

# Feds Lose First Cage Contest To Panthers 35 To 26

## Visitors Penetrate Defense Of Locals After Half To Pile Up Winning Margin

Facing one of the strongest teams in the conference in its initial game, the Seminole High School Celery Fed quintet dropped a hard fought battle to the Daytona Panthers by a score of 35 to 26 at the local gym yesterday afternoon.

The Feds meet their rivals, the Orlando High School Tigers in the local gym this afternoon at 2:15 o'clock and Thursday night finish a busy week with a game against another undefeated Northeast Conference team, the Daytona Beach Buccaneers.

In yesterday's game against the Feds the proteges of Coach Memory Martin rallied after the half time when the score was knotted 19-19 to take a lead which the local cagers were unable to overcome.

The Feds in the early part of the game outplayed and outmaneuvered their Lake county opponents but in the final stanza appeared the defense of the locals faltered.

In the first quarter the Feds took an early lead but the Panthers came back in the latter part of the period to score 10 points, holding a 10 to 4 lead over the locals at the end of the first stanza.

The Feds returned to form in the second quarter to overcome the lead and fighting hard won the lead by a score of 14 to 10 at the half.

The two teams played an even game in the early part of the third but as the game progressed the Panthers gradually piled up a lead which the Seminole quintet could not overcome.

D. Salter of the visitors, was high scorer for the game with a total of 10 points. J. Salter followed with nine markers while the Ferguson brothers sunk eight points each to divide high scoring honors for the local cagers.

Fresh from a 42-37 victory over the Clearwater High School cagers in the Orlando gym last night, the Orlando Tigers will be out for another victory when they meet the Feds this afternoon.

The Feds on the other hand will

# Daytona Quint Beats Yellow Jackets 30-20

LEESBURG, Jan. 18.—In a Northeast Conference game last night at Leesburg the Daytona Buccaneers handed the Leesburg Yellow Jackets their third straight defeat in a row, to the tune of 30-20.

The Bucks, paced by Crane, lanky center, who garnered nine points, were in command most of the way, leading 12-9, at the intermission, and boosted their margin to 10 points at the final whistle. Nelson, Buc guard, followed Crane closely by sinking three field goals and one foul shot for a total of seven points. Zimmerman and McDonough forwards, also starred for the winners with six points each to their credit.

For the Jackets, Herlong was easily the outstanding man, making more than half of his team's points and playing a fine defensive game. He looped in five goals from the floor, and one from the foul line for a total of 11 points.

He out to avenge their loss yesterday afternoon and will put up a hard fight to break the jinx the Orangians have apparently held over the locals for a number of years.

The Feds also desire to get in to the win column early in the season in order to be in line for the conference crown for the season.

The game was a closely fought battle with the Daytona Beach Buccaneers whom the local cagers play here Thursday night. The Feds have a lot at stake in this game and will be in there fighting for a victory. A large attendance of local basketball enthusiasts are expected to witness the game.

# Northern Spy Upset Winner Of Featured Futurity Race

Northern Spy, a two year old whose victories thus far this season have been in races under the top box, surprised his followers last night by taking a long lead at the first turn of the feature futurity at the Sanford-Orlando Kennel Club and staying in front all the way.

The son of Fleck View and Nellie Doland paid \$29.40 for \$2. Second, one length back was Gay Hop while Parmak was third.

Mortown won his second straight hurdle start by a big margin, showing the way to Pilot Lee and Moked Nettie.

The youthful jumper returned \$5.40 to win.

Pilot Lee fell into Chuck Rock at the second brush and then jumped on top of another greyhound to the third hurdle to ruin his chances.

The quintet was won by the 4-6 combination, paying \$53 for \$2.

The greyhounds were Irish Turf and Miss Riley. Irish Turf broke near the front of the pack for a change and overcame an early lead run up by Justicus out of the one box. Miss Riley also came from behind right at the wire to take place money.

The daily double combination 2-6 paid \$144.00 for a \$2 ticket. Miss Phillips won the second race while Irish Cop took the third.

The veteran Just Forgotten captured the eighth event with a fast break out of the eight box that carried him to the top and sent him out to a long lead going down the back stretch.

# Gators Down Hatters By Score Of 32 To 29

DELAND, Jan. 18.—(AP)—Florida's Gators avenged an upset defeat on the gridiron last fall with a thrilling 32-29 basketball victory over the Stetson Hatters here last night.

A closing rush by the green-clad Hatters that pulled them up 16 points while the weary Gators were garnering only seven, kept a capacity crowd on its feet for the last 10 minutes of play.

Only superb defensive work averted a last-minute defeat as the Floridaans "froze" the ball until the final whistle.

Florida's offense, which clicked so well early in the second half with Vinny Zlanuzkas pacing the way on a 15-point scoring spree, folded up midway of the period when the speedy little forward left the game because of personal fouls.

It was a rough battle from start to finish, Stetson being charged with 22 personal fouls and Florida 16.

## "Trade At Home" Inducements Are Discussed At Meet

Housewives Asked To Fill Out Questionnaire For Merchants

Means of inducing local residents to "trade at home" was the principal topic of discussion at the regular meeting of the officers of the Business and Professional Men's Association in the Chamber of Commerce building last night.

Officials of the business men's organization today announced plans for sending out questionnaires to Seminole County housewives on trading at home and they will be requested also to fill in the names of articles which they have been unable to purchase from local merchants.

This list will be used by the various merchant members as a basis for enlarging the stocks at their stores, it was pointed out.

H. H. Pope and John Tevy reported at the meeting that the interests at the Sanford-Orlando Kennel Club was co-operating wholeheartedly in the request of the association that they direct some of their patronage during the racing season to local firms.

The value of a trailer camp for Sanford was discussed and the group voted to send out inquiries to nearby cities which have trailer camps in an effort to get a detailed report of the advantages of such a project.

The entire membership of the association will hold a dinner in the Mayfair Hotel on Feb. 2.

WASHINGTON DAYBOOK

WASHINGTON, Jan. 19.—(AP)—Virtually all the speculation as to what will happen when independent Democrats team up with Republicans to harness the administration is based on hazy assumptions that Republicans stick together like flies on a molasses can. But they don't.

We checked back over the important votes of the 1937-38 session and about the only matter on which the Republicans voted unanimously was to keep politics out of relief. That was a high ideal which the Republicans could vote for safely because they did not have control of the relief administration.

What might have happened if Republicans had controlled relief is another matter. Certainly a goodly number of Democrats voted against such a restriction. Democrats had to measure high ideals on one side against the advantage of using WPA in tough battles in the primaries—and were not too bashful to say so.

Republican senators were close to unanimous against the original wage-hour bill, only two voting for it. When it came out of conference in a much milder form, however, several Republicans indicated they were less critical of it.

When this legislation comes up for amendment this session Democratic independents probably will find anything but a solid bloc of Republicans to rely upon, either to push through one type of amendments or to block others.

On the controversial confirmation of Hugo Black to the Supreme Court (the vote came before his alleged Klan affiliation was published), the Republicans voted four times as many as the Democrats.

The farm (crop control) bill found two Republican senators in support, 11 opposed. Two Republicans supported the Guffey coal control bill seven opposed it. The housing act drew four opposing Republican votes, eight for it.

And how about neutrality? Will suspicious Democrats seek to join with the "Republican bloc" to curb the President's freedom in international affairs? One important piece of legislation which affects that control is the Neutrality (better called Isolation) Act.

When that came up in 1937 the Republicans split wide five opposing and nine supporting. Moreover, its operation in the Spanish and Japanese-Chinese war situation has developed even further discussion.

Will the Republican bloc align solidly with independent Democrats to modify the President's national defense aspirations? As Al Smith would say, let's look at the record. The first step of this big defense program was taken last session when the billion-dollar Navy authorization bill came up. Eleven Republicans voted with the administration for the bill—three against.

One thing should be noted in connection with the naval bill. Of the eleven Republican senators for it, nine came from seacoast states which likely would benefit from any such building, and which also would be the first attacked by an enemy navy.

There won't be any such sea-coast attraction to the big air bill, perhaps, but most of the big airplane factories are located in seacoast states.

The Republicans have split at various times on phases of almost every issue. They broke ranks time after time on different farm proposals and labor legislation. On just what issue is the harmony of Republicans and Democratic independents to begin?

## Tamerlane Time Inspires Spring Clothes Colors

By ADELAIDE KERR  
The time of Tamerlane has inspired an American designer's color schemes for spring clothes of 1939, nearly 600 years after the oriental conqueror's reign.

In a season when "Beige-for-spring" is often heard, the designer (Del Monte Hickey) has made wide use of two beiges—"honey-mead," a light champagne tint inspired by the beguiling garden, and "buckthorn," a deeper woody tone, named from a shrub in Asia Minor. "Amaranth," a violet blue, and "Tyria," a deep fuchsia-toned rose, both found in the mosaics and porcelains of Tamerlane's day, also are used.

Sometimes the two beiges are combined in a color scheme noteworthy because of its novelty. Again they are accented by one of the deeper colors.

Suits are one of the most interesting parts of the collection shown in a season when suits (with many dress and jacket combinations) are slated for a spring run. They are often designed on an "English silhouette" with jackets fairly soft at the top, fitted at the waistline and firm at the hips. Many of the jackets (often rather brief) have small high lapels and no belt collars and are padded forward at the square shoulder line. Skirts are gored and fairly slender without being extremely straight, although some have fullness.

There are many beige suits—buckthorn or honey-mead—sometimes combined with a blouse of the contrasting beige tone and topped by a three-quarter length box coat (with no back fullness) made of big brown, beige and amaranth blue plaid wool. Again they combine an amaranth blue skirt or a tyria rose tailored frock with a fitted striped jacket or a short box plaid coat. The houses of crepe or taffeta are in design and finished with very smooth finishes as two little points climbing up the breast.

These advance spring costumes are shown with colorful accessories such as necklaces of "torse-shell" medallions, a bracelet of iridescent amaranth blue shells or a turquoise scarf whose color is repeated in a bracelet of turquoise shell plaques. The gauntlets and medium-large soft bags (often in the deeper buckthorn beige) are frequently of suede. Many of the shoes are open-toed and some of them have not-so-thick platform soles of contrasting hue.

The hats of felt or suede shown with suits are softly tailored and fit well onto the head. A buckthorn beige suede with a trim which rolls up in the back and clips slightly in front has a fishnet scarf wrapped around its crown and a homburg of buckthorn felt is tipped with a long pheasant feather.

Spring coats make another interesting section of this designer's collection. Their shoulders are squared and their necklines collarless or finished with small collars. A number of afternoon coats in beige or navy blue wool have fitted or corset waistlines and full skirts. A similar neoclassical full-skirted line is even repeated in a double-breasted coat designed for spectator wear.

Most of the afternoon coats come into the salon over simple crepe frocks of contrasting hue. Other crepe afternoon dresses are topped with brief fitted contrasting jackets. A dark blue one for instance, walks out with a jacket, accessories and feathered toque of amaranth blue. The whole collection emphasizes the importance of color in accents.

## City Dredges Bottom Is Inundated

NEW HOLLAND, N. C., Jan. 19.—(AP)—What was once a 45,000-acre "Holland in America" now lies at the bottom of North Carolina's largest lake.

Upwards of \$17,000,000 was spent 15 years ago in reclaiming the 50,000 acres of rich farm land from the bottom of Lake Mattamuskeet in Hyde county. A complete settlement—including a 23-room hotel, houses, barns, highways and bridges were established beneath sea level.

One of the largest pumping stations in the world—its capacity a million and a quarter gallons of water and keep it clear. It was not equal to the task, though, and slowly homes and farms were inundated. Water stood in the hotel lobby.

## Colorado May Build Highway Flight Strips

DENVER, Jan. 19.—(AP)—The Colorado highway department is considering a proposal for "flight strips" along highways for regular and emergency use by airplanes.

James B. Kenney, secretary of the Colorado Association of Highway Engineers, said the strips were proposed for sparsely settled and mountainous territories where the cost of maintaining and constructing emergency landing fields is prohibitive.

The strips would be 200 feet wide and from 2,500 to 3,000 feet long, paralleling the highways. They would be so close to a main highway where equipment is readily available, that the cost would be negligible.

Those who favor the plan cite many instances where aviators in emergencies have landed on existing highways at great hazard to themselves and automobile traffic, said Kenney.

## Sino-Japanese Inter-marriage Is Advocated

Scientist Says This Would Result In New Oriental Race

By RELMAN MORIN  
TOKYO, Jan. 19.—(AP)—Will China finally win the war by absorbing in her own blood-stream the invading Japanese?

Political scientists, pointing to the previous invasions of China by Siberians, Mongols, Manchus and Tartars, long have held that belief. These invaders conquered China, occupied it—and then disappeared, absorbed through intermarriage in the colossal Chinese birthrate.

Japanese scientists, however, do not believe that this invasion will end like the others. Active measures, not to prohibit intermarriage but to encourage it, are being advocated in Tokyo today.

Leading the movement is Prince Kashiwa Oyami, a soldier, scientist, and son of one of the great heroes of the Russo-Japanese War. His thesis is simple. "You can't build the East Asia bloc through politics and economics alone. Japan, Man-

choukuo and China must be merged, physically, through intermarriage."

Oyami is campaigning for the establishment of an institute to map a definite program for that intermarriage. He says that only higher types among the three nations should be permitted to intermarriage. He says that only those of the qualifications for such unions.

"Out of this would come a new Oriental race, combining the best qualities of all three coun-

## Gallant Trooper Of The Turf Is Now 36 Years Old

LEXINGTON, Ky., Jan. 19.—(AP)—Merrick, reputed to be the world's oldest living thoroughbred and one of the "iron men" of the turf, still hobbles along.

On New-Year's day—birthday for all thoroughbreds—this gallant old trooper, retired in 1918 after campaigning 12 years, was 36.

When he dies, Merrick will leave his name for posterity, although he never contributed any particularly striking episodes to the sport of kings.

**Name Farm For Him**  
A highway bridge in Fayette county and the farm on which he is quartered have been named "Merrick" in tribute to the veteran.

Merrick, once a sleek chestnut gelding, became even more of a patriarch after the death last year of Ballot, at the age of 33, reputed to have been the world's oldest thoroughbred stallion.

Aside from his long career on the track, Merrick was a high-grade pater. In 205 starts from 1905 to 1915, inclusive, he finished in the money in 125 races, winning 61. His total earnings were only \$22,787, a mere drop in the bucket these days.

**From California**  
Foaled at James B. Haggins' farm near Sacramento, Calif., in 1903, the son of imported Golden Garter-Bianca, Merrick was sold while a yearling for \$2,500 to Newton Bennington. He passed through several hands before he became the property of his present owner, J. A. Cat. Miami.

Today, on Miami's farm near here, Merrick, now blind in one eye, while away his declining years on equine comfort. He is the "Old Man" to attendants. His chief companions are a 20-year-old cat and a 10-year-old dog.

**Washington Was Good Salesman, Paper Says**

HARLINGEN, Tex., Jan. 19.—(AP)—A copy of the first issue of the Maryland Journal dated August 20, 1773, indicates George Washington could give a good sales talk.

Washington was the principal advertiser in the issue and had some "choice lands" for sale.

The advertisement, which was signed by him, emphasized the lands had a very desirable location on the Ohio or Kanhawa rivers and were such that "none can exceed them in luxuriance of soil."

He also pointed out that if ever a government was established on the Ohio the value of the land would increase.

**Exchange Postpones Day Of Reckoning**

LONDON, Jan. 19.—(AP)—The stock exchange committee has given itself power, by means of an addition to the rules, to postpone the date of any settlement should war or any other emergency arise.

Settlement days occur usually once a fortnight, when members meet their commitments.

of China's previous invasion, the invaders' native countries were far distant and the occupation was by isolated armies a long way from home.

In the case of the Japanese, the invasion of China is not merely by an army. In time, it will be by a people with Japan only a short distance away. Tokyo officials believe the Japanese can be depended upon to maintain their identity in China.

So intermarriage will be encouraged, not frowned upon.

**WATCH YOUR THROAT**

after sudden exposures gargle Listerine

Sudden temperature changes, like drafts, wet feet, and fatigue, may lower body resistance. Germs in the mouth get the upper hand and colds or sore throats often develop. Frequently the prompt use of Listerine Antiseptic will head off the cold or irritated throat because it kills the germs associated with them.

**Relief Problem  
Is Biggest For  
Present Congress**

**Unemployment Solution  
Is Elusive. As  
Einstein's Theory**

By MORGAN M. BEATTY  
WASHINGTON, Jan. 19. (AP)—  
The question of the moment in  
Washington:  
"Is Congress at long last about  
to face the relief problem in dead  
earnest?"  
That problem has been pointed

out—but not answered—by econo-  
mists of every hue, from Marx  
judged to ultra conservative.  
Everybody has been talking about  
the politics in relief, but few peo-  
ple have been discussing the real  
problem.  
Simplified, it is just this—the  
arithmetic of relief.  
This arithmetic is a simple, ac-  
cording to grade equation almost any-  
body can understand. But the an-  
swer is as elusive as the Einstein  
theory.  
Here's one side of the equation:  
By most reliable counts, there  
are about 10,000,000 unemployed  
persons in the United States—peo-  
ple who can't, or don't, find a job.  
The federal, state, county and  
city governments are taking care  
of about half of these people, part

of them with a dole, and part  
through work relief (WPA). The  
rest are not getting relief from  
government.  
Here's the other side of the  
equation:  
The federal Government is  
spending money at the rate of  
more than two billion dollars a  
year to care for some 3,000,000 of  
the unemployed. Every dollar of  
that sum represents borrowed  
money—red ink on the Treasury  
book.  
The states, counties, and cities  
are spending at the rate of a half  
billion dollars a year to give two  
million odd more a dole. And many  
of these governments are also  
going in the red to do the job.  
Thus, the problem is, how can  
the unemployed be taken care of

**Coroner  
70-Year Old Woman**

BIRMINGHAM, England, Jan.  
19.—A woman of 70 who  
struggled with an intruder while  
her son went for help was es-  
tablished at the inquest into the  
boy's death. The coroner's  
jury returned a verdict of justifi-  
cable homicide in the case of Wil-  
liam G. Hart, 26, who died from  
tetanus when shot in the leg by  
her son.  
Mrs. Harriet Grimill testified  
that she was struck on the head  
with a poker and the broken poker  
stick on his. Her son came to her  
help and was hit over the face  
while the intruder held the elder-  
ly lady by the throat.  
"There was blood streaming  
down my son's face, and I shouted  
'Shoot, Jack, or he'll do us both in.'  
Then I heard the shot," Mrs. Whit-  
mill said her son then went for  
help while she held down Hart.

**Says Most Persons  
Have Stomach Ulcers**

CHICAGO, Jan. 19.—(AP)—  
Most persons have ulcers of the  
stomach and don't know it, states  
Dr. H. E. Robertson of Roches-  
ter, Minn., in the Journal of the  
American Medical Association.  
Food and drink intemperance,  
poisons, local infections, fever,  
anemia and emotional distur-  
bances cause hemorrhages in the  
mucous membrane of the stom-  
ach. The tissue dies and is dis-  
gusted by the stomach juices,  
leaving an ulcer which nature  
repairs.  
Dr. Robertson says chronic ul-  
cers result from the stomach's  
failure to repair the lesions and  
that medical science has not fol-  
lowed the reason for this.

without bankrupting the various  
units of government in the United  
States?

Naturally, the long-term answer  
would appear to be that private  
industry should be encouraged to  
re-employ the 10,000,000 unem-  
ployed. Everybody seems to agree  
on that, even the most rabid of  
New Dealers. But everybody also  
agrees that this can't be done  
right away; some even think it  
will never be done.

Anyway, the immediate, pre-  
siding problem of relief remains—  
unanswered. Congress, of course,  
is torn between the pressure to  
cut the cost of government and  
the pressure to take a generous  
humanitarian attitude on relief.

The Roosevelt administration  
has taken its stand—that the prob-  
lem is here and the solution not  
yet in sight. Therefore, the Presi-  
dent proposes to continue to spend  
about as much this fiscal year,  
and next, on relief, as during the  
last three years. That means more  
than \$2,000,000,000 annually.

Hence, the President proposes  
to spend another \$275,000,000 be-  
tween February 1 and June 30—  
the end of this fiscal year. (Add  
that to the \$1,425,000,000 appro-  
priated previously for the first  
seven months of the fiscal year,  
and you have your annual total  
exceeding two billions.)

The House subcommittee in  
charge of the relief purse strings  
has cut the \$275,000,000 to \$75-  
000,000, at a rate of \$150,000,000.  
That appropriation for all sides of  
the budget is a compromise. This  
plainly indicates that between a  
policy of retrenchment—not a solu-  
tion.

On the basis of that compro-  
mise, the authorities figure that  
Congress is going to make no  
more than a gesture to cut the  
expense of relief, or even of the  
federal Government as a whole.

If that is true, the answer to  
the question of the hour is:  
"Congress is not going to face  
the relief problem in dead ear-  
nest this year."

But it is a significant fact that  
congressmen who have never be-  
fore had more than a speaking  
acquaintance with the intricate  
techniques of economic relief are  
beginning to study the arithmetic of relief.

For the under-standing of eco-  
nomics is necessary to begin to un-  
derstand the complexities of pres-  
ent day social problems and their  
relation to the national budget of  
dollars and cents.

# Celery Feds Trounce Orlando Tigers 44 To 27

## Locals Win Over Rivals For First Time In Years

### Seminole Zone Defense Is Invulnerable; Big Test For Cagers To Be Against Daytona Buccaneers Tonight

By GLENN GOYCEK  
Seminole High School's basketball team, up to the present an unknown quantity, proved their mettle on the court yesterday afternoon by thoroughly trouncing the visiting Orlando High School Tigers by a score of 44 to 27 for the first victory over the Orange County rivals in any major sport since 1935.

The Feds apparently got over the stage fright or whatever was holding them back in Tuesday's contest against the Eustis Panthers for yesterday the Melucas' team was a smooth-working machine with a zone defense that just couldn't be cracked by the Tigers who cked out a two point victory over the Eustis quintet last week.

The big test for the Feds however, will be against the strong Daytona Beach Buccaneers in the game to be played in the local high school gym tonight. The Buccaneers so far this season boast an undefeated conference record. They took their latest adversary, the Lee-burg Yellow Jackets, into camp by a score of 30 to 20 Tuesday night and it will be up to the Feds to up their winning streak if the Seminoles expect to be in the running for the conference crown.

Taking an early lead, the Celery Feds were well in command during the entire contest yesterday.

and never once did the Tigers threaten to overcome the lead held by the Feds. At the end of the first quarter the Feds were leading by a score of 9 to 3 and holding this 6 point margin. The Feds led 16 to 10 at the half time. At the end of the third quarter, the Feds were leading by a score of 33 to 17.

Jim Riser turned in an excellent defensive performance in yesterday's game while "Red" Williams was probably the outstanding offensive performer. However, every man wearing the colors of SHS was in there fighting for a victory to offset Tuesday's defeat at the hands of the Panthers.

Billy Isbill, captain and star-player of the Tigers, turned in the most spectacular performance and was high scorer. Isbill's long shots from behind the free throw line were all that kept his teammates from taking a worse beating at the hands of the Celery Feds whose zone defense was invulnerable.

Scoring 15 points against the Celery Feds, Isbill brought to 31 the total of points scored against two opponents in games this week. He amassed 19 points in the game against the Clewwater Golden Tornadoes in Orlando Tuesday night.

## Reprieve Wins Featured Race At Longwood Kennel

Act Renfree sent home another winner in the feature race at the Sanford-Orlando Kennel Club last night when Reprieve broke out of her favorite eight box, took the lead at the first turn and won going away over Miss Fortune and Straggle Karl. The daughter of the great Act Andrews and Rita Lee had a hard struggle going down the backstretch to get away from Miss Fortune but she was equal to the task.

Speedy Karl had the one horse but couldn't make the grade in his return to the wars after a layoff of almost two full weeks. Reprieve paid \$12.50 for \$2.

Silver Hero was the winner of the ninth event with a great early start and a show down the home stretch that beat Full Time to the wire by a stride and a half.

Hasty Jim, once a hot box performer, showed he still had some gas left by taking the feature race over Alex Price, another former star, by four lengths. Alex took over the lead when Hasty and Rex Boy, the only combination, captured the early double and met \$16.20.

In the second race, the place was more sluttish paid \$11.50 to run second and \$18.60 to show, unusually high prices.

## Tony Galento To Meet Brescia In Newark Tonight

### Two Ton Brawler Favored To Win Over Argentine Opponent

NEWARK, N. J., Jan. 19. (AP)—Tony Galento, whose latest losses have left many a fight fan still unconvinced of the awful destruction the "tuff-ton" brawler says he could wreak on "hot ton, Joe Louis," hopes to prove tonight he's more than a comic windbag.

He's "breck out or shut up" for Tony when he meets Jorge Brescia, the upstart from down Argentina way, and it'll have to be a quick sleeping potion if Tony wants to talk any more of meeting this heavy-weight champ.

Galento, who is 4-1 in three to one favorite for the 15-round bout at the arena, threw out his herald shot last night, flailed his knee-like hands through the smoky air of his side street beer table in Orange, and would he could flatten Brescia in quicker time than Joe Louis would flatten Lavello Brescia in the 19th round.

Galento's first opponent, Sam that took the easy night, and the self-titled "Baton de St. Louis" who he smothered last night, at victory and he fourth mo receiving from hospital patients.

Brescia, 6 foot 2 and weighing 215, led another shot. He said he would take the team out of the Jersey water buffalo in two rounds with the potent right hand that destroyed Lou, and then he'll lay him out in any division.

Galento, who will probably get the rope with at all 30 rounds of best drama on his side, is a former contender for the world title. He has been a contender for the world title since he was a boy. He has been a contender for the world title since he was a boy.

## Oviedo Cagers Win Game From Seville

SEVILLE, Fla. (AP)—Oviedo High School cagers chalked up another victory Tuesday night by defeating the local high school 24 to 20.

Ed Murphy, with 14 points, led the Oviedo attack and Bobby and Parker were tied for most points with four points each. Murphy was high for Seville, registering eight points and was followed by Frank Provytt with six points who played at Walter Park Friday night.

NEW YORK (AP)—Edward G. Bremer, now president of the All American Yankers, made his first important revelation yesterday when he said, "One from a club will be continued on its way."

That statement banished four that Bremer might start leading the case of the Yankers' chain of clubs, including the death of the local support. It was well known in baseball that the Yankers had been sleeping.

FLINT, Mich. (AP)—The latest agitation for a change in basketball rules comes from Frank Colucci, a junior-high school coach here. He believes it is easier to commit a personal foul than to make the free throw and he has conceived "slay and minor basketball." Every time a foul is committed, one point is deducted from the offending team. All field goals do not count the same, the floor being scored off and baskets landing from one to five points, depending on the point from which they were shot.

### Billy Conn May Reach Top Flight In Boxing Circles

#### Irisher Gets In Lime-light With Triumph Over Fred Apostoli

By DILLON GRAHAM  
NEW YORK, Jan. 16. —(AP)— Billy Conn, a handsome young Irisher with a whip-snake left hand, may win the light-heavyweight championship the first time he tosses a punch in that class.

This overfed middleweight, up from the streets of a steel town, caught the fancy of Manhattan's fight fraternity by his stylish triumph over Fearless Freddy Apostoli.

The jab-and-hook critics tab the Pittsburgher as the finest prospect to come along in several years.

The quick-stabbing Irishman chose Apostoli, the world middleweight champion—by grace of the N. Y. boxing commission—as his rival for his Madison Square Garden debut. And won a close but clear 10-round decision.

Unless Apostoli sidetracks him over the 15-round route in their return match February 10 Conn probably will get a crack at the light-heavyweight title in April or May against Melio Bettina or Tiger Jack Fox, who squabble over that championship in February.

The 21-year-old Conn has outgrown the middleweight division, and had an 8-pound shade over Apostoli. He doesn't plan to tarry long among the light-heavies, either. Billy is cutting himself into the heavyweights.

He figures to take Bettina or Fox and when he adds another 20 pounds or so to his present 170 he may be a menace to Joe Louis. He and Lou Nova certainly are the best-looking youngsters of the day.

He is the speediest young bug fellow to show around here in ages. There's no bob or weave about Billy. He's a standup fighter. A boxer rather than a puncher.

Conn's left flashes like a cobra striking. His left jab is a thing of beauty but it doesn't carry the authority that Louis' does. It serves him well in keeping his foe off balance and out of range.

Conn sidles about, moving in and out and around and leaves himself a pretty hard target to locate.

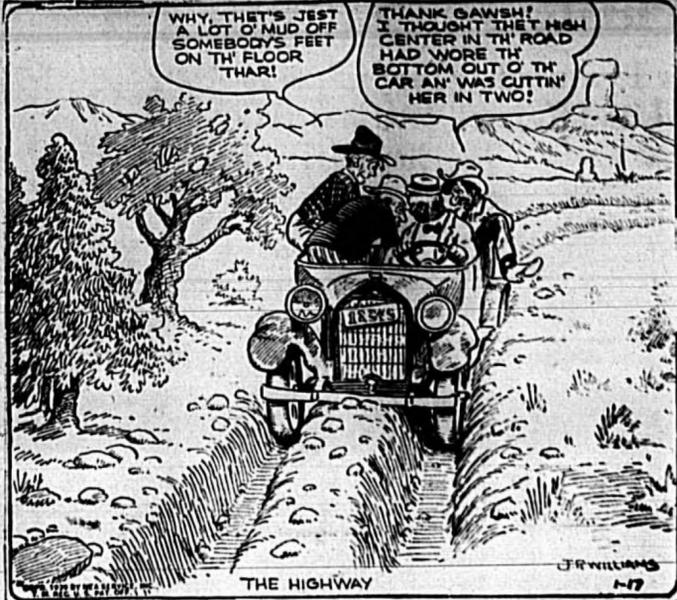

For his age and experience he is unusually ring-wise. He gave Apostoli a nifty boxing lesson. He hasn't learned to handle himself against the webbing. And he doesn't take punishment any too well downstairs. Billy has plenty of the old moxie and fights back strongly after an opponent's flurry.

Conn is a good two-fisted fighter, but doesn't carry much of a sleep-producing punch. He's had only seven knockouts in 50 fights since he started as a light-weight three years ago. But he won 34 by decision. In his brief career he's beaten six chaps who have worn the middleweight crown—Babe Rios, Vince Dundee, Teddy Yarros, Young Corbett, Solly Krieger and Apostoli.

Billy describes himself as a real Mick. His father, a steam-fitter, was born in Belfast. His mother was a McParland from County Down, Ireland.

Conn may find Apostoli a tougher customer at 15 pounds, but if he gets by Freddy again he'll probably grab the light-heavyweight crown (N. Y. state variety). Give him a year or so to put on more pounds and absorb more experience and he may trouble Joe Louis.

### Four Perfect Hands in One Bridge Deal

SOUTH BEND, Ind., Jan. 15.—(AP)— Four perfect bridge hands in a single deal was claimed by Jacob Lechner and his guests. The deck was shuffled and cut properly. When the cards were dealt each player is claimed to have had a perfect hand—all 13 cards in one suit. Lechner made a grand slam on a bid of seven spades. Statisticians have figured out that such a deal might occur once in about 200,000 years if the cards were dealt once a minute from now until then.
