Member Audit Bureau Of Circulations

City Commissioners And Attorney Fail To Answer Questions

Mention Is Made Of
Where Funds Are Or
For What They Were
Spent; Large Crowd
Series Twisted
To Suit Purpose

Douglass, Herring &
Herald Bear Brunt
Of Speakers' Attack

With a flourish of oratory,
characteristic of Fourth
of July speakers at a barbecue,
members of the City Commission
and City Attorney George
DeCottes last night made
efforts to disprove charges
of mismanagement in the
city government and in many
instances ignored questions
which have been propounded by
the speakers. The officials
came from the band shell to a
stand that numbered almost 50
people.

The City officials not only denied
that they had made any efforts to
bring the election against the
proposed amendments, but in
answering certain questions the
speakers stated that to suit
their convenience. This was particularly
true with reference to the
Swimming pool funds and the
Dreamworld. According to the
speakers, "What became
of the swimming pool money?"
"What happened to the money used
for the streets of Dreamworld?"
The speakers chose to change the
questions to "Why wasn't the swim-
ming pool built?" and "Why were
the streets of Dreamworld paved?"
No mention was made of the
fact that the pool had been
started by the late Mayor
Homen, who had informed a representative
of the Sanford Times
that he had neglected to mention
that the \$100,000 voted for this
purpose was in the bank.

One of the speakers admitted
that the Hotel Forrest Lake owed
the city something like \$2,200 for
water and gas, but no reason was
given as to why this hotel
should have received credit when
other hotels in the city are com-
pelled to pay their bills or have
their service discontinued.

A long explanation was given as
to how city bonds are voted, val-
ued and then offered for sale.
A minute description was offered
as to the disposition of bonds, the
payment of commissions and how
the bond issue is handled. The
speaker stated that the City Com-
missioners, who have handled these
matters, and they in turn touch upon them
individually as the evening progresses.

I have here two advertisements
that have appeared in one of the
daily papers, one under date of
July 28; The people have a right
to know; one under date of August
2, stating "Eight reasons why we
want a change," such of those
questions as bear on the activities
or work of your City Commission
will be answered without fear,
simply in the tone of your servants
making a report to you on their
actions.

Some clauses which were purely
irrelevant, which do not have any
bearing whatever on the action of
your officers have not been touched
upon, but every question here pro-
pounded in these two advertise-
ments will be answered for you tonight.

Stenographic Report

At a mass meeting of the citizens of Sanford, on the evening of August 4, held at the band shell on the lake front—the following speakers addressed the citizens, attempting to answer the "whys" thrown out to them by a meeting held on Friday of last week:

By Jessie D. Klienman, reporting the meeting for the Sanford Herald:

Chairman, S. O. Shinholser, opened the meeting promptly at 8 P. M. with the following remarks:

Ladies and gentlemen: at a meeting of this kind it is of course customary for the Chairman to make the introductions; in the beginning it is my pleasure to introduce your Chairman for the evening, S. O. SHINHOLSER, plain citizen of Sanford, Florida, not Mr. Shinholser, president of the Chamber of Commerce.

One of our papers made some reference to Mr. Shinholser as president of the Chamber of Commerce; the Chamber of Commerce has no connection with this meeting this evening. It has been the policy of the Chamber of Commerce to represent a body of men regardless of political affiliations, creed or personal professed of any kind, who are united together strongly for the best advancement of the City.

I wish to say that to both sides of this controversy, I wish to extend my thanks for the efforts of both sides to keep the Chamber of Commerce entirely clear of any political affiliations in this or any other political fight. So you have before you in your Chairman tonight, S. O. Shinholser, Citizen of Sanford, Florida.

Your Chairman will not attempt any speech but will simply introduce your various commissioners and the City Attorney who have handled these matters, and they in turn touch upon them individually as the evening progresses.

I wish to say that there was some request, or some thought, of making this a kind of joint debate affair. Ladies and gentlemen, if we started into a joint debate those that were left if not somewhere in the river would still be here tomorrow morning, still debating. I do not think in the meantime that through a joint debate anybody would be particularly enlightened, or any of the public could be convinced one way or the other as to the merits or demerits of either side. Consequently we have eliminated all joint debate in this meeting tonight. This meeting will be simply a report of your servants, the City Commissioners, and George A. DeCottes, your City Attorney.

In a great many cities, ladies and gentlemen, and especially in Florida just at this time, not only a popular indoor sport but a popular outdoor sport, is to roast our City Commissioners or Aldermen, as the case may be. In some towns they roast them likely because they have done things, and in some towns because they haven't done things. I suppose from the beginning of time it had been the custom once-in-a-while to roast the Fathers. Ladies and gentlemen, I wish to say that I am thankful I live in a town today where we roast our City Fathers because they

DREHER ASKED JAMES DEADLE TO BRING GUN

Trapper's Wife Placed Upon Stand In Effort To Prove Illicit Love Affair Between Doctor And slain Man's Wife

Daughter Of Trapper Also Put On Stand

Doctor Testifies Last Night That He Had One Who Fired Upon James LeBoeuf

COURT HOUSE, FRANKLIN, La., Aug. 5.—(INS)—It was Dr. Thomas E. Dreher, on trial with Mrs. Ada Homer LeBoeuf and James LeBoeuf for the alleged slaying of the woman's husband, that requested Deadle to bring a shotgun with him when they left to shoot LeBoeuf on Lake Palmdale.

This was the claim of Mrs. James LeBoeuf when she testified on her husband's behalf this morning in efforts of his attorneys to prove an illicit love affair between Mrs. LeBoeuf and Dreher as the motive for the murder of the woman's husband.

Mrs. LeBoeuf took the stand fresh and sweet as the first witness on behalf of her husband. She testified that on the night of the shooting, she and her husband were in the room with her father and mother. She testified that she saw Dreher and LeBoeuf together in the room and that she saw Dreher leave the room with a shotgun.

Dreher testified that he had one who fired upon James LeBoeuf. He testified that he saw the man shoot LeBoeuf and that he saw LeBoeuf fall. He testified that he saw LeBoeuf's wife enter the room and that she saw LeBoeuf's body.

The matter passed along and it was concluded that the case would be tried on Monday. The court adjourned until that time.

Among a group of ancient volumes shown recently in Chicago was one with leaves of thin brown paper, decorated in brown and gold. The covers of this book are of wood.

Possibilities of bulb industry in this county emphasized by F. W. Bender

Election Returns To Be Given Tonight

All arrangements have been completed by The Herald in publishing election returns and holding them on a special table in front of this office. The Sanford Odd Fellows lodge has loaned The Herald the use of the stenographic machine and City Manager Williams and Chief of Police Roy G. Williams have agreed to run off the report and place same in front of the office so that those who desire to get the results of the election, may call on the City Hall, or to talk with the other staff of the office. This office will be open to the public from 10 o'clock to 6 o'clock. The report will be published immediately upon the close of the election. Those who are cordially invited to be the first guests tonight.

LONG DISTANCE FLIGHT RECORD IS ANNOUNCED

German Aviators Using Same Plane In Which They Hope To Fly To U. S. Honors In Air Achievement Experiments

Former Record Was Held By Chamberlain

Flight Made Between Berlin And Leipzig And 30 Gallons Of Gas Remain At The End

BERLIN, Germany, Aug. 5.—(INS)—The aviators of the Reich today announced that they had completed a long distance flight between Berlin and Leipzig, Germany, in a plane which they hope to use to fly to the United States. The flight was made in a plane which was built by the German aviator, Hans von Seeckt, and was equipped with a new type of engine. The plane was able to fly for 20 hours and 30 minutes, and 30 gallons of gas remained at the end of the flight.

LOCAL CITIZENS CAST HEAVY VOTE IN EARLY HOURS

Early Ballots Polling During First Fifteen Minutes After Polls Open; Over 200 Votes Yes Cast By Twenty O'clock

The polls opened at 7 o'clock this morning and the citizens of Sanford cast a heavy vote in the early hours. By 10 o'clock, over 200 votes had been cast, and the majority was in favor of the proposed amendments.

APACHE EXCITED

MONTECALMO, Aug. 5.—(INS)—George Sacco, formerly an Apache and now a citizen of this town, today announced that he had been elected to the position of Apache chief in his native land.

REDEEMER HOPS OFF

DETROIT, Aug. 5.—(INS)—Paul R. Hoffman hopped off today for Brunswick, Ga., in his Stinson. Hoffman is a prominent business man in Detroit and is expected to return to his home town in a few days.

DETROIT GOODWILL FLIGHT

SEAFRIDE, FIELD, Mich., Aug. 5.—(INS)—Frederick A. Gilber, English aviator, plans to hop off Monday for "Detroit's Good Will Flight" on the first leg of an air journey to Wellington, New Zealand. The journey will cover 11,500 miles.

THREAT TO BLOW UP

WASHINGTON, Aug. 5.—(INS)—A threat to "blow up" some of the big "hops" if Sacco and Vanzetti are not freed was received at the Supreme Court today. It was written on a post card which was mailed at 10 P. M. yesterday in the north side station, Pittsburgh.

DeCottes Propounds Legal Side Of Sale Of Municipal Bonds

The following is a stenographic report of George A. DeCottes' address, delivered Thursday night at mass meeting held at the Municipal Pier, as prepared by Mrs. Jessie D. Klienman:

Mr. Chairman, ladies and gentlemen: I have been called here tonight as the head of the legal department representing the City of Sanford, and at the request of the City Commissioners, to make a legal address in reply to the attacks that have been made upon your City Commissioners with reference to the legality and the manner in which the bonded indebtedness of your City has been negotiated.

I will, as briefly as possible, cover the phases of the discussion, but before going into that matter I feel it my duty, on behalf of the City Commissioners, to say a few words with reference to a news article, appearing in the evening paper and signed "Press Dispatch," in which it was stated that the Supreme Court of the State of Florida yesterday handed down a decision, invalidating all assessments levied and issued throughout the State of Florida by the City with regard to street paving and those instances where bonds had been issued against those special assessments.

That is all right as a news article, but coupled with that news article, it was followed up with an interview from one of the leaders of the proposed amendments to your City Charter, who stated in an interview with the evening paper that he recalls an incident five years ago, that while serving as one of the Council appointed by the City Commissioner to approve the new Charter for the City of Sanford, Florida, with myself and your late Circuit Judge, who resided and now resides in Orlando, Florida, J. J. Dickinson, had reviewed a minute report to the City Commission asking them to adopt what is known as a 50-50 plan, that is making the streets and roads the proportionate cost to be paid the owners of the adjoining property on each side of the street.

And this gentleman would have believed that his personal belief was so broad and sufficient that he could say at that time, against the legal judgment of lawyers here practicing at the bar of your City, Judge Dickinson, Mr. J. J. Dickinson, that it was illegal and not lawfully issued under the Charter of 1924, and reported in 101 Southern Reporter 227, the opinion being rendered by Justice Terrell.

"In the construction of said Charter 9298, Laws of Florida, 1923, has been constructed by the Supreme Court of this State in the case of Walters vs. City of Tampa et al, decided August 2nd, 1924, and reported in 101 Southern Reporter 227, the opinion being rendered by Justice Terrell.

"That's not my language, that's what I believed to be the law when I approved this act and a test case was made and carried to the Supreme Court—and that's what Caldwell and Raymond of New York, the leading experts upon this question in the United States, believe to be the law, and that's what the Supreme Court said was the law—and I have a telegram from my correspondent in Tallahassee: 'They haven't reversed that decision—yet this is the case, this evening paper, comes out and says the law has been violated and that we are going down to destruction and damnation.'

"Voice from the audience 'Hear him talk.'

"Those are facts, my friends; what the evening paper has to say, by the issue, and its only for the purpose of muddling the water, and if you want to know what that gentleman is, that man's name is E. A. DOUGLASS. I want to ask you, do you think Mr. Douglass knows more than I do on a legal question. Knows more than Caldwell & Raymond of New York and more than our Supreme Court and more than our State Court and more than our City Fathers because they

Police Court Docket Small This Morning

Thomas Taylor, charged with possession of liquor, a fine of \$200 or 30 days in Police Court this morning. There were only four cases on the docket. M. C. Bell charged with larceny was transferred to the county.

VISIONS OF EASY MONEY

NEW YORK, Aug. 5.—Visions of easy money, lower borrowing rates and a wider influx of investment funds into the stock and bond markets stimulated active buying of the so-called investment industrial stocks today, and the following yesterday immediately followed yesterday's heavy trading many of the active issues to higher price levels.

NEW FORDS

DETROIT, Aug. 5.—(INS)—Certain changes in specification on the new Ford were ordered yesterday making immediate production of the car as a whole impossible, it was learned today. Officials declined to predict when production would be expected as a unit, explaining that some departments were still waiting specifications.

COTTON MARKET

NEW YORK, Aug. 5.—(INS)—The cotton market today fell more directly under the influence of the business crop report which will be issued tomorrow coming Monday. Business consequently slipped down to comparatively small proportions and prices were without any significant change.

SPORTS

Sanford Splits Twin Bill With Hustlers In Final Of Series

Fluke Home Run Made In Ninth Captures The Opening Contest For East-Coast Club

Withdraw Invincible In The Nightcap

Sanford Star Blanks Visitors, Allowing 2 Safeties In 7 Frames

Sanford and Miami split a double-header here yesterday with the visitors annexing the first game by a strong ninth inning rally and Sanford taking the second behind the airtight hurling of Lee Withrow who shut the Hustlers out with two scattered hits.

Fergus held the Hustlers safely during the first innings of the opening game while Sanford was touching Davis regularly. The Hustlers, however, were only able to touch Sanford in the seventh when Frisbie's single and Reace Allen's fluke double netted their lone run.

In the ninth Knaupp walked and Casares singled him to second. Bouza and Hinkle struck out. Then Tatum crashed a hit to center which looked good for a long single but Casack poked at wrong and rolled past him for a home run, scoring three runs and beating Fergus after he had pitched winning ball throughout the entire game.

In the second game Withrow was invincible and the Hustlers could do nothing with his delivery while the Feds bunched hits off Lefty Wetzell in the third inning to score all the runs needed to win the game.

Frisbie was safe on an error by Knaupp. Riddle laid down a perfect bunt and beat the throw to first. Withrow advanced both men with a good sacrifice. Benzley singled to right scoring Frisbie and Riddle. Houke stole second but was out a moment later trying to steal third. Myers hit a grounder and went to second as Bingham threw low to first on his grounder. Pug Allen singled to left and Myers scored. Allen went to second on a wild pitch but Rowe ended things by popping up to short.

This ended the scoring although Sanford threatened several times. Benzley made a nice catch in the sixth inning when Tatum lined the ball out to him in right with two men on bases. This was the nearest thing to a threat that Miami made in the second game and Tatum's mean drive which Benzley took after a hard run might have proved the visitors' undoing.

For the visitors Knaupp and Fergus played good games in the field. Manager Lee Craves of the Feds protested the first game on an umpire's decision. Tatum will be happy today to begin a three game series while the Hustlers will go to Orlando for three.

BOXING TOURNAMENT

NEW YORK, Aug. 4.—(INS)—What Tex Rickard calls a "new fall and winter heavy-weight tournament" starts here tonight when Tom Heeney, New Zealand champion, takes on Bud Gorman in a ten-round bout. In the ten-round semi-final Monte Munn, Giant Nebraska legislator, meets Pat Lester, the 235-pound heavy from Phoenix, Ariz.

SHORTSTOP LET OUT

JERSEY CITY, N. J., Aug. 4.—(INS)—Everett Scott, shortstop of the Baltimore Orioles, has been released unconditionally. Scott formerly was known as the "Iron Man of the majors."

No Truth Exists In Rumor That Dempsey Is Trying To Avoid A Fight This Year

NEW YORK, Aug. 4.—The rumor that Jack Dempsey was backing out of fighting again this year was dispelled when the former champion wired from Los Angeles that he would be ready to face Gene Tunney again on the night of Sept. 22 in the Soldiers Memorial Stadium, Chicago.

Richard had stated previously that Dempsey had asked for as much time as possible in order to get himself into the best possible condition for Tunney and suggested the week of Sept. 26. This, the promoter told him, was out of the question inasmuch as there was a possibility of weather postponements that might bring the fight into conflict with the World's series in the event the Cubs win the National League pennant. The series is scheduled to start the first week in October.

Dempsey wired acceptance of the Sept. 22 date and added that he would leave Los Angeles on Aug. 15 for Chicago. Flynn leaves early next week to select a training camp in Illinois and be on the ground at least three weeks before the fight. Dempsey will stay near Chicago a month in advance to acclimate himself and to give Flynn, who trained him for the Sharkey fight, time to work out certain plans for his second battle with the ex-marine.

Billy Gibson left last night for Speculator, N. Y., to acquaint Tunney with the situation and to confer with him on training camps.

"I understand Tunney wants to stay in Speculator as long as possible," said his manager, "and probably he won't go west until the first of September. I am going to Chicago next week to inspect a number of training sites that have been offered."

Practically every county seat or summer resort within a hundred miles of Chicago has invited one or both fighters to accept its hospitality during the training period. The probabilities are that both men will choose a lake resort.

Gotham-Bound

WASHINGTON LETTER—General Jose M. Moncada, who seems likely to be a candidate for president of Nicaragua, is regarded as most friendly to the United States.

He is the author of a book in which he makes a strong plea for friendly relations between the two countries and speaks highly of Americans.

Moncada now stands out as the "fringe man" of Nicaragua if only because there are few other substantial candidates to oppose him for the presidency.

Abolfo Diaz, the president who remains in power supported by United States marines, is cordially hated by many Nicaraguans. It now appears that even his former friend and supporter, Emiliano Chamorro, who placed him in the presidential palace, has gone back on him. Chamorro put over the election of Diaz when the United States refused to recognize him after his coup d'etat, but the leading Spanish language newspaper of this country has just printed a dispatch from Rome quoting Chamorro as saying that he would return to his country to fight Diaz. Without Chamorro and his faction, Diaz becomes almost a man he was when he served as a \$25 clerk for an American mining company.

In any event, Diaz cannot be elected because the Nicaraguan constitution expressly forbids two consecutive terms.

Moncada, now said to have become Nicaragua's fair-haired son is about 50 years old and a business man rather than a warrior. He fought side by side with Chamorro and Diaz in the revolt against the dictator Zelaya many years ago, but returned to business

Abolfo Diaz, the president who remains in power supported by United States marines, is cordially hated by many Nicaraguans. It now appears that even his former friend and supporter, Emiliano Chamorro, who placed him in the presidential palace, has gone back on him. Chamorro put over the election of Diaz when the United States refused to recognize him after his coup d'etat, but the leading Spanish language newspaper of this country has just printed a dispatch from Rome quoting Chamorro as saying that he would return to his country to fight Diaz. Without Chamorro and his faction, Diaz becomes almost a man he was when he served as a \$25 clerk for an American mining company.

In any event, Diaz cannot be elected because the Nicaraguan constitution expressly forbids two consecutive terms.

Moncada, now said to have become Nicaragua's fair-haired son is about 50 years old and a business man rather than a warrior. He fought side by side with Chamorro and Diaz in the revolt against the dictator Zelaya many years ago, but returned to business

Wrap a makin's paper around some of this!

TAKE a pinch of P.A., distribute it along a makin's paper, and do your little roll. Notice first of all how easily this tobacco "handles." No fuss or muss. No spilling all around. Prince Albert is crimp-cut, the ideal form for rolling. And listen—

You'll begin rolling right after breakfast, with a make-and-take program right through the day. Experienced roll-your-owners say there is no other tobacco like P.A. for home-made cigarettes. The "secret" is no secret at all—Prince Albert is simply better tobacco!

Better tobacco for home-made cigarettes and better tobacco for pipes. Jimmy-pipers the world over say that the way to get the most out of a pipe is to put P.A. into it. That's putting it as plainly as can be. Get some P.A. today. Smoke it either way. Do that!

PRINCE ALBERT

—no other tobacco is like it!

Wales and Baldwin in Canada

The prime minister of England and the heir apparent to the British throne are in Canada now, attending ceremonies in connection with the dominion's diamond jubilee. Here are photos showing them on their arrival in Quebec. Above the Prince of Wales is shown in a car with Governor General Perreault of Quebec; at the left is Premier Stanley Baldwin. Wales is to visit his ranch in the west and may tour the United States before returning to England.

Stenographic Report

(Continued From Page One) attended and felt they wanted to pass upon the proposition. They should, and the bill was brought to Tallahassee and was presented by me. And my colleague, Mr. Hagan, said, "you handle the proposition as you know best."

I said to the gentleman who brought it there, Mr. Douglas, who represented you in that matter apparently that I would endorse the bill. After I read the matter over and considered what had been presented, I read the proposition as presented, and after reading the same I determined that there would have to be certain changes in it to give you the authority to pass upon what you were trying to do. I called the attention of Mr. Douglas to that fact and the changes were made so the bill would be in proper form so you might pass upon it intelligently when casting your vote.

Mr. Douglas returned to your City and I introduced that bill in the Legislature and I passed it. And I want to say to you now that if I am accused of being opposed to my people in this town talking upon something to determine whether or not they wanted it, or whether they think it is in their interest, I want you to know that I had the power, if it was that character of a man to have stayed the proposition in Tallahassee and you people could never have voted for it so long as I am a Legislator, if I had not been willing to listen to the voice of the people.

And that gives to you a fair outline of what took place relative to the passage of the matter that you are now called upon to pass tomorrow night. So, I say to you in all fairness to me and to any of those other men, that it is not right to them and it is not right to me, as one of you, that I be charged by any man, or any number of men, that I am not willing for the people to pass upon something that's theirs, and deny the allegations and charges as being largely false as applied to me.

My friends these matters come up in the history of men and it is now a matter that the people are called upon to pass upon. I have not taken any activity in the question of a campaign as being opposed to whether or not the people should vote on the question of whether or not we should have five Commissioners and whether or not they should adopt certain other amendments of which you are fans. I want to say to you now as a member of the City Commission, elected by you, approximately now a year and seven months ago, I believe that I took office on either the 3rd or 4th of January 1926, and that I have served you in that capacity since that time, and if it is your desire that you have five commissioners, or that you have seven or that you have three, I will do my utmost to serve you fairly and honestly as you expect me to do more.

I am going to hurry, I know you want to get through here, there will be other speakers. Newspapers are wonderful things. Some of the people who run newspapers consider themselves more wonderful than the paper, or the people that have to read the paper they produce in the community.

I believe in being fair to every man, and I believe that every man should be treated fair by the Press and by his fellow-man. I want to submit to you that some of the things that have been said about me and about the older members of the Commission, have been unjust and unfair as applied to questions of facts by the members, and men who publish The Sanford Her-

ald in Sanford. I went away to the Legislature, and I went when I could hardly afford to go, and when I got there, regardless of what act I committed in the Legislature, and I am sure all of them were not bad, I never had one kind of complimentary mention for me in behalf of my actions while there. I returned home, I have not made any notice of it, and am not going to now, because it makes no difference to me.

Applause, and cries of "Go to it." I returned to my home, I came here for the purpose of acting upon these amendments, the same as you might act upon them. As an individual citizen, I desire to do that and I am going to do that. I want to say that I have seen friends that are in favor of five commissioners, and I have no objection to the five commissioners, plain, if the people in this town want it, and am not opposed to any man expressing his belief on any question. I am not made of that kind of clay, regardless of what the newspapers may insinuate, in the manner in which they go about trying to do nothing else except to build up a cash proposition that will please the public may read about it. That's one reason I am going to pass that, and sit down in two or three minutes.

One or two other things: That the City Commissioners have seen fit to award paving contracts and show special favoritism to certain individuals. I want to say to you that I can't read the mind of a fellow City Commissioner, no more will I say than I can read your mind, but I want to say to you also that I had faith, and I have in the members who have served on the City Commission at the time I have served on there. When the matter of the bond issue came before the City Commission, some was presented to the City Commissioners of Sanford, the matter was considered carefully, there being another bid that was somewhat smaller, and after considering the matter from all angles, my friends, we decided that the difference that existed was not of such greater character that it was not necessary that we go to the extent of changing the contract at the time, that to local company with its equipment, plant, force and buildings and homes in our town with their labor, and we felt that it was a just contract and we felt it was a fair contract, and I feel tonight as I stand before you, that the letting of that contract, even though it was for a sum maybe higher than the lowest bid, had not cost the taxpayers of our own town one cent when you take into consideration that the money that was spent only to the people who helped build the roads in our City. I mean laborers that were living in our town at that time, and there was no favoritism shown, so far as I was concerned, and I don't believe there was so far as the others are concerned. As to the individual who gets a contract, it makes no more difference to me than to any other citizen of Seminole County, or so much in many instances.

WHY THE SWIMMING POOL HAS NOT BEEN BUILT. The reason I was not in favor of building the swimming pool, I can't remember now when the issue of bonds was sold—but I had certain citizens of this town, not only one but I might say I expected a hundred of them talk to me about the proposition. I had prominent physicians of this town come to me and say don't build that swimming pool under any conditions, and after hearing these men and listening to what they had to say I felt as a member of the City Commission that it was proper that we didn't build the swimming pool at that time. And we didn't build the swimming pool.

This is the only consideration that I have given the question of whether or not the swimming pool was not built, it actually is a fact that men of this town, whom I believe in, felt that it was not the proper thing to be done.

Another charge here that the public records have not been properly kept. "The facts which the people are entitled to know have been withheld, especially records of Bond accounts." I want to say to you, my friends, that when I became a City Commissioner in the City of Sanford, Florida, there was a system of bookkeeping being operated at that time in behalf of the bond trustees, and in behalf of the officials of the City, a system which I assumed had been adopted and had been carried on for a number of years, and a system which I had no particular reason as an individual in going into the office and demanding to make a change in the manner and along the lines as it had been operated for a number of years by the men who at that time occupied the offices, and I had no reason to question whether or not the records were being properly kept.

I hear the charges that the records are not kept—that they are not properly kept. I want to say to you that the records have been audited and they ordinarily suggest such changes as should be made. I have never heard any suggestions but I can say with all fairness and candor regardless of whether or not you have three commissioners, whether you have five or what not, whether or not you adopt all of the amendments, one or none, that a proper audit can be made, it has been made in the past and it will be made in records, those changes which they have been made but if they should be made, they will be, if I can do it.

The question of the handling of the bond accounts, the question of the finances pertaining to those particular features of the City, I am not attempting to touch upon. They are matters that have been properly handled by the Mayor of the city who is chairman of the Bond Trustees in that capacity, a man who has handled that account years before I became City Commissioner and who has handled that account and had it under his direct charge as Mayor and as Chairman of the City Commission, a man who is conversant with the facts pertaining to it, and who I know will give you those facts when called upon, I am not familiar with the particular minute details pertaining to those things.

I could state to you the facts and figures pertaining to some of the questions that have been asked about, they are matters of record and can be answered. Those accounts, Bond Trustees' accounts have been kept by Mr. Lake, who is chairman of the City Commission, they are the accounts that deal with the funds pertaining to the City of Sanford, deal with the moneys touching upon the matters pertaining to the City of Sanford, and they are accounts and records that the people of the community as such should have the knowledge of them, and you shall have the knowledge of them, be whatever it may.

New my friends I am going to stop, I thank you for the courtesy of your attention and in sitting down I want to say to you that I do not feel so kindly towards persons who charge me with wrongdoing, with dishonesty, with thievery, and whatever else it may have been, if they try to make those charges apply to me because I prove every one of them as false as applies to me.

I have done nothing since I have been a City Commissioner that I am ashamed of, I have tried to serve you fairly and honestly with the very best endeavor that I can. I have listened to the things that have been said here, I have heard the things that you called upon me to do, I have not tried to do things that I felt the people didn't want. I have tried to do the things that I felt the people did want. If I have been mistaken in that, then I have been mistaken in my judgment of what the people in this town wanted. If I don't want those things any longer so far as I am concerned you don't have to have them. I am not trying to choke anything down the people. It means nothing to me no more than any other citizen in town as to what we have.

What I have is the same as what you have, and what our town amounts to means no more to me than to you, but I say to you that I can't feel any heart toward people that charge me with those things. I have tried to be fair with the people of my town, and I have tried to do that as a member of the City Commission, and believe the other two members have endeavored to do the same, and in leaving you tonight I want to say that I hope you come down tomorrow and force the newspaper publisher that's been cast upon this town. I believe it has done damage; it can't damage me because I am not guilty.

I think they have done a bigger damage to the town myself than those men can ever get out of it, and I am sorry it made them feel that they wanted to do it in my town, and you think best in your own mind as you think best in this situation, for all the things that have been said about this man, that man and the other one, forget about the individuals as to what they may be, where they come from or where they are going, and pass upon what you may think will be the best thing for your town. That's all I have to say to you as a citizen and as a City Commissioner, being charged as I am,

I say to you that whatever it may be, I stand before you as honest as any man, as fair as any man, and as square as any man I may look into the face of here tonight, as a citizen, as a man and as an individual. More I can't offer, and I hope you will pass upon the amendments in a manner that will be fair to you and fair to everybody concerned and whatever the result may be, it will not affect my attitude to you as a City Commissioner. I thank you.

Applause. BY MR. S. O. SHINHOLSER, Chairman. Ladies and gentlemen, we have with us one of our Commissioners who for many, many years prior to his becoming a City Commissioner, was owner and manager of the City's gas supply, Mr. S. O. Chase.

In the old days, with some associates, he owned the City Gas Works. He is a man who is thoroughly posted on the manufacture and distribution of illuminating fuel-gas, and Mr. Chase will now say a word to us about why the gas plant loses money. Mr. S. O. Chase, Applause.

Mr. Chairman, ladies and gentlemen, a great many years, perhaps probably 25 years were we always troubled trying to locate why we had to account for gas. We had more gas, yet there was always a loss, the answer to that is this: the gas goes into holders headed, expanded, larger in volume; it reaches the meters cold, less in volume, there is always a shrinkage, everybody's gas plant on account of poor gas, I have got a few items here which have been taken from the America Gas Co. for the year of 1926. It will be found that the following figures pertain to some of the plants in our immediate vicinity:

Daytona, Florida—Percentage of loss for unaccounted for gas 32 per cent in other words 32 per cent less than what was manufactured. Orlando, Florida 28 per cent loss. Palatka, Florida, 27 per cent loss. Tampa, Florida 20 per cent loss. In those four communities or plants, there is an average loss of about 25 per cent. In our plant, as near as can be ascertained, about 22 per cent, the inspectors of the gas mains have recently detected a great many leaks and the superintendent is going over the entire gas system with a test rod, he puts the rod down by the pipe and if there is a leak there the joint is reworked, and in a very short time we expect and hope we will have about 20 per cent shrinkage instead of 22.

That will take some time to complete. We have not had our new gas plant a year as yet. We started in with an old plant, not perfectly equipped. A great many of the parts of machinery were lacking, meters out of order, many had to be repaired, and these many details are being looked after and gradually being disposed of.

The operation of the plant for eight or ten months, the loss of plant, does not show a loss. The loss referred to in the newspaper covered the loss under the old plant before the new equipment was ordered and I hope this year will show quite a marked improvement. That's all I have to say, but the gas plant and unaccounted for gas, it's all being accounted for as near as the auditors can account for it.

Mr. Shinholser speaking: Some of our next questions are as follows: "The records that have been kept have been misappropriated." That's an exaggeration and mismanagement have characterized the present City Management during recent years. "Do you know what has been done with the hospital bonds?" "What has been done with the \$300,000.00 bond issue sold a few weeks ago?" What will be done when the next interest payments on bonded indebtedness is due? What is the present indebtedness of the City?

These matters, being the financial matters have rested more largely in the hands of the Mayor than any other one man. His actions in these matters have been governed largely by discussions in open meetings, at practically every one of which some citizens of Sanford were present, but inasmuch as these questions have come up we will have them explained to you and answers given to these questions by the Honorable Mayor, Mr. Forrest Lake.

Applause. Mr. Chairman, Ladies and gentlemen: I am pleased to see so many people present which shows they have an interest in our community and in the City in which they live. I am always glad to see them. The newspaper has come out with various questions, the various questions that affect our community are to be discussed and tonight I shall briefly touch upon and give you an account of my stewardship. You hear so much about certificates, and you hear about the big bond indebtedness, and you hear about this thing and the other. Now, did you ever stop to think that no bond was ever issued without the vote of the people? Did you ever stop to think that the direct obligation, the bonds that stand out against the City of Sanford had to be voted by a majority of the people, and had to be approved before these bonds were voted. The paving bonds have been issued by the Commissioners, and streets paved at the request of the citizens of Sanford, I know of only one little street, or possibly two, that were connecting links, that there has not been a petition filed asking us to pave those streets, and now when it comes to paving the bills certain people turn yellow and holler that they don't want to pay the bill.

Applause. And in making this change, I read carefully, and not a word has been said that the five would not have made the same mistakes that three have made. West Palm Beach has five and they have been in a deal of a fix down there.

Every other City in the state has five except St. Augustine and Sanford, and I think we are better off than any of the rest of them.

Now as to the bonded indebtedness: They ask you what that is, it's the matter of public record. I just as well ask Mr. Chase who owns his house as to ask what the bonded indebtedness of the City of Sanford is. It's in the Clerk's office and it's out and it's date is recorded there, and they have known whether or not it's there. They have carried there for the last two weeks.

Now the first catch word they brought in was "misappropriated funds." To the average man that would mean that we had stolen some of the funds, Why didn't they say that the City Commissioners had diverted some of the funds? They want to create a stir, they want to create a stir, whether they want the funds or whether we had diverted them. There was a time when we had funds in the bank and switched them from one fund to another, that's not misappropriating, that's diverting.

Now, they tell you they want five commissioners—they have tried to tell you that the three you have are no account. That's all they brought out, the mistakes of the three that's been made. Instead of saying "We asked you to do that" you conform to our wishes and now we are damned sorry you did it.

There is an old saying that two heads are better than one, if one is a fool's head, five would probably be a better than three. If those three could stay on there and you could get those two would be in the minority, and we would go on just as we are.

Now what is it all about? In May I appeared before the Rotary and the Kiwanis clubs and the Chamber of Commerce. I outlined the program that the City Commissioners had for the coming summer, and each club passed a resolution endorsing the City Commission and I am going to appear to you and they said if you do it will be the most stirring campaign you ever saw, and they have lived up to it.

Now I appeared before the Rotary and the Kiwanis clubs and the Chamber of Commerce. I outlined the program that the City Commissioners had for the coming summer, and each club passed a resolution endorsing the City Commission and I am going to appear to you and they said if you do it will be the most stirring campaign you ever saw, and they have lived up to it.

Myself, as a boy of 22, was influential in having the first bond issue in the City of Sanford. I was mayor when the first electric lights were put in the town. I was mayor when the first sidewalks were laid in your city, and I remain back on the Commission form of government with the other two gentlemen, Dr. Marshall first, and then Mr. Housholder, Mr. Chase and myself.

Now as to the hotel and Hullick Bros. running the hotel and owing a bill. No City Commission had any control over that hotel, and it has been called to your attention and Mr. Hullick's attention, that the excuse have they given for five, and in order to get that five instead of coming out and saying we want five they have spent the entire time in abusing the three you have in office.

As to the City indebtedness, some of you don't go down to the City Hall I am going to tell you the total bonded indebtedness of the City. TOTAL Bonds issued for 1922-1927. Special Assessment Bonds, \$1,492,000.00. Bulkhead, Special Assessment Bonds, \$734,000.00. Making a total of \$2,226,000.00. Paid of the above \$307,000.00. Now outstanding, \$2,119,000.00. Worth of these improvement bonds levied against the property. Utility Bonds, \$1,050,000.00 and you have the utility there to show for it. Straight City Bonds \$2,435,000.00. Total bonded indebtedness issued by the present City government \$5,555,000.00 plus the old outstanding straight City bonds issued by the City Council \$241,000.00.

Now you hear a great deal about discount on the bonds. Taking the whole sale through it's cost the City of Sanford 1-1/2 per cent to handle the bond issue, and when you take and figure that whole, I think our City Attorney will agree with me that there is not another city in the State of Florida, being in mind the period of time which this extends, that can say the same—that it only cost the City 1-1/2 per cent to handle the bonds. And there has never been a bond sale below par at the rate of 6 per cent interest and better than that—that as to the bond business.

We have sold \$298,686.00 recent sales of City bonds, bulkhead and streets \$500,000.00. Certificates of City Indebtedness \$161,000.00 secured by unadvised special tax assessments for purpose of paying coupons and maturity bonds of special Assessments.

No bond funds were used to pay interest the last time. Now, as I say, my friends, all these records are kept in the office, public records, every bond that's sold, every bond that's been sold is accounted for in the Clerk's office—as I told you before, the committee of tax payers have almost lived in there for the last two weeks, I don't believe our Manager and City Clerk denied them access to any book we had there. I believe he showed them everything.

Now, they say now as to extravagance, this, they claim, is one of the mistakes of City Commission. This (meaning the bond shell) was endorsed by the people and to my mind is a beautiful addition to the City of Sanford. We had a beautification program in which we tried to beautify the parks, streets and such as that, endorsed by the citizenship, and this is one of the extravagances itemized. This hand which furnishes music is another extravagance, the golf links and baseball grounds, now, if those are extravagances, we are guilty, but that program was outlined to all these civic clubs, told them exactly what we are going to do, and the money was appropriated for beautification, bond shell and the bond was hired by the City Commission, and to my mind it has demonstrated to the people that we are worth the little tax and little amount to keep it going.

Applause. Now, they said this should be put at once, I said to some of the gentlemen "When we get ready to prepare the next budget we will call you into conference with us and see what we can do about it." I don't know of a city that's been more economical in handling its funds that the City of Sanford has one of the best managers in the State of Florida, in Mr. W. R. H. Applause.

I said if these things are extravagance, it may be that next year we will see if we possibly can do away with some of those things, but you could force the outcome at that time? I say to you gentlemen and ladies that this City Commission has worked faithfully and tried to up-build Sanford. It's done what it could to make Sanford a beautiful and better place to live in, and I, myself, have given it the best part of my manhood, and some of the same fellows that are on the Taxpayers League have opposed every improvement that's been made on the line of progress and hollered taxes.

I read an old circular about myself the other day, got out in 1911 in which they said "Lake was dominating the council and taxes are too high." The same old story. When I look at Mr. Chase and the Housholder, Chase, the man that's been in your community for years, and I don't know of any other man's collar he ever wore or I have never attempted in my life to dominate the City Council, or the City Commission, they will bear me witness to that, so will the City Attorney.

Now as to the Hutton favoritism. Judge Housholder spoke of that a little. Mr. Hutton entered a bid for the city paving and an outsider bid. A committee of at least one hundred businessmen appeared before the Commission and said Mr. Hutton was spending his money in town. He was a large taxpayer and it would be the proper thing to give them the business, and when the bids came up and the other citizens they thought Mr. Hutton ought to have it, the other bidder withdrew his bid, and there was only one bid before the Commission, and that was, at the request of a committee of businessmen, awarded to Mr. Hutton.

Now as to the hotel and Hullick Bros. running the hotel and owing a bill. No City Commission had any control over that hotel, and it has been called to your attention and Mr. Hullick's attention, that the excuse have they given for five, and in order to get that five instead of coming out and saying we want five they have spent the entire time in abusing the three you have in office.

As to the City indebtedness, some of you don't go down to the City Hall I am going to tell you the total bonded indebtedness of the City. TOTAL Bonds issued for 1922-1927. Special Assessment Bonds, \$1,492,000.00. Bulkhead, Special Assessment Bonds, \$734,000.00. Making a total of \$2,226,000.00. Paid of the above \$307,000.00. Now outstanding, \$2,119,000.00. Worth of these improvement bonds levied against the property. Utility Bonds, \$1,050,000.00 and you have the utility there to show for it. Straight City Bonds \$2,435,000.00. Total bonded indebtedness issued by the present City government \$5,555,000.00 plus the old outstanding straight City bonds issued by the City Council \$241,000.00.

Now you hear a great deal about discount on the bonds. Taking the whole sale through it's cost the City of Sanford 1-1/2 per cent to handle the bond issue, and when you take and figure that whole, I think our City Attorney will agree with me that there is not another city in the State of Florida, being in mind the period of time which this extends, that can say the same—that it only cost the City 1-1/2 per cent to handle the bonds. And there has never been a bond sale below par at the rate of 6 per cent interest and better than that—that as to the bond business.

hotel had not paid the gas bill, would you have voted to close that hotel before the end of the season? I don't think you would, I think you would have told the City to give him gas. The City Commission didn't know anything about it, it was in the hands of the Utility people and they handled it to the best of their ability and judgment.

Now, ladies and gentlemen, as I said before, tomorrow it's for you to decide whether or not you have confidence in the present administration or whether you believe the scurrilous attacks that's been placed upon us in the newspapers. You haven't heard a word except that we are fools of City Commissioners. If we didn't make mistakes you would not let us serve you 25 hours, and you know it.

We have done everything to serve you. We had no secret campaign. Never had a closed meeting, every man had a fair hearing before that Commission, and every man that's come has been given that fair hearing, and I say to you now that it's up to you for you to decide. If you want five commissioners, I can live with you just the same. It isn't whether you want five or whether you want three, the question now desolves itself into whether by your vote tomorrow you are going to prove those claims (towards these Commissioners, false or whether you will prove them as being true.

I have confidence in the people of Sanford. I believe they have known me since my boyhood and believe they would know that when it came to dividing the county, I stepped forward and was successful. When the time came, as I said, to put down the first paved streets I was the first to go forward and I had that position, glad to have rendered my people that service, and I am glad to have taken part in bringing this about.

When we stand here in this beautiful Bond Shell with the beautiful memorial fountain we built and discuss these matters fairly and squarely I am well pleased. Run down your town and say it is going to be the big-bow-wow. Who isn't in financial trouble today? Who isn't in financial distress today? Look at yourself. Why blame it on the City Commissioners. Have you ever known an erroration to get into trouble and tell the stockholders "We are broke", that don't go broke and in the hands of the receiver. We got money enough on hand in the bank to take care of the payments next year.

Applause. We have collected up our taxes better than any other City in the State, and how did we do that? To show our feeling for the people we didn't close our books at the time we could advertise your property, we acted as if we were a corporation and each citizen a stockholder. We extended the time of payment to the first of September and by doing that we reduced the amount of overdue taxes considerable and by the first of September, I hope we will close our books with at least 85 per cent of the taxes collected, which will be a record for a City of Florida at this time.

Now Fellow Citizens, you tell the men who say we will never get our money to pay the interest on that other year, that if they haven't got more confidence in Sanford than that, if they don't believe things are going forward and take a better turn and that we will have a better future—then they are hopeless, I would hate to live in a community that I had no more confidence in than that. I would hate to be a citizen of a community that I had no hope of future prospects.

When this thing is ultimately settled I hope that we will all get together and go forward and make this what I have longed to see since I was a young boy, one of the most beautiful cities in central Florida and one that we will all be proud to live in, and our children will rise up and bless you for establishing it, and laying the foundation for such a wonderful and prosperous City. I thank you.

City Commissioners And Attorney Fail Answer Questions (Continued from page one) Taxpayers League, and The Sanford Herald, was the target for tirades. The Herald was characterized by Geo. A. DeCottres as "yellow sheet."

The word "silk" is believed to have originated from the Chinese word for fabric, "si."

plant in an effort to explain the loss in operation, which he said was about 32 per cent. He declared that the new gas plant shows a loss and that figures that have been submitted to the contrary, were taken from the operation of the old plant.

The commissioner submitted an explanation as to heavy losses by saying that when manufactured gas is heated and is expanded, in entering the meters, he declared, it is cooled and contracts, thus causing a shrinkage that runs about 20 to 30 per cent.

Mayor Lake told the audience that he was ready to give an account of his stewardship, and charged opponents with using the term "misappropriation" to create doubt and suspicion in the minds of the people that the commission was "stealing."

The Mayor said all meters had been submitted to the people before action had been taken and the election was simply a question of confidence in the present administration. He pictured Sanford as coming back within two years, and then "the sun would shine again."

Mayor Lake said no reason had been offered for five commissioners, and that the whole agitation was to "get one man." He gave figures on the bonded indebtedness and declared that premiums on bond issues had totaled \$25,000. He declared that some of the leaders of the Taxpayers League had opposed every progressive measure initiated in Sanford, and demanded that he had ever attempted to dominate the commission.

George A. DeCottres was the last speaker of the evening. Practically all of the City Attorney's remarks were addressed to either E. A. Douglass or George G. Herring. Mr. DeCottres cited alleged statements by Mr. Herring and said he believed that Mr. Herring was in honest in his beliefs, "but he just didn't know any better."

The City Attorney a minute later was the author of a statement to the effect that the difference between five and one-half per cent, and six per cent is one per cent, and The Herald is reliably informed that in this assertion Mr. DeCottres was conscientious in his belief, but just didn't know any better.

The speaker characterized as a "clever hour attack" a story appearing in The Herald that denied a supreme court ruling that denied the right of cities to assess property owners for all of paving costs. He declared that the decision had an effect upon the validity of a state law, drawn by him and under which he said many cities in the state are assessing property owners for street paving.

Mr. DeCottres belittled Mr. Herring for statements in connection with his issuance and sale of bonds, and told how he was sent to the state capital by the City Commission to secure legislation to effect a change in the charter with regard to the provision that says that city shall not be bonded for more than 15 per cent of its assessed valuation. Mr. DeCottres told of another instance in which he secured a change in the City charter, but neglected to point out that the changes were made without a referendum by the people such as was attached to the proposed amendments.

The City Attorney was authority for a statement that all bond that have been voted, issued and sold have been legal, and that the charter has not been violated as to the prices which the bonds have brought. He said that the recent sale of bonds had brought out an interest yield basis of 6 1/2 per cent, that they actually were sold for 83.17.

ANSWERING THE PURPORTED QUESTION OF WHY SEN. DEWITT DENIED THAT SUCH ACTION WAS TAKEN AFTER PROPERTY OWNERS HAD ASKED FOR IT. HE SAID THAT IN CASES WHERE THE ASSESSMENTS TO FINANCE THE PROJECT TEMPORARILY, WITH REFERENCE TO PAYING THE NEW OBLIGATION, THE CITY ATTORNEY DECLARED, "WE ARE GOING TO MAKE THOSE SUCKERS WHO HAVE NOT PAID THEIR PAVING LENS, MEET THOSE PAYMENTS IF IT IS POSSIBLE TO MAKE THEM."

oly Mackerell!

's what you might call a fish! 157-pound tarpon, 6 feet 11 inches long, was landed inside the limits of Tampa, Fla. "Lady" mson, Tampa sportsman, is in with his catch, said to be biggest fish caught in Florida this year.

Indian chiefs call the tribes together for a powwow now they use newspapers instead of old signal fires on mountain. An advertisement in a daily has thousands of tribesmen.

OF FORECLOSURE SALES... and by virtue of a decree of foreclosure and sale rendered in the County of Seminole, Florida, in and For Semine County, Florida, in Chancery, in a certain pending, wherein DeForest-Sanford Realty Company, a corporation of Florida, plaintiff, and Sanford County Club, a corporation organized existing under the laws of the State of Florida; Deu-Berg Corporation, a corporation organized existing under the laws of the State of Florida; and R. F. Moulde, defendant, I will sell at public sale to the highest bidder for cash at the front door of the Court in the City of Sanford, in said County and State, during the legal hours of sale on Monday the 5th of September, A. D. 1927, the following described land...

(30) South of Range Thirty (30) East, run North 24 degrees East 108 feet; thence South 55 degrees and 10 minutes West 820 feet; thence West 21 1/2 feet; thence North 82 1/2 feet to the beginning. ALSO EXCEPT the Southeast Quarter (SE 1/4) of the Northwest Quarter (NW 1/4) of Township Twenty (20) South of Range Thirty (30) East, in Seminole County, State of Florida, running thence East 84 1/2 feet; thence South 21 degrees and 30 minutes West 167.9 feet to point of beginning; thence South 31 degrees and 30 minutes West 50 feet; thence North 50 degrees and 30 minutes West 150 feet to the Shore of Pine Lake, thence Northwesterly along the lake shore to a point which is 65 degrees and 30 minutes West 150 feet from the point of beginning; thence South 65 degrees and 30 minutes East 150 feet to the point of beginning, containing an acre, more or less, the same being lot number 12 of Block 1 of the Hel-lale Section of Loch Arbor, and fronting on Crystal Drive. ALSO EXCEPT lot number 16 of Block 4 of Hel-lale Section of Loch Arbor, generally known as Loch Arbor, described as follows: From the West Quarter corner of Section 2 of Township 20 South of Range 30 East, in Seminole County, Florida, running thence East 654.5 feet to iron pin; thence South 31 degrees and 31 minutes West 107.25 feet; thence on a 12 degree and 12 minute curve to left 165.81 feet to the point of beginning.

the point of beginning; thence South 71 degrees and 10 minutes East, 137 feet to the point of beginning. ALSO the following described lands situate, link and being in Seminole County, Florida: The Southeast Quarter (SE 1/4) of the Southwest Quarter (SW 1/4) of the Northwest Quarter (NW 1/4) of Township Twenty (20) South of Range Thirty (30) East. ALSO the South-east Corner of the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) of Section Three (3) of Township Twenty (20) South of Range Thirty (30) East, 6.22 chains, thence North 10.70 chains, South 10.70 chains, West 6.22 chains, thence North 10.70 chains to the point of beginning. ALSO the Northeast Quarter (NE 1/4) of the Northwest Quarter (NW 1/4) of the Southwest Quarter (SW 1/4) of Section Three (3) of Township Twenty (20) South of Range Thirty (30) East. EXCEPTING from the foregoing described lands the following: Lots 25, 26, 30, 31, 36, 37, 47, 48, 49, 50, 51, 52, 57, 58, 75, 76, 85, 86, 88, 110, 111, 119, 121, 132, 139, 140, 151, 152, 153, 154, 155, 156, 161, 162, 167, 168, 187, 201, 209, 216, 217, 232, and 233 of the Crystal Lake Club Section of Loch Arbor, according to plat thereof duly filed and recorded in the office of the Clerk of the Circuit Court of Seminole County, Florida; ALSO Lot 14 of Block 2 of Hel-lale Section of Loch Arbor, described as to metes and bounds as follows: From the West Quarter (W 1/4) Corner of Section 3, Township 20 South of Range 30 East, Seminole County, Florida, running thence East 654.5 feet to a concrete monument; thence north 18 degrees west 115.3 feet; thence north 72 degrees east 60 feet; thence north 18 degrees west 118.64 feet; thence on a 28 degree 44 feet curve to right 95 feet to the point of beginning.

thence south 83 degrees and 10 minutes east 231.0 feet; north 19 degrees east 11 minutes east 55 feet; thence north 71 degrees 25 minutes west 211.7 feet; thence on a 28 degree 44 minute curve to left 95 feet to the point of beginning; ALSO lot 18 of Block 2 of the Hel-lale Section of Loch Arbor, described as to metes and bounds as follows: From the West Quarter (W 1/4) Corner of Section 3, Township 20 South of Range 30 East, Seminole County, Florida, running thence East 1040 feet to a point at intersection with the East side of East Crystal Drive; thence on a 9 degree curve to right 346.11 feet to the point of beginning; thence south 72 degree 10 minutes East 217 feet; thence north 30 feet; thence north 72 degrees 10 minutes west 184 feet; thence on a 9 degree 3 minute curve to left of beginning, ALSO lot 14 Block 1 of the Hel-lale Section of Loch Arbor, described as to metes and bounds as follows: From the West Quarter (W 1/4) Corner of Section 3, T 20 S, R 30 East, Seminole County, Florida, run east 654.5 feet to a concrete monument; thence run north 18 degrees west 233.3 feet to a concrete monument; thence on a 38 degree 14 minute curve to the left with a central angle of 95 degrees 30 minutes, a distance of 252.35 feet to a concrete monument; thence north 24 degrees 30 minutes west 60 feet; thence north 65 degrees 39 minutes east 104 feet to point of beginning; thence run 24 degrees 30 minutes West at 165 feet to the shore of Lake Amory thence north 65 degrees 30 minutes East 156 feet; thence south 65 degrees 30 minutes West 75 feet to the point of beginning.

No Assessments In Loch Arbor The owner of Loch Arbor property is free from assessments—another advantage of this desirable development. Look it over, investigate, judge it on its merits now. DeForest-Sanford Realty Co. Box 339 Sanford

TANGLEFOOT SPRAY KILLS FLIES BY THE THOUSANDS. Files and other disease-spreading household insects die in swarms when Tanglefoot Spray fills the air. FRIDAY AUGUST 5, 1927. THE HERALD'S PROGRAM: 1. Economy in city and county administration.

BIBLE VERSE FOR TODAY: OUR TESTIMONY: I have preached righteousness in the great congregation; in I have not refrained my lips, O Lord, thou knowest.—Psalm 40: 9.

PRAYER: O God, help the redeemed of the Lord ever to say so.

NEW ENGLAND SOLILOQUY: By Jerry Evans. I wonder, now my house is set in order.

Now for the canal! The stock market took a flop when it heard from Coolidge.

Was it "Paid Advertising," Bob? And if it was, how about a check?

The Herald will gladly furnish information on the election by telephone tonight.

The mass meeting last night was the largest public gathering we have seen in Sanford.

Tampa is busy celebrating the home coming of Colleen Moore. No time for politics over there.

The Seminole County News is on the streets again today. We hope that it manages to make it again next week.

No, Dempsey isn't kidding a bit—he'll meet Tunney this year, if he only gets four hundred thousand to do it.

Bud Fisher now has to pay four hundred dollars a week alimony. Mutt and Jeff will have to work to support that.

If the people co-operate with the City Commissioners, will the Commissioners co-operate on the City Judges' Ave. "ASK me another?"

Some men succeed better than others because they attempt more. Rustle Lake Begonia. And some fail because they attempt too much.

A Fair Trial

The decision of Governor Fuller of Massachusetts rejecting the plea of Sacco and Vanzetti for executive clemency or intervention comes as something of a surprise to those who know the soundness of the reputation for fairness of Governor Fuller and the other members of the investigating committee composed of the presidents of Harvard University and Massachusetts Institute of Technology and former Judge Cobert Grant.

For seven years this case has been before the courts, and yet in all that time the defendants have been granted but one trial. The fight made in their behalf in which something over three thousand dollars has been spent, has consisted in an attempt to gain for them a new trial on the grounds of judicial prejudice in the first, and additional evidence.

It was he? I that Judge Thayer, before whom the Italians came, was prejudiced against radicals. He comes from a long line of Massachusetts aristocracy and there is an old saying around Boston that "the Thayers speak only to Lowells and the Lowells speak only to God."

Such a sentiment as this, prevailing in the trial judge, if true, would certainly not be conducive to a fair trial. For this reason alone, it would seem logical that the men be entitled to another trial before another judge.

It is true that this confession was written while the man was in jail under an indictment for murder and consequently loses much of its weight, but we have seen many an alleged murderer granted a re-trial under less auspicious circumstances than that.

However, Governor Fuller, who has made a careful investigation, has decided that the men are not entitled to a new trial, and the decision will probably stand.

Their day of execution has been set for August 11.

As Brisbane Sees It

Cruiser Nonsense. Picking A Ride. Tex Rickard's Book. The Dear People's Rights. By ARTHUR BRISBANE (Copyright 1927 by Star Co.)

BRITAIN WANTS many small cruisers, high speed fighting boats, to protect her merchantile marine from attack on the sea. We say she can't have them, or if she does build them, we shall swamp her with an overwhelming naval program.

What's the use of talking about cruisers, that could play no part in a real war? They are simply to merchant ships what sheep dogs are to sheep. A few dozen flying machines, that could be built for the price of one cruiser, would annihilate all the cruisers that England could build.

Italy HAS SET up a new earthly trinity which goes: "Country, Church and Mussolini." All three are worshipped with patriotic enthusiasm.

ANY GREAT enterprise that depends on life is always in danger. Restoring the Roman power, in all its greatness, the task that Mussolini set himself, is a big task.

PRINCE CHICHIBU, brother of the Mikado, is to marry, and the Japanese elders are selecting a bride. He has nothing to say about it, which is a violation of nature's wise Darwinian rule of "natural selection."

LOS ANGELES IS said, probably without important authority, to be ready to offer \$100,000 more than Chicago will give for the next big prize fight.

MR. TEX RICHARD will some day write an enlightening book on prize fighting and prize fighters—after he gets through with both. Just now, he feels that the radio takes part of his profits.

Some, unsympathetic, suggest that, as the government can control radio, it should forbid broadcasting brutal and bloody details of prize fighting in millions of homes.

The government will not allow moving pictures of prize fights to be carried from one state to another. Why allow the story, by radio, to be carried into every state.

It is the broadcasting of prize fights that eventually will stop prize fighting. Clergymen, listening in, will combine to stop the brutality, and they will be able to do it.

The wonder is that they have not done so already. Prize fighting is a real moral issue, more important than Jonah and the whale, or Darwin and monkeys.

AUTOMOBILES GOING to and fro on the earth are no longer allowed to make a parking space, picnic or camping ground of the land around West Point. Same, foolishly indignant, say West Point belongs to the people, and the people should not be kept out of it.

QUITE TRUE. BUT the room in which the supreme court deliberates also belongs to the people. Nevertheless you are not allowed to drive your little automobile through it or eat your "hot dogs" on its benches.

Love comes once to us all, said some poet or other. He never wrote THAT at a summer resort.

Russia proclaims a defense week. Has somebody been trying to lend that country some money again?

M. Poincare, French wartime president, said in a speech the other day that in the matter of guilt it is well to distinguish between the German people and their rulers. Well, well, the war's over!

My! Aren't We Progressing? Illustration of a man with a \$1,000,000 GATE and a sign saying WE GAVE MEN OF 1927 A.D.

FRIDAY
No. 4 of the Methodist will meet with Mrs. Fifth Street at 4 o'clock.

MONDAY
Meeting of the Auxiliary of the Presbyterian Church at 4 o'clock at the home of Mrs. J. Lovejoy at her home on Elm Avenue.

TUESDAY
The Guild of Holy Cross Church will meet at 4 o'clock at the home of Mrs. Mortimer Glover on Palmetto Ave.

WEDNESDAY
The Wesley class of the Methodist Church will enjoy a day on Daytona Beach as the Mrs. H. B. McCall Sr.

WEDNESDAY
The Spaulding Circle of the Baptist Church will meet at 4 o'clock at her home on Elm Avenue.

Baptist Circle On Wednesday Mrs. Touchton

The Spaulding Circle of the Baptist Church met Wednesday afternoon at the home of Mrs. Touchton on Elliott Street.

The members were bright with bowls of fruit and ferns.

A short devotional exercise was given by Mrs. Ashley Kelly, who was in charge of the meeting.

The meeting closed with a social hour the hostess, Mrs. Barney Beck, served a delicious salad, kaffees and ice cream.

It was announced that the next meeting will be held with Mrs. Touchton at her home on Maple Street.

Present were Mrs. Barry, Mrs. Ashley Kelly, Mrs. Cummings, Mrs. Walter Stouffville, Mrs. Spier, Mrs. John Ahl, Mrs. E. M. Carroll, Mrs. Piter, Miss Sue Piter, Mrs. Goodale and Mrs. ...

MRS. CHRIS MATTHEWS ENTERTAINS IN HONOR OF MISS IVA FORD

Exquisite in every detail was the bridge party given Friday afternoon by Mrs. Chris Matthews entertained at bridge at her home on Elm Avenue honoring Miss Iva Jane Ford of Monroe, La., the guest of her sister Mrs. Clifford Walker. The guests included the members of the Lottaphan Bridge club and two extra tables of players.

An abundance of zinnias, radiances roses and other summer flowers were used in charming profusion in the rooms where the tables had been spread for play, carrying out the rainbow theme.

Tallies done in miniature fan designs were used for the game and after the stated number of progressions had been played, scores were compared and the one having made the highest score among the club members was awarded a hand embroidered luncheon set, while the low score prize among the club members was a pretty green vase.

The guest scoring the most points was awarded a buffet set while the one having the lowest score received a yellow bowl on a black base. The cut prize was a bouquet of exquisite pink Radiance roses. Miss Iva Jane Ford was presented a hand painted powder jar as a gift from her hostess.

Rainbow colored mints were placed on the card tables and relished during the progress of the game. Punch was served throughout the afternoon and after the prizes had been awarded Mrs. Matthews served sherbet and cake as refreshments.

Club members playing were Mrs. Walter Bach, Mrs. M. Minarik and Mrs. Warr Warner. The other guests were Miss Iva Jane Ford, Miss Clifford Walker, Miss Vera Dickerson, Mrs. S. A. Hutton and Mrs. Clarke Leonard.

Boston One Of Most Strategic Points On East Coast For Air Development

BOSTON, Aug. 5. (INS)—Like a missionary in heathen lands, Colonel Charles A. Lindbergh, transatlantic flying ace turned thousand of Bostonians to thoughts of aviation and the future that it holds for Boston, the leading city of New England.

Sweeping out of the skies in his silver plane, "Spirit of St. Louis," Colonel Lindbergh was followed closely by the greatest group of peacetime aviators the world had ever known. Commander Richard E. Byrd, Clarence Chamberlin, Lieutenant Albert Hegenberger of South Boston and Lieutenant Lester J. Matfield were here.

With one of the most strategic airport sites on the Atlantic coast, development of the facilities of the port in this city are strongly urged by prominent men.

Curly Gets Busy
Among the advocates of aviation is ex-Mayor James M. Curly whose support for municipal projects has always placed him among Boston's most progressive men.

Great possibilities are in store for the Boston airport, the former mayor believes. The East Boston airport and land adjacent, extending to and including Governor's island, represents, when filled approximately 10,000,000 square feet, or slightly in excess of 222 acres. Development of the site as a result of interest created by Colonel Lindbergh, is possible, ex-Mayor Curly believes.

Upon this great area, extending a mile into the sea, ex-Mayor would erect fabricating plants with landing ports on the roofs for commercial aviation.

The erection of such plants at the airport site would give impetus to commercial aviation and the industry in general in New England, ex-Mayor Curly believes.

Throughout New England, public-spirited citizens following the attitude taken by the former Boston mayor have succeeded arousing the public sentiment to the extent that cities never before interested in aviation are today equipped with landing fields.

DeCottes Explains Legal Side Of Sale Of Municipal Bonds

(Continued From Page One)
remarks to another gentleman and call his name, Hon. George G. Herring, who spoke from this platform about a week ago and he made certain statements to you and gave them to you as the truth and I am giving you these statements, and they went out to you as the truth, and you people believe them to be the truth unless I can explain to the contrary.

"And I don't want you to take my word as against Judge Herring's but what I tell you is the truth and I am going to back up by law and authority, you can come here and read it for yourself, don't take my word for it. One of the first things, one of the most astounding statements, falling from the lips of the gentleman, was that your attorney, representing the City Council of the City of Sanford, Florida, had issued bonds in violation of the plain provisions of your City Charter.

"Let's stop and analyze that: The Mayor has told you, which is the truth, that no bonds can be issued by the City of Sanford except by your vote, your majority vote at the polls, with the single exception of street paving bonds. Do you think my friends and fellow citizens that a bond issue is a mere scrap of paper and an informal proceeding upon which you can go to the money world and money market and realize each one of them?

Do you think we are living in an ignorant age, or do you think that this City Commission are dealing with Wall Street and financial interests, with the keenest, most prominent attorneys in the world? Do you think those gentlemen are taking securities of your City unless they are satisfied that they are regular in every respect? Whenever bonds are voted by the people of this City, the taxing district and community vote to authorize the issuance of those bonds.

What is the next step? You file what is known as a Bill for the validation of those bonds; you file that Bill in the Circuit Court. When that petition is filed the Judge of the Circuit Court, makes an order as Judge. That order is directed to the State Attorney of the Circuit, saying that the State of Florida has filed petition and has set forth the procedure with reference to that issue of bonds, and commands and orders the State Attorney in not less than 21 day from that date to appear before him and show cause, if any he has, showing the legal objection to the bonded obligation of your City.

Does the Judge stop there? NO. The orders are directed to the Clerk of the Circuit Court directing him to publish for three weeks, four times at least, and are directed to all the citizens and tax payers of the City of Sanford, Florida advising them of the date and the place when he will be in session to hear any reasons advanced by any of the citizen or any tax payer wherein the bonds offered to the investing public are invalid. That affords an opportunity to Judge Herring, to Mr. Douglas and to the people of the City of Sanford, if they have any just cause of complaint of coming into the Court and making known their objections to the validation of the proposition. The hearing is called here by the Circuit Judge. He investigates the proceedings; he takes the answer of the State Attorney and after a full investigation and

BROTHERHOOD OF ENGINEERS SHAKE UP ORGANIZATION

Organization Will Be Manned By Young Men In Future As Against Former Policy; Big House Cleaning Is Ordered

CLEVELAND, Aug. 5. (INS)—The brotherhood of Locomotive Engineers, one of the richest and most powerful labor unions in the world, has experienced, during June and July, important changes, as the result of its fifth triennial convention which remained in session here for more than seven weeks, marking the longest and most expensive meet in B. of L. E. history.

Of the changes, none were more significant than the fact that hereafter the brotherhood will be manned, almost entirely by younger men than heretofore.

The order's administrative through discussion of the matter, he enters a decree validating the bonds as to legality; he signs a decree, putting you, the investigating public and the world on notice that the securities you are attempting to offer are null and void. That "house-cleaning" has been virtually completed—even the organization has been changed, many of the old officers being done away with entirely and new ones created. W. B. Prenter, former president of the order, and you can't issue bonds in any other way. Yet Judge Herring says that all these securities we have issued have been in violation of the Charter of the City of Sanford, Florida.

Are you done then? NO. The law requires that after the bonds have been validated in the manner that I have outlined, it then becomes necessary to advertise those bonds for sale at public sale and that advertisement must be published for a period of three weeks to the world and in addition to the local publication that the City Commission may in their discretion add in the Financial Journal in New York, or any other live market, inviting bids for those bonds, and those bids are received, opened and considered.

There is another statement Mr. Herring made: let me go back a little. He said to you, my friends, do you know that the City of Sanford, Florida, in plain violation of the provisions of its Charter, that you should not issue bonds in excess of 15 per cent of the assessed valuation of the City, has done so, and that therefore those bonds so issued are null and void, and would have you believe that these Commissioners are personally responsible for that obligation.

If you will take the financial statement which is printed, and request at the Clerk's office, one of which I hold in my hand, you will find that the assessed valuation of the City of Sanford as shown on the statement is \$19,450,000. You take the total outstanding bonded debt, direct and valid obligations, not utility bonds, not straight paying assessment bonds, and you have the sum of a little over two million dollars, if you will calculate by percent the ratio that two million dollars bears to \$19,450,000, your result will be 13 per cent plus, and yet Mr. Herring says it is 15 per cent excess. But granting that Mr. Herring is right in that respect, he is still wrong.

The Herald regrets its inability to reproduce the rest of Mr. DeCottes' address in tonight's paper, but wishes to assure its readers that the remainder will appear, "verbatim, uberratum," in our next issue.

When Casper Wistar, 182 years ago, gave land for the building of the Trinity Reformed Church at Tulpehocken, Pennsylvania, he stipulated in the deed that one red rose should be the annual rental. Each year the heirs to the donor are presented with a single red rose.

Many London factories and business offices have posted an order forbidding girl employees to powder their noses during business hours. Prior to this order the nose four times an hour, taking two minutes to do it each time.

Robert Raikes is said to have held the first Sunday school in 1812, when one Sunday morning he gathered the street boys of Gloucester, England, into his house and held a free school to keep them off the streets.

Dante Gabriel Rossetti had published none of his poems when his wife's death came in February, 1862. So great was his grief that he buried in her coffin the manuscript of all his verse. They were rescued by Charles Augustus Howell in 1869.

Before the time of the trousers pocket, man carried his valuables in a little bag of cloth tied about his waist. Often, however, a thief would slip up behind, slit the string with a knife and make off with the treasure. A thoughtful Frenchman, 300 years ago, sewed the bag in the lining of his garments, thereby instituting the first trousers pocket.

Brotherhood of Engineers Shake Up Organization

Boston, Aug. 4. (INS)—Like a missionary in heathen lands, Colonel Charles A. Lindbergh, transatlantic flying ace turned thousands of Bostonians to thoughts of aviation and the future that it holds for Boston, the leading city of New England.

Sweeping out of the skies in his silver plane, "Spirit of St. Louis," Colonel Lindbergh was followed closely by the greatest group of peacetime aviators the world had ever known. Commander Richard E. Byrd, Clarence Chamberlin, Lieutenant Albert Hegenberger of South Boston and Lieutenant Lester J. Matfield were here.

With one of the most strategic airport sites on the Atlantic coast, development of the facilities of the port in this city are strongly urged by prominent men.

Curly Gets Busy
Among the advocates of aviation is ex-Mayor James M. Curly whose support for municipal projects has always placed him among Boston's most progressive men.

Great possibilities are in store for the Boston airport, the former mayor believes. The East Boston airport and land adjacent, extending to and including Governor's island, represents, when filled approximately 10,000,000 square feet, or slightly in excess of 222 acres. Development of the site as a result of interest created by Colonel Lindbergh, is possible, ex-Mayor Curly believes.

Upon this great area, extending a mile into the sea, ex-Mayor would erect fabricating plants with landing ports on the roofs for commercial aviation.

The erection of such plants at the airport site would give impetus to commercial aviation and the industry in general in New England, ex-Mayor Curly believes.

Throughout New England, public-spirited citizens following the attitude taken by the former Boston mayor have succeeded arousing the public sentiment to the extent that cities never before interested in aviation are today equipped with landing fields.

dent, has been dismissed and the highest authority now rests with Alvanley Johnston, grand chief engineer. In almost every instance, the new men who have replaced former officers are younger men.

These new officers face a difficult task. They will be called upon to put the brotherhood back on a sound financial basis. It will be their duty to recoup losses resulting from ventures into which the order entered in an earlier regime. Well founded reports have it that the brotherhood has lost approximately \$10,000,000 within the last few years.

A number of steps have already been taken, the most important of which is a \$5 monthly assessment on all members, which will remain in operation for two years and which is expected to raise about \$7,200,000. Members are privileged to buy bonds, in lieu of being assessed, if they wish. In addition a \$4,000,000 mortgage will be placed on the B. of L. E. buildings in Cleveland, and bonds will be sold, with the assessment as security.

Experts bankers hereafter will govern the brotherhood banks and investment institutions scattered from coast to coast.

and Mrs. Donald Smith and Mrs. Marlowe, are expected to return home Saturday from where they have been spending the week.

and Mrs. Charles T. Fuller, A. P. Connelly and Miss Geor-gey returned home Thursday from Miami and Palm Beach where they spent a few days.

and Mrs. J. B. Lawson and Mrs. Dorothea, returned home Saturday evening from Atlanta, Ga., where they have been spending the past three weeks.

and Mrs. James Moughton, Mrs. Chapman and Mary Bright returned Saturday for Minneapolis, Minn., where they will spend several weeks. They will also visit at Rochester, N. Y., and points before returning home.

and Mrs. Charles T. Fuller returned Saturday for Myrtle Beach, where they will spend the remainder of the summer going there to Atlanta, Ga., where they will make their home. It is regretted that these people are leaving Sanford and it is hoped they will return at an early date.

SPORTS

Celerymen Capture First Contest From Tampa Smokers, 7-3

McClannahan And Lee Withrow Hold Leachmen Safely As Mates Clout Domingo Hard

Southpaw Gets 3 Hits In 3 Trips

McClannahan Clouts In Pinches; Tampa Threatens 2 Times

Lefty McClannahan, with a little aid from Lee Withrow, held the Smokers to six hits while their mates were knocking Domingo all over the lot and Sanford yesterday afternoon took the first game of the series from the Tampa Smokers, yesterday afternoon.

McClannahan was in rare form until the seventh inning when after two men were out he walked three in succession. Just at this time Manager Crowe decided that McClannahan had done all that was necessary for one afternoon so Withrow was called from the bullpen. Withrow promptly forced Beazley to the ground out retiring the side. McClannahan also led the hitters getting three for three, all of them coming at opportune moments.

Sanford got to Domingo early, scoring three runs in the second inning. Crowe singled to center. Bailey was safe on Doran's error. Dunbar was safe as Domingo threw wild to third attempting to catch Crowe who scored. Bailey who had gone to third scored on a sacrifice fly to right by Frisbie. McClannahan singled to left and Dunbar scored. Beazley doubled to right but Fergus, running for McClannahan, was held at third. Myers ended things by grounding out.

Tampa threatened in the fourth but splendid pitching kept them from denting the column. Messner singled to center. Buckley went out to Myers but Doran singled to the right and Messner was held on the third. Beazley walked choking the bags with but one out. Here McClannahan gave the fans an exhibition of real hurling as he struck out Seehorn and Edwards to end the inning. Both of these men are dangerous hitters.

In the fifth Sanford added three more. McClannahan singled through short. Beazley sacrificed him to second. Myers singled through short and Fergus again running for McClannahan scored. Allen struck out. Crowe singled to center and Bailey singled to right scoring Myers. Crowe went to third. Dunbar beat out an infield hit as Crowe scored.

Tampa scored twice in the sixth. Messner again singled to center. Buckley was called out on strikes but again Doran singled over second, to score Messner and Doran. Frisbie made a beautiful catch of Blackstock's fly over second. In the seventh after Francis and Domingo had fled out Messner, Buckley and Doran walked in succession and Withrow was sent into pitch. Beazley grounded out. The Smokers scored one off Withrow in the eighth. Seehorn fled to Dunbar and went to second as Rip dropped the ball wild to first. Niddle recording Seehorn.

The Feds scored their last run in the seventh when Riddle singled to left. McClannahan beat out a bunt. Beazley beat out a bunt and went to second as Domingo threw the ball wild to first. Riddle scoring and McClannahan going to third.

The game Saturday will be started at 3:30 in order to allow umpires Horton and Marshall to catch a train for Miami where they will officiate Sunday.

While the slump of New York Yankees is giving faint hope to the other contenders in the American League, the Cubs and Pirates are enjoying winning spurts in the National. The Cubs won their fifth straight game yesterday but their lead was cut to one game as the Pirates beat the Phillies twice for their third straight victory. The Yanks, however, have dropped four of their last seven games.

Heathcote's triple with two on in eighth gave the bruins the edge over the Braves, 5 to 4. Charley Root hung up his nineteenth victory of the season.

The Pirates made 29 hits in trimming the Phils twice, 8 to 5 and 7 to 3. Pitcher John Miljus, who is getting his second tryout in the big show, saved the first game for the bugs and Ray Kremer won his own game in the nightcap by clouting a homerun and two singles.

William Watten Clark made his first start on the mound for Brooklyn but Jumbo Elliott had to help him trim the cardinals, 4 to 2. The Rolling layed Bob McGraw, who used to pitch for them.

Pitcher Joe Batters of the Robins has gone to Holton, Kan., to head his youngest brother, Clark into the Brooklyn pitching fold. As another brother, Virgil, is with the Giants, the Barnes family will have three pitchers in the National League.

"I'm glad I followed the advice of Mary Garden"

Margery Bailey is telling her companion, Ed Wagner, as he offers her a Lucky Strike between tennis matches at Forest Hills.

Marvelous Mary Garden writes:

"My teachers, Trabello and Richard Bartelemey, all impressed upon me the solemn warning that I must always treat my throat as a delicate instrument. Yet every artist is under constant strain. Sometimes we get real relaxation in smoking a cigarette. I prefer Lucky Strikes—which both protects the throat and gives real enjoyment."

Mary Garden

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

"It's toasted"

No Throat Irritation - No Cough.

Atlantic's New Challengers

Where Nungesser and Gull, Captain Bignot and Lieutenant Dieudonne Coste (left to right above) hope to succeed. They're reported about ready to take off from Paris on a non-stop flight to New York. They will fly a Breguet one-motored biplane in which they already have set a record of 3415 miles of continuous flight—a record that it remained for Lindbergh to break with his epochal journey in the "Spirit of St. Louis."

20--Farms For Sale

24--Lots For Sale

MUCK LANDS ARE VALUABLE
Just three miles from the city limits on highway I have eight acres of muck lands that can be bought for \$500 an acre or special price made on all of it. Thirty acres in entire tract includes citrus lands and other good garden land. Fine place for poultry and truck of all kinds. Men can make living raising bulbs, celery, vegetables and poultry for Sanford and Orlando markets. Address R. A. C. care Herald. This will not be an instant long. If you do not think this land is worth the price try to buy some of the muck lands in other parts of the county.

26--Miscellaneous For Sale

FURNITURE FOR COMPLETE house. Will sell individual sets. Address 408 Palmetto. Phone 174-W.

OUT OUR WAY

BY WILLIAMS

THE NOMAD

THEY'VE CROWDED US INTO THE DESERTS WHEN YOU COULDN'T RAISE A BALLOON. SO WE STARTED TO BREED UP SOME CATTLE THAT COULD LIVE ON THE LIGHT OF THE MOON. WE'VE MADE OUR LAST MOVE WE ALL FIGGERED NO FARMER COULD USE THIS HERE SOIL. BUT ALONG COMES A GOGGLE EYED SNOOPER AN' ROOTS UP A GUSHER OF OIL.

Copyright by NEA Service, Inc. Reg. U.S. Pat. Off.

FOR SALE: one wood range, one 2 burner oilstove, with oven, one 2 burner gas range and other furniture cheap. 896 Magnolia Ave. Phone 299.

Nuremberg made the first watch in 1500. The awkward instruments without crystals and with only one hand, were known as "Nuremberg clogs."

When asked the question, "who is Calvin Coolidge?" the pupils in a high school in Paris gave the following answers: An aviator; the inventor of the Paris subway; a big diplomat; my father knows him well; and a relative of Lafayette.

Gern-n-Cross, a crude form of carbolic acid, used by Lord Lister in May, 1865, was the first antiseptic used in surgery.

A BALD-HEADED BACHELOR on the faculty of the Ohio State University buys 10,000 hairpins every year. He uses them to attach labels to ears of corn in the laboratory.

"HORSE" IS FREQUENTLY used in the names of plants and fruits to denote a large, coarse or strong variety. It is supposed that "horse-radish" acquired its name in this way, being regarded as a course kind of radish.

BAW - Hoo - Hoo MY KITE'S FAST IN THE TREE

WELL, STOP YOUR BELLERIN' AND I'LL GET IT FOR YOU

I'LL SCOOT UP THIS TREE AS QUICK AS A MONKEY - I HOPE MOM LOOKS OUT THE WINDOW AND SEES ME DOING IT

YEP - SHE'S LOOKIN' NOW MAYBE SHE'LL GIVE ME CREDIT FOR BEING SOMETHING MORE THAN A LIFELESS OLD STIFF

JUST LOOK AT YOURSELF - IT JUST SHOWS HOW MUCH YOU APPRECIATE IT WHEN I TRY TO KEEP YOUR CLOTHES NEAT AND CLEAN - YOU LOOK WORSE THAN A TRAMP

BAW! MOM - HE'S SPOILT MY KITE

THERE'S DEATH in the air

No fly, mosquito or roach escapes alive

IT hangs in the air—a vapor of death for every fly and mosquito in a room. For Black Flag is the deadliest insect-killer ever discovered.

Bugs breathe it and die. It contains a secret, vegetable ingredient that is fatal to, and rids your home of roaches, ants, bed-bugs, fleas, moths and other insect pests. But it is absolutely harmless to humans and animals. Test for yourself its killing power. Two forms, equally deadly—Liquid and Powder. At drug, grocery, hardware and department stores. Powder 15c up.

only **25¢** for the 1/2 pint **LIQUID**
