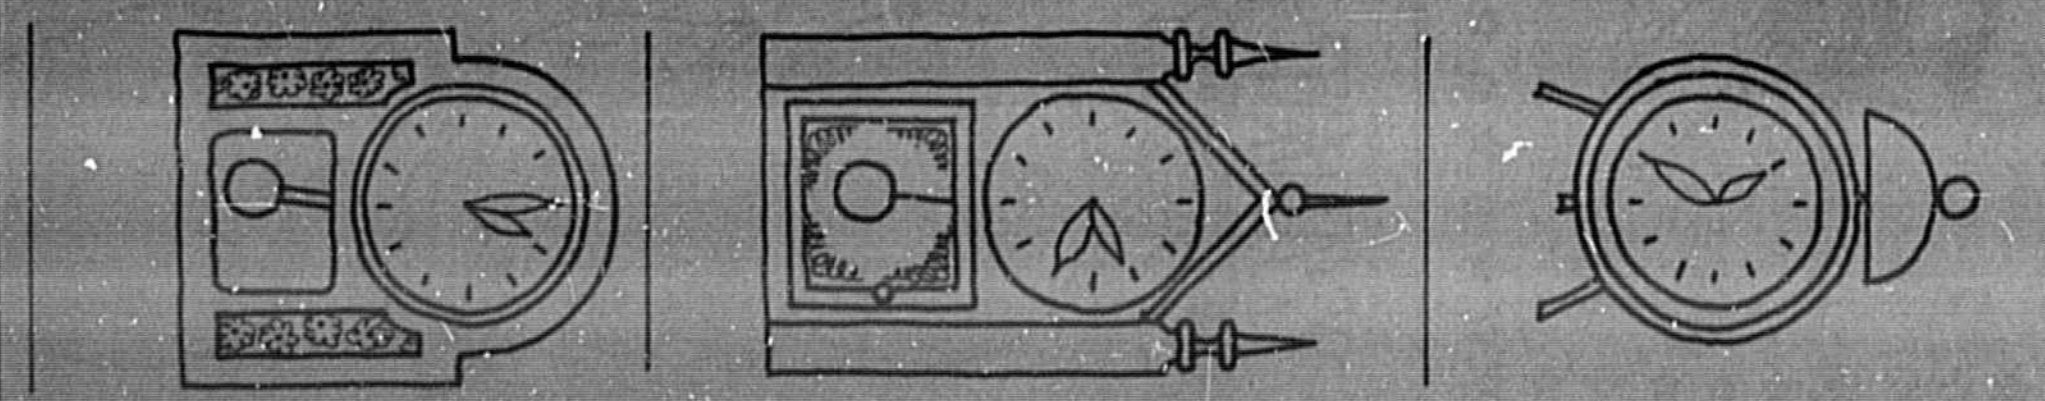

JAVELINA — The Javelina or peccary pig-like with a coarse coat and no tail. Peccaries are found in southern Texas, Arizona and New Mexico, and in most of Mexico. They prefer the cool of the mountains. They are the only members of several or more peccaries eat most anything including other animals. When alarmed, the peccary gives off a strong unpleasant odor. The animal is considered a game animal and the flesh good eating.

Egyptian President Threatens Israel With Missile Attack

By THE ASSOCIATED PRESS
President Anwar Sadat of Egypt claimed today that Egyptian missiles are poised "to be launched to the very depths of Israel any minute," but declared his readiness to attend a peace conference under U.N. auspices.
Tank and artillery battles raged in Syria and the Sinai as he made a tough-sounding address to an applauding People's Assembly in Cairo, and Israel said its jets were raiding bases in the Nile Delta.
Sadat coupled his threat with an announcement he is ready to reopen the Suez Canal, closed since 1967, and attend a U.N. peace conference

Hospital Board Votes Rate Hike

Rising costs have prompted a room rate hike, effective Dec. 3, for Seminole Memorial Hospital.
Hospital trustees Monday voted to charge patients \$41 for a semi-private room, up from \$39 and \$33 for a ward bed, up from \$30. Unchanged is the \$46 a day rate for private rooms.
With opposition from trustee Curtis Holland, and no vote by chairman John Schirard Jr., hospital administrator Robert Besserer defended the \$1 rate increase decision as "bringing us a little bit more in line with other hospitals in the area."

Agnew: He spoke to clear the air; but, did he do it?

AROUND THE CLOCK
By John A. Spolski
In summation... I know you believe I understand what you think you said, but I am not sure you realize that what I heard is not what you meant... (or something like that).
Some people just don't want to be tied down with a steady job, no matter what it pays. Others like a few chickens roosting in the parlor—it's easier to gather the eggs or catch a lousy lawyer for the pot. Some people are different and that makes the world go round.
It also means there will always be those considered to live in poverty no matter how many tax dollars are thrown at the problem.

Casselberry City Hall Expansion Is Argued
By JEAN PATTESON
Casselberry City Manager Ron Bergman, in a report to council Monday night, said the city should be studying ways to expand city hall facilities.
Bergman recommended a consultant be called in to report on space needs and the suitability of the proposed expansion site on U.S. 17-42 in front of the Casselberry Post Office.
In a "chicken and egg" argument later, council argued whether more is understood, the site is available before any studies start.
"We have money budgeted for a study," said Bergman. "We need a report on the demand for additional space, an analysis of the proposed site, preliminary plans and cost analysis, and a study of purchase techniques."

Expanding City Hall
The quarter-million dollar city hall, built four years ago, was designed with supposedly enough space to see the city through 25 years without expansion being necessary.
The building does not allow either upward or outward expansion, in accordance with architect Eoghan Kelley's philosophy that a municipal building is obsolete after 25 years and should be rebuilt, not added to.
Mrs. Duerr said members of council should be included in any group of consultants doing a study of requirements.
"Let's get a consultant to do a study of the city hall," she said.
Councilman Edith Duerr asked whether they could get an option on the land long enough to make a study worthwhile.

Gas Dealers Varying On Hiking Fuel Cost

Motorists will find higher gasoline prices at many service stations today, the result of new price action by the Cost of Living Council.
The council Monday all but abandoned the rigid gasoline price ceilings that had drawn extensive complaints from gasoline retailers.
"Things aren't going to be too bad now we're able to raise our prices," said Ben Williams, manager of Williams Amoco service station on South Orlando Drive. Williams upped gas prices at this station eight-tenths of a cent this morning.
